MAY REDUCE THE WARDS COMMITTEE SUGGESTS

Board of Education Put Thru a Lot of Salary Increases - Will Issue \$62,000 Debentures.

HAMILTON, July 8.—(Special).—The finance committee sent a recommendation to the city council to reduce the number of wards. City Clerk Kent suggested four wards, reducing the number of aldermen from 21 to 12, and the widening of the Welland Canal. A grant of \$50 was made to the Hamilton Swimming Club for souvenirs for the August regatta.

'C. E.' RULES ST. PAUL BIG CONVENTION ON

25,000 Delegates and Visitors Are Present and Whole City is at Their Disposal

ST. PAUL, Minn., July 8.—(Special).—Thousands of delegates are attending the 24th international convention of Christian Endeavorers.

In his annual message Rev. Francis E. Clark, president of the united society, said that the mission of the society was to be the training school of the church, and urged endeavorers to strive for one million new members before 1911.

The trustees re-elected President Clark and all the other officers and trustees whose terms had expired.

Even the city lamp posts are welcoming the endeavorers of whom 15,000 as delegates and 10,000 more as alternates and guests of the city are estimated to be present. Each post on the downtown "ways of light" bears on the large white globe surmounting the pedestal the familiar "C. E." emblem of the society, while flags and banners decorate the places of meeting of delegates, who come from all the world.

The delegates represent 71,000 different societies, with a membership of 3,500,000. The meetings of the week number 190 and the speakers on the official program number 150.

In all the city parks, the park board has created magnificent floral tributes to the visitors and the flower beds bordering the streets are in full bloom.

The principal sessions are being held in the municipal auditorium, with a maximum seating capacity of 10,500. The other meetings require practically every church in the central portion of the city, in addition to which private halls and meeting places have been reserved.

The numerous special departments and exhibits are housed in the immense guards' armory, which, drill hall and parlors alike, is turned over to the visitors. State and provincial headquarters have been reserved at the various hotels and in downtown office buildings and halls.

The unique event of the week was the parade of thousands of endeavorers this evening at 5 o'clock, marching in divisions by states, provinces and foreign countries, to the steps and lawn of the new Minnesota State Capitol, where a song service was held. Willy Ham Jennings Bryan, an enthusiastic member of the society, addressed the delegates on behalf of the United States, and George Nichols, a member of parliament, spoke for England and Canada.

On Saturday evening at the auditorium notable men from Alaska, Japan, Africa, China, India, Mexico, England and the United States will address an immense camp fire.

An odd feature of the convention is an international Christian Endeavor Museum, to be opened to-morrow, comprising 600 exhibits from every country and nation in the world where Christian Endeavor work is being prosecuted.

CAMPUS MAKING GOOD AND AREA EXTENDING

What is Being Accomplished by Many of the Energetic Companies at Gowanda

The news that is being received from Gowanda by way of official reports from company engineers to their directors, through the press and other channels of information, indicates that the camp is meeting fully the high expectations of those who first predicted its possibilities. Many properties that have been developed quietly have been reported upon most favorably. These include the Burk-Remy, the O'Brien, Gowanda Mines Limited, the O'Kelly, the Welsh, Milne, the Silver Age, and a score of others. The reports are uniformly of progress, the work being marked by results that indicate returns later for money invested.

The public have been permitted to follow more closely the work on some of the big properties on which massive silver was exposed at the surface. The Bartlett has occupied a leading place and the progress made has been almost without precedent in the mining records of the silver country. Another splendid property, the Boyd-Gordon, drifting at the 75 foot level, has been reported in the report to the north and south. Another mine which will contribute to the stability of Gowanda is the Reeves-Doble, a wonderfully mineralized property. Silvers, Limited, and the Mann also rank very high in the estimates - a wonderfully fine property. To the north, the Bonnell and Blackburn have splendid discoveries, which indicate the extent of the field and its splendid outlook.

ARSENIC IN THE DRUGS

Result of Inland Revenue Expert Examination of Samples.

OTTAWA, July 8.—(Special).—The examination by the inland revenue department of a number of drugs, as found on the Canadian market, for the purpose of ascertaining whether any of these contained distinct traces of arsenic, shows that in most samples arsenic was found to be distinctly present in certain sulphates and particularly phosphate of soda.

The amounts were not so large as to be alarming, but were sufficient to make it impossible to regard the drugs as being pure. The samples of sulphate of magnesium, sulphate of soda and phosphate of soda examined showed 236 containing no arsenic, while 86 did.

STREET RAILWAY UNIFORMS

Grievance to Be Adjusted as a Matter of Bookkeeping.

The street railway men appear to be in a fair way to have an adjustment of the grievance respecting new uniforms. The trouble arose over the view of the management that new uniforms should be obtained by all for May 1. This conflicted with the agreement with the men.

The agreement stipulates that first year men pay full price; second year men half, and third year men be supplied with uniforms free of cost. The union's interpretation was that they should not be called upon to pay for a new uniform until they have worked a year, and subsequently on the same basis. Men, however, who are put on after May must not get the full benefit of the agreement if all uniforms had to be replenished on May 1.

It is now understood that the matter will be treated as one of bookkeeping, and each can be treated individually on a 12 month basis.

CITY TREATED UNFAIRLY SAY MANUFACTURERS

Railways Should See Folly of Reversing Further—J. S. McKinnon New President

The Toronto branch of the Canadian Manufacturers' Association held its annual meeting yesterday, and besides transacting routine business, took occasion to pass judgment on a number of matters which are now claiming public attention, praising this and deploring that line of action.

The railway companies received a liberal share of criticism from Chairman Frank A. Rolph in his retiring address, for tardiness with respect to the viaduct and new union station. Commendation was offered of the trunk sewer and filtration plant scheme, however, and improvement was endorsed, the Yonge street widening plan was approved, while the building and smoke by-laws were rated as being over severe and oppressive.

About one hundred members were present when the meeting opened at 2 o'clock with Mr. Rolph in the chair. There was no contest for the chairmanship and vice-chairmanship, which went to J. S. McKinnon of the S. F. McKinnon Company, Limited, and H. S. Gourlay, of Messrs. Gourlay, Winter & Leeming, respectively.

Extension of Boundaries. Mr. Rolph touched on the benefits which accrue from the various annexation of suburbs of the city and continued: "So far, this policy of extension has met with the endorsement of manufacturers, but in these days of giant enterprises there is a tendency to over emphasize magnitude, and would remind the city fathers that well to go slowly in the annexation of further territory."

Referring to expenditures for schools, the chairman said: "While I can heartily endorse Mayor Oliver's words in this regard, I cannot altogether agree with him in his criticisms of the increasing expenditures on our schools. No doubt the cost of our school system has increased very rapidly in recent years, but we must remember that the growth of our city in population has been even more rapid. Then too, the children of this generation are far from deploring the increased cost. I would endorse Mr. Rolph's statement that we are getting good value for our money."

"As manufacturers," said Mr. Rolph, "we are particularly gratified at the increased attention that has been given to technical education, and while the present facilities are entirely inadequate, we are glad to know that members of the board are at last fully seized with the true meaning and value of this kind of training and are now working unflinchingly for a technical school worthy of a great manufacturing city like Toronto. It is hoped that no short-sighted economy on the part of the city council will enable Montreal, which is already assured of a fine school, to excel us."

While the viaduct is still a matter of the future," said Mr. Rolph, "and a good part of Toronto's water front still resembles the ruins of Pompeii, there is no doubt that the execution of the viaduct scheme and the construction of our new station is much nearer than it was a few months ago. The altered attitude of the board and the elimination of grades on the water front submitted by the railways was at best only a partial and temporary solution of the difficulty and I am sure the refusal of the railway commission to consider it met with the approval of all our citizens. The fact that a new union station just as quickly as we can get them, and I can only hope that the administrators of our great railways will give the fullness of their attention to evade their obligations, in striving to press for further negotiations.

"The railways should realize by this time that the minds of the people of the City of Toronto are made up of this question. Surely it is high time that the railway commission should be made to feel the pulse of the city. The voluntary improvements which the railways are undertaking in connection with the cities of Montreal and Ottawa, costing them millions of money, is further proof that Toronto, with its dangerous level crossings, defaced water front, and abominable Union Station, should be treated with that consideration which is her unquestionable right."

Harbor improvement, which Mr. Rolph thought demanded immediate and earnest consideration from the civic administrators. "I may be optimistic," he said, "and most of you, I dare say, will call me visionary, when I make the remark that some day, I believe, we will see Toronto an ocean port."

Touching the Yonge street widening scheme, Mr. Rolph said: "The practical difficulties in the way were of course enormous, but not insuperable, and if the property owners on Yonge street approached the question in a spirit of reasonableness, making a self-sacrifice to-day for a sure return to-morrow, it could be accomplished."

Building By-law. Mr. Rolph said he desired to reiterate the remarks made by his predecessor a year ago, regarding the various city by-laws which unduly restricted manufacturing industries. "One of the worst of these is the building by-law, which I am told, is more severe than in any other city in North America. The manufacturers naturally do not want flimsy, unsafe buildings, but they do not see why Toronto should have more excessive restrictions than numerous cities in Canada and the United States. The smoke by-law is also a severe restriction on a number of factories the nature of whose operations makes some offensive smoke inevitable."

Labor Legislation. Another feature of civic legislation that called for comment was the wholesome tendency to initiate class legislation in the shape of restrictions on the hours of labor.

AFRAID OF BLACK HAND WOMAN ASKS FOR JAIL

Joseph Russo, Charged With Shooting, Pleads Self-Defence and Wife Asks Protection.

Tales of black hand outrage and threats have been slow to find credence in the minds of the Toronto police and public, but the scepticism of the former was rudely jolted in Joseph Russo, charged with shooting with intent to kill Joseph Mussalino, which he is fully corroborated by his wife, that the shooting arose out of the black hand threats of Russo and four other Italians.

Note and Comment

The Toronto baseball players requested the management to put on all the postponed games possible at the present juncture, as they were feeling in just that trim that would warrant possibly five wins in a row.

They call themselves Hustlers, and from all accounts Gansel is a worthy successor of Buckenberger and Hocheiser.

The game of golf is advancing locally in leaps and bounds and every tournament brings out some new and brilliant player like Ketter, who won the open at Toronto and Hamilton.

Whether on not Jim Jeffries will ever meet Jack Johnson is open to speculation. His enemies aver that he is only talking for show purposes and that when the present tour is over it will be back to the old-fashioned prizefighting.

Spectator writes: "In yesterday morning's issue of your valuable paper I saw a report of the All Saints and Etanona football game, and I might mention that a more one-sided and prejudiced account I never saw. By the way it reads you that the Etanona players were the chief offenders, but I can assure you such was not the case, as the All Saints' center-half thought he was quite in order in jumping upon an Etanona player's neck, but the latter did not seem to judge for himself and went to the fence. The report also stated that another All Saints' player was put off for asking the referee a question. The true facts are that the player called the referee a vile name and at the finish All Saints had nine men and Etanona ten."

Bronchos Get to Newton Early Sew Game Up in First Innings

Score Was 6 to 1, the Visitors Securing Four in the Initial Innings—Montreal, Jersey City and Providence Win—Toft Will Umpire To-day.

Over in Broncho Town the fans yell with glee when a southpaw goes on the rubber against the Bronchos, and when the smoke had cleared away four runs had been chalked up, which as Beecher, for the leaders, kept his hits well scattered, the Leafs being only able to score one, while the visitors notched two more, the game ending 6 to 1 in favor of the enemy.

Both teams lined up minus their first basemen, Gansel's valet and trainer for the Rochester team, having landed in Prescott yesterday morning instead of Toronto, with the manager's uniform, while smiling Ben House is out of the game for a few days with a stiff neck. Another absentee was Tom Kelly, the umpire, who arrived safely in Toronto with the players, but has not been heard since, also a rumor has it that Tom has gone fishing.

Hits were equally divided in the exhibition, but the fastest first, saw Rochester corral in four out of their half dozen, while Toronto had to be content in getting them one at a time, no clusters coming to them, as had fallen to the robots in the first. Some nice fielding was pulled off, Pattee and Holly working like clockwork around the middle cushion for the visitors, while Waddy and Mullen shared the honors for Toronto, some loose fielding was also done, but the locals' two mistakes proved more disastrous than the Bronchos' errors, as Waddy's costly leave in the first paving the way for the fireworks, while Mullen's miff gave them their one in the third.

Anderson started the slaughter for Rochester in the first by dropping a Texas over first. Holly fanned, while Pattee was given no less than three chances by Newton during the game, was passed. Maloney bunted safely, Newton throwing the sphere over Fricke's head in an effort to catch Anderson, but Anderson and Pattee scoring. Simmons singled, likewise Batch, the latter counting Maloney, while McDonald's infield out scored Simmons. Butler fanned.

A charity to Pattee followed by Maloney's safe bunt and Mullen's miff of Simmons. Texas scored on Maloney's error, while the sixth run was chalked up in the fourth, when Butler and Beecher were passed, Anderson forcing Beecher, but Holly's infield out and Etanona ten."

Toronto began well, Mullen the first batter, singled, but Waddy hit one right at Simmons for a double play, which threw the rest of the eighth. Leads showed no signs of getting to Beecher. In the eighth Mullen started with a single, and on Waddy's hit Simmons threw a wild pitch, Mullen scoring, while third and Waddy to second. Grimshaw knocked out a long fly to Batch, Mullen scoring, but Waddy clung to second, while Mullen scored, while the third and Waddy to second. Grimshaw knocked out a long fly to Batch, Mullen scoring, but Waddy clung to second, while Mullen scored, while the third and Waddy to second.

BELGIANS AGAIN WIN THE GRAND CHALLENGE

Defeat Jesus College, Cambridge, by Length in Fast Time - Stuart Wins Sculls

HENLEY, Eng., July 8.—The final of the Challenge Cup was rowed off today and won by the Club Nautique de Gand, Belgium, which defeated the Jesus College crew of Cambridge by a bare length in the first time of 7 minutes and 30 seconds.

The Belgians took the lead early in the race, and passed the mark some 100 yards in front of the Jesus College crew. The latter, however, made a strong effort to overtake the Belgians, but were unable to do so.

This is the third time in three years that the Belgians have won the Challenge Cup. They were defeated by the Jesus College crew in 1906 and 1907.

The Diamond Sculls, the second biggest event of the Henley Regatta, was won by A. A. Stuart of the Kingston Rowing Club, who defeated Randolph Lucas of the Toronto Rowing Club, easily.

Stuart led the race from the start, and was 100 yards in front of Lucas at the mile mark. He won by a margin of 10 seconds.

FAVORITES AT FORT ERIE

WIN FIVE OF SIX RACES

Rose Queen Easily Lands the Feature - Chief Kee Beat

Clém Beachy

FORT ERIE, July 8.—(Special.)—Five favorites and Chief Kee, second choice, that beat Clém Beachy, were the winners to-day under ideal racing conditions with a good attendance.

The handicap, over a distance of 6 furlongs, was the feature, with Hanbridge, Rose Queen and Royal Onyx, three of the fastest sprinters at the track, among the starters.

Clém Beachy, the odds-on choice, while there was a big play on Hanbridge and Royal Onyx, the other being taken only by the smaller bettors.

### FITZHERBERT EASILY WINS ADVANCE STAKES

Hilarious, Supported at 6 to 5, is Second But Never Dangerous - Powers on 4 Winners.

SHEEPSHEAD BAY, July 8.—Hildreth's Fitz Herbert proved himself the superior of J. R. Keene's Hilarious when he easily won the Advance Stakes, one mile and five-sixteenths, the race which was held at 6 to 5.

The race was over a good distance of ground under good weight and it practically settles all doubt as to which is the better colt.

Fitz Herbert was always odds-on choice. Hilarious had a strong following among the 1000 persons who were present and were well supported at 6 to 5.

Fayette was added at the last moment, but out no figure. Hilarious broke in front at the start, but before the field had gone twenty yards, Fitz Herbert raced into the lead. Both colts were under a pull and were allowed to race along by the length in the run down the back stretch, but at the far turn Powers let Fitz Herbert have his head and he bounded away and opened a gap of four lengths.

When the favorite swung into the last sixteenth half a dozen lengths ahead, the crowd began cheering and continued to cheer until he had flashed under the wire a winner by eight lengths. Hilarious was the same distance ahead of Fayette.

Jockey Powers rode four winners today. Jockey Crowley was suspended for the remainder of the meeting by the stewards for rough riding. His mount, Lilypond, in the first race was the cause of Julia Powell falling. Julia Powell was killed. Summary:

FIRST RACE—The Astoria, 7 furlongs, 2-year-olds and upward, 1/2 mile, 10 furlongs. Main course, \$400 added:

1. Fitz Herbert, 114, (Powers), 15 to 1, 5 to 1, and 7 to 10.

2. Adriatic, 108, (McCahey), 15 to 1, 8 to 5, and 7 to 10.

3. Imtilator, 108, (Dugan), 15 to 1, 8 to 5, and 7 to 10.

Time—1:28. Twilight, Queen Lily Pad, Queen Marguerite and Mobility also ran. Julia Powell fell and broke her leg.

SECOND RACE—The Equality, 3-year-olds and upward, one mile, \$500 added:

1. Arcote, 116, (Powers), 4 to 1, 4 to 5, and out.

2. Prince Cal, 110, (Scoville), 9 to 5, 2 to 5, and out.

3. Malthe, 119, (Page), even, 1 to 3, and out.

Time—1:39 1/2. Moonshine also ran. THIRD RACE—The Garland, 2-year-olds, selling, 6 furlongs, turf course, \$400 added:

1. Eileen Carroll, 94, (Glass), 6 to 1, 6 to 5, and out.

2. Evening Song, 94, (Greedy), 1 to 3, 1 to 6, and out.

3. Hiltop, 112, (Grand), 6 to 1, 6 to 5, and out.

Time—1:15. Dan Field and Inspired also ran.

FOURTH RACE—The Advance, 4-year-olds and up, guaranteed gross value \$2500, one mile and five-sixteenths in sprinting circles. The indications are from the number of enquiries received and from the conversation on the streets that this will be greeted by large crowds. During his stay here he will have a bout every afternoon and evening at Hart's Point with Sam Berger, who was born over the Don. The little colt that Jeffries is making through the country is merely a preliminary to his going into active training for his fight with Jack Johnson next fall. Those together as yet the big fellow does not spare his opponent in any way, and he has time for boxing but they both get somewhat vicious, as the round of the fight for too much of the rope that is looking to go on against Sam Berger Jeffries will also meet local men who are aspiring for fame in the ring. It is rumored that he may take on Bob Day, who went up against Jack Johnson last winter. Day is very fast and is recognized as a good fighter, so that if this is pulled off it should prove very interesting. In addition to the boxing bouts Jeffries will give exhibitions of bag punching and shadow fighting.
