

England, &c.

SUMMARY OF LATEST NEWS.

THE REVENUE.—The comparative statement of the Revenue just published is on the whole better than we had expected. The deficiency on the whole year, as compared with the preceding year, 1829, is £200,983. This, after the distress which prevailed so extensively, can excite no surprise, nor does it show any such diminution in the sources of the public wealth as to give cause for much anxiety. The Customs show an increase of 2280,140 on the Quarter, and £7,567 on the year. On the Excise the decrease is 237,653 for the quarter, and £1,267,010 for the year. The state of the Customs shows a revival in foreign trade, by which, in addition to the interest of the merchants, those of shipowners are benefited. The Excise, however, still indicates the existence of privation, and a contraction of consumption and of domestic expenditure.

KING WILLIAM.—It is now one hundred and twenty-eight years since a William was on the throne of Great Britain; the last was William the Third of Glorious Memory, husband of Queen Mary the Second, who ascended the throne on February 13, 1689, and reigned thirteen years, and twenty-three days, dying at the age of 52.

It is understood that her Majesty, Queen Adelaide, will hold a Drawing room in July, at St. James's Palace, which is expected to be the most brilliant that has ever been witnessed. From the length of time that has elapsed since the last Drawing-room, the number of the junior female branches of the nobility and gentry to be introduced into public on the occasion is immense. Mourning will be dispensed with, and the company will appear in dresses of English manufacture.

The Bishops of Rochester, Llandaff, Carlisle, Lincoln, Exeter, St. Asaph, and Chester, were presented to the King on Monday. His Majesty addressed them, and professed his attachment to the Protestant reformed religion, which at all times should receive his sanction and support. The Archbishop of Canterbury expressed his acknowledgments in a suitable reply.

We are gratified to learn that the Bishop of Chichester has waited upon his Royal Highness the Duke of Sussex, by desire of his late Majesty, with a farewell message of the most affectionate nature. The proposed meeting between the loyal brothers was deferred in consequence of the opinion expressed by his late Majesty's Physicians, that any agitating crisis might be fatal to the King.

It is said that should the Duke of Cumberland make his election for the Viceroyship of Hanover, the Duke of Cambridge, on his recall, goes to the Horse Guards. But it is conjectured that the Duke of Cumberland will remain in England, to watch over the interests of his son, as the Prince Leopold was recommended to do for the purpose of protecting those of his niece, Prince Leopold is to be created Duke of Kendal, with a seat in the cabinet.

At the Court at St. James's the 28th day of July, 1830; present the King's most Excellent Majesty in Council.—His Grace Bernard Edward, Duke of Norfolk, was, by His Majesty's command, sworn in one of His Majesty's Most Hon. Privy Council, and took his seat at the Board accordingly.

A second Supplement to the London Gazette Extraordinary of Sunday, the 27th of June, was published yesterday, June 28. It contains the usual Royal Proclamation for the encouragement of piety and virtue, and for the preventing and punishing of vice, profaneness, and immorality; a Proclamation requiring all persons, being in office of authority or government at the decease of the late King, to proceed in the execution of their respective duties.

His late Majesty's body will lie in state on Saturday the 10th, and Sunday the 11th, and will be buried on Monday, the 12th July. Her Majesty, Queen Adelaide, has appointed her Attorney and Solicitor General, His Majesty will be chief mourner at the funeral of the late King. A journey to Scotland, and a visit to Ireland, by their Majesty's, is talked of. The Duchess of Gloucester is the Queen's chief companion. The Lord Mayor held a common council on Monday, for the purpose of moving an address to the King, expressing their sense of that melancholy event, the demise of his late Majesty.

It is understood that His Majesty does not at present intend to elevate to the peerage any of his sons, with the exception of Col. George Fitzclarence, whose talents and services eminently entitle him to such a distinction.

Sir Herbert Taylor is Privy Purse; Gen. Macdonald will be the new Adjutant General; and Col. George Fitzclarence, Deputy Adjutant General, see General Macdonald.

An express has been forwarded to Col. Fox (Lord Holland's son, and the King's son-in-law) now placed on the Halifax station, to return forthwith.

It is the intention of His Majesty, at the Coronation, to confer the honor of a Viscount upon Admiral Sir Benjamin Halliwell Carey, K. C. B., of Bridlington Park and Drington, in the county of Surrey. Sir Edward Cockington will also, it is reported, be immediately elevated to the Peerage.

The elections in France proved. The liberals are strengthened and the ministry consequently weakened. By the choice of the colleges, the King remains firm; the nation seems determined. A crisis is expected.

The plan of the Algerines appears to have been high-judicious. The main body fell with impetuosity on the French lines, while other forces made the most vigorous efforts to cut off the main body from the division left at Sidi Ferach.

The Arabs are better marksmen than the French, and though the ground could not be favorable for regular cavalry, it was found advantageous to the irregular bands of the Bedouins, who are accustomed to it.

PORT-MOUTH, JULY 12. By the Camilla, Steamboat, from Havre, we learn that Algiers surrendered to the French Army on the 5th instant. It was reported the day had been killed. The City surrendered at discretion, without firing a gun. Twelve men of war were taken in the Harbour, and the crews of the two French Brigs were found alive, but in prison.

A general Naval and Military Promotion will take place the 21st instant—the promotion to the rank of Rear Admiral will extend to Captain F. L. Maitland. Sir J. Beresford will be appointed to the command at Sheerness.—Captain Fitzclarence, it is said, to the Royal George Yacht.

The Naval Uniform is to be altered. Red Collars and Cuffs are to be substituted for the present white facings.

Brevet Lieutenant-Colonels Cochrane, McDougall and Love, have been promoted to the rank of Major of Infantry.

The Tyne, 28, Captain Sir Richard Grant, was paid off at this port yesterday. It was the intention of the ship's company to have presented the Captain with a sword, but the circumstance having come to his knowledge about ten days previously to the ship's paying off, Sir Richard ordered the crew aft, and gave them his reasons for declining it, the principal of which was expressed in these words:—

"The first great principle I was taught, was never to join in, or countenance in any way, any determination having for its object the conduct of superiors; because, if the right to meet and approve of the conduct of those above us is granted, we shall have, as every man claims, an equal right to disapprove."—*Fortitude Papers.*

Gallantry.—Six actions against officers have been brought by young ladies in the West of England for breach of promise of marriage; some settled by compromise, and others by the knot being tied.

HOUSE OF COMMONS.

The following is an extract from the Speech of Sir George Murray, in the House of Commons, on the 25th of May last, on the motion made by Mr. Labouchere, relative to the Civil Government of Lower Canada:—

"With regard to my own conduct, and in explanation of the line of conduct which Government has lately pursued, I may mention the fact, that in Lower Canada three vacancies have occurred in the Legislative Council, and three gentlemen have been appointed to fill up those vacancies, who are in no way connected with the Government; and it is the intention of Government, whenever any vacancies shall occur in the Legislative Council, to nominate gentlemen from a consideration of their character and abilities, rather than from any other motives. For my part, I shall be most happy to recommend the introduction of such persons as the Government think calculated to be of advantage to the Legislature. If the Government shall hereafter point out to me any gentleman holding such a situation in the colony as shall entitle him to a seat in the Legislative Council, when a vacancy occurs I shall feel it my duty to recommend his appointment to the Crown. I entirely concur with the Honorable Member, that the Judges, with the exception of the Chief Justice, ought not to hold seats in the Legislative Council; but it must be considered that those Judges who now hold them are appointed for life, and cannot be removed. It is, however, the intention of Government not to appoint Judges in future to seats in the Legislative Council. When vacancies occur, it is not the intention of Government to appoint any Judge but the Chief Justice. In Upper Canada some judicial changes have recently taken place, and the recommendations of the Committee have, in every instance, been attended to. I merely mention this fact, to show the principles upon which the Government are disposed to act. I may also mention that a gentleman who was a member of the Legislative Council, upon being raised to the Bench, resigned his place at the Council Board.

A little attention to the circumstances under which this colony has been placed will, I think account for the difficulty which has been alluded to of forming a majority in Canada. That difficulty, I conceive, arises from two causes: First of all, there has been a period when the Government was not guided by those principles by which I hope it will be guided hereafter. I allude to the religious distinctions which existed, and which were recognized as a principle in the government of this country, and it is impossible to suppose that the painful effects of that principle did not reach the Colonies. There was also some feeling of jealousy towards the French inhabitants, which I hope is now at an end. I trust that a good feeling now exists on the part of the French inhabitants, and that it will be reciprocated on the part of the British. Some allusion has been made to the present Governor, Sir James Kempt, and I am most happy to join in the eulogistic passed upon him. To the ability and sound judgment he has shown in filling the office, the colony is greatly indebted, and the removal of many obstacles which stood in the way of its prosperity. Great benefit has been already derived from the course he has been enabled to carry into effect, and for the conciliatory manner in which he has acted.

The Honorable Gentleman has alluded to another topic—the independence of the Judges, which he proposes to effect by making them not removable at the King's pleasure, but holding their offices during good behavior, as in England. Now, Sir, this is a principle to which, in the abstract, I most cordially assent; the excellence of the general principle is not to be questioned. It appears to me, that under some particular circumstances, the practical effect of that principle may not be so advantageous as it would appear if taken abstractedly. Under all the circumstances, I am strongly of opinion that the abandonment by the Crown of the power of removing Judges in the colony, would be attended with very beneficial effects which some Honorable Gentlemen seem to anticipate. My experience in the department over which I now have the honor to preside, has confirmed me in that opinion. It is difficult to find competent persons to fill the offices of Judges, in this country. No doubt respectable persons are very often willing to accept such situations; but yet it is not without difficulty that persons are obtained of sufficient capacity, and who are sure to pursue such a line of conduct, as would make it quite secure that they should be permanently appointed to such offices. I admit, however, that the prerogative of the Crown should be exercised with great caution in the removal of Judges in the Colonies. It should never be done but for the purpose of relieving the colony. The only ground on which a Judge should be removed, is, I think, want of ability or want of character; but in all cases a great responsibility rests on the Government who recommend the removal of a Judge. For my own part, I should never undertake such a responsibility but upon the strongest possible grounds—ground, which, if called upon, I should be able to maintain were sufficient.

It has been thought, I know, that the Legislature in Canada is entirely dependent on the Government; this, however, is a mistake. In the discussions which lately took place the numbers were equal, divided—on supporting, and the other opposing the Government. On the Supply Bill of last year, Honorable Members signed a protest, four of whom had connections with the Government. I most object to these resolutions, because, if adopted by this House, they would cast a stigma on the Legislative Councils, at the same time that they imply a censure on the Government. What would be the effect of the resolution, calling upon the Crown to remove the Judges from the Councils, coming with the weight and authority with which it most comes from this House. I think the effect would be to stigmatize the Councils, and to censure the Government, which has done all in its power to carry into effect the recommendations of the Committee, on which those resolutions are founded. Upon those considerations, concerning that the Government in this instance is not deserving of censure, and that the principles contained in the resolutions have every necessary weight with the Government, I must oppose them.

The Sydney Gazette of January 26th (the forty-second anniversary of the foundation of New South Wales) states, that Dr. Wilson had just arrived from Swan River Settlement, and given a most satisfactory account of that place—a good deal of land had been brought into cultivation, and the public works were being carried on with great spirit.

The following was the average of the Sydney market at the date of the last accounts:—Wheat, per bushel, 2s. 6d.; maize, 4s. 6d.; 3s. 6d.; butter, 1s. per lb.; cheese, 9d.; eggs, per dozen, 3s.; ducks, 5s. per pair; fowls, 4s.; geese, 11s. 3d.; turkeys, 11s.; hay, per ton, 26 10s.; straw, per load, 17s.; bread, per four pound loaf, 2d. to 9d.; beef, 1s. 3d.; mutton, 1s. 5d.; pork, 2s. 6d.; veal, 3s. 1d. per stone.

IRELAND.

DUBLIN, June 30.—King William the Fourth was this day proclaimed with the usual formalities. The Officers of Arms, with the Sergeants at Arms and Trumpeters, proceeded from the Lower Castle Yard, accompanied by a squadron of dragoons, to Cork Hill, where the Lord Mayor, Aldermen, Sheriffs, and Commons attended. The procession then proceeded to the site of the Thobal, the Old Conn Market, Bridge Street, Richmond Bridge, Arran Quay, West Arran Street, into Smithfield, along King Street to the end of Chapel Street, down Great Britain Street, to the top of Sackville Street, thence by Carlisle Bridge to College Green, Nassau Street, and Dawson Street to the Mansion House, at which places (marked in italics) the proclamation was read. Three rounds of 21 guns each were fired in the Park during the procession.

AGITATION REFINED.—Agitation in Ireland is of the petty kind. We thought its ashes were cold, but a new fire has sprung up from them. Mr. Trantford at the other night in the House of Commons, and was followed by Mr. Doherty, but we fear without effect. Really Mr. O'Connell combines very opposite and curious qualities. He sometimes speaks and talks of his side; anon he denounces his friends to public vengeance; next he compliments the ministry in Parliament; and then raises the cry of insurrection against them in Ireland. What does he want? Is it that he cannot be an ass, or that he will not? If he be by nature and constitution an agitator, he is a sort of public justice, to rest upon his plans and to frighten children after they are detected. He calls wolf in sheep's clothing, but nobody will come by and by. He reminds us of *Molly Malony* at *Ashtley's*—she has but two remedies for all things—whiskey and a loaded pistol. Pathos and agitation are Mr. O'Connell's property. An argument is out of the question. If there be a new tax proposed for Ireland, he thinks that the very best mode of convincing ministers of its impolicy is to excite the people to turbulence; so that Ireland is to have a special law of her own settling legislative considerations. How much does Mr. O'Connell desire the Irish people, when he sees that they resort to measures of brute force upon every occasion of Parliamentary interference. But the run upon the chartered banks, lately recommended by that gentleman, and unfortunately acted upon to the serious inconvenience of thousands, is calculated to excite the people to turbulence; so that Ireland is to have a special law of her own settling legislative considerations. How much does Mr. O'Connell desire the Irish people, when he sees that they resort to measures of brute force upon every occasion of Parliamentary interference. But the run upon the chartered banks, lately recommended by that gentleman, and unfortunately acted upon to the serious inconvenience of thousands, is calculated to excite the people to turbulence; so that Ireland is to have a special law of her own settling legislative considerations. Poetry.

The following pleasant *deu d'oeuvre* appears in the Life of RICHARD HANCOCK, D. D. Lord Bishop of Calcutta, recently published by his widow. It serves to show that this extraordinary man could, as his commentator well observes, "write very good nonsense, which none but quick and clever men can do."

SYMPATHY.

A knight and a lady once met in a grove, While each was in quest of a fugitive love; A river ran mournfully murmuring by, And they wept in its waters for sympathy.

THE PROUD DUKE OF SOMERSET AND THE PAINTER.—His grace was himself a patron of art, and did not obtain his name without cause. He had employed James Seymour to paint the figures—artists say portraits—of his horses at Petworth, and condescended to sit with his humble namesake at table. One day at dinner his grace filled his glass, and saying with a suzer, "Cousin Seymour, your health, drink it off."

FEMALE STRIKE FOR WAGES.—On Wednesday last, the farmers of the parish of Ouseley, Wilts, agreed to reduce the wages of the female hay-makers from tenpence to ninepence per day; which caused general dissatisfaction among them, and some of them assembled next morning at the bell, and told the bell. Their numbers soon increased to between 60 and 70; when a resolution was passed, that they would not return to their work till the old price of tenpence per day should be obtained from their employers!

When Lord Thurlow was created a peer, the proper officer of the herald's College waited on him for his pedigree, that it might be presented to the House of Peers in the customary manner. Lord Thurlow's stern nature could never yield to any exposure of the meanness of his origin, for his father was an honest weaver at Norwich. The oft repeated question respecting his father was at last varied by the Herald to "What was your mother's name?" "I cannot tell" was the only surly reply, and this reply is now recorded in the House of Peers instead of a long pedigree.

It is stated that Sir Walter Scott will realize by one moiety of the Waverley Novels upwards of £200,000, and Health, the engraver, more than £200,000 by his illustrations of these Novels. At the last meeting of the London Medical Botanical Society, professor Houston mentioned the following extraordinary instance of the production of vegetable life.—A bulbous root, which was found in the hand of an Egyptian mummy in which situation it has very probably been more than two thousand years, germinated on being exposed to the atmosphere, though when discovered it was apparently in a state of perfect dryness. The root was subsequently put into the ground, where it grew with readiness and vigour.

CURE FOR THE TOOTH-ACHE.—At a recent meeting of the London Medical Society, Dr. Blake stated that the extraction or excision of teeth was unnecessary. He was enabled, he said, to cure the most desperate cases of tooth-ache (unless the disease was connected with rheumatism) by application of the following remedy to the diseased tooth: "Alum, reduced to an impalpable powder, two drachms; nitrous spirit of ether, seven drachms; mix, and apply them to the tooth."

NOTICE.

THE SUBSCRIBER respectfully informs the Public in general, that he has purchased the improvements belonging to the BREWERY in Carnarvon-street, Lower Cove, formerly belonging to Mr. JOHN MONAHAN, where he offers for sale the following BEERS—viz: BURTON ALE, MILL DO., PORTER and TABLE BEER. —ALSO— YEAST, GRAINS, and VINEGAR. Having employed an experienced Brewer, he flatters himself, that he will be able to give satisfaction to Customers, and respectfully solicits a share of public patronage. N. B.—Persons having Barley for sale, will please apply to Mr. JOHN MONAHAN, North Market Wharf, or to the Subscriber, Lower Cove. EWEN CAMERON, St. John, N. B. 25th January, 1830.

FOR SALE—By Private Bargain.

THE DWELLING HOUSE in King-street, presently occupied by the Subscriber, opposite the Market Inn. It contains three Stores, which rent for £100, besides accommodations for a large family, and the situation is considered inferior to none in the City for a Boarding House or Tavern.

—LITERWISE— A FARM at Black River, containing 300 Acres, of which about 15 acres are cleared.—The situation is capable of much improvement, and of easy access either by land or water. If these Properties are not sold by the middle of October, they will then be offered at Auction.—Apply to JAMES ROBERTSON, Watch-Maker, Prince Wm. Street, 13th July.

FOR SALE,

THAT Valuable Tract of LAND belonging to the Subscriber, known and distinguished as Lot No. 1, lying on the north side of the Great Road from Loch Lomond to Quebec, 18 miles from this city, and containing 500 acres, more or less. There is a considerable portion of Intervale which already yields some excellent Hay, and with small labour or expense a great portion of the Land may be rendered very productive. A fine Stream of Water runs through it, and as there is the prospect of a Grist and Saw Mill being soon raised upon the immediately adjoining property belonging to the Church of Scotland, the Lot is well worthy the attention of Acquirements. For further particulars application may be made to AGNES CAMPBELL, Prince William street.

N. B.—All Persons are hereby cautioned

under the highest penalties of the Law, against trespassing on the above Land by cutting Timber, Hay, or otherwise. St. John, April 27.

Provincial Vaccine Establishment.

Dr. BOYD will give attendance at his House in Prince William-street, every Tuesday and Friday, between the hours of 11 and 12 o'clock, for the purpose of Vaccinating the Poor—Gratis. July 6.
