JUST COME FROM SCHOOL.
From Mrs. Ellis's "Pirate Tales for the Young."
She has just come from school—and the pretty young thing
Six and seven years old, with her hair
And she sings for the maid to come to stairs and bring
The music she left in the hall.

She has just come from school—and she cannot tell how
People manage a home to piece.
She supposes that customers come in on the row,
And cheerlessly, in some way, from cheer.

She has just come from school—and she sits down to sing
When the household are busy below;
"Mother—dear mamma does all that sort of thing;
For she really enjoys it, you know."

She has just come from school—and her stockings to mend
On what an exquisite work she goes,
As she sits on her milliner where she must talk
About trimming her cap with a flower.

She has just come from school—and she thinks it so mean
Or money and clothes to take care of,
Why she does for the more to be seen, and can
What did she do to matter to her?

She has just come from school—and the bills are all paid,
Forty pounds from the last quarter day;
But she is very nervous, and she has her head
That she has her parents to pay!

She has just come from school—and her hopes are set
On the comfort she brings to her home;
She has just come from school—and she will not forget
What she owes them for long years to come.

A MAN WHO NEVER SAW A WOMAN.—From
"Visits to Monasteries in the Levant," a very entertaining
book of travels, by Robert Curzon, we make
the annexed extract.

"He was a magnificent looking man, of thirty
or thirty-five years of age, with large eyes,
and long black hair and beard. As we sat together
in the evening in the ancient room, by the light of
one dim brass lamp, he glided through
across his face and figure, I thought he would have
made an admirable study for Titian or Sebastien
del Piombo.

In the course of conversation, I
found that he had been born in a noble
house, having never been out of the peninsula of
Mount Athos. His parents, and most of the
inhabitants of the village where he was born—some
where in Roumelia, but his name or position he did
not know—had been massacred during some
revolt or disturbance. So he had been, but he
remembered nothing about it; he had been educated
in a school in this or that of the other monasteries,
and his whole life had been passed on the
Holy Mountain; and this, he said, was the case
with very many other monks. He did not remember
his mother, and did not seem quite sure that he
ever had one; he had never seen a woman, nor had
he any idea what sort of things women were, or
what they looked like. He asked me whether
they resembled the pictures of the Panagia, the
Holy Virgin, which hang in every church. Now
those who are conversant with the peculiar
representations of the Blessed Virgin in the
pictures of the Greek church, which are all exactly
alike, stiff, hard and dry, without any appearance
of life or emotion, will agree with me that they do
not afford a very favorable idea of the grace or
beauty of the fair sex; and that there was a difference
of appearance between black women, Circassians,
and those of other nations, which was, however,
difficult to describe to one who had never
seen a lady of any race. He listened with great
interest while I told him that all women were not
exactly like the pictures he had seen, but I did not
think it charitable to carry on the conversation farther,
although the poor monk seemed to have a
strong inclination to know more of that interesting
race of beings from whose society he had been so
entirely debarred. I often thought afterwards of
the singular lot of this manly and noble looking
monk; whether he is still a recluse, either in the
monastery or in his mountain fast, with his little
moss-grown chapel, as ancient as the days of Constantine;
or whether he has come out into the
world, and mingled in its pleasures and its cares."

The New Colonial District.—The new diocese
of Prince Rupert's Bay, which comprises the whole
of the territory which was granted to the Hudson's
Bay Company, by a Charter from Charles the
Second, in the year 1670. This territory extends
from the frontier of the United States, in North
Canada, to the limits of exploration northwards,
and from the western boundary of Canada to the
Pacific. Its extent is stated to be 370,000 square
miles, its population about 103,000. The Rev.
David Anderson, the new Bishop, is a graduate of
Exeter College, Oxford; he was formerly theological
tutor of St. Bee's Divinity College, Cambridge;
and has lately held the perpetual curacy of
All Saints, Derby. The endowment of the bishopric
of Prince Rupert's Bay is provided partly
by a bequest of Mr. James Leith, who passed
many years of his life there, and partly by a salary
allowed by the Hudson Bay Company to the Bishop
as chaplain to one of the churches in the settlement.

The new diocese of Victoria will comprise
the colony of Hong Kong, and all the chapels and
clergy of the Church of England in the various
parts of the Chinese sea. The Rev. George
Smith, D.D. Bishop of Victoria, was educated at
St. Mary's Hall, Oxford.—London Globe.

Touch Not.—Touch not the wine glass, young
man. It may be pleasant to sip, but it brings
sorrow and death. See the wrecks of humanity
around you. What brought them to that condition?
The social glass. Beware of you will be ruined.

Touch not the hand of the vicious. They may
extend it in pretended friendship, but their object
is to decoy you from your correct principles. Pass
by them and go on. If you can speak a word for
their benefit, do so, but later on, by any way
until you become entangled in the meshes of sin.

Touch not the money that belongs to another.—
Temptation to dishonesty may be severe; but resist
with all your strength. A few dimes, taken
from another, may prove your entire ruin.

Touch nothing that is vicious or impure. Be always
on your guard, and the God of Heaven will
preserve you.

Baked Plum Pudding.—Seven table spoonsful
of sifted Indian meal, three pints of milk, seven
eggs, half a pound of raisins, quarter of a pound of
sugar, a grated nutmeg, a table spoonful of cinnamon,
and half a tea-spoonful of salt. Scald the
milk, and while it is boiling stir in the meal—let it
cool; and put in the raisins, the salt and spice.
Beat the eggs well, and stir all together very hard.
Put in a buttered dish, and bake an hour and a
half, good heat.

Living Is.—"Get away, get away!" said an embarrassed
matron to a houseless girl, who was begging
a night's lodging, "this is no place for you.
Go away, for shame! this is a lying-in-hospital!"
"Och, indeed, this is a lying-in-hospital, and
very place for me, for I have been lying out these
three nights!"

"I say, Jim, are you going to see that man hang
to-morrow?" "I don't know, Dick; 'tis his neck
to be hung for?" "Vy, believe you, for 'fool stealing!"
"For stealing a 'orse?"—"not a 'fool!" "Vy,
didn't he buy one on trust, and never pay for him?"

GREAT ENGLISH REMEDY.

HALSEY'S
FOREST WINE!

Patented by the Faculty and Medical Faculty of
England, and extended the most
valuable Medicine of the age.

Medicines containing molasses or liquorice, like
the boasted Sarsaparilla, require many large bottles
to produce the slightest change in health. The
Forest Wine is altogether a different article. It
contains no syrups to give it consistency, but
acquires its excellent flavor and powerful medicinal
qualities from the vegetable plants of which
it is composed. The Forest Wine combines the
virtues of the

Wild Cherry, Dandelion, Yellow
Dock, and Sarsaparilla!

With other valuable Plants whose properties are
still more powerful.

Its high concentration renders it one of the most
efficient medicines ever known. Less than one
bottle restores the lingering patient from weakness,
debility, and sickness, to strong and vigorous
health. Every dose shows its good effects on the
constitution, and improves the state of the health.

The Forest Wine is recommended in the strongest
terms, for all complaints of the

Stomach, Liver, Kidneys, Nervous Disorders,
Bilious Affections, Dropsy, Dyspepsia, Loss of
Appetite, Headache, Excess of
Acid, and all Disorders arising
from BILIOUS and im-
pure habit of the system.

SAVED FROM DEATH!

Testimony of Mr. Nathan Mathews, a highly
respectable and wealthy citizen of Newark, N. J.

Dr. G. W. Halsey—I believe your Forest Wine
and Pills have been the means of saving my life.

When I commenced taking them, I laid at the
point of death, with Dropsy, Piles, and Asthma.
My physicians had given me over as past cure, and
my family had lost all hope of my recovery.—

While in this dreadful situation, your Forest Wine
and Pills were procured for me, and before I had
finished the first bottle of the Wine and box of
Pills, I experienced great relief, my head and
limbs, which were greatly swollen, became sensibly
reduced. Hopes of my recovery began now
to revive, and after continuing the use of your
medicines for about a month, the Dropsy and Asthma
were completely cured. The Dropsy, with
which my life was placed in such great danger,
was also nearly gone. I have continued the use
of your medicines until the present time, and I now
enjoy as perfect health as ever I did in my life,
although I am more than sixty years of age.

I ascribe my recovery entirely to the use of your
excellent medicines. Several of my neighbors
have also used them with similar success in obstinate
complaints, and I can highly recommend them
to the public. Yours respectfully,
Newark, Dec. 19, 1847. N. MATHEWS.

Great cure of Liver complaint of
Ten Years standing!

Dr. Halsey—Dear Sir, Having taken your Forest
Wine and Pills to remove a disease of the Liver, from
which I have suffered severely for upwards of ten years,
and having failed in every other mode of treatment,
I have been completely cured. My health, notwithstanding
all my labors, is now as good as ever. I
am enabled to take the Wine and Pills, I had recourse
to the best medical treatment, but continued to grow worse
to an alarming degree. Some of my friends, who were
kindly enough to give me your Forest Wine and Pills,
tried to persuade me from making
use of any advertised remedies; and I, doubt not,
but that there are hundreds who are suffering from
your excellent medicines, in consequence of the deception
and inefficiency of many advertised remedies put forth
by unprincipled men, in flagrant advertisement. But, what
is my cure, and I can highly recommend them to the public.
Yours respectfully,

am enabled to take the Wine and Pills, I had recourse
to the best medical treatment, but continued to grow worse
to an alarming degree. Some of my friends, who were
kindly enough to give me your Forest Wine and Pills,
tried to persuade me from making
use of any advertised remedies; and I, doubt not,
but that there are hundreds who are suffering from
your excellent medicines, in consequence of the deception
and inefficiency of many advertised remedies put forth
by unprincipled men, in flagrant advertisement. But, what
is my cure, and I can highly recommend them to the public.
Yours respectfully,
Newark, Dec. 19, 1847. N. MATHEWS.

Dr. Halsey—Dear Sir, Having taken your Forest
Wine and Pills to remove a disease of the Liver, from
which I have suffered severely for upwards of ten years,
and having failed in every other mode of treatment,
I have been completely cured. My health, notwithstanding
all my labors, is now as good as ever. I
am enabled to take the Wine and Pills, I had recourse
to the best medical treatment, but continued to grow worse
to an alarming degree. Some of my friends, who were

LOOKING GLASSES,

Portrait and Picture Frames, &c.

The subscriber having fitted up those Premises in
Greenwich Street, recently occupied by Mr. John Benson,
as a place for the sale of LOOKING GLASSES,
PICTURE FRAMES, and GILDING BUSINESS, in all
the styles, begs to call the attention of the friends
of the art to his extensive Stock of Rose Wood, Mahogany,
Walnut and Maple, and Plain and Fancy Gilt
WOODS, of every description, which he is prepared
to make up into FRAMES, in the most
reasonable terms for Cash.

Having had charge of the practical part of Mr. F. McDermott's
extensive Establishment for the last four years,
he flatters himself that he will be able to give satisfaction
to those who may favor him with their orders. An
inspection of specimens of various kinds of Plain and Ornate
Picture Frames, is respectfully solicited.

On Hand—An assortment of LOOKING GLASSES,
of various sizes, in Plain, Fancy and Gilt Frames, which
will be sold low for Cash. Glasses of all sizes and descriptions
made to order at the shortest notice, and will retain
their brilliancy for centuries, are invited to call and
examine a list of a Domestic Manufacturer, on Gold
or Silver Grounds.
