Thomas Jefferson "Father of the Declaration of Independence"

THIS noble Founder of the Democratic Party immortalized himself by writing our Declaration of Independence—the document which laid the foundations of Free Government, not only for our own beloved land, but for all the world. His countrymen twice elected him President and will always treasure his memory. Jefferson was the most ardent advocate of Universal Freedom of his time and it was his wisdom and foresight which brought about the Louisiana Purchase. Every drop of his Virginia blood loved Liberty, and because he wanted Americans to be assured of it for all time he championed with all his might and main the signing of the Constitution of the United States. None of the Fathers of the Republic were more far-seeing than he and none knew better than he that a mild brew of barley-malt and hops is truly a temperance drink. Hence, in 1816, he wrote President Madison: "A Captain Miller is about to settle in this country and establish a brewery. I wish to see this beverage become common." Jefferson lived, past his 83rd year and all his life he was a moderate user of light wines and barley brews. It is unimaginable that were he alive to-day he would vote otherwise than NO to proposed tyrannous prohibition laws. For 58 years Anheuser-Busch has been brewing the kind of honest barley and hop brews which Jefferson hoped in his day to see the National beverage of Americans. Exactly such a beer is BUDWEISER its quality, purity, mildness and exquisite flavor have won its way to the top. To-day 7500 people are daily required to meet the public demand. Its sales exceed any other beer by millions of bottles.

LABOR'S TESTING TIME.

With the fate of the Empire in the balance, 150,000 Welsh miners are out on strike today. Fortunately some of the leading union labor organizations have refused to sanction this strike, and many labor leaders are opposed to all strikes at this time.

This is not a time to be discussing labor questions. The first thing to be done is to beat down German militarism. After that has been accomplished, labor and capital will have an opportunity of settling their disputes, and the by-standers will see fair play.

The British Empire is the freest country in the world, but its people must prove that they are worthy of freedom. If they are not fit for it, they cannot retain it.

THE PESSIMISTS.

Now comes a London journalist who says the English newspapers are too ignorant concerning war matters but that their pessimism is without any solid basis. Recent information from Great Britain gives some ground for hoping that our rather severe London friend may be justified in at least a portion of his optimism.

ANYTHING TO GET BACK

In their eagerness and anxiety to repair their shattered fortunes, the Conservatives of Manitoba are in mood to promise anything that might give them another lease of power. But they overdo it. In provincial convention in Winnipeg last night they adopted a resolution pledging elimination of the spoils system in their province.

The large sum paid into the city treasury in taxes previous to the close of the disquiet period may mean that the war has thus far affected us little or that, in days of economy, none who could pay and save five per cent neglected to do so.

city's credit good where such things are made matters of note.

An article in another column, credited to the Toronto Globe, is not pleasant reading. Has it not a local application? When will young Canada seriously realize that the war is hers as well as the Motherland's?

Hamilton, Ont., is to discharge all unmarried laborers in its employ—some two hundred—and give married men their places. The idea is to show the young men that their places are in the ranks of the King's army.

Congratulations to Captain J. H. Parks. He is now entitled to the letters D. S. O. after his name, and the honor of the Distinguished Service Order was conferred on the St. John soldier by the King himself.

That Britain and her Allies are receiving war material purchased in the United States is due to the fact that the British navy has made it possible to transport cargoes safely.

Reports in connection with the carrying on of the work at the Home for Incubates are published today. This institution has proven a blessing indeed, worthy of the kindly thought of its founder, of the generous contributions from others and of the unselfish expenditure of time and talent by those who carry on the work and the management.

Harry K. Thaw has advanced another step toward freedom. A jury in New York yesterday declared the slayer of Sandford White sane. But the gates of Matteawan still are unlocked and the State has not given up its fight.

The following, from the Toronto Globe's military observer gives us some idea of Germany's terrific battle losses: "A flash of light is thrown upon Germany's war losses by a statement in a Bernese despatch giving the total Prussian casualties to July 1 as 1,504,223.

"Apart from an utter ignorance of military things, of strategy, of tactics, of geography, of the governance of men . . . they have the moral qualities of a good lance-corporal. They are unduly elated in success, and in ill-success, or, still worse, in times of suspense, they go to bits and start howling for someone's blood. They fill their wretched rags with letters from scared privates, novelists, and episcopal dignitaries to prove that the judgment of Lord Kitchener has been at fault in the highly technical matter of the supply of shells—a matter upon which there are perhaps twenty people in the United Kingdom capable of speaking, and not one of them the editor of a newspaper.

At a time when every military critic of honesty and rectitude is assuring us that victory is certain if we only have the courage and the patience for a waiting game, they yell and gibber because the Russian are driven out of Western Galicia, or because we ourselves have not yet walked over Western Germany with bands playing, at a time when every day increases the numerical disproportion in our favor, and when every trench affair from Switzerland to the sea is waiting the Germans in a ratio of almost two to one to the Allies, they moan because the only apparent geographical result which they can show their readers in the wretched little maps they print, is one of a few miles to or from. With no consciousness of the absurdity of such a prophecy they foretell a German re-advance of the sort mile by mile back to Berlin, and calculate how many years it will take to accomplish that advance! There is no enormity upon this earth of which they are incapable."

PARALYSED AND HELPLESS

Prominent Merchant Restored to Health by "Fruit-a-tives"

Bristol (N. B.), July 29th, 1914. "I had a stroke of Paralysis in March, and this left me unable to walk or help myself and the Constipation was terrible. Finally, I took 'Fruit-a-tives' for the Constipation. This fruit medicine gradually toned up the nerves and actually relieved the paralysis. By the use of 'Fruit-a-tives' I grew stronger until all the pain left me. I am now well and attend my store every day."

ALVA PHILLIPS. Fruit Juice is nature's own remedy and 'Fruit-a-tives' is made from fruit juices. 50c a box, 6 for \$2.50, trial size 25c. At dealers or sent on receipt of price by Fruit-a-tives Limited, Ottawa.

LIGHTER VEIN. An English beggar at a street corner was asking passers-by to "help the blind," when a man, to test him, gave him a smooth, bright piece of metal which needed close scrutiny to distinguish it from a sixpence, saying "Here is a sixpence, my man."

"A humanitarian. Now, run along and play." "Dad, what do they call a man who eats only vegetables?" "A vegetarian, son."

"And one who eats people?" "A humanitarian. Now, run along and play." "Brown—How'd you get along ridin' in them sleepin' cars when you took your trip?" "Jones—Got along all right, but I caught a colored fellow trying to sneak away with my boots an' made him bring 'em back."

When Ex-President Taft was on his transcontinental tour American flags and Taft pictures were in evidence everywhere. Usually the Taft pictures contained a word of welcome under them. Those who heard the president's laugh ring out will not soon forget the western city, directly under the barred window of the city lock-up, displaying Taft pictures with the legend "Welcome" on it.

The accused described themselves "Satanists," this being the title of the Anarchist group to which they belong, and which, under the leadership of a man named Anastasoff, was concerned in a conspiracy to assassinate the king two years ago.

A GERMAN DEPOT

Effect of Vast Imports of Food, Says Attorney-General—Prize Court Will Condemn Ships to Break up Traffic

London, July 15—On behalf of the crown, the attorney-general, Sir Edward Carson, has asked the Prize Court to condemn the Norwegian steamers Alfred Nobel, Kim, Sjomstjerne, Bjornson, and the Swedish steamer Fridland, which have been detained for some time by the British authorities. The attorney-general asserted that these vessels had been carrying absolute and conditional contraband from America intended for German consumption.

In opening the case Sir Edward said thirty-eight other vessels with similar cargoes had been captured. Copenhagen, he declared, had virtually been turned into a depot for feeding German troops. The cargoes in question consisted for the most part of farm produce, meat from the great American packing houses and lard, which is used extensively in Germany in place of butter. There were many cases of products used in the manufacture of German sausage. Altogether no less than 25,748,890 pounds of meat and meat products was included in the cargoes.

On the Kim and Fridland were quantities of rubber listed as grain.

BILLIE REEVE, PROVES POPULAR AT THE GEM

English Comedian Taking Front Rank in Picture World—"Elaine" Furnishes Further Thrills

Billie Reeve has rapidly taken his place in the front rank of motion picture comedians in vehicles provided by the Lubin studios. In every picture in which he has appeared he has aroused hearty laughter through his originality of manner and his grotesque appearance, while his actions in his several roles have been most amusing. Yesterday he was again at the Gem Theatre in another laugh-provoker, "Nearly A Prize-fighter," another of those farcical stories of the ringside in which he was heartily received. This feature together with the remainder of the bill, advertised elsewhere, will be repeated today.

There was also another chapter in two parts, in the popular serial "The Exploits of Elaine," this installment being entitled "The Frozen Safe," and showing the players in thrilling situations.

The Fattie Gazette furnished some excellent views of the Allies' soldiers in motion, intimate views of camp life, and while his actions in his several roles have been most amusing. Yesterday he was again at the Gem Theatre in another laugh-provoker, "Nearly A Prize-fighter," another of those farcical stories of the ringside in which he was heartily received. This feature together with the remainder of the bill, advertised elsewhere, will be repeated today.

KITCHENER WORKS

15 HOURS A DAY

Only Short Time at Meals—Has Slept Out of London Only Four Times Since War Began

London, June 27.—(Correspondence)—Although he has just passed his 65th birthday, Lord Kitchener shows no signs of breaking down under the 15-hour workday that he set for himself on taking charge of the War Office, at the beginning of hostilities. In this interval he has slept out of London only four times. He has a bed in the war building for emergencies and always lunches there.

Lord Kitchener's day begins at St. James Palace at seven in the morning. At 8-10 he spends ten or fifteen minutes at breakfast. Breakfast is followed by a walk in St. James park to the War Office, where he arrives at nine o'clock. Important despatches must first be cleared away. There are often meetings of the cabinet or of the high explosives or other committees to attend.

Lunch is a matter of fifteen minutes usually taken about 1.45. From then until 7.30 in the evening he works

steadily. If there is business of extreme urgency on hand he continues without dinner. Otherwise he dines and stays on duty until 11 p. m. when he retires to bed in his room in St. James Palace.

A somewhat rare relaxation of the War Lord is a drive into the country in his motor car. Ordinarily his walk in the park is his only exercise. He eats abstemiously, drinks nothing at meals and follows the king's example in regard to liquor. But he does enjoy a cigar after meals.

JAILED IN BERLIN

E. H. James Was Associated With Mylius, Libeler of King George

Berlin, July 15.—Edward Holton James, an American, who was arrested recently for alleged objectionable Socialist propaganda, but later was released through the efforts of James W. Gerard, the American ambassador, on condition that he leave the country, has returned to Berlin and again been placed in prison. This time James has declined to appeal to the ambassador for aid, declaring that such an appeal would be inconsistent with his views of government.

James, who graduated from Harvard in 1896, will be remembered in connection with the prosecution, in England in 1911, of Edward F. Mylius. Mylius was charged with having libeled King George by the publication of an article in the Liberator of Paris, of which James was the editor. Mylius was convicted and sentenced to a year's imprisonment. He served ten months and then went to the United States, where he was ordered deported. An appeal from this decision, in which James personally pleaded the case of Mylius before Secretary of Commerce and Labor Nagel at Washington, finally resulted in Mylius being permitted to enter the country.

OPTIMISM MARKS CROP REPORTS

C. P. R. Man Predicts Crop Of 240,000,000 Bushels

FARMER'S HALCYON DAYS

Will Have More Money to Spend This Fall Than Ever He Had Before

Winnipeg, July 14.—In an interview that breeds confidence and optimism George Bury vice-president of the Canadian Pacific Railway, told what he believes of the west and its prospects. He has just returned after a trip over Manitoba and Saskatchewan embracing a large territory. The trip was made for the purpose of seeing at first hand the crop conditions.

"I have just had the opportunity of discussing the commercial and agricultural situation with many western business men," said Mr. Bury. "I have neither seen nor heard anything to discourage. I have seen much to hearten and encourage."

"It is true we have a desperate war on our hands but the issue is not in doubt and the Empire will emerge from the conflict greater, stronger and more united than ever before. Many hearts are sore many homes darkened, but the finest tribute we can pay to those who have gone is to make their country worthy of the sacrifice. The war will be won, not by noisy jubilation nor by hysterical panic, but by steady, relentless prosecution of our task, by the energetic development and the full utilization of all the resources at our disposal. We must keep our brains clear and our hearts high."

"There is no need for so many clouded brows. Three years ago we were full of confidence and hope. Why? Because of our resources, particularly those of the soil. Have they been dissipated? No; on the contrary they are worth more to us than they were in 1912. The price of practically everything the farmer has to sell, is higher now than in 1912. More and more the farmer has gone in for raising stock and for mixed farming, the practice of which spells permanent prosperity. Everywhere you go he is gathering about him a few cattle and some hogs. No longer does he buy the meat for his household. He has it to sell on the hoof. No longer does he buy New Zealand butter. He has butter and cream to sell. When he wants a little fruit he no longer sends money to Washington and Oregon to pay for it. He buys it from his brother farmer in eastern Canada, the Okanagan and the Kootenays. All these things make for economic strength and soundness. We are approaching economic independence."

"Never was the western farmer more free of pressing debts than he is today. Loan and trust companies have thousands of dollars in their vaults in Win-

nipeg awaiting investment in farm mortgages and they cannot place it. The western farmer will have more money this fall with which to purchase necessities and luxuries than he ever had before. The wholesaler and the retail merchant will probably find that they have enormously underestimated the purchasing power of the farmer."

"In 1909 we were filled with enthusiasm over a crop of 144,000,000 bushels of wheat. This year we may have a hail-storm here, some cutworms there, some loss by gophers elsewhere. With a wheat field covering a large portion of a continent we must expect some local losses. But making all allowances I think we may look forward to a crop approaching 240,000,000 bushels of wheat for which a good average price will be obtained. The Canadian Pacific Railway will make the preparations on that basis and I venture to advise all other interests concerned that that figure is in view."

"With such a crop in sight, with a ready sale at good prices in view for the hundreds of thousands of hogs which will be ready for slaughter this fall, the war will not crush us. A century ago our fathers had just finished the task of crushing Napoleon. Considering our resources then and now that was a much mightier achievement than the crushing of Prussianism today. Victory is certain. When it comes it will bring to western Canada immigration of the best type and boundless prosperity. In the meantime the 1915 agricultural products will bring the west money enough to ransom an empire."

"Let us be worthy of ourselves; let us stand together as in former days and press onward as we did with ready confidence."

The Hundred Ways Which Don't End Corns

Perhaps you say—"I've tried and tried, but found nothing that ends a corn."

You might keep trying for years, Madam. There are a hundred ways which don't. Most of them are very much alike.

But remember this: There is one way which has removed 70 million corns. It is now removing half the corns that grow.

It's a plaster which contains a bit of wondrous wax. It ends the corn pain in a jiffy. It ends the corn itself in two days. It gently loosens the corn until it comes out without any pain or soreness.

When you merely pare corns—When you use some folder—Bear this in mind. There are folks all around you—users of Blue-jay—who never suffer corns. You are wronging yourself when you fail to do what they do.

GERMANS BEGIN TO TALK OF PEACE

Editor Thinks Neither Side Can Win

WHAT SOCIALISTS DESIRE

General Disarmament as Security Against Another Great War Through International Agreement

Berlin, July 14.—The internal troubles of the Social Democrats are causing increasing interest, particularly are they likely to result in sensational developments when the Reichstag meets. Nobody ventures a prophecy as to whether the party schism will be permanent even after the war, or whether it marks the passing of a healthy phase, because it is provoking a nation-wide discussion of officially forbidden topics.

The two principal factors differ not in the ends desired, but as to the means of achieving the mutual goal, which is a permanent peace guaranteeing future military, political and economic superiority for Germany, at the earliest moment practicable. The differences of a few points are interestingly brought out in interviews with representatives of the warring factions by Dr. Ernest Meyer, editor of the Vorwaerts, who with Haase, Liebknecht and Ledebour, stands with the so-called minority in the Socialist party in the Reichstag, and Dr. Edouard Davi, a member of the Reichstag, who is playing a prominent part in the political decisions of the Reichstag and speaks for the Socialist majority there.

Dr. Meyer, who, with his associates, has been bitterly attacked at being unpatriotic and helping Germany's enemies, speaking for himself, emphasized the point that the enemy need extract no comfort from the Socialist "minority views." He said that the peace talk most emphatically did not indicate an internal weakening; on the contrary, it was proof of the present strength of Germany's position. He said:

"The very fact that the German armies are standing on the enemy's soil leads us to believe the time is ripe for the throwing down of arms by bringing about peace. We do not desire to see Germany crushed or beaten, but we do believe that the time has come now and has been ripe for some months to end the war, since Germany has shown that she cannot possibly be beaten. We represent the Socialist minority in the Reichstag, but whether our views are those of only a minority throughout the nation we have no way of telling at the present time. We certainly have a strong following in the large cities. We are against any annexation and believe in her impregnable position. While we are irrevocably opposed to annexation on the continent, we are also opposed to colonial annexation on principle. We would not oppose a military or colonial convention with Belgium in the

peace negotiations. We would oppose this only if it were imposed on Belgium by force of arms. We do not, however, desire a return to the status quo ante bellum. We desire general disarmament as security against another disastrous war through far-reaching international agreements. We believe that neither side can be beaten, hence the time has come to end the war before its heavy cost mounts higher and to stop the heavy loss of life. Although our efforts promise no great success at present, we shall not relax our desire for freedom of discussion in the press and in our meetings. We also insist on the right to criticize the government freely, which we believe will bring good results." Dr. Meyer again emphasizes that the militant majority want peace with safety and insists that Germany cannot begin too soon to seek to bring it about.

Encouraging reports were submitted last evening at the semi-annual meeting of New Brunswick Lodge, Knights of Pythias, when officers were elected for the ensuing term. Those chosen were: O. R. Black, chancellor commander; T. E. Robinson, vice-chancellor; A. S. Belys, president; H. L. Alexander, master of work; R. A. Christie, master-at-arms; W. E. Campbell, inner guard, and A. H. Starkey, outer guard.

THIRTY PATIENTS NOW UNDER CARE.

wiring and fixtures, \$667.90; hot water heater, \$167.75, a total of \$1,229.60. A new arrangement entered into with the insurance company divides our premiums so that \$110 will be payable each year instead of \$300 each third year. In connection with the extra expenditures of the year the fact is worthy of note that through the generosity of some of the board members the major portion of the heaviest expenditure, \$667.90 for electric wiring and fixtures, was contributed.

The extraordinary expenditures of the year, while unduly heavy, were necessary and the satisfactory results obtained are their justification. Generally the condition of the building is now in excellent condition, but in an institution as large and as important as the home there are ways things to be done about buildings and grounds. Each year will bring its own extraordinary expenses, as a few generous friends of the home should ever have in mind. A comparison of the receipts and expenditures of the year with those of the year before show an increase of \$1,242.70 in receipts, a particularly gratifying result considering the loss of \$800 in interest on our Chicago and Eastern Illinois bonds. Fortunately the revenue from paying patients exceeded that of 1914 by \$1,856.68, an increase, eloquent in itself of public appreciation of the splendid accommodation the home affords. The expenses were \$888.08 greater than last year and the balance on hand, \$1,184.64, is slightly better than that with which we started the year.

Respectfully submitted,
F. B. ELLIS.

The Auditor.
St. John, N. B., 10th July, 1915.
To the President and Members of the Board Home for Incapacitated Ladies and Gentlemen.

I have made an audit of the receipts and disbursements for the year ending July 10, 1915, as kept by your treasurer, and found proper vouchers and accounting for the funds of your institution.

I have also checked over the bonds stock certificates and mortgages in the Bank of Nova Scotia vault and found them to correspond with list attached to treasurer's report, amounting with cash on hand to \$11,964.1.

Respectfully submitted,
(Signed) P. F. BLANCHET C. A., Auditor.

Women's Auxiliary.
Although the past year has been one of great and unprecedented effort in so many patriotic directions, the work of the Women's Auxiliary of the Home for Incapacitated has been carried on without let or hindrance, with the usual zealous endeavor to assist the board of management in promoting the spiritual welfare, as well as the bodily comfort of the patients within its walls. Each Sunday afternoon Divine service has been arranged for by your committee, and attended by some of its members. A debt of gratitude is owing to the clergy who conduct these services so faithfully, as well as to the choir, whose music is so great a solace and pleasure in the Home.

Every patient is visited weekly by a lady of the committee, thus supplementing the visits of the members of the board, the result of their system of kindly care and interest being reported and entered on the minutes at the regular monthly meeting of the Ladies' Aid. A number of small pleasures have been planned and carried out during the year. In June, July, August and September monthly treats of ice cream and cake were provided; at Thanksgiving a feast of fruit, cake, celery and cheese for the festival of Christmas large trees were decked with suitable gifts for all, and fruit and sweets were generously bestowed, while beautiful holiday fare adorned the Christmas and New Year's dinners. At Easter-time also, flowering plants, fruits, eggs cake and boxes of candy brightened the daily life of the home.

Thanks are extended to all whose gracious kindness and generosity assisted the Women's Auxiliary in the work of helping to further the humane purposes of this noble charity.

Respectfully submitted,
LILIAN HAZEN,
Secretary to Committee.
