LIBEL CASE OVER CANCER TREATMENT

Deep Interest in London Case Which Brings Out Sensational Testimony

AGED PHYSICIAN SUES

Doctor Bell Against Superintendent of Imperial Cancer Research Fund—The Knife and Other Methods in Dealing With Dread Disease

(Canadian Press)

New York, June 14—A London cable says—

Owing to sensational testimony yesterday on the cause and cure of cancer, in a libel suit brought by Doctor Robert Bell, an aged Mayfair physician, against Doctor E. A. Ashford, superintendent of the Imperial Cancer Research Fund, physicians and the public generally are deeply interested in the case.

Doctor Bell gave up the use of the knife in cancer cases in 1894 and the present section grows out of an article on "Cancer, Credibility and Quackery," written by Doctor Ashford and published in the British Medical Journal. The article contained statements which Doctor Bell contended practically accused him of being a quack and an impostor and of practicing.

In the treatment of cancer now Doctor Bell prescribes a simple diet, his theory being that the cause of the disease may be traced to impurity of the blood. Doctor Ashford maintains that this treatment is ineffective and that the theory is erroneous but disclaims any prejudice against experimentation with new methods of curing the dread disease.

Under cross-examination Doctor Ashford admitted that many eminent surgeons agreed that the blood is not the cause of cancer. He said that since 1890, in England and Wales, cancer deaths among males increased from 200 to 800 and among females, from 600 to 1,000 in a million. He said there were 20,000 deaths a year from the disease, and that the great increase in cases of cancer of the stomach and intestines. He said that at present treatment was unwise and dangerous according to Professor Joch, it produced blindness.

In reply to a question whether or not during the period in which the number of cancer cases had been doubled, the importation of meat had not been doubled, Doctor Ashford replied that he believed that to be the case.

Doctor Warlow, director of the cancer research department of Middlesex hospital testified that his department had tried effect of thyroid extract, X-ray, herbals, applications, serum and radium water, which he explained, is water containing radium or containing gas given off by radium, and found none of them curative, he effected that the knife alone, as a rule, had succeeded.

Doctor James Mayhew, London police surgeon, said that, acting on Doctor Bell's advice, he used atoxal in three cases and that each case ended in death, although the tumors vanished with marvelous rapidity. He said he had not used atoxal since.

WEATHER MAN BIDS US WAIT WHILE WET FOR SUMMER

Toronto, Ont., June 14—The weather man at the observatory here holds out little hope for real summer weather at least for a day or two and for several days in the immediate future he predicts rainy conditions.

Asked if the present prolonged winter were not rather unprecedented, the weather doctor said that, although the summer was somewhat backward, the temperature for June thus far, in spite of prevailing opinions to the contrary, has hovered very close to the normal average. He believed there was still hope of hot weather before sleighing started again.

A GOOD RECORD

Henry Towne Retires From City School Staff After Long Service

Henry Towne, principal of Centennial school, whose resignation was accepted by the Board of School Trustees last evening to take effect at the end of the term, has a record as a school master which few teachers can equal. He has been teaching for thirty-eight years, thirty-two of which have been spent in St. John.

Mr. Towne first joined the local staff in 1880, and when the Centennial school, which was built in 1883, was opened, he assumed charge as principal, and has retained the same post ever since. During these years he has earned the respect and esteem of all those with whom he has come in contact and the hundreds of boys who have profited by his tuition, many of them now among the city's most prominent citizens, will retain pleasant memories of the time they spent in Mr. Towne's room.

FREDERICTON WOMAN'S SISTER IS HELD UP BY BOSTON OFFICIALS

Husband Was to Meet Her on Arrival From Scotland, But He Has Not Shown Up

(Special to Times)

Boston, June 14—Mrs. Esther McDonald and two pretty little girls have been detained at the immigration station at Long Wharf for the last ten days because the husband and father, Norman McDonald, who was to meet them on their arrival here, has mysteriously disappeared. The trio came from Scotland on the S. S. Franconia. The British consul has the case in hand.

MacDonald had been employed at Thompson's lumber camp in Ontario, Me. He left there two weeks ago, saying that he was going to Boston to meet his family. Colonel Billings, immigration commissioner, says the mother and children will be detained until McDonald is found or other arrangements made. Mrs. McDonald has a sister living in Fredericton and if the husband is not found she will be sent there, she has plenty of money to pay her way.

SELLING TO INTERDICT IS NORTH END CHARGE

Liquor Case Against Robt. Farrell is Begun in Police Court

The case against Robert Farrell, proprietor of a saloon in Simonds street charged with selling liquor to an interdict, was up for hearing in the police court this morning. The defendant was not present, but the case was gone on with. Sergeant Kilpatrick told of serving the summons on Farrell. The defendant told him that it would be impossible for him to get to court on account of a sore foot.

William Fitzpatrick in his evidence said he knew a Dennis Murphy, and knew that the latter had been selling liquor to Farrell and when he went to the latter's place he was told by the proprietor to get out. Farrell had told him that it was not his place to ask every man that went into his saloon whether he was an interdict or not.

The case was adjourned until this afternoon when Murphy will be called to give evidence.

TODAY'S RIVER TRIP FOR BRITISH VISITORS

The party of British business men left St. John this morning at 8:30 o'clock, sailing from Indiantown on the steamer May Queen for Fredericton. During the trip they are the guests of the provincial government. The fine weather will partly compensate for the rain yesterday and will give them an opportunity to see the river at its best. Luncheon was to be served on board.

The party on the steamer numbered nearly 200 and included members of the city and provincial governments, the board of trade and other prominent citizens. A large delegation arrived from Fredericton last night to accompany the visitors up the river today. The steamer was to make no stops on the route and was due in Fredericton about two or three o'clock this afternoon.

An attractive and useful souvenir of the trip was supplied by the government in the form of an illustrated booklet containing interesting information about the places passed on the trip and some references to the history of the river. The booklet was prepared by Rev. Dr. W. O. Raymond.

POLICE COURT MATTERS

Frederick O'Keefe, charged with being drunk, and also with threatening to cut Harry Donahue with a knife in John Weatherhead's stable in Union street last night was arraigned in the police court this morning and, after pleading not guilty, was remanded to jail. Two prisoners charged with drunkenness were fined \$8 or two months in jail, while another was remanded on the same charge. One \$8 deposit was forfeited.

James Walsh, arrested on Wednesday on drunkenness charge, and also charged with stealing a watch from Walter Irvine's store in Mill street, was brought into court. He pleaded ignorance of any theft and was remanded until tomorrow morning at nine o'clock.

It is likely that the trial of Frederick Percy Wright, charged with stealing \$81 from a shoe shining stand in Union street, will be begun tomorrow.

H. Horton & Son were fined \$2 for obstructing the sidewalk on the Market Square with three boxes.

Chicago, Ill., June 14—Our yesterday's guess was a good one. Colonel Theodore Roosevelt will not come to Chicago until Monday, if he comes then. The mass meeting in the auditorium theatre has been postponed until Monday night, when

the case against Robert Farrell, proprietor of a saloon in Simonds street charged with selling liquor to an interdict, was up for hearing in the police court this morning. P. E. GIRL IS KILLED BY FALL ON A HAY RAKE

One Prong Entered Thigh. Another Pierced Arm and Head. Too, Was Injured—Father Too to Be Told

Charlottetown, P. E. I., June 14—Daisy Hooper, a twelve year old girl of North Milton, while playing in the barn loft fell through and landed on a hay rake.

One of the prongs of the rake entered her thigh and another pierced her arm and head. Her father, who was in the barn, saw her fall and rushed to her aid. He found her lying on the hay, her head on the ground. He called for a doctor and a nurse, but they were unable to do much for her. She died within an hour.

ROOSEVELT CAMP SPLIT IN TWO

The Roosevelt camp is split into two sections, the neck or nothing progressive who would sacrifice the republican party and build up a new one around the Roosevelt, and the conservative who would save the party but leadedly the candidate by regular methods, falling that, have the electoral college vote for him even if he is not the nominee of the Chicago convention.

The make haste slowly crowd seems to be getting its way so far. It is they who have said to Colonel Roosevelt "not yet, but soon." But while the colonel holds his fire, his headquarters staff bickers worse than Napoleon's field marshals ever did.

According to the colonel's old line campaigner, much is to be gained by his remaining aloof until the last minute. If he came today or tomorrow he might put an edge on the rivalry between the Roosevelt and Stubs' for the vice-presidential nomination and turn their wrath on Judge Ben Lindsey, who is to be Roosevelt's choice. Roosevelt has a flock of state government in his train, each one of whom regards himself as the special pet, and it would not do to set them by the ears.

Not are the safe and sound campaigners in favor of a rump convention for Roosevelt. They think it can all be done decently and in order at the regular meeting in the Coliseum. If it cannot, they are prepared at the worst to switch Teddy and consider a dark horse, just as was done in the Blaine-trust deadlock when Garfield stepped in and snatched the flower of victory from what looked like the battle of defeat. Indeed the case is said to be on all fours with the Roosevelt situation because Grant was also a candidate for a third term.

A JUMBLE OF MEN AND PRINCIPLE

Their idea is to save the party, the grand republican party which has braved the battle and the breeze and the hot air for fifty-eight years. It would be too bad to see it go to smash now just when the country needs somebody with experience to regulate the swelling democracy. Over in Canada we would expect a genuine doped-in-the-wool progressive to put principle before party, but the solemn truth is that there are progressives in Roosevelt's camp who think more of party than they do of Roosevelt. Also there are progressives like Cummins and Lafollette who think less of Roosevelt than they do of their principles. That they do not all get together and plug for Roosevelt not only goes to show how those progressive love another but also how much old party affiliations cloud their minds.

They are not prepared to admit that any one, even if it be Roosevelt, can be bigger than the party. And in Roosevelt's case they are not far wrong, because that party is certainly no bigger than his leadership support, which includes Boss Barne's of New York; Bob Plunk of Pittsburgh; and Steel Trust Perkins. The fact is that a great deal of rot about righteousness in the great deal of rot about righteousness in the (Continued on page 7, sixth column).

HALIFAX POLICE IN BATTLE WITH YANKEE SAILORS

Seven Arrest Two Tars and Then Find They Have Wrong Men—A Tidy Row

(Special to Times)

Halifax, N. S., June 14—It took seven policemen to arrest two sailors from the United States warship Birmingham last night. They got the wrong men after all, and the police may have some trouble over it. A Birmingham sailor and a civilian were making a disturbance when two American sailors ran up to their comrades' assistance. The police arrested the newcomers in the after a hard fight and the original disturbers of the peace escaped. The police were very angry, and one of the Americans complained in the head with the policeman's baton. A young man in an adjoining house raised a window and cried "Shame." The police then entered the place and arrested him. They allege as a reason that they thought one of the sailors was badly hurt in the head.

The American sailors were: Wallace Carroll, who was struck on the head with a baton, and James Cunningham, a third sailor, James Owen, was subsequently arrested.

In the investigations of different types of cars the output of an American company has been decided upon as the most satisfactory, and the equipment for the new service, when it is inaugurated, will probably be purchased in the United States.

The motive power, passenger, and baggage accommodation are all contained in the one car, making their operation very economical and it would be possible to maintain a half hour service on this section of the line. Before the new service is introduced, however, the double track of the line will have to be completed. This work has been carried as far as Coldbrook, and it is hoped to complete the double tracks to Rothesay by next summer.

When Speech is Golden

By BUTH CAMERON

There is an old-fashioned rule of courtesy that it is not good manners to comment, even very favorably, upon the clothing, household furnishings and other possessions of one's acquaintances, unless the intimacy is extremely close. Now, we certainly suffer from disregarding some of the old-fashioned rulings, but it seems to me that this is one which is more honored in the breach than the observance, and am happy to say that it is growing no more and more common to honor it in that way.

A brand new acquaintance was calling on me the other day. We talked of the usual and kindred topics suitable for brand new acquaintances. Had she obeyed the old-time ruling in regard to personal comment, we should probably have gotten no closer to each other. But fortunately she disobeyed. I had noticed that she was eyeing a quaint old-fashioned secretary, which is the pride of my heart, and finally she burst into vocal admiration. From this pleasant comment we promptly proceeded to a general discussion of antique furniture, of which we are both ardent admirers, and instead of parting mere acquaintances, we laid the foundation of a pleasant friendship upon our mutual ardor for things colonial.

I believe that this rule of silence was supposed to be especially strict in regard to commenting upon any good before one, and, of course, to speak of each article of food and concentrate the attention upon the table rather than on the feast of reason and the flow of speech. And what is going on above it, is bad breeding. But to speak out one's enjoyment of some particular dish, to tell the hostess when dessert is to appreciate a bit of good cooking, even to flatter by asking for recipes—surely this is kindness to one's hostess. And what is real courtesy, after all, but kindness crystallized into form?

On going to pay her first visit to a newly married friend, an older woman was met at the door by the new husband whom she had seen but once or twice before, with a pleasant greeting and then the frankly admiring comment: "And what a pretty hat!" She is a woman of thorough breeding, but instead of being offended, she received the greeting in the spirit in which it was intended and answered promptly: "And what a nice young man to tell me so."

This is the spirit of the day, and, to my mind, it is a very pleasant spirit. To be sure, such comment may be carried to excess, or it may be uttered in so manner that it is too abrupt or familiar to be pleasing. Avoid these excesses and you may speak out your compliments on almost any subject, and not be, in the least, ill bred.

Daily Hints For the Cook

PLUM PUDDING.
 One-half pound flour, one-half pound chopped suet, one-half pound bread crumbs, one-half pound raisins, one egg, milk and sugar. Mix the flour, crumbs and a little sugar together, rub in the suet, add raisins and egg and milk to make a very thick batter. Put into a well-buttered dish, and bake in good oven for two hours.

QUEEN OF PUDDINGS
 One pint of stale bread crumbs, soaked one hour in one quart of milk, four egg yolks (whites for top) beaten, one-fourth cup of sugar, one teaspoonful of salt, and one tablespoonful of softened butter. Stir into the eggs and then stir all into the bread and milk. Bake one hour in a buttered pudding dish. Add one cup raisins before you bake it. After baking spread layer of jam over the top, then a meringue of the whites and brown slightly.

SAGO PUDDING.
 One pudding which is a great favorite with many is made of sago and apples. The sago may be soaked all night or cooked in the morning and poured over the apples. Remember that sago increases about four times in cooking. Butter a baking dish and almost fill with tart cooking apples pared, cored and quartered. Add sugar and sprinkle the top with ground cinnamon. Add enough water to keep the pudding cooking nicely and bake slowly. Serve with cream and sugar.

WOMEN COLONELS OF 19 GERMAN REGIMENTS

Berlin, June 14—With the appointment of Princess August Wilhelm, the consort of the Kaiser's fourth son, to the colonelcy of the 11th Regiment of Dragoons, the number of women colonels in the German army has risen to nineteen. The German Empress and the Grand Duchess of Mecklenburg-Schwerin each command a German regiment. The Kaiser's four sisters are chiefs of infantry regiments, his three daughters-in-law each lead a dragon regiment, while his only daughter, Princess Victoria Louise, is second-in-command of a regiment of hussars.

The Queens of England, Holland, and Sweden, the Duchess of Connaught, and the Empress of Russia are among the foreign ladies "commanding" German regiments.

LA MARQUISE DE FONTENOY
 Sir Sidney Lee and His Biography of King Edward—He Began Life as Solomon Lazarus—The Earl-dom of Marchmont
 (Copyright, 1912, by the Brentwood Company)

It is not the first time that Sir Sidney Lee has been accused of "gaucherie and tactlessness" in letting his enthusiasm as a professional biographer cause him to embody in his words that, which in the world's opinion, he ought to have carefully left out.

When some years ago Queen Victoria chose Sir Theodore Martin as the biographer of her beloved husband, the Prince Consort, handing him her diaries as aids in the task, he, of course was careful to write the book in such a style as would please Her Majesty, omitting a good deal of interesting matter, that he did not think, however, she would like published. From these rejected items, Sir Theodore prepared a most interesting volume, for private consumption only.

When the queen died, Sidney Lee wrote what was considered her most notable biography. But when the book came out, Sir Theodore Martin became exceedingly indignant to find that much more had been taken from his privately printed book than had been intended for public information, and that the royal family had been willing to permit anyone to publish.

Had it not been for King Edward and other influential personages intervening, this quarrel would have given rise to a lawsuit of international importance. As it was, such a stir was made over the affair, that the publishers of Sidney Lee's

KEEP WELL THIS SPRING

Many people seem to regard sickness as something that must be endured at one time or another. They have got accustomed to drag themselves about in misery for weeks every spring, with no idea that all this can as well be avoided by using a true tonic, such as Dr. Chase's Nerve Food.

Why not change all this and be strong and well and happy this spring? Dr. Chase's Nerve Food will help you wonderfully.

The long, cold winter has left your system badly run down. You are sure to suffer these bad effects in the spring unless you afford nature the assistance which is found in Dr. Chase's Nerve Food.

This food cure supplies the elements from which pure, rich blood is formed. The nervous system is nourished back to health and vigor and new energy and vitality is felt in every part of the body.

"Life of the Queen," called in the entire balance of the first edition, and issued a second edition, with the passage that were objected to by the royal family and by Sir Theodore Martin eliminated.

Sidney Lee, who was lecturing in the United States at the time of the issue of the first edition, and its suppression, returned to England and insisted that the book should be reissued in its original form, with the expurgated portions restored.

In speaking of Sir Sidney Lee as a "professional biographer," I, of course, have in mind the fact that he is the editor of the Dictionary of National Biography, and that among his works are "A Life of William Shakespeare," "Lord Herbert of Chesham's Autobiography," "Great Englishmen of the Sixteenth Century," etc.

By way of a little personal biography of Sir Sidney himself, it might be stated that he is matriculated with honors at the Uni-

WOMEN'S VIGOROUS BATTLE AGAINST HIGH PRICE OF MEAT

Fifty Williamsburg Housewives Try to Wreck Shops — Police Get Bites and Scratches

New York, June 13—While a woman's committee, which was organized to urge retail butchers on the east side of Manhattan to close their shops as a blow against wholesalers and high prices, announced yesterday that violence would not be favored. The situation in Brooklyn, where the committee is now at work, was not so peaceful. Fifty housewives in the Williamsburg section descended upon and tried to wreck two retail shops. Police reserves scattered the mob after the women had ruined quantities of meat with kerolene. Several policemen bore scratches and teeth marks on their faces and hands. No arrests were made. The housewives drove out customers and scattered contents of market baskets in the gutters.

Further efforts to induce butchers to close shops will be made today. Picketing by housewives is planned, but no violence, it is declared, will be contemplated.

CURED OF PILES AFTER 20 YEARS

The government ticket as constituted is a fairly strong one but not as strong as a judicious selection of candidates for nomination might have made.

—St. John Globe.

Many people have got the impression that piles can only be cured by a surgical operation, with all the attendant suffering, risk and expense. There is an easier way: by using Dr. Chase's Ointment. No risk, no danger and little expense is attached to this treatment, and results are highly satisfactory.

Mr. John M. Bates, gardener, St. Laurent, Quec, writes: "I had piles for twenty years, and tried all kinds of ointments and medicines, but they did me no good. It was getting worse and suffering more from the dreadful itching all the time. I used three boxes of Dr. Chase's Ointment, and today I am perfectly cured. There has not been a sign of the old trouble for six months, and it leaves me in perfect health today, whereas I was in agony for about twenty years. I can highly recommend Dr. Chase's Ointment as a positive cure for piles."

The amalgamation of the families came about through the marriage of Diana, daughter of the third Earl of Marchmont and Baron Polwarth, to Walter Scott, of Haverley, their son, Hugh, becoming the sixth Baron Polwarth. While the present Lord Polwarth is only the eighth baron of the line and the thirteenth Laird of Haverley, he is the twenty-third in lineal descent from Utried FitzScott, who flourished in the reign of David I., of Scotland, who received that peerage "with remainder to the heirs male of his body, and the heirs of the said heirs." Later on he

was advanced to the Earldom of Marchmont, "with remainder to heirs male whatsoever." By reason of these limitations of excessibility when the third earl died, the legacy of Polwarth went to his grand-daughter, Anne, while his earldom became dormant, awaiting the discovery of a "heir male," his two sons having predeceased him, and his brothers having acted upon this course, he relinquished both his surname and his given name, assuming the cognomen of Sidney Lee.

Now he is in hot water with the press, for his memoir of Edward VII, published in the supplement to the Dictionary of National Biography, which has excited the indignation of the English people generally, besides calling down the vehement denunciations of the British press, for representing King Edward as an amiable, easy-going, pleasure lover, rather than as a shrewd politician, and an international peace-maker of infinite tact.

He has so far incurred the displeasure of King George, who added the "Sir" to Sidney's name last year, that His Majesty regards the affair as disloyalty, amounting almost to lese majeste; and has taken steps to have a biography of King Edward written, according to the real truth, and which will contain not only extracts from state documents, but also private letters and papers, disproving what Sir Sidney Lee has written on the subject.

The Earldom of Marchmont became dormant (if not extinct) at the death of the third earl, or January 10, 1794, and has not since been revived. Some ten or twelve years ago, Mrs. Goodridge, of Paignton, in Devonshire, commenced proceedings before the committee of privileges of the House of Lords, but does not seem to have met with any success so far, in calling the peerage once more into existence. I presume that the claimant, who is not wealthy, became discouraged at the delay and expense incident to all proceedings before that most conservative, slow moving, and costly of tribunals.

Although the Earldom of Marchmont is dormant, the Baroncy of Polwarth, with which it is formerly associated, is still in existence, and not at all likely to lapse, the present (eighth) baron, being the eighth of a good-sized family, while his son and heir also has a number of children.

The first Baron Polwarth was Sir Patrick Home, lord chancellor of Scotland, who received that peerage "with remainder to the heirs male of his body, and the heirs of the said heirs." Later on he

WHY MR. COPP SHOULD WIN
The speakers on the government side in this campaign studiously avoid discussion of the platform put forward by Mr. Copp. They appear to think that by denouncing the old government and asserting that their own defeat would mean the return of the old government to power they may be able to deceive the people of the province and secure another term for themselves.

ON TO VICTORY
Mr. Copp and the opposition party in general have every reason to be satisfied with the results of nomination day, and the general outlook. A month ago the government party jeered at the mere suggestion of anything like organized or effective opposition, but today they are opposed in every constituency by strong men; and not only is Premier Fleming hurrying from place to place in a frantic endeavor to rally his forces, but Mr. Hazen has been begged to come to their aid and make speeches, and suspend certain federal regulations until after the elections, and throw the weight of federal government influence into the balance in the effort to save the Fleming administration.

UPHEAVAL THREATENS PORTUGAL

Early Revolt Against the Republic Government Seems To Be Coming

LIKELY BRING CHANGE

Royalists Said to Be in Good Shape for Ousting Government and Restoring Manuel to the Throne—Republic Declared a Failure

Lisbon, June 14—All Portugal at the present moment is a seething volcano of political corruption, petty tyranny, monarchical conspiracies, and active preparations for an early revolt against the republican government, which, it is conceded by many of its erstwhile supporters, has utterly failed in its purpose.

Every promise made by the republican leaders as justification for the change from the old regime has either been broken or ignored. Instead of reduced taxation and better conditions generally, the Portuguese people find that taxes have been practically doubled, with a consequent increase in the cost of living, and personal liberty is dependent upon the personal prowess of the subject.

The revenues raised by the republican government have been spent chiefly in establishing a more or less disguised form of military rule, with large detachments of troops stationed at every point where opposition is even suspected. Many of the wise ones in Lisbon do not hesitate to say that a good share of the money wrung from the people by extra taxation has found its way into the pockets of some of the political leaders, especially those connected with the Carbonario, a secret organization that has brought about a terrible reign of terror, the tyranny of which is most keenly felt in the country districts, where the protection of life and property has little, if any, government aid. Emboldened, perhaps, by their success in creating widespread fear of the Carbonarios throughout the interior, the leaders of the Carbonario have lately taken to aggressive action in both Oporto and Lisbon.

Only the other day Doctor Jose d'Almeida, one of the strongest members of the provisional government and presumably still a staunch republican in principle, was served with notice that he would be arrested at the earliest opportunity for daring to criticize the parliamentary attitude of Alfonso Costa, the reputed chief of the Carbonario.

Whether he be the terrorist chief or not, this same Alfonso Costa, "hiphero" as he is known by his friends, is today the most powerful man in the republic—an uncrowned king, who rules with a rod of iron. His power is chiefly that of a deadly fear of the Carbonario, and it matters little who is chief. He holds the office, but he dictates the action of the cabinet ministers. Even the parliament is more or less under the Costa influence, and the only measure that has been passed are appropriation bills or some new propaganda against the church.

During a meeting of the senate the other evening Alfonso Costa was seen walking backwards and forwards between the ministers' benches and the president's rostrum, full monarch of all he surveyed. With his hands buried deep in his coat pockets and an expression of weighty thought upon his swarthy face, the little lawyer calmly passed now and then to whisper an order in the hearing ear of a senator, and then pass on. Everything moved like well-oiled machinery, and the bill was soon passed.

Doctor Vasconcelos, the prime minister, is not believed to be a corrupt man—only inexperienced and weak. That is why he was chosen by the Costistas, although his sole knowledge of public life had been gleaned from a comparatively small practice as a family doctor. That the unhappy premier realizes the helplessness and hopelessness of his position is made apparent by his repeated offers to resign and retire to private life, but his resignation has just as often been refused, because no man can be found who is willing to replace him. Alfonso Costa, ambitious as he is, is too wise to go so far at the present time. It would only increase his responsibilities without adding to his power.

Fear is probably behind the refusal of the others to accept the portfolio, because all Portugal knows that a royalist revolt with a view to restoring King Manuel to the throne is imminent at any hour. It is in the very air, and even the absolute stranger quickly senses the pulsing flow of excitement and expectancy beneath the placid surface of affairs throughout the city.

Only the retail shops seem to be doing any business. The hotels are almost empty, and the tourist invasion is smaller than it has been for many years, while the wholesale firms and shipping houses have been struck by a blight of stagnation. They are all waiting for the revolution and the restoration of settled conditions. Just now they hesitate to ship or receive goods for fear that they will become confiscated or lost in transit during an uprising of the monarchists.

MANCHESTER ROBERTSON ALLISON, LTD.

THE SHEEP INDUSTRY IN THE DOMINION

A New Appointment is Made to The Live Stock Branch at Ottawa

An announcement has already been made regarding the action of the minister in making provision for a special sale, during the months of September and October, next, of pure bred rams and grade ewes in the maritime provinces and in British Columbia. It has been ascertained that these provinces have need, not only of selected sires, but also of female stock to serve as the foundation of grade flocks for the production of marketable lambs. The co-operation of the Dominion Sheep Breeders' Association has been secured to assist in this work and a grant of \$15,000 has been made direct to the association, to be expended for this purpose, in accordance with certain conditions imposed by the minister. The responsibility for the expenditure of the grant has been delegated to a special committee of the association, in conjunction with the secretary, A. P. Westervelt, and the members of this committee, acting in association with officers of the live stock branch, are at present engaged in selecting the most suitable centres for the holding of the proposed sales. They are also personally interviewing the farmers of these districts with the view of securing their interest and co-operation in connection with the sale of the sheep.

Subsequent to the distribution of selected breeding stock in different localities, it is proposed that the appointment of one or more experienced sheep men shall be arranged for, who shall spend their time in visiting the farms of those to whom the sheep are sold, in order that the latter may have the benefit of competent advice regarding the management of their flocks, the care of wool, marketing of the clip and disposal of their lamb crop. As the result of this policy, it is believed that these centres will ultimately become distributing points for high-class breeding stock and industrial agencies in bringing about an extension of sheep keeping in the different provinces.

In consequence of the work initiated by the members of the sheep commission, the minister is now in receipt, from time to time, of requests for special assistance in connection with certain problems relating to both the sheep and wool industries. The final disbanding of the commission has made it necessary that definite provision be made for the effective administration of the policy to which the department is now committed to further the development of the keeping of sheep in Canada. The minister has, therefore, considered it advisable to arrange for the appointment of a sheep expert to assume charge, under the live stock commissioner of the work, to be undertaken in furtherance of this policy.

He has been fortunate in securing for this position T. R. Arkell, professor of animal husbandry in the New Hampshire Agricultural College. Mr. Arkell is the son of Henry Arkell, of Arkell, Ont., the well-known breeder of Oxford Down sheep. He received his primary education at the Guelph Collegiate Institute and is a graduate of the Ontario Agricultural College. His early training has made him familiar with every phase of the breeding and management of sheep, and since his appointment to the position of professor of animal husbandry in the New Hampshire College, he has devoted himself especially to experimental work in feeding and breeding and has made a study, under very advantageous conditions, of problems relating to the production and

marketing of wool. He has organized, amongst the farmers of New Hampshire, a co-operative scheme for the sale of their wool clip, and, in addition, has undertaken considerable extension work which has given him very valuable experience. He also has commenced immediately to provide for illustration exhibits of wool, to be sent to the various agricultural colleges and winter fair boards. A comprehensive effort to systematize and improve the methods employed in connection with the production and sale of wool will, undoubtedly, greatly assist in encouraging sheep farmers throughout the Dominion and in stimulating a wider interest in the business. This work, therefore, will receive Mr. Arkell's first attention and will constitute the primary step in an active and energetic propaganda which it is hoped may promote the organization of a prosperous and progressive industry.

The St. John Globe is not a Liberal newspaper, as the Tory press asserts. The Globe is receiving patronage from two Tory governments, and fighting in the Tory ranks in this campaign.

See that there was no chance to win the decision the Bostonian made strenuous efforts to send over the stop producer in the last two rounds of the fray. Rodgers let him do all the fighting in the first half of the 15th, but a little before the bell rang he repaid his opponent for all the latter had given him.

LOCAL NEWS

TO PETEWAHA. An advance party of artillerymen from Digby, N. S., and vicinity, came to the city last evening and left today on the Ocean Limited for Petewawa for their annual camp training.

BOY FOUND. Richard Dorman, a five year old boy was found wandering about on Long Wharf yesterday afternoon by the police. He was later called for by his father who resides in City Road.

TO BISLEY. Bowman Maggs arrived in St. John this week from Vancouver and will sail for England in about a week with the Canadian Bisley team, which he is a member. Mr. Maggs' last year record as a shot was particularly good and his New Brunswick friends' best wishes will accompany him across the water.

RECORD BEEF PRICE. The price of beef in St. John at present has advanced to such an extent that it is now at a record, thirteen cents being asked in the wholesale market for western beef and from twelve to twelve and a half for local. The market has been decidedly firm for quite a while and there is reported little prospect of the price being lower for some time. Veal and pork are also very high.

COUNCIL LIKELY ON MONDAY. No meeting of the common council will be held this week, owing to the visit of the British business men. Yesterday was the regular time for the meeting, but the commissioners were all busy entertaining the visitors, and today Mayor Brink and Commissioner Schofield accompanied them up river. It is probable that a special meeting of the council will be held Monday afternoon to clear up matters awaiting attention.

POLICE REPORTS. George Chisholm has been reported by the police for obstructing the sidewalk in Carmarthen street yesterday by allowing a horse to stand on it for ten minutes. Joseph Comiskey and Michael May have been reported for selling books in the city without a license. Phyllis Tilley, James Mullaly, Julian Legere and Frederick Gerard have been reported for working in the city without a license. Edward Walsh has been reported for scattering hay and straw about in Chatham street yesterday.

CAMP SUSSEX POST OFFICE. No word has been received from Postmaster Sears concerning the establishment of a field post office at Camp Sussex this year, as has been the case for the last two years. He was formerly advised several weeks ahead of time. It is thought, because she having had no advice in the matter thus far, that the men to take charge of the mail distribution at the camp this year will be from the Halifax post-office. The reason for this is probably that the militia headquarters have been changed, and owing to this the appointment of the men might be made in the sister city.

AND THERE'S NO ADMISSION FEE. The period of agonizing sacrifice for the actors of the Gay-Musician Co. will begin at half-past six this evening on the theatre grounds, but it is difficult to tell when it will end. The news writers on the local papers have a winning combination, at least they think so, but these "blatant" are often over-estimated, and so that the opening of the conflict will be awaited with interest, while the closing will be awaited with anything that happens to be within reach. Thirty boys are being advertised for by Manager Short of the Theatre to carry lemons and root for the actors, just for the sake of encouragement if nothing else. A motion picture machine will take the scenes, and news will be later delivered showing some of the more famous of the players in action. Music will probably be furnished by Cooke orchestra, and an emergency hospital is being erected just outside the gates.

SUDDEN DEATH

Young Matron Passes Away at Home in Erin Street

Mrs. Ethel Margaret McLeod, aged twenty-two, died suddenly at the home of her mother, Mrs. Crosby, 9 1/2 Erin street this morning at eleven o'clock. She had been in very poor health for about a year, but death came unexpectedly. Mrs. McLeod had been around the house as usual this morning, but at eleven o'clock was seized with a hemorrhage and died in about ten minutes. Dr. Frank Fleming was summoned, but when he reached the house death had already occurred. It was caused by the bursting of a blood vessel. Mrs. McLeod is survived by two little children, and her mother. Coroner Berryman was notified. It is not likely that any inquest will be held.

WEDDINGS

Doherty-Breen. A very pretty wedding was solemnized in St. Leo's church, Goshen, Kings county, on June 2, by Rev. Francis P. Lockary, when Ella, daughter of the late Edward and Mrs. Bridget Breen, became the wife of Francis Doherty of Galway, Albert county. The bride was becomingly gowned in white and wore a bridal veil with orange blossoms, and carried a white prayer book. She was attended by her cousin, Miss Sadie Genevieve Breen, of St. John, who wore a pretty dress of brown silk and large black picture hat with ostrich plumes. Dennis Dorman was best man. The popularity of bride and groom was testified by the large gathering at the church. After a bountiful repast at the home of the bride, Mr. and Mrs. Doherty left for their future home in Albert county.

Disasted in Bay of Fundy Last Night, But Makes Westport—All Well Aboard

A Digby special to The Times says:—The St. John pilot boat Howard D. Troop was disasted in the Bay of Fundy last night. She was sighted from the Brier Island signal station early this morning and the life saving crew went to her assistance. She arrived in Westport, however, at ten o'clock this morning under her own power, the pilot boat being an auxiliary schooner. All on board are reported uninjured, though having gone through a rough experience.

AUTOMOBILE DAY IN POLICE COURT

Several Cases Taken up and a Warning is Given

Today "automobile day" in the police court, and no less than five automobile owners were called upon to answer violations of the law. John H. Marr, reported for not having his auto properly registered, produced his license and the case was allowed to stand. He explained that he had applied for his license when reported, but that it had been shipped to Woodstock in mistake.

William Riley, reported for driving his car in the city without a license, explained to the court that he expected his license down from Fredericton any day now. He was allowed to go on condition that he produce his license on Monday morning.

William Foster, reported for driving his car at a fast rate around the corner of Main street and Douglas avenue on June 8, and also for not sounding his horn, was fined \$5. The fine was allowed to stand. A case against J. A. Papeley & Co., reported for not having a license for their big motor truck, and also for driving a car through the streets without a rear lamp, was allowed to stand for two weeks, as Mr. Papeley is out of the city. A. C. Smalley, reported for not sounding his auto horn while driving his car around the corner of Union street and Chatham streets on May 21, told the court that he was not in the car at the time, but that it was a chauffeur who was driving. The matter was dropped.

His Honor, in commenting on the cases, said that in future the automobile owners would have to comply fully with the law or else would have to pay a fine from \$50 to \$100. The fine was allowed to stand. A case against J. A. PERJURY CHARGE FOLLOWS ON RECENT LIQUOR LAW CASE

The police last night arrested Frank McDermott, a middle-aged man, on the charge of perjury. The charge, it is understood, has been made by Louis Fader, proprietor of a restaurant in Pond street. Several months ago Fader was fined \$100 or three months in jail for selling liquor to a "licensee." The conviction was made on the strength of evidence given by McDermott, who swore that he had purchased a bottle of gin from Fader. Fader denied the charge, but was fined. The case will come up for hearing tomorrow morning. Fader, it is said, will call as a witness an Indian named Jacob, who was in the store at the time McDermott alleged that he purchased the gin. McDermott was before the court this morning and was remanded.

WHEN IS A MAN DRUNK?

Some Answers to the Old Question in St. John Police Court

From time to time people called to give evidence in police court cases, have been asked by the court, "in your opinion, when is a man drunk," and there have been some odd answers given, but some given in the court yesterday during the hearing of a liquor case, surpass any others recorded. In reply to the question one witness answered, "I think a man is drunk when he is not able to take care of himself, I mean to keep from falling on the ground, and does not know what he is saying or doing, also making a fool of himself and making a disturbance." "A man is drunk when he is full and cannot drink no more, and goes to bed in a snow bank." "A third answered, 'I consider that when a man is making a fool of himself he is drunk, but when he is civil and quiet, he is not drunk.'"

Naturally these answers created some amusement in the court. The answers were given during the hearing of a case against Michael Moran, charged with allowing a drunken man in his saloon in British street for twenty minutes. The defendant pleaded not guilty and called several witnesses. The case was further adjourned until this afternoon to secure further evidence.

The plot of ground in Indian town known as "Victoria Square" or Alexandra dump—either one will do—is now being improved, two men being engaged in changing its disagreeable appearance to something better. There is plenty of room for improvement and even the removal of the unsightly heap of empty cans, old mattresses, and ash barrels will be gladly welcomed by the citizens living nearby.
