

Partridge Island For Dry Dock Site

London Learns of the Site of the Proposed Facilities Here --- Not For Land Point.

Mayor Bullock Doubts If City Would Be Willing To Co-operate In Proposal.

Special to The Standard. London, Nov. 15.—Arrangements have just been completed for the erection of a dry dock at Lewis. The interests involved are the Canadian Pacific, the Allans, Harland and Wolff, the Belfast shipbuilders; Sir Charles MacLaren, representing John Burn Co. of Sheffield; David, of Lewis, who conducted the present salvage and dry dock business there and the McArthur Perks Company, of Canada.

At Partridge Island. The same interests have made a definite proposal to the Canadian Government which they expect will be accepted, for a dry dock in St. John. The contractors have decided not to erect this dry dock at the Canadian Pacific wharf in St. John, but somewhere around Partridge Island.

Somehow around Partridge Island is not very definite, but on inquiry last evening The Standard learned that the west channel has been mentioned as a site for a dry dock and if the despatch is well founded the British concern have been informed that this is a desirable location for so large a dry dock as is proposed to build.

When the despatch was read to Mayor Bullock last evening His Worship said it was doubtful if the city would want to give up the west channel. Railway facilities would be extended down the Bay shore and the channel might be needed for anchorage. He believed however, if Lewis was to secure a dry dock as the despatch stated, then St. John would also be secured.

Mr. Geo. Robertson, president of the Imperial Dry Dock Company said he had heard the west channel mentioned as a dry dock site, but he did not believe the Dominion Government would consider any proposition with any company without consulting the Imperial Dry Dock Company. If the building of battleships was contemplated, it would be a different matter, but if the industry was limited to a dry dock and ship repair plant, then the Government knew that the Imperial Dock Company were already prepared to undertake the project and had prior rights.

FIFTY DROWNED BY FLOODS IN JAMAICA

Estimated That Fifty Are Drowned With a Material Damage Of \$1,250,000 In Recent Floods In W. Indies.

Kingston, Ja., Nov. 15.—While it is yet impossible to give an accurate statement of the loss of life and damage to property as the result of the storm, it is variously estimated that about fifty persons were drowned by the floods and that the material damage will total not less than \$1,250,000. The principal loss was to the banana plantations on the north side of the island and the shipments will be possible before the "open door" of the island was practically uninjured and the situation here is not serious.

DO NOT VIOLATE OPEN DOOR PRINCIPLES

New York, N. Y., Nov. 15.—The treaties between China and Japan as the operation of coal mines along the South Manchurian R. R. and the Antung-Mukden R. R., do not create monopolies, and hence are not violations of the "open door" or the "equal opportunities" principles to the observance of which all of the leading powers are pledged. This is the conclusion reached by the State Department after a long and careful investigation.

PIERPONT MORGAN TO BOSTON & MAINE DIRECTORATE

Boston, Mass., Nov. 15.—It was authoritatively reported here today that at the meeting tomorrow of the directors of the Boston and Maine R. R., President Lucius Tuttle would be re-elected and that three resignations on the board would be fulfilled by J. Pierpont Morgan, Chas. B. Mellen, president of the New York, New Haven and Hartford R. R. and William Skinner, of Holyoke.

MONTREAL OUT AFTER SCALP OF NEW YORK

Official Outline Of Scheme In Development Of St. Lawrence Port Announced—To Double Capacity Of Harbor.

Special to The Standard. Montreal, Nov. 15.—The first official outline of a scheme which is to make the port of Montreal the equal of any port on the American continent was this afternoon made public at a large attended luncheon of the Montreal Canadian Club, by Mayor George W. Stephens, chairman of the Board of Harbor Commissioners.

The scheme, the fulfillment of which will cover a long term of years, aims at nothing less than making this city rival New York in the excellence of its accommodation for ocean going steamers, and when completed should give the St. Lawrence at Montreal a reputation second only to the Mersey at Liverpool for the transportation of a continent's merchandise and the passenger traffic of the world.

The scheme is expected, briefly, to do this: To double the port's capacity. To make water portage possible by lessening currents. To give water access by way of canal system to Western Canada and the United States. To create manufacturing and warehousing sites having direct rail connections over all lines with every port of the continent.

To reduce the handling charges on every ton of freight coming to the port.

ARE PROBING STILL FOR ELUSIVE CORRESPONDENCE

Coal Conspiracy Case At Halifax Enters Upon Another Stage—Superintendent Floyd Called To Stand.

Halifax, N. S., Nov. 15.—The coal conspiracy case entered upon another stage this afternoon at five o'clock when Supt. Floyd, of the Intercolonial Railway, was called to the witness stand. Before this local men only had been examined. Mr. Floyd, as superintendent of the Intercolonial Coal Mining Company at Westville, was looked to for the information lost to the prosecution by the destruction of correspondence by the Halifax agent, H. D. MacKenzie.

Again Disappointed. In this the prosecuting counsel was disappointed as Mr. Floyd stated that he left the matter of coal contracts largely in the hands of Mr. MacKenzie and Sales Agent Sutherland. In regard to copies of the letters burned by Mr. MacKenzie, Mr. Floyd was equally unsatisfactory to counsel for the prosecution. He stated that he had been away from the office so long on account of the trial that he could not say what might have happened to the files.

At 10:30 this evening the secretary of the Dominion Coal Company, James MacKay, who had arrived by train from Montreal during the afternoon, was called to the witness box. He was asked to produce the papers called for in his subpoena, these included letters which General Manager Duggan had been unable to produce and the files which Mr. Morrow had testified had been sent by him to the head office at Montreal. It would have taken a whole day to hold the papers asked for. Mr. MacKay produced an envelope from his pocket with all he had brought with him contained in it. The Morrow files, he stated, had never reached the office at Montreal.

CITY OF TORONTO HAS A BALANCE

Special to The Standard. Toronto, Ont., Nov. 15.—The city treasurer's annual report of receipts and disbursements just issued shows that for the year 1908 the receipts from the ordinary revenues, taxation, sale of debentures, etc., amounted to \$13,497,293.87, while the disbursements, including redemption of debentures and sinking fund investments amounted to \$12,019,381.31. This with a balance of \$2,327,500 from the previous year left a balance of cash in hand and in banks amounting to \$2,304,471.79. The bonded debt of the city December 31, last, was \$22,096,511.50. The general city debt was \$22,465,162.68.

NAVAL DEFENCE POLICY CHIEFLY DISCUSSED IN THE REPLY TO THRONE SPEECH

Canada's Proposed Navy Shared Honors With New French Treaty and Its Effect Upon Payne Legislation at Yesterday's Session of the House—Mr. R. L. Borden in Vigorous Speech.

Special to The Standard. Ottawa, Nov. 15.—The speakers who took part in the debate on the speech from the throne in Parliament today included: Erection of Berthier, the mover, Kyte of Richmond, N. S., the seconder, R. Borden, the Government spokesman, Laurier, and Mr. W. F. McLean. In a forcible address, Mr. Borden touched on many live topics, which Sir Wilfrid side-stepped in his reply.

The French Speech. Then French speech was made by Mr. Erection (Berthier) whose most interesting passage referred to naval defence. Describing it as difficult and delicate, he alluded to the process by which Canada has obtained from Great Britain the right to negotiate commercial treaties and went on to say that Canada is strong enough, wealthy enough and proud enough to be no longer a colony but a nation. Should it be said that she will leave to others the care of protecting her frontiers, her increasing trade, her shores peopled with her fishermen and traders. Should she refuse to obey the call extended to young nations, inviting them to assure their very existence. This was the proud national sentiment which animated Canada's statesmen in putting aside the proposals of those who would prefer a direct contribution to the Imperial navy and to adopt a purely Canadian policy. The new navy would offer to the youth of the country a new career to its artisans a new field of activity and energy and would be entirely Canadian. It also was to be hoped that the policy would tend to create ship-building establishments in Canada.

Mr. Kyte. Mr. Kyte in seconding the motion touched on the enhancement of the prices of manufactured goods. There was an activity abroad in combining industrial concerns which would be good for the consumers. The time had come to set a limit to this talent for promoting mergers which had been so active of late. Dealing with naval defence, he referred to the resolution of March last, and quoted Lord Chas. Beresford's assertion that the best thing for the Dominion could do was to build cruisers to defend her shores. He thought that in view of last year's vote there would be no division of opinion in the house. The policy of direct contribution to the Imperial navy was a policy which would form a nucleus of a navy for coast defence and for national purposes, it should be in cooperation with the Imperial navy.

Mr. Borden Opens. Mr. R. L. Borden opened with a sympathetic reference to the death of Dr. MacIntyre, the former minister of Strathcona. Discussing the speech from the throne, Mr. Borden noted that last year his excellency had referred to the world wide depression with a suggestion that Canada could not escape it, while this year there is no reference to the world wide prosperity, the Government claiming full credit for the good times, while discharging responsibility for hard times. As for growth, he drew attention to the enormous growth in expenditures. During the last ten years of Conservative rule the revenue had amounted to \$371,000,000.

During the last ten years of the Laurier Government the revenue received was \$392,500,000, or by excess in the ten years of \$21,500,000. Despite this enormous increase in revenue, the public debt had been increased by \$66,000,000. This vast increase was far from being due to the Transcontinental project, putting the railway and the Quebec bridge aside, there still was \$21,500,000 excess revenue and a debt increase of \$7,000,000 besides.

What about the completion of the Transcontinental and the Quebec bridge? Had the Government any idea as to when these events would take place? And what did the Government propose to do with the Lewis and Clark route in the period before the completion of the Quebec bridge? Mr. Borden touched on the waterways treaty, urging that the Government should make its decision as early as possible, repeating his declaration that such a treaty should be subject to ratification by the Canadian Parliament.

The French Treaty. After an allusion to the dormant condition of the All Red Route, Mr. Borden brought up the French treaty and its bearing on the retaliation clause of the new United States tariff. Canada, he said sells to the United States fifty times as much as to France and buys from the United States ten times as much as from France. This fact was worthy of consideration.

Coming to naval defence, Mr. Borden said that he had been a little in doubt as to whether Canada was still within the British Empire. He also referred to speeches by the Liberal members of the House. If the Liberal journalists who had announced that he had supported the Government's naval policy imagined that he was any party to the matter, they were very much mistaken. He would defer discussion of the matter until the Government had brought forward a definite proposal.

Continued on Page 2.

TO ORGANIZE N. S. STEEL EMPLOYEES

American Federation Of Labor Decides Upon a Campaign Of Organization Among Workmen Of Corporation.

Special to The Standard. Toronto, Nov. 15.—At this morning's session the American Federation of Labor decided upon a campaign of organization among the United States Steel Corporation employees. The resolution pronounced the corporation the most formidable and aggressive enemy of the labor movement.

A meeting of the executives of the International Union will be held to outline a plan of organization and to consider ways and means of making the strikes of the affiliated organizations now pending more effective. Of the 200,000 men employed by the United States Steel Corporation only 20,000 are now organized.

SUGAR FRAUDS MAY BRING BIG UPHEAVAL

Visions Of The Insurance Debacle Of 1905 Are Seen In The Recent Disclosures—An Echo Of Roosevelt.

New York, N. Y., Nov. 15.—While the legal machinery of the Government moves slowly the air of uncertainty which surrounds the so-called sugar fraud cases is interpreted by those who have followed the progress of corporation investigation in this country to foreshadow an inquiry which may rank with the insurance upheaval of 1905.

Boston and Philadelphia were brought within the scope of the investigation today with the report that the Government would probably attempt to obtain back duties due on sugar in those cities, while the investigation went on in New York with repeated rumors of reaching the "men higher up."

Roosevelt's Influence. William Loeb, Jr., collector of the port, was inclined to be reticent, but he repeated that it was through the determination and influence of Theodore Roosevelt that the investigation and prosecution of the sugar frauds were undertaken. Accordingly to Mr. Loeb, he talked over the matter with Mr. Roosevelt thoroughly before he (Loeb) took charge of the customs house here and consequently he had a well-defined policy mapped out when he assumed office.

With the denial from Washington today by James B. Reynolds, former assistant secretary of the treasury, that he in any way opposed the investigation while in office, came the announcement in New York by Richard Parr, through whose statements Mr. Reynolds' actions and motives were placed open to criticism, that he had been misquoted and misunderstood. Parr who is still engaged at the Customs House, issued the following statement:

In regard to the statement that Mr. J. B. Reynolds, the former assistant secretary of the treasury department ordered special agent Parr, first to

WOMAN IS HEAD OF SUICIDE PACT

Gruesome Tale Unfolded In Connecticut Court By Man Who Swallowed Two Doses Of Morphine.

Hartford, Conn., Nov. 15.—The gruesome tale of a suicide pact which in fulfillment cost the life of Blanche Ferguson, of Washington, while her companion, Fred J. Reid, of Cleveland, just escaped a like fate, was told this afternoon in detail by Reid at a hearing in the office of the Chief of Police. It was brought out that the couple, who had known each other only two weeks, made two attempts to die. The first night of their arrival in this city, they partook of the contents of a vial of morphine, purchased in New York. Upon finding themselves alive the next morning, they prepared to renew their attempt to kill themselves. Reid had the bottle re-filled in this city and the couple spent their last money in decorating their death chamber with fresh white flowers. They made up a potion in the same cocktail glasses as before, drank the contents and went to bed to sleep. The girl never awoke. Reid was saved by prompt medical attention.

Today, Reid, ghastly white, and emaciated from the effects of the drug, told the story. He denied that he handed the poison to the girl. He said he helped himself and she did the same. As a result of the story told by Reid, the police believe that he was prompted to attempt his life by remorse and because he had used money belonging to his employer. This money, according to Reid, was to be used in paying workmen under him in Cleveland a dozen of whom were to each receive a week's pay.

The body of the woman was sent to relatives at La Plata, Md., tonight.

INDUSTRIAL CANADA OUT AFTER RAILWAYS

Official Sign Of The Manufacturers' Association Assails Railroads Of Alleged Car Shortage.

Special to The Standard. Toronto, Ont., Nov. 15.—The official organ of the Canadian Manufacturers' Association "Industrial Canada" in the November issue published today, assails the railroads for the car shortage which is proving a serious handicap to Canadian shippers all over the country. It is pointed out that 185,000 tons of raw materials in America are being shipped to Canada every day. The last reports obtained from the Canadian lines show a shortage on Canadian roads of 500 cars every day. Efforts to obtaining some satisfactory explanation from the railways has been futile. Inquiry in the west brings reports that train is being held back by the failure of the railways to supply locomotives at a special rate of charge of \$1 per day as demurrage charges on cars and shippers are cautioned to avoid the fine in the hope that the comparative famine in cars may be somewhat relieved. The average earnings of a freight car is given at \$2 to \$2.50 per day. The railway of course deny the fact that there is any car shortage either in Toronto or in the west.

WARRINER INDICTED ON LARCENY CHARGE

Former Treasurer Of Big Four Railway Must Face Charges Of Embezzlement—Amazing Figures Presented.

Cincinnati, Ohio, Nov. 15.—Charles L. Warriner, formerly local treasurer of the Big Four Railroad, was indicted today on charges of grand larceny and embezzlement in the amount of \$5,000 on each count. While \$643,000 is known to have been stolen from the railroad, it developed today that the company's cash books prior to 1905, have disappeared and that it will never be possible to tell the full amount of the defalcation. The comparatively small amount on which Warriner was indicted represents the latest known theft.

Amazing figures were presented today showing the progress of thefts for the last five years. The shortage thus estimated amounts to something more than \$58,000 for 1905, \$190,000 in 1906 and to \$82,000 in 1908 and \$83,000 in 1909. The total for five years reaches \$322,000.

Of this sum Warriner says he paid \$400 a month to each of two persons in the form of blackmail. The rest, he alleges he lost in speculation, trying to replace his thefts.

This most interesting person to appear before the grand jury today was Mrs. Jeanette Stewart, Ford, whose connection with the case is still shrouded in mystery. Mrs. Ford declared she said nothing to the grand jury beyond the indefinite statements which she has already made public.

All Are Dead In Fire Swept Mine

COURT REFUSES ORDER OF STAY PROCEEDINGS

Toronto, Nov. 15.—A small piece of yellow paper handed by a telegraph messenger to President Gompers just as the latter was raising his gavel to adjourn the A. F. of L. convention today, turned a listless, apathetic gathering into a tense, united mass and provided the most spectacular ending to any meeting ever held in Massey Hall. The telegram was from the federation's attorney in Washington, who through the day had been arguing before the district court of appeals in an endeavor to get a stay of proceedings, so that President Gompers, Vice-President John Mitchell and Secretary Frank Morrison might appeal to the federal court from the sentence of imprisonment passed upon them by the district court of Columbia. It read:

The Message. "Darlington agreed to 15 days' extension, but court refused any extension. The mandate of the court goes down on Saturday morning. This means that the federation must surrender to the court and commence their sentence, or forfeit their bail of \$12,000. The sentence on Gompers is 12 months, Mitchell 9 months and Morrison 6 months. Only Gompers' quiet expression and hearty laughter when he caught sight of Morrison's serious aspect when the telegram was read, prevented a demonstration. Instead the convention joined in the laughter and then applauded "Old Sam" for his grit.

But the earnest faces and heartfelt expressions of sympathy and indignation gave evidence that whatever happened the sessionist party had vanished and that the delegates socialist and all were with Gompers to a man.

Vote Socialist. "From now on I vote Socialist," said one young delegate as he gripped John Mitchell's hand. The remark was significant. The sending of the three men to prison has done more to feed the fires of class consciousness than all the harangues of the Socialist orators. Man after man expressed his indignation with the United States executive that it has stood idly by while their leaders are sent to prison. Already in the eyes of the delegates the three arrested leaders are martyrs. It looks as if four hundred delegates are either back from Toronto convention white heat with indignation to preach the class conflict. Immediately upon receipt of the news President Gompers on behalf of himself and colleagues sent the following telegram to his attorneys in Washington, Messrs. Halston and Slidon:

"Telegram announcing court's refusal to extend time received. Wire when we must put in appearance to save bail bonds. We would like to remain in Toronto until the close of Federation's convention on Saturday evening."

But it is not expected that the court will comply with the request.

HOUSE-TO-HOUSE CANVASS

Mr. Earling Caused a House-to-House Canvass of the Miners to be Made This Afternoon—Amazing Figures Presented.

This showed 256 miners missing, but some of the families were not at home and it is believed when a complete list is obtained, the number of entombed miners will exceed 300. The morning dawned hopefully. At an early hour the main shaft, which had been sealed since Saturday was opened and a determined effort was made by the experts and volunteers to release the living miners or to disinter the bodies from the wreckage.

Before nine o'clock the crowd assembled around the roped enclosure and workmen broke the seal of the shaft. There was little smoke and this gave the investigators hope that the fire had been smothered and that they would at least be enabled to enter the mine.

Mine Examiner James Taylor, R. Y. Williams, James Webb and others appeared in the oxygen outfit and helmets ready to descend. The cage also was ready to descend. The cage

300 Widows and 1,000 Orphans Are Left To Pass Winter Without Means.

Fire Breaks Out Afresh When Rescue Is In Progress, And All Hope Is Gone.

Cherry, Ill., Nov. 15.—The three hundred or more miners who were entombed in the St. Paul mine by last Saturday's fire, are dead. Some of the bodies lie buried beneath thousands of tons of earth, which caved in upon them and it is doubtful whether many of the bodies can ever be recovered.

This was the opinion expressed to-night when rescue work was temporarily abandoned. Fires in the mine which broke out with renewed fierceness early today made further descents by rescuers impossible.

Fans employed in an effort to carry fresh air and life down to the imprisoned men served only to chill some embers which sprang into flames. Soon the heat and smoke became so dense that it was necessary again to seal the mouth of the hoisting shaft and tonight the men down there, whatever their condition, are locked in as effectively as if in a dungeon.

Whether attempts to take out the bodies will be made tomorrow depends on the condition of the internal fire. It is possible that carbonic acid gas will be forced to the bottom of the mine tomorrow to choke the flames.

It was said tonight that 300 coffins have been ordered. Half of them will arrive tomorrow and half the following day. Meantime several score of nurses who were rushed here look forward to no prospect of heroic work in rescuing injured men. It is believed that no one will be brought out of the mine alive.

Hope arose and fell frequently today. Before the fire broke out again rescuers descended four times to the shaft. Then the rumor circulated quickly through the crowds that the men below ground had been reached and that the reason they were not brought up immediately was that they were exhausted by lack of food and smoke.

But the truth was far different. The rescuers did not descend, got down 300 feet to the bottom of the hoisting shaft. Then groping their way by electric lamps and kept alive by oxygen carried with them, they penetrated 150 feet to the bottom gallery. But none of the miners either dead or alive was found.

"Hey! are you there?" cried the rescuers, but nothing was heard in response. It was conjectured the miners had crawled for safety into the recesses remotest from the fire, but to these parts the rescuers were unable to go without re-ascending. Before they could re-descend the fire had broken out again. Gradually the crowd about the mouth of the shaft began to thin as hope began to wane.

Pathetic Spectacle. The spectacle about the mouth of the wrecked mine at dusk was pathetic. A tall skeleton framework of iron reaching skyward, surrounded by a group of wooden buildings, which a few days ago had been the scene of industry suggested by their desolation that hope had been abandoned. Only a half dozen guards patrolled the premises. In the distance, scattered over the field a few women wrapped in shawls looked on in silence. As a result of the disaster there are in this town of only a few thousands inhabitants, at least 1000 orphans and 200 widows. These are the figures of Duncan Macdonald, president of the district No. 12 United Mine Workers who instituted a roll-call of the families of the entombed miners.

President Earling, of the Chicago, Milwaukee and St. Paul R. R., declined to say more than that the men are just as safe now as they were yesterday at this time. The mine is too big and has too many ramifications to be filled with smoke yet. Besides the smoke is not carried downward by any air currents. If the men were alive yesterday, every man may be alive now.

House-to-House Canvass. Mr. Earling caused a house-to-house canvass of the miners to be made. This showed 256 miners missing, but some of the families were not at home and it is believed when a complete list is obtained, the number of entombed miners will exceed 300. The morning dawned hopefully. At an early hour the main shaft, which had been sealed since Saturday was opened and a determined effort was made by the experts and volunteers to release the living miners or to disinter the bodies from the wreckage.

WAS LOWERED UNTIL THE BOTTOM WAS REACHED AND THEN THE SIGNALS CALLED FOR AN ASCENT.

Report Denied.

Several thousand persons leaped forward eagerly as the expert emerged from the shaft. The report that bodies had been found was denied by the investigators.

A few minutes later the cage was lowered again. This time the horns of the signals frequently to the men above. The cage was raised and lowered alternately until eventually the bottom of the shaft was reached for the second time.

Fifteen minutes passed. Then a blast of the horn signalling the ascent echoed through the shaft.

The explorers reported that they walked in a void. The mine for 150 feet from the base of the shaft and that they found no living man or corpse. The atmosphere in this vein was considerably better than was expected. With the aid of their electric lanterns they were able to see plainly.

In other veins leading from the shaft, much smoke was encountered and nothing could be seen. A consultation followed and it was determined to start the ventilating fan at the opposite side of the mine.

Official Roll-call. An official roll-call of the widows and orphans to whom charity is to be extended was started. The work was difficult because of the confusion and the hysterical condition of the bereaved women.

Many when questioned for data for the roll-call, were so incoherent as to be unable to tell who they were or whom they were searching.

The charity work is in charge of Duncan McDonald, president of the United Mine Workers, secretary, Edwin Perry, and treasurer, F. P. Bicknell.

Roughly estimated, Mr. McDonald said, there would be one thousand orphans and two hundred widows. Each of these would have to be provided for for the future.

Suddenly a loud blast came from the depths and the experts were asked to the surface. They reported that the fire had broken out afresh and a hose was taken down the shaft.

They reported that a blaze of which there had been no evidence before the fan was started had been discovered in the stable portion of the mine where the original fire started. They had been unable to extinguish it with a hose.

They reported that a blaze of which there had been no evidence before the fan was started had been discovered in the stable portion of the mine where the original fire started.

They reported that a blaze of which there had been no evidence before the fan was started had been discovered in the stable portion of the mine where the original fire started.

IMPERIAL DEFENCE POLICY IS CHIEFLY DISCUSSED

Continued From Page 1.

Sir Wilfrid Laurier declined to discuss most of the topics which Mr. Borden had raised, but did advert to the Transcontinental railway.

The Imperial Defence Conference, he said, would be laid before the House on Wednesday next. He then went on to rally the Opposition on the alleged dissensions within its ranks.

Mr. Lewis, West Huron, closed the debate with a characteristic speech, in which, after referring to the subject of immigration, "I give notice," he said, "that I propose introducing a bill, prohibiting all immigration from the east of 44 degrees north latitude, and east of 20 degrees east longitude."

Mr. Stannfield is asking a question as to the wages paid on the Intercontinental to machinists, and also with regard to the superannuations and dismissal of the Intercontinental employees.

Mr. Jameson is trying to ascertain how much money the National Transcontinental Railway commission has spent outside of the sums paid to contractors. He also is asking whether there is an officially authorized Canadian flag, and if not if the Government will provide one.

Mr. Crockert is moving for papers with regard to the survey of the St. John river channel, between Fredericton and Woodstock.

Mr. Monk is moving for a commission on the subject of a classification of convicts.

The reason for entering upon this controversy was because Canada is growing as a nation. It was a penalty of growth, did Mr. Monk know of any nation with a seacoast which had no naval force? So far as he knew, the only one on the continent was Norway.

Mr. Foster brought up the fact that in 1908 the Intercontinental had a deficit of over \$1,000,000 and had absorbed \$1,253,339 in capital expenditure.

Mr. Foster brought up the fact that in 1908 the Intercontinental had a deficit of over \$1,000,000 and had absorbed \$1,253,339 in capital expenditure.

ESTABLISHED OF \$500 PRIZE

J. F. Keenan, Engineer On Shenandoah, Secures City Cornet Band's Big Offer—Drawings Held Last Evening

The City Cornet Band's Round the World Fair was brought to an end last night when the drawings in connection with the lottery were made.

The first prize of a ticket around the world, or \$500 in gold went to Mr. J. F. Keenan of London, England, second engineer on the S. S. Shenandoah of the Furness Line. Mr. John Allen, 144 Waterloo street received the second prize ticket equivalent to \$250.

The third prize of \$150 went to J. F. Brown, W. J. Bradley and H. F. Sweeney all of this city. The fourth ticket valued at \$75 was drawn by Mr. and Mrs. J. Cullinan of Rockland Road.

Ald. McGoldrick acted as chairman at the drawings which were carried out by a committee consisting of Messrs. Jas. Boyd, Jas. Barry, W. M. Wallace, J. W. Fox, P. M. Higgins and E. J. McCourt. All the tickets were placed in a revolving churn and in another churn were placed 49 slips with the names of prizes stamped upon them and a sufficient number of blanks to make the total number of slips equal the number of tickets in the other churn.

A ticket was drawn at the same time by two small boys, Willie Wallace and Willie Higgins and when a prize was drawn instead of a blank slip, the name on the ticket was the same name as was declared the winner.

A few persons were so lucky as to receive more than one prize. Mr. Walter Allison who captured the big ticket last year drew a ticket valued at \$200.

The numbers of the winning tickets and those who held them follow: \$46, \$500—J. F. Keenan, London, England. \$30, \$250—John Allen. \$48, \$150—J. F. Brown, W. J. Bradley, H. F. Sweeney.

\$24, \$75—Mr. and Mrs. J. Cullinan. \$102, \$50—P. M. Higgins, Miss P. Hennebery, C. H. Short, H. W. Rising. \$65, \$25—J. Keller, E. Travis, M. Driscoll, Miss A. O'Brien.

\$75, \$25—W. J. Bradley, F. J. Dunlop. \$76, \$15—J. B. Manson and H. D. Sullivan. \$12, \$15—P. Hennebery. \$15, \$15—J. F. Brown, J. F. Bradley, W. F. Sweeney.

\$40, \$10—R. C. Wilson, J. Gifford, S. Hinds, F. Craft. \$17, \$10—H. G. Gregory, J. Norris, S. Carl, H. Speer. \$109, \$5—J. J. Doherty, Wm. Wallace, J. McCormick, E. Gilchrist.

\$51, \$5—C. A. Coughlan, I. C. R. Clerks. \$95, \$5—W. J. Savage. \$107, \$2.50—H. B. Tippett. \$29, \$2.50—Mrs. M. Sexton. \$106, \$2.50—Mrs. C. Dolan. \$83, \$2.50—Teleph. Club, C. Arnebeau, J. Arnebeau.

Meeting Last Evening in Mission Church Decided To Hold Monthly Sessions—F. A. Kinnear Appointed Sec.

Plans for a vigorous campaign in the interests of missions were made at a meeting in the Mission Church last evening, attended by the committees from each of the Anglican churches in the city in connection with the Laymen's Missionary Movement.

Mr. W. S. Fisher presided, and Mr. F. A. Kinnear was chosen as secretary in succession to Mr. W. E. Anderson who resigned owing to pressure of other duties. Reports of work presented by each committee at each church. St. Luke's had a particularly encouraging report to offer.

A general discussion followed and on motion of Mr. H. B. Schofield, it was voted to hold meetings of the same nature as that held last evening in the first week of every month and in the different parishes.

The next meeting will be held at St. Luke's on December 5th. Addresses will be delivered and reports presented. The object is to induce a deeper interest in missions and of securing the increased amount which has been pledged under the impetus of the Laymen's Missionary Movement.

ST. JOSEPH'S Y. M. S. CELEBRATE THIRTY EIGHTH ANNIVERSARY

Last evening was a notable one in the history of the Y. M. S. of St. Joseph, nearly 300 members assembling in St. Malachi's Hall to celebrate its 38th anniversary.

The celebration took the form of a smoker and a musical and literary programme was carried out, some excellent addresses being delivered during the evening. Mr. H. O. McInerney presided, and there were seated upon the platform Rev. W. Duke and Rev. M. O'Brien, besides representatives of the different Catholic young men's societies throughout the city.

In an eloquent address Mr. H. O. McInerney reviewed the past history of the society and eulogized the men who had been prominently connected with the organization in its younger days, and paid glowing tribute to the present spiritual adviser Rev. Father Duke, who, he said, was mainly responsible for the flourishing state of the society.

Mr. Miles E. Agar was in a reminiscent mood and recalled the early history of the society. He told some interesting stories in that connection. Addresses were also delivered by Mr. Frank Alexander, president of St. John the Baptist society, Mr. P. J. Casey, president of St. Peter's Y. M. S., Mr. C. P. O'Neill, vice president of the C. M. B. A., Dr. S. McDonald, Messrs. H. Bridges, W. Mace, J. A. Barry, J. M. Elmore and Rev. Father O'Brien and Rev. Father Duke.

The St. Joseph Young Men's Orchestra was present and rendered some pleasing selections, and there were songs by M. Moran, Wm. Wallace, R. M. Garnett, D. Higgins and John Sheehan; reading by Wm. Ryan; piano solo, A. Godose; step dancing by John Sheehan and Walter Harris.

The committee in charge consisted of Rev. W. Duke, chairman; H. Carleton P. Lunney, F. P. Fuller, E. Moran, W. S. Gale, D. McCarthy, R. E. Fitzgerald, B. Stafford, Geo. Cunningham, H. O. McInerney.

On Sunday afternoon Rev. Dr. E. O'Reilly will lecture in the society rooms on Rome.

Johnston & O. L. Concert. The concert given last night in the Orange Hotel, German street by John Johnston, O. L. No. 24, was largely attended and proved highly enjoyable.

A programme of twenty-six numbers was carried out. Among those taking part were Miss Orlan, Mr. Wm. Wallace, Rev. Mr. A. McLean, Mr. Chas. Bridgen, Mrs. Hans, Mr. W. G. V. Stokes, Mr. Fred. Punter, Miss I. Gibb, Miss Fox, Mrs. Geo. McKinney, Mr. E. McDonald, Master and Miss McFarlane, Mr. Hains, Mrs. Biegel, Miss Raulston, Mrs. McKay, Miss B. Pike, Mr. Geo. L. Benson, Mr. Robt. Dobson, Miss Rita Eagles, Mr. Wm. Suore, Mr. and Miss Richards, and Miss R. DeLong.

Chicago Woman Out After Street Superintendent's Job

Miss Anna Murphy Candidate for Superintendent of Streets in Chicago.

The Difference Between Men's Cleaning Up and Women's--Her Plans.

Chicago, Ill., Nov. 15.—If a woman makes the best housekeeper at home, why shouldn't a woman make the best housekeeper in cleaning up one of the great cities in the world?

Thus argues Miss Anna E. Murphy, former magazine writer. To back her argument up she has come out as a candidate for superintendent of streets. The place pays \$5,500 a year.

There's a reason for Miss Murphy's determination. She's an ardent suffragette, and believes women will win votes sooner if they show the men they are able to fill men's jobs.

"Queen of the white wings!" How does it sound?

A Real Boss.

Miss Murphy is out to win that title. She says she will make the forces under her know they have a REAL boss if the people here only will let her get on the job.

Chicago's street cleaners are a motley lot. They are old men and young men; Italians, Greeks, Turks and a few—a very few—native Americans. When a small politician wants a city job for one of his relatives and he hasn't much influence, it's to the white wings brigade with his friend, or nothing at all.

The pay is poor, the work hard. At all times the street-cleaner is in danger from street cars, autos whizzing about and reckless drivers.

They don't care much for the life of a street cleaner in Chicago.

Miss Murphy believes in action. Not since the days of the elder Carter H. Harrison has an official ridden about town on horseback to view the progress of city work.

Her Ideas.

But Miss Murphy has ideas of her own. She is an ardent horsewoman and will inspect the streets every day. If the "white wings" aren't doing their work as they should, they would be

MISS ANNA E. MURPHY.

beware of a suffragette commander.

"Why shouldn't I be a boss street cleaner?" she asked. "Every dusty corner in the water pipe extension department in city hall as she repeated the question. She had been adding up a column of figures as long as her arm.

"I have new ideas on how to be a municipal housekeeper. As I have not yet attained the office I don't think I ought to tell them now, do you?" If I did everybody would know as much as I do.

"To be perfectly frank as to my opinion on a woman holding such an office, I will say that it is decidedly a woman's job. Cleanliness is a feminine instinct."

A Woman's Work.

Now take it in a house; a man would get up and look the house over every morning and not know whether it had

been swept or not until it became so dirty he would notice it. He might see a dirty place here or a dirty place there, but he would pass the whole thing along until it became noticeably dirty.

"Not so with a woman. She sees every dirty place here or a dirty place there, but he would pass the whole thing along until it became noticeably dirty.

"I find it so with the dirty streets and alleys in this city. A man looks at the main thoroughfare and finds it's kept clean. A little dirt may linger in this or that place, but on the whole it looks good to him.

"If I should become superintendent of streets I would start in with the very dirtiest parts of the city and clean up. I would make every alley and side street clean and sanitary. The utmost energy would be spent where the cleaning is needed most. Then, with everything in order, I would see that it is kept in order."

WILSONS BE SENT TO JAIL

Sumptuous Quarters for Men Imprisoned for Contempt of Court Arising Out of Recent Lynching.

Washington, D. C., Nov. 15.—For the first time in American history six men are in prison tonight for contempt of the supreme court of the United States. For the first time, too, the federal government has placed men behind the bars as an outcome of the lynching of a negro.

At the United States jail in this city Captain Joseph P. Shipp, former sheriff of Chattanooga; Jeremiah Gibson, his jailor, and Luther Wilson, Nick Wilson, Henry Padgett and William Masses, of the same city, began this afternoon to serve terms of imprisonment imposed a few hours before by the supreme court. Shipp and Gibson were present at the lynching of a negro from a mob, Ed Johnson, whose legal execution had been stayed by the supreme court until it would review the case. The others were found guilty of participation in the lynching of a federal prisoner. Shipp, Wilson and Nelson were given sentences of 90 days' imprisonment each, while Gibson, Padgett and Masses each received 60 days.

As the big barred doors of the jail swung open to receive the prisoners today, immediately sentence had been imposed, Warden McKee stood before them.

Of a Soldier.

"At last we are in the hands of a soldier," exclaimed Captain Shipp, who was in many a tight for the confederacy as he noticed a G. A. B. button in the lapel of Warden McKee's coat.

Then turning to his five fellow prisoners, he said:

"Boys, it will be all right."

About a year ago, during the imprisonment of an unusually large number of men, the warden had a store room on the fourth floor of the jail fitted up as quarters for female prisoners. It was in this large room, perhaps 20 by 35 feet, that he locked up the six prisoners.

In the room were beds for each of the prisoners, while at one end was a table upon which "trusties" will set the office of the supreme court to be used by the prisoners exclusively. Four large circular windows open to the south and west giving excellent views of the front of the building.

In fact, so pleasant had the prisoners found the quarters that Captain Shipp sent his attorney, Major Clift, to the office of the warden to request a withdrawal of the request he made when sentence was imposed, to be sent to the federal prison at Atlanta, Ga., instead of to jail in this city.

During the afternoon the prisoners received calls from Tennesseans and others.

First Drawing Room Was Brilliant Affair

Earl and Lady Grey Received Distinguished Gathering in Senate Chamber at Ottawa Saturday Evening--Marks Opening of Ottawa's Round of Gayety--Many Debutantes Present.

Ottawa, Ont., Nov. 15.—With the first state drawing room of the second session of the eleventh Parliament the social season at the capital was most brilliantly inaugurated Saturday night.

Earl Grey, the Governor General, and Lady Grey, received in the Senate chamber amid all the formal splendor of this traditional ceremony, more than 1,200 persons, ranging in rank from Sir Wilfrid Laurier, the Premier, to the youngest citizens with no official position. From now until Parliament adjourns next spring Ottawa will be gay with balls, dinners, luncheons, teas and particularly with the outdoor social events of a sporting character, which give a picturesque zest to the winter season, as well as keeping debutantes and matrons in fit condition for their continuous duties.

Shortly before nine o'clock the Vice Regal party drove in from Rideau Hall escorted by the Princess Louise's Dragoon Guards. After repairing to the apartments of the Speaker the Governor General entered the chamber, the Governor General's Foot Guards in the vestibule saluting and their band playing "God Save the King."

Preceded by Staff.

Earl Grey was preceded by his staff, which includes Rear Admiral Kingsmill, who has been sent over by the Admiralty to guide Canada in the development of its own navy; Brigadier General Drury, Major General Wilson, Colonel Sherwood and Colonel Lessors, aides-de-camp; Sir John Habury Williams, military secretary and Captain A. J. Fire, Viscount LaZelles and Mr. Slattery of the House of Commons.

The Senate chamber, from which the benches had all been removed, was thronged with officers of the Ottawa military district, most of the militia, and a large number of the infantrymen and engineers, the rich blue of the cavalry and an occasional uniform of Colonel Bruce Hay, of the Indian guards, who has been loaned by the Indian army to serve as director of the Canadian Intelligence Office.

At the front of the chamber, which the Gothic arched stone columns supporting the illuminated glass ceiling afforded a fitting setting, opposite the throne hangs a full length portrait of Queen Victoria, flanked by one of George III. and Queen Charlotte.

Officers Form Aisle.

The officers formed an aisle through which the Governor General passed to mount the dais. He wore the Windsor uniform of the first class and upon his breast was observed the full order of a knight, Grand Cross of the Order of St. Michael and St. George, which is now awarded almost exclusively for colonial service. The staff took up a position to the right of the throne.

Lady Grey, following made a deep courtesy to the Governor General, and then took her place beside him, after which, from a door to the right, entered the Governor General's daughter, Lady Evelyn Grey, and Lady Hanbury Williams, who after being likewise received took their position to the left. Lady Grey wore a rich and most becoming gown of gold tulle over a princess gown of gold shaded with blue.

The bodice of the gown had yoke and sleeves of gold gauze and the bodice and entire length of the train were richly embroidered in a floral design with gold tulle and feathers. Her jewelry was a magnificent tiara and necklace of diamonds and diamond ornaments, and she carried a lovely bouquet of roses.

Lady Evelyn Grey was charming in primrose yellow satin chapeau, which was in graceful lines and was prettily trimmed with embroidery and blue and oxidized silver. She wore the court veil fastened with diamonds and a bouquet of roses and lilies of the valley.

Mrs. Jennings.

Mrs. Jennings, of Washington, and Miss McCook, of New York, two American visitors at Government House, were much admired in handsome costumes. Mrs. Jennings wore white liberty satin en princess, with overdress of white hand embroidered white tulle, with yoke, flowers, veil and feathers.

Miss McCook was also in white satin, richly trimmed with Milanese lace, diamond ornaments and feathers and feathers. Her charming personality has made her a favorite everywhere, was much admired in an exquisite gown of white hand embroidered white tulle, with yoke shaped and bretelles of black jet in State effect extending to the knees. The bodice also had much silver trimmings and her veil was fastened with diamonds and surmounted by a handsome diamond tiara. She wore the jeweled order of St. John of Jerusalem.

Miss Gladys Hanbury Williams was very attractive in white satin, veiled in chiffon in tulle effect, embroidered in silver and outlined with silver bangles. She wore an old pendant and carried a bouquet of roses.

Vice Regal Presentation.

Next came the presentation of the Vice Regal party. The first was Sir Wilfrid Laurier, Lady Laurier being unable to attend owing to her continuing ill health. Then followed the Cabinet Ministers and the wives and unmarried daughters Senators, Judges of the Supreme and Exchequer Courts, members of the Commons, deputy ministers and various officials, and members of the Provincial House, followed by other ladies and gentlemen from the attendance at tonight's drawing room. The presentation was unusually large, probably due to the regrettable impression that this may be the last year that the present Governor General and his popular family will be in Canada. The debutantes who made their first courtesy tonight were numerous, and in beauty and style fully sustained the high reputation of the Dominion

U.N.B. SOCIETY HOLDS ANNUAL BANQUET

Special to The Standard.

Fredericton, N. B., Nov. 15.—The annual banquet of the engineering society of U. N. B. was held this evening at Windsor Hall and upwards of seventy members and their guests were seated at tables. The only guests were Chancellor and members of the faculty and Mayor Chestnut.

Pres. J. B. Alexander, of the Engineering Society, presided and after a seven course dinner had been enjoyed the toast list was carried out. The speakers in reply to the various toasts included: City of Fredericton, Mayor Chestnut; Alma Mater, Chancellor Jones; Engineering Department, Professors Stone, Stephens and Cartmel; School of Forestry, Prof. Miller.

The toasts included arts department, ladies, athletes, press and the various classes.

Public Notice

The following extract from a By-Law of the City of Saint John is published for the information of the Public:

"No person shall wash or cause to be washed any pavement, window, or anything of a similar nature, in the street, or in any public place, in the City of Saint John, with any liquid, or upon the same, between the hours of half-past six o'clock of the morning and half-past six o'clock of the evening, from the first day of May until the first day of November, under the penalty of five dollars for every such act."

By order of the Common Council,
HERBERT WARDROP,
Common Clerk.

INDIAN EMPIRE TURNS OVER A NEW LEAF

Plan for Administrative Reform Went Into Effect Yesterday--Natives To Be Admitted to Legislative Responsibility.

Simla, British India, Nov. 15.—The plan for the reform of the British administration of India, which was outlined by Lord Morley, Secretary of State for India, in the House of Lords last December, and which is designed to give India an ambyro constitution, admitting the natives to an independent share in the legislation of the country, came into effect today. This begins a new and striking epoch in the history of British rule in India.

For more than three years the Imperial Government and the Indian administration have wrestled with the details of the plan recently consummated. Under the programme adopted all religious and special interests may elect representatives to the viceroys and provincial councils, but in view of recent anarchistic outbreaks, a safeguard is provided in a qualification which empowers the Imperial and Provincial Governments to declare ineligible those persons whose election is considered contrary to public interests.

The Viceroy's Council in the future will have 37 members, instead of 125 as formerly, of whom a total of

NOVA SCOTIA GIRL HELD IN BOSTON

Boston, Nov. 15.—When the steamer Boston, from Yarmouth, N. S., docked yesterday at Boston, Capt. Simms requested him to detain Miss Annie Perth of that place, who, it is alleged, had eloped with an actor who had been touring the provinces.

A young man who had been almost constantly in the company of Miss Perth during the trip from Yarmouth to Boston, hurried away when she was halted as she was about to go ashore, and he disappeared before he could be questioned.

Miss Perth will probably be given a hearing before the board of special inquiry, and if the facts are found as they are represented, she will be sent back upon the same steamer.

PUNITIVE FORCE FOR SKEENA INDIANS

Reinforcements of Police Start for Hazelton in Response to Petition from Belegued Residents of Place.

Victoria, B. C., Nov. 15.—Ten constables with arms and ammunition for twenty more have started from Prince Rupert by special steamer for beleaguered Hazelton, intending to ascend the Skeena as far as navigation is possible and thence take the trail.

An expedition of fifty more is expected to be sent up Naas River and overland sixty miles.

These reinforcements will be immediately supplemented if necessary. They are despatched in consequence of a petition telegraphed to Premier McBride, headed with the name of Indian Agent Loring and signed by twenty-eight leading Hazeltonians. It declares the Indians out of hand and the police forces utterly inadequate to meet the situation.

The petition signed by every man in the country, it is said, was forwarded to Victoria six months ago asking that a large force of mounted police be placed in the district in anticipation of trouble upon the closing of navigation.

Pending the arrival of reinforcements no attempt will be made to continue the trial of the captured Kispiox chiefs.

NEW YORK SURPRISED BY MUSICAL PRODIGY

Master Pepito Ariola, Twelve Years Old, Gives Recital in Carnegie Hall--He Plays With Agility and Strength.

New York, Nov. 15.—Even jaded concert goers were jolted into sitting up any paying attention in Carnegie Hall yesterday afternoon when Master Pepito Ariola, a Spanish prodigy, skipped out on the platform and climbed up on the high piano stool.

Master Pepito is only a dozen years old, and his feet will not reach down to the piano pedals, so the pedals have to be raised to meet his feet. Yesterday he wore a white sailor suit with a deep blue collar, and his thick hair hung childishly about his ears. He had to bow several times on his way to the concert grand piano, which looked massive enough to swallow him if they had been in a fairy tale. Then he climbed upon the stool and looked patiently at the audience until it ceased to chatter. Then he played Beethoven.

It was nothing short of marvellous to hear him. Of course, no humane person would measure his playing by the same foot rule that is applied to grown and music thirsty men who quit the keyboard. The chief emotion of the audience seemed to be astonishment. He had to play encores after all his programme numbers. Sometimes he would stride off the stage as if he were manly seven league boots. At other times he would run off like a boy who had been unexpectedly let out of school. He played Chopin, Schumann and Liszt, and at the end of the programme some of the audience crowded about the platform to hear him play more pieces, which he did.

He has amazingly fleet fingers and surprisingly strong wrists, and he delighted his hearers at times, although he surprised them often.

Miss Lilla Ormond a mezzo soprano sang several groups of songs and added variety to the programme.

MRS. JENNINGS

Mrs. Jennings, of Washington, and Miss McCook, of New York, two American visitors at Government House, were much admired in handsome costumes. Mrs. Jennings wore white liberty satin en princess, with overdress of white hand embroidered white tulle, with yoke, flowers, veil and feathers.

Miss McCook was also in white satin, richly trimmed with Milanese lace, diamond ornaments and feathers and feathers. Her charming personality has made her a favorite everywhere, was much admired in an exquisite gown of white hand embroidered white tulle, with yoke shaped and bretelles of black jet in State effect extending to the knees. The bodice also had much silver trimmings and her veil was fastened with diamonds and surmounted by a handsome diamond tiara. She wore the jeweled order of St. John of Jerusalem.

Miss Gladys Hanbury Williams was very attractive in white satin, veiled in chiffon in tulle effect, embroidered in silver and outlined with silver bangles. She wore an old pendant and carried a bouquet of roses.

It Leaves the Skin Tingling With Health

There is a wonderful difference in soaps. Have you ever noticed how one kind leaves the skin soft and white while another may leave it red and rough?

Both soaps looked alike, perhaps. But the difference was in the material. Let us tell you what we put into *Infants' Delight*, then decide if you can continue with common soap.

Ceylon is an island in the Indian Ocean, and from there we bring pure coconut oil 12,000 miles to our factory. Then we go to France for vegetable oil, and often pay double what we might pay. But our oil is pure enough for your table.

These oils are doubly boiled and then milled by our own special process, after which they fall like flakes of snow into enormous bins.

Then they are crushed under a weight of 30 tons to press out the moisture. Next they pass through granite rollers and come out in miles of silky ribbons. Finally they are dried eight times and then stamped into cakes.

Could you imagine a more delightful soap than this? It lathers into a rich, creamy foam. It wears as thin as a wafer. It leaves the skin as soft as velvet and as smooth as satin. It is the very utmost in perfect soap.

The perfume is the delicate scent of the roses. We pay \$100 a pound for pure Otto of Roses, but it requires 3,000 pounds of rose leaves to make a single ounce. The fragrance is simply exquisite—it brings the breath of a million flowers. Use a single cake and learn how delightful it really is—it costs no more than the common, so why not have the best?

BURGESS HEARING FURTHER ADJOURNED

Truro, N. S., Nov. 15.—Detective Welsh, although expected here this morning with pals of Burgess, the accused Canadian Express office looter, was not on hand this morning when the examination was called by Magistrate Taylor. Application was made by Crown Prosecutor McLatchey for a further remand of one week which was ordered. Burgess has been confined to jail for 24 days without examination.

A New Y. M. C. A.
Hamilton, Ont., Nov. 15.—The cornerstone of a new \$50,000 boys' Y. M. C. A. building was laid on Saturday by Mrs. Nelson Mills.

ST. JOHN, TUESDAY MORNING, NOV. 16, 1909.

CANADA AND THE EMPIRE'S WARS.

It would be worth while for some friend of Sir Wilfrid Laurier to try to persuade him to abstain from proclamations as that Canada is a nation and will go to war without the sanction of her own Parliament. Canada is a nation if we choose to use this title. Scotland and Ireland are also nations. So is the Isle of Man. The title has no significance in relation to autonomy or defence.

THE DOCK.

It was learned from England on Saturday that the new River and Georgian Bay Canal was in a fair way to be taken up. The message of yesterday is that the promoters of the dry dock project have settled with the Government the terms of the Levis dock proposition.

A WORD FOR FREEDOM.

Various journals, themselves claiming to be independent, have been reading various leaders out of their respective parties. Several of Sir Wilfrid's colleagues, notably the two in charge of the sea and land defences, have been so treated. One journal has decided that the Government should have a new leader, and in fact at both old parties should be re-organized.

man who is not in harmony with the leaders in all things may still be a good supporter. It is necessary that a ministry should have a majority on every Government proposition. The constitution requires this and a government cannot stand without so much uniformity on the part of a majority.

PROFESSOR GOLDWIN SMITH.

Those who have responded feelingly to the valedictory of Professor Goldwin Smith, do not remember that The Bystander had twice before announced his final withdrawal from journalism. Several times also Dr. Goldwin Smith has said that he would not again speak in public. The time must be near when he can speak or write no more.

He failed too, in reading the signs of the times. Perhaps the best political writing that he did in Canada is found in the first series of The Bystander. But let any one take this volume and compare his forecast of national events with the way things have worked out and it will be seen how deficient he was in estimating national forces.

THE CASE OF MRS. STETSON.

Great interest is felt in the case of Mrs. Stetson, lately the First Reader in the leading Christian Science Church in New York. Mrs. Stetson is now under suspension as the result of an inquiry by the mother church at Boston into her teaching and practice.

It is announced that an appropriation will be made this session for a public building at Fairville. This statement lacks novelty. In the session of 1908, two years ago, Parliament voted \$5,000 for this building.

The provincial opposition in Nova Scotia is putting up a splendid fight in four by-elections now pending. There was at the beginning a fighting chance in every riding, and the recent North Essex by-election is a notice that fighting chances should never be neglected.

It is announced that Hon. William Pugsley has presented a claim of \$2,000 against the steamship Premier. Can it be that this is the same \$2,000 which Mr. Pugsley's organ represented him to have presented to this steamship enterprise?

Both the Telegraph and Sun make mention of alleged differences in the Conservative party. But one of these Liberal journals says that the other speaks for "buccannery" and "grafters," while the other says of the one that it is plotting to get \$50,000,000 worth of public property for its owners and their friends.

The last editorial word of the Sun yesterday was that "The Telegraph has undoubtedly earned the right to speak with authority on the priv of political facility."

THE HEAT FEELS GOOD. These are the days when you begin to worry about your heating apparatus. Don't worry. Phone 1888. G. W. WILLIAMS, 18 Waterloo Street.

PITHY PARAGRAPHS OF LOCAL INTEREST.

Insurance Agent Wanted. The local police have received a communication from the chief of police of Pembroke, Mass., asking them to be on the watch for Everett F. Martin, a former insurance agent and broker of that place, who is wanted there on five charges of larceny, amounting in all to more than \$2500.

I. C. R. Grievances. The preliminary meetings of the Board of Investigation and Investigation of Grievances between the machinists of the I. C. R. and the management was held in Montreal on Monday last and without taking evidence the board proceeded to Ottawa where they met Mr. Butler. It was decided to meet in Moncton today for the taking of evidence.

I. C. R. Elevator Starts Today. The intercolonial grain elevator will start working today in preparation for the winter port season. Twelve car loads of grain reached the city yesterday morning. There was much activity about the yards and elevator, as the car loads were the first grain to reach the city over the Government road. Other large cargoes are en route here. A large amount of general cargo is now on hand.

Inquiring For a Site. Mr. W. E. Anderson, secretary of the Board of Trade, has received a communication from the representative of a big rubber manufacturing concern which is desirous of locating a manufacturing plant in Canada, asking about the prospects for a site and facilities here for handling such a business. The concern now has a large plant in Wisconsin. Mr. Anderson has replied to the inquirer giving him all the information possible.

In the Police Court. In the police court yesterday afternoon, Martha Mountain, charged with stealing articles of wearing apparel from the residence of her former employer, Mr. A. C. L. Tapley, Douglas Avenue, pleaded guilty and was sentenced to the Home of the Good Shepherd for an indefinite period. Mr. Tapley called her in as a witness. The girl had been employed in his home as a domestic and the articles were missed when she left. Detective Killen told of the arrest and the finding of the stolen goods in her possession. The girl on being questioned by the magistrate said she was 15 years old and belonged to Amherst. She left home without her parents' consent about four weeks ago and came to St. John. In the court in the morning Mr. Scott E. Morrell, on behalf of Alfred Montague, reported for doing business in the city without a license, asked that the hearing be postponed until Thursday. The request was granted. Frank Boyer, a clerk in the employ of Mr. Frank Porter, druggist, 303 Union street, reported for selling on October 22nd last His Honor made an order appointing November 9th inst. as the time to present Mr. Wetmore's petition and at the same time ordered the stay pending the hearing. On October 29th Messrs. Powell and Harrison, acting for W. H. Thorne and Co. Ltd., applied to have the order for staying set aside on the ground that such order could not be made until the petition had been presented. Argument in the matter was to have been heard on 9th inst, but was adjourned until yesterday when it was further adjourned until the 30th inst.

Hon. William Pugsley, M. P., has filed a claim against the company for \$2,800. Messrs. Weldon and McLean appeared for the petitioner; Powell and Harrison for Messrs. Thorne and Co. Mr. A. H. Hanington and Mr. A. A. Wilson for other creditors.

IN THE COURTS.

ADMIRALTY.

The Clifton S. S. Co. Hearing on the application to wind up the Clifton S. S. Co., owners of the S. S. Premier, by Gilbert Wetmore, was postponed by His Honor Mr. Justice McLeod in chambers yesterday morning until the 30th inst. The Premier cost \$5000 and Sheriff Freeze of Kings county, had made a levy under an execution issued by H. Thorne and Co. Ltd. The steamer was advertised for sale, which was to take place on October 30th. Mr. Wetmore's claim is for \$25,235, mostly for wages. On October 29th His Honor made an order appointing November 9th inst. as the time to present Mr. Wetmore's petition and at the same time ordered the stay pending the hearing. On October 29th Messrs. Powell and Harrison, acting for W. H. Thorne and Co. Ltd., applied to have the order for staying set aside on the ground that such order could not be made until the petition had been presented. Argument in the matter was to have been heard on 9th inst, but was adjourned until yesterday when it was further adjourned until the 30th inst.

EQUITY.

November Session. The November session of the Supreme Court in Equity will open this morning at 11 o'clock. His Honor Chief Justice Barker will preside. No cases have as yet been entered for trial.

DIVORCE.

Case Settled. The Divorce Court will open here this morning at 11 o'clock. His Honor Mr. Justice McKeown will preside. Judgment in the case of Fanyky vs. Fanyky will be delivered. The case of Arnold vs. Arnold, a Kings county case, an action for the separation of husband and wife, was settled yesterday morning in the office of Recorder Skinner. This procedure will make it unnecessary to have the matter brought before His Honor today, the date set for the hearing. By the agreement reached, the husband, who is the defendant in the case, gives to his wife certain portions of real estate owned by him, and a deed of separation is granted. Mr. G. W. Fowler appeared for the defendant, and C. N. Skinner and J. R. Freeze for the plaintiff.

PROBATE COURT.

Estate of William Gray. The matter of the estate of William Gray, steward, was taken up in the probate court yesterday. The deceased died intestate, leaving one child only, a son, Arthur H. Gray, of Lenoxyville, Tennessee, electrician who joined with James Gray, a brother of deceased, for the appointment of the brother as

LADIES COLLEGE IN ANNUAL CONCERT.

Sackville, Nov. 15.—The annual concert of the faculty of the Mount Allison Ladies' College and Conservatory of Music, was given Friday evening in Beethoven Hall and as in former years, afforded the Sackville public a rare treat. Seldom has one the opportunity of hearing such a company of artists on a single programme and the audience well welcomed them this evening attested to the genuine pleasure which these concerts have always given. The various departments of the college were represented by a member of the faculty. The Misses Ruggles and Smith most sweetly and charmingly rendered their vocal selections. Miss Tait, of the oratory class, gave two scenes from "The School of Scandal." Miss Tait during the past summer pursued advanced work in her special art at Boston and was never heard to better advantage. Her rapid transition from one character to another deserves especial mention. Miss Booth gave two piano solos in her usual dainty and characteristic style. Professor Frederic Beaumont, who was appointed as assistant director of the Conservatory of Music at the beginning of this year, appeared on this occasion before a Sackville audience for the first time. The music loving people of the town have been looking forward to hearing Prof. Beaumont and his performance this evening was up to the usual high standard held by the Mount Allison Conservatory professors. Prof. John Barnett, of the Royal College of Music, speaking of Prof. Beaumont, said: "He is a most accomplished pianist and is in every respect well qualified for a professorship of music." A leading English paper speaking in praise of his playing on one occasion said:—"Chief place must be given to his brilliant pianoforte playing of Mr. Beaumont. His playing is characterized by all the delicacy and vigor of interpretation, the eloquent phrasing and the artistic finish of a player of the highest attainments." Professor Harry Horsfall, Director of the Conservatory, gave both piano and organ solos. Mr. Horsfall is equally at home with either instrument and is always appreciated with intense interest and attention whenever he appears on a concert platform. We were not disappointed in him this evening for his rendering of his numbers surpassed any former appearance in this city. Following is the programme:— Overture MasanielloAuber Arranged for two pianos.

TOEIC LENSES.

Cost a little more than ordinary lenses—and are well worth the difference. Mounted in Eyeglasses or Spectacles they admit of a wider range of vision. Being ground with a deep inner curve such glasses may be placed closer to the eye and are consequently more becoming. They entirely eliminate eye-tiring reflections and lessen muscular effort. We will be glad to explain more fully without you incurring the least obligation to buy.

PROGRESS OF AVIATION A REVELATION. The Remarkable Growth of the New Industry in France—A Business That Has Developed in Two Years.

WOMEN EAGER TO LEARN TO FLY. Paris, Nov. 15.—Less than two years have elapsed since the Deutsch-Archdeacon prize was won, and the scientific world has been obliged to admit, in view of Mr. Henri Farman's circular kilometre, that flying was, at any rate, possible.

More Rapid. From an industrial standpoint the progress has been even more rapid, and the comparison between the automobile and the aeroplane even more striking.

Victoria Hotel. 51 and 53 King Street. Electric passenger elevator and all modern improvements.

WOMEN EAGER TO LEARN TO FLY. Paris, Nov. 15.—Less than two years have elapsed since the Deutsch-Archdeacon prize was won, and the scientific world has been obliged to admit, in view of Mr. Henri Farman's circular kilometre, that flying was, at any rate, possible.

WRIGHT PATENTS. Since the acquisition of the Wright patents by M. Lazare Weiller, and the formation of the Societe Generale de Navigation Aerienne, it is understood that these patents in France, were not considered a delay in placing machines on the market, owing to the slowness with which raw material has arrived from America.

WILLING TO SHARE HER LUXURIES. "Maude—'What did you say when Miss Bullion told you she could only give you a sister to you?'" Jack—"I asked her if she thought she could get her father to sign adoption papers."

HEARD IN EDINBURGH. Young Donald—"Here, MacGregor—guides—here's a Chinaman!" The Chinaman—"Hogs awa' ye young deavils, or I'll be clootie!"

MINISTER IS WHIPPED BY SUFFRAGETTE. Bristol, Eng., Nov. 15.—A suffragette armed with a horsewhip attacked Mr. Winston Spencer Churchill here Saturday afternoon. It was only after a struggle that the woman was released.

New England Forecast.

Washington, D. C., Nov. 15.—Forecast for New England: Fair and cooler Tuesday; Wednesday, fair in east, rain or snow in west portion; light west winds, becoming variable.

AROUND THE CITY

Mr. McNicholl Here Today.

Mr. D. McNicholl, vice-president of the C. P. R., will arrive in the city at noon today and at 3 o'clock this afternoon will confer with the Harbor Board with reference to the transfer of the West Street wharf to the C. P. R. The consensus of opinion seems to be that the Dominion Government will be asked to make the agreement with the railway company.

Preparing For "Scotch Night."

Many of the young people in the city are preparing for "Scotch night" which will be celebrated by St. Andrew's Society on the night of the anniversary of their patron saint, by practicing the reels and schottishes of the land of the heather. Last evening Mrs. Thomas Walker had a party for this purpose and last Friday a similar gathering was held by Mrs. James Jack.

St. David's Y. P. A.

At the regular meeting of the Y. P. A. of St. David's church held last evening, Rev. A. B. Cohoe gave a scholarly address on The Bible, the Book itself. There was a very good attendance and the address was much appreciated. During the evening Margaret A. Milligan sang with much charm the beautiful solo Our Blessed Redeemer, from the Cantata, Christ and His Soldiers. Miss Edith Doherty acted as accompanist. A violin solo by Mrs. J. C. Dempster completed an excellent programme.

River Season Nearly Over.

The time for the closing of the river is fast approaching and the boats are preparing to go into winter quarters. A noticeable drop in freights has taken place during the past few days, and it is likely that the end of the week will see the last of the season's freight. The Victoria will go off the route tomorrow and the May Queen will probably lay up at the end of the week. The other boats will keep running as long as possible but it is likely that November 20 will see all of them in winter quarters.

Starting in Business.

The Clifford Drug Company, says the Campbellton Tribune, is the name of the new firm which will shortly open up for business in the shiretown. S. L. T. Clifford who is at present with the White Drug Co. will be manager. They expect to be open by the first of December. Mr. Clifford is a St. John boy, a son of Mr. Samuel Clifford, and was formerly employed in the drug store of Mr. E. R. W. Ingraham, West End. He is twenty-one years of age, and his many friends here will be pleased to learn of his success.

Hestia Victim Buried Yesterday.

The body of one of the thirty-five victims of the Hestia wreck which was picked up at Bullerwell's Cove near Yarmouth, was buried yesterday unidentified beside those of other seamen. The six survivors of the wreck who went from here to Montreal sailed for Glasgow on the Hesterian Saturday. Salvaging the wreck has been abandoned after four wrecking companies have made attempts. The underwriters will take charge of the hull, and what remains of the cargo. Capt. Logan reports that the steamer is still holding together but will not outlast the first severe storm.

Irish Minstrel Show.

The Irish minstrel show given by the Alexandra Minstrels in Alexandra Temple Hall last evening was a great success as the hall was not large enough to accommodate all who were desirous of attending the show. The minstrel part of the performance was excellent and the comic songs and speeches of the endmen kept the audience in roars of laughter. The sentimental ballads were also very good and are deserving of some mention. In the olio the comic sketches of Messrs. Robertson and Brown and Estey Bailey were much appreciated as were also the other numbers. The playing of the accompanist, Miss Helen Miller, was excellent and she is deserving of much praise. The show will be repeated this evening when it is expected there will be another large attendance.

Great Sale of Carpet Squares at M. R. A's Today.

This is a stock taking sale and consists of about fifty odd squares in Brussels, Velvets and Axminster, attractive designs and desirable colorings. These squares will be sold at remarkably low prices to close them out quickly and it will pay you to attend as two can be purchased for about the price of one square next spring. Buy square at \$3.95 Come early and make your selections before the best patterns have been taken. Carpet Department, Germain street.

PERSONAL.

Rev. C. W. Corey, Wolfville, will leave soon for Vancouver, having been appointed travelling secretary for the British Columbia branch of the British and Foreign Bible Society. Mr. James Howard, of the Board of Health staff, who has been ill in the house for the past week, is reported improving. Rev. Gordon and Mrs. Dickie returned to this city from St. Stephen yesterday. Mr. Harry Berry and Mr. Robert Burns, Fairville, have left for a trip to Boston and New Hampshire.

MR. DURANT AND HARBOR BOARD HAVE COME TO AN AGREEMENT

Terms For Transfer Of Property In Lower Cove Are Mutually Acceptable—A Free Rate But No Tax Exemption—To Pay \$15 a Head For School Children.

When the Common Council meets in special session tomorrow evening, it will consider a recommendation of the Harbor Board that Mr. F. C. Durant be granted a lease of the site adjoining Charlotte street extension on terms which Mr. Durant has accepted. Provided the council accepts the recommendation, there seems nothing now in the way of the large sugar refinery being established here. The agreement was drawn up at a meeting of the Harbor Board last evening at which Mr. Durant was represented by Mr. F. R. Taylor, of Weldon & McLean. The Mayor presided in the absence of Ald. McGoldrick, and Ald. Baxter, Elkin, Belyea, Codner, were present with the city engineer.

According to the terms of the lease Mr. Durant agrees to erect a plant costing \$2,000,000 and capable of producing 3,000 barrels a day. He is given one year to begin building operations and three years to start the factory.

He agrees to lay a water pipe from the Marsh road and to pay \$2,500 a year for water privileges, provided the consumption does not exceed 1,200,000 gallons to be charged at a special rate.

\$15 a Head For School Children.

Another gain to the city is Mr. Durant's covenant that he will pay \$15 a head for all children of employees who attend the public schools. The assessment on the property is placed at \$2,000 for the first ten years payment to begin immediately, \$4,000 for the second ten years and \$6,000 for the third decade, after that, the

property is to be assessed on half the valuation. Under the terms of the lease, the adjacent properties in the slip will not be interfered with and the city will make provision for sewers which have been using the site which Mr. Durant will occupy. The Harbor Board will recommend the council agrees, application will be made to the provincial legislature for authority to grant the land in fee simple to Mr. Durant's company.

The I. C. R. Treaty. One matter in connection with the granting of the lots which was not discussed last evening was the removal of the I. C. R. treaty from the slip. The board considered that this was a matter to be arranged between Mr. Durant and the I. C. R. The city will accept no responsibility for the removal.

Mr. Taylor went over the terms of the agreement as outlined and expressed himself as satisfied that they would meet Mr. Durant's views. A check for \$500 from Mr. Durant for the purpose of defraying legal expenses in connection with the transfer was received.

The business at the meeting last evening was facilitated by a conference held in the afternoon in the Mayor's office, attended by the Mayor, Mr. Durant, Mr. W. J. Foster, president of the Board of Trade, Mr. W. H. Thorne, Ald. Baxter, Ald. Likely, Ald. Elkin, Ald. Belyea and others, at which the proposition of the Harbor Board as previously drawn up, was partly agreed to by Mr. Durant, and a number of alterations suggested.

SIGHT IN DANGER FROM ACCIDENTAL DISCHARGE OF GUN

Twelve Year Old Fred Fisher Of Erin St., Seriously Injured Yesterday—Face And Hands Are Badly Burned.

As a result of playing with a shot gun, twelve year old Fred Fisher, of Erin street, had his hands and face badly burned yesterday afternoon and may lose his sight.

The accident happened in the home of Mr. Robert Tennant on Brunswick street. According to the story told by Frank Tennant, who was with young Fisher when the accident occurred, the boys were in the act of removing the charge from an old shot gun that was in the house. The firearm was accidentally discharged just as young Fisher was in the act of peering into the barrel. There was only powder in the gun, and apart from having his face badly burned and some powder getting into his eyes, he sustained no bodily injury.

Dr. Geo. O. Baxter was called and dressed the wounds, but could not find possible to remove some of the grains of powder from his eyes. He will be taken to the hospital this morning, and it is not known as yet whether or not he will lose his sight.

ALD. SCULLY RESIGNS AS PROTEST FROM FERRY COMMITTEE

Placed Resignation In Mayor's Hands Yesterday—Delays Beat The Record—Boulder Raised From No. 6.

"I have resigned from the ferry committee," said Ald. Scully to a Standard reporter last evening, "as a protest against the everlasting lunacy of the last three or four months. I have had nothing to say in the recent upheaval of the ferry service and will not take any responsibility in the matter. The chair man and Mr. Murdoch have been in charge right through and I can no longer serve on the committee and preserve my self respect."

Ald. Scully handed his resignation to the mayor at the meeting of the general committee yesterday afternoon stating in his letter to the mayor that he was not in sympathy with the administration of the ferry department. The resignation leaves the committee in rather a depleted condition just at present. Through all the stress of the recent inconvenience Ald. Potts has been enjoying a trip away from the city and in his absence deputized Ald. Holder to act as chairman. The latter is indisposed, however, and this leaves Ald. Wilson and Ald. Belyea as the only active members of the committee. The present situation has led the aldermen to consider seriously the proposal for the dismissal of the committee.

Traffic Resumed Today.

It is said that the West Side floats will be in position and that traffic will be resumed as usual this morning. The service yesterday was about as bad as it could be. The Cynthia was at work dredging in No. 5 berth in the morning and an hour was not an unusual period consumed while working a round trip. Soanetaolita making a round trip. At 1 o'clock in the afternoon the boat with the Carleton children on their way to High School on board was held up and the children were more than one hour late in reaching the school. Ald. Scully was also on board and the delay may have had something to do with the filing of his resignation.

KEEPER DISCHARGED FROM HOSPITAL FOR STRIKING PATIENT

George Osborne Left Institution For Nervous Diseases At Short Notice—Acted Contrary To The Rules.

On Saturday afternoon, George Osborne, a keeper at the Provincial Hospital, became provoked at one of the patients and struck him several times about the face and body inflicting severe punishment. The matter was reported to Dr. J. V. Anglin, the medical superintendent, and the man was discharged, leaving the same day for Boston on the six o'clock train.

Osborne, previously had been regarded as an excellent keeper, but it is said that this particular patient took an unaccountable dislike to him and has been doing all in his power to make things unpleasant. On Saturday afternoon the keeper told the patient to do some little thing and the latter suddenly struck him in the face. The keeper then lost control of himself, and struck his patient several times, blacking both his eyes and bruising his cheek. The patient, who though disagreeable and had temper, was sane enough at times, reported the matter to Dr. Anglin who made inquiries. When he had satisfied himself that although under great provocation, the keeper had acted contrary to the rules of the institution, he informed the man that he must leave immediately.

REV. H. A. CODY IS CHOSEN RECTOR OF ST. JAMES CHURCH

Unanimously Elected At Meeting Last Evening—Is Now At White Horse, Yukon—Was Formerly At Oak Point.

At a meeting of the congregation of St. James church last evening, Rev. H. A. Cody of White Horse in the Yukon was unanimously chosen as rector of the church in place of Rev. J. Edward Hand, who resigned a short time ago. Rev. Mr. Cody was born in New Brunswick, and is a son of Squire Cody of Cods, Queens county. He was ordained deacon in 1896 by the late Bishop Kingdom. After his ordination he labored for three years in the Parish of Greenwich on the St. John river, with headquarters at Oak Point. In 1893 he went as a missionary to the Yukon, under Bishop Bonpas, the celebrated apostle of the north, and has been in that country ever since. Rev. Mr. Cody holds a B. A. from Toronto University and is a man of literary instincts. He wrote a life of Bishop Bonpas after that venerable prelate's death, which has been widely read. His wife was a Miss Flewelling of Kings county. They have one child.

It is expected that Rev. Mr. Cody will assume his new duties about the first of next year. Rev. Wm. Armstrong will have charge of the church until he arrives.

Later in the afternoon the Cynthia moved to No. 6 and succeeded in grappling the boulder which encumbered the berth. The rock was towed up to the head of No. 5 berth and beached out of the way of all steamers. Ferry matters and the resignation of Ald. Scully formed a lively topic for discussion around City Hall yesterday and it was suggested that chairman of the ferry committee would find some interesting complications on his return to the city.

Wasson's Dandruff

IN EVERY BARBER SHOP. One application will please you. One week's use will prove its value as a Dandruff Cure. 10c. applications. 50c. Large Bottle.

A Pair Of nice soft warm slippers at your bedside is not a luxury, rather are they a necessity. Most homes in St. John have cold floors and cold floors means cold feet. We have warm felt slippers suitable for every member of the family. Naturally the biggest range is for the women folks.

WOMEN'S FELT SLIPPERS 25c. up to \$1.50. MEN'S FELT SLIPPERS 75c. up to \$2.00. CHILDREN'S FELT SLIPPERS 30c. up to 85c.

Waterbury & Rising King Street, Mill Street, Union Street.

ATTRACTIVE DENTAL WORK is as much a part of our business as the banishing of pain. DON'T HAVE UGLY TEETH when you can just as well have pretty ones. As all our operations are painless and our scale of charges is very moderate. DR. D. J. MULLIN, 134 Mill St.

A Beautiful COMPLEXION CUTLAVE is used extensively in refined homes to improve the complexion. It requires no continuous rubbing. In fact, massaging tends to loosen the pores and make the flesh flabby; but if instructions are followed steady improvement will result. CUTLAVE is positively guaranteed not to produce a growth of hair. E. CLINTON BROWN, DRUGGIST, Cor. Union and Waterloo Sts.

Neverslip Shoes Will save your horse's feet. Why? Because after every cold snap it is not necessary to remove the shoes to sharpen. With NEVERSLIPS you put in new calks without removing the shoes and avoid wait and worry. If your blacksmith cannot supply you we can. W. H. THORNE & CO., LTD Market Square, St. John, N. B.

MEN'S MADE-TO-MEASURE GARMENTS Fall clothes for men of taste. If you'll ask the well-dressed man where he gets his tailoring, most every time he'll say Gilmour's.
