

Frederick Gleason: Miss Mildred Mathews, of Gibson, N. B., is at her home with typhoid. Rev. W. H. Gibson, of Gibson, has returned from Coburn county, where he has been visiting his mother, who recently suffered a paralytic stroke. Colin Campbell is quite seriously ill at his home in Bruner, N. B. Mrs. Philip Mackay, of Mayville, fell through an opening in the hay left at her home this morning and fractured her left arm. Major Messy, until recently manager of the Bank of Montreal, in this city, is reported to have left the service. Samuel Jessop, who was only recently appointed the organist of Christ Church Cathedral to fill the vacancy caused by the resignation of J. Stanley Farrar, has resigned his position here. Mr. Jessop has accepted the position of organist in a church at Beaver, in Western Division, and will leave on November 15. Moncton Transcript: Miss Vera Whalley has returned to Montreal, where she is taking a course in professional nursing. Frederick Gleason, of this city, will leave tomorrow evening for Moosehead Lake, to practice law. Sackville Dispatch: Mrs. J. H. Bulmer and daughter will leave today for their home in Winnipeg. Mrs. James Wry left on Tuesday for Boston, where she will spend the winter with her mother. Mrs. W. Houston left on Tuesday for St. John, where she will be the guest of Mrs. J. L. Dawson for a few days. Newcastle Leader: T. G. Russell, Hickson left on Tuesday for Chatham, where she will be the guest of Mrs. Tweedie. Mrs. W. A. Wood, of St. John, was the guest of Mrs. W. A. Wood, of Woodstock, who was the guest of Mrs. J. E. T. London. Mrs. N. H. Smith, of Amherst, expects to leave Saturday for Kingston Co., where she will spend a short time before proceeding to Edmonton, to attend to business matters. At the home of Mr. and Mrs. Joseph Taylor, on Thursday, the young daughter Amanda was united in marriage with Bernard Stafford, son of George Stafford.

STARTLING TALE AT DYNAMITE TRIAL

(Continued from page 1.) witness next saw him, he said he hadn't accomplished anything, as the bridge was too closely watched. This was the bridge that McNamara afterward blew up. About a month after the Los Angeles Times explosion, said Eckhoff, J. J. McNamara sent for him and told him he wanted him to go to Ballagh (Neb.), where he would find J. B. McNamara, and he was to tell J. B. to get away from there, suggesting that he go up to Sioux City and get some kind of work. "I guess you have heard about J. J. McNamara," said Eckhoff, "I am afraid we are in bad." Eckhoff said he was to Ballagh, in the house of Howard Nix, brother-in-law of the McNamaras, and found the mother of the McNamara brothers there. J. B. McNamara and Mr. Nix, and Mrs. Nix. He said J. B. McNamara seemed surprised to see him. "Jim was nervous," said Eckhoff. "After a little while he had a conversation in which he told me he had a notion to kill himself. He wanted me to go out hunting with him, and shoot him when he was not looking. He asked me if I had seen what he had done in the Los Angeles Times Building, and if I had noticed in the papers that the people out there thought it was a gas explosion. He said he had knocked me off." "He said Mrs. McNamara wanted to know at one time what the trouble was, but that J. B. said it was merely a small matter. Eckhoff told of the trip he and J. B. made to Indianapolis, J. B. wearing an old brown suit of his brother and also wearing spectacles to disguise himself. He also told of how, when they reached Indianapolis, he made arrangements for the meeting of J. J. and J. B. that night. Eckhoff said that at one time he purchased six dry cell batteries in Cincinnati for J. B. McNamara. Also he had bought six one gallon cans for him. At Pittsburg, said Eckhoff, J. B. showed him explosive machinery he had with him and explained how the machines worked. After the Times explosion, said Eckhoff, J. J. McNamara gave him six alarm clocks, some battery operated, some cuffs and collars of J. B. McNamara, the cuffs and collars to be destroyed. Eckhoff said the cuffs and collars were made in such a way that they would be destroyed by the explosion of the machinery. Some time later he had been employed to show Mrs. Dye, said Eckhoff, J. B. McNamara said to him in Cincinnati: "Have you seen J. J. for any work lately?" "Eckhoff said that he had not, but had asked for a loan of money. J. B. gave him \$5,000, said Eckhoff. "I am going to have a talk with J. J. and see if he won't give you the job of blowing up Mary Dye. She is going home on a vacation and I could have you ride on the same train and fix the clock for you, so that you could get off the train at a station before it went off and leave the machine on the train near J. J. J. is awfully worried about her."

SHANKLIN ENTERTAINMENT

An entertainment and social was held in the hall at Shanklin Settlement, St. Martins, on Friday evening, 15th inst. Miss Grace Green, the teacher, conducted the entertainment, which was a success. Owing to the wet and stormy evening, very few from a distance were present. The programme was as follows: Opening chorus—Red Wings. Recitation—Charles Ellis. Recitation—Margaret Burchill. Recitation—Pearl Ellis. Recitation—Harry Short. Duet—Sue and Dora. Recitation—Rebecca Vermer. Recitation—Annie Vermer. Tableau—Every Person Works But For Himself. Recitation—Ronald Short. Quartette—Just Before the Battle. Recitation—Johnnie Hunter. Recitation—Florence Vermer. Dialogue—Circumstances Alter Cases. Recitation—Bessie Hunter. Recitation—Nellie Hunter. Closing chorus—God Save the King. The proceeds, some \$15, will go to the school taught by Miss Green.

Speech indicates a Busy Session Reference to Naval Aid Indefinite and Evasive

The Members Introduced with the Usual Cheers—House Adjourned Till Monday, When Debate on Address Begins and is Expected to be Lengthy.

Ottawa, Nov. 21.—The curtain went up on the second session of the Borden government under ideal conditions so far as the spectacular display and the conditions were concerned. Half an hour after the opening of the session, the speaker of the House, Mr. Borden, rose to deliver the address in reply to the speech from the throne which was the first order of business. The whole proceedings were practically a duel between the speaker and the new minister of public works.

Bulgarians Renew the Attack Bombardment of Forts Heard Plainly in Constantinople

McManigal Says He Was Sent to Do the "Job" to Divert Suspicion from McNamara, But Plant Was Too Well Guarded

Los Angeles, Nov. 21.—The Los Angeles Times building was too well guarded and illuminated at night to be blown up by dynamite, said McManigal today. He said he was prevented from carrying it out by the discovery on Tuesday that the auxiliary plant was too well guarded and illuminated at night. Instead he set a bomb in an iron works plant to explode on Christmas day. This was the plan which was proposed to get rid of Miss Mary C. Dye, McNamara's stenographer at the union headquarters, "because she knew too much."

FREDERICTON

Fredericton, N. B., Nov. 18.—Very Rev. Dean Schofield on behalf of the Ministerial Association, has requested an interview with the city council. He states that members of the association desire to call the attention of the council to the advisability of providing the city with free public playgrounds. The association is to present a petition, praying that Scully Grove be procured by the city for use as a public playground. Mayor Hooper informed the dean that the city council would meet Monday, Dec. 2, and that the Ministerial Association could present their petition on that occasion.

MONCTON

Moncton, N. B., Nov. 18.—There was an unusually large dock before Magistrate Stevens this morning in the police court, including five for drunkenness, three young fellows charged with stealing a quarter of lamb and eight pounds of butter from Gideon Stevens of Glosby field, and three boys charged with stealing brass from the I. C. R. and selling to junk dealers. There was also a C. T. case, in which Dennis Bourgeois was fined \$20 and costs.

NEWCASTLE

Newcastle, Nov. 18.—The Miramichi Lumber Company's mill at Douglastown closed down Monday afternoon, having run longer on the river except one small mill in Chatham opposite.

HAVELOCK

HaveLOCK, Nov. 18.—Rev. J. B. Ganning has tendered his resignation as pastor of the Baptist church here, to take effect at the end of his year 1912. Rev. Mr. Ganning has made many friends in Havelock and vicinity during the two and a half years he has been here, but having received a call from a church in Nova Scotia he has decided to accept.

HOPEWELL HILL

HopeWELL HILL, Nov. 17.—The winter time table of the Albert railway, which went into effect today, is likely to cause considerable dissatisfaction on account of the connections, or rather lack of connection with the I. C. R. for points west. Leaving Albert at 8:30 in the morning, the train makes no connection at Salisbury with trains going west, before the middle of the afternoon, passengers for St. John and other places in that direction having to wait from 9:30, the time of the Albert train's arrival at Salisbury, till about 3 o'clock in the afternoon. To the large number of travellers going west, this stop-over will occasion no little inconvenience and delay, and extra expense as well. By the winter time of former seasons, connections were made both ways at Salisbury, but now, it seems, the I. C. R. train goes too early for the Albert train on its changed time. During the summer and fall connections have been made each way with the afternoon train. Possibly a change of time on the I. C. R. later on may correct matters.

REXTON

Rexton, N. B., Nov. 18.—The death occurred yesterday afternoon at his home in East Galloway, of William Parkhill, at the age of 81 years and three months. His

parents were among the first settlers of this country. He is survived by his widow, who was Miss Butler, of St. Anne, and three sons, Robert, of Boston; Joseph, of New York, and John, at home.

Seems Doomed—Ice Bridge
Forming at Chatham.

Chatham, N. B., Nov. 19.—Another span
of the southern bridge fell yesterday.
Two spans had fallen in the summer and
destroyed this means of communication
across the Miramichi and nothing has
been done to repair the structure. Other spans
will likely go soon and the whole structure
will probably go out with the spring
freshet.

The ice formed in the river on Saturday
night when the thermometer dropped to
19 below, the lowest so far this season. The
ice completely spanned the big sheet of
frozen from shore to shore. It held good
during the day and was broken only at
the points where the ferry boats crossed
at Chatham and Newcastle. The tem-
perature, however, went up last night to
25 degrees and this morning the ice was
running down the river.

The date is very early for the river to
be frozen from shore to shore. The pho-
tographers had to be brought up river yester-
day by a tug as they were helpless in
the thin ice. Two rowboats started out
from the Chatham side of the river on
Sunday morning, but could make prac-
tically no headway so thick was the ice.
There was no wind yesterday and that
kept the ice from being broken up earlier.

FIVE NEW SENATORS PARLIAMANT OPENED ON THURSDAY

Some Surprises in Selections

Nathaniel Curry, William Dennis and W. B. Ross Among Them

Sir Wilfrid Laurier and Lieutenants Confer and Decide on an Aggressive Opposition—Immigrants Must Have \$50 in Cash on Landing After Dec. 1.

Ottawa, Nov. 19.—The six senatorial vacancies from Nova Scotia and Prince Edward Island have been filled after considerable difficulty on the part of Premier Borden in deciding how to distribute six places among a score or more of applicants.

The new senators from Nova Scotia in succession to the late Senators Bell, Conroy, Rose, Miller and Mackay are respectively: W. B. Ross, E. C. of Middleton; E. L. Girroir, M. P. P. for Antigonish; William Dennis, proprietor of the Halifax Herald; Dr. Wm. Mackay, of Cape Breton, ex-M. P. P., and former Conservative leader in the Nova Scotia legislature, and Nathaniel Curry, of Amherst, the millionaire ex-manufacturer of the millinery side of the Canadian Manufacturers Association.

The Prince Edward Island vacancy in succession to the late Senator MacDonald has been filled by the appointment of Dr. H. C. Murphy, of Tignish, the unsuccessful Conservative candidate in Prince county at the last election.

One other senatorial appointment will have to be made shortly when the seat of Senator Sullivan, of Kingston, is formally declared vacant by the senator at the opening of the session. Senator Sullivan has been absent for two sessions and therefore forfeits his seat. It is understood the appointment will go to a western Ontario Conservative, the millionaire cheese manufacturer, is slated for the position.

Senator Daniel, of St. John, will move the address in the senate.

Opposition to Be Aggressive.
In Sir Wilfrid's office today there was a preliminary caucus of Liberals. Those present were Messrs. Laurier, Piquette, Charles Wilson (Leval), Turill, Lemieux, Beland, Murphy, Carvell, Turgeon (Oppeles), Emmerson, Sinclair, MacKenna, Kirk, Fisher and Fyfe.

While a programme could not be drawn up until the government has shown his hand in the speech from the throne and has disclosed its naval policy, there was a general determination that the work of the opposition this year would be aggressive and aggressive as it was last session, when the government was on the defensive almost every day.

After December 1 the immigration regulation requiring every immigrant shall be insured against being a care on the state during the winter months, being in his possession upon landing on Canadian soil the sum of \$50 in cash, will come into effect in connection with all classes of immigrants.

The department's provision against vagrancy, as a matter of fact, came into effect on Nov. 1 in the case of all but British immigrants with sufficient property to support themselves. In connection with the latter time was extended for one month by special request from the authorities on the other side. After December 1 all classes and the \$50 regulation insisted upon.

In the summer months, owing to the great demand for work on the newwork, no certainty of work for the newwork, no property qualification whatever was insisted upon.

FAMOUS MAINE GUIDE KILLED FOR A DEER

Shot by One of His Party—Augusta Man Accidentally Shot by His Little Son While Hunting.

Bangor, Me., Nov. 19.—Warren Holden, who was shot Saturday morning, while acting as guide at Seney point above Jackman, is dead. He was acting as guide for Indians men. The body was brought to his home in Jackman.

Mr. Holden was one of the prominent guides in Somerset county. Besides his mother two sisters, Mrs. Cyrus Newton, Skowhegan, and Mrs. Omer Clark, of Portland, and two brothers, Sylvester Holden, of Brunswick, and Charles, of Skowhegan, survive. Mr. Holden was about 40 years old and his family consisted of himself and son.

The coroner's jury reported that Holden was shot and killed near the Canadian line by William Wilding, of Indianapolis, Ind. Holden was mistaken for a deer, while guiding a party of hunters. Holden signed an explanation before dying, removing all blame from Wilding.

Wilding is a railroad conductor and an experienced hunter, who has spent many seasons in search of big game.

Charles Studley of Palermo, who was also wounded in the back as the result of an accidental discharge of a rifle in the hands of his 12-year-old son, James Studley, and now lies in a critical condition at the Augusta General Hospital.

Mr. Studley and his son went on a deer hunting expedition. The father was carrying an ordinary rifle and the boy with a small .25-calibre rifle, which his father had just purchased for him. He was showing it to a man when it discharged.

Charles Studley, Nov. 20.—On a charge of shooting a human being as a deer, William Wilding, the Indianapolis railroad conductor, arrested in connection with the shooting of Warren Holden, of Jackman, in the woods near the Canadian line, was bound over to the December term of the supreme court today. He is hearing at Jackman. He furnished \$2,000 bail.

Ottawa, Nov. 19.—R. A. Pringle, K. C., of Ottawa, has been appointed by the government to investigate the circumstances of the Madawaska steamboat accident in which nine lives were lost through the sinking of the Mayflower last week.

ON THURSDAY

JAMAICA SWEPT BY A HURRICANE AND MANY KILLED

Western Portion of the Island Devastated by Five Days' Storm, and Tidal Wave Ravaged North and South Coast, Practically Wiping Out Two Towns.

Kingston, Ja., Nov. 20.—The western end of the island of Jamaica has been devastated by a hurricane lasting for five days. A great tidal wave has swept over both the north and south coast, practically wiping out the town of Savanna La Mar and Lucoa, both towns of considerable importance.

According to a report brought in by steamer forty-two persons were killed at Montego Bay. All along the coast roads have been wrecked and along the southern coast considerable damage has been done. Communication between Kingston and the centre of destruction is not likely to be resumed for a week.

FORMER BELLEISLE MAN MET HORRIBLE DEATH ON THE I. C. R.

Harvey A. Northrup, of Lewisville, Struck by Train as He Was Going to Work—Son Witnessed Fatally.

Moncton, N. B., Nov. 20.—Harvey Allen Northrup, of Lewisville, an employee of the I. C. R., and formerly of Belleisle, Kings county, was instantly killed this morning a little before seven o'clock at Sunny Brae, being struck by an I. C. R. train.

In company with another I. C. R. employee he was waiting at Sunny Brae station for a suburban train to bring them to work in the I. C. R. shops here. A special freight train from Moncton in charge of Conductor Cole and Driver Taylor crossed the suburban at Sunny Brae, the road there is double-tracked. The freight train eastbound did not stop.

The express for Moncton was at a standstill at Sunny Brae waiting for passengers to get aboard. They had to cross the track on which the special freight was running. Northrup, seeing the freight coming, and evidently thinking the regular train would pull out before he boarded it, crossed the track in front of the special. Apparently he succeeded in getting past it, but it is believed that he was practically nothing ready, except the bank of the West India trade agreement and the bill left over from last session.

The estimate was not yet revised, and the special items of expenditure are all being left over for the supplementary estimates, which will be brought down next spring.

A policy of general expenditure has been unanimously agreed upon and it is certain that the house will be asked to vote this year a total sum exceeding by probably at least thirty millions any previous high record.

LANCASTER DENIES INTENTION TO FIGHT FOR MARRIAGE LAW

Toronto, Nov. 19.—E. Lancaster, M. P. for Lincoln, declares that he has not announced an intention of seeking an amendment to the criminal code, making it unlawful to promulgate in Canada decrees such as the Ne Temere decree, proposed to be passed by the British parliament on Friday, but that he saw no reason and did not discuss the Ne Temere decree with any person. The question raised by the Lancaster marriage bill of the last session of parliament he regards as settled by the recent decision of the provincial committee that the federal parliament has no jurisdiction to enact a general marriage act.

Milwaukee, Wis., Nov. 19.—That John Schrank, who shot Colonel Theodore Roosevelt on the night of October 14, is insane, will be the substance of an unusual report of the five alienists appointed by Judge A. C. Backus to examine into the prisoner's mental condition, was the statement of a court official this afternoon.

SIR WILFRID'S 71ST BIRTHDAY FINDS HIM IN FINE FETTLE

Special to The Telegraph.
Ottawa, Nov. 19.—Sir Wilfrid Laurier was today congratulated by his assembling followers in parliament on being seventy-one years young. The "old chief's" desk in his office in the commons building was decorated with bouquets of red roses presented with the birthday congratulations of the Liberal party, and of his hosts of friends in the capital.

At seventy-one he is in as good "not better" health and spirits than at any time in his life. He enters the session in splendid fighting trim, and is apparently good for many more years of active public service.

HE RAISED THE DEAD TO LIFE

Verdict Reached in Short Order

Rosenthal's Slayers Hear Their Doom With Indifference

Counsel for the Four Condemned Men Serves Notice of Appeal and Their Ultimate Fate May Not Be Decided for a Long Time.

New York, Nov. 19.—"Gyp the Blood," "Lefty Louis," "Dago Frank," and "Whitey" Lewis killed Herman Rosenthal, the gambler, at the instigation of Thomas Becker, and like him must pay the penalty of death in the electric chair.

The jury which has been hearing the evidence against the four gunmen so divided today, when it returned against them a verdict of murder in the first degree after but twenty minutes of deliberation. Like Becker, the gunmen heard the verdict pronounced against them without a show of emotion. They stood at the bar looking straight ahead as the foreman of the jury read to make known the result of its deliberations and they continued to stare stolidly in front of them until the formalities of the proceedings were concluded.

Remanded to their cells in the Tombs until tomorrow morning, when Justice Gott will fix the day for imposing sentence, they turned and filed out of the court room with as firm a step as when they had entered.

"Whitey" Lewis, who was the most dramatic of the four when he testified on the witness stand, almost immediately bowed. As they entered the door leading over the Bridge of Sighs, "Gyp" said something to "Lefty" in a sullen undertone, which some could hear. "Lefty" pronounced against them without a show of emotion. They stood at the bar looking straight ahead as the foreman of the jury read to make known the result of its deliberations and they continued to stare stolidly in front of them until the formalities of the proceedings were concluded.

OTHER WONDERS

New York Medical Congress See Dr. McWilliams Make a Nose from Finger—Surgeons Urge Campaign on Cancer in Women.

New York, Nov. 19.—New marvels in medical progress about which the general public never hears under normal circumstances, are coming to light daily as a result of the Congress of Surgeons now in session here. It became known yesterday that through the system of pharyngeal insufflation devised by Dr. Samuel J. Meltzer, of the Rockefeller Institute for Medical Research, a young man considered by his physicians dead in the ordinary acceptance of the term, was brought back to life some months ago, after the new method of resuscitation had been applied for many hours.

Dr. Meltzer described his method of pharyngeal insufflation in a preliminary note issued from the department of physiology and pharmacology of the Rockefeller Institute early last summer. This method of resuscitation was intended to revive those who had been asphyxiated, or who were seemingly dead, as the result of electric shock. It consisted in a new form of artificial respiration, applicable in such cases and he carried on his studies and experiments as a member of the commission on resuscitation from electric shock appointed by the American Medical Association. In his preliminary report, Dr. Meltzer announced that he had succeeded in restoring life and he held of having put two animals to death and of having subsequently resuscitated them. It had not been announced until yesterday that a human patient who was dead to all intents and purposes, had been revived as the result of Dr. Meltzer's discovery.

It was said that a young physician who was serving on the staff of one of the hospitals in this city took an overdose of morphine, whether by accident or design was not known. The dose was so large that he fell into a deep coma, and the institution to which he was attached it was not believed that he could be revived. Some one recalling Dr. Meltzer's announcement, and suggesting in bringing the dead to life, suggested that it might be worth while to take the body of this man, who was already dead to all intents and purposes, and apply the Rockefeller Institute to see if the application of Dr. Meltzer's apparatus would prove of any value in such a case.

The body for in this case the patient could not be considered otherwise than as dead—was carried to the institute in an ambulance, and for twelve hours the surgeon insisted on the physician employing the pharyngeal method of artificial respiration. For hours there was nothing to show that a spark of life remained in the body, but after twelve hours spent unremitting work with the Meltzer apparatus, the patient was restored.

From a layman's point of view, one of the most interesting operations performed during the day was the manufacture of a perfectly good nose from a man's ring finger, performed at the Presbyterian Hospital, the afternoon of Nov. 19, by Dr. Clarence A. McWilliams. The patient had lost his nose in an accident, and as the result of his deformity was unable to find employment. Finally applying to the hospital for some sort of relief from the tragedy of his daily life.

Dr. McWilliams removed the nail from the ring finger of the patient's left hand and attached it to the base of the nose. He then had him place the finger, pointing upwards, over the place reserved for the nose. A plaster cast supported the patient's arm in this position for 21 days, after which the surgeon amputated the finger from the hand, adding some finishing touches yesterday.

At the Metropolitan Hospital in Brooklyn, Dr. G. S. Harrington drove an iron nose through the joint of a fractured bone to save the limb. Dr. McWilliams, at the Presbyterian Hospital in Manhattan, transplanted a section of the tibia, or small leg bone, to the tibia, or large bone to remedy a defect in the latter.

"The Treatment of Cancer of the Uterus" formed the subject of the evening's discussion, papers on the subject being read by Dr. Thomas S. Cullen, of Johns Hopkins Hospital, Baltimore, by Dr. Wilhelm Wertheim, an assaiant of the famous surgeon, Dr. E. Wertheim, of Vienna, by Dr. X. O. Werder, of Pittsburgh; Dr. Geo. Gellhorn, and Dr. Howard C. Taylor, of New York.

These experts pointed out that many cases of this kind of cancer could be cured, that the high death rate attributed to it came from the fact that the patients had their condition until it was too late to save them. If they would only put themselves under the care of competent surgeons when the presence of blood was the first sign of the cancer's existence, the speaker said, the percentage of cures would undoubtedly be much greater. Even under present conditions, some of them reported, permanently cures had been effected in from twenty to twenty-five per cent of the cases treated.

The scientific name of the operation which is to be so rigorously advocated as Wertheim's radical operation for carcinoma of cervix, named after Dr. Wertheim, of Vienna, who success with it was usually brought about in Germany and Austria that state of public opinion concerning it which the surgeons wish to arouse in this country and Canada.

After the discussion these resolutions were adopted:

Be it resolved, That the time has arrived when if the surgeons of American are called to the duty of the citizens of this country that a campaign of publicity should be at once undertaken to bring to the attention of every woman in the country the early symptoms of cancer of the womb, and to point out that if the cancer be detected in its early stages that it can often be cured.

Be it further resolved, That this society

Byron Wilson the Victim—Potatoes \$1 a Barrel in Carleton County, and \$1.45 in Houlton—Death of Mrs. Alex Henderson.

Woodstock, N. B., Nov. 20.—Mrs. Alex Henderson, widow of Alex Henderson, and an esteemed resident, died this morning. Her death followed a protracted illness and was not unexpected. The funeral will be held Friday. Rev. Frank Dair, of the Presbyterian church, will officiate.

Byron Wilson met with a distressing accident yesterday while operating a threshing machine. His hand was caught in the gears and before he could be rescued part of his arm was drawn in and horribly mangled. He was rushed to the hospital and the doctors amputated the arm at the elbow.

Very few potatoes are coming in, owing to the condition of the roads. Dealers are paying \$1 a barrel, and storing for better prices. Houlton farmers are receiving \$1.45 a barrel and looking for an increase in price, owing to the embargo by the United States government on shipments from other countries.

At once appoint a committee of five to be named by the president, to disseminate this information.

And further, That this committee be instructed to write or have written articles to be published in the daily press, the weekly or monthly magazines, as may prove most expedient.

And further, That they report their progress for the year to the next annual meeting.

Samuel V. Clark Found Dead in Bed—Had Retired in His Usual Health.

St. Stephen, N. B., Nov. 19.—(Special)—Samuel V. Clark, aged fifty-seven years, was found dead in his room in Johnson's hotel shortly before noon today. He was in his sleep yesterday but had been suffering from heart trouble for some time. He retired at the usual hour last night and did not stir this morning, after being called several times, his room was visited and it was found that he had departed. Mr. Clark was a sober and industrious man, and had occupied the shop adjoining the Johnson hotel, when he worked as a cobbler and shoemaker. His wife died about three years ago. Two sons in eastern Maine and a sister, Mrs. James Martz, of this town, survive him.

World's Evangelical Alliance Passes Resolution of Sympathy With Protestants of Canada.

London, Nov. 20.—Great enthusiasm attended the opening of the campaign to protest against the Ne Temere decree by the World's Evangelical Alliance which convened last evening. The vast central hall at Westminster was packed to its capacity. The chair was occupied by Right Hon. Lord Kinnaird, supported by Doctor Hincks, of Toronto; Dr. Montgomery, Presbyterian minister in Ireland; Rev. Chancelor O'Connor, of Christ Church Cathedral, Dublin; Rev. The difference in price between what the producer gets and the consumer pays has led to some discussion in Montreal and Toronto papers. The Montreal Herald, for example, states that in a grocery store on St. John street, the price of apples was \$3.50 to \$3.75. This same day the jobbing price was \$2.25 per barrel, while a country dealer told the Herald that he could deliver No. 1 Syms in Montreal at \$3.25 per barrel.

The family quarrel in Hoehelga, in which Hon. Mr. Coderre was called upon to fight one of his former supporters, has resulted, as was generally expected, in the election of the minister by a very large majority. Many Liberals supported Mr. Coderre, the Montreal Herald reported the coming out squarely and declared it to be the duty of Liberals to vote against Mr. Doyon.

The Council of the British Medical Association is reported to have rejected the improved terms offered by the Chancellor of the Exchequer in connection with state insurance. The terms he offered were considered generous. They contemplated an income of \$300 for every thousand persons insured. A village of moderate size with surrounding hamlets numbers about 3,000 persons, and one doctor could well do the necessary work. This would secure a fair professional income.

British Press Hand Advice to Borden About Naval Policy --One Paper Wants Him to Make Sure That His Successor Cannot Undo His Work -- Another Against Charity Gift From Canada.

London, Nov. 22--The new financial resolution of the Home rule bill was discussed in committee in the House of Commons today.

Austen Chamberlain remarked that if Ireland demanded separation she must bear the burden of her own financial responsibilities.

Lloyd George, chancellor of the exchequer, declared it would pay Britain as well to have a prosperous Ireland as a prosperous West Indies or South Africa.

Honour Law pointed out that Britain did not pay old age pensions in the colonies, and there was no sound reason why she should pay them indefinitely in Home Rule Ireland.

Mr. Bannister moved to amend the resolution providing that payments for Irish services should not involve any change on the British taxpayer.

The resolution was passed by a majority of 115.

The Manchester Guardian, discussing the probability of Canada offering \$200,000,000 for naval purposes, says, since it involves a principle which many Canadians will certainly dislike, it will prove to be Mr. Borden's own idea and not the result of any suggestion from the home authorities.

St. John's Glowing Tribute to the Wonders of the Magic Veedee

Years of Suffering Vanished. Demonstrators Still Busy Doing Good Work at 78 Charlotte Street

The wonderful Veedee Cures that were publicly effected or started at the Keith Assembly Rooms, St. John, last week, and the many striking and sensational results won in sight of the large audience that packed the Hall, continue to be the principal topic of the day.

Many Obtain Quick Relief Who Thought Themselves Incurable. No written testimonials could be so convincing as the actual sight of the marvelous results obtained upon so many sufferers, in the presence of a large audience.

The Following Are Only a Few of the Many Cases Treated at the Keith Assembly Rooms, St. John, on the Platform

SUFFERED TEN YEARS WITH BRONCHIAL ASTHMA. Frank Wren, of the Royal Hotel, suffered for ten years with bronchial asthma. He breathed with difficulty, wheezing being plainly audible, and complained of gripping pains in his chest.

ACUTE PAIN RELIEVED. W. F. Gilfoil, 26 Long Wharf, complained of acute pain in his left arm, which had been injured as a result of an accident.

TORTURED WITH SCIATICA. Arthur Beardley, of Middle Street, almost a cripple from sciatica of six years' standing, the malady having settled in his right leg.

HAD STAMMERED FIVE YEARS. When Master James Leonard, of 108 Bridge Street, came on the platform, the lad was barely able to make the demonstrator understand his name and address.

CHRONIC ASTHMA. Mrs. Addison, Erin Street, who has for twenty years been a victim of asthma, expects relief from the Veedee.

SIGHT GREATLY IMPROVED. Walter Howard, 169 City Road, stated that for three years he had been very short-sighted and wore strong glasses.

REMAINING IN ST. JOHN A FEW DAYS LONGER. At the conclusion of the Lecture, the Demonstrator stated that for the benefit of sufferers wishing to consult him or to procure a Veedee Instrument they would remain a few days longer, and that Free Consultations would be given every week from 11 a. m. to 6 p. m.

CONSULTATIONS ARE FREE. The Veedee Demonstrator makes no charge for callers for consultation, and he would return to all "Veedees" if he did stand, tells you all about this marvelous invention.

NOT A CURE ALL. It might be thought from the number of cases that in the Veedee at last, there has been found the Philosopher's Stone, but the Veedee Demonstrator when questioned upon this point, smilingly said "No!"

GET THE BOOK. "The Veedee and How to Use It," enclosing twelve cents in stamps, which includes this splendid book, written by four qualified doctors, into plain, non-technical language, which all can understand.

When sending the stamps for your copy of the book, you will do well to mention your trouble, and if you enclose a postal money order for Fifteen Dollars, a Veedee will be sent to you at once, with full directions how to use it to get your cure. Whilst the Veedee Demonstrator is still here, sufferers should secure their chance by calling or writing immediately to 78 Charlotte Street.

ALLIES ANIMATED TO HOLD PEACE TALK

Armistice Likely to Be Arranged

Report That Heavy Toll Will Be Demanded from Turkey

Bulgarians Now Said to Be Averse to Occupying Constantinople and Risk Their Army to the Ravages of Cholera.

London, Nov. 20.—The war has shifted for a time from the field of arms to that of diplomacy. It may be that the "war" is near at hand. Anticipations for the belligerent powers will meet tomorrow at the village of Hadzanki, a few miles outside the capital, for a preliminary discussion of the terms of an armistice.

In the meantime the Turkish, Bulgarian and Serbian commanders have ordered a cessation of hostilities, although cannonading, which has been reported as an important, occurred this morning.

The sweeping terms which the allies were said to have demanded yesterday as a basis for the armistice appear not to have been advanced, but it is almost certain that an armistice will be on the basis of the Balkan States holding all the conquered territory until a permanent treaty of peace is signed.

What vestiges of his former power they are prepared to concede the Turk depends largely upon two factors: The strength and supplies of the allied army threatening the gates of Constantinople, and the extent to which the Bulgarians have embraced their plans.

It is certain that great transport difficulties hamper the Bulgarian army on account of the distance from its base, and the rough roads. The choice is between the Turks to weaken the Bulgarian ambition for a triumphal march into the capital and the celebration of mass in St. Sophia.

Will Fight While Talking Peace.

Constantinople, Nov. 20.—Nizam Pasha, commander-in-chief of the Turkish army, issued Pasha, commander of general staff of the war office, and late commander-in-chief, Yemen and Chadad Bey, councilors of state, have been appointed Ottoman plenipotentiaries for the negotiation of an armistice with the Bulgarian representatives.

The question of peace hangs large in the foreground. The fact that the official communications with regard to the Bulgarian reply, issued at both Constantinople and Sofia, make no mention of preliminary conditions, has given rise to comment, as it was generally expected that Bulgaria would insist upon terms before entering into negotiations. Indeed, the belief was very general that Bulgaria would demand the capitulation of Adrianople and the evacuation of the Balkan frontier, and the foreign minister recently stated to the ambassadors that Turkey would refuse to entertain any such stipulation.

Apparently Bulgaria has found good reasons for refraining from such an attitude, especially as the entering upon negotiations will not compel the suspension of hostilities until the armistice has been actually signed.

BORDEN'S NOT SO "SPEEDY" NOW

Thirteen Months in Power and No Naval Policy Yet

IN A HURRY BEFORE Only Objection He Had to Liberal Scheme Was That It Was Not Quick Enough—Tory Leader Likely to "Reform" Civil Service After All the Critics Are Dismissed.

Ottawa, Nov. 14.—Nothing that has occurred for a year has so illuminated the inefficiency and vacillation of the Borden government as the speeches of Stomach, Floating, Pain After Eating, Biliousness and Constipation.

"Fruit-a-tives" is the only remedy in the world made of fruit juices and valuable tonics.

50c. a box, 6 for \$2.50, retail also. At all dealers, or sent on receipt of price by Fruit-a-tives Limited, Ottawa.

New Zealand—and hopes from Canada. The hearts of the Ontario Bagpipers must rejoice at this success of their work.

Sir Richard McBride's latest naval outbreak at Ottawa has been compared by friendly journals to a "strong wind from the west." The simile is correct. Wind it was, and strong as wind. With characteristic self-complacency the B. O. premier naturally demands that Canada should have an army and navy second to none in the world, but undertook to criticize Sir Wilfrid Laurier for not announcing his position with regard to the yet unborn navy. He said that the B. C. knight is becoming impatient at his own leader's delay and feels that Sir Wilfrid ought to continue to guide Canada's policy.

Sir Wilfrid has very clearly defined his policy. His naval propositions were placed before the house and accepted until the Nationalists gained control of the Borden government. If Mr. Borden has anything better to propose it will meet with Sir Wilfrid's approval. If his alternative is not so good, then it will be opposed in the interests of the country.

For the empire, that should be sufficient. For the Borden government, it is a complete failure. The B. O. knight is not so "speedy" now as he was when he first came to power. He is a "slow motion" man. He is a "slow motion" man. He is a "slow motion" man.

DYSPEPSIA MADE HIM MISERABLE

Suffered Agony Until "Fruit-a-tives" Cured Him

Hundreds of people gladly testify to the wonderful curative powers of the famous fruit medicine, "Fruit-a-tives." Ontario Liberal Leader Makes Splendid Impression With Speech at Montreal

COMMERCE AND NATIONAL DEFENCE

Reviews Great Work of Liberals for Imperial Club—Address to Reform Club—Mr. Rowell Shows Complete Familiarity With Political History of Canada.

Montreal, Nov. 11.—Speaking before the members of the Montreal Reform Club tonight, Mr. N. W. Rowell, leader of the Ontario Liberals, reviewed the contributions of Liberalism to the Dominion and to the Empire. In a clear, concise manner, he traced the struggle for responsible government in Canada, the confederation of the Provinces, the evolution of Canada from a colony to a self-governing nation, and the creation of the imperial organization known as the Imperial Conference.

He showed that Liberals had stood for freedom, for progressive measures, for the binding of Canada to the motherland, and for the early struggles for responsible government. Mr. Rowell pointed out that prior to 1841, the Reform Club, and the Conservative Party, were the only parties in the Dominion. He traced the history of the Liberal Party, from its formation in 1854, to its present position as the leading party in the Dominion.

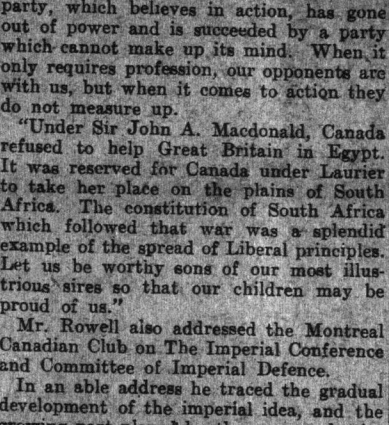

Mr. Rowell described the formation and growth of the imperial conference, emphasizing its representative character and its responsibility, being composed of prime ministers, and its recognition of autonomy, because a ratification is necessary.

In his closing remarks, Mr. Rowell made an eloquent appeal to Canadians to take their place among the free nations of the empire, and to meet the obligations of race, of religion, of party, and paid a glowing tribute to the empire whose history, and institutions we have inherited.

KINGS COUNTY MAN CONVICTED OF BIGAMY

Charles W. Graves Gets Two Years Suspended Sentence; Must Leave His "Affinity" and Support His Wife.

Hampton, N. B., November 18.—In the Kings County Court, under the Speedy Trials Act this morning Judge Jonah had before him Charles W. Graves, a resident of Berwick, Stoddard, charged with bigamy. The prisoner appeared to be quite unconscious of having committed any offense and said "I do not know where I am." He had been married to a woman named Mrs. Pauline Graves, who is now living in the Kings County Jail. He had also been married to a woman named Mrs. Margaret Bridges, who is now living in the Kings County Jail.

The judge sentenced Graves to two years in the penitentiary, but suspended the sentence until he has supported his wife for two years. He must also leave his "affinity" and support his wife.

REFUSED TO BLOW UP RAILWAY BRIDGE

Witness in Dynamite Trial, Tells of Proposal Made to Him by McNamara--Two of Accused Surrendered on Bondsman.

LETTERS TO

THE INCREASED

Indians, Nov. 19.—Labor conditions in Kansas City (Mo.) in which W. B. Brown, business agent of a local iron workers' union, is alleged to have conspired with James B. McNamara to have a bridge across the Mississippi river blown up and to induce a barber to do dynamite in Los Angeles, were described in the "Dynamite Conspiracy" trial today.

Charles Brown, who had been referred to by the government as "an ardent and important witness," testified he became acquainted with McNamara in a barber shop, and later, having met the dynamite maker in Kansas City, he was introduced to him by McNamara. McNamara told him he could get \$500 if he would blow up the bridge. McNamara told him he could get \$500 if he would blow up the bridge.

COEDERE WINS BYE-ELECTION BY BIG MAJORITY

Receives 2,206 More Votes Than Doyon, and Latter Loses His Deposit.

Montreal, Nov. 19.—Hon. Louis Coedere, the recently appointed secretary of state in the Borden government, was returned by his constituency today with the decisive majority of 2,206 over his opponent, Louis Doyon, the choice of the Nationalist-Labor combine.

In fact so meagre was the support given to the opponent of the Borden policy that his cash deposit was sacrificed, he having failed by ninety votes to poll the necessary minimum. Of the total vote polled in the constituency of Hochelaga, Mr. Coedere received 4,222, while Doyon was left down with 2,016.

The fight was never a hot one and at no time in the campaign was the result of the contest in doubt. Even the supporters of the Nationalist-Labor candidate admitted that it was a foregone hope and that the best they could hope for was to register a respectable minority vote that would show that the number of voters opposed to the naval policy which is anticipated from the Conservative ministry, did not have the unanimous support of the constituency.

As matters stand now, however, not even the modest hopes of Mr. Doyon's supporters were realized, for in every ward of the constituency Mr. Coedere received a comfortable majority, that in Westmount being little less than a positive landslide, Coedere getting 1,493 to Doyon's 55.

The standing in each of the four divisions of the constituency follows:

St. Gabriel—Coedere, 1,040; Doyon, 698.

St. Cuthbert—Coedere, 499; Doyon, 337.

St. Henri—Coedere, 1,220; Doyon, 672.

Westmount—Coedere, 1,493; Doyon, 55.
