### DISASTROUS FIRE.

Miller Tanning Extract Company's Factory Burned.

LOSS ABOUT \$20,000

Fire Raged Fiercely and Other Buildings Threatened but Saved.

Fire was discovered at an early hour Tuesday morning at the large factory of the Miller Tanning Extract Company at Millerton. The flames had gained considerable headway before being discovered and it was soon seen that the factory was doomed. Heroic efforts were made to save the adjacent warehouse and bark piles but with the appliances at hand even this was not possible and the whole plant went up in smoke together with a large quantity of extract stored in the warehouse and about three hundred cords of bark. This latter made a fiercely hot fire and is still burning.

The office of the company and surrounding buildings among which was the I. C. R. Station house and freight shed had a narrow escape, but were saved after hard work.

The loss will be in the vicinity of \$20,000 partly covered by insurance. The Newcastle fire engine and a quantity of hose was sent up and did good work.

How the fire originated is not known. The factory had been closed down since Saturday for repairs and a number of men were engaged in excavating for an addition about to be constructed. It is not known whether this factory will be built or not as this will be settled by the managers in London.

### BONAVENTURE.

Messrs Marcell, M. P. and Kelly, M. P. will hold a meeting at Blue Ribbon Hall, New Richmond, on Saturday evening, July 29th, at 7.30.

They have held meetings at St. Jean l'Evangeliste (Nouvelle) and St. Omer. After New Richmond they visit St. Charles de Caplin and Bonaventure. On Saturday, Aug. 5th, they go to Gascons and will hold meetings there and at Port Daniel and St. Godfrey.

New Carlisle will be visited on Saturday, Aug. 12, and a meeting will be held there in the evening.

**Your Worn-Out Stomach.**  
What it needs is the strengthening influence of Dr. Hamilton's Pills—they work marvels where the stomach and digestion are poor. In one day the appetite increases and the whole system is rapidly strengthened. No stomach specialist could write a better prescription than Dr. Hamilton's Pills of Mandrake and Butternut. At all dealers in a yellow box price 25c, or five boxes for one dollar.

### Fire at Eel River.

Yesterday morning the house of Daniel Eel River was completely destroyed by fire. The family were taking breakfast and one of them left the table to go to the kitchen when it was discovered that part of the building was in flames. The fire made such headway that all efforts to save the building were useless. There was no insurance.

## Ayer's

Losing your hair? Coming out by the comb? And doing nothing? No sense in that! Why don't you use Ayer's Hair Vigor and

### Hair Vigor

promptly stop the falling? Your hair will begin to grow, too, and all dandruff will disappear. Could you reasonably expect anything better?

"Ayer's Hair Vigor is a great success with me. My hair was falling out very badly, but now it is growing again and my scalp is all right."—W. G. LORRISON, Lindsay, Cal.

### TO SPEND \$10,000,000.

Millions for the Development of Grand Falls, N. B.

TO HARNESS FALLS

International Railway to be Acquired and Operated by New Company

The projected enterprise at Grand Falls N. B. grows in importance. It is now figured that the huge sum of \$10,000,000. will be extended by the capitalists interested in the development there and the affiliated industries and it is expected that work will be done this year.

Attorney-General Pugsley, who returned Thursday from a visit to New York and Ottawa, had, in the former city, a conference with the men who are back of the development of the water power of Grand Falls. They visited him in New York and as this is a matter in which the people of the province are deeply interested by reason of the great benefit to ensue from the successful carrying out of the company's operations, he had no objection to giving a reporter information he had gathered while in New York as to what the company intended doing and the likelihood of their plans coming to a successful issue.

The gentlemen connected with the enterprise, he said, stand very high in financial circles in New York and, from the best information he could obtain, he had no reason to doubt that they would be able to raise all the money required.

Their plans contemplated the harnessing of the water power at Grand Falls, which will give a minimum of about 60,000 horse power a maximum of about 300,000. The promoters have been induced to take hold of the enterprise by reason of having made discoveries of large deposits of bog or wad iron or manganese in the province and the invention of a process of treating this ore by electricity which, after long continued and expensive experimenting, carried on for the past two or three years at Shawinigan Falls, Quebec has proven entirely successful.

They intend to establish at Grand Falls work for treating the ore electrically and so manufacturing ferro-manganese, a very valuable product.

The company also contemplates the supplying of Grand Falls and other towns along the St. John river with electric energy for lighting and power purposes. They intend bringing the power as far as the city of St. John. Although the expense of doing so will be very great, yet, by reason of the enormous power which can be developed, they feel quite certain of being able to supply the citizens with electrical power at a much cheaper rate than that which has to be paid for from coal.

A part of their plan, also, is to acquire the International Railway between Campbellton and Grand Falls and operate the road by electricity. They also intend to erect pulp and paper mills with capacity of 600 to 800 tons a day and which, he believed, would be the largest mills of the kind in the world.

The operations of the company, if successfully carried out, would mean the employment of several thousands of people and would give an immense impetus to the industrial development in the northern section of the province, while the St. John valley, including the city of St. John, would feel the beneficial results of

### BOY DROWNED.

Adopted Son of Malcolm McCarthy Drowned.

SATURDAY EVENING.

About 6 O'clock At Richards' Mill. Was Seven Years Old.

Clifford McCarthy, adopted son of Malcolm McCarthy, was drowned at the Richards' mill slip on Saturday evening about 6 o'clock. The little fellow was last seen about twenty minutes to six in the mill. He was missed at supper time and a search was made but it was not until Sunday noon that the remains were found. It is supposed that he walked down the inclined platform on which the logs are handed up, and slipped into the water. The bereaved have the deep sympathy of the community.

### GRADING RESULT

The following was omitted from last week's issue.

Grade VI, George McGovern, 75, Etie Savidant 74, Isabel Fraser 66, Mary Graham 63, George Matthews 62, Harold Lapack 62, Gordon Wallace 62, Earl Dineen 59, Wm. Fraser 58, Mabel Scott 58, Wm. Anderson 54, Gladys McMaster 53, Earl Love 52, Oliver Mowat 52, George Thomas 51, David Ferguson 51, Eugene LeCasse 50, Wm. Killam 50, Guy McLeod 50, Evelyn Ward 50, Maude Duncan 50. In Grade VII the following names should have appeared, Warden Mowat 58, Leslie McLean 58. In Grade V Bruce Stewart 74, Annie Traverse 73, Edward Turner 67.

the development which would be thus brought about.

The attorney-general said that the carrying out of the plans would involve an expenditure of probably \$10,000,000. Some details were yet to be arranged but he believed there would be no difficulty in regard to these. The capitalists interested in the enterprise seem to be entirely satisfied with the legislation the government has promoted, he said, and felt that the undertaking would offer profitable employment of capital. The expectation is to begin operations during the present year.

### HOW'S THIS?

We offer one Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

W. J. CHENEY & CO., Toledo, O.  
We the undersigned have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by his firm.

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75 cents per bottle. Sold by all Druggists.  
Take Hall's Family Pills for Constipation.

### ANNUAL MEETING

of New Brunswick Lumbermen's Association

NEW MEMBERS

Appoint Committee to ask for Extension of Leases, Reduction of Mileage etc.

St John, July 25.—The New Brunswick Lumbermen's Association held its annual meeting here yesterday. Nineteen members were present, including Arthur Hilyard Dalhousie, T. M. Burns and Frank Curran, Bathurst; James Beveridge, W. B. Snowball and B. A. Lawlor, Chatham; Fred W. Sumner, of Moncton and J. D. Irving, of Bonaventure. A committee consisting of W. B. Snowball, Geo. McKean, Henry Hilyard, T. M. Burns, J. D. Irving and N. H. Murdoch was appointed to wait on the local government and press the claims of the lumbermen of the province for an extension of the existing leases of license holders, a reduction of the mileage necessary, for better regulation respecting the selection of licensed lands, nominally for agricultural purposes and other matters. The government recently advanced the mileage from \$4 to \$8 a mile. The lumbermen felt that this is a grievance and will seek to have it redressed.

In addition to other routine business the new executive was elected, consisting of the president, W. B. Snowball, Chatham; vice-president, Geo. McKean, St. John; Kilgour Shives, Restigouche; T. M. Burns, Gloucester; Hon. Allan Ritchie, Northumberland; J. D. Irving, Kent; F. W. Sumner, Westernland; C. T. White, Albert; Henry Hilyard, St. John; J. A. Gregory, Charlotte; S. H. White, Kings; Fred E. Sayce, Sunbury; Mr. Baker, York; M. Welsh, Carleton; T. Lynch, Victoria; John E. Moore, Madawaska.

The officers appointed for the ensuing year are W. B. Snowball, president; George McKean, St. John vice-presidents; R. A. Lawlor, secretary.

Applications from fifteen lumbermen for admission in the association were received and accepted. These include Max. Mowat, Campbellton; George McKean, Moncton; I. G. Prescott, Albert, and J. F. Atkinson, McLeod's Mills, Kent County. The next meeting will be held in Moncton the first Tuesday in July, 1906.

Lever's Y-Z (Wise Head) Disinfectant Soap Powder dusted in the bath, softens the water and disinfects.

## Thousands of Women ARE MADE WELL AND STRONG

Success of Lydia E. Pinkham's Vegetable Compound Rests Upon the Fact that it Really Does Make Sick Women Well

Thousands upon thousands of Canadian women have been restored to health by Lydia E. Pinkham's Vegetable Compound. Their letters are on file in Mrs. Pinkham's office, and prove this statement to be a fact and not a mere boast.

Overshadowing indeed is the success of this great medicine, and compared with it all other medicines and treatment for women are experiments.

Why has Lydia E. Pinkham's Vegetable Compound accomplished its widespread results for good?

Why has it lived and thrived and done its glorious work for a quarter of a century?

Simply and surely because of its sterling worth. The reason no other medicine has even approached its success is plainly and positively because there is no other medicine in the world so good for women's ills.

The wonderful power of Lydia E. Pinkham's Vegetable Compound over the diseases of womanhood is not because it is a stimulant—not because it is a palliative, but simply because it is the most wonderful tonic and reconstructive ever discovered to act directly upon the uterine system, positively curing disease and displacements and restoring health and vigor.

Marvelous cures are reported from all parts of the country by women who have been cured, trained nurses who have recognized the virtue in Lydia E. Pinkham's Vegetable Compound, and are fair enough to give credit where it is due.

Women who are troubled with painful or irregular menstruation, backache, bloating (or flatulence), leucorrhoea, falling, inflammation or ulceration of the uterus, ovarian troubles, the "bearing-down" feeling, dizziness, faintness, indigestion, nervous prostration, or the blues, should take immediate action to ward off the serious consequences and be restored to health and strength by taking Lydia E. Pinkham's Vegetable Compound. Anyway, write to Mrs. Pinkham, Lynn, Mass., for advice. It's free and always helpful.

**FAMOUS HALE METHOD** used for painless extracting of teeth. Owing to the importing of our material in large quantities for our other offices in Newcastle and Chatham we can offer you the regular \$15.00 set of teeth for \$10.00, fully guaranteed. Special attention in Crown and Bridge-work

## HOBBY KILLED HIM.

Result of Reckless Speeding of an automobile.

AT 40 MILES AN HOUR

M. T. Hancock of Los Angeles Dead and Wife and Child Seriously Injured.

Los Angeles, Cal. July 1.—M. T. Hancock, a well-known millionaire plough inventor and manufacturer, is dead—as the result of an automobile accident in this city late last night, in which his wife, son and daughter were seriously injured. Hancock himself sustained two fractures of the skull and concussion of the brain. He died in a hospital without recovering consciousness. The party was travelling forty miles an hour, when the machine collided with a buggy. The car swerved to the curbstone and crashed into a telephone pole, demolishing it and hurling the occupants to the street. Saul, dairyman, the driver of the buggy was thrown from his vehicle to the street and severely hurt. M. T. Hancock, jun., a sixteen-year-old boy, was driving the machine at the time of the accident. With him in the front seat was his young brother, Newton Hancock, who was the only member of the party to escape unhurt. In the rear seat was Hancock's wife and daughter. The machine was wrecked. Hancock was known here as one of the most reckless automobile drivers in the city. He had been in the Police Court on different occasions for driving his machine in excess of the speed limit, and on one occasion a few days ago was fined \$150 for fast driving. He paid his fine at the time with a check which he insisted should bear this inscription: "For driving an automobile sixty miles an hour in the city of Los Angeles."

**Chamberlain's Colic, Cholera and Diarrhoea Remedy—The best in Existence**

T. M. Wood, manager of the White County News, Beebe, Ark., is a representative southern business man, who does not hesitate in expressing his good opinion of a well known remedy. He says, "It gives me pleasure to recommend Chamberlain's Colic, Cholera and Diarrhoea Remedy having used it myself and in my family with the best results. In fact I believe it to be the best remedy of the kind in existence." Sold by all druggists.

**OIL FIELDS BURNING**

Lightening Sets Fire To oil In Texas

HUMBLE, Texas, July 5.—Covering an area of three-quarters of a mile square, with a great canopy of smoke covering two miles, the oil tanks of the Texas company boiled and bubbled under the great heat of burning oil today. When the fire can be extinguished is problematical. Certainly not until it has burned all the oil in the eleven big tanks which held 2,500,000 barrels when the lightning struck them Sunday afternoon. It is not known what five negroes perished. There are hundreds of homeless people, many of them only awaiting a chance to go to Houston for shelter. They were living in tents and shacks in the oil fields and fled for their lives to the town. Their belongings have been destroyed by the fire, which runs out toward the oil held, although it has not yet been communicated to any of the derricks or wells. During the whole of the night there was a heavy downpour of rain and this covered the ground with a sheet of water coated with a thick field of oil.

Suddenly the oil gave an upheaval, and lifted a great mass of the burning fluid bodily from the tanks. The burning oil caught the men and mules and hemmed them in. There was a wild scramble for safety, men dropping their scrapers and reins. Some of them mounted mules and escaped but at least forty mules balked and were burned to death. Five negroes were seen to go down and it is not believed they could have escaped. While all of the men have not been accounted for, these five are all that are known to have perished.

**FITSCURED**

If you, your friends or relatives suffer with Fits, Epilepsy, St. Vitus' Dance, or Falling Sickness, write for a trial bottle and valuable treatise on such diseases to THE LEIBIG CO., 179 King Street, W., Toronto, Canada. All druggists sell or can obtain for you.

**LEIBIG'S FIT CURE**

At four o'clock this morning fire broke out in the steel tanks of the Texas Company at the pumping station, a mile from the original fire. What damage was done cannot be ascertained yet, it being impossible to reach that part of field.

**Fastest Long-Distance Railroad Run.**

The publication of the high speeds that were made by the eighteen-airing trains in their preparatory running runs. One of the most interesting contributions to the subject is that of the English railway expert Mr. W. M. Acworth, who, during his visit to the International Railway Congress in this country, was enabled to take notes of some very fast work by the famous American expresses that run during the summer months from Philadelphia to Atlantic City. These trains are scheduled to travel at average rates of 66.6 to 68.1 miles an hour, and on the occasion of Mr. Acworth's trip, a speed of 80 miles an hour was maintained continuously for a distance of 30 miles. In a recent article on the subject, in the London Engineer, Mr. Acworth raised the question whether anything like this performance had been accomplished on the Great Western Railroad's record run from Bristol to London. This was made last year by one of the Ocean Mail Specials from Plymouth to London, when the distance from Exeter to Bristol was made at the rate of 70.5 miles an hour and from Bristol to London at the rate of 71.5 miles an hour, the whole distance of 102.5 miles being thus covered at an average speed of 71 miles an hour. Mr. Rous Martin, who was on the engine during this performance, states that a speed of 80 miles an hour was sustained, with virtual continuity, for 7.3 miles consecutively, the only time that the speed fell below 80 being while the water was being taken from the water trough, the resistance of which reduced it to 75 miles an hour. During the fastest run recorded by Mr. Acworth on the Philadelphia-Atlantic City line, a distance of 55 1/2 miles was covered in 41.2 minutes. The same distance was covered during the Great Western's run in 42 minutes, which brings the average up to 79.3 miles an hour. The American and English runs for this distance were, with virtual continuity, for 7.3 miles consecutively, the only time that the speed fell below 80 being while the water was being taken from the water trough, the resistance of which reduced it to 75 miles an hour. During the fastest run recorded by Mr. Acworth on the Philadelphia-Atlantic City line, a distance of 55 1/2 miles was covered in 41.2 minutes. The same distance was covered during the Great Western's run in 42 minutes, which brings the average up to 79.3 miles an hour. The American and English runs for this distance were, with virtual continuity, for 7.3 miles consecutively, the only time that the speed fell below 80 being while the water was being taken from the water trough, the resistance of which reduced it to 75 miles an hour.

**Wire Wounds**

My mare, a very valuable one, was badly bruised and cut by being caught in a wire fence. Some of the wounds would not heal, although I tried many different medicines. Dr. Bell advised me to use MINARD'S LINIMENT, which I did, and the wounds began to look better, until after three weeks, the sores have healed and best of all the hair is growing well, and is NOT WHITE as is most always the case in horse wounds.

**AWFUL DISASTER IN SAN DIEGO**

U S Gunboat Bennington Blows up—Thirty-nine Killed and 100 Injured.

San Diego, Cal., July 21.—One officer and 38 members of the crew of the United States gunboat Bennington are dead and four score injured, 24 seriously, by a boiler explosion that disabled the warship in San Diego harbor at 10 o'clock this morning. Fifteen sailors are missing. There were more than 250 men aboard when the accident occurred, and many were hurled or forced to jump into the sea by the terrific explosion, which lifted part of the deck and compelled the beaching of the ship.

The Bennington at the time of the accident was lying in the stream just off the Commercial wharf at H street. The ship had received orders from the navy department at Washington to sail this morning for Port Harford to meet the Wyoming and convey her to Mare Island navy yard, San Francisco.

Steam was up and everything was in readiness for the departure of the Bennington when the starboard forward boiler exploded with a deafening roar. The explosion was terrific. People standing on shore saw a huge cloud of steam rise above the Bennington. Columns of water were forced high into the air. A dozen or more men were blown overboard by the force of the blast.

Capt Wentworth, who was looking at the Bennington when the disaster occurred, says he saw human bodies hurled more than 100 feet upwards. The air was clouded with vapor, which enveloped the ship. When the haze cleared away only a few men could be seen on the decks, while a number were seen floundering in the water. A boat was lowered from the vessel's side and most of the men in the water were picked up and taken on board.

On board the Bennington were presented terrible scenes. The force of the explosion had torn a great hole in the starboard side of the ship and the vessel was already commencing to list. A section of the upper deck was carried away from stem to stern. Blood and wreckage were strewn over the entire ship, the after cabin and that part of the ship adjacent to the exploded boiler resembling a charnel house.

Great damage was done in all parts of the vessel. The boiler which exploded, it is said, was regarded as partially unsafe. Commander Young stated that during a recent run from Honolulu the

**FISHERY MATTERS**

Will be Discussed by Provincial Premiers.

Attorney General Pugsley returned yesterday from New York. Speaking to the Sun last evening, Dr. Pugsley said that the announcement of the appointment of a registrar of probate may be expected at any moment, as it will be made very soon. Dr. Pugsley did not feel like saying that George Robertson will get the job, although this is practically certain. Mr. Robertson exhibited a certain hesitation some weeks ago, as he was awaiting developments in dry dock matters, but it is understood that he is now quite ready to accept.

With regard to the holding of a conference of provincial premiers, Dr. Pugsley said that such would surely be held, as Sir Wilfred Laurier had promised it. Dr. Pugsley does not know just when it will be, but his impression is that the date will be fixed for the first week in September. The question of accepting the invitation of Premier Peters that the conference be held in Charlotte-town is one on which the Attor-

ney General was unable to make any statement.

There are a number of matters of importance to come before the conference. Among these will be a readjustment of provincial subsidies, which has for so long been agitated first by one province and then by another.

While the Maritime premiers have a chance at Sir Wilfred Laurier they are going to bring on the fishery award, and this will involve the question of the future administration of fisheries. This latter point Dr. Pugsley considers of much importance.—Sun

People standing on shore saw a huge cloud of steam rise above the Bennington. Columns of water were forced high into the air. A dozen or more men were blown overboard by the force of the blast.

Capt Wentworth, who was looking at the Bennington when the disaster occurred, says he saw human bodies hurled more than 100 feet upwards. The air was clouded with vapor, which enveloped the ship. When the haze cleared away only a few men could be seen on the decks, while a number were seen floundering in the water. A boat was lowered from the vessel's side and most of the men in the water were picked up and taken on board.

On board the Bennington were presented terrible scenes. The force of the explosion had torn a great hole in the starboard side of the ship and the vessel was already commencing to list. A section of the upper deck was carried away from stem to stern. Blood and wreckage were strewn over the entire ship, the after cabin and that part of the ship adjacent to the exploded boiler resembling a charnel house.

Great damage was done in all parts of the vessel. The boiler which exploded, it is said, was regarded as partially unsafe. Commander Young stated that during a recent run from Honolulu the

**FISHERY MATTERS**

Will be Discussed by Provincial Premiers.

Attorney General Pugsley returned yesterday from New York. Speaking to the Sun last evening, Dr. Pugsley said that the announcement of the appointment of a registrar of probate may be expected at any moment, as it will be made very soon. Dr. Pugsley did not feel like saying that George Robertson will get the job, although this is practically certain. Mr. Robertson exhibited a certain hesitation some weeks ago, as he was awaiting developments in dry dock matters, but it is understood that he is now quite ready to accept.

With regard to the holding of a conference of provincial premiers, Dr. Pugsley said that such would surely be held, as Sir Wilfred Laurier had promised it. Dr. Pugsley does not know just when it will be, but his impression is that the date will be fixed for the first week in September. The question of accepting the invitation of Premier Peters that the conference be held in Charlotte-town is one on which the Attor-

## Free Gifts of Toilet Soaps

**Dumas and His Economical Son.**

Alexandre Dumas, the great French story writer, was very fond and proud of his son Alexandre, who also became a famous author. His regard for him was increased apparently by the fact that the son had a very good appreciation of the value of money, a quality which the father did not possess in the slightest degree.

A writer of recollections relates that he once visited Dumas at St. Germain. He had just been bitten in the hand by his dog and was unable to write, but was dictating a novel.

His son went out as the visitor came in.

"Alexander has just left me," said the father. "What a good fellow that boy is! Just fancy, this morning I received 600 francs. He said to me, 'I'll take 50 francs of it.' I didn't quite hear and thought he was going to leave me only 50. So I called out: 'Hold on! Let me have 100 of it at least!' But I tell you I'm only going to take 50!" he called out. "Oh, oh," said I, "I thought you were going to take the 500. Well, take as much as you want."

And Dumas added proudly, "What a golden hearted fellow Alexandre is, to be sure!"

**It Wasn't a Dream.**

Archbishop Thompson was greatly surprised when he was given the archdiocese of York. He had been suffering acutely from toothache and upon medical advice had resorted to narcotics. After a particularly bad night he set out for his doctor, though his wife had besought him not to submit to further narcotics, as after them he was "not himself" for some hours. On the way he met the postman, who handed him a letter announcing his preferment from Gloucester to York. He rushed back and burst excitedly into the house, the toothache all forgotten. "Zoe, Zoe," he cried. "What do you think has happened? I am archbishop of York!" "There, what did I tell you?" rejoined his wife. "You've been taking that horrible narcotic again and are quite out of your head."

**The Marble Bible of Burma.**

Great as has been the amount of labor expended on the various Bibles of the world, the palm for execution must be given to the Kutho-daw, which is a Buddhist monument near Mandalay, in Burma. It consists of about 700 temples, each containing a slab of white marble on which the whole of this Buddhist Bible, containing over 8,000,000 syllables, has been engraved. The Burmese alphabet is used, but the language is Pali. This wonderful Bible is absolutely unique. The Kutho-daw was erected in 1857 by Mindon-min, the last king but one of Burma. The vast collection of temples together form a square, with a dominating temple in the center. Each of the marble slabs on which the sacred text is inscribed is surmounted by an ornamental canopy in pagoda form.

**Cook Island Laws.**

There are some strange laws in the Cook Islands, in the eastern Pacific. The population is Maori and each island legislates for itself. The island council of Manihiki, one of the group, has in force an ordinance to regulate village life within the island. It begins by re-enacting "the ancient law of Manihiki as to dogs" and sentencing to death any dogs on the island. Pigs are not to wander at large, and any person going about after 9 p. m. may be arrested and taken to the courthouse to explain his reason for being abroad. No debt incurred by a native inhabitant is to be recoverable in any court. Selling or giving intoxicating liquor to any native inhabitant is punishable with a fine of \$50.

## VICTORIA FALLS BRIDGE

In many ways the Victoria Falls

bridge, over the Zambesi gorge in

Central Africa, is an interesting piece

of engineering work. In the first place

the structure can claim the distinction

of being the highest bridge in the world

Again the waters of the gorge which

it spans have never been fathomed, and

no one knows their depth. But the feat

is deserving of more than ordinary

notice, not so much on account of its

engineering difficulties, but rather

because the work has been carried

out in the very heart of the Dark

Continent. It was only fifty years

ago that the gorge and the famous

Falls at their head were discovered

by David Livingstone. Now it is not

only possible to reach the falls by rail

but to cross the Zambesi by the iron

road, and proceed northward for a

hundred miles by the same train.

The completion of the bridge

means that another link—and the

most important probably—has been

forged in the great scheme proposed

and started by Cecil Rhodes, namely,

the Cape-to-Cairo railway.

A word here may be said as to the

area which the bridge is located. It

is a little way below the

Falls themselves, on the borders of

what is termed the "Rain Forest."

During the rainy season the great

volume of water dashing over the

mighty chasms sends up five or six

feet of spray to a height

of 3,000 feet, which descends like

heavy rain for an extensive area, whose

limit is variable and is governed by

the force and direction of the wind.

This area is called the Rain Forest

and it is just within its full water

confines that the bridge is located. It

was Cecil Rhodes' wish that it

should be so. He is said to have

uttered the words: "Build the bridge

where the spray from the Falls shall

shower upon the trains as they pass."

He also expressed the wish that

the bridge scheme was put in hand

there were not a few complaints in the

public press, declaring that the erection

of a bridge at the Falls would mar the

beauty of the surroundings. To ascer-

tain the general feeling of the visitors

on the site chosen, a book was kept at the

engineers' camp, and a very large

majority of the opinions are favorable to it,

many visitors being converted from hesi-

tancy to approval on seeing the facts of

the case—in fact, one guest goes so far

as to say the following: "The Falls in

their present position cannot detract

from the beauty of the bridge." It is

## ACADIAN CONVENTION

TO BE HELD AT CARAQUET  
N. B. IN AUGUST

Dr. Comeau Issues a Letter  
to all Interested; Several  
Speakers Announced

Dr. F. H. Comeau, president of the organization in charge of the Acadian National congress to be held at Caraquet on August 15th, and 16th, has issued an address to the Acadians of the Maritime Provinces and the United States in which he asks a full attendance.

The organization committee, he says in the letter, has not lost sight of the fact that the Acadians need to be united in order to study the best means of promoting and safeguarding the interests of all classes of their nationality. This work will be placed in the hands of different committees. The names of the members composing these committees have already been published. The choice of secretaries to preside over and direct the work of these different committees is of great importance. It gives him much pleasure to announce that Hon. Judge P. A. Landry has accepted the position of secretary of the committee appointed to look after their national interests. Rev. M. A. E. Monbouquette, curé of Margaree Est., C. B., as secretary of the committee on education; M. J. W. Dumas of Grand Anse, N. B., that of commerce and industry; Hon. Chas. LaBillette M. P. P., minister of public works, that of agriculture and colonization; Fred Robidoux, editor of Le Moniteur Placide Gaudet of Ottawa, that of "our brother Acadians in Canada," and Monsieur J. H. LeBlanc of Waltham, Mass., that of our Brother Acadians of the United States.

In the course of the reunion, he says they will endeavor to have quiet a number of prominent speakers, who will take up the questions of most pressing interest. He knows however that they would be most gratified to learn that Monsieur M. F. Richard had offered to speak on the subject of agriculture and colonization, Rev. Philippe Belliveau on immigration, and M. P. J. Veniot on the subject of using the French language in the primary schools. A number of other speakers have been invited but have not yet been heard from. The preacher at the opening service will be the curé of L'Anse, N. B., who delivered the sermon at Church Point in 1890.

A special committee under the direction of M. P. J. Veniot has been

missioned to arrange with the different railway lines to get reduced rates of travel for those who wish to visit Caraquet on the occasion.

## OBITUARY.

Mrs. RONALD CURRIE, Sr.  
The death of Mrs. Currie, widow of the late Ronald Currie, sr., occurred yesterday morning at 1 o'clock, after a lingering and painful illness, which she bore with great Christian fortitude and patience.

Mrs. Currie was the only daughter of the late John McCordie. She was born on the Island of Arran in 1831 and when but one year old was brought by her parents to this country, who settled at Dalhousie Junction.

She leaves two brothers Laughlan and Archibald of Point la Nim and five sons and four daughters. The sons are William and Henry, of Campbellton, Robert M., of St. John, John, of Blois, Wis., and Daniel of Eel River. The daughters are Mrs. J. C. Ferguson, Mrs. Geo. Fawcett, Mrs. C. T. Cool and Mrs. D. R. McNair, all residing in town.

The remains were taken to Dalhousie for interment by the local express this morning, the funeral service at the home of Mr. Geo. Fawcett being conducted by Rev. Dr. Carr, pastor of Presbyterian Church. The service at the grave was conducted by Rev. Geo. A. Leck of Dalhousie.

## Mrs. Wm. BROOKS.

The sad death of Mrs. Wm. Brooks occurred at her home yesterday afternoon after a lingering illness.

Deceased was a daughter of Joseph Sturgeon of Blackville. A husband and seven children survive who have the sympathy of the entire community.

## JANEVILLE.

The half-yearly examinations of the Janeville school was held on Thursday June 29th. The pupils were examined in the several branches of study required in Grades 1 to 5, the pupils acquiring themselves creditably. Quite a number of the parents and friends of the children were present, and were very much pleased with the work done. After the regular exercises were over, a nice programme of nine recitations, four dialogues, and three songs, were gone through, in which the children performed their parts very nicely.

Three prizes were given by their Teacher, Beryl Barry winning the first for perfect attendance. The second and third by Lizzie Scott and Hortense Barry, for highest department for the term. The people are well pleased to be able to still retain the services of Miss Barry, who is a faithful and energetic teacher.

A very pleasant evening was spent in Janeville on the 7th by quite a number of young folk. A pie and basket social being made for the purpose of raising money to get some improvements for the school.

The evening was very warm for dancing still the amusement was largely indulged in. There was a liberal supply of confectionery and refreshments on hand, and the neat sum of \$50.50 was raised, much to the satisfaction of our Teacher who takes a large interest in the event.

## HYMENIAL

A very pretty wedding took place at Campbellton July 24th, at the home of Mrs. George Duncan when Miss Eliza Law was united in marriage to Mr. J. Dobson of Campbellton. The bride looked lovely in a dress of blue trimmed with white silk. She was attended by her sister Miss Lucy Law of Clon, while the groom was supported by Mr. George Duncan. After the ceremony they repaired to the dining room where a dainty supper was served. The Ceremony was performed by the Rev. Mr. Coleman.

## Notice

To whom it may concern  
Notice is hereby given to the public warning them against, and forbidding any fishing for salmon, trout or eels, either from boat, canoe or off the shore, on my waters on the Matapedia River, from the Dawson Line above Big Matapedia Falls (above Assamets-quahar River) to McKie's Pool below Clark's Brook, also waters at Gilmour's Brook.  
And party or parties trespassing contrary to this notice will be subject to the penalty prescribed by law for the offence and legal action will be taken against them for so doing.  
Dated July 13th, 1905.  
A. E. Alexander

"We are just in the midst of our elegant bathing season. Let the true comfort of a dip by wearing one of our bathing suits 60c to \$1.25."

—Fraser's Oak Hall

An Indian who was somewhat the worse of "fire water" fell out of a boat at Cross Point on Saturday evening and had a narrow escape from drowning. He was rescued by Dr. Sproul in his gasoline launch.

John Morrissey, M.P.P., has purchased the Stothart store property at Dalhousie for \$1,800. A furniture business will be carried on by the purchaser as a branch of his Newcastle firm.

Dr. Howard D. Fritz of St. John N. B. will spend several days in Town commencing Wednesday Aug. 2nd; may be consulted by those desiring treatment for diseases of Eye, Ear, Nose and Throat.

What might have been a very serious accident occurred at the new Post Office on Monday morning while lifting a piece of stone which was to be placed in position one of the guy ropes gave way and the derrick and its load swung out carrying away a portion of the newly built wall. No one was hurt.

The Grand Master, Mr. E. J. Everett, and the Grand Secretary, Mr. J. Twining Hart, returned to the city on Saturday afternoon. They had spent a week in visiting the lodges at the North Shore, including those at Bathurst, at Campbellton, Dalhousie, Newcastle and Chatham. They were everywhere cordially welcomed by the members of the fraternity and they have made interesting reminiscences of the courtesies shown them. Everywhere they found the society in good condition.

Mr. A. Finlayson, of the marine and fisheries department, has been in St. John a couple days looking into matters connected with the fish breeding at the Carleton pond. For some time past salmon in the pond have been dying from some disease in the head, it is supposed, the origin of which is not known. Quite a large number of the fish have been carried off. The disease is not confined to the fish in the pond however, for it has been found that other salmon, many indeed, taken by fishermen and sold have had the same mysterious disease. Mr. Finlayson is making an investigation of the matter.

Stop! Don't go any further till you turn to first page and see what's doing at Oak Hall. Remember, they do just as they advertise.

The Real Widow Brown will be in Bathurst on Saturday 29th.

Mrs. Ernest Smith entertained a number of young friends Wednesday evening.

The regular meeting of the Campbellton Temperance Alliance will be held to-morrow evening in W. C. T. U. hall at 8 o'clock.

Methodist services next Sunday, morning at 11 a.m., subject: Our Father, evening 7 p.m., subject: Adequate Gospel, Sunday School at 2.30.

Chas. C. Poirier, of Caraquet has been appointed collector and canvasser for the Advocate and Campbellton Events in the Counties Gloucester and Restigouche.

Supt. E. Price of Campbellton held an investigation at Chatham station on Monday regarding a fire at the freight shed. Assistant Supt. Thomas Hoban was also present.—World.

The Presbyterian congregation occupied their church for the first time since the fire on Sunday last. The repairs to woodwork has been completed and the interior painting about finished.

The new steel bridge over the Mill Cove, Newcastle, is now complete. It has been taken off the contractor's hands. This is a handsome structure and was built by the Messrs Ruddock of Chatham.—Advocate.

Despite the inclemency of the weather the real Widow Brown was largely patronized on Tuesday and Wednesday nights. The show is of exceptional merit and the specialties were good. They play in Dalhousie to night and perhaps tomorrow night.

At a meeting of the town Council held last Thursday evening it was decided to have the Messrs Duncan claim go to arbitration. Three arbitrators will be appointed one by the town one by the Attorney General and the third by Messrs Duncan.

A very pleasant and enjoyable dance was given by Mrs. Nadeau at her home in Dalhousie last night. About twenty couples were present. Ice cream, cake and other refreshments were served at mid-night.

Don't miss the picnic on the Tobique Road on Tuesday next August the first of the last picnic in the country for a few days sport the drive from town to country is exceptionally interesting and the meeting of old acquaintances on the Tobique is a picnic in itself.

A public meeting will be held in the rink on Monday evening to consider the report of the joint committee of citizens and Orangemen in connection with erection of the proposed hospital. It is expected that representatives will be present from different parts of the county. The matter is well worth considering and it is hoped that there will be a large attendance.

The Lord Bishop of the Diocese of Quebec expects to visit the following places in August with the Rev. E. R. Roy M. A. Travelling Missionary in the Matapedia Valley, holding services at Carleton Place on Tuesday August 8th, at 7.45 P. M. and on Wednesday the 9th, at 11 A. M. at Dawsonville and at Oak Bay Mills the same evening at 8 o'clock. Thursday the 10th at New Richmond at 3.30 P. M. and at Black Cape (Mrs N. Johnston's) at 8 P. M. Friday the 11th, Holy Communion at Black Cape at 8 A. M. and evening at Matapedia in the Restigouche Salmon Club School House at 7.30 P. M.

It does not often happen that any of the larger wild animals come into the centre of a town, but on July 18, a bear, situated as it is at quite a distance from any large tract of woods, yet this is what happened on Saturday morning. Mr. R. W. Mitchell heard an unusual noise at the rear of his dwelling, and on looking for the cause he saw a large moose, dripping wet, as though he had just emerged from the river. With both legs caught between the upright boards of the fence. It was the noise of his struggles to free himself that attracted Mr. Mitchell's attention. The moose soon wrenched himself clear, leaving considerable hide and hair on the fence before he got away. He then trotted off to the woods.—Review.

The report of the run of mail train from Sydney to Montreal published in the different papers was very erroneous. In the report the run from Moncton to Campbellton was put down as the slowest while it was on this division that the fastest time was made. The following is the correct time: Sydney to Montreal 43.5 miles per hour including crossing straits of Canso. The fastest time was made between Moncton and Newcastle 52.25 miles per hour Newcastle to Canso 40.4 miles per hour Campbellton to St. Flavie 47.05 miles per hour Truro to Springfield 51.37 miles per hour. Driver C. P. Atkinson was on the engine from Moncton to Campbellton road Ed. Thomas from Campbellton to St. Flavie

In the equity court at St. John yesterday the case of the Dalhousie Lumber Company vs. The Restigouche Woodworking Company came up to-day. The plaintiff claims exclusive right to a cove in Restigouche county. The Woodworking Company owns a freshwater cove on this cove. The plaintiff obtained an injunction last June restraining the defendant from blocking up the mouth of the cove with booms. To-day the bill and answer and several affidavits were read, and the case was adjourned until the return of Attorney General Pagsley who is absent from the city, and who, with Mr. McLatchey, of Campbellton, is acting for the plaintiff; Mr. Curry and Mr. Mott, of Campbellton, for the defendant.

Minard's Liniment Cures Diphtheria.

F. M. MURRAY,  
Bank of Nova Scotia Building,  
CAMPBELLTON, N. B.

The first one of the wood ducks (meaning a duck) in the sense of box is attributed to Norbert Cornelissen, who, to give a sly hit at the ridiculous pieces of intelligence in public journals, circulated the report that an interesting experiment had just been made calculated to prove the extraordinary voracity of ducks. Twenty were placed together, and then one of them was killed and cut up into pieces, feathers and all, and thrown to the other nineteen, who greedily devoured it. The process was repeated until, as was averred, the last duck had eaten the whole of his nineteen companions. The story ran the round of all the journals in Europe and so established the appropriateness of the term canard for hoax.

The First Erie Canal Boat.  
The William Tell was the first boat to pass over the Erie canal from Buffalo to Albany and down the river to New York. Her cargo consisted entirely of logheads, barrels and bottles of Lake Erie water, part of which was mingled with the waters of the bay of New York on the occasion of the great fête in celebration of the opening of the wonderful waterway. The passengers included Governor De Witt Clinton, the leader in the canal enterprise, and a delegation of statesmen and distinguished persons from foreign lands and various parts of the United States.

Care of Birds.  
In an English treatise on the "Hygiene of Bird Keeping," by George Creswell, attention is called to the thoughtless practice of hanging birds in cages just above the level of the ashes of windows and to the mistaken kindness of hanging a cage in a corner of a sitting room or a kitchen near the ceiling. In the one case the bird is subjected to drafts and will in all probability develop catarrh and bronchitis, and in the other it lives in a vitiated atmosphere.

Warning to Mothers.  
The "only child in the family" in 69 per cent shows disadvantageous traits. It is usually of poor health, lacking much of normality, both mental and physical. The "youngest child," the "only boy" and the "only girl" display many striking resemblances to the "only child."

"Burning the Water."  
Some readers will remember the spirited account given by Scott in "Guy Mannering" of the form of salmon fishing that used to be known as "burning the water." It was a favorite amusement in England, Scotland and Wales. The practice is no longer legal and can be indulged in only at the risk of penalties, with the disagreeable which attaches to things denounced as unsportsmanlike. Torches were used, and the salmon were speared by the thrust of a spear having been heated, as called a leister. Scott again may be quoted for his description of the spearing of salmon from horseback in the Solway. The "burning" was a river of his lifelong affections, was one of the worst sufferers from "burning the water" in the days when it was permitted, and it was computed that thousands of salmon were annually taken by this form of capture. The water may be "burned" even now here and there, and in Wales a few years ago there was a short lived revival of the practice.

Milo of Croton.  
Of the wonderful athletes of all ages Milo of Croton is perhaps the most known. He once ran a mile with an ox on his shoulders, then with a blow of his fist killed the beast and ate it in one day. The strongest man could not take from Milo a pomegranate which he held between his two fingers. He could break by contracting his veins and muscles a cord tied around his forearm. One day, being in a house with some pupils of Pythagoras, the ceiling threatened to fall in, but Milo supported the column on which it rested, thus giving his friends time to escape. His death is well known. He tried to tear asunder the trunk of a tree, but his hands got pinched in the wood, and, being unable to disengage them, he perished, devoured by wild beasts.

Minard's Liniment Cures Colds, etc

## Notice

The party that took Jack Jardine's wagon wheels will be prosecuted if they are not returned by Saturday night.

Hachey, of the Parish of Carquet, in the County of Gloucester, Insolvent in aid to the following lands and premises viz:—  
"Bounded on the South by the Carquet Great Road, on the West and North by lands of Widow Marie Pauline, and on the East by lands of George LeKiche, having a frontage of twenty-five yards on said Great Road and extending back from the Road North seventy-seven yards." The Assignee reserving the right of possession of buildings for at least one week after date of sale.

Dated at Bathurst, N. B., the 4th Day of July, A. D. 1905.  
N. A. LANDRY,  
Assignee of Charles S. Hachey.

### Notice for Tenders.

Sealed Tenders marked "Tenders for Stock" will be received by the undersigned at Bathurst up to August Tenth, next, at twelve o'clock noon for all the stock in trade of Charles S. Hachey of Carquet, in the County of Gloucester, Insolvent.

Dated at Bathurst, N. B., this 4th Day of July, A. D. 1905.  
N. A. LANDRY,  
Assignee of Charles S. Hachey.

### Students Can Enter At Any Time

As we have no summer vacation do not divide into terms, and the instruction given is mostly individual.

We do not find it convenient to give a summer vacation, as many of our students are far from home, and would be seriously inconvenienced by an interruption of their work.

Besides St. John's summer weather is so pleasant that it is not necessary to catalogue free to any address.

S. KERR & SON  
Odd Fellows' Hall

I have removed my office to D. F. Graham's Store, west side of the Sullivan Building where I will be found in future. All orders for coal can be left there and will be promptly attended to.

J. M. TAYLOR,  
Campbellton, N. B.

### A Solemn Dance.

They have a singular kind of dance conducted on the greens of country villages in Russia. The dancers stand apart, a knot of young men here, a knot of maidens there, each sex by itself and silent as a crowd of mutes. A piper breaks into a tune; a youth pulls off his cap and challenges his girl with a wave and bow. If the girl is willing, she waves her handkerchief in token of assent. The youth advances, takes a corner of the handkerchief in his hand and leads his lassie round and round. No word is spoken and no laugh is heard. Stuff with cords and rich with braids, the girl moves heavily by herself, going round and round and never allowing her partner to touch her hand. The pipe goes droning on for hours in the same sad key and measure, and the prize of merit in this "circling," as the dance is called, is given by spectators to the lassie who in all that summer revelry has never spoken and never smiled.

### A Widower's Susceptibility.

A widower is a tame animal and stands without tiring. No woman can scare him. He is overconfident, and that is his great weakness. He has been through it all and is not to be caught a second time. He feels impervious to the approaches of woman in any form or guise. The widow finds him really a rather knotty problem. He presents difficulties that are wholly absent in a man who has never felt the matrimonial halter draw. He looks upon the widow with amused indifference. But a young and attractive woman who has never been married quickly arouses his sympathies. He in nine cases out of ten shows remarkable endurance of her siege of his heart, and we all know that it is but a step from endurance to pity and thence to embraces. His doom is quickly sealed.

### The Simple Life Expensive.

And, really, the simple life is frightfully expensive. At a recent entertainment in this city a great luxury in the serving of the second supper was the introduction of country sausage and buckwheat cakes with maple syrup. But the sausage came from the farm of the host and represented a small fortune, as the pigs from which the piece de resistance was made were blooded animals with pedigrees. The buckwheat was grown in special fields which cost ever so much a foot, and the maple syrup was taken from trees in the most expensive Adirondack preserves. And thus can thousands of dollars be spent on the simple life, while trifles, pate, terrapin and such other rarities of a former generation are left for the tables of the middle classes with moderate means.

### Picture in Disguise.

Many and strange have been the vicissitudes of some of the world's greatest pictures, and a fine painting which now graces Lord Leigh's residence in Warwickshire has an interesting history. This remarkable picture, which for some years consisted of a painting of flowers, was pronounced by an art dealer to be merely a mask for some other picture, and on his receiving permission he gradually cleaned off the flowers, discovering underneath a very fine portrait of Charles I., by Van Dyke. It is supposed that the portrait was thus disguised in order to save it from destruction by the Roundheads at the time of the Commonwealth.

### Where We Are Unclean.

We are most particular about cleanliness in our houses—many servants must keep them sweet and garnish for us—and about cleanliness in our food, eating only of first class materials, daintily prepared. But with all this delicacy of habit the most greasy varge is scrupulously clean compared to us in the matter of air. He breathes pure air rich in oxygen. We get together in vast herds, defile the air with all manner of disagreeable and revolting matter, including disease germs, and then contentedly breathe it.—Charlotte Perkins Gilman in Good Housekeeping.

### Doctors and Celibacy.

There was once a time when doctors were doomed to celibacy. It was at the conclusion of the mediæval period when medicine was in the hands of the monks. In France the habit of celibacy persisted long after the practice of medicine had passed into lay hands. For two or three centuries the doctors protested, but in vain. The matter was finally laid before the pope and toward the end of the fifteenth century the vow was abolished.

### Two Points of View.

"I think," said an exasperated old deacon as he slowly elevated himself from the pavement to a perpendicular, "the full grown man who throws an orange peel on the sidewalk is no Christian." "Well," said a bystander, "what do you think of an orange peel that throws a full grown man on the sidewalk?"

### Justified.

"I wish they'd invent a new expression occasionally," said Top as he perused the account of a recent wedding. "It's always 'the blushing' bride." "Well," replied Mrs. Top, "when you consider what sort of husbands most girls have to marry you can't wonder at their blushing."

### After the Consultation.

"Well, Drs. Brown and Smith are going to operate upon old Grotz." "Is the operation necessary?" "Why, yes; Brown has a note coming due, and Smith wants an automobile."

### The Leak.

"Say, waiter, this plate must be cracked; the table is wet." "No, sir; there's a leak in the soup."

## HEROISM

### Drowning Accidents Averted by Brave Young Fellows in St John.

Two drowning accidents were narrowly averted yesterday afternoon; one at Seaview beach, below the Barrack Green, the other at Beulah camp wharf.

The first will long be remembered as one of the pluckiest rescues ever witnessed in St John, and a thirteen year old boy was the hero of the day.

Yesterday afternoon the tide was high, and as the beach in that locality is favorable to bathers, a large crowd congregated to cool themselves in the refreshing waters of the Bay of Fundy.

Amongst the large crowd were two boys, one a son of John LeLacheur, and Willard Finn, a stepson of Samuel Clifford, turnkey of the jail.

Young LeLacheur was enjoying himself in the water, and although just learning to swim, had reached the raft safely, partly through swimming, and partly by means of the line that extends from the shore to the raft he became exhausted, and went down. Willard Finn seeing the boy's peril from the shore, quickly rushed into the water and swam to the exhausted youth.

A strange fact is that young LeLacheur did not catch hold of his youthful rescuer, but allowed Finn to take hold of him, and take him to the shore.

The little Finn boy is a member of a bathing club, whose members frequent that beach, and through diligent practicing has become proficient in the art of swimming.

Mr LeLacheur, needless to say, has no words strong enough to express his thanks to Willard Finn for the heroic rescue he effected yesterday in saving his son's life; and will send a letter of appreciation to the young hero at once.

The other accident occurred at Beulah Camp.

Robert Knowles, the seven-year old son of J. S. Knowles, and his uncle, George Horseman, of Boston, who are spending the summer at the camp went fishing at Brown's Flats wharf.

The two were seated on the wharf endeavoring to catch some perch, and whether or not a fish on the hook was the cause of it is not known, but at any rate young Knowles was precipitated into the water.

Mr Horseman immediately jumped in after the boy, and they eventually reached the land, not, however, before both had narrowly escaped drowning, for Mr Horseman was greatly handicapped by his wet clothes.

### A SINGULAR CASE.

John Gates Sentenced in 1882 to be Hanged.

CHICAGO, July 22.—A writ of habeas corpus, in behalf of John Gates, a prisoner in the State prison at Joliet, is under consideration, and in passing on it the court will be compelled to decide as to

### That Fishing Trip

See that there's plenty of Sovereign Lime Juice in the hamper. You'll need it during the long hot days to keep you cool. Good to prevent the system from being affected by change of water and climate, too.

### Sovereign Lime Juice

Is just the rich, delicious juice of ripe limes—free of alcohol and preservatives. It is a temperate drink, and a mighty sensible drink—any time and all the time. 10c, 25c, 50c and 90c.  
SIMSON BROS. CO. Limited  
Halifax, N.S.

whether the prisoner, in a legal sense, is dead or alive. On November 26th, 1881, Gates in a quarrel killed a neighbour, John W. Hassell. Gates was sentenced to hang on March 24th, 1882. He was taken to the penitentiary, and for twenty-three years has been a model prisoner. For all these years Gates has been afraid to say a word for fear the sheriff would remember him and carry the sentence into effect.

### SHOT JAPS IN COLD BLOOD

Shocking Barbarity Practiced on Sailors by Russian Guard.

Tokio, July 22.—Advice have been received giving details of shocking barbarity practised upon a party of ten Japanese fishermen wrecked on the Sakhalin coast early in May. Defenceless as they were and weak from exhaustion and the long immersion in the waves, the unfortunate fishermen were met on the shore by a squad of thirteen Russian guardsmen, who fired upon them, killing five. The rest escaped and after weeks of privation and hardship in the wilderness of Sakhalin, managed to effect their escape and return to Hokkaido.

One of the survivors of the ill-starred party gives the story of the party's sufferings in the communication received here. It was on May 16 that the ten fishermen, who had sailed from a small fishing village in Kitami province were driven by adverse winds onto the rocks of Noto Cape, in the south end of Sakhalin, since occupied by Admiral Kataoka, as reported in yesterday's cables. All night they stayed by their sinking boats, and in the morning they essayed to reach shore by means of a broken timber from their craft. After a long struggle with the surf the men were washed ashore in a little cove, seemingly uninhabited. Hardly had they recovered from their great exhaustion, however, and had started to follow the shore in the hope of finding food and shelter, when they encountered a squad of the coast guard, Russian soldiers. Without parley the guard opened fire, killing five of the party.

The survivors, still pursued by the Russian guard, took to the timber that skirted the beach, and after a breathless chase of two hours succeeded in concealing themselves in a rock cavern on the edge of a mountain tain. There they were forced to remain in hiding, without fire and without food, save raw roots and snails grubbed from the march, from May 17 to June 3. Their sufferings were severe, privation and the lack of adequate shelter from the elements making their plight a desperate one. Finally forced by sheer necessity to approach a native village, the five Japanese were hospitably received, clothed and fed. By night they were smuggled to the sea shore and given a boat in which to escape. This they did successfully making their way to Khabarovsk and finally to the Hokkaido coast.

### MEN DESERT

Rather than do Garrison Duty at Halifax

LONDON, July 20.—Number one company R. C. R., stationed at Wolsey barracks, is to contribute thirty men for the garrison at Halifax. Yesterday morning Colonel MacDougall, commanding officer, received orders from Ottawa to have that number in readiness to leave today for Toronto, where they will join a contingent which is to go from the Stanley barracks. The departure of a squad from London will leave No. 1 company with only thirty-seven officers and men, whereas the authorized strength of the company is a hundred. The parade state of the company yesterday morning showed only 71 names, although it should have contained eighty-two. Deficit is accounted for by desertions which have occurred during the last couple of weeks. The cause of so many men taking French leave is said to have been a possibility of being selected for garrison duty at Halifax.—Sun

### THE SMALLEST WORKING MODEL

of a Triple-expansion Engine

The model of an engine is, perhaps, the finest piece of skilled work of its kind that has ever been brought to our attention. The little engine, which is of the marine-triple expansion type, was built by Mr. Robert Bunge, of New York City, an expert on machinery, who has made the construction of miniature machines his pastime.

The engine measures 3 1/2 inches across the bedplate, and stands 3 1/4 inches from the bottom of the bedplate to the top of the cylinder covers. Every part is perfect. It is even equipped with the link reversing motion. With a steam pressure of 100 pounds, 7,260 revolutions per minute are made, turning a screw 2 1/2 inches in diameter by 7 inches pitch.

## RUSSIANS DEFEATED

### In All Day Fight—Desperate Battle.

Tokio, July 21.—A special telegram from Oursu says that the Russians defeated at Biline were about 200 with six field and three machine guns and, taking the fullest advantage of the topographical character of the district, offered the most desperate resistance. The Russian positions were hidden among a thick forest and it was impossible for the Japanese gunners to make a correct observation. The cannonade, however, was opened by the Japanese at 6 o'clock on the morning of July 7, and was kept up until dusk. The Japanese infantry gradually gaining ground, closing in on the enemy's line of defence, awaiting an opportunity for an infantry charge. It was nearly two hours past midnight when the enemy's first line of defence, strengthened by barricades and trenches, was taken. This success was vigorously followed up, but it was not until nine o'clock on the morning of July 9, that the enemy was driven out of the second line of defence and a victory secured with troops of four field and machine guns.

The nature of the ground exposed the Japanese assailants to a great disadvantage and risk. It was believed that on account of the short supplies of ammunition and provisions the Russians at Sakhalin could not hold out much longer.

TOKIO, July 21, 9.30 a. m.—It is officially announced that Russians who have thus far surrendered at various points on Sakhalin Island number 461, including one colonel and 14 officers.

An imperial ordinance was issued this morning authorizing the appointment of non-commissioned officers from the reserve conscript, also converting those of army service rank into privates of fighting rank.

COPENHAGEN, July 21.—A despatch from St. Petersburg to Godtsidian says that private advice received at the Russian capital say that Japanese warships have been sighted near Nikolaievsk at the mouth of the Amur river. Many of the inhabitants of Nikolaievsk and Vladivostok, it is added, have fled to Khabarovsk.

NEW YORK, July 21.—An official of the Mercantile Trust Company today said that the loan of some \$600,000 by the company to former President Alexander and Thomas D. Jordan, of the Equitable Society, has been liquidated. When asked how payments of the loan had been made, the Trust Company official said that the loan was paid by Mr. Alexander as trustee. More than that he declined to say.

### Sell Your Cold For \$1?

You surely won't stop at a dollar bill to cure that horrid sniffeling cold. Go to any druggist and get "Catarrhazone" and your cold will be a thing of the past. There is almost witchery in the swift way Catarrhazone kills colds. But when you consider the penetrating healing and antiseptic qualities of catarrhazone, perhaps it's not so wonderful. Certainly there is no remedy half so prompt for colds and catarrh as Catarrhazone. Refuse a substitute and insist on having only Catarrhazone.

### The Smallest Working Model of a Triple-expansion Engine

The model of an engine is, perhaps, the finest piece of skilled work of its kind that has ever been brought to our attention. The little engine, which is of the marine-triple expansion type, was built by Mr. Robert Bunge, of New York City, an expert on machinery, who has made the construction of miniature machines his pastime.

The engine measures 3 1/2 inches across the bedplate, and stands 3 1/4 inches from the bottom of the bedplate to the top of the cylinder covers. Every part is perfect. It is even equipped with the link reversing motion. With a steam pressure of 100 pounds, 7,260 revolutions per minute are made, turning a screw 2 1/2 inches in diameter by 7 inches pitch.

# PSYCHINE

(PRONOUNCED SI-KEEN)

## COUGH AND LUNG TROUBLE

"PSYCHINE" differs radically from the old fogey medicines. It is compounded on new and advanced methods of curing disease, otherwise it would be just like scores of others, without any exceptional merits. But "PSYCHINE" possesses virtues of healing, that no other preparation in the world does. There never has been in the history of medicine, such a truly remarkable remedy, for the prompt and complete cure of obstinate coughs and lung trouble. There is nothing else just like it, or nothing else one half so good. Thousands of men and women readily and enthusiastically give testimony to prove the statement.

### PSYCHINE BUILT ME UP

Linden, N. S., June 7th, 1904.  
"I cannot speak too highly for your excellent—I may say invaluable—remedy for weakness of throat, lungs or declining conditions. My brother, mother, and sister died of consumption, and I suppose I inherited a tendency in this direction, but, thank God, through the use of PSYCHINE I to-day enjoy good health. I suffered for some two years from a distressing, obstinate cough and weak lungs. I used PSYCHINE and OXOMULSION, and they built me right up. My lungs are now strong and I enjoy splendid health. Yours truly,  
"ELLA M. COVE."

## GREATEST OF ALL TONICS

AT ALL DRUGGISTS—ONE DOLLAR—TRIAL FREE  
The Dr. T. A. Slocum, Limited, - 179 King Street West, Toronto

The high-pressure cylinder is 5-16 of an inch in diameter, the intermediate cylinder 10-16, of an inch. Something of the wonderful refinement and precision with which this model has been made may be gathered from the fact that the valves are of the regular piston type for all cylinders, and measure five, seven, and nine thirty-seconds of an inch in diameter. The shaft, the cranks, and crank-pins are all turned from one piece of steel, which in itself is a rather neat piece of work.

The eccentrics are split, and are exact miniature duplicates of those used on engines actually in service. The smallness of the studs and nuts used to hold down cylinder covers is almost incredible. The nuts used in the construction of the model are for the most part a fraction less than 1-16 of an inch in diameter, and each is perfectly hexagonal in shape. The studs are a little less than 1-32 of an inch in diameter, and are threaded at both ends, one end screwing into the machine, and the other receiving the nuts.

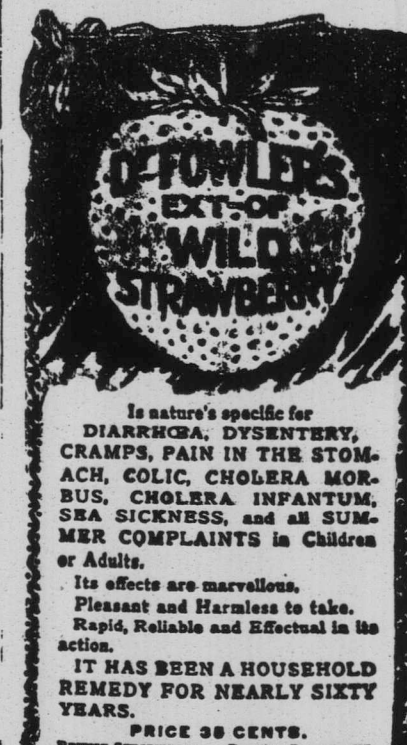

The crossheads are made of steel, and are fitted with brass shoes that can be taken up whenever wear occurs. The steam pipe is 1-8 of an inch in diameter, and the exhaust is 3-16 of an inch in diameter. The maker may well claim for this model that it is the smallest triple-expansion engine in the world. To appreciate its diminutive perfection at its true worth, it must be seen in actual operation.

What Constitutes an Assault.  
"If a man comes into your house," said the Liverpool stipendiary magistrate, "and picks up a poker to strike you, you are entitled to pick up the tongs and fence with him, and if you hit him with the tongs he cannot complain of being assaulted, because he would have struck you first if he could. But if, on the other hand, you take the poker out of his hand and strike him with it you are guilty of an assault, because you struck an unarmed man. That is as clear a distinction as I can make."

## AN INACTIVE LIVER A CONSTIPATION HEADACHE soon set right by BEECHAM'S PILLS

TO SET YOUR LIVER WORKING RIGHT  
is absolutely imperative if you are to get any comfort from life or nourishment from food. A torpid liver can be a very dangerous condition and should not be neglected. Few medicines act as thoroughly, promptly and safely as Beecham's Pills. They are vigorous but mild, and cause no inconvenience or nausea.

TO BE RID OF CONSTIPATION  
There is no remedy quite as good as Beecham's Pills, not only to loosen the bowels but in the after effects. There is no binding up afterward, as these Pills aid Nature in a natural way. Persons chronically constipated can become regular and be rid of the consequent discomforts formerly theirs by use of BEECHAM'S PILLS. Sold by all Druggists in Canada and U. S. America. In boxes, 25 cents.

## BATHURST NOTES.

Mr and Mrs R S Anderson after spending a few months in Bathurst and vicinity left for Portland Maine on Tuesday last.

Mr and Mrs Tingley went to Tracadie for a couple of months. Mr Tingley is employed by the Tracadie Lumber Co of Sheila.

Miss Regina Burns, Miss Bella and Francis Mullins went to Tracadie for a few days the guests of Miss Maggie Ferguson.

Miss Ella Ellis leaves tomorrow for Providence, R. I.

Miss Ella Stearns of Boston is spending a few weeks with her sister Mrs R Good.

Miss Annie Millon has returned home.

L B McMurdo of Newcastle is in town today. He intends going to Caracot and Tracadie.

The Opera house was well patronized on Monday night last. The company is returning on Saturday night and a full house is expected.

There are at present ten dwellings under construction in our town which speaks well for the prosperity of the place.

Miss Winnie Buckley of Harcourt accompanied by her friend Miss Donalds of Amherst spent Saturday in town.

Hon A E Hutcheon and party from Washington D C arrived here this afternoon en route to their camp on the Nepisquit river. Good fishing is reported this season.

S. A. Ferrand and A E Hedges of Chester, New Jersey after a very pleasant trip canoeing up the Tobique and down the Nepisquit arrived in town this afternoon and leave for home by to-night's express. They report salmon very plentiful at the head of these rivers.

O. Turgeon M P is expected home to-morrow from Ottawa.

We expect to have our street lights very shortly. It is something that is greatly needed in town.

The friends of Charlie Payne are glad to hear that he is now rapidly recovering from a severe illness.

Herb Mallay of Minneapolis is spending a few weeks with his old friends in Bathurst.

The crops are reported exceptionally good throughout this season. Mrs Libby accompanied by her daughter Mrs Foss of Haverhill Mass are visiting old friends and acquaintances.

## Buy it Now

Now is the time to buy Chamberlain's Colic, Cholera and Diarrhoea Remedy. It is certain to be needed sooner or later and when that time comes you will need it badly—you will need it quickly. Buy it now. It may save life. For sale by all druggists.

## LIQUOR LICENSE LAW

## Campbellton Case Before Chief Justice

Before Chief Justice Tuck this forenoon argument was heard on a writ of certiorari granted June 9th last to remove into the Supreme Court the proceedings of a meeting of the Board of License Commissioners for the town of Campbellton held on April 28th last. The names of the license commissioners are J. Albert Verge, J. J. Howe Taylor and James E. Kelly, and on the above date (April 28th) they passed a resolution authorizing the issuing of licenses to the following persons, Joseph Boudreau, William R. Riddell, Roger Flanagan, Joseph Damboise, Rose D. Lacasse, Narcisse Bernatchez, Patrick O'Leary, John McIntyre, Daniel O'Keefe and H. R. Murray. The order for the writ of certiorari was obtained with a view to quashing and setting aside the proceedings and resolutions passed at the meeting of the commissioners referred to on the following ground:

(1) That the board of license commissioners had no jurisdiction or power to grant tavern licenses because of the failure of the last preceding census taken under the authority of the Dominion of Canada in the year A D 1901 to state the population of the town as a whole.

(2) That the board of license commissioners having accepted and acted upon the theory that two thousand six hundred and fifty-two is the population of the town of Campbellton, exceeded its jurisdiction in granting ten tavern licenses.

Section nineteen of the liquor license act, Cap 22 Consol statutes, N. B., 1903, provides that in cities and incorporated towns respectively one license may be granted for each full two hundred and fifty of the first one thousand of the population of each ward taken separately in which licenses may be issued, and one for each full five hundred over one thousand and of the population of such ward. Section 29 of the same act provides that the number of the population which is to determine the number of licenses at any time under this chapter shall be according to the then last preceding census taken under the authority of the Dominion of Canada.

Mr W A Mott of Campbellton and Mr L A Curry, K. C., appeared in support of the writ and asked that the proceedings of the commissioners be quashed on the grounds set out for the granting of the order for the writ. Mr H F McLatchy appeared for the commissioners and argued that section 19 of the act was only directory and did not go to the jurisdiction of the commissioners; also that it was impossible to comply with section 29 of the act in every case, and that the courts had so held. Judgment reserved—Globe, 25th.

## A Tasty Drink for particular people, Sovereign, Liqueur Juice.

Funerals in Scotland.

In Scotland the custom still prevails of taking down the window blinds at a death and hanging white sheets across the windows. The custom also prevails in the north of England, and in many families a special sheet reserved for the death chamber is kept for the purpose and often used from generation to generation. In many parts of Scotland, too, it is still customary for the nearest relatives of the deceased to lower the body into the grave and wait by the side until the grave is filled up.—Westminster Gazette.

## Bret Harte as a Consul.

Bret Harte's consulship at Glasgow was a sort of joke. William Black told me that once when he was returning from a tour with Harte as they slowly entered a city Bret said, "What huge, ugly place is this?"

"It is," said Black, "the city in which you have been consul four years."—Moncur Daniel Conway's Autobiography.

## A Shock.

"Now, Henry," she began, with a set jaw, "I must have \$10 today."

"All right," replied her husband, "here it is."

"Gracious, Henry," she exclaimed, suddenly paling. "What's the matter? Are you ill?"

## Forsake and Forgive.

Do not expect too much from others, but remember that all have some ill nature, whose occasional outcropping we must expect, and that we must forbear and forgive, as we often desire forbearance and forgiveness ourselves.

The child is a bundle of instincts, not a sheet of white paper.—G. H. Archibald.

## Keeping House in St. Petersburg.

In St. Petersburg housekeeping costs more, it is said, than in the other European capitals. To begin with, nothing which they without torturing and those who are skilful in the art have the advantage over their neighbors. If you know how to get on the soft side of a Russian tradesman and ply him with proverbs and jokes you can cut his price down to the narrowest margin of profit; otherwise he simply robs you. Indeed, he cannot well do otherwise, because not only a trick of the trade, but an unwritten law, obliges him to ask for his wares from 30 to 40 per cent more than he expects. He himself would be astonished if you would take him at his word. Then, again, of course, a great deal depends on the choice of shops. One of the most satisfactory ways of buying provisions is not to visit any shops, but to repair to the open air markets. In certain public squares of the capitals little stalls are fixed up every morning, and here fruit, vegetables, meat, poultry, hardware and haberdashery can be bought up to noon. But at the strike of 12 every booth and stall vanishes.

## The Black of the Eye.

The invariable blackness of the pupil of the eye was a puzzle to scientific men until Professor Helmholtz showed it to be the necessary effect of refraction. Sufficient rays are reflected from the bottom of the eye to render visible the parts there situated, but since these reflected rays in emerging from the eye must traverse the same ocular media through which they passed in entering the eye it is evident that they must undergo the same refraction which the incident rays undergo, and the former will therefore return to the source whence as incident rays they originally started. There is nothing in the pupil to reflect light—in fact, it resembles a window looking into a dark room.

## He Didn't Mind the Fog.

The London Chronicle relates that during a dense fog in London a military man advanced in years lost his way completely in the nocturnal vapour. Bumping against a stranger, he explained his misfortune as entering a fog, only in an opposite direction. The result of this is that the paths of the emerging and entering rays coincide, and the former will therefore return to the source whence as incident rays they originally started. There is nothing in the pupil to reflect light—in fact, it resembles a window looking into a dark room.

## What School Shall I Attend?

That is the question which will be considered by many within the next few months.

If all the advantages to be gained by attending FREDERICTON BUSINESS COLLEGE were fully known it would not be difficult to decide. Send at once for catalogue. Address: W. J. OSBORNE, Fredericton, N. B.

## Notice of Sale.

To All to whom it may concern. And to the heirs of the late William Robertson of the town of Campbellton in the county of Restigouche and province of New Brunswick (deceased) notice is hereby given that under and by virtue of a power of sale contained in a certain Indenture of Mortgage bearing date the third day of December in the year of our Lord one thousand eight hundred and ninety seven and made between the said William Robertson of the one part and Edward B. Buckfield of Harcourt in the County of Kent, Esquire, the other part, and recorded in the office of the Registrar of deeds in and for the county of Restigouche by the number 5512 on pages 447-448-449-450-451-452-453-454 of the records of the said county of Restigouche there will be for the purpose of satisfying the money secured by the said Indenture of mortgage, default having been made in the payment of the principal money due on said Indenture and secured thereby, sold by Public Auction in front of the Post Office in Campbellton in the said county of Restigouche on Saturday the twenty eighth day of October A.D. 1905 at the hour of eleven O'Clock in the forenoon of said day the lands and premises described in said Indenture of mortgage as follows:—All the certain lot or parcel of land and premises situate lying and being in the town of Campbellton in the county of Restigouche bounded and described as follows:—On the North by a proposed Street or Lane (now Pleasant Street) on the East by Lands deeded to one Margaret Kean on the South by land owned and occupied by Henry McIntyre (now the Campbellton House) and on the West by Lot Number Sixteen on the plan made by Thomas Russell a Deputy Crown Land Surveyor said lot number sixteen being now owned and occupied by William Porrier. Together with all and singular the building and improvements thereon and the privilege and appurtenances thereto belonging or in anywise appertaining. In witness whereof the said Ed. B. Buckfield has here unto set his hand this 14th day of July A. D. 1905. Signed in the presence of:—Ade Buckfield. E. B. Buckfield.

## THE SCHEFFER BROS. CO.

## Cost and Former Selling Prices Forgotten at the July Sale.

Our purpose is to effect a thorough clearance of all summer goods in our stock. It entails a gigantic clearance of seasonable merchandise at sensational prices. That doesn't mean a few things will be reduced to effect low pricing. It does mean that every dollar's worth of Summer Goods now in hand will be sold at prices little short of ridiculous. To miss the sale would be to miss one of the greatest bargain feasts that has ever been planned in this town. "No other store can possibly save you as much."

DELANETTE DRESS GOODS for summer dress goods, beautiful patterns, worth 30 and 35c a yard Sale Price 12c.

CASHMERE DRESS GOODS. All shades, double width goods, worth regular 30c, Sale Price 12c.

FANCY DRESS MUSLINS. Mixed in with linen stripes, others floral patterns, worth regular up to 25c a yd, Sale Price 8c.

BEDROOM SUITES. Bureau, Washstand and Bed, regular worth \$14, Sale Price \$9.49.

LOUNGES. Good spring edged lounges, worth \$6.50, Sale Price \$3.79.

DINING CHAIRS. Good strong chairs, regular worth \$1.00, Sale Price 50c.

HALL RACKS. worth up to \$6.50, Sale Price \$3.99.

WOOL PLAIDS. Dress Goods, worth up to \$1 a yd, Sale Price 39c.

WHITE DRESS MUSLINS. Checked, plain and floral patterns, worth up to 20c a yd, Sale Price 8c.
