#### DEPLETION OF THE BOERS!

Several Districts Are Now Clear of the Enemy.

Food Supplies Scarce—Increased Difficulty in Maintaining Them Causing Anxiety to the Commandants.

Pretoria, Nov. 30.-The depletion of the Boer forces continues at about the average rate. Several districts are practically clear. There has been much progress in the last fortnight, notably in the southeast of Orange River Colony, where nearly 200 of the Boers are accounted for. Commandant Ackermann alone lost about ninety men, and only stragglers remain in that district. The Boers' difficulty in maintaining their supplies of food and ammunition are increasing and causing

anxiety to their leaders. BOERS WORE KHAKI. Somerset East, Nov. 30.—Forty-seven men of the district mounted troops attacked 30 rebels in the Zuurberg, after a 50 miles night march. The re-bels retreated, leaving six dead and some wounded. The enemy lost nine horses killed and five captured. Some of the enemy wore khaki. If you want to buy, sell, exchange or banished Boer leaders, 12 in number,

SCOUTS OVERWHELMED. Standerton, Nov. 30. - Walden's herd of cattle, which they were proceeding to drive away, when they were attacked by two parties of Boers. They had to leave the cattle and a sharp fight ensued. A third party of Boers coming up, the men who formed the Scouts' rear guard were surrounded and overwhelmed, losing one killed, seven wounded and four prisoners. The prisoners were subsequently released. The enemy state that their loss was 8 killed and 17 wounded.

#### DECISION ON THE PROHIBITORY LAW!

Manitoba Government May Submit the Matter in a Referendum to the People-A Denial From the Editor of the Westminster.

Winnipeg, Man., Nov. 29 .- It is generally thought the provincial govern-ment will get out of its present position on the liquor question by submitting the matter in a referendum to the people. The hotelkeepers do not seem to be worried over the outcome. Toronto, Nov. 30 .- Premier Roblyn, of Manitoba, who was in Toronto yes-

terday, said in regard to the privy council's judgment on the prohibitory act, that the matter had not yet been considered by the government, their attention having been fully occupied by the railway negotiations. The judgment was not unexpected; therefore there was no need of a special session of the legislature to consider it. Toronto, Nov. 30.—Rev. J. A. Mac-Donald, editor of the Westminster, was interviewed yesterday, and denied that he had had any communication with Premier Ross with regard to the article in the current number of the Westminster advocating the application of the referendum to the prohibition question. The idea, he said, had been suggested to him by Presbyterian procedure.

Mrs. Bonine's Story as Repeated by a Detective.

Felt the Young Man's Blood Gush Over Her Shoulder-The Dress She Wore Produced in Court.

Washington, D.C., Nov. 29.-When the Bonine trial was resumed today, Deputy Coroner Glazebrook continued testimony. He told of bruises found on the bodies of Mrs. Bonine and Ayres, and was followed by Detec tive Edward Horne, to whom Mrs. Bonine made her first official confession.

Horne said he had first met Mrs. Bonine on the morning Ayres' body was found. He asked her if she knew how Ayres met his death she said she did not. She told how she had been dressed on the night of killing and handed over the skirt she had worn. Her manner was per

But Readily Yields to the New Constitutional Treatment.

Many surgeons of prominence have placed themselves on record as being utterly unable to cope with cancer. They might operate for it and remove the growth, but in a few months' time it would return as bad as ever. The new constitutional remedy cancer gets at the root of the disease by destroying the cancer germs in the blood. Surgery can only remove surface indications, our remedy reaches to the origin of the disease. This pleasant home treatment involves no pain or inconvenience whatever, and is agreeable to take. WELCOME

London Brethren of A.O. U. W. Extend Warm Greeting

To Grand Master Cornett and Others of Governing Lodge.

Event Brings Into Prominence the Wonderful Growth of the Order in London.

A fraternal order which can boast of a membership of 800 in the city of London, and over 1,700 in London district, is one that may well feel proud trict, is one that may well feel proud the manner in which the work had of its record, and is one, too, that been exemplified. He then spoke of may be looked upon to carry through successfully any undertaking to which it may set its hand. The reception tendered last night by the lodges of the city in conjunction with Lambeth and Westminster lodges to the Grand Lodge of Ontario, was one well calculated to show the strength and prosperity of the order and the substantial progress being made. Several hundred members of the order assembled to do honor to the grand officers, and the distinguished visitors expressed to the full their gratification at the reception tendered them. The reception was held in the lodge-

room in the Duffield Block, and commodious as were the rooms, they were taxed to their full apacity by the attendance. Lodge was opened in due form, and the visiting grand officers were introduced. They were G. M. W. T. M. Cornett, Gananoque; Grand Foreman Jos. Gibson, Ingersoll; Grand Overseer J. M. Peregrine, Hamilton; Grand Treasurer F. G. Inwood, Grand Recorder M. D. Carder, Grand Solicitor A. G. F. Lawrence, all of Toronto. The workman degree was then conferred upon about 40 candidates, the degree team being composed as follows: P. M. W. Bro. Marr, Lambeth Lodge; M. W. Bro. A. Carrothers, Woodbine Lodge; Foreman Bro. Armstrong, Electric Lodge; Overseer Bro. Nichol, Special Line in White Woodbine Lodge; Guide Bro. McMillan, Westminster Lodge; Inside Watchman Bro Hutchinson, Grant Lodge; Recorder Bro. John Dalton, Star Lodge. Grand Medical Examiner J. M. Cotton, Toronto; Grand Outside Watchman Robt. Ingram, Ottawa: Grand Guide Chas. Kelly, Chatham,

and Bro. C. E. Cameron, Iroquois, all sent regrets at enforced absence. tee had unanimously decided that the The initiation concluded, an adjournment was made to the adjoining ban-queting hall, where a generous supper not fettered, but that they be left free had been provided. This disposed of, to exercise their judgment after hearthe lodgeroom was again occupied by ing the arguments on both sides. The the members, and the speaking by the speaker then went on to explain the reasons for the increase. He pointed grand lodge officers was proceeded The chair was occupied by Bro. A. Carrothers, of Woodbine Lodge, who introduced in turn each of the visiting grand officers. Grand Master Workman Cornett was

he first speaker. After his opening emarks, in which he expressed pleasure at the greeting of the London brethren, he went on to say that the A. O. U. W. is now past the experimental stage. Established in this province for 24 years, it had collected and dispensed to the widows and orphans of deceased members the huge sum of over \$7,000,000, representing payments of over \$50,000 each month, \$12,000 per week, and \$2,000 every working day. Such a system was not only a benefit to widows and orphans, but to the community at large. The speaker himself knew of ten or fifteen cases in his own town of Gananoque where, but for the good work of the A. O. U W., poor widows would have had their families scattered, and they themselves be compelled to work for a living. Mr. Cornett cited an experience which showed the urgent need of every man insuring his life for the protection of his wife and family. had no hesitation in recommending the A. O. U. W. to any man as the best and cheapest insurance he could get, for it has fulfilled every obliga-tion during its term of existence. Over 3,560 death claims, totaling \$7,000,000. have been paid out, yet the largest amount paid in by any brother was \$300. It was the duty of every member to put forth earnest efforts to hold the A. O. U. W. in the position it holds as the oldest and strongest fraternal beneficial institution on the continent. Since becoming, in 1897, independent of the supreme body in the United States, the introduction of the graded scale of assessment had lowered the average age of members one and a half years. The speaker was pleased that London should be putting forth such a special effort. The organization has never stood better in point of membership and finances, and if each member fulfilled his obligations the order would continue to advance rapidly. The speaker said that at the beginning of his term of office he had asked for 5,000 applications during his first year of office, and 5,019 had been received. For the present year he had asked for 6,000, and already 4,850 have

been received. The speaker closed with the hope that his successor in office, Bro. Gibson, would be able to make even a better record than this, and predicted that it would be so if all did District Deputy Grand Master Foreman, of Lambeth, was called upon. He responded briefly, welcoming the grand officers to London. Grand Foreman Joseph Gibson, of Ingersoll, was the next speaker. He was in one of his humorous moods, and introduced his remarks with several stories, which roused his hearers

to heartiest laughter. He spoke of his visit to England as a delegate to the Methodist Ecumenical Conference, and amplified a thought which had particularly struck him. particularly struck him as being a beautiful and noble one. It was this: Every kitchen table should teach a great moral truth, and every smoking Bro. Gibson went on to show

he would consider it a greater honor day find itself in the unpleasant prethan he had ever deserved.

Bro. J. M. Peregrine, Hamilton, grand overseer, congratulated the London lodges on the progress they were making, the number of candidates offered for initiation and the success of the recention. dicament of being unable to meet its obligations. Bro. Inwood's explanation did not meet with entire favor from all members present, and he was interrupted several times.

success of the reception. The speaker believed that much of the success of the A. O. U. W. was due to the ability and earnestness of the succession of grand lodge officers, who were a credit Grand Solicitor A. G. F. Lawrence, of Toronto, in a humorous speech, de-plored the lack of work for himself, but congratulated the order on the fact that there had been practically no liti-gation ever connected with the hand-ling of the order's funds. He spoke interestingly of the general work of the

in the order—any member in that lodgeroom—might rise to be its head. Bro. Peregine pointed out that much of Bro. Stephen Grant, of London, who is a member of the executive committee and the finance committee of grand lodge, brought the speaking to a close. He thanked the grand lodge officers for the order's success was due to the self-sacrifice and individual efforts of their kind references to London.

The singing of the National Anthem closed a night that will be remembered as one of the most successful affairs in the history of the order in this city, and district city and district.

The energetic committee, whose efforts did so much toward carrying through the reception, was composed as follows: Bros. A. Carrothers (chairman), Cot-

ton, and Finnegan, Woodbine Lodge; Bros. J. Dalton (secretary), Clark, Marshall and Platt, Star Lodge; Bros. Cook, Marr and Connelly, Lambeth Lodge; Bros. country it became popular and has

had a phenomenal growth. During all

its 24 years of existence in the Prov

ince of Ontario the A. O. U. W. has

not shown such signs of growth and

activity as at present, and up to date

the additions to its membership far

outnumber those during the corre-

sponding months of any previous year. Its broad and permanent foun-

dation principles have stood the test

and criticism of a quarter of a century, and today are more firmly en-

shrined in the hearts of the public

At one time the Grand Lodge of On-

tario controlled the whole of the Do-

minion, but during the years 1893 and 1894 the Grand Lodges of Manitoba and the Northwest Territories and

Quebec and Maritime Provinces was

formed. This took about 3,200 members from the parent body, but notwith-

standing that the territory was limited,

confining it to Ontario alone, the growth had been wonderful. There

have been nearly 62,000 beneficiary cer-

tificates issued. The order has in

good standing today nearly 42,000

members, representing about seventy millions of dollars of insurance.

Ontario, there has been paid to the widows and orphans of its deceased

members nearly seven millions of dol-

lars, gladdening the homes of the families of nearly 3,500 departed breth-

ren, and all this has been accomplish-

ed at a nominal cost to the member.

No other order can boast of a better

class of membership than that of the A. O. U. W. It comprises men of all professions, business and trades.

For many years the order was do-ing business on the level plan, i.e.,

each and every member of the order

paid one assessment of \$1 for a \$2,000

certificates regardless of age. Sofe years

ago an agitation sprung up against the method, and after it was demon-

strated it was unfair for the young

insurance as the old member, it was

joined the order, and endeavor to make it more equitable to the member-

ship. This was done and put into

operation July 1, 1897. Since the grade

was adopted the growth of the order

young men have connected with it, thus

reducing the average age. The grand

lodge of Ontario comprises 446 lodges;

these are divided up into districts, 25

#### Dr. Chase's Ointment

Only those who have endured the acute torture of eczema, salt rheum or similar skin diseases and eruption can appreciate the wonderful feelings of relief which come with the use of Dr. Chase's Ointment. It is impossible to describe the marvelous healing, soothing influence of this great standard remedy. You can judge of its extraor dinary curative properties by the following cases: Mrs. Ann McDonald, Kingsville, Ont.

"For about three years I was a dreadful sufferer from Eczema. At times the patches of raw, flaming flesh would extend from my waist to my neck and from the knees to the ankles. The intense itching almost drove me crazy, and although I tried all the local physicians, they could not even relieve the suffering. The flesh would crack suffered more than I did.

"I was told of Dr. Chase's Ointment but did not believe that it could help me. After the fifth application of this preparation I began to feel the benefit of its soothing, healing effects, and now attribute a cure to the persistent use of this wonderful remedy. It is truly worth its weight in gold, and I never tire of recommending it to other

In France there is a movement to pass a law forbidding women under thirty years of age to wear corsets.

For the information of a reader we may say that the Manitoba Act does not prohibit the manufacture or importation of liquor into the province.

The Catholic Register, Toronto, suggests that Ontario might do well to wait a little to see how the Manitoba Liquor Act works in Manitoba before adopting it in Ontario.

The Toronto Mail and Empire makes very copious reference to the referendum idea in connection with the prohibition question; but neglects to say whether ft approves of the idea or not. Our coy contemporary might say no, if it is too bashful to say yes.

The Toronto World says it does not favor prohibition, but "is in favor of the strictest kind of license law, and the ultimate public control of the trade in strong drink;" and further, that it is against "all and every newspaper or person, politician or adventurer," who seeks party advantage out of the question.

The Westminster, of Toronto, says that "the pledges of Sir Oliver Mowat, and the lifelong record of Premier Ross as a total abstainer and acknowledged temperance man, have given Ontario prohibitionists ground for expecting the enactment of a measure as strongly prohibitory as the constitution allows, but it must be certain that there is a strong public sentiment behind any measure that may be enacted." It may be said that plebiscites have already pronounced in favor of prohibition. That point

The Westminster meets in this way: "The plebiscite of a few years ago was upon the abstract question of pro-hibition. It did not call out a satisfactory expression of public opinion,

ernment to introduce a competent and carefully-drawn prohibitory measure, which, after full consideration in the Legislature, would become law only after having been referred to the country, and be approved by such a vote of the electors as would place its enforcement beyond peradventure, so far as public opinion is concerned, the present doubt would be taken away. At the present moment we see no other course which is not thick-set with perils to temperance and to public morals. The referendum may be new | ers."

because the question was academic in its form, and seemed to many of no practical value. If ever the referendum was justifiable it would seem to be in such a case as is now before the Ontario Legislature. Were the Government to introduce a competent and comes law only after having been approved by the church through remit to all the presbyteries 'in terms of the barrier act.' Such a course in dealing with prohibition in Ontario would safeguard the interests of temperance, as it would secure an expression of opinion on the legislation which it is proposed to enforce. Unless the vote were very much more decisive than the plebiscite was, temperance education, not legislation, would be seen to be the first duty of temperance reform-

The act is a long one, numbering no fewer than 121 sections. It reserves the sale of liquor, as Mr. Macdonald. explained, to two classes-wholesale druggists and retail druggists; and the rying out of the design set forth in its in Winnipeg, one for the eastern druggists' retail; the procedure to be are as follows: "Licenses;" "Who May or May Not Be Licensees;" "Application for Licenses;" "Transfer of Licenses, Removal of Licenses"; "Druggist's Wholesale Li-"Prohibitions and Regulations;" "Penalties;" "Enforcement and Prosecution;" "Cases of Several Convictions;" "Costs;" "Convictions and Subsequent Proceedings;" "Disposition of Penalties;" "Powers of Inspectors and Officers;" and "General Provisions." Altogether, including the schedules of forms attached, the act is spread over 40 pages of the Statutes of Manitoba

It will, perhaps, best serve the purpose of a clear summary of the provisions of the act to take up first "Phohibitions and Regulation," under which heading come seventeen of its 121 sections, those numbered from 48 to 64 inclusive. Section 48 provides as follows:

"48. No person shall, within the of Manitoba, by himself, Province his clerk, servant or agent, expose or or upon pretense or upon any device sell or barter or in consideration of the purchase or transfer of any property or thing, or at the time of the give to any other person any liquor without having first obtained a druggist's wholesale license or a druggist's retail license under this act authorizing him so to do, and then only as authorized by such license and as prescribed by this act."

This section prohibitng the sale of liquor in Manitoba is followed by one ohibiting the keeping of liquor within the bounds of the province except to private dwelling houses:

"49. No person within the Province of Manitoba by himself, his clerk, servant or agent shall have or keep or give liquor in any place wheresoever, other than in the private dwell-ing house in which he resides, without obtained a druggist's having first wholesale license or a druggist's retail license under this act authorizing him so to do, and then only as

authorized by such license."

Exception is made for the case of alcohol used for mechanical or scientific purposes, up to ten gallons, none of such liquor to be consumed as a beverage; for the case of clergymen who are allowed to have in possession not more than two gallons at any one time of wine for sacramental purposes; and for the case of an incorporated public hospital, provided that the liquor shall be consumed by no other person than a patient, and then only under a physician's order, as provided by section

ties besides for \$250 each. All applications are to be sent in to the chief inspector by April 1 in each year. Notice of them is to be given by advertisement in the Manitoba Gazette, in the newspapers and by an an-

nouncement to be sent to the nearest postmaster in each case, "to be posted The premises up in the postoffice." The pren in which the applicant carries business must then be examined by the local inspector and reported upon, together with "the fitness of the applicant to receive a license and the character and repute of such applicant." It is provided, moreover, that any ten or more ratepayers resident near the warehouse or store proposed

to be licensed may object to the granting of any license, and the chief inspector will fix a time for the hearing of evidence for and against the application." At any time after the granting of a license a complaint in writing may be made by ten ratepayers living near by against the license-holder and it is provided that the county court judge shall fix a time for the hearing of evidence, and "if he finds the complaint established, report accordingly to the attorneygeneral, who shall forthwith cancel the license."

In the matter of enforcement and prosecutions, with which sections 68 to 111 of the act are concerned, it is provided that "in proving the sale or disposal, giving, purchasing or receiving gratuitously or otherwise, or con-sumption of liquor," it shall not be necessary to show that "any money actually passed, or any liquor was actually consumed, if the judge or magistrate or justice or justices hearing the case is or are satisfied that a transaction in the nature of a sale or other disposal, giving, purchasing or receiving actually took place, or that any consumption of liquor was about to take place; and proof of consumption, or intended consumption of liquor on premises on which such consumption is prohibited, by some person not authorized to consume liquor thereon, shall be evidence that such liquor was sold or given to the person consuming, or being about to consume, or carrying away the same, as against the occupant of the said It is further provided premises.' most explicitly and at great length that the presence of beer pumps or any other appliances of preparations similar to those usually found where liquor is sold is to be prima facie evidence against the occupant, who also made expressly responsible for any violation of the act upon his premises, even though it cannot be proved that such violation took place with his authority, or on, under, or by his direction. Montreal, Nov. 30 .- Statistics are published here showing that the cost value of the season's cheese exports was \$12,541,000, at an average cost price per box of \$7, compared with the season before of \$16,560,000, the average cost price being \$8. thus be seen that the farmers had to be contented with \$4,000,000 less this year than last year. The quantity handled this season was 1,791,613 boxes, compared with 2,077,000 boxes last year. It will thus be seen that the season was comparatively unsatisfactory, but compares fairly well with

the four previous years. The butter trade, on the other hand, was a great success, the cost value of 410,000 packages being \$6,027,000, compared with 258,000 packages last season at a cost value of \$3,640,000. The shipments in 1899 were larger than the last two years, but the prices obtained were lower.

CURES CHRONIC COUGHS

Angier's Petroleum Emulsion is the most effective remedy for Stubborn Coughs and Colds. It is equally good for the Cough of Chronic Bronchitis, with profuse expectoration, the Dry, Harsh Throat Cough, the Irritating Cough of Influenza, and for Whooping Cough and Croupy Coughs of Children. The cough is stopped and the breathing made easier almost immediately; the irritation in the throat and bronchial tubes is soothed; the character of the expectoration is altered, and a general improvement effected in all the symptoms.

Promotes appetite and stimulates the digestive organs to greater activity Nature is, therefore, assisted to assimilate a greater amount of nourishment, and a gain in health, weight and strength is a quick result.

BRONCHITIS AND HARSH HACKING COUGH:-My little girl has been troubled with Bronchitis, and a harsh hacking cough almost since birth, and though I tried almost everything, she derived no benefit whatever. My druggist gave me a bottle of Angier's Emulsion to try, which I did, and as a result my child was in a marvellously short time free from all coughing, and almost immediately began to gain flesh and a healthy color. Today she is as strong and robust as can be. You will appreciate what the above means to parent, and I feel constrained to write and thank you. A. PUDSEY, Toronto, Ontario.

CAUTION:-The phenomenal success of ANGIER'S PETROLEUM EMULSION has been the means of producing many untried and worthless imitations. Always be sure you get the genuine ANGIER'S Petroleum Emulsion, as imitations made with the ordinary Petroleum do not have the same effect. Angier's Petroleum Emulsion is made from oil obtained from particular wells and refined by a peculiar process, which is known only to the manufacturers of Angier's Petroleum Emuision. All druggists sell it. Two sizes, 50 cents and \$1.00 a bottle.

Hurry to Branch Out.

oposal Made by Manager Carr Re Proposed South Street Belt.

Two matters of considerable importance municipally came before the finance committee last night-the street railway extension and the Christie-Douglass modest request for a block or two of public property. Manager Carr was kind enough to attend the meeting and tell the members what his company thought of the request for more tracks. He was of opinion that the city would have to grow a bit before it could reasonably ask for a bigger system-grow at least to 41,000. Such was the conclusion that he had come to after studying the bylaw with his solicitors. Reasoning upon the basis that when the company's work of construction was completed, the city's population was 35,000, and had since grown to 39,000, and taking into consideration the fact that an additional trackage of 8,800 feet had been taken in-6,000 in West Lendon, and the remainder in live up to the bylaw in every particular, and was prepared-even anxious to come to the council's view as far as was right. He believed that the city had all the track that it could stand. Notwithstanding all this, Mr. Carr said that the company's old offer -to build the South street belt line, if granted the right to abandon that on Rectory street-was still open. In the event of its acceptance, it would mean that the South street line would not be built until the city had 43,000 of

a population. Mr. Carr suggested another proposition. He said he was almost sure that if the city allowed the company to run cars from Dundas street along Rectory street, and up Campbell street, it would build the South street belt. Mr. Carr's suggestions, and the engineer's statement as to the mileage

constructed since the acceptance of the road by the city, will be submitted to the council. When Mr. Douglass and Mr. Christie volunteered to help the city by accept

feet of the public boulevards along Park avenue, the members of the board did not break into exclamations of delight at their philanthropy; nor did they hasten to procure deeds of transfer. Mr. Christie told how they would change an ugly street into a modern Fifth avenue, and said that those interested would even allow the city engineer to draw the plans for the new houses. Mr. Douglass then explained that he had once intended to build on the property he owned there, but was so enraptured with the idea of helping the city out of a bad situation, that he had decided to wait, and was willing to join the movement in aid of the city, and accept the 30 feet of public ence was read by the secretary:

### L. E. AND D. R. R. LEASE TERMS

Street Railway Company in No | The Subject of Discussion by the Board of Trade.

> Many Members Express Themselves as Unalterably Opposed to Extension.

The board of trade discussed the terms of the proposed Port Stanley lease extension at a special meeting yesterday afternoon, but, in the ablicitor Meredith, did not place its views on record. The meeting was a representative one, among those present being President Hunt, Secretary Nelles and Messrs. John Bowman, John McClary, James Mattinson, Dr. Cl. T. Campbell, P. W. D. Brodrick, A. St. L. McIntosh, J. A. Carrick, J. W. Pocock, J. M. Christie, John Garvey, J. P. Cook, W. E. Saunders,

Parnell, G. de C. O'Grady and Walter Bartlett. Mr. Mattinson outlined the terms of the proposed lease in so far as they apply to freight tariff. He pointed out old lease is \$7 per car of 24,000 pounds, on coal and similar freight. The extension lease provides that the rate States, and it is said that already other parts of the city, such as the on coal and all freight classed as spe- fair-sized orders have been received Richmond street north extension, and various double-trackings—he said that the company was not bound to build what was asked, yet it was ready to 40 cents exclusive of handling. Reduced to car lots this would mean \$4 80 per car of 24,000 pounds, or a difference of \$2.20 per car in favor of \$4 80 per car of 24,000 pounds, or a difference of \$2 20 per car in favor of London consumers.

Mr. John McClary spoke in very strong words of what he termed London's unfortunate position in regard to the Port Stanley road, and wished himself ranked among those unalterably opposed to the proposition to bind the city to the conditions suggested. He pointed out that the railways had their own coal laid down for 10 cents, while the citizens of London, whose interests the road was primarily designed to serve, were asked to pay four times that tariff.

Ald. Parnell thought the question was not one of freight rates or rental, but, rather, the keeping of the road intact, in order to prevent the Walkers from sub-letting the road to a trunk line, whose interests would prompt them to close up Port Stanand discourage cross-the-lake freight traffic.

Mr. John Christie and others counseled caution. The former said he would not tie up the road for another 30 years on any account. President Hunt took exactly the same view, not as a member of the

board, but as a citizen. Mr. Pocock referred to the importance of the "penalty" clause, to which company takes exception: and Mr. Garvey expressed his disapproval of the proposed extension of the lease. At the suggestion of Mr. Bowman the matter was laid over until the views of Mayor Rumbali and the city solicitor can be obtained.

Wholesale trade at Toronto this week has been more active. The cold weather stimulated the demand for winter goods. The holiday trade is rather more active and spring orders have been very fair. The outlook for trade is certainly encouraging. Values of staple goods are steady to firm, and the home mills have sufficient business to keep them busy for some time. Country remittances are fair.
At Ottawa this week wholesale

trade has been of fair volume. The demand for sorting parcels from retailers is good. There is also a good number of orders for the spring coming to hand, and the holiday trade is showing more life. Payments are fair. Wholesale trade at Montreal was

IN THE UNITED STATES.

New York, Nov. 29.-R. G. Dun & Co.'s review: When consumptive demand equals or exceeds supply, and prices are firmly held at an exceptionally high level, it is generally considered that there is little to be desired in the business situation. These factors are now in evidence to an unusual extent; yet many industries are halting. The principal disturbing hearing element is the lack of cars to handle throatthe phenomenal shipments that are terminals, where better facilities are being prepared, but in the meantime regular work is handicapped in the same connection there have appeared numerous labor controversies, among and throat finds its way into the switchmen, freight-handlers, river pilots, miners and other allied workproblem of transportation intricate. were 17.7 and 30.0 respectively. A general advance in the price of ing activity of furnaces fails to produce accumulation of supplies. Steel mills are seeking material urgently, and Bessemer pig for prompt delivery Pittsburg is not available below

BRADSTREET'S REVIEW more seasonable weather has given the apparently only needed stimulus to retail and holiday demand in the Northwest and portions of the south. The great basic conditions of wholesale trade and industry shows no particular changes. The only unfavorable feature noted is the continuance of the drought in Kansas and Missouri. No sign of the usual seasonable quieting down in the deand buyers are as eager as ever to obtain supplies. The car shortage and the congestion of freight in the burg district has been accentuated by switchmen's strike. #### REINFORCE YOURSELF.

come all assaults.-Theologia German-

The great secret of success lies in one's ability to reinforce himself. We should be constantly on the watch for ways and means of supplementing ourselves, of increasing, in every way possible, our power of usefulness and

worthy achievement. For example, every time we depart from truth, even in the slightest regree, every time we attempt to take advantage of another, to overreach by "smartness" or long-headedness, we deplete our moral strength, our power to do noble work. There is a deadly reaction on every ignoble deed; it is a boomerang which ultimately kills the thrower.

Most of us are constantly doing though not actually wrong, tend to weaken rather than to reinforce or strengthen us. Our great study should be, not to allow our energies to run to waste through negative or harmful actions, but to reinforce ourselves continually by positive activity in the right direction.

man who sticks to the truth, who always does the manly, noble thing, however it may affect himself, well find the reaction upon his own character has been salutary. He will find himself reinforced tenfold for the great battle of life.

#### WHAT TRUE EDUCATION MEANS.

The larger a man becomes, the keener and finer are his needs. Every enlargement of his capabilities by the sharpening of his faculties, by culture, by thinking and contemplation, not only increases his own demands for a greater variety of mental and moral food, but also increases his obligations to the world, for he has more to give

to others. There is little hope for the world from selfish culture. The boy or girl who goes to college for his or her selfish ends, to satisfy ambition or vanity, or to gain social position, will have very little to give to others. It is only consecrated culture that counts. The man who does not feel throbbing withhim the desire to be of service to the world, to make the community in which he lives better and nobler, has missed the true aim of education, of life itself. The secret of Henry Drummond's great power was that his learning was consecrated to the service of others. It was so tranfused with love for mankind that "The Greatest Thing in the World" was the natural and legitimate outcome of his broader culture.-December Success.

#### THE WORLD BEAUTIFUL.

There will come to every manly man times in his life when he will see that there is something which ls legitimately his, something which somea right to, thing which nobody can him if he takes and enjoys to the fullest, and yet something by whose voluntary and uncompelled surrender he can help his fellow-man and aid the work of Christ and make the word better. Then will come that man's trial. If he fails and cannot make the sacrifice nobody will blame him; he will simply sink into the multitude of honorable, respectable, self-indulgent people take the comfortable things which everybody owns they are entitled to, and live their easy life without a

There had been some surveying done. In 1837, the late Charles Rankin, of Owen Sound, received orders from the crown lands department to lay out a line of road from the settlement about Guelph and Fergus to the head of Owen's Sound. Before this date, Lewis Burwell, of Brantford, had us, as many servants as we have laid out some townships, near the head waters of the Grand River. When Burwell came to the township of Those who get highest are Luther, he merely ran lines round it, the ones who feel no sensation of gid- and reported it "all swamp." So Rankin, trusting his friend Burwell's report, after beginning his survey at the Only the man who has ambition, corner of Garafraxa township, very near the village of Fergus, bore off northwest through the township of Arthur, intending to turn north when he was sure of being round the great swamp. When he struck the small river at Mount Forest, he judged from the swift stream and the high banks that there could not be any great swamp in the immediate vicinity. Self-control is the greatest of all

Here he dropped his formal survey and steered north by a pocket compass. His is not the line now traveled. Rankin's line would be about two miles west of where Durham is now. The government did not like the looks fore uttering an important sentence of it on the map. McDonald, of Goderich, ran the present line. Mr. Rankin told me "his line was better than McDonald's; fewer hills and swamps, and only three-quarters of a committee meeting with himself and longer."

Telfer got himself and family conveyed to where Meaford is now, and then by water in a "batteau" to Owen's Sound. ### EVER FELT THAT DEATH WOULD BE WELCOME?

"I was for two years a great sufferer from heart trouble. At times I was confined to bed, at times my pain was so intense that I would have welcomed death with joy. #### EMPEROR AND SHAH.

Emperor Francis Joseph of Austria was hunting recently, and at nightfall found himself at a considerable distance from the castle in which he was staying. He was very tired and was vondering how he could get home, when suddenly a peasant's wagon appeared. Halting the driver, the peror asked if he might ride, and the peasant bluntly told him to get in Then the following conversation occurred:

"Do you know who I am?" asked the emperor. "Upon my faith, I haven't the least idea," answered the peasant. "I am the Emperor of Austria," said

Francis Joseph. Convinced that his companion was trying to play a joke on him, the peasant answered with superb indifference: "And do you know who I am?" "No, I haven't that honor," replied

the emperor. "Well, I'm the Shah of Persia," said the peasant, and then he urged ais old horse to a trot, and the emperor got such a shaking that he made no further attempt to converse with his imperial brother the peasant.

#### MODERN FABLES-GEORGE ADE

Once there was a Man who acted as Teller for a Poker Club. His Job was to meet People and Tell how much he had won. He could draw the Long Bow better than he could draw Cards. If he quit anywhere to the Good he would convert his Currency into \$1 Bills and go out and Fan his Friends with it, and tell what a Purty Game he had played. In a little while the News would get around that he had his Clothes lined with Velvet.

About the time he would arrive at his Office and square away at the Morning Mail, an acquaintance who was in a Hurry would bound in and tell how much he needed for a couple of Days. By a strange Coincidence he always named the exact Amount that Mr. Blow had been flashing.

After this had gone on for a while the Man who was getting the swift Touches bought himself a large cardboard motto, reading "Silence Golden.

It may be that some enthusiastic and laborious German statistician has already accumulated figures bearing upon the question of life and its relation to the enjoyment thereof; if so, we are nacquainted with his results and yet have a very decided notion that people who enjoy life, cheerful people, are also those to whom longest life is given. Commonplace though this sounds, there s no truth more commonly ignored in actual every-day existence. on, yes, of course, worry shortens life, and the

contented people live to be old," we are people recognize the duty of cheerfulness? Most persons will declare that if a man is not naturally cheerful he cannot make himself so. Yet this is far from being the case, and there is many a man who is at present a weary bur den to his relatives, miserable through the carking care of some bodily ailment perhaps or some worldly misfortune, who, if he had grown up into the idea that to be cheerful under all circumstances was one of the first duties of life, might still see a pleasant enough world around him. Thackeray truly remarked that the world is for each of us much as we show ourselves to the world. If we face it with a cheery acceptance, we find the world fairly full of cheerful people glad to see us. If we snarl at it and abuse it we may be sure of abuse in return. The discontented worries of a morose person may very likely shorten his days, and the general justice of nature's arragement provides that his early departure should entail no long regrets. one Cup of Tea, and he was there to ! Similarly by discouraging the existence of cheap and meretricious pieces by the withholding of support, the theater-going public of the city can do much to raise the level of local dramatic presentation. London has been favored with some sterling attractions this year, but it has also been visited by some that are utterly worthless from every standpoint. It cannot even be urged in their behalf that they give employment to a num-ber of people, for their enactors would be doing humanity a better service by digging postholes and washing dishes than by continuing to take money from a defenseless, public for their valueless offerings.

But the phenomenon has been keeping it up every night and at the additional matinees. There is no doubt that the phenomenon hits the stairs and the stage some good, solid whacks, inspiring the gentlemen who looked upon this fall with amazement, and the ladies with horror. A special correspondent of The Detroit Free Press writes this pleasant gossip concerning one of the season's musical novelties: "One of the most attractive and catchy songs in 'The Chaperons' is the 'Jolly Good Fellows' number that is now being sung in almost every eastern college of note in the country. This song, in which the English baritone, Templer Saxe, has his finest opportunity, first attracted attention the opening week of the college year at New Haven, when the Yale boys occupied almost the entire parquet during the two performances of 'The Chaperons' in that city. The song made such a hit with the Old Eli fellows that they left the theater singing the piece while the orchestra played the audience out. Since then the song was played at the Yale bicentennial by a band of 50 pieces, and the boys have placed it among their regular college selections.'

Which is the best plan to pursue? To go on drugging after you have found that drugs do not cure Weak Vitality, or to yield yourself to Despair, or to use Nature's Restorer-Electricity-and become once more a man among men? These are the only alternatives that can present themselves to a man who has lost or is losing the vitality that belongs to a perfect man. It won't come back itself-you know that or you would not have tried drugs. Drugs don't bring it back-you know that to your sorrow, and your pocketbook knows it also. Nature provides a sure remedy. Weak Vitality is a condition of lost nerve strength. The weak man lacks nerve and ability in the social and business duties of life. His mentality is affected, as shown by his defective memory and his failures where other men succeed. Physically he is regarded as lazy becauses he arises in the morning more tired than when he goes to bed. His eyes are lustreless, gait shambly, and his back is a burden to carry because of its aches and weakness.

#### AWAKE, WEAK MEN!

There is strength and vitality for you if you will grasp it—if there is enough ambition left in you to wish to be strong in every way. Electricity is Nerve Food, Nerve Life. It does what drugs can't do. They can't reach the nerve centres. Electricity does and it makes them spring into activity. While drugs draw them from, or deaden, the reserve strength of the nerves, Electricity quickens and adds to it.

## PAY WHEN GURED

I make this proposition to you fairly and carry it out fairly—you don't have to pay till you are cured. I could not do this if my Belt was not superfor to all other electric body appliances. It never costs a cent for repairs; I warrant that, and it gives a current which you can feel and regul le, and which will not burn. The cures show what it does.

A SONG. Less of sunlight in Love's day When my deary's far away; When I miss the love complete Of the beautiful and sweet; With the dear, kind eyes that seem Lights that lure me in a dream, And the lips that say and sing Sweet past all imagining!
Dreary night and darkened day. When my deary's far away.

Miss the music o' the birds. And the sweetest human words Tuneless fall, and seem to be Mockeries of melody! Roses sweet that touched her hand Led as if by Love's command, Droop and wither, sighing this: "Lost—the lips we loved to kiss!" So the roses sigh and say When my deary's far away.

Sing, O flower-sweet winds that roam Sing, O heart, the coming home! Shine, O stars, with softer light— Love makes beautiful the night! Let the hearts of roses stir Where the morning sings of her! Till we meet, and on Love's breast In a dream of Love we rest.

disappointed at the low prices which prevailed. This was especially felt by those who had butter and eggs for sale. Haw and Straw-Nearly 20 loads on sale: the biggest part of that offered was

of an inferior quality, selling at \$8, \$8 50 and \$9 per ton; only three loads sold at the last named figure Butter and Eggs-Both of these articles

took a big drop in prices; good roll butter in basket lots sold at low as 16c per lb; some few baskets of gilt-edge butter sold at 17c to 18c; crocks were dull of sale, at 15c to 17c per lb. Eggs were also plentiful; 171/c to 18c was offered for out, at \$450 to \$475; export bulls, \$375 to \$425; rough butcher cattle, \$275 to \$3; good loads at \$4. Corbett & Henderson bought 73 head of cattle; steers, 800 to 1,500 lbs, at \$260 to \$365. Wesley Dunn bought 220 sheep at \$265 to \$275; lambs at \$320; calves at \$7 each. C. McCurdy bought 8 bulls, 1,600 to 1,800 lbs, at \$4 to \$41214. 20 light heights. several loads of choice crates; basket lots sold at 18c to 20c; single dozens at 20c

Fruits-Apples were in fair supply; no change in price, at \$150 to \$250 per bbl, or 60c to \$1 25 by the bag

Vegetables and Roots-Potatoes were offered in fair quantities, prices are firm. at 60c to 65c per bag by the load, and 70c per single bag. Onions are higher, at \$1 25 per bag. Turnips sell at 30c to 35c a bag. Parsnips, 40c, and carrots, 40c per bag. Cabbages, 25c to 50c per dozen, and cauliflowers, 40c to \$1 per dozen.

Dressed Hogs-In great demand today, owing to the light deliveries during the week; prices advanced 50c to \$1 per cwt. selling mostly at \$8 to \$8 50, only a few bringing 39 per cwt; these prices, the dealers say, will not be paid next week. Poultry-Not so plentiful as on Tuesday; there did not seem to be any particular desire on the part of the dealers to purchase in large quantities; prices remain unchanged, at 8c to 9c per lb for turkeys, and 51/2c to 6c for geese; chickens sell at 50c to 60c per pair, and ducks at 60c to 75c. Live chickens sold at 35c

to 45c per pair; ducks at 50c per pair. Live Hogs-Mr. D. McIntyre will pay \$5 50 to \$5 60 per cwt for selects for shipments from here on Monday; small pigs sold at \$4 to \$5 50 per pair.

Hides and Meats-Unchanged at present. but the prospects are for lower prices

### A PLEASANT DISAPPOINTMENT

A Cheltenham Man is Agreeably Surprised-An Old Grudge Paid.

Mr. Turner After a Successful Effort to Get Rid of One Enemy Finds That in Doing So He Has Put Away Another

Cheltenham, Ont., Nov. 29-(Special) -A fortunate man, indeed, is Mr. Charles Turner, of this place. years Mr. Turner has been suffering with kidney disease. It gave him great pain, and for the last two or three years rheumatism has added to his already heavy burden of sickness, and he has seldom known an hour free from pain. Not associating the rheu-matism with the old kidney trouble, and despairing of curing the former. Mr. Turner bought and used Dodd's Kidney Pill to try and dispose of the kidney trouble. He used a few boxes and the pain in his back kept getting less and less, and finally went away All the unpleasant symptoms of kidney trouble disappeared, and what was still more strange to Mr. Turner, he has not since been bothered with rheu-

matism. He is so grateful for the miraculous results of the treatment that he has been cheerfully telling his friends and neighbors his experience. He says: "Dodd's Kidney Pills have cured me of a long standing case of kidney disease. I was also a sufferer of rheumatism, and although I took the pills for the kidney trouble I was surprised to find that when this disease was cured the rheumatism also disappeared. This was over a year ago and I have not been troubled since. I used in all six boxes. The first two boxes did not appear to do me any good, but I persevered and the result is that I

am now a healthy man." Of course, to those who recognize rheumatism as what it really is, a symptom of kidney disease, there is nothing wonderful about Mr. Turner's experience. Dodd's Kidney Pills always cure Kidney Trouble, and with it Rheumatism, Sciatica, Lame Back Neuralgia, Heart Trouble, Dropsy, Diabetes, Bright's Disease and any of the other many forms in which it may

and often does appear.

BOARD OF TRADE'S OPINION ON EXTENSION OF THE PORT STANLEY LEASE.

To the Editor of The Advertiser: Being an interested spectator at the board of trade meeting yesterday I clause" left out in the report in the Free Press, which was discussed at length by Ald. Winnett, who said he would not sign the lease except this

This clause almost deprives our citrepresentatives of any control which they might have over the lessees of this road. City Engineer Graydon reported the irregularity of return train service and filthy condition of excursion cars last summer, his attention being called to it by many citizens summering and visiting in Port Stanley. He also complained that the proper authorities would not support him. Our wholesale men and manufacturers look keenly after their own interests, and will not be side-tracked. neither should the public, whose interests have been shoved aside. If our ratepayers allow this thirty

years' lease to pass without a "penalty lause" inserted, they alone will be the Thanking you, Mr. Editor, for your valuable space, I remain, yours truly, JOHN POCOCK.

LAND FOR VETERANS. Toronto, Nov. 30 .- A circular letter will be forwarded to the thousand or so veterans, whose claims for land grants have been approved by the department of crown lands. A certificate is inclosed, which, on presentation to any crown lands agent, will enable the recipient to select his claim at any time during two years following the day of certificate. The agent will issue a receipt, giving particulars of the lot, which will be held by the locatee, pending the issuance of formal papers by the department. Land guides will be furnished applicants at the expense of the department, through whom the claims may be inspected. To prove non-occupancy of the lots, affidavits may be made by the applicant or his representative, corroborated by the land guide and sworn to before the crown lands agent without cost. Only one claim may be registered in each square mile. Reduced railway rates wherever granted for actual settlers will be available for applicants under this act, on securing a certificate from the bureau of colon-

Used on Grand Trunk Trains, Received Gold Medal at Pan-American Exposition.

During the summer season the Grand Trunk Railway inaugurated a system of lighting several of its trains by electricity, also supplying the dining-cars and cafe parlor-cars with electric fans, the current used for both the lighting and fan being generated from the axle of the wheels, an innovation very much appreciated by the traveling public. The Consolidated Electric Lighting and Equipment Company, which installed this system, was awarded the gold medal at the Pan-American Exposition by a jury composed of railway and electrical experts, after a critical examination of the various car lighting

#### About Pipes That Do Not Burn.

Many kinds of wood have been tried by pipe manufacturers to secure one that would not burn after a very short time. After years of fruitless search a briar root of the Pyrenees has been discovered which has the greatest resist-ing powers. The whole district where that precious root is located has been bought by the manufacturers of the G. B. D. pipes, and all the pipes bearing that trade mark are positively guaran-teed not to burn. Pipe-smokers will appreciate a pipe possessing all the fragrant qualities of genuine French brian with the hardness of iron. All the different shapes and sizes of the G. B. D. pipes are sold in this city by the agents whose names are at the foot of the advertisement which appears in this issue on page 7.

the Pleasure of a Very Enjoyable Occasion—The Society's Good Influence.

The Literary Society of the London Normal School, which has been a source of great benefit and pleasure to all who attended it, held its final meeting yesterday afternoon. It was a fitting close to a society which from the first was attended with well-deserved success.

Mr. Robert Darling, president and chairman of the society, opened the meeting, complementing the society on its previous programmes, and reminding is that in a great measure its success was due to the untiring efforts of Miss Little and Miss A. Stout, and the able committees who assisted them in the arrangement of the programmes. The programme for the day was the result of the joint efforts of the two committees, and reflected much credit on all concerned in its arrangement.

The programme was opened by the Glee Club with a lively song, entitled "Yachting Glee," which was well re-

Miss Lockhart delighted all with a recitation, entitled, "Darius Green's Fying Machine." An instrumental by Miss Stacey and Mr. Fred Landon on mandolin, and Miss Scott on the piano, was greatly en-joyed. The readings, entitled "An Irish Philosopher" and "The Spoopendykes," by Mr. A. P. O'Meara, were well received. The rendering of "The Choir Boy," by Miss W. Stout was highly appreciated, and Miss Devlin delighted all with an instrumental of her own composition. Mr. Kelly ably filled the office of historian of the society. He spoke of the progress of the society and the beneficial results derived from it and all connected with a term at the London Normal School. The poet, Mr. Brandon, read an ori-

of the most delightful parts of the programme. The remarks of Miss Copeland, temporary critic of the meeting, were cor-roborated by those of the permanent critic, Mr. Dearness, who further remarked that though the meetings held during the present term were not as numerous as those of former terms, yet the number who enjoyed the privilege of participating in the programme was greater than in the past. The chairman then called upon Mr. Merchant, honorary president of the Walkerville. #### NEW RELIGIOUS SECT.

The Rev. Dr. St. Clair Tells of Its Inception and of Its Object.

Syracuse, Nov. 30 .- Rev. Dr. Harry St. Clair, who is promulgating the religion of the "Oahspe" in this city, told today of the founding of the religion, The sect believes in settling all misunderstandings among ourselves. They are vegetarians, and there is no recourse to law among their followers. Divorce and second marriage are pro-hibited, and the ministers do not marry. The object of the religion is marry. The object of the religion is not to tear down other religions, but to add to the good that there is already in them. Dr. St. Clair is a handsome man, 43 years of age, with hair parted in the middle. He was formerly a Methodist minister. He said:

"The Oahspe Bible was written through the instrumentality of Dr. J.

through the instrumentality of Dr. J. B. Newbrough, of New York, a dentist, who is now dead. He was told by a spirit to purify himself, and he save up eating flesh, fish and milk and bathed twice daily. In accordance with another command he sat for half an hour every morning in a small room recounting his shortcomings to his Creator. After some time a new con-dition of things came to him. He heard the voices of angels. One morning an angel directed him to get a typewriter, which he did, and applied himself industriously to learn, but with no success. One morning as he was working, the light struck on the keys and an angel worked for fifteen minutes. The doctor was told not to read what had been written and he obeyed. One morning he looked out of the window and beheld a line of light extending heavenward. Over his head were three pairs of hands and behind him was an angel with her hands on his shoulders.

angel with her hands on his shoulders. For 50 weeks he worked an hour before sunrise. The title of the book—'Oahspe'—came from above and is obtained from the sound of the wind. It means Jehovah. At the conclusion the doctor was told to send the book broadcast."

Dr. St. Clair says that Dr. Newbrough died soon afterward, and he was selected by divine revelation to carry on the work. There are few followers here. A temple will be built if enough people can be interested.

Emma Goldman Says Assassin Had a Sou Like a Child, but a Giant's Energy.

New York, Nov. 30 .- Emma Goldman. vho was arrested shortly after the assassination of President McKinley upon suspicion that she was connected with the crime, is again talking anarchy and assassination. In the current pumber of the anarchist newspapers which have circulation in New York the woman makes a statement defining her position relative to the Buffalo crime. She denies a report that at a meeting of the Monhattan Liberal Club she deplored the assassination and says among other things:

"This is a misrepresentation, for at that particular meeting there was no particular occasion to either deplore or n my article on the Buffalo tragedy in Free Society of Oct. 6, 1 plainly and emphatically stated my position, and instead of retracting I could only add that I have since come to the firm conclusion that Czolgosz was a man with the beautiful soul of a child and the energy of a giant. I observe with scrow that the majority of anarchists have utterly failed to comprehend the depth of the soul that was put to death by organized authority on Oct. 23."

# You Don't Cake Medicine

You don't take Vapo-Cresolene into the stomach, you breath it. Put some Cresolene in the vaporizer, light the lamp beneath and then breathe-in the vapor. It's easy, convenient, safe. It can be used with success, even for infants.

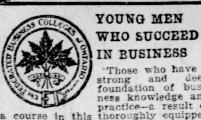

Don't you see at once how valuable such a remedy must be for hay fever, diphtheria, sore throat, catarrh, asthma, and other diseases of the air passages? For whooping-cough it is a perfect specific, often curing the disease in from one to three days.

What is Vapo-Cresolene? It is what the doctors call a coal-tar product; that is it's something like carbolic acid, only it destroys disease germs.

Keep Vapo-Cresolene on hand; it's not expensive, for the vaporizer lasts a lifetime and the Cresolene costs but little.

You Breathe it

o-Cresolene is sold by druggists everywhere. The Vaporizer and Lamp, which should last a life-time, attle of Cresolene complete, \$1.50; extra supplies of Vapo-Cresolene s5 cents and 50 cents. Illustrated containing physicians' testimonials free upon request. Vapo-CresoLeng Co., 180 Fulton St., New York,

It.would be just as reasonable for a temperance advocate to drink a little diluted wisky as to drink coffee, for one is as truly an intoxicant as the other, and persistence in the use of coffee brings on a variety of chronic diseases, notorious among which are dyspepsia, heart palpitation (and ultimately heart failure), frequently constipation, kidney diseases, many cases of weak eyes and trembling con-

dition of the nerves. This is only a small percentage the great variety of diseases which come from an unbalanced nervous system, caused by the persistent daily use of the drug caffeine, which is the active principle of coffee. Another bit of prima facie evidence of coffee is that the victims to the habit find great

difficulty in giving it up-They will solemnly pledge to them-selves day after day that they will abandon the use of it when they know that it is shortening their days, but morning after morning they fail, until they grow to despise themselves for

their lack of control-Any one interested in this subject would be greatly surprised to make a systematic inquiry among prominent brain workers in America. There are hundreds of thousands of our most prominent people that have abandoned coffee altogether and are using Postum Food Coffee in its place, and for the most excellent reasons in the world. Many of them testify that ill health, nervous prostration, and consequently Thanksgiving tea proved an unusually inability to work, has in time past, enjoyable occasion to the hundred pushed them back and out of their young women who attended. She told why there was need of such a school as hers, and of how it was conducted. She believed that the proper place for a girl to learn how to care for and keep her home was with her mother and in the public schools; but usually they learned too little with the former and nothing at all at the latter. So she hoped to interest the teachers in a department of education that included training in all the sub-jects which pertain to the home—in the principles of cooking and invalid cooking, in sewing, laundry work and hygiene, in house sanitation, in marketing and the principles of house-work. Miss Butchart invited the teachers to visit her school at any time, an invitation that included all women who desire to learn more of the subject in which she is interested.

The election of officers of the association resulted as follows: President, Mr. S. J. Latta; vice-president, Miss Althouse; secretary-treasurer, Miss E. Johnson; executive committee,

#### for the general purposes of the city. WORK OF REVISING PRESBYTERIAN CREED

Inaugurated by a Section of the Committee

Washington, D. C., Nov. 30. - The oreliminary work of revising the creed of the Presbyterian Church, so as to make it more popularly understood. was inaugurated here on Thursday at a meeting of a section of the committee of twenty appointed at the last Presbyterian Assembly. The section began the preparation of a new statement of the doctrine of the church. It spent several hours in discussion, but no action was taken on any phase of the subject. A form of statement to replace the one now in use was submitted, and other forms will likely be submitted.

No vital changes were contemplated, in the discussions, but mainly a differ-ent mode of expression was aimed at.

Other sessions will be held.
On Wednesday the full committee will convene with a view of taking final action. The other sections of the committee will meet contemporaneously with the full body and frame propositions for action. One of these will draft new chapters on the Holy Spirit and on the love of God, and the other will make a slight revision of the Confession of Faith with reference to the elect infant declarations. It is felt that the present statement on this point implies that any infant dying in in-fancy is "lost" from the standpoint of the religious future state, and the creed to be adopted will make it clear that the Presbyterian Church does not hold the belief that those who die in in-
