10.00 Perish as San Francisco Reels Under Earthquake Awful Fire Now Sweeping Through Wrecked City

WHOLE BLOCKS OF BUILDINGS COLLAPSE; THOUSANDS ARE BURIED IN THE RUINS; WATER MAINS BURST, FIREMEN HELPLESS

HEART OF THE BUSINESS SECTION COMPLETELY

4 Terrible Catastrophe Falls Upon San Francisco and Sacramento at Early Hour Today, by Which Many Lives Are Lost and Millions of Dollars Damage Done.

San Francisco, April 18.—San Francisco was practically wrecked by an earthquake at 5:10 this morning. The shock lasted three minutes. Thousands of buildings were damaged or destroyed. The loss of life is reported great. There is no water, and fires are breaking out all over the city. All the wires with the exception of one are gone. The city hall, costing seven millions, is in ruins. Modern buildings suffered less than those of brick and frame.

The terror and excitement are indescribable. Most of the people were asleep and rushed into the streets undressed. The buildings swayed and crashed, burying many occupants. Panic reigns in the downtown hotels. The Lick House is badly damaged, but no loss of life there is reported.

The Palace and the St. Francis hotels stood the shock. People flocked to the telegraph offices to send messages to friends, and were frantic because there were no wires. The greatest damage was done to buildings south of Market street, where mostly they are frame and tenement houses. Fires occurred in every block in that

A telegram from Sacramento to the Western Union Telegraph Company reports that three miles of railroad sank out of sight as a result of the earthquake between Suisuan and Benelea, and all wires were taken with it. At Pleasanton there were several cars burned on the main line, blocking the trains.

Fire Raging and No Water.

San Francisco, April 18.-6:50 a.m.-A disastrous fire has broken out on the south side of Market street, and is now within one block of the Palace Hotel. The water mains have burst and the fire department is practically helpless. The utmost confusion exists. All business is suspended. At this moment there is only one wire out of San Francisco, a Postal wire. The Postal building is badly damaged. The operating room is a wreck. The power of every kind is gone, and there are no lights, either gas or electric. Neither the Palace Hotel nor the St. Francis is gone, that is, as far as the outside goes, but the inside plastering, etc., is greatly damaged. Between the postoffice and the water front there has been great damage by fire, which is burning fiercely, and there is little or

The fire is burning both on the east and south side of the Postal Telegraph building. The damage by the earthquake apparently extends all over the city. The shock occurred at 5:15 this morning, and lasted three minutes. The streets are blockaded with debris and buildings are being blown up. The residence districts are safe so far as heard from.

Many Blocks Destroyed.

New York, April 18. - At about 9:40 the Postal Telegraph Company had communication with their San Francisco office, but lost the connection again almost immediately, In the brief period that the wire was working the San Francisco office reported that a number of buildings had collapsed, and that the dead and injured were being taken from the rulns as rapidly as possible. At the time this message came through the principal danger was from the fires, a number of which had started and were

making great headway owing to the lack of water. At 10:40 o'clock this morning the Posts / Hegraph Company received the following telegram: "At 5:13 this morning a terrific earthquake shook San Francisco, doing particular damage in the district east and south of Market street, practically destroying six or eight blocks in the manufacturing and wholesale districts. The banking district was not seriously damaged, although small damage has been done over the whole town. Many persons have been killed and wounded, and a portion of the town is on fire, the water supply being shut off. At this moment they are dynamiting several of the buildings."

The Associated Press office was also badly damaged. , One Thousand Lives Lost.

Kansas City, Mo., April 18.-At 9:15 p.m. the Postal Telegraph Company here had received the following in-

It is reported that 1,000 lives have been lost in the earthquake at San Francisco.

Both the Postal and Western Union telegraph buildings in that city have been destroyed. A disastrous fire is eating its way up the south side of Market street, and at last accounts was within

three blocks of the Palace Hotel. Water mains were bursting and the fire department was absolutely helpless.

Many Buildings Collapsed.

Kansas City, Mo., April 18.—At 8:35 this morning the Postal Telegraph Company here states that the only information obtainable from the west was that the operators at San Francisco had left their building in that city and reported that many buildings were collapsing and many fires breaking out, with no water available to fight the flames. People were deeing from the affected districts.

The Union Pacific Railway Company reports that all of their wires have gone down west of Ogden. The area covered by the earthquake seems to have covered several hundred miles.

Shock Bursts Water Mains.

New York, April 18.-The Postal Telegraph Company learns that the fire is eating its way along Market street. The water mains were burst by the earthquake so that there are no means at hand for fighting the conflagration. The electric lighting plant of the city has failed and gas mains are disrupted. The damage extends through the entire city. The Postal building was badly damaged and the operating room is inacapable of use.

Sacramento Also Suffers.

Sacramento, Cal., April 18.-A severe earthquake shock occurred here at an early hour this morning, There is great confusion, and it is impossible to learn full extent of damage. No loss of life is yet reported.

University in Peril.

New York, April 18.-At 11:65 the Western Union received a report that a serious fire is burning at Berkeley, where the state university is located. The report came from Pinole, a station ten miles out of San Francisco, and the nearest point to the latter city which the company had been able to reach up to the time of this dispatch. Berkeley is between Pinole and San Francisco.

The Business Section Wrecked.

San Francisco, Cal., April 18.-The business section of the city from Market street to Mission street and from the bay back has been almost completely wrecked. The Call and Examiner buildings are destroyed. Many buildings along Market and Mission streets, including the department stores, collapsed. Hundreds of people in the cheap tenement district are reported killed. Fires are raging and owing to the scarcity of water are practieally beyond control. Business is practically suspended. Men blasting rock made the discovery of the lake and cavern when the discharge caused the earth to crumble and fall in, leaving a great hole. Workmen ventured into the cavern, exploring it for a considerable distance. They discovered the lake, and returning to the surface, procured a small boat, in which they rowed about for several hundred yards. There are limestone formations in the cavern similar to those in the noted Luray caves. The waterof the lake is remarkably pure, and is cold and sweet to the taste. A systematic exploration of the cavers will be begun today.

Sentenced to Drink Himself to Death

Herald today says: Condemned by a court of justice to get drunk and remain so until drink killed him. Selby T. Jones, son of a City, Mo., came to Chicago to obey the sentence of the court. Without means last Sunday to continue the debauch judicially imposed upon him, sufficiently intoxicated to resort to any expedient to carry into effect the remarkable penalty, he stole a traveling salesman's valise and sample case and was arrested. Jones' efforts to satisfy his parole by drinking himself to death, have continued since March 6, when Judge Wofford, of the criminal court in Kansas City pronounced this sentence: "If you'll get drunk and stay drunk I'll let you out of jail. You must leave the city. Only remember you must get drunk and stay drunk. You're a bad man, and whisky will take you to the devil faster than anything else. The sooner the devil gets you, the better. If you don't live up to these conditions I'll put you in jail and keep you

Next day Jones, furnished by influential friends with transportation to Chicago and sufficient money to tide him over two months, left the city that had been his home for 20 years, saying farewell to his aged mother, whose prayers, as he peered through the bars of the cell yesterday, still rang in his

of good bread is good wheat. There is a difference between the abilities of women as cooks-and there is a difference between the mills where "FIVE ROSES" FLOUR is made and the ordinary mills, but unless the wheat is good neither the best cook nor the most up-todate mill can insure the best bread.

It is admitted that the finest wheat in the world is grown in Manitoba. The soil is a deep, rich alluvial deposit, containing just the elements needed for wheatgrowing. The rainfall is moderate, and the days long and clear, giving the growing wheat a maximum amount of sunshine. The result is a wheat which is rich in gluten, phosphates and nutriment, and of such a hardness that it grinds to perfection.

With the numerous elevators we have scattered throughout Manitoba and the Northwest we are able to secure the pick of the harvest, and the users of "FIVE ROSES" FLOUR get the best flour that can be made from the best wheat in the world.

LACROSSE WILL CUT FIGURE IN MICHIGAN

Calumet, Mich., April 17.-Lacrosse will occupy a prominent place in the summer sports of Northern Michigan this season. At the two Soos there is material for a couple of teams, and Percy Hartney, an old lacrosse player, is endeavoring to organize a club in Calumet. Houghton has had good lacrosse teams in former years, and undoubtedly will be represented by a strong aggregation this summer.

Nearly all the men who play in the International League Hockey Clubs in the winter are adepts at lacrosse. Captain Jack Laviolette, of the American Soos, has gone to Montreal, where a flattering offer was tendered him to play on a lacrosse team. The Soo teams will arrange games with Copper Cliff and Sudbury, on the Canadian side, and a series will be played with the Houghton and Calumet teams. bart building are wrecked, as is the Associated Press building at 302 Montgomery street. The residence portion is but slightly damaged, although nearly every house has been more or less injured. At the offices of the St. Louis and San Francisco Railroad in this city a message was received from the company's agent in Nevada, saying that the earthquake shock was severely felt throughout Nevada, and that

all wires were thrown down west of Reno The Postal Telegraph Company received information that the greatest damage from the earthquake was done to property in the following streets: Drumm, Davis, Front, Battery, Sansom, Montgomery, Kearney, Spear,

Big Hotels Still Standing.

San Francisco, April 18, 8 a.m.-In the confusion which reigns everywhere, it is almost impossible to learn details of the disaster caused by the earthquake this morning. In general it may be said that the district lying between Market and Howard streets, from the bay as far west as the city hall, has been badly wrecked. The hotels in the vicinity of Third and Market streets were badly shaken up, but there seems to have been on loss of life there. The Call and Examiner buildings, as well as the Western Union building, have been badly wrecked. The large department store in this neighborhood were also ruined, but the earthquake occurred at an hour when they were empty and no loss of life is reported.

Farther east on Market street toward the ferry slips is a section occupied by cheap lodging houses and hotels, and here the loss of life is reported to be very great, though the extent of it could not be ascertained at

Fires are burning in a number of places along Market street, and the water mains have burst. The authorities have resorted to dynamite to check the progress of the flames. The residence section of the city, while badly shaken, reports no loss of life or serious damage.

As reports come in the magnitude of the disaster grows. Fires are raging in all directions and people are moving out of the downtown section. Millions of dollars worth of property have been destroyed.

Felt at Washington.

Washington, D. C., April 18. - The San Francisco earthquake has reached across the entire continent. The selsmograph at the weather bureau here showed such a violent agitation about 8:30 o'clock this morning that the pen passed off the recording sheet. The instrument at 12 o'clock was still under vibration, showing that the erthquake has not ceased.

Hotel Toppled Over.

San Francisco, April 18.-The Valencia Hotel, between Seventeenth and Eighteenth streets, on Valencia street, iffx-story frame building, toppled over into the street, burying 75 persons in the debris, only the top story remaining intact. A house on Fourteenth street, near Valencia, was wrecked, killing two persons. Many of the firehours are damaged so badly it is impossible to get the fire apparatus out. A lodging-house on Seventh street, known as the Kingsley, entirely collapsed. It is on fire, and 75 to 80 persons are believed to be buried in the flaming ruins. At Twenty-second and Mission the drygoods store of Lipman is on fire, threatening the destruction of the entire block

Crevasse in the Street.

At Eighteenth and Valencia streets there is a crevasse in the street six feet wide, and entire sidewalks are torn up. The street car tracks are badly twisted all through the southern section of the city, and traffic is at a

At the Southern Pacific Hotel water is being carried into the building from outside sources for the use of the patiens. Many persons suffering from injuries are seen on the streets, making their way to the different hospitals. The Episcopal Church on Eleventh street is badly damaged, and at the Studebaker carriage factory on Tenth and Market streets, the top story caved in, badly wrecking the entire building.

Fire which has been raging in the vicinity of Fourth and Stevenson streets has gotten beyond the control of the firemen, and the flames have leaped to the Winchester rooming-house on the west side of Third street. Unless the flames can be checked here the Palace Hotel, one block distant, will be endangered. The water supply is entirely inadequate and power is being used to check the flames.

Conflagration Is Spreading.

For the benefit of eastern people who have friends visiting in San Francisco, it is safe to say that they have not been injured. As the hours go by the excitement grows more intense. Every few minutes explosions are heard as buildings are blown up to stop the progress of the flames. The fires are spreading, and if the wind comes up, San Francisco will experience the greatest conflagration of modern times. On lower Market street, the main thoroughfare of the city, many blocks of substantial buildings have been destroyed. A big fire is raging on the corner of Sansom street and Pine street, one block from the Associated Press office. The wildest rumors as to loss of life are coming to the newspapers, but it is impossible to confirm them. No reports have been received outside of San Francisco, but the damage about the bay must be enormous. Oakland is said to have suffered severely.

Old Lady from Michigan Able to Take a Long Journey.

A remarkable case of longevity was noticed at the Grand Trunk depot this morning. There alighted from a westbound train a lady, who seemed to be able to get along without much assistance. She appeared to be possessed of all her faculties, and while she seemed to be quite old, it hardly looked probable that she had seen 100 years roll around. But she had, having been born in May, 1806. She was a very bright old lady, and her wonderful activity for her years was commented on by many of her fellow passengers. She lives in Michigan, and is on her way to St. Thomas. She showed little effect of her long journey.

LOCAL MARKET.

London, Wednesday, April 18. For the sixteen loads of hay that were offered today there was a very brisk demand. Pr ces were higher than on the previous day, at \$9 to \$10 per ton. Straw was scarce at \$3 per load. Oats were higher at \$1 17 per cwt.

WEEKLY REVIEW.

market the past week. The majority of the farmers have started to propare the land for their spring seeding, consequently the supply of farm produce at the market for the next ten days or so will be small. Prices have been well sustained in nearly every

supply the demand. Prices are firm at \$1 14 to \$1 17 per cwt. Barley sells at H per owt, and wheat at 77c per bushel Hay and Straw-The demand for hay is very brisk. The supply no coubt will be light until the farmers are through with their seeding. Prices rule at \$9 to \$10 per ton. Straw is in good demand at \$3 to \$3 50 per load, or \$5 50 when sold by the ton.

Butter and Eggs-The supply of butter at Saturday's market was very large. Sales were slow at 18c to 20c for pound rolls and 17c to 19c for crocks. So far this week there has been very little offered, and prices are a shade firmer. The dealers are now offering 26c for choice pound rolls. Eggs are easier at 131/2c to 141/2c per dozen wholesale.

Potatoes are in good demand at 80c

OLD COUNTRY PRICES. London, April 17.—Cattle are quoted at the to 11½ c per lb; refrigerator beef, 8½c per lb; sheep, dressed, 15c to 16c per lb; ambs, 17c, dressed weight. TORONTO.

Toronto, April 17.—The run at the city cattle market today was 58 cars, with 900 head of cattle, 153 sheep and lambs, 500 hears, and 268 ruly or head of cattle, 153 sheep and lambs, 500 hogs and 268 calves.

With a comparatively light run today at the city cattle market prices were generally well maintained, though the market is not so strong that it would stand much pressure. As it was, however, prices were in some cases a little higher, if anything, than last week.

Drovers still d mplain that they have to pay higher prices in the country than they can get in the city. On the other hand, butchers and shippers both claim that they are paying for cattle more than they are really worth, in view of general continuous elsewhere.

Experters—A choice load of export conditions elsewhere.

Experters—A choice load of export cattle, 1,250 lbs, sold at \$5.20 to Mr. Dean, leveral other loads of rough heavy exporters, some bought for the local butcher trade sold at \$4.55 to \$5.

Butchers—Some choice loads of good butcher cattle, 1,050 lbs, or a little over, were sold at \$4.60 to \$4.85; a few edd ones at \$5; medium heavy butchers at \$4 to \$4.10; mixed lots and cows at \$2 to \$3.50; common canners at \$1.50.

W. J. Neilly bought for Park, Blackwell & Co. 60 butcher cattle; choice, \$4.50; to \$4.25; common, \$3 to \$3.50;

M. H. Pringie bought 21 butcher cattle, George Rowntree bought for the Harris Abattle.

or Fruit Liver Tablets,

DR. ALEXANDER FALKNER, Williamstown, Ont., a physician who has enjoyed a large practice for the past thirty years: — "I have much pleasure in certifying to the value of 'Fruit-a-tives' or 'Fruit Liver Tablets' as a medicine for chronic constipation and bilious ness, dyspepsia, etc., etc. I have prescribed this medicine for the past six months and can strongly recommend 'Fruit-a-tives' in all cases of constipation, indigestion and flatulence, headaches due to weakened digestion, etc.

DR. A. FRANKFORD ROGERS, Ottawa, a physician who has enjoyed one of the largest practices in that city, states :- "I have no hesitation in recommending 'Fruita-tives' or 'Fruit Liver Tablets' as the fact of these tablets being made from a laxative material extracted from ripe fruit appeals, and has appealed to my judgement, and I have used these tablets extensively in my practice and always with most gratifying results. The proprietors of this medicine do not nesitate to furnish the formula of the tablets to physicians, and hence any physician can use these tablets and recommend them without loss of self respect. The formula of 'Fruit-a-tives' is certainly a magnificent one, and in my experience no medicine ever used by me has given such excellent results in constipation and stomach and liver trouble as 'Fruit-a-tives' has. That these tablets act beneficially on the kidneys and skin is beyond doubt and in many cases where the skin was sluggish and inactive and the complexion bad 'Fruit-a-tives' have given the most pleasing results."

DR. D. J. COSTELLO, member of the internal staff of the General Hospital, Ottawa, and who has extensive experience, states :- "I have used 'Fruit-a-tives' or 'Fruit Liver Teblets' with most beneficial results in obstinate constipation and biliousness, and found their action mild and non-irritating, and yet more curative than any medicine ever used previously. I strongly recommend 'Fruit-a-tives' to those suffering from these complaints." At all druggists or sent postpaid on receipt of price. 50c, a box or 8 boxes

COMPANY'S PLACE TO REPAIR ROAD

If L. E. and D. R. R. Fails to Do So, Lease of Lake Line May Be Canceled.

The London and Port Stanley Railway board held a fifteen-minute session last night, and took summary action in regard to the necessary repairs to the roadbed and bridges of the company's line to the Port.

City Solicitor Meredith was instructed to notify the Lake Erie and Detroit River Railway Company, the lessees, to put the road in proper shape forthwith. If the company fails to carry out this order, then the city may find it advisable to cancel the company's lease of the road, which has still about nine years to run. The motion to this effect was made by Ald. Garratt, and it was adopted

unanimously. The city solicitor gave his opinion to the effect that the lessees must make the repairs under the second clause of the agreement. Owing to the run-down condition of

the road, the city engineer estimates that the repairs will require a very large expenditure each year as long as the Lake Erie's lease continues. Mr. Meredith pointed out that in case of accidents to passengers or freight, the railway people are liable, but the city feels that now is the time to have the road put in shape before

the excursion traffic begins. "We don't care who is liable for damages," Ald. Gillean said. "We wish DISTRICT to preserve the lives of the people of
