HON. MR. CODERRE TO STEP OUT IS RUMOR ABOUT THE LOBBIES; SUMMER MAY SEE AN ELECTION

Government of Two Minds in Regard to Closure, Rogers Being Anxious to Ram It Through and Borden Timid.

MACDONALD CHALLENGES MINISTERS TO TELL THE PERMANENT PROGRAM

[Special to The Advertiser.]
Ottawa, March 14.—Three interesting reports are being circulated in the lobbies of Parliament today. One is that Hon. L. P. Coderre, Secretary of State, may resign before the charges are presented against him, and that he will be succeeded in the Government by H. B. Ames, member for St. Antoine. The second is that before Parliament adjourns on Wednesday for the Easter holiday, the Government will give notice of a closure bill. This will not be given with the idea of getting it through the House, though an attempt will be made, but in preparation for an election. Finally, there is a growing belief that dissolution will take place soon after Easter, and a general election take place in May or June.

Government Divided.
On the question of closure and election, it is understood that the Government has two minds, and that they predominate alternately. It is pretty clear that the Rogers group in the ministry does not want to go to the country, as it fears the result, and does not see the need of taking the chance of disaster at the polls. This group wants to ram closure through the House, or to continue to stand the siege of continuous sitting after reply is exhausted, relying on the developments of a feeling of hostility against the Opposition for withholding funds from the public service.

Afraid of Closure.
The Borden group in the Government and behind it in the House do not like the idea of attempting to put the closure into effect while the naval question is an issue. They are willing to take the chance of election, and would prefer to have the issue decided at the polls, rather than in Parliament after closure.

Whatever decision is come to on the question of election the House is certainly going to sit until Wednesday. Early speakers last night were Demers, of Irberville; Lacey, of Irberville, and Lachance, of Quebec. A man was put out of the public gallery for growling too loudly.

Col. Sam Hughes caught Burnham, of Peterboro, smoking his pipe at the back of the chamber and had it suppressed.

Lights Switched Off.

Mr. Martin, of Regina, made a speech in the early morning which stirred things up. He was declaring that the Ontario Conservatives had to be muzzled and gagged because their views on the navy differed so much, when someone turned the lights out. There was a moment of darkness, and Mr. Martin had no sooner resumed than the chamber was plunged into darkness a second time. The chairman directed the sergeant-at-arms to see that this did not occur again.

Mr. Martin was discussing the advantage of having a Canadian fleet when Hon. Mr. Pelletier asked if the ships would be built in Canada. Mr. Pelletier if he did not believe that Canada was capable of constructing ships of any kind. This seemed to start a storm on the Government side and for a few minutes nothing could be heard. It was Col. Sam Hughes, who told Mr. MacDonald to take things easy.

Still No Answer.
"I want to ask the Postmaster-General if the Government has abandoned all thought of providing for Canadian naval defence. Did it hold that Canada could not build cruisers and destroyers, although Australia was now doing this," said Mr. MacDonald.

"The present policy is one of immediate aid to the empire, the balance will come later," said Mr. Pelletier.

"What balance?" said Mr. MacDonald.

"Well, the other part," said Mr. Pelletier.

"What other part?" persisted Mr. MacDonald.

"What is the hon. member talking about?" asked Mr. Pelletier, impatiently. Mr. MacDonald continued to press, and Mr. Pelletier finally said, "The Premier speaks of this as something we were doing now, and intimates that there would be some-

thing else done later under agreement with the admiralty.
Mr. MacDonald continued to press for a statement of what the later program would be and was so persistent that Hon. Martin Burrell had to come to the rescue of his colleague. He said that the announcement would be made by the Premier in due course. "Can any of the four ministers present tell the House and country what the Government intends to do," asked Mr. MacDonald.

ANOTHER SPARLING DYING APPARENTLY AS BROTHER DIED

May Have Important Bearing on Case of Dr. MacGregor, Now in Prison.

Symptoms Declared To Be the Same as Those Which Preceded Other's Death.

Developments that may have an important bearing on its ultimate outcome have occurred in the Sparling mystery at Bad Axe, Mich., in which Dr. Robert MacGregor, a former Londoner, is involved. Ray Sparling, another member of the family in which the alleged mysterious deaths occurred, is dying, just as was predicted by Dr. MacGregor when giving evidence on his own behalf.

Predicted Death.
It will be remembered that the plea put forth by Dr. MacGregor in defending himself against a charge of murder was that the Sparlings had died from the excessive use of a patent medicine containing arsenic, which had accumulated in their systems. He at that time declared that Ray Sparling, a younger member of the family, who had been treated himself with the same medicine, would die within a year.

The prosecuting attorney pointed to the youthful witness, whose death had been predicted, and called the attention of the court to the healthful appearance of the lad, seeking to make capital by the incident. The New York Tribune, of Detroit, publishes the following dispatch from Port Huron in connection with the latest developments in the case:

Port Huron, March 13.—The announcement that Ray Sparling is dying, and that his symptoms are apparently the same as those which preceded the death of his brother, is a startling revelation.

(Continued on Page Eleven.)

BALKAN NATIONS NAME CONDITIONS AS TO MEDIATION

Will Insist That Peninsula of Gallipoli Alone Be Left Turks.

Sultan Must Accede All Isles of Aegean Sea and Pay Indemnity.

[Canadian Press.]
Sofia, Bulgaria, March 14.—The reply of the Balkan allies on the question of mediation by the powers was presented today to the foreign legations here. It declares that the Balkan nations will accept European mediation in following conditions:

First—As a basis of negotiations for the delimitation of the territory between Turkey and Balkan allies a line shall be drawn from Rodosto on the Sea of Marmora to Cape Malakra, seven miles south of Midia on the Black Sea, excluding the Peninsula of Gallipoli, which shall remain to Turkey. All territories west of the line, including Adrianople and Scutari, shall be ceded by Turkey to the allies.

Second—Turkey shall cede the islands in the Aegean Sea to the allies.

Third—Turkey shall renounce all her interests in the Island of Crete.

Fourth—The Porte shall consent in principle to the payment of a war indemnity, the amount of which shall be fixed when peace has been concluded, and also to the payment of private individuals as compensation for damage caused prior to the war. The allies shall participate in the deliberations regarding the indemnities.

Fifth—The allies reserve the right to settle by definite treaty of peace the principle to the payment of a war indemnity, and to their trade in the Ottoman Empire, as well as the guarantees to be given regarding the privileges of the Orthodox churches and the legal standing of their racial brothers who are Ottoman subjects.

The military operations shall not be interrupted.

DR. FRIEDMAN'S TRIP TO CANADA

Dr. Friedman, the German scientist, in Canada. The man who claims to have discovered a cure for tuberculosis, is seen in the centre of a group of the fifth-year class of McGill Medical College. On the left is Prof. G. Adam, and on the right, Lieut.-Col. Burland.

NOISE AT WINDOW MAN CALLS POLICE CAUGHT BURGLAR

Richmond Street North Resident Has Exciting Experience at Early Hour.

Surprisingly Officers Steal to Rear of House and Make Arrest.

Waking from his peaceful slumbers at 3 o'clock this morning, a resident of Richmond street north heard the unmistakable sounds of burglars trying to force an entrance by way of a back window. He listened. Yes, there could be no mistake. The thugs did not seem to care how much noise they made. There was a scraping and scratching, accompanied by dull thuds as from a muffled hammer.

Excitement at Headquarters.
Springing from bed the householder stealthily made his way to the telephone and informed the police. Instantly all was bustle at the Carling street station. Several officers were dispatched to the address given, fully armed and prepared to battle with desperate criminals. They were quickly but quietly admitted to the house. So skillfully were all these details carried out that the burglar was not disturbed at his work. The ominous sounds continued at intervals.

Preparations to effect his arrest were made. The officers advanced to the window, taking advantage of all possible cover to protect them from the possible bullets of their quarry.

Caught in the Act.
Meanwhile a large pet rabbit struggled on the windowsill to extricate himself from the entanglements of the window screen. He had managed to get in between the screen and the window, but his efforts to get out were unavailing.

He thumped the sill with his powerful hind-legs, and called the attention of the officers to the gallant bluecoats. He was released, and peace and quietness reigned once more in the home where a moment before consternation and terror had held sway.

LIBERALS DEMAND PROBE INTO HYDRO

Ask for Documents Bearing on Expenditure and Regarding McGuigan Company.

[Canadian Press.]
Toronto, March 14.—The public accounts committee organized today at the Parliament Buildings. Messrs. Clark and Sinclair, both Liberals, asked that Secretary Pope, of the hydro-electric power commission, be summoned and bring with him all documents bearing on the expenditure of some \$50,000 by the commission, and all documents regarding the McGuigan Construction Company.

The next meeting will be held on Wednesday, and after that there will be no more meetings until after Easter. Howard F. Ferguson, Grenville, is chairman.

Greater Middlesex Association Meets

A meeting of the executive of Greater Middlesex Association is in progress at the county buildings this afternoon, and the question of sending a representative to England to secure hired men and settlers will be one of the subjects for discussion.

200 London Lots Sell in Winnipeg

Mayor Graham has received word that the real estate firm which recently purchased \$250,000 worth of property in London, sold during the past week four hundred London lots in Winnipeg.

FORMER LONDON MAN KILLED AT BUFFALO

John De Fields Struck by a Pile Driver and Had Spine Fractured.

Mrs. Ben. Johnston, of 83 Maple street, received word Monday evening that her brother-in-law, John De Fields, a former Londoner, had been instantly killed in Buffalo, and left at once for that city. Mr. De Fields was working around a pile-driver, when a cable snapped and allowed the heavy hammer to fall some feet, it struck him in the back, fracturing the spine and causing instant death.

Mr. De Fields resided in London and London Township for many years. His wife, to whom he was married a couple of years ago, was Miss Stewart, daughter of Mrs. Stewart, of 446 Ridout street. Another sister resides in Idaho. The funeral will be held in Buffalo and Mrs. Johnston is attending.

HYDRO REJECTS CLAIM OF CITY FOR LIGHTING

Stated at the City Hall That the Same Rate Must Be Paid.

Appeal From Charge of \$30,000 Bears No Result For London.

It was reported on good authority this morning that the hydro-electric commission had turned down the appeal of the city against the hydro-electric department's street lighting rates. The rates will be the same as for 1912, viz., \$11 per 75-watt 60-candlepower lamp, \$12.85 per 100-watt 80-candlepower lamp, and \$8 per lamp for lamps placed at half-distances, totalling up, as last year, to \$29,200, in round numbers.

General Manager Glaubitz had not received any notification of the failure of the city's appeal this morning, but a report was received from Toronto to that effect.

GRAND RIVER ON SPRING RAMPAGE

The Basements in the Lower Section of Galt Are Flooded.

ICE CAME WITH RUSH In Attempt to Save His Horses Young Man Narrowly Escapes Drowning.

[Canadian Press.]
Galt, March 14.—The annual spring freshet of the Grand River came down at 8 o'clock this morning. The basements of the majority of the buildings on the east side of the river in the lower portion of the town were flooded, and considerable damage to household effects was caused. The heaviest losses, however, will be the C. Turnbull Knitting Company. The ice smashed through the lower windows and great pieces were swirled in among the machinery, racks and goods. No accurate estimate of the damage here can be made at the present time. Several other industries located along the bank will be out of commission for a couple of days, owing to the machinery being stopped as a result of the flood.

Lost a Horse.
J. Hunt, Water street north, lost a horse. When the water first began to rise, his son James led one of the two animals in the barn out to safety, but in his attempt to rescue the second he was thrown from his feet and only saved himself from drowning by grabbing the clothesline and pulling himself up to higher ground. The horse was caught in the current and carried down stream. The water flooded over on to Water street south, and the East River road is blocked with huge pieces of ice from the overflowing river. Fortunately the water remained at its height for only a short time, and this was a great factor in lessening the damage, which otherwise would have been wrought.

The fire department was called out to remove Mrs. Munroe, an old invalid lady, who lives at a low part of Water street, but although the water was a foot deep in her dining-room it was not necessary to take her out.

Employees and factory owners will lose much on account of the loss in operation of the riverside plants.

LONDON PHYSICIANS AT FRIEDMAN CLINIC

Members of Western Medical Faculty Attending the Toronto Test.

[Canadian Press.]
Toronto, March 14.—Members of the medical faculty from the Western University at London were conspicuous at the gathering of physicians today, and several prominent physicians came to the city from Western Ontario points to have a chance to see the celebrated physician, Dr. Friedman.

Delighted With Canadians.

Asked regarding his experiences in Canada, Dr. Friedman said that he was delighted with his reception in Montreal and Ottawa. "I was afforded every opportunity to demonstrate my cure," he said, "and that is all I ask. The cases presented for treatment were of nearly every form of tuberculosis, and the doctors present should be expected to take a different attitude. Dr. Friedman is treating hundreds of poor sufferers without any charge whatever, and he should not be accused of being mercenary."

Dr. Friedman to go to London with him this afternoon and conduct a clinic in one of the hospitals there, but the doctor said that he regretted having to decline the invitation to "I must be in New York tomorrow morning," said Dr. Friedman.

Would Use Oil On Suffragettes

London, March 13.—Home Secretary McKenna in the House of Commons today replied to the question of J. King, of which notice was given on Wednesday, as to the effect of pump-feeding on the suffragettes, and whether it would not be a good idea to apply dung (sea cow) oil where the women went on hunger strikes.

The minister said he understood that cod liver oil had often been applied for malnutrition in infants, but he was doubtful as to its success. Anyhow, the prolongation of life by such means would be very limited.

Mr. King retorted that he had heard of many cases where lives had been saved by dung oil. It was different from cod liver oil. It had a much more pungent smell. This last remark created much laughter.

GLASGOW DOCKERS FIGHT FOR 'GETTES AND WHIPSTUDENTS

Glasgow University Men, Who Tried to Break Up Meeting, Roughly Handed.

Thrown Out Bodily by Stalwart Laborers, Who Acted as a Guard.

London, March 13.—Students of Glasgow University and 300 stewards, including 50 dock laborers, came to grips at a suffragette meeting in St. Andrew's Hall tonight.

The students fared badly. Many of them were beaten, scores were ejected and the others sat throughout the remainder of the meeting in silence. Mrs. Emmeline Pankhurst, the suffragette leader, in the day would address the suffragettes. A large body of students from the university came to St. Andrew's Hall for the express purpose of breaking up the meeting. They got more than they bargained for.

When Miss Janie Allan, was introducing Mrs. Pankhurst, the students, who were in force at the back of the hall, started an uproar. Immediately the detachment of stewards and dock laborers swooped down upon them. A free fight followed and those who occupied chairs stood on them to watch the scrimmage.

Fierce Engagement.
 The organizer started playing, trying to drown the uproar, but without success. After a fierce engagement, which lasted ten minutes, the stewards dragged or carried not less than 50 students into the streets. Those that were left behind, finding themselves outnumbered, did not renew the fighting, but were discreetly well behaved.

One student, whose head was severely cut, received surgical attention, while many others bore traces of the fray in the shape of black eyes, bruised faces and torn clothing.

The promoters of the meeting anticipated hostility and invoked the aid of the stalwart dockers to reinforce the regular male attendants. The dock men, on their part, seemed only delighted to have a chance at the students, and by their energetic proceedings secured for Mrs. Pankhurst a quiet hearing for 20 minutes.

Her speech to a large extent was a repetition of one recently made. She said she had given a pledge not to incite to violence while on bail, but this did not prevent her from talking about incitement.

The Cheapest Thing.
 In her opinion the members of the Government were the first persons who ought to be tried for incitement to violence. The King's speech was a direct incitement to violence on the part of the women. She agreed with Lord Hugh Cecil that militancy was the most effective thing in raising public questions to the front and, moreover, it was the cheapest thing.

A large and hostile crowd gathered outside the hall, and Mrs. Pankhurst was obliged to make her escape by a side exit.

WRECK ON THE U. P.

Omaha, Neb., March 14.—Union Pacific passenger train, No. 12, known as the Colorado Special, ran into the rear of No. 4, the Atlantic Express, this morning, near Gothenberg, Neb., killing four persons and injuring 30 more, according to advices reaching here.

Good News From the Lumber Camp

Men in the lumber camps have free medical attendance, and while many suffer from piles on account of exposure to cold and dampness, the doctors do not seem to have any cure for piles.

Many letters come from lumber camps in praise of Dr. Chase's Ointment, and here is a sample of how they read:
 Mr. William Jones, cook in lumber camp at Prairie River, Sask., writes: "For a long time I suffered from itching, bleeding piles, and could not sleep nights, because of the intense itching. Two doctors treated me, but the relief was only temporary. I saw Dr. Chase's Ointment advertised in a newspaper and it cured me completely over four months ago. Two besides me had the piles here at the camp, and were cured by ointment I gave them. After all the treatments I tried I never expected to be cured and am grateful for it." Dr. Chase's Ointment is a positive cure for itching, bleeding and protruding piles.

GOVT. BRINGS DOWN THE NEW ESTIMATES OVER FIVE MILLIONS

Finance Minister White Presents Supplementaries to the Commons.

Estimates To Be Voted on This Session Will Bring Total to Over 174 Millions.

Ottawa, March 13.—Supplementary estimates totaling \$5,232,507.42 were brought down this afternoon by the finance minister. The amount is made up of \$5,201,491.19 chargeable to consolidated fund, \$31,726.46 chargeable to capital, and \$5,239.77 to cover unprovided items for 1912-13 in various branches of the service. These estimates are for the fiscal year just closing, and they bring the total for 1912-13 up to \$174,618,874.90.

The main estimates to be voted for 1913-14 total \$179,152,183.23. The supplementary estimates brought down today bring the total to be voted so far this session up to \$184,544,690.70. The supplementaries include an additional \$10,000 for the archives, \$40,000 for the development of the dairy and fruit industries and the improvement in transportation, sale and trade in food and other agricultural products, \$65,000 for experimental farms, an additional \$75,000 for the health of animals branch, \$200,000 for immigration, \$25,000 for seed grain for settlers on unpatented lands in the western provinces, \$200,000 for the permanent force, \$35,000 for the purchase of Toronto property to be used for division of offices, \$33,000 for the breaking work done at the head of the lakes to facilitate the grain movement, \$50,000 grant to Mrs. E. A. Sjosledt, whose son is in the Mines Department, and was lost in the Titanic disaster, \$20,000 to assist in moving the houses of the residents of Fribourg, Alta., \$10,000 for the Chicomilmi fire sufferers, \$30,000 for the Regina cyclone sufferers, \$25,000 for salaries and expenses, etc., in the customs service, \$2,250,000 for the Government railways.

HOUSE DIVIDES ON THE BUDGET

Trenchant Criticism of Whitney's Financing by Liberal Leader Rowell.

BALLOT WAS 73 TO 20

Reports of Hydro and T. and N. O. Not Ready in Time To Be Studied.

[Special to The Advertiser.]

Toronto, March 14.—Animated speeches by the leader of the Opposition, Sir James Whitney, and Mr. Allan Stuchborne (East Hamilton), concluded the debate in the Legislature yesterday afternoon, and on the division taken a few minutes after six a vote of 73 to 20, Mr. Stuchborne voting with the Government, explaining that the amendment of the Opposition was so worded as to make it necessary for him to condemn the hydro-electric and other schemes of the Government. If he voted with the Opposition, and this he would not do.

Mr. Rowell Criticizes.
 Mr. Rowell made a trenchant criticism of the financial affairs of the Province, and a lucid exposition of the Government's position, which prompted to admit there was a deficit, and at the same time deny the existence of a deficit. The Premier, in his reply, declared that the Opposition and the two Liberal newspapers in Toronto were always and bitterly opposed to the hydro-electric scheme, defended the Government in the choice of the location of the new Government House and in the expenditure so far on that structure, and loudly condemned the recent successful attempt of "inter-ested persons to introduce politics into the University of Toronto." He declared that the farmers sent their sons to the university to get education and not to be placed into a "political forcing-house, from which they would later return to their homes to act as political agents in their respective constituencies."

Labor Member.
 Mr. Stuchborne in his speech dealt chiefly with the immigration work of

the department of agriculture, and criticised the present Government for having failed to give the laboring classes a square deal, and for having paid so much attention to the farmers of the Province, at the same time ignoring the demands of the laboring classes.

Mr. Rowell at the outset regretted that an adequate discussion of the financial affairs of the Province would not be possible while the reports of the hydro-electric commission and the Northern Ontario Railway were not ready. He pointed out that the limited amount of income which had been given to the members was entirely insufficient to enable the members of the Opposition to deal with the budget in any comprehensive manner.

Referring to the praise claimed by the Government for the success of the hydro-electric scheme, Mr. Rowell said that the movement was the outcome of an urgent appeal by the municipalities that something should be done, and the first committee appointed to deal with the matter was composed of three Liberals. The present chairman of the commission came into the work as the representative of the municipalities under an act passed by the Liberal administration which preceded the present Government. He declared that the Opposition rejoiced in the success of the project and would do everything to further its interests legitimately.

Financial Deficit.

The finances of the province for the present year would show a deficit of nearly \$4,000,000, according to the statement brought down in the House by the acting provincial treasurer, Mr. Rowell pointed out. The budget speech, Mr. Rowell continued, was simply an explanation of receipts and expenditure last year. It contained no review of the finances of the present year, no estimate of expenditures, no estimate of receipts and no suggestion as to how to meet the deficit. "Does the Government," asked Mr. Rowell, "lack the capacity to devise, or the courage to impose, new taxation, or both?" He showed that the Government, to meet the deficit with which it was now confronted, might have had the increased Dominion subsidy, as it had previously pointed out, and it might increase the land tax along the lines shown by the member for West Middlesex. After a brief review of the work of the various departments of the Government, pointing out where results had not kept pace with the expenditures, Mr. Rowell concluded by pointing out that the Government was not alive to the needs of the province, and that if it did not soon wake up and the people would give the Liberal an opportunity of showing how alive they are to the pressing needs of the people.

Sir James declared that the leader of the Opposition and the newspapers behind him were opposed to the hydro-electric scheme. He said that the members of the Opposition in their speeches had failed to show that they had anything to complain in the administration of the affairs of the province by the present Government. "But," added Sir James, "I defy any man, woman or child to produce a single statement made by the leader of the Opposition since he entered the public life of this province to the effect that any member of this Government ever did anything right."

The Premier said the Government was proud of the course it pursued in the matter of the location and the construction of the new Government House. He also said the present Government was proud of its actions in regard to the University of Toronto. He denounced the introduction of politics into the university, and said that in five years the beneficial effects of this move would be so apparent that it would not require much effort to then eliminate politics from university life.

MANY NEW SHIPS IN PROGRAM OF THE BRITISH NAVY

Five Dreadnoughts, 8 Cruisers, 16 Destroyers and Some Submarines.

Number of Officers and Men To Be Increased to 146,000; Estimates, \$231,546,500.

London, March 13.—The British naval estimates for 1913-14, which were announced today, total \$231,546,500, as compared with \$225,377,000 last year.

The new building program provides for five battleships, eight light cruisers, sixteen torpedo-boat destroyers and a number of submarines.

The personnel of the navy is to be increased to 146,000 officers and men.

There will be under construction on April 1, 11 battleships, 3 battleship cruisers, 13 light cruisers, 35 torpedo-boat destroyers and 21 submarines. During the year now closing 4 battleships, 3 battleship cruisers, 5 light cruisers, 15 destroyers and 3 submarines were constructed.

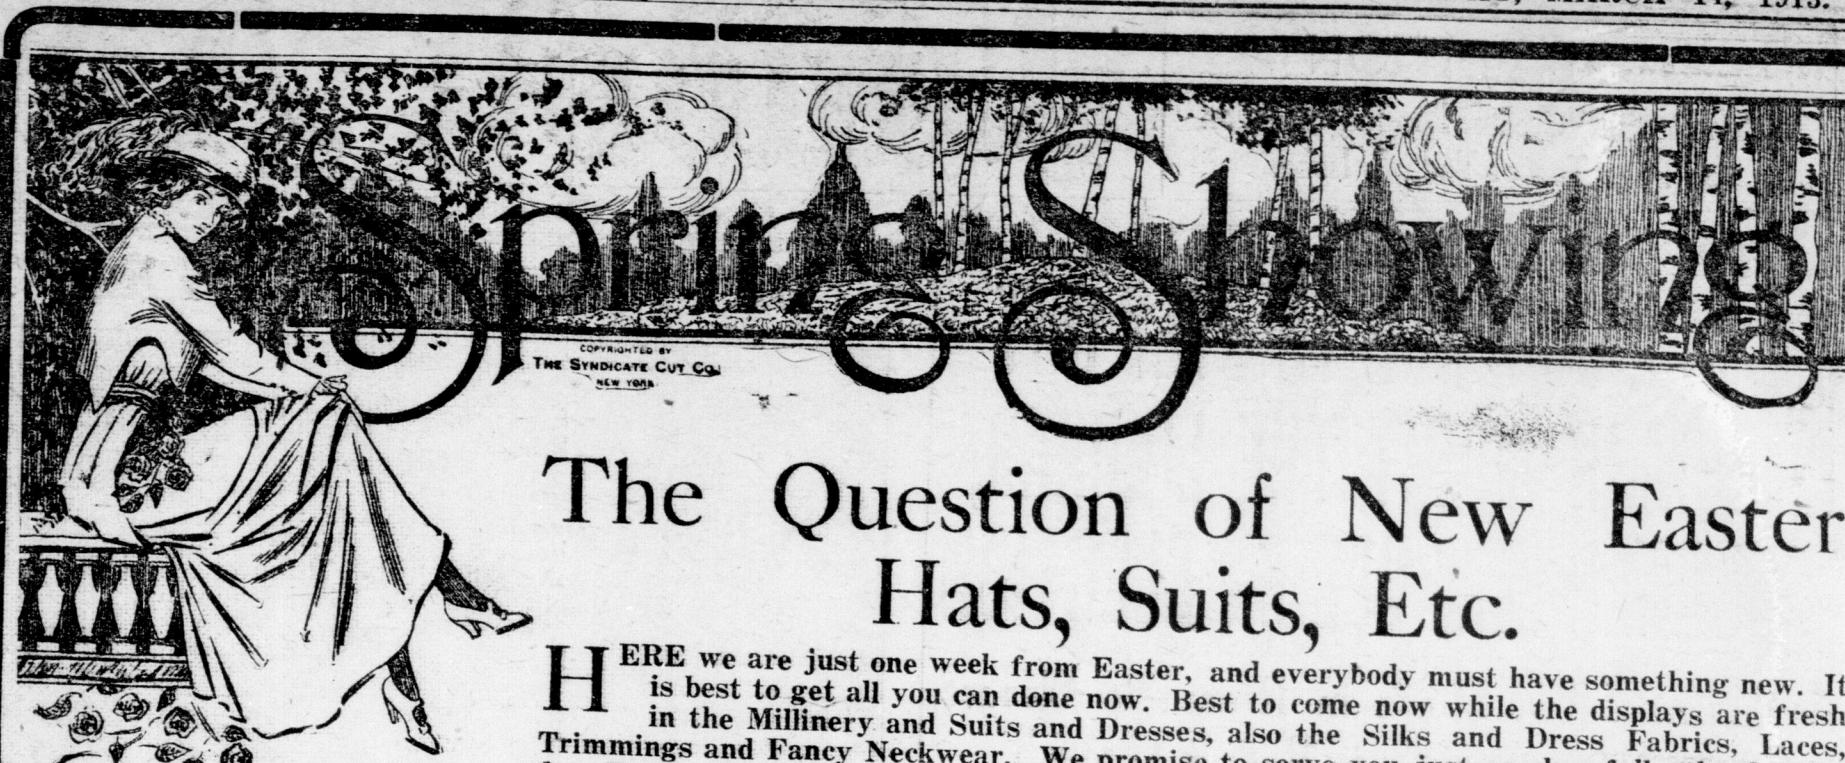

The general opinion prevails in the House of Commons that the First Lord of the Admiralty has cut the estimates rather fine, although it is conceded that they will meet the needs of the Government.

Both the "Bigger Navy" and the "Little Navy" politicians are disappointed. The former declare that the increase ought to be at least \$15,000,000 greater, part of this for new ship-building.

The latter complain that the increase is out of all proportion to the needs of the situation, and ignores the recent declaration of the German Minister of the Navy, Admiral von Tirpitz, in which he agreed to Winston Spencer Churchill's rule enunciated March, 1912, that Great Britain must build warships in the relation of sixteen to ten constructed by Germany.

They also urge that the projection of so large a program of new ship-building means a continuance of German rivalry.

It is pointed out that at the present moment the shipbuilding resources of the country are so taxed that they do not permit of a larger construction program.

The Question of New Easter Hats, Suits, Etc.

HERE we are just one week from Easter, and everybody must have something new. It is best to get all you can done now. Best to come now while the displays are fresh in the Millinery and Suits and Dresses, also the Silks and Dress Fabrics, Laces, Trimmings and Fancy Neckwear. We promise to serve you just as cheerfully the day before Easter as today, but in case your hat is a special order, or some slight alterations are desired in Easter clothes, you will be safer in having your fitting appointments made well in advance. TOMORROW (SATURDAY) WILL BE A BUSY OUTFITTING DAY IN THIS STORE.

Special Easter Millinery Display Saturday
 SIX TO TEN DOLLARS.
 Special orders given Saturday will be delivered early in the week.
 Second Floor.

Easter Display of Clothing for Men

IN THE Men's Store the story is the same. A great percentage of the new Spring Suits, Hats, Shirts, Overcoats, Gloves, etc., will be bought before Easter. And if you want your Suit to fit perfect in every detail, with all the nicety of fashion, we should have a chance to perfect the little alterations in time should such be necessary, so that we may not have the humiliation of sending you home a suit that is not satisfactory to the last detail. You will find us busy these days with old friends and new, meeting new demands, doing things that might seem impossible to some, working our way to better service all the time. It's the busy store that has time to do things well.

46 Men's Spring Weight Overcoats, Traveller's Models \$13.75

THIS OPPORTUNITY will not return this season. Forty-six only, the spring samples of one of the high-grade clothing makers (Canadian), Chesterfield style, always right. Made up in the newest materials, brown and gray tweeds in light and dark shades, also gray and black vicuna, with or without silk facing. On the purchase of one of these coats you will make a clear saving of \$8.00 to \$10.00. Besides, you are sure you have a spring 1913 Coat. Sizes 35 to 44. There is a choice in this group. Come early. All one price.....\$13.75

Fashionable Boys Too—Lion Brand Clothing

THE trademark is typical of the wearing qualities of our Boys' Suits—"LION BRAND." See the lions in the window, life size. Look like real live ones in boys' clothing display. These Suits are made from the most durable tweeds, as every mother from coast to coast knows who buys "Lion Brand" Clothing for the boys. Our new spring stock is here, and first showing will be seen in Richmond street window today for boys up to 17 years in the new tweeds in brown and gray, double-breasted and Norfolk styles. Prices.....\$5.86.50 to \$10.200 pairs Lion Brand Bloomer Knickers, Saturday, pr. 65¢, 75¢, 98¢

LONDON, FRIDAY, MARCH 14.

NEW ZEALAND WITH LAURIER.

The Canadian people will catch the significance of the speech on Thursday night to the Empire-Parliamentary Association in London by Colonel Ward, minister of defence for New Zealand.

The little Canadians have been claiming New Zealand as a permanent partner in the policy of tribute. Colonel Allen destroys that illusion. The Canadian Associated Press thus reports him:

"The payment of a naval subsidy would not in the long run appeal to Dominion sentiment and patriotism. A permanent policy was needed, but this could hardly be said to exist under the Canadian and New Zealand schemes. What they wanted was a living thing in which the Dominions would have a vital interest."

Colonel Allen added that the Dominions would not be content with merely putting their hands into their pockets; they must have the opportunity of doing their duty toward the personnel of the fleet and the manning of the Empire's ships at sea. He has not changed his views since his address to the Navy League in his own country last September. We quote from the report of his speech in The Round Table:

"As a New Zealander I cannot take my mind away from the responsibilities in the Pacific Ocean. With these always in view, centralization in European waters is not all that a New Zealander can desire, and personally I look forward with some fear and alarm to such an isolation in the Pacific."

The Pacific situation is as much the concern of Canada as of New Zealand. It is ignored by the naval policy of the Canadian Government. The Dreadnought presented to the admiralty by New Zealand must by agreement annually cruise in New Zealand waters, whether it is now on its way, but this will not satisfy the island Dominion. As the New Zealand correspondent of the Round Table says, in commenting upon Colonel Allen's speech:

"The idea is gaining ground that it is only through the sequestration of local proprietorship and the responsibilities of local management that the necessary knowledge will be gained by the Dominions and the necessary stimulus imported to their national spirit to make them face the sacrifice that will be needed to organize the great imperial navy that is to be."

This reads like a paraphrase of the speech of Mr. Foster in 1909. It no doubt voices the popular sentiment of New Zealand today. The Borden Government stands alone among the Governments of the self-governing Dominions in its surrender to the resurrected Roman ideal of empire which is being preached and propagated by certain circles.

THE SUFFRAGETTES AND OTHERS.

A tremendous sensation is caused by suffragette outrages in Great Britain. Those bombs and detonators and cries of female frenzy are "heard round the world," as Emerson would say. If Jehu Bull has had a reputation for stolid calmness, his Jill makes up for it with an unheard-of caterwauling. All the world looks on with hands uplifted in surprise or pious horror.

The doings of these Furies are criminal, of course, and anti-social, and are setting back the very cause they profess to have at heart. But there is not some hypocrisy in our horror at the effects of two or three bombs and a few broken windows? Would it not be well if the public got as angry over some things which are almost too common to be noticed, but which are a breach of actual law, have much more extensive and deadly consequences than occasional bombshells or assaults? For example, if examples are necessary, there is a mass of preventable poverty which society take nonchalantly enough. It sends tens of thousands of helpless people to their graves before their time. The slum mocks the paterfamilias, and little children perish every day and night who could be saved. Sweated labor is an evil to which the destruction of an occasional batch of letters is as nothing. Smart society is shocked when women sport golf greens, but seldom stops to think that thousands of drunken husbands beat their wives, as drunken husbands do everywhere. It is curious that one who gets excited over the actions of the suffragettes may be the most complacent person in the world on the subject of crying social evils. Human nature strains at a gnat and swallows a camel. The evils that are staged before our sight and lit by the limelight of sensation come home to us, while out in the dark unnoticed are the wallings and moanings of those who suffer and die in long agony. As Mrs. Pankhurst says, people seem to care more for property than for lives. But do not these common evils also involve property to an incalculable extent?

THE BOGEY OF THE CRANE.

Underlying Mr. Churchill's letter is the assumption that Canadians are incapable of developing, within a generation, the equipment and skill needed to build every part of the highest class of battleship. As no one proposes that Canadian shipyards shall begin with a Dreadnought, and as the armaments, about which Mr. Churchill makes much ado, would be purchased in Great Britain, much of his memorandum is irrelevant. When he carries his theory of Canadian incompetence into minute details, he exposes himself to ridicule. For instance, he solemnly states the fact that in the making of armor plate, cranes capable of dealing with weights up to 150 tons at a time are needed, as though the 150-ton crane would stagger the resources of this country. Mr. Carvell made much amusement for himself and the House of Commons out of Mr. Churchill's bugaboo of the crane. He pointed out that there were numerous 150-ton cranes in Canada already, adding in his racy fashion:

"Mr. Churchill had better come over to Canada. Evidently he thinks we are a lot of red Indians living in the woods. A crane of 150 tons? You hardly find a modern machine shop anywhere in Canada without a crane that will lift half that. Yet he puts this crane forward as one of the bogeys against our establishing a plant in Canada. Why, it is ridiculous!"

Mr. Carvell speaks with intimate knowledge of the steel-making processes at Sydney, N. S., which, he says, are just as elaborate and require as much experience as the making of armor plate in Great Britain.

This illustration of the 150-ton crane is sufficient in itself to discredit to some extent Mr. Churchill's memorandum. If he is so grotesquely astray in such a matter, what reason is there for crediting his other disparagements of Canadian enterprise and skill?

Co-operation, not Contribution.

New Zealand revolts against a Little New Zealand naval policy. The Little Canadians are now alone in the Empire.

"We want men, not money," is virtually the cry of the Admiralty. "We offer money, not men," is Mr. Borden's response.

For asking for more information about the hydro-electric department, Mr. Rowell is given a tongue-lashing by Sir James Whitney. It is the fate of everyone who ventures to ask a question about the hydro sphinx.

In engaging Glasgow dock laborers to expel noisy Glasgow students from a woman suffrage meeting, the suffragettes turned a new trick, a clever and successful one. The speakers got a hearing, the laborers enjoyed themselves hugely, and the students, at the cost of bruises and black eyes, learned a useful lesson not in the textbooks, but from real life.

Mr. Rowell asked whether the Ontario Government was behind Adam Beck in promoting electric railways. Sir James refused to answer. If the Government is not behind Mr. Beck, he had no right to lead the movement as he has done. The principle of cabinet unity, upon which the British system of government rests, has been persistently violated by the administration. Witness the conflicting speeches of Mr. Foy and Dr. Reaume on the bilingual question before the last election. This sort of thing would not be tolerated in Great Britain.

NEW ZEALAND'S CAPITALS.

[London Chronicle.]
New Zealand is greedy in the matter of capitals. It has already four, and yet it is demanding a fifth. The present ones are Auckland, the old original metropolis; Wellington, the present political capital; Dunedin, the commercial capital, founded by the Free Church of Scotland; and Christchurch, the ecclesiastical capital, founded by the Church of England. Wellington is the viceregal and portly, but it has suffered severely from fires, earthquake shocks and various other drawbacks. Hence the present movement for the construction of an entirely new metropolis on a beautiful central site, New Zealand might do worse than revert to their first capital, Auckland, intimately associated with the two greatest names in their history, Sir George Grey and Bishop Selwyn.

PRINCE CONSORTS.

[Pall Mall Gazette.]
The last century was more fertile in female sovereigns than the present. In the 40s three young queens occupied the thrones of England, Spain and Portugal—Victoria, Isabella, and Maria da Gloria. Their respective consorts were Prince Albert, of Saxecoburg, the infant Francois d'Assise, and Prince Ferdinand, another Saxecoburg. The last two were granted the nominal title of king, to which Prince Albert never aspired.

CAUTIONS.

[Success Magazine.]
"Come right on in, Sambo," the farmer called out. "He won't hurt you. You know a barking dog never bites." "Sure, boss, ah knows dat," replied the cautious colored man, "but ah don't know how soon he's going to stop barking."

BOYS TOGETHER YEARS AGO.

[Toronto Star.]
Mr. Gillean McLean, who died in St. Mary's the other day, is highly spoken of by the Journal of that town. As a boy, he attended school at Lobo, and along with another boy, named George Ross, walked to London to write on the examinations, as both aspired to teach school. When they were leaving and settling their boarding place in London young Ross found himself thirty cents short of the necessary amount, and according to the writer in the Journal, young McLean just managed to make up the amount, and they started on their long walk back to Lobo. Their paths diverged after that. One spent his life in the home locality,

the other is widely known as Hon. Sir George W. Ross.

SONG OF LONG AGO.

[James Whitcomb Riley.]
A song of long ago—
Sing it lightly—sing it low—
Sing it softly—like the lisp of the lips we used to know.
When our baby laughter spilled
From the glad hearts ever filled
With music glad as robin ever trilled!

Let the fragrant summer breeze,
And the leaves of locust trees
And the apple buds and blossoms
And the wings of honey bees,
All palpitate with glee,
Till the happy harmony
Brings back each childish joy to you
And me.

Let the eyes of fancy turn
Where the tumbled pippins burn
Like embers in the orchard's lap
Of tangled grass and fern
There let the old path wind
In and out and on behind
The elder press that chuckles as we
grind.

Blend in the song the moan
Of the dove that grieves alone,
And the wild whirr of the locust, and
the humbler's drowsy drone;
And the low of cows that call
Through the pasture bars when all
The landscape fades away at evenfall.

Then, far away and clear,
Through the dusky atmosphere,
Let the wailing of the kidde be the
only sound we hear:
O sad and sweet and low
As the memory may know
Is the glad-pathetic song of Long Ago!

NO WALKING FOR HIM.

[Baltimore American.]
"What walk in life has your son adopted?"
"No walk at all; he's in the auto business."

CLUMSY PARTNER.

[London Tit-Bits.]
"I thought," he remarked, "you said you could be dancing."
"So I did," came the reply, "but I didn't say I wanted to be trampled to death, did I?"

ROUGH ON PA.

[Houston Post.]
"Pa, what's a genius?"
"Ask your mother," she married one."
"Why, I didn't know ma had been married twice."

APPLYING THE PHRASE.

[Liverpool Mercury.]
Editor (to new reporter): You say in this report of the fire that "the lurid glare of forked flames shot athwart the dark-domed sky." Are you sure of that?

New Reporter—Yes, sir; I saw the whole thing.
Editor—Did you notice any insurance men looking about the place, or learn what caused the fire, or the probable amount of property destroyed?
New Reporter—No, sir.
Editor (striking match)—Well, just watch the lurid glare of forked flames shoot athwart this report!

JUST LIKE A MAN.

[Washington Herald.]
"What was it he was saying he couldn't afford?"
"Selling his wife wants, I have no doubt."

DISCOVERED.

[Boston Transcript.]
Gibbs—"So your wife quarreled with you. I thought you said she was blind to your faults."
Dibbs—She was blind to them all right, but she wasn't deaf and the neighbors posted her.

TRUE TO LIFE.

[Judge.]
Mr. Justward—Well, dearest, how did you like the play?
Mrs. Justward—Quite true to life—they charged servants in every act.

DISASTROUS FIRE AT ELMIRA, N. Y.

Newspaper Plant, Theatre and Mercantile Establishments Go Up in Smoke.

[Canadian Press.]

Elmira, N. Y., March 14.—Elmira was visited by one of the most disastrous conflagrations in years last night when the plant of the Telegram Publishing Company, a drygoods house, a grocery, a theatre, and several other smaller establishments were completely wiped out with an estimated loss of \$350,000. The origin of the fire was in the theatre building, and although directly across the street from the fire headquarters, the flames spread so rapidly that reaching the Telegram building, that the firemen practically had no chance to check their progress.

The first started at a time at which there were no people in the theatre.

FINED FOR HAVING UNNAMED VEHICLE

Traffic Bylaw Cases Occupy Attention of Carling Street Court.

Seven more breach of traffic bylaw cases occupied the police magistrate this morning. A fine of \$1 was imposed in each case.

One case arose out of the neglect of a driver to have his name on his outfit. Magistrate Judd wishes it distinctly understood among owners of all vehicles for public hire that they must display their names or some distinguishing number on the vehicle.

PHONES FOR POLICE AND GETS ARRESTED

Henry Sterling Wants Burglars Cooped, But Is Selected Himself.

Henry Sterling kept the police station phone jangling for half an hour Thursday night, and as a result appeared before Magistrate Judd this morning to answer to a charge of drunkenness. He pleaded "Not guilty," and the case was adjourned until Saturday morning.

Had Thief Scare.

Sterling claimed that thieves were breaking into his stable at the rear of the house. He asked for one of the sergeants, but being told that he was out he rung off, but continued to call up every few minutes to ask for one or another of the officers.

GERMANY HEARS OF SERBIAN OUTRAGES

Three Hundred Albanian Peasants Reported Shot Without Trial.

BESIEGERS ARE REPULSED

Bulgarians and Servians Sustain Heavy Losses in Assault on Fortress.

[Canadian Press.]
Frankfurt-on-the-Main, Germany, March 14.—Three hundred Albanian inhabitants of the district of Ljuma in the Turkish Province of Kosovo were yesterday shot without trial by Serbian troops, according to a dispatch from Uskup to the Frankfurt Gazette.

The inhabitants of the district killed 400. They were unarmed peasants and did not follow the example of the rest of the Albanians in fleeing to the mountains.

All were captured by a column of Serbian troops, who after shooting 300 of them, brought the surviving 100 as prisoners to Prisrend, the capital of the province.

Assault at Adrianople.

London, March 14.—A fierce but unsuccessful assault was made on the south front of the Turkish fortress of Adrianople yesterday, according to a news agency dispatch from Constantinople. The besieging Bulgarians and Servians sustained heavy losses and were eventually repulsed all along the line.

Exposed to Famine.

London, March 14.—A Constantinople dispatch to the Times says that sharp fighting is reported south of Istanbul.

A Cettinje dispatch to the Times says: "Representatives of the powers here have made a verbal appeal to the Government to permit the civil population to leave Scutari, as they are exposed to famine."

The dispatch also states that the Montenegrin contention that the war is being waged to liberate their brethren from oppression.

The Times expresses the belief that the allies' reply will stipulate such conditions as will make European mediation impossible, and that is extremely unlikely that peace will be made without pressure from the powers upon the belligerents.

MYSTERIOUS SHOOTING AT WINNIPEG CITY

One Man Dead, Another Wounded, and Two Constables Arrested.

[Winnipeg Press.]
Winnipeg, March 14.—One man was shot and fatally wounded, and a second shot through the shoulder, but not dangerously wounded. The shooting took place in the C. P. R. yards. The dead man is Alex. MacDonald, the man in the hospital W. Johnson, both of this city.

Constables Wm. Darby and Alex. Young noted and trailed them until the pair were seen to break into a car, when they stepped up and declared the men under arrest. According to information obtained last night, the men shot was a switchman, and the men shot was a switchman, and the men shot was a switchman.

The constables are now under arrest, pending a full investigation of the affair. It is further stated that one of the men shot was a switchman, and the men shot was a switchman, and the men shot was a switchman.

Real Fashions on Real People

Here is shown a regal ball gown as worn by Mrs. John Hays Hammond, of Boston. She is well known in Washington and London society.

This gown is of brocaded cloth of silver over a petticoat and pointed train of pearl embroidered white satin.

The bodice is of pearl beaded white chiffon outlined with diamonds.

With it Mrs. Hammond is wearing her wonderful collection of emeralds and diamonds consisting of a brooch, earrings, necklace and tiara. She also wears a pearl dog collar with diamond clasp.

PROBLEMS OF THE FAIR SEX SOLVED BY CYNTHIA GREY

[Correspondents are requested to make their inquiries as brief as possible, and to write on one side of the paper only. It is impossible to give replies within a stated time, as all letters have to be answered in turn as they are received. No letters can be answered privately.]

Has Two Lovers.

Dear Miss Grey: I have been a constant reader of your column for a long time, and I think your answers are very reliable. I thought I would like to ask your advice, as I have no person in whom I could confide. I have been corresponding with a young man who lives a long distance away, for over three years, and although his letters are not as frequent as they were, he still expects me back to his home to get married, although we are not really engaged. Recently I have met another young man, and like him even better than the other, being more my age, and we are very friendly. Would you advise me to stop the correspondence? IRISH COLLEEN.

A.—If no engagement exists between you, the first friend has no definite right, apparently, to expect that you marry him. Yet it is evident that consideration is due him. I think the fairest way would be to write and tell him about your new friend, stating your feelings frankly. But be sure you know your own mind perfectly before you do so.

A Gift for "Him."

Dear Miss Grey: This is the first time of writing to you, and I am going to ask you for a few helpful suggestions:

1. I am engaged to a young gentleman. What would be nice to give him for a birthday gift, or is it necessary?
2. What will take freckles (light tan) off the hands and arms?
3. What do you think of my writing?

Hoping I have not troubled you too much, I remain, BROWN EYES.

1. While not a "necessity" by any means, it seems rather a nice idea to recognize your betrothed's birthday by

some inexpensive gift. A book, box of stationery or necktie are suggested.
2. Have you tried bathing hands and face in buttermilk? It has proved most effective for bleaching freckles.
3. You write a fairly neat hand.

Shall She Inquire?

Dear Miss Grey: A young man whom I have been going with quite regularly lately, and whom I think a great deal of, has suddenly become ill. I am quite broken up about it, as it may prove serious. I am growing very nervous over it. Would it be correct for me to telephone each day and inquire of his health? A.

A.—Yes, it would be entirely proper.

She's Just 14.

Dear Miss Grey: I am a girl of 14 and still going to school. I am 5 feet 2 inches tall. How long should my dresses be? 2. Am fair and have blue eyes. What are my colors? 3. Can school children be made to go to school after they are 14? 4. What do you think of my writing? Thanking you in advance, I am LIOLOLA.

A.—1. Should come to within an inch of your shoe tops.
2. If your complexion is clear, almost any color, I should think, but especially blues and grays.
3. I believe not.
4. It is neat.

Points for Debate.

Dear Miss Grey: Could you please give me a few points why women should not have a vote? What do you think of my writing? With many thanks.

A.—1. In a printed debate form which I recently saw on this subject, the following points against equal franchise were given: 1. That women could not conveniently perform jury duty. 2. That woman suffrage

would lead to serious domestic troubles. 3. That woman's duties and man's duties are different, hers being of the home and his of the state. 4. That if women were interested in public affairs, children would be neglected. 5. That women would, as a whole, rely on their intuition rather than reason, in voting for candidates in election.

Effects of Peroxide.

DIXIE BELL—Peroxide will make the hair light, but it will also ruin it. I would not advise you to use it. It is hard to get the hair one color and when you do it will soon become streaked, getting dark at the roots of the hair and light at the ends. Peroxide will make your hair coarse and dry and brittle, and you will find that your hair will break off at the ends. Do not attempt to bleach your hair.

Uses for Parsley

The green, curling parsley fronds in the garden are picked for a dozen purposes in the kitchen.

Cold fish and cold meat, ham especially, appear unfinished on their dishes without the vivid dash of lovely green hat parsley bestows. When the green is set between vivid sections of scarlet tomato, the color scheme of any cold dish is enhanced.

Many cooks also set the bright yellow of egg-yolk and the pure whiteness of its envelope of albumin here and there between the green.

The rich aroma of the parsley is due to its plentiful volatile oil, strong as any essence, that permeates the curling fronds. It is this oil that gives the distinctive flavor to all parsley sauces and all things cooked with herb.

Parsley, a rock plant originally, with the rock-name still attached to it, had the old idea of the ancient curse transferred to it. It is one of the Peter plants, having been dedicated to St. Peter on account of its liking for rocks and because of its stony name. The remove a rock or, by analogy, a rock-plant, would be like removing the foundation from that place. Hence the idea of ill-luck to the transplant of parsley.

MOTHER and BABY and Doctor Helen MacMurphy

BILLY STEVENS—His Story.

XXXVII.—Billy's Neighbors.
(Copyright.)

Now there was nothing but flying legs to be seen as we reached the end of the very short street. But as the motor went on they came out, these new neighbors, like gophers on an Albatross prairie, and the pavement had holes almost as deep as a gopher hole. (Where are the mayor and corporation?) They stood on the steps and they took in the situation and we counted them, all appearing in about 17 seconds. Billy's fame had evidently preceded him. A bird of the air does not need to carry the matter in B Street for everybody can hear all about it through the thin-walled partitions that separate house and house. Plenty children and plenty grown people—they came and stood at the doors and on the steps, and looked and looked and said so word. One Mrs. Z. with her Ten, Twelve, Thirteen-year-olds in a state of wild excitement dashing here and there about her. And she held out her arms for Billy as he sat there in the arms of the Original Person. And Billy turned his large dark eyes on Mrs. Z. She took him from the original person and off she went into his new home.

She took him from the original person and off she went into his new home.

The Camera and Dress

All artists demand simplicity—always simplicity, in order that the face may be the theme of the picture, says a writer in Vogue, with dress merely the accessory, an assistant in the revelation, yet none the less chosen with great care.

A transparent, filmy gown not overloaded with trimming is always effective. Yet care must be taken that there shall be something to provide the right lights. This is best done with crystal trimming, or it can be done with satin accessories or silk embroidery, but not with lace, which is of the nature of the transparent material. The ordinary lingerie gown is not good for the reason that the trimmings are apt to be confusing.

If a colored gown is chosen it is best to have it a monotone, for color, contrasts nearly always jar. They are apt to prove hard, to make shadows where none should be, and to interfere with the soft melting of tones which yields an harmonious effect. In the monotone gown there are many lights and shadows all of one tone, which the camera will take care of and use, with good effect. Black and white, unless it is in a gown of artistic conception, is extremely hard to deal with.

Black satin and black velvet, because of the play of light and shade on their surfaces, are wonderfully good in camera production.

Young girls, however, should never choose them; indeed, a young girl should never select black of any kind for her portrait gown, for the camera makes shadows about her face when she is in black, it creates sombre hollows, and hardens soft lines, unaccountably saddening her face. But put this same black upon a woman of middle age, and it will relieve shadows, tone them down until they melt out of sight, and soften and fill full of lovely light all of the rest of the picture.

UNIQUE RAG RUGS.

Rag rugs in two-toned or bit-or-more design are made now with contrasting borders showing country lanes, school-houses, churches, haystacks and other rural attractions. These are especially suitable to rooms furnished with old-fashioned furniture.

Have You Picked Your Spring Hat Yet?

If not, visit our showrooms before you do so. We are the city's acknowledged authorities when it comes to what is new and up-to-date in the millinery line. We can show you something that will suit you in shape or coloring and price. Visit us at once to get your hat before Easter.

KATHERINE LESLIE'S HOME CHAT

A WOMAN'S HAIR.

"I have never been of those who think that the weekly washing of the hair is a harmful thing. On the contrary I believe it to be beneficial. Hair dressers will tell you that if your hair is dry and dull that washing makes it more so. While it is nonsense! Look at the women who are always in the hands of the hair dressers, who prefer to 'treat' the scalp rather than to clean it. Can their hair begin to compare in quality and quantity with the women who never go near a hair dresser, and who simply keep their hair clean? I have friends who are always rubbing tonics into their scalps, who are always in a state of agitation over the dead hairs that come out naturally to let new ones in, and who go to the hair dresser's once a week or every six weeks to have their hair washed. These are the women who live in dread of rising some morning, and finding all their remaining hairs upon the pillow instead of upon their scalps! I have never been able to understand why a daily bath for the body is essential to health and cleanliness, while the head, that part of the body most

exposed to dust and germs from the dirt of streets and houses, should be cleansed only once a month or two. Think how such a length of time allows dust and germs to get in their deadly work on the hair! I believe that if the hair is properly washed by one's self, with a good scalp soap and borax, thoroughly well rinsed—so few rinse the hair sufficiently—till there is no possibility of any soapiness being left—then thoroughly dried, and this once a week, that the cleanliness, the massage of the scalp and a good consequent brushing, will cause the dry hair to look living, to become lustrous and soft, and oily hair to become normal and healthy. The ideal place to dry the hair is out of doors in summer. Sit out of doors and allow all the sun that is pouring down to gild your hair for you, and let the air get to your scalp. The gold the sun puts into your hair cannot be equalled or bought. In winter dry by the open fireplace or by placing a towel over the radiator and sitting with the hair spread out upon it. When quite dry, divide into parts and with a coarse comb take out all the tangles. This done begin to brush. Don't weary of brushing. It will stimulate the scalp and give a lustre and a sheen to the hair that nothing else will. Cleanliness, fresh air and brushing are essentials to a lustrous, beautiful hair."

A NECESSARY CONVENIENCE.

A long-handled shoe brush which can be hung in the coat closet is so great a convenience that it is almost a necessity. The brush itself is made of lengths of red wooden yarn. The handle, about three feet long.

The Birthday Calendar

IF THIS IS YOUR BIRTHDAY
A pleasant and successful journey is ahead of you but do not form new friendships lightly, and in general keep your attention on important things rather than trifles.

Those born today will be clever and will enjoy travelling. Some vocation which calls them to foreign lands will be most congenial. In this there will be danger unless they are taught when young not to quarrel and to be tolerant of the shortcomings of others. (March 14)

Lady Warwick's Pets

Among the many things for which the Countess of Warwick is famous is her collection of pets at Warwick Castle. The Countess has every opportunity to gratify her love for animals, as the estate has special advantages for the care essential to the different species. The birds have almost the freedom of a forest home. The Avon River, which separates just about the castle, surrounds a little island, on which kingfishers and wild ducks mingle together.

Perhaps the best-loved of all her pets is a famous white peacock which was presented to the late Earl by Lord Beaconsfield some forty years ago, before that having been the property of the author of 'Lothair.'

A very old family servant remembers it as having been a vigorous bird in his childhood, while his father, who died a very old man, remembered it as having been a vigorous bird in his childhood. It is still hale and hearty, though it is losing its feathers and generally beginning to look aged.

Lady Warwick's most constant companion is a fine collie, which is never happy save when at her heels.

Timely First Aid

[By a Physician.]
A live wire may drop at any time and in almost any place nowadays. It behooves the public, for its own sake and

Doctors Find

in their practice that prescriptions filled at the P., L. and O. Stores always produce the results sought for, and also find it to their interest to send their patients to us for that very reason.

Let us show you the quality of our service.

THE PROGRESSIVE DRUGGISTS.

safety, to know the quick way to secure a remedy in case of an electric shock.

The first thing to do, always, is to break the contact with the live wire. A live wire may be picked up by a person who is wearing a rubber glove, if there are no holes in it. It may be picked up by a person who is wearing rubber shoes, providing they are without holes, and the added precaution is taken to prevent anyone from touching him while holding the wire.

The next aid to the person shocked by electricity is to lay him flat on the ground and loosen his clothes. Then rub the body vigorously.

Artificial respiration should also be employed. Because recovery often takes place when there seems no sign of life, it is essential to continue the treatment for a length of time in stubborn cases.

ART OF WEARING THE CORSET.

It is not every woman who knows how to put on or take off her stays with the least amount of wear and

tear to the garment in question, and there is a good deal of art in both operations. The lacing should be let out to the fullest extent, the corset pulled less on the figure, and the suspenders, of which there should be three to each stocking, then fastened.

The right hand should then be thrust down inside the corset, and the figure compressed and drawn upwards, to rest within the upper and not the lower part of the garment, after which the laces should be carefully drawn.

In the case of a plump figure two or even three cords should be used instead of one, so that the lower part of the stays may be laced in sections, while elastic laces in front should be fastened before the back laces are drawn. When the stays are taken off they should not be rolled up, as this strains the bones and the seams, but should instead be folded in two and hung over the back of a chair.

SIDE LIGHTS ON MANY SPORTS

Jeff Doesn't Believe in Wasting Motions

By "Bud" Fisher

CANADIAN LEAGUE SCHEDULE WILL BE ISSUED TOMORROW

All the Clubs Are Satisfied With Dates—London Opens Here With St. Thomas on May 7 and in St. Thomas on May 8—Fourteen Players Have Been Signed Up So Far.

[BY JINX.] The Canadian League schedule will be released tomorrow and will likely be published in the evening papers around the circuit. President Stevely announced this morning that just as soon as he received the schedules he would hand them out for publication. The London dates this year are satisfactory to the local club, and all the teams seem to have been given a fair shake. The games will be played in series of three, instead of two, as the previous two seasons. This will work out more satisfactorily. It is believed, and will help reduce the mileage of each club to a noticeable extent. London opens on May 7 with St. Thomas at Tecumseh Park, and on May 8 the Tecumsehs leave for the Railway City for the opening there. Holdouts Are Silent. No word has been received from any of the holdouts yet. Five of them, Gilgooly, Bierbauer, Linneburn, Powell and Smith, are on the suspended list, so they will not be able to play ball with any other club until they have been dealt with by the local club. Gilgooly will likely be traded or sold, but an effort will be made to bring Bierbauer, Linneburn and Powell back to London if possible. These players are holding out for an increase in salary, but it is thought they will all come through with their contracts as soon as the warm air begins to put the baseball feeling into them. Last year Bierbauer was a hold-out, but he reported here with the rest of the players—in fact, he was one of the advance guard. Powell has been under suspension since last August. However, the local club is of the opinion that he will come to terms, and will play ball in London this season. An encouraging letter was received from him some weeks ago. Fans Are Waking Up. The mild weather of the past few days has aroused the baseball fans, and a letter from a fan asking for a list of players signed up by London so far this season, was received at this office yesterday. For the benefit of this fan and a lot of other fans who have not been following the dope owing to the excitement of the hockey season, the information is here printed. London has so far signed up fourteen players. This list includes four of last season's men and ten new ones who have been gathered in by Manager Deneau. The names of the players on the London club roster so far are as follows: Outfielders—W. Clineberger, E. Neale, infielders—Frank Fox, H. Marshall, H. Meyers, F. Lyon, Manager Deneau and pitcher—A. Foy. Foy is a former big leaguer, who was signed up by Manager Deneau this week. Nichols, the pitcher, is a good one, and according to Deneau, who has seen him perform, will be one of the mainstays of the London team.

Will Race at Frisco, Anyway

London, March 13.—Sir Thomas Lipton gave the Globe a special interview this evening, following an all-afternoon conference with his yacht designer. He said: "Anyway, I shall race at the Panama Exposition at San Francisco in 1915, with the 15-metre Shamrock, which is about the size of a 75-footer. There is a different sporting feeling in yachting circles there from New York, for they have accepted the challenge under European rules. We will race under the Exposition auspices. The present arrangements are for five races, all open to the world, for the world's championship."

OTTAWA SECURES "SHAG'S" RELEASE

Wires the Acceptance of Fort Wayne's Terms for Popular Manager.

Ottawa, March 13.—Arthur J. Dunn, mayor of Chatham, has telegraphed the management of the Ottawa baseball club, Canadian League champions, placing Recreation Park at their disposal, and requesting the team to train there this spring. The past 24 hours has seen considerable activity in local baseball circles. The Fort Wayne club has been notified by wire of the final acceptance of their terms for the release of Frank Shaughnessy, and were requested to forward the sale papers. As the terms asked have been accepted, this constitutes a contract in organized baseball, so that Shaughnessy's presence in Ottawa this summer is virtually assured.

WINNIPEG ALL-STARS BEATEN BY BOSTON

Western Hockey Players Lost to Pilgrim Hockey Club by Score of 6 to 4.

Boston, March 13.—The Western All-Stars, the crack Canadian hockey combination, met defeat in the first game of its invasion of the States at the hands of the Pilgrim Hockey Club of this city tonight. The score was 6 to 4.

O. B. A. FINAL GAMES JUST BEING ARRANGED

London Meds. Meet Hamilton Idlers in Latter City Next Week.

Toronto, March 14.—Though one team was ready on Feb. 8, and the other ten days later, the Woodstock and Baraca Juniors have only just arranged their semi-final games in the Ontario Basketball Association. The arrangement having been made by the teams themselves. Woodstock will play the Baracas here on Good Friday, the return in Woodstock a week later. The winner will meet Hamilton in the final. In the Intermediate series Western University Medicals of London will play Hamilton Idlers, while Paris meets All Saints' of this city.

Salient Facts About the Oxford-Cambridge Race

Yesterday's race was the sixty-eighth. First race rowed in 1839. For seven years there were no contests. In 1849 two races were rowed. Oxford has won 38 contests, Cambridge 29. The race in 1877 was a dead heat. Record time, 18 minutes, 29 seconds. Cambridge won last in 1908. Oxford's time yesterday—20 minutes, 53 seconds.

LONDON HOCKEY TEAM LEFT FOR QUEEN CITY AT NOON

Players Are in Fine Shape and Good Spirits and Are Confident of Returning Home as Intermediate O. H. A. Champions—Will Put Up the Game of Their Lives.

The London hockey team accompanied by a couple of the club officials, departed for Toronto at noon today and will not return until after the big game with Collingwood Monday night. The players are all in fine shape, and they express the belief that when they return home it will be as intermediate champions. The team will arrive in Toronto about 4 o'clock, and a practice will likely be held on the Arena ice between 6 and 7 o'clock this evening. Another practice will be engaged in tomorrow. Some Doubt About Ice. Just what condition the ice at the Arena will be in Monday night is a question. Although there is a hope that the results obtained from it lately have not

been any too satisfactory, and the ice provided for the Orillia-All-Star game Wednesday night was the worst the big rink has had this season. It was not so much soft as lumpy and full of big cracks. However, efforts will be made to get the best ice possible for Monday night, and it will be hard at any rate. Injuries All Better. The players have quite recovered from the effects of the Berlin and Collingwood games of last week, and on Monday night they will be ready to put up their best game. Bealand's stiff leg is improving nicely, and it will not trouble him. The cut over his eye was not a deep one, and it is healing rapidly. He will be in the pink of condition for Monday night's game.

Rube Marquard, 1912 Sensation, "IF" Is McGraw's Big 1913

BY BILLY EVANS. Umpire of the American League. Manager McGraw, of the Giants, is confronted with a full list of 1913 baseball "ifs." The little manager has faced similar situations in the past and has always proved himself master of the occasion. So, no matter what happens to the Giants, one can look for McGraw to be fighting for the pennant. IF in McGraw's 1913 vision, is Rube Marquard. Winner of 19 straight games last season and twice conqueror of the Boston Red Sox in the world's series, Marquard seems destined to have a torrid summer. Marquard has been an actor this winter. Just how good he is I cannot say, not having seen him in his matinee idol role. Recently I read the views of one critic who, in commenting upon Rube's vocal possibilities, wrote as follows: "Can Marquard sing? Yes, like Caruso could pitch." It is probable Rube will have a chance to show his ability or inability to stand criticism this year. Much has been written of him complimentary and the reverse this winter. The complimentary stuff is soon forgotten, but the criticism will be handed to him constantly by the bleachers. Some of the things Marquard is reported to have said about McGraw will not make the "Little Napoleon" feel any too kindly toward his great southpaw. IF Marquard gets off to a flying start. IF he displays ability to beat the other National League teams about as he pleases, the summer is sure to be a pleasant one, not only to Marquard, but to McGraw as well. With the great port-sider going great guns, the Giants are a formidable aggregation. When the Rube is getting his bumps regularly things never look so promising. IF Marquard's winning ability is with him it is his salvation, and, to a certain extent, McGraw's, who banks heavily upon his start. IF Marquard delivers he can make the fans forget a lot of things. IF he fails, it will only freshen their memory.

REPORTS OF DISSENSION IN CUB TRAINING CAMP

Tampa, Fla., March 13.—According to reports at their training camp, the Cubs are rent with dissension. It is said that a majority of the old stars are still loyal to Frank Chance, and do not take kindly to the Evers administration. The railroadings of Joe Tinker was also resented by veteran Cubs, who followed Chance to his many championship conquests. It is also said that there are a number of men on the team who feared Chance and would not break out because they knew what would result, as Chance could whip any member of his club. Evers can't do this, and therefore does not command the respect or fear of some of the bad actors on the Cub team. Already there have been several serious clashes down at Tampa. Evers is considering letting out two of the old guard. One of the pair is said to be Jimmy Sheppard, who is regarded as the best waiter in the National League. This competent player is in bad with the new administration, and the tip is out that old Otis Clymer will take his place. The Seal That's Real 182 Dundas St. Semi-ready Tailoring

Big Universities Engage in Annual Field Day Sports

Cambridge Captured the Hundred and Twenty Yards Hurdles Race—The Results of the Different Events.

[Canadian Press.] London, March 14.—The annual field day between teams of athletes representing Oxford and Cambridge Universities were held today at the Queen's Club grounds in the west end of London. The events comprised: Hundred yards' flat, 440 yards at half-mile flat, one mile flat, three miles flat, high jump, broad jump, putting the weight, throwing the hammer, and the 320 yards' hurdles race. The Results. Hundred yards' flat—H. O. MacKinnon, Oxford, won with a put of 43 feet 3 inches; R. C. Woods, Cambridge, was second, with a put of 40 feet. High Jump—J. D. B. Crossley, Oxford, 5 feet 8 inches, first; A. C. Straker and F. Sproule, both of Cambridge, tied for second place, with a jump of 5 feet 6 1/2 inches.

EAST END LEAGUE MEETING WILL BE CALLED SHORTLY

Former Officers Approached to Help Put Organization in a Flourishing Condition—A Junior League Will Be Formed.

A meeting of the East End League will be called shortly to discuss the question of reorganizing the league for the coming season. Former President Fitzgerald and ex-Secretary Moorhead have both been approached with a view to taking hold of the league again and putting it on its old-time basis. Both these men held office in the league for some years, and during that time the league never enjoyed better prosperity. The advent of the Canadian League during the past two seasons has in a great measure helped to disorganize the east end organization, but it is planned to run the league on a different basis this coming season, and it is believed that it will enjoy its former success. Junior League Planned. It is likely that two leagues will be formed: one league open to junior players. An age limit will be placed on it, and will be strictly adhered to. There are three or four good diamonds in Queen's Park, and room enough for two leagues to flourish. The games would be played on Saturday afternoon. President Wyckoff and Secretary Ernie Shaw have been approached in the matter, and they are willing to do all in their power to revive the East End League and baseball in the east end during this coming summer. It is likely that a four-team league will be formed in the senior series, and a four-team league in the junior series.

CHALLENGE BRAND WATERPROOF COLLARS

Look like linen—feel like linen, but outwear a dozen linen collars. No laundry bills—a little soap and water only required to keep them fresh and clean. Sold at all Gents' Furnishing and Dry Goods Shops, or send 25c. for sample collar.

For the Man who works.

WINNIPEG WILL PLAY FOR CUP IN TORONTO

Will Meet Toronto T. R. and A. A. Team in Two Games. Goals to Count on the Round.

[Canadian Press.] Winnipeg, March 14.—Winnipeg hockey team, amateur champions of the world, leave Tuesday evening next on a barnstorming trip of Eastern Canada and the United States. They play the first game in Toronto, where they have consented to meet the O. H. A. senior champions in two games, total goals to count, for a trophy presented by Toronto enthusiasts. The locals are going down with the expectation of returning with another cup.

Send Us Your Card
We will mail you an advance descriptive pamphlet about the 1913 Russell "30" automobile. Address: **RUSSELL MOTOR CAR CO., LIMITED** WEST TORONTO, ONT.

SOCCER ENTHUSIASTS HAVE CALLED MEETING

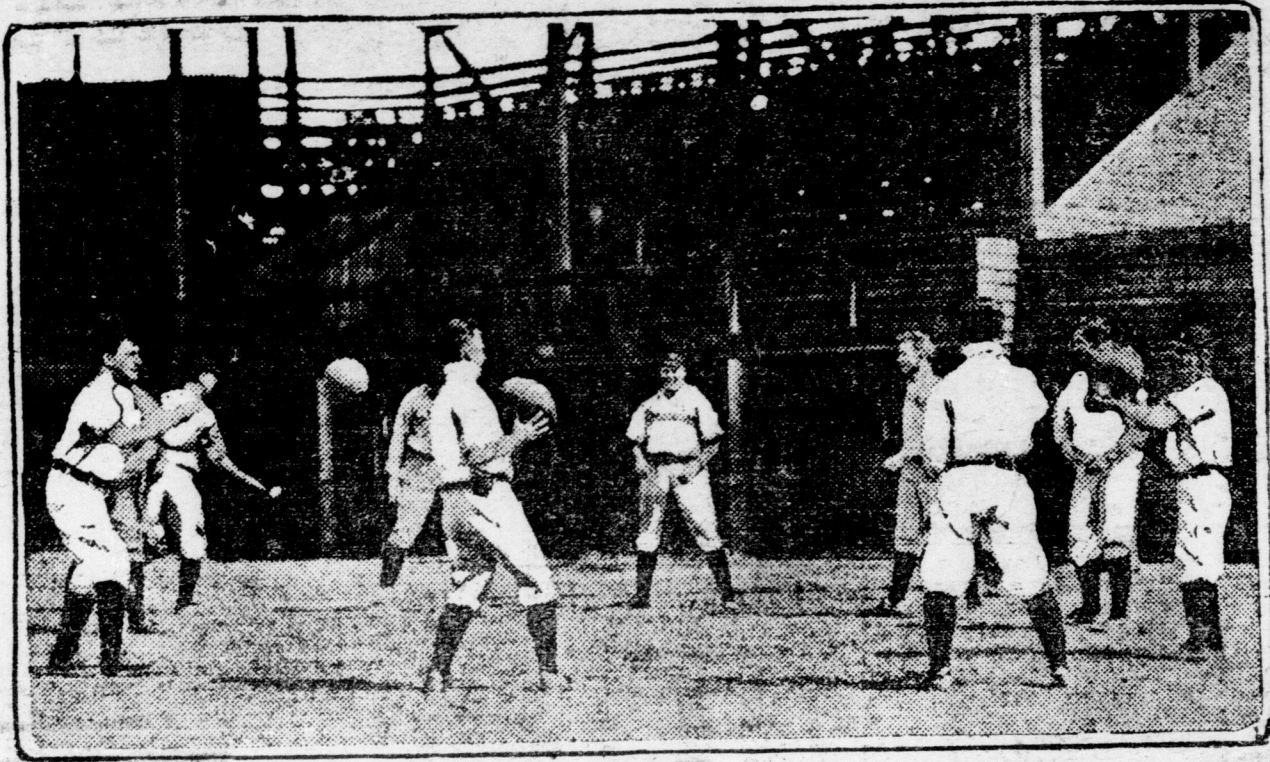

Will Organize City Soccer League With Three or Four Teams—Good Material in City to Pick From.

A meeting of the local soccer football enthusiasts will be held in the McClary Company dining-hall Monday evening, for the purpose of arranging for the formation of a City Soccer League. The league met with a great deal of success last year, and the games attracted large crowds. The championship was won by the London Rolling Mills team, and this team will be almost intact this year. The McClary team were the runners-up last season, and they will present a strong line-up this year. The London Bolt Works team will be much stronger this year, and the Bolt Works will have to be watched all the way. The league was made up of three teams last season, but this year the indications are that there will be four teams. Old Country Players Numerous. A large number of old country players are in the city at present, and there is no end of material for the different teams to pick from. The London Rolling Mills champion team of last season was made up almost wholly of players who had learned the game in the British Isles. All followers of the soccer games are requested to turn out at the meeting Monday night in McClary's York street hall. President Ben Askey will preside, and new officers will be elected for the coming season. An effort will be made to enter a team in the Western Football Association, but this matter will be fully discussed at the meeting before action is taken. It is intended to start the league as soon as possible after Easter, and the players are already turning out to practice. The games will be played Saturday afternoons, and twilight games will be played during the week.

LONGBOAT BEAT VISCOUNT IN A NEW YORK RACE

New York, March 13.—Tom Longboat, of Toronto, beat Mauro Viscount, of the same city, here tonight in a 15-mile race. The Italian recently beat the Indian in Toronto, but the race there was said to have a suspicious appearance. Neither runner was in good condition tonight. The event created little interest.

TRAINING PICTURES FROM THE SOUTH

Members of the Cleveland American League Club tossing the medicine ball, at Pensacola, Fla., as a means of getting into condition. The players from left to right are Nap Lajoie, Jack Graney, Catcher Carish, Pitcher Willis Mitchell, Manager Birmingham, Catcher Grover Land and Third Baseman Terry Turner.

Ball players generally have adopted the medicine ball to harden the body and toughen the muscles.

CHAUCER ELLIOTT REFEREED FOR LAST TIME IN THIS CITY

Officiated at a Junior O. H. A. Game in London Last Winter.

The London baseball club last night forwarded a letter of condolence to the bereaved relatives of the late Edwin S. "Chaucer" Elliott, and also ordered a wreath for his coffin. "Chaucer" was well and favorably known in this city, and no more popular ball player or baseball manager ever stepped upon the field at Tecumseh Park. He was a favorite with local fans, and his death will be mourned in this city.

The last time "Chaucer" appeared in London was last winter, when he refereed a Junior O. H. A. game at the Princess rink. It was probably the last time he refereed a hockey game. While he was here he was secured by the Seaforth club to coach a junior team of that town. It was during his stay in Seaforth that the old injury to his leg developed dangerous symptoms, and he was forced to leave for his home in Kingston. Later he went to New York for treatment, and for a time seemed to be greatly benefited. Soon after returning home again, however, he became worse, and since then has been at the hospital. He would never consent to the amputation of the limb, and almost to the

last believed that he would recover. His pluck was remarkable to the very last, although he suffered intensely.

Regret in St. Thomas.

St. Thomas, March 13.—News of "Chaucer" Elliott's death was heard here with deepest regret. In 1911 he had a hard fight to get the St. Thomas team going in the newly-organized Canadian League, but through his persistence they won against great odds. He displayed such an aspect of fairness to his players, consideration for the rights of the public, and a desire to put the club on a basis of all classes of people. He was a true sportsman and a good citizen. The president of the St. Thomas club will send a representative to "Chaucer's" funeral, and it is also possible that other citizens may go to Kingston to pay their last respects.

Juarez Results.

Juarez, Mexico, March 13.—The races here today resulted as follows: First race, 4 furlongs—Billy Myer 1, Oscar 2, King Earl 3. Time, 1:15.3-5. Second race, 5 furlongs—Kansay 1, Venetian 2, Ocean Queen 3. Time, 1:14.1-5. Third race, 1 mile—Compton 1, Helen Scott 2, Zinkand 3. Time, 1:42.1-5. Fourth race, 6 furlongs—Vested Rights 1, Truly 2, Pamphila 3. Time, 1:14.2-5. Fifth race, 4 furlongs—Collier 1, Esk Davey 2, Transparent 3. Time, 1:14. Sixth race, 1 mile—Abound 1, Odella 2, Balcliff 3. Time, 1:42.

WANDERERS BEAT QUEBEC IN GAME AT NEW YORK

N. H. A. Champions Handed a Big Surprise By Crippled Montreal Team—Score Was 9 to 5.

New York, March 13.—Wanderers of Montreal, playing in brilliant style, defeated the Quebec Stanley cup champions at the St. Nicholas rink here tonight by a score of 9 to 5. The absence of Art Ross, who, with Roberts and Boyes, was forced to go back to Montreal, seemed to inspire the members of tonight's sextette with a desire to show just how well they could do without their redoubtable captain. The presence of Sam Lichtenhein, the owner of the team, may have had something to do with it, but every man showed much improvement over previous games. Quebec at times showed all the brilliancy which has marked their work throughout the season, but the forced retirement of Joe Malone, who has had a bad cold, seemed to upset their balance. While Crawford, who replaced him, displayed great speed and the other members of the team worked hard, they were no match for the Montreal boys. The teams: Wanderers—Goal, Cadotte; point, S. Clegghorn; cover, Price; centre, Russell; right wing, Hyland; left wing, O. Clegghorn. Quebec—Goal, Moran; point, Hall; cover, Mummary; centre, Malone; Crawford; right wing, Smith; left wing, Marks. Referee—Russell Bowie, Assistant—W. H. Russell.

"ABSURD," SAYS TIMES OF N. Y. Y. C.'S EXCUSE

Suggestion That 75-Foot Yacht Would Create Bad Precedent Is Ridiculous.

[Canadian Press.] London, March 13.—The Times, referring to the refusal of the New York Yacht Club to accept Sir Thomas Lipton's challenge, described the suggestion that to impose a 75-foot limit would create a bad precedent and belittle the importance of the race as absurd. It says that a 75-foot limit would be larger than either the Shamrock or the White Heather, the only two big cutters built to rule 25-metre rule, and nobody could wish to see better racing than has been provided by these craft during the last seasons.

"SHERLOCK HOLMES" JOINS OLYMPIC COMMITTEE

Sir Arthur Conan Doyle Will Help to Organize British Team.

[Canadian Press.] London, March 14.—Sir Arthur Conan Doyle has joined the newly-formed British committee of sportsmen which is to organize an Olympic team for the Berlin Olympiad, and have control of the finances and general preparations.

Charleston Results.

Charleston, S.C., March 13.—Two favorites, two second choices and two long shots were the winners here today. Following is the summary: First race, purse \$300, 3-year-olds and up, selling, 5 furlongs—Elmhurst II, 1, Edna 2, Venable 3. Time, 1:15.4-5. Second race, purse \$300, selling, 4-year-olds and up, 1 mile—Coeur d'Alene 1, Alderman 2, Theo Cook 3. Time, 1:08.2-5. Third race, purse \$300, 3-year-olds and up, selling, 5 furlongs—Rose Queen 1, Grosvenor 2, Mack B. Eubanks 3. Time, 1:07.3-5. Fourth race, purse \$300, 3-year-olds and up, selling, 5 furlongs—Spindle 1, Col. Ashmeade 2, Mud Sill 3. Time, 1:04.2-5. Fifth race, purse \$300, 4-year-olds and up, selling, 5 furlongs—Ethel Lebrune 1, New Haven 2, Anna Claiborne 3. Time, 1:08.2-5. Sixth race, 3-year-olds and up, purse \$300, selling, 1 mile—Counterpart 1, The Squirt 2, Miss Joan 3. Time, 1:42.1-5.

Reports from Tampa are that Manager Evers selected his team and that Bidwell will be the regular shortstop, with Corridon only a substitute. Phelan will be understudy to Zimmerman at third.

Settlers' Excursions to Alberta and Saskatchewan.

Commencing March 14th and continuing every TUESDAY thereafter, until APRIL 29th inclusive, the Grand Trunk Railway System will issue one-way Settlers' tickets from stations in Ontario, Peterboro, Port Hope, and west to points in Alberta and Saskatchewan at exceptionally low rates. Through coaches and Pullman tourist sleeping cars will leave Toronto 11:00 p.m. for WINNIPEG without change on above dates, via Chicago and St. Paul. Berths may be secured in tourist cars at a nominal charge.

The Grand Trunk Railway is the shortest and quickest route between Winnipeg-Saskatoon-Edmonton. Trains now in operation Winnipeg to Regina, Yorkton and Canora, Sask. Also to Camrose, Mirror and Edson, Alta.

Time tables, lapid pamphlets and full particulars relative to the Grand Trunk Pacific Railway may be obtained on application to Grand Trunk agents or write to C. E. Horning, district passenger agent G. T. R., Toronto, Ont. R. E. RUSE, C. P. and T. A., "Clock Corner," London. Steamship tickets on sale via all lines.

WELLS IS FAVORITE IN TONIGHT'S BOUT

Has Twenty Pounds' Advantage in Weight Over "Gunboat" Smith—Is a Cleverer Fighter Than the Californian.

[Canadian Press.] New York, March 14.—Bombardier Wells, the British heavyweight champion, with probably from 15 to 20 pounds advantage in weight and a considerably stronger ring record, ruled a favorite in his scheduled ten-round bout, with "Gunboat" Smith, of California, in Madison Square Garden tonight. Smith's followers, however, asserted that the former sailor was in such perfect condition that he was certain to make the bout the far more troublesome affair than Wells' admirers expected, if not to win over the English champion.

Wells' great cleverness and hitting power were displayed here, as usual, in bouts with Al Falzer and Tom Kennedy. The bombardier floored the giant Falzer in the first round, and came within a few seconds of the count, but in the third round Falzer stopped Wells with a body blow. Subsequently the Englishman stopped Kennedy in eight rounds. Wells came to this country about two months ago seeking a bout with Luther McCarty, but, unable to arrange such a match, he was forced to accept Smith as a substitute.

The Californian is considered here to have made rapid strides in the ring, and is known as a hard hitter and an absolutely fearless boxer. Smith expressed confidence that he would defeat Wells as easily as Falzer.

MOOSEJAW BEATEN BADLY BY WINNIPEG

Last Second Game for Allen Cup by a Score of 10 to 3.

[Canadian Press.] Winnipeg, March 14.—Moose Jaw was defeated by 10 to 3 in the second game for the Allen Cup here tonight. Outside of about the first 15 minutes of play, when the visitors forced the cup holders to the limit, Winnipeg had it on their opponents, particularly in the second half, when for the first time in the series the home team showed their true form, and, though playing short-handed for most of the period, played their opponents off their feet, so fast did they carry the puck up the ice. Billy McKenzie, the star of the game, his playing, if anything, being better than in the opening contest. The Moose Jaw team again showed himself the finished article, while Pascoe and Battell played a remarkable defensive game, breaking up the rushes by hard body-checking and pretty blocking. Jack Rutan was the fastest man on the ice. The ice was again sticky and made going heavy. Bud Bissell, referee; Billy Kean, judge of play. The line-up follows: Winnipeg—Gannon, goal; Turnbull, point; Rutan, cover-point; Andrews, rover; Aldous, cover-point; Kenzie, right wing; Adams, left wing. Moose Jaw—Ellis, goal; Pascoe, point; Battell, cover-point; J. Lauder, rover; Fisher, cover-point; McDonald, left wing.

Charles Doolin, manager of the Phillies, has changed his mind about selling Pat Moran, the veteran catcher. Doolin has informed Joe Tinker, however, that he can have Moran in exchange for a player.

Had Rheumatism WAS CONFINED TO HIS BED FOR FOUR MONTHS.

Mr. W. H. Riley, Ruddell, Sask., writes:—"It is with the greatest of pleasure that I can recommend Doan's Kidney Pills to all suffering with rheumatism. I was so bad with this terrible disease, I was unable to get up from my bed for four months, and nothing seemed to relieve me until a friend recommended Doan's Kidney Pills. I had my doubts about them, but was so desperate I would try anything suggested to me. After taking half a box I was able to get up, and after taking two boxes could get around quite well. After taking six boxes I was completely cured, and able to work for the first time in five months, and have not had a touch of rheumatism since. Anyone who saw me then would not know me now, as I am strong and active since taking your valuable medicine."

Rheumatism is caused by the presence in the blood of uric acid, and the kidneys not working properly is the sole cause of this, and unless you remove the acid by flushing the kidneys, there is no possible chance of getting rid of rheumatism.

Doan's Kidney Pills help the kidneys to flush off the acid and poisonous impurities which have collected, and thus clean out the kidneys, and dispel the rheumatism from the system.

Doan's Kidney Pills are 50 cents per box, or 3 boxes for \$1.25, at all druggists, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

In ordering direct, specify "Doan's."

WILL FORCE STRATFORD TO TAKE HYDRO POWER

Railway Committee Refuses to Allow Special Clause To Be Struck Out.

Toronto, March 14.—The city of Stratford must stand by its agreement to take the hydro power from the hydro-electric commission. Yesterday the city's bill allowing an escape from the agreement, with a view to starting a municipal street railway system, came before the railway committee of the Legislature, and the clause that would have "turned the trick" fell by the wayside.

The troublesome clause declared that the company "shall obtain its power from the hydro-electric commission, provided that the rates are as favorable to the company as those obtainable elsewhere, and otherwise." When it came up Mr. W. K. McNaught, on behalf of the commission, protested vigorously against its adoption. He declared that the adoption of the clause meant a breach of the present agreement with the commission, and opened the way for other municipalities to follow suit.

President Ferguson, of the Stratford Board of Trade, and Mr. William Preston, representing the manufacturers, declared that to free the city from the hydro agreement would be detrimental to the city's interests. There was some argument upon the point, but finally the committee decided to strike out the clause, and hold Stratford to its agreement. In the bill, which was introduced by Mr. James Torrance (North Perth), the city asked the Legislature to ratify and confirm a bylaw passed by the ratepayers on Jan. 1 last, and which gave power to the Stratford Railway Company to build an electric line on certain streets of the city.

FATAL PNEUMONIA

Edward Armstrong Had Lived in Morris For Sixty Years.

[Special to The Advertiser.] Brussels, March 14.—The funeral of Edward Armstrong, held yesterday afternoon from the family residence to Brussels Cemetery, was conducted by Rev. Mr. Kilpatrick.

Mr. Armstrong was 66 years old, and died at the home of his brother after an illness of four days with pneumonia. He was born in Brant County, but came to Morris 60 years ago, and had resided here ever since. He is survived by three brothers, Robert, George and W. H., and four sisters, Mrs. Peter Cantlon, Morris; Mrs. Wm. Cantlon, and Mrs. L. B. Neff, Petrolia, and Mrs. D. Arnold, Calgary. All were here excepting the latter.

MET AT THORNDALE

Program of Treasure-Seekers' Class Was Thoroughly Enjoyed.

[Special to The Advertiser.] Thorndale, March 13.—The Treasure-Seekers' Bible class met at the home of Dr. Armstrong last evening. The program consisted of a paper on "Character Building," by Mrs. J. Angus; a dialogue, entitled "Prodigal Son," by Miss Brown and Messrs. McLeod, Stapleton and Carrothers; address by Rev. J. Mahan, and music was furnished by Miss Angus, of Portersburg. After the program lunch was served and a pleasant social evening spent.

Stop Neglecting Your Stomach

Stuart's Dyspepsia Tablets Will Do the Work of the Strongest and Healthiest Stomach and Afford Instant Relief.

The worst case of indigestion is simply neglect to give the stomach needed assistance.

When your food does not digest, when gases form, when you experience that uncomfortable feeling of fullness, when the breath is foul, the tongue coated, and that sour taste is in the mouth—take a Stuart's Dyspepsia Tablet and watch how quickly every one of these symptoms disappear.

Your Stomach Will Never Give Out or Grow Old, if You Depend Upon Stuart's Dyspepsia Tablets.

All that was needed was to digest that lump of food in your stomach—and the glands, whose duty it is to supply the gastric juices, had simply given out from overwork. So when you took that little tablet you were supplying what was necessary to complete the process of digestion that the stomach had begun, but was unable to finish.

If you would continue to take a Stuart's Dyspepsia Tablet after each meal for a while your stomach would have a chance to rest up and get well and strong again.

Try just one box and you will never want to be without this wonderful little remedy for stomach troubles. Stuart's Dyspepsia Tablets contain an ingredient, one grain of which will digest 3,000 grains of food. They are entirely harmless because they have absolutely no effect on the system one way or another except to do just the one thing—digest food.

Every drug store everywhere sells and recommends Stuart's Dyspepsia Tablets at 50 cents a box. AXZ 329

BRANTFORD POLICE THREATEN TO STRIKE

Men Demand an Increase of Twenty-Five Cents Per Day.

Brantford, March 13.—An ultimatum for an increase in salary of 25 cents per day was issued to the police board here today, by the entire rank and file of the force. A reply to the demands made was requested by Friday night, with the threat of a strike being implied. It was announced today that unless the men received their increase they would walk out on Saturday morning.

Mayor Hartman this afternoon called the chairmen of the various city council committees together and replied that the application was a matter for the police board, which, he stated, still had the matter under consideration. If the petition of the men was in the form of a threat the mayor stated that it would only prejudice their case.

The city council, which is favorable to the proposal to increase the men's salary, has been engaged in a stiff fight over the matter of an increase to the chief and other officers, and at the conference today it was believed that the threatened strike of the men was inspired by the disgruntled ones. At any rate, the situation is reported to be near a climax, and the city may be without a force Saturday morning.

ECHO OF SPARKING CASE

Boy's Conditions Similar to That of Brother Who Died.

Port Huron, Mich., March 13.—Ray Spurling, brother of Cyril Spurling, for whose death their mother, Carrie B. Spurling, is now being held, and Dr. Robert Macgregor, formerly of London, Ont., is serving time at the Michigan State Prison at Jackson, is seriously ill at the home of his sister here, and slight hopes for his recovery are entertained.

It is declared the boy's condition is very similar to that of his brother, Cyril, shortly before his death. It will be remembered that Ray Spurling's death was predicted within a year by Dr. Macgregor at one time.

KICKED BY HORSE

Duncan McCallum Lay Unconscious in Stable for Half an Hour.

[Special to The Advertiser.] Glenora, March 13.—While attending one of his horses today, Duncan McCallum, of Mosca, was kicked in the chest just above the heart. Two of his ribs were fractured, and he lay for half an hour unconscious before he was able to crawl to the house and get help. He is progressing favorably and no fatal results are anticipated.

STRATHROY MEETING

St. Andrew's Young Men's Club Enjoyed Fine Illustrated Lecture.

[Special to The Advertiser.] Strathroy, March 14.—At the regular meeting of St. Andrew's Young Men's Club the president, Mr. W. A. Campbell, gave an illustrated talk on views of the C. P. R. from coast to coast. Next Monday night Mr. A. P. Condy, B.A., will give an illustrated lecture on "Optics."

ELECTED OFFICERS.

[Special to The Advertiser.] Windsor, March 13.—The Sandwich Board of Trade has elected the following officers for 1913: President, William N. Gattfield; vice-president, Jules Robinet; secretary-treasurer, James E. McCormick; council, Eugene Breaillit, W. J. Beasley, M.D. John E. Millen, David Tasker, F. E. Lovegrove, W. F. Burns, Leo Page and A. R. Marenette.

TO REDUCE POWER OF THE BISHOPS

Maine Catholics Move to Give Parishes More Power.

[Canadian Press.] Portland, Me., March 13.—An amendment which would give more power to parishes and less to the bishop, was offered by Representative Neill Violette, of Vanburen, when the new draft of a bill to repeal the law making the Roman Catholic bishop of Portland a corporation sole to control church property in the state, and to incorporate various parishes, came up in the Maine House of Representatives yesterday.

The amendment would give parishes the right to elect trustees, instead of their being chosen by the bishop, vicar-general and priest, as contemplated in the new draft, was also presented, and tabled after a little discussion, during which Representative Fred J. O'Donnell said the new draft was fair to the church and to everyone concerned, as it was reported by the judiciary committee and "because it included bishop, vicar-general, parish priests, and everyone who had the best interests of the church at heart."

PEACE MEMORIAL

Snelgrove Manor in England May Be Bought for the Purpose.

[Canadian Press.] New York, March 13.—A London cable says: The English scheme for the commemoration of a hundred years of peace between Great Britain and America provides for a permanent memorial, and will cost a quarter of a million dollars. Lord Shaw, who has been prominent in organizing the English arrangement, will head the delegation of the New York meeting at the end of April. His colleagues probably will include W. C. C. Gladstone, M. P., grandson of the great statesman; Allan Baker, M. P., and Sir William Mathers.

It is proposed to acquire Sulgrave Manor, the Northamptonshire seat of the Wills, make it the centre for American visitors, and also establish chairs of Anglo-American history in London, with James Bryce as the first professor.

AWARDED \$900

Passenger Was Ejected When Car Was Going Slowly.

[Special to The Advertiser.] Windsor, March 13.—William Hammer, of Amherstburg, has been awarded \$900 damages against the S. W. and A. Railway by a jury at the spring assizes. Hammer got on an Amherstburg car on June 29 last in a drunken condition. He became disorderly and the conductor put him off the car. Next afternoon Hammer again boarded an Amherstburg car and the conductor, thinking he was still drunk, ordered him off. When Hammer refused to go the conductor forcibly ejected him while the car was running at the rate of three miles an hour. Hammer had one leg and an ankle broken, and probably will always be lame.

SMUGGLING FILMS

Provincial Inspector Is Working on Case Discovered at Windsor.

[Special to The Advertiser.] Windsor, March 13.—R. C. Newman, provincial inspector of picture shows, has unearthed here, and in Detroit, a plan by which unlicensed pictures, many of them of questionable morality, are smuggled into Canada. Facts have been placed before the authorities of both countries. He seized some pictures for showing here today, which did not have the provincial censor's imprimatur.

ONLY ONE "BROMO QUININE." That is IANXATIVE BROMO QUININE. Look for the signature of E. W. GROVE. Cures a Cold in One Day. Cures Grip in Two Days. 25c.

WINNIPEG MURDER CASE

Two Charged With Death of a Four-Months-Old Child.

[Canadian Press.] Winnipeg, March 13.—A coroner's jury returned a verdict of murder against Mrs. Eva Willis and Victor People for the death of the four-months-old daughter of Mrs. Willis.

There was a dramatic scene when Inspector Doreen, of the St. Boniface police department, took the witness stand and testified that Mrs. Willis, after being warned, broke down and admitted she had helped People slay her daughter Ethel Victoria on the banks of the Red River. The inspector said Mrs. Willis said she held the child's nostrils closed while People shut off the infant's breath by holding his hands over its mouth.

WOMEN'S INSTITUTES

Napier Branch Bid Farewell to Mrs. Stewart, Who Leaves Shortly.

[Special to The Advertiser.] Napier, March 13.—The Napier Branch of the Women's Institute held a very successful meeting in the town hall yesterday. A splendid representation of the ladies of the district was present. Mrs. J. J. Braddy gave her paper on "The Legends of St. Patrick."

Mrs. M. McIntyre gave an interesting talk on her trip to the West last summer. Mrs. Degex, district president, being in the audience, was asked to speak, and gave some words of encouragement, showing the excellent progress of the institute during the past few years.

The president then called on Mrs. (Rev.) Stewart, who leaves Napier in a couple of weeks, for a few words. Mrs. Gardiner, in calling her forward, expressed the loss that would be sustained in her departure, as well as the high esteem in which she is held in the organization and district. Mrs. Stewart, in a few well-chosen words, thanked the ladies for their kindness, and congratulated the president on the grand success of the Napier branch. She also stated that had she been present.

HOMESEEKERS', SETTLERS', AND COLONIST EXCURSIONS TO THE WEST.

Those taking advantage of above excursions should bear in mind the many exclusive features offered by the Canadian Pacific Railway in connection with a trip to the West. It is the only all-Canadian route. Only line operating through trains to Western Canada. No change of depots. Only line operating through standard and tourist sleepers to Winnipeg and Vancouver. All equipment is owned and operated by Canadian Pacific Railway, affording the highest form of efficiency.

Home-seekers' rates will be in effect each Tuesday, March 2, to Oct. 28, inclusive, and round-trip second-class tickets will be issued via Canadian Pacific Railway from Ontario points at very low rates—for example, Winnipeg and return \$35, Edmonton and return \$43, and other points in proportion. Return limit two months.

Each Tuesday during March and April, the Canadian Pacific will run Settlers' Excursion trains to Winnipeg and West, for the accommodation of settlers travelling with live stock and effects, a colonist car will be attached to the settlers' effects train. This car will leave Toronto on regular train at 10:20 p.m., arriving at West Toronto at 10:20 p.m. It will be attached to settlers' effects train as mentioned above.

For those not travelling with stock and effects, special Colonist cars will be attached to regular train leaving Toronto at 10:20 p.m., and run through to Winnipeg without change. No charge is made for accommodation in Colonist cars.

Tourist sleeping cars are also operated on regular train leaving Toronto 10:20 p.m.

One-way Colonist Rates to Vancouver, Victoria, Seattle, Wash., Spokane, Wash., Portland, Ore., Nelson, B. C., Los Angeles, Cal., San Diego, Cal., San Francisco, Cal., etc., will be in effect daily March 15 to April 15 inclusive.

Full particulars from any C. P. R. agent, or W. Fulton, city passenger agent, 161 Dundas, corner Richmond, London. 65-g

BRUSSELS.

Brussels, March 14.—This week John Henderson has gone to Port Colborne, Ont., to assume a position in the office of the electric railway.

Miss Anne Kelly, an invalid for some years, died Tuesday in her 84th year. The funeral takes place this afternoon, service being conducted in St. John's Church.

Rev. J. W. Hibbert, of Gorrie, will preach in the Methodist Church next Sabbath and Rev. Dr. Ross, of Toronto, a former pastor, will conduct service in the Presbyterian Church.

Owing to the serious illness of his mother, J. P. Rowland, agent of the Standard Bank, was called to Newcastle. The Presbyterian congregation of Knox

Church, Moncton, presented their pastor, Rev. E. A. Lundy, and Mrs. Lundy, of Walton, with a purse of \$75. It came as a genuine surprise, but nevertheless was not the least appreciated.

George Bateman, of Bihel, is ill with a light stroke of paralysis.

Rev. Dr. Oaten is improving nicely and will likely be able to resume his pulpit on Easter Sunday. He has been out of it four weeks.

Almer, son of Charles and Mrs. MacQuarrie, was operated upon recently at Wingham Hospital for appendicitis. He is making favorable progress.

Musicians—Ah! Isn't it beautifully put on? 'Cynicus—I should say so. It is all put on—Life.

LONDON, ONTARIO, FRIDAY, MARCH 14, 1913.

Sun Rises Tomorrow, 6:31; Sets, 6:24.

FOUR ROOM ADDITION FOR CHESLEY AVENUE SCHOOL

Committee of Board of Education Meets Today to Consider Plans for Four-Room Addition to Accommodate Manual Training and Domestic Science Classes.

A four-room addition to Chesley avenue school is almost an assured fact now.

For some time residents of East London in the vicinity of the school have agitated for an addition to the school on account of having to send their children across the Grand Trunk tracks to Rectory street school to take up manual training and domestic science.

Chesley avenue school, which is one of the finest in the city, was built some years ago, and at that time there was ample room to accommodate the children of that section, but in the past few years East London has grown so rapidly that the school at present is overcrowded.

There has been considerable agitation for an addition to the school, but the board of education was handicapped last

year to such an extent that it was impossible for it to undertake the erection of the addition.

The question was brought up at a meeting of No. 2 committee of the board at a recent meeting, and two sets of plans for an addition have been prepared. They will be submitted to the committee at a meeting this afternoon, and some recommendation will likely be sent to the board at its next meeting.

"I don't think there is any question of the addition being built," said Mr. A. M. Hunt, chairman of No. 2 committee. "It is an absolute necessity, and I think it might as well be built as soon as possible. Every day these children are forced to cross the railroad tracks we are endangering their lives, and I think that the board will decide to spend the money on the addition this spring."

AGED RESIDENT DIES IN EAST LONDON

Mrs. Elizabeth Whaley Passes Away at Home of Daughter.

The death of Mrs. Elizabeth Whaley, a well-known resident of this city, occurred at the home of her daughter, Mrs. John Sheehy, 274 Hamilton road, on Thursday afternoon, Mrs. Whaley was in her 80th year. She leaves to survive one son, Robert Davidson, in Detroit, and three daughters—Mrs. John Sheehy, this city; Mrs. Martin, of Columbus, O., and Miss Agnes, at home. The funeral will take place on Saturday afternoon. Services will be conducted by the Rev. T. B. Clarke, at 2:30 o'clock, and interment will be made in Woodland Cemetery.

STREET CAR DERAILED

Ottawa Car Left Rails at Corner of Redan and Rectory and Blocked Traffic.

An Ottawa car, loaded with workmen, left the tracks on the Hamilton road, near Redan street, this morning at 6:30 and ran diagonally across the road until it reached the curb.

The passengers, although considerably shaken up, were not injured in any way. Traffic was delayed for some time, and while an attempt was being made to put the car back on the tracks the other cars had to be backed up to switching points.

WANT FREE LIBRARY IN OLD TOWN HALL

Workingmen of That Section Cannot Get Down Town to Secure Books.

Residents of East London want a branch of the free library located in that section. They claim that part of the old town hall at the corner of Dundas and Rectory streets could be renovated for a small sum of money and that books to satisfy the needs of the workmen could be installed for a small amount.

There are thousands of workmen who reside in East London, east of Adelaide street, who never get much opportunity to go to the public library for books, and such an institution in East London would prove of inestimable value to them.

"We would appreciate such a thing in East London if the city should decide to give us a library," said a workman to the Advertiser. "We would not ask for a fine building, with tiled floors and ornate ceilings, but would like to have a number of good books. There are hundreds of men living in this section, too, who contribute to the support of the library but never derive any benefits from it. When we get home from work at night after a hard day in the factory we do not feel like dressing up to go down to the library to get a book, but just the same we would like very much if we could have a book to read the same as our more fortunate brothers who live nearer the heart of the city and who have time to go and secure one."

"The establishment of a small library out here would not cost the city much, and would be a source of considerable pleasure to the workman."

Death of Hennessy Infant.

Herbert Julian Hennessy, the infant son of Wm. A. and Lucy E. Hennessy, 576 English street, died on Thursday morning. The funeral arrangements are not completed as yet, pending the arrival of the child's father, who is in Portland, Ore.

MANY MORE HOTELS NEEDED IN LONDON

East London Progressives to Confer With Other Organizations.

BIG CONVENTION COMING

Wheel Tax Recommended as Means of Maintaining Good Roads.

"What we want in this city is more hotels," said Mr. J. Pearson at the meeting of the East End Progressive Association on Thursday evening.

"When the new market is established we want a first-class farmers' hotel and two or three second-class hotels in the neighborhood. We don't want any third-class hotels."

He pointed out the need in this city for more hotels.

Big Convention Coming.

"Conventions and big gatherings of any kind cannot come to London because there is no accommodation for visitors," he said. "The hotels could not billet the people who came to the auto show, and when the medical convention comes, to which about 375 doctors are expected, I don't know what we'll do."

Mr. Wm. Wakeling asked what would become of the new hotel proprietors when there were no conventions in the city. The convention would not support a hotel for a month, he said.

Mr. Pearson suggested that a petition be presented to the commissioners asking that more licenses be granted in London.

Will Hold Joint Conference.

After considerable discussion a resolution was passed that a strong committee be appointed to confer with the other progressive associations in regard to securing more hotels.

The condition of the roads in that section of the city was also discussed. It was thought that the only remedy for present conditions was the imposition of a wheel tax on all vehicles in the city. Mr. Wakeling pointed out that to be effective the tax should apply to the whole of Ontario, as farmers coming into the city were just as much responsible for the cutting up of the roads as teamsters in the city.

Advocate Wheel Tax.

A resolution was moved that the city council be asked to lay the matter before the Provincial Legislature, and endeavor to secure a wheel tax for the whole of Ontario.

Automobiles should be made to pay a tax of at least \$25, as they are responsible for a great deal of damage to the roads, in the opinion of some of the members of the association.

A communication was read from the secretary of the Trades and Labor Council, asking support in an endeavor to secure a gymnasium for workmen in one of the buildings in Queen's Park. It was agreed to lend the support of the association to this project.

The report of the market committee was received. It stated that the market was now almost assured, and that the main entrance to it would be from Dundas street. President Leah presided at the meeting.

ARE PREPARING PLANS FOR MUSIC BUILDING

New Buildings and Repairs for Queen's Park To Be Discussed Next Week.

Representatives of the Western Fair Board visited Queen's Park recently to inspect the buildings and to learn the repairs which will be necessary this year. Secretary A. M. Hunt has been busy all week preparing a schedule of a number of meetings which are to be held next week, and which the question of a new music building for the exhibition grounds and the necessary repairs to the buildings will come up. Plans for the music building are being prepared and will be submitted to the board at its first meeting.

"The repair work on the buildings will be started as soon as possible," said Mr. A. M. Hunt, "and if the board decides to erect the music building work on it will be started as quickly as possible."

A FAREWELL PARTY

Friends of Mr. Upthegrove Gather to Bid Him Farewell.

The home of Mrs. Wm. Upthegrove, 750 Adelaide street, was the scene of a farewell dinner Thursday night, about 25 friends and neighbors being present to say farewell to Mr. Upthegrove, who leaves today for Windsor, where he had been transferred by the Canadian Pacific Railway.

After dinner cards were played and several solos and instrumentals were rendered by the guests. Mr. Upthegrove expects to be in Windsor for a year.

BOARDING-HOUSES NEEDED

Hundreds of Young Men Would Like to Obtain Quarters in Chelsea Green.

Chelsea Green is sadly in need of a couple of boarding-houses to give board to the young men who work in McClary's foundry, the rolling mills, and other factories in that section.

There are several hundred young men, who have no homes in this city, employed in those factories, and they have to go some distance from their work to obtain boarding-houses.

"Two good boarding-houses could make lots of money in this section," said Mr. J. Winslow. "We have dozens of inquiries for a boarding-house here every week, and if someone would only start one I feel sure that they would find it a profitable venture."

A New Feature

This "Greater London" section has been started for readers of The Advertiser living in the outlying districts of the city, and will deal with questions of importance to Chelsea Green, Ealing, Pottersburg, Knollwood Park, West and South London.

Anyone having items which they would like to have appear in the paper should telephone them to 3670, or send them by mail.

RECIPIENT OF WATCH AND TRAVELLING BAG

Former Pottersburg Boy Recipient of Handsome Presents in the United States.

Rev. F. H. Talbot, a former London boy, and son of Mr. W. H. K. Talbot, of Pottersburg, who has been pastor of the Gardner Church, North Dakota, for the past five years, has accepted a pastorate of the united churches of Tower City.

Before leaving Gardner Mr. Talbot was presented with a splendid solid gold watch and leather travelling bag, as a token of the congregation's appreciation of the splendid work he did while in their midst. Mr. Talbot, who was recently ordained, will continue his chosen profession in Tower City.

FURNITURE MOVED AT DEAD OF NIGHT

Second-Hand Man's Wares Placed in His Neighbor's Doorway.

There are some mean people in this little old world; at least that is what a second-hand dealer, who has a store on Dundas street, thinks. Wednesday night he left his place of business in a hurry and forgot to carry in miscellaneous articles which he usually keeps on display.

This morning when some of his neighbors arrived at their places of business they were somewhat surprised to find in one man's doorway stood a washing machine, while in another doorway a fine oak commode reposed.

During the night someone had happened along and seeing pieces of furniture in front of the store had carried them off and put them in the other doorways. The furniture man is vowing vengeance today.

Several Cars Derailed.

Street cars on the West London lines were tied up for considerable time Thursday night and this morning through the derailling of a car at the corner of Wharmcliffe road and Dundas street, which occurred at 10:30 Thursday night.

Cars have been derailed at that point several times lately on account of the rails spreading.

Entertained Mothers' Club.

The teaching staff of Aberdeen school returned the compliment of the Mothers' Club of the school on Thursday when they were the hosts and hostesses of an enjoyable "at home," the mothers being the guests on this occasion. The following participated in the program of music and readings: Misses Rennie, Bain and McBride, and Messrs. Dowling and Cyril Hayes. Refreshments were served at the close.

NAVY COMPROMISE PLAN FROM CONSERVATIVE SIDE; BORDEN IS WEAKENING

W. F. Maclean Suggests the Gift of Two Dreadnoughts.

AND UNITS FOR THE PACIFIC

Premier Gives an "Explanation" of the Winston Churchill Cable.

Ottawa, March 13.—An appeal for a compromise to relieve the strain of the present situation came from the Government benches today. Taking advantage of Premier Borden's motion to adjourn at four o'clock for a few hours, out of respect to the memory of the late Hon. John Hazen, Mr. W. F. Maclean rose from his seat in the front row of the Government benches, and suggested that the occasion was opportune for the House to seriously consider whether or not it would be both in the interests of the country and of the em-

pire to pause in the present strife and honestly endeavor to effect some arrangement which would enable both parties to agree on a common plan of co-operation in imperial defence. He suggested an amalgamation of the Laurier and Borden naval policies. Instead of three Dreadnoughts, the Liberals might consent to make it two, as an immediate contribution to the imperial fleet, while the Government might meet the Liberal contention at half-way, and agree to a fleet unit on the Pacific in co-operation with Australia and New Zealand.

Maclean's Proposal. Mr. Maclean's compromise proposals were somewhat vague as to the details of their working out. He was for both solidarity and autonomy, and he was against closure, at least during the course of the present constitutional struggle. However, much individual supporters of the Government would welcome a compromise with the Liberals, and a way out of their present embarrassing situation, they evidently did not relish this public confession of weakening, and comments from the ministerial side after the House adjourned were by no means complimentary to the member for South York. On the Liberal side there was absolutely no disposition to accept anything less than the principle which they have consistently contended for throughout. So far as they are concerned the only outcome must be the dropping of the bill in favor of the policy enunciated by the un-

animous resolution of 1909, or else an appeal to the people.

This debate was continued throughout the day with undiminished vigor from the Liberal benches. In the early hours of this morning the two hundred hour mark of continuous debate since the deadlock started was passed. The fundamental and larger issues of the question, apart from contrasting merits of the two concrete proposals before Parliament, are being pressed home with ever-increasing force and dominate the discussion.

German on Churchill. "Who told Mr. Churchill that Canada ever intended to build battleships of the largest type?" demanded Mr. W. M. German, of Welland, in criticizing the memorandum. The Liberal party had never advocated the building of the largest vessels in Canada, he added, and no one else had ever advocated it.

Mr. German indulged in a little satire at the expense of Mr. W. R. Northrup, of Hastings. He seems much concerned about the matter of riveting, but probably he is more anxious to be riveted to a judicious than he is to see warship factories, commented the Welland member. While Mr. German was scoring the Churchill document Hon. Sam Hughes interrupted with the question: "Does the hon. member contend that there is anything in the memorandum which any school boy could not have worked out with a few hours' trouble?"

"Not a line," came the answer. Mr. German characterized the proposed measure as useless and mischievous, because there was already a navy law, and mischievous because it would divide the Canadian people.

Hon. Mr. Lemieux. Hon. Rodolphe Lemieux followed Mr. German till the 4 o'clock adjournment. He devoted most of his time to refuting the conclusions reached by Mr. Churchill in his letters, and pointing out that these conclusions were based upon misconceptions resulting from the information furnished him as to Canadian conditions. He quoted from naval experts who had made a special study of Canadian conditions, and who had reached the conclusion that Canadian resources for the manufacture of steel and nickel, and natural maritime advantages made it easy for Canada to develop a naval force of her own, and to build the most modern and efficient war vessels. In the case of the Ross rifle there had been similar objections as to the inability of Canadians to manufacture efficient small arms. But today the Ross rifle was acknowledged to be the superior of any military rifle used at Bisley.

Canada not only could import experts, if needed, to develop a new battleship building industry, but Canada had already shown to the world that she could export experts in all the great lines of industry. Canada had supplied Sir Percy Grouard, the greatest engineer to Kitchener; she had given Sir Archibald Douglas, as an admiral, to Britain, and he had been selected by the British Government to train naval officers and sailors for the Japanese navy. Mr. Churchill evidently ignored the spirit and capacity of Canadians. In the past thirty years, said Mr. Lemieux, there had been shown more grit, courage and energy in Canada than in Great Britain herself. The people who did not shrink from building the C. P. R. and the National Transcontinental Railways need not be daunted in the face of any other "impossible achievement."

Mr. Lemieux further dealt with the armor-plate monopoly of Great Britain, which had its ring of jingoistic papers around the empire and whose echoes were heard even in Montreal and Toronto.

Mr. Robb, who resumed the debate this evening, suggested that some of the \$35,000,000 naval gift should be expended in giving Mr. Churchill a trip for education throughout the overseas Dominions. He could take a Canadian ship at Liverpool for Canada and travel by a Canadian ship to Australia. Canadians, of course, were not supposed to be able to build anything, but Mr. Churchill might see in the Canadian

cities thousands of his fellow-Britons engaged in building engines and handling cranes far larger than those which Mr. Churchill apparently thought could not be constructed here. "If," said Mr. Robb, "we accept his statement that we can never look forward to building ships or larger and better engines, the logical sequel is that the same gentleman should devise a policy whereby all Canadians must buy their cottons in Birmingham and all their machinery in Manchester."

"I come from the most Protestant county in Quebec," said Mr. Robb, "but I would have small chance of getting re-elected if I favored this policy of the Government. My constituents are absolutely opposed to a policy of contribution, and I must say in all fairness that they are not very much enthused with any policy of spending large sums on the navy."

When Mr. Robb went on to speak of the treatment of Quebec Protestants by the Laurier and Borden Governments, getting three representatives from the former and none from the latter, Chairman Blondin intimated that this was rather far afield from the naval debate. The member, however, pointed out that it was the Government's desire to placate the Nationalists on the navy question which had led to the formation of a cabinet in which for the time time since confederation there was no Protestant from Quebec.

Mr. A. Lechance followed Mr. J. A. Robb, speaking in French until midnight. Mr. G. Boyer, of Vaudreuil, also speaking in French, held the fort until an early hour this morning.

Borden Vague. The reluctant manner in which Premier Borden is gradually divulging information asked for by the Opposition, and to which Parliament was clearly entitled, was strikingly emphasized at the night session, when in answer to a request from Mr. Carvell to lay on the table of the House the cable—which had been sent to the admiralty for the release of the Churchill letters, and for the answer to that cable, Mr. Borden delivered a long and somewhat devious explanation.

He first took occasion to make a belated statement as to certain misapprehensions which he believed existed in connection with the admiralty memorandum, upon which the present proposals are alleged to have been based. It had been said that Mr. Monk had resigned from the cabinet, owing to his disagreement with the Borden proposals before the memorandum on which these proposals were based was received.

"But," Mr. Borden explained somewhat haltingly, "we had been in receipt of the information in much fuller and more confidential form about the end of September. The admiralty memorandum, which was presented to the House at the beginning of the session, has been divested of the confidential matter."

It is to be noted that this is the first information which the House has ever had concerning the first document, and it is considered strange, in view of repeated requests for explanations from the Premier, that they should only be given at this late date.

"Explains" That Cable.

Proceeding to the matter of the more recent memorandum concerning the cost of building ships in Canada, and to the request of Mr. Carvell for the cables, the Prime Minister stated that the cable asking for a release of the matter in order that it might be brought before the House had been sent on Tuesday or Wednesday of last week, he was not sure which, and it did not much matter. It was on Sunday, he thought, that he was informed that an answering cable had arrived. He had ordered that it be transcribed and the letters prepared for presentation to the House.

"I had hoped," said Mr. Borden, "that they would be ready when the House went into committee at noon, but they were not placed in my hands until after the debate had taken place. I came into the House with the memorandum at about 5.30, and found the member for Carleton speaking. After consultation with my colleagues I decided not to ask the member for Carleton to yield the floor to me. My honorable friend, Mr. Carvell, had given it to you," interrupted Mr. Carvell with some asperity.

"I had not the temerity to interfere with my honorable friend," said the Premier, evidently ill at ease, and the Liberal members laughed sardonically. The Premier explained that he had come to the House later. He had then requested Mr. Turfitt to relinquish the floor to him. "You might have given it to you," interrupted Mr. Carvell with some asperity.

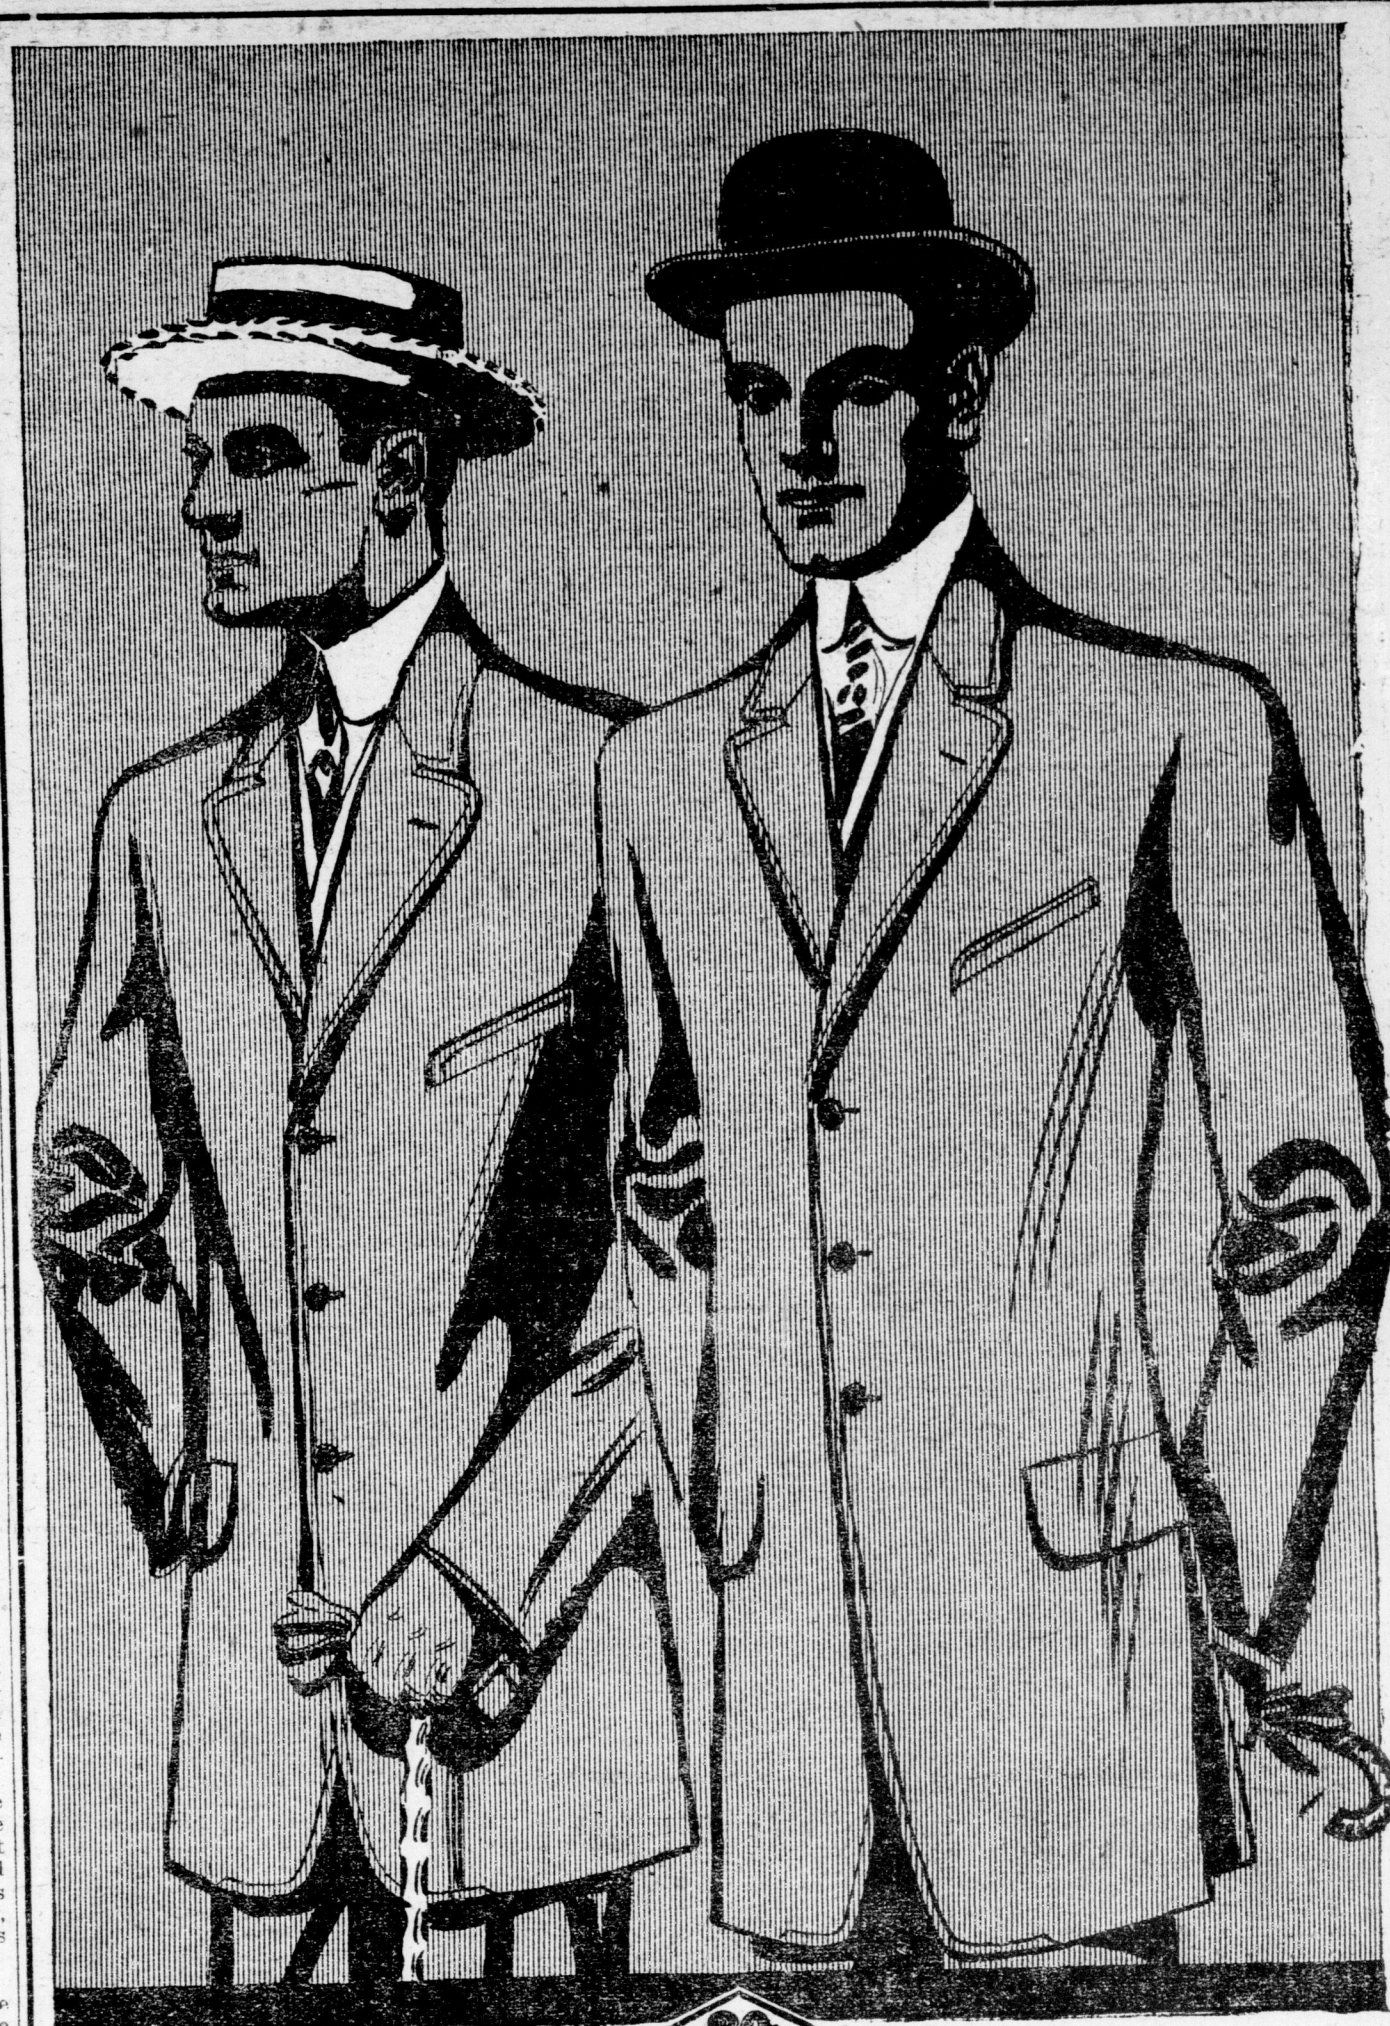

"I had not the temerity to interfere with my honorable friend," said the Premier, evidently ill at ease, and the Liberal members laughed sardonically. The Premier explained that he had come to the House later. He had then requested Mr. Turfitt to relinquish the floor to him. "You might have given it to you," interrupted Mr. Carvell with some asperity.

It is a matter of common knowledge that Conservative members were in possession of the contents of the memorandum early in the afternoon. Just why the Prime Minister had to consult his colleagues on the question of asking Mr. Carvell for the floor is hard to understand, whether it was his intention to comply with the request of Mr. Carvell and bring down the cables.

PROTESTING AGAINST LINE FROM LONDON

St. Thomas Sends Delegation to Toronto to Talk to Commission.

St. Thomas, March 13.—A joint meeting of the city council and St. Thomas Board of Trade was held today in order to enter a protest to the hydro-electric commission over the proposed route of the new hydro radial lines through Western Ontario. At a meeting in Chatham a few days ago it was proposed that the line be built directly west to Chatham, leaving out St. Thomas and all the towns along the southern route west of St. Thomas. These municipalities claim that the radial line was to follow the hydro-electric line through St. Thomas and to the west to Windsor. A delegation from St. Thomas visited Toronto today, conferring with the hydro-electric commission, and meeting with representatives from all the towns west of here is to be held in St. Thomas on March 20 to consider the proposition.

NEW Spring Styles in the famous 20th Century Brand make are ready for your inspection. Three large shipments --- Spring Overcoats and twenty distinct styles of suits.

DIAZ IS THROUGH

Will Not Return to Mexico Unless the United States Invades.

[Canadian Press.] Naples, March 13.—General Porfirio Diaz declared today that he would not return to Mexico. He was looking well on his arrival from Egypt aboard the Adriatic, and in reply to inquiries said that his only desire was to be allowed to rest quietly. He stated, however, that all his efforts would be directed toward assisting his country to reach a condition of prosperity.

The former dictator added emphatically that he would go back to Mexico in case of intervention in that country by the United States, when Mexican citizens without distinction would be united against the foreign invader. General Diaz intends to remain here a few days.

FIGHTING AT NOGALES

Federal Troops Attack Rebel Defenders From Three Sides.

[Canadian Press.] Nogales, Ariz., March 13.—Firing began at daybreak on three sides of the Mexican town of Nogales. The Sonora state troops used grenades in their attack. Dr. Gustetter, who had crossed the line to attend the wounded, reported that 17

of the defenders had been killed and 11 hurt. At this time the firing became scattering, and mostly centred upon the left flank.

The United States troops patrolling the border unlimbered two machine guns on Heimb Hill, commanding the two

MAYOR AND LAWYER ENGAGE IN SQUABBLE OVER DUMP GROUND

Mr. Edmund Weld Speaks on Behalf of Rowing Club.

Mayor Quotes City Solicitor's Opinion Given Last Year.

Alleging that the proprietor of the West London dump was filling in the river from the north bank, and increasing its land area at the expense of property-owners on the southern bank, by diverting the current of the river and forcing it over to the south bank, Mr. Edmund Weld, representing the London Rowing Club, made some strong contentions before the board of works Thursday night.

That Scarrow Row. "That row of houses (meaning Scarrow's row) ought never to have been built," said Mr. Weld. "The dumping on the north side is driving the channel over to the south side. Last year we had to go to a large expense to construct a breakwater to protect our property."

"That was discussed last year," said Mayor Graham.

"I never heard of it," replied Mr. Weld. "The city should protect the river. It is a matter which concerns the city."

Wouldn't Take Chances. "For the city to risk an expensive litigation to try and put a stop to this," said the mayor, "might be a case of pulling the chestnuts out of the fire for property owners. We have the city solicitor's opinion in the matter. He says it would be a question of defining the normal water-mark. An action might be taken if the board of health were to declare the dump a nuisance or a menace to health."

Protecting City Solicitor. "Our city solicitor, Mr. Weld, is not given to prattle and child's play," said Mayor Graham.

"If the city won't do it, they should say so," continued Mr. Weld.

"I tell you the council of 1912 did submit the matter to the city solicitor," said his worship.

"It is diverting the current and in-

juring property on the south side," said Mr. Weld.

Where is River-Bed? "It is a question of proving what is the river-bed. I don't believe he (meaning Mr. Scarrow) has any right legally to build out his property and divert the river."

Mr. John Macpherson here added that it was interfering with the normal tide and flow of the river.

The Rowing Club deputation also asked that the splashboards on the Springbank dam be not removed during the erection of the bridge, and that the contractor be not allowed to prevent navigation by blocking the channel.

Will Consider Requests. "We will consider both questions," promised Chairman Bennett.

"You doubted my veracity," said Mayor Graham to Mr. Weld when the latter was leaving.

"No; I only said I did not think the matter had been fully placed before the city solicitor, and that no one had pointed out by the river and divert the current," replied Mr. Weld.

Must Muffle Motors. Mr. Macpherson also wanted regulations requiring motor boats to use mufflers on their motors. But as it was pointed out by the committee, motor boats are not licensed like automobiles, and it would be doubtful how the noise of the motors could be regulated.

Engineer Chipman promised to complete his storm sewer report during March.

Engineer Dunford was granted leave on March 15, and on the motion of Ald. Saunders will receive his salary to the end of the month.

The Children's Aid Society wrote, asking for road scrapings to fill up the gully on the Shelter Home property.

Wants Dump-Carts. Mayor Graham moved that tenders be called for twelve single-horse dump-carts and three two-horse wagons for the garbage collection service. He advised that the City property be purchased west of the incinerator.

Ald. Saunders moved that two new boilers be installed at Victoria Hospital for heating purposes.

Dr. Mugan and W. J. Wilkie waited on the board to urge the opening of the new hospital at Dorinda street. Mr. Wilkie offered the necessary land for \$500.

Referred to Engineer. On the motion of Mayor Graham the question was referred to the engineer, the chairman of the board. Estimates were also asked for the opening of Lorne avenue through to Dorinda street.

A representative of the Roman Catholic parishes explained its virtues to the committee.

W. Spettigue wanted some assurance from the committee that if he invested \$7,000 in a stone-crushing plant he would receive the city's patronage.

He pointed out to him that all material had to be bought by tender, but that the city would require a good deal of crushed stone, and if he could

supply it cheaper than it could be obtained from St. Marys he would no doubt receive the preference.

NAVY ESTIMATES DISMAY LIBERALS

Labor Party Likely to Grumble Over Sum Asked by Asquith.

BERESFORD SEES PERIL

Declares Sum is Not Enough, While Keir Hardie Says It's Too Much.

[Canadian Press.] New York, March 14.—A cable to the Tribune from London says: The navy estimates, published last night, are not likely to arouse enthusiasm on either the Ministerial or the Opposition benches in the House of Commons. Liberals are dismayed at the prospect of more than £46,000,000 being spent on the navy during the coming year, and there will be much labor grumbling at this figure. Pacifists will also have something to say at the absence of any response to the German offer of 16 keels to 10, and Mr. Churchill's silence on this point is certain to be criticised in Ministerial circles.

The fact that it is proposed to lay down five new Dreadnoughts in 1913-1914 irrespective of the latest German attitude, will be regarded as highly provocative.

Beresford's Comment. For their part, Unionists regard the navy estimates as distinctly disappointing in two most important particulars. The personal of the estimates is increased to 46,000 officers and men, a figure which is held to be quite inadequate. The second point is the continued neglect of the air service.

Here are two characteristic comments: Lord Charles Beresford.—The proposed reduction of £3,000,000 on the amount which those who realize the pressing needs of the navy regarded as a minimum, in my opinion, is achieved without some sacrifice of naval strength, which we may urgently need at the shortest possible notice. It appears to me to be gambling with the very life of the Empire.

James Keir Hardie.—I wish the decrease had been five millions instead of three. It would lead more quickly to the inevitable revolt against bloated armaments. "Whom the gods would destroy, they first make mad," and they are making Europe mad very quickly with this intolerable burden of armaments.

FINANCIAL COMMERCIAL

LIVE STOCK.

CHICAGO, March 14.—Cattle—Receipts, 1,500; market steady. Hogs—Receipts, 1,500; market steady. Sheep—Receipts, 1,500; market steady. Poultry—Receipts, 1,500; market steady.

EAST BUFFALO, March 13.—Cattle—Receipts, 1,500; market steady. Hogs—Receipts, 1,500; market steady. Sheep—Receipts, 1,500; market steady.

TORONTO, March 13.—Union Stock—Receipts, 1,500; market steady. Hogs—Receipts, 1,500; market steady. Sheep—Receipts, 1,500; market steady.

The week-end market was slow, with very few choice butchers' cattle in the yards, and prices tending to be easier, especially for the commoner grade of cattle.

Cattle receipts were lighter than usual, but the run of hogs was proportionately large, with 2,500 head. Packers continued to quote \$9.50 for fed and watered hogs, but a few choice lots were reported selling at \$9.75.

The figures for hogs have not taken their usual increase toward the end of this week, but, in fact, are lower than Tuesday, when they were quoted \$9.50 for fed and watered. The best butchers' went for \$9.75 to \$9.90, but the general run of good cattle sold about \$8.50 to \$8.75.

Good calves were in demand, and some today were reported selling at \$9.00. Good calves were in demand, and some today were reported selling at \$9.00.

WESTERN ONTARIO'S BIGGEST CLOTHIERS 12 Large Factories and Tailor Shops

MAKING FOR OVER 360 OF CANADA'S LEADING STORES, ARE THE SOURCE OF OUR SUPPLY. We have planned for over half a year to make this the greatest showing of Men's and Boys' Wear that has ever been displayed by any clothing store in Ontario. We have succeeded with styles and values. We are now the largest cash buyers of clothing in Western Ontario. We are the only house in London showing genuine "Bench-Tailored" Clothing, every Coat, every Suit of which bears our personal as well as the maker's guarantee.

OUR SELECTION in every department is greater than we have ever before shown. Our prices are marked for a big increase in our turnover, and no house in Canada will show such clothing, either in men's or boys', at the prices.

WE HAVE PAID PARTICULAR ATTENTION TO THE YOUNG MEN'S LINES. Many new ideas are here, which will not be shown by any other house.

Spring Overcoats, \$9.65

Handsome shop-tailored Chesterfield Coats in the new cloths. Travellers' sample coats and regular stock coats that would be good values at \$12.50 to \$15.00. Come and see them.

Bench-Tailored, Easter, Spring Overcoats

Silk-lined, silk-faced and plain. The handsomest tailoring we have ever turned out, \$12.50, \$15, \$18, \$20, \$22 to \$30.

1913 Special Raincoats

Scotch Paramattas, Glengarrys and Raw Silks, \$8.80, \$10.80, \$14.00, \$15.00. Absolutely waterproof, single and double breasted.

Handsome Easter Shirts

The largest selection in the city. Cluett's, Monarch, Arrow, Star, Dowler Special, Regal and Giant.

Cluett Shirts, \$1.25, \$1.50, \$1.75, \$2.00. 142 dozen \$1.00 Shirts, special, \$1.79.

Easter Hats Are Ready

In all the new American and English blocks, and the correct 1913 shades, \$3.50, \$2.50, \$2, \$1.50 and \$1.

Early Spring Caps

We have already placed three large shipments, \$1.50, \$1.25, \$1.00, 75c, 50c, 25c.

EASTER NECKWEAR in handsome profusion.

EARLY SPRING HOSE, silk, cashmere and lisle.

Boys' Easter Suits

First Communion Suits, School and Knockabout Suits, Johnston's Shop-Tailored Suits for boys, the best in Canada, \$4.50, \$5, \$6, \$7.50, \$10 and \$12. Other reliable makers', \$2.40, \$2.75, \$3, \$3.50, \$3.75, \$4.00.

Boys' Pants and Bloomers

Two large shipments, strong, durable tweeds and worsteds, 49c to \$2.50.

Boy Scout Stockings

A new pair if not satisfactory is the guarantee, 25c.

\$5.00 and \$5.50 Trousers

Easter Week, \$3.50.

These are the greatest values we have ever offered. Full range of sizes.

AND FOUR SPECIAL LEADERS AT

\$1.18, \$1.98, \$2.50, \$3.00.

Underwear, Early Spring

Stanfield, Penman's and Watson's fine wool combinations, sizes 32 to 44. Penman's and Cee-Tee Natural Wool Shirts and Drawers.

100 dozen 50c Egyptian Balbriggan Shirts and Drawers, very special, 39c.

Nightgowns and Pyjamas

To keep men in nights, in fine imported and domestic makes.

Men's Easter Suits

Our Bench-Tailored Suits are getting an international reputation for the best tailoring on the continent. Our sales to American customers are doubling up each season. SEE OUR EAST WINDOW for some of the advance Easter styles. Twenty-two distinct styles and double as many cloths, \$14, \$16.50, \$18, \$20, \$22 to \$28.

Easter Rush Special Suits, \$9.65

British and domestic tweeds and English serges, in Blue and Black Suits that retail at \$12.50 and \$14.00 in almost any store in Canada.

Hand-Tailored Collar, Shoulder and Front Business Suits, \$16.50

We have made a special drive at this price in solid wool British worsteds and tweeds, and have never shown such values. Our selection is almost unlimited.

Our Work Goods Dept.

Is proving a regular savings bank for buyers of work goods.

Stiff's Indigo Blue Stripe and Plain Overalls with bib, 75c.

Leather Label \$1.25 Overalls, blue, \$1.

Khaki Trousers with belt and cuffs, \$1.10.

\$1.00 Mole-skin Trousers, 75c.

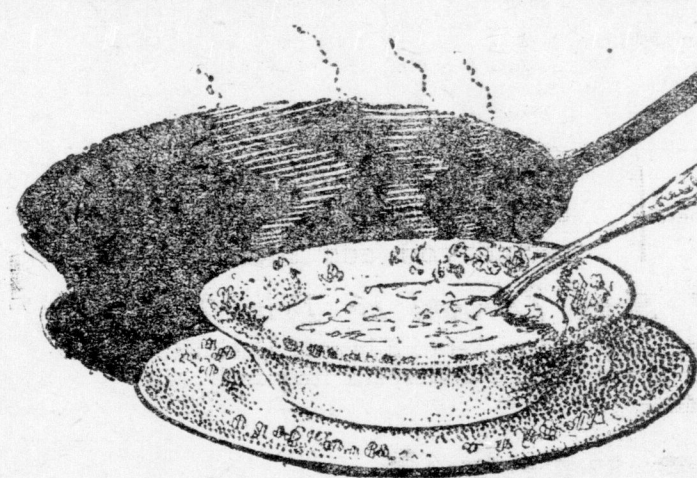

Heavy Drill Overalls, elastic braces, 50c.

45c Gauntlet Gloves, 3 pairs \$1.00.

90c Untearable Drill Stripe Shirts, 65c.

40 dozen Belfast Grand Drill Shirts in mid blue stripes, absolutely fast colors, 65c.

R.H. & J. DOWLER LIMITED.

There are more than 20 dishes in a 10-cent package of Tillson's Rolled Oats.

There are more than 50 dishes in a 25-cent package.

Less than half a cent a dish!

There's no getting away from this fact:

For nourishing qualities, appetizing tastiness and economy, good rolled oats are "the thing." And there are no rolled oats quite so good as Tillson's.

Constipation and Headache CURED BY Burdock Blood Bitters.

Various kinds of headache exist; for example, nervous, bilious, congestive, and sick headache, headache from constipation or dyspepsia, periodical headache, etc.

In all cases of headache the treatment should be directed to remove the cause, and with the cause removed the headache vanishes for all time.

It is impossible to find a better remedy for headache of every description than is Burdock Blood Bitters, acting as it does on every organ of the body to purify, strengthen and regulate the whole system.

Miss May Bourdage, New Richmond, Minn., writes: "For years I was troubled with sick headache, and dizziness, and was also constipated. I was advised to take Burdock Blood Bitters, and I only took three bottles when I felt like a new person. I can recommend it to anyone who suffers the same as I did."

Burdock Blood Bitters has been on the market for over thirty-five years, and is manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

Rolled Thinnest—Cook Quickest (15 minutes)

Tillson's Oats

Try Tillson's tomorrow. Your grocer has them. Sold only in packages—never in bulk. Two sizes—10c and 25c. Each 25c package contains a handsome dish of good English porcelain.

CANADIAN CEREAL AND FLOUR MILLS LIMITED, Toronto, Canada. Makers of Tillson's Oats—Rainbow Flour—Star Flour.

OVERWORK AND MENTAL STRAIN

causes run-down health and sickness. Scott's Emulsion and rest are needed, but SCOTT'S EMULSION is more important because it enriches the blood, nourishes the nerves—builds the body and restores strength, vigor and immediate energy without interrupting daily duties.

Scott's Emulsion drives out colds and strengthens the lungs.

CLERGYMAN MADE NO ATTACK UPON JEWISH FELLOW-CITIZENS

Rev. Mr. Appleyard Protests
Against Misrepresentation in
London Free Press.

A letter having appeared in The Advertiser in answer to anti-Jewish statements which the London Free Press attributed to a local clergyman, publication of the following letter addressed to the Free Press, is asked by Rev. E. Appleyard, rector of St. Matthew's Church:

"Yesterday's edition of the Free Press contained several answers and indignant denials to the statements which appeared in Tuesday's issue concerning the Jews in London. The clergyman to whom the production of the statements in question was credited, considers that a statement of the facts of the case is due to the public, and especially to the Jewish population. It had been stated to the clergyman, by a friend, that 75 per cent. of the real estate in New York City was held by the Jews. He, therefore, desired to

verify the statement, in order to find out, if there could be any possible relation between the fact—if a fact—and a statement in the state census of New York City for 1905, to the effect that there were at that time 25,000 families living in underground cellars, and hundreds of thousands living in overcrowded houses and rooms not having proper sanitary facilities.

"To this end he visited the Free Press office in order to see if they had any information on the subject, or could give any directions as to where it could be obtained. They could not give any assistance, but suggested that possibly it could be obtained from some of the New York papers.

"During the very brief conversation that took place the clergyman drew attention to the slum conditions that existed in Toronto last year, which the commission appointed to investigate the matter had reported. And he stated that there was no slum in London, but that there were certain elements present that are part of the make-up of slums, and instanced the overcrowding and unwholesome conditions in which

some of the Russians are living in certain parts of the city. He stated that there are about 500 Russians here, and about 200 Russian Jews. The signs of slum conditions were not attributed to the Jews, but to the Russians. The clergyman did not state that there are 200 Russian Jews working in a certain manufacturing establishment in the city, but that there are about that number of Russians working there.

"Again, he said that the Russians, not the Jews, commenced to come to London about seven years ago. Every statement that he made concerning the Jews was a testimony to their thrift and industry, but he was astonished at the information given as to the amount of real estate held by the Jews of New York, and was desirous of ascertaining, if possible, the amount held by them in this city; and he stated that to his knowledge the Jews had been acquiring property, as they have a perfect right to do, and he is glad to know that they are doing so, but he questioned the advisability, from an economic standpoint, of a controlling proportion of the real estate of any city being in the hands of the representative of any one class or nationality, whether English, Irish, Scotch, German, Jewish or any others whatsoever. He certainly would not like to see the Jews, or English, or Scotch, or

any one nationality controlling 75 per cent. of the real estate of London, but he would delight to see every householder living in his own home, in sanitary, beautiful surroundings, or at least the great majority of them doing so, which they could not do if 75 per cent of property belonged to one class.

"Moreover, the article which has been the cause of the justly indignant letters and replies of the Jews was neither penned nor dictated by the clergyman, but possibly by some party in the Free Press office. The clergyman, indeed, distinctly stated that he was not making any statement for publication, and naturally concluded that his confidence would be respected, and shortly after he saw the article in the paper he telephoned, and remonstrated about its publication at all, and denied having made the statement as contained in it, and this before any reply had been made by those interested.

"As to the statement that the clergyman said that in Germany and France the state takes cognizance of the nationality and religion of those people, this also is a misstatement. He said that those states took record of the nationality of all foreigners settling in those countries. He has, he thinks, however, that every large city, for the purposes of wise oversight and good government, should have a complete record of the nationality of every resident and every foreigner coming to live here. The Canadian Government issues its reports of immigration giving these particulars. Cities might well copy in this matter.

"As to the religious census, it also is issued by the Government at Ottawa in any case, and I believe has lately been published. I confess, the clergyman admires the Jews for their thrift, industry, their care for their children, and the educational attainments of many of their number. He remembers with pleasure the recent visit to this city of two eminent Jews, Dr. Schor and Rev. Mr. Neugeburtz, of the Palestine Exhibition, and enjoyed their splendid addresses. He has no apologies to offer, for his motives were pure, and he believes that his statements were true. He, however, regrets his visit to the Free Press office.

"Moreover, he is not ashamed of his name, and does not intend to hide under a pseudonym. The clergyman is the rector of St. Matthew's Church, Edward Appleyard."

HOSPITAL TRUST TAKES NO IMMEDIATE ACTION

Heating Estimates Must Await
Completion of Incinerator—
Report Considered.

The estimates for Victoria Hospital were not submitted at the meeting of the hospital trust, Thursday afternoon. If the incinerator does not begin operations soon enough an extra \$2,000 will be required for heating.

The board decided to take no action in the matter of the Trades and Labor Council's summer carnival. Members of the trust thought it might be better for the labor council to make all arrangements with the city council. A part of the carnival proceeds will be devoted to charity.

Discusses Report.
Engineer Elliott's report on the heating of the hospital was discussed. He recommended two 150 horsepower boilers to be installed without disturbing the boilers in use at present, one being a 90 horsepower, and the other a 100 horsepower. Col. Gairshore expressed the opinion that 400 horsepower might be required in very cold weather.

A portrait of Dr. Edward Jeffries, who died several months ago in Hamilton, and who was formerly a member of the hospital staff, has been received from his mother and placed in the house surgeon's room.

Paid Accounts.
Accounts totalling \$7,725.05 were passed.

Superintendent Heard's report for February was as follows: Number of patients admitted, 59, male, 77 female, 36 children; total, 132. Number of patients discharged, 70 male, 88 female, 45 children; total, 203. Births, 13, deaths 13. Number of patients receiving treatment Feb. 23, 153. Cash receipts for month, \$2,732.00.

PREPARING TO HOLD BIG CELEBRATION

St. Patrick's Day in London To Be an Event of Unusual Significance.

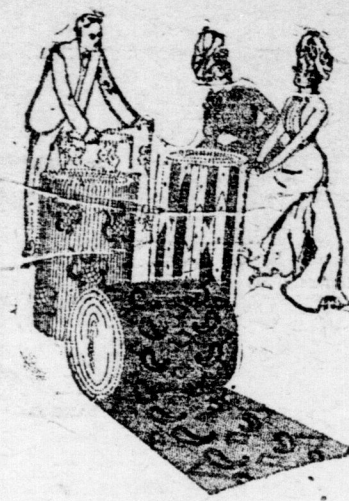

St. Patrick's Day is to be celebrated in fitting form in London. Numerous preparations are under way in this city in connection with celebrating the anniversary of the patron saint of Ireland. An unusually large number of St. Patrick's Day parties are planned, according to confectioners, who report a steady demand for the special favors, candies, etc., which they have prepared. Stationers state that they have sold hundreds of St. Patrick's cards. In connection with the anniversary there will also be a number of concerts, banquets and addresses.

Homesekers' Excursions to Western Canada.

The Grand Trunk Railway System will issue round trip tickets from stations in Canada to points in Manitoba, Saskatchewan and Alberta each TUESDAY, March 14th, 28th, inclusive, at low rates. Tickets are good for 60 days. Through coaches and Pullman tourist sleeping cars will leave Toronto 11:00 p.m. on above dates, running through to Winnipeg via Chicago and St. Paul without change. Tourist cars will be equipped with bedding and porter in charge. Berths may be secured in these cars at a nominal charge. The route via Chicago is an attractive route, as it passes large cities and towns are passed on route, which breaks the monotony of the journey.

The Grand Trunk Pacific Railway is the shortest, swiftest and most beautiful route between Winnipeg-Saskatoon-Edmonton with smooth roadbed, electric lighted sleeping cars, through the newest, most picturesque, and most rapidly improving section of Western Canada. Through tickets sold and reservations made by all Grand Trunk agents. Costs no more than by other routes. Trains now in operation, Winnipeg to Regina, Yorkton and Canora, Sask., also to Camrose, Mirror and Edson, Alta.

Time tables, land pamphlets and other descriptive literature relative to the Grand Trunk Pacific Railway may be obtained on application to Grand Trunk agents or write C. E. Horning, district passenger agent, Toronto, Ont. Nearest Grand Trunk agent, R. E. RUSE, C. P. and T. A., "Clock Corner," London. Steamship tickets on sale via all lines, 67-14

EXETER.

Exeter, March 13.—Mr. Harry Rowe, of the London road south, has disposed of his fine farm to Mr. Sidney Snell, of Exeter, who has been West for a few years, visited friends here recently. A large number enjoyed the spending match in the town hall given by the Mission Band of the Presbyterian Church, town against the country. The former won. A program of music was given, and lunch was served at the close. The proceeds totalled \$27.

Mr. and Mrs. John Hanson are moving to Forest shortly to start farming. Mr. Walton and bride (formerly Miss Theresa Stewart) leave this week for their future home in Regina.

Miss Stella Robinson has returned to Hazelton after a pleasant visit with friends and relatives here.

Mr. A. White, of Toronto, spent a few days recently with his aunt, Mrs. J. Maguire. He has been on the sick list and had a few weeks off from the branch at Toronto.

Mr. Milo Munro, of Parkhill, visited friends here recently.

THEDFORD.

Thedford, March 13.—Miss Mary Reed has returned to Toronto after spending the past month with friends here.

Mr. Wm. Watcher left Tuesday for his home in Creston, B. C. He is an old

Act Quickly

resident of this town, but has been living in the West for some nine years. Messrs. Menhenick and Japp are remodeling the basement of Knox Church. Miss May Martin, of Wildwood, is visiting her aunt, Mrs. W. Bryant. Mr. Fred Watcher and son Cameron visited recently with friends here. Mr. Arthur Ashdown is in Toronto for a couple of weeks.

To-day's Dinner

A Hundred Dishes
in a Single Packet.

Whatever there is for dinner to-day, you can improve it by the aid of Edwards' Soup. First of all, empty a packet of Edwards' into water and let it boil for half an hour, stirring now and then.

If it's a joint, just stir a little of the made soup into the gravy and note the improvement in flavour and savour.

If it's a stew you'll be surprised how much more tempting you can make it by adding Edwards' Soup.

If it's the dreaded "cold dinner" you certainly need Edwards' Soup in the kitchen to-day. Warm those cold pieces up, and add the made Edwards' Soup and you have already made a hash fit for a prince.

If it's a soup, just pop a little Edwards' Soup in the saucepan when you start—you'll never forget to do it again.

EDWARDS' DESICCATED SOUPS

Edwards' Soup is a grand, thick nourishing soup in itself—it comes to you in a dry, granulated form

all ready for the saucepan. Whenever you add Edwards' Soup to your recipe you add success to the dish.

This is how to make Edwards' Soup (Brown or Tomato variety):—

Put a pint of cold water in a saucepan, add one packet of Edwards' Desiccated Soup (Brown or Tomato variety), boil for thirty minutes, stir frequently, salt and pepper to taste and—there you are!

5c. per packet.

Edwards' Desiccated Soups are made in three varieties—Brown, Tomato, White. The Brown variety is a thick, nourishing soup prepared from beef and fresh vegetables. The other two are purely vegetable soups.

Lots of dainty new dishes in our new Cook Book. Write for a copy post free.

GRAFTON & CO.

MESSAGES FROM WM. T. STEAD TRANSMITTED BY DAUGHTER

Harrowing Scenes Witnessed by Famous Editor Who Went Down With Titanic.

London, March 14.—Estelle W. Stead, daughter of the noted editor, William T. Stead, lost on the Titanic, told the London Spiritualists Thursday night of messages received from her father.

There was a crowded gathering to the meeting of the Spiritualists in Alliance and every word of the young woman was fairly drunk in by the listeners.

Her father, she said, found it difficult to communicate through her, because her mind was apt to jump to conclusions, but many messages had come through others.

In one of them he spoke of the horrors of the battlefield and said: "Of all those hurried over here many are uninitiated for the spiritual life. They come in great bands, and even the archangels are powerless to raise the spirit. It must grow of itself."

In another message she spoke of harrowing scenes witnessed by him during wars. "Some of the victims," he said, "were higher than others in spiritual plane, but most of them gravitated to the prison houses and the darkness of the spheres."

"I think," Miss Stead remarked, "that my father has found it more difficult to get absolutely correct statements through than he had any side was the case when he was on this side. Many things that we may have taken to be correct then I feel now with his greater knowledge he wishes me to be careful about. He has since told me that some of his earlier messages were distorted, because his emotion in getting back to earth conditions made it impossible for him to hold the medium's brain and that his messages

were colored by the thoughts of the sitter.

"Just now I am very interested in some messages I have received from America for my father has corroborated them in a very wonderful manner which I did not think possible."

These messages Miss Stead hopes to make public later.

FRANK M'MULKIN, SR. INSTANTLY KILLED

Aged Ingersoll Citizen Stepped in Front of a Train. [Special to The Advertiser.] Ingersoll, March 13.—Frank McMulkin sen, aged 70, was instantly killed here today when, as he was stepping in front of one train he was struck by another.

Mr. McMulkin was walking along the westbound track just east of the crossing at Thames street. He was passing in front of a standing train and did not know that the eastbound train was close upon him. There were several engines on the tracks whistling, and the man did not hear the train approaching. No sooner had he passed in front of the one train than the other one hit him, throwing him a distance of fifty feet and entangling him in a wire fence. Both legs were broken, the left arm below the elbow was crushed and the right arm broken above the wrist.

A jury was empanelled and met this evening to view the remains. A post-mortem was conducted, and the inquest will be held Tuesday evening.

ROYAL YEAST
MAKES PERFECT BREAD

LIKES IT SO WELL HE'LL REMAIN THERE

Thos. McCreash Goes House Cleaning at Dry-Cure Hospital.

"Good morning, Mr. McCreash," said Magistrate Judd as Thomas McCreash rose smiling in the prisoners' dock at the police court Thursday. "This is the third morning in succession that you have been here. What have you to say for yourself?"

"Not a word, your worship," said the prisoner.

"Twenty dollars or 21 days," rejoined the court.

Made Poor Investments. McCreash had been enjoying a nice little holiday in town, after spending the winter at Lambeth. He had considerable money, but the commodities in which he invested it got him into difficulties with the police.

He got drunk regularly once a day, every day his week, and just as regularly appeared in police court the following morning.

Prices Too High. On Tuesday morning he paid a fine of \$5 and was allowed to go. Wednesday morning the price of freedom was up to \$10, which he also paid. But when it jumped to \$20 he was unable to make the grade. The funds in the treasury had all been exhausted in paying fines and buying whiskey, and as a result he will assist in the spring house-cleaning at the county jail for the next 21 days.

ALD. RICHTER AGAINST DREDGING OF RIVER

Declares It Wouldn't Be Effective Method of Preventing Floods.

Ald. Richter is of the opinion that while the dredging of the river would help some in protecting West London from floods, there are disadvantages, as well as advantages. The level of the top of the Springbank dam is the level of benefit, he points out.

Dredging would lower the river two or three feet. The removal of the Saunby dam would lower it seven, or eight feet. The removal of the Springbank dam, however, would lower the river to its level below Springbank, perhaps 15 feet.

On the other hand a level river flows slowly, and the water would not run away as rapidly, and again, the ice of the spring freshets would injure a mud bank.

AMUSEMENTS

Moving Pictures in "The Girl From Montmartre."

The invasion of the theatre by moving pictures is well illustrated by the effective use of kinemacolor films in the final episode of "The Girl From Montmartre," the farce with music, in which Richard Carle and Hattie Williams will be seen at the Grand, matinee and night, tomorrow. "Who loves me, follows me!" cries Miss Williams, and out go the lights and there on the curtain is shown a moving picture of the actress, costumed exactly as she was the preceding moment on the stage, being chased through leafy lanes and over green meadows by Mr. Carle and the other members of the cast. Finally she is caught and then up goes the

lights and there are the real actors ready for the final gong of the piece.

"In Old Kentucky."

Playgoers and theatrical people believe that the sun will never set for "In Old Kentucky," announced for presentation at the Grand Opera House next Monday and Tuesday nights, March 17 and 18. Its success year after year is one of the wonders of the amusement world. There's a reason, however. "In Old Kentucky" has built up a reputation for itself, for it stands for three hours of good, wholesome, interesting drama, with never a dull moment in it. The charm of the piece lies also in its perpetual freshness and vigor. There is nothing temporal or fading in the play. Its story is well-known to the average playgoer. An adequate scenic

Like Magic To Weak Nerves

With the nerves exhausted both mind and body are of little use. You feel tired, worn-out and down-hearted, and the organs of digestion fail to perform their all-important functions.

Nervous troubles do not go away of their own accord, but gradually grow worse and worse until some form of paralysis is developed. Dr. Chase's Nerve Food can be depended upon to revitalize feeble, wasted nerve cells as nothing else can. Here is a case in illustration:

Mr. A. Seward, Dana, Sask., writes: "When I began to use Dr. Chase's Nerve Food, on the recommendation of a friend, my system was so much run-down that I was weak and exhausted, and could not at times attend to my work. The effect of the Nerve Food was almost like magic, for in a few days the weakness wore away and I found strength and vigor being restored to my body. That cure was effected three years ago, but I generally use the Nerve Food in the spring, as I can find no treatment so effective as a spring medicine."

HAIR STOPS FALLING, DANDRUFF DISAPPEARS--25 CENT "DANDERINE"

Save Your Hair! Beautify It! Invigorate Your Scalp! Danderine Grows Hair and We Can Prove It!

Try as you will, after an application of Danderine, you cannot find a single trace of dandruff or a loose or falling hair, and your scalp will not itch, but what will please you most, will be after a few weeks' use, when you will actually see new hair, fine and downy at first--yes--but really new hair--growing all over the scalp.

A little Danderine now will immediately double the beauty of your hair. No difference how dull, faded, brittle and scraggy, just moisten a cloth with Danderine and carefully draw it through your hair, taking one small strand at a time. The effect is immediate and amazing--your hair will be light, fluffy and wavy and have an appearance of abundance; an incomparable lustre, softness and luxuriance, the beauty and shimmer of true hair health.

Get a 25-cent bottle of Knowlton's Danderine from any drug store or toilet counter, and prove to yourself tonight--now--that your hair is as pretty and soft as any--that it has been neglected or injured by careless treatment--that's all.

production is always provided and a company of capable players interpret the various roles. Seats on sale at special prices.

"The County Sheriff."

Such is the attractive title of a play by Lem E. Parker. The play is to be presented for the first time in this city next Wednesday evening at popular prices. The scene is laid in one of the Dakotas and deals with the efforts of the county sheriff to break up a gang of cattle thieves and incidentally to win the heart and hand of Melba. Especial attention has been given to the staging of this play. The second act, showing Dayton's ranch in the evening, with the mountains in the distance, with a small camp, lights aglow, perched high upon the mountain side and the singing of the cowboys in the distance, never fails to bring forth applause at the rise of the curtain. Seat sale opens Monday.

LONDON AND DISTRICT

Coming to London.—Mrs. Jenkins, of Hubrey, has sold her farm, and will come to London to reside.

To Look for Rubbish.—Fire Chief Aitken reported to No. 3 committee Wednesday night that the fire department's inspection of rubbish and inflammable material would be commenced at once. Under the bylaw passed at the close of last year the fire chief has power to summon to court offenders who fail to clear up such material when ordered to do so.

Broke Ornamental Light.—Not seeing a chain barrier which had been placed across the northwest entrance to Victoria Park to protect the drive-ways during the muddy season, an auto driver sent his car through the opening last night. An ornamental lamp-post, to which the chain had been attached, gave way under the strain, and the lights were smashed.

Dancers Out All Night.—Nearly 75 young people, graduates, friends and students of the Spotted Business College, held a dance at Hyde Park on Thursday evening, and a very pleasant time was spent by everyone. On account of the heavy rain which commenced about midnight the dancers were unable to leave the hall until 4 o'clock this morning, and arrived back in the city shortly after 6. Those who were able to stay awake stated that the roads were in a terrible condition and often the wheels of the busses were hub-deep in mud and water.

DOCTOR GETS VAGRANT WITH HIS OVERCOAT

Raiment Spirited Away While Physician Is Shaved—Finds Thief.

Dr. F. L. Burdon was in a barber shop the other day, and when he had acquired one antiseptic shave he reached for his overcoat. His hand came back empty.

Rushing up the street he had proceeded only a short distance before he came upon a somewhat bedraggled individual, who was trying to get away with the garment.

There was an immediate exchange. But the police were not called. There has been an epidemic of overcoat stealing of late, the detectives say.

Your Bad Taste In the Morning Is Due to Catarrh

Destroy This Poisonous Disease Before Your Health is Seriously Injured.

"Perhaps you haven't thought of calling those unpleasant symptoms that affected your nose and throat by any particular name—but it's Catarrh just the same."

When the attack is severe, your eyes are watery and look weary. Your breath is offensive, due to inflammation in the nose and throat.

At last science has discovered a real remedy, a new scientific marvel which acts like no other Catarrh remedy on earth. "Catarrhazone" operates on a new plan; it is a direct remedy, goes instantly to the source of the trouble. Its rich, fragrant essences and healing balsams are breathed in vapor form through a special inhaler and give instant relief.

Catarrhazone doesn't stop at the relief stage—it goes further—keeps on going till a cure is effected. Bad cases are cured, as you can judge from the following letter: "Every morning for six months last winter I awoke with a bad taste, an awful breath and stuffed up feeling in my nostrils," writes Rob. E. Rutland, of Regina. "It was simply an awful case of chronic Catarrh. Relief first came from Catarrhazone. I used that inhaler twenty times a day and took it to bed with me at night. I am cured, and by the use of Catarrhazone stay well. Now I am free from irritable throat trouble, coughs, colds, headache, or catarrh."

"No medicine on earth is so certain to cure every form of Catarrh or throat trouble as 'Catarrhazone.' Get the large \$1.00 size, lasts two months and is guaranteed; medium size 50c; sample size 25c; all storekeepers and druggists, or The Catarrhazone Co., Buffalo, N. Y., and Kingston, Canada.

W. LONDON BRIDGE DISCUSSED BY THE BOARD OF WORKS

Rowing Club Sends Delegation To Demand a High Structure.

Property Damages Feared if Approaches Are Elevated Unnecessarily.

It is not true that The Hague tribunal may forbid the erection of the Wharfedale road bridge in order to prevent possible hostilities by continuing the isolation of West and South London. But Mr. E. A. Fox, secretary of the West London Progressive Association, expressed the opinion at the meeting of the board of works Thursday night.

When the famous West London dump is connected with the south bank of the Thames by the much-heralded West London bridge, what shall prevent the doughty West Londoners from swooping over into the Ridgeway and destroying, after the manner of the suffragettes, the priceless orchids and imported blooms in the gardens of the aristocratic South Londoners.

Edmund Weld, Jared Vining, John Macpherson, Whit Lancaster, and others, were a deputation representing the London Rowing Club, to ask that the new bridge be built at a sufficient height above the summer water level to allow the navigation of pleasure steamers on the river.

Mr. Weld would like to see some sort of a zoo at Springbank. With steamers tooting in the distance and an attractive river park, London would attract curious tourists. This would be even better than one of the fine factories that Mr. Henderson (only Mr. Weld did not mention any names) has secured for seep-goats, inertia-steeped, pleasure, pulverizing, provincial London.

"But with a lower bridge we will save money on land damages," said Chairman Bennett.

"That's not the way to save money," replied Mr. Vining.

"There won't be very large land damages on the north side of the river," said Mr. Macpherson. "Why, you could buy all the property there for very little."

"This unfortunate bridge," said Mayor Graham, "has been very thoroughly discussed. The trouble is that some people are interested in having it built, and others are interested in not having it built."

Then, too, the boat-owners wanted lights on the bridge, when erected, and the use of coffer dams to be used in constructing the piers, so that the river would not be, for the time, rendered un-navigable.

"One deputation at a time," cried Ald. Saunders. "We have not yet disposed of the first one."

"Ald. Saunders is quite in order," said Ald. Bennett to Mr. Pococke. "If you wish, you can address the meeting afterwards."

"To make the bridge high enough for navigation," said Whit Lancaster, "will not create a hardship either for West London or the city of London."

"Anyone else from West London?" asked Ald. Saunders. "If there are, let's hear them, and then let's have the next deputation."

Mr. Pococke was assured that the committee was committed to the best interests of the entire city. Likewise the boat-owners were assured of due consideration of their suit.

CALLS BOARD OF WORKS GRIEVANCE COMMITTEE

Half a Dozen Ill-Pleased Deputations Ask for Redress.

Mr. E. Boles has a brand new house on Ann street, near Talbot, with which the city engineer tells him sewer connection cannot be made. The level of his property, it is said, is several feet below the nearest sewer. Some residents in that district run their sewerage into Carling's creek, but the city will not permit any more citizens to so utilize this particular trunk sewer.

"The survey shows that it is impossible to give you sewer connection," Mr. Boles, thereupon, questioned the veracity of the survey, and added:

"Then you must have a bright lot of engineers. Oh, I guess you had it all fixed up before tonight."

"No, no," cried the aldermen present.

"If you come here with the idea that we have it all fixed up," said Mayor Graham, "we can't help you."

Mr. Boles was among the last of half a dozen deputations that waited on the board of works on Thursday night.

"I suggest that we change our name to the 'grievance committee,'" said Ald. Bennett.

IS SERIOUSLY ILL.
