Londoners visiting Toronto exhibition did not realize that while they viewed the magnificent, well-kept waterfront at exhibition park they were standing on an old garbage dump that extends back to the vicinity of the manufacturers' building.

The city engineer who surveyed over that piece of ground when it was in a less dignified state has plans

to make the low lying land owned by the city between the L. and P. S. bridge and the Wellington road, on the south side of the river, just such another beauty spot and a public playground, with no cost particularly

A plant to take care of sewage sludge will be erected this winter, the engineer states, and this sludge will be hauled to the 30-acre stretch and will in time be covered with a layer of cinders and ashes from the incinerator. The process will be repeated until the land is high enough to go ahead with a playground propo-

"This will come about in at least five years' time," said the city en-gineer in discussing the matter. "We will get rid of the sludge, cinders, etc., and at the same time adding a beauty spot for the southern part of the city for recreation and park pur-

The engineer also proposes to manufacture activated sludge, which manufacture activated studge, which can be used for fertilizing lawing, golf courses, etc., and is sold in powdered form. The city of Milwaukee operates - plant on a huge scale and sells activated sludge that costs \$12 a ton to produce for \$22 per ton, and has difficulty in supplying the demand.

Farmer Declares Crate of Fowl Identified As His.

After three witnesses had been heard, Alex. Goldstein and Louis Brinder, both of this city, were committed to stand trial at the next sitting of the supreme court on a charge of receiving stolen goods by Magistrate Hawkshaw. On their previous appearance in court the charge was stealing chickens, but it has been amended to receiving stolen goods.

The charge read this morning was that on Sept. 11 they sold 104 chickens to Silverwoods, Limited, knowing them to be stolen. Gordon Douglas of Silverwoods identified Goldstein as the man to whom he had paid \$60.50 for the chickens. He was not sure that he had seen Brinder around. The amount was paid in cash.

The next witness was George Mc-Intosh of London township. On the evening of Sept. 10 he had 52 chick-ens stolen from his barnyard. On the 11th he was asked by High Constable Wharton to go to Silverwoods and see if he could identify his chickens. He did so, and he saw h chickens in a crate.

## LANGRIDGE SENTENCED TO KINGSTON PRISON

Plea of Prisoner's Lawyer Results in Comparatively Light Sentence.

Charles Langridge was this morning sentenced by Magistrate Hawkshaw to two and one-half years in Kingston penitentiary. Langridge was convicted one week ago of a serious offence against his 14-yearold stepdaughter.

Before sentence was passed this morning, U. A. Buchner made a plea for leniency for Langridge. He point-ed out that when only 25 he had married a woman considerably his senior, and had for seven years sup-ported her and her six children under the most trying conditions. He had the most trying conditions. He had nobly done more than his duty in feeding and clothing another man's children, Mr. Buchner declared.

# PLAN PROGRESSING

Two Schemes Under Consideration For Crippled Children of City.

Plans are steadily advancing for the opening of an orthopedic auxiliary class in the public schools of the city. The board of education decided yesterday to have a loca! physician follow up the preliminary survey made by the school nursing staff. the results of which final survey will be submitted to the provincial department of education for definite ac-

tion in the near future. Two alternate schemes present themselves for the operation of or-thopedic classes for the 30 crippled children discovered by the school nurses in their survey of the local situation. The first scheme is to transport all the children, by 'bus transport all the children, by 'bus or other means of transportation to one central point, where they can all be taught together, while the other scheme, and the one more likely to be followed, since four of the children transport all th dren are cardiac cases and cannot be moved, is to have a teacher go rom house to house and give instri ion to the children as individuals or at least in small groups of two o

Both the preliminary and final survey are being made at the cost of the epartment of education, which provides liberal grants for the classes when formed as part of the extensive auxiliary class work now being caried on throughout the province. The board is investigating at pres ent also the question o festablishing vocational auxiliary classes for chil-dren discharged from the regular auxiliary classes for subnormal chil-

R. C. R. Musicians May Secure U. S. Engagements in Near Future.

There is every possibility that the Royal Canadian regiment band will go to New York in the near future for a series of engagements there.

So struck was the booking agent in charge of the vaudeville performance before the grandstand at the Western Fair, for which the R. C. R. band played the accompaniment this year, with the playing of the band that he tentatively promised the band engagements across the line.

Now comes the second step, when the R. C. R. band, by special arrangement, broadcasted over radio at Mason & Risch last night, the book-ing agent and his clients listening in over in New York to the concert Should the band be offered any engagements it is likely that they extend over a period of several weeks

Story of Schubert's Unrequited Affection Played With Deep Pathos.

AT GRAND THEATRE

New Company Presents Lovely Operetta, With Convincing Sincerity.

Blossom Time, an operetta masterpiece, came to the Grand theatre last night with a record of popularity behind it. It was the third presentation in London, in as many years, of Miss Hazel Shaw, of the Egerton a play which depicts the story of the unrequited love of Franz Schubert, bashful genius, but the greatest song The evening was spent in games bashful genius, but the greatest song the writer that ever lived. And Blossom Time is growing in popularity. It was acclaimed last night by a goodly audience, appreciating the entrancing strains of immortal music and refreshed with relieving touches of delightful humor.

Blossom Time was presented last night by an even more capable cast of singers and actors than that which fascinated London audiences one

new, will be long cherished with its tender appeal. It is a lovable play, and, offering as it does, a musical classic, it literally swells in popu-larity in successive presentations. The artifices of a master stage-craftsman is employed in the open-ing scene to excellent advantage, with the result that the Vienesse cafe at

evening takes on a subdued loveliness of lighting and color not to be orgotten. Gorgeous costumes of the period form another "thing of beauty." The play is presented by a cast of more than 30 accomplished artists, and a 10-piece orchestra adds to the charm of the whole, Particularly outstanding are the three scenes of Schubert's meeting

with the girl Mitzi. He falls deeply in love with the young pupil, only to be broken-hearted when her love was not returned due, possibly, to his own too retiring manner and perhaps his quaint fat appearance and ungainly deportment. The "Song of Love," the climax of Schubert's great disappointment and sacrifice. s offered by Arthur Huson in mas-

Mary Powell as Mitzi is charming in both voice and personality. It has always been a question why the great Schubert should become entranced by a girl of Mitzi's type, a crinoline "flapper" of unenviable parentage. The character, however, skillfully portrayed, and she plays he role with a captivating abandon. Warren Proctor, as Baron Schober resents his role convincingly. Wililiam Sellery, as Kranz, the court jeweler, the leading funster of the piece, is a bundle of mirth and a never-failing source of amusing sallies and retorts. A well-drilled chorus in turn adds its portion of pleasure to the delectable feast of nusic, mirth and entertainment.

Blossom Time, which will be presented each evening at the Grand Theatre for the remainder of this week and at a Saturday matinee, has lost nothing of its freshness, its beauty of theme and setting, or its wholesome annual

Aldermen and the mayor are prac tically a unit in advocating the erec-tion of a new Ridout street bridge or to give it the proper name, Victoria bridge. The cost of a new structure which is a vital link with Londor south, is generally conceded to be in the neighborhood of \$190,000. By a strange coincidence this is the amount of the debenture debt that is to be retired this year and it means that the city could build a new bridge without adding anything to the tax rate, if no new expenditures

Some of the aldermen feel that new city hall should be built next year. Others favor snelving this matter for another year and advocate building a new nurses' home for Vic-toria hospital. S. F. Lawrason Deals With

Problems—Railways Must

Expand.

The synopsis of his address, in cluded under the subject of Canadian citizenship which, he advocated, could be properly covered in the pub-lic schools of the country and in Ki-wanis organizations, dealt with the subjects of universal peace, reduction of the cost of government, rural and spiritual thought in community life, use of franchise, forest conservation, and immigration.

"The great need of Canada today s more immigration," he commenced. There is not population enough in Canada to develop enough business to pay the upkeep of our railways. Railway expansion was contracted for before 1914 when the tide of immigration had set in for Canada, At the opening of the war this ceased, and it is imperative to take steps to get some definite action.

Mr. Lawrason told of the work that is at present being accomplished by the Montreal club through the by the Montreal club through the British immigration and colonization association. The club could not do pointed out that unless further steps are taken to increase immigration, the overhead expense of the country be so great that no one in time will want to come to Canada, Vote Was Big.

In reviewing his report Mr. Law rason told of the splendid vote polled in the city for the last municipal elections. He illustrated how the Kiwanis club had been instrumental in persuading people to make use of the franchise, and again pressed for aid in again bringing about a record vote in the forthcoming federal elec-

Forest conservation formed an in teresting and enlightening subject of his address. The question had been discussed by the people of Canada for some years, he stated. It had been one which politicians had made political capital of, and no specific action was taken until the minister of the interior called a meeting in Ottawa early in March. As a result a proclamation was issued defining the week of April 19-25 as "Save the Forest Week" and the Kiwanis clubs of the country offered great assistance in furthering the propaganda.

Must Know Woods. "The millions of people who do not go into the woods or become acquainted with them and who develop the dangerous 'Who cares?' attitude certainly have to drink and use water," Mr. Lawrason said. "Ameri-cans and Canadians are the freest cans and Canadians are the freest and most careless users of water in the world and their consumption is increasing by leaps and bounds. If they do not like the thought of going thirsty and of sharply cutting down their present lavish use of water, they must take steps both to save must take steps both to save the forests of today and provide for their extension, for without abundant their extension, for without abundant woods there can be no dependable supply of water for any purposes. The problem of getting water for the rapidly growing cities of the United States and Canada is becoming more pressing every year. There is only one way to solve it—preserve and increase the forests."

## in Famine Time. DEMAND PRODICIOUS

Associated Press Despatch. Moscow, Oct. 9.—Public demand for alcoholic stimulant after eleven years of prohibition, is still so great that each dawn finds long lines of people in front of the wine shops and grocery shops selling the newlylegalized 40 per cent vodka.

These queues are in some cases greater than in the old-time bread lines, according to relief workers who served in Russia during the period of the famine of 1920-1921. Muscovy's legions of vodka drink-

## You Get Most Out of Life

when You Are Enjoying Good Health
—Observe the Danger Signal
and Keep Healthy.

MILLER'S CANADIAN HERB
JUICE Provides the Way.

Statistics show that life only gives
us 13 years of real health—the average health span extends from age
18 to 31. If you have lived according to Nature's laws, you may perhaps go beyond this limit enjoying
good health, but nowadays very few
people observe Mother Nature's
danger signal and consequently they
are subjected to unnecessary suffering, because of the fact that they
have disregard these health signals
of nature. Then it is necessary to
get back to nature to find the remedy
to overcome and stamp out our ills
and to once more restore us to health
and happiness. This is made possible through the painstaking and
scientific study of an emiment physician for many years, who brought
to light and offered to the people a
great nature remedy which affords
rellef and restoration to health of all
who may take it. HERB JUICE
is the medicine—it is true to name,

## FOR NEW SCHOOL

Pottersburg Public School Pupils Will Study at East Collegiate.

East London collegiate students and Pottersburg public school pupils will be housed in the new 20-room school approved by the board of edu-cation yesterday to be built at the corner of Dundas street and High-

I ARCE NIIMRER OF FISH school the city council endorsed de-bentures to cover \$50,000 for a site and \$215,000 for the building, but since the board secured the site for \$25,000 from the Ontario government, the board will now have \$240,000 remaining for the construction of the building.

Trustee Wm. J. Murray boldly questioned the wisdom of the board in building such a large school, pointing out that only 17 rooms are now being used by the East London collegiate and the Pottersburg school in their present locations, that legiate and the Pottersburg school in their present locations, that attendance at the three collegiate units stands today much lower than previously estimated by officials of the board, and finally that students, after passing the high school entrance examination, are flocking to the technical school in ever-increasing numbers. Principal E. A. Miller, M.A. hastened to point out that his prognostications would have been quite correct as to increased attendance had not legislation compelled out-of-town students to attend their nearest continuation school, while Trustee Geo. F. Copeland intimated that all the accommodation would be used by a rearrangement of the students attending the south and central units of the collegister, and also one of rearrangement of the students attending the south and central units
of the collegiate, and also one or
more of the public schools in the
eastern districts of the city.
Echoes of the recent series of
stories in the press as between Trustee Rev. Rev. D. Mess, M.M., and

tee Rev. Roy D. Mess, M.M., and Principal Miller, relative to costs of secondary education, appeared in a recommendation from the executive committee that any trustee desiring information secure it directly from officials, instead of making the matter public through the press. Trustee Mrs. J. A. Rose and Trustee Mrs. J. I. A. Hunt were inclined to side with Mr. Mess, particularly in his absence through illness, and after considerable critical discussion, they were able to dissuade the board from stampeding the recommendation through until Mr. Mess is present and the question is thoroughly canvassed at a later date.

In short, there is no concealing the fact that we are being annexed in job lots every week, and there is not a voice raised against it."

That was strong talk as to what the National policy had failed to do. Mr. Armstrong was not alone in his belief, for at the same meeting where he said Canadians "are being annexed in jobs lots every week," J. H. McGhie, for years a Conservative alderman in Toronto, added:

"The men who were spangled with knighthood sit talking of loyalty in the midst of ruin and desolation. It is from the young men that we must expect a new order of things."

The reason for these outspoken statements be given by a man offering himself for public was that the census figures from 1881 to 1891 service. Mr. Little has many claims on his time showed that 886,000 people had entered Canada, as a businessman, and it would have been easy but only 36,000 permanently remained. ## Uncle Jonas Fell

He had a nag of ancient name, twas sad and dwindled in its look, and after that the neighbors joined to label Jonas for a crook.

My Uncle Jonas he was keen at tradin' horses now and then, he'd match his wits most any day to beat out, ther tradin' men. He rather prided on the fact that he knew horses tail to snout, and when it come to swappin' them he saw quite well his way

I mind one mag my uncle had it sagged most awful in the knees, and when it stood it just looked like a reed that's smitten by a

Now Uncle Jonas knew that nag was nothin' but a wreck alive, it couldn't run, it couldn't walk, it couldn't plow or pull or drive. And it had spavins of a sort, and heaves had camped upon its chest; it was so blind it didn't know if north was east or south was west.

He traded off that skate one day and drove a deal he thought was smart, he chuckled on it sixteen days and figured how his wit was sharp

But him what took the horse away he was an honest sort of guy, he trusted Uncle Jonas too but rated him ten points too high. When he found out that he was stung he told the folks who passed his door how Uncle Jonas was a crook, and he would deal with him no more.

And so the word got passed around detractin' from my uncle's name, and folks waxed sore in what they said and scratched a blemish on his name

It cost my uncle fifty times what he had made upon that trade; instead of baskin' in the sun, his name was posted in the shade. And folks would say behind his back when Uncle Jonas passed them by, "Behold a crook, that's what he is, for he sand-bagged an honest guy."-ARK. (Copyright)

Charges Against Chief Aired in 4-Hour Session of Commission.

Chatham, Oct. 8.-Alleged ir regularities on the part of Chief of Police M. Daniel MacLachlin, pre ferred in definite charges by members of the local police force, were aired at a four-hour session of the city police commission this afternoon.

The charges were preferred b Constables James Sinnott and William Henley. To each of the six charges Police Chief MacLachlin made a reply, definitely clearing up one, the commission reserving its decision pending consideration of all the evidence with respect to the other

Many witnesses were called in sub stantiation of the charges during the progress of the session. The police chief was represented by W. H. Furlong of Windsor, the three members of the force who laid the charges being represented by J. C. Stewart.

Officers Under Fire. At a recent session, charges of insubordination were preferred by the chief against the sergeant and two constables. The commission will also give a decision with respect to these. At the close of the inquiry, County ludge Ward Stanworth, chairman o the commission, and Magistrate

Arnold, declared themselves avor of a notice being posted in the police department that perfect dis-cipline among the members of the force must be maintained pending the outcome of their decision. Mayor Sulman, the third member, stated that he could not agree to this. The wording of the notice, favored by the udge and magistrate, is that orders of the chief must be strictly obeyed, and that the chief be given power to suspend any member refusing to obey

The first charge against the chief was in respect to the arrest of John Rice of Merlin for an O. T. A. offence. It was claimed that a ma Dillon put up a check for \$95 bail. That a fine and costs amounting to \$61.50 was recorded as paid to the chief's explanation was that he had stating that he had forgatten to Dillon as he had been request-the chief. Ending Tomorrow—Reveals the

## Perfect Table Service The Modern Hostess

If you have not yet seen these displays of all that is new and beautiful in modern silver, do so to-morrow. Visit any of the following stores. You can view and admire without any

obligation to purchase.

Your silverware either makes or mars the beauty of your table. It tells plainly of your regard for and appreciation of the finer things of life. It is a reflection of your social good sense and refinement.

During COMMUNITY Plate Week-which ends tomorrow—the most exquisite examples of modern silverware have been widely displayed to prove that good silverware is a social necessity and that its purchase involves no great extravagance.

The gorgeous blue and gold Buffet Trays of 32 pieces of exquisite Community Plate, complete for \$43.45, have proved a revelation to women, and there is no extra charge for the Tray.

The lovely individual Correct Service Pieces ranging in price from \$1.00 to \$10.00 have established a new vogue.

Gift seekers have found that there is a Com-MUNITY Plate gift that appropriately meets the requirements of every gift occasion.

> TUDOR PLATE by the makers of **COMMUNITY PLATE**

Just as COMMUNITY Plate stands alone among the finest achievements of modern craftsmanship, so does Tudor Plate occupy the highest place in the realm of moderately priced silverware. Its beauty, quality and exquisitely fine finish make the prices seem unbelievable. For instance:

## PRESBYTERIAN WOMEN LOYAL TO CHURCH FOR 25 YEARS

St. George's Little Church in East London Marks Anniversary.

OLDEST MEMBER

The birth of the twentieth century also marked the birth of a new church in this city. Ere one realized that a small mission had outgrown its field of work in East London, St. George's Presbyterian church was

established.
With the birth of the new church came the forming of an organization hitherto unknown in the locality, and the women of the congregation rallied to form their societies. The first to be fully organized was the ladies' aid, which since that time has been ever active and helpful to the church

ever active and helpful to the church and community.

Leadership for the young organization was not lacking. When the officers were elected, Mrs. S. Taylor, who recently moved to Detroit, was found to be just the woman to lead other women. She was appointed to the presidency in 1901, and held that office for one year.

The following year Mrs. George Cairncross was elected to the position, and since that time she has headed the organization, each year going back into office by the wishes of the members. In the twenty-two years that Mrs. Cairncross has been at the head of the ladies' aid it has steadily progressed, until now it is

at the head of the ladies and it has steadily progressed, until now it is one of the best in the city, though the church is not a large one.

22 Years Secretary.

Many of the dear friends of the president pledged their assistance to Mrs. Cairneross, and a few names are substantialized in the society. Among Mrs. Cairneross, and a few names are outstanding in the society. Among them is that of Mrs. John Little, who for the past 22 years has been secretary of the society, faithfully recording the successes of the organization. Others associated with the early days of the aid are the Misses M. A. and Ada Isaacs, Miss Margaret Buchanan, Mrs. James Pomeroy, who

was the first organist of the church.

These women have been and are still very active members of the still very active members of the ladies' aid, ever loyal to their leader. Others who were faithful members and who have moved away or passed to higher service, are the late Mrs. George Ross and the late Miss Isabel

Cairneross.

The president has not only been head of the ladies' aid, but also the mother of the church itself. Her untiring efforts have always been for the good of the church as well as for her society and its members.

The organization has always been rective in supporting needs of the Cairneross.

active in supporting needs of the church and in aiding both the pastors and the board of managers. Included in the list of its activities is the assistance it gave in instaling the present organ, and also in decorating the church and manse. Oldest Presbyterian.

The society has also the honor of having as a member the oldest member of the Presbyterian church in the London presbytery. This grand old lady is Mrs. Grace Isaacs, who is in her 95th year. Both Mrs. Isaacs' daughters and granddaughters assist

her in taking an active part in all organizations of the church. St. George's church can also claim one of the best choirs in the city for its size, and its able director is a woman, Miss Helen Angus Miss Angus has led the singers for many

The W. M. S. of the church, of which Mrs. McLeod is president, is also a splendid organization, claiming in its membership practically all the older members of the ladies' aid. Some of these women have now gone

into church union.

The first pastor of this energetic little church was the Rev. George Gilmore, who was later succeeded by Rev. Hector McKay. The present pastor is Rev. John Hosie, who has been with the church for the past the women's organizations, and is, present time, honorary presi

Club Girls Hold Opening Banquet-Miss McVicar and Mrs. Childs Speak.

Quite the most enthusiastic and entimistic rally of club girls of the V W C A was held last night at Lenmore, when over 125 girls gathered for the opening banquet of the season. Cheery hellos, the greeting of friends not seen for some time, and a general spirit of friendliness put

one at home immediately. Into the dining-room filed the girls about 6:30, and Mrs. Donald McLean, president of the Y. W. C. A. board, presided over the supper hour and program. The tables were bounti-fully spread and a splendid meal was enjoyed, interspersed with the ever

popular sing-songs. Hear Addresses.

Mrs. McLean introduced the speakers of the evening, Miss Lillian Mc-Vicar, missionary on furlough from India, and Mrs. H. J. Childs of this

india, and Mrs. H. J. Childs of this city. Both addresses were of a very inspiring nature, though very different in material.

Miss McVicar gave a minute, vivid picture of her field of mission work, and picturesquely described the quaint city of Dhar. Miss McVicar greatly impressed the girls with her greatly impressed the girls with her story of India, and her idea of tak-ing them on a short world tour of the city was most fascinating. She left with those present a plea to do one's

best.

Mrs. Childs addressed the girls on "Happiness," pointing out to them that the greatest happiness of all was to know God. She stated that the present-day seeking of pleasure was out a mistaken idea of happiness, because happiness could not come from just things alone.

She left with the girls the six

greatest points of happiness, to her mind at least, and told them that all could be had without the thought of one's bank account. They were: To know God, to have friends, to work, to have health, to have the out-of-

doors and to have good books. Fine Program.

The program included delightful solos by Miss Chrissie Wright, ac-companied by Miss Grace Pearce, and Miss Jean Howson, accompanied by Miss Betty Howson. There were also these women have now gone rch union.

Hyatt, of Blanshard township, acted chairman. Women and young men were prombinent in the gather-ng, and all the speakers voiced their appreciation of the manner in which both young and old are co-operating for the continued success of Libera!

ism at the seat of government.

Manufacturer Speaks.

Mr. Sanderson, himself a flax
manufacturer, drew from his extenmanufacturer, drew from his extensive personal knowledge of industrial
conditions in the past five years to
disprove the allegations of Meighen
and his followers that the King of and his followers that the King administration has brought the downfall of many manufacturing concerns and has forced as many others to the verge of bankruptcy. In 1920 there were about 45 flax mills within a 75-mile radius of St. Marys within a 10-mile radius of St. Marys, he stated. Today about ten are doling business. "Let me tell you—and I know whereof I speak—that this 
condition cannot be blamed in the 
slightest degree upon the King government. The trend of world industry, in the past four, years has replaced Progressive candidates in the field in 1921, were causing candidates to offer themselves again this year, which no one had any control were blame, and not the Liberal regime.

point this out to you to show that meeting in behalf of Archie L. nen the Conservatives declare that Hodgins, Progressive candidate in industries have been ruined by Mac-senzie King they have not been telling the truth."
Upholds Low Tariff.

In a stirring address upholding the Liberal principles of tariff, Mr. Sanderson gave well-defined examples dealt with the problems which led to the U.F. O. entering the political arena. He declared that before 1921, of how the Liberal government has elieved the country from one of the ers, but after that neither one was. He declared that the platform of the times and has brought it to the point where the national debt has been decreased by a truly remarkable amount.

U. F. O. was tariff and temperance, and that the Progressive party was the only one not afraid to take a stand in favor of temperance.

"We all know how the war added he pointed out, "but the do-the sum and substance of the U. F. normously to the debt of the do- clared that individual thought excess had to be carried, even though everyone know that much of it was due to extravagance in those pressing years.

Achievements of King.

In an address which rang with the conjury was controlled by high everyone the country was controlled by high events was the only party with eyes open to progressive truth.

In an address which rang with the ichievements of the King government, and of the same tariff policy that has carried Canada to an almost inequalled period of stability in the short space of four years, Mr. Mc-Millan eloquently appealed to the voters of South Huron and of South Perth to show their appreciation of what the Liberals have accomplished for the dominion.

Expounding intelligently upon the country was controlled by big business, not by the government. He spoke of senate reform and believed that only by removing the senate entirely could there be any reform. He declared for a tariff of from five to ten per cent, and emphasized that his party stood for individual thought in parliament.

Expounding intelligently upon the

For the dominion.

Expounding intelligently upon the reduction of the national debt, the speaker called attention to the fact that since Mr. King took over the rein; of government the debt has been reduced to \$14.30 per head and to \$70 per family.

Earlier in the evening Mr. Hoggins and his supporters spoke at a meeting in Wellburn.

DRAYTON PLEAS

After paying tribute to the splendid ddresses of Mr. McVannel, Mr. Nagle and Mr. Sanderson, the South Huron candidate affirmed that he appeared andidate affirmed that he appeared the election essentially as a chamble of the farmers' cause and of he principles of Mackenzie King, nd not as a Liberal, Conservative r Progressive candidate.

Mr. McMillan also dealt with the ugar scandal of 1920, condemning deighen for attempting to ban implemental by which would have kent.

loss of Bluege, whose play has been a feature of the series thus far, came at a critical moment for the Senators, who were battling to break Senators, who were battling to break the 1—1 deadlock brought about when Glenn Wright. Pirate shortstop, walloped a home run into the right field stands in the fourth inning that offset the advantage gained by the Senators on Joe Judge's round-trip smash into the right field grandstand extension.

Even with Bluege in the line-up, however, it is doubtful whether the Senators could have survived the final Pirate drive, in which Cuyler's homer broke the deadlock, and scored Eddie Moore ahead of him with the deciding tallies, while Aldridge, making the last of a series of gallant stands, kept the Senators from boarding the Pirate craft in a desperate ninth-inning rally that

before, broke up the sharpshooting of one of Washinston's biggest guns. Stanley Coveleskie and took the second game of the championship conflict in a dime novel finish, with a home run by Kiki Cuyer and the stout-hearted pitching of Vic Aldridge turning the tide victoriously.

The final verdict was gained only by the hairline margin of \$ to 2, with the outcome in doubt until the last putcuit, but it was enough to put the Pirates on even terms with the world's champion Senators as the rival forces set sail tonight for the capital prepared to renew the engagement in the third tussle at Griffith stadium to morrow.

There was a double portion of disaster for the Senators as they withdrew toward their home port, for, besides losing the game and their brilliantly won advantage of yesterday, their ranks suffered a hard blow in the loss, at least temporarily, of Ossie Bluegest at least temporarily, of Ossie Bluegest of the game, while Buddy Myer, an untried recruit, took his place on the field. Bluege dropped as though shot, and it first seemed that he was severely hurt, but he recovered sufficiently to walk from the field to the clubnouse. There, though still in a daze, physicians discovered no appraent danger in his condition. ## Propose Formation of Junior City Hockey Loop At Arena Meeting Tuesday

## Will Draft O.H.A. Juniors From Projected League

Plan To Start Circuit Off As Soon As Ice Goes in Arena.

O. H. A. AGE LIMIT

The first move to set hockey in be held Tuesday night at the arena at 7:30 o'clock.

It is proposed to form a junior city league, which will commence operations as soon as the ice gets into the arena, and from this loop the first draft of the junior O. H. A. team will be made. The league will start shortly after Nov. 1 and will finish a first series before the O. H. A. season gets under way, and following the first draft made for O. H. A. players will resume again. The league will always be subject to drafts from O. H. A. players, but this will not seriously effect the team, as the law of averages are almost bound to see that material will be evenly dis-

It is proposed to play the games in the evening, and no charge will be made to the league for the accommoda tion at the arena. The regular O. H. . junior age limit will be strictly en-

Organizations which would like to enter teams in this league are asked to have representatives on hand at the meeting Tuesday night at the arena. There will not be any limit to the clubs. There were indications at last night's drill of the intermediates that changes and switches would be made in the team to face Jack Newton's Tankers at team to face Jack Newton's Tankers at Sarnia Saturday. Just what these will be were not definitely assured.

They will come partly as the result of lessons taught in opening game and should result in a strengthened team in more than one department.

The team feels confident of its ability to even up the group race, and should with the extra training received this week, not to make any mention of the extra condition attained.

Goodman will be out tonight. He has a versatile knowledge of the game, and is willing to fit in wherever he's needed. That may be one of several spots.

Fans who watched Yip Foster work Saturday believe he'll turn in an outstanding game tomorrow afternoon. With better protection the London halfback line should show its superiority and say it with points.

TEX BOYETTE INJURED.

TEX BOYETTE INJURED.

Sarnia, Oct. 8.—With neither London nor Sarnia satisfied with the showing made in the opening game of the season last Saturday, this week's game here between the district stalwarts at Bayview Park has all the earmarks of a real batle between gridiron giants with no quarter asked or given.

There is a chance that the local lineup will be shifted for Saturday's game, but what changes are to be made have not even been intimated by Jack Newton. There has been a couple of new combinations tried in practice this week with a view to perfecting the interference on the forward line, but whether they will be used when the game starts is known only to the coach.

Tex Boyette the rangy Texan, is running into a raft of tough luck this season. His injured shoulder was getting along nicely and last night he opened up again. He is on the shelf for a few days, probably for a week with a broken nose received when he missed Perry in a diving tackle and lit on his face on some of the rough ground.

## **Brownies' Win Means Honors**

Brownies and McCormicks meet Saturday in the third engagement of the nlay-off series for the championship of the girls' major softball league.

Brownies have taken both games played, and McCormicks must win Saturday to remain in the running. McCormicks have been practicing every night this week and promise a reversal of form for this set-to.

The games have been drawing record crowds, and another one is expected Saturday. The game is called for 4 o'clock.

"We have eighteen players on the roster of the New York club," said Gorman today, "and six or seven of these will be disposed of before the season gets under way. We secured eleven from the Hamilton Tigers, three from Edmonton, and four from other clubs in the National hockey league. We have two men for every position, and we intend to carry only ten or eleven. "The same situation obtains at Montreal. The Montreal hockey club has an fewer than seventeen players under contract. They signed four first-class amateurs in Stewart, Kitchen, Selbert, and Horne, and have all of last year's material. Besides, the St. Patrick's hockey club has landed four brilliant amateurs, ail of whom were sensations in O. H. A. company. Charlie Querrie's team will be the one to beat for the National league championship. Leo Dandurand has signed three or four very gromising prospects at Montreal, and Lonel Conacher has sixteen amateurant Pittsburg all ready for the coming season. Art Ross has captured two or three marvelous youngsters from the western states, and Boston will also be sarong. Percy Thomoson will have no difficulty in getting a first-class team for Hamilton if he decides to remain in the National Hockey league."

Trio of Western

## Trio of Western **Track Stars Out** Big Rifle Program

May Not Represent School Intercollegiate Meet.

Western holds track trials today in conjunction with its annual field day, and the winners of the events who make good time will represent the local university in the big intercollegiate meet to be held in Montreal in two weeks. The winners of the events were practically all doped out but now everything is changed. Three of the most promising track athletes in the school are practically out of the runninf. Ken Hunter and Ted Mephan are under the weather with bad coids, and Basil Flood is out with crippled feet. Whether they will eventually become members of the team or not rests with the progress they make within the next week. At any rate, they will not take part in the trials today. on Oct. 10 and 17. An attractive program has, been drawn up, and at least afty members of the regiment will take part.

A feature of this year's program is the classification of competitors into three classes instead of two, as in former years, Class A, seniors; Class B, competitors who have never won a prize other than a tyro prize; and Class C, competitors who have never won a prize of money or any kind in any individual competition. Therefore, the beginners have as much chance as the crack shots. Another addition to the program is two team matches—inter-company match (open to teams of six members from a company, band or headquarters), and a three-corner match (between teams of six xofficers, sergeants and other ranks).

The three individual matches are: Regimental match, 7 shots at 200 and 500 yards; City of London, 7 shots at 500 and 600 yards; aggregate scores of regimental and City of London matches.

Extra series, an unlimited competition, will also be fired at each range, and aggregate and total receipts divided into seven prizes.

## SLOGGETT TALKS

Former Candidate Endorses St. Thomas Mayor As Man of Integrity.

Special to The Advertiser by Staff Correspondent. St. Thomas, Oct. 8.—Mayor Slog-

The reception he received would have warmed the heart of the most pesimistic voter and the little schoolouse resounded with cheers when Mayor Sloggett closed his address. R. A. Kerr acted as chairman for

the meeting. Mr. Kerr is a farmer and Ford agent in the district. Speaking as a farmer, he said that the prices paid for wheat, tallow. hogs and dairy products was the best in years, while the quantity produced exceeded that of other years. As a dealer in cars he stated the car he old cost Canadians at least \$250 more than it did the Americans, although it was built in the dominion. He predicted that if the Meighen pro-gram of high tariff was carried out the Fordson tractor would advance in

The second speaker was William Tolmie, former federal candidate Mr. Tolmie asked the electors to get away from politics and get down to principle. He spoke of the economical administration of the King government, and urged the voters to vote for a government that had already shown a careful administration and fair-minded platform. ## MEIGHEN DENIES

Stated He Never Mentioned the Judgment of the Railway Commission.

Canadian Press Despatch. Toronto, Oct. 8 .- Speaking at Vanouver last night, Mr. Meighen, in referring to an election pamphlet entitled, "Who's the Friend of B. C.?" denied he had made certain statements contained in such pamphlet which claimed to be based on despatches of the Canadian Press from St. John, N.B., and Halifax, N. S In particular, Mr. Meighen stated

he had never mentioned the judgment

of the railway commission.

The Canadian Press report of Mi Meighen's meeting in St. John contains no allusion whatever to the rail commission. Speaking at Halifax on September 15, Mr. Meighen was pre-ceded by Senator Robertson, who was then reported by the Canadian Press as saying: "The government ha-made concessions to the Progressives which had cost the country a good deal. The latest blow which the gov-ernment had struck at the rest of the country came with the recent judgment granting reduced rates on grain and flour to British Columbia. This meant a further tax of fifteen millions a year on the Canadian railways. This was in addition to a prior gift to the prairies which cost the railways 26 millions."

CHICAGO

CHICAGO

Associated Press Despatch.
Chicago, Oct. 9.—Aggressive buying which found offerings scarce led to a brisk early advance in wheat values today. On the other hand, word that 100,000 bushels of Canadian wheat had been taken for importation to Minneapolis failed to have more than a passing bearish influence. The opening 'sc lower to ½c higher, new style, was followed by a rise to 1383's for December, and 140 for May.
Corn prices reflected scantiness of receipts; wheat strength tended also to lift the corn market. After opening at ½c to 1c higher, corn continued to advance. December touching 76%.
Oats were inclined to lag. Starting at ¼c decline to ½c gam, the market later showed only a slight upturn.
Lower quotations on hogs weakened the provisions market.

In Grandmother's Day Women Grew Old and Fat in Comfort and Held Their **Husbands Through** Custom.

We women are always patting ourselves upon the back and congratulating ourselves upon the progress our sex has made and pitying grand mother because she did not have a college education and wasn't selfbegin skating in the arena on the 1st supporting and didn't have the right

> All well and good; but if grandmother did not have all of our advantages, she missed a lot of our disadvantages. For with all our getting we have mostly got trouble, and we may well envy those ladies who lived out their lives without anything heavier on their minds than their beplumed bonnets and who never dreamed of such a thing as having any personal responsibility for what happened to

Those were the halcyon days in which nobody had ever heard of the germ theory and in which no woman went around quaking in her shoes lest a microbe should spring forth from its lair and pounce upon home of their son, Eber Kelly, Lamreasonably clean and gave her offspring what she considered wholethey had perished because she had not properly sterilized the milk bot-tles or had let them drink contaminated water.

Those also were the happy days in which a woman accepted fatness or scrawniness as God sent it, and that was all there was about it. Nobody had promulgated an iniquitous "countyour-calories" slogan to rob life of all its joys. And so when a lady with a good appetite sat down to a luscious meal she could enjoy it without having every mouthful poisoned by the knowledge that she was putting on flesh as she ate.

Nobody expected grandma to keep that boyish figure, and thereby she escaped the agonies of semi-starvation and of torturing her poor old muscles with strenuous exercises that makes the middle age of the value of the poor old muscles with strenuous exercises that makes the middle age of the value of the poor old muscles with strenuous exercises that makes the middle age of the value of the poor old muscles with strenuous exercises the property of the occasion in a happy manner, a dozen storehouses. > Nor in grandmother's days did women wear themselves out in search of perpetual youth. Then it was considered no disgrace to row old, and a woman accepted her birthdays as they came along without feeling that each one was a curse upon her.

When the curves of the forties When the curves of the forties came to her she simply let out her corset string and added an inch or two to her belt measure, instead of cutting out bread and potatoes and with the following officers were elected:

President, Mrs. Cunningham; first vice-president, Mrs. W. A. Elliott; recording secretary, Mrs. George two to her belt measure, instead of cutting out bread and potatoes and Mrs. J. And when she began to get heavy on her feet and have twinges of rheumatism in her joints she was content to sit on the sidelines and watch the youngsters play, instead of dragging her poor old bones, aching and creaking, around ballroom floors and to every place of amuse-ment for fear somebody might suspect that she was growing old.

Grandma did not have to worry about growing old because it was a time of peace and quiet and relaxation that entitled a woman to do everything she wanted to do and excused her for not doing any of the things that she did not want to do.

She didn't have to work herself to

## Welcome Robin Knows An Animal Which Goes South Like the Birds

Peter Rabbit doesn't care anything about beechnuts. He cares nothing for nuts of any kind. You see, Peter's teeth are not made for cracking hard shells. Peter can gnaw and strip off pieces of bark, but when it comes to pieces of bark, but when it comes to what Ruster Bear might reply. At cracking nuts Peter isn't a success. Nevertheless, Peter spent considerable time over in that part of the what Buster Bear might reply. first Buster didn't reply at all. Green Forest where the beech trees grow. That was because so many other people were spending so much time there. You see where there are that I know one animal who doesn' many people together there is bound to be a lot of gossip. It was his curiosity and love of gossip that took

Peter over there.

Now there was just one topic that interested everybody over there. Tha copic was the coming winter and best to prepare and little, weak and strong, wearers of feathers and wearers of fur, all were equally interested. Each one were equally interested. Each one had his or her own ideas. Of course you know exactly what Happy Jack Squirrel and the other members of the Squirrel family insisted was the proper thing to do. They insisted that the only thing to do was to store away food and plenty of it, and they were living examples of their belief. Buster Bear insisted that that was all foolishness and that the proper way of polishness and that the proper way Mr. and Mrs. W. J. Kelly Mrs. Was to eat all possible and get as fast as possible and then, when food

where I go down in the Sunny South there is plenty to eat all the time Yes, sir, that is the sensible thing to do, go South."

"That's all very well for you folks with wings," grumbled Buster Bear. "But we folks who wear fur can't do that. We must stay here, whether we want to or not. That is one advantage you feathered folk have over us furbearers. You can fly away and leave hard times, while we must stay and do the best we can. Personally, I am rather proud of the fact that we animals are not quitters. We don't run away from cold and hard times. There is no four-legged animal that doesn't stay when Jack when mal that doesn't stay when Jack Frost and rough Brother North Wind come down from the Far North. It is true that some of us sieep through the worst of the bad weather, but

would overtake him long before he was even half way there."
"Nevertheless I know one who does it." declared Welcome Robin, and his eyes twinkled. He glanced around at all the other folk sitting there. He saw the same puzzled look in the face of each. "Think it over," said Welcome Robin, and away he flew. (Copyright, 1925, by T. W. Burgess.)

## CITY BLUE-RUIN TALK

Refers To Assessor's Book To Discredit Decreasing Population Rumor.

Special to The Advertiser. St. Thomas, Oct. 8 .- Mayor Slog gett has discredited a lot of the blue-ruin talk in St. Thomas with reference to the city's decreasing population. Reference to the assessor's books show that at present the population of the city is 567 less than the peak year, which was 17,892. The story of St. Thomas' decreasing population sets the mark at nearly 2,000, and constant capital is made of the report. However, the Liberal candidate has taken all these rumors by the throat.

## Windsor Mayor To Get 3rd Term

Possibility of Mayor Mitchell Elected by Acclamation.

Canadian Press Despatch. Windsor, Oct. 8 .- The possibility of Mayor Frank J. Mitchell being elected for a third term by acclamation was admitted today by officials at the city hall at Windsor, when Alderman Cecil F. Jackson, who has served in the council for more than 10 years, declared he would not be a candidate for office this year. The annual municipal elections are held early in December. The name of Alderman Charles R. Tuson, traffic commissioner and former mayor, has been mentioned as a possible oppon-ent of Mayor Mitchell if he should

Locarno, Oct. 8.—Informal personal contacts which now have been established at the security pact conference between the principal delegates who go motoring together, under the soothing influences of the soft autumnal sunshine, amid lakeside and mountainside landscapes of rare natural beauty, already have begun

to bear fruit. The stiffness and artificial optimism of the opening days are giving place to a feeling of genuine friendly intimacy such as has never before beer, manifest in meetings between Ger-many and the allies. Even the full formal conferences are intimate in character. There is no chairman and any delegate speaks as he wishes the protection of absolute

progress has been made.
Regarding German entry into the league, many difficulties remain, but seems to regard them as insurmountable, and the Germans themselves speak of their membership in the league within a year as a

United Church Body Protests 000 to 322,000. Liquor Transportation On Government Lines.

Canadian Press Desnatch. Hamilton, Oct. 9. - Protesting against the "national disgrace" of the liquor traffic, members of the Hamilton conference of the United church went on record as strongly against transportation of liquor over government railways and unrestrained rum running from Canada.

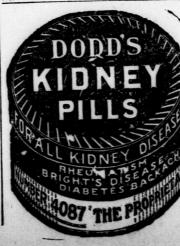

The discussion arose during the report of the evangelism and social service committee, in which surprise was expressed "that the government of Canada would grant a new license to a brewery and distillery at Welquire the approval of the attorney-general of the province.

Vote Against Participation in Commission Appointed by Government.

Associated Press Despatch. London, Oct. 9 .- The delegates of the miners' federation have rejected participation in the coal commission that of Wednesday between M. which the government recently appriand and Herr Luther, questions Briand and Herr Lutner, questions of every category are touched upon with a frankness which would be quite impossible in public negotiation. The difficulties in the way of the conference was held in London for the purpose 000 on a card vote. The conference of considering the situation arising through the interpretation of the truce terms. Two weeks ago Premier Baldwin, after lengthy consideration rendered a decision in the mining controversy, accepting the contention of the mine owners in their dispute with the miners' federation of their right to reduce wages in certain

regions.
The miners argued that this decision was at variance with the governmental subsidy granted to enable the mine owners to maintain the current scale of wages pending an inquiry by a royal commission.

A majority of the miners' executive were opposed to drastic action, but the delegates themselves were

sharply divided, and a heated debate ensued, after which the executive's recommendation to participate in the coal commission was defeated 477,-

Rev. F. W. Gilmour of Atwood Is First Pastor of New Church.

Presbyterianism in London added considerable strength when Rev. F. W. Gilmour, B.A., Atwood, was inducted as pastor of Elmwood avenue Presbyterian church last night. Though the Elmwood avenue congregation sprang into being in March last circumstances have been such as to prevent the securing of a minister up until the present time. Mr. Gilmour was one of the strongest exponents of the Presbyterian church cause in Western Ontario throughout the church union campaign, and thus he was tendered a particularly hearty reception by both the clergy and lay members of the denomina-

the church home, Elmwood avenue, and long before the hour set the building was crowded to capacity. Not only was practically all the congregation present, but every continuing church in London and district was represented. The halls were filled, and many found places on the stairways. The service was held under trying conditions, the audience being seated in five different rooms, but the enthusiasm for the future that characterized the covenanters was present. Rev. James Mackay of New St James, moderator of the presbytery of London, presided, and opened the

meeting with prayer. He also presided over a short session of the presbytery held prior to the service, at which twenty of the clergy were Rev.
