The Congo Government's later proposal to investigate the charges made had altered the situation slightly, but an unsatisfactory feature of this proposal was that the Congo Government did not know what form the investigation would take, or what tribunal would carry out any or what tribunal would carry out any reforms which might be determined upon. Earl Percy, at the end of a long speech, reviewing the situation in the Congo. charged officials with permitting "insensate, inhuman cruelties to be practiced in order that they might profit by the collection of rubber." THE MATING OF TWO MINES. After the mating, the marrying, the laying of foundations, there is still the harmonizing and adjusting to relations the two characters that are to be the pillars of the superstructure; the adapting of each to the other in the matter of per-sonal temperament of mind and body the delicate adjustment of personal pecuparities; a schooling such as has never before been experienced in any relation, but something which is immensely helped or hindered by previous culture, or the lack of it. By means of this schooling is perfected the loving husband, the obedient wife, if improvement and true progress follow.—From "Home Building," in Victional Magazina.

Shakespearean Plays at the Western University on Monday Next.

The great popularity achieved among the leading English and American universities by Ben Greet with his openair Shakespearean productions has led him to usher in his second season with the most amibtious production of this sort at his command. The performance of "As You Like It" and "A Midsummer Night's Dream," to be given under the auspices of Western University, on the afternoon and evening, results, with the state of spectively, of Monday, June 13, will undoubtedly prove two of the most charming entertainments ever seen in

In the role of Helena, Edith Wynne Matthison will appear in actually the seventh Shakespearean heroine role, all of which she has assumed in the brief eighteen months that she has been playing in America. No play, except it be the wonderful "Everyman," greater opportunity for Miss Matthison's rare talents as a Shakespearear actress than "A Midsummer Night's

Dream. In addition to being a feast for the eyes, the performance will prove a de-light to the ear, as it will be rendered with the special music by Mendelssohn and Sir Arthur Sullivan, and illuminated by variously colored limelights and calcium lights.
