SHELDON AVENUE SEWER WORK COMPLAINED OF BY RESIDENTS

Ald. Potter Addresses a Few Plain Words to the Council in Reference to Public Works—Mayor Cowan Points Out Irregularity in the Presentation of Accounts—Other Matters Dealt with at Meeting of City Council

Ald. Wm. Potter took occasion at last night's meeting of the City Council to address a few plain words to the Board in reference to the unsatisfactory way in which sewers have been and are being constructed in the city and urged the necessity of a change in the present mode of procedure. There is something wrong, he said, and it should be made right at once.

The matter came up in reference to the complaints made by ratepayers on Sheldon avenue about the manner in which the sewer is being put down on that street.

A letter was read from J. B. O'Flynn, acting for Sheldon avenue residents, in which it was pointed out that the people were paying \$135 more than they should and the work is very unsatisfactory.

Mr. Thompson, one of the residents, was heard. He said the intakes were open with no lights to warn pedestrians or horsemen; pipes have been put in when the inspector was not there. One man working on the sewer said that from Brock street to the second concession it was all right, but he would not swear for the rest of it; the inspector was not present at times when he should have been there; there are men on the street who are perfectly capable to inspect the sewer and the job should have been given to one of them.

The Mayor—If this letter is correct the people have a grievance and should receive redress.

Ald. Edmondson—I understand that sometimes only two men were working on the job and there was a man there inspecting and drawing \$2.50 per day. The sewer should be completed now and I would be in favor of making the contractor pay the inspector.

The Clerk—You will have to consult the Solicitor.

Ald. O'Keefe explained that the contractor had a hard job on the sewer owing to water and quicksand. The sewer is practically completed. The men are waiting now for traps, which cannot be purchased in the city. It is one of the best sewers in Chatham.

Ald. Edmondson—The contractor should have considered that before. The time specified for the completion of the sewer is up long ago.

Mr. Thompson—Some of the men were hitting the booze pretty hard and were not in condition to work when they were there.

The Mayor—Was this ever reported?

Mr. Thompson—I spoke to you and Ald. Westman.

The Mayor—Did you say the men were drinking?

Mr. Thompson—No. I didn't know there was a limit. If you take it out of us and give it to them we can pay for it.

Ald. Potter—This kind of work has been going on in Chatham for two or three years, more particularly under the frontage act. There are more inspectors than men. The men are being employed to look after two or three men. If the ratepayers on Sheldon avenue have a grievance others also have a grievance. We have got to get out of this way of doing things because matters are not going right. I think I could tell where the trouble is.

The Mayor—That is what you are here for.

Ald. Potter—We must take action at once and the sooner we appoint men to look after the work the better. It is said the Engineer has too much to look after. Well, he may or may not, anyway a competent man should be appointed inspector of sewers. The Board of Works should look into the matter.

The Mayor—There is considerable truth in what the alderman says. The other day Ald. Austin and I saw one man in a ditch and another one dressed up sitting down looking on—supposed to be inspecting the work. What we need is a good practical, clever fellow to work under Mr. Jones.

The matter was finally left with the Board of Works to investigate the Sheldon avenue affair, consult with the City Solicitor and report back to the Council.

There were present at the meeting Mayor Cowan and Ald. Austin, King, O'Keefe, Ainsworth, Potter, Westman and Edmondson.

The Children's Aid Society was granted \$20 for board for Florence Willard at the House of Correction. Mayor Cowan suggested that steps be taken to collect the money from the girl's father. Referred to Finance Committee.

The contract for the steam heating for the market building and police station was received, properly signed. It was approved of and placed on file.

An account from Oliver Bedford for wheelbarrows, etc., used on the Sheldon avenue was passed. The work on this sewer can be completed in a couple of days, said Ald. O'Keefe.

The Mayor—Who is this man Bedford?

Ald. O'Keefe—He supplied the wheelbarrows.

Mayor Cowan—How did he supply those goods?

Ald. O'Keefe—Ask Ald. Westman. Ald. Westman—Mr. Jones wanted the wheelbarrows and Geo. Stephens did not have them. He got them from us through Mr. Bedford.

Ald. Cowan—In paying, that account we are leaving ourselves open for criticism. We are attacking others for just such actions. Mr. Bedford is not in the hardware business and we should avoid such transactions of passing accounts for one man in another man's name.

Ald. O'Keefe—We could not get them in any other store but Westman's. It was a matter of convenience under the head of new business.

Ald. Austin—In such a case I think the law is better kept, in breaking it, instead of keeping to the very letter.

A communication to change a lot in the Maple Leaf cemetery was referred to the Parks and Cemetery Committee with power.

Mr. McCorvie asked remittance of dog tax. He said he had not had a dog for several years.

Ald. Potter moved it be struck off. The Mayor—What about the remittance refusing any more remittance?

Ald. Potter—I would like it struck off.

The Mayor—Mr. McCorvie is an old alderman and should have had his request in earlier.

The matter was brought up again under the head of new business.

Matt. Side tendered his resignation as Lineman.

Geo. Corbett applied for the position.

F. D. Rice, Victoria avenue, claimed he was wrongly assessed on his property. Referred to Finance.

A letter was read from a number of the ratepayers of Harwich, Raleigh and Chatham adjoining the Indian and Mud Creek drain and the Chinick drain praying in view of the damage caused to property owing to the overflow of the Indian and Mud Creek drain caused by the Gregory drain and its branches and the overflow of water from McGeachy's drain that the three municipalities put an embankment at or near the mouth of Indian and Mud Creek drain on the farm of Mr. McGeachy (to which he has already consented) and to carry the water brought down by the Gregory drain through Indian Creek west to a proper outlet.

A deputation from the Townships of Raleigh and Harwich were heard in the matter. Mr. Pardo and Mr. Payne spoke briefly.

Ald. Edmondson—What benefit will the city derive from this?

Mr. Huff explained how his land had been damaged by high water in Indian Creek. If some scheme were carried through to get the water away he will claim damages.

Mr. Sykes, of Raleigh, explained that the water drained off the high lands of Harwich is taken out of its natural water course and dumped into Indian Creek. This causes the water in the Creek let out at the Chinick drain.

Ald. Austin then gave notice of the following motion, as he thought the scheme a very feasible one:

Moved by Austin and King, that this Council appoint a committee of two, who are hereby authorized to co-operate with a committee of the municipalities of Raleigh and Harwich to engage an engineer to furnish a report on the proposed drain from McGeachy's to the Chinick drain, showing its course, the estimated cost to the lands in the three municipalities, the city agreeing to pay for this report in the same proportion as it would should the whole work be proceeded with.

The engineer's report to be presented to this Council before any action is taken.

This motion will come up at the next meeting of the Council.

Dr. Messers, for the Chatham Lawn Tennis Club, asked for remittance of taxes. Referred to Finance Committee.

Ald. Marshall wrote the Council, explaining his absence from the meeting. He was unexpectedly called out of the city.

The Warren Taving Co. asked to be relieved from paying taxes on

POWER WAS TURNED ON

Successful Test of The Electric Railway Power Engines

Current Will Be Turned on To-morrow—Splendid Progress Made

The most gigantic and profitable of Kent county's enterprises will soon be in operation. After months of earnest effort and vigorous enterprise the new electric railroad will commence operations in the immediate future—and the residents of the county will all reap the benefit.

The power was turned on at the big power house yesterday and a most satisfactory test experienced. The massive engines throbbed into movement as though they had never missed an hour, and ran perfectly. It is an impressive sight to see them working for a few days.

The management expect to have the current turned on to-morrow, north of the river, on to Wallaceburg. It will not be utilized over the bridge or in the city, however, for a few days.

Two more handsome new cars arrived to-day and will be brought up to the barns immediately.

In a short interview with The Planet this morning General Manager Warburton, to whose energy and effort the great enterprise is so largely due, said—"We expect to have the road in operation very shortly, in fact we are hoping to have the entire system ready for the 21st inst., and we will seek to give the people the best system obtainable."

THE DRAMA

The Theatrical Treat of the Season Which Will Appear at The Grand To-Night

During the early half of this week the farcical romance called "The Duke of Killierankie," by Robert Marshall, was played at the Princess Theater for the first time in Toronto, and it is safe to prophesy that those who were fortunate enough to watch the unsmooth course of the Duke's true love will be only too glad to see it a second time. "The Duke of Killierankie" is a draught of vintage rare, with beaded bubbles winking at the brim. There is not a dreary moment in one of the three acts.

The dialogue has a subtle sparkle which is as refreshing as it is unusual, while the swift and spirited action preserves it from being a "talky" play. Miss Rose Coghlan plays the part of Mrs. Mulholland with a vivacity and vigor that show no signs of flagging. Miss Miss Phillips, as Lady Henrietta Addison, plays effectively the part of the "quite contrary" maiden whose heart is to be won by stratagem only. Mr. Lynn Pratt makes a handsome and attractive aristocrat, whose speech is more bristly and whose movements are more energetic than would fulfil Laura Jean Libbey's idea of so exalted a personage. Mr. Wallace Erskine as Mr. Henry Pitt-Welby is the most amusing of them all, and rises to the height of brilliant stupidity as he endeavors to comply with the caprices of his widowed sweetheart. Long life to His Grace The Duke of Killierankie, for he has brought us enough laughter to last a week—From Toronto Saturday Night, Nov. 11, 1905.

This article, which promises to be the theatrical treat of the season.

WELL WORTHY

The Toronto Saturday Night, one of the most conservative and critical theatrical reviewers, devotes a column in its last issue to a eulogistic critique of the "Duke of Killierankie," which is billed for the Grand to-morrow evening, with Rose Coghlan as the stellar attraction. The production played Toronto last week and the society journal pays it the highest of tributes. It speaks well for Manager Brisco that so many of these excellent productions are being secured.

DESERVED RECOGNITION

Mr. Barfoot, the Maple City Postmaster, was given a very agreeable surprise last Friday evening by the receipt of an express packet from Toronto, containing a silver tea set, from the heirs of the late James A. Rolls, barrister, of this city. Mr. Barfoot was placed in charge of the estate over twenty-one years ago, and had completed the trust to the satisfaction of those interested, some two months ago. The memento was an unexpected surprise, expressing as it did their entire satisfaction with his work.

A. Alex. McKay, of Kintore, who is attending Knox College, Toronto, will address the Young Peoples meeting in the First Presbyterian church next Friday night on missions in the Northwest. Mr. McKay spent the summer in the Northwest. He preached in the Dover Presbyterian church on both occasions Sunday.

SUPPRESS THE POACHERS.

If the Canadian and United States authorities work together they can reduce to a minimum the depredations of the Yankee fish poachers. There may be something in the reports sent out from Ottawa of contemplated raids after navigation is officially closed, and it may be the rumors originated in idle gossip around the wharves of Erie, Pa. Wherever there are lawbreakers and robbers there is generally some foolish talk known as 'bluff,' and these reports may be bluff. Whenever it is decided to violate law, there is danger of trouble. If these fish poachers come over to rob our fisheries they should be very vigorously dealt with. Captain Dunn will be justified in sending to the bottom any tug coming within range of his guns; yet a mistake may be made now and again. It is close calculating to tell when his boundary line was reached in case of a chase, but with United States revenue cutters co-operating to punish law-breakers there should be no danger of international complications. The recklessness which has depleted the fish runs on the southern shores of the lakes should not be allowed to obtain on the Canadian side. There are great quantities of fish in Lake Erie, and Canadian fishermen should be fully protected in the possession of what is rightly theirs.

BAD OLD MR. SMIFF.

The latest fashion fad has been introduced by a French actress in Paris. It is described as the sheath dress, and hangs down from the back to a point below the knees, over a skirt of another color. Mr. Smiff, the gentleman who writes our leading articles, is quite interested in the new fad, for as he observes, no waist will be shown and there will be only one way of finding whether a lady is short or long waisted. If that fashion comes to this side of the Atlantic, this great journal sees more trouble ahead in keeping the old sinner from indiscretions.

HOW SULPHUR IS MINED FROM A MEXICAN VOLCANO.

Ever since the days of Montezuma, men have been gathering sulphur from the fiery craters of the great Mexican volcano, Popocatepetl. When Cortez arrived, he used the sacred volcano to help him vanquish the Aztecs who worshipped it, by making gunpowder for his soldiers from the crater-sulphur.

The natives are still gathering the sulphur just as the old Aztecs did. Men climb down into the crater, which is filled with dim fires and thick white fumes and break away the masses of sulphur ore. These are thrown into baskets and hauled up to the top by other men.

Then follows the most curious part put on great straw mats lying on the snowy declivity of the volcano. One or two natives leap on it, give a shove with a long pole and off they go, tobogganing down the mountain side till they reach the end of the snow-line. Thence the sulphur is carried on mule back to the railroad.

ANNOUNCEMENTS.

At The Grand—

The Duke of Killarney—Nov. 15.
Guy Bros' Minstrels—Nov. 17.

(Supplied to The Planet by Press Agents).

It may naturally be supposed that the most perfectly refined performance of the season will be "The Duke of Killarney," which will be at the Grand to-morrow night. Mr. Charles Frohman admitted the play to be the best comedy he had presented for many years, and Captain Robert Marshall the author claims it to be his piece de resistance. The smart set of London and New York voted it a gem of high comedy and Boston, Philadelphia and St. Louis added unstinted approval; of course the cast demands high class players; Rose Coghlan will play

MISS ROSE COGHLAN

Mrs. Mulholland and Mr. Lynn Pratt will be seen as the young Duke; other prominent members of the company are Miss Nina Phillips and Wallace Erskine. The story of the play deals with the manner in which the eccentric Killarney decoys Lady Henrietta Addison to an inaccessible castle in the Highlands where with the assistance of a young member of Parliament and a rich widow he manages after various trying but amusing situations, to win the fair lady's consent to be his wife. The Empire Theatre equipment will be used.

AN UP-TO-DATE SHOW.

Guy Bros. make no empty boast in advertising themselves as the supreme leaders of up-to-date minstrelsy. An experience of 35 years has enabled them to cater to the amusement-loving public in a manner that merits and secures its fullest support. The company this year numbers among others such entertainers as Onthank and Blanchette, the wonderful acrobats, daring, yet inimitable funny, the screamingly funny comedians, Brown and Reed, the great Platte phenomenal vocalist, Carmen and Hammond rolling 32 hoops, well described as the marvels of the century.

These and other attractions on the program make up an evening rich in fun, frolic and melody, refined and diverting at every moment. They appear at Opera House Friday night, Nov. 17th.

INDICTMENT AGAINST McLEOD.

But Grand Jury Says Nothing as to Morris Nathan.

Boston, Nov. 13.—The grand jury Saturday reported an indictment against Dr. Percy D. McLeod, in connection with the suit case mystery, charging that he was an accessory after the fact to the abortion which resulted in the death of Susanna A. Geary. McLeod was arraigned, and his bonds increased from \$20,000 to \$25,000.

The grand jury failed to indict Morris Nathan of Boston, suitor of the Geary girl, and the first person to be arrested in connection with the case, no mention of the young man being made in its report. There are 25 counts against the persons indicted in the Geary case, the allegations covering different legal phases.

Offered Cash Instead.

Toronto, Nov. 13.—At a meeting of the veterans of 1866 on Friday night, David Creighton reported that Hon. Mr. Cochrane, Minister of Crown Lands, has unofficially offered \$50 to each of the veterans in lieu of the land grant to those who had not located their claim.

THROWING LIGHT

On the Subject of

HOME DYEING.

Home dyeing is a fascinating and money-saving work when Diamond Dyes are used. Home coloring has an attraction for ladies in all ranks of society, and the wonderful results achieved by the Diamond Dyes for women, have made them the popular home dyes in all parts of the world.

One ten cent package of the Diamond Dyes will do the same work that a steam-dyeing establishment charges one dollar for.

All faded and dingy looking dresses, skirts, suits, blouses, jackets, ribbons, stockings, coats, vests and trousers, can be re-colored in the home and made to look as good as new, at a cost of from ten to twenty cents, when the never-failing Diamond Dyes are used. It is well to bear in mind that direct money saving can only be guaranteed when Diamond Dyes are used. Have a care that you do not buy the worthless imitations sold by some dealers. Refuse such deceptive dyes if you would avoid trouble and loss of money and temper. Ask for the DIAMOND DYES; refuse all others that may be offered to you.

DISTRICT DOINGS
THAMESVILLE

Nov. 13.—Very successful anniversary services were held in the Presbyterian church yesterday. Well filled pews greeted Dr. McLaren, of Toronto. He has spent much time in the Klondike and Canadian Northwest and gave very vivid pictures of the religious condition of those places, showing the need for workers and money. Dr. McLaren also preached to a large congregation in the afternoon at Turin. Special singing was rendered by Miss Gertrude Somerville, of Chatham, which was well received. Special music was given by the choir. The collections amounted to \$120. This free will offering takes the place of the usual tea meeting.

The Orange Lodge gave an oyster supper at the home of J. Lawrence's. Besides the members there were present Rev. Mr. Freeman, the English church choir, Rev. and Mrs. McInnis and family.

Miss Aggie Ripley, of Chatham, was home for Sunday.

Will De Fencier, from Toronto, was in town for over Sunday.

Mrs. Will Shepherd, from Bothwell, is spending a few days at her home here.

John Davidson, from Chatham, came to Thamesville on Saturday for the anniversary services yesterday. He very ably assisted in the choir.

Mrs. Carson Johnson gave a very delightful afternoon euchre on Friday in honor of Mrs. (Canon) Shaw. The prize, a rose bowl, was won by Miss Maud Pickard, after which a dainty luncheon was served.

Miss Wing, from Chatham, is visiting her sister, Mrs. David Wallace. Will Hubble was in town on Saturday.

Miss Devlin, from Zone, spent Saturday.

Pure Tea

Hygienic Packages

Users of Grand Mogul Tea pronounce it the beverage of good health. Grown on the sun-kissed mountains of Ceylon, it has the delicious and mellow flavor of purity.

Prepared by machinery from plantation to cup. The packages, lined with airtight paper, protect it from store dust and microbes. Never sold in bulk nor in poisonous lead. The effort to substitute some other tea to be "just as good" is the desire of some dealers for an excessive profit on an inferior article.

Grand Mogul Tea

Sold at 25c, 30c, 40c, and 50c per pound. Look for the premium coupon and list of premiums in each package.

A Friend Told Me About

Bu-Ju

THE GENTLE KIDNEY CURE

Hundreds of people, who have been cured of Kidney Trouble by Bu-Ju, were first induced to try this wonderful remedy by friends who had themselves been cured. The sales of Bu-Ju are daily increasing, because everyone who takes them is benefited—and these in turn, tell others. So the good news is spread. Here is what a Picton man says about Bu-Ju—

"I have used Bu-Ju with great benefit to myself, and cheerfully recommend it to all who, I think, are suffering from Kidney Troubles and Rheumatism. 'I think Bu-Ju, the best remedy made.' Yours sincerely, JAMES MILLS.

The YELLOWSTONE NATIONAL PARK

Is something absolutely unique in this world. President Roosevelt.

The popular route to this delightful spot is via Union Pacific to Monida, thence by stage to all points in the park.

The stage ride from Monida, by the splendid Concord Coaches of the Monida & Yellowstone Stage Co., through scenery hardly inferior to the park itself.

Very low rates during June, July, August and September.

Armour's Extract of Beef

USE IT RIGHT

1-4 teaspoonful of Armour's Extract of Beef will season as much soup, etc. as a whole teaspoonful of any other Extract.

A 2 oz. jar of Armour's costs more than a 2 oz. bottle of Fluid Beef but ARMOUR'S goes 4 times as far—thus, it is really 50% cheaper.

Be sure you get ARMOUR'S—follow the directions exactly—and you will see the economy of it.

SUPERSTITION AND GEMS.

Some Points About the Topaz, the Ruby and the Opal.

A Maiden lane jeweler speaking of the trade in jewels said the other day that superstition with reference to them had a serious effect upon the trade. Some people will not buy or wear topaz unless they were born in November, and others cannot be induced to buy rubies unless they were born in July. It doesn't concern many people about rubies, because their price is too high for most persons to wear them. There are not two hundred good rubies of any size worth speaking of in New York, but the topaz is abundant and is not dear.

Then there is the superstitious objection to opals, which are regarded as unlucky all the year around and have no saving natal month to lift their opprobrium. They do not need the superstition to make them objectionable, however, because while they are very beautiful they are also very fragile and should be very cheap. Out in Australia you can go out with a pick and dig a wheelbarrow load in an hour. The cutting and polishing give them some value, but it is something like that bestowed upon cut glass. Still they rank as jewels, and when they are sold it is for a price. If, however, you want to find their value, offer one to your jeweler either for a cash sum or in exchange. You will then learn what they are intrinsically worth—or something near it.

TAKE MY CURE, WHEN CURED YOU PAY ME

The fear that you could not be cured may have deterred you from taking honest treatment, or you may have been one of the unfortunate who have been treated in vain by inexperienced physicians, free treatments, free trial samples, patent medicines, electric belts and other similar devices. Such treatments cannot and will never cure you, nor will these malades cure themselves. When I offer you a cure, and am willing to risk my professional reputation in curing you, and have such faith and confidence in my continued success in treating these diseases that I will not need to be paid until you are cured, a fair proposition cannot be offered to the sick and afflicted. This should convince the skeptical that I mean what I say, and do exactly as I advertise, as I am positive of curing you in the shortest possible time, without injurious after-effects. My charges will be as low as possible, for conscientious, skillful and successful services, and my guarantee is simple and true. Not a dollar need be paid until cured. I have 14 diplomas and certificates from the various colleges and state boards of medical examiners, which should be sufficient guarantee of my standing and abilities. It makes no difference who has failed to cure you, it will be to your advantage to write to me for my opinion of your case, which I give you free of charge. I want to hear from patients who have been unable to get cured, as I guarantee a positive cure for all chronic, nervous, blood and skin diseases, which I accept for treatment. I not only cure the condition itself, but likewise all the complications, such as rheumatism, kidney and bladder troubles, blood poison, physical and nervous debility, lack of vitality, stomach troubles, etc. All medicines for patients are prepared in my own laboratory, I will send a booklet on the subject which contains the 14 diplomas and certificates, entirely free. PERT PARAGRAPHS.

The way for a woman to get men to do what she wants them to do is not to want them to do it.

Most men would not notice women at all if they did not have a notion that they were making a big hit with those same girls.

It is not doing work that makes us weary so much as dodging work that we don't do.

When some one comes around with a new religion you will notice that there is always a collection attached to it.

True happiness is a condition of not being miserable.

People who tell their troubles don't have real ones.

A married woman's ideal woman is one who is proud of her husband.

One reason why some people don't get what is coming to them is because they see it coming and dodge.

It is much more satisfactory to have wheels in your pocket than in your head.

With the justice, making people believe is a fine art.

His Kind.
"Tell me where you want to go," said the wizard, speaking low.

"Send me where no noise is heard; Not the chirrup of a bird."

"Where the place is all serene, Simplest ever yet was seen;

"Where no foolish things intrude On the brooding solitude;
"Where I'll not be asked to spend; Safe from enemy and friend."

Then the hoary man of age Sent him down to Russell Sage.

Wasn't Curious.

"Why don't you go to work?" asked the lady of the walking delegate for the Handout Consumers' union, who had knocked at her door under the impression that it was the shaft of a pie machine.

"I have been unable to find a job," he replied without the quiver of an eyelash.

"Would you work if you got a chance?"

"Madam, I have no impertinent curiosity. I never tried."

Had Help From a Gun.

"You wouldn't think that puny ninety pound prisoner was one of the strongest men in town?"

"No."

"He held up a 300 pound man last night."

Enough.
"I hear Jones is the father of twins." "I presume he is tickled to death." "Yes; he is overjoyed because they are not triplets."

Wanted to Know.
"Is this the place to get dog licenses?" "Yes, sir. Want it for yourself or some other dog?" politely inquired the pert clerk.

Hitched.
There was a young fellow named Walter, Who led a girl up to the altar; When the minister said: "Two dollars. You're wed!" She led him away by the halter.

A queer ceremony is performed every year on the 8th day of September in the Valle Maggia, Italy. The region abounds in vipers. The celebrants form into a weird procession, each person—man, woman and child—carrying a huge figure of a snake stuffed with cotton. As they pass along they weep and lament, believing that by the expiatory ceremony they will render themselves proof against snake bites during the grape gathering.

Lever Brothers Limited, Toronto

THE SLOTHFUL TODAS

THEY ARE THE LAZIEST PEOPLE IN THE WORLD.

A Hill Tribe of India Whose Men Will Neither Hunt Nor Work and Who Are Proud of Their Reputation For Downright Indolence.

In these days of push and energy it sounds strange to talk of people as being lazy, and still the Todas, a hill tribe of India, are the laziest people in the world.

The Todas are not ashamed of their reputation and are free to confess that they know of nothing so foolish and stupid as work. Their one and only pursuit is the raising of buffaloes. They are far too indolent to follow the chase. An ax is their only weapon, although they know how to make others. They use this for waging war and for felling trees. They will not till the land, considering this unnecessary labor. To make housekeeping easier all their natural products are held in common. The idea of property is only restricted to the hut, its contents and live stock.

The buffaloes, which they own in large quantities, furnish them with skins for clothing and the hut, and the meat is used as food. But milk is their principal diet. They do not even relish the idea of milking their cattle. The head milkers are the only ones that are to be persuaded to do this labor. These men are chosen from the class of "pelki," or "sons of God." They are the priests and practice celibacy. Although the priests tend to the cattle, each householder owns his cattle.

Much as these men dislike the caring for their cattle, they find farming a less dignified calling. Some years ago they went to war with their neighbors, the Badaga and Kotas, as they might be able to levy a tax of one-eighth on their grain products. When their grain grows scarce they live on roots and berries. They will sell their land or give it away, but they will not cultivate it at any price.

The building of bamboo huts does not interest them any more than the cultivating of the soil, and they make this task easy by making the boys cut the bamboo and their wives build the huts. It is not unusual for three families to share one abode. The men are often so lazy that they cannot afford one wife alone, but even this does not worry them. Two or three brothers manage to support one wife. Indolent and slothful, they sit listless for hours, unconcerned about all things. What they know they know well. They are intelligent within certain narrow limits, but they are too lazy to increase their store of knowledge. Whatever has to be done must be cared for by the women and children.

Strangely, their appearance does not disclose this most marked characteristic. They are tall and well proportioned. They look like Roman senators as they walk wrapped in skins resembling the ancient toga. Their appearance is not only prepossessing, but bold and self-reliant.

Many an amusing story is told of this small hill tribe, numbering about 400 men. An American missionary was working among them when one day he saw some women and boys building a hut of bamboo. He inquired why the men were not performing this labor, and one woman explained, "Husband mine don't work; me and boys build house."

The missionary made no further comment, but when the hut was built he told the husband that he must build another hut, as he could not live in a home made by women and children. But the surprised Toda answered: "No, no. Me no work. Man has boys and wife to work."

The Toda meant what he said. Although the missionary argued and finally horsewhipped the native, he could not get him to build a hut.

An equally amusing story is told by an English officer. He was so taken by the handsome appearance of one of the natives he wanted to take him to England and place him in his own regiment. The officer gave the native skins and silks until the Toda promised to become an English soldier. He was delighted with the officer's bright, gay uniform. He did not feel bad about leaving his country, his wife and children, but when he was told that soldiers work he said:

"Me no be an English soldier; me be Toda. Me no work; me no like work."

When the English officer tried to persuade him he made answer: "Take wife and boys; they be English soldiers—like work. Me stay home and rest; me be Toda."

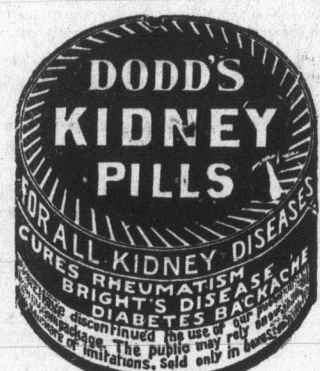

Canary Seed.

Perfectly clean seed is absolutely essential to the health of a bird. Do not trust to the appearance of the seed alone, but thrust your hand into the midst of a quantity, and if there is a dusty feeling after you have withdrawn it the seed is not sufficiently clean, says Home Chat. Canary seed, if of good quality, is very bright and plump in appearance and feels heavy in the hand.

That Old Swimming Hole

How to Develop the Highest Degree of Vital, Nervous and Muscular Vigor.

Snakes throw off their outer skin once a year. Human beings change their skins perhaps nine times in a year; that is, they have a new skin about once in six weeks.

The value of a clean skin in maintaining health is not properly understood by the majority of people. Cleanliness is a part of health. You cannot be healthy unless you are clean not only externally, but also internally.

The blood should also be assisted occasionally, like the skin, in throwing off poisons so that the system may not get clogged and leave a weak spot for disease germs to enter the system. When the blood is clogged we suffer from what is commonly called a cold.

Dr. Pierce's Golden Medical Discovery purifies the blood and entirely eradicates the poisons that breed and feed disease. It thus cures scrofula, eczema, erysipelas, boils, pimples and other eruptions that mar and scar the skin. Pure blood is essential to good health. The weak, run-down, debilitated condition which so many people experience is commonly the effect of impure blood. Doctor Pierce's Golden Medical Discovery not only cleanses the blood of impurities, but it increases the activity of the blood-making glands, and it enriches the body with an abundant supply of pure, rich blood.

ANNIVERSARY

The Cashmere Methodist Church
 Successful Services—Dr.
 Thornton Presided

Dr. A. W. Thornton has returned from Cashmere, where he conducted the anniversary services of the Methodist Church there, on Sunday, and delivered a lecture last evening on Ireland and the Irish. The church was crowded on all occasions and the services were considered very successful and satisfactory indeed.

Cashmere is the home of the Gardiner family, the late James Gardiner being one man who was chiefly instrumental in establishing religious services in that place. His name is still cherished there in the fondest memory and he is lovingly spoken of still as "The Squire." The hymn book on the pulpit has his name printed in it. The inscription on the cover bears his name, James Gardiner, and also the fact that the book was presented to him about 25 years ago.

Cashmere church is prospering. The House of Worship was erected six or seven years ago and is entirely free from debt.

A PUBLIC NECESSITY.

Accident and Sickness Insurance is no longer regarded as a luxury, but is now considered by thinking men as much a necessity as fire or life insurance. This is emphasized by the fact that the man who thinks he can't afford such insurance can in reality least afford to do without it. No better—and few, if any, as good—propositions in this line are offered anywhere than those of that progressive Canadian concern, The Empire Accident and Surety Company, whose head office is in the Temple Building, London, Ont. Their popular monthly payment policy should be investigated by all. Surety bonding is also a fine in which this Company is engaged, its bonds being accepted by the Dominion and Provincial Governments. The standing of the Empire Company, financially, is in the highest degree creditable, it being one of the few companies in Canada which has not resorted to the policy of drawing on its capital, thus leaving the capital unimpaired.

BICYCLES

Special Winter Care Means Considerable to the Rider

Do not allow your bicycle to be stored away for the winter with rusty and dirty bearings, as it will mean more harm than several seasons riding. Special care should be taken that they are stored in a good dry room and not resting upon the tires. The bearings should be all thoroughly cleaned and replaced in vaseline. All nickel parts should be well vaselined also, and the handle bars wrapped with cloth. This all prevents rust eating, and rust eaten comes make a bicycle very hard to push.

There are lots of bicycle riders who have no convenient place for their bicycles during the winter months and allow them to stand in some unsuitable place, which means ruin in the spring to put them in shape for riding.

Last season Brisco's cleaned and stored for the winter over four hundred bicycles. The charge for both cleaning and storing is only one dollar, the same price as you will pay to get your bicycle bearings cleaned in the spring. By phoning 297 or by leaving an order at Brisco's store your bicycle will be called for at once and returned to you next spring in good shape and ready for riding purposes.

CLOTHES STOLEN

Mrs Howard, King St., Woke up This Morning to Find Her Clothes Line Stripped

Petty thieving seems to be the rage in Chatham just at present. In the west end, ducks and butter are stolen, while in the east end clothes lines are stripped.

Yesterday was wash day and Mrs. Howell, King street, had an extra large one. On this account she was late "getting it out" and the clothes were not all dry by night so she decided to leave them out on the line all night.

Some person or persons passing the house during the night evidently admired Mrs. Howell's fine washing and seeing a number of garments which they were in need of coolly took them off the line and carried them home. Perhaps they are wearing them to-day—at any rate Mrs. Howell is not.

The matter has been reported but as yet no trace of the missing clothes has been found. The incident has caused no little comment in the east end and if the guilty parties can be found an example will be made of the case.

The neighbors have all taken warning and henceforth when washings are not dry when night comes, the drying process will be finished with the aid of the kitchen stove.

ANOTHER ROBBERY

The thieves who stole the two ducks and the pumpkin pie from W. H. Bragg were not content with that alone. They evidently had large families to provide for and this was not sufficient to supply their needs.

It has been reported to the police that on the same night as the Bragg robbery—Saturday night—some person or persons, presumably the same, entered the home of Ald. W. Marshall, who lives on the same street, and got away with a number of pies, several jars of fruit and some rolls of butter.

P. C. Dezela is working on the case and it is believed the thieves will soon be rounded up.

JENKINS--BENNETT

A very pretty event was celebrated last Saturday afternoon about three o'clock, when Miss Mae Bennett, of Brigidon, was united in marriage to Albert Jenkins, a well known young citizen of this city. The ceremony was performed at the bride's home in Brigidon, by Rev. Mr. Henderson, in the presence of a large number of friends and relatives.

After luncheon the young couple left for London to visit relatives of the bride. They intend making their future home in Chatham.

Black Broadcloths and Venetians

The Aristocrats among Dress Fabrics.

When any store can point to the reputation this store can for the Dress Goods as a whole, it can point to reputation for BROADCLOTHS and VENETIANS, for where can you discover a more final test? Black Goods stand or fall under criticism, by quality alone. There can be no novelty to distract attention. The pure merit of the goods forms the standard of comparison.

BROADCLOTH or VENETIANS to be satisfactory must be good.

Our Broadcloths are the choicest from the best foreign markets. We are showing Broadcloths and Venetians in satin finish, Velour finish, Sedan finish, Chiffon finish, Domestic finish, Dull Black and Mourning Finish. We shrink and sponge every piece we sell and guarantee them not to spot or shrink. their paving plant during the time they were not running in Chatham. Referred to Finance.

Mr. Farrell asked permission to rent a stall in the market and also to sell medicine on the square. Referred to the Property Committee.

Chairman Austin, of the Industrial Committee, reported as follows:

That the account of the Water Works Department against the Defiance Iron Works, as amended, for \$38.39, be paid by the city in conformity with the agreement with the Defiance Iron Works.

The report was adopted.

PROPERTY COMMITTEE.
Chairman Westman, for the Property Committee, reported as follows:

1. Re the resignation of Mr. Side as electric lineman, we recommend the same be accepted.

2. Re the appointment of the electric lineman to fill vacancy, we recommend that Mr. Walter Moore be appointed at same salary, duties to commence at once.

3. Re the purchasing of fire extinguishers, we recommend that the city order a half-dozen complete extinguishers for the use of the fire department.

The report was adopted.

INQUIRIES.
Under the head of inquiries, Ald. Edmondson asked when the Board of Works are going to have the wind-breaks placed on the bridges.

It will be done right away.

Ald. Austin—When will the new caretaker assume his duties at the market square?

? Ald. Westman—He will be on in a few days.

Ald. Austin—Is it the intention of the Property Committee to have the rules placed up in the market building?

Ald. Westman—Yes, as soon as we get in running order.

The Mayor—Why is all that tile piled up on Pine St., when the sewers will not be put down this year?

Ald. Ainsworth—It is the intention of the Board of Works to put the sewer down this year if possible.

The Mayor—Re the sprinkling of the streets, has any provision been made for days like last Saturday? Business people were complaining about the dust.

The Board of Works replied that it was the intention to have all the streets cleaned this week.

The Mayor—Why was the basement of the market building filled with dust on Saturday. It was very unsanitary.

Ald. Westman—The basement was swept on Thursday. On Friday some varnishing was done and the place could not be swept out again as the dust would injure the varnish.

The Mayor—I understand about four or five barrels of filth was taken out of the menhole on Richmond street. Are the other sewers in town in the same shape?

Ald. O'Keefe—That was an exceptional case.

Ald. Potter—Do I understand the Board of Works will look after the sewers?

The Mayor—They are doing so now, I understand.

Ald. Potter—Shouldn't they look after the other sewers also?

The Mayor—The Engineer and the Board of Works should do so.

Ald. O'Keefe—That is a sanitary matter and should be reported by the Sanitary Inspector.

The Mayor—Complaints reach the Sanitary Inspector when some one dies. The Board of Works should look after it.

Ald. O'Keefe—We will have all the sewers examined.

WATER MAIN EXTENSION.
The Mayor—What is the Finance Committee going to do with the water main extension scheme?

Ald. Austin—That was discussed at the last meeting of the committee. I think it is the intention to report that it is not advisable to make any recommendation to the Council at the

NO DOUBT ABOUT
ROBT. BOND'S CASE

He Was Cured of Bright's Disease by Dodd's Kidney Pills

Doctors said there was no hope for him but he is a Well Man Now.

Mount Brydges, Ont., Nov. 13.—(Special).—That Dodd's Kidney Pills cure Bright's Disease completely and permanently has been clearly shown in the case of Mr. Robert Bond, a well known resident of this place. Mr. Bond does not hesitate to say he owes his life to Dodd's Kidney Pills.

"My attending physician," Mr. Bond states, "said I was in the last stages of Bright's Disease and that there was no hope for me. I then commenced to use Dodd's Kidney Pills and to other remedy. I used in all about twenty boxes when my doctor pronounced me quite well. I have had no return of the trouble since."

Bright's Disease is Kidney Disease in its worst form. Dodd's Kidney Pills always cure it. They also cure milder forms of Kidney Complaint.

STRUNG UP AND SHOT.

Charges Which Are Made Against German African Expedition.

London, Nov. 13.—Several British subjects who have returned to Cape Town from German Southwest Africa, tell extraordinary stories of the hanging and shooting of women and children by the German columns operating against the native rebels.

A young Transvaal Dutchman named F. Wepener stated that at Okanist eight women and six children were strung up to the trees by the neck and then shot. The Germans said that they were spies, but they were captured with the natives with whom we have been fighting, and some of the children could not have been older than five years.

"All the men and children captured on the march were treated in the same way. I have seen at least twenty-five of them hanged and shot."

THIS MEDICINE IS BREATHED.

That's why it is so to cure Catarrh. You see it goes direct to the source of the disease—its healing vapor repairs the damage caused by catarrhal inflammation. "Catarrh-ozone" always cures because it goes into those tiny cells and passages that ordinary remedies can't reach, goes where the disease actually is, impossible for "Catarrh-ozone" to fail as any doctor will tell you. Don't be misled into thinking there is anything as good as Catarrh-ozone—use it and you'll soon say good-by to catarrh.

6,000,000 Went to Antwerp.

Liege, Belgium, Nov. 13.—At the International Exposition, which has just been brought to a successful close. The exposition had six million paid admissions, and 60 important congresses were held. The demolition of the buildings has begun. Many exhibitors are shipping their exhibits to the Milan Exposition.

THAT PALE, TIRED GIRL.

She is in society, in business, at home, everywhere you see her, but always worn and fatigued. She has not heard of Ferreroze or she would be perfectly well. How quickly it strengthens—a glow an appetite it gives—what a glow it brings to pallid cheeks! The nutrient contained in Ferreroze puts strength into anybody. Laughing eyes, rosy lips, and bright, quick movements all tell of the vitality Ferreroze produces. Thousands of attractive, happy women use Ferreroze—why not you? CONCERNING COMPANY.

Perfect and Genuine Hospitality May Be a Very Simple Matter.

As a rule, the chief anxiety of a hostess seems to be how she shall feed her guest. Now, while food is necessary and good, it is not the most important thing in life, and a visitor ought to care more for the society of her hostess than for an elaborate dessert or complicated dish. It is of course only natural to wish to give our friends the best, but let it be the best of ourselves rather than of material things.

The most perfect hospitality I ever experienced was that of a college chum who, some years after graduating, managed to get three classmates together for a couple of days at her summer home. On her way up from the station she said: "The market here is not very good, and Hannah is the plainest of plain cooks, but we will eat what she provides, for I am not going to waste any time on food while you are here. I want to spend every minute enjoying you, for we may never be all together again." So we had an abundance of simple food and were perfectly happy in seeing each other.

We four have never been together again, and it is probable that we shall never have such another opportunity, but we look back on those two days and feel that we have had one perfect visit. The guest who is worthy of being entertained at all comes to see you not to eat your food or to upset your ordinary ways of life. The tendency is to make it all too much a matter of show rather than of friendship.

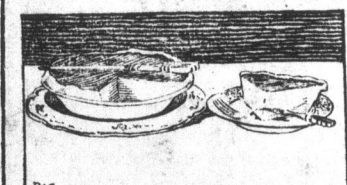

It is no wonder that our mails do not receive the announcement of approaching company with enthusiasm. Why, indeed, should they? All the trouble falls to their share and none of the enjoyment. Moreover, much of the trouble is quite unnecessary. I know a family where all the "waiting on table" ordinarily required of the one maid is to remove the dishes between the roast and the dessert, with no more uniform than a clean apron over her calico dress; but when there is company, behold a startling change! The usual plain dinner of two courses is expanded by the addition of soup, salad and coffee, and the maid, hustled into some sort of black garments, has to cook the meal and also serve it as if she were "second girl" instead of "general housework." Is it any wonder that company is not considered an unmixed blessing in that kitchen?

It is delightful to have our meals nicely served by a well trained waitress, but if we are not accustomed to so doing every day any departure from our usual methods is sure to prove unsatisfactory. It is largely our own fault if we make hospitality a burden to ourselves and others. It ought to be the source of the purest pleasure.—Ethel Williams in Boston Cooking School Magazine.

New Hampshire Custard Pie.

Custard pie is always a favorite, and a very tempting variety of it is the New Hampshire article, for which Boston Cooking School Magazine gives the following recipe: Beat four eggs until light and thick. Then beat in half a

teaspoonful of salt and three-fourths of a cup of sugar and, gradually, three cups of rich milk. Bake in a deep earthen plate lined with pastry in a moderate oven until the center feels firm to the touch.

CUSTARD PIE.

Pour a cup of cold water over two quarts of oysters; look over one by one to remove bits of shell. Strain the liquid through a cheesecloth, add a pint of chicken liquor and heat to the boiling point. Then add the oysters and again heat to the boiling point. Skim out the oysters and add, with the strained liquid, to a soup made as follows: Cook two-thirds of a cup of sifted flour, a teaspoonful of salt with a dash of black pepper and half a cup of butter and stir into three pints of milk scalded, with two slices of onion, two stalks of celery, a sprig of parsley and a bay leaf. Stir and cook until smoothly thickened, then stir occasionally for twenty minutes and strain over the oysters and liquor. Finish with half a cup of hot cream and two tablespoonfuls of butter, stirred in at the last in little bits. The quantity will serve from ten to fifteen persons, according to an exchange, which gives this recipe.

The quantity will serve from ten to fifteen persons, according to an exchange, which gives this recipe.

A Fuel Item.

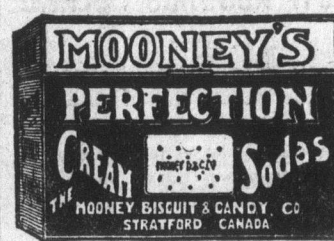

After experimenting all last winter to find a suitable fuel for our grate we discovered that the soft coal commonly used on railroads is productive of the greatest heat, says a Good House-keeping correspondent. It comes from the dealer at a price not exceeding that of stove coal and consists of large chunks mixed with a fine powder, which burn to a glowing solid mass and leave no ashes to be sifted. It requires far less attention than the ordinary grate fire, remaining cheerful for a long time after the blower has been removed.

Decorative Lamps.

Lamps of the decorative class are more popular than ever, especially for country houses, where the soft glow produced by silken shade and stained glass is very artistic and desirable.

To Cleanse the Face.

Ontario Hockey Officers.

Toronto, Nov. 13.—The Ontario Hockey Association in concluding its sixteenth annual meeting here Saturday passed a unanimous resolution recording its highest appreciation of the retiring president, Mr. John Ross Robertson, after six years of service and it was decided to further honor Mr. Robertson by making him the recipient of a fitting testimonial. The election of officers resulted as follows: President, D. L. Darroch, Collingwood; first vice-president, J. C. Makins, Stratford (accl.); secretary, W. A. Hewitt, Toronto (accl.); treasurer, A. W. Macpherson, Peterboro (accl.); executive, L. B. Duff, Welland; H. D. Jamieson, Barrie; D. J. Turner, Midland; R. J. Burns, Toronto.

CATARH CANNOT BE CURED

with Local Applications, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces. Hall's Catarrh Cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarrh. Send for testimonials free.

Monument to Atlantic Victims.

Halifax, N. S., Nov. 11.—The monument to be erected at Terrence Bay, N. S., in memory of those lost in the wreck of the steamer Atlantic will be an obelisk of undressed granite, 8 feet 6 inches in height, and upon a slab of white marble let in one side will be the following inscription: "Near this spot was wrecked the steamer Atlantic, the 1st of April, 1873, when 562 persons perished, of whom 277 were interred in this churchyard. The monument is erected as a sacred memorial to a sympathetic friend, Jesus said: 'I am the resurrection and the life.'"

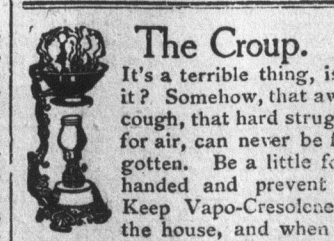

HERB. W. EDWARDS INJURED.

Herb W. Edwards, of Des Moines, Iowa, got a fall on an icy walk last winter, spraining his wrist and knee. "The next day," he says, "they were so sore and stiff I was afraid I would have to stay in bed, but I rubbed them well with Chamberlain's Pain Balm and after a few applications all soreness had disappeared. I feel that this bottle of Pain Balm saved me several days' time, to say nothing of the suffering." This liniment is for sale by all druggists.

Too Methodical.

Hicks—My wife is very methodical. She's always got a place for everything and everything in its place. Wicks—So has mine, but I can never find the place.

If we rightly estimate what we call good and evil we shall find it lies much in comparison.—Locke.

It's a terrible thing, isn't it? Somehow, that awful cough, that hard struggle for air, can never be forgotten. Be a little forehanded and prevent it. Keep Vapo-Cresoline in the house, and when the children take cold let them breathe in the vapor during the evening. It goes right to the throat, just where the croup lies. All irritation subsides the cough quiets down and serious trouble is prevented. It never fails to cure whooping-cough.

Vapo-Cresoline is sold by druggists, or sent express prepaid on receipt of price. A Vapo-Cresoline outfit, including a bottle of Cresoline complete, \$1.50. Send for free illustrated booklet. L. S. J. & Co., Ltd., Agents, 208 St. James St., Toronto.

NOW ABSORBS POLAND

Russia Has Served Notice on the Polish Nationalists.

That Country Is An Integral Part of the Empire of the Czar—Emperor Proclaims Martial Law in Poland Until Such Time as They Get Over Their Political Intoxication—Creates a Panic on the Bourse.

St. Petersburg, Nov. 14.—Poland is not to be permitted to become a second Finland. The Russian Government in a strongly worded communication published yesterday morning serves notice on the Polish nationalists that the ancient kingdom of Poland has now become an integral part of the Russian Empire, and that while the Government intends to fully observe the national rights of Poland, any attempt to wrest Polish autonomy from the Emperor would be considered an act of revolt.

The ukase says:—"In accordance with the ukase of December 25 last the exceptional laws hindering the free development of the nation were abrogated and the Poles were given the same rights as the Russians. The general measures adopted by the Government were extended to Poland, which also was given the right of participation in the duma and freedom of meeting. Finally, on October 30 the Poles were fully recognized as free citizens, thereby obtaining full opportunity to prove their capacity.

Dangerous and Insolent. "Forgetting the painful lessons of the past, the politicians who are directing the national movement in the Kingdom of Poland are making attempts as dangerous for the Polish population as they are insolent toward Russia to bring about the separation of the empire.

"There could obviously be no question of realizing pacific principles in a country in revolt. Therefore, for the restoration of order all the districts of the Vistula are temporarily declared to be in a state of war.

"The future of the Polish people thus depends upon themselves. The Government having a desire to continue safeguarding the integrity and national rights of the Polish people, expects the people to recover from the political intoxication which has come over the kingdom of Poland, the population of which has become a prey to the agitators, while at the same time it is putting the people on guard against entering a dangerous path which, unfortunately, they have not for the first time trod."

Bourse in a Panic. The formal proclamation of martial law throughout Russian Poland and the promulgation of the Government's intention to suppress the Polish movement to secure autonomy almost created a panic on the bourse yesterday, imperial funds again falling to 86. Industrialists seem to have no bottom.

The city was full of rumors to the effect that the imperial ukase was issued over Count Witte's head at the instigation of the reactionaries, which is equivalent to the count's retirement, but it can be stated with positiveness that the action was taken upon the Premier's advice.

Assurances of Support. It is generally believed here that both Germany and Austria have given Russia assurances of support, but of what nature cannot be learned.

The present move in Poland certainly will not receive the sympathy of the Governments beyond the western border.

The danger is that the Poles may provoke an active measure which would mean nothing short of civil war. The number of troops, 600,000, in Poland, however, is sufficient to cope with the situation.

Cabinet Meets. The second session of Count Witte's new Cabinet was held yesterday afternoon.

The council decided to remit a portion of the land payments due next year by the peasants in the provinces affected by the famine, and to remit entirely the payments for 1905, due on land held by peasants killed during the war. The amount remitted totals \$13,000,000.

Agrarian Disorders. Disquieting reports of the progress of the agrarian disorders were received last night. The military authorities are rushing troops and machine guns into the affected areas. Inhabitants of Kark and Tutugansk are organizing for the protection of their respective towns. The village of Balantia, in the Government of Saratoff, has been fired by peasants.

Odessa Jews Rejoice. Odessa, Nov. 14.—The dismissal of Prefect Neidhardt, to whom is attributed the responsibility for the recent outrages, was announced last night and caused much rejoicing among the Jewish population. His successor, Gen. Gregorieff, is a conservative anti-semit.

A Jewish engineer named Abrahamson has been made manager of the South-Western State Railroad. The announcement of his appointment caused a sensation.

Mutiny in Garrison. Helsingfors, Nov. 14.—A revolt broke out Saturday in the garrison of Sveaborg. Hundreds of the men claim they have been retained with the colors from two to three years beyond the legal period of service and also complain of their conditions of life. The mutineers refused to obey orders, and in several of the barracks beds, chairs and kitchen apparatus were thrown out of the windows. There was no bloodshed.

Looks Like a Battle. London, Nov. 14.—The St. Petersburg correspondent of The Daily Mail says that 24,000 Georgians armed with modern rifles, hold Georgia (in Transcaucasia), despite the three important Russian forces converging thereon, and that, except for runners, Georgia has been completely isolated for many days.

Resurrection at Vladivostok. London, Nov. 14.—The Shanghai correspondent of The Morning Post reports that blood has been shed in resurrection at Vladivostok and that

foreign residents there are asking for warships for their protection.

Tolstoi a Minister. St. Petersburg, Nov. 14.—Count John Tolstoi, who resigned the position of head of the Academy of Fine Arts, owing to Gen. Trepoof's representative policy, was yesterday appointed Minister of Education.

Odessa's Death List. Odessa, Nov. 14.—The death list of Jewish victims to the recent outbreak here has been increased by 114, who succumbed to injuries.

Russian Prisoners Released. Yokohama, Nov. 14.—Thirteen hundred and seventy-four Russian prisoners, including 1,352 bluejackets from Port Arthur and one colonel, one lieutenant-colonel, and eleven soldiers, captured at Kluden-chang and Telsau, have been released.

Gin Pills Cure Kidney Troubles.

OR YOUR MONEY BACK.

Read this letter from Mrs. Gargill. Has it not the ring of truth? Does it not describe your own sufferings? And does it not point the way to quick relief?

"For three years I suffered more than I can tell with terrible pains in the small of my back. When I stooped over, it seemed as though I would never be able to straighten up. I tried Kidney Pills for a year and a half, but was getting worse all the time, until advised by my neighbor to try 'Gin Pills,' as she had been almost similarly affected and had been completely cured by them. I took three boxes of Gin Pills, and almost from the first dose I began to feel better. Now I am pleased to say I can do as good a day's work as ever in my life without feeling tired out. Before getting Gin Pills I had to have a girl to do my housework, but now I can do it myself, including the washing. I will always recommend Gin Pills for kidney trouble."

"MRS. GARGILL, Winnipeg, Man." Don't suffer the agonizing tortures of Kidney Trouble. Don't let it run into dreaded Bright's Disease. Cure yourself now with Gin Pills—the pills that cure. Sold at all druggists on a positive guarantee that they cure or you get your money back. 50c box—6 for \$2.50. If you will write asking for it and tell us the paper in which you saw this we will send you a trial box of Gin Pills absolutely free. The Bole Drug Co., Winnipeg.

14 Months For Object Lesson.

New York, Nov. 14.—Harry A. L. Conrad, the young Wall street clerk who stole \$359,000 worth of securities from the City National Bank, recently, was yesterday sentenced to 13 or 14 months' imprisonment in Elmira Reformatory. He pleaded guilty and Judge McMahon, in giving sentence, said he believed the boy's story that he took the securities as an object lesson to Wall street of the ease with which such thefts might be made.

FALL CATARRH

Disease Prevalent Now, But Can be Quickly Cured With Hyomei.

A great many people suffer more with catarrh during the fall months than at any other season of the year, the changes in the weather seeming to have a bad effect upon the disease.

Some of the cures made by Hyomei seem marvellous when one remembers that the patients had suffered from catarrh since childhood and that for years they had been unable to get a good night's sleep, on account of the disagreeable tickling and dropping at the back of the throat caused by this offensive disease. A few days treatment with Hyomei brought quick relief, and its continued use made a complete and lasting cure.

By breathing Hyomei through the pocket inhaler that comes with every outfit, all the air passages of the lungs and throat are filled with air laden with Nature's own remedies for the cure of catarrh. All disease germs are killed, and the irritated mucous membrane is healed.

The complete outfit costs but \$1.00, extra bottles 50 cents. Compare this small expense with the fees charged by specialists.

If you cannot obtain Hyomei of your dealer, it will be forwarded by mail, postage paid, on receipt of price. Write to-day for consultation blank that will entitle you to services of our medical department without charge. The R. T. Booth Company, Hyomei Building, Ithaca, N. Y.

OVERCOATS

We want to talk Overcoats to you today. Our ready-to-wear Overcoats stand in a class by themselves. They have a distinctive character, style swing and an individuality that you will not find in other ready-made coats. It takes more cloth and more time to make them than it does the sorts you will see in most stores, yet it takes no more money to buy them.

Come in and see the full, long, luxurious coats we are showing for men and young men, put one on and note the style points.

There are plenty of different styles and materials to suit the severest critics.
