TERTMS OASEX.
LONDON HOUSE, • QUEEN SQUARE, CHARLOTTETOWN.

# NOTES EXPLANATIONS 

## For the Calendar of 1880.

On the Left Hand Page, for each month, will be found the day of the Month and Week; the Tine of Sun's Rising and Setting (local mean time to nearest minute) ; the Equation of Time (correction to be applied to time as found by Sun-dial or astronomical observation) is given for the instant of Greenwich Apparent Noon.

The Sun's Declination is given for Greenwich Mean Noon. If declination at Apparent Noon is required-as for Meridional observations, it may be found by multiplying the hourly variation by the Equation of Time reduced to the decimal of an hour, and applying the result to the Declination at Mean Noon-being careful to subtract when the declination is decreasing, and the Sun slow of Clock; or when the declination Is increasing and the Sun fast,--and to add when the declination is decreasing and the Sun fast; or decination increasing with the Sun slow.

## EXAMPLE.

To find Sun's Declination at Apparent Noon, November 1st 1880.

Nov. 1. Mean Noon, hotrly variation of Dacl'n $=47.75$
60) 19.24 Equation of Time $16 \mathrm{~m} .19 .24=.2720$
$6 0 \longdiv { 1 6 . 3 2 0 6 }$
.2720

## Declination at Apparent Noon $\begin{array}{lll}14 & 39 & 10.1 \\ & 12.988\end{array}$

In place of the days length, (which may always be found by adding together the hours before and afternoon,) the Sun's Semi-diameter is given to the nearest tenth of a second for every day throughont the year.

On the right hand page are given the Lunar Phenomena generally, viz., the Moon's changes, bearing at time of change, Rising, Southing and Setting, Perigee and Apogee. Declination and time of high water at Charlottetown, all reduced to the nearest minute, Charlottetown Mean Time.

Bruce \& McKenzie's, Full's Building, 72 Queen St., Ch'town.

## A. A. BALDWIN \& Co.

 Importers, Jobbers \& Retailers of HARDWARE, Carriage Stock, Paints, Oils AND VARNISH, HEAD QUARTERS FOR Henry Disston \& Sons SAWS, Thomas Firth \& Sons' CAST STEEL, Elisha Broad's CHOPPING AXES $\operatorname{AND}$ DDEE POOLS, Fishing Supplies, concentrated potasi, Uuns, Distols, gupow der, de, AGRICULTURAL TOOLS, \&c. Five per cent, taken off marked Prices at Retail for Cash. 'GREENBACKS BOUCHT AND SOLD. QUEEN STREET, CHARLOTTETOWN, P. E. I.

The High Water is given for once in the 24 hours, but the intervening tide may be found by taking the mean of the adjacent times as marked in the Calendar, interchanging $P$. M. and A. M., as the case may require. Thus to find the A. M. Tide on January 2nd, take

$$
\begin{aligned}
& \text { January 1. } 0 \mathrm{~h} .50 \mathrm{~m} \text {. afternoon, } \\
& \text { " 2. } 1 \quad 26 \\
& \text { 2) } 2 \quad 16 \\
& \text { January 2. } 18 \text { morning. }
\end{aligned}
$$

## ECLIPSES.

There will be six Eclipses during the year 1880 :-Four of the Sun and Two of the Moon.

1. A Total Eclipse of the Sun, January 11th, 10h. 48 m . 13sec., Greenwich Mean Time, partially visible in the North Pacific Ocean and the Western Coast of North America.
2. A Total Eclipse of the Moon June 22nd: 1h. 45 m . 2 sec . Greenwich Mean Time, invisible on this side of the Globe.
3. An Annular Eclipse of the Sun, July 7th, 1b. 34 m . 34sec., only visible as a partial Eelipse at the Cape of Good Норе.
4. A Partial Eclipse of the Sun, Dec. 1st, only visible at the Southern Frozen Ocean.
5. A Total Eelipse of the Moon, December 16th, 3 h . 37 m ., Greenwich Mean Time, partially visible at Greenwich.
6. A Partial Eclipse of the Sun, December 31st: Greenwich mean time of opposition, 2 h .5 m .41 sec ., $2 \mathrm{p} . \mathrm{m}$., visible at Charlottetown, commencing just about sunrise. Instant of first contact 8 h .6 m .30 sec ., last contact 10 h .0 m .30 sec . (Mean Time), middle of' Eelipse and greatest obscuration 9 o'clock, proportion of Sun's diameter Eelipsed . 54 of the upper part.

## OCCULTATIONS.

There will be three Occultations of Planets by the Moon: namely of Mars in March 17th, Greenwich Mean Time 1th. 28 m . $16 \mathrm{sec} .$. April 15th, Greenwich Mean Time. 3 h .26 m . 29 sec . and Venus, November 4th, Greenwich Mean Time, 7h 55 m .28 sec.

The only one observable at Charlottetown, will be that on St. Patrick's Day, the others occuring in the day time.

The Moon will be then just upon the first quarter. The Planet will disappear a little below the middle of the dark

limb of the Moon, 24 minutes past 7 in the evening, and will re-appear at the bright side a little above the middle, at 44 minutes past 8 Mean Time, being exactly behind the centre at 4 minutes past 8 .

## PLANETS.

Mercury.-The most favorable time for seeing this Planet will be in the evening, during the latter half of June till the middle of July, when he may be found for about an hour after sunset to the N. W.

Venus.-Will notappear as an evening star, till the last week of July, after which time she will be seen to the Westward during the remainder of the year.

Mars.-Will be visible every night during the greater part of the year; on January 1st, coming to the Meridian about 8 o'clock in the evening, setting at half-past three in the morning and earlier each day till he sets with the Sun in the middle of October, afterwards to re-appear as a morning Star towards the end of the year.

Jupiter.-Will be an evening Star till he sets with the Sun on the 17 th March, after which he will re-appear in the east bebefore sunrise, reaching the Meridian at midnight on the 4th October, becoming an evening Star to the end of the year.

Saturn.-Beginning the year about $30^{\circ}$ to the East of Jupiter the same remarks apply to him as to that Planet, save that he sets with the Sun on the 23rd March and is on the Meridian at midnight, on the 14th October.

There will be no conjunctions between the Planets, but such as oceur too near the Sun's radiance to be observable.

## TIDES AND TIDAL CONSTANTS.

The following Table gives corrections to be applied as directed to the time of high water at Charlottetown, to find the Tides at the several places mentioned therein.

It must be understood that the Time of High Water in these parts is only approximately correct, as the course of the tides is much influenced by Storms, etc., having effects not universally felt.

FULL VALUE GIVEN FOR OLD GOLD OR SILVER, In exchange for Goods, at

Bruce \& McKenzie's, Full's Building, 72 Queen St., Oh'town.

TYET 母 PAMTETMAR.

Remarks.-1. The nearer the Moon's changes to midnight the fairer the weather will be during the next seven days; the nearer to mid-day the rougher and more stormy. The former time occupies from $10 \mathrm{p} . \mathrm{m}$., to $2 \mathrm{a} . \mathrm{m}$., the latter from $10 \mathrm{a} . \mathrm{m}$., to $2 \mathrm{p} . \mathrm{m}$.
2. The phases happening from 4 to $10 \mathrm{p} . \mathrm{m}$., may be followed by fair weather; but this chiefly depends upon the direction of the wind.
3. If a storm arises from the East, on or immediately preceding the Spring Equinox, or a week after, the follow. ing Spring or Summer will be wet four times out of five; if from the West, North or S. W., the Spring and Summer will be dry five times out of six. as made by the Customs Department for the guidance of Collectors.

## SCHEDULE A.

Goods subject to Duties.
PER CENT.
Acid, Sulphuric, $\frac{1}{2}$ cent per lb. Acetic. 12 cents per Imp. gal. Muriatic and Nitric, ad val.

3 cent per yard \& ad val
Cotton warps, yarns, \&c.,
4 not bleached, dyed or
3 col'd, 2 cts per 1 b and

Price, $\$ 2.50$ per year.

## A Complete Moral Story in each Number.

Its Aim and ©bject.-There has been for a long time a demand from the religious and moral public for a class of cheap moral and religious reading matter, which ought to take the place of the immoral and sensational literature of the present day, which is being placed in the hands of the children, and eagerly sought after in many homes. The publishers of The sunday Library have determined to place within the reach of every man, woman and child, a moral and religious story, free from all sectionalism and denominationalism, each story teuching some great fundamental truth, which shall be instrumental in building up strong Christian characters, and fitting every one to take a bold and strong stand on the side of Truth, Honesty, Temperance and Christianity.

Our Plan.-It is the plan of the publishers to publish, in Library form, a story, written by a first-class and popular author, and which. if printed in book form, would sell for from $\$ 1.00$ to $\$ 1.75$, but many of which have heretofore been beyond the reach of families in moderate circumstances.
(To Pathers and Mothers.-It is a well-known fact that children will read whatever is placed in their hands, and it has been a misfortune that so little of the pure and good literature, and so much of that which is calculated to mislead and destroy the mind, has been placed before them. If every parent will see that his family is supplied with this Library as they are issued, a good work will be accomplished, with little labor and at a trifling cost. This has been one of the strongest motives of the publishers in bringing out this class of literature in cheap form, that every family in the land shall have this educational work going on quietly, but none the less effective in the formation of character.

Size and Style.-THE SUNDAY Library, the size of page being $8 \times 12$ inches, is printed on the best white, heavy paper, from new, clear type of good size, and each number will contain a complete story. No pains or expense will be spared to make it acceptable and desirable to the most eritical.

Prices.-A SiNgle Number, containing from thirty to forty pages, Ten Cents. An Extra Labge Number, containing from forty to sixty pages, Fifteen Cents. A bouble Number will be issued occasionally in order to print an extra large story, containing from sixty to one hundred pages, Twenty Cents. To yearly subscribers, semi-monthly, $\$ 2.50$ per year in advance.

The Following seven Numbers, the cost of which in book form is $\$ 8.50$ will be sent to any address, post-paid, on receipt of Eighty Cents. send money by post-office order or registered letter.

Nellie, the Clockmaker's Duughter, by F. .M C. W.; 10 cents. Not Forsaken, by Agnes Giberne; 10c. Bede's Uharity, by Hespa stretton; 15 c . Life of Rev. T. DeWitt Taimage, D.D., with History of Brooklyn Tabernacle, by Lov. John Lobb, D.D., F.R.G.8.; 150. The Young Apprentice, by the author of "Fern's Hollow"; 10c. Sheer O"I, by A.L.O.E.; 150. In Prison and Out, by Hesba Stretton; 10c.

RATES OF POSTACE.
RATES OF POSTAGE ON LETTERS WITHIN THE DOMINION OF CANADA, TO NEWFOUNDLAND AND THE UNITED STATES.

```
ON A LETTER WEIGHING
```

Not more than $\frac{1}{2}$ an oz
More than $\frac{1}{2}$ an oz. but not more than 1 oz .

More than 1 oz . but not more than $1 \frac{1}{1} \mathrm{oz} . |$ and so on, three cents being charged for every $\frac{1}{2} \mathrm{oz}$., or fraction of a $\frac{1}{2} \mathrm{oz}$.

The rate of Postage on a letter posted within the Dominion of Canada, for transmission by Mail to any place in Canada, is three cents per half ounce weight; but the Statute provides that this rate mnst be prepaid by Postage Stamp at the time of posting the letter.

Any such letter posted wholly unpaid (or prepaid less than one full rate of three cents) canaot be forwarded to its destination, but will be sent to the Dead Letter Office, with the reason plainly written or marked upon it-" postage not prepaid."

Letters as aforesaid posted in Canada, and addressed to places in Canada, when weighing more than half an ounce, and liable therefore to two or more rates of Postage, will be transmitted by mail to destination, though not fully prepaid, if as much as one full rate of three cents has been prepaid thereon by postage stamp; and in such cases will be forwarded charged with donble the amount of deficient postage not prepaid: Thus, if such a letter weighing more than $\frac{1}{d} \mathrm{oz}$., and not exceeding 1 oz . in weight, be posted prepaid 3 cents only, it will be rated 6 cents unpaid-" more to pay"-and forwarded to its address.

On letters posted at an Office to be delivered from it, commonly known as "drop letters;" the rate is 1 cent per $\frac{1}{d} \mathrm{oz}$.; to be in all cases prepaid by postage stamp affixed to such letters when posted.

The charge for the Registration of a letter is 2 cents, to be prepaid by Registration stamp.

## CANADA AND NEWFOUNDLAND.

Letters for Newfoundland are charged at the rate of five cents per half ounce, and must in all cases be prepaid.

Bruce \& McKenzie's, Full's Building, 72 Queen St., Ch'town.

(둫 Please give us a call.

CHARLOTTETOWN, P. E. ISLAND.

Can suit you to Anything" in Dry Goods.

The Registration fee to Newfoundland is the same as to places within the Dominion, viz., 2 cents to be prepaid by Reglstration stamp.

## CANADA AND THE UNITED STATES.

The rate of postage upon letters passing by mail between Canada and the United States is the same as to places within the Dominion, and must in all cases be prepaid by postage stamp.

The Bagistration fee to the United States is 5 cents, to be prepaid by Registration stamp.

TRANSIENT NEWSPAPERS AND PERIODICALS,
Addressed to Great Britain must be prepaid by postage stamp Two cents per 4 oz . each packet.

PARCEL POST.
To any part of the Dominion, for each Parcel weighing Not more than $4 \mathrm{oz} ., 6$ cents.
Exceeding 4 oz ., and not exceeding 8 oz ., 12 cents, Each additional 4 oz ., or fraction, 6 cents.
Parcels should not exceed 5 lbs . in weight, or 24 inches in length, or 12 inches in breadth, and should be marked " by Parcel Post." Parcels may be registered by affixing a 5 cent Registered Letter Stamp thereto, in addition to the Postage.

MISCELLANEOUS POSTAL MATTER.
viz., BOOKS AND PAMPHLETS, PRINTED CIRCULARS, PRICES CURRENT, HANDBILLS, ETC., ETC.

CANADA AND THE UNITED STATES.
When posted addressed to any place in Canada or the United States, and not exceeding 5 lbs. in weight, 24 inches in length, and 12 inches in breadth or depth, must be prepaid by Postage Stamp at the rate of 1 cent per 4 ounces in weight, and must be put up so as to admit of inspection. Such books, papers, returns, etc., must not be accompanied by any instructions or directions.

The rate of postage on Seeds, Cuttings, Bulbs and Roots is 1 cent per 4 oz ., the weight of a package not to exceed 24 oz .

PATTERN AND SAMPLE POST.
CANADA.
Patterns and Samples of merchandize, not exceeding 24 oz . in weight, when posted in Canada for places within Canada or Newfoundland, must be prepaid by postage stamp at the rate of One Cent per 4 ounces weight, and put up in such a manner as to admit of inspection.

# Grand Diet of Worms! DISSOLVED BY <br> <br> WATSON'S <br> <br> WATSON'S SCHOLEDION, 

 SCHOLEDION,}

Which is offered to the public as a perfectly safe, pleasant and efficacious Expeller of Worms from the human system.
As this preparation contains no mineral ingredient, the administration of it to young children is not followed by the dangerous, and-in many cases-fatal consequences resulting from the use of many of the Vermifuges at present before the public.

A compliance with the directions accompanying this, will prove that it deserves the character claimed for it above; while the promptness and painless character of its action render it the cheapest and safest remedy for worms hitherto discovered.

DIRECTHENS.
A child, from 6 months to 1 year may take $\frac{1}{8}$ stick.

To be given at night on going to bed, and on getting up in the morning, fasting for three hours after. Two to four doses, according to symtoms, will entirely eradicate every species of worms.

Charlottetown, 21st Sept., 1869.
W. R. Watann, Esq., has informed me of the composition of his "Worm Candy," and I can unhesitatingly recommend it as a safe and efficacious vermifuge.

JAMES N. FRASER, M. D., L. R. C. S. Ed.
Having prescribed "Watson's Scholedion," in a large number of cases, in which worms were indicated, we have much pleasure in stating that we consider it a very safe and efficient form of Anthel. mintic.

Messrs. JENKINS \& BRINE, Physicians and Surgeons.
Charlottetown, Sept. 22, 1869.
Summerside, August 10th, 1869.
DEAR SIR,- 1 shall teel obliged by your making knówn, for the benefit of others, my opinion of your "Scholedion." The use of it in the case of $m y$ infant chifd has satisfied me that it not only merits the character claimed for it in your advertisement, but also that the advertisement does not do adequate justice to a most valuable remedy.

Yours truly,
Wm. M. Howe.

## Condition Powders

THE
BEST IN THE WORLD
For preserving good health and prime oondition in

## Horses, Cattle, Sheep \& Pigs.

These Powders purify the Blood, loosen the Skin, allay Fever and Inflammation, eure Coughs, affections of the Throat and Founder (if resorted to immediately.) They expel Worms of every description, and in fact are beneficial in all diseases of Horses and Cattle.
For Morse Distemper:-One of these Powders given in the first stage prevents Fever, and hastens the discharge; and after the running begins to subside, one more should be given to carry off all humors and leave the glands of the throat healthy.
Besas, - $A$ Tablespoonful night and morning, in a Bran Mash, or soaked Oats. To Colts under two years old, half the quantity should be given. In the case of spasms, whether caused by Bots, Colic, or stoppage of Water, repeat the dose every half hour, until relief is obtained. The same dose may be given to Cows after calving.

Testify, from their own experience that THE NO. 3 A KIRBY manufactured by A. HARRIS \& CO., of Brantford Ontario, stands

## UNEQUALLED

among the Reaping Machines yet introduced. For the last three seasons FIELD TRIALS with other machines, have been courted by the Agents for the KIRBY and where such trials have taken place the superiority of the KIRBY has been clearly established.

So as to maintain the position already won the machine will be offered for 1880 with

## IIANY IIIPRoveviluys

which will be announced in due time. Farmers, if you want a machine for the Harvest field

## I_IGEIP

thoroughly adapted for taking up LODGED GRAIN and making an even sheaf, convenient to handle, and which with proper care

## WILL LAST YOU FOR YOUR LIFE TIME.

Buy the NO. 3 A KIRBY and no other. You will not be disappointed. Customers supplied with the

## NO, 1 OR NO. 5 KIRBY SINGLE MOWER

which are in every respect fit companions for the No. 3 Reaper.

DONALD FERGUSON, Agent for P. E. I. Scott's' Warehouse, Kent Street, Charlottetown.

# THE VOICE STARS, 

OR

## THE EFFECTS COMING PERIHELIA.

By Prof. C. A. Grimmer, of California.

## PREFACE.

In publishing this pamphlet the author is prepared to meet with adverse criticism in good spirit. That there is no literary merit in it, style, finish, or even correct arrangement of the matter, he admits, but still these blemishes of art do not deter him from presenting the work and doing, as he believes. the public a service. The perihelia of the four great planets is a subject of momentous import, and any one knowing any facts relative to or bearing on this approaching epoch, should give them to the world. The horrors and magnitude of the coming events are not exaggerated. The plague will be here in America the latter part of 1880 , unless strict quarantine and sanitary measures are adopted. I have strictly adbered to the rules of Placidas de Titus, the best author on Mundane Astrology, without introducing the technical figures of the science. Astrology is a veritable science and should be universally understood. It is a truth for the heavens do not lie. Every Astrological question propounded is answered by mathematical formula. Those who prdedict events by cards, crystals and the paraphernalia of 'fortune tellers. are cheats who bring odium upon the true science. Astrology has no connection with fortune-telling any more than surgery has with surveying. No one can comprehend the beautiful mysteries of Astrology, or work out its intricate, abstruse problems, without a knowledge of trignometry and the proportion of numbers. I append a partial list of the eminent personages whose teachings have benefitted mankind as well as shedding lustre on the science of Astrology by their staunch
advocacy of its doctrines. Here is the galaxy of glorious names : Ptolemy, Placedus, Thales, Hyppocrates, Pythagoras, Plato, Aristotle, Socrates, Galen, Josephus, Cicero, Kepler, Bacon, Napier and Zadkiel. To the enemies of Astrology I have nothing to say. I once opposed it, and can understand how unjust prejudice is. Let them kesp a record of the events predicted by the author, and if that does not convince them of its truth, nothing will. I have written this work to warn the country to prepare for the darkest epoch in the world's history. The wunicipal anthorities of every seaport should use every precaution to prevent the plague obtaining foothold. I have written in haste, for the fate of nations often depends on a moment. The plague cannot be cured, but this work gives specific directions, which, if followed by the reader, he can live and escape the malady in the worst infected country.

The Author.

## The Voice of the Stars.

## CHAPTER I.

It is pretty well understood that the perihelia of the four great planets, Jupiter, Uranus, Neptune and Saturn, will be co-incident in 1880. Astrology to-day is ridiculed by many so-called scientists. After 1880, Astrology will be taught by many who reject it now. Bacon says " the world opposes what it does not understand." In the case of Astrology this is pre-eminently so. 1 have no desire to discuss the verity or falsity of Astrology; I simply state the effects which the approaching perihelia will produce according to Astrologlcal deductions. The effects which this conjunction will produce are momentous. From 1880 to 1887 will be one universal carnival of death. No place on earth will be entirely free from the plague. The Pacific Coast will not snffer anything in comparison to any other portion of the globe. The coincidence of those planets in perihelion will always produce epedemies and destructive diseases. Three of these planets are malifics, and Jupiter, although a benific, produces evil

> TREMAINE \& METCALF'S.
through association, or, technically, by conjunciion with the others. Diseases will appear, the nature of which will baffle the skill of the most eminent physicians. Every drop of water in the earth, on the earth and above the earth, will be more or less poisonons. The atmosphere will be foul with noisome odors, and there will be but few constitutions able to resist the coming scourge. Therefore prepare, ye that are constitutionally weak and intemperate and gluttonous, for 'man's last home-the grave.' From the far East the pestilential storm will sweep, and its last struggle will end here in the far West. In 542 and 1665 three of the planets, two of which were malifics (Mars and Saturn), were in perihelion, and Jupiter, though a benific, brought evil through association. Now 542 and 1665 were the worst plague eras of which the world has any record. From 542 to 546 it has been estimated that from $75.000,000$ to $120,000,000$ victims siffered death by the plague. [Gibbons' History, vol. iII., chap. xIV. ; also Cousins' History of Rome, vol. II.. page 178.]

In 1720. Mars and Saturn were in perihelion and in the sign Virgo, and 52,000 out of 75,000 inhabitants died in the city of Marseilles in less than five weeks. In 54410,000 persons died each day in Constantinople. Alexandria (Egypt) lost, in $542,50,000$, and in $548,80,000$ of her inhabitants by the plague. But as bad as were those times, they will onty approximate the horrors of theseven years many of us are doomed never to witness. All the weak and intemperate are sure to die. There is no escape from the inexorable plague fiend. Forfunate, indeed, are those whose blood is pure and free from any taint or weakness, for they alone will survive the wreck of the human family. The intemperate and weak will join hands and go down to their graves in tens of thousands. Ancient races will be blotted from the face of the earth. Asia will be nearly depopnlated, and the Islands that border Asia will suffer frightfully from the scourge. The countries that join the northeastern portion of Asia will first suffer the ravages of the plague. Rnssia will be the first Enropean nation that will suffer. Many people labor under the impression that the plague will not reach America. This is a fatal delusion. Unless correct sanitary measures are taken before 1880 the plague will be devastating large cities on the Atlantic coast of America. America will lose more than fifteen millions of inhabitants if the sewers of her cities are as imperfect in $188^{\prime}$ ) as they are to-day. The drainage of every city must be perfected to entirely escape from this monster who fattens on foul matters and feasts on the decayed accumulations of stuffed sewers. All vaults should be cleaned and the strictest sanitary moasures adopted and rigidly enforced. Have we so soon forgotten the 15,000 who sleep in their

Bruce \& McKenzie's, Fulls Building, 72 Queen St., Ch'town.

Fender Stools, Foot Stools and Berlin yarn, at
graves, two-thirds of whom would be alive to-day had cleanliness predominated in those cities instead of rottenness, on which the yellow fever thrived? Memphis and Grenada have sewers to-day that are clogged and vaults filled with refuse matters within two feet from the surface. When society becomes too lazy or willfully negligent in cleanliness it ought to be afflicted with plagues. The perihelia will bring other inflictions upon the inhabitants of this earth, over which mankind can exert no restraining influence. There will come storms and tidal waves that will swamp whole cities, earthquakes that will swallow mountains and towns, and tornadoes that will sweep hundreds of villages from the face of the earth ; mountains will tremble, totter and fall into sulphurous chasms ; the geography of the earth will be changed by volcanic action; mountains will toss their rocky heads up through the choicest vhlleys; valleys will appear where mountains formerly stood; skillful mariners will be lost on the ocean, owing to the extraordinary variations of the compass ; navigators will grow pale with alarm at the capricions deflexure of the needle; volcanoes that have been dormant for centuries will awaken to belch forth their lava with more violence than when in their pristine vigor ; rainfalls will deluge valleys, and mountain streams will enlarge their beds and become mighty torrents ; fires will start spontaneously and devastate whole forests ; great fires will occur in many cities, and some will be totally destroyed; there will be remarkable displays of electricity, frightful to witness ; wild beasts will leave their natural haunts and crowd into popnlous cities, timid and harmless ; suffocating fumes of sulphur will escape from the earth, to the great dread of many; an unprecedented number of ships will be siattered into fragments by running on mighty rocks and small islands that are not down on the navigator's chart; islands will appear and disappear without any apparent cause ; the navigator's charts will prove almost a detriment instead of an aid, owing to the sudden changes of ocean currents, temperature and soundings; the birds of the air, the beasts of the field, and even the fish in the sea, will be diseased; billions of fish will die and be cast upon the seashore, to fester in the sun and impregnate the atmosphere with their foul emenations. No fish nor animal food should be eaten from 1882 till 1885 in America, for the flesh of nearly all the Animal Kingdom and the finny tribes that inhabit the rivers, streams, lakes and oceans will be diseased, and therefore those who partake of the flesh shall poison their blood and be taken away shortly after. The poison that enters the system by eating diseased meats is just as deadly as to be innocnlated with the plague. Farmers will be so stricken with fear that they will cease to till

## 2REMAINE \& METCALF"S.

their farms, and gaunt famine will step in to make human misery more wretched; fanaticism will spring up in many places and bloodshed will result therefrom; murderers and robbers will ply their hellish work with impunity, for there will be little or no law ; every one will be absorbed with the trying task of keeping alive; people will be buried in deep trenches, uncoffined; the Judge will be stricken from the bench, the pleader at the bar, and the merchant and customer will be seized with the fatal malady while trading; death will come slow and lingering in some cases, but in most it will be swift and terrible. In seabord towns thousands will be buried in the bays and harbors the law to the contrary notwithstanding.

## CHAPTER II.

In many countries vast districts will be deserted, and even in this country some portions will appear so near that condition as to appal the traveler. One may walk whole days over hundreds of farms without seeing a living thing. On all the large tracts of land that once were so animated with animal life, not a vestige will be seen. The houses on the deserted ranches will show signs of-disarrangement and negligence that plainly tells of the hurried departure of the owners to the populons citles. Let the traveler pursue his way till he comes to the small villages, many of which will not contain a single living thing. Let him look into the houses; let him pass through the doors that stand ajar and witness the sickening spectacle of whole families dead. Let him still wander, if he yet have courage, through the country stricken with the black death, and in the fields, on the hillside, and in the dark canyons of the mountains, and he will see every phase of this terrible malady, till the culminating point of death is reached-the end of all attacked with this incurable disease. This state of things will be more apparent in the Atlantic than in the Pacific States.

The conntry people will flee to the crowded cities for aid, but unless they are rich the physicians will give them little if any attention. The poor will die by the tens of thousands, withont a ministering hand to soothe their dying agonies. The doctors will be in universal demand and extortionate in charges for their services. Bear in mind, no medicine or doctor can give you any more aid than you can yourself. The disease cannot be cured, but unless your system is too weak or impure, coplous dranghts of warm water and a vegetarian diet will prevent the disease poisoning the blood in the process of digestion. Animal food will poison those who continue the use of it. Fine cotton or sponge dipped into
spirits of camphoi and kept in the nostrils, and frequently changed, will prevent the blood from being poisoned through the organs of respiration. Many people will think that the total destruction of animal life will oceur during this era of plague. After the black death there will be two years of fire, which will rage with fury in all parts of the wonld from 1885 to 1887. These fires will be the means of annihilating every germ of disease. In fact, every city or portion of city in which the plague appears should be burned to the ground. This will destroy the scourge. Nothing but fire can do it. Those who pass tbrough those terrible years of woe will have greater capacity for the enjoyment of the pleasures of earth. The earth will yield twice as much as formerly. All the Animal Kingdom will be more prolific and lite more prolonged. The average duration of life is said to be thirty-three years now ; after the year 1887 it will be just twice as long, or six-ty-six years. The reason of this most rematrkable prolongation of life is owing to the healthy electricity or magnetism that will surround this globe. From 1880 to 1887 the electricity of this earth will be deadly, owing to the malific influence of Saturn and Uranns upon our atmosphere. During the black death the most wonderful celestial phenomena will be seen. For weeks the sun will appear red as blood and terrible convulsions will appear in that great body. The sun will discharge oceans of flaming hydrogen gasses, that will roll in tumiltuous billows hundreds of thousands of miles from its center. The moon's actions on the tides will be spasmodic and irregnlar. Tremendous-showers of meteors will fall to the earth and remain in an incandescent state for hours. Dense black clonds will veil the sun for days, and the moon will not shed as bright or steady light as before those dreadful days. The whole hearens and earth will tremble at the awful, continnous reports of thunder-lasting frequently for hours; blinding flashes of lightning will ilfume the black sky ; people will soream with forror at the fantastic shapes the lightning will assume; thousands will go insane with fear of the celestial phenomena; all modes of egress from the cities will be stopped; trains will be stopped on the prairies, in the mountains and valleys, and their occupants will die in them of disease and starvation ; steamships and sailing craft will rot on the oceans with their dead human freight. drifting where the winds and waves may drive them. Stont will be the hearts that will not despair in those dreadful times. Fanaties will arise and cry out that the hand of God is against mankind, and religious frenzy will be rampant in all the large cities; so-called prophets will incite their followers to deeds of blood and rapine, but they will not hold sway long; insanity from religious causes will predominate

## TREMAINE \& METCALF'S.

in those times; the mortality in the cities where sewerage is defective will be appalling; everything that is ate or drank should be boiled well betore being used; no cooked food or wator should be partaken of if allowed to be exposed to the air for even a quarter of an hour; food must be eaten as soon after being cooked as possible ; every kind of animal food should be eliminated trom the table; even fish and game should not bo nsed; milk, butter, eggs. fats and oils (excepting vegetable oils) should be prohibited; vegetables, grains and truits alone should be used. The electric condition of everything on earth will be changed, theretore the products of the soil in our immediate vicinity are the best to keep the human system in a positive state. When the human organism is in a strictly positive condition it is practically impossible to contract disease. All persons in a negative state to their surroundings will be first to fall victims to the seourge. The flesh-eater and alcoholic imbiber will go hand in hand together to their grave, for their blood will become impure and inflamed, and therefore be in a negative state and necessarily unable to combat disease. Bear in mind, no part of the world will be exempt from the ravages of the plague. The frigid homes of the Esquimaux will be invaded by the demon of death, and desolation will be as apparent there in that frozen land as in the sun-scorched sands of Africa. It will penetrate alike the jungles of India and the civilized homes of America, The Mongolian race will suffer most, for it is without doubt the most ancient. Races are like em-pires-they have their rise, decline and fall.

## CHAPTER III.

China will be depopulated, or nearly so, and when the plague breaks out in 1881, in their country, hordes of the Asiatics will crowd their ships and tlee their country, to spread the loathsome horror over every land they turn to. Every islaud in the Pacific will be swarming with the Mongolians, and they will at last reach the Pacific States, and then we must suffer a destruction of life without a parallel in the annals of American history. I saty that the inhabitants of the plague-stricken districts will reach here unless we are more vigilent in using preventive measures to keep them back. I am not actuated by any feelings of prejndice against any particular race, but the voice of the Hosts of the Heavens should be hearkened unto, and if by a mathematical scheme we can deduct certain facts portentious to the Caucassian race, they should be given and followed. If we neglect precautionary measures the whole force of the plague will perhaps sweep fifteen millions of the inhabitants of America into their graves. In mortality the East India country will

Beautiful Fancy Wool Work, at
be next in order of magnitude to China; Africa next, Europe next, and America next. The Atlantic States will suffer more than the Pacific, South America more than North America, and California will be the last and least sufferer of this most malignant plague era the world has ever known. The plague is not only what the perihelia brings us, but it will be accompanied by war, discord, civil strife, floods, inundations, and, in seven-tenths of the world, drought and unless extraordinary provision is made to quell great uprisings, anarchy, with all its fearful horrors, will reign from 1880 till 1888. In 1887 the "Star of Bethlehem" will once more be seen in "Cassiopia's Chair," and it will be accompanied by a total eclipse of the sun and moon. This star only makes its appearance every 315 years. It will appear and illumine the heavens, and exceed in brilliancy even Jupiter, when in opposition to the sun, and therefore nearer to the earth and brightest. The marvelous brilliancy of the "Star of Bethlehem" in 1887 will surpass any of its previous visitations. It will be seen even at noon-day, shining with a quick flashing light the entire year, after which it will gradually decrease in brightness and finally disappear, not to return to our heavens till the year 2202, or three hundred and fifteen years from 1887. This star first attracted the attention of modern Astronomers in the year 1572. It was then called a new star. It was no new star, however, for this was the star that shone so brightly 4 B. C., and was the star that illumined the heavens at the Nativity of Christ. It has reappeared every 315 years since, and every educated Astrologer is certain that it will appear in August, 1887. The appearance of this star, accompanied as it will be by solar and Iunar eclipse, together with the balefnl influence that follows the positions that Mars and Saturn will occupy, will cause a universal war and portentous floods and fearful shipwrecks. North America will be involved in civil strife, and a reign of terror will prevail in the Atlantic States, unless a Napoleon arises to quell it. There will be a war of classes; the rich will array themselves against the poor, and vice versa. During those terrible days the Pacific States will be in a veritable Paradise of peace compared to the hellish strife that , will be waging throughout the world.

## PARKS ${ }^{9}$

## Cotton Manufactures.

ESTABLISHED 1861.

# GRE Y <br> COTTONS, 

## IN VARIOUS WIDTHS AND QUALITIES.

This Cotton will be found quite equal to American in appearance, and owing to the yarn being harder twisted, it will prove much more durable. It is made with the smallest possible quantity of sizeing, and is consequently very much superior to any English Cotton imported.

Our Grey Cotton has our Stamp upon it.

## BEAM WARPS FOR WOOLEN MILLS.

Any width and any number of Yarn-Single or double twisted.

## WHITE \& COLOURED, WARRANTED TO WEAVE WELL.

Our Goods are sold by us to the Wholesale Trade only, from whom Country Merchants and Consumers can always obtain them by asking specially for them.

## WHITE, BLUE, RED, ORANGE \& GREEN.

Made of good American Cotton, with great care, correctly numbered. and warranted full length and weight.

We would ask the purchasers of Cotton Warps to remember that our yarn is spun on Throstle Frame, which make a stronger yarn than the Ring Frames used in making American yarn. It is ale better twisted and more carefully reeled, each hank being tied up in 7 leas of 120 yards each. This makes it much more easy to wind than when it is put up without leas, as the American yarn is, and also sayes a great deal of waste. Those aequainted with weaving will andezstand the great advantage it is to them to yse yarn put up in this manner.

## Fotton Farpet VIampsy

## Made of No, 10 s yarn, 4 ply twisted.

## 

Each 5lb, bundle contains 10,000 yards in length, and will make a length of Carpet in proportion to the number of Ends in width. We have put more twist into this warp than it formerly had. and it will now make a more durable carpet than can be made with any othes material. Since its latroduction by us a few years ago, it has come jnto very general use thronghout the Country.

## BEWARE OF IMITATIONS.

None is genuine without our name on the label.
