# THIRD REPORT

# THE FRASER INSTITUTE,

30th JUNE, 1881.

MONTREAL : 06. LAREIN, PRINTER, 138 ST. JAMES STRI 1881.

#### REPORT.

The accounts of the Institute for the year ending 30th June, 1881. have been audited, and a summary of them is appended hereto.

During the year, payment was demanded from the Institute, of the unpaid balance of calls upon the Merchants' Bank Stock, viz :- upon 300 shares on which 20 per cent. had been paid up; and on 365 shares on which 10 per cent. had been paid up.

The only fund available for this payment was the stock upon which all calls had been rate; but as the value of this stock seemed likely to increase, it was the ught expedient to borrow upon its security. a sum wherewith to pay on a proportion of the unpaid stock sufficient to reduce the unpaid balance to the new par of the stock; that is to say  $13\frac{1}{2}$  per cent. upon 300 shares, and  $23\frac{1}{2}$  per cent. upon 365 shares. And also to assist in paying off the remainder of the mortgage in favor of Miss Jessie Penner, still unpaid. For this purpose the Board obtained an advance of \$14.000 upon the security of the stock, and paid the amount due upon the unpaid stock, viz:—\$12,516.67, and the balance due Miss Jessie Penner, amounting to \$2390.83.

The payment of these sums, together with the call upon the Citizens' Insurance Company's stock, and payments made on arrears of assessments, left the estate in a small deficiency of \$239.62. which was advanced by the President.

The Board considered it expedient to have an examination and analysis made of the transactions of the Institute, since the taking over of the estate from the Executors on the 11th of December, 1874; and an abstract has accordingly been prepared by Messrs. Riddell & Stevenson. extending to the 30th June, 1880. This abstract contains:—

1. A statement of the affairs of the estate as at the 11th December. 1874.

2. A summary of the revenue account.

3. A statement shewing the results of the administration of the affairs of the Institute, from the 11th of December, 1874. to the 30th June, 1880.

4. A statement of the assets and liabilities of the Institute as of the 30th of June, 1880.

The summary of the receipts and disbursements of the Institute during the past year is appended to this abstract.

Among the assets of the Institute shewn by this abstract, there are a number of old accounts which have been retained upon the books for many years, some of them extending back to the death of Mr. Fraser : and also claims against Insolvent estates which have long ago become worthless. These will be written off, as their retention upon the books of the Institute is of no utility. The practical result will be that the Institute will remain the holder of assets which may be summed up as follows :--

100 shares, Citizens' Insurance Company, 15 per cent.

Subject to lien of \$14.000 for advance to pay calls, &c.

The unpaid stock, it is hoped, will shortly realize sufficient to repay the amount thus expended, and to free the paid up shares from the lien created upon them, leaving the Institute in possession of the paid up shares without encumbrance.

The assets of the Institute consisting of real estate, are as follows : The King's Post Farm.

The McMartin Farm.

The Knox Farm.

These Properties comprise in all about 740 acres on the Lower Lachine road, and are subject to mortgages, which as now reduced, amount to \$6760.

The St. Sacrament Street Stores.

This property comprises about 9000 square feet fronting on St. Sacrament, St. Peter, and St. Alexes Streets. It is subject to a mortgage for \$20,000 created by Mr. Fraser, heretofore bearing seven per cent. interest. But an arrangement is about being closed, for paying off this amount by means of a loan bearing six per cent. interest, thus saving \$200 per annum.

Certain lands in Auckland, Eastern Townships, of small value.

The liabilities of the Institute in addition to the mortgages above referred to may be shortly stated as follows :-

Legacy to the heirs of the late Mrs. Chapman ...... \$3000 The interest of this is paid to Mr. George Chapman,

tutor.

Arrears of assessments, say ..... .... \$1000 Arrears of interest on mortgage to Estate B. Gibb ... 320 Balance of legacy to Jane Fraser and children ..... 285 Balance of calls on shares in Citizens' Insurance 

'i otal ..... \$4855

otherwise. which have as of the In *i'* ce, the commencement of its work is retarded by the fact, apparent from the toregoing summary, that the value of its property is insufficiently represented by the revenue derived from it. The rental of the large amount of property lying along the Lachine Road, does not reach, or exceed, one per cent. upon the estimated value of that property. In like manner the buildings upon the St. Sacrament and St. Peter Street properties, are not in keeping with the value of the site; the revenue derived from them being less than three per cent. upon the value of the site alone. If any one of the properties could be sold for a fair price, a commencement might be made in the work of the Institute. And the Governors believe that such a commencement would speedily be followed by assistance from without, which would enable them to place the Institute in efficient operation.

As to litigation,—the libel suit pending before the Court of Review at the date of the last Report, has been decided in favor of the Plaintiff : and the judgment of Mr. Justice Johnson condemning Mr. John Fraser to pay damages and costs, for the libels he had published upon the auditors with respect to the accounts, was thereby confirmed. The same charges which composed those libels, and others of a similar description, have been reiterated by Mr. Fraser in various forms during the year; among others in a Petition to the Quebec Legislature, for a Reyal Commission; but have remained unnoticed by the Board.

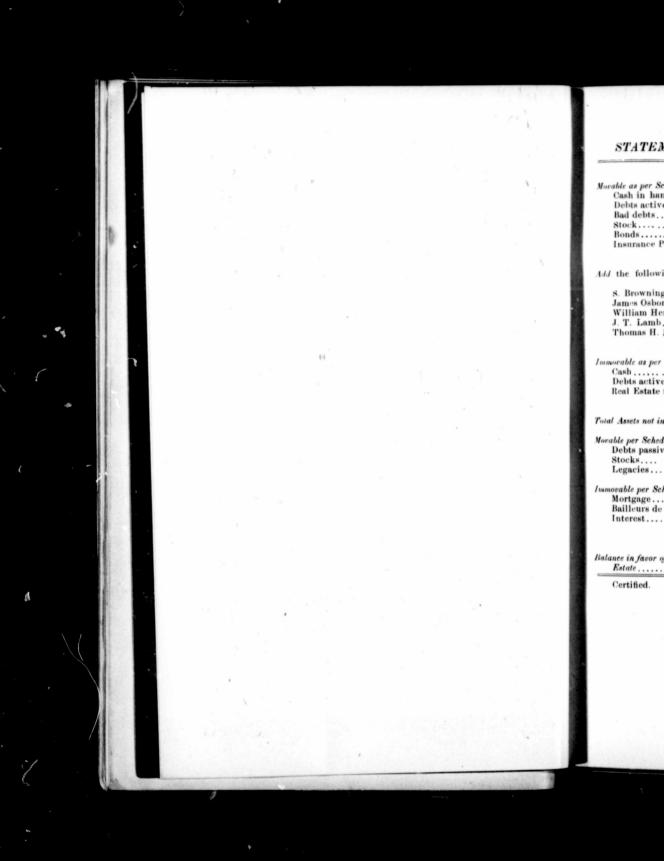

The Government of Quebec have paid a portion of the costs adjudged against the Attorney General upon his proceeding against the Institute at the instance of Mr. John Fraser on the security of the Hon. J. B. Beaudry. But the balance of those costs, amounting to \$35.10 still remains unpaid.

The position of the property, and the affairs of the Institute, are practically unchanged since the past year. The value of the Bank stock has improved, but it is hoped that it will still further increase. The properties are all under lease, with the exception of the Knox Farm Mill, which the Board were in hopes of making available to some extent for revenue. But the parties who undertook its repair and operation. failed in the attempt, and no rent has been collected from them. The market for real estate, though firmer, does not appear to have materially improved.

In conclusion, the Board can only reiterate the statement of their policy which is contained in their first Report. They will continue to manage the property as economically as possible, and seize the first opportunity for disposing of such portion of it as will enable them to open the Institute for the purposes for which it was created. But now, as then, they consider that it would be unjust to the public and to the founder, to sacrifice the property at less than its value, in order to anticipate by a short time the opening of the Institute. They regret the loss to the public which the delay causes, but they estimate more highly the loss of the large amount of capital, which would result from the sale of the property of the estate, in the present depreciated market.

MONTREAL, 1st July, 1881.

J. J. C. ABBOTT, President.
