Stepping
Stones

to Success

Quality
is remembered
long after price is forgotten. Use "Quality"
then as a "Stepping
Stone to your Greater
Success."

"Stower's"

Lime Juice Cordial will not ferment. No impurities—no adulterations—the "Quality" preparation that is blended just right.

Codou's Macaroni

White, delicate, tender—the product of a factory famous for its cleanliness. Codou's Vermicelli, fancy letters and pastes, are quite as renowned for their superiority. The product commands an ever-increasing patronage from the best class of trade.

Griffin & Skelley's Fruits

The dried and canned fruits, packed under the "Griffin" brand, admit of no argument as to quality—there can be nothing better than the "best." Seeded Raisins, Canned Fruits, White and Green Asparagus, Prunes, Seedless Raisins, Cured Fruits of all kinds, but only the highest quality of each.

Olsen & Kleppe's Norwegian Sardines

The "Albatross"—a small, specially selected fish. The "Ambrosia"—equally good, but not so small. These two brands (in pure Olive Oil) represent the finest of their kind to be procured. Among English epicures the demand is persistent—and very large. Use "Quality" as a stepping stone to success.

Manufacturers' Agents and Brokers' Directory

Manuacturers and merchants cannot expect to develop, maintain and get the best out of the Canadian market without the assistance of local agents. The following is a representative list of reputable agents. The service department of the Canadian Grocer is at the disposal of firms wanting agents or of agents wanting agencies.

KOP'S ALE. -- Non-Alcoholic

Is prepared from ingredients of undoubted purity, the bitter principle being derived from the finest hops, sufficiently aerated to make them pleasantly sharp.

It is delicious and appetizing, is an agreeable salutary bitter, and while found to act as a tonic stomachic and an aid to digestion, it is so free of alcohol that it will be found a veritable boon to total abstainers.

Are you selling it?

If not, introduce it to your customers this season and you will find it a very profitable line to carry.

Do You Sell Wafers?

If so, read what a Pacific Coast firm have to say about the keeping qualities of

Frou-Frou

The World's Greatest Wafer.

MacGreegor Specialty Company, Toronto, Canada

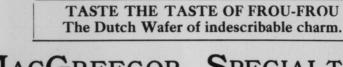

In reply to your favor of 27th ult., would beg to state that Frou-Frou is the best seller we know of on this coast, once an order is placed it means a repeater.

The goods have many great merits, one of the principal ones being they keep fresh, moist and sweet indefinitely, never knew of a single can becoming rancid. We placed Frou-Frou on the Great Northern R.R. Steamer "Minnesota," one of the largest in the world, and it is on salt water all the time and in the different tropics, and we reserved a can for a test as to its keeping qualities, and on its last arrival here December 22nd, 1909, the can that was left open was just as fresh and sweet as when placed on board, being nearly a year back and forward from Japan, China, Manilla and other far Eastern points to the port of Seattle.

Yours faithfully.
THE THOMPSON-GAY CO.

Grocers run no risk in stocking this honey-combed, cream-filled wafer, any season of the year. The crispness and flavor of Frou-Frou are always the same.

If you have not yet tasted the taste of Frou-Frou, you may do so by sending us your name and address, when a generous sample tin will be at once sent to you.

The LATEST "Enterprise" Electric Mill

New ideas applied to rapid grinding of coffee by electric power make these new "Enterprise" Pedestal Mills by far the best on the market to-day. They are Direct Connected. They lose no power in transmission. The grinders are on the motor shaft. The double Mill shown here, No. 0852, is for alternating current; can also be furnished for direct current. One Mill is fitted with tooth grinders which cut the coffee, the other mill fitted with ribbed grinders for pulverizing. Each hopper holds six pounds. The Mill will granulate 3 pounds of coffee per minute, and pulverize ½ pound per minute. The cans or receivers are enclosed as a protection against dust. The Mill is self-cleaning. This compact, graceful 1 H.P. Mill is already in great demand. We invite correspondence and will send facts, illustrations and prices of our 45 sizes and styles of Rapid Grinding and Pulverizing Mills on request.

We supply grocers also with Meat and Food Choppers, Self-Measuring Pumps and Faucets, Smoked Beef Shavers and other "Enterprise" Specialties. You should have our latest catalogue. If you haven't it, write.

Dominion Guild Endorses Contract Selling Plan

Like the Ontario Wholesale Grocers' Exchange, They Want to See it Rule—Annual Convention in Montreal—Are Opposed to Quantity Price and to Manufacturers Discriminating in Favor of a Few Retailers-An Open Letter to Traveling Salesmen-The New Officers.

Montreal, June 9.-A great deal of work was accomplished at the 20th annual meeting of the Dominion Wholesale Grocers' Guild, held here on Monday, Tuesday and Wednesday of this

Besides topics of special interest to the wholesalers being discussed, there were addresses from a few manufacturers and retailers, who were present. Representative wholesalers from Hal-

fax to Vancouver were present.

President L. E. Geoffrion was in
Europe, unfortunately, as was President
Carrier, of the Provincial Guild.

As will have been already observed, the name of the association was changed back to the old style.

MONDAY MORNING SESSION.

Armand Chaput, as chairman of the Montreal Wholesale Grocers' Exchange, welcomed the members, and trusted they would have as profitable and pleasurable a time as all had in Victoria

last year.

Arch. Miller, of Quebec, was proposed as chairman, and read the President's address which was as follows:

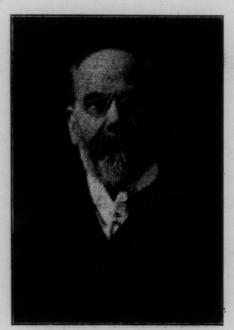

"In meeting to-day to take up the 20th annual meeting of the Canada Wholesale Grocers' Exchange, it must be gratifying to all those present to realize that while we have not made the progress that could have been made, and would undoubtedly have been made, had all the trade more earnestly co-operated in this very necessary work, we have at least accomplished many things that have been a protection and benefit to the trade

in general.
"It is because of the many difficulties that confront us-the many complex problems which have to be solved-the many questionable methods employed in business-that the necessity exists for the trade getting together from time to time to devise ways and means for bettering the business in which we are en-

"Firstly, then, careful thought will lead us to the conclusion that there are some features of the business that require our very special attention-some features of the business that, if left to go unchecked, would undoubtedly send the trade on the downward path, and lead to a condition that would be not only ruinous from a financial point of view, but that would be discreditable to the intelligence that must necessarily be represented for the successful conduct of a wholesale business.

Secret Rebate Evil.

"Perhaps we have no greater evil to contend with to-day than the deliberate violation of manufacturers' selling contracts by secretly rebating on many lines of goods, the margin on which, in many cases, is not sufficient to cover selling expenses. In this connection, a solution to this vexing and demoralizing practice should claim the attention of those present, if necessary, for a whole day, and ways and means can be adopted to prevent it, and no time should be lost. With a view to bringing in a report suggesting a remedy for the abuses that a. present exist (which remedy, while it may not be an absolute cure, would at least work in that direction) would suggest the appointment of a committee to bring in a report to this meeting at the earliest possible date. A proper solution to this difficulty will undoubtedly build the grocery business on a solid

HUGH BLAIN, TORONTO.

Elected President of The Dominion Wholesale Grocers' Guild.

foundation, and, in a great measure, solve a difficult problem with which we have to deal.

In a measure this was done at the convention of the Ontario wholesale trade, and resolutions passed, and methods endorsed that if endorsed by the entire trade of the Dominion would go a long way towards putting the business on a better and more satisfactory basis. A great deal of time and effort was put forth to make the meeting of the Ontario wholesale trade of profit, and a success, and it will depend upon the action of this meeting how much benefit the trade of the entire Dominion can derive from the efforts recently put forth by the Ontario trade.

So much for the ethics of business. If we once get them on a good, honest basis it will be easier to accomplish results in other directions.

Now, having regard to heavy lines of importance to the trade that are at present being sold on a basis that cannot possibly cover the expenses of doing business, it would be well to direct your attention to some of the principal ones.

The Canned Goods Trade.

You have already received circulars from the secretary directing your attento the fact that if you desire to make a margin on canned goods the matter remains in your hands. So far as the Ontario trade is concerned, I am safe in saying that they desire to make a profit, and they realize that the only way to do it is to work in harmony with the Dominion Canners, Limited.

The situation in canned goods is greatly improved from the viewpoint of making satisfactory arrangements for sale of same, and we have with us to-day representatives of the Dominion Canners, Limited, who have come prepared to submit a proposition that will ensure the trade a margin, provided the trade in turn are prepared to co-operate with the Dominion Canners, Limited. It cannot be expected that they can accomplish this unless they have the cordial support of the trade. There is nothing elever about selling goods at cost, or a fraction over cost-such action rarely brings satis factory results, and undoubtedly a good healthy business on a paying margin is much more satisfactory to a reasonably inclined wholesale man than a large volume of trade with no margin.

We are handling some heavy items, the margin upon which does not cover selling expenses. Among them might be mentioned condensed milk and cream and laundry soaps. The volume of the latter is considerable, but not sufficient margin is made to cover the cost of sell-

The Ontario trade reached the conclusion that the only way of dealing with matters of this kind was through what they called a "Manufacturers" Committee," which was appointed at their annual meeting in Toronto, and they, in conjunction with a committee of retailers, will approach manufacturers jointly or singly as necessity requires.

In conclusion let me emphasize the fact that every man in the wholesale grocery business, having regard to his turnover, is equally interested in putting the grocery business on a healthy basis. Undoubtedly, progress has been delayed by the peculiar mental attitude of some of the trade. They have not displayed that generous disposition necessary in a work of this kind, but have rather inclined to run their own show believing

the fact no effort tion to ness toand wor round. the cond ly due workers ly, it see trade to necessity work we educatio ed must velopme the trad actual c ness, an only by selves. quires h here to-d cally for and int arrangen in high-s plimenta them, bu I have st to impre the fact and cons are to k there is ability co ness to I vou can depend u that prev part of trade to work nec that we forth.

size the vholesale 1 to his putting hy basis. delayed of some lisplayed ary in a ther inbelieving

that they will succeed best in that way. Every man is entitled to his opinion, but the fact cannot be overlooked, that, had no effort been made through an organization to improve trade conditions, business to-day would be badly demoralized, and would show very serious losses all round. It must not be overlooked that the conditions of trade to-day are largely due to the efforts of a few active workers in each locality. Unfortunately, it seems to be difficult to get all the trade to wake up to a realization of the necessity for cordial co-operation. The work we are doing must, of necessity, be educational, and the results accomplished must depend upon the state of development reached by the members of the trade, in properly appreciating the actual conditions that prevail in business, and the absolute conviction that only by united effort can we better ourselves. Successful association work requires hearty co-operation, and we are here to-day to, if possible, to think logically for the correction of trade evils, and intelligently negotiate for better arrangements. I have not addressed you in high-sounding phrases and paid complimentary remarks to those who deserve them, but have endeavored (and I hope I have succeeded to some extent at least) to impress you with the importance of the fact that these meetings involve hard and conscientious work if good results are to be attained. Properly applied, there is sufficient capital, energy, and ability connected with the grocery business to put it on a first class basis; but you can rest assured our success will depend upon the measure of unanimity that prevails, and the willingness on the part of all those connected with the trade to assume their fair share of the work necessary to accomplish results that we hope this meeting will bring forth.

Mr. Miller paid a nice tribute to the memory of the late Col. Davidson, who had been such a prominent and welcome figure at past meetings. A letter of condolence to Mrs. Davidson, from the Dominion Exchange, had been sent and acknowledged.

Messrs. Cross, Beckett and Cook, appointed last year to draw up a new set of by-laws, requested the appointment of another consulting committee for discussion of the by-laws arranged, on behalf of the assembled members, said committee to report Tuesday morning.

Messrs. Gross, Symons, Letellier, Smye and Ethier were appointed.

Endorse Work of Ontario Exchange.

When it was proposed that the Dominion Exchange should endorse the proceedings of the Ontario Exchange at their meeting April 25, 26, 27 and 28, Fred Smye was called upon to briefly outline what was accomplished at that

He referred to the success of the meeting which was fully reported in The Canadian Grocer. The proceedings had attracted favorable comment all over the continent, many complimentary let-ters having been received from large United States wholesalers among others. Settling the suggestion that the meeting approve of the minutes of the Ontario Exchange, the following motion

Moved by W. C. Cross, seconded by J. S. Royer:

"That the Canada Whalesale Gro cers' Exchange are in entire accord with the Contract Selling Plan in which the manufacturers exact a condition providing for a declaration

when required by them.
"That the Canada Exchange itself on record as being opposed to quantity price, believing it to be not only an inducement to encourage violations of selling contracts, but also hurtful to the best inter-ests of the retail trade in general.

That this Exchange also goes on record as being opposed to manufac-turers discriminating in favor of a small percentage of retailers to the damage and detriment of the large percentage of retailers—such action on the part of manufacturers being unfair, and if persisted in by the manufacturers being a sufficient rea-son not to entitle the manufacturers to the support of either the retail or wholesale trade." Carried unanimously.

MONDAY AFTERNOON SESSION.

H. C. Beckett made a motion for the appointment of a committee to consider what might be done to improve conditions in the trade generally. Messrs. Beckett, Cross and Miller were named, and asked to report in the morning

Villa brought up the question of status of members, raising the point as to whether a non-member of a local or provincial exchange could be neverthe-less, a member of the Canada Exchange. This resulted in the following motion being put and carried:

being put and carried:

"That it be incorporated in the by-laws of the Canada Wholesale Grocers' Exchange that no firm shall be eligible for membership unless said firm is a member in standing in the local and provincial exchanges.

G. E. Barbour suggested the appointment of a permanent secretary. In the discussion which followed, participated in by Messrs. A. H. Pafford, H. C. Beckett and Gardner, it developed that the Ontario Exchange had some experience with a paid secretary who devoted himself exclusively to their work. He proved unsatisfactory, through no fault of the secretary himself, but because it was found that better results were accomplished through efforts put forth by

members of the Exchange themselves.

The subject was then dropped.

A cablegram from President L. E. Geoffrion was read:

To the Chairman:

I wish you best success and regret very much to be unable to be with you to work in the interest of the association. Best wishes to all.

L. E. GEOFFRION.

Canned Goods Arrangement.

R. L. Innes, S. Nesbitt and W. Drynan, representing the Dominion Canners' Limited, were present for a time, and entered into a short discussion with the members on the arrange ments to be made for the marketing of the 1910 crop of canned fruits and vegetables. Before retiring a general suggestion as to the proposed plan was

placed before the meeting by Mr. Dryplaced before the meeting by Mr. Drynan. Subsequently the matter was thoroughly threshed out, the chief point emphasized being that the grocery trade profits, both wholesale and retail must be retained. The canners said that the fact that their ownership of practically every factory in Canada amounting to anything would ensure economical oper-ation, which, in turn they claimed made it certain that prices would always be fair to wholesaler, retailer and consumer.

All the discussion on this subject was preliminary in its character, the representatives of the canners' having been requested to meet the members of the Exchange again on Tuesday, when representatives of the various provincial exchanges would all be present.

TUESDAY MORNING.

Monday's good resolve to make an early start was not made good, and it was 9.45 when the meeting was called to order, instead of 9 o'clock.

Back to Old Name

constitution and by-laws were up for discussion first thing.

one of the most important changes adopted was the decision to revert to the old name of the association—the Dominion Wholesale Grocers' Guild. This was thought to be more suitable than the present name, which was chosen at the meeting in Quebec two two years ago.

The new by-laws were drawn up in

such a way as to meet all requirements of the Dominion, Provincial and Local Guilds. After being read the by-laws were accepted, after some little discus-

Retailers Represented.

E. M. Trowern and J. A. Beaudry, representing the Retail Merchants' Association were present, and addressed a few words to the meeting.

Mr. Trowern stated that it had come to be recognized that the only way to succeed now-a-days was through asso-ciations and associated effort. Much good had already been accomplished by the retail association, but after all, the retailers were only a unit, and to secure the best results, a unit in all branches—manufacturers, wholesalers branches—manufacturers, wholesalers and retailers—was required. The day was coming, he said, when these bodies would act as one, when improvements would be made which could not now be conceived.

Working Together.

Mr. Beaudry said that gradually the retailers all over Canada were beginning to work harmoniously together. Quebec grocers had been much interested in the resolutions adopted at the On-tario Guild meeting in April, on the oc-casion of the conference with the On-tario retail grocers. Local retailers were in entire accord with these resolu-tions, and heartily endorsed them.

Replying to a question by Mr. Beckett Mr. Beaudry said that the retailers in Quebec would be only too glad to meet Ontario grocers to form a committee, federal in its scope, for the purpose of conferring with a federal committee of the wholesale grocers to discuss ways and means of bettering trade conditions generally.

Concluding Mr. Beaudry remarked, that, speaking for the Quebec grocers,

he believed thoroughly in the principle

of distribution through the triple channel of manufacturer, wholesaler and retailer.

A Universal Sentiment.

Major Butler, of the Shredded Wheat company, stated that he had within three weeks attended the annual meetings of the Southern Wholesale Grocers' Association, and the National Wholesale Grocers' Association. At these meetings he had found that the same sentiment prevailed as did at the present gathering. There was a pleasing insistent desire to eliminate trade abuses, and to improve conditions through association work.

Freight Weight Increase.

Mr. Tilston, manager of the Montreal Board of Trade Transportation Bureau, addressed the meeting on the proposed increase in minimum carload weights by Canadian railways.

He explained that the proposed table of increases would have to be submitted to the Board of Railway Commissioners when it would likely be submitted to various business bodies.

It is proposed to increase the minimum rate on classifications 1, 2 and 3 to 24,000 lbs., and classes 3, 4 and 5 from 24,000 lbs. to 30,000 lbs.

Hard on Retailers.

Fred. Smye said that the increase of the minimum rate from 24,000 lbs. to 30,000 lbs. would be a hardship of the greatest kind, on the retail grocers of Canada, in that a 24,000 lb. carload of assorted groceries, representing as it did an investment of some \$2,000 on an average, meant about as big an order as any Canadian retailer was in a position to give. It was difficult now to make up a car; if the minimum weights were increased it would be almost impossible to do so.

Samuel Villa remarked that this was

Samuel Villa remarked that this was a second increase in minimum weights, and would accentuate the hardships felt at the time of the first increase.

Various suggestions were thrown out by different members, and it was finally decided to leave the matter in the hands of Mr. Tilston, and Mr. Walsh, the Canadian Manufacturers' Association's transportation expert. Mr. Tilston will be given the views of the grocery trade in different parts of Canada, as well as specific instances likely to be useful to the experts when making formal objection, before the Railway Commissioners, to the proposed change.

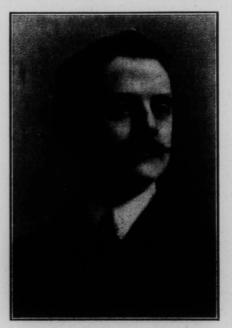

An Address to Travelers.

H. C. Beckett reported on the work of the special committee named to suggest trade improvements. He presented a written statement which was received with much approval. It was in the form of an address to travelers, suggested to be read, or otherwise conveyed to wholesale grocery salesmen by individual houses, the idea being to send copies to every wholesale grocery concern to make this possible. The address was as follows:

To the salesmen of Canada, engaged in the wholesale grocery trade.

Gentlemen,—"You are aware of the unsatisfactory condition of the grocery trade in every department, the buying department, the selling and settling department. To you, representing the selling department, we would say that you

are the custodians of this, perhaps most important branch of our business. To you is entrusted the reputation of the house, its honor, its integrity, its capabilities, its success. It largely depends upon you what the commercial standing of the house shall be. We select you to represent us for the honesty, the intelligence, the ability which we believe you possess and we ask you to consider seriously the inherent responsibilities which you have assumed as representatives of the house. You must elevate the standard of business morals and the character of your house or you must debase the standard of business morals and the character of your house. Each salesman, therefore, whether he is in the sample room or on the road, carries with him

ARMAND CHAPUT, MONTREAL, QUE.

The President of The Montreal Wholesale Grocers' Guild.

the good name of his house, and it behooves him that it shall be kept by him unsullied.

"The members of the Dominion Wholesale Grocers' Guild feel it to be their duty to make this task as easy as possible for you to perform, and have used their best efforts to make such arrangements and adopt such methods as will enable you to do a clean, straightforward, honest business. To enable you to exercise that sterling business ability characteristic of the genuine salesman without the fear of competition from unfair and dishonorable means. We desire to ask your special attention to the "Contract Selling Plan" in connection with the voluntary "Declaration" supported by the "Secret Commission Act" now embodied in the "Canadian Criminal Code."

Penalty For Secret Rebating.

"This section of the criminal code provides among other things a penalty upon conviction on indictment of two

years' imprisonment or a fine not exceeding \$2,500 or to both and upon summary conviction to imprisonment for six months with or without hard labor or a fine not exceeding \$100 or to both who

(b) Corruptly gives or agrees to give or offers any gift or consideration to any agent as an inducement or reward or consideration to such agent for doing or forbearing to do or for having after the passing of this act done or forborne to do any act relating to his principals, affairs or business, or for showing or for forbearing to show favor or disfavor to any person with relation to his principals, affairs or business, or

(c) Knowingly gives to an agent, or being an agent knowingly uses with intent to deceive his principal, any receipt, account or other decement in respect of which the principal is interested and which contains any statement which is false or erroneous or defective in any material particular and which to his knowledge is intended to mislead the principal.'

"You will observe the sub-section 'b' provides against a salesman or traveler giving a clerk or agent without the knowledge of the clerk or agent's principal any rebate or consideration, and subsection 'c' provides against a salesman or traveler giving a rebate or consideration to any person without the knowledge of his, the salesman or traveler's principal. The seller, therefore, being an agent cannot give a bribe or inducement of any kind to anyone without his principal's knowledge without being criminally liable and even with the consent of his own principal cannot give a clerk a bribe or inducement without the knowlege of the clerk's principal without being criminally liable. It is equally clear that a principal cannot give a clerk a bribe or consideration either without the knowledge of the clerk's principal without being criminally liable.

"This construction of the Act by the Dominion Wholesale Grocers' Guild is upheld by the opinion of E. F. B. Johnston, who enjoys the highest reputation as a criminal lawyer. This view of the Act has never been seriously questioned by the grocery trade. The trouble has been to get evidence of these illegal acts. It is here, therefore, where the usefulness of the Declaration comes in and which in accordance with the recommendation of the Guild must be taken by the seller when called upon in case of a violation or a supposed violation of the Act.

Has Right to Refuse.

"It is, of course, the right of anyone to refuse to give this Declaration either from a sense of being guilty of the offense or from any other cause, but you must remember that your principal is under contract with the manufacturer that you or himself or both will take the Declaration when called upon and if you or he refuses, the manufacturer is

pledged to the trade not to sell his products to your principal, or impose an agreed penalty for breach of contract. It is therefore imperative if you remain a grocery salesman that you should take this Declaration.

" 'There is no shuffling, there the action lies in his true nature; and we ourselves compelled, even to the teeth and forhead of our faults, to give in evidence,' as Shakespeare puts it.

"It is, therefore, clearly established that our contracts with the manufacturers must be observed if we wish to remain in the grocery business. Both you and ourselves must adhere rigidly to the prices and terms stipulated and you will also observe that in the form of Declaration recommended, you have to swear that you have not sold sugar, tobacco or other proprietary goods at less than the established prices, nor given more discount off for cash on any class of goods than provided for by the established rules of the trade.

"These arrangements we are pledged to adhere to and all of us, both principals and employes, are in honor bound

to faithfully carry out.

"Gentlemen, we want you to be honorable business men. We want to be honorable business men ourselves. We want you to keep the interest of your house in view. We want you to keep the interests of your customers in view. We want your relationship with the retail trade to be dignified and fair. We want you to assure the retail merchant that the wholesale merchant will be ever watchful of his welfare. We want you to discourage the sale of any but goods that will afford the retailer a reasonable profit. We want you to assure him that his competitor cannot buy proprietary articles at less than he can. The retail merchants are honorable business men. We want you with their assistance and with our assistance to place the trade, both wholesale and retail on a satisfactory basis so that we may all be able to make a reasonable profit and raise the grocery business to a position that will be the emulation of all other branches of trade."

A Mistaken Idea.

Mr. Beckett remarked that the address was suggested by the fact that when the secret rebates act was passed many wholesalers apparently led their travelers to believe that it meant nothing. This was altogether wrong. The ing. This was altogether wrong. The Government would assuredly take ac-tion whenever there was ground for prosecution.

A nominating committee pointed, consisting of H. C. Beckett, C. H. Gross, K. MacKenzie, J. F. Edgett and Mr. Prevost.

TUESDAY AFTERNOON.

The morning session lasted until half past one, and it was nearly four o'clock before the meeting convened in the afternoon.

Sugar on the Slate.

Most of the time at the disposal of the convention was occupied in a lengthy and aminated discussion of the sugar question. Owing to the increased

cost of doing business the sugar trade was deemed to be in an unsatisfactory condition, and it was felt that steps should be taken to improve conditions. The matter was referred to a committee for investigation.

Canned Goods Arrangement.

The question of canned goods came up and was finally settled by the adoption of a selling plan along the general lines of past arrangements, which is intended to result in an equitable deal for manu-facturer, wholesaler and retailer.

THE WEDNESDAY SESSION.

The most important matter attended to on the last day of the convention was the election of officers. The result of the ballot was as follows:

President, Hugh Blain, Toronto, Ont .; vice-presidents, Robt. Kelly, British Columbia; W. Georgson, Alberta; H. B. Gordon, Manitoba; Geo. E. Bristol, Ontario; Archibald Miller, Quebec; R. F. Randolph, New Brunswick; R. M. Symons. Nova Scotia.

Next Convention in Toronto.

A telegram was read from the National Wholesale Grocers' Association of the United States, wishing all success to the meeting and a reply sent.

It was decided to hold the next meeting in Toronto. A vote of thanks to the Montreal trade for their courtesy during the convention was passed. Smye moving it regretted that the pressure of business made it impossible for members to more fully fill in with the entertainment plans of the Montrealers. A vote of thanks to the Board of Trade for the use of the Council Chamber for meetings was also passed. as was a vote thanking Mr. Miller for the manner in which he conducted meetings in his capacity as chairman. In the afternoon the delegates were entertained to a trip around the harbor.

WHO WAS THERE.

Those present were: R. M. Symons, of R. B. Seeton & Co., and L. Mortimer Smith, of A. & W. Smith & Co., Halilax, N.S.; J. H. Harris, of J. H. Harris & Co., Moneton, N.B.; G. E. Barbour, of G. E. Barbour Co. Ltd., St. John, N.B.; Arthur C. Pyke, Sec. Maritime Wholesale Grocers' Exchange, Halifax N.S.: Armand Chaput of J. Maritime Wholesale Grocers' Exchange, Halifax, N.S.; Armand Chaput, of L. Chaput, Fils & Cie., Montreal; L. A. Langlois, of Langlois & Paradis, Quebec; R. H. Beaulieu, of Cote, Boivin & Cie, Chicoutimi, Que.; J. F. Edgett, of Reed Co. Ltd., Moncton, N.B.; S. A. Jones, of Jones & Schofield, St. John, N.B.; J. B. E. Letellier, of J. B. E. Letellier, Quebec; John Dillon, of A. M. Smith & Co., London, Ont.; J. S. Royer, of J. B. Renaud & Co., Quebec; J. A. Lemieux, of A. Carrier & Fils, Levis, Que.; W. L. Harding, of W. F. Hatheway Co., Ltd., St. John, N.B.; C. H. Gross, of Leeson, Dickie, Gross Co. Ltd., Vancouver, B.C.; Fred T. Smye, of Balfour, Smye & Co., Hamilton, Ont.; A. Hudon, of Hudon & Orsale, Montreal; Thomas Kinnear, of T. Kinnear & Co., Toronto; Jos. Dufresne, of Jos. Dufresne, Joliette, Que.;

W. Pouliot, of Chevalier, Pouliot & Co., Joliette, Que.; H. Laporte and Jos. Ethier, of Laporte, Martin & Co., Montreal; F. W. Humphrey, of F. W. Humphrey, Toronto; J. N. Gow, of Macpherson, Glassco & Co., Hamilton, Ont.; Wm. C. Cross, of Hall & Fairweather Ltd., St. John, N.B.; A. G. Olive, of George Foster & Sons, Brantford, Ont.; F. M. Sloan, of John Sloan & Co., Toronto; A. H. Pafford, of Davidson & Hay, Ltd., Toronto; H. T. Wilson, of Groceries, Ltd., Toronto; W. P. Eby, of Eby, Blain, Ltd., Toronto; Samuel Villa, of James Turner & Co., Hamilton, Ont.; M. S. Sutherland, of Fenwick, Hendry & Co., Kingston, Ont.; R. J. Carson, Kingston, Ont; H. C. Beckett, of W. H. Gillard & Co., Hamilton, Ont.; Arch. Miller, of Whitehead & Turner, Quebec; A. E. Provost, of Provost & Allard, Ottawa, Ont.; J. R. Gardner, of F. J. Castle & Co., Ottawa, Ont.; K. Mackenzie, of K. Mackenzie & Co., Winnipeg, Man.

TRADELETS.

The supply of "taffy" ran short after Tuesday morning.
The Maritime Provinces were well re-

presented as usual.

Kenneth Mackenzie, the old reliable from Winnipeg, was right there.

Glad to see C. H. Gross come all the

way from Vancouver. That's the right

"Foxy Grandpa" kept good order and conducted the meetings in business-like

Fred Smye is certainly a hustler-he and Harry Beckett make a great team,

alright.
G. E. Barbour is a St. John man who doesn't wear velvet gloves when he is talking.

We missed brother Randolph from redericton. Must be doing a heavy Fredericton. business down east.

Carson-Sutherland combination from the Limestone City operated to-

gether right through.

The "Baby Doll' wore a happy smile at all times—besides an appropriated

carnation on Tuesday.

Friend Provost has the right idea and he's not the kind that, to quote Harry Beckett, "lays down."

A. H. Pafford knows what he wants

and has a mighty good idea of the shortest way to get there.

The delegates were entertained at luncheon, at the Canada Club, Tuesday at noon, by the Montreal Guild. Secretary Cook did everything to make the visitors feel at home—as he always does when the convention is held

in Montreal.

Fred Smye knew what he was talking about when he said wholesalers made more money by attending the meetings than by staying away.

Armand Chaput, although he took a back seat, entered into the discussions—and was on hand when the white flowers were going round.

Major Butler: "The secret rebater will get the retailer, if not to-day, then to-morrow. The only way to avoid being caught is have nothing to do with the gentleman." the gentleman.

"The Little Iron Man" worked just as hard as ever. Some very nice things were said about him by the members of the Guild, who can appreciate the arduous tasks he undertakes.

Practical Methods Used in Retail Grocery Stores

Cleveland Grocers Decide on the Weight Plan — Electric Fan Contrivance For Driving Flies From The Window—Chatham Grocer Advertises Source of Produce—Nothing Lost Through Early Closing.

Decide to Sell by Weight.

Cleveland, O., June 8.—Four hundred of the leading grocery stores of Cleveland, O., last week inaugurated the plan of selling vegetables and groceries by weight and not by measure.

This change comes as a voluntary concession on the part of the Retail Grocers' Association. It probably means that within a short time the dry measure method of sale and purchase of these commodities will be practically abolished. The Cleveland consumer now asks for 12 pounds of apples, peaches, beets, carrots, tomatoes, onions, etc., instead of a peck, or three pounds instead of two quarts. Irish potatoes are bought at 15 pounds for a peck.

The experiment had already been made by some of the big stores and they report that their customers were well satisfied.

Electric Fans Scare Flies.

Bracebridge, Ont., June 9.—Grocers of this town have little trouble in keeping flies from the window. This is how it's done. Bracebridge has a wonderful electric lighting system giving 24 hours' service. Nearly every store owns one or two electric fans, which, being placed in the display window, speed with such lightning rapidity that flies and other insects have no time to linger at the temptations before them.

Telling Whence Produce Comes.

Chatham, Ont., June 9.—W. J. Easton, a Chatham merchant adopts a novel idea with reference to his holiday meat trade. In his advertising, which frequently takes the form of reading notices, he gives the names of stock raisers from whom his cattle, calves, lambs and hogs are purchased. For instance, in Thursday's paper he states: "There are some exceptionally fine Easter calves . . . fattened by Thos. Smith, concession 5, Raleigh, especially for the Easter trade." In his advertising last Christmas Mr. Easton quoted probably a dozen or more stock raisers of prominence as his source of supply.

The idea, something new in the meat trade here, should not only interest grocers who run meat shops in connection, but might also be adaptable to the handling of butter, eggs, maple syrup, and summer fruits among other lines. It is at present not an uncommon thing for customers to patronize a certain grocery store because it handles Mrs. So-and-so's butter—though, in the event of that lady's butter being sold out, the customer is generally satisfied with any other butter the grocer may recommend.

other butter the grocer may recommend.

The scheme of utilizing the name of the actual producer as a drawing card for the grocery seems to offer possibili-

ties. Of course, there is the danger that the grocer may be building up prestige for some fellow merchant to whom the butter woman or other producer may later see fit to transfer her supply. Nevertheless, the mere act of specifying where a certain line of produce comes from usually carries a great deal of weight with ordinary buyers who, as a general rule, don't know the producer named from Adam.

Loses Nothing by Closing Early.

Toronto, June 9.—Another enthusiastic worker for early closing and the Wednesday afternoon holiday the year round is A. A. Martin, 202 Lippincott Street. For his own satisfaction he has given the early closing a trial and is quite satisfied he has lost nothing by it.

Mr. Martin says a man working unal 10 and 12 o'clock every night is not capable of doing his business justice that hour would searcely pay for the gas, he says.

P. R. Morrison, of 127 Lippincott St., is another strongly in favor of shorter hours and both gentlemen would like to hear the opinions of other Toronto merchants.

TRADE NOTES.

G. K. Nauta, representing "De Jong's" cocoas and chocolates, Wormerveer, Holland, is making a business tour of Canada. He was in Toronto this week and will visit Hamilton and London befor going to the Pacific Coast via Owen Sound, Fort William, and Winnipeg. He also represents a Rotterdam wine and liq or firm.

The Hamilton, Ont., Commercial Travelers' Association has presented the Hamilton Sanitarium with a furnished ottage, costing \$1,200. At a recent entiusiastic gathering of about 300 Hamilton citizens and the sanitarium committee, E. J. Fenwick, vice-pres. of the Travelers' Association made the presentation and J. J. Evell, the chairman of the sanitarium committee replied.

PUBLISHED EVERY FRIDAY

FRUIT AND GRAIN CROP OUTLOOK

Subscription, Canada and United States - \$2.00

The present is an anxious time for growers of crops, both fruit and grains. Too much or too little moisture means much to them.

This year, however, none in eastern Canada can complain of too little rain, but for a time it looked as if the west would suffer on this account. However, timely rains, and snow in some parts, relieved the situation and from present prospects the west will yield as good, if not better, crops than in 1907. The acreage is much more.

In British Columbia the fruit outlook is for a heavy crop; in fact, growers look for the largest in history. All the trees seem to have come through the winter without the damage that was sustained a year ago.

The weather in the Niagara peninsula has for some time been backward and cool, but that of the past week was much better.

There promises to be a fine crop of strawberries there. The early varieties are ripening, and the Williams, which is largely grown in that section, have set for a heavy crop and will begin to ripen about June 20.

Raspberries look well, but sweet cherries will be medium to light, the rainy weather affecting many orchards.

Plums, the Japanese variety, have set a light crop, but European varieties will be a medium to full crop.

Pears of nearly all varieties have set a full crop. Grapes will only be a medium crop from present appearances. Apples had a full bloom and are setting well, and many orchardists are spraying thoroughly for codlin moth.

From present appearances there will be, on the whole, a good fruit crop. Work is well advanced and there has been little or no injury from frost.

Tomatoes are backward, but warm weather will remedy this. Fruit lands are selling freely at high prices.

A SUGAR SCHOOL.

Something unique in the way of technical education is to be attempted at Glasgow, Scotland. This is none other than what is termed a sugar school, where young men are to be technically trained in regard to matters appertaining to the sugar trade.

The particular training is designed to fit the pupils of the school to take positions as managers, engineers, overseers and chemists at the sugar mills, which are located in different parts of the Empire.

Scotland has for many generations been famous as a centre for refining sugar. Some of the wealthy men in Glasgow are ambitious enough to think that her sons may take a greater part than heretofore in the manufacturing of the raw material, and they are backing up their ambition with substantial contributions of money in order that technical educational facilities may be provided.

Who knows but possibly the young men trained at the proposed technical sugar school at Glasgow may ultimately assist in solving the problem of the production of beet sugar in Canada, which has not by any means yet realized the anticipation of its promoters.

THE APPLE QUESTION AGAIN.

New light has been thrown on an old subject by a large United States apple exporter.

Recently he told of his troubles during the past year: "Farmers do not even stop at putting seconds and culls in with No. 1's, but even fill in with cider apples."

The result was to lower the whole market tone to such an extent that many of the largest exporters were unable to realize a profit.

This statement was made regarding the U. S. pack, but Government records here show that the same thing has been going on for some years past, and instead of being on the decrease, is becoming more and more general.

If our farmers could only be made to feel how our apple trade with England was suffering from just such small trickery, there would be a stop to it from most quarters. Unfortunately, they do not seem to realize that Canadian apples are gradually losing their pre-eminence in the English market.

A Canadian exporter estimated that fully half of our export of No. 1's would show tricky packing. This is becoming a matter of more than local interest. It is a national question, and one which so far has failed to reflect much credit on the Canadian farmer.

The only remedy seems to be to keep preaching, and wherever possible, have the commission men take up the matter, insisting on honestly packed apples. Even the numerous convictions for violations of the law on this matter have seemingly had little effect.

It is sincerely to be hoped that this year will see an improvement.

ANNOUNCE FLOUR DECLINE.

As will be seen from a report in another part of this paper, the retailers of Halifax, N.S., are alive to the advantages secured by the recent decline in flour.

They are featuring this fact in their advertisements and are very wise in doing so as a good many of the general public will patronize their stores for flour when a reduction in price has been announced.

It would be advisable to not only feature flour just now in the newspaper advertisements, but in the window as well, providing a few show cards are used to announce the decline and the lower price. This ought to bring good results.

B. C. RETAILERS COMPLAIN.

Another increase is noted in hams and bacon in the British Columbia market. One brand of hams is up from 223/4 to 231/2 cents, while bacon has advanced from 281/2 to 291/2 cents.

These items fluctuate more than any others there, and it all depends on the stock on hand. If the stocks are heavy, the price is dropped a fraction of a cent for an inducement to the retailer, and when the stocks are low, the grocer pays a little more for the same article.

There has been more than one complaint in British Columbia, not about hams and bacon alone, but of other lines, the prices of which are handled in the same way. On the coast, the opportunity is greater than in large cities in the east, since the point of supply is not so convenient, and a few days' delay makes a big difference in the stock in hand.

FROM THE FAR EAST.

Editor Canadian Grocer.—To-day we received your very valuable number of May 27th. It alone is really worth the dollar which we sent for 6 months' subscription.

J. KELLY & CO. Charlottetown, P.E.I., June 1, 1910

structed and The Vegetables and Fruits to be Used—Designed For a Corner Window.

The accompanying suggestion is for a fruit and vegetable window. While it is simple and does not require much ingenuity to construct it, it should be a good drawing card for any grocery store.

As will be observed from the shape, it is designed for a corner window, but the same idea can practically be carried out in a one-sided display.

The foundation is just a common board one, built somewhat on the stair fashion, but with slanting steps and a level platform on top.

Around the base of the window may be placed cans of vegetables such as corn. peas or tomatoes, end to end. If the labels are turned up a more attractive effect will be secured.

Next to the cans may be placed a row of carrots as suggested in the drawing, only they should be packed close to-gether to hide the window floor. A row of beets similarly packed might come next. On the second landing corn on the ear is one suggestion, but, of course, the grocer may make this greens of some in the centre, and they are arranged symmetrically and close by each other.

To make such a display a good seller a few window cards telling of the superior quality of the various articles, their origin, etc., should be scattered here and there. The price in such a case should also be given.

It is almost as simple to make a neat display like the above as it is to throw the different fruits and vegetables carelessly into the window. Any clerk who has the interests of his employer at heart would be glad to arrange it if it were suggested to him. If this is done The Grocer would be glad to learn of the results.

NEW OFFICERS ELECTED.

Winnipeg, June 9.—The Caterers' Association, of Winnipeg, which comprises the wholesale and retail grocers, butchers and confectioners of the city, met on the evening of June 2 and elected the officers for the coming year. President Ald. Wilton acted as chairman. The

kind, asparagus, peas in the pod or any other vegetable he wishes to sell. If corn is used a row of canned corn above with the labels up would be appropriate.

Use Tomatoes For Color.

To give a little color to the display use tomatoes by piling them neatly all the

The top landing in the drawing made by The Canadian Grocer's artist is allotted to fruit-pineapples and oranges -pineapples, because these are now in big demand for preserving, and oranges as they have become a grocery staple with a demand all the year round. The pines occupy the entire platform, with the exception of a neat pile of oranges vote ran as follows: President, E. Tugwell, Foley Bros. & Larson; vice-president, C. E. Christie, grocer; treasurer W. A. Postform surer, W. A. Bartram, provision mer-chant; secretary, E. V. Battley, butch-er; committee, Harper Wilson, Ald. Wil-ton, Ald. Gowler, B. Holman. The association is to meet next week

again to make arrangements for the anagain to make arrangements for the annual picnic. Several invitations have been received from outside points offering sites for a picnic ground. It is expected that Winnipeg beach will be the chosen place but it is difficult to get a date when the grounds are not occupied.

SOCIABILITY AND HARMONY.

J. A. McCrea & Son, Guelph, Ont., and their staff are among the foremost of Ontario grocers in promoting a social grocers, of Toronto, are suing J. Broughton and W. Ball, retail grocers, for \$336 and costs in County Court. Plaintiffs say they sold goods to defendants for \$1,333.73, and that a deposit of \$1,010.63 has been paid. The balance of \$323.10 includes \$12.97 interest. Mr. Ball claims that he dissolved partner-ship with Mr. Broughton before the goods were purchased, which the latter admits to be right.

HELPS HIM IN HIS BUSINESS

QUEBEC MARKETS

POINTERS.
Rice.—Up 15c.
Seed Tapioca.—Up ½c.
Ginger and Mace.—Very firm.
Sugar.—Firm.

Montreal, June 9th, 1910.

The feature of last week was the 15c. rise in all lines of rice. This change took place just too late for publication in the previous issue. It has had a decidedly beneficial effect on trade in this line, buying being indulted in freely

line, buying being indulged in freely.

The short sugar war in the States attracted considerable attention. It caused refined prices in New York to drop to the \$5 mark.

Monday, Tuesday and Wednesday of this week the wholesale grocers met here in Montreal. A full account appears on another page of this issue.

Dr. McCarrey, government health officer, has been very busy of late confiscating spoiled foodstuffs. Among the items were a lot of canned lobsters.

The constant rain during the past few weeks has had a bad effect on trade in general. Collections are poor and buyers seem to be afraid to lay in any large stocks. It is to be hoped matters will improve soon.

Sugar.—Since the recent advance there has been a slight weakening in the price of raws, and U. S. refiners took advantage of it to start a short cut price war. The two concerned were the Federal and the American Sugar Refining Companies. Prices touched the \$5 mark. Evidently the matter has been settled, as prices are again almost normal. Trade is only fair here.

Evaporated Apples.—During the past few days local demand has been stimulated to a considerable extent. The cause is thought to be the large buying of late for export. The poorer grades are pretty well exhausted and most of the trade passing is in the higher grades.

Evaporated apples, prime..... 0 08

Beans and Peas.—There is little change in the bean situation. Export trade is still holding its advantage. So far, this buying has had little effect on local trade, but there are signs of coming activity in case it continues.

Peas are quiet at unchanged prices.

Ontario prime Peas, boiling,	pea beans,	bushel	 2 30

Rice and Tapioca —Just too late for publication last week all lines of rice went up 15c. This change is ascribed to the large increase in demand in China for foreign rices, partcularly Burma. At the advance the sale is brisk.

Tapioca is firm and seed tapioca has gone up. It is now quoted at 6-7c. Sales are only fair, however.

CANNED GOODS

MONTREAL—There is a first class demand for vegetables of all the standard kinds at prevailing prices. Fruits are somewhat dull in can, but in glass the trade is quite considerable. It is thought that the growing ease with which green fruits can now be distributed has had a slackening effect on the canned fruit trade.

ONTARIO MARKETS

POINTERS-

Currants—Growing firmer. Raisins—Strong market. Sugar—Steady.

Toronto, June 9, 1910.

Several features regarding the markets should interest grocers. Sugar, currants, raisins, rice and tapioca all need watching, and careful study of any conditions that may affect these markets. The weather man and Governmental strictions as to the extent of the crop have been at work hand-in-hand in Greece, with the result that the old stock of currants is quoted high, and in sympathy with this condition the new crops are expected to be opened at high quotations.

Raisins and olives in Spain are reported to be suffering from drought, and as yet no reports have been offered to the contrary. At any rate, the market is firm.

In spite of the tendency to weakness of some time ago following the last advance, those who are following the sugar market cannot see any signs of lower prices. The dull weather of late has not had a he'pful effect on the sugar market, which with real summer conditions is expected to brace materially. The advance in rice is somewhat unexpected. It has not yet become general, but is expected to before long.

A United States rice dealer reports that the weather conditions are still unfavorable to the planting and growth of rice, and unless abundant rains come to the rescue the coming crop will be much less than expected. The crop of the past season was bountiful and excellent in quality and during the era of low prices large quantities of inferior grades were ground up for stock, low-priced Japans being used in place of screenings, which later, under renewed demand for brewing purposes, advanced sharply. Recent estimates of supply ahead reveal an extraordinary situation; and instead of an extraordinary surplus, it is now believed that the carryover will be less than last year.

Sugar—The sugar market is quiet though steady and firm, running along firmly since the last increase. There was a slight weakness following the higher quotations, but the market stiffened again and is now firm. Future options are higher than those offered for this month in raw sugars, and it is surmised from this that prices will go higher before long. Cool weather has had a certain depressing effect on the sugar market and dealers are waiting for fine weather.

Dried Fruits—As pointed out in last week's issue of The Grocer, the dried fruit market is at present particularly interesting. The reports which have been received regarding the currant crop in Greece have been confirmed by additional cablegrams, and certain brokers have advised jobbers that in view of the reiterated reports that they believe it is not a case of exaggeration, and that the opening prices may be the lowest of the season. Already during the past week there has been reported an advance of one shilling on the old stock in Europe, and the speculative

quotations on the new stock have gone up the same amount in sympathy with the movement in the olds. Raisins are almost equally firm, and are being quoted at ½e higher than previous prices.

Prunes are also steady. In fact, the dried fruit market is altogether interesting and changes may be expected in more than one of the items.

Rice and Tapioca—A rather unexpected increase in the price of rice is a feature of this market. Short crops is one reason for this firmness. Local dealers have not given out any particular advance, although such would not be unexpected. Tapioca is also firm, not having changed during the past week.

Foreign Dried Fruits.—The general line of dried fruits from California are likely to advance shortly. The occasion of the stronger market is the reports of severe stronger market is the reports of severe damage by frost, which report is daily being certified to from the various centres of the State. It is peculiar that although prospects are for a stronger market, yet the trade is weak locally just now and recent importations of Valencia raisins had to be reduced in order to stimulate the output. When this der to stimulate the output. When this slight backset is remedied no such prices as are now being offered will prevail.

Evaporated Apples.—Just when this product was on the rise the general trade weakened and to-day the price is held steady at about 8 cents.

BRITISH COLUMBIA MARKETS.

Vancouver, June 9, 1910.
With the reduction of 30c per bbl. in flour, there has been no reduction in the price of bread. This decrease has been looked for, since the increase was made at the time flour went up, and if the cause holds good one way, the consumer declares it should act the other way. Customers in more than one instance are making complaints to the green. are making complaints to the grocer, but he can do nothing except look pleasant and try and point out that he is not the one to blame.

There has been a general advance in olive oil, one firm jobbing at from \$3.90 to \$4 per dozen quarts.

A surprise to the ordinary man is contained in the prices for canned strawberries and raspberries. Generally the strawberries are the highest, but there is considerable difference in their favor just now.

The potato market was never in the condition it is this spring. L'ast winter, prices were high, and it was hard to get good potatoes, in fact it was declared that Ashcrofts had all been used. When the warmer weather began to come, potatoes found their way and now the market is flooded with them, Asherofts and all. Asherofts were at \$40, but now they are quoted at \$20, and those who have any quan-tity are selling at even less to get rid of them. Locals are offered at the buyer's price. Evidently they overstepped themselves, and the holding has brought less money than if they were sold first thing last fall.

Some good eastern butter is to hand in 56 lb. boxes, at 30c to 32c, the price being the same for boxes or bricks.

California sweet oranges are jobbed at \$3.50 all sizes, while navels run from \$3.50 to \$4.50, according to size. The sweets, although they do not present such a good appearance and have a few pips, are held by many to be the better fruit, even if the price is lower.

Strawberries are coming on the market in greater quantity and are \$3 a crate. The crop this year promises to be good.

NOVA SCOTIA MARKETS.

Halifax, N.S., June 9, 1910.

The butter markets are a little easier this weak. More fresh made dairy is now coming on the market than for some time, and in consequence the price has a downward tendency. Some good dairy butter was offering this week at 25 cents per pound.

Eggs are in light demand. The receipts are fairly heavy, but the price remains firm at 19 cents. Some of the dealers who had large stocks on hand

A Toronto Grocer's Success

Standing in the store of a successful Toronto grocer the other day a gentleman heard a lady ask the price of oranges. "30c. and 40c.," replied the grocer, a man of few words, and added, "The 40c. are the better buying." The lady took the 40c. The gentleman also wanted oranges and he too followed the grocer's advice.

Nine out of every ten of your customers can better afford to buy 40c. Red Rose Tea than any 30c. tea. You can't afford to sell 30c. tea when you can just as easily sell 40c. Red Rose Tea.

Just try pushing the 40c. grade of Red Rose Tea. Make it a feature of your business and it will mean better business. You can make a profit on the motto

Red Rose Tea

Is Good Tea
The 40c. is VERY good.

T. H. ESTABROOKS

ST. JOHN, N.B.

To the Manufacturer or Wholesaler-

If it were possible to employ a traveller who could call on 7,000 of the best dealers all through Canada every week, what salary would you figure he'd be worth—even supposing he did nothing more than go in and shake hands with these dealers, under such circumstances they'd be glad to see him.

Would he be worth \$200, \$300 or \$500 per week? Many a house would pretty nearly let him fix his own salary.

Equip an advertisement in the Canadian Grocer with a verbal handshake for every dealer in Canada, and a frank, brief, pointed talk about your goods and you add a traveller to your staff who will make 7.000 calls a week for you at a salary of \$4 to \$8 a week—less than you would pay a first-class stenographer.

Of course this traveller won't displace any of your regular salesmen, but he will help them to sell more goods and open up more new accounts.

sold eggs a little lower, but the market price is the figure stated.

All jobbers say that the high price of pork products is restricting sales to a large extent. The demand for lard, hams, and bacon shows a heavy decline, and there is not much prospect of the prices becoming easier.

One of the principal changes in the grocery market is a drop in the price of flour. The decline is about 25 cents per barrel on all grades. There is only a fair demand for flour for household use at this season of the year. Some of the retail dealers are featuring flour prices in their advertisements this week

The fruit dealers report business brisk. Fruits of all kinds are now coming on the market in good supply. . Collections were a little slow towards the end of the month, but since then there has been an improvement. Rhubarb is scarcer than usual, much of it having been killed off by frosts early in the season. Bananas are in full demand, and the quality of the fruit in recent shipments is much improved. The price ranges from \$1.75 to \$2.40 per bunch.

United States cabbage dropped one dollar per barrel this week. It is now quoted at \$2 per crate. U.S. beans are selling at \$1.75 per box. Pineapples are in good supply and are selling at \$3 per crate. Bermuda onions are still on the market, and are quoted at \$1.50 per

NEW BRUNSWICK MARKETS.

St. John, N.B., June 9. With the advent of warmer weather there has been increased activity in nearly every branch of the commercial markets. Eggs have dropped to 19 and 20 cents a dozen for new laid stock, and 17 to 18 cents for the case variety. Butter is also cheaper, being quoted at 22 to 23c in tubs and 24c to 27c in rolls. Bacon has advanced 2 cents per pound and is now selling at 18c to 20c wholesale. Both Manitoba and Ontario flours declined during the week. Manitoba's are now quoted at \$6.15 to \$6.25 and Ontario's, \$5.45 to \$5.75.

All over the province now the farmers are busy putting in their crops and the indications point to a much greater yield this year than last season. Vegetables are well advanced and are reportables are well advanced and are reported fully a month ahead of other years. The crop of hay, grain and potatoes will be considerably larger than in past years and 1910 will doubtless be a banner year with the farmers unless something unforeseen occurs. thing unforeseen occurs.

Manitoba Fish Exports High Since First of Year

In View of High Prices of Meat in the U. S., the Latter Country Imported More in Two Months Than During 1909—Steps Being Taken to Preserve Fisheries in That Province-Conditions Existing There.

Winnipeg, June 9.—Of the many industrial enterprises in Manitoba opened during the past few years perhaps the fish trade has been one of the most important. It took many years for the people of this country to recognize that there was a wealth of resource in the fisheries

of this province.

Until about six years ago the three great lakes were teeming with fish of all varieties and no one seized the idea of their tremendous commercial value, except possibly a few local fishermen who found a ready demand for a limited number within the province.

When the trade did open however it

opened large, for a strongly capitalized firms from below the border began fish-ing operations with a view to supplying an eager market in the large cities of

As a consequence within three years after this export trade began it was reported that our provincial fisheries were being rapidly depleted, and by foreign operators. Nothing was done, however, by the authorities for many months and by the authorities for many months and the exportations increased, and our fish were growing more scarce. Fortunately however (from the standpoint of those who were creating the agitation), the large export firm with unlimited inter-ests elsewhere, failed, and of course the fishing to a large extent creased. fishing to a large extent ceased.

About this time, however, some action was being taken toward the restoration of fish in the lakes and also in the way of the curtailment of exportation by foreign operations.

\$226,000 Worth Exported.

The Dominion Fishermen Commission which made the investigation was the means of stimulating the U.S. custom officers to gather some interesting information.

It was pointed out that the export during the last few months has reached tremendous proportions. It is estimated that the value of the fish export during January and February amounted to over \$226,000 while the entire fish export for 1909 amounted to about \$170,000. This is accounted for by the fact that meat is accounted for by the fact that meat prices in the States have made great advances recently. The great part of the export during the past winter has been frozen fish which were sent to almost every part of the country. White fish is the principal fish being exported, but there has been an increased demand for all grades, and the market has gone up to an average of about seven cents. up to an average of about seven cents to the exporter.

What has been true of the export trade

however, is not altogether true of the trade in this province or this country. One of the wholesale fish companies

states that the trade here is not particularly active, and that prices have not been enhanced. He also states that the Dominion Government was justified in curtailing the exportations from local waters, but as yet the damage has not been serious.
"In fact," he states, "with the present

restrictions and with no summer fishing except on Lake Winnipeg for two and one half months, and with the further limitations of a 2,000,000 pound summer catch, the depletion will quickly be made up. Local fish dealers do not want to over-fish the lakes. It is to our interest to preserve them and severe restrictions may at the same time be necessary and an injury to the trade."

Lakes Were Overfished.

In connection with the Dominion Fisheries Commission report, it sets forth the belief that all the lakes of Manitoba had been over-fished, that some of the more valuable species such as whitefish and pickerel, had decreased very seriousand pickerel, had decreased very seriously in size and abundance, and that sturgeon was on the point of extinction. It sets forth that the evidence showed conclusively that the Manitoba fisheries had been unduly controlled by foreign fish operators, who have dictated the prices of fish and secured the major profits; that the better grades of fish were controlled. of fish and secured the major profits; that the better grades of fish were sent to the United States, which curtailed the home supply; and urged, in view of the rapidly increasing population, that every effort should be made to restore the fisheries. It is urged that summer fishing on Lakes Winnipegosis and Manitoba be prohibited, and that on and after January 1, 1911, the closed season be applied with a view to restoring the pickerel and whitefish.

WANT EARLIER CLOSING.

The grocery clerks in the retail stores in the business district of St. John, N. B., are endeavoring to induce the proprietors to close the stores at 6.30 p.m. instead of 7 p.m. as at present. The clerks contend that under the present system they usually have to wait at the stores until about 7.15 which makes a long period between dinner hour at 12 clock and system. o'clock and supper about 7.30. Several of the employers have expressed sympathy with the movement.

Little Girl: "That bun you sold me yesterday had a fly in it, and muvver says you ought to give me another one."

Baker: "I can't do that; but tell your ma that if she'll let me have the fly back I'll give her a currant for it." -Punch.

this year been good Receipts

Present Heavy Production of Cheese and Butter

Reports From Country a Unit in This Respect—Prices in Each are Lower—Butter May be Cheaper—Lard Slightly Easier—Production of Eggs Still Continues at High Figure — Provision Market Quiet.

Butter is presenting a feature in the heavy output that is now being recorded. In spite of the fact that Quebec is shipping cream across the border and in other parts of the country the same practice obtains, the manufacture of butter and cheese is far in excess of the output for the same period last year.

The indications are abundant outputs of both butter and eggs. In regard to the former, prices are easier and it is believed that they have not yet reached the minimum. From Ireland, Holland, England, etc., the manufacture of butter is equally high and export trade has suffered and prices have lost their firmness. Cheese is also easier.

The production of eggs continues at a high mark with prices down. Cold storage concerns are filled and trade is directed to home demand.

Poultry and honey markets are quiet although the former is about due to brighten up.

MONTREAL.

Provisions.—Conditions are improving in all lines of provisions. Prices have remained steady and trade has been showing a gradual increase.

There is a slight weakening in live hogs which are now quoted at \$10.

hogs which are now quoted at \$10.

Butter.—Butter is going to be plentiful this year if signs do not fail. Already the receipts show a gain of about 20 per cent. over last year. The cows are doing well and the quality so far has been good.

Receipts for the week are 18,400 packages as against 14,055 same week last year. For the season they are 59,814 packages as against 47,141 packages same season 1909.

Eggs.—Rather a new departure in egg circles is the guaranteed egg from the wholesaler. A Montreal firm is responsible for this innovation and it will be given a thorough trial.

Prices are 1c easier this week. Receipts for the week are 9,491 cases as against 11,679 cases same week last year. For the season they are 61,994 cases as against 64,015 same season 1909.

New laid..... 0 205

Cheese.—So far there is little export demand on account of the New Zealand article still being on the market in England. Prices are steady and local trade is fair.

A large make seems to be the prospect for this season. Receipts are almost 20,000 boxes in advance of last year. For the week they are 55,799 boxes as against 44,511 boxes last year and for the season 157,607 boxes against 138,614 boxes same season 1909.

TORONTO.

Provisions.—With the exception of a slight decline in lard the provision market shows but few changes. The prices of live and dressed hogs are also easier. Receipts have been light but business has been fairly active. The season is close at hand when the demand for smoked and cooked meats reaches its maximum. Dealers state that this season is featured by the breakfast demand for smoked bacon and cooked hams have become general favorites. Manufacturers state that they have hardly noticed much change as yet, but grocers themselves announce that the season referred to has already begun.

Eggs.—Receipts have been large but the demand has been steady with the result

that stocks have been easily cleared. Prices are quoted at still lower figures and the high tide of production has hardly run out yet. The market at present is satisfactory.

				20
Second grade, doz	0	17	0	18
Chips, doz			0	16

Butter.—Deliveries have been steady and with production higher as expected, prices should take on an easier tone. Those who have been through the country recently state that conditions are for a heavy flow of milk. While cheese factories will be largely benefited by this condition yet the production of butter is bound to be heavier. There are some who believe prices will be lower than at present. This depends largely upon the output.

	Per

Butter Creamery from the province is jobbing at 24 cents to-day, being 2 cents below last week. Two cars are to be made up by June 15 for shipment to the coast which will tend to keep prices well up. The full grass butter is not wide-spread on the market yet but will be in a few days and it is not expected that prices will be much lower. No. 1 dairy is 22 cents

Eggs.—With a good supply and the jobbing price 21 cents, eggs are likely to drop soon. The coast province has stopped buying now and the demand is only a local one.

Cheese.—Local cheese factories have opened recently and although the product is not so good as the all grass cheese will be, it is enjoying a good sale at about 12 cents. Ontario cheese is al-

ways popular here and is moving now at 13½ cents.

Honey.-The quotations of last week are still maintained strongly and there is an excellent demand, particularly for the small sizes

EARLY SATURDAY NIGHT CLOS-

Hamilton Grocers are Considering This Move-Picnic on July 20 to the Falls.

Hamilton, Ont., June 9.-The advisability of retail grocery stores closing at 9 o'clock on Saturday evenings during the months of July and August, came up for discussion at the last meeting of the Retail Grocers' Association. If the large stores were going to close at 6 o'clock on Saturdays during the above months, the grocers ought to at least close at 9.

This was the argument that nearly all the members put up, and it was decided to circulate a petition among the various stores on the question. The matter will be decided at the next regular meeting.

"This staying open until midnight is not what it is cracked up to be," stated John Forth, who also pointed out that if the grocers could be induced to close at 9 o'clock on Saturdays during the summer months it would be likely that they would close on Saturdays the whole year round at that time.

The picnic of the association will be held on July 20 and will again go to Niagara Falls. This was agreed upon in spite of the fact that Grimsby citizens tried hard to get it for Grimsby Beach. The majority felt that it was their duty to give to those who patronized their picnic the best possible outing.

TO PREVENT GLUTTING

The West Anxious to Distribute Fruit Systematically - First National Fruit Show for Vancouver.

Vancouver, B.C., June 9.-In previous seasons, owing to lack of knowledge of where fruit supplies were wanted, there were gluts in certain points on the prairie, and this is to be obviated this year by having a special commissioner of the government watch the market closely and keep in touch with the authorities by wire. They in their turn will keep the growers and shippers informed, so that the fruit may be sent exactly where it is needed.

Growers in the Kootenay, the Okanagan, the coast districts and Vancouver Island are all sanguine that the fruit erop this year will be the largest yet. All the trees seem to have come through the winter without any damage, such as was sustained a year ago. This being the case, it is an opportune time to hold the first Canadian National Fruit Show, which is on the boards for the first week

A Good Resolve

Anchor **Brand** Flour

Resolve never to be Second Class in anything. No matter what you do, try to be a King in it; Resolve to have nothing to do with the Inferior. Do your best in everything-deal with the Best; choose the Best; live up to the Best, and you cannot help but succeed.

These are the sentiments that govern the manufacture of ANCHOR BRAND FLOUR and those that use it. If you deal with the Best they will help you to choose the Best and carry out

in November for Vancouver. Great interest is being taken in it, and the event promises to be a noteworty one in the history of the industry. The proposition is to hold this show in other cities in Canada in alternate seasons so that the fruit growing industry in all parts of the Dominion may reap mutual benefit.

INFORMATION FOR BUYERS.

(Supplied to the Trade by Sellers.)

There has recently been placed upon the market a development of the Automatic Springless Weighing Machine for retail merchants which is truly a wonder. By this new machine a much wider scope or utility is provided than by any other weighing device or scale heretofore invented. This scale practically gives the merchant two complete automatic scales in one. An ingenious, automatic device. operated by a simple turn of a knob, instantly changes the scale from a ten pound to a twenty pound or back from a twenty pound to a ten pound automatic scale, as may be desired. At the same time the range of selling prices per pound is also changed, allowing the merchant to see instantly the value of goods at any one of fifty prices. Scale manufacturers never before have given the merchant a computing scale with so many different prices per pound. For the weighing of higher priced goods which are sold in smaller quantities, this two-scales-in-one machine has especially designed a range of higher prices operating with the smaller weighing capacity. The lower priced goods, naturally sold in larger quantities, are handled by the features of the scale having the lower price range and the larger weighing capacity. With all these great results, the machine is simple. Any child can readily understand and operate it. It is a product of the inventors connected with the Toledo Computing Scale Company, Toledo, Ohio.

NEW WINNIPEG BROKERS.

Cereals Have Been Sustained by the Weather

Delayed Summer While Not Benefiting Some Lines of Business, Has Helped the Cereal Market - Flour Market Steady, Following Recent Decline-Reports Refer to Better Trade as a Result-Wheat is Slightly Firmer.

In sympathy with a tone of firmness that has been given the wheat market of late, the flour market is slightly stronger. This steadiness prompts the opinion that there will hardly be another decline in flour although it is not said so in words. Conditions are still favorable for a big crop in the west this year. Recent rain with snow has provided ample moisture for the present.

The total acreage under crop in Al-

The total acreage under crop in Alberta this year is estimated at 1,582,973 an increase of 27 per cent. over last year. In a general way, trade in wheat is dull but the situation in flour, judging from various reports has improved

Business in cereals has been assisted by the chilly weather of the last three weeks and trade is reported quite satis-

ent.

MONTREAL.

Flour.—Flours are firm at the recent ecline. Trade has been somewhat improved by the change, but weather conditions are so poor that the buying is in small lots. Export trade is rather light

COLLECTED OVER \$1,095.

Chatham, Ont., June 9.—At the monthly meeting of the Retail Merchants' Association last Tuesday, the collection de-

partment was the central theme of discussion. The department has completed the first year of its existence, and, despite the fact that much time was necessary for organization and that the retirement of Collector Murdock last winter involved nearly a month's interval, over \$1,095 was collected by the collector directly in the course of the year, all of it slow pay money and much of it regarded as hopeless. In addition, much money was paid direct to merchants, fewer credits have been asked, and the general tone of credit business throughout the city is represented to have perceptibly improved; while there is the added feature of the insurance afforded the merchant through the delinquent list.

Organization for the coming year is now in progress. Here and there are merchants who are dissatisfied with the results; but the majority will undoubtedly renew, since the new collector, Ernest Askunas, now has the department in good working order and it is in a position to give better results.

The example of the grocers, who sent John McCorvie and Wm. Potter as delegates to the recent convention at Torento, is being followed by the local R.M.A., President A. D. Westman being appointed as delegate to the convention at Kingston. An invitation was also extended to Provincial Secretary E. M. Trowern to visit Chatham next September, when the annual banquet will probably be held. The election of officers for the local branch will take place after Mr. Westman's return from the general convention this month.

MOONEY CO. BUY WINNIPEG BUSI-NESS.

The Mooney Biscuit and Candy Co., of Stratford, have purchased the entire business of the Foley Bros. & Larson Co., Winnipeg, and take possession at once.

The deals involve about \$500,000. No time will be lost in bringing about a uniformity of the lines produced from both the Stratford and Winnipeg plants. William C. Mooney will manage the Winnipeg business.

You remember in the old days there was a system of apprenticeship usually about four years' grinding to learn a business.

After serving this term one was supposed to be quite proficient. In time one became an expert in a chosen field-if one stayed with the work.

Experience made one such.

Now, it's fully twenty-five years since we began making Bordeaux Chocolates. In the first few years we learned all they could teach us about them.

But we were not satisfied. We did not feel we had attained perfection. We kept on plugging.

Eventually we considered we had reached highest attainable perfection.

Everyone complimented our quality by imitating it.

So we registered our brand-for your protection-the public's-our

That perfect confection, the result of our experimenting, our experience, has since been known, and is now famous as the

"CHOCOLATE BORDO"

and it's an all-the-time winner.

This is But you alone, f Cost ar vield a Isn't th So you what?

Rent, Deliver your C And yo that of Likewi vince t

you see

Five Roses costs more and yet costs less

OU WHO buy to sell again, have YOU ever figured the True Cost of Things?

So as to know your Real Margin of Profit.

For instance, Brother Grocer, take this matter of "flour."

Let us consider together how Cost is made up—not the Cost of Production, you know—but YOUR Cost, the cost of selling to Mrs. Ultimate Consumer. First, of course, comes Invoice Value—what you pay the Maker to get Possession.

This is "First Cost."

Ont.

COtand ntee akes

EAL at ples But you can't base your Profit on that alone, for the Difference between First Cost and Selling Price doesn't always yield a profit, sometimes a Loss.

Isn't that so, Brother Grocer?
So you must add Something Else—what?

Rent, Light, Insurance, Collecting, Delivering, Bookkeeping—in short, your Cost of Doing Business.

And you add your own Salary and that of your Help.

Likewise, the Time it takes to convince the buyer, for Time is Money, you see.

And you figure a Speedy Turnover.

And like a Scientific Retailer, you throw in something to cover the Risk of Dissatisfaction, the Possible Loss of a Customer.

For Satisfaction Insurance has a Money Value of its own—your repeaters are worth something.

It's your Goodwill, Brother Grocer—your only asset the morning after a fire.

So you see, don't you, why some flours cost more than others while costing less, why a Fat Gross Profit may go hand-in-hand with Nothing Net.

Maybe you are harboring a robber in your cash box.

Just see, Brother Grocer, how FIVE ROSES flour pays you more in every way:

By saving Time in selling, since Extensive Advertising has made known the quality advantages, the success elements of FIVE ROSES.

So you have more time to push goods harder to sell.

And it saves board-bill by never outstaying its welcome, reducing your stockkeeping. Makes your dollar travel faster by quickening the Turnover, increasing your available capital, allowing you to take advantage of market opportunities.

Allows you to sleep on both ears, free from worry and controversy with customers due to the "cussedness" of poor quality.

Gives you free advertising through the wagging tongue of Genuine Satisfac-

Figure all this, Brother Grocer, in YOUR cost when you next order flour; figure all this and more when you compare Net Profits with Gross. This is no dream of an idle mind, but a business-building fact as evident as your own hopes of success.

Don't you see that every bag of flour you sell that is *not* FIVE ROSES is like a thief in your Cash Box, a leak in your Till?

Reducing Present Profits and Future, Brother Grocer.

Reducing your Confidence in your Salesmanship.

Can't YOU—won't you—see it this way!

Potatoes Dearer, with Higher Prices Expected

Some Dealers Even go so Far as to Express an Opinion That the Price Will Reach One Dollar—Scarcity is Reported, Particularly in Ontario—Tomatoes are Firm — Pineapples Experience Heavy Demand and Firmer Prices Prevail—Lemons are Strong in Tone.

Press rumors that have lately been noticed from different parts of Ontario referring to a scarcity of potatoes has been followed, as least so far as Toronto is concerned, by increased prices. They have not been confirmed for other localities, but dealers are all quoting at the increased price, and it has been stated that the condition will become general and higher prices will be asked before the new crop is marketed.

Pineapples have sold heavily of late at fair quotations. There is now a sign of firmness which is general. Slightly higher prices are looked for. Oranges are uneventful. The lemon market is firm, although it has not received any strength from the weather. Dealers are awaiting for news from the east in regard to any damage the earthquake of Tuesday may have done.

Tomatoes are firm. The Canadian hothouse variety is now coming in, but has not relieved the situation yet.

MONTREAL.

Green Fruits—Strawberries are coming in freely, and that cause, along with poor buying on account of the rainy weather, has weakened the price to 15c. Oranges continue to have a heavy sale. Pineapples are down to \$3, owing to heavy receipts.

TORONTO.

Fruit-As might have been expected, the weather has had a slightly deterrent effect upon the green fruit market, both from the producing and consuming ends. Pineapples have held the centre of the stage, having beat out strawberries for first place. The demand has been heavy, the retail trade having assisted greatly by featuring this fruit from the preserving standpoint. The supp'y has been ample, but prices have undergone no change. Strawberries are being received in continued abundance before an increased demand. Prices are quoted from 13c to 15c, and some call them even at 16c. Lemons are strong. A slight falling-off in demand was noticed recently, but the fine weather will bring the usual heavy call for this fruit. A large consignment of Verdelli fruit is on the water and will likely be quoted at high prices. Apples are pretty well cleaned out. In regard to pines, it may be said that the

Vegetables-Probably the strongest feeling locally at present is in potatoes, which, although a drug on the market a short time ago, have of late shown a s arcity which has toned up the market. It is also predicted that owing to the nature of the season the new crop is going to be later than usual, which stimulates the market still more. Delawares are up to 75c a bag, and Ontarios are quoted at 55c and 60c a bushel. Throughout Ontario various reports are arising substantiating these statements. Several dealers expressed the opinion that they believed the dollar mark would be reached before long. At any rate, the market is strong just at present, and there is

every reason, to believe that it will go higher.

Tomatoes are also being quoted at a higher mark and are quite firm. Onions have been rather irregular of late. The demand still exceeds the supply. The Egyptian onions are apparently nearing the close of their market. There is a good demand for imported green vegetables, with prices, if anything, slightly advanced. Canadian hot-house tomatoes are arriving at 17½c pound.

WINNIPEG.

Green Fruit—Apples do not figure in the market now, since the best grades have all been cleared off, and jobbers are asking a moving price only. Grape ruit is popular, as are also pineapples and strawberries. Strawberries from Hood River will be off the market next week, and new goods from Missouri will arrive soon. The stock there is reported good.

Bananas Cranberries, bbl Cocoanuts, doz	2 50 8 00 0 90	Oranges, Cal., navels Pineapples, case	4 50 3 50
Grape Fruit, Florida, box Lemons, Messina	7 00 5 00	Strawberries, Hood River, qt. 0 15	0 18

Vegetables—A wide range of import stuff is having a good sale at moderate figures. Jobbers claim that lower prices prevail just now on southern grown stuff than is usual at this time of the year. The low price of potatoes here at present is a feature of the trade, and the good demand for Egyptian onions is also remarkable.

Asparagus, doz. Butter beans, lb Carrots, Orleans per box Cabbage, new, lb Cucumbers, bskt Lettuce, doz Mint, doz.	2 00 0 15 2 50 0 04 2 00 0 30 0 40	Onions, Egyptian, per lb. Potatoes, new, lb. Onions, green, per dozen		da, crate	3 75

Fish—There is plenty of halibut and whitefish on the market. In addition to these, goldeyes form a considerable part of the trade in the fresh-caught fish. The salmon stock is growing lighter, due to a slow production on the Pacific. The frozen fish trade is light, but there will be some moving for a few weeks yet.

Buying and Handling Vegetables at a Good Profit

What Some Grocers Pay Particular Attention to—Advisability of Always Keeping Fresh Stock on Hand and Making Rapid Turnover—Methods Used in Display.

Spring vegetables afford the grocer a fair profit with but slight possibility of his sustaining a loss. This statement is volunteered after obtaining from retailers their opinions based on their own experiences in this regard.

As soon as the prices become favorable—when market gardeners begin to bring in large quantities of lettuce, onions, radishes, carrots, tomatoes, etc.—the grocer will find that his customers expect him to carry a stock of these articles. The average grocer, however, anticipates the demand, not waiting until a customer asks for them, and prepares to handle them. Some go at it in a half-hearted manner, as if they were afraid they might find themselves with a heavy stock on hand and lose money. Others are systematic in their method. Instead of depending entirely on a catch trade they enquire among their customers in an en-

deavor to secure a list of persons who will regularly purchase new vegetables. Still another grocer will follow the latter method to a certain extent, but he will also decide that he is going to make a specialty of the fresh goods, for the profit that is in them, and also as an aid to his grocery business.

In any event vegetables do not require a great deal of attention. That is, there is not the same anxiety felt by the dealer as in the case of perishable fruits. It is true that vegetables should not be held over three days if possible, and if the grocer is careful in his buying and makes an effort to promote his business he will find that he is replenishing his stock at least every other day, and that it is fresh and wholesome.

One grocer carelessly remarked: "No, I never have any trouble. I have not lost a dollar's worth of goods

all season. The most of what I did throw away might easily have been sold, but it was getting stale and I knew it. I felt that if I sold it, I might possibly lose a customer, so I gave fresh goods and I know that customer would be entirely satisfied. There is nothing gained in being greedy. The customer who does not relish the goods she purchases from you is not likely to be pleased, and worse than that, she might give your opposition a call the next time. The possibility and the probability of such an occurrence was one of the first lessons I learned when I started in the business. My employer one day gave-but what's the use, everybody knows the truth of the statement from their own experiences, and it is not necessary to tell mine."

Keeping Them Fresh.

It is of prime importance that the vegetables should be kept fresh. It is well that they should have an appearance of having just been gathered, with the dew not yet gone from the leaves.

There are various methods of securing this end. Some grocers have the slip-

shod system of leaving them on the counter, pouring over them a little water now and then. This is hardly an excuse for decent care. The counter gets dirty even if it is devoted to vegetables alone. Some use a shallow tub, which serves the purpose satisfactorily, but on a small

Some have prepared a shallow vessel of galvanized tin suitable for a counter or a window. Others again install a fountain, which is not only a novelty, attracting attention to the vegetables, but admirably serves the purpose of keeping them fresh, thereby prolonging their virility.

These fountains are of all sizes, some occupying an entire window, which is set apart to boom the sale of vegetables and for display effect. Others are smaller and may be placed in a window or in a prominent place in the store. Moss placed around the border of the lower basin of a font with pebbles here and there in the water adds tone to the whole and creates a favorable impression, according to a grocer who has one of these fountains.

In regard to keeping goods fresh, a grocer states that he kept lettuce a week in his cellar and it was in excellent condition when he brought it up. It is safest and best, however, not to obtain too big a supply, and as in handling of fruits. it is well to do what may be termed a hand-to-mouth trade.
