Detage to Portlandent.

The letters of our Toronto correspondent have nached us, containing full reports of the debates on Mr. H. J. Boulton's amendments; but it unfortunately happens that several of our comp altors are laid up by lithese, and we are, therefore, prevented from publishing them, as they about take up several enhume of our journal.

The whole time of the Lower House on Tusday, the 22nd, was occupied in debating the various amendments fixed by Honorable Members to the Address in answer to the Speech from the Throne, beginning with that of Colonel P. incer. Little to the Court of Chancery. This question is of comp. ratively little interest to the people of is of comp. ratively little laterest to the people of is of comporatively little interest to the people of Lower Canada, so that we shall content ourselves with observing that the mejority of the Conservantive members were agreed in the opinion that the Court was a very unpopular one, that the people generally wished it to be abolished, and that the generally wished it to be abolished, and that the garties by the Corporate authorities is to be justiced in the people of the composite with the people of the corporate authorities is to be justiced in the content of the corporate authorities is to be justiced in the content of the corporate authorities is to be justiced in the corporate authorities to the justice by the Corporate authorities is to be justiced in the corporate authorities to the justice by the Corporate authorities is to be justiced in the corporate authorities and that the people is a content of the corporate authorities in the people of the corporate authorities is to be justiced in the corporate authorities to the people of the corporate authorities is to be justiced in the corporate authorities to the people of the corporate authorities in the people of the corporate authorities is to be justiced in the corporate authorities in the people of the corporate authorities are corporated authorities. Mr. Robinson moved an amendment to the 13th clause, to the effect, that the expense of erecting Jails and Court Houses in Lower Canada sho be defrayed by local assessment, instead of being taken from the general revenue. This amendment was voted down by 37 to 12. Good roted at h The House then went on to the amendment

The House then want on to the amendment of Mr. H. J. Boulton on Household Suffrage and an Elective Council. The debate was chi fly remarkable for the declaration splemnty made by Mr. Baldwin, that he was desidedly opposed to an Elective Legislavice Council, and would oppose the proposition whenever, and by whom over, made, not caring what others thought respecting it. He would not say that some extension of the Elective Franchise might a t be made, although he would not go the length of Household Suffrage.

Mr. Leatchine as expressly declared that perhaps something might be done at another time to reader the Legislative Council more Conservative, perhaps by adopting the Elective principle; but as that would be an organic change in the Constitution, a good many gentlemen from Lower Canada were of opinion that sothing should be done until the acquiments of the pupple were learned at the poils.

Col. Gugy was opposed to the elective principle. This worthy gentleman soized this opportunity to announce his separation from the Conservative party; in fact, he has ratted, openly offering to serve the Ministry in any capacity, modestly comparing himself to Admiral Blaks. Though Punch is dead, the "Cat has jumped" at last Colonel Gugy accused the Annexationists of Avance 1 and wound up by declaring every one of them, to be notorious drunkards. In the course of his speech he made an outrageous attack on the character of Mr. Peter Redpath, to which Mr. Halmes replied, in one of the most manly, straight-forward, and humorous apseches we ever read. We cannot resist quoting the following paragraph from his speech, as a specimen lowing paragraph from his speech, as a specimen of the mode in which Colonists are treated by the Colonial Office, and as an evidence of the stolid ignorance of that department in every thing re-

The House adjourned, and the debate was resumed on Thursday. Colonel Prince, Mr. Papinesu. Mr. Gauchon, Mr. M. Cameron, and Mr. H. J. Boutton were the principal speakers. Bot's Colonel Prince and Mr. Papinesu made very able speeches. The latter centleman is becoming very popular-among the Upper Canadian "Clear Grits," and we should not be surprised to find him in office, when the result of the next Elections places the advocates of elective institutions, economy and extremelment in power.

The vote was then taken on the first amendment.—(In favor of elective institutions.)—For

Great Excitement !!! The Steamer Ohio arrived at New York yeste

The Steamer Ohio arrived at New York yesterday afternoon, and brought intelligence that Gen. Lopez landed at Cardenas, about 90 miles from Havane, on the 13th inst., with about 300 men, and took possession of the town. The garrison consisted of one company of about 50 men, who made but a slight resistance; ben'd diven into a church, and sitter having 2 men killed, surrendeted. The General landed in the steamer Croole, which left New Orleans before the Oth inst. Several other vesils, containing, in all, some 1500 men, which left New Orleans before the Gr. ole, had not arrived.

The greatest excitement, existed, at Havana, The city is under martial law, and several thousand military had been enrolled, and arms were being delivered them. The revised foreigners were all called upon to ent. II. There were 1500 trops at Matanas, and 800 were dispatched from Havana at 11 o'clook, A. TUESDAY, MAY 28, 1850. MOFFATS Life Pifls and Phonix Bitters. These Medicines have now been before the pub-lic for a period of TTPTERN TRANS, and during that time have maintained a high character is almost every part of the globs for their castessidency and jumediate power of restoring perfect health to persons suffering under usurly every hard of disease to which the human frame is liable.

IN MANY THOUSANDS

of certificated instances, they have even reacued sufficers from the very verge of an untimely grave, where all the deceptive nectroms of the day had atterfy failed; and to many thomsunds they have permanently secured that aniform empressed health, without which life itself is but a partial blessing. So great, indeed, has their officacy invariably and infallibly proved, that it has appeared expectly less than mirronicat to those who were sequalited by the beautifully philosophical principles upon which they are compounded, and upon which they consequently act. It was to their manulates and sensible section in partitying the springs and channels of life, and enduing them with renewed tone and vigor, that they were indebted for their name.

Unlike the best of permissons quackeries which beaut of vegetable ingredients, the LIFE MEDITIES are purely and solely vegetable; and contain acities Mercury, nor Antimony, nor Arsentic, was any other nilmeral, in any form whatever. They are satirely composed of axtracts from rare and powerful plants, the virtues of which, though long known to several Indian tribes, and recently to some eminent pharmaceutical themists, are altogether unknown to the general present or resources in so happity efficacious a combination.

The first operation is to leases from the coats of the stomace the hardshed fasces which collect in the convolutions of the small intestines. Other medicated masses behind to produce habitual Costiveness, with all its train of evils, or sudden Diarrheas with its imminent dangers. This fact is well known to all regular unatomists who examine the numan bowels after death; and hence the prejudice of these well-informed men against the quack medicines of the age. The isocoud effect of the VEGETABLE LIFE MEDIGINES is to cleame the kidneys and the bladder; und, by this means, the liver and lungs, before it passes into the heart, being thus purified by them, and nourished by food coming from a clean stomach, courses freely through the veins, redews every part of the sys

ration in such cases, and the thorough solution of all intestinal obstruction in others.

The Live Mericans have been known to cure RHEUMATISM permanently in three weeks, and GOUI in half that time, by removing local inflammation from the muscles and ligurants of the joints.

Dropsing of all kinds, by freeing and strengthening the kidneys and bladder: they operate most delightfully on these important organs, and hence have ever been found a certain remedy for the worst cases of GRAVEL.

Also Worms, by dislodging from the turnings of the bowels the slimy matter to which these organizes adhere.

of the bowels the sliny matter to which these creatures adhere.

Asthma and Consumption, by relieving the air vessels of the lungs from the mucous which even slight colds will occasion, and which, if not removed, becomes hardened, and produces these dreadful diseases.

Scurry, Ulcers, and Investrate Scres, by the perfect purity which these LIFE MEDI-CINES give to the blood, and all the humons.

Scorbutic Eruptions and Bad Complexions, by their alterative effect upon the fluids that feed the skin, and the morbid state of which occasions all cruptive complaints, sallow, cloudy, and

sions all cruptive complaints, sallow, cloudy, and other disagreeable complexions.

The use of these Pills for a very short time will effect an sutire cure of SALT RHEUM; and a striking improvement in the clearness of the skin. COMMON COLDS and INFLUENZA will always be cured by one duse, or by two even in the worst cases.

PILES. As a remedy for this uncet distressing and obstinate malady, the YEGETABLE INFE MEDICINES deserve a distinct and emphatic recommissed and obstinate malady, the YEGETABLE INFE MEDICINES deserve a distinct and emphatic recommissed distinct and emphatic recommissed distinct and emphatic distribution. It is well known to hundreds in this city, that the former proprietor of these valuable Medicines was himself afflicted with this complaint for upwards of TRISTY FIVE YEARS; and that he tried in sain every remedy prescribed within the whole company of the Material Medics. He however at length tried the Medicine which is new officed to the public, and he was cured in very short time, after his recovery had been two nounced not only improbable, but absolutely impossible, by any human means.
