VOLUME 1, No. 24.

ST. JOHN'S, NEWFOUNDLAND, WEDNESDAY, FEBRUARY 11, 1914.

PRICE:—1 CENT.

Three Coronations Set Down For 1914. The King of Greece, The Shah of Persia And Emperor of Japan To be Crowned This Year.

London, Feb. 7.—King Constantine's coronation in May, at Athens, is not the only affair of the kind that is scheduled for this year.

A royal commission has been formed there for the purpose of making all the necessary arrangements for the ceremony. But it has been resolved not to invite foreign governments to send special embassies for the occasion.

The coronation, however, will be a spectacle well worthy of a trip to Teheran by tourists from this country who have the necessary means and the leisure; and I would draw the attention of the moving picture concerns to the fact that one of the features of the coronation festivities will be a grand Durbar, at which the provincial Governors and Chieftains from all parts of Persia, with their retinues, will each in turn offer their homage and their tribute to the young "King of Kings," who will be seated for the occasion on the famous jewel-studded peacock throne.

Still another coronation set for this year is that of the new Emperor of Japan, which is to take place in the fall, on which occasion the United States, like the other Great Powers, will be represented by a special ambassador.

Japan's New Ruler. The Japanese regalia consist, first and foremost, of a mirror, then of a sword, and also a tusk-shaped jewel; all of which are said to have been bestowed upon Jimmu, first Emperor of Japan, by his mother the Sun Goddess, six hundred years before the beginning of the Christian era.

"Look upon this mirror as if it were my own spirit, and reverence it as you would my own presence. For centuries upon centuries, shall thy descendants rule this empire. Govern this country with purity, like the light that radiates from the surface of the mirror. Deal with thy subjects with the gentleness typified by the bland and soft lustre of the jewels. Combat the enemies of the empire with this sword."

CROWN YOSHIHITO NEXT NOVEMBER.

Tokio, Feb. 7.—The coronation of Emperor Yoshihito has been fixed for November 10.

The influence of the regalia upon the Japanese people is phenomenal. Coming from the Gods to Jimmu, the first Emperor, himself a descendant of the Gods, the existence of the regalia dates from the very foundation of the Japanese Empire.

They are preserved in the great Uji Temple at Ise, sacred to the worship of the Sun Goddess. It cannot strictly be called an ancient temple. For it has been erected anew every century; for more than twenty centuries past, each temple occupying the same site, and being the exact reproduction of its predecessor.

FIRST WOMAN JUDGE IN THE DOMINION.

Mrs. Jamieson Appointed to Juvenile Court at Calgary.—Will Try Offenders Under Eighteen Years of Age.

Calgary, Alta., Feb. 9.—The first woman judge to be appointed in Canada, is Mrs. R. R. Jamieson, President of the Local Council of Women of Calgary, who has been appointed by Attorney-General Commissioner of the Juvenile Court in Calgary.

Seeks Permission to Proceed Against Quebec Archbishop.

Permission Granted to Madame Hebert's Lawyers to Take Steps to Attempt to Compel R.C. Dignitary to Set Aside Decree.

Montreal, Feb. 3.—The Hebert case is on the move again.

A petition was asked for from Mr. Justice Greenshield, in Chambers this morning to enable George V. Cousins, attorney for Mrs. Hebert, and Arnold Wainwright, counsel to proceed against His Grace, Archbishop Bruchesi, to the end that the marriage contracted between Marie Emma Cloutier (Mrs. Hebert), and Eugene Hebert, be declared legal, and that the decree in contradiction of this, issued by His Grace, on November 12, 1909, be declared null and void, and be expunged from the records of the Church.

The petition states that His Grace, either in his ecclesiastical capacity or otherwise, was, and is still, without right or authority to declare null and void, or to pronounce on the validity of a marriage, and that he acted "illegally and without competence, jurisdiction or right in issuing, publishing or recording the said decree," and also, "that the decree is libellous and defamatory in nature."

WILL GIVE ALMOST ALL ULSTER ASKS

Glasgow Herald Declares That the Government Will Grant the Province the Fullest Possible Concessions.

Glasgow, Feb. 4.—Concessions of the most sweeping description are to be made to Ulster in connection with the introduction of Home Rule in Ireland, in the course of a statement to be made by Premier Asquith on the reassembling of Parliament, according to to-day's Glasgow Herald.

The announcement made by the Glasgow Herald is regarded in political circles as particularly significant since it coincides with the arrival in Glasgow of the Rt. Hon. David Lloyd George, Chancellor of the Exchequer, to speak on the land question.

UNCLE SAM TAKES UP THE TASK OF APPEASING ENEMIES ABROAD.

Will Endeavor to Adjust Differences Which Have Caused Estrangement.—Panama Tolls Included.

Washington, Feb. 8.—The Senate Foreign Relations Committee have taken the first step in the programme which President Wilson has outlined for relieving the United States of some of the embarrassments now confronting it in its foreign relations.

Panama Canal Tolls

With the arbitration treaties disposed of, the Administration will direct its attention to the Panama Canal tolls question. The President already has indicated to members of the Foreign Relations Committee that he is against the granting of free tolls to American coastwise ships, and believes some legislative action ought to be taken which will remove Great Britain's ground of complaint that the Panama Canal Act constitutes a violation of the Hay-Pauncefote Treaty.

The Administration and members of the Senate have been stirred to action

Wireless Has Saved 4000 Lives

According to Marconi's Estimates of Rescues At Sea Through the System.

London, Feb. 7.—No provision of the convention agreed to by the International Conference for Safety of Life at Sea has created such interest as that enforcing the equipment of all vessels, carrying fifty or more persons with wireless.

William Marconi, when interviewed on the subject, agreed that the new provision marked a great stride forward and said: "I have been trying to make an approximate return of the percentage of British ships fitted with wireless apparatus. If you take steamers of 100 tons and upward on Lloyd's register, you will find that less than 6 per cent. have wireless installation. Roughly, there are about 10,000 vessels of more than 100 tons and fewer than 700 of these have wireless.

AGREE ON SAFETY AT SEA RULES

Canada Will Legislate at an Early Date Along the Lines Suggested by International Congress.

Ottawa, Feb. 8.—When the Hon. J. D. Hazen, Minister of Marine, communicated to the House on February 16 as arranged, the conviction respecting measures for the safety of life at sea, it will doubtless be accompanied by the announcement that Canada will adopt such legislation as is necessary to give effect to it.

The terms of the Convention will not be made public until the date agreed upon, but among the subjects dealt with are rules for more careful navigation, for a greater number of water equal to the number of passengers and tight compartments, lifeboats and rafts crew, and high power wireless equipment with operators constantly on duty.

It will also be required of ships that the speed at night be slackened, that the iceberg zones be avoided by southerly courses, and that special men shall be carried on crews to handle or direct lifeboats.

Japan and Mexico

Efforts have been made here in official quarters to minimize the significance of the Japanese activity in connection with the Mexican situation, but the fact of the matter is that this subject was seriously discussed between the President and the Foreign Relations Committee the other night, and it has given the members of the Senate more worry than any other feature of the foreign relations situation.

No one pretends to say that there is any immediate danger of trouble with Japan, but it is the growing sentiment in Japan against this country that is regarded as most significant.

This feeling in Japan accounts for the recent anti-American demonstration, the extraordinary reception given to Francisco de la Barrá, the Mexican Special Envoy in Tokio, and in part also for Japanese activities in Mexico itself.

TORY LEADERS ARE DIVIDED REGARDING HOME RULE PROBLEM.

T. P. O'Connor Declares That There is Only Ireland Left As a Political War Cry For The Unionists.

THE LIBERALS HAVE THEIR OWN DIFFICULTIES TO FACE.

There is a Strong Feeling Amongst The Rank and File of the Party Against Increased Naval Expenditure.

London, Feb. 8.—The Tory leaders are divided in their minds, apparently, as to whether they want a settlement or not on the Home Rule Bill. Perhaps I might be putting it a little differently if I were to say that they feel at the moment that the only settlement which will do them any good is a settlement which would be so much of a triumph, and especially for Sir Edward Carson, that they might hope to get a good deal of political profit out of it.

On the other hand, the Tory leaders have their difficulties also if no settlement be come to. It will be a serious thing for Sir Edward Carson if there should be disturbances in Ulster, for he would be bound to be there and to risk both life and position by doing so. He is a strange being with moods of utter despondency, natural to men of high-strung, nervous temperament and of uncertain health.

Nor is it altogether easy even for Mr. Bonar Law to face the consequences of backing up Ulster in whatever resistance she may determine to make. He is, of course, himself, a very reckless and a very short-sighted man, and he does not understand either Englishmen or English politics.

Are Against Carson. But all the same, it is not easy to go sober English people—and especially in the classes which make up the Tory party—to lend their countenance to violent resistance to the law. They are restrained by party discipline, of course, from expressing

their views in public, but in private no Tory man of business hesitates to express his disapproval and his disgust at the appeals of Sir Edward Carson. Such appeals are especially unwelcome at a moment when there is so much labor disturbance and when the militant suffragettes have brought a new element of violence into political agitation.

If the younger generations of Tories had a free hand, they would be quite ready to meet Lloyd George with proposals quite as drastic as his, but they are silenced by the vast vested interests and by the House of Lords and can do nothing except abuse Lloyd George personally.

The Tory party at this moment finds itself still rent in twain between the two sections who follow Mr. Austen Chamberlain and who follow Lord Derby. The one section, of which Mr. Austen Chamberlain is the leader, still insists vehemently that Protection without food taxes is a sounding brass and a tinkling cymbal. On the other hand, Lord Derby, the greatest figure in Lancashire Toryism, insists that with food taxes as part of the Tory programme, it is hopeless to go to a general election.

It is therefore evident that there is nothing left to Mr. Bonar Law but Ireland, and for that reason he is still, I hear, very stiff and still insists on making demands which no Liberal Government could think of accepting.

On the other hand, it would be futile to say that the Liberal party are entirely free from difficulties. The chief of these difficulties are undoubtedly caused by Mr. Winston Churchill a few years ago, he was with Mr. Lloyd George, the chief opponent of bloated naval estimates and there was one conference when, if things had gone against them, they would have been ready to throw up their places and appeal to the Liberal party against the Liberal Government.

Since he got into the Admiralty himself, Mr. Churchill has undergone a great transformation. He has been swept away by the magnificence of the great machine of which he has become not only the titular head, but one of the most powerful motors. He is obsessed by the idea of building ships and more ships and bigger ships. He shrinks at no expenditure, and he presses for his estimates with passionate zeal. At some moments it looked possible that he would retire rather than see his estimates cut down even moderately. But the revolt against further naval expenditure has grown and grown, until now it is a very serious thing and might threaten even the existence of the Government.

I believe that for once the Cabinet is united against any very gigantic increase and that Mr. Churchill stands alone. I do not think he will be foolish enough to throw up his office, and I believe that an accommodation will be found. But there is this difficulty undoubtedly. It will, I believe, be overcome, but it would be a mistake to underestimate the strong feeling of revolt there is in the Liberal rank and file against further vast expenditure.

T. P. O'CONNOR.

22 Dreadnoughts Put In The Water by World Powers, 1913.

United States And Austria-Hungary Were Not Represented In 1913.

BRITAIN & GERMANY LEAD WITH 5 EACH.

London, Feb. 6.—Although not such a record year as 1911, when twenty-six dreadnoughts were put into the water, the total number of capital ships launched in 1913 nearly reaches this figure, and is a good deal above the average. The only naval Powers that have not put a dreadnought afloat during the last twelve months are Austria-Hungary and the United States, but for the latter both the Ne-

vada and Oklahoma may be launched early in the new year.

Including battle cruisers, the dreadnought record of Great Britain and Germany is the same—five launched for each country—two of the British war ships being of the 1912 programme, while the German total includes one of that date. France comes next with three capital vessels, all of the 1912 programme; Italy, Japan and Turkey, now that she has bought one from Brazil, have two each to their credit, and Russia, Chile and Spain have one each.

F. C. BOWRING'S GENEROSITY.

Cardiff, Feb. 8.—Mr. Edward Nichol (Hall Line, Cardiff) recently made a challenge promising £100 towards the extension of the John Cory's Sailors' Rest if nine other Cardiff dockmen would give a like sum. The challenge is bearing fruit, the hon. treasurer of the Rest having received two cheques of £50 each from Mr. F. C. Bowring, of Liverpool, on behalf of the English and American Shipping Co., Ltd., and the Beer Creek Oil and Shipping Co., Ltd., of which Messrs. C. T. Bowring, Ltd., are the managers. Sir Clifford Cory has also promised another £100 and there is every belief that other shipowners and merchants at Cardiff will respond, and thus provide the cost of the forthcoming extension of the Rest to provide 62 beds for officers, apprentices, and seamen.

PECULIAR IDEAS OF HUMAN VALUES.

Vancouver, B.C., Feb. 7.—John Simpson has been awarded \$1 in the Supreme Court for the loss of his wife when the steamer Cheslake went down a year ago off Vancouver harbor.

This award is in strong contrast to a verdict given in the same Court the previous day, when a woman was given \$6,000 for the loss of her husband in the same disaster.

SPLENDID SPECIMEN BLACK FOX TRAPPED IN NEWFOUNDLAND.

Sydney Daily Post Has Some Very Nice Things To Say About Our Fur-Bearing Animals And Their Possibilities.

Sydney, Feb. 4.—The Post had an opportunity to inspect the skin of a pure black male fox which was specially noteworthy in that the animal had been trapped wild in the woods of a certain district of Newfoundland.

It has been claimed by Mr. Charles Dalton, who may be considered the father of the fox industry in Prince Edward Island, that the black fox is peculiar to that island, and can only be produced by scientific inbreeding. The fox, the skin of which was inspected, was considered a perfect specimen of the black species and would have been most valuable for breeding purposes. Owing to the trap marks and the carelessness with which the pelt had been handled, the particular skin in question will not be so valuable as it might have been. The finding of this black dog has, however, given every encouragement to those engaged or interested in the fox industry of Newfoundland, where it is being developed in a very large measure. The general opinion is that the black fox can be successfully raised in Newfoundland, and the finding of this specimen is taken as a pure proof of this. It is stated by most competent authorities that there is no reason why the Newfoundland production should not be of as fine a quality as the Prince Edward Island variety.

No better investment can be made than by taking a Contract Space in the DAILY MAIL.

FACE GRAFTED ON YOUNG CANADIAN.

Surgeons Will Build a New Nose For Ross Allen Who Was Badly Injured in an Accident in a Saw Mill.

Baltimore, Md., Feb. 4.—With a part of his forearm substituting for new lips, Ross Allen, a young Canadian at a hospital here, seems to be in a favorable way to have practically the whole of his face disfigured from an accident in a saw mill five years previously, his nose and lips were missing.

A section of flesh, shaped to the form of his lower lip was cut on his forearm in December and a grafting juncture made with the lip base. The arm was bound about the head until the grafting was complete. This consumed about two weeks, when sufficient adherence having taken place, the lip section was severed from the arm and lip shaped. The same procedure was followed in the upper lip treatment, a section of the arm flesh being grafted across the upper gum and the arm strapped to Allen's head and shoulders until this section, too, had taken hold.

When Allen accumulates sufficient strength for another operation the surgeon will try to build him a new nose. It is planned to cut away a piece of healthy cartilage from one of the ribs at the juncture with the breast bone, shape it to the form of a nose with the nostril openings, and insert it in place of the missing organ.

331,000 OUT OF WORK IN NEW YORK.

Conditions Are Abnormal, The Worst Known For Seven Years.

PROBLEMS TO FACE. Principal Section Of Unemployed To Be Found Among the Unskilled.

New York, Feb. 7.—Statistics gathered by the Employment Bureau of the Society for Improving the Condition of the Poor, show that 331,000 men in New York city are out of work. As a result of a canvass of manufacturers, contractors and merchants, the Bureau reported that conditions were abnormal and the worst since the winter of 1907-1908.

"Most of the employers felt, however," says the report, "that business relief was in sight and that a very few months would see the return of normal business conditions."

Unskilled Labor Worst. Of the total unemployed, 140,000 were unskilled laborers. The building trades came next, with 70,000. Then followed: Longshoremen, 18,000; cloak and suit makers, 18,000; waiters, 6,500; tailors and pressers, 6,000; clerks, bookkeepers and accountants, 5,000; mechanics, 4,500; boatmen, bargemen and sailors, 4,200; barbers, 3,800; drivers, 3,000; engineers and firemen, 3,000, and other trades in smaller proportion. The Bureau acknowledged that these figures are only approximate, but said that in every case the most conservative information was followed.

NEW ACT WORRIES THE SUPFRAGETTES

London, Feb. 8.—Official figures show that the "Cat and Mouse" Act, under which militant suffragettes who start a hunger strike in jail are released, only to be arrested again when their health is restored, has broken up the militant cause.

Only 46 militants have been arrested in the nine months since the enactment of the law, while 240 were sent to jail previously. Only two are now in prison. Six completed their sentences or paid the alternative fine. Two were discharged on giving a pledge to behave. Thirty-seven fled from the country, while out of jail under the ticket-of-leave.

IRRIGATION TO CONQUER THE DESERT.

Big Undertaking Started to Reclaim Vast Tracts of Land in the Sudan. Two Rivers to be Harnessed.

London, Feb. 7.—Work has been commenced on another great scheme to reclaim by irrigation vast tracts of desert in the Sudan. It is believed it can be made to add enormously to the cotton output of the British Empire.

The tract which is to be watered is known as the Giza territory. It lies between the Blue and White Niles, below Khartoum, and consists of 1,500,000 acres. The force and flow of the two rivers is sufficient to water the entire district when properly harnessed. The proposal is to build two dams south of Khartoum, one over each of the rivers. Thus the tract between the streams will be irrigated, while at the same time the force of the water flowing into Egypt will be controlled. At present the Blue Nile comes down in a raging flow, and the White Nile, flowing in steeper fashion, combines with it to make a huge overflow. The building of the two dams will enable the flow to be properly regulated and will practically mean the final harnessing of the Nile.

FOR ALL THE NEWS READ THE DAILY MAIL.

RISKS HIS LIFE TO FIND IT'S POLLY.

Policeman, Overcome in Vain Attempt at Rescue, is Saved by Firemen.

New York, Feb. 2.—"Help, Mamma! Oh, Mamma!" The words came from an upper floor of a house in Brooklyn to-day. Smoke and flames were pouring from the windows. "Oh, Peter's up there; save him!" cried Mrs. Bengran.

Petrolman Petrus dashed in and was driven back by the smoke. He wrapped his coat around his head and went in again. On the upper floor he was overcome. Firemen running in with hose lines got him out.

Peter was dead in his gilt cage, his bright green feathers singed and smoke stained.

Petrus came to, looked at the dead parrot, choked back a flow of language and finally contented himself with just two words—Mrs. Bengran was present. "Oh, well," was all he said.

King George Opens House of Commons.

Speech From The Throne Refers To The Gravity of The Home Rule Situation--Important Measures To Be Considered.

MEMBER OF CANADIAN HOUSE OF COMMONS

Alleged to Have Received Money For Securing License For Life Assurance Company.

Montreal, Feb. 1.—Did an M.P. from the province of Quebec, during 1911, before the general election, receive \$500 from the Security Life Assurance Company for services in connection with the obtaining of a license once refused the concern, but later granted it by the finance department at Ottawa?

The question came up during the hearing of a case before Mr. Justice Bruneau on Saturday. An accountant in the employ of the company, swore that he had made disbursements on one occasion to the extent of \$745 towards the latter part of April, 1911; \$500 of this, he said, went to Mr. [redacted] then a member of the House of Commons; \$200 to the company's legal adviser, and \$45 covering the expenses of Messrs. A. Desnoyers and Victor Morin, who were in Ottawa negotiating for a license for the company.

Witness, cross-examined, admitted that he personally had no knowledge of the actual payment of the money to the then member of Parliament; he had simply received the account from Desnoyers and had paid it, on order of the board of directors of the company.

ANNOUNCES CURE FOR SEASICKNESS.

Has Found the Injection of a Well-Known Drug Efficacious.—Now We'll Go A-sailing.

Berlin, Jan. 29.—Ocean voyages no longer need be a terror to those subject to sea sickness in effect the announcement made to-day by Dr. Joseph Fischer, the well-known heart specialist of Nauenheim, in a Munich medical weekly. Dr. Fischer reports that as the result of extensive experiments with sea sick passengers he found that an injection of atropin completely cured the worst cases.

GUILTY OF MURDER IN THE FIRST DEGREE.

Jury Condemns Ex-priest Schmidt on Charge of Murdering Miss Anna Muller.—To Be Sentenced To-day.

New York, Feb. 6.—Hans Schmidt was found guilty of murder in the first degree for killing Miss Anna Muller, a young woman he had married through a self-performed ceremony, while acting as a priest at St. Joseph's Church. The penalty of the crime is death in the Electric Chair. He will be sentenced next Wednesday. Schmidt's defense was insanity.

Schmidt is seemingly content with the verdict and declines to permit his counsel to appeal. The verdict was rendered late yesterday, a little over two hours after the jury had retired.

It seemed a great relief to the former priest who had sat through the twelve days' trial as if in a daze, and always blankly staring at the court room wall, for his bent figure suddenly straightened, a light came into his eyes and he smiled. Schmidt seemed to have been prepared for the verdict. Since his arrest on September 14th, he has refused to be shaved or to have his hair cut. He has worn a silk handkerchief in lieu of a collar.

READ THIS! To The Fishermen:

Buy "THE COAKER" Kerosene Motor Engine!

A Motor Engine made for The Union Trading Co.

by one of the Largest Motor Engine Manufacturers

in America is now available to the Fishermen.

"THE COAKER ENGINE."

"THE COAKER" is a 6 H.P. 4 Cycle Engine, and can be operated on half the oil consumed by a 6 H.P. 2 Cycle Engine. This Engine's power is equal to the power of some 9 H.P. 2 Cycle Engines. It is made for Fishermen's use and expressly for Trap Skiffs and the large size fishing bullies. It is sold to Union's members at wholesale prices. All commission and middlemen's profits being cut out. We have contracted for the manufacture of 1000 of these engines. The engines will be carried in stock by us here and can be delivered by April 1st. We will carry parts and fittings in stock. We will arrange reasonable terms of payment to meet the requirements of men unable to purchase for cash. WE GUARANTEE THE ENGINE. An expert has been engaged to attend to the installation of our Engines. Write for particulars and terms. See Circular Letter sent to all Councils concerning this engine. We confidently recommend the engine as being of the very best make and material, of being exactly what is needed for the Fishermen's use and GUARANTEED TO GIVE SATISFACTION. It is above all durable, simple and capable of doing heavy work; it is not a toy engine. The spark plug is attached to the side and not the top. The engine starts on gasolene.

This engine is sold \$75 cheaper by us than by the regular agents selling a similar engine. No agents will be employed to sell those engines. We will do our work through the Councils of the F.P.U., therefore one dollar on every three will be saved by buying these engines from the Trading Company. We are prepared to dispose of 2000 of these engines during the year 1914. The Union would have done better and arranged longer terms of payment had the Liberal-Union Party been returned to power, as we believe public monies should be available to aid Fishermen to carry on their work and assist every industrious man to become independent. The Southern Districts being coddled by the catch-cries of Graballism have debarred the Fishermen from receiving loans from public funds in order to secure those desired improvements, but the Trading Company will endeavor to do what is possible to aid Union members, and in spite of Graballism thousands will possess motor boats in two years who are to-day without them. All particulars on application to

The Fishermen's Union Trading Company, Limited.

Water Street - - - St. John's, N.F.

Important Announcement For Union Fishermen!

We have entered into an agreement with

THE FRASER MACHINE & MOTOR COMPANY, OF NEW GLASGOW,

For the manufacture of a large number of two cycle engines, which we will sell to F. P. U. Members at prices that will stagger the sales of all other first-class engines. We have used the FRASER engine for two years and found it satisfactory as a two cycle engine, and the engines to be built by FRASER for us will be supplied with the latest improvements in engines. No carburetor will be used with our engines. An adapter and igniter has been invented that does away with the carburetor, and our engines will all receive the fuel from the top of the cylinder, instead of from the bottom. Only one tank will therefore be necessary. No gasolene tank will be required. The engine will start on gasolene, supplied through a starter, and as soon as started will use kerosene oil. A Circular Letter describing the engines and giving prices and terms has been mailed to every Council and Union Store. Those engines can be had on terms allowing two years for payment. Altogether we have contracted for the delivery of 3500 engines, including "The Coaker," "The F. P. U.," "The U. T. C." and "The Advocate," for 1914 and 1915, and during the last two weeks we have received 100 orders and 250 enquiries. Consequently we are safe in asserting that the F.P.U. will handle 75 per cent. of the Motor Engine business transacted in the Colony. Union Members buying from the Trading Company save the following amounts: On "The Coaker" \$75.00, on "The Advocate" \$65.00, on "The U. T. C." \$55.00, on "The F. P. U." \$50.00. Not only are those amounts saved but any poor member is enabled to purchase for two years payment, while Agents of other engines require full payment within six months after delivery of engines.

We Also Sell "The Coaker" 4 Cycle 6 h.p. Engine on Easy Terms

For Further particulars apply to

BEAVER BOARD
Walls and Ceilings

CANNOT CRACK EASILY PUT UP

BEFORE you build, remodel, or even repair, you certainly ought to see the remarkable beauty of Beaver Board.

It is also superior to lath and plaster in convenience, durability and many other ways. Come in and see us.

Colin Campbell

MIANUS KEROSENE OIL ENGINES

A BOON TO OUR FISHERMEN.

Second only to the F.P.U. in the benefits it will confer upon our Trollers of the Sea. Makes it possible, by so reducing operating expenses, for every Fisherman to have a Motor Engine and thus get rid of a great deal of the hard toil in connection with his calling. Write us for catalogues, price list and description of this wonderful invention that in starting requires no heating up, no complicated special exhaust pipe, fittings or hot water jacket valves, etc., but starts right on Kerosene Oil. Styles 3 to 40 horse power.

DARBY BROS., Agents.
