Weighed and Found Wanting. Mr. Awrey in support of his motion re-viewed the Province's progress in matters marricultural during the usat years, all of which he attributed to this infinence of the Provincial Exhibition. When the first exhi-bition was held in 1846 there was very little pure-bred stock in Ontario and very little of prowth of cereais. Exhibitions then excited no small degree of interest and their exhibits no small amount of admiration'and curiosity. At an exhibition held in Kingston a proof of the scarcity of good stock at that time was furnished. The present condition of Ontario fails disclosed a state of affairs unparalleled in any civilized country under the sun. Jailers recorded how raving maintes had to be kept among criminals; young girls in for trivial offences confined in corridors with confirmed thieves and prosti-tutes; young lads detained for some boyish frenk compelled to associate with the confirm-ed rascaldom of a country. When the discus-sion closed, several jailers detailed the horribly insmitary state of their jails, which had caus-ed disease and death. It was decided to put the whole matter in the form of a memorial to the Provincial Government. Hon. Mr. Drury, while he did not oppo the motion, wished the grant to be acceded this year in order that the agreement with London could be carried out. He asked that the resolution should not apply to 1889 and he the resolution should not apply to 1889 and he thought that would be a fair compromise. I am not a youth-ful enthusiast. More than fity years are the motor I place at the head of my letter, "Ready, ays Ready," was at my surgestion adopted by a defence club that very shortly alterwards (this was in 1837) formed them-selves into a battalion of infantry that served until the rebellion was suppressed. I do say, now that we have waked up, let us have this matter settled once for all; nothing can pos-sibly be grained by portponement. We have a wily, unscrupulous foe to deal with, their very name (Jesuit) a bye-word for deceit and treachery the world over. It to disarm until the evil is crushed. Let nothing stand is our way. This was owing to a letter to the committee from the Inspector of Prisons stating that on in-specian he had found the bread of poor quality and much below the proper weight. The committee put 16 loaves on the scales and found that 2 pounds was lacking in the weight. As for the quality, the committee found it well within the specifications and quite good enough for the purposes for which it was intended.
