## LOCALS BEAT MIDDLETON

**Closely Contested Ball Game in Which Bridgetown Boys Came Out Victors by an Innings And One Run—Public Interest Increasing in Baseball**

Bridgetown Baseball team noted out a winner by one run and an innings to spare in a well played match here with Middleton on Wednesday last, the tally standing 4 to 3 at the finish.

Taken as a whole the game was very interesting, being characterized by sharp snappy fielding, while a number of long flies and spectacular work in the outfield kept the spectators keenly interested throughout.

The local boys tallied their first run in the second innings and outside that neither team scored except in the sixth when honors went easy each rolling up three runs. With so narrow a lead and the possibility of a break coming in air tight ball, the result remained in doubt till Middleton was retired in the ninth innings. The boys all round showed great improvement in play. They have the goods all right, all right, and if they don't show their wares it is their own fault.

Attendance at the games is looking up. Good clean consistent work will win the crown and bring the good old game completely into its own. As usual the work of Mr. Joseph Burke at the plate was gilt edged. Below is box score and details.

## WEDDING

**Young—Troop**

Louis Gorham Young, son of Mrs. E. C. Young and Flossie Nye Troop, youngest daughter of Mrs. E. A. Troop, were united in marriage, Monday morning, July 27th, at the home of the bride's mother, Washington St.

The groom was attended by his brother, Herman Young, Mrs. Eliza Jackson, sister of the bride, was matron of honor.

The bride looked charming in a handsome ensemble suit of porette will and cotton crepe, sandalwood shade with hat to match and carried a shower bouquet of sweet peas.

The house was handsomely decorated with sweet peas and ferns, by friends of the bride.

The bride was the recipient of many valuable and useful gifts (including one from the local telephone staff) consisting of cut glass, china, silver and linen, also a substantial amount of money in cheques and gold, among which was a purse of gold from the business men of the town.

At the farewell given her by the Rebekah Lodge, of which she was N. G., she was presented with a handsome pearl handled cake knife.

Her many friends gave her a miscellaneous shower at the home of her sister, Mrs. Edith Jackson, also a shower of china was given her by the young people, at the home of Mrs. B. M. Williams.

Only the immediate friends of the family were present at the marriage ceremony.

Among the out of town guests were Mr. and Mrs. Ingram Whitman, Middleton; Mr. John Anstie, Boston; Mr. Joseph Troop, Minneapolis; Mrs. J. S. Parry, Catherine and Kenneth, Bear River; Mr. Marshall Young, Waverley, Mass; Mr. and Mrs. F. V. Young, Halifax.

After luncheon was served the bride and groom left for their home in Calgary, Alta.

## SUICIDES AT WEST ARLINGTON

**Alfred Caldwell Takes His Life By Poison while in a State of Depression Occasioned by Marital Unhappiness.**

Alfred Caldwell of Arlington West committed suicide on Wednesday by taking a dose of Paris Green while suffering from worry and depression as a result of domestic infelicities.

On the morning of the day in question he went to Port Lorne and purchased a package of Paris Green ostensibly for use on his potato patch. He came home in the afternoon, mixed the poison and drank it, afterwards vomiting. His wife testified that she asked him if he wanted a doctor, but he said no. One of the neighbors said he might be all right as he was vomiting. This state of affairs continued for quite a time till his brother Ralph came along and said send to get a doctor. Dr. Armstrong was summoned but the call was put in so late that Caldwell was beyond all human help and died at 10.30 that night.

Coroner Armstrong empaneled a jury with M. C. Foster chosen as foreman. The other members were: Silas Beardsley, David Hall, Joseph Hall, Chester Hall, Bradford Poole, Heber Brinton, Norris Mitchell, Webb Milbury, Israel Banks, Ira Brinton and Edward Foster.

Evidence was brought out to show that marital unhappiness, in which a relative was indicated had much to do with the suicide and a rider to that effect was incorporated in the verdict.

Alfred Caldwell was an overseas man and leaves a wife and seven children ranging in age from seventeen years down to three. While in active service he was wounded in the shoulder by a piece of shrapnel. The effect of this was to practically paralyze the arm, and he was granted a pension of around \$50. per month.

## OPENING OF S. A. HALL

**Hallmark Dedicated on Saturday And Fine Services Held on Sunday. Halifax Bandmen and Officers Present.**

On Saturday afternoon at three o'clock, the Salvation Army Hall on Rink street was formally dedicated and opened to the worship of God. The dedicatory prayer was delivered by Rev. Cranwick Jost, D. D., and Major MacDonald of Halifax declared the building open for worship.

In the evening, Mayor Hicks presided at a Musical Festival speaking very kindly and enthusiastically of the great work accomplished by the Salvation Army throughout the world, and welcomed them to Bridgetown, trusting that every blessing would follow their endeavors here.

At the Sunday service Major MacDonald spoke in the morning and in the afternoon, and Mrs. Major MacDonald in the evening. Both brought a splendid message to attentive hearers. The services were much enhanced by the presence of bandmen Ian MacDonald, Gormley, Sharp, and his fourteen year old son Douglas, Sergeant Major Le Rose of Halifax No. 1 Corps, Mrs. Le Rose and son.

All in all the services were bright, inspiring and helpful, giving a good start to the work commenced here by Captain Leach and Lieutenant Penwarden, the local officers.

## BRIDGETOWN WINS OVER KENTVILLE

**Local Tennis Club Win Out in Contest With Leaders of Eastern Section of Valley League.—Enjoyable Tea at Club House.**

A friendly tournament was played here on Saturday afternoon, between Kentville and Bridgetown Tennis Clubs, resulting in a victory for the home players. They won seven out of the twelve events. Their success was particularly pleasing from the fact that they won over the champions of the Eastern Section of the Valley League, and this we believe is the first occasion for Kentville to lose a tournament during the season.

Mrs. R. V. Arnold and Miss Alice Piggott were hostesses at tea at the club house. Some twenty or more players and friends from Kentville were present, and the occasion was very enjoyable. The visitors motored home during the evening.

Following is the result of the different events:—

Miss E. Daniels and Miss F. Fowler Bridgetown, won from—Miss B. Wickwire and Miss W. Moore, Kentville, 6. 2 4. 2 5.

Mrs. Fay and Mrs. Flett, won from—Mrs. Roscoe and Mrs. Hill, 6. 3 5. 3.

Miss Anderson and Miss A. Piggott lost to—Miss L. Morse and Miss J. Blanchard, 1. 6 4. 6.

Jack Hoyt and Jack Ruggles, won from—V. Reinhardt and C. Clancy, 6. 2 4. 6 3.

H. B. Hicks and LeMoine Ruggles, won from—G. Neary and C. Lloyd, 11. 9 6. 4.

Frank Ruggles and A. F. Little lost to—E. McMillan and B. Thomson, 6. 1 4. 3. 5.

Mrs. Fay and James Fay won from Mr. and Mrs. G. Noary, 6. 1. 6. 3.

Miss E. Daniels and Mr. R. Ruggles won from—Mrs. Hill and Mr. McMillan, 4. 6 8. 6. 1.

Mrs. Flett and Jack Hoyt lost to—Mrs. Roscoe and Mr. C. Clancy, 4. 6 8. 4. 3. 6.

Mrs. H. Hicks and Mr. F. Ruggles, lost to—Miss J. Blanchard and Mr. B. Thomson, 6. 4 7. 5 6. 4.

Mrs. and Mrs. LeMoine Ruggles, lost to—Miss E. Wickwire and Mr. Lloyd, 5. 1 6. 3.

Miss H. Anderson and Mr. V. A. Lloyd won from—Miss Dodge and Mr. W. Wickwire, 6. 2 6. 3.

## WEDDING

**Chesley—Tingley**

A pretty wedding took place on July 15th, in the Baptist Church at Point de Bute, New Brunswick, when Miss Janie Tingley was united in Marriage to Mr. B. F. Chesley of Paradise, N. S.

The ceremony was performed by the pastor, Rev. H. Carter. The church which was tastefully and beautifully decorated was filled with guests and interested friends.

The bride was given away by her brother, Mr. R. C. Tingley, while her nephew, little Arnold Tingley acted as ring bearer. Miss Emma Dixon, played the wedding march.

After the ceremony the bride and groom left for a wedding trip to Charlottetown and other parts of P. E. I. On their return they will reside in Paradise, N. S.

Mr. and Mrs. Chesley returned to Paradise about a week ago.

## ANNAPOLIS NEWS OF INTEREST

**Grade XI Candidates All Successful—Death of Mrs. Caroline Wells.—Social And Personal Notes.**

Annapolis Royal.—The death of Mrs. Caroline Wells, a well-known and highly esteemed resident of Moschelle, took place there on Sunday morning, after a short illness. The deceased, who was eighty-four years of age, was the eleventh child of the late George and Eliza (Williams) Bartheaux, and married Mr. George Wells, who died several years ago. She is survived by three daughters, Annapolis Royal; Jessie, widow of the late Capt. Frank Journeay, Halifax; and Miss Anne Wells of Natick, Mass., two sons, William, of Haverhill, Mass., and Maurice of Moschelle; and a step-son, Mr. George Wells of Annapolis Royal. An older sister, Mrs. Lucinda Alexander, of Methuen, Mass and a younger brother, Mr. George A. Bartheaux of Moschelle, also survive her, as well as a number of grand children and great grand children. The funeral took place on Tuesday morning, with service at St. John's Church, conducted by Rev. R. L. Carleton, and interment at the Harris cemetery.

John McLeod, Thomas Spurr, Edgar Hardwick and Frank Williams acted as pall bearers.

Mr. and Mrs. Robert J. Rankin of Halifax, are receiving congratulations on the arrival of a little son. Mrs. Rankin was formerly Miss Marguerite Buckler of this town.

From reports received at time of writing, it seems certain that the entire Grade XI class, were successful in the recent examinations. Miss Katherine Mills, divided her subjects between Grade XI, and XII, and was successful in them all, and the other candidates were: The Misses, Daisy Spurr, Annie Longmire, Frances Bent, Ruth Potter, Alice Harris Lucy Armstrong and Gladys Palmer and Clifford Fair, Harold Bohaker, Elvina Messenger and Herbert Randall.

The many friends of Miss Josephine Strothard, will regret to hear she has been compelled to undergo an operation at the V. G. Hospital in Halifax. Miss Strothard's father, the Rev. ## Personal Mention

One of the nicest courtesies you can show your friends is let them learn through this column of your visit whenever you go away. Let us know when you have visitors at your homes. The Monitor will consider it a courtesy whenever you give us an item of this kind. Write or phone No. 12 or 102.

Among the many enthusiastic tourists coming to admire beautiful Nova Scotia was a party of six from New York City, the U. S. metropolis. The six are the Misses Anna M. and Rae Klein, Charlotte Berman, Leona Wilder and Rose Lichtenberg and Mr. David Brody. An urgent business call necessitated Mr. Brody's hasty departure from Digby. The young ladies stopped at the Riverside Inn in Bridgetown. They were entranced by the serene beauty of the country side and equally as much with the geniality and hospitality of the Nova Scotians. The people of Bridgetown extended the tourists an especially warm welcome the pleasant memory of which they will always carry with them. The trip through historic Quebec and Montreal via the beautiful Evangeline country will round up a most enjoyable vacation in Canada.

Miss Frances Fowler has returned home from a camping trip to "Kodjoo".

Mrs. Joseph Henderson, of Rothesay, N. B., has returned home after a visit here with Miss Quirk.

## THE COAL SITUATION

At time of writing no really authentic news has come out regarding progress being made in the coal mining difficulties in Nova Scotia, but news may be at any time expected.

The best wishes of every citizen who has the welfare of our Province at heart goes with the negotiators who are endeavoring to arrive at a solution of troubles which are militating against the best interests of Nova Scotia in scores of ways.

The disbanding of the Provincial Police was a tactical as well as a strategic move and a move of that kind is one in several which might be made to incline the workers to listen to the dictates of reason. The long period of idleness has been very disastrous and it now seems altogether probable that new elements and persons entering into a discussion of difficulties will have a due effect in pouring oil on the troubled waters. The company has lost heavily by the strike, the public has lost, but most of all the losses have fallen upon the workers and upon the communities in which they live. Many have left Cape Breton perhaps never to return, and many who cannot get out would like to go.

Viewing world wide conditions in the coal trade it seems quite safe to say that settlement of the difficulties will mean a reduction in wages but not necessarily in net earnings after the industry has gradually picked up ground lost by the long cessation from labor. The question of working out the details and fairly allotting the changes will require a large degree of skill and good judgment. A settlement must be effected on a fair basis and the enquiry should not be wholly restricted to matters of wages. The review should take into consideration as well all phases of the situation and no doubt will ultimately do so. This should be carried through as completely as possible, whether all the elements interested are in its favor or not. The public wants the whole mess straightened out and straightened so good that there will be no serious difficulty for many years at least.

## CANADA'S FLAG

The Dominion of Canada appears to be worrying along all right with the good old Union Jack as its national ensign!

What the Government intended by its suggestion of a new national flag has not been made clear, nor in the face of criticism has it presented any opinions upon the subject, excepting that it would not entirely displace the Union Jack from any new flag it might adopt.

The present merchant flag is an ensign with the original Coat of arms of the Dominion, which was superseded, as our readers will remember a few years ago.

Perhaps it was the bringing of the marine flag up-to-date by introducing the new coat of arms upon it, that Mr. Mackenzie King's cabinet had in mind when it suggested a change of flag.

Certainly loyal Canadians would suffer an displacement of the Union Jack, the flag of Empire, and as certainly we do not need to introduce the conglomeration of Provincial crests in our Coat of Arms into it.

Britain's Crest, the Lion and Unicorn does not appear upon its flag!

If we are to have a change in the marine ensign, for a distinguishing sign for Canadian ships to bear, let it be simply a maple leaf substituted for the old four province crest, at present emblazoned upon it.

That would be as simple and distinctive as the Southern Cross borne upon the flag of the Australasian maritime ensign.

The Union Jack will always be our National flag ashore or afloat! (Family Herald.)

## WASTE PROPERTY!

This Dominion of Canada has invested millions of dollars in school grounds and buildings which are operated only five hours out of every twenty-four.

A private business adopting such methods would find itself swiftly in the court of bankruptcy. The schools by neglect of their opportunities fall under the charge of moral delinquency.

Can no use be found for these often costly buildings during the many hours when they are idle and unoccupied?

Is there nothing the community can do by way of mutual improvement, or through mutual co-operation in these buildings during vacation times, or out of school hours?

Can the country afford much longer to leave its costly buildings unused for the greater part of the time? (Family Herald.)

## HARBOR VIEW THE PIONEER

Sketch of the Development by Wm. Cossaboom of a Big Summer Colony on Lives Sailed to Our Climatic Conditions

An area of a hundred acres bounded on the south by the Dominion Atlantic Railway flanked by a curving beach of finest gravel, and sloping gently from the water back into the hills varied with open fields and sandy spots, to the east the beautiful bay of the north Digby Gap with its shining sands, the scene presented in this romantic district is one of entrancing loveliness under a summer sun with cloudless sky above and a sapphire sea below.

Ages ago Harbor View had all these things but then there was no William Cossaboom to seize the possibilities, become a pioneer in the Summer Colony business and develop one of the most attractive Summer resorts in Nova Scotia, which has interested thousands of persons all over America. The story of how this development took place possesses human interest to a marked degree and illustrates what can be done on slender resources when vision and unremitting energy stand behind.

Mr. Cossaboom 25 years ago conceived the plan of developing the Summer colony idea. He had behind him practically no capital but he had what is even better, a spirit of optimism and the determination to succeed. How well he has done, so can be illustrated by saying that from first beginning with a small hotel he began to put into practice in the second year the log cabin idea. Adding year by year he has now a large and well appointed hotel, an extensive annex and some 40 cabins, all of which represent investment of well over a hundred thousand dollars. A point to be noted, which illustrates the character of the man who has developed the idea as its primary exponent in the Province, is the fact that year by year he has

## WORKING GIRL'S EXPERIENCE

Read How She Found Help in Lydia E. Pinkham's Vegetable Compound

Arnprior, Ontario.—"I must write and tell you my experience with your medicine. I was working at the factory for three years and became so run-down that I used to take weak spells and would be at home at least one day each week. I was treated by the doctors for anemia, but it didn't seem to do me any good. I was told to take a rest, but was unable to, and kept on getting worse. I was troubled mostly with my periods. I would sometimes pass three months, and when it came it would last around two weeks, and I would have such pains times in my right side that I could hardly walk. I am only 19 years of age and weigh 118 pounds now, and before taking the Vegetable Compound I was only 108 pounds. I was sickly for two years and took it for a different ailment and had found it very satisfactory. I am willing to tell friends about the medicine and to answer letters asking about it."—Miss HAZEL BEANOR, Box 100, Arnprior, Ontario.

A day out each week shows in the pay envelope. If you are troubled with such weakness, indicated by a run-down condition, tired feelings, pains and irregularity, let Lydia E. Pinkham's Vegetable Compound help you.

put his financial net return into new buildings, extensions and improvements to the hotel and addition of features which go to make up more recreation for his guests.

Among additions and improvements made during the past year is a remodeling and renovation of the hotel. A new sun parlor has been added and the dining room has been extended so that it now has accommodated for two hundred guests at one time. Improvements have been made to the office and the attractive new addition to the building on the walls of many splendid photographs of points of scenic interest in the country. These views were taken by Mr. Paul Yates of Digby who shows a special pride in this class of work.

Among the amusement features added most recently are a fine bowling green near the tennis courts, and a swimming pool constructed just inside the beach which is splendidly adapted for bathing.

The bungalows and cabins are all within some two hundred yards of the main hotel. Some are built on open spaces while others are hidden by trees. All are equipped with lavatories and bath, electric light and an abundant supply of sparkling running water is supplied and piped from an artesian well. In all the bungalows are found, wide open fireplaces and the rooms are suitably furnished to afford the maximum of comfort for the minimum of effort.

Prominent among the means of recreation is a dancing and amusement pavilion where music is furnished every evening by an excellent orchestra.

Guests who enjoy golfing can have it at the Digby links some four miles away, and Mr. Cossaboom keeps always on hand a good fleet of motor cars in which guests may travel there and enjoy drives of unexcelled beauty through a picturesque and attractive country.

Boating on Annapolis Basin, one of the handsomest sheets of water in Nova Scotia; deep sea fishing here and beyond Digby Gap while many pleasant hours away for guests.

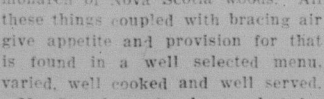

And those who had rather enjoy the money front can have fishing to their hearts content at Whitehead wharf, some miles back into the heart of the hills and also enjoy canoeing.

The sea is the gateway to neighboring country and in the Autumn many handsome heads brought out attest the success of sportsmen with the monarch of Nova Scotia woods. All these things coupled with bracing air give appetite and provision for that is found in a well selected menu, varied, well cooked and well served.

Mr. Cossaboom is always alert for improvements and for anything which will conduce to the comfort and satisfaction of guests. He believes in giving them what they want and the quiet and unpretentious hospitality dispensed has made for him a large and constantly increasing clientele which he can number as personal friends. Another point to be noted is that he rejoices always in the success of others in the Summer Hotel business for he considers that the fringe of possibilities has yet been only touched in Nova Scotia. He is

flight and his plan of working out the scheme in the only one suited to our brief but glorious summers. We cannot here in this Province build very expensive hotels which must derive all their revenue during a few short weeks. Visitors can be given what they want best through bungalows with good dining room service at a central building. While referring to the various buildings one must not forget to mention the church built some years ago by visiting tourists with a portion of its interior finishings in yellow birch with bark still on. The effect is pleasing and unique in its setting among the hillside trees.

Services are taken each year by Bishop Richardson of the Diocese of Fredericton who summers at Harbor View.

There is one point to which the writer wishes to refer in connection with an interchange of tourist business, and this will be predicated increase of importance during the next few years. Numbers of tourists who winter in Florida or in California come here in summer and Mr. Cossaboom as well as other hotel proprietors have some of these as patrons. Some day very possibly in the near future the ends of this business will be linked up by interests which will control and direct the movement of tourist travel from Florida to Nova Scotia. The possibilities of this business are great and will bear investigation.

The results we predict will in time bring such influx of summer visitors as Nova Scotia has to the present never known.

In conclusion we would say of Mr. Cossaboom more power to his elbow in building up a business whose financial results are left over an extensive area. We have chosen his work as the first subject of an imperfect sketch because he was the pioneer and remains today the most prominent exponent of a rational effort to direct and build up in Nova Scotia the tourist business on lines suited to our natural and climatic conditions.

## Champlain Memorial

April 24, 1615, was a great day in the lives of the townsfolk of the little seaport of Honfleur, Northern France, for on that day, Sieur Samuel Champlain, whose earlier voyages and discoveries the New World had stirred the imagination of French Court and of the merchants of the North and Breton seaports, set sail in the little ship, St. Etienne, with a party of four Recollet brothers to Christianize the Indians. After a stormy voyage little ship sailed up the St. Lawrence to that citadel, now the city of Quebec. Later Champlain went on to Montreal, where he found a large band of Indians assembled to meet him, reminding him of promise to assist them in their wars. Realizing this would lead to exploration and eventually to civilization, he set off to Quebec to make arrangements for the Indians sending out their scouts. Before returned from Quebec, the Indians growing impatient set out with Father Le Caron and twelve Frenchmen into what is now the Province of Ontario. Champlain, with two Frenchmen and ten Indians set up the Ottawa to the Mattawa, and joined with Hurons in a war expedition against the fierce Iroquois by means of which Champlain, who was an enthusiastic explorer as a soldier, discovered Lake Ontario. Returning from the wars, Champlain spent Christmas, 1615, with his friend, Chief Daronat at Cahoon near where now stands the town of Orillia on Lake Simcoe. The gallant gentleman returned to Montreal in June, 1616, where he found his friends, the Recollets, had given up hope of seeing him again. Champlain's work as an explorer was now done, but his voyages into Ontario opened up the path to the west to the missionary and the trader.

It is a far cry from the little ship, St. Etienne which set sail that day so long ago from France up the St. Lawrence to Quebec, to the giant Canadian Pacific steamship, "Montreal," which one leaves

Montreal Companies Announce They Will Not Place Any More Cattle Ships on Route.

Montreal--Local shipping companies have announced that they will not place any more cattle ships on the St. Lawrence route to England despite the shortage of space that is causing many complaints from exporters "because it does not pay them." They state that as there is little likelihood of an increase in rates and that is why they cannot make sufficient out of the business of conveying Canadian cattle to British markets.

MARKETING THE NOVA SCOTIA APPLE CROP

By F. J. Howland

In the marketing of the Nova Scotia apple crop, the primary market is the United States. The marketing of this crop is a very important matter to the Nova Scotia grower, and it is one that should be given the most careful consideration.

However, all business of this sort is but trading in volume. When we, as shippers, are concerned with it, how we may prevent our apples being sold at unreasonably low prices on account of oversupply at a particular port, I contend that the only feasible plan is, to maintain in each of the great primary markets a representative with power to withdraw from sale any parcels of apples which fail to elicit reasonable bids. It is too much to expect a broker to assume a responsibility of this nature.

Should a broker make the mistake of withdrawing from sale a parcel which later has to be sold at lower prices than the bids obtained at sale, he would risk losing his shipper. But if responsibility for such withdrawal were assumed by the shippers' representative, the broker would have little objection to withdrawal.

In this, and in many other ways, a man on the spot would be immensely valuable. For more detailed information I commend shippers to Mr. Forsyth Smith's report No. 44, pages 10 and 11.

Most persons having knowledge of the enormous extent of the trade in fruits imported to Great Britain will admit the advisability of using the existing machinery of distribution. The brokers, and private treaty salesmen render, in the main, efficient service; and it is doubtful whether the setting up of an independent distributive system would be as economical or as efficient.

Only those experience in the British Fruit Trade have any idea of the extreme complexity of the business. The greatest care is necessary in order to avoid unexpected derangements. Doubtless there are many improvements possible, but let us see carefully, and, if we establish a service of representation in Great Britain, let us try to find competent men. It would be unprofitable to send over men without at least some experience of marketing conditions in Great Britain.

May I suggest the propriety of calling a meeting at, say, Kentville for the purpose of discussing this pressing matter? Provided such a meeting were well attended, a committee might be appointed whose labors could be productive of much useful data.

In the meantime we may as well recognize the foolishness of entrusting to salesmen, American or otherwise, whose interest, in the main lies only in "scalping" the prices obtainable overseas.

In considering this problem of the efficient marketing of our apples, we must admit the great difficulties besetting us. It is childish to belittle them, or ostrichlike, to willfully blind ourselves to their presence. I am prompted to say this after reading Mr. Moomaw's comment upon my arguments as to the doubtful benefit or recognition. He characterizes them as "hosh." There is a story of an eminent lawyer to whom a case was submitted. He returned the papers, endorsed, "no case--abuse the other side!" It seems to me that Mr. Moomaw's case is equally barren; and so, he abuses the other side!

I wish to point out that the distribution of apples in England from port markets to inland markets is not a matter of much difficulty. Many of the important firms in such towns as Birmingham, Sheffield, Derby, Leicester, Bradford, Leeds, etc., send their own buyers regularly to the various port sales. Others obtain their supplies through regional buyers at these ports. Such buyers work on a very small commission, usually from three to six pence per package, in either case the net increase in price is not of great moment.

I mention this because Mr. Moomaw makes a great mouthful of his capability as a "distributor." What's in a name? We are all "distributors" more or less. I venture the statement that the volume of apples distributed by him from port markets to inland towns is so small as to be unworthy of consideration. Possibly in a few instances, and to a limited extent, he is able to make sales at somewhat higher net prices than the average, but I seriously doubt his ability to move important shipments at higher prices than those obtained by other "distributors."

I challenge Mr. Moomaw to publish the net average prices, graded by grade, of Scottish apples sold by him in the season just past. If he will do so, I will publish mine for comparison. Of course, the account sales in both cases must be available for investigation. I totally disagree with the assumption that he, in the main, make prices much better than his fellow salesmen. And further, seeing that he works to a

AS TO BANDS

There seems to be no definite idea of the exact number which should constitute the wind band. The English bands of the line regiments for many years had about forty members. At times they were under this size and at times larger.

It may be said that while a band of sixteen to twenty produces very interesting results, a really effective band does not commence until the number reaches twenty-four or twenty-five. A good concert band is quite different in effect from the brass band. Even with the addition of brass clarinets, used in England, and on the continent, occasionally the brass band which has a distinctive place can hardly compete with the concert band in which both brass and wood instruments are used. The brass instruments are learned with comparative ease and their massed effect is very striking. This has led to the great number of industrial bands in England and in America. There are literally thousands of such bands now. The band contests held in various parts of England are watched as eagerly as the Olympic games. The contests are believed to have promoted a splendid spirit among the workers.

Very often the ignorant music lover gets an idea that the great masters ignored the military band. Quite the contrary is true. The band has fascinated many of them, and several, including Mozart, Beethoven, Cherubini, Berlioz and Mendelssohn, wrote especially for the band. In this day, when invention has improved the wind instruments wonderfully and expanded their compass, it is not surprising to find composers turning to palette of the band to find new and ingenious color effects.

WEDDING

Smith--Mitchell

Miss Beatrice F. Mitchell, niece of Mr. and Mrs. William E. Mitchell, 14 Elmwood Avenue, became the bride of Thomas L. Smith, of 79 Vine Street, Thursday evening at St. Stephen's church at 7 o'clock, with Rev. W. Appleton Lawrence officiating at a simple ring ceremony.

Attending the bride and groom were Miss Violet Smith as bridesmaid and Arthur Troit of Boston as best man. The bride was attractively attired in a white crepe de chine gown trimmed with roses, and wore a crown of orange blossoms. She carried bridal roses. The bridesmaid was dressed in a burnt orange crepe de chine dress trimmed with white beads, and carried yellow roses.

After the ceremony a reception was held at the home of the bride, with about 100 relatives and friends in attendance. Many gifts were received from associates, friends and relatives of the couple. The home was prettily decorated for the occasion and an orchestra rendered a musical program throughout the evening.

Following the reception the couple left for a honeymoon trip to Cape Cod and, upon their return, will reside at 79 Vine Street. The bride was born in Bridgetown, N. S., and came to Lynn two years ago. The groom was born in Somerset, Bermuda, and came to this country 18 years ago, receiving his education at the Lynn schools. (Lynn Paper.)

THE SPIRIT OF COURTESY

"The secret of society is a certain heartiness and sympathy. A man who is not happy in the company cannot find any word in his memory which will fit the occasion--A man who is happy there finds in every turn of the conversation equally lucky occasions for what he has to say."--Emerson.

The spirit of courtesy springs from a desire to contribute to the comfort and happiness of all. This makes one look and behave so as to give pleasure to those with whom he associates. It means to take a real interest in those about you, to treat all kindly, though not patronizingly, to be gentle and sweet-tempered, to show deference to other persons and to the opinions of all.

It means to be unselfish, looking out for the pleasure of others, at the expense of personal sacrifice. It leads one to say to the other, "sit higher," while he himself takes the low seat. It never crowds to the first table, treading upon the toes and rights of others.

If one cannot conform to the spirit of courtesy, he may as well give up hope of attaining the gloss of a polite manner. His natural boorishness will be such as to crop out sooner or later, and he will be valued at what he is, and not what he has been trying to fool society into believing he is.

### SAYS COLLEGES IN U. S. ARE SPORT MAD

Britain Tells of Enrolment of Town Butcher Because of Prowess at Football.

London.—That universities overseas have gone mad on sport is one of the notes made by Sir Ernest Bain, Chairman of the Finance Committee of the Leeds University, who recently returned from a visit to universities in Canada and the United States. In a lengthy report he says in practically every university the stadium was pointed out with emphasis, the master of sport has a very comfortable position and the tremendous emphasis placed on sport is causing university authorities in America grave anxiety.

"I heard in one case," he said "where a town's butcher had been enrolled as a member of the university because he had exceptional ability as a footballer."

Dealing with details of organization of the universities, he notes that in every American university the alumni are well organized and powerful, so powerful as to create difficulty in many cases, as they not only lay down conditions upon which girls are made to the university but there is an active interference with teaching.

On the question of salaries, after detailing the amount paid to professors, he says it is significant that the individual responsible for sports in all the great universities receives a payment substantially higher than that of any academic member, even including the Chancellor.

### THE SWISS NAVY.

Baltimore Sun: Swiss citizens are proposing to form an aerial navy to handle international mail. This sounds like a logical proposition. The nations that developed ocean trade were those which, like Holland, traded on the sea, like Britain, Portugal and Spain, projected into it. And if the same conditions favor air fleets, Switzerland is the country to build them. No other nation sticks up into the air so far and so frequently.

### Here and There

Canada spent \$29,553,170 last year for pensions and re-establishment of Veterans of the Great War, according to a report recently issued from Ottawa by the department in charge of this work.

Without a dissenting voice over 4,000 cattle owners in 200 districts have voted to make Prince Edward Island a disease-free area under the Department of Agriculture arrangement which calls for a two-thirds vote of all cattle owners.

Two thousand young buffalo from the Wainwright herd will make a 700-mile trek northward this summer to the buffalo reserve on the Slave River where they will be turned loose to mingle with the wood bison which roam that area.

"In all parts of Canada and the United States," according to Robt. G. Hodgson, editor of the Fur Trade Journal of Canada, "Muskrat farms are being established, mostly on a large scale and they are rapidly turning what was once marshland of little value into the most productive part of the farm," Mr. Hodgson adds.

The record established recently at Acme when 114 horses worked in one field at one time seeding the crop of Mrs. C. W. King, has been broken at Gadsby, Alberta. When the neighbors of J. B. Ball who recently suffered a broken arm, put in his 100-acre crop, 39 outfits were at work on one day and 175 horses. The crop was put in in a single day.

H. E. Morris, whose horse Manna made a run away victory in the English Derby, will visit Canada on the fall en route to China from which country he hails. He will sail on the Canadian Pacific S.S. Minnedosa from Southampton on October 8, stay a short time in the Dominion, and sail from Vancouver for China on the S.S. Empress of Australia, October 29.

Rebuilt in nine months after the fire that destroyed it last October, the Chateau Lake Louise hotel opened for the current season on Sunday, May 31 as the Trans-Canada train arrived from its cross-continent run. The hotel was rebuilt under exceptionally difficult conditions in temperatures as low as fifty degrees below zero during which a wooden wall heated by stoves had to be erected about the construction works.

Following the opening visit by Their Majesties King George and Queen Mary to the Wembley Exhibition, the Duke and Duchess of York also went over the grounds. Their Majesties were especially delighted with Treasure Island, the Paradise of children, and travelled over the miniature Canadian Pacific train that runs around the Island, passing en route the replica of Banff Station and the reproduction of the Canadian Pacific Rockies.

Canada will be well represented at the New Zealand and South Seas International Exhibition to be held at Dunedin between November, 1925 and April, 1926. Both the Dominion Government and the Canadian Pacific Railway have announced their intention to send well-appointed exhibits to the Exposition. It is probable that the provincial governments and many Canadian manufacturers will follow suit.

**DANGER SHOT IN LIGHTNING STORM.**

"Do not stand under trees during thunderstorms," is good advice. But it wasn't a difference under which kind of a tree one stands. The chance of striking a person and killing him is the same whether he stands under an oak tree or under a beech tree. The water in the bark of the oak soaks up more rain than the beech's smooth dense bark.

The water in the bark of the tree has the same effect in determining where and when lightning will strike as bending the firing points of a spark plug closer together. Any one who has been engineer and mechanical starter of a Ford knows it will take a lot of cranking to generate enough current to force a spark across the gap between spark plug points which are too far apart.

Especially dry air resists the passage of an electric spark. Static electricity may leak across the points of a spark plug but not in sufficient quantity to be visible. The same thing takes place in a thunderstorm. There are many silent discharges of electricity but they are too small to relieve the tension between the clouds and the earth. A flash finally breaks a hole through the air where the air offers the least resistance. Trees soaked with rain resist the passage of the charge less than surrounding air.

### WHEN THE SYSTEM IS ALL RUN DOWN

When All That is Needed is a Tonic to Build Up the Blood.

There are many women who have been invalids for so long that they accept their condition as a life burden. They have endured broken sleep, stomach trouble, nervousness, headaches and weakness so long that they have given up hope of enjoying good health. In most of these cases a well chosen diet, fresh air and a tonic to build up the blood would do wonders. To all run-down, nervous people the experience of Mrs. H. J. Cameron, Waterdale, N. S., will be of deep interest. She says: "About two years ago I was in a miserable, run-down condition. I was unable to do my work, my head ached day and night, my nerves were all unstrung, and for three weeks I could not eat or sleep. I then decided to give Dr. Williams' Pink Pills a trial and got six boxes. By the time I had used half of them I felt much better, and when I had taken the six boxes I was as well as ever. I could work all day and not feel tired and have been strong and healthy ever since. I have never taken any medicine that did me so much good and will always highly recommend Dr. Williams' Pink Pills. You can get these Pills from any medicine dealer, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont."

### PAID \$25,000 FOR SUIT

The first bit of gold discovered in Australia was found by a native bushman. It was a very large lump and he had an idea that it was worth something but he did not realize its full value. Selling his employer counting some gold pieces he said he would bring him a lump of yellow metal in exchange for a suit of corduroy. The exchange was quickly effected and the native brought a lump weighing more than 100 pounds and valued at more than \$25,000.

### GRACE FISHER LEADS HER CLASS.

The public who so generously helped the "Grace Fisher Fund" will be interested in a letter from her beginning: "Hurray! I have passed from Grade VI to Grade VII and made the highest. Her average was 92.2. This is a splendid showing when one remembers that thru her unfortunate accident last summer, Grace lost within a week of half a term. She asks that her artificial limb, made by the Chesley Institute, Hantsport, be a wonder!" and she plays "honor roll" at the school with this little, gentle, two miles to the station, quick to school every day. About one-half of the Fund remains to help educate her, and with such a record as the above, it will not be long before Grace will be a help to her mother, instead of an additional burden. She signs her letter, "From GRACE FISHER. A Thankful Girl."

### APPO-KRISP PATENTED.

The Appo-Krisp, Limited has just received word to the effect that their applications for patents in the United States has been accepted and patents issued. This gives the Company the exclusive right to manufacture fruit and cereal combinations in ready-to-serve form in both Canada and the United States, which is a valuable asset.

### NEW CONTROL OF MARITIME ELECTRIC CO.

Boston interests take over concern from Halifax men—Firm has Power Plants in Five Towns.

Fredericton, N. B., Wednesday.—Boston interests which now operate five electric light, heat and power companies extending over a territory reaching as far south as South Carolina, have taken over from Halifax interests control of the Maritime Electric Company, Limited, which operates electric plants in Fredericton, St. Stephen, N. B., and Gaspereau, St. Charles, P. E. I., and Bridgetown, N. S.

### Consummation of the deal became known when new officers were elected at the annual meeting of the Maritime Electric Company, Limited, held here yesterday afternoon, after being postponed for several weeks. The new officers are: President—Robert A. Pritchard, Boston.

Vice-President and Managing Director—A. C. Millie, Halifax.

Treasurer—Kenneth T. Young, Boston.

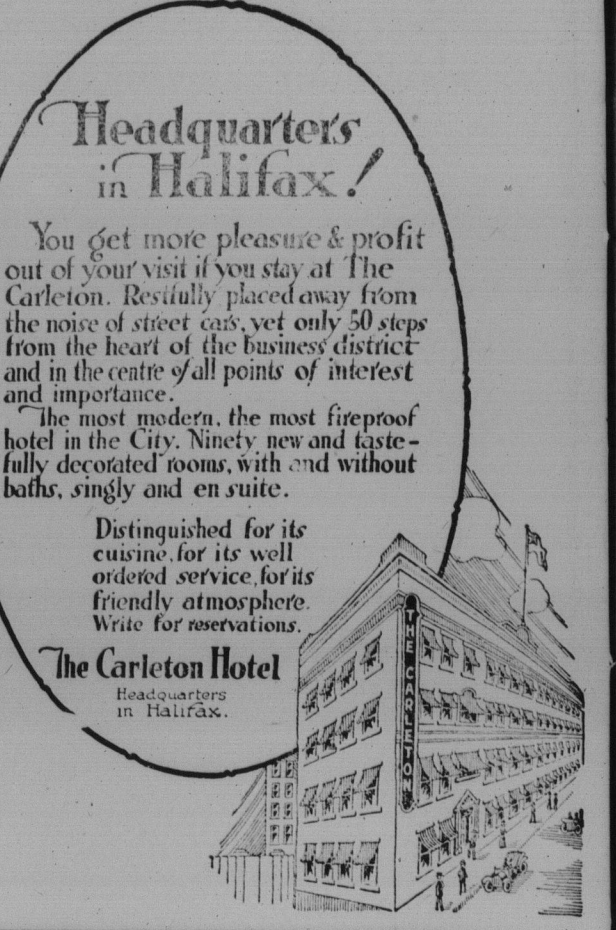

Assistant Secretary-Treasurer—William A. Hill, Boston.

The officers and T. J. Coleman, of St. Stephen, N. B., compose the directorate.

Mr. Millie, who was formerly secretary of the company, of which Hon. G. E. Faulkner, of Halifax, was president, carried out the negotiations for the transfer of control of the Maritime Electric Company, Limited, the new owners buying up the controlling interests' stock. He becomes vice-president and managing director of the company.

With extensions and improvements which the new owners are said to have in contemplation, it is said that the deal involves almost half a million dollars.

Just how the introduction of new controlling interests is going to affect the situation locally is not yet known but the natural inference is that extensions and improvements will be carried out. (24. Monitor.)

Test Muck Upon Moist Treaty With Great Britain Failed.

New York.—A test attack upon the so-called "moist" treaty with Great Britain, which permits vessels of foreign registry to bring liquor under seal into United States ports, failed yesterday, when Federal Judge Mack ruled that the Federal courts are without power to compel prosecuting officers to enforce penal laws.

Judge Mack ruled that whether the treaty is contrary to law and the constitution or not, the courts cannot order enforcement of the penal laws.

"The Federal courts are without power to compel this," he said "what ever the ground of the failure of prosecuting officers to enforce the laws may be. The remedy for inactivity of that kind is in the executive and ultimately with the people."

The suit was brought by members of the Neptune Association of Massachusetts in an attempt to have the treaty declared unconstitutional. The plaintiffs, all interested in United States shipping, claim that ships flying the United States flag, were being damaged because passengers preferred to travel on British ships in order to secure liquor beyond the three-mile limit. They asked for injunctions restraining British ships "from violating the law and constitution" if the injunction was denied.

### INCREASE IN YEARS LIFE IN STRANCE

Volume Written in 1924 Was \$67,305.18 More Than in 1923.

Ottawa.—Canadian fire insurance written during the past year shows a decrease of \$1,869,053, as compared with 1923, according to a report just issued here by the superintendent of insurance. The amount of premiums written in 1924 was \$52,074,196, as against \$53,943,249 in the previous year.

All increase, however, of \$67,505,188 occurred in the volume of life insurance written last year, as contrasted with 1923. The gross amount of life insurance business paid for in cash in 1924 was \$238,857,615, as compared with \$211,182,427 in the previous year.

The fire insurance figures for 1924 include, for the first time, the allied business of sprinkler leakage and explosion insurance, which have heretofore been shown separately under the head of casualty insurance. During the last year the business of fire insurance was transacted by 188 companies, as compared with 182 in 1923. The losses incurred for 1924 were less by \$3,604,140 than the losses for 1923, the figures being \$20,888,531 and \$24,292,671 respectively.

The death claims paid during the past year, in respect to life insurance amounted to \$20,210,519, compared with \$19,975,817 in 1923. The rate of mortality, therefore, is shown to be again remarkably low. The total amount of life insurance business in force in Canada at the end of 1924 was \$3,763,997,565, an increase of \$30,448,892 over the net amount in force at the end of 1923.

ANNAPOLIS COUNTY DISTRICT MEETING

Representatives of Baptist Churches in Annapolis County convened in a special session of their District Meeting with the Church at Dalhousie West on July 12th-14th. Rev. M. W. Brown, D. D., presided.

Rev. D. Dron of Springfield preached a most instructive and impressive sermon based upon the word "Maranatha." After explaining its meaning he pointed out that it indicated the optimism of the early church and its certainty of the triumph of the Kingdom of Christ.

Another helpful sermon, from the topic, "Christ the Only Salvation," was delivered by Rev. D. W. Dixon of Port Lorne. He emphasized that men without Christ are lost; that salvation was all of God and was God's all.

Routine business included endorsement of licenses; consideration of denominational finances, and reports from the churches.

Lie. H. S. Hartin, Rev. G. C. Dapkin and Rev. P. R. Hayden led in the devotional services and music. Mrs. M. S. Brown was in charge of the Woman's Missionary meeting. Participation by Mrs. Brookes and a number of the young people of Dalhousie West added to its success.

It was a pleasure to all to have with us Mr. T. Handley Chipman of Tupperville and Mrs. Mason of Springfield, mother of our esteemed Home Mission Superintendent.

Resolutions were passed expressing sympathy with Rev. A. A. and Mrs. McLeod in the prolonged illness of the latter; also towards Lie. C. A. Mason of St. Granville in his accident and appreciation of the royal welcome and generous entertainment accorded by the people of Dalhousie West.

FARMERS WAGE WAR ON BEARS

Armed Squads Secure Cape Breton Countryside Free of Extremities of the Killers of Their Sheep.

Sydney.—Squads of armed farmers are scouring the country around French Vale, 17 miles from Sydney, bent on war of extermination against bears which have killed a large number of sheep and lambs during the past few days. There has been comparative peace in the district since four years ago when a similar drive wiped out a number of marauders, but the survivors are evidently thriving as bears, large and small, have been reported from various points within the past ten days. Robert Jardine, leading sheepman, found one tearing up the grass on his front lawn and set a dead fall weighed with two tons of stone. The cunning bears extracted the bait and sprang the trap, leaving behind nothing except a handful of hair. Joseph Gauthier and Clement Gauthier are other sheepmen who have lost heavily. Signs indicate the presence of at least 16 bears. Up to noon no kills had been reported.

THE BENEFITS OF SLEEP

(By Bruce Belden, M. D.) Through sleep we get rid of many toxic products. Consequently, regular sleep not only conduces to the daily feeling of well being, but also increases our prospects for a post-natal period of old age.

Premature senility undoubtedly is favored by deficient sleep, as well as neurasthenia and even insanity—provided there is any marked tendency to the last named condition. During sleep the products of fatigue which have accumulated during the day are removed by the blood from the brain and eliminated largely by the kidneys. The fact has been well established by famous authorities like Obersteiner, Binz and Bouchard.

If we sleep well and soundly we arise in the morning feeling fresh because of the elimination of toxic products. The physiologist Bunge reminds us that a man can live for a month without food, but only a few days without sleep. Sleep may be attributed to a condition of auto-intoxication. It is induced by fatigue poisons and then in turn makes it possible for the body to rid itself of these poisons.

Most authorities appear to be agreed that during sleep there is a lessened amount of blood in the brain. This is why excitement prevents sleep, or hard thinking, for then there is a greater flow of blood to the brain. This was proved in an interesting manner by Massou, who balanced a man on a scale and showed that the head end would become depressed when the man was made to think or was subjected to excitement.

This knowledge helps in the treatment of insomnia. In order to sleep the brain must be at complete rest. The head must also be cool.

CHOLERA INFANTUM

Cholera infantum is one of the fatal ailments of childhood. It is a trouble that comes on suddenly, especially during the summer months and unless prompt action is taken the little one may soon be beyond aid. Baby's Own Tablets are an ideal medicine in warding off this trouble. They regulate the bowels and sweeten the stomach and thus prevent the dreaded summer complaints. They are an absolute safe medicine, being guaranteed to contain neither opiates nor narcotics or other harmful drugs. They cannot possibly do harm—they always do good. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

ITALIAN LADIES CAMPAIGN FOR MODEST APPAREL

Rome.—A group of women of the Roman aristocracy, inspired by the Pope's recent pronouncement against "modest and immodest women's fashions, are preparing to begin a nationwide campaign in favor of modesty in apparel, says the Epoca. The movement which will be carried out in all the large cities of Italy and which will be supported by the ecclesiastical authorities has the secondary purpose of freeing the nation from the domination of foreign fashions. The campaigners are bringing pressure to bear both on the women and the manufacturers of wearing apparel. The Pope recently expressed keen interest in the plan, and conferred with the Cardinals and Countess Rossi-Ruggi on the subject several days ago. A meeting for organization will be held at an early date.

The Crystal Gardens, the splendid new pleasure resort for the city of Victoria, B.C., will be opened at the end of June and will form one of the unique attractions of that city. The trip of the Teachers' Federation will commence July 20 and will conclude August 10.

Frank W. Ashby, secretary of the Manufacturers' Association of Australia, a recent visitor at Banff, said he found Canada to have a most delightful climate and "cities which are more modern than our own."

Mr. Ashby said the impression in Australia had been that Herschel Island and Baffin's Bay were linked up municipally with Montreal and Winnipeg, and thought that the best way to correct these geographical misconceptions was to encourage more tourist travel from other parts of the Empire.

To have her face torn so badly by a mad dog that she had to be rushed to the Digby General Hospital where it was found necessary to have twenty-one stitches taken to close the wounds was the experience of Eleanor, the eight-year-old daughter of Mrs. Henstis South, of Malden, Mass., who is spending the summer at Smith's Cove.

Saturday afternoon the little girl was playing around the home of Harry Smith, whose she and her mother are guests, and noticing a dog, owned by Jerry Potter, eating a bone she attempted to take it away from him. The dog at once attacked her and the child's screams soon brought neighbors to the scene. They found the child and the dog chewing her face. She was in a precarious condition and torn almost beyond recognition.

An automobile was summoned and the little girl rushed to the Digby hospital, where Dr. Davenport at once performed the necessary operation. Late advices from the hospital state that the girl will recover, although at first very little hope was entertained. She is suffering terribly and everything possible is being done by both nurses and doctors. The sympathy of the entire community goes out to the sorrowing mother who is nearly heartbroken over the sad affair.

TOURIST TRAFFIC HEAVY

During the past week the tourist travel from the United States and Upper Canada Points to Nova Scotia has been quite heavy. While a large proportion of the traffic has been by water and rail, many of the tourists have been coming by motor. All those seen by The Morning Chronicle have expressed surprise and delight on the condition of Nova Scotia's highways for motoring, and the courtesy and the facilities for information regarding the province that have been offering them. Britain Still Maintains That Position. Declares Major J. J. Astor. Banff, Alta.—Although the United States now has more gold than any other country on the globe, Britain is still the financial centre of the world, states Major John Jacob Astor, proprietor of the London Times and member of the British House of Commons, who is spending several days in the west with Lady Violet Astor. Major Astor declares that England holds not the slightest ill-will towards the United States for its unrelenting stand on the collection of its war debts. "England," he said, "has taken a most admirable course in settling up its own debts with the United States and it is not worrying itself with the difficulties which that country may have with other nations owing to money."

We in England, feel very proud of the way in which Britain has been able to handle her end of this embarrassing situation after the war, and prouder still that Britain survives as the financial hub of the world. Major Astor, who is the son of Viscount Wallfort Astor, was born in New York City, but removed to England with his family at the age of four. His wife Lady Violet Astor, is the youngest daughter of the fourth Earl of Minto.

PICKING ON THE IRISH AGAIN.

An Irishman coming out of either in the ward after an operation exclaimed audibly: "Thank God! That's over!" "Don't be too sure," said the man in the next bed. "They left a sponge in me and had to cut me open again." And the patient on the other side said, "Why, they had to open me, too, to find one of their instruments." Just then the surgeon who had operated on the Irishman came into the room and said, "Has anybody seen my hat?" Pat faints.

UNNECESSARY MIDDLEMAN

Johannesburg Sunday Times: There is absolutely no shadow of excuse for the high prices that rule in Johannesburg today. It is not as if civilization had brought the drought, the hail, and the locust in its wake. Those pests were always here, and now in spite of them the market is glutted with goods that cannot be sold. Yet the high prices continue. Why? For two reasons. Because the prices that went up during the war period have never come down again, although there is no longer any reason for maintaining them at their war level. And because three or four unnecessary middlemen are grabbing profits out of wares that ought to go direct from the producer to the retailer, and from the retailer to the consumer. Eliminate the superfluous middleman, reduce high shop rents get back to a pre-war basis, and prices will drop automatically.

WILL LIST COUNTRY HOMES FOR TOURISTS

People having desirable homes in country districts, or at seaside places who are offering accommodation for Summer visitors or tourists, are asked to send in their names to the General Passenger Dept. of the Canadian National Railways at Montreal, N. B. It is the wish of the Railway that a full list of such places be kept on hand for the information of travellers and they are asking the co-operation of the public, especially those who desire summer boarders. It is felt that throughout the Maritime Provinces there are many houses where very desirable board could be secured, and there is an ever growing patronage awaiting for the farmer and his family.

Those interested are invited to send in their names along with some particulars of the accommodation offered, such as location, number of rooms, rates, etc., to the railway and they will list systematically for the hotel and boarding house guide books published by the Railway. 15, 16, and 17.

HOW TO CARE FOR YOUR MUSIC.

Is anything more exasperating than to find a page of music missing just at the time it is immediately needed? How untidily traveled leaves do become. In a recent issue of "Musical Standard," London, the following very sensible and thrifty hints were given for the care of music:

- 1. If you are anxious to keep a new song or instrumental piece nice and fresh, cut down the wide margins somewhat and paste a strip of brown paper up the back.
- 2. As soon as a tear is made, paste it up with some of the specially-made gummed paper sold in little reels.
- 3. A pretty portfolio can easily be made from some cardboard and a piece of pretty cretonne. There is no reason why music holders should be ugly.
- 4. If a title-page is missing a cover can be made of a piece of brown paper to keep it neat, with a label giving contents.
- 5. When a new vocal score is purchased, a piece of linen should be firmly glued up the spine; this will save it from speedy disintegration.
- 6. Small items, like anthems, do best stitched with thread into a little brown paper cover.
- 7. Corners to be "turned over" may be strengthened with a little triangle of paper pasted over them.
- 8. Quarters and other parts should always be tied together with tape when not in use. What is more annoying than to find one missing? It is best to number these prominently.

RAILWAYS OPERATING MORE EFFICIENTLY.

Trains Being Run at Lower Cost Than They Were a Year Ago. Ottawa, Ont.—Canadian railways as a whole appear to be operating on more efficient lines this year than last, according to a report prepared by the Dominion Bureau of Statistics. In particular they are operating their trains at a lower cost per mile than they were a year ago. This report, which deals with the month of April, shows that for that month in the current year average operating expenses per train mile were only \$3.55, as compared with \$3.67 for April, 1924. For the Canadian National the average operating expenses per train mile in April last were \$3.71, as against \$3.43 on the Canadian Pacific.

Another generally recognized test of operating in the number of tons of freight carried for each loaded freight car. In this regard there has been a falling off, the number of tons carried on each loaded freight car on the average being 23.4 in April last, and 24.7 in April of a year ago. In this regard the Canadian Pacific shows 26 tons per loaded freight in last April, and the Canadian National 22.7 tons.

It is easy to get twenty miles out of a gallon, but Jack Smith says it takes a careful man to get twenty miles out of a pair of socks.

BURGLAR CAUGHT IN A BEAR TRAP

Held All Night as Intruder Attempts to Climb Into Summer Cottage

Hill, N. H.—A burglar, who broke into a summer home here last night, got caught in a bear trap and was held prisoner all night. He had broken a window and was reaching in to enter the house when his hand was caught in the trap that had been placed there to catch thieves.

Boys heard the man calling for help, but did not dare go near the place in the dark.

This morning three men with the aid of iron bars liberated the burglar. They allowed him to go on his way claiming that he had suffered enough punishment.
