THE CURSE OF

Cures This Disease A famous scientist states that Constipation, or non-action of the bowels, causes more deaths than all other diseases

combined. Constipation inflames the Kidneys, ruins digestion, is the foundation of Rheumatism, poisons the blood, causes Headaches, Neuralgia, Nervoustor in carrying out the provisions of ness and Insomnia. Constipation is caused by a weak or sluggish liver. Bile, the only purgative of the body, is secreted by the liver, which in turn should pour out into the intestines sufficient bile to move the bowels. Unless the liver is active, there cannot be enough bile to move the bowels regularly, and Constipation is

dicine, will always cure Constipation because it acts directly on the liver-relieves the congestion-increases the quantity of bile-and strengthens the
