HAMILTON NEWS

HAMILTON PRESS IS PLACED IN DILEMMA

Attitude Regarding Attempted Bank Merger Requires Explanation.

CITIZENS ARE CURIOUS. Colts Receive Trimming From Brantford—News of the City.

By a Staff Reporter. HAMILTON, Thursday, Aug. 26.—What has surprised the citizens of Hamilton most in connection with the late attempted merger of the Bank of Hamilton with the Royal Bank of Montreal was the profound ignorance of those who should have known all about the matter. The Spectator, for example, not only knew nothing about it, but poured contempt upon those who said they did, and declared that the World was merely sensation-mongering when it told the citizens how they were to be robbed of their bank. The Spectator discovered finally, in its own columns, what it professed to disbelieve in the World. Speaking of a prominent politician in the city, The World man questioned him. "Well," he said, "I don't know where you got your information, but when I read it in the World I did not believe it myself."

What do you think of the Spectator, who ought to have known, if any one did? "I was thinking over that," was the reply, "and I don't believe the Spectator didn't know about it. This is a statement in the interesting dilemma of having to confess to those who are not aware of the news it should have had for its readers, or that it knew all the time and willfully kept it from them in the interests of its own city. The World saw a number of public men who were naturally very averse from criticizing their local papers. They admitted to confidence, however, that the surprise of the World contrasted with the attitude of the Spectator."

Opinion of Men. In another direction the opinion of public men was asked. For instance, said that he did not care to discuss any aspect of the matter at all, but that on keeping the bank in Hamilton they were all united. "We do not want the bank to leave Hamilton," he said, "and we think we can in a fair and honorable way to keep it here. Those are my sentiments, and I believe the sentiments of the public."

T. J. Stewart, M.P., was even more emphatic. He said that more than 15 per cent. of the people of Hamilton in favor of the merger. Others confirmed the view that it was many who were financially interested who desired to have the deal go through. The Spectator was disappointed in the expectation of getting from 20 to 40 points on the bank stock would go up to 240 after the merger, and the Bank of Hamilton shareholders would realize the rise.

Hatched in Private. The whole affair was hatched and planned in private, and when it leaked out in the secret was furious when it leaked out. Arthur Hatch, president of the Manufacturers' Association, is a typical representative of the mercantile, and was especially bitter towards those who opposed it. George Coppock, on the other hand, president of the board of trade, represented the disinterested mercantile opinion, and was raised against the deal, supporting Controller Morris and Mayor Stewart in their opposition against it. Even these were misrepresented by the Spectator, which declared that no such attempt was made. The motion proposed by Mr. Stewart, which was adopted, to refer the matter to the city council.

The citizens are proud of the Bank of Hamilton, and Messrs. T. J. Stewart, Allan Studholme and John Allan, the political representatives, had but one view on the matter. The plea that only mental objections were raised against it, does not count with the business men. Controller Morris, who has been the difficulty there was in getting accommodation from any bank whose headquarters were in another city. The local merchant does not wish to restrict this privilege any more than at present, and they would rather see the removal of the Bank of Hamilton as a serious blow to business enterprise here.

Attempt to Steal Privilege. The objection that the Bank of Hamilton has business done in other cities, and in other cities would have applied equally well to Toronto twenty-five years ago. Then Toronto was a small town, and Hamilton is now Hamilton. In twenty-five years ago Toronto at present, for Hamilton has doubled its population in ten years, and has grown much faster in the last five years than it did in the first five. It is a mistake for the Bank of Hamilton to surrender a charter which might not easily be revived when it is gone. It has become more important. This is a fault that Hamilton is getting over every day, and the public spirited men who have been annoyed at the attempt to steal away one of their rights, are grateful to the World for having aroused public opinion and prevented the consummation of the merger.

As for the prepared literature fed out to several papers by the advertising agents of the merger, the Hamilton public have their own opinions, and of the Hamilton and Toronto journals that printed it in an innocent kind of way.

Organize Machine Gun Battalion. The final work of organizing the 5th Battalion, to be known as the Hamilton Machine Gun Battalion, will be commenced on Saturday afternoon. Lieutenant-Col. Labatt, father of the battalion, will have charge of the organization work, and will be temporarily in command.

Regiments for City. As a result of a conference held between Mayor Walters and the board of trade council, preliminary steps have been taken to bring a number of battalions to this city for the winter months. The question of using the local facilities for handling a large number of soldiers and the belief has been expressed that the facilities could be made so with very little expense.

Situations for Soldiers. Mayor Walters is anxious to see the government do its best to provide employment for soldiers who return from the front, whether disabled or not. There are many positions in the city which could be filled by some of the returned soldiers.

"We must not overlook the fact that able-bodied men returning are also worthy of consideration," explained Mayor Walters.

Tenders for New Hospital. The question of using the old new mountain hospital building was reconsidered by the board of control and the present manufacturers were relieved of their contract and new tenders will be asked for and considered at a meeting to be held at 11 o'clock tomorrow morning.

How Is the Farmer to Turn His Wheat Into Canadian Dollars?

The western wheat crop bids fair to be bigger than was hoped for a week or two ago. We hear that it may run to 275,000,000 or even 300,000,000 bushels. We must add to this our Ontario crop. After deducting from the total what will be necessary for seed and consumption we may have nearly a quarter billion bushels of wheat available for export.

But if we have a bumper crop here they also have a bumper crop in the United States. The allies are already buying American wheat, and they are looking forward to the great flood of Russian wheat which may soon flow thru the Dardanelles. The Canadian farmer may therefore have to store a lot of his wheat and perhaps hold it indefinitely. He will certainly have to do so if he is to rely upon selling and exporting it in the usual way. His only hope for ocean tonnage enough to promptly carry any considerable part of it must rest upon the promise of the admiralty to divert vessels from other work to the task of bringing Canadian grain to England. In our opinion government intervention will also be necessary if he is to turn his exportable surplus of wheat into ready money.

The Canadian farmer has only one customer, England. He cannot ship to any neutral country. He certainly cannot sell to Russia. Will he be able to sell to France or Italy? The French and Italians are not buying wheat in Canada, and they are likely to supply their needs in the United States. Just now the Bank of France has arranged with Brown Bros. of New York for a credit of \$20,000,000. We are told that:

The purpose of this credit is to enable American exporters to be paid in dollars in the United States, eliminating any risk of exchange and thus facilitating exports. If any Canadian wheat goes to France or Italy it will go by England. It will be purchased thru the British Government. We hope that Britain is buying no wheat in the United States. We have the moral right to insist that all her wheat be purchased here and purchased at a fair price. We have no hesitation in saying that the British Government should buy the entire Canadian crop of 1915 available for export.

In no other way can our farmers be assured of getting the cash quickly for their wheat. In no other way can many of them avoid serious loss. The British Government can lose nothing by guaranteeing to take our surplus wheat at a minimum price. It will be needed in the United Kingdom, and part of it no doubt can be resold to the allies. Such a policy would bring about several most desirable results.

1. A considerable portion of the crop would be stored in Canada and shipped to England as called for, thus avoiding a stamped and blockage and making it possible to send every bushel via a Canadian port. 2. Some arrangement could no doubt be come to by which a considerable portion of the wheat could be ground into flour in Canada before being shipped to the rest of the world.

3. The Canadian farmer and miller would thus be able to get Canadian dollars for all his wheat and work without delay. But how is this to be done? It can be done in our opinion without

Hamilton were leading by one run up to that time, but the Braves ran wild around the bases. Owing to the fact that most of the grand stands had been burned down it is likely that the remaining games will be played at the H.A.A.A. grounds. Reception by Oddfellows. Last evening a grand dinner was tendered C. H. Mann, E.D.D.G.M., in honor of his recent election as grand warden of the grand lodge of Ontario by the members of Unity Lodge No. 47 in the I.O.O.F. temple. There was a large crowd present at the affair and several interesting addresses were given by officials of the lodge.

Assisted Red Cross. Members of the Red Cross Society held a patriotic garden party at Ryckman's Corners yesterday afternoon and evening for the purpose of raising funds to assist the Red Cross. A large number of people were present and the affair proved a huge success, a handsome sum being realized. Baseball matches were played during the afternoon and a band concert given in the evening.

CHANGE IS NECESSARY IN CITY GOVERNMENT

Address Given to Members of Earlscourt Business Men's and British Imperial Associations.

That some drastic change is necessary in the government of Toronto if better results are to be obtained was made clear by Dr. Britton of the Bureau of Municipal Research in an address last night at a joint meeting of the Earlscourt Business Men's and British Imperial Associations in the Earlscourt Club. Dr. Britton pointed out that the taxpayers and citizens were directly responsible if the board of control and the city council failed in their duty and urged ratepayers to take a more active interest in municipal affairs. Comparing the work done by Toronto employees with those of cities in the States, he said: "The average employe of this city moves three times as fast as those in a great many American cities."

George Ellis of the Newfoundland Society, in an exhaustive review of the city's accounting, stated that the business of the city had been sadly neglected and a change in the methods of doing business at the city hall must be made if better results are to be obtained.

WOMEN'S HOME GUARD THREE HUNDRED STRONG

Record Attendance at Last Night's Drill—Recruiting Meeting Arranged for Tonight

Altho only organized a week ago by Miss Jessie McNab of the McNab Red Cross Auxiliary, the Toronto Women's Home Guard turned out 300 strong for their second drill last night at Dunderberg, St. Clair avenue, last night.

Three companies under Lieut.-Col. Galloway and a company of the latest recruits under Captain Brand were put thru drill movements. The drill included marching and physical exercises. A large number of women were spectators, and many signified their intention of enlisting.

A big recruiting meeting for men and women will be held tonight at which the chair will be taken by Aid. Joe Gibbons. Many prominent speakers have promised to attend, including W. P. Maclean, M.P., and Dr. Forbes Godfrey, M.L.A.

A musical program has been arranged for the evening. The program will include Augustina Arlidge and R. Bennett, the boy soprano.

TRUSTEES TO APPLY FOR DEBENTURE ISSUE

"The war would have been averted if the conference had been agreed to, Germany on the finest pretext, shut the door against it. I would track nothing on the point of form and expressed myself ready to acquiesce in any method of mediation that Germany could suggest if ready to accept it. I said I was ready to cooperate in any method Germany might propose, but in the interest of peace."

The German-chancellor, according to his speech, encouraged nothing except direct discussion between Vienna and Petrograd. But what chance had that of success when, as we heard afterwards, the German ambassador at Vienna was expressing the opinion that Russia would stand aside and was conveying to his colleagues the impression that he desired war from the first, and that his strong personal bias probably colored his action there.

"Some day, perhaps, the world will know what really passed between Germany and Austria respecting the ultimatum to Serbia and its consequences. It has become only too apparent that in the proposal for the conference, which we made, and which Russia, Italy and France agreed to, and which Germany vetoed, lay the only hope of peace. And it was such a good hope!"

Peace Within Reach. "Serbia had accepted nearly all the Austrian ultimatum, severe and violent as it was. The points outstanding could have been settled honorably and fairly in conference in a week. Germany ought to have known, and must have known, that we should take the same straight and honorable part in it that she herself recognized we had taken in the Balkan conference, working not for a diplomatic victory of the group, but for the peace of Europe."

"The refusal of the conference by Germany, tho it did not decide British participation in the war, did decide the question of peace or war for Europe and the Austro-Hungary-Hungary looking back on the past year, does not regret that neither the British nor the Russian proposal was accepted."

Those of our readers who have sent in all orders and have not yet received their set, are assured that they will be shipped from the first supply received. The World, 40 West Richmond Street, Toronto, or 15 East Main Street, Hamilton.

(Continued From Page 1.) I can, and I ask you to be good enough to make them public. "One Belgian recited a conversation with the British military attaché, was published by Germany last autumn to prove that Belgium had trafficked her neutrality with us and was, in effect, in a plot with us against Germany. The conversation, of which the most use has been made, never was reported to the foreign office nor, as far as the records show, to the war office at the time, and we saw a record of it the first time when Germany published the Belgian record.

"But it bears on the face of it that it referred only to the contingency of Belgium being attacked, that the entry of the British into Belgium would take place only after the violation of Belgian neutrality by Germany, and that it did not commit the British Government. No convention or agreement existed between the British and Belgian Governments.

"Bribe That Failed. "Why does the German Chancellor of 1906 and ignore entirely that of April, 1913?" I told the Belgian minister most emphatically that what we desired in the case of Belgium, as with other neutral countries, was respected, and that so long as it was not violated by any other power, we should certainly not send troops over the Belgian territory.

"Let it be remembered that the first use made by Germany of the Belgian document was to charge Belgium with

Marquard Bought for Leafs—Herbert Goes to Giants at End of Season—Gossip.

Rube Marquard, the famous "\$11,000 Beauty" of the New York Giants, is to join the Toronto Ball Club. President J. J. McCaffery made the announcement yesterday afternoon. Marquard is to join the Leafs at once. Herbert Hoover of the Leafs is to be sent to the Giants at the end of the season. Marquard, a left-hand pitcher, has been one of the outstanding figures in baseball. He was bought from Indianapolis by McGraw for \$11,000, a then record price. In 1914 he pitched eighteen games, but in only fifteen complete games, and is recorded as winning twelve and losing two. This season he has been erratic. He should, however, strengthen the Leafs in their struggle for a final place in the first division, at least, and the fans will give him a warm welcome. He will be a drawing card, any way.

OTTAWA CINCHES CANUCK PENNANT

At St. Thomas (Canadian)—The Ottawa was specially clinching the pennant by winning both games yesterday, 3 to 1 and 2 to 0. Peterson and Roberts, pitching for Ottawa, were effective with men on bases, and while the visitors only managed to get the same number of hits as the locals in both games, bunched theirs with effect. The scores: R.H.E. Ottawa.....012000000—3 5 3 St. Thomas.....000010000—2 5 0 Batteries—Peterson and Payne; Reilly and Lase. Second game—R.H.E. GRAND CIRCUIT AT NEW YORK.

NEW YORK, Aug. 25.—A report that the Grand Circuit race meet at the Empire City track at Yonkers would not take place Aug. 31 as planned, was denied today by James H. Clark, secretary of the National Fair and Exposition Association. It was alleged in legal proceedings that the stabling of 30,000 horses at the track, awaiting shipment to the fair grounds, had infected the stalls and track as to make the stalls and track unfit for six months, but this was said by Mr. Clark to be untrue. An injunction was granted in the legal proceedings by Supreme Court Justice Tompkins Aug. 23. This injunction, Mr. Clark asserted, was procured solely to prevent the further use of a portion of the track for herding horses destined for Europe. Tompkins to make this clear in a supplemental order and it is said this order has been prepared and is now awaiting his signature.

For the Man Who Wants New Fall Clothes With Personality

PERSONALITY is a wonderful thing to possess—and a difficult thing for clothes to express. And just because it is difficult we've managed to surmount it.

WE never ask a staid and stately middle-aged man to accept an extreme or lively pattern—neither do we ask a breezy young fellow to accept a dull and over-dignified one—we give each of them what his particular personality requires.

THE values continue to represent our sincere desire to serve you in the best way we possibly can—your profits run larger than ours—we'll be glad to be given a chance to prove it. Suits \$12.50 to \$25; Overcoats \$12.50 to \$35—the very styles and fabrics shown in New York and Chicago.

BULLS CONTROLLED NEW YORK MARKET

U. S. Steel and War Contract Group Again Big Features.

WEAKENED AT CLOSE

Bulls Inclined to Take Profits - C.P.R. Leader Among Railway Stocks.

NEW YORK, Aug. 25.—Cumulative indications that the complications growing out of the sinking of the Arabic are likely to pass without a serious disturbance of relations between this country and Germany, imparted today buoyancy to the stock market.

Opening prices offered a foretaste of what was to come, specialties showing immediate gains of 2 to 5 points, which soon were extended to as much as 13 points.

Canadian Pacific led the railways, gaining 1 1/2 points, while other transcontinentals, Reading and New Haven, showed overnight gains of 2 to 3 points.

Speculation entered the Toronto market again yesterday, and with buoyancy on Wall Street the local specialties were bid up quite freely.

Steel of Canada commanded a large share of patronage and rose five points before a halt was called. Nova Scotia Steel Corporation, Locomotive and General Electric were others which were moved by the game impulse.

STOCKS AT MONTREAL RALLIED, THEN DIPPED

Steel of Canada and Canadian Car Yesterday's Star Performers.

MONTREAL, Aug. 25.—Further recoveries of a very substantial kind were scored by local stocks today. Steel of Canada shares were taken in large blocks for New York account, and the stock rose 5 1/2 points.

Business went on a larger scale than on any day in the month, with freight up sharply before the close, last sale going out at 110, with the final quotations 10 1/2 asked, 10 1/4 bid.

NEW YORK, Aug. 25.—Commercial bar silver, 46 1/2, off 1/4.

IRREGULAR TREND IN GRAIN PRICES

War and Weather News Influences Caused Erratic Swings at Chicago.

CORN WAS UNLOADED

Outlook for Frost in Minnesota Was Ignored by Traders.

CHICAGO, Aug. 25.—War and weather were the dominating influences today in a wheat market that closed irregular, 1-4c lower to 1-4c higher, with September at 97 1/2c and December at 97 3/4c.

Wheat was depressed after a rather strong early tone by recurrence of rumors that the British had forced the Danube River to close.

Corn traders, in line with the recession of wheat values, sold liberally. They were furthermore prompted to sell by predictions of larger receipts within the next few days, and they ignored unfavorable weather forecasts.

LONDON STOCK EXCHANGE. LONDON, Aug. 25.—Money and discount rates steady today. The stock market maintained a generally optimistic tone, but the absence of support led to a drop in the afternoon.

LITTLE SPECULATION IN MINING MARKET

Present Buyers Are Said to Be Those Desirous of Holding for a Long Pull.

The action of yesterday's mining market was on all fours with that of the previous day.

C. N. R. EARNINGS MAKE IMPROVED SHOWING

Small Decrease for Third Week in August—July Statement.

A decrease of only \$21,100 in gross earnings by the Canadian National Railway for the week ended Aug. 21, the earnings being \$288,500, as compared with \$309,600 for the corresponding week last year.

MONTREAL GRAIN AND PRODUCE.

MONTREAL, Aug. 25.—There was little demand from foreign buyers for wheat to be spring wheat today and business was dull.

WINNIPEG, Aug. 25.—Owing to lower temperatures here the hardenings were changed to 3c higher for wheat. In October wheat is expected to be 10c higher.

EXCEEDINGLY DULL FRUIT MARKET

Retail Merchants Half Holiday Seriously Affects Wednesday's Trade.

PEACHES HARD TO SELL

Large Shipments Arrived, But It Was Difficult to Dispose of Them.

Trade was exceedingly dull on the wholesale fruit market yesterday, in fact, it was one of the worst days this season, one being being the merchants' half-holiday, which seriously affected trade.

Apples were plentiful, but were difficult to dispose of yesterday, as the buyers did not seem to want them, the yellow Johns selling at 20c to 21c per bushel.

Apples—Imported, \$2.25 per box. Ontario—New York, \$3.50 per case. California, \$3.50 per box.
