The copy filmed here has been reproduced thanks to the generosity of:

Douglas Library  
Queen's University

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol → (meaning "CONTINUED"), or the symbol ▽ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Douglas Library  
Queen's University

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole → signifie "A SUIVRE", le symbole ▽ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

WHERE is Campobello? How does one get there? What can one do there? These are a few of the many questions, which one hears asked constantly, in regard to Campobello, and although there are many people who have already found the answers for themselves, there are still a great number of eager questioners who have heard of the place, but whose knowledge of it goes no further; and for the benefit of these, this little book was written.

There is an indescribable charm in a new

summer resort, especially when one finds, not brass bands, electric lights, pavilions and the like, but green fields, blue sky, cool, fragrant, spicy woods, and fresh, invigorating air, the breath of which means a new lease of life. Those in search of the former must go elsewhere, but those who seek "fresh woods and pastures new" are welcomed to Campobello's hospitable shores with open arms. First of all, then,

### Where is Campobello?

Campobello Island lies in Passamaquoddy Bay, about seventy miles north-east of Mount Desert, and is nearly three miles from Eastport, in the State of Maine.

Campobello Island is under the Canadian Government, although the land is owned by the Campobello Land Company, which is composed of several well-known Boston and New York gentlemen.

## How does one get to Campobello?

Fine steamers of the International Line leave Commercial Wharf, Boston, at 8.30 A. M., and Portland at 5.00 the same evening, arriving at Campobello the next morning, at 8 or 9 o'clock. By taking the 12.30 P. M. train via Boston & Maine or Eastern Railroad, one can reach Portland in ample time to take the steamer there.

*Baggage checked through to Campobello.*

By RAIL. Take Pullman train via B. & M. R. R. for St. Andrews morning or evening, connecting there with steamer "Rose Standish," which makes the run to Campobello (15 miles) in one hour. The morning train from Boston reaches St. Andrews the same evening. For railroad time-table see daily papers.

The elegant new steamers built for the International Line, are commodious and swift. Their appointments are excellent, and service admirable.

The beautiful ocean steamer "Olivette" will run between Boston, Bar Harbor and Campobello as last year, leaving Boston Saturday afternoon and Bar Harbor Sunday morning, arriving at Campobello the same afternoon, and returning Monday morning.

It is expected that the New York and Portland Steamship Co. will run from New York to St. John twice a week, touching at Bar Harbor and Campobello.

### **What is there to do at Campobello?**

As Campobello is about ten miles long, from two to three miles wide, and covered with a dense growth of trees, it may readily be supposed that there are beautiful drives and walks in all directions. Those who are fond of horse-back riding will find the roads and bridle-paths at Campobello, delightful. There is plenty of good sailing, boating and fishing, with skillful skippers who may be hired by the hour or day.

Birch-bark canoes, with Indian guides, may be engaged at reasonable rates. There are several good tennis courts in the hotel grounds; billiard and pool tables, and bowling alleys in connection with the hotel. In fact, one can always find pleasure and occupation at Campobello.

The hotels are pleasant summer homes, with bright, sunny bed-rooms with open fires for those who wish them.

The parlors are cosy and comfortable, where one can chat, read or play whist, before huge open fires. The table appointments are tasteful, and the food is well cooked and well served.

Applications for rooms, for the season of 1890, may be made to T. A. BARKER, care of

ALEX. S. PORTER,  
General Manager of the Campobello Company,
