# "BONUS OF COMMISSION" WITH HARTY'S OFFER AT 93-1-3 FOR PURCHASE OF BONDS

### Production of Cable Correspondence Between Harcourt and Ross Reveals Curious Situation—What the Province Stood to Lose—On Division Rathbun (Ind.-Lib.) Supports the Government.

The second division of the present session of the legislature took place yesterday, following an attempted explanation by Hon. Mr. Ross and Mr. Harcourt of the charge strongly driven home by Premier Whitney that the attempt to float the Temiskaming bonds in 1904 had brought about a binding agreement with the London brokerage firm of Coats, Son & Co. detrimental to the interests of the province. The government majority of 40, the vote being 64 to 24, included Mr. Rathbun, the Independent Liberal member from East Hastings, whose declaration to stand with the government on the question might be taken as an evidence of the strength of the government's position.

The situation as developed a week before was given a new turn by the production of correspondence showing that, while in London on his mission, Mr. Harcourt had received a cablegram from the then premier, Hon. Geo. W. Ross, to the effect that Mr. Harty of Kingston, a former member of legislature, had made an offer "plus \$25,000 commission." Mr. Ross and Mr. Harcourt denied that there had been any understanding with Mr. Harty, as the premier directly charged, and declared that the \$25,000 was meant to be a bonus to be added to the \$100,000 offered. The opposition leader showed haste to have the discussion wound up by urging a division after the 6 o'clock hour for rising had been passed.

Col. Matheson announced that Mr. Hanson of the firm of Coats, Son & Co. had written him, making denial of the statement that the provincial treasurer had made in the house that he (Hanson) had gone about, before the agreement was made with the Bank of Montreal to float the bonds, protesting against its being done. Mr. Harty, reverting to the Temiskaming loan in his budget speech, said that the other day the member for Monck declared that the agreement was made with the Bank of Montreal to float the bonds, protesting against its being done. Mr. Harty, reverting to the Temiskaming loan in his budget speech, said that the other day the member for Monck declared that the agreement was made with the Bank of Montreal to float the bonds, protesting against its being done.

Mr. Whitney then referred vaguely to some bad feeling in the late government because the minister of education had not been able to sell the bonds, and that to placate him he had been offered the portfolio of attorney-general.

It had been found that at the time Mr. Harcourt was in England to float Temiskaming Railway bonds, and when he had declared that his instructions to Coats & Co. were that the first mark of Ontario bonds must bring as good as par, Mr. Harcourt cabled from England instructions to Coats to accept an offer of Harty & Co. of 93-1-3, plus commission of \$25,000.

"I wonder who the \$25,000 was for," exclaimed the premier. He had heard of a certain person called "the boy," and, continued the premier, "perhaps we are approaching an understanding of the question asked by me the other day, 'What was the consideration?'" Mr. Whitney hinted that Mr. Harcourt had some understanding with Mr. Rathbun with reference to the sale of these bonds.

On Aug. 30 Mr. Harcourt cabled to Toronto, "What does Harty offer for bonds? Coats & Co. Company says." The same day Mr. Ross replied, "Harty offers 93-1-3, plus commission of \$25,000. Will you cable again tomorrow." (Toronto) Toronto.

Then the following cable came to Mr. Anderson, assistant treasurer: "London, Aug. 31.—Existing conditions future outlook a little brighter. Street justifying accepting offer. Expenses here serious, stamps, brokerage offer as good as 97 here. Temporary loan feasible, but precarious. Sale here impossible. Cable me immediately decision."

On Aug. 31 Mr. Harty telegraphed Hon. Mr. Ross from Kingston: "Hope to submit offer within day, two for Temiskaming bonds. Negotiations with New York proceeding." On the same day Mr. Ross cabled Mr. Harcourt that Harty asked three days longer before making final offer for bonds.

Quite a Difference. The advice of Mr. Harcourt, Mr. Whitney observed, would make a difference of \$160,000 in the sum now received by the province. Mr. Harcourt had observed that a satisfactory arrangement would be made of all charges. This would mean a loss of \$270,000 to the province, and an offer of Coats & Co. of 93 would have been a loss of \$180,000.

If the offer was an honest and legitimate one, the premier asked, why

## EMBARGO TO BE TREATED FROM PARTY POLICY VIEW

### That's Impression Which is Gleaned by Lansdowne From Carrington's Statement.

(Canadian Associated Press Cable.)

London, April 5.—Questioned in the house of lords to-night, Earl Carrington declined to divulge the course the government will pursue on Friday regarding the removal of the cattle embargo. He repeated, previous statements of the subject, that it was a question of protection, he was sure every lord on the government side would hold up both hands against it, but that Liberals didn't object to the embargo if it tended to prevent disease. He was sure that whatever decision the government might come to would receive it in a friendly spirit, but that it would be a grave responsibility if restrictions were to be suddenly removed.

Earl Jersey, who raised the discussion of the dangers of disease and urged the government to not make a change, and was supported by Lords Cromore, Burchell, Winchelsea, Lovell, Desborough, Bernard and Campden.

Replying to Carrington, Lord Lansdowne, leader of the opposition, appealed to the government to have the embargo lifted. He thought the government were delicately weighing the political value of the different factors, and were ready to surrender their knowledge of the fact that we had a right to feel as we thought proper with a matter which, after all, was a domestic matter and concerning ourselves. That was how the Canadian government felt. He thought the government were delicately weighing the political value of the different factors, and were ready to surrender their knowledge of the fact that we had a right to feel as we thought proper with a matter which, after all, was a domestic matter and concerning ourselves.

It is stated that there are 300 members pledged for the removal of the embargo.

## 6000 MILES FOR \$6.65.

### New Light on Automobile Safety—Car Wore Dunlop Tires.

The unfavorable weather of last evening made it unpleasant for demonstration runs about the city and vicinity, in the cars retained at the Grand Hotel, which for that purpose. The drivers were prepared for the slippery pavements and assured their patrons that the wet pavements made no difference, but the passengers objected to the wet in the atmosphere and no demonstration runs were made.

Inside the rink the crowd was very considerably better than might have been expected. Otherwise the show proved no new feature of attraction. The makers of the Ford cars were out with a printed account slip showing that a doctor in Galt had paid only six months for repairs on one of their cars. This doctor was out with saying: "I have run my automobile 6000 miles and am still at it, in the original set of tires. This document shows a new light on the expenses of the up-keep of an automobile. The Dunlop Tire and Rubber Goods Company supplied the tires which did the service, and thereby added another feather in its cap for making successful tires."

A Toronto publication has made the statement that the Dunlop Company intends giving an exhibition of the actual process of the construction by putting a tire on a tire machine. Mr. John Westren was seen last evening, but stated that he would not care to promise the performance. If the management of the show can prevail upon the Dunlop people to bring a squad of their tire workers down to the rink there will be added an interesting feature to the general attractiveness of the exhibits.

**FURNITURE STORAGE.**  
Forster Storage & Cartage Company, 643 Yonge St., Phone North 923.

**Against Her Own Records.**  
Considerable interest is attached to the typewriter speed demonstration to be given in St. George's Hall Monday evening the 6th when Miss Pritz, champion typist of the world, will undertake to beat her own records, recently made at Chicago. Complimentary tickets may be had from United Typewriter Company, Limited, 7 East Adelaide-street, to those that are interested. Gilson's Orchestra will be in attendance.

Some dogs of high degree, owned in Toronto, are pictured in the World next Sunday, in advance of the Kenner Club Show.

## ZULUS WIN IN A BAD FIGHT BRITISH FIELD FORCE SUFFERS REVERSE

### Running Battle for Six Miles—Troops Prepare to Resist an Attack on Greytown.

Greytown, Natal, April 5.—The colonial field force which was congregated at Umpanza, 12 miles northwest of Greytown, for operations against the insurgent chief, Bambata, the deposed regent of the Greytown District, has been compelled to abandon its laager, after heavy fighting, and retire to Greytown.

A portion of the force, sent to relieve the women and children isolated at Keate's Drift, succeeded in so doing, but while returning was attacked by rebellious natives. A running fight was kept up for six miles, the Zulus continuing the pursuit until within a mile of Greytown. Three of the colonial police were killed and several were wounded. The remainder are safe at Greytown.

The police report that the rebels are in strong numbers and flushed with victory, and the officials fear further excesses. A strong force of artillery, infantry and mounted men is moving out of Greytown to-day to operate against the rebels.

A laager has been formed here and every precaution has been made to defend Greytown in case of attack. An assault on the town, however, is considered unlikely to occur, the Zulus preferring to fight in the rugged country outside.

The British field force at present only numbering a few hundred men, will be strongly reinforced during the next 24 hours.

The bulk of the reinforcements sent from Pietermaritzburg and Durban have arrived, and will join Mansell's column to-morrow. Operations will begin on Saturday.

## DIDN'T SAY STRIKE ON.

### An Incident in the Importation of English Printers.

Ottawa, April 5.—(Special.)—A return filed in the house to-day shows the correspondence with passed between the Canadian and imperial authorities in reference to the importation of sixty English printers during the printers' strike in Winnipeg last fall.

In transmitting information to his excellency it appears that Hon. Mr. Scott's letter mentioned that the English advertisement was genuine. His omission of mention of the fact that there was a strike on was brought to Mr. Scott's attention by a letter from the governor-general, written on March 16/7.

ITS GREATNESS IS ITS SIMPLICITY.

The Siche Gas machine is the only machine where the generation of the gas itself cut off the feed, without the intervention of gravitation or any mechanical devices of any kind whatever. In all other machines the feed is operated by a falling gasometer, and cut off by the gasometer rising and (a) operating the cut-off itself, or (b) operating a clockwork mechanism, to feed and cut off the feed. This is the most complex system in use, and the fact that it has recently been "re-invented" and is now being re-introduced as a new machine, is a striking proof of how little some people learn by experience. When attention is called to the fact, any novice can see that a machine that acts with one part only must cut off the feed more quickly than a machine that acts with two parts, and similarly that a machine that acts with three parts must cut off the feed more slowly than the one acting with two. This is why machines using clockwork or weights are more liable to over-generate and cause accident than machines which cut off the feed by the gasometer alone; but the SICHE GAS MACHINE, which uses neither weights, clockwork, gasometer, or mechanism of any kind to cut off the feed, has the most rapid and delicate control ever made. This is why Siche Gas Machines can be made in any size to take from one pound to one thousand pounds or more, of carbide (any grade), from a single lamp to a large charge, and still all run with the same uniformity. The Siche is the only machine in the world that can be made in all sizes without changing the principle of operation or the relative proportion of the parts in the slightest.

For catalog and prices write Siche, 81 York-st., Toronto.

**KILTS TO-NIGHT.**  
Adjutant Harbottle of the 48th Highlanders has issued regimental orders that the dress for parade to-night will be drill order with kilts, instead of trows and leggings.

Having been recommended for a commission as lieutenant in the regiment, pending official appointment, George Moray Anderson will be permitted to parade to-night with "F" company.

**MOVING FORWARD.**  
Albany, N.Y., April 5.—The bills proposed by the special insurance investigating committee passed another deal and stage of their progress toward the statute books to-day, being under fire for several hours in the senate committee of the whole. "Big Bill" is expected on Monday.

**York Springs Sarapatilla—Superior to that imported from England.**

**Drink Two of Them.**  
One drink of Tona-Cola is good, but two are better. It is a safe drink to take when you are thirsty, and it is not enough. Two drinks of Tona-Cola are more harmless than two drinks of anything else, even tea or coffee. When you are down town shopping, don't be afraid to take more than one drink of Tona-Cola, for you feel like it.

## OLD MAN ONTARIO AND HIS GARDEN

GARDENER WHITNEY: The Old Man got pretty tired of seeing the other fellow give away plants that should be set out in this Public Ownership Garden.

## 55 DEAD AND SCORES HURT CALAMITY ATTENDS FEAST

### Nearly 200 People Buried in Ruins of Collapsed German Hotel.

Berlin, April 5.—A large hall attached to the Hotel Bismarck, in Nagold, South Germany, collapsed to-day while the place was crowded with members of a local association who were celebrating an annual fete.

Nearly 200 persons were buried in the ruins. The building had not been fully completed, and the catastrophe is attributed to the non-observance of proper precautions. The roof of the building, which had been built in accordance with German custom, was celebrated by a fete. The guests were reported to have engaged in a dance, and this, together with the large number of persons on the floors, was probably what caused the building to collapse. In the p.m. 55 bodies had been recovered and 100 wounded removed, many dangerously hurt. Twenty persons are still missing.

## TROOPS AT 2 CENTS A MILE

### Government Will Pay That Rate to the Railways.

Ottawa, April 5.—(Special.)—The government has evidently become convert to W. F. Maclean's two cents a mile railway rate doctrine. An order-in-council passed on April 2 provides that railways be paid for transportation of troops traveling first-class at the rate of two cents per mile, and for those entitled to second-class fares only, whether the railway company provided second-class accommodation or not, 1-1-3 cents per mile.

## MAY LOSE HIS SIGHT.

### Blowing Out of Fuse Affects Alf Bailey's Eyes.

Albert Bailey, an electrician, was made blind for some time yesterday about 11.40 a.m. by a flash of a fuse burning out within eighteen inches of his nose.

Last night he woke up at 11.40 p.m. in his residence at 269 Farley-avenue with exactly the same sensation, although pain had died down during the day.

He was taken to the Emergency Hospital in the ambulance. His eyes are very badly inflamed, and it is possible that he may lose his sight.

## PROPOSED ARBITRATION WILL GET REPLY MONDAY

### Anthracite Miners Would Approve Old Conciliation Committee Taking Charge.

New York, April 5.—Arbitration is proposed by the anthracite miners, whose general scale committee held another session with the representatives of the operators in New York on Thursday. The scale miners ask that the conciliation board created by the strike commission act as arbitrators with Judge Geo. Gray of Delaware, or any person he may appoint as chairman and umpire. If the operators agree to the plan, and it is approved at a convention of miners, operations in the hard coal fields will be resumed at once. The operators do not look with favor on the plan, but will give their answer to the miners next Monday.

Reports from various sections of the soft coal regions show that conditions in the fields are improving. There was more coal mined in that territory than on any day since the strike was inaugurated. The production of coal, however, is not as large as was expected.

Patrick Dolan, former president of the Pittsburgh district of the Miners' Union, and Ulrich Beldingham, former vice-president of the same district, have been expelled from the organization for voting against instructions.

## COMPANY IS OBSTINATE.

### Mediation Efforts Fail—Night Cars Are Attacked.

Winnipeg, April 5.—(Special.)—Trouble broke out again in Winnipeg to-night, when, for the first time since the strike started, the company tried to run cars after dark. The first cars out after 8 o'clock were stoned, and motormen and conductors chased. The next two cars along Main-street were stopped opposite the Strathcona Hotel. One car had two women in it, but the crowd gallantly left it alone and attacked the other fiercely, badly wrecking it. The company withdrew its few cars at 9 o'clock. One car was stalled near the C.P.R. station after being stoned by a mob, and it would have been burned if the police had not guarded it for several hours.

The mediation of the clergy has apparently failed. The city council visited the directors this afternoon, but they were equally unsuccessful. To all appearances the company is preparing for a long fight.

Jas. McDonald, business agent of the Employees' Union of the Toronto Company, arrived in Winnipeg last night, and has had several conferences. He is expected to be in the city to-day. To add to the excitement, in the midst of the Main-street trouble a fire broke out on Smith-street, near Portage-avenue. The crowd in the north were under the impression the car barns were on fire and tore downtown.

At the Armories last night the Royal Grenadiers, 474 strong, held parade, with Lt.-Col. Stinson in command. Forty-five recruits were out.

**BIRTHS.**  
BAKER—At Le' Nid, 30 Balsam-avenue, on Thursday, April 5, to Mr. and Mrs. E. M. Baker, a son.

## INITIATION BUFFALO FRONT FOR PRINCE'S AMUSEMENT

### 800 Blackfoot Indians Give Exhibition Which Borders on the Brutal.

Calgary, April 5.—(Special.)—Prince Arthur of Connaught was given a hearty welcome here to-day. The school children sang patriotic songs. At 4 o'clock this afternoon, he was treated to the unique spectacle of 800 Blackfoot Indians shooting steers with bows and arrows in imitation of the Buffalo days. The implements were made especially for the occasion, and, of course, the Indians had no skill with the weapons, and during the two rehearsals the Indians filled the brutes with arrows until they were nearly dead. The responsibility for this feature is not certain, but it is so clumsily that they were despatched with an ax and gun.

The shooting of mountain sheep, which is to-day out of season, was another feature that has grated hard on the feelings of sportsmen with western instincts.

## DEATHS.

**ARMSTRONG**—At Calgary, Virginia, on Tuesday, April 4, the residence of her son-in-law, Dr. Guernsey, Esther Lippincott, daughter of the late Col. Richard L. Denison, of Dorchester, Toronto, and widow of the late Major Armstrong of Liverpool, Ont., in her 64th year.

**ERBER**—At his late residence, Glenholme, Dundas, John Erber, a native of Pöbbschitz, Dublin, in his 77th year.

**CLARKE**—On the 4th inst., at the residence of his son, T. F. Clarke, 685 Park-avenue, Montreal, Frederick York Clarke, in the 82nd year of his age.

**BELFRY**—On April 5, at his late residence, 35 Oak-street, William W. Belfry, county constable in his 69th year.

**BUTCHER**—On April 4, at Toronto Junction, Edith Martin, beloved wife of Harry Butcher, aged 28 years.

**CUMMINGS**—On Thursday, April 5, 1906, Mary, widow of the late Sergeant-Major Cummings, in the 71st year of her age.

**FRANCKE**—At 200 Ossington-avenue, on Wednesday, April 4, 1906, Martha Francke, dearly beloved wife of G. E. Francke, aged 54 years.

## VON BUELOW IN COLLAPSE FANTS DURING DEBATE IN REICHSTAG

### Kaiser, Alarmed, Cancels Engagements to Attend Chancellor—Germany's Moroccan Position Explained.

Berlin, April 5.—Chancellor Von Buelow, while attending the debate in the Reichstag to-day, fainted and was carried to a committee-room by some of the members of the house.

The chancellor made a speech on the subject of Morocco, and was listening to the answer of Herr Bebel, the socialist leader, when he was taken ill. The president of the house, Dr. Count Von Stollberg Weringero, adjourned the sitting for a quarter of an hour, during which deep silence prevailed through the house. Dr. Mugdan and Dr. Becker had in the meantime gone to the assistance of the chancellor, who appeared to be covering with them and with the members who carried him from the chamber into the committee-room.

Prof. Rudolf Verwer, head of the Moabit Hospital, reached the room some time later, and, after examining the chancellor, said he was suffering from a severe fainting spell, the result of influenza, and that there was no indication of paralysis, which was at first feared.

Emperor William came to the door later, but was not permitted to enter, as the chancellor was sleeping. The empress also called at the Reichstag to enquire about the chancellor's health. The emperor, who has now recovered, the intelligence was conveyed to him, and he immediately arose, recalled all his engagements for the afternoon and ordered a carriage to go to the Reichstag.

Must Take a Rest.

Prince Von Buelow spoke for about half an hour on the Moroccan question at the opening of the day's session in his usual animated style. But it was observed that his face was very red, and that he seemed to have difficulty in drawing his breath. His break-down was undoubtedly caused by overwork during the Moroccan conference. He had been working from 8 in the morning until midnight for three months past.

Towards 4 o'clock Chancellor Von Buelow awoke, was supported to his carriage and was driven home. Prof. Renvers, at 8:30 p.m. issued the following bulletin: "His Highness Prince Von Buelow suffered from a fainting fit from which he has now recovered." Prof. Renvers has advised Chancellor Von Buelow to take a month's rest. Parliament adjourned to-day until April 22.

The Recent Crisis.

In the Reichstag to-day, previous to his collapse, Chancellor Von Buelow said that he wished to make a limited expression of the government's Moroccan policy.

He weighed his words because the conference had not formally completed its work, and because the question had

DOLLS OF ALL NATIONS

Qualit Playthings Nursed by Sav-  
age Children.

The dolls of all nations and of all times  
occupied the attention of the Folk-Lore  
Society recently, when a lecture was given  
by Edward Lovett, who, for years, has  
collected dolls of every sort and size from  
all over the world.

"It is most probable that dolls have ex-  
isted in all times and in all countries,"  
declared Mr. Lovett. "They have been found  
in the tombs of Greek, Roman and Egyptian  
children, and some in our possession are at  
least 3000 years old."

Photographs of the queerest dolls imagin-  
able were shown. From Central Africa  
came a fetich doll, consisting of a bundle  
of sticks, with a piece of cloth wrapped  
around, and a small box in the middle, sup-  
posed to contain the spirit of a departed  
warrior, kept by adoring relatives.

The doll played with by the children of  
Central Africa is a gourd, wrapped in a  
rag, with seeds on the top to represent  
hair. The little ones of the French Congo  
nurse were, carved wooden figures, with  
rocks as long as cranes, and hands posses-  
ed of a multitude of fingers.

Some of the Indian dolls boast of a  
strange anatomy, the legs starting from just  
under the neck, while the hands are placed  
straight on the body without the formality  
of arms being attached.

"It is a strange fact," said Mr. Lovett,  
"that the ancient Egyptian dolls have joined  
limbs exactly the same as those of the  
modern dolls. The oldest Japanese dolls are  
the jointed, and so are the Matabe's spec-  
imens."

"The Christmas dolls of Germany, Bel-  
gium and Russia show St. Nicholas or Santa  
Claus carrying in one hand presents for  
good children, and in the other a birch for  
the bad ones. In Belgium St. Nicholas is  
so important a personage that the chimneys  
to the stockings himself, so the  
send down his servant, Ruprecht, who is  
also a popular doll."

"Dolls used to be placed over shops to  
indicate what kind of merchandise was to  
be found within. For instance, a large doll  
draped with rags pointed out a rag and  
bone store. Others of iron dolls are of  
stone—evidently not being used as play-  
things. Others are of wood and clay, and  
one old English doll is of chalk, with flint  
eyes."

"Dolls from Labrador and Alaska, and  
those of the North American Indian, before  
civilization reached them, are quite charac-  
teristic, while the faces of the different  
tribes are admirably shown. The same is  
the case with ancient Roman dolls."

"All over the world dolls used to be made  
by the inhabitants for the amusement of  
the children, and dressed in the costume of  
the particular district. Now the shop doll  
is everywhere the gollywog with the big  
eyes."

"In some parts of France the people used  
to make dolls which caricatured each other,  
and this proved a source of considerable  
amusement to dwellers in lonely parts. In  
the discussion which followed the lecture,  
it was pointed out that the history of  
dolls has never yet been seriously consid-  
ered, and that the folk-lore of dolls had  
yet to be written."

CRUISER TO ENFORCE LAWS.

Newfoundland Action to Protect  
the Fisheries.

St. John's, Nfld., April 5.—Premier  
Bond, in the colonial assembly to-  
night, replying to questions asked the  
government's attitude towards the al-  
leged illegal trawling of American,  
Canadian and colonial fishermen with-  
in the three mile limit along the west-  
ern shore, stated that the colonial  
cruiser Fiona has been despatched to  
enforce the local fishery laws  
against all offenders.

UNDERSTANDING AT LAST.  
Buda-Pesth, April 5.—As a result of a  
conference of leaders of the coalition  
party, held here today under the  
presidency of Francis Kossuth, a com-  
plete understanding has been reached  
which may be expected to end the  
legislative deadlock.

Herr Kossuth and Count Andrássy  
started to-night for Vienna, where they  
will have an audience of Emperor  
Francis Joseph to-morrow.

Punishment and the Crime.  
Ottawa, April 5.—James Finnessey,  
convicted on the charge of rape, was  
sentenced to Kingston Penitentiary  
this afternoon by Judge Teetzel, for  
six years and a half.

An accomplice was sentenced in Janu-  
ary to 7 years.

Them Annulled—Consolidation  
to Resist Prorogation.

St. Petersburg, April 5.—The victories  
in the city elections just concluded,  
of the constitutional democrats, have been  
followed by a proposed coalition of the  
constitutional democrats, the moderates  
and the Octobrists under the leadership  
of Ivan Petrunkevitch, who is a candi-  
date for president of the lower house,  
and M. Shilpot, a prominent zemstvo  
leader, to ensure a clear majority in  
the lower house of parliament to re-  
sist any attempt on the part of the  
government to prorogue it immediately  
upon its assembling.

It appears that the reactionists are  
endeavoring to induce the em-  
peror to find any excuse to annul the  
new elections.

The first act of the government after  
the result of the St. Petersburg elec-  
tions became known was to tighten the  
censorship of the press. Some of the worst  
features of the censorship have been re-  
pealed. The papers must again submit  
copies of their editorials to the censor,  
and the expedient of changing a paper's name when  
summed has been forbidden. Likewise  
the device so successfully practiced by  
the socialist organ, Vorwaerts in Ger-  
many in hiring a series of "prison edit-  
ors" has been prohibited.

The council of the empire to-day also  
hurriedly adopted a law by which to  
two votes, punishing with a year's im-  
prisonment the publication of false re-  
ports which affect the credit of the  
country at large.

MINISTERIAL DENIAL.

Of Allegations Concerning Printing  
of Questionable Things.

New York, April 5.—Difficulties be-  
tween the Methodist Book Concern of  
this city and Typographical Union, No.  
6, were discussed to-day at the session  
of the New York East conference of  
the Methodist Episcopal Church in  
Brooklyn. It was precipitated by cir-  
culars which were distributed by the  
door of the church by the defence com-  
mittee of the union. The circular said  
that the concern had set type for adver-  
tisements for whiskey, and that "The  
Book Concern had set type for adver-  
tisements for whiskey, a defence by George  
Bernard Shaw, Warren's Profes-  
sion," the production of which was  
stopped by the police, was printed  
from plates made at the Methodist Book  
Concern.

Rev. Homer Eaton, one of the manag-  
ing clergymen of the Book Concern, ad-  
dressing the conference, said "I want  
you brethren to know that we are a  
loyal Methodist church and nothing  
has been printed in our shop unless it  
was pure and wholesome and uplifting.  
If anything improper was printed in the  
office of the Book Concern, neither I  
maintain nor myself knew anything of  
it."

GALT BYLAW CARRIES.

Town at Last Agrees to Complete  
the Collegiate Institute.

Galt, April 5.—(Special.)—The Town  
of Galt is jubilant to-night in view of  
the carrying of a most momentous by-  
law. By a majority of 661 the people  
switched to Cowan & Co., manufactur-  
ers of the Galt, Preston and Espey, tracks  
and the Galt, Preston and Espey, tracks  
affirming of popular approval of  
granting switching privileges to all  
manufacturers. Strained relations no  
longer exist.

The second bylaw grants \$30,000 to  
finance and equip a new collegiate in-  
stitute on which \$25,000 has been ex-  
pended, the balance being at first in-  
debted by the taxpayers on the supplan-  
tation of the trustees had defaulted  
in the month of August, 1905, of six  
months ago, was carried to-day by  
a 400 majority.

Hon. James Young and others fought  
the switch bylaw, while the school  
bylaw was opposed by many leading  
taxpayers who had demanded the resig-  
nation of the board.

NOT VERY SATISFACTORY.

Licenses Holders' Deputation Has  
Futile Interview With Hanna.

A deputation from the Ontario  
Licenses Holders' Protective Association  
waited on the provincial secretary yes-  
terday morning and asked to have the  
license fees reduced, or to have the  
fees paid in instalments and the right  
to make use of emergency laws.

During the half hour they talked  
with Mr. Hanna they asked that the  
granting of licenses be put in force May 1, 1907,  
instead of the month of April. No  
satisfaction was received by them  
from their arguments. The deputation  
composed the following:  
James Haverson, K.C., solicitor,  
Frank Collins, Dundas; Robert Rehn,  
Ingersoll; J. H. Paisley, Ottawa, and  
members of the executive com-  
mittee of the association.

JILTED, HE SUCRIDES.

Frank, Alta., April 5.—Corporal E.  
W. Kimberly, in charge of "B" Bar-  
racks at this station, committed sui-  
cide this morning by shooting himself  
in the mouth with a revolver. The  
act was committed while he was eat-  
ing on the edge of his bed in the bar-  
racks.

HIG COLG OUTPUT.

Glacé Bay, April 5.—(Special.)—The  
total output of the Dominion Coal  
Company for the month of March was  
310,220 tons. Shipments of 178,182 tons  
were made.

FRAUD FOR INSURANCE.  
J. B. Madill of Guelph Found Guilty  
on Serious Charge.  
Guelph, April 5.—(Special.)—John B.  
Madill was to-night found guilty of an  
attempt to defraud insurance compa-  
nies in connection with the burning of  
the Hillsburg creamery. A charge of  
arson was also preferred against him,  
but the crown has not proceeded with  
it. The jury was out nearly five  
hours.

MR. BURT'S COMMISSIONS \$17,000 IN 15 MONTHS

Toronto Life President Makes Some Admissions Concerning the Inner Workings.

Greater public interest than ever in the Phillips investigation yesterday was evidenced by the large audience at the police court, especially in the afternoon.

Phillips, who heretofore has been conveyed to and from the jail in a hack, now, by order of the crown attorney, rides from the jail to the court in the van with the other prisoners and returns to the patrol wagon.

Further interesting evidence will be given to-day by Joseph Barrett in continuation of what he said yesterday afternoon concerning his and his wife's dealings with Phillips for the loan for the construction of works for the Southern Light & Power Co.

It is possible that information will be laid against certain witnesses by Crown Attorney Curry on the charge of perjury.

A Discredited Witness. President E. J. Burt of the Toronto Life was in the witness box nearly all the time, seeming little dismayed by the searching questions, even by the plain assertions that his statements were not believed.

"What has that to do with Phillips?" asked the ever-protesting J. E. Jones. "If this man were holding anything for Phillips we ought to know it," observed Magistrate Denison.

"This man obtained the money as a result of conspiracy with Phillips he is not entitled to it, and we want to get it," put in Mr. Curry.

"This only proves," said Mr. Jones, "that it is impossible to get a fair trial in this court."

Crown Attorney Curry said he had had a denial that a cheque for \$1800 went to Phillips. Phillips' deposit account, however, showed that he had got it, despite one young lady's denial.

"Where the work was." Burt was unable to give the name of the parties applying for incorporation. He admitted that the Toronto Life started business on a deposit of \$25,000.

"Was that with the Ontario government?" "Well, possibly. Burt added he did not know who the shareholders of the Toronto Life were.

Crown Attorney Curry then subjected the witness to severe questioning concerning the personnel of the shareholders of the Toronto Life. Were they not all agents and servants of the York Loan?

"Who?" replied Burt. Burt mentioned a few names. Williams was one. "Oh," said Mr. Curry, scornfully. "He was connected with the York County Loan in the sale of real estate."

"The witness admitted that the York Loan paid the salaries for incorporation and agents working for the Toronto Life. They spent their time in writing business for the Toronto Life," said Mr. Curry.

"Not all of it," replied Burt. "Well," said Mr. Curry, "they wrote three millions of business in two years. Did they not get the York County Loan salary at the same time? You must answer the question."

"They got the commission for the business," the witness admitted. "You have an advantage to the Toronto Life to have the agents of the York County Loan, because they knew the subscribers and could go round and get the business for those shareholders who were willing to take the insurance."

GOLDSMOBILE

Do not decide on your Automobile until you have seen these cars. They are the cars that will give you entire satisfaction and are extraordinary values for little money. We want you to take a ride in them and give us a chance to show you what they will do.

THE AUTOMOBILE & SUPPLY CO., Limited, Toronto Agents. Olds Motor Works—Lansing, Mich., U.S.A. The Packard Electric Company, Limited, Canadian Manufacturers, St. Catharines, Ont.

cheque for \$5000, payable to Joseph Phillips, and dated Dec. 30, 1904. That put in as an exhibit had originally been drawn on the List, but apparently got into the hands of the Toronto Life.

Other cheques paid in by Phillips were put in. Burt could not swear to the signature on the cheque payable to Georgina Hudson for \$15,000 (paid in as against her stock), as being that of Phillips.

"None whatever," "Not one-third," "Not one-quarter has anything to do with it whatever."

"Where did you get the money you loaned Mr. Phillips?" "I could not say. It may have been from the insurance premiums."

"Where the work was." Burt was unable to give the name of the parties applying for incorporation. He admitted that the Toronto Life started business on a deposit of \$25,000.

"Was that with the Ontario government?" "Well, possibly. Burt added he did not know who the shareholders of the Toronto Life were.

Crown Attorney Curry then subjected the witness to severe questioning concerning the personnel of the shareholders of the Toronto Life. Were they not all agents and servants of the York Loan?

"Who?" replied Burt. Burt mentioned a few names. Williams was one. "Oh," said Mr. Curry, scornfully. "He was connected with the York County Loan in the sale of real estate."

"The witness admitted that the York Loan paid the salaries for incorporation and agents working for the Toronto Life. They spent their time in writing business for the Toronto Life," said Mr. Curry.

"Not all of it," replied Burt. "Well," said Mr. Curry, "they wrote three millions of business in two years. Did they not get the York County Loan salary at the same time? You must answer the question."

"They got the commission for the business," the witness admitted. "You have an advantage to the Toronto Life to have the agents of the York County Loan, because they knew the subscribers and could go round and get the business for those shareholders who were willing to take the insurance."

that it was not the majority of them? "I would not say," "You would not say, and you the supervisor of the agents of one concern, became the supervisor of the same agents in regard to the other. You got an overriding commission of \$17,200, and you ask us to believe that it does not belong to the York County Loan?"

"I intend to keep it," said witness. "You intend to keep it," said Mr. Curry. "Well, I think you ought to give it over to the York Loan."

"You have never heard of a company that had a York County Loan?" "No," admitted the witness. "That is right," said Mr. Curry. "You will never have a York County Loan again. I think that the people of this country have had a sufficient lesson, until a new generation springs up that knew not Joseph."

"The court laughed heartily. Phillips appearing to enjoy the humor immensely. Witness admitted that it was a long time since he had earned so much as during the past two years. He had disposed of a number of shares in the York Loan and had still some left."

"Sorry for the party you sold them to?" asked Mr. Curry. "Oh, I do not know," replied witness. "They will get back their money, I think."

"How much on the dollar?" "Cannot say." "They could get more if they could declare themselves to be shareholders of Toronto Life," suggested Mr. Curry.

Joseph Barrett gave brief evidence before the court adjourned until to-morrow. He gave an account of the dealings of his wife and Phillips whereby an agreement was entered into for a loan of \$212,000 for the construction of works for the Southern Light and Power Co. at Port Credit.

BANWELL'S PRISON DUTIES. He Has an Easy Position as Prison Librarian. Kingston, April 5.—(Special.)—Banwell, the bank robber is considered here to have a snap in the penitentiary. The duties of the position of librarian are not onerous. He remains in the library till 9 p.m., while the other convicts must return to their cells for the night at 5 in winter and 6 in the summer.

Ascensiontide Appeal. The Bishop of Saskatchewan and Archdeacon Pentecost of Vancouver, B.C., have been appointed to draw up the Ascensiontide appeal for Canadian Anglican missions, which is to be read in all the churches May 30. The appeal will be submitted to the management board April 26 for approval, and then printed and sent out to all the clergy.

A Baptist Conference. S. J. Moore has invited a large number of Baptist workers of the city to luncheon at McConkey's to-morrow at 1 p.m. A conference will ensue regarding a forward movement in church extension, Sunday school effort, and young men's work.

Successor's Stock Show. Clinton, April 5.—The first show under the auspices of the directors of Huron County Stock Exhibition, was held to-day, and was a success in every particular.

FRIGHTENED TO DEATH? Aeronaut Believed He Was Being Carried Out to Sea.

New York, April 5.—Paul Noquet, the young aeronaut, who died on a Long Island beach, where he was lost and exhausted after an apparently safe landing in his balloon Tuesday night, made preparations for death before starting on his last voyage. A letter was found in an inside pocket of his clothing to-day giving complete directions as to the disposition to be made of his property in case he should be found dead.

It is believed that Noquet died from heart failure, following complete physical exhaustion, and the mental anguish he must have felt when he believed he was being carried to sea by the big gas-filled bag.

That his balloon became partly unmanageable, perhaps several hours before he landed on the ocean beach appears from an appeal which he showed from his car while passing over the City, L.I., and which was heard by the city at a height of about 1000 feet, moving rapidly.

"I have been trying for a long time to make a landing," the aeronaut shouted, but my grappling anchor was torn loose and back where it caught a tree, I have been trying to get down ever since, but could not."

By the time he spoke these words he passed beyond the boys' hearing. MARYEL OF SURGERY. Young Philadelphia Physician Reunites the Spinal Cord.

New York, April 5.—A Philadelphia despatch to The Herald says: The question whether the spinal cord, once severed, can be restored, seems to have been solved by a young physician of this city. Five years ago Miss Clara Nichols of South 49th-street was shot in the back. The physician, then just out of college, decided to test his theory that the severing of the spinal cord is not necessarily fatal.

For three or four months the patient lay on her back in the hospital, and her death was daily awaited. Her body below where the shot had entered had been completely paralyzed, she did not experience any sensation when taking food or water.

WIFE OF BISHOP REEVES DIES. WESTERN MISSIONARY PIONEER. Winnipeg, April 5.—A letter from Athabaska Landing gives an account of the death of Mrs. Reeves, wife of Bishop Reeves, who died on March 8.

Society of Chemical Industry. The annual meeting of the Canadian section of the Society of Chemical Industry will be held this evening in the Engineer's Club rooms, 96 West King-street. An address by H. L. Bowers, B.S., dinner and election of officers is the program for the evening.

ANTI-OPIMUM MEETING.

Local Endeavor to Aid Movement in British Parliament. For year the opium trade in China has been discussed in the British house of parliament. It has now become an international question. Missionaries, too, have long and loudly complained against the opium trade as seriously hindering the progress of Christianity in China.

Many of the leaders of the present government of Great Britain have for years opposed the traffic and denounce it as a disgrace to the imperial government. There is a prospect of some action at an early date and it has been intimated that their hands would be strengthened by Canadian co-operation.

The whole question of the opium trade will be discussed in Victoria College on Monday night next. The chair will be taken at 8 o'clock by Rev. Chancellor Burwash. The speakers will be: McNaught, M. L. A., North Toronto; Pense, M. L. A., Kingston; Rev. R. P. Mackay, D.D., secretary Presbyterian foreign mission board; Rev. A. B. Winchester, K. C. Church; Dr. N. W. Hoyle, Osgoode Hall; Rev. John Potts, D.D., Toronto.

MISS MILLET TO LEAVE.

Has Been Engaged as Soprano Soloist in Frankland, Pa. Miss Eileen Millet, who was a pupil of Dr. P. H. Torrington from the age of 13 years and who was trained as a church, concert and oratorio singer by him, and who has been a soloist at the Metropolitan Church for some years, has been offered, and has accepted, the position of soloist in the First Baptist Church, Frankland, Pa., at the guaranteed salary of \$1700 per annum. Miss Millet leaves for her new position on Tuesday next, April 10.

CLAUDE IS WITHDRAWN THAT WOULD TAX COLLEGES

In the municipal committee of the legislature yesterday the clause in the city's bill to amend the Assessment Act, which provides for the right to tax colleges and other educational institutions, not state or municipal, was withdrawn, owing to the agreement reached between the city and the government.

CLAUDE IS WITHDRAWN THAT WOULD TAX COLLEGES

The clause to increase non-householders' exemption from \$400 to \$800 was laid over, as are sections relating to the special assessment of farm lands within the city boundary.

CLAUDE IS WITHDRAWN THAT WOULD TAX COLLEGES

Rev. Egerton Ryerson, who will leave shortly as missionary to Japan, gave a farewell address at the monthly meeting of the Women's Auxiliary of the Toronto diocese of the Anglican Church yesterday at the Church of the Ascension.

CLAUDE IS WITHDRAWN THAT WOULD TAX COLLEGES

Chalmers Church Young Men's Union held an election of officers last night, which resulted as follows: Honorary president, Rev. H. A. MacPherson; president, F. H. McEwain; vice-president, Elmer B. Armstrong; secretary, H. Radcliffe; assistant secretary, F. Marshall; treasurer, on the occasion of his severing his long connection with the firm, W. R. Peavey made the presentation.

CLAUDE IS WITHDRAWN THAT WOULD TAX COLLEGES

The employees of S. F. McKinnon & Co. Limited, presented R. R. Duthie with a gold watch, on the occasion of his severing his long connection with the firm. W. R. Peavey made the presentation.

WHO MISPLACED SWITCH?

Crew of G.T.R. Freight Train Blame—Jury's Verdict. St. Catharines, April 5.—(Special.)—The following verdict was given by the coroner's jury in the death of Fireman John Barry at Port Robinson, Tuesday.

"That John Barry came to his death as the result of an accident due to a misplaced switch, but who was responsible for the misplaced switch, the evidence does not show. We recommend that the Grand Trunk maintain a switchman at Port Robinson in addition to the operator."

WHO MISPLACED SWITCH?

Crew of G.T.R. Freight Train Blame—Jury's Verdict. St. Catharines, April 5.—(Special.)—The following verdict was given by the coroner's jury in the death of Fireman John Barry at Port Robinson, Tuesday.

"That John Barry came to his death as the result of an accident due to a misplaced switch, but who was responsible for the misplaced switch, the evidence does not show. We recommend that the Grand Trunk maintain a switchman at Port Robinson in addition to the operator."

WHO MISPLACED SWITCH?

Gifts Inexpensive. However inexpensive the Easter Gift purchased at Diamond Hall, the giver has the satisfaction of knowing it to be in the perfection of good taste. These are examples: No. 80715—Hat Pin Holder, Sterling Silver with Silk Ribbon, \$1.50. No. 80716—Mark and Letter Opener, Sterling Silver, \$1.00. No. 80717—Book Mark and Letter Opener, Sterling Silver, \$1.00. No. 80718—Book Mark, Sterling Silver attached to Silk Ribbon with tassels, \$1.00.

OFFICIALS ARE OVERWORKED. Constant Arrival of Immigrants Allows for Little Rest. The immigration officials have been overworked this week. Since Monday they have not had a proper night's sleep, and yesterday Mr. Tutt was so played out that he was forced to go home and rest. Special trains have been arriving at all hours of the night, thus detaining the officials at the office night and day. The week has been unprecedented in the number of immigrants, who have all been placed by the department or swallowed up by the farmers, or by members of the legislature. Counting the 200 Scotchmen who arrived early yesterday morning, 1850 have been registered, and yet farmers are crying for help. Of this number, the legislature have walked off with four or five hundred for constituents in need of labor, some of the immigration offices as early as 2 o'clock in the morning. Among these was Hugh Clark, Centre Bruce, who arranged with almost 50 Scotchmen yesterday.

Easter Mounts. All the smaller gift articles purchased this year at Diamond Hall are mounted on dainty egg-shaped cards of purple. This gives a distinctively Easter note to any gift. No. 80723—Stick Pin, Sterling Silver, \$1.00. No. 80724—Brooch, Sterling Silver, heavily Gold plated, with Easter Lily in Enamel, \$1.00. No. 80725—Easter Lily Brooch, Sterling Silver, \$1.00. No. 80726—Easter Lily Brooch, Sterling Silver, \$1.00. No. 80727—Easter Lily Brooch, Sterling Silver, \$1.00. No. 80728—Easter Lily Brooch, Sterling Silver, \$1.00. No. 80729—Easter Lily Brooch, Sterling Silver, \$1.00. No. 80730—Easter Lily Brooch, Sterling Silver, \$1.00.

Cook's Cotton Root Compound. The only safe and effective monthly medicine on which women can depend. Sold in two degrees of strength, No. 1 for ordinary cases, No. 2 for severe cases. Ask for Cook's Cotton Root Compound; take no substitute. The Cook Medicine Co., Windsor, Ontario.

DECLARES CIGARETTES NOT TO BE HARMFUL

Scientist of Johns Hopkins University Ridicules the Charge of Evil Effects.

Some Text Book Errors—Blames too Enthusiastic Temperance Workers for the Publication of Absurd Misstatements.

Where it is not a painful duty, it would be almost a work of supererogation to again call attention to the exaggerated errors perpetuated in the American public school textbooks of physiology and hygiene, says a scientist of Johns Hopkins University in The Maryland Medical Journal.

Perhaps it is not amiss, before proceeding further, to say that I have neither smoked nor tasted liquor in my life; therefore, the following remarks cannot be attributed to prejudiced judgment.

Most of these wild exaggerations endorsed, to put the matter mildly, by a noted temperance organization or its branches in the different states, these well intentioned but misinformed enthusiasts insist upon the incorporation of terrifying descriptions of the evils of tobacco and alcohol in public school text books, which are to teach the sciences of physiology and hygiene.

In order to be specific and therefore emphasize the text books quoted in this paper will be a standard one used in the grammar schools of Baltimore; one of the great university cities of America, and a leading centre for advanced medical research.

"Tobacco, a powerful narcotic, contains a substance called nicotine. A single drop, if placed on the tongue of a dog, will soon kill the animal. An ordinary cigar contains enough nicotine to kill two men if taken pure."

Here are three sentences containing four big lies. Tobacco is not a narcotic, a single drop of it (tobacco or nicotine) will not kill a dog in the manner described, and the ordinary cigar used in the ordinary way, containing its usual amount of pure nicotine, will not kill two lives.

In the same chapter, there appears this section on cigarettes:

"They are one of the worst possible preparations of tobacco. The smoke of the paper wrapping is irritating to the lungs, and the cigarettes send more poisonous fumes into the delicate air cells than a pipe or a cigar would do. The smoke of the paper wrapping of cigarettes has never been proven irritating to the lung cells, even when inhaled, so this statement remains unproved. They do not send more poisonous fumes into the lung cells, and are only one-fifth as strong as a pipe and one-tenth as strong as the average cigar.

The next statement contains more false statements than the preceding. It reads: "Drinking men are almost always smokers or chewers, and many a drunkard owes his ruined life and happiness to the appetite for narcotics formed by the use of tobacco and the company into which it led him."

Comment would be superfluous on this section on cigarettes.

How can the observant children who study this so-called physiology accommodate the following statements with their personal knowledge of brothers,

JOE'S LUCK. Drew a Prize in Matrimonial Lottery.

"Before we were married my husband was a coffee drinker and subject to severe attacks of sick-headache, which interfered with his duties as superintendent of a large factory," writes a young Massachusetts matron.

"I had made up my mind that coffee was at least partly to blame, and that I could cure him after marriage by the use of Postum Food Coffee.

"When the time was ripe and I proposed upon the promise that he should have the old kind of coffee, he accepted my breakfast. He knew fond of the new food drink, however, and noted that after drinking the old coffee on Sundays he suffered from unsteady nerves and a dull heavy feeling that he never had on the days when he drank Postum. The result was that at last he said, 'I would rather have the Postum Food Coffee than any other coffee.'"

"I proceeded gradually, first eliminating by degrees the pastry and sweets from the daily menu, and as his meals were always daintily served and appetizing he began to have faith in his wife's ability as a cook.

"Meantime his headaches became less frequent, but did not cease altogether. When the time was ripe and I proposed to use Postum Food Coffee he consented upon the promise that he should have the old kind of coffee, he accepted my breakfast. He knew fond of the new food drink, however, and noted that after drinking the old coffee on Sundays he suffered from unsteady nerves and a dull heavy feeling that he never had on the days when he drank Postum. The result was that at last he said, 'I would rather have the Postum Food Coffee than any other coffee.'"

fathers, uncles, and most men they meet using tobacco? "A boy who uses tobacco runs the risk of being dwarfed in body, mind and soul." How is it possible to teach the truth about tobacco or anything else by means of such reckless misstatements?

The remaining portions of this interesting chapter would shame a yellow journal. Playing upon the emotions of boys and girls with threats of insanity, disease and death is inexcusable, to say the least. The lesson thus expected to be taught, is, fortunately, lost by the force of a multitude of contrary facts at the disposal, and in the experience of every child.

With respect to the cigarette and its paper wrapper, analyses made in London, Boston, Washington and New York, show the absence of any trace of poison of any kind. Rice paper and corn husk paper were the only kinds found.

The Medico-Legal Society of New York City recently sent enquiries to all the superintendents of insane hospitals in this and foreign countries, as to a possible relation between cigarette smoking and insanity. Replies were received from several hundred authorities who were unanimous in saying that not a single case of mental deterioration has ever been traced to tobacco in any form. The American, German, English and French literature may be searched in vain for such results.

With respect to the temperance societies and anti-cigarette leagues, hundreds of amounts of so-called evidence to that effect.

Altho chemists threaten the world, and government experts in particular, are constantly upon the lookout and are analyzing cigarettes daily, no narcotic such as morphine, belladonna, hyocine (scopolamine) or similar drug has ever been found in them. It would be just as easy to find whiskey in milk when it is taken from the dairy.

New York Herald, Sunday, March 25, 1906.

VEUVIUS IN ERUPTION.

But Neapolitans Will Make It Feature of King's Visit.

Naples, April 5.—The eruption of Mount Vesuvius is assuming alarming proportions. Five streams of burning lava are descending the mountain, threatening everything below. Roaring explosions are heard, for 20 miles around. The inhabitants of the small villages near the crater are escaping in wholesale processions. The eruption is sending images of saints and madonnas, and praying for a cessation of the eruption, as they pass through the neighboring towns.

The smoke and ashes are carried so far that all Naples is sprinkled with them. The Neapolitans are not alarmed, in fact they are rather glad, saying that the new eruption of Vesuvius is in preparation for the arrival of King Edward, who left Marseilles April 3, on the royal yacht "Victoria and Albert," accompanied by Queen Alexandra, and who is expected here to-day.

EASTER AT DIAMOND HALL.

To-morrow is the Special Opening Day of Its Easter Display.

Last year's Easter decorations at Diamond Hall will not yet be forgotten by the thousands who visited the store to view them. This season's Easter opening will be a specially attractive one, as befits the first Easter in the new year. Whether they come as purchasers or simply to view, all visitors will receive the welcome characteristic of the Ryrie store at all times.

Those intent on Easter gift-buying will be attracted to the purple and gold booklet issued by Diamond Hall, entitled, "For Easter Giving." Daintily appropriate articles are pictured in the booklet, and as a special egg-shaped offer to spend \$15,000 instead, Messrs. Ryrie Bros., Limited, are able to meet all requirements.

FAST TRAIN TO NAGARA.

You want a comfortable seat in a bright, up-to-date coach when you journey to the Falls, and you, of course, want to get there in the least possible time. See your ticket reads via the Canadian Pacific Railway. That's all.

POSTAL SERVICE FOR EXHIBITION.

(Canadian Associated Press Cable.) London, April 5.—Portraits of the King and Queen, painted by Colin Forbes for the house of parliament, Ottawa, will be exhibited at Toronto next August.

His Life for His Franchise.

Chicago, April 5.—Major Moses W. Jenks of Evanston, Ill., 86 years old, died yesterday as a direct result of his efforts to go to the polls Tuesday. Three times he tried to make his way to a carriage, but was too feeble. He invented and patented 26 mechanical devices, the most important of which is the rubber clothes wringer, patented in 1910.

ANNEX THE WEST INDIES 'TWOULD BENEFIT CANADA

R. L. Patterson, Home From Southern Seas, is Enthusiastic Over Results to Be Attained.

The acquisition of the British West Indies by Canada is a step most strongly advocated by R. L. Patterson of Miller & Richards, type founders, of Toronto. Mr. Patterson has returned from a five-week's cruise amongst the various islands, such as Jamaica, Trinidad, Barbados, Bermuda, and St. Lucia. He found them fairly prosperous and contented, with the exception of Jamaica, business in which, on account of the low price of sugar, is in rather a depressed condition.

"I certainly think it would be a good thing for Canada if it were possible to acquire these islands," he said to The World yesterday.

"In the first place, we should get the climate we require for the great and production of such things as tropical fruits, sugar, cocoa and coffee.

"It is for Canada to take the initiative, and I think there would be very little objection on the part of the principal people of these islands to amalgamate with Canada.

"From enquiries I have made, it seems to me that they would have no objection to being annexed by the United States, because they are satisfied that the negroes, who comprise not have fair treatment; they draw their conclusions from the unfair treatment meted out to the colored men in the southern states of America.

"Canada should sacrifice something for the sake of securing these valuable islands. I feel satisfied, too, that the English government would not be likely to object. France and Italy are handicapped, as each island has its own governor and its own legislature. But all enactments, before being assented to, must be submitted to London for the sanction of the crown, before being made law.

"If they threw in their lot with us they would have the same self-government as we have. Another advantage of amalgamation with Canada would be that our capitalists, our business and professional men, of all sorts and conditions, would visit the islands, and purchase large estates, which are now more or less dormant and non-productive.

"It would lead to a revival of business that might mean much, both for the good of these islands and for this country.

"The main advantage, as I have said, would be that we could produce those articles of consumption that we are unable to produce at the present time. We would be a self-sustaining nation like the United States."

Mr. Patterson also said that the climate of these islands is delightful. He spoke well of the island of Barbados, whom own and control large printing offices.

He confessed, however, that there was a want of energy amongst the negro population. With trees laden with bread fruit, they showed a strong disinclination to work, but when these trees were cut down, then they had to work or starve.

"They imported 90,000 coolies to the West Indies from the East Indies," said Mr. Patterson, "on ten years' contracts, because of the difficulty of getting negroes to work on the sugar plantations."

But there can be no doubt that Mr. Patterson is enchanted with these islands, on the trees on which he saw growing every kind of tropical fruit that can be named. Amalgamation of these islands with Canada he advocates as a patriotic son of the Dominion.

Easy to Raise Money. Syracuse, April 5.—Mrs. John Wilcox pleaded guilty to-day to passing a raised money order, and was sentenced to two years in Auburn prison. She had just finished serving a year for a similar offense at Columbus, Ohio. She negotiated three raised money orders, charged from 25 cents to \$50, here, and is charged with similar offenses in Detroit, Chicago, Boston and Houston. Her husband is serving a sentence in Allegheny prison.

RHEUMATISM

Price 25c. Myron's Rheumatism Cure seldom fails to relieve pains in legs, arms, back, stiff or swollen joints in a few hours. Positively cures in a few days. It does not put the disease to sleep, but drives it from the system. —NUNYON.

QUEBEC'S POWER RESOURCES GREAT AID TO DEVELOPMENT

Hon. W. A. Weir Gives Glowing Predictions of Future of Eastern Province.

The Empire Club yesterday entertained three guests of prominence at their weekly luncheon, Hon. W. A. Weir, K.C., speaker of the legislature of the Province of Quebec; Hon. J. W. St. John and Hon. Dr. Reaume.

The member of the Quebec legislature gave a short address on the "Present and Future of Quebec."

"The resources of Quebec were enormous, he said, and the wealth of the province, when developed, would be the wonder of the age. Quebec's main industries were being developed at a somewhat greater pace than was possible in some other parts of the Dominion, owing to the tremendous water power to be commanded in the lower province.

As an instance, he stated that the City of Montreal has saved 800,000 tons of coal per annum by the force generated from the Shawigan Falls. Future generations will see this force under much greater development.

"There are 800,000,000 acres of undeveloped, uncultivated land in the Province of Quebec still open for location," said Mr. Weir.

Referring to matters of education, he stated that every village and hamlet had its own educational institutions, largely supported by the inhabitants immediately surrounding, but that the difficulty with Quebec education was that it had been based too largely upon the literary and classical, and not enough on the industrial and technical. He referred to a statement which he had often heard in different parts of Canada, to the effect that the Province of Quebec was priest-ridden. He assured the members of the club that this was a mistaken idea, as proven in the elections of 1896 when the archbishops issued a mandate commanding their people to vote in favor of the remedial bill, and the people voted in favor of Laurier and against the remedial bill.

He referred to the warm welcome he had received at the hands of the Ontario government on his visit here, and in an eloquent peroration invited the members of the Ontario government to join hands with the government of the Province of Quebec for the benefit of Canada and the empire.

CRITICIZES POSTAL SERVICE.

English Settler Writes Home, Making a Complaint.

(Canadian Associated Press Cable.) London, April 5.—A letter to The Evening Globe says the English settlers at Lloydminster, Sask., have, during the three years they have been there, continually complained of the loss of goods posted from England. In one recent case a settler paid duty on a parcel of clothing, but at still waiting for the parcel, Christmas parcels seem to have been specially subject to depreciation en route; others have been altogether lost, and this applies to more valuable parcels as well. It is clear the Canadian postoffice requires a prompt overhauling.

A PROPHECY.

(Canadian Associated Press Cable.) London, April 5.—Salvationists, numbering 1400, sailed for Canada to-day per the steamer Kensington. The C. A. P. has been told that Agent-General James of West Australia, was present when the emigrants embarked at Bunton station, and is said to have remarked, "half of them won't stay in Canada, but go to the United States."

GOVERNMENT STEAMER TO BE LAUNCHED TO-MORROW

The government quarantine steamer Alice, which will be launched at the foot of Bathurst-street at noon to-morrow, has got 120 feet keel, 28 feet beam and will draw 8 feet of water. She will be used at Grosse Ile, Quebec, for quarantine work. She will serve as mail supply, disinfecting the steamer formerly this work was done by a hired steamer. She is called Alice after the wife of Dr. Marineau, the superintendent at Grosse Ile. Dr. Marineau will represent the department at the launching.

STRIKERS SEIZE POLICE CHIEF HOLD HIM AS A HOSTAGE

Toulon, France, April 5.—When the chief of police of this city visited a meeting of strikers last night, for the purpose of gringing about reconciliation, he was seized and locked up in a dark room. The strikers then announced that they were holding the chief as a hostage. The prefect finally intervened and secured his release.

Really Charming Merchandise.

The north window of McKendry's store has been a centre of great attraction to thousands of women who pass the store daily. The groundwork is of white, effectively setting off the display of lovely hats, all in one color, though many tones, namely, "raspberry." This shade is the rage, and McKendry's are building exquisite models there. Every afternoon this week the millinery showrooms have been literally crowded with ladies buying their Easter hat. The costume and jacket department is filled with choice merchandise. The foreday of both millinery and cloak departments reports sales over 50 per cent. ahead of last year so far, with orders piled up for Easter delivery. This is no less a sign that times are good in Toronto than that McKendry's know how to "keep their end up."

The New Master.

St. Catharines, April 5.—Henry Conn of Strathroy has been appointed success master of the collegiate institute here, to succeed J. A. Griffin, who leaves a \$1000 salary here to take a \$1500 one in a business house in Detroit.

Dampers of Farm Life.

Belleville, April 5.—Mrs. Minnie Vanwart, while feeding a calf, got poked in the eye by one of the animal's horns, the eye being gouged out.

Hyslop Automobiles

The success of this business in regard to automobiles is based on a selection of machines specially adapted to Canadian use, with the purchaser protected against all possible chance of risk. The Hyslop name has always stood for a certain forwardness in trade, and with the whole market before us, it goes without saying, we were not satisfied with anything in any sense inferior. The cars we represent are the very best in their class, with everything about them equal to the strongest possible guarantee.

THE DARRACQ

is all French in design, workmanship, and finish, and represents such perfection in detail as only belongs to old-world workers. Nothing about it is cheapened for the sake of a cheap price, and yet we are able to sell this machine at \$2,500 upwards, in competition with the finest American makes.

THE "CADILLAC"

is by long odds the best popular priced car on the market, a marvel of power and endurance, and strikingly attractive in design. We gladly refer to any of the large number of Toronto people who have bought "Cadillac" machines, and can offer better satisfaction at \$1,000 upwards than is possible with any other automobile at the price.

HYSLOP BROS. LIMITED

209 Yonge Street, Toronto.

PUBLIC AMUSEMENTS.

In "My Tomboy Girl," the new sensational spectacular comedy-drama by the popular author, Chas. E. Blaine, many thrilling climaxes and sensational episodes abound, which keeps the audience in a state of continual excitement from the rise of the curtain to its final fall. Miss Williams will be seen at the Majestic Theatre next week with a matinee every day.

One of the charming musical numbers of "The Grafters," which will introduce Hap Ward, late of Ward & Vokes, as a single star in musical comedy, to be seen at the Grand next week, is "My Bungalow Babe," introduced by Lucy Daly and the big chorus of pretty girls and singing boys. It shows Miss Daly in a startling costume, made up in black face, while the chorus people are shown as natives of the jungle and dancing monkeys, and all to a most catchy melody. During the week a special matinee will be given on Good Friday.

"Othello," as presented by Mr. Shea at the Grand last evening, was a meritorious production, impressive in many respects. To-night Mr. Shea will be seen in "Napoleon."

In writing "The Fascinating Mr. Vanderveldt," the new social comedy in which Miss Ellis Jeffreys, the distinguished English actress, will be seen at the Princess Theatre for one week beginning next Monday, Alfred Sutro set himself the task of writing a problem play without a problem, and has succeeded admirably, despite the difficulties attendant upon such a task. The whole tenor of the piece is said to more nearly resemble a refreshing mental tonic than anything else, and the tone and treatment are reported to be above reproach in every way.

Sam Devere's Own Co. is this year without doubt, the most formidable he has ever presented. Andy Lewis, recognized as one of the best burlesque producers and comedians now before the public; Sam Devere, the Schrods, in a comedy acrobatic act; the Irving Trio, singers and comedians; the Newell Sisters, singers and dancers; Harry Wood, comedian; Carrie Thomas, vocalist, and John Murray, versatile performer, are in the bill, which will be seen at the Star next week.

Miss Elsie Dixon Craig, a talented pupil of Owen A. Smily, will give an elocutionary recital in Association Hall April 17, assisted by Harold Jarvis, Robert E. Crinan and others. Miss Craig is a daughter of the late Mr. Dixon Craig, M.P., who represented East Durham at Ottawa for ten years. Mr. Craig was noted for his oratorical powers, and Miss Craig, who has already won favor in Toronto as an amateur, doubtless comes by her talent as a direct inheritance.

STEAMERS BATTLE WITH ICE.

Cleveland, Ohio, April 5.—The steamers H. E. Packer and Fleetwood, and the barge Moravia arrived here today from Buffalo after a hard battle with the ice, which was found in great quantities nearly the whole length of the trip.

The captains reported that the ice fields were melting and would soon break up.

AT WASHINGTON'S TOMB.

Washington, D.C., April 5.—Earl Grey, governor-general of Canada, Lady Grey and the other members of the vice-regal party to-day visited the tomb of Washington at Mount Vernon.

MRS. HUGHES PRESIDENT.

Milwaukee, Wis., April 5.—The International Kindergarten Union in session here to-day elected officers, including Mrs. Ada M. Hughes of Toronto, Ont., president.

Goes Back to Central.

John Reilly, released from the Central on Saturday after serving six months, returned yesterday for a further term of eight months. This was the sentence imposed by Magistrate Denison yesterday on a charge of stealing two pairs of boots.

Acid Couple Die.

Harrow, April 5.—Mrs. Hilare Bondy while sitting in a chair sewing died, and two days later, her husband, who had been postmaster at Verker for 27 years, also succumbed. The latter was 76 years of age. His wife was 67.

COBALT --- ONTARIO'S BREEDING GROUND FOR MILLIONAIRES --- COBALT

WORK GOES ON AT O'BRIEN MINE EVEN IF SHIPPING IS STOPPED

Visit to One of Cobalt Camp's Most Famous Propositions, Ownership of Which is Now Disputed by Ontario Government - Equipment is of the Best Order.

Cobalt, April 5.—(Staff Special).—The prospect of a visit to a working mine in the Cobalt camp brings to the tenderfoot with lively imagination, visions of wonderful experiences, of a dangerous descent of hundreds of feet to the bottom of a seemingly never-ending shaft and into the hidden recesses and caverns of the mine, there to behold by the dim light of flickering candles the glistening silver which he has supposed is all that nature has hidden away deep down in the earth which he is about to penetrate.

Such Aladdin-like experience he does not meet with in a visit to the O'Brien Mine, but he sees much to instruct and interest him.

The O'Brien, or R. L. 403, on the map of the Township of Coleman, is one of the mining propositions that have made the camp famous.

It runs down to Cobalt Lake, close to the railway track, and it and the R. L. 403 are adjoining properties.

It is not a shipping mine for the reason that its owners are experiencing difficulties with the present government and the legality of their title to it is being disputed by the attorney-general of the province, who some months ago caused a fiat to be issued and prohibited the shipment of ore.

It is being disputed by the attorney-general of the province, who some months ago caused a fiat to be issued and prohibited the shipment of ore.

Neil King, a man working on the T. S. O. construction, discovered the first vein, and afterwards sold the location to M. J. O'Brien, railway contractor of Renfrew, and J. B. O'Brien, Toronto barrister.

The former gentleman was a member of the railway commission during the Ross regime and was at one time president in Conservative circles.

It has been stated that the change in his party affiliations might have something to do with the attitude taken by the Whitney government, but this statement is not born out by the facts, because there are at least two Whitties in the syndicate.

From whom the present government is trying to recover lands granted by their predecessors.

Should Hurry Up. The hot in the province of this week up to enter into the merits of this legal contest, but it can, in all fairness, be said that the case might be proceeded with, and a conclusion reached with respect to the law's tedious delay as possible.

R. L. 403 at any rate is at present owned by Messrs O'Brien & O'Brien, who are developing it, and have erected buildings that would be a credit to any mining camp in the world.

At the mine are power-house, shaft-house and blacksmith shop, sleeping-camp and dining hall.

The machinery in use is of the latest design. There are installed an Ingersoll-Sergeant compressed air compressor, with 18-hp. shaft-horsepower, and a 30-horsepower hoisting engine and two 50-horsepower boilers.

The shaft-house is 50 x 30 ft., and of the power-house 40 x 30 ft. The dining-hall and sleeping camp are located with hot water and lighted with electric light. These buildings have been designed with an eye single to the comfort and health of the men.

The sleeping camp is a well-constructed two-story frame building, 50 x 75 feet, with a door at either end; a hall runs from each entrance to a large room in the centre of the building.

This room is the entire width of the building and is used by the men as a reading and writing room and as a place for holding meetings.

Decorations. A similar arrangement prevails up stairs. The bedrooms range on each side of the hall, and every man has his own room, containing an iron bedstead, table and chairs and such personal knick-knacks as he cares to use as adornments.

This decorative display generally consists of a miscellaneous assortment of pipes, pipes and a long array of all kinds of footwear, and if he is sentimentally inclined, a picture of his best girl will be tacked up on the wall beside the looking-glass.

Rumors have for some time prevailed touching possible sales of the Hudson Bay and the Buffalo mine. There is no foundation as regards the latter, which is owned by a Buffalo syndicate, who are going to work it in their own interest.

The settlement of squatters' disputes in Cobalt is attended with considerable excitement and an occasional free fight ensues. In one of the war-rigging factions on a recent occasion contained some women who fought with camp ferociousness, and, thank goodness, one does not often see.

The cause of these disputes is easy to discover. The town site is so limited that going to build a house on a street has sprung up lined with buildings erected on the Earle and other mining properties.

These rows are put up a snack with a patch of land on either side. Last summer the squatter's rights were recognized by his incoming neighbors.

This spring a change has occurred and the innocent occupant has been evicted at night in undisturbed possession of his holding to awaken in the morning to the unpleasant discovery that some stranger has been engaged in laying a foundation where he has visions of watching a promising growth of potatoes during the coming summer.

In many instances these foundations have been laid to secure a color of right and something to offer to the man looking for a building lot, and generally offered at about 15 times the cost of laying the foundation.

A fruitful source of revenue is awaiting the legal fraternity, who are coming to the town in large numbers. These rows and resulting police court trials will give a boost to the mercantile business of looking after the details and complications incident to the huge mining and land deals which the leading mine owners will have to perplex themselves with.

How to amuse the transient summer visitors, who are expected to come in the camp this year with money as well as time to spend, is seriously occupying the attention of the Cobalt Land Development Co. It is said that the company are going to build a theatre, town hall and stock exchange.

Mayor Finlan and his council have serious matters in which to engage. The mayor has a drainage system to be laid out, and a supply of pure water, brought from the lake, and that a daily cleaning of the garbage will be arranged for, and a supply of pure water, brought from Spring Lake. To accomplish this and build roads to the mines will tax the council's best efforts this year.

The supply of pure water, brought from the lake, and that a daily cleaning of the garbage will be arranged for, and a supply of pure water, brought from Spring Lake. To accomplish this and build roads to the mines will tax the council's best efforts this year.

The selection of municipal officers is already under way. Alkin, the township solicitor, is the plum job upon at present as the most tempting. The favorite in the race is Wally Sadler, a young Toronto lawyer, who has made a host of friends for himself in a very short time.

It is expected a bylaw will be passed by the new council, imposing a heavy license fee on peddlers who travel from camp to camp to the detriment of local merchants.

A Shrewd Builder. How money is to be made in Cobalt will be shown by reading the experiences of a certain young Torontonian who came up here last February with his pocket and ideas in his head. He had a few dollars, but with his money, but quickly recognized that he could not buy a mine with \$400 in his pocket.

His first investment was a little at good prices, and the McKinley and Darragh mine has been sold to F. Chappin at something less than half a million dollars.

McKinley and Darragh were the original discoveries, as told some months ago in The Sunday World.

Early in its history, Wm. Anderson, manager of J. R. Booth mine, became possessed of an interest in the property, and Robert German some time ago purchased a five-ninths interest, and since he, Anderson and Darragh have been the owners, many reported sales have been made.

Some weeks ago Anderson and his partner, who were living in the east, made a sale to Mr. Chappin for \$350,000, while about the same time German, at this end, had closed a deal with local men at \$400,000. Each wired done, and their telegrams crossed.

Temporary complications ensued, but difficulties were got over and Mr. Chappin is now the owner at less than half a million.

The future of this mine will be followed with interest by the many parties who at one time and another have considered themselves the prospective owners.

The Trethewey property is another that has been much discussed. Since the story was put on the market and the public, the possibilities of other mine owners following is example have been frequently considered.

It is firmly believed that the investing public will have lots of opportunities to become interested parties in Cobalt mines this summer.

THREE TELEPHONE SYSTEMS IN TEMISKAMING DISTRICT

Up-to-Date Facilities for Communication in the New Ontario Mining Country.

Halleybury, April 5.—(Special).—Independent and government owned telephones have to be reckoned with in the Temiskaming district. Here there are at present three independent telephone systems in successful operation—the New Liskeard, Halleybury and Latchford line—the long distance line from North Bay to Liskeard, established by the T. & N. O. railway commission, and the Halleybury and Cobalt Telephone Co., Limited.

The last named company was incorporated in April, 1905, at an original capitalization of \$5000 in \$1 shares. The first issue of stock was immediately subscribed and 90 per cent. paid up. The original intention of the incorporators was only to install a local phone service, subsequently to be extended to Cobalt, but the company quickly realized that the business requirements of their subscribers necessitated telephone connections with all the working mines and with New Liskeard.

The pioneer telephone line of this district was known as the "Jay" line, built in 1904, and the Halleybury Co. bought this system, giving them four miles of wire, and the telephone franchise was got from the Township of Bucke, and with only six men working on the line, although the company only got its franchise in April, connection with Cobalt was established by the middle of May.

They now have between 20 and 30 miles of wire with temporary station phones and switchboards at Cobalt, Groulx Lake and Halleybury. The system is up-to-date in every respect with automatic switchboards, phones and switchboards were manufactured by Messrs. McLaren & Bates of Montreal. The system is metallic, and no party lines, and every effort is made to make it as private as possible. The company began doing business with a 25 drop board, but had to take it out and substitute one with a capacity of 100 drops.

In July, 1904, they decided on a central and the establishment of local phones and had the local service in running order by October. In Halleybury alone there are already 44 subscribers, and 25 more waiting for the privilege of having phones put in.

Every business man has one, and two phones in his store or office, and many of the mines have phones of each line. Subscribers to the Halleybury and Cobalt line pay \$25 per year for business phones and \$12 for private phones. The subscription of \$25 for the business or commercial phone entitles the subscriber to talk for the entire length of the line and puts him into immediate and continual touch with all the working mines. Some of the more distant mines pay \$50 per year. The expenditure up to date has been about \$7000, the company having in February of the present year received permission to increase its capitalization to \$50,000.

Handsome profits for the first nine months enabled the Halleybury Telephone Co. to declare and pay a first dividend of 20 per cent. per annum on the paid up capital stock.

A large expenditure is now contemplated by the company, and an improved and extended service promised. An extra line between Cobalt and Halleybury and extension into some of the more distant and more remote established working mines are some of the features that will receive immediate attention, and a second block of stock of 5000 shares will be issued. The officers of the company are: J. W. Kingswell, M. G. Hunt, directors; Harry Walsh, Halleybury, secretary-treasurer.

**Building Operations.** Great building activity prevails in Halleybury, and the class of buildings going up is indicative of the prosperity that prevails in the town. The normal population is something over 1000, but the transient population that must be accommodated this summer will tax the efforts of all classes of citizens. There are two hotels now running, and costs already line the halls. James Taylor's famous restaurant will tax the efforts of all classes of citizens. There are two hotels now running, and costs already line the halls. James Taylor's famous restaurant will tax the efforts of all classes of citizens.

**Real Estate Values.** Real estate values have rapidly increased, but nothing abnormal. The people of the town, with large land holdings, are determined that there will be no great boom to be followed by days of depression. In the business section a remarkable increase in value is to be found, but in the residential sections lots are cheap. Two lots which the Maple Leaf Hotel stands cost \$2500. Last fall these lots were bought for \$750.

The two principal streets are known as Main and Ferguson, and at the corner of these streets a fine corner store is being built by E. and S. Atkinson, which will outclass anything in the town. The interior is entirely of Georgia pine, and an elevator, that takes customers from the lower to the upper storeys of this great departmental store. On the opposite corner a large hardware store is being erected, and all over the town substantial business houses are being put up.

Rents are not extortionate, but a vacant house cannot be found. Outside capitalists are sending representatives to make investments. Everything, both by land and sea, is to be syndicated if the promoters are to be believed. An electric railway from Halleybury to Cobalt and Latchford is one of the many proposed projects.

At present the government railway affords the only entrance to the country during the winter months, but in

"HOME OF THE HAT BEAUTIFUL."

THE Easter Millinery Question.....

From every quarter of the City and Province ladies "who know" are flocking to this millinery centre to secure the EASTER HAT. Sales this season are the greatest on our records. Every wheel in the machinery of our millinery organization is on the whirl. You will be doing yourself a grave injustice if for any reason you fail to at least walk through our Main Floor Showrooms and examine the hundreds on hundreds of beautiful hats now on sale. Come in the forenoon, try on, examine the workmanship, ask the prices, then, if you so desire, look through other millinery departments. You'll do as most others, come back and buy here. Welcome.

Is the Talk of the Town! Club Coffee

Ground Fresh By Your Grocer Never Sold in Bulk

the summer the boats of the Temiskaming Navigation Co. run from the end of the Kippawa branch of the C.P.R. to Halleybury and Liskeard. This C.P.R. branch runs from Mattawa to Lumsden's Mills, in the Province of Quebec, but at the last session of the Quebec legislature a grant was made to the Interprovincial and James Bay Railway of 4000 acres per mile for 50 miles, from Gordon Creek to Ville Marie. The completion of this branch to Ville Marie means that the C.P.R. will be within sixteen miles of Halleybury, and there is little doubt felt here that the C.P.R. will be an early competitor with the T. & N. O. for the trade of the Temiskaming district.

A FIGHT FOR A CLAIM. Prospectors Versus "Pull" to Acquire Rich Property.

Cobalt, April 5.—(Special).—The telegrams received here, that the government had definitely announced it will retain and operate the mineral wealth of the Gillie limit met with general approval, but, of course, some find fault. What the government is going to do with snowshoe stakers is a livelier subject of discussion. All winter land has been staked when it was almost impossible to make discoveries. At Latchford, on the opposite side of the Montreal River, there lies a small tract of land, rich in mineral wealth, which adjoins the Gillie limit, and was supposed to belong to it. It was unsurveyed, but a prospecting party discovered it was outside the limit, made a discovery and staked it out. On filing their application they find a prior application filed and a stiff fight will be put up. The prospectors urge that the other applicants are relying on a political "pull" which has been officially declared to be dead.

A Mining Sale.

W. G. Webb, after whom the mining town of Webwood on the Soo branch of the C.P.R. was named, has made a sale to J. W. Evans, mining engineer, of the claim known as S.E. 1-5 of S. 1-2 lot 3, Coleman. Webb came to the camp last August and when in the woods about a month ago he discovered and staked out a claim. He then took out a license in his wife's name, so that he could stake out another claim. He believes this last is a good prospect, as at a depth of less than 15 feet the vein widens to 9 inches, assaying 60 oz. silver to the ton. His discovery at Webwood turned out to be one of the few paying mining ventures in that district. The property is known as the Shakespeare, and

BEER MAY NOT BE CONSUMED IN BREWERY OR WAREHOUSE

Section of Old Act Forbids the Practice of Supplying Employees With Drink.

In connection with the strike of the employees of the Fort Hope Brewing Co., because the company had cut off their supply of beer, it is pointed out by government officials that the law distinctly forbids the consumption of beer on the premises of a brewery. Some time ago the Halliday's of Guelph were fined for giving their employees beer, this being the first time that the law had been invoked.

Magistrate Saunders of Guelph convicted Halliday under section 2 of the old act, which is section 53 of the present act. This section reads: "No person having a license to sell or give away for consumption any liquor sold by him or in his possession for sale, or for the sale or disposal of which such license is required, shall be deemed to be consuming such liquor within his warehouse or shop, or within any building which forms part of or is appurtenant to, or which communicates by any passage with any warehouse, shop or other premises wherein any article to be sold or disposed of under such license is sold by retail, or wherein there are kept any such broken packages of such articles.—R.S.O., 1897, c. 245, s. 53.

An appeal was taken to the county judge, who set the conviction aside, and the crown carried the case to the court of appeal, which restored the judgment. A written judgment was given by Chancellor Boyd, which reads: "The government has shown that Justice Oser, Hagarty and Maclean concurred. This is found in 21 Ontario, appeal reports, page 42.

ELUDED THE CONSTABLE.

Albert Stricker Plays an Old Game on Elmira Policeman.

Berlin, April 5.—(Special).—Albert Stricker, a young man of Elmira, was arrested to-day on a charge of seduction, and remanded for trial. He was brought to Berlin by Constable Bowman, who took him to the Market Hotel while the prisoner's father was looking for bondsmen. While waiting, Stricker duped the constable by asking leave to go into another room, and on being liberated passed thru an outside door and didn't return. Bowman waited for some time before he saw on him that Stricker had skipped.

"ABSOLUTELY UNTRUE."

Story That Govt. Will Build Railway From Sudbury to Cobalt.

"Absolutely untrue," is the denial given by Hon. Frank Cochrane, Hon. Dr. Rouame and Hon. J. S. Hendrie, to the story that the Ontario government would construct a railway from Sudbury to Cobalt. The matter has never been discussed in council.

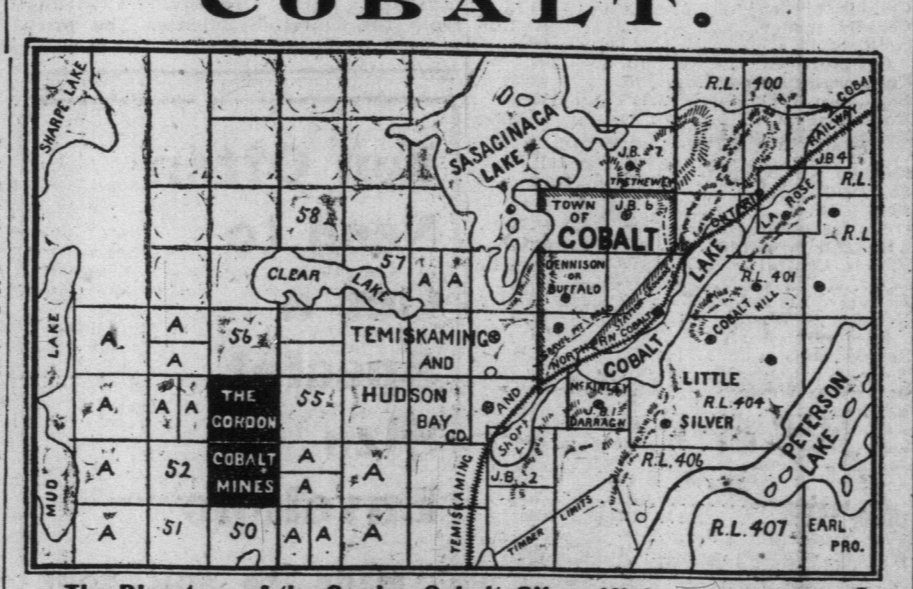

ONTARIO COBALT DEVELOPING COMPANY, LIMITED.

This company are offering a limited number of shares for sale at 50 cents, fully paid and non-assessable, per share \$1.00. The company owns and controls 231 acres in this rich district. The properties are being worked by most of the best men working on it at the present time.

Now is the time to buy, before the price advances.

**The Directors of the Gordon Cobalt Silver Mining Co., Limited.**  
are offering to the public for the purpose of development of the Company's properties, a limited number of shares of the Treasury Stock at \$1.00 per share, payable at time of subscription.  
THE GORDON COBALT MINE consists of 80 acres in the heart of the COBALT MINING DISTRICT, and ONE MILE FROM THE TOWN OF COBALT, and in the famous Coleman Township. Our title has been granted by the present government. The property has been opened and a hole of four feet in depth made, and the assay shows from 30 to 200 ounces of silver to the ton. The assay may be seen at the company's office.  
THE CAPITAL OF THE COMPANY IS ONLY \$200,000. The company has no bonded debts and no preferred stock. The owner of the mine accepted stock in full payment for his properties.  
Experts consider the GORDON COBALT PROPERTIES one of the best prospects in the district, and many have invested in the Company's shares. The property is within 40 chains of the famous Hudson Bay Mines and properties.  
The company now have a gang of men at work at the mine. This stock will shortly be withdrawn from the market. Remember this is the last opportunity of purchasing this stock at par. Note the position of our property.—The Hudson Bay was selling at \$1 per share last year; to-day it is worth \$80.00 per share. Buy while you can and watch your fortune grow. Note our small capitalization and that we have an 80 acre claim lying within the rich belt. For prospectus and applications for stock address

Williams, Buffalo, are at the Walker. Mr. and Mrs. C. J. Miller, Orillia, are at the Walker. Mr. and Mrs. Edmond Paquet, Quebec, are at the Rosin.

The Manhattan Nevada Gold Mines Co.

owns some of the largest, richest and most valuable mining properties and leases in this marvelous mining district. They are splendidly located in the midst of the best mines and leases. They are traversed by great gold-bearing veins. Assays of the ore show values running high into the thousands. Development work is in progress—shipments of rich ore now being made. Arrangements are being completed for the erection of a large mill. The Company plans to develop these properties into

Big Dividend Paying Mines

In Manhattan the showing and possibilities are greater than in any of the other camps. Manhattan Consolidated stock has advanced in 30 days from 20 cents to \$1.25; the Manhattan Dexter, owning the Union No. 9 claim, has advanced from 25 to 60 cents in less time; Manhattan Stray Dog cannot be had at any price. The Manhattan Nevada Gold Mines property has just as advantageous a location as any of the properties named. This stock can now be bought for 12 1-2 cents per share. It is producing ore and the price should advance rapidly. Manhattan Nevada Gold Mines stock is absolutely certain to advance in price. The company owns some of the most valuable properties and leases in the entire Manhattan district. In a very few days ore will be brought at the local mills now being rushed forward to completion. The stories told of gold values developed in Manhattan mines appear almost incredible. On one lease of the April Fool claim ore found in streaks gives assays as high as \$40,000 to the ton and sacking is going on night and day.

\$20,000 Ore Being Sacked.

"The Broncho lease, which was located in April last, is traversed for its entire length, 1500 feet, by one of the strongest and best defined veins in Manhattan, which also continues through the Mustang. In January a lease was granted to Bert Kopenhaver, who at a depth of six feet opened up a pay chute running from \$700 to \$20,000 per ton. There are now four leases on the property, on three of which shipping ore is being sacked. The company will at once commence work on the property, and there is no doubt it will soon rank as one of the biggest producers of this district."—Tonahap Miner, Feb. 17th.  
The Manhattan Nevada Mines owns an important interest in both these fine properties.

A MILLION DOLLAR DEAL

Mr. Humphrey's Purchase of Silver Group Attracts Attention of Mining Men  
The San Francisco Call, under date of March 3, prints the following dispatch from Goldfield, concerning a recent heavy deal in the new Manhattan district:

Every Pound of Geography Group Ore Has Value  
"The promoters of the Manhattan Nevada Gold Mines Co., which own the group of claims at Central in the west end of the Manhattan district, have gone to San Francisco, and from there will go to New York in the interests of this promotion," says The Tonahap Miner. "Since A. L. Wisner, one of the foremost miners and brokers in the United States, will handle this flotation, its success is assured. S. K. Bradford, a prominent mining man of Manhattan, stated last night that the big ledge on the Geography property is 3 ft. wide and all solid quartz! And not a pound of it that will not pan," was his expression.  
The Manhattan Nevada Mines Co., in addition to owning the Geography group of mines, owns also the Eldorado group of three claims adjoining the Black Mammoth property and an interest on Lease No. 1 on the Broncho and Lease No. 1 on the Mustang, together with Lease No. 8 on the April Fool claim of the Seyler-Humphrey Mining Company.  
At Tonahap, where to-day \$200,000 worth of ore is blocked out, shares that are now worth from \$3 to \$20 each, sold three, four or five years ago for 25 or 50 cents. Why not profit by this record and purchase Manhattan Nevada Gold Mines stock while it is low?  
Price advances to 15 cents April 20th.

YORK COUNTY AND SUBURBS

Toronto Junction, April 5.—The council met in special session this afternoon. The fire limit bylaw was discussed. It is proposed to place High Park-avenue, all of Dundas-street, and 100 yards on each side, as far as Low-street, in class A. All of Ward 3, the central portion of the town and Davenport-road with 100 feet on other side; all of the outskirts of the town, with the exception of Evelyn-crescent and that portion of the town in the vicinity of Conduit-street, in Class C. This latter class permits of the erection of frame dwellings a certain distance from the road, but the owners will have to keep them looking neat. The council will go before the railway commission on the 17th, to place before it the difficulty in having so many sidings on the north side of the town.

The death occurred last night of Mrs. J. Butchart of Mulock-avenue, from heart failure. The Brotherhood of St. Paul gave a unique entertainment in the Ashtree-street Methodist Church to-night. The program consisted of original songs with a local adaptation. The Waverley Club dance will be held Friday evening, April 20, not on Good Friday night.

William Scott has gone to Cobalt. The management committee meeting of the public school board will be held on Saturday night, and the board will meet on Tuesday. The death occurred this morning at 117, Low-street, of Miss Mary Bennett, in her first year.

Muriel Boyd, aged 3 years, 6 months, died yesterday and was buried to-day. J. McCure of Pacific-avenue had \$23 stolen out of his pocket riding up on the street car from Toronto.

EMPIRE HOTEL. 336 Yonge-street, most modern and up-to-date hotel in Toronto. Rates \$1.50 to \$2.00 per day. J. Newton, proprietor. Phone Main 2255.

North Toronto. Mrs. W. Waltho, Casterfield-avenue, went to the General Hospital yesterday. Wm. Atcheson, real estate agent, of Bedford Park is moving to Deer Park, and J. Dowson is moving into his cottage.

Mr. Furlong of Toronto, who recently bought the Dewdney property on Eglington-avenue east, is taking possession to-day.

The arc lamps which the municipality purchased, which were shipped from Peterboro on March 31, seem to have strayed. No findings of them have been received at the town hall.

There was no quorum for the school board meeting last night. Wm. Mahitt, superintendent of the St. Germain farm for a number of years, has decided to start farming on his own account.

The Bedford Park Floral Co., who recently bought four acres of land, part of the S. B. Lawrence farm, and the house of Mr. Forest, have started building large greenhouses.

Robert Cook, Jr., and Richard Doughty, who rented the John Burke's farm, second concession East York, are putting the large orchard in ship-shape to-day.

York Chapter, No. 62, G.R.C., met last night when Ppat Grand Superintendent R. J. Gibson was presented with the regalia of his office by the grand superintendent.

County Constable Steward delivered invitations to-day to Messrs. H. G. Stone, Merton-street, and John G. Kleeburger, Beresford-avenue, to spend an hour or so with His Worship Peter Ehler, to give their reasons for riding bicycles on the sidewalks in Deer Park. Chief Walmesley intends also to enforce the town's bylaw regarding bicycle riding on the sidewalks.

York Township Council intends fighting the bill before the legislature concerning the representation of municipalities at the county council. The township officials claim that York Township, according to the population which is 4400, is entitled to have a greater representation than will be given by the act.

Newmarket. W. C. Brodie, a life-long resident of this place, has received notice of his appointment as assistant packer in the Toronto Custom House, and will remove, with his family, to the city.

East Toronto. East Toronto, April 6.—H. C. Nasmith, chairman finance committee, reports the sale of the school debentures, amounting to \$35,500, for 30 years, at five per cent, to the Canadian Securities Co., for \$35,152. The price obtained is regarded as most satisfactory.

At the Easter vestry meeting of the Anglicans of Balmly Beach, the question of forming a new rectory with a regular rectory, will be considered. At present the mission is in charge of Canon Dixon.

The regular Lenten service was conducted tonight by Rev. Dr. Osborne, and will be continued until next Thursday evening.

The Beach Presbyterians will hold service in the Balmly Beach Club house on Sunday morning and evening, pending the removal of the present church building.

The athletic section of the B.E. Club will hold a dance in the assembly hall on April 20.

The roads and bridges committee will meet to-morrow night. J. Clamshaw, while working on one of the buildings of the Toronto exhibition grounds to-day, fell from a scaffold and broke a leg.

Lloydtown. The death took place Tuesday morning at Galloway, Virginia, the residence of her daughter, of Mrs. Arthur Armstrong, of Glinock, Lloydtown. Deceased was the eldest daughter of the late Richard Lippincott Denison, of Lovocourt, on Dundas-street, and had been married to her first husband, the late Hugh C. Thompson, secretary to the board of agriculture, who died in 1877. Four years later she married for the second time, Arthur Armstrong, of Glinock, Lloydtown, who was left two daughters, Mrs. Guernant, of Virginia, and Mrs. Herbert Murchison, of Toronto.

Open Next Week. Port-Arthur, April 5.—(Special.)—Navigation will be open here early next week. A contract has been signed by the government for the opening of the harbor, and the icebreaker Whalen will commence next week to open up the bay to steamers.

Dineen's Hats More Style FOR THE Same Price

We are the importers of stylish makes of English and American Hats. While we import some Hats, such as Henry Heath's and Dunlap's London and New York styles, the average of our stock does not cost more than the attractive prices

\$2 \$2.50 \$3

There is more style in Men's Hats this Easter than former seasons have produced.

DINEEN'S Cor. Yonge & Temperance Sts.

THANKS TO GOLDWIN SMITH

Members of University Commission Express Appreciation. The members of the university commission have concluded their labors and the report is now in possession of the government. Prior to dissolution it was moved by Sir William Meredith and seconded by B. E. Walker, that: The commissioners, having concluded their labors, desire before separating, to record an expression of their sense of deep obligation to Mr. Goldwin Smith, one of their number, for his courtesy and kindness in putting the Grange at their service as the meeting place of the commission. It is in their opinion fitting that this official record should be made, because it is not intended merely as a personal acknowledgement of the hospitality and courtesy shown to his fellow-members by Mr. Smith, but also as a recognition of the public service that has been rendered by making it possible for the commission to conduct its enquiry and deliberations with the privacy that was essential to the work upon which it was engaged.

PROVINCE OWNS POWER.

Claim of George T. Marks Will Have to be Considered. The Ontario government is a claimant for the valuable power site on the Current River, claimed by George T. Marks and the Town of Port Arthur. A bill to incorporate the Current River Power Co. was before the private bills committee yesterday, when Hon. Adam Beck made the claim on behalf of the government. The property is included in the report of the Hydro-Electric Power Commission of Ontario. Mr. Marks claimed that he bought the rights in 1885. Owing to the government's claim, consideration of the bill was laid over. The Kakabeka Falls dispute was also before the committee. It will be further discussed to-day.

THE unquestionable style and grace of the new Topper Coat makes it very popular with the well dressed man. We have the proper cloths that fashion has sanctioned for these coats—to your order

\$25.00

Scott's Tailors and Haberdashers, 77 King Street West.

J. W. T. Fairweather and Co. THE HOUSE OF QUALITY (Registered)

TERRORIZED PERSIANS.

Awed by Eagles on Tombs and Waxworks. All Abdulla, Ben Hosain and Me Met, the three Persian merchant princes who have been visiting London, have shown much fright during their sight-seeing. St. Paul's Cathedral filled them with dread. Having never before beheld edifices on tombs, they fell into trembling fits when they saw the presentation in stone of the Duke of Wellington. In fact, they confided to the interpreter their fear that the mighty building in which they were merely a place in which the distinguished people of Great Britain were assassinated, and afterwards exposed to the public gaze in a company of suits.

The real purpose of the building being explained to them, they next fell into a panic lest efforts should be made to convert them to Christianity. There was at first some slight dispute with the authorities, because the Persians in their fancy costumes did not resemble their turbans. But they satisfactorily explained that to doff them would be a mark of respect.

Among Waxworks. From St. Paul's they were taken to Tussaud's, a place which filled them with infinite dread. They regarded it as the most terrible example of the bloodthirsty instincts of the British race. It was impossible to convince them that the wax figures were not corpses in a petrified state. Nor was it possible to convince them that some of them were not alive. They looked with awe on the Sleeping Beauty, the All Abdulla had sufficient temerity to feel her pulse. He was astounded that he could not feel it, because he could see her corse rising and falling as she breathed. He even stooped over the Sleeping Beauty's face that he might feel her breath. He asked how many years she had been compelled to sleep there in a narcotic state. The Persians' own theories as to the wax works were upset when they were shown the presentation of the Shah of Persia. They knew their shah to be alive and in Persia. It was beyond them that he could also be in London. That the figure was merely wax they were disinclined to believe. They bowed before it again and again, crying, "Salama!"
