MACKENZIE AND MANN'S LONE HAND IN WONDERFUL DEVELOPMENT OF TEN YEARS NECESSARY A TRIBUTE TO SUCCESS

BLAST FURNACES, CAR SHOPS ARE TO BE TORONTO'S SHARE

The whole art of railway creation was explicated last night to an admiring audience of 300 of the commercial magnates of Toronto. It was done at the board of trade banquet to the two princes of Canadian progress and prosperity, as J. B. Secor termed them in his letter of regret—William Mackenzie and Dan Mann, the authors and finishers of the Canadian Northern Railway System. To this brace of Ajaxes should be added the two of the event, Zebulon A. Laab, K. C. It is an open secret that behind the executive and motive forces of the railway builders, stand the constructive and constitutive capacity of the keen-minded lawyer. To hear his story of how the road was placed together, with policy here and enterprise there; with strategic caution in one place, and dashy decision in another, while the control was preserved where it could be most promptly exercised, was to listen to a fascinating chapter of commercial romance.

As Mr. Mann said, speaking in a little different from remarking, but oratory was not expected, and his plain talk furnished went solidly and happily home to its hearers' hearts, and there was abundant applause. What was more, it was meted with a cordiality and fraternal feeling which drew a remark from the chairman, Peleg Howland, that the development of the Hutton iron mines meant the construction of blast furnaces, rolling mills and steel plant here, which would benefit the city.

C. P. R. REACHES HIGHEST POINT—201.

A spectacular feature of the New York stock market yesterday was a further sharp rise in C. P. R. stock. The bull movement in the shares started in about a week ago, when the stock was around 180. Yesterday the price rose to 201, the highest price ever reached for the shares. Local speculators are at a loss to account for the advance in the stock, and attribute it largely to the presence of a short interest. It has been recognized for a long time that C. P. R. stock is now very much in the position of several of the New York market specialties, viz., that prominent financiers with a bank at their back are in complete control of the stock. The name of a prominent Canadian bank is thus associated with C. P. R., as that of the First National Bank at New York is connected up with Reading.

WESTERN MEMBERS PROTEST AGAINST TARIFF INCREASES

Liberals of Manitoba, Saskatchewan and Alberta Accept Fielding Schedules as Fair Compromise.

Ottawa, Dec. 14.—(Special.)—The Liberal members from Manitoba, Saskatchewan and Alberta accepted the minister of finance yesterday afternoon and registered their protest against any increases in the Canadian tariff, as asked for by the manufacturers. Since the new tariff was introduced, the manufacturers have been making demands upon the government for increases amounting in some cases to as high as 40 per cent. The western members told Mr. Fielding that while they would have liked to have seen a still lower tariff in the interests of the farmers, they accepted the schedule as presented to parliament as a fair compromise.

SALARY GRAB BEATEN BY U.S. LEGISLATORS

Effort to Boost Own Salaries Defeated by 188 to 100.

Washington, Dec. 14.—By a vote of 106 to 188, the house of representatives today refused to increase from \$5000 to \$7500 the salaries of senators, representatives and territorial delegates. By an overwhelming vote it increased the salaries of the vice-president, the Speaker of the house and cabinet members to \$12,000 each.

VANZANT ENQUIRY TO-DAY.

Charges Against Jail Governor to Be Aired Before Commission.

This morning at 11 o'clock Mayor Judd of London, as provincial commissioner, will commence an investigation of the charges preferred against Jail Governor Vanzant. The charges allege personal misbehavior. The enquiry will be held at the York county municipal buildings on Adelaide-street. James Baird will act as counsel for the government, and T. M. Higgins will appear for the defence.

THEY KNOW HE KNOWS.

A Special Reason Why G. W. Muller Gets the Best Attention of the Manufacturer.

Senior Brock's letter to G. W. Muller of Toronto emphasizes the fact that cigar smokers can buy best of the dealer who buys largest, and that it is important to know how much better one can buy from the man who, both in Canada and Havana, is considered an authority on cigars. Mr. Muller has made a lifelong study of the cigar business. He is always in earnest. He knows the least each manufacturer is using; knows what district in Cuba that leaf comes from and can follow from his own personal experience every detail from the tobacco fields to the retail store. The manufacturers, knowing that he knows, give his orders special care; they know his trade is important and they know, too, that he would quickly detect poor workmanship or inferior flavor.

STENOGRAPHER CAUGHT HIM.

Albert Bennett, 40 Farley-avenue, is only 12 years old, but he evidently knows a few things. Yesterday afternoon he went into 18 Toronto-street. While the lady stenographer's back was turned he made for the cash drawer. She caught him in the act and took \$7 from him and turned him over to the police. He was taken to the shelter.

Crew of Golspie Suffer Awful Hardship in Woods

Five Were Three Days and Nights Exposed to Cold and Each Had Both Feet Frozen, and One Man Both Hands as Well.

Sault Ste. Marie, Dec. 14.—(Special.)—A terrible story of the suffering and privations which befell lake mariners was only known here to-day by the arrival of five members of the crew of the steamer Golspie, which was wrecked off Michipicoten Dec. 4. The vessel was so badly damaged that the crew, 17 in number, had to abandon her and take to the two life-boats to save their lives. One was in charge of Capt. Bault and the other of First Mate McLeod. They set out for Michipicoten Harbor, but after having covered part of the distance several of the men in the mate's boat became exhausted by the intense cold. It being below zero and wind howling, the result was the boat had to be run ashore.

MEXICAN GOVERNMENT ACQUIRES TWO RAILWAYS

Mexican Central and National Railroads Now Merged.

New York, Dec. 14.—An official statement was issued here to-day, that the negotiations with the Mexican government, relative to the consolidation of the Mexican Central Railroad and the National Railroad of Mexico, and the acquisition by the government of control of the consolidated company, have been closed, and will, it is expected, be ratified by the Mexican congress. The Mexican Central Securities Company, Limited, of London, owns a large majority of the outstanding consolidated bonds of the Mexican Central.

WEST IN GRIP OF BLIZZARD

Winter Unusually Severe

St. Paul, Minn., Dec. 14.—The worst snowstorm in years is reported by western railroads. Trains in Western North Dakota are snow-bound and in some cases lost track of it. It is even reported that some of the Great Northern trains cannot be located. The snow in many cases is piled 20 feet high and traffic is at a standstill. The only contact with the west and north over the Northern Pacific, Great Northern and St. Paul lines in the last 24 hours have been from 24 to 48 hours late, and many trains are two days' overdue.

BRACKENMAN INJURED.

Last night Joseph Little, 116 Farley-avenue, brakeman on the G. T. W., while switching cars at the foot of Spadina-avenue, slipped and broke three ribs and sustained a severe scalp wound. He was riding on the engine, jumped off, and attempted to board the van when he fell. He was taken to St. Michael's.

COMBINE CASE POSTPONED.

Winnipeg, Dec. 14.—(Special.)—The grain combine case, which came up in the police court this afternoon, was again postponed until Monday, as defendants claimed that information was not sufficiently clear and the magistrate upheld the objection.

CHRISTMAS HOLIDAYS.

Ottawa, Dec. 14.—(Special.)—The house, on motion of Sir Wilfrid Laurier, resolved to-day to have the Christmas recess extend from Dec. 20 to Jan. 9, instead of to Jan. 8, as first intended.

ACCEPTS WINNIPEG VOTE AS COMMAND TO PROCEED WITH PEOPLE'S PHONES

Premier Roblin Announces That Construction Will Begin in Spring and That the Rates Will Cut Those of the Bell Company in Two.

Winnipeg, Dec. 14.—(Special.)—Hon. R. B. Roblin to-night announced that the government will proceed with the construction of public-owned telephones as soon as the frost is out of the ground, as a result of the overwhelming vote of Winnipeg in favor of the government's policy.

"The government," he said, "accepts the vote as a command to proceed at once with the construction of long-distance lines and give the people the advantage of a service. The cabinet has instructed the public works department to at once call for tenders for poles, wire, insulators, etc., so that as soon as the frost is out of the ground we can get to actual construction."

"We expect to construct 1000 miles, possibly more, next year. IN MATTERS WHICH WILL MOVE THE CITY THE BELL IS TWO. They charge now 7 1/2 mills per mile. We shall charge 3 1/2 mills for a three minute service, and feel certain we can give a service of three minutes for 100 miles for 25 cents."

Mr. Roblin said that he expected as soon as a vote was allowed to be taken on Dec. 15, when the rural municipalities will vote as in Winnipeg.

STR. EMPRESS OF BRITAIN BREAKS PASSENGER RECORD

Sails From St. John, N.B., With 1285 on Her List.

St. John, N.B., Dec. 14.—(Special.)—The C.P.R. steamer Empress of Britain, sailing from this port at 10 o'clock to-night with 1285 passengers, broke all records in eastbound passenger traffic. Never before in the history of North Atlantic traffic have so many people taken passage on one steamer.

During the past few days passengers have been arriving in small parties and putting up at various hotels. They were not allowed to board the steamer until this morning. Late this afternoon four trains from the west arrived with a thousand people including Chinamen.

The Empress of Britain hopes to make the run to Halifax in about 16 hours, but it is doubtful now as it should be obtained there for mails over the I.C.R.

HAMILTON HAPPENINGS
GREEK LAUNDRYMAN GUILTY OF ASSAULTING SOLDIER

Defence That Troops Exceeded Duty in Invading Store—Call to Rev. Dr. Tovell.

Hamilton, Dec. 14.—(Special.)—John Seaman, a Greek, who runs a candy store on East King-street, was this afternoon found guilty on a charge of assaulting one of the soldiers who was engaged on Saturday, Nov. 24, in quelling the street car riot. Benjamin J. Kerr, who was charged with him, was acquitted.

On the night of the riot the soldiers made a raid on the prisoner's store. It was shown that Seaman had snatched a rifle out of the hands of one of the soldiers. In defence, he said he thought the soldiers were going to charge those in the store with their bayonets. Kerr was standing by, but had nothing to do with the assault, and he was discharged.

George S. Kerr and John Farmer, who appeared for the accused, set up the contention that the soldiers were instructed only to clear doorways, and had exceeded their duty when they invaded the store. Seaman was remanded for sentence. There are sixteen cases arising out of the riot to be tried, and these found guilty will be sentenced together at the session of the court.

Call to Rev. Dr. Tovell. This evening the official board of Wesley Church agreed to extend a call to Rev. Dr. Tovell, Toronto, to be their pastor. It is expected Dr. Tovell will assume the pastorate at the beginning of the next conference year. He has been the pastor of both the Gore-street and First Methodist churches in Hamilton.

Funeral of John Tenbyke.

Not a Candidate.
Ald. Gilbert has told his colleagues that he will not be an aldermanic candidate this year.

Thomas O'Neill, 578 North Catharine-street, clerk at the Cannon-street weigh scales, died at noon today in St. Joseph's Hospital.

Police Magistrate Jelis has recommended the deportation of Dorothy Walker, alias Jennie Caldwell, who is doing a term for stealing money from the matron of the Y.W.C.A. She was sent from Ontario to Toronto in 1905 by the Discharged Prisoners Aid Society.

The directors of the Y.M.C.A. are talking of erecting a new building, turning the present building over to the boys' department.

Burned in a Hole.
Yesterday afternoon Robert Campbell entered a manhole at the corner of Duke-street and Woodbine-street and struck a match to light his pipe. An explosion followed, and Campbell was badly burned about the face and hands. It is supposed that gas leaked into the sewer.

Xmas Slippers.
John Lennox & Co. carry the largest stock of Xmas Slippers in Canada. Orders promptly shipped. Write them for samples.

This morning James Wilson was charged in the police court with threatening Mattie Callon. Last Saturday Miss Callon wrote a letter to the defendant so full of endearing terms that the magistrate turned sick before he finished reading it, and on Sunday gave him the mitten. "Just as good fish in the sea as ever came out of it," his worship remarked to Wilson, as he dismissed the charge.

Student Death.
James E. Bell, San Francisco, who was returning from a trip to Germany died suddenly from paralysis this evening at Rev. Canon Forrester's residence. He was about 30 years of age and unmarried.

Milk Up in Price.
The retail price of milk will be boosted Monday from 6 to 7 cents a quart. This is the result of the action of the Wholesale Milk Dealers' Association who are supplying Hamilton. They have been selling to the retailers at 12c a gallon in the summer and 14 cents in the winter. Now they have insisted upon getting 12c the year around on account of the cost of feed and the scarcity of labor. In fact they have gone to the extent of signing an agreement to shut off the supply completely unless their demands are complied with.

Trained Nurse Dies.
Miss Laura Jaquith, Kingston, a trained nurse, died suddenly this afternoon in the city hospital. She had been suffering from typhoid fever, but was progressing nicely. This afternoon while being given a bath she rolled out of the nurse's arms and died. She died at 34 Northwest-avenue.

JAMESON COMMENCEMENT
Most Successful of the Annual Functions to Date.

The annual commencement exercises of Jameson Collegiate, held in the assembly hall last night, were among the most successful in its history. Principal G. A. Smith presided.

In congratulatory vein, as befitting the occasion, were the addresses given by Former-Principal Embree, Prof. Carruthers of Toronto University, Chairman Shaw and Trustees Kent, Leves and Davis of the board of education, who presented the diplomas and prizes to the successful students.

The diploma awards were made and prizes presented as follows:
The Helen MacMath Prize, to Fred Phillips; the Ryckman-Sykes Prize, to Gertrude Wright; the E. C. I. Prize, to Fred Phillips; the Carruthers Prize, to Arthur Fry; the L. E. Embree Prize, to Gertrude Wright.

Board of education scholarships went to Frank Asbury, Gertrude Wright, Eva Laws, Maclean Kirkwood, Clive Carruthers, Lunda MacBeth, Marjorie Hughes, John B. Allen, Dora Bonny, Zeta Collins, Edith Carruthers, Gladys Present, Mabel Thompson, David Breslove, Harry Bell.

The presentation of prizes won by athletic prowess was a popular feature, awards being made to the members of victorious track, lacrosse, Rugby and cross-country run teams.

The Crawford Shield, donated by the boys of 1906, for annual competition, was presented by Leo McLaughlin. A valdictory address was given by Arthur Fry and Frederic Phillips, and Miss Jessie Swarnson conducted the presentation of a graduates' memorial. An essay was read by Irene Bell, and an excellent musical program was rendered by Miss Jean Lang and the choral class.

UNION APPEALED TO BUREAU TO ARBITRATE THE DISPUTE

But the MacLarens Refused, Preferring to Cease Business Rather Than Yield Point.

Ottawa, Dec. 14.—(Special.)—Hon. Mr. Lemieux, minister of labor, tabled today the return moved for by Mr. Bourassa, containing "copies of all papers and correspondence in connection with the Buckingham strike and riots." The record opens with a letter from the union employees of the MacLarens mills at Buckingham, asking the intervention of the laboring men in the attorney for the union says:

"Would it be agreeable to you, gentlemen, to take the matter into consideration and bring about a settlement of the affairs that means that you will think proper? Should you decide to have an inquiry made, the laboring men will be very pleased to give all the information concerning their grievances."

The company, in their reply, refused departmental intervention, and stated that "after" they had considered them, the company has decided that "it will not deal with the branch of the international labor union here even should our refusal so to compel us to carry on carrying on the business of lumber and pulp manufacturers on the L'Espresso River."

On the same date the company wrote a supplementary letter, in the course of which the president explained that "it is not our desire to recognize the union, and on account of extreme low water and other considerations we had contemplated closing down the plant for the winter (one sawmill had already been closed down and the men paid off before the men got to work) the plant is thought in view that, if necessary, present itself to reopen a portion of the plant, we could get sufficient men here who are anxious to work to do this. We may say, however, that we will not under any circumstances reopen the whole operations this season."

WOULDN'T HELP THE LADY.
Prominent Citizens Refuse to Go on Bail Bond for \$500.

Mrs. Kate Hyde Pearson returned from Montreal last night, escorted by Detective Macfie. She was taken to No. 1 police station, much to her disgust. There was a charge of fraud against her on the night Mrs. Pearson sent word to several very prominent citizens to furnish bail for her. Mr. Corley had agreed to accept one \$100 bond. Some of those whom Mrs. Pearson refused to go to were Mr. J. W. Curry, K.C., has been expected late last night a well-known citizen was hunting for Magistrate Kingsford to get bail.

AFTER TRANSIENT TRADERS.
Winnipeg License Department Arrests Transient Traveler.

Winnipeg, Dec. 14.—(Special.)—The crusade of the city license department against representatives of outside firms who have been selling their goods direct to the consumer, and who come under the head of transient traders, has resulted in the apprehension of J. W. Merckel, representative of the S. F. Bower Company, Toronto.

Merckel has been in the city since Nov. 23, but so far has failed to pay to the city officers the required \$200, the fee prescribed. When arrested at the police court this morning, he asked for a week's remand, but Magistrate Daly refused the request unless Merckel could furnish bonds.

Finally it was decided to allow the case to stand over until to-morrow, by which time Merckel will have communicated with his firm by wire.

Billiards.
New York, Dec. 14.—George Sutton, the 102nd billiard champion, yesterday challenged Champion Willie Hoppe to play him for the 151st championship. Sutton and Hoppe are matched to play next Tuesday night for the \$500 stake.

In case Hoppe defeats Sutton, he will have two matches on his hands. The boy wonder announced that he would accept Sutton's def. as well as the challenge. He will play on Monday for the \$100 stake, and will play for the \$500 stake on Tuesday. He will play for the \$500 stake for the full 90 days time allowed him to make a match with Sutton for the \$500 stake.

COMMITTEES APPOINTED FOR EXTENSION OF UNION

Anglicans and Baptists to Be Appointed During the Next Year.

The reports considered by the church union conference, yesterday afternoon were on ministry, administration, policy and doctrine, the latter two of which were adopted. The committee did not conclude business until half past 10 last night. They will meet again on the second Wednesday of September, 1907.

In resuming the ministry report, the contents of the required curriculum for candidates for the ministry was referred to for further consideration. The judgment of representatives of the various colleges is to be solicited in regard to some changes referring to the retention of a minister to the various churches.

A few slight alterations were made.

The report of the administration was touched upon, and chief topics discussed were that of ministerial support, missions, heavy-duty work, publishing interests and colleges; yet the committee believe that there are no insuperable difficulties, and may recommend that representatives of missions, publishing interests, benevolent funds and colleges under the supervision of the various churches meet in their various localities and consider questions affecting the different interests involved, formulate their suggestions, and forward them to the secretary of their sub-committee.

The committee decided to adopt the same plan as last year of making a report on the proceedings, a copy of which could be forwarded to all the ministers of the respective denominations.

Two committees were appointed to confer with the Anglican and the Baptist in regard to federal union. The one to meet the Anglican will consist of Rev. Dr. Principal Patrick, Principal Gordon, W. T. Herridge, Dr. Robert Campbell and Rev. Dr. Suberland, and Justice MacLaren, Principal Shaw, Dr. S. E. Huestis, Rev. J. W. Curry, Rev. D. S. Hamilton, and Rev. T. B. Hyde.

The committee to confer with the Baptists will consist of: Prof. Klippenberg (convenor), Dr. E. D. MacLaren, Rev. S. Lisle, Rev. W. J. Clark, Rev. W. A. J. O.S.D., Dr. McNamara, Dr. Chown, Dr. Langford, Rev. Dr. Briggs, Rev. Dr. Ross, N. W. Rowell, Richard Brown, Rev. J. S. Trarworth, Rev. M. G. Green, and H. O'Hara.

STUDENTS' MOCK PARLIAMENT
Have a Lot of Fun at One Another's Expense.

One of the most amusing evenings around the university for a long time was provided by the "mock parliament" presented by a dozen students to a large audience in Wyndale Convention Hall last night. Made up in old-time costumes, a variety of humorous lines, with a lot of local color at the expense of staid students in the gallery and their lady friends, the boys traversed the formality of the house of commons in a manner exceedingly clever.

The cabinet was composed as follows: Hon. College Athlete Lansbury, D.V., premier and minister of the lower regions (astral plane); Hon. Wild Duck Cruikshank, D.H.R., H.N.E.K.D., minister of the interior and dining hall economics (Hamilton); Hon. J. G. Busher Harris, D.D., X.X.X., minister of distilleries and prohibition (Toronto Junction); Hon. G. C. O.D., minister of sentiment and slush (Conservative Residence); Hon. Gracious Mercy Dix, X.W.C.A., minister of finance and graft (Knox College); Hon. Holy Jehosphaphat McLean, I.T.M.L.D., minister of agriculture and poetry (North York); Hon. Graceless Gum Drop Kilpatrick, E.K., N.I.H.L., L.O., minister of the yards and barrack (Drummondochter-machty); Hon. Lim Burger Robertson, P.H.E., minister of elevators and aspirations (Upper Canada College); Hon. Hilarity Turner, minister of humor and jest (Union Parlor); Hon. Can't Develop Hair MacAlpine, H.O.L.D., U.P.V. (Reception Office); Jolly Reliable Graupner Murray, R.V.P., P.D.Q., R.I.P. (United Brokers Bankers); Just Washed Lummy, B.L.U.F.F. (Cave of the Winds); Can't Aromatic Mustard, H.O.T. (Keen Co.); Can't Wed Nobody Inwood, E.R.I.N., S.N.A.K.E.S. (Tipperary); Mrs. Tame Duck Cruikshank, M.A. (Queen's Hall); Nothing Prettier Lambert, N.G., F. (Spencer-G. Little); Almighty Eater Johns, G.R.U.B. (Hashville); Whiskey Jagged Stephens, H.A.Y., S.E.B.D. (Cobocrook Corners); Juley Tomato Stirr, W.E.L.L., L.N.N. (Dining Hall); and Spiker-G. Little.

Among the bills under consideration were the following: "To provide a cream separator for the dining hall, so as to ensure that no possibility of any

Hurley, Lawson & Martin's List.

DO YOU DOUBT WHAT WE SAY? Sometimes about the advantages of Ontario over the west, we quote below the words of Mr. Horton (member for Alberta) in the House of Commons, Ottawa, on the 10th inst.:

MR. HORTON SAYS: "THE PEOPLE are suffering from want of lumber and fuel, and so scarce and so expensive that the majority of settlers, even the comparatively well-to-do, live in houses that do not protect them from the weather. In houses so cold that the poorest people would not inhabit them in Ontario."

NOV. GENTLEMEN, YOU WHO ARE looking westward with anxious eyes, put that in your pipes and smoke it, and get wisdom; they say an Ontario farm from Hurley, Lawson & Martin, and keep happy.

FIFTH DAY BIKE GRIND.

Nearing Finish of Long Race at New York—Latest Score.

New York, Dec. 14.—The contestants in the six-day bicycle race were grinding out laps in a mechanical manner this morning after an eventful night. The positions, however, were unchanged, according to the scores, although many of the spectators believed Stiel and Georget had been lapped after a sensational sprint at 3 a.m. and after, as have been so many young men, was started by the wind and the spectators, a decision rendered an hour earlier, when a sign visible to the spectators, had been won, started out at a mad pace, and kept the riders bent over and exhausted to their last, and kept the spectators in a continual roar of cheers and excitement. Receiving each other at every few laps, Walthour and Samson, who were the only pair who could not get together, and they had to bear the brunt of the fight for their lives. It was a long and hard race, and they were in such an extent that it was thought they had lost a lap, when the sprint, after continuing for 15 minutes, was suspended. The score, however, when it was hung out at 4 o'clock, showed no change. Walthour and Samson are in good shape, and they have promised to make the race interesting for the others before the day is out. They protested earnestly early today, when, just as they seemed to be about to gain a lap, Fogler fell, causing a spill. The riders claimed that the fall occurred purposefully, and for a time they refused to ride again until something was done. Eventually they were appeased, and the race, which had been delayed an hour, was resumed.

Rise News and Gossip.

The arena in which Herman and Gans will meet in Tonopah, Nev., will be a covered building erected at a cost of \$40,000. It covers a site 140 feet square, with the floor of the 24-foot ring elevated three and one-half feet above the ground. The seating capacity figures about 8000, and with a packed house on New Year's Day the receipts are expected to reach close to \$30,000. When not used for fights the arena will be turned into a skating rink and dancing pavilion. The roof is partially constructed of glass so that ring contests can be held in summer as well as in winter. The law which permits such fights in Nevada was especially enacted by the legislature to permit Currier and Phipps to settle their long-standing difficulties at Carson City ten years ago.

Wille Fitzgerald is expected in San Francisco to fight Jimmy Britt Dec. 25, although the fact that he got nothing better than a draw with Peter Sullivan in Dayton, O.

Jack Johnson of Boston and Alex. McLean, his latest manager, are on their way west for a tour around the world. He expects to secure a bout in California and then to sail for Honolulu. He will then go to New Zealand, Australia, South Africa and England, and will return to America about May.

FOR SINGLE RINK HONORS: COLLEGE ATHLETICS

Play Begins Friday, Jan. 4—Entries Closing Two Days Earlier.
 Representatives from the different city curling clubs met at the Victoria rooms last night to arrange for this winter's competition for the single rink championship and the Canada Life Trophy. There were present Dr. Hawke and A. E. Toon, Grant; Dr. Smale and B. B. Rice, Queen City; H. Muntz and George Percy, Toronto; George Mackenzie, Lakeview, and Simpson, Hennick, Caledonia.
 It was decided to begin play, ice permitting, on Friday, Jan. 4, at 7:30 p. m. in the different city rinks, earlier in the week, Monday night, Jan. 2, at the Victoria Club. Harold Muntz was elected chairman and George Percy secretary. The president of the six clubs is the committee to carry out the competition.
 Play begins on Jan. 4 and continues on Saturday afternoon at 2 o'clock and again on Monday at 7:30 p. m. Last year the trophy was won by John Hennick's Caledonia.
 Lacrosse Standard at Varsity.
 An evening paper states that the amateur lacrosse team at Varsity would take a lot of drilling to bring them up to the average good junior C. L. A. team. With the age limit in force in the C. L. A., and the following well-known players, A. H. Hanley and Ramore of Orillia; Morrison, Young, Toronto; Lambert, Mount Forest; Combs and Graham, Bradford; Campbell, Stoney; Davidson, Stratford; Loucks, Meaford; Pryne, Beaverton; Porter, Clinton, and numerous other men to pick from Varsity would trim the best of them as easy as the caps bear the Teumessachs of the N. L. U. championship.
 Indoor Baseball.
 There will be two games of indoor baseball at the armory to-night, between pairs of celebrated rivals, as follows: First game, G. Co., 4th, v. H. Co., 4th; second game, Stanley Barracks v. Cavalry.

FOUR STRATFORD SENIORS REFUSE TO PLAY HOCKEY

With Old Club—Reddy McMillan Captain of Cornwall Team—More Schedules.

Stratford, Dec. 14.—(Special.)—Despite the fact that four of last year's senior teams have refused point-blank to play with the hockey club, this city will be in the senior ranks. The new line-up will doubtless be a surprise to hockeydom.
 Reddy is Captain.
 Cornwall, Dec. 14.—Just to settle all rumors as to whether Reddy McMillan will play this season, it may be said that he has been not only signed by the Cornwall Hockey Club, but also appointed captain and given control of the Factory Town septet, which promises to be very strong this winter.

Group No. Six.
 Woodstock, Dec. 14.—(Special.)—Representatives of the junior teams of Group No. 6 met last night at the Bohemian Club and fixed the dates of games in this district. A board of referees was also appointed. The only club not represented at last night's meeting was the Victoria Juniors, who were represented by G. B. Stewart Jones, manager by W. E. Craig, Stratford by W. C. Rathford, and Woodstock by W. A. Eden. Mr. Eden was successful in having the date of Woodstock's home games fixed for Friday night, the 15th, instead of the 22nd, as originally arranged. The following dates were arranged:
 Dec. 22—Ingersoll at Paris.
 Dec. 28—Watford at Woodstock.
 Jan. 2—Woodstock at Stratford.
 Jan. 2—Watford at Ingersoll.
 Jan. 4—Paris at Woodstock.

 Jan. 25—Ingersoll at Woodstock.
 Jan. 28—Paris at Stratford.
 Jan. 29—Paris at Watford.
 Feb. 1—Stratford at Watford.
 Feb. 1—Woodstock at Stratford.
 Owing to the bad train connections at Watford and the absence of a representative from the Victoria Juniors, a five, difficulty was experienced in arranging dates with that club. The following dates were arranged for the Victoria Juniors: approval of the O. H. A.: Paris, Pete Layton and Thomas Moore; Woodstock, T. Howell and Colin Furness; Stratford, Fred Adams and W. Dowling; Ingersoll, G. H. Smith.

Particularly Correct is the "Plastic Form" Frock-Coat

Better none than a Frock-Coat with wrong lines. The man who realises the importance of having those difficult lines—that cut which makes or mars the garment—appreciates the perfect style of the Frock-Coats he finds in the "Plastic Form" Parlors.

These Frock-Coats are, indeed, triumphs of tailorship. And prices are moderate.

 Manover Organized.
 Hanover, Dec. 14.—The hockey meeting held at the Red House was not largely attended. The suggestion to form a local league will not likely go through, at least for the present, as there does not seem to be enough general interest behind the proposition. The boys organized one team, however, to be known as the "Sausage Hockey Club," and this team will likely represent the town. Following are the officers elected: Hon. president, M. S. Armstrong; manager, B. Y. Gomersy; treasurer, William McLellan; Harold Higgins, Murray Bann, Willie Simons, Wm. Burns, J. Murray, Arthur O'Donoghue.
 More Certificates Issued.
 The following are the clubs and players who have been issued certificates by Secretary Hewitt:
 Port Hope: Arthur G. Hunsford, William G. Law, Edward Outman, George Porter, Nelson Crossen, F. T. Vard, Dr. L. D. Rogers, J. H. Pettie, Louis A. W. Wetherax, Elde Outman, Fred Klinton, Robert S. Race, Spencer McDonald, Maurice Outman, W. E. Wilcox, B. T. Barnard, B. C. Hogarth.
 Ingersoll: Brockville—B. Dawson, Conneck, Harold Mallory, Ross Stitt, Henry Jeffrey, T. Muldon, Albert Kerr, Frank Brown, William McLellan, Harold Higgins, Murray Bann, Willie Simons, Wm. Burns, J. Murray, Arthur O'Donoghue.
 Stratford: Arthur G. Hunsford, William G. Law, Edward Outman, George Porter, Nelson Crossen, F. T. Vard, Dr. L. D. Rogers, J. H. Pettie, Louis A. W. Wetherax, Elde Outman, Fred Klinton, Robert S. Race, Spencer McDonald, Maurice Outman, W. E. Wilcox, B. T. Barnard, B. C. Hogarth.

Pittsburg 2, Canadian 0 0.
 Pittsburg, Dec. 14.—Pittsburg won the second game in the international hockey series here last night, defeating the Canadian 2 to 0 in a hard, fast game by 2 to 0. No scoring was done in the first half. The contest was very rough, with both teams indulging in strenuous work. The teams: Pittsburg: (G) Goal, Winesetter; point, Blair; center, Hogan; right wing, Hogan; left wing, Hogan; right wing, Gault.
 Canadian: (G) Goal, Lehmann; point, Brown; cover, McRobbie; center, Walsh; right, Taylor; left wing, Wilson; right wing, Schaffer.
 Referees—Tom Melville. Halves, 20 minutes each.

They Like Armstrong.
 Ottawa Citizen: The Ottawas turned up at Day's in good numbers last evening. Hague, Moore, Spittal, Westwick, Armstrong, Harry Smith, Alf Smith, Shore, Neave were in uniform. Harvey Hatfield, Lesueur and McObee were the only absentees, and will not be seen at the next line-up.
 The boys put in an hour's work, and Alf Smith, Harry Smith and Armstrong, with Moore, soon limbered up and hustled around in a way that indicated that the boys would soon be in shape for a longer spell on the ice.

Michigan 800 Left Ice.
 Calumet, Dec. 14.—(Special.)—Portage Lake triumphed over the Michigan 800 team in the international hockey league contest at the Amphitheatre, Hamilton, to-night. The 800 Club left the ice in the second half, with the score 4 to 3 in its favor, thereby forfeiting the game to its opponents, Captain Laviolette, with his face cut and bleeding, was ordered to the bench for slashing 10 minutes after the second half opened. He refused to go, and took his team from the ice. This will cost the 800 Club \$500 fine, imposed by the league directors. The first half of the game was slow and dragged. The 800 showing faster work and better defense. Switzer and Pitrie played very cleverly and Laviolette did well. Bright started for Portage Lake in the second half. TWIXT DEVIL AND SEA.

It is stated that Macleod and Serro, who owned the lease of the Chaudron Falls water power, canceled by the Ontario government, because development had not been done, were some time ago forbidden by the Dominion government to proceed with development because the property might be needed for the proposed Georgian Bay ship canal.

Bank of Yarmouth Finances.

Halifax, N.S., Dec. 14.—(Special)—W. E. Stavert, liquidator of the Bank of Yarmouth, applied to-day for leave to pay out \$10 a share to contributors who have paid up double liability.

THE MYSTERY OF GOUT

Some Interesting Pointers From The Pen of Dr. Hamilton.

"The real cause of gout is due to the excessive use of certain articles of food and drink, which in time leads to a disturbance of the functions of the liver. As a result harmful products such as uric acid are thrown into the blood, causing the condition known as gout."

"Consequently it follows that, having proper diet and maintaining liver activity, a cure can be effected."

"Probably no physician has achieved such success in liver disease as Dr. Hamilton."

"His pills of Mandrake and Butter-nut are everywhere acknowledged to be a specific for slow, weak or sluggish liver; they give tone and vitality to the organ that enables it to perform its duties with ease and certainty."

"Once the liver is corrected, Dr. Hamilton's Pills apply their peculiar relief to the kidneys and eliminating organs. This cleanses the blood and sends it back to the system, full of nourishment and strength."

"Rheumatic tendencies are no longer noticed, for pure blood kills the poison that causes rheumatic aches."

"Dull, aching twinges, stiff joints, and difficulty of exertion become things of the past."

"Of course by rheumatism such complaints as sciatica, lumbago and neuralgia must be included, for after all, what are they but manifestations of rheumatic poison?"

"Thus it is easily seen that a world of good is accomplished by Dr. Hamilton's Pills. Acting as a blood purifier and a general tonic for the system, their benefit is incalculable. 25c. per box or five boxes for \$1.00, at all dealers, and be sure you get the genuine Dr. Hamilton's Pills."

Realistic Military Training.

England has reserved a tract of land several hundred square miles in extent, which her soldiers play at war, according to F. A. Tatbot in Technical World Magazine for January.

The Russian-Japanese war served to emphasize the radical revolution which has taken place in warfare due to the remarkable improvements which have been wrought in the devising of long-range and quick-firing weapons, combined with improvements in explosives.

The necessities of a warfare in which a battle may range over as much as sixty or seventy miles. Consequently a grave difficulty presents itself in the training of an army to comply with and to understand these new conditions, since it is essential that an army in peace should be brought to a high standard of efficiency, which will enable it to cope with any peculiar difficulty that may present itself in actual combat. But to train an army upon the necessities of a warfare in which there is having a conformation of the most difficult nature, and far removed from the influences of human habitations, to enable it to practice the new conditions of its duties, as the British call their large mock battle-ground, the attacking party uses bullets and live shells, while the defenders use blanks.

Great Work at Small Pay.

The fact that the scientist has a personal fortune of a quarter of a million dollars, and that he is a favorite dinner guest in Washington society, says Rene Bahe in The Technical World Magazine for January, only marks him as a member of the nation's new volunteers, an army of wealthy men who are doing patriotic service for their country, at more or less financial sacrifice to themselves.

YORK COUNTY LOAN AFFAIRS NO DIVIDEND FOR SOME TIME

Rating of Shareholders Must First Be Determined—Liquidator Issues Statement.

A sort of interim report of the year's progress of the York County Loan liquidation was filed yesterday with the court. The liquidator, Neil McLean, official referee, at Osgoode Hall by R. Home Smith of the National Trust Company, liquidators. The statement shows liabilities of over \$4,000,000, and assets of \$1,300,000. No dividend can be declared until the rating of various classes of shareholders is determined, and this will take some time. In the report filed, under the heading of assets, it is stated that the liquidator took over thirty-five house properties, including the List Piano Company factory, twenty-seven have been sold for \$30,400, with substantial cash payments, and the balance secured on short term mortgages. Seven houses remain to be sold, which are valued at \$47,000. The factory premises are being sold for \$42,000. The liquidator has sold during the past year 1653 feet of vacant land for \$44,381, but has not proceeded for sale as the value of the lands will be greatly enhanced when the street car lines on Boscawen-avenue are in operation. The trunk sewer on this avenue has been constructed, and the pavement can be laid immediately after the winter season. The liquidator has also received assurances of co-operation from the Street Railway Company officials, and intends to actively push the sale of certain sections which can be sold to best advantage at present. It is, however, necessary that certain local improvements should be proceeded with and

arrangements have been made as to these. **Mortgages.** The liquidators first took over two hundred and seventeen mortgages upon which there was due about \$102,207.79, and since that time has taken twenty-four mortgages as part payment on sales of real estate; \$4,750 has been collected on these accounts, leaving \$113,832.13 still due. The mortgages held by the York County Loan are all payable in weekly or monthly instalments and in a number of cases the security is not satisfactory. The liquidator has, however, met with better success in collecting on this account than had been expected, and the more unsatisfactory accounts having been already adjusted. It is hoped that there will be very little, if any, loss in this category. **Stock in Toronto Life Insurance Co.** The liquidator watched very closely the police court proceedings arising out of the failure of the company and the negotiations with a number of parties resulted in the estate securing nineteen hundred and twenty-seven shares of stock. The liquidator by an arrangement with other shareholders secured an option on a majority of the stock, which was then sold, the liquidator's holdings realizing \$50,692.42. **List Piano Company Bonds.** The liquidator took over \$55,765 of bonds of the List Piano Company, but finally succeeded in having all the assets handed over to the National Trust as receiver. Practically all the liabilities have now been arranged, and apparently there will be a substantial return. **Southern Light & Power Co. Bonds.** The liquidator took over \$212,400 of bonds of the Southern Light and Power Company and found that the assets consisted wholly of material on hand and its works at Etobicoke. The work was not more than half finished, and it became necessary to go into liquidation. The liquidator has then out consulted with the liquidator of the York Loan, and an arrangement has been made by which the company's works are to be purchased from the liquidator of the power company. There will be a very serious loss on this item. **Miscellaneous Assets, Furniture &c.** The liquidator has disposed of the building materials, implements, horses, furnishings, etc., at satisfactory prices.

and has, under order of the court, paid all arrears of taxes, the current year's taxes and all mortgages and preferred claims against the real estate, leaving a balance of about \$112,000. Full particulars will be given in the liquidator's accounts, to be presented to the court. The liquidator finds it difficult to make any estimate of the value of the assets, as the greater portion is composed of real estate, the value of which will be affected by causes which cannot be accurately foretold. An estimate upon a conservative basis is as follows: Balance on hand \$112,732.21 Improved properties 90,000.00 Stocks and bonds or registered 50,000.00 Vacant land 300,000.00 Miscellaneous assets 2,500.00 Mortgages and mortgages 113,335.18 Loans on company's stock 50,000.00 **Liabilities.** \$1,319,064.69 Great difficulty has been experienced in ascertaining the claims against the company and in having same properly filed and scheduled with the court. The liquidator, by the courtesy of the banks, was able to refer to the shareholders' exceptional liabilities for filing claims, but, unfortunately, some thirty thousand shareholders either refused or neglected to send in their books and certificates. The liquidator was forced to write up that number of claims from the company's somewhat complicated and imperfect records. The books and certificates of each shareholder have been audited, and as to questions of liabilities filed into twenty-six groups in order that the court may be able to make such direction as may be deemed advisable as to questions of assets between the various classes of shareholders. The claims filed with the company show:

Number of Shareholders	Claims Amount
114,749	\$4,074,854.83
Employees	4,321 19,501.83
General claims	100 18,275.83
	116,170 \$4,112,632.49

 The liquidator is bound to take notice of all claims filed, but will recommend to the court the disallowance of a very large number, and in a community may be mistaken, but when a dozen remark that they have found Dr. McLaughlin's Electric Belt a good thing you are forced to believe it. When you meet a friend on the street and comment upon his improved appearance and he tells you that Dr. McLaughlin's Electric Belt has done it, even though you don't believe in electric belts yourself, you can't help feeling glad that your friend imagines that it helped him. It's hard to convince some people that there is so much good in a thing that is worn about the body only a few hours at a time; it looks impossible, but when a dozen people whom you know to be honest persist in saying that it made life worth living for them you are forced to take some stock in it. That is why Dr. McLaughlin's Electric Belt is so popular now. It has cured a lot of people, and they are praising it; they call it their best friend. One man who had felt run down generally, who had no life in him, no ambition for the future, and was always growing with some sort of a pain or ache, was cured by it, and he seemed to think a good deal of it, because he said there was not enough gold in the Province to buy it if he could not get another like it. The most noticeable thing about men who have been cured by Dr. McLaughlin's Electric Belt is the way their views change as to their future; men who have looked for nothing but hard luck and discouragement seem to take a new grip on prosperity and aim higher from the day they begin wearing the belt. You know men who seem to think that they have no luck, nothing turns out right for them. They are men without nerve, with some sort of trouble that is holding them down. They are discouraged and tired of the fight; they wake up in the morning with a pain in the back, a tired feeling and very little interest in the day before them; they go about their work

DR. McLAUGHLIN'S ELECTRIC BELT MADE US STRONG

A Big Round Dollar's Worth of MAN MEDICINE FREE for a Dime.

A dime—ten cents— isn't much money. No man longing with all his soul to free again the vigor of life in his bones will balk at the amount. There is a chance, though, that you might miss this offer of real help to weak men if we don't put in a word or two on WHY it is a dime for a dollar's worth. You might say, "only a dime—how can't afford to do anything REAL for me for a dime." Right you are; a dime is NOT the measure of value of MAN MEDICINE; we are not trying to make money on this proposition, but for a dime we are going to PROVE to you that MAN MEDICINE is ALL that you need. This dime is not for the medicine. We give you that. We give you FULL-SIZED DOLLAR'S WORTH OF MAN MEDICINE ABSOLUTELY FREE. It has cured thousands perfectly and permanently—and we KNOW what it will do for a dollar's worth to prove its merits on yourself. We want to prove it to you at our expense—so we give you the medicine—make you a present of it. Your dime simply helps to cover the cost of packing and postage on one whole dollar package for you. There is no other expense—absolutely none. Simply enclose four ten cents, silver or stamps, in your letter, at our MEDICINE, carefully packed in plain wrapper, will reach you by return mail. This is a square deal, men. We say, "MAN MEDICINE is great—it is worth more, than money to weak men—it will add pounds to your strength, the drugs, losses and weakness peculiar to men will not get well" or "it is". We KNOW this, but you don't— you have to take our word for it. Just ONE package will prove it, however. So we take the hundred cents risk to you ten cents risk to prove it to you. That's fair. It means more than dollars and dimes to you—it means life, vigor, strength, endurance. That weary, worn condition, that debility, that lost animation, that prostration and kidney trouble due to the exhaustion of your strength, the drains, losses and weakness peculiar to men will not get well" or "it is". We KNOW this, but you don't— you have to take our word for it. Just ONE package will prove it, however. So we take the hundred cents risk to you ten cents risk to prove it to you. That's fair. It means more than dollars and dimes to you—it means life, vigor, strength, endurance. That's why we offer you MAN MEDICINE for a trifle—so you can STOP and MEND—today. Enclose one dime and send for the dollar package of MAN MEDICINE today. Interstate Remedy Co., 201 Luck Ridge, Detroit, Mich.

Special Mass for Italians. Special mass was celebrated yesterday in St. Patrick's Church for the Roman Catholic Italians of the city. Rev. Father Urban was the celebrant, assisted by the Rev. Fathers Cruise and James Walsh. The sermon was preached by Rev. Dr. Tracey of St. Crispin, who spoke in the Italian language, and urged his hearers to attend mass on Sunday and approach the sacraments frequently.

without caring, and are glad when quitting time comes. How can luck favor that kind of a man? If he does succeed, it is certainly luck for him, but fortune smiles mostly on the man who goes after her with a club; you've got to train your luck as the man tamed the shrew, by being master of it and shaping it in your favor by your power to command. Luck is generally nothing but success turned to working for you; success comes to the hustler. Nobody can hustle who has not strength and vitality. Men who wear Dr. McLaughlin's Electric Belt are full of energy; they aim high; they bring success to themselves with the health and strength that this wonderful belt gives them. That is why men who wear this belt are bright, happy and cheerful; they feel good, and show it. The majority of cases which have been lately cured by the Dr. McLaughlin Belt are of men broken down by nervous strain, overwork, overeating and late hours. In them the old vitality seemed to have gone; self-confidence was lacking and there was a tendency to premature old age. In such cases Electricity is most effective, as its effect is to restore life to the nerves and all the vital organs. As examples of the influence of the Dr. McLaughlin Belt upon such cases note what Mr. Wm. Bowers, Box 196, Brantford, Ont., says: "I was broken down—I purchased one of your strongest Belts for Nervous Debility about four years ago. I had been taking medicine when I first got sick, and give me the results I desired, and I did not want to get my system full of medicine, so I thought I would try one of your Belts. Before I commenced to wear it, I would wake up in the night with bad pains in my head, which caused a deathly feeling to come over me. I would get up, but I have not had any of these spells for two years, and I do not want any more. I believe the electricity cured me. I am feeling well generally, and doing hard work on the farm every day." Here is another. Mr. W. L. Flemington, Earl Grey, Sask., says: "It is some three years since I wrote you that your Belt had given me perfect satisfaction, and I am still as strong and healthy as any man could expect to be

It is certainly a Godsend that such an appliance should be invented for the cure of the ailment of poor, wrecked humanity. I can now eat anything that is eatable, and digest it well; no trouble worries me, and my nerves are very strong. I have been in the press of our Electric Belt for six years, and will continue to do so. I cannot say too much, for it has made my body a pleasure to own. In cases of Rheumatism the Dr. McLaughlin Electric Belt has a specific action in quickly relieving the pains and freeing the blood of the Uric Acid deposits that cause the trouble. Among the recent cures we may mention Mr. Angus McDonald, No. 9 Buffalo street, Brantford, Ont., who says:—"I came to Brantford a little over two years ago, crippled up with Rheumatism so bad I had to be carried into the house, and was bedridden for six months. I was treated by three different doctors. I went to Preston and took the baths, and received slight benefit from them. I then bought one of your Belts, and at that time considered my case hopeless. I have improved steadily since wearing it, and have been able to resume my business as builder and contractor. I have recommended your Belts to many as a sure cure for Rheumatism, even in its worst form, as I was about as bad as anyone could be with it when I got your Belt, which has, I am glad to say, completely cured me. The Rheumatism had affected my heart, and it has greatly improved me in that respect."

Mr. J. H. Mikel of Mapleview, Ont., is another man cured of rheumatism and says:—"I have worn your Belt for several months, and it has cured me of Rheumatism and Piles. I would not take \$100 for the benefit I have received from it so far and be without it. I can recommend to any one suffering from any troubles for which it is recommended. The man or woman whose stomach seems to be "knocked out" can practically get a new stomach by using the Dr. McLaughlin Belt. The reason for this is that the stomach when in a healthy condition is an electric battery in itself. It furnishes power and strength to every organ of the body. When it is weak it is a sign that the natural Electricity is below the normal. It is useless to take drugs to refill the human electric battery with the element that is so necessary for its health. They can't do it. How the stomach is reinvigorated by the use of your Belt, and I am still as strong and healthy as any man could expect to be

by Mr. James Biglow of Mount Maple, Que., who writes as follows:—"I take great pleasure in writing you, and would have done so sooner, but I wanted to test your Belt well first. I am thankful to say that it is all you claim it to be. I feel like a new man. My stomach has not bothered me since I started to use your Belt, and I have no more trouble any more. I have gained in flesh and in strength; can eat and sleep well, and am very thankful that I became one of your patients." Another man cured of back trouble, Mr. Albert Cox, Washago, Ont., says:—"You will think I am slow in giving you a statement of the benefit received from your Belt. I purchased it a few months ago for the use of a lame back and kidney trouble, and after using it two months I have not felt the pain since, and can recommend it highly to any one of your patients." I could fill pages of this paper with letters of praise from those who have been cured by Dr. McLaughlin's Electric Belt, but those given above are certainly enough to suggest to the reader that he may also find relief from his ailments by using electricity. Anyone who will secure me can get my Belt and

COST OF POWER IN TORONTO PROMISED BY COMMISSION

Considerably Below Present Rates—Motors Will Have to Be Changed.

Toronto can be supplied with Niagara power at from one cent per kilowatt hour, for large users, with overhead distribution, to 2 1/2 cents per kilowatt hour to small consumers, receiving their power from underground distribution, so Assistant Engineer Edward Richards of the hydro-electric power commission reported in a letter to the board of control yesterday. The charges made by the Toronto Electric Light Co. range from 2 1/2 to 3c.

Present users of power, he said, would have to exchange their direct current motors for 25-cycle alternating current motors, in order to use Niagara power. The most approved type of these latter would be supplied at about \$7.25 per lamp per year, on the basis of a 100 lamp installation, while the price might be reduced to \$40, the city now pays \$67.50 per lamp per year. An estimate will be asked for from the commission of the cost of lighting for dwelling houses.

Mayor Conant is disappointed because the North Toronto Conservative Association succeeded in booking Hon. Adam Beck for an address on the power question on the evening of Dec. 19. He fears it will steal the thunder of the public meeting on the following night. The club engagement, however, was made first.

Sick Women Made Well

Thousands Find the Way Back to Health Through Ferreroze.

No need for so many sick girls and women. These are curable, if they give them proper treatment. Nutrition must be supplied, blood must be enriched, nerves strengthened and additional power given to digestion. Ferreroze does this and more; it cures such cases as Mrs. N. E. Pegbody of Trenton. She was a wreck—never thought medicine was made that could restore her, yet Ferreroze was successful.

Among her troubles were: Headaches, Weakness, Nervousness, Fatigue, Palpitation, Loss of flesh, Dizzy spells, Poor appetite.

Her statement: "I was stricken with nervous disease of the heart and stomach. Violent headaches made life a torture. I was so nervous and weak I could scarcely walk. Work was impossible. I couldn't eat or digest anything. When completely wrecked Ferreroze rescued me. To-day I am vigorous and strong and well."

If you lack power of either mind or body it's an evidence you need Ferreroze. If you have nervous spells, feeling of weakness in the limbs, tiredness in the morning, you are sure of cure with Ferreroze. Think of it, Ferreroze gives back the energy of youth, restores vital stamina and creates a surplus of vigor, or simply because it supplies the concentrated nourishment your system needs. 50c. per box or six for \$2.50 at dealers.

WHO'LL BUILD SPUR LINE? CITY MAY, OR PERHAPS C.N.

Mayor Submits Plan to Controllers and Special Committee Also Discuss It.

One route by which the Canadian Northern Railway has considered entering the city from Ottawa was laid before the board of control yesterday by the mayor in the form of plans providing for a line going east along the north shore of Ashbridge's Bay, crossing Queen-street to the west of the Woodbine, and running east, paralleling Queen-street and closely adjacent to the G.T.R. tracks, going southeast, where it will intersect the Kingston-road and the G.T.R. tracks, going southeast, just to the north of Audley and Taitton and touching Orono. Controller Jones declared that there was no longer any doubt as to which road should build the spur line, and the mayor agreed.

The Viaduct Plan.
The explained viaduct scheme will have to be grappled with by the civic rulers of 1907. The special meeting of the city council, apparently in that decision, Aid. McChie was against having the city co-operate with the railway in the choice of an engineer to report upon the scheme, and wanted the city to appoint its own engineer. The mayor was apprehensive that the viaduct would be a present issue attention would be distracted from the Yonge-street bridge and the bylaw would suffer.

The incoming council will also have upon its hands the work of striking a policy as to the Ashbridge's Bay district 'is to be built. Now that the Canadian Northern Railway has decided to build the spur line into the Ashbridge's Bay district, it is less likely to be accepted. The sentiment apparently is that the city should itself lay down the tracks. Aid. Fleming declared his conversion to the city building the spur line. The Grand Trunk might take three years to build, and industrial expansion would suffer. The mayor agreed, but Aid. Duns proposed having a report from Mr. Rust on the cost of laying tracks. Aid. Fleming said it would not cost but, but the engineer returned that this would not include a swing bridge. Aid. Vaughan was averse to the city's incurring the expense.

Good Offer, Says Engineer.
"We had a good offer from the Grand Trunk, and should have accepted it," contributed Mr. Rust, who regretted the delay which was "playing into the hands of the Canadian Northern." Aid. Duns proposed having a report from Mr. Rust, and this carried. Mr. Rust again avowed hostility to extending Yonge-street to Bayview and Dupont-street, as having too direct a bearing upon private interests. He proposed having a hearing on the subject, and use Hal-lam-street to avoid land owned by Van Hornes-street and use Hal-lam-street to avoid land owned by Van Hornes-street. Aid. Graham was favorably impressed, and Mr. Rust further reported. George B. Boye, H. Boyle requested that Lovat-place, about 20 feet wide, from Sumach-street east to River-street, be widened to 40 feet. There is an accumulation of about 20 years' taxes against the lane, and Aid. Noble thought it should be taken.

Mr. Rust reported against the proposition, but will consider having the lane widened as a local improvement.

Engineer's Expenditures.
The city engineer in his final report for the year states that the total expenditure of the works department up to Nov. 30, including waterworks, is \$1,795,927, and upon local improvement works, including waterworks, is \$40,728 on a new sand pump. The total outlay on the island is \$665,629. There have been over 25 square miles of new pavements and roadways laid down as against about 18 miles last year. On resurfacing roadways \$284,711 has been spent, as against \$202,845 last year. Streets that have been opened up, straightened or extended are: Manning-avenue, Queen to Robinson-street, Jersey-avenue, Evans-avenue to Lane north; Wolfrey-avenue, Broadview to Logan-avenue; Lane, from Duncas to Ontario-street. Eleven miles of sewer have been laid, compared with 4.57 miles in 1905. Waterworks department figures show that up to Dec. 1, 8,908,271,451 gallons have been pumped at the main pumping station; 235,000 worth of meters, 100,000 hydrants and 34 three-way hydrants have been installed.

The city engineer will report on the proposed widening of Greenwood-avenue to 66 feet, north from the G.T.R. tracks to Danforth-road. A vote of thanks was tendered the retiring chairman on motion of Controller Hubbard. In reply the chairman paid tribute to the worth to the city of Roadways Engineer MacPhail.

Dr. Sheard advised the board to request the company to pay the entire cost of removal of all the streets where car lines are, but for these lines there would be no necessity for removing the snow. The solicitor will report.

The Ontario municipal railway board has notified the city of its approval of the annexation by the city of the Baldwin estate of 22 acres in the Avenue-road district.

The application of the Toronto Railway Employees' Union to the Ontario railway board to compel the railway to keep the front vestibule of cars closed during the winter for the protection of motormen is supported by the board of control.

This city would not be liable for accidents on elevators inspected by a civic official, states the city solicitor.

WHO WAS GEORGE GOSNEY?

The mayor yesterday received a telegram, stating that George Gosney, on the staff of a Toronto band, had died in Strouburg, Saskatchewan. Enquiry among the local banks failed to elicit any information, and no such name as that given appears in the directory. Any clue to his identity will be welcomed by the mayor.

OPEN LETTER FROM H. C. HAMMOND, ESQ.

A FRANK TALK WITH HIS FELLOW-CITIZENS.

Toronto, Can., Dec. 14, 1906.

LADIES AND GENTLEMEN,—

Mr. Robertson, our worthy Secretary, tells me that he has asked the other Trustees to write a short letter for publication in his little paper, the "Open Door," and that I must do likewise, all in the interests of the Toronto Free Hospital for Consumptives.

The other Trustees will probably write, telling you of the good work which has been done during the past year and how the patients have progressed and enjoyed themselves. They will also remind you of the happy Christmas time, when you should feel at peace with all mankind, in distributing money according to your means. I will not do that, but will give you a few cold facts and leave the rest to you.

Perhaps when you open this paper you may say, "What! this 'Open Door' coming again so soon! It appears to me not a month since I received one of those blessed papers. They are always inviting you to contribute." This, I acknowledge, is quite true, but in this busy world, unless you advertise and keep yourself well before the limelight, you are liable to get out of vision and be forgotten.

We still want MONEY. During the past year we have had to keep and feed about seventy people daily, which includes the staff, and I regret to say that the maintenance account has fallen behind over \$5,000.00, and you know there is only one end in doing business in this way.

During the year we have received for maintenance account from entirely voluntary donations from 678 good friends the sum of \$4,352.12, and it comes to me in very interesting amounts, as follows:—

5c.....	1	50c.....	11
10c.....	9	\$1.00 to \$50.00.....	596
15c.....	2	Over \$50 to \$300.....	8
25c.....	51		

Many donors send their initials only and do not register the letters, although they contain cash! Many dollars come to me wrapped in a piece of notepaper without a word written therein, and many small subscriptions come to me in envelopes which are sent out with "Open Door" issues of three to six months previously, showing that the envelope had been kept, probably by the lady of the house, until she felt she could spare the amount enclosed therein.

During the year we have received \$14,131.00 on Building Account, but this is a serious business and has to be canvassed for personally. I have not had time during the past year to call upon as many of my friends as I would wish, but I hope during the next few months to call on those whom I have neglected and give them an opportunity of joining in this good work.

The Maintenance Account is the one that I should like to see kept even. A friend of mine, who is treasurer for a similar enterprise to this, about two years ago invited me to subscribe to his little show. As I borrow money from him sometimes, I thought it would be wise to hand him a cheque for what I considered would be sufficient to make him kind for at least ten years. On the anniversary of this subscription, he wrote me a letter reminding me that my "annual" subscription of a similar amount was now due. I wish I could work this same racket, but I lack the nerve. However, I should like to join you in any subscriptions you may make towards the Maintenance Fund; and if you will not consider it too much like gambling, I will contribute half a dollar for every dollar subscribed by you towards this fund (up to \$5,000.00) between now and the 30th September next, the end of our financial year. This will give you an opportunity to get even with me for troubling you so often during the year. I would make it dollar for dollar, but I am not in the position of the man who, accused of being as rich as Croesus, replied that he did not know who Croesus was, but he thought he could put up pound for pound with him.

"The Lord loveth a cheerful giver,"
"Cast thy bread upon the waters,"
"Bis dat qui cito dat."

and there are many other applicable quotations which I have forgotten.

Wishing you a Happy and Prosperous New Year.

Yours frankly,

H. C. Hammond
Treasurer.

Treasurer's Address—21 Jordan street, Toronto, Ont.

WITH FAITH IN TORONTO.

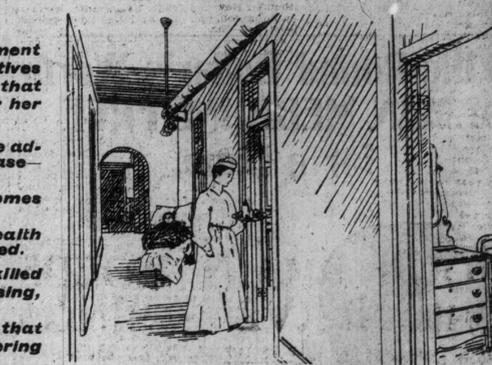

Consider for a moment what the establishment of the Toronto Free Hospital for Consumptives means to Toronto citizens, and it would seem that not a citizen—rich or poor—would close his or her ears to this appeal.

- (a) This hospital cares for the consumptive in the advanced and far-advanced stages of the disease—patients refused by every other hospital.
- (b) It cares for those from the most destitute homes in Toronto—very centres of infection.
- (c) By removing this source of contagion the health and homes of every other citizen are protected.

The best the hospital can give is theirs—skilled medical attendance, tender and trained nursing, abundance of good food, a happy home.

The Trustees do these things in faith—faith that the citizens of Toronto will not allow these suffering ones to go uncared for.

Will you not send a generous Christmas gift to Mr. H. C. Hammond, Treasurer, 21 Jordan St., Toronto?

YOU PREVENT SORE THROAT

by rubbing a little Nervilleine on the outside and gargling with small quantity of Nervilleine in water. This is but a sample of the thousand applications that can be made of Nervilleine, that wonderful, that almost magical, pain-subduing remedy. For colds and sore throats, Nervilleine is able to, no remedy is so useful as a preventive, no remedy can compare with it in relieving aches and pains and curing them. You can get it at any dealer, only a quarter a bottle. Nervilleine is the best and most powerful in its action in subduing pain. Test it and see.

MUST FORFEIT DEPOSIT.

If Tender is Withdrawn After Contract Has Been Awarded.

The board of education are beginning to get on to contractors who secure awards for job work on the schools, and then withdraw tenders when they realize how low was their bid. In yesterday's meeting of the property committee, a new by-law governing conditions under which tenders may be made was recommended to the board. It states clearly that if the contractor wishes to withdraw his tender he must do so before it has been accepted by the property committee, or forfeit his deposit. Permission was granted the school board of Dewson-street School to flood the east portion of the playgrounds for a rink, put in Huron-street and Cottingsham-street schools by Fred Armstrong for \$200.

Some think water is pure because it is carbonated—charged with carbonic acid gas. That is wrong. Carbonating water doesn't purify it. Carbonic acid gas doesn't cleanse water. Plenty of carbonated waters are just ordinary city water, charged with gas. That gas is mostly made by the action of sulphuric acid on whiting (such as is used for calcimining), or from the fumes of burning coke. Pleasant, isn't it? Even spring waters that are naturally fizzy, carbonated far within the earth, are not always safe to drink. Natural carbonation is likely to load water with more lime or magnesia than the system ought to get. So a natural fizzy water may be wholesome and it may not. The safe way—doctors think the only safe way—for people who like carbonated water, either plain as a beverage, or as a diluent for spirits—is to get an ideally pure spring water, charged with purified carbonic acid gas, and Carbonated and bottled under absolutely safe, cleanly, and scrupulously sanitary conditions. Water like that is zestful, refreshing, wholesome, and enhances the flavor of whatever it dilutes—liquors especially. The water that surely meets every requirement is sold in your neighborhood by merchants who care for the custom of particular people, and in your city by the right kind of hotels, bars and clubs. It is worth asking for; and it is labelled

IN DEBT AND COULDN'T MARRY
SHOOT'S SWEETHEART AND SELF
New Orleans, Dec. 14.—Louis Thomas shot and probably fatally wounded his bride-to-be, Harriet Coulter, and then killed himself near Adelaide, La. The tragedy occurred just after Thomas had written across the back of his marriage license: "I am heavily in debt and cannot lead you into misfortune. Both of us will die together." The two had rented a house and had been to a railroad station to get their furniture. They were returning from the station when the shooting occurred.

Train leaves at 7:55, a handy hour for everybody, and passengers, undisturbed by arrival at Detroit very early in the morning, may remain in car until 8 a.m. Berths reserved at C.P.R. city ticket office, corner King and Yonge-streets, Phone Main 148.

Ed. Mack Thinks That Others May Have the Same Impression.
A member of the M.Y.M.A. in Toronto, writing to the Semi-Ready Company v. Montreal, enclosed a neat little folder which tells of the worthy work of this young people's association. But the young man mentioned that there was a Semi-Ready tailoring shop on King-street in Toronto. There is not. There are only two "Semi-Ready" warblers in this city. Ed. Mack controls them both, and what you buy in one may be exchanged at the other. The Semi-Ready stores are at 81 Yonge-street and 472 Queen-street West. Both stores open till 10 o'clock each evening until Christmas.

Third Readings.
London, Dec. 14.—The house of lords today passed the third readings of the merchant, shipping and trades disputes bills, and sent them back to the house of commons for consideration of the upper house's amendments.

South American Nervine
begins at the beginning to prevent and eradicate disease—it acts on the nerves that control the vital organs of the body, gives strength to the whole nervous system, fills the blood with that richness and purity that is so essential to health—because, remember this, that when these nerves become weakened and exhausted it means indigestion, torpid liver, stagnant kidneys, the heart flutters and becomes irregular and weak, the lungs fail to have the nourishment and weaken, and the climax, naturally enough, is debility—and the next stage may be consumption. All such dire consequences may be saved by the wonderful potency of South American Nervine.

IMPERIAL DUTY, SAYS TIMES TO KEEP CANADA BRITISH

Present Economic Policy Driving Towards Absorption by the United States.

(Canadian Associated Press Cable) London, Dec. 14.—The Times, in a special article and editorial, discusses the meaning of the new Canadian tariff to the empire, adding that between Mr. Chamberlain's policy and the existing state of things there is no longer any question. They have now to decide between a preferential tariff in which Great Britain is included and one from which Britain is excluded, and her places taken by rival preferential trading blocs. The colonies mean to have. The only question is, with whom? The Times editorially says: "It is in the intermediate tariff that the importance of Mr. Fielding's departure lies. Its announcement is practically equivalent to a declaration of war from the Canadian government to the world at large, and the United States in particular, to enter into commercial negotiations on a basis of reciprocal concessions. What would the acceptance of that invitation involve? For us it would undoubtedly, even as the Canadian offer stands at present, mean a very considerable reduction in the preference enjoyed by this country in the rest of the world. The acquaintance with the process of bargaining which accompanies the framing of such a tariff is one which cannot be averted as long as we cling to our present economic policy. Those who have nothing to bargain with cannot complain. Their interests are not consulted. Have we no duty, no imperial obligation, to every effort to avert the possibility of the absorption of our country into the United States? Can we afford to let economic theories, whether true or false, stand in the way of measures which safeguard the empire against that danger? It is not an abstract question of free trade or protection that the government in this country has to decide, but an urgent concrete issue of imperial unity or disintegration. What its attitude towards the tariff will be shown at the forthcoming imperial conference. If it is an attitude of sympathy and goodwill, of readiness to further any measure conducive to unity, then the danger may be averted, even if it may not be possible to do so immediately. If, on the other hand, the government's attitude is merely one of polite reserve and profuse hospitality veiling its real indifference, then Canada and her sister states will inevitably come to the conclusion that England is incapable of empire, political or economic, and will turn their attention elsewhere."

126 LIVES LOST ON LAKES.
Less Than Death Toll of 1905-02 Went Down With Ships.

Chicago, Dec. 14.—One hundred and twenty-six lives were lost in navigating the great lakes this season. Compared with the loss of 215 lives in 1905, the season's death toll appears small, and yet with but two exceptions it was the largest in the decade. During the year thirty-eight persons were lost overboard, fifteen fell into the holds of vessels and were killed, eleven met their death by machinery accidents on shipboard, two committed suicide and three died from natural causes aboard vessels. Fifty-two were lost when their ships collided, and five were drowned in collisions.

BRUCE FOR AMBASSADOR?
Don't Deny That It's Possible—Who, Then, for Ireland?

London, Dec. 14.—Parliamentary circles here show much interest in the prospect of James Bryce's appointment to the ambassadorship at Washington, and some of the Irish members asked the chief secretary for Ireland if they might congratulate him. Mr. Bryce did not deny the report, but merely replied: "You must not believe everything you hear." Should Mr. Bryce go to Washington, it is by no means certain that Winston Spencer Churchill, now under secretary for the colonies, will take his place in the cabinet, as has been suggested. Thomas Shaw, the lord advocate for Scotland and a man of great ability, is said to be anxious to obtain the Irish chief secretaryship. The fact that filling the vacancy will involve the resignation of Mr. Shaw, whose seat is safe, whereas Churchill's seat, at Manchester, is regarded as being far from secure.

WOMAN DEAD IN FIELD OF THE COLD
A VICTIM OF THE COLD

Lindsay, Dec. 14.—Wednesday morning an aged woman named Mary Heenan, who resided alone in a small house east of Lindsay, was found on what is known as the Downeyville road, was found lying dead in a neighborly field. She had been out on her premises. Last Saturday, a bitterly cold day, she walked to Lindsay to do a little shopping, and taking a short cut home, evidently became benumbed, as a small bundle was under her head, and she seemed to have lain down for a rest.

LORDS REVERSE APPEAL COURT

County Councils Must Pay for Religious Instruction in Schools.
London, Dec. 14.—The house of lords have reversed the decision of the appeal court in the case of the York County Council v. the York Diocese, and holds that the county councils are bound to pay for the whole curricular bill of the religious instruction. The law lords thus uphold the original interpretation of the act of 1902. For us it would undoubtedly, even as the Canadian offer stands at present, mean a very considerable reduction in the preference enjoyed by this country in the rest of the world.

Dangers of a Great City. William Banks of Coldwater, Ont., is another one of those men who come to town and think the only way to see the sights is to drink bad whiskey and hang around York and Adelaide-streets. He wandered into 122-2 West Adelaide-street, and while in the land of nod where some one went thru him for \$30 in cash and a \$75 cheque. When Banks was last seen he was on his way to tell his troubles to the police.

Hugged Against Her Will. Sandvich, Dec. 14.—It cost Henry Martin \$12.83 in the police court for hugging Miss Meinn against her will. The plaintiff said that when she stepped from the car she was accosted by Martin, who gave her a regular bear hug. She remonstrated and he repeated the act. Martin attempted to prove that he was home feeding the baby about the time the plaintiff was hugged.

Pawnshop "Hold-Up" and Robbed. Omaha, Neb., Dec. 14.—Three men today entered the pawnshop of Joseph Sonnenberg, bound and gagged the proprietor, his clerk and a customer, filled a suit case with diamonds and jewelry worth \$8000 and escaped. One of the men, who gave his name as Ed. Elliott of Denver, was captured, and part of the jewelry recovered.

Charcoal Kills Bad Breath

Disagreeable Odor Arising From Indigestion or From Any Habit or Indiscretion, Can Be Instantly Stopped.

Other people notice your bad breath where you would not notice it at all. It is nauseating to other people to stand before them and while you are unaware of it, they are suffering.

Charcoal does other wonderful things, too. It carries away from your stomach and intestines all the impurities that are massed together, and which causes the bad breath. Charcoal is a purifier as well as an absorbent.

Charcoal is now by far the best, most easy and mild laxative known. A whole boxful will do no harm; in fact, the more you take the better. Stuart's Charcoal Lozenges are made of pure willow charcoal and mixed with just a faint flavor of honey to make them palatable for you, but not too sweet.

Send us your name and address to-day and we will at once send you by mail a sample package, free. Address: P. A. Stuart Company, 60 Stuart Building, Marshall, Mich.

Judicial Remarks on Two Phases of Garment Workers' Strike.

Henry Lowndes, John Fleet, J. M. Lowndes, J. C. Eaton and J. G. Merrick, secretary of the Employers' Association, were again called in police court yesterday. They are charged with conspiring to prevent the striking men from obtaining employment.

Miss Michell, typewriter, said she drew up a list of names at the request of Merrick, which she sent to different firms. Magistrate Denison said he did not know of any law compelling people to hire a man who has been expelled from a union.

Robert G. Fraser, Solomon Goldberg and Alfred Bartley, strikers from the Lowndes Co. were before Judge Winchester on the charge of "intimidating." Judge Winchester decided there was no evidence against Bartley and discharged him.

PAPER NAMED HAUNTED HOUSE OWNER FAILS TO GET DAMAGES

Winnipeg, Man., Dec. 14.—A "haunted" house in the north end of the city created considerable comment a year ago last summer. The Press Freeman of this city made a news paragraph of the crowds around the residence and what attracted people there, Mrs. Vagly, owner of the place, which is the finest in that part of the city, entered action against the paper, claiming ten thousand dollars in damages. Several real estate agents testified along the same line in her favor, but Judge Macdonald has dismissed the case with costs.

NERVOUS DEBILITY ESTABLISHED 25 YEARS CURE OR NO PAY

Men, don't wait until your whole nervous system is tottering under the strain and you become a physical and mental wreck, unfit for work, business or pleasure. With special diseases and weaknesses you can make no compromise. You must conquer them with the proper treatment or they will fill your whole life with failure, misery and woe. Unskilful treatment may ruin your system. Avoid those doctors who have no reputation at stake, a few cheap diplomas don't make a good doctor. The worst cases we have to treat are those who have been experimented on by incompetent doctors who posed as specialists. Our NEW METHOD TREATMENT has established a world-wide reputation for us in curing NEURALGIA, BLOOD, SKIN AND GENITAL diseases. This system of treatment has been used by us for over 20 years, and is the reason why some fakirs adopt a name very similar in order to mislead the public. Every afflicted man owes it to himself, his family and to the future generation to get cured safely and thoroughly. WE MAKE NO MISLEADING STATEMENTS OR DECEPTIVE PROPOSITIONS to the afflicted, nor do we promise a cure in a few days in order to secure their patronage. We guarantee in all cases a SAFE, COMPLETE AND PERMANENT CURE in the quickest possible time, without leaving injurious after-effects in the system and at the lowest cost possible for HONEST, EFFICIENT AND SUCCESSFUL TREATMENT.

FREE UNTIL CURED

No man need be weak, no man need suffer from the loss of that vitality which makes life worth living. He can be made strong, magnetic, forceful and lighthearted, confident of his power both in business and society; free from spells of despondency, nervousness, lassitude and brain wanderings. I have a certain cure for Nervous Debility, Varicocoele, Rheumatism, Lame Back, Stomach, Liver and Kidney Complaints, in my world-famed Dr. Sanden Electric Belt with Electric Suspension, and I will give it absolutely free until a cure is effected. How can I do this? For two reasons. I have the certain knowledge that my Belt will cure, and I have confidence enough in mankind to wait for my money until I prove it. This is what every doctor should do, but I am not a doctor. I have been curing thousands every year, and have made a tremendous success doing business on this basis. NOT ONE PENNY IN ADVANCE OR ON DEPOSIT, and if I fail it costs you nothing whatever. All I ask is that you pay me the usual price of the Belt when cured—in some cases not over \$5.00. I will leave you to be the judge, and will take your word for results, or for cash I give full wholesale discount. Forty years' continuous success has brought forth many imitators. Beware of them. You can try the original, the standard of the world, free until cured, then pay for it. Call or send for one to-day, also my two illustrated books giving full information free, sealed by mail.

Nipissing Stock Advances Under Heavy Purchases --- COBALT

NIPISSING IS FIRMER OTHER ISSUES STEADY

Big Buying Still Going on in Nipissing, But Other Stocks Are Dull

World Office, Friday Evening, Dec. 14, 1906.

Nipissing was the only strong feature in the mining market to-day, two points being added to the price over last night's close. Heavy investments were made in the local markets and on the New York curb, and the buying is resulting in a further security of the stock. In the afternoon shares of the company were unimpeded by today's business, an idea that the morning session of the Toronto curb market only 100 shares each of Trethewey and Foster, 250 of Red Rock, and 200 of the dividend issues held very steady. There was no attempt in any one stock to advance quotations above those open to the market believe that prices of the better class of shares are now being depressed to a certain extent, but it is expected that the market will be more active in the next few days.

Local brokers report excellent buying of Nipissing stock again to-day, a price being bid for 15, and that the volume of business was greater at 15 than when Nipissing was at 12.

As stated by the World yesterday, the buying by a prominent operator began at 11:30 a. m. and continued until 1:30 p. m. The same operator continues to assert that next week Nipissing will float heavy buying, and that the market will be more active in the next few days.

Confidence in Cobalt. A leading brokerage house, in an interview, said to-day that confidence was according to their wire dispatches, being gradually restored in the country to Cobalt. Each day that goes by sees a great many big New York investors buying Cobalt. Every trade is crowded, they say, they see the camp, they return to New York convinced that the goods are at the bottom. They tell this to the New York Broad-street curb brokers, and this has a quieting effect on the market.

Speculation in Nipissing. "If the present trading in Cobalt securities means anything," remarked a Toronto stock exchange broker, "it is that practically all the shares in the shipping mines originally bought for speculation are now in the hands of investors, and that from this on the immediate future of prices depends on the volume of new issues. If this volume is large, and of the kind of property, there will not be enough of the good stocks to go around, and the market will soon tell the tale."

Criticism is Unjustified. "The criticism on the part of the Foster management is thoroughly unjustified," said a recent visitor to Cobalt. "The company in a very crude method up to the present, but it is not clear that any time has been spent in getting machinery. Remember that the present directorate is only three months old; they have been in a hurry to get the plant in operation. It is not surprising that the company's titles are impregnable and conclusive."

Glittles Ore Analyzed. Abbott & Newburger of New York, in a circular, say: "Two assays of ore taken from the vein opened up on the 25-foot level in the east shaft, on the Glittles silver mine at Cobalt, one containing native silver, which is the best ore yet discovered in the camp, and runs into heavy value per ton; the other, containing the quartz, silver, and lead, is of the highest quality."

Only Stocks of Merit Stumped. The correspondent at Cobalt of the Boston News Bureau writes as follows: "Yesterday I got down in the cut of 40 of the Nipissing. A short time ago it was not invited to go up, and in this way was not invited to go up. In the cut there was considerable ore to be found. It is looked for carefully, and drilled every 20 feet down, and the ore is found in the face of the drift. This means nothing, except that it is probably one of those bars of ore that is found in the veins of the Cobalt veins. The vein is very strong, but here appears more decomposed than on the surface, a characteristic that distinguishes the main La Rose vein. It will be the iron state of the ore it is impossible to form an idea of value, and a proper examination would mean a large number of assays. The vein has certainly not petered out and it is a remarkably strong vein. From the peculiar way in which it has been opened up, the ore may be good or the work may have been carried to the east of the main pay shaft, and the present condition shown up to deceive. It is all in the game."

The Nipissing holdings, outside of 40, are worth up to \$200,000. The present price of the stock is 15, and if the directors will work the property, there seems any amount of ore stacked and piled about the property. The compressor plant about the mine is in working order soon.

The decline in Foster and Silver Queen has stimulated active buying in these issues, as well as in Nipissing. It is worthy of remark that only the stock of those properties which have merit has been forced down. The wildest stocks have not been affected. The Foster management has been making great strides daily in getting their large plant installed and compressor work being done. By the first of the year they should be opening, when shipments will be rushed. As it is, the Foster shipped a car of ore recently."

New York Curb Market.

Head & Co. report the close and transactions on the New York curb yesterday as follows: Nipissing, 15, high 15 1/2, low 15, bid 15, 15 1/2, 15 3/4, 16, 16 1/4, 16 1/2, 16 3/4, 17, 17 1/4, 17 1/2, 17 SOME FACTS ABOUT BRANDON

The Second Largest City in Manitoba.

It is a common mistake to think that Winnipeg is the only city in the west.

British Cattle Disposed.
 London, Dec. 14.—(C.A.P.)—An influential meeting of the association for the free importation of Canadian cattle unanimously decided to send a deputation to the British market with the object of getting him and the cabinet to redeem their pledges. The speakers dwelt on the necessity of infusing cheap meat for the people. Balfour Henderson of Glasgow and others stated at least 10 per cent. of the milking cows here had tuberculosis.

New Liskeard Blaze.
 New Liskeard, Dec. 14.—The Haynes Block, the New York Restaurant, the corner of Whitewood-avenue and Armstrong-street, were completely destroyed by fire yesterday.
 Breens' restaurant, the New York Chinese Restaurant, Frank Haynes' real estate office, C. W. Walkinshaw's hairdressing establishment, and Ed Beal's barber shop were all burned. The Haynes Block was insured for \$80, and the loss will probably be \$200,000. Walkinshaw saved his stock, but lost the fixtures, which were fully insured. The Breens' loss everything. Mr. Breens turned out in the snow in his bare feet to give the alarm. The New York Restaurant places its loss at \$500.

Diamond Oil Company a Great Enterprise

That the Diamond Oil Company is a money-making proposition that must take its place among the great oil successes of California is a fact so clearly indicated, so amply and conclusively proven, that no one familiar with the California oil industry can question it. That the Coalinga Oil District is one of the most phenomenal oil fields in the world, and that it has a future second to none, is another fact that well-posted oil men freely admit. The growth of the Coalinga field has been steady, uniform and the most healthy and satisfactory nature. It has never seen any sensational boom, nor characterized, some of the early Eastern fields, the Texas field or the Kern River field of California, but has gone along steadily on a basis, expanding its limits, increasing its production year after year, until it occupies its present prominent position, while its lands have increased in value from a few dollars to as high as \$200000000.

The oil industry of California is just entering on a period of its greatest prosperity. The demand for oil is growing at a tremendous rate. It is increasing by leaps and bounds. Oil fuel has for years demonstrated its superiority over coal. It has superseded coal almost entirely throughout the Golden State, and as new avenues are being opened up to its use and additional consumers of coal are adopting oil fuel, the question that confronts the consumers is, Where are we going to get sufficient oil supply for this increased demand? Increased demand, as everyone knows, means higher prices for the product. At the prices at which California oil is selling in San Francisco, it is from 50 to 70 per cent. below its equivalent in coal. That means the consumer could pay three times as much for it and still save money on his fuel bill. These facts also mean that the producer is going to get more for his oil; that he is going to make larger profits, and that those interested in producing companies are going to share in those profits. From any point at which the matter may be viewed, it seems certain that great gains have been the profits of the industry in the past, wonderful as its record has been, and that the future is even brighter. Further advances may be expected frequently. The payment of regular dividends will begin as soon as a few more wells are completed and the net earnings justify the payment of dividends. These dividends should increase steadily as the properties are more extensively developed. Many other California oil companies have paid enormous dividends; they have made their stockholders wealthy; they have yielded returns almost beyond belief. We believe that the California Diamond Oil Co. is starting out under as favorable conditions as any of the most successful companies in the state.

This is an opportunity for investors to share in the immense profits of California oil. IT IS AN OPPORTUNITY THAT NO INVESTOR SHOULD NEGLECT.

Man Pulled Out of Niagara River
 Allowed to Die.
 Niagara Falls, Dec. 14.—Shortly before 6 o'clock last night, Charles Wadsworth of Queenston was pulled out of the river in front of the dock at Lewiston. His rescuers saw him struggling in the water, and he was pulled to a ledge, and this was landed with him. Wadsworth was laid out on the dock. The coroner's jury will be held at 7 o'clock.

WHIRLED AROUND SHAFT.
 Belleville, Dec. 14.—A probably fatal accident occurred at the rolling mill today Robert G. O'Malley was whirled in a shaft when his clothing was caught in the revolving machinery. In an instant he was drawn up to the shafting and whirled around at a rapid rate.
