Case Involving Rate Given Oil His Criticism of New Wharf at Company Has Unique Features.

By a Staff Reporter OTTAWA, Ont., Feb. 11 .- That the Canadian Northern Railway system is giving the older roads some real comnetition by the lower freight rates, ind that the Canadian Pacific and Grand Trunk are combining to check such competition, was made plain in an interesting case which has been submitted to the Dominion board of submitted to the Dominion board of railway commissioners. It appears that the Imperial Oil Co. is constructing big refining works at Regina, which will cover sixty acres, and to which crude oil will be brought from Wyoming. The company had intended to bring finished steel for constructing their plant at Regina from Pittsburg, but finally decided to bring the crude steel to Sarnia and there have it fabricated. It was claimed before the railway commission that for this purpose the company obtained a this purpose the company obtained a rate from Pittsburg to Regina with a over at Sarnia. However that be the Grand Trunk and Canamay be the Grand Trunk and Canadian Pacific declined to carry out the illeged agreement and fixed the same rate which was the ordinary rate, without any discount, from Sarnie to

Then the Canadian Northern entered the field and quoted a rate to the Imperial Oil Co. from Toronto to Regina which was so low that the company got practically the rate they were contending for. In order to get the fabricated steel from Sarnia to Toronto the oil company shipped it by the Canadian Pacific and Pere Marquette. It is said that the Canadian Pacific, hearing of this held up some of the steel at London for three weeks until ordered to release the same by the board of railway commissioners.

same by the board of railway commissioners.

The next step was an application to the board by the Canadian Pacific to have the low rate established by the Canadian Northern between Toronto and Regina disallowed. Upon that application the case came before the board. The hearing occupied two days, and at fits conclusion judgment was reserved.

Novel Plea.

Ordinarily the Dominion Railway Board is appealed to for relief when freigh rates are considered too high, but this case presents the novel feature of an appeal against rates because they are too low. Taken in connection with the recent rate war between the Canadian Northern in British Columbia, this late move indicates that the Canadian Northern is out after business and that the public is likely to benefit from real competition in freight rates. The judgment of the railway commission will be awaited with keen interest, not by the companies directly concerned, but by business men all over Canada. It is said that the cut in the freight rates on steel above men-ticned means a saving to the shipper of freight rates on steel above men-

These positions are situated south of Frise. Discontend with the French progress, the Germans launched an attack last evening, in which violent efforts were made to get up to the French positions, but they were stopped short by a barrier of fire and infantry salvos, suffering heavy losses over their failure.

In Champagne, the French launched an attack with hand grenades at a point northeast of the Mesnil knoil, and they took about 40 prisoners.

Elsewhere on the front, heavy artillery fire was directed by the French against the positions of the enemy. A German blockhouse near the Passchendaele Canal, in Belgium, was damaged, and a munition depot was exploded. German works and convoys in the region north of the Aisne were efficaciously shelled. A German blockhouse and some observatories in the Bois Buchet sector, on the Meuse heights, were shattered. The Germans threw ten heavy-calibre shells in the direction of Belfort.

Against Change.

Rev. J. Lynn could not see any advantage in changing the name. N. B. Detweller said it was Berlin's first duty to fifth the ranks of the 118th Battalion and then have a registrar of aliens appointed. The name Berlin was offensive to the people of Carada and it should be changed, not for the sake of commercialism, but to show the city's loyalty.

Committee Will Consider Removing Street Lighting From Fire Department Control.

Works Commissioner Harris' recom nendation that a storm overflow sewer he constructed on Queen street, between Pape avenue and Leslie streets, and that the cost of same be charged to the ratepayers of the vicinity as a local improvement, was the cause of a large deputation waiting on the works committee yesterday afternoon. Thomas Fhelan of the firm of Robinette, Godfrey & Phelan who addressed the committee on behalf of the deputation, urged that the storm sewer in question should be charged against the city as a whole, in the same way that the storm rowers constructed un-der the bylaw carried in 1910 were charged, and pointed out that as the residents in the section affected were raying their share of the general city system of storm overflow sewers, they should also share the benefits to be derived from same. Commissioner Harris informed the

committee that the new sewer would cost about \$43,500, of which amount \$24,710 would be paid by the ratepayers and \$18,790 by the city at large.

The slain man, it is said, had been suspected for a long time of spying for the Germans. It was reported that he, together with an individual of the same stamp, had made a specialty of enticing young men to take service in the Belgian army and then, when they were on the point of leaving the county. were on the point of leaving the country, of delivering them to the Germans. But recently, it is stated, proof had been obtained that it was De Rode who betrayed Miss Cavell to the Germans, as well as the architect, Baucq, who was put to death with her From who was put to death with her. From that moment De Rode's death sentence was signed. There is, it appears, a sort of society in Belgium whose mem-bers have sworn to levy "justice" on the local council and especially of its those who do spying service for the activities in regard to "Mother's Pensions." ### LOEW'S THEATRE.

The clever comedy star, Ed. Bondell, a noted funmaker, with his company in his comedy offering, "The Lost Boy," will be the feature attraction at Loew's Yonge Street Theatre the coming week. In this sketch Bondell appears as a country boy and impersonates a child of 10 to 12, in spite of the fact that he weighs almost 300 pounds. Marie Fenton, one of the prettiest girls playing the Loew circuit, will be another attraction on this bill. Her act will be a revelation in beautiful gowns and new songs. The Scoville Dancers, a Chicago organization with a company of twelve people, will offer a terpsichorean spectacle. The old-time favorite, Ray L. Royce, veteran character actor, present-Royce, veteran character actor, presenting a series of character impressions, will be another big feature. Clark and McCullough, comedians; Reddington and Grant, called "The Bounding Tramps," trampoline performers, and other acts will complete the bill.

### THE STRAND THEATRE.

The feature at the Strand Theatre for Monday, Tuesday and Wednesday next will be "The Fringe of War," one of the very best of dramas on the war, with Jane Gail as the star. The photo-play pulsates with interest. It is the most convincing drama on the German spy menace extant, and the battlefield scenes are magnificent. The play grips and holds the attention from start to finish. The bill will also comprise the two-act Charlie Chaplin comedy, "A Night at the Show."

### MASSED BAND CONCERT.

massed band concert.

"The United States has suffered terribly in lost prestige in the last few days. But no one imagined that matters had been so manoeuvred by our statesmen, supine under the influence of the German ambassador, that we were now posing as a sort of half-witted being, who had been slapped in the face repeatedly by the German diplomatists at home, and yet who had been dragged into a league with Germany for the destruction of merchant ships that do not conform to disarmament after March 1.

MASSED BAND CONCERT.

On Saturday evening next, at Massey Hall, the Citizens' Recruiting League will give a massed band concert for the purpose of raising money for the bands of the overseas battalions now stationed in Toronto, waiting to go to the front. A Copy brass and reed choir, consisting of five bands and two hundred players, will be on the platform. Some of the best bandsmen in Toronto and Ontario are members of the overseas bands and that the concert will be a decided success goes almost without saying. Every day theatregoers are acknowledging more and more how much they owe to the motion picture in the presentation of plays which would otherwise be denied the opportunity of seeing. The big crowds of yesterday proved it. "The Elindness of Virtre" imparts a lesson in common sense under the guise of an intense y interesting story of family life. There is nothing sordid or morbid about it. Its moral might be found in the wisdom of calling 'a spade a spade" or the folly of helding the naked truths of life from the children. In this case, the play shows what happens to a young woman who was deliberately kept in ignorance. The story will do more good and is more practical than any sention that could possibly be delivered. and Contempt of Law It would be impossible, of course, to trace here the history of all these fruitless attempts to curtail the liberty of a free people. Suffice it to say that, after a longer or shorter experience, the people of these respective States became convinced of their utter futility. Especially interesting, however, is the history of these attempts in Massachusetts and Maine. Massachusetts, for example, from Colonial times had been struggling with the liquor problem, and on her old statute books are to be found license laws of various kinds and degrees of stringency. About the year 1850, however, Prohibition sentiment was sweeping the State, and therefore in 1852 a prohibitory law was passed. This was repealed in 1854, and re-enacted by the famous "Know Nothing" Legislature of 1855; and so for the next twenty years Massachusetts had Prohibition; but it was such a farce, and drunkenness, corruption and contempt of law had increased to such a terrible extent, that, under the leadership of the foremost men of the State, such as

As to Maine, the efforts of the early Temperance men were directed entirely to moral suasion and individual abstinence; but after a time the vicious principle crept in that men could be kept sober by legislation, and under the leadership of Neal Dow and others prohibitory legislation was enacted. Even a short time after its introduction, however, it was seen that this failed absolutely in its object, as was acknowledged by its sponsors again and again; but, unfortunately, politicians saw in it a fruitful field for them to exploit, and during the last half century Prohibition has been so ex-

ploited in the Pine Tree State. Just now there seems to be passing over Canada and many parts of the neighboring Republic a wave of prohibitory fanaticism, and we are told that the whole country will soon be "dry" and the liquor problem solved forever. Such being the case, therefore, it is well

to remember that similar waves have risen and subsided, not once, but many times; that, as we have shown, very many of the most important States in the Union tried the experiment years ago, found it a failure, and repealed it; and further, as may be incidentally mentioned, that these States are among the most progressive, populous, and intelligent of all. For example, as to population, six 'States-Idaho, Arizona, Oregon, Colorado, North Dakota, and Oklahoma-have, altogether, fewer inhabitants by over half a million than has the one "wet" city of New York, while as to wealth, possibly one street in the city of New York could buy out all these "dry" States combined.

State, was introduced.

We Must Not Invite Defeat

There is apparently a feeling among the leaders of the allies and in the buyer and the seller. The seller knows minds of the people of the allied na- the value of his property. Unquestionably the long drawn-out struggle gets on the nerves of everybody occasionally, and the Politicians suffer as much as the military men themselves. There have been several "get together" movements with the tragedy of the Lusitania. among the military men and at pres- Nobody now, except it be President ent the war councils of the ailies are Wilson of the United States, imagines have ever been. A similar movement in the meantime, and when she anis expected to bring the diplomatic representatives of the allies in closer frightfulness, there will not be the touch with each other, and the high governmental officials and ministers belief that nothing human could deare learning that the most instant action is required without dangerous delays for consultation which shoul i be immediate when necessary, and theree, in the hands of those to wnom a military situation, and it is depending upon it that there should be anything to prevent the utmost expe-

In England a sign of the times is which has great weight among the non-conformists and moderate Liberals generally, that Lord Northcliffe should be given a hand in the government, and his great influence co-opted for the benefit of the nation. The suggestion is that he be made minister of aviation, a subject to which he has devoted much attention and immense sums of money. The efficiency of the aeroplane service in Great Britain is indeed credited to efforts of his when no one else would assist. Canada has no Lord Northcliffe, and the government is still apathetic on this essen-

Probably the operation of the Compulsory Service Act is beginning to wake up Great Britain as nothing else could do. When the people understand that they must fight or incur defeat they do not hesitate. The masses of the people still look to the government for a lead, unconscious of the fact that the government is simply themselves, and the governments are usually willing to accept this view, altho they do not always display leadership. The action taken in the matter of compulsory enlistment has showed the people what is really needed. Even the registration of the eligible men helped to point to what was coming and stimulated recruiting. We need the same stimulus in Canada, and need the same leading, so that the people shall be compelled to recognize the necessity for all possible enlistments.

There are symptoms that the government may yet take some step in advance. There has been a tightening of the reins since the Ottawa fire, and the authorities are beginning to see that an alien enemy at liberty to do what he pleases in the country is a source of danger quite as great as tho he were in the enemy trenches. In Ontario the license commission board has taken proper action in deciding that no unnaturalized alien enemy shall hold a license under the government. Our governments do not exist to grant favors to our enemies. Another sign of the times is the decision of the authorities to enforce the law against deserters. If we keep on we may soon arrive at full consciousness of the fact that we are engaged in the greatest war of history, and that if we do not win it the other fellow will. Surely neither our governments nor our people wish to invite defeat?

#### Negotiation Better Than Arbitration

When The Evening News suggests when The Evening News suggests that the hydro radial trolley lines BEAURICH CIGARS should be compelled to buy out any existing lines that they may parallel, a new policy is being brought before the people in dealing with railways. It has never been regarded as necessary to suggest that the steam roads should have the option of being bought out before they were subjected to competition. The Conmee Act may be cit-

between the public utilities provided for in the Conmee Act and the electric railways, in which there is not and cannot be a monopoly of transportation as long as steam roads and motor traffic continue.

The suggestion of The News will bear a lot of thinking over before the people are asked to accept the principle of loading up the hydro radials with the cost of any electric road into whose territory they may come, whether it be desirable to take the old route or not. Even if this principle were admitted the question of arbitration will bear a lot of thinking over Arbitration, as Toronto very well knows, is more or less of a delusion The proposal that the chairman of the hydro commission should meet a representative of the company to be bought out, and allow a third man to decide between them is not a wise move, nor a dignified one for the chairman to be put in.

The Hydro-Electric Commission has been fairly successful in all the negotiations it has carried on for various purposes, and there is no reason to believe that it cannot be equally sucessful with negotiations for the purchase of any lines that may be deemed desirable for inclusion in the hydro radial system.

It is not long since Sir Adam Beck announced that negotiations were proceeding for the acquisition of the Meropolitan road and other radials serving Toronto. These negotiations are still on, and we do not see how they could be furthered by proposals for arbitration. The two people who know the conditions of a purchase are the

#### Germany's New Threat

Germany was not generally believed when last year her policy of frightfulness was announced, eventually begun more nearly consolidated than they that Germany has changed her nature nounces a resumption of the policy of same incredulity, based on the natural scend to such barbarity, as met the German declaration of a year ago.

year, those who are on the watch for her methods will also be prepared to deal with them. The British navy has Quick action is frequently learned a lot about submarining in twelve months, and the Germans know ntoie when such great stakes are that the British navy has learned. The Crown Endeavoring to Find escape of the cruisers said to have slipped out of Kiel and set off for the trade routes to harry British commerce, cannot advantage the German cause very greatly, for the British navy must be on their track long since, and probably before the Appam turned up at Norfolk. At any rate nothing has been heard of these cruis ers. Nor is it easy to understand how they are to keep themselves in fuel, even tho they depend on their piratical methods to replenish their coal bunkers from the merchantmen

they capture. The United States does not show u well in the recent turn of the negotiations over the Lusitania. The president is evidently set on peace at any price, and Germany knows it. As soon ly 340 exhibits have already been put as the slaughter of the Americans on the Lusitania has been regularized Germany will seize the precedent set and massacre as many more Americans as may be convenient, relying on the settlement of the matter at so many marks a head.

### What's in a Name?

A funny sequel to the revolt of the man" attached to it has now to be recorded. The English composer, Edward German, has a considerable reputation, and there is nothing German about him but his name. Everybody was supposed to know this, but not many people are aware that it was thru the devotion of musical people to German music that his name came to be "German." He is really a Shropshireman, and had a name about which there could be no mistake on the score of British origin. But German music attracted the public more than English music, for even Canadians cannot believe that anything good could come out of their own country. So his name was changed to "German." There are other English musicians and \$234. composers, it is stated, in the same fix. They changed their names in order to catch the favorable wind of pro-German musical sentiment which existed before the war. Now they are taboo ed because they are German, yet they ed because they are German, yet they Morgan arrived in London this morn-cannot change their names back, as ing by special train from Falmouth, they have gained their reputation under the alien cognomen, and their works sell under that label. It is difficult to say which are more to be here by Lord Cunliffe, governor of the pitied, the men who changed their Bank of England. names, or the people who created and followed the fashion which made the change appear desirable.

### THE GODDARD CASE.

Editor World: In yesterday's papers there was a report of the senencing of Louis Styles to the penitentiary for two years for breaking home of Arthur Goddard, 141 Lappin avenue. Styles had co-habit-ed with Mrs. Goddard since her husband went away to the front, and in November last she gave birth to a child whose father was the man sentenced. In reporting the case it was mentioned that Mrs. Goddard had been receiving \$70 per month from the gov-ernment and patriotic fund. As your readers are aware the separation allowance is \$20. The amount granted by the patriotic fund to Mrs. Goddard and the three children was \$20.50 making a total from these two sources of \$40.50; in addition to this is the ssignment of the pay of the soldier, which is usually from \$15 to \$20 per month; it is, therefore, evident, that Mrs. Goddard could not have received the amount , stated, \$70 per month. The fact we wish particularly bring to the notice of your readers is that the Toronto and York Patriotic Fund Association cut off its allowance to Mrs. Goddard from November, that immediately after the first evidence of her guilty conduct with Styles, not only so, but steps were taken by the association early in December to inform the department at Ottawa of the condition of affairs, and as a result the government allowance was also

I may say that the Goddard case, with all its regrettable results, is a good example of the care that is exercised not only in protecting public funds entrusted to this association, but also in safe guarding the honor and t of the absent soldier. I am instructed to ask the favor of the insertion of this note.

OTTAWA, Feb. 11.—That B. Law, member for Yarmouth, lost his life in the commons fire in an effort to rescue some valuable papers which were in his overcoat pocket, is evident from information given Dr. T. B. Flint, clerk of the commons, by a messenger named Bailey. This man states that Mr. Law got out of the telephone booth and downstairs into the messengers' corridor safely. There thought it possible to secure his coat, contained certain valuable documents. Bailey did not care to risk it and Mr. Law disappeared in the direction of the winding iron stairway to the commons floor. That was the last seen of him.

# GERMANY IS RESORTING TO PIRACY AND BLUFF

London Newspapers Comment Scathingly on Berlin's Latest Announcement.

U. S. CANNOT DECEIVE

American People Realize That Their Government's Energies Are Purely Vocal.

LONDON, Feb. 11.-The evening newspapers, commenting on the German memorandum regarding the future treatment by Germany of armed merchantmen, refer to it as "piracy" and "bluff." The Pall Mall Gazette

The American public themselves realize very clearly that their government's energies are purely vocal and that the defence of the world's civili-zation against piracy and barbarism rests entirely upon the shoulders of the allies. Whatever promises may be given to President Wilson about the sinking of merchantmen will be rendered quite nugatory by the new the-ory proclaimed or behalf of Admiral Von Tirpitz. The German admiralty is horrified at the spectacle of merchant shipping carrying guns for its own defence. It is an outrage upon international law that they should try to inflict 'so much as a scratch uron to inner so much as a screen upon submarines which torpedo them drown their passengers and crews and shell their crowded lifeboats. # STORMY WEATHER

The stormy, blustery weather which we have during February and March is extremely hard on children. Conditions make it necessary for the mother to keep them in the house. They are often confined to over-heated, badly ventilated rooms and catch lds which rack their whole system. To guard against this a box of Baby's Own Tablets should be kept in the house and an occasional dose given the baby to keep his stomach and not fail to break up colds and keep the health of the baby in good condilon till the brighter days come along. The Tablets are sold by medicine Porter, news editor of The Winnipeg dealers or by mail at 25 cents a box Telegram for several years, has rerom The Dr. Williams Medicine Co.-

Yesterday afternoon's camp orders issued by Brigadier-General Logic contained the amnouncement that a number of officers attached to the various battalions and the N.C.O.'s will report to the senior musketry officer, second division, Victoria College, in Queen's Park, for a two-weeks' course in musketry. The classes will commence at 2 p.m. Thursday, Féb. 17. The N.C.O.'s not quartered in this city will be placed on subsistence and will be provided with quarters and rations at the college, at a rate which will be covered by their allowance. These N.C.O.'s are required to bring their personal kit and blankets. The appointment of Lieut. D. G. McDonald, C.S.C.I., to the 162nd Overseas Battalion, C.E.F., with effect Jan. 28, is provisionally approved.

Officers of battalions being formed in Berlin. Ontario, have been in the habit of coming to Toronto for recruits. Yesterday the military authorities of No. 2 division issued an order denying the Berlin battalions the privilege of obtaining recruits in this city.

Companies Plead Times Do Not Warrant Increase, But Carters Are Determined.

A number of teamsters who were in-terviewed by a World reporter last night about the teamsters' strike that started yesterday, stated that there was absolutely no foundation to the rumor that the strike had been started by a pro-German organizer.
"We are on strike because we said we would go out Feb. 10 if we did not get our demands met by that time. All the large transportation companies were notified Jan. 31 that if they did not give us an increase of \$11 a month by Feb. 10, we would refuse to work," said one of the strikers.

Another teamster stated that it was

amother teamster stated that it was impossible to live on \$54 a month, that they were getting at the present time, as the cost of living had gone up over 10 per cent. during the past year. "The companies," he said, "hold us responsible for the collects on freight, which amount to from \$50 to \$150 a day. We are also compelled to get two signatures for every delivery, and it those signatures are not received we are laid off a day to get them. We also have a greivance against the cartage companies for laying us off three age companies for laying us off three days a week last fall. At present we are often at the stable till nine o'clock Saturday nights, altho we report for duty at 6.15 a.m., and many a time we have to be at the stable for two hours on Sunday or get fined \$1.00.

No Benefit to Men.

A driver for the Dominion Transport Co. said: "If the City of Toronto pays its drivers \$15 a week and think that a fair living wage, why can't cartage companies pay the same. They promised us a raise if they got the freight

mised us a raise if they got the freight rate increased. They got the rate increased two years ago and we have never had any benefit yet." There are 353 men out on strike. They are drivers for the Dominion Transport Co., Limited (C. P. R.), 160; the Shedden Forwarding Co., Limited (G. T. R.), 80; Hendrie and Co., Limited, 75; Canadian Northern Transfer

Co., Limited (C. N. R.), 88.

The transportation companies have sent out a notice to their customers that owing to the fact that there were not sufficient teams, they are unable to haul their goods, and that they would reimburse them to the amount that they charged for hadding the goods, if they carted them away.

Mayor Church, who is investigating the states to the sent the good be would take steps to the strike, said he would take steps to bring about a quick settlement between the men and their employers.

The freight agents of the three railways concerned all agree that the present tie-up of transportation is serious as there are no teams from private firms available to any extent. The transportation companies have not made any effort to secure men to

drive their idle wagons. They hope to be able to make a settlement with the men, pleading that times will not warrant the increase. The men, on the other hand, are determined, they say, to stick out for the increase, and will not go back to work until they get it.

## TORONTO'S TANKARD SKIPS WERE BEATEN

More Surprises in the City Championship Competition-Curled on Keen Ice.

Fifteen more rinks retired from the city championship competition last night on keen ice. There was one default and one game scheduled for Lakeview was pos poned till next week. Thus 33 of the original remain. A feature was the retirement of the two Toronto Club skips. Messrs. Wetherald and Tait, the former by a single shot by Dr. Burns, and his side partner only scored one shot against Harold Beatty in ten ends and gave it up. The Aberdeen rink, skipped by Fred Gliding, put up a great game and will bear watching. Tom Rennie had a long margin on Singer of Lakeview his rink getting together towards the finish. Graham of Lakeview gave Rice, Granite, a hard battle. He fell the 11th and hurt himself, but finished and was beaten on an extra end. The four games at the Granite were all close.

—Inter-Catholic—

BROCKVILLE, Feb. 11.—Leading all the way, Queens were never in trouble in their Senior O.H.A. game here tonignt with Brockville, the final score showing 13 to 4 for the students. The Brockvilles, despite their lack of condition, made a gallant fight, and played a strong defensive match. They could not withstand the continuous bombardment of their nets, tho. Laing gave a very remarkable exhibition of goal-tending, his work preventing Queens from running up a cricket ecore. The ylctors took four goals in the first period, three in the second and six in the third, when Brockville was practically played out. The match was clean through and marked by excellent team play on the part of Queens. The line-up:

Belleville Won First Game From St. Andrews

BELLEVILLE, Feb. 11.—The first of the jumor O.H.A. semi-final home and home games was played here tonight between St. Andrew's College and Belleville, the result being a win for Belleville by a score of 10 to 4. The line-up: Belleville (10)—Goal, Nurse; defence, Hollaway and Linn; rover, Whelan; centre, Arnott; wings, Armstrong and Green. St. Andrews (4)—Goal, Willoughby; defence, Whittaker and Yeull; rover; Wallace; centre, Watson; wings, Cameron and Bole.

Referee-Whitehead. ELMIRA BEAT WATERLOO.

ELMIRA, Ont., Feb. 11.—The return O. H. A. game played here tonight between Waterloo and Elmira resulted 6 to 5 in favor of Elmira. The first and second periods were in favor of Waterloo, but in the third period the Elmira boys realized that if they were to win they had to play, and went at it and scored five goals. The line-up:

## BE SPORTS AND HELP THE WORLD SOX DAY

Mr. Reader, do you know that your comrades on the battlefields of France are asking for sox? Do you know that when your comrade leaves for the are asking for sox? Do you know that when your compade leaves for the trenches he is only given two pairs of sox, and unless he is looked after by his friends at home, he will be barefooted in a short time? Now all the boys don't get sufficient sox, and somebody must look after their wants. The World is making this appeal for sox from you, Mr. Reader. The ladies, God World is making this appeal for sox from you, Mr. Reader. The ladies, God bless them, have done wonders in this World sox campaign, but the men nave yet to be heard from. Just to give you a chance, Mr. Reader, The World Sox Day Committee has made arrangements with the Robert Simpson Co. to put on a sox sale for soldiers on Monday and Tuesday. Now all you have to do is to buy as many as you can afford and send them in to The World Sox Day. Put a note in the toe with your name and address on and the reply you will get back from your soldier comrade will be worth all you have spent. The World Sox Day Committee will see that all sox go direct to the Canadian boys in the trenches. Now do your bit. Last day Tuesday, Feb. 15. nadian boys in the trenches. Now, do your bit. few fans who will wager on T.R. & A.A.
to deteat Argos if Gibert is unable to
step between the posts.

Both the Toronto and Quebec Clubs made overtures for Goalkeeper Sammy Herbert, and the Ottawas offered to trade him for a right wing man, Marks, McDonald, Skinner or Corbett Denneny. That was as far as negotiations proceed-

President Quinn has confirmed the arrangement that if Torontos win the second section of the N.H.A. schedule, the blue shirts will pay the winners of the schedule for a tropny and \$2000, homeand-home games, goals to count.

## MAKING JOB HARD FOR FIELDER JONES

Louis Fans Expect Too Much and He Must Capture the Flag.

ST. LOUIS, Feb. 11.-Friends of Field-Jones are making his comeback the fere. By showing too much enthusiasm these friends are adding a double burden to the work of managing the Browns for the man who is undoubtedly one of the greatest leaders the game has ever

greatest leaders the game has ever known.

St. Louis fans have been led to believe that they are to have a permant nlat year. The combination of the old Browns and the Sloufeds should make the new Browns so strong, in the estimation of some of the St. Louis critics, that Jones will have no trouble at all in running away with the bunting.

That this is false doctrine can easily be proved. The Browns would have to be a perfect combination in order o win this year's pennant in the American League. They are going to have to fight three teams that were in last year's fight, and that should be still stronger this year than a year ago. Jones does not know yet just what the results will be with his new combination, altho it does look better than the ordinary. Basketball Champions Tie game for the championship of the western section of the Junior City Playgrounds Basketball League was played on McCormick floor last night between St. Andrews and Osler. The latter team won 10-4. For the winners Sally Snider and Nessie Tosky were the chief scorers, while for the losers Dorean Reid and Kitty Anderson played a good game. Teams:

The Red Sox, White Sox and Tigers are three touch teams for the Browns to

**OUR ROXY ROACH** 

The Red Sox, White Sox and Tigers are three tough teams for the Browns to battle the coming summer. Last year's St. Louis team could not win many games from them. If Jones can win twice as many games the coming season from these three leaders as the men under Rickey did last year he will be doing well. Even this number of victories will give the Browns only a very slight advantage.

Won Five in Twenty-Two.

In the series with the Red Sox last summer the Browns won only five out of twenty-two games. With the White Sox the Browns won only four out of the season's series of twenty-two games. Against the Tigers the Browns did much better, for they took nine out of the twenty-two games. The Browns therefore won eighteen games out of the sixty-six games played with these three leaders. By doubling the number of vic.ories for the coming year the St. Louis men would win thirty-six out of a total of sixty-six, which would be a little more than one-half of the season series.

No one will wager much money on LOUISVILLE, Ky., Feb. 11.—Roxy Roach, shortstop, who started last year with the Toronto club of the International League and later jumped to the Buffalo Federals, has been secured by the Louisville American Association club. # BASEBALL HAS TREATED

Indian Pitcher Collected a Fortune in Time He Was in Big Leagues.

A few figures relative to Chief Bender's earnings in baseball compiled from actual contracts the Indian has enjoyed since becoming a big leaguer, will dispel the feeling of sorrow for the redskin over his "bad treatment" from the majors.

majors

Bender started out with the Athletics in 1903 and worked for that tribe 12 years. His average salary was \$4500 a season, starting with about \$2000 and ending with \$7000. Thus the chief collected about \$54,000 for his contracts in eddition to \$11,764 for world series extra cash. Counting the \$6000 he received from the Feds for part of last year, his total runs well over the \$71,000 mark. This gives him an average of little more than \$6000 a year for 13 years, for a trade that eccupied only six months out of the year.

Bender is engaged in several other enterprises, one being the conducting of a sporting goods store in Philadelphia, so that there is little need of sympathy for him now that he has reached the end of his string. Bender was never credited with being too careful of his physical condition, either, so that he took life free and easy, cleaned up a fortune and is far better off than a lot of his fellow workmen.

Pat Moran has made up his mind that he is not to have an easy time of it this year in landing the National League flog, so he is grabbing for all the help he can.

George Stallings is one of the busy men at the National League meeting this week trying to land a catcher and one or two other players to boost the Braves.

Steven O'Neill of the Indians caught 115 games last year and is a candidate for at least that many more the com-ing season. It is a much harder prob-lem to stand behind the plate with a los-ing team than when the team is win-

J. PURVIS,

Davenport and Plank have not come across with their contracts for the coming season, but Fielder Jones is not worrying, as he feels quite certain they will come to time,

The Los Angeles Club is to get three players from the Pittsburg Club for allowing Jinamy Callahan to break his contract to manage the Angels for next season. The three players have not been named as yet.

Otto Knabe, former leader of the Baltimore Feds, has been notified that the Baltimore Club has repudiated his contract, which has one more year to run, and he is free to sign wherever he wants to.

Hugh Jennings says there will be six teams in the American League race next year, and the team that wins ninety games will land the flag. Every team, except Cleveland and Philadeiphia, will be in the race, according to the Tiger

John McGraw is to have some gay color uniforms for his ball players next season. The white home uniforms will be decked out with red and black stripes, while the raveling uniforms will be of light gray and will have the red and black stripes worked into the material. George Twombley of the Reds is the property of the Baltimore Orioles.

Mike Kelley, the St. Paul manager, who came very near landing the American Association pennant last summer with a borrowed team, is forced to go out and scrape up a ball team again this year, for all of his men last fall were claimed by the clubs that had loaned them to him.

There will be ten youngsters from the Pacific Coast League to get a tryout in the big leagues next year. This is a much larger number than usual to come from the coast league.

Alas, poor Roger Bresnahan. He is condemned to go to the office of the Chicago Cubs every two weeks and draw s pay. Poor slave.

CHICAGO, Feb. 11.—Jess Willard, it was said tonight, will defer departure for New York for two or three days more until he has recovered from the cold from which he has been suffering for several days. It is said there is nothing to do with the management of several days. It is said there is nothing to do with the management of the Cleveland Spiders. He says he won't let Weeghman out of his clutches until he is assured justice.

Sharp Upturn in Price of Wheat Took Place When Trading

CHICAGO QUITE ACTIVE

Two and Half Million Bushels Sold in United States in One Day.

CHICAGO, Feb. 11.—Strength show-ed itself in the wheat market today as a result of continuance of European lemand. The close altho unsettled was 1-4c to 3-4c net higher, with May at \$1.28 1-8 and July at \$1.21 1-4. Corn

\$1.28 1-8 and July at \$1.21 1-4. Corn intehed 1-4c down and oats off 1-8c to 1-4c. In provisions the outcome was 5c to 15c advance.

Sharp upturns in the price of wheat took place as soon as trading began. Liverpool despatches were at hand telling of more urgent need of supplies for British millers, as shipments are a transfer are a transfer and Australia appear. ing interest and satisfactorily secured. Stock and inventory may be inspected disappointingly small. Offerings here at first proved scanty, but after values had scored a gain of more tuan to fiberal a scale that the advance seemed likely to be wiped out. Announcement of some new export hisiness caused a rally, but lively speculative selling brought about further

It was not until after the wheat market had closed that definite estimates of export sales put the total at 2.500,000 bushels. This big egg cante, the included 1,500,000 bushels, said to have been purchased by the Greek Government. Complete verification of such a sale having been entirely negotiated, could not be obtained.

Provisions seemed to be desired by a new set of investors. Chief attention was given to ribs. It was said the cash trade was continuing to improve.

NEW YORK CURB.

Mamilton B. Wills reports: During the afternoon the New York Curb developed an irregular tendency, except in the last half hour, when the entire lost of stocks railed and the closing was strong.

The buying of the coppers continued and the features of the day in this group were Magma, which sold up to 17½, and Butte Copper and Zinc, which attained a high of 9. Both stocks, however, eased off a little toward the end.

Without exception all oils were in great demand and Sapulpa and Cosden closed with fractional advances.

Mining shares developed no great activity during the day, with the exception of Success, which recorded a new high of 35 upon heavy buying direct from Spokane.

WINNIPEG GRAIN MARKET.

WINNIPEG, Feb. 11.—May wheat closed %c today, after a fluctuation of 14c; July was %c higher. Oats were up %c and flax was up 1%c to 1%c.

The market was rather integular, the opening being top heavy. Export houses bought freely thruout the morning. Cash trade was quiet. quiet.

TIMISKAMING HAD SATISFACTORY YEAR

Advance Infrmation From Annual Report Shows Great Improvement.

According to advance information on the Timiskaming annual report, during 1915 Timiskaming made the largest annual production in the history of the mine. 1,664,081 ounces of silver were broken down in ore and 1,456,894 unces shipped, the differences being in broken ore in stulls underground ready to be raised for concentration by the mill. Cost of production is 16 cents per ounce. The high-grade ore averaged 6430 ounces of silver to the ton and concentrates average 1302 ounces to the ton. Reserves of mill feed broken underground ready for the mill was increased from an accumulation of about 5000 tons for the preceding year to between 8000 and 9000 tons as of December 31, 1915. At odd intervals more seasoned is-sues, including rails, followed the

course of the metals, but activity in those stocks was spasmodic at best.

This was a source of disappointment to traders, some of whom had covered their short contracts yesterday, largely

in consequence of the brilliant show-

Friday's Market. Canadian General Electric was the specialty selected by operators on the Toronto Stock Exchange yesterday. No specific reason was assigned for the sudden demand for the shares, which rose from 114 to 116 3-4 and then relapsed to 115. The annual statement will be shortly available and this may be responsible for the bidding up. The fine statement put out NEW YORK, Feb. 11.—Irregular tendencies characterized today's dull end more narrow market, which bore recent addition was made. Mackay weakened further on profit-taking, as also did Smelters. Cement was a fraction stronger, and elsewhere there was little change. McIntyre featured the unlisted stocks by a 6 point rise.

the entire Dominion the change is not very evidenf. For staple commodities there has been a very steady demand, which taxed existing domestic stocks and resulted in very much larger imports. Prices all round have remained firm and changes are in an upward direction. All classes of labor are fully employed and wages are being increased. In some industries and districts there are already indications of a labor shortage, which is likely to be accentuated in the spring months when the usual demand arises for additional farm help. High prices for all kinds of farm produce will stimulate ditional farm help. High prices for all kinds of farm produce will stimulate agricultural operations and the conrumors affecting its earning capa- sequent demand for labor.

## THREE TUBE MILLS SENT TO HOLLINGER

VIPOND IS IMPROVING

Munro Consolidated Vein, Which Narrowed, Has Widened to Three Feet.

TIMMINS, Ont., Feb. 10.—Three tube mills with a capacity of 150 tons a day each will arrive at the Hollinger within a few days, your representative was informed today. The Erickson Perkins & Co., 14 West King street, report the following fluctuations on the New York Stock Exchange: will be placed alongside the stamps and will be the start of a system. Mr. Globe of the Hollinger stated that the mill will be used on Hollinger ore and will bring the capacity of the mill up

Matheson—The Munro Consolidated shaft is down about ninety feet. The vein which narrowed down at sixty feet to a few inches is now three feet wide. On surface the vein was seven inches. There is not as much free inches. There is not as much free gold showing in the vein as did at a depth of sixty feet. An officer of the company said that a boiler compressor and hoist would be taken in when the shaft reached a depth of 100 feet. A station will be cut there. But instead of drifting at once the shaft will be continued to a depth of 200 feet. Timmins-Manager Bert Poirer of the Vipond told your representative

today that the nine-foot vein found recently is being drifted on and he ex-pects that the mill will soon be run-ning on from forty to fifty tons of ore a day from that source. The lack of ore was one of the big troubles of the Vipond and when Mr. Poirer took charge the property was in a doubtful state, but underground develop-ment under the present management has improved conditions. The vein is 200 feet from the shaft on the 400foot level and ore will be hoisted in the winze.

Schumacher—The McIntyre Extension shaft is down 1060 feet. Station and 10-foot sump will be cut. By the first of March the crosscut to the Mc-Intyre No. 5 shaft and the drift to the Jupiter property will be started.
