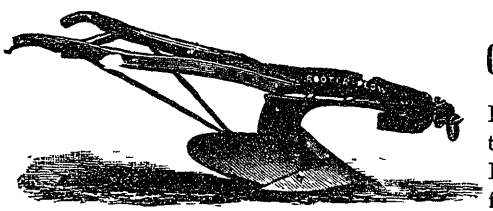
DOBBIE & STUART

Thorold Iron and Brass Foundry and Machine Works

MANUFACTURERS OF A FULL LINE OF

Contractors' Plant, Steam, Horse and Hand Powers
Derricks, Plows, Scrapers, Car Wheels
Etc., Etc.

OUR HOISTING ENGINES



Are built on the most improved style, having Friction Drums, and Double Speed Gears for light or heavy loads. No springs to get out of order, and everything in first-class style.

Single or Double Drum Horse Powers

Either Clutch or Friction Hoisters.

Simple in Construction, easily handled and durable

Our Contractors' Rooter Plow

Is acknowledged throughout America to be the best in use for Canal and Railroad grading. It has been used for the past twenty years, and has been frequently tested by 8 or 10 horses, in stiff clay, hard pan or gravel.

We can confidently state that our Machines are the best in the market, and would refer you to those who have them in use.

The object of Machinery is to lessen manual labor, and in the invention of our Machines we claim to aid the Contractor largely in that respect.

ELEVENTH YEAR.

ESTABLISHED 1882.

INCORPORATED 1885.

THE INDICATOR Is issued monthly, ***Price $2.00 Per Annum,*** contains matter of particular interest to all Insurance Companies, Agents and Brokers of Life, Fire, Marine, Accident and Plate Glass Insurance, Real Estate Agents, Banks, Loaning Offices, Bookkeepers, Clerks, Capitalists, Lawyers, Physicians, Manufacturers and Business Men. It contains from time to time special articles from the pens of some of the ablest writers in the country on insurance matters, which alone are worth more than the subscription price; gives list of fires, amount of losses, the companies writing on the risks destroyed, etc.

"The Indicator" wages an unrelenting war on "undergrounders," "wild cats," and all "shady" proceedings. Every wide awake Insurance Agent should take it. Every business man should take it.

PRICE $2.00 PER YEAR.

One subscriber writes as follows, viz.:

THE INDICATOR saved one of my patrons $3,000 and put over $100 extra commissions in my pocket; you may continue it indefinitely.

Another subscriber (a prominent banker and large property owner) writes:

You may send me THE INDICATOR for another year. I would not be without it for five times its price. It has warned me *in time* of many unreliable companies. I think property owners should pay more attention to the class of companies their property is insured in, and keep posted concerning the companies whose policies the, hold. Whenever I place any insurance I always try to secure the policies of the companies whose advertisements appear in THE INDICATOR, for I know *they* are reliable.

The aim of "The Indicator" is to uphold the genuine and expose and fight the shams of all kinds in insurance. Every agent representing an insurance company doing a legitimate, lawful business should subscribe for it. Address

F. H. Leavenworth Publishing Co.

This publishing house has its business offices and editorial rooms on the top floor of the McGraw Building. It makes a specialty of various insurance publications which find their way into every state and territory of the United States and throughout Canada. The publications of this firm have a national reputation among insurance agents as being honest and correct in every particular. Chief among these publications is the Indicator, a national journal of insurance, which will soon begin its eleventh year. The Indicator has regular subscribers in every state and territory in the union. The agents all like the paper, take it, read it, and pay for it. The well-known reliability of the Indicator and the care exercised by its editors to verify everything before printing has earned for the paper an enviable reputation for truthfulness, until it has become a well-known phrase among insurance agents throughout the country that "If you read it in the Indicator, it is so." The Indicator is issued the first of each month and can be had for the exceedingly low price of $2 per year. When asked why the company did not charge a higher subscription price, Mr. Leavenworth replied: "We would much prefer to have several thousand subscribers that cheerfully pay $2 per year each for the Indicator than to have only a few hundred that begrudgingly pay $4 or $5 per year." This firm also publishes the Pocket Chart of Co-operative Life, Accident and Fraternal Associations, which has now reached the seventh year of publication, and the Indicator's Pocket Chart of Regular, Legal Reserve Life Insurance Companies. Both of these charts are issued each year, with figures for the five years ending Dec. 31 preceding. Other publications issued by this firm are charts of both fire and life business in Michigan, both of which are used quite largely by insurance agents throughout the state; the Indicator's Combined Expiration Register and Line Book for Fire Underwriters; the Life Agents Tickler and Insurance Record for Life Insurance Agents, besides various other publications, which our space will not permit us to mention at this time.

Every new subscriber to THE INDICATOR gets a $1.00 book free, provided they write at once, and say where they saw this advertisement. Address,

RUPTURE

TO THE MEDICAL PROFESSION

'Egan's Scientific Truss'

I claim, on the basis of extensive practical experience, that this Truss will *hold in comfor any* case of hernia, NIGHT and DAY, in any possible position during the HARDEST WORK or MOST SEVERE STRAIN. It will CURE a large percentage of adults, and is INVALUABLE in the hernia of childhood. The Truss is a new one, constructed on scientific principles. It *never moves* from its settled position *even the sixteenth of an inch.* It is light and cool; *produces no friction;* responds readily to every motion of the abdominal muscles; HAS AN UPLIFTING POWER, thus removing the proximate cause of hernia, viz.: visceral weight. The Truss may be changed from right to left, and *vice versa*, from double to single, to suit a variety of cases and sizes in men and women. Having the utmost confidence in ITS SUPERIORITY (and on this ground alone do I ask for your patronage), I will forward *your first order at cost* as a test, and subsequent orders at a generous discount. Should any of my Trusses fail to give satisfaction, I will, upon demand, refund the money paid me My Child's Umbilical *is perfection* Adult's Umbilical an entirely new principle. ☞**No other Truss Manufacturer is willing to make such an offer.** The Trade supplied at a liberal discount. Send for Circulars. Yours respectfully, **J. Y. EGAN,** Truss Manufacturer, 266 West Queen Street, TORONTO, CAN.

MONTREAL.

MONTREAL, P Q. The commercial metropolis of the Dominion of Canada is situated on an island of the same name at the junction of the Ottawa and St Lawrence rivers at the head of ocean navigation, in Hochelaga Co, and is the beginning of the fresh water navigation of the great rivers and lakes extending to Duluth, Minn, U S A, at the head of Lake Superior, a distance of 1,590 mls. It is 145 mls by water and 170 mls by rail s-w of Quebec, 333 e of Toronto, 620 mls from the sea and 420 mls n of New York. Latitude 45°31′ N. longitude 73° 34′ The harbor is spacious and secure and when the improvements which were commenced in the spring of 1891, and which are to cost $3,000,000 are completed, it will be the best equipped in the world. The Island was first visited by Jacques Cartier in 1535 when he found on the present site of the city a flourishing Indian village. The city was founded in 1641 by Maisonneuve; in 1773 it was conceded by France to the British, and was incorporated as a city in 1833. It is built upon a series of gentle rising terraces, running inland from the St Lawrence for a distance of 2 mls, and culminating in the beautiful elevation called Mount Royal, nearly 700 ft above the level of the river, which is here about 2 mls broad. Most of the buildings are of limestone, obtained from quarries in the neighborhood, its numerous spires and towers giving it an imposing appearance when seen from a distance. During the past decade it has made rapid progressive strides and to-day it ranks among the foremost cities in North America. During the past three years several of the leading streets have been widened and others will be annually, so as to meet the demands of the rapidly increasing traffic. The electric system of street cars is about to be adopted thereby giving the people more rapid transit; residences to meet the wants of the working classes will be erected with the object of reducing the present overcrowding and adding to the health of the city. The city has some magnificent public buildings and contains more ecclesiastical, educational and charitable institutions than any other city of its size on the continent. Many of the churches are

very handsome structures; among them are Christ Church Cathedral, the Church of the Gesu, Notre Dame Church, St Peter's Trinity, St George, St Andrew and St Paul churches, etc. The educational interests of the city are represented by McGill University, Laval University, Montreal College, St Mary's College, besides numerous other academies and schools. The principal public buildings are the Custom House, Post Office, City Hall, Court House, Convent of Notre Dame, Seminary of St Sulpice, the Hotel Dieu, Nelson's Monument, General Hospital, Grey Nunnery, Bonsecour's Market, G T Ry and C P Ry General Offices. Montreal is the centre of all kinds of manufactures and has a very large transit trade. At Point St Charles, one of the western suburbs, are situated the head offices and works of the Grand Trunk Railway which connects the Canadian and United States lines, Here the Victoria Bridge, 9,184 ft in length, a massive but graceful structure, spans the St Lawrence; it was opened in 1859, and cost nearly $7,000,000. The Canadian Pacific Railway General Offices are also located here. The railroad facilities are extensive, and, with the ocean and river navigation, provide direct communication with all parts of the continent. Assessed valuation of real property, $127,937,800; realty, exempt from taxation $20,882,020; funded debt, $19,037,381. Exp, Dom and Can. Tel, GNW and CPR. Pop, 216,650. A Dansereau, p m

Patent Shelf Ladder

For high or low shelving. Runs suspended along the face of shelving. Cannot be dislodged by accident. Opens and closes automatically. Takes but 4 inches when closed and saves space behind counter, thereby giving more floor room. Utilizes entire wall of store by giving quick and easy access to goods on shelves extending to ceiling. Saves space, time and labor. **Price, 85c. per foot.** For 40 ft. in length of rail we furnish one Ladder; for 100 ft. three Ladders.

St. Lawrence Hall

— MONTREAL —

FEW Hotels in the Dominion or on the Continent have won the wide-spread popularity for prompt and satisfactory management as has the ST. LAWRENCE HALL. For over thirty-five years the travelling public have found the "HALL" the best and most complete equipped house in the country, in all its departments. Every want that human foresight can supply, for the comfort and convenience of guests, the management has ever provided for, and it is this attention that has given to the "HALL" its fame as the leading Hotel of Canada, both in the United States, Great Britain, and the European Continent. For over a quarter of a century, the "HALL" has held this proud position, and has had as its guests the most illustrious representatives of Royalty and the peerage who have in that period visited the Metropolis of the Dominion.

THE LOCATION

of the "HALL" on St. James Street, the principal thoroughfare of the City, cannot be surpassed in a sanitary point of view, and is the most centrally situated for all travellers. It is in the midst of the Banks, Courts, and principal Public Offices, Wholesale and Retail Houses; and in its immediate vicinity are many of the chief historic attractions of the City.

IMPROVEMENTS

The growth of Montreal in the past few years, and the ever-increasing demand for first-class accommodation required by the travelling public, has called for large additions to the "HALL," which have been carried out and just completed. These additions have largely added to the comfort and beauty of the House. The massive and elegant exterior —five stories high, with mansard roof, and a clear frontage of 125 feet, on the most fashionable street of the City—at once attracts the attention of the tourist, and a visit inside soon leads to the conclusion—that for polite attention and satisfactory management, the "HALL" has no superior. The new improvements have increased the accommodation for guests to over 300 well-lighted and airy rooms, furnished in the most tasteful style, and with every modern convenience. Passenger Elevators are also provided, and the whole of the Corridors, Reading, and other Public Rooms, have been lighted, furnished, and decorated in the most artistic manner.

THE DRAWING ROOMS

The "HALL" is now provided with two of the handsomest Drawing-Rooms in the City. The new room is one of the recent improvements, and is a marvel of beauty and elegance in its decorations, frescoes, and furnishings. The whole of the wood-work is of red cherry, with Lincrusta Walton panellings in gold; rich mirrors adorn the walls, and massive Gas Candle Chandeliers are suspended from the ceiling. The upholstering is of the richest and most luxurious description—the carpets, chairs, sofas, ottomans, etc., being specially made to suit the adornments of the room. When light up at night, the room, with all its appointments, cannot be surpassed for beauty and comfort. The old Drawing-room has also been refitted and refurnished with all the latest modern improved furnishings.

THE DINING ROOM

has been enlarged, making it 100 ft long by 50 ft. broad, and capable of seating 400 guests. The room has been thoroughly renovated and decorated, in an appropriate and elegant manner, by the best Italian Artists, and is lighted by Gas and Electric Light. Every attention has been paid to insure guests the best and most appetizing meals with prompt and diligent waiting.

THE CUISINE

The "HALL" has heretofore been ever in advance in this department, and intends to remain so. Having better facilities, with an accomplished *chef* at the head, the wants and tastes of all our guests will be carefully attended to in a satisfactory manner.

Billiard, Hair-Dressing, Sample, and Bath Rooms, are all connected with the Hotel.

All Trains and Steamboats are met by the "HALL" 'buses, and polite and attentive porters are always in attendance to look after guests, baggage, etc.

Prices graduated according to location of rooms—from ten to eighteen shillings per day.

MR. HOGAN, the Proprietor, is still to the fore and gives his personal supervision to all departments of the House, thus securing for his guests every attention required.

13 DUKE STREET, LONDON BRIDGE, LONDON, S.E.

By appointment to the Honourable Board of Trinity and Colonial Port Trusts, and Makers to the Board of Trade, Contractors to H.M Government, and most of the Principal Shipping Companies and Yacht Clubs
Testimonials from the above can be seen at the office, and copies forwarded with List of Prices on application
Our "PATTERN DYED" Flags have now been in use for many years, and have given great satisfaction, being found to fly lighter, and the patterns or devices showing equally well on either side This is especially so with regard to Flags bearing name and address, now a popular and successful method of advertising. The colours more durable and the patterns being printed on the material make them more suitable for Flags with intricate design, which can be carried out as well as any design could be executed on paper *Names for Burgees, or Signs for Exhibitions Printed in letters any size up to 8 feet* Ship Store Dealers & Retail Houses Supplied
