VERDUN DEFENCES NOW ALL IN HANDS OF FRENCH

Joffre's Troops Re-occupy Fort Vaux Without Loss of a Man; Germans Lose Ground on Somme Which They Had Gained

London, Nov. 3.—Fort Vaux is again in French hands, and with Douaumont already regained, the ring of defensive fortifications about Verdun has been re-established. Paris today reports the occupation of Fort Vaux, evacuated during Wednesday night by the Germans. This movement, the French official statement declares, was effected without loss to the French, who waited until the series of explosions inside the fort had ceased before they advanced, unopposed, to take possession of it.

On the Somme front, Berlin admits German loss of portions of the village of St. Pierre-Baillet, that they had taken from the French, but says Anglo-French attacks east of Guedecourt and advances upon the northern part of St. Pierre-Vaast Wood were repulsed. The Rumanian front continues the scene of hard fighting. Berlin claims further penetration of Rumanian territory southeast of Rothenthurn Pass and southwest of Predeal. In Galicia, the Russians attempted to regain ground recently lost in the district southeast of Lemberg, along the Narayuvka, but, according to the German report, their attack, seven times repeated, was repulsed with heavy casualties to them.

Little change in the situation is indicated by the reports from the Macedonian front. Sofia announces the repulse of Serbian attacks along the Cerna River. Austrian Position Bombed. Rome, Nov. 3.—An Italian dirigible ship on the night of November 1 dropped seventeen bombs on fortifications and warships in the roadstead of San Pietro in Sebino, Bay. The dirigible returned without being hit in spite of an intense fire from Austrian coast batteries. San Pietro is a town on the Island of Bracon, the largest of the Dalmatian islands, in the Adriatic Sea about 110 miles southeast of Trieste.

Italian New Success. London, Nov. 3.—(New York Sun cables).—Of the Italian victory in the new offensive, begun on Wednesday, the Times says: "The influence of the new Italian success upon the Austrians will be considerable. For the fourth time since the beginning of August General Cadorna has hit the foe hard. His prisoners already outnumber the Austrians. The Italian army corps. Much hard fighting is doubtless in store for King Victor Emmanuel's troops before they can reach the positions from which the Austrians are to be driven from the Isonzo Peninsula, but the enemy will fight with the foreboding of defeat in his heart."

Revolution in Greece. London, Nov. 3.—Telegraphing from Athens, Reuters' correspondent says the Greek government has sent reinforcements of infantry and artillery to Crete, where a revolution has broken out among 600 insurgents who have driven 180 Royalist soldiers towards Larissa. The correspondent adds that Admiral DaRonch, commander of the allied fleet in the Mediterranean, has sent notice to the Greek harbor authorities indicating a danger zone for vessels entering or leaving Piræus harbor.

Carlstrom Reaches, New York. New York, Nov. 3.—Victor Carlstrom, who left Chicago yesterday for New York in a mail-carrying aeroplane, descended on Governor's Island today, ending his flight at 8:55-1-2 a. m. His journey was interrupted by stops yesterday at Erie, Pennsylvania, and Hammondport.

Shackleton to Take Part in War After Rescue of Comrades. New Orleans, La., Nov. 3.—Sir Ernest Shackleton arrived here today from London and left for San Francisco, on his way to rescue those of his party on the west side of the Antarctic continent. Sir Ernest says that after the rescue he planned to return to England and enter the war.

C. M. R. Motor Transport Kills Hamilton Man. Hamilton, Ont., Nov. 3.—Alfred Knowles, middle aged man, was struck by one of the motor transports of the Canadian Mounted Rifles here this morning and instantly killed.

No instructions have been received regarding the Marina.

Taylor took place this afternoon, with service at his late residence in Rothway, being conducted by Rev. Allan Daniel. From Rothway the funeral cortege proceeded to Fernhill where interment took place. The funeral of William J. Feeney took place this morning from his late residence, 44 Camden street, to St. Peter's church, where requiem mass was celebrated by Rev. Joseph Borgmann, C. S. S. R. Interment was made in the new Catholic cemetery. The body of Private Onestine Behncau of the 165th battalion, who died in the military hospital here, was taken today to his home in St. Louis, Kent county, for burial. The funeral took place from the armory to the station and the chaplain of the unit, Rev. Captain Gaudet, accompanied the body on the last journey.

WOUNDED FOR SECOND TIME

F. Stanley Flaherty is Again in Hospital—Ward Comes to Sister

The official announcement that her brother, Private F. Stanley Flaherty, formerly of Chatham and later of St. John, has received a gunshot wound in the hand and was admitted to the divisional rest hospital on September 25, was received this morning by Mrs. F. B. Fitzgerald of 106 Elliott Row. Mrs. Fitzgerald has previously been advised that her brother had been reported missing since September 26 and considerable anxiety was felt for the soldier brother until a field card, dated September 30, was received from him announcing that he was all right. Private Flaherty went overseas with the 55th Battalion and was sent to the front with another unit in last April. He was wounded in June and considerable time was spent in the hospital, returning to the front in September, only a short time before the second casualty. He is twenty-six years of age and, before enlisting had been a member of the staff of the Prudential Trust Company in St. John.

Was Killed By Shell. Mrs. H. A. Carson, of Moncton, has received a letter from Capt. R. F. Thompson, chaplain in the unit in which her son, the late Irvin Carson, was serving when he met his death. Might Have Brought About Considerable Trouble With Main. When the excavation was made for the installation of the second Venturi meter at the Catholic cemetery it was discovered that the twenty-four inch water main at that place had been laid directly on top of the older twelve-inch main, with only a deal between them. The twelve inch main was leaking and there was serious danger of undermining the bridge and causing the latter to collapse.

Supper was served and the evening was pleasantly spent with music and other diversions. Private Goolah was heard in several songs. Quarter-master Sergeant Breen gave some readings and Private Shea an amusing monologue. Mrs. Hatheway's piano selections also added to the informal programme. In returning thanks to their hosts of the evening the members of the transport section also spoke in warm terms of their appreciation of the hospitality shown them in St. John.

MONCTON HAS OPIUM CASE

Moncton, Nov. 3.—The case of F. C. McGovern and wife, charged with keeping opium for smoking, was before Magistrate Giesbrecht this morning. Chung Fong, a laundryman, said he bought six cans of opium from Mrs. McGovern at \$8 a can. Later he said, Mrs. McGovern declared it was too cheap and charged \$4. The witness said the woman told him she expected 500 cans to arrive at Halifax between August 16 and 26. The case was adjourned till Monday. But for the prompt action of the Western Union Telegraph Company's line-man at Upper Dorchester yesterday afternoon, it is believed that Myrtle Black of Upper Sackville, who was rescued from Memramcook river, would have lost her life. Roy Grass, foreman, promptly rescued the girl, who was then unconscious.

LAST DAY OF THE WOMEN'S INSTITUTES

Addresses by Miss Fraser and Mrs. John A. McAvity This Morning. Today will see the close of the Women's Institute sessions here. This morning's meeting was opened with an excellent paper on Women's Institutes in Nova Scotia, read by Miss Jennie A. Fraser, supervisor. The paper was one of the best presented to the institute and showed deep study and preparation. She advocated a better name to cover the whole domain. She traced the history of the institute in Nova Scotia, told of its accomplishments, and what it is today doing for the whole province. She said the school curriculum was well planned in her province, probably better than in any other. She referred to sanitation and ventilation in class rooms and said that the W. I. insisted that the bodies of pupils must be given as fair treatment as the mind.

Up to December 31st, the W. I. had raised \$7,970.88 for the Red Cross, Patriotic Fund and British Red Cross, and had donated a motor, costing \$1,500, to the Provincial Red Cross. One hundred and sixty-three boxes of supplies were sent. One institute alone raised \$1,000 and another \$888.26. She concluded her paper with the following: "After all, the story of the organization and growth of any society is very much like the story of one's life. There are heights of achievements and sloughs of despond, but if we carry a brave heart, a trust in the future, a steady belief in the best ideals and a high faith, then our work will be to us a joy and crown eternally."

Mrs. McAvity's Address. Mrs. John McAvity, president of the local Red Cross, spoke to the members of the W. I. in sending comforts to soldiers and hospital supplies. She referred to the broad ground of the Red Cross, "the army behind the army." The accomplishments at first were gradual, but developed into spontaneous offerings being made that kept all the members busy engaged in the work. By the monthly bulletins and the various periodical editions the local branches were kept in touch with headquarters. The Red Cross was working under strict military regulations and it was their business to keep the Red Cross depot in London and the Canadian War Contingent offices full with supplies.

Christmas Ship. New York, Nov. 3.—An American National Red Cross Christmas ship, a United States naval collier, will sail from this port about December 1 with 8,000 tons of food and 1,000 tons of clothing for war sufferers in Armenia and Syria.

The Police. Day deskman Hopkins returned to resume his duties at police headquarters today after being confined for some days to his home suffering from a severe cold.

Cannot Agree to Another Track in Charlotte Street. Commissioner Fisher has found it impossible to agree to the request of the council of the Board of Trade for another railway track to the east of the present one in Charlotte street extension but has made some alternative suggestions. When Hon. Frank Cochrane and Mr. Gutelius were in the city recently a delegation from the board of trade asked for additional facilities at that place for handling lumber and the railway officials agreed to lay the track if the city would agree. The commissioner says that another line would make the street too narrow, besides destroying a roadway on which \$5,000 has been spent this summer. He says it would be possible to run a 600 foot spur on the western side of the track on the extension to the wharf, and that he would approve of this. He also suggests the possibility of providing additional facilities at the foot of Sydney street.

Chinese Testifies Woman Sold Him Some and Said 500 Tins More Were Expected; W. U. Men Save Girl's Life. Moncton, Nov. 3.—The case of F. C. McGovern and wife, charged with keeping opium for smoking, was before Magistrate Giesbrecht this morning. Chung Fong, a laundryman, said he bought six cans of opium from Mrs. McGovern at \$8 a can. Later he said, Mrs. McGovern declared it was too cheap and charged \$4. The witness said the woman told him she expected 500 cans to arrive at Halifax between August 16 and 26. The case was adjourned till Monday. But for the prompt action of the Western Union Telegraph Company's line-man at Upper Dorchester yesterday afternoon, it is believed that Myrtle Black of Upper Sackville, who was rescued from Memramcook river, would have lost her life. Roy Grass, foreman, promptly rescued the girl, who was then unconscious.

Five Men Arrested in Dynamiting Conspiracy

Are Taken in New York in Connection With Explosion at Subway Station; One Said to Have Confessed

New York, Nov. 3.—Michael J. Herlihy, financial secretary of the local central union, and four other men were arrested today, charged with acting in concert in bringing dynamite into this city and with conspiring to blow up the Lenox avenue subway at 110th street on October 24. One of the men is said to have confessed. Herlihy is twenty-one years old. The other men are George Follok, a former elevated railway guard; Lawrence Kull and James A. Murra, former subway guards, and Thomas J. McGuire, a chauffeur, who lives in Caldwell, N. J. The dynamite explosion injured four persons. A bomb was placed under one end of the subway platform and it went off just two minutes after a train carrying passengers left the station. A milkman told the police he saw five men run out of the station and disappear in Central Park a little while before the explosion occurred. Detectives announced today that evidence obtained indicated that attempts were to have been made to blow up the subway station at 89th street and Broadway this morning and the City Hall station at a later time. According to the alleged confession, forty-eight sticks of dynamite were detonated in the 104th street explosion.

AUSTRIAN ACQUITTED OF CHARGE OF THEFT

In the case of King vs. John Sorchaan, an Austrian charged with the theft of \$280 from Peter Pans, a fellow countryman, His Honor Judge Armstrong today acquitted the prisoner after a hearing under the Speedy Trials Act. It appeared from the evidence that the complainant had in his possession the amount of money alleged to have been stolen and had displayed it before several people. The only opportunity which the defendant was shown to have had to steal the money was when the two were eating together in a stall in Fader's restaurant in Pond street. The accused was searched soon after they were together and the money was not found on him. He was accordingly found not guilty.

The new rates of \$8 a ton at Cristobal, Colon and \$9.50 at Balboa, however, will not go into effect until December 1, the date on which it is assumed that all of the coal purchased by the government at the old price will have been disposed of.

Detroit, Mich., Nov. 3.—John F. and Horace Dodge, automobile manufacturers and stock holders in the Ford Motor Company, obtained a temporary injunction here yesterday afternoon, restraining Henry Ford from using the assets of the Ford Company to extend the business as planned, instead of distributing profits in dividends. Wheat Again Depressed

Chicago, Nov. 3.—Assertions that the largest export buyers were out of the market had bearish influence today on the wheat market here. Depression rattled also from advices that Minneapolis millers had purchased 1,000,000 bushels of Canadian wheat, freight and duty paid at lower cost than domestic wheat. The opening, which was unchanged to 1c, was followed by a decided general setback and then a moderate rally.

PATRIOTIC CAUSES

"Bonnet Hop" A bonnet-hop to be held in St. Andrew's rink on Monday evening, Nov. 6th, is sure to prove a big success. It has been said that whatever is undertaken by the Royal Standard Chapter has never failed. Everybody who dances will want to be there. The extent of the season. Admission fifty cents.

"The Climbers" will be presented in the Opera House next week on Thursday and Friday evenings and on Saturday afternoon. This will be the first big play of the season and will be the patriotic offering. Tickets are now on sale and favorite seats are greatly in demand. Under the auspices of the Brunswick Chapter I.O.D.E. and the supervision of Mrs. A. C. Wilson, its success is already promised and a generous patronage is expected.

Pantry Sale Be sure to come to the pantry sale, 10 o'clock, Saturday, November 4, to be held in the Ford distributing rooms, in Germain street, under the auspices of the East St. John Red Cross circle. Remember Tomorrow

The 160th Battalion Band will give a fine programme of music at the patriotic tea and pantry sale of DeMonts Chapter, I.O.D.E., in the Knights of Columbus hall on next Saturday afternoon from 3 to 6 o'clock. Colonel McArthur will draw the tickets for handsome prizes. In addition to the names of ladies in charge, already published, Miss Ethel Smith will preside at a flower sale. The officers of the 160th and 180th Battalions have been invited to attend. It promises to be a most enjoyable event, and the cause is most worthy.

MUNITION WORKERS MAY FACE CHARGE OF TREASON IN ONTARIO Hamilton, Ont., Nov. 3.—Eric Alexander Nylin and his son, Eric H., munition workers at the Bowens Jamieson plant, are under arrest on a nominal charge of vagrancy, but may have to face a charge of high treason. It is alleged that they plucked shells in a way to make them dangerous when handled by other workmen. The men say they are Serbians.

Magistrate Jells said he was given to understand that they were German-Swedes.

HALIFAX FIRE Halifax, N. S., Nov. 3.—Fire this morning in the Knapp building, occupied as stores and offices, did about \$40,000 damage.

PTE GILCHRIST. Many St. John friends will learn with regret that Private Roy Gilchrist, of a famous regiment, was wounded in the knee on October 8, and that blood poisoning had set in. Prior to enlisting Private Gilchrist was employed with the St. John Railway Company.

The British have won another village in Greek Macedonia from the Bulgars. The Austrians are said to have lost 15,000 men on the first day of the new Italian offensive.

A Shopping Excursion. At a certain hospital in France the matron, for some reason of her own, thought that the "Tommy" under her care should not visit the village nearby. Passes were allowed, but they were few and far between. One day a "Tommy" applied for a pass, and the matron asked him why he wanted to visit the village.

"I want to get something from a shop there," he said.

"Well, as I am going to the village, myself, I may as well get it for you," was her reply.

"Well, as you seem so determined, bring me a hair cut and a shave," replied the man.

THE COST OF LIVING.

In today's Times is given a comparison of the prices of thirty articles of food in August, 1914, when the war began, and the price at the present time. This list was prepared by a leading wholesale firm, from the price lists of August, 1914, and Nov. 1, 1916.

WHERE HALIFAX LEADS.

Halifax is far in advance of St. John in public school matters. Medical and dental inspection, school nurses, technical evening classes with large attendance, and a special class for mentally defective children are features of the Halifax educational system.

**WILL PAY \$1,000 FEE FOR A WIFE; TOO BUSY TO HUNT ONE HIMSELF**

Albert F. Shore of New York Bars Butterflies, But Will Take Blonde or Brunette, Provided She is Studious—Friend Acting as Commissioner

(New York Tribune.)  
 Too busy to play the role of suitor himself, a New York business man and inventor has commissioned a friend to find him a wife. If the friend succeeds before Christmas in discovering a girl who can meet rather exacting requirements he will receive \$1,000. And if he has not succeeded at that time, then any person may earn the \$1,000 by producing a suitable bride.

The man is Albert F. Shore, treasurer and director of the Shore Manufacturing Company, 557 West Twenty-second street. He is thirty-four years old, of German descent and a native of New York. He is of medium height, dark complexion and dark curly hair. He has an engaging smile and he's bashful. And girls, he is said to be quite wealthy.

The girl must be about twenty-four years old, in good health and have a fair education. She may be either blonde or brunette, though the latter will have a preference in the finish; she may be buxom or petite, and it doesn't matter if she hasn't a cent.

Butterflies Not Wanted  
 But here is the catch: She must be of a temperament that will match Mr. Shore's, which means that she must be studious and thoughtful. Social butterflies need not apply.

The friend, at present the only middleman, is George A. Hofman, of 135 Broadway.

A reporter who talked with Mr. Shore yesterday found plenty of evidence of the inventor's studious, thoughtful temperament. His office was full of books of engineering's reports and scientific instruments, and Mr. Shore himself frequently interrupted his discussion of girls and matrimony to tell of his scientific pursuits and theories. Just at present he is much interested in a new branch of physiology; he believes that sleep can be controlled—that artificial sleep can be produced to meet the demands of jaded twentieth century civilization.

"Do you think a wife would help you in your scientific research work?" the reporter asked.

"I have always thought a sympathetic and congenial wife would greatly inspire a thinking man in his life work," he declared. "If a man is lucky enough to find a mate who can and will take an active interest in his work she can and will become a potential factor in the development of his latent qualities."

"Has Mr. Hofman been able to do anything for you?"

Mr. Shore smiled his engaging smile. "Well—no," he said. "Not along my requirements. I have looked for girls myself. I used to attend dances and belonged to clubs, but you don't dis-

cover girls you want to marry at dances."

His Ideal Type of Girl  
 "Just what sort of girl do you want, Mr. Shore?" he was asked.

"Well—again Mr. Shore smiled his engaging smile and hesitated. "A studious, thoughtful girl," it was suggested.

"That's it, that's it," he said. "What I was going to say wouldn't sound so well in print. You see, if a man has anything in him, if he's a thinker, he doesn't want a girl who has social ambitions. It might be all right for three or four years, but he will get tired of it if he is a thinker."

"A man in my position should select a mate whose mental traits are as similar as possible, and the more similarities she possesses along other lines the better. The only exception I would make is in the matter of age. I believe that a wife should be much younger than her husband. In my case, I should say, ten years younger."

Although Mr. Shore is a thinker and requires a thinker for a wife, he does not demand a college graduate.

"I do not regard a college education as absolutely essential, although education is always precious, and the better the education the more precious it is."

Mr. Shore is in the hands of his friend Hofman.

"Still," he said, "if I should get a letter that looked promising I would answer it."

When plates and dishes have to be warmed in an oven if a newspaper is put underneath, this will break the heat and prevent from cracking.

LES DARCY SAID TO BE COMING TO AMERICA

Vancouver, Nov. 1.—A cable received from Sydney, Australia, says that Les Darcy, Australian champion, is now on his way to America, having sailed on last Thursday, according to a published rumor, on a boat from the Newcastle coasting station and not the ordinary point of departure for passengers. The cable adds that Darcy was due in Melbourne last week to begin training for another fight with George Chip, but he has been missing since last week. It is thought Darcy is coming to this continent for a fight with George Carpenter promoted by Tex Rickard and Sam McCracken. There has been a good deal of mystery about Les Darcy's plans. It was said recently that he intended to join, and had joined the army. Previous to this, however, reports from Australia were to the effect that Darcy was very anxious to come to the United States and fight, but was dissatisfied with the terms that Snowy Baker had offered him and that he had been negotiating on his own hook with American promoters. It was then reported that Baker had managed by demanding a strict application of the emigration laws to get an order passed prohibiting Darcy from leaving the country.

Baseball Game, Running Races And Football

Attractive Programme for Tomorrow's Big Sporting Event; Movie Man Will Be There.

Final preparations are being made for the sports on the Barrack Square tomorrow afternoon under the auspices of the 180th Battalion. The first event is a baseball game between the crack team of the battalion and a picked team from St. Peter's Y. M. A. League. Owing to the lateness of the season the game may not be as fast as it would in warmer weather, but the spirit will undoubtedly be there and it will be keenly contested. Play will be called at 2:30 o'clock sharp. The running events in which Jim Corkery, Wood and other stars will participate, will follow the baseball game. Corkery and Wood will run a ten mile race, after which Tom Longboat will give an exhibition. He is not able to enter the marathon, but will be allowed to give an exhibition. Sprints will then be held and it is possible local talent will be pitted against members of the 180th. G. A. Margetts, manager of the Universal Film Company, is the man who will race Rev. J. D. Morrow. A football match is to be played between the Rugby stars of the battalion and members of the 286th Killers Battalion. The programme is being arranged by Captain Tom Flanagan, one of the best known sporting managers and promoters in Canada, and the people of St. John are assured that it will be one of the best events of its kind seen here. Motion pictures will be taken of the fans as they pass through the gate, and in addition the contestants will be filmed in action. All who wish to appear on the scene are asked to be on hand early, so as to get into the picture.

KING'S COLLEGE

Matters Discussed at Annual Meeting of Board of Governors

Halifax, Nov. 2.—At the annual meeting of the board of governors of King's College, held here, nearly all members were in attendance.

There was discussion as to the advisability of undertaking a new wing for the extension fund. A majority thought in view of probable expansion of the college work, it would be well to undertake such a campaign in the near future.

BETTER TREATMENT IN GERMAN PRISONS

Relative Decency Shows to British Captives by Teutons; Not Treated Worse Than Others Now

London, Nov. 2.—Lord Robert Cecil, Minister of Foreign Affairs, announcing in the House of Commons today the transfer of the responsibility for matters relating to British prisoners in enemy countries from himself to Lord Newton, Under-Secretary for Foreign Affairs, took occasion to express "in the strongest language" his command and deep debt of gratitude which in his judgment this country owes to Ambassador Gerard in securing better conditions for British prisoners.

Lord Robert added: "Whatever may have been true at the beginning of the war, I believe it is no longer true that British prisoners are treated worse than those of other nationalities, and this relative decency is due almost entirely to the exertions of my command in enemy countries. I should not like to conceal from the House that conditions in some of the camps in Germany and other countries are still very far from satisfactory."

German Face Shields

After the burghers—as the helmets now being worn by the French poilus used to be called in the middle ages—comes the visored casque. A Christian newspaper announces that the Germans in the trenches are now wearing shields to protect their faces against projectiles. The visored helmet is of steel, fastened by two belts of leather crossing behind the head, one going around the neck, the other over the temples. It is pierced by two small holes at the height of the eyes, and its lower edge is rolled over to the right, so as to get in the way when firing their rifles.

SUGGESTION TO WOMEN

Who Are "Just Ready To Drop."

When you are "just ready to drop," when you feel so weak that you can hardly drag yourself about—and because you are not sleeping well, you get up as tired out next morning as when you went to bed, you need help. You can get it just as Mrs. T. S. Hunt, of North Lethbridge, Alta., did. She says: "I keep house for my family of five and became completely run-down. I had such weak spells I could hardly stand up. I had no appetite, had short breath, was languid and suffered from headaches. I tried different medicines and tonics without help. One day I read about Vinol and tried it. Before the second bottle was taken I noticed a great improvement. I continued its use and now feel much stronger, and find my household duties a pleasure." Mrs. T. S. Hunt, No. Lethbridge, Alta.

There is no secret about Vinol. It owes its success to beef and cod liver peptones, iron and manganese peptones, and glycerophosphates, the oldest and most famous body-building and strength-creating tonics.

So many letters like the above are continually coming to our attention that we freely offer to return the money paid for Vinol in every case where it fails to give satisfaction.

GERMAN NEWSPAPER LAMENTING OVER WAR

Says Whole of Europe is Being Bled White by Conflict; A Passionate Plea for Peace

London, Nov. 2.—The Berlin Vorwarts, commenting on the interview with Field Marshal von Hindenburg yesterday, in which he discussed many phases of the war, says, according to a Berlin despatch forwarded by Amsterdam: "He advises France to be reasonable and not to act as a further obstacle to peace. This advice will have a better chance of being heard abroad if we show ourselves reasonable, too. If we are going to drag this war on indefinitely, then the whole of Europe will bleed to death and America and the colored races would be our heirs. But we want Europe to live, not Germany only, but all the nations. We want France to live. We see her now bleeding white, but we have never hated her. We want peace also for England and Russia, peace for the whole blood-stained world."

ABSENT SOLDIER AGAIN ELECTED PRESIDENT OF ST. ANDREW'S SOCIETY

ST. JOHN MAN TO HARVARD PROFESSORSHIP

William J. Cunningham, who has recently been elected to the James J. Hill professorship of transportation of Harvard University, is president's assistant of the Boston & Maine railroad system, in charge of special statistical work, at present. The appointment of Mr. Cunningham shows a recognition of the possibilities that arise in the profession and a recognition, as well, of the personal qualities of Mr. Cunningham. He was born in this city in 1875, and began railway work with the Canadian Pacific as stenographer and ticket clerk. The courses he will give at Harvard are the only ones in the country dealing with the technique of railroad work on a practical scale.

PROVINCIAL APPOINTMENTS

Shovel Work

There was a sudden rush of work and the foreman was short of laborers. Going out into the road he found a muscular-looking tramp loitering at the corner. Here was a possible recruit. "My man," said he genially, "are you wanting work?" "What sort of work?" asked the tramp cautiously. "Well, can you do anything with a shovel?" The tramp suddenly beamed at the speaker. "I could fry a slice of bacon on it," he said eagerly.

CHILDREN HAD ECZEMA DOCTORS FAILED TO CURE

Two Letters Which Prove the Efficiency of Dr. Chase's Ointment as a Cure for Eczema.

Fortunate are the mothers who know the virtue of Dr. Chase's Ointment, for there is no treatment so suitable for use after the bath to relieve irritation and chafing and to thereby prevent eczema and similar skin diseases.

Mrs. W. L. Barnes, Timmins, Ont., writes: "I want to tell you about the case of my little boy, who had baby eczema when he was three months old. It started on the top of his head, on his forehead and around his ears. The doctors failed to do him any good, so I tried Dr. Chase's Ointment on the recommendation of a friend, and in a month's time the child was entirely free of this disagreeable skin disease. He is now four years old, and has never had any further trouble from ailments of this kind. I also have great faith in Dr. Chase's Nerve Food, and believe that it cannot be beaten as a restorative for pale, nervous women."

Mrs. George McNair, River Charles, N. B., writes: "We use Dr. Chase's Ointment in our home, and would not wish for anything better for cuts, burns and bruises. A few years ago a friend of mine, whose baby was terribly afflicted with eczema had her child treated by their own family physician, but the little one got no better. They tried several remedies, but they all proved useless in this case. Upon the advice of a neighbor they got Dr. Chase's Ointment, and before the first box was used the child was completely cured. I can also recommend Dr. Chase's Nerve Food to suffering friends who I know will be glad to learn of something to relieve their nervous trouble. You have my permission to use this letter for the benefit of others."

### Education To Raise Birth Rate

Professor Pinard Hopes to Attain Results in France by Obligatory Study of Problems

Paris, Oct. 14.—(Correspondence of The Associated Press)—"French families could be as large as those of any country, not excepting Germany," said Professor A. Pinard, of the French Academy of Medicine, in an interview with a representative of The Associated Press.

Professor Pinard, who has devoted the last two years to the cure of "war babies," is one of France's most eminent physicians and, perhaps, the best authority on the physiology of reproduction. He asserts that the trouble with the birth rate of France is a voluntary resistance with economic reasons at the bottom of it.

The state must get at those reasons, he says, and overcome them by appropriate legislation, while the individual must learn more concerning what makes a numerous and physically superior population. He is now applying to parliament to enforce the application of his doctrine by obligatory education of the future mother while she is still a schoolgirl. Puericulture, as he calls it—or moral and physical education combined—she wants taught as currently, as reading, writing and arithmetic.

"Never before were there born in Paris such strong and handsome babies as during this war," Professor Pinard said. "They are a striking example of what may be accomplished by better care of mothers and their offspring—the result of spontaneous effort from every direction to do something for France, for the defenders of France, and for the wives and children of the soldiers left at home with protection." At the Bureau of Vital Statistics, on the declaration of

### "Meat Prices Will Not Come Down"

is the cheerful news from the Department of Agriculture. Meat prices will not worry the man or woman who knows that a Shredded Wheat Biscuit will supply more real body-building nutriment than beefsteak or eggs and at much less cost. Shredded Wheat remains the same price, the same high quality, supplying all the nutriment a man needs for a half-day's work. Two shredded wheat biscuits with peaches and cream or other fruits make a complete, nourishing meal at a cost of not over five cents.

Made in Canada

the birth of a child, every mother was sought out and, if she needed assistance she got it, while mothers were prevailed upon more than ever before to nurse their own children in consequence the "war generation" will be a rugged one.

"The bringing up of children in public institutions is a failure. France will re-people itself only through the family. That systems which separate the mother from her offspring are defective is proved by the report of Dr. Drouinau on 200,000 children confined to the Assistance Publique, of whom only a third were brought to manhood. Instead of substituting itself for the mother, charity—or common justice—must enable the mother to rear her own child properly."

### NAVAL DISPLAY IN LIMITED AREA

German Ships Rush About But Not Far

Outwitted By British Device Baffled By British Counter-Device—New Scheme of Concealment in Dense Cloud

London, Oct. 20.—(Correspondence)—The Stockholm correspondent of the Manchester Guardian, in a letter dealing with the German navy, says:

Germany has practical control of the southern approach to the Sound between Denmark and Sweden. As far as my personal observations go, she makes a big naval display only over a limited area. On the way east during my first Copenhagen-Malmö trip we passed, just before turning southeast for Malmö, a whole fleet of German destroyers and torpedo boats. The Sound here is sixteen miles across, and all the German ships were outside their territorial waters. They were steaming south at a terrific speed in the direction of Falsterbo mine field, all showing German flags.

A sailor on our steamer told me that German warships make straight for the mine fields and, steering by marks, without taking pilots on board, go straight through it. He added that Germans often show no flags, and this I confirmed during a cross on the Helmsborg route when two flagless torpedo boats, making northeast at a great pace, passed under our stern. As they passed the first torpedo boat had a man overboard. It dropped a dinghy, but did not itself stop. The rowboat was nearly cut down by the second torpedo boat and the man overboard perished.

The Danish captain of our steamer told me that German patrol ships in the Sound hardly ever go into Calløvet, but other German warships go there and much farther north. Captain Hjelmarsen, a Norse seaman, who knows these parts well, told me that, thanks to British vigilance and superior seamanship, Germany gets very little value from her practical command of the Sound. He said that last July a German cruiser and submarine raid from Skagerrack was foiled before it started. The Germans had some new devices which Captain Hjelmarsen could not describe, but they were baffled by a British counter-device which was being tried for the first time.

"In the Helmsborg-Blånøre part of the Sound, periscopes of German submarines are seen every day. This part of the Sound is fairly free from loose mines, but at the southern end mines are almost as numerous as waves. At Flint Channel mine field Germans are said to keep four mine-sweeping steamers busy all day catching and relaying their own broken-away mines. At Falsterbo, in Sweden, mines come ashore almost every day.

"Skagerrak fishermen told me that Germany was making experiments with view of practising cuttlefish tactics in a naval battle. Specially constructed steamers, traveling at high speed, emit volumes of smoke or vapor which, when there is no wind, lie long on the surface. Fishermen gave me extravagant accounts of banks of vapor ten

### Dog Rewarded By U. S. Government

Stray Canine on Mount Carmel, Volunteer Guardian of the Parcels Post, Receives Handsome Collar

Washington, Nov. 2.—A stray dog that has assumed the post of self-appointed guardian of the United States mails was recognized by the government when Postmaster-General Burleson sent to Mount Carmel, Pa., a handsome brass-bound collar for the animal. The Misses Cummings of Ashland, Pa., called the attention of the postmaster-general to the dog's practice of following the parcel post carrier at Mount Carmel and guarding the carrier's wagon while he was delivering packages. The inscription on the collar reads: "United States Mail, Presented to Uncle Sam's Faithful Friend by Albert S. Burleson, Postmaster-General, October 25, 1916."

With the collar went this letter from the postmaster-general: "The Postmaster-General, Washington, October 27, 1916: "The Misses Cummings, 1400 Center street, Ashland, Pa. "My Dear Misses Cummings:—Your letter of the 12th instant, concerning the faithful duties performed for the mail service at Mount Carmel, Pa., by a stray dog which you suggest should receive official recognition for his services, has been brought to my attention. "It may be that this is, indeed, a most extraordinary instance of dumb animal intelligence and devotion, and I commend you most heartily for your interest in the dog's behalf. Too little in our workaday life do we notice around us the quiet, patient and uncomplaining devotion of our dumb animal friends and it is refreshing in the turmoil of a great political campaign, to pause and direct one's attention for the moment

to this dog story, so full of human interest. "An expert leather worker has fashioned a beautiful collar for his dogship, and it gives me great pleasure to present it to the dog, as a token of my appreciation of his services. I know you will desire the privilege of placing the collar on Sam so the collar is sent to you this day under separate cover. After locking the buckle with the small lock accompanying the collar, the key should be thrown away. I have sent a copy of this letter to the postmaster at Mount Carmel, and he has been required to aid you in any manner possible. "With assurances of esteem and best wishes, I am "Sincerely yours, "A. Everyone Advanced. The story is of a colonel on the British front who wanted twenty men to face almost certain death. He called the whole company together, and made the situation clear to them. Then he asked for twenty volunteers to advance one pace. He loved his men, and it was almost more than he could bear. He closed his eyes to keep back his tears, and when he opened them the men stood in exactly the same formation. He was pained. "Is there not one volunteer?" he asked, and a little sergeant stepped forward at salute. "Everyone has advanced one pace, sir," he said.

**BRIDE FORMERLY OF ST. JOHN**  
A Shenectady, New York, paper reports a wedding in which St. John people will be interested, as the bride was formerly of this city, a daughter of the late Martin Burns. The paper says: "A pretty wedding was solemnized on Tuesday afternoon, Oct. 24, at 4 o'clock, in St. Columba's church, when Father J. J. Lynch united in marriage Miss Margaret Frances Burns, daughter of Mrs. B. Burns, of 228 Summit avenue, and John Joseph Newell, also of this city. As the bridal party entered the church Miss Irene Cooley played a wedding march on the organ.  
"The bride was gowned in ivory chiffon and silver lace and wore a hat of white plush and silver lace. She carried a bouquet of bride's roses and lilies of the valley. She was attended by Miss Loretta Barry as maid of honor, who wore and carried a bouquet of yellow chrysanthemums. Miss Rita E. France, niece of the bride, was bridesmaid. She was gowned in pink silk with hat to match, and carried yellow chrysanthemums. The bride was given in marriage by her brother-in-law, M. J. Coffey. The bridegroom was attended by James Eagan. The bridegroom's present to the bride was a gold lavalliere, set with pearls and garnets. The bride's present to the maid of honor was a diamond pin and to the bridesmaid a gold bracelet, while the bridegroom presented to his attendant a K. of C. watch fob.  
"The bride was the recipient of many gifts including furniture, cut glass and silverware. A wedding reception was held at the home of the bride's mother, with some ninety guests present.

**NOTICE TO SUBSCRIBERS.**  
Subscribers of The Telegraph and The Evening Times frequently send in letters containing news, WITHOUT SIGNING THEIR NAMES. Such letters are never printed, and sometimes subscribers who have their sent in personal or social news are offended when it is not published. All such letters should be signed with the name and address of the writer, AND IN CASES OF MARRIAGES OR ENGAGEMENTS THE NEWS SHOULD BE TRANSMITTED THROUGH THE LOCAL CORRESPONDENT OF THE PAPER IN THE TOWN OR VILLAGE IN WHICH THE SUBSCRIBER LIVES, OR THROUGH THE OFFICIAL CLERGYMAN IN CASES OF MARRIAGE OR DEATH NOTICES. It is absolutely essential that a newspaper should KNOW from whom any news like come, in some cases signatures have been found to be false or unauthorized. If subscribers will be guided by this advice a great deal of time and trouble will be saved. These precautions are quite as much in the interest of the subscribers as of the newspaper. The co-operation of The Telegraph and The Evening Times in these matters is earnestly solicited.

**FINED \$50 FOR SUPPLYING OF LIQUOR TO SOLDIERS**  
Eddie Urquhart, in the police court today, was fined \$40 or two months in jail for supplying liquor to soldiers. He pleaded guilty.  
Four other prisoners, including a soldier, were all charged with drunkenness and fined \$8 each.  
There was a report against George Garnet and Arthur London for fighting in Thorne avenue. Policeman Gibbs testified, as well as several other witnesses, that the two men were fighting Alexander White. The court attached the blame to Garnet and he was fined \$20. E. R. Ritchie appeared for London.

**HIGH SCHOOL ALUMNAE**  
Members of the St. John High School Alumnae Reading Club met at the home of Mrs. J. V. Ellis, President, last evening and made arrangements for sending a large collection of toys to the Catholic Women's League in England for Belgian children. The club is spending no pains to make this Christmas a happy one for the unfortunate little ones. Views of conditions among Belgian children have been received by the club and will be shown on "children's day," Nov. 15. An illustrated lecture on the famous woman, whom the English which have been turned over for war purposes was given by Miss Corbett and was enjoyed by all present.

**SAYS BEST APPLE SHOW HE EVER SAW**  
C. P. R. Official Visits Local Exhibition—Will Close Tonight  
There is still one more chance for the citizens to visit the New Brunswick Apple Exhibition in St. Andrew's rink. Last evening there was a large number of visitors, but not nearly so many as the exhibition warrants. The exhibition is acknowledged to be one of the best ever held in Canada, and the capacity of the rink should be taxed this evening. It is doubtful if many thousands of people in this city realize what a magnificent display of New Brunswick fruit can be seen. The exhibition will be brought to a close this evening.  
One of the visitors at the rink this morning was E. C. Oviatt, special agent of the C. P. R., with headquarters in Battle Creek, Mich. He said that when he entered the rink he was astounded, and confessed that he never saw such a magnificent display of apples. He said his duties brought him in touch with such exhibitions, and that in his years of travel from ocean to ocean he never yet saw anything that could compare with this. The exhibition held at the world's fair in Chicago could not compare with the local exhibit. Mr. Oviatt arrived in the city last evening from St. Andrews. He is looking up points of interest with a view of acquiring information for the public with regard to tourist travel. He will leave for his home this evening.  
This morning photographs of the various booths and special exhibits, and of the entire interior were taken. Talks and demonstrations in sorting, grading and packing of apples were continued.

**THE CASE OF MRS. PARSONS AND THE PATRIOTIC FUND**  
In regard to the case of Mrs. Parsons, referred to in our 7 Times yesterday, some persons have interpreted it as saying that she got \$103.50 a month. What the statement really means is that it costs the country that amount to have a man with a wife and seven children in overseas service. The items are the soldier's pay, the cost of keeping a soldier in the hospital, the cost of the allowance and Patriotic Fund.  
In the special case of Mrs. Parsons, while it is perfectly true that she is receiving all that money, she is not receiving it in the service for overseas duty, and in this case the Patriotic Fund need not have paid one dollar after the second enlistment until the man went overseas.  
It is important that the public should thoroughly understand the facts about this fund and its administration, and that it is administered by prominent business men who seek to do the fullest justice in every case.  
Mrs. Parsons was not seeking from the fund any more than she believed to be her due. She did not understand the situation as it really is.

**PROVINCIAL HOSPITAL CONTRACTS AWARDED; ONLY TWO FOR ST. JOHN COUNTY INSTITUTION**  
The war is responsible for one more peculiar situation; owing to the uncertainty of the markets due to conditions said to arise from the war, the St. John County Hospital has found it impossible to secure tenders on which to make contracts for several important lines of supplies for the institution. So far, the only contracts which have been awarded for the coming season are those for meat, to F. E. Williams Co., Ltd., and for canned goods and butter, to T. Collins & Co.  
The Provincial Hospital at Lancaster Heights was more fortunate in its arrangements and has made contracts for all the usual list of supplies. The successful tenderers are as follows:  
Meats, Vanwart Brothers; groceries, St. John Mercantile Company; bread, J. & W. Shaw; drugs, G. A. Recker; dry goods, Manchester Robertson Allison, Ltd.; footwear, Waterbury & Rising, Ltd.; New Brunswick coal, Harvey Melton, Minto; hard coal, R. P. & W. F. Starr, Ltd.  
\$53.30 REALIZED.  
A hand-embroidered centrepiece which was worked and donated by Florence Carvell of Quispamsis, was drawn at the pie social and dance held in the school house of that place last Tuesday evening. The winner was Donald Leonard of Rexton, holding ticket No. 310. The sum of \$53.30 was realized for the benefit of the Belgian Fund.
