CLAIMS OFFICERS KNEW OF SMUGGLING

SPARKS ASSERTS SOME OF THEM AUTHORIZED IT

Denies Knowledge of Illegal Acts By Minister or Deputy

WIRES ADMITTED

C. P. A. President Says Action Taken Was Not in Public Interest

OTTAWA, Feb. 25.—Testifying before the federal customs investigation today, R. P. Sparks, president of the Commercial Protective Association, said he thought all the customs officials at Rock Island, Que., knew that smuggling was going on and that some even authorized it.

There was much discussion when the customs probe opened today about the production before the committee of telegrams to and from the Customs Department and the Justice Department. Local managers of the telegraph companies produced copies of all such telegraphic correspondence.

Stewart Edwards, Deputy Minister of Justice asked that only telegrams relating to matters before the committee be used. This was agreed to by Hon. G. H. Bolvin, Minister of Customs, then asked that his personal telegrams be not shown to everybody working on the probe. It was agreed that Mr. Stevens, R. L. Calder, counsel for the committee, and telegraph managers would go through the telegrams and select what should be tabled.

SPARKS ON STAND

R. P. Sparks, president of the Commercial Protective Association, was again called to the stand.

Cross-examination by Mr. Bolvin followed. Mr. Sparks said he did not consider Messrs. Farrow, Blair and Wilson of the customs department annually responsible for any irregularities. Nor did he wish to make any statement of any kind in the office of the customs department.

Mr. Bolvin: "You said yesterday that in your judgment, Mr. Bolvin (former Minister of Customs) and the acting minister, Mr. Carlin, had on some occasions interfered with the proper administration of the act."

"Yes. They were correct legally. My judgment they did not take the action most in the public interest."

"Did they ever do anything that had not a legal right to do?"

"I don't think I can answer that question."

Mr. Sparks added, in reply to a further question, that he had no knowledge of any illegal act committed by any minister.

BACK TO BISAILLON

Questioning turned to Bisailon. Mr. Sparks said he had in 1925, submitted evidence in the King vs. Bisailon case to Deputy Minister Farrow and an extract of the evidence to the Premier.

At the time Mr. Sparks was acting as Minister of Customs. This was the information on which Mr. Sparks considered the government should have acted and held an investigation.

Questioned as to strengthening the preventive service, Mr. Sparks said he thought appointments should be made of men with knowledge of this class of investigation and without any political consideration.

Mr. Bolvin thought the civil service commission was the best possible route to select the departmental employees, but he asked Mr. Sparks if he considered preventive officers could be best chosen by the civil service system.

Mr. Sparks replied that whoever did the choosing, preventive officers should be chosen for their "police mind," the type of man who could best "criminals at their own game."

"Would you consider the employment of mounted police at what might be called dangerous border points an improvement over the present system?" asked Mr. Bolvin.

Mr. Sparks thought the mounted police should be utilized, but he did not think that would be a solution. A secret service of trained criminal investigators should be employed. As soon as the professional smuggler knew that he was confronted with such an antagonist, a good deal of the smuggling would stop, Mr. Sparks thought.

Mr. Bolvin asked if Mr. Sparks thought that at least part of the smuggling going on at Rock Island, Que., was carried on with "at least the tacit consent" of some officers stationed at that point.

Mr. Sparks thought all the officers at Rock Island knew that smuggling was going on and that "some of them have authorized it."

He also believed that some preventive officers had not received from Ottawa the support they should have.

If the minister had power to move collectors from one customs post to another, without reference to the civil service commission, said Mr. Bolvin, it might work for the benefit of the service. He explained that recently he had tried to switch officers at Rock Island and Quebec, Que., and had found that he had no authority to do so. He had thought that if officers were removed from localities where they knew everybody, they might do better work.

"Shovelling" of British Workless Overseas Objected To In Commons

Revelations Threatened In Oilfields Case

LONDON, Feb. 25.—Sensational revelations are threatened in the suit entered by the new directors of the British-controlled oilfields against several men who were previously connected with the company. Sir Mackay Edgar was the former president of the board, but he resigned last November, following a petition in bankruptcy. The present board has been completely reorganized, with Lord Buckmaster at its head. The company is incorporated in Canada, and it owns exploitation rights over 3,000 square miles in Venezuela.

AGRICULTURE COUNCIL O.K.'S RURAL CREDITS

Development of Co-operative Societies Is Forecast

MEET IN REGINA

Unlimited Joint Liability Is Seen Unworkable At Present Time

REGINA, Sask., Feb. 25.—The departure of a Federal long-term rural credit plan, with provisions for the establishment, ultimately, of co-operative credit societies such as exist in Ireland, Germany, Italy and other European countries, was approved yesterday by the Canadian Council of Agriculture at its annual meeting here.

The preamble on the resolution ultimately adopted set forth the belief of the council that the ultimate solution of the problem of rural credits will be found in the development of co-operative credit societies controlled and operated by the farmers themselves, but also recognizes that conditions in many parts of Canada are not yet favorable for the development of such societies on a large scale.

NOT WORKABLE NOW.

During the discussion it was stated that the operation of co-operative credit societies with the principle of unlimited joint liability as an integral part of the scheme had proved unworkable in the United States and in Quebec, and would therefore be still more unworkable in the newer provinces.

Germany already here has shown some excellent co-operative credit societies, but their country would cancel the application for admission to the league if other states were to be included in the same time.

MONCTON TO BUILD NEW SCHOOLHOUSE

Trustees to Apply to Legislature to Issue \$100,000 Bonds

MONCTON, Feb. 25.—The Moncton Board of School Trustees last night passed a resolution to ask for legislation to authorize them to issue \$100,000 worth of 20-year debentures bearing interest at 4 per cent exceeding five per cent annum. The sum is to be applied towards the erection of a new school building on property owned by the trustees on West street, which is necessary on account of the increasing school population, which has been oversteering the capacity of the other city schools of late.

INCOME TAXPAYERS TO BENEFIT BY CUT

Exemptions Raised \$500 For Single Folks, \$1,000 For Married Folks

WASHINGTON, Feb. 25.—More than \$200,000,000 of the tax saving proposed for this year in the new revenue bill will go to the personal income tax payers.

All of the income rates are slighted and in addition the personal exemptions are increased from \$1,000 to \$1,500 for single persons, and from \$2,000 to \$3,000 for married persons. The amount of income of which the 25 per cent credit for earned incomes may be applied is increased from \$10,000 to \$20,000. The allowance in the present law of a 6000 exemption for each child under 18 years is retained.

TORNADO KILLS ONE

VICKSBURG, Miss., Feb. 25.—Lake Village, Ark., reported last night that a tornado passed three miles south of that city, resulting in one death. Several were injured and farm property damage was heavy.

FRONTIER VIOLATION BY POLES CHARGED

KOVNO, Lithuania, Feb. 25.—Violation of the Lithuanian frontier by Polish police is charge in a semi-official statement issued today. The incident occurred Monday night when, according to the statement, 200 Polish police, armed with hand grenades and machine guns, crossed the frontier between Kilaobolus and Podole and occupied the forest on the Lithuanian side.

AUSTRO-GERMAN THREAT IN BALKAN PROVINCES IS FEARED

ROME, Feb. 25.—The arrival here of M. Nisichich, Jugo-Slavian Foreign Minister, accompanied by General Bodoro, Italian minister in Belgrade, is said by the newspaper commentators as significant. They consider it an indication that the Austro-German incident regarding the southern Tyrol has revealed Austro-German aspirations threatening not only Italy, but also Jugo-Slavia, Czechoslovakia, and Poland, who have large German minorities within their borders.

According to the commentators, Jugo-Slavia feels particularly uneasy owing to alleged German encouragement of extreme nationalism in Hungary.

Blames Whiskers

NEW YORK, Feb. 25.—There is now a possibility that the Countess of Cathcart will renew her acquaintance with Ellis Island before it is decided finally whether she will be given the freedom of the country or be sent back to England.

Her attorney, Arthur Garfield Hays, has arranged with Federal Attorney Buckner to postpone the hearing on her writ of habeas corpus until Friday of next week. The countess' ten days "shore leave" expires at 11 o'clock next Wednesday night, the face return to the jurisdiction of the immigration authorities then.

RE-HEARING REFUSED.

Decision to postpone the hearing came yesterday after the Department of Labor refused to grant a re-hearing of her case. It was held that the case is now within the Federal Courts because of the habeas corpus action.

It was also said that the department had granted the countess, every opportunity possible when she was allowed 10 days of liberty on her personal bond of \$500.

Mr. Hays, after this decision, telegraphed the Secretary of Labor offering to withdraw the writ if a new hearing was held and he was given five days' notice in case of an adverse decision so that a new writ could be sought.

LIKE TEST CASE.

An official of the Department of Labor said that a court decision on the meaning of the "moral turpitude" hereof at the end of the 10 days, Mr. Buckner said, the immigration authorities might issue a warrant for her arrest in depositing goods and take her back to Ellis Island. In that event, Mr. Buckner admitted, Mr. Hays might be able to have the whole case thrashed out.

ARREST POSSIBLE.

If the Countess chooses to forfeit her \$500 bond rather than surrender herself at the end of the 10 days, Mr. Buckner said, the immigration authorities might issue a warrant for her arrest in depositing goods and take her back to Ellis Island. In that event, Mr. Buckner admitted, Mr. Hays might be able to have the whole case thrashed out.

FEARS FOR MANY IN AUSTRALIAN FIRES

MELBOURNE, Feb. 25.—One hundred and fifty men, women and children, who took refuge in the post office building at King Lake, while the remainder of the town was swept by a great bush fire, have been rescued.

MELBOURNE, Australia, Feb. 25.—Bush fires, which recently have done immense damage in Australia, have broken out again in the Queenstown district. King Lake township has been destroyed, except for the postoffice. In this building 150 inhabitants took refuge and at last reports it was surrounded by flames. The fate of the inmates is not known.

A party of fire fighters who left Queenstown for King Lake apparently have been cut off by the flames. A large party of Melbourne police went to Queenstown to try and get through to King Lake but were unable to reach that place.

MORE CUT OFF

Fire fighters have been cut off at Paton Hill. Many houses at Healesville have been burned. The greatest anxiety prevails regarding the safety of the people there owing to the rapid advance of the flames, fanned by a fierce north wind.

HELEN WINS EASILY

MONTE CARLO, Feb. 25.—Miss Wills advanced a step nearer to possession of the Duke of Connaught's gold cup today, when she defeated Miss Lily Cadie of England, 6-0, 6-0, and thus reached the semi-finals of the Monte Carlo tournament.

THREE ESTATES IN YORK PROBATED

Administration Arranged in Mark Yeras, Charles Cremlin and Pat. Crowley Cases

Special to The Times-Star

FREDRICKTON, Feb. 25.—Before Judge H. G. Fenby, in the Probate Court of York County, letters of administration have been issued to Frank Yeras in the estate of Mark Yeras of Kingsclear, executors under will. The estate is valued at \$4,400 of which \$1,100 is real and \$3,300 personal.

Letters of administration in the estate of David Cremlin have been issued to his brother Charles Cremlin. The estate consists of \$20,000 life insurance. Letters testamentary in the estate of Patrick Crowley have been issued to John Crowley and Mary E. Doohan of Kingsclear, executors under will. The estate is valued at \$4,400 of which \$1,100 is real and \$3,300 personal.

LONDON BANKER'S WIFE DEAD

MONTE CARLO, Feb. 25.—Lady Zaharoff, wife of Sir Basil Zaharoff, London banker, died here last night. Sir Basil is reputedly the richest man on the continent.

"Mr. A." Becomes Maharajah

JAMMU, Kashmir, Feb. 25.—At the religious observances at the coronation of Sir Hari Singh, the new Maharajah of Jammu and Kashmir, he will stand, dressed in a plain mauve garment, beside the family priest, who will recite the Hindu scriptures while the Maharajah feeds the Holy Fire with butter and sprinkles upon it water from several of the rivers of India.

A large number of saffron-robed priests, especially invited from Benares, will chant continually before the fire, under a canopy on which is displayed a picture of the goddess of wealth.

The new Maharajah, who was the notorious "Mr. A.," the victim of the famous Robinson-Macmillan case, which was tried in London last year, in which he was mugged of \$1,500,000, gave a state banquet in honor of the ruling princes and chiefs of the native Indian states who have come to Jammu for the coronation.

It was an occasion of splendor, with the native rulers attired in their priceless robes and wearing many millions of dollars' worth of jewels. The princes were served on plates of gold, and their staff on plates of solid silver.

Picture Expert Discovers Two Original Old Masters In Shops At San Francisco

SAN FRANCISCO, Feb. 25.—Michael J. Berdikoff, an expert in the restoration of paintings, announced yesterday that two paintings have been found in San Francisco, one of which he identified as an original Raphael and the other an original Antonio Moro.

The supposed Moro, found in a drapery store by Berdikoff, is the portrait of a sixteenth century woman done in oils. Over the picture were super-imposed two other paintings, one a Syrian scene, and the other a flower scene. It was necessary for Berdikoff to remove these super-imposed paintings by chemicals and a razor-sharp knife before he reached the Moro masterpiece.

The Raphael is a Madonna and Child painted on an oak panel. It had an adventurous career in a Tuscolome County mining camp, where it was brought to California in 1849 by a member of a family in whose possession it has been for many years, through purchase in a New York second-hand store.

ATTEMPTS TO CASH \$700,000,000 CHECK

PROVIDENCE, R. I., Feb. 25.—After attempting to cash two checks, one for \$700,000,000 and the other for \$2,000,000, at the office of the city treasurer, a man who was recently paroled from the state asylum, was examined and declared "still insane." He will be recommitted to the institution.

GIVES LODGE FOR TRADE UNION SCHOOL

Countess of Warwick Donates Property; Urges Opportunity For Workers' Children

LONDON, Feb. 25.—The Countess of Warwick, a member of the Labor Party, yesterday handed over Easton Lodge and 900 acres, comprising an ancient country estate dating back to Elizabethan times to the Trades Union Congress to be used as a labor college.

"It is of the utmost importance that sons and daughters of the working classes have opportunities for continuing their education similar to those afforded children of other sections of the community," the countess said in the course of an address during ceremonies in which Arthur Pugh, chairman of the Trade Union general council accepted the gift.

GENEVA, Feb. 25.—Greece has appealed to the League of Nations against Turkey for settlement of the dispute over fixation of the Greco-Turkish frontier.

FATHER OF 25 CLAIMS PRIZE FOR LARGEST TURKISH FAMILY

CONSTANTINOPLE, Feb. 25.—A Mehmed Isat, a sea going man, has had four wives, two of whom he married at the same time when polygamy was permitted. However, there is a strong sentiment that the "prize of virtue" should go not to the father of the greatest number of children, but to the mother. The leader in this category is Hava Hanoum, widow of Abdul Haman Zin, who has brought into the world 25 children, but the father, alive.

NEW SCHEME TO HELP SITUATION IS PROPOSED

"Capitalized Communities" Suggested By Sir Shirley Benn

GIVES DETAILS

Urges Corporations, Each To Develop And Operate Separate Colonies

LONDON, Feb. 25.—An ambitious scheme, which might be termed "capitalized communities," was submitted with a wealth of detail to the House of Commons last night by Sir Shirley Benn, Conservative member for Drakely, who moved that the government be responsible for the repayment of the capital and interest.

GUARANTEE QUESTION

P. J. H. Hannon, Conservative, in accordance with the motion, said he doubted whether Winston Churchill, Chancellor of the Exchequer, would smile on the proposal of the government guarantee which was necessary for floating the corporation. Incidentally, Hannon remarked, that some uneasiness was being felt at the dilatory way in which the government settlement committee is proceeding for the encouragement of inter-imperial trade being dealt with.

Mr. Lunn, who was a member of the Labor cabinet, indignantly protested against trying to remedy the unemployment situation by "shovelling" people overseas.

AMERY AGREES

Lieut. Col. I. C. Amery, Secretary of State for dominion affairs, agreed that the government had no right to push or even encourage people to go overseas who were stranded at home and might find themselves stranded in the dominions.

"When we speak of Empire settlement," he said, "we must not forget that there is a part of the Empire. There is no reason why men shouldn't be trained for land work here. If Sir Shirley Benn's suggestion is submitted to the overseas settlement committee in practical form it will receive the most practical sympathy."

SIR SHIRLEY'S MOTION WAS TALKED OUT.

Vocational School Committee Discuss Salaries, Equipment and Appointments

Decide to Call For Tenders For Equipment to Be Placed in School in June

Appointments, salaries, and finances were discussed at the meeting of the Saint John Vocational committee held last night and authority was given for calling for tenders for the equipment of the machine shops and the woodworking departments at a date to be decided by the director of the new school. The delivery of the equipment is to be made in June.

THOSE PRESENT

Dr. L. M. Curran, chairman, presided. Others present were members E. R. W. Ingraham, Alexander Wilson, John McKinnon, T. H. Carter and Fletcher Peacock, director. A Gordon Leavitt, secretary, George F. Hennessy, superintendent of the construction of the building, and S. A. Worrell, superintendent of city schools.

be modern type and blanketed. Mr. Peacock suggested a protective policy of insurance should be taken out.

A list of minimum equipment for the machine shop, approved by an advisory committee, was next submitted and it was agreed tenders should be called for the specified equipment.

Delivery of the equipment was to be fixed for June of this year, but the date for expiry of tenders was to be fixed by the director.

Mr. Peacock advocated calling for tenders for the 700 lockers required. The cost, it was thought, would be about \$8,600, making a total cost of about \$5,600. It was agreed tenders should be called for at once.

As applicants for instructor in the wood working department, the following names were mentioned: Charles D. Hoyt, Robert B. Ross, Miss J. P. Howard and F. G. Purvis. It was decided to ask the director for a report.

QUESTION OF SALARIES.

When the question of salaries was discussed Mr. Hennessy pointed out the figure must measure up to trade union wages. He maintained there could be no discrimination between the salaries in the different departments. Dr. Curran asked if that did not mean that salaries would have to be at the figure of the highest paid trade. He had favored a \$1,000 initial salary with increases according to success in the work.

HAS PLANS FOR ARCHIVES HERE

Improvements Contemplated Are Told of By Dr. J. D. Logan

Lectures on Important Topics Are to Be Arranged For

PLANS for making the archives office in Saint John a centre for historical research in the province are being furthered at the present time, it was announced last evening by Dr. J. D. Logan, assistant Dominion archivist, who is in the city on his way to Ottawa.

Dr. Logan stated that, besides improvements in the local archives office to make it more convenient with reading rooms and other facilities for students of history, it was intended to arrange for a lecture course on the political, social and literary life of the province and historical subjects of interest in New Brunswick.

The lectures, Dr. Logan said, would be given in Saint John, Moncton and other centres and would be given by himself and by other specialists in the various historical subjects. Dr. Logan was in consultation with Dr. William MacIntosh yesterday with reference to the lecture course arrangements.

SCHOOL OF HISTORY.

Dr. Logan said that the Dominion archives office was preparing to establish a school of history at Ottawa. While he is in Ottawa he will be arranging for an exhibition of archives treasures to be held in Saint John probably in April. He said that he hoped also to have other exhibitions in the Saint John archives quarters in the summer and in the fall. He was specially pleased with the manner in which the archives work in Saint John has been carried on by Miss Vera

Daye, assistant archivist. He felt that more system had been introduced into the care of the archives work than there had been previously.

ORIGINALS HERE

Dr. Logan stated that he had already had a definite understanding with the federal office that whatever gifts of historical material were presented to the New Brunswick office should remain in this province only copies being furnished for the Ottawa office.

He spoke of the improvements that have recently been made in the Halifax office of the archives and of his intention to have similar improvements carried out in the Saint John office as soon as possible. He leaves for Ottawa this afternoon but expects to be back in the city in a fortnight's time.

Old Timers Scoff At N. S. Moose Story
 ST. GEORGE, Feb. 24.—Hunters in particular, were very much interested in the story from Nova Scotia concerning the flight of six moose, snowbound in a valley and starting to death. Hunters in this vicinity laughed at the idea and the oldest woodsman smiled when asked if he had ever known of a similar case in this part of the country. "Moose," he said, "would never go into a place like that unless they were driven. In the deepest snow they hang to yards, near water, and keep the snow tramped down. If driven out they will return. Invariably they stay where food can be found. Soft snow, no matter how deep, never bothers them," he said. "The only thing they feared was a crust that made traveling extremely hard for them."

NO ONE TO BURY LADY BOUNTIFUL

Mary Myers, 75, Had Aided Many Women of Bowery

Police Search For Sons, One of Whom Sent Her Money She Gave Away

NEW YORK, Feb. 25.—An ironic twist of fate decreed that Mary Myers, 75 years old, who was found dead at Stanton street and the Bowery, must be buried in Potter's Field unless police of the Missing Persons Bureau find her relatives soon.

For seven years a mysterious benefactor, said to be one of "Mother" Meyer's two sons, who were only Harry and Thomas, gave a monthly envelope to her, containing \$40.

Little was ever known concerning "Mother" Meyer's life by those who associated with her in the lodging houses along the Bowery.

She came to the Salvation Army Women's Hotel, 249 Bowery, seven years ago, requesting permission to live there. "I want to pass the rest of my life in the Bowery," she told the army authorities.

Questioning failed to reveal anything of her life. Occasionally in sentimental moments during the ensuing years she chose to refer vaguely to two sons, one of whom was wealthy. It is believed he sent to Mrs. Meyer the envelope of money each month.

Went Back to Bowery When the Salvation Army moved its women's hotel from the Bowery to 237 Tenth Avenue, two years ago, "Mother" Meyer went along, with other aged women it sheltered.

Occasionally she returned to the Tenth Avenue lodging house, but more often she remained over night in the Bowery. She had no intimate friends and nobody could gain her confidence long enough to coax a connected story from her reticent heart.

Each day brought to light some good deed performed by her. She sought out women derelicts wandering, dazed and despondent, through the side streets of the Bowery, and gave them encouragement.

A few pennies here and there dispensed to those in need of a night's rest, or a cup of coffee and rolls bought out of her own slim purse for a starving fellow-informant—these were the portion of her daily self-imposed philanthropies.

Detective Morgan Callahan, investigating for the Bureau of Missing Persons, is endeavoring to find the sons of a relative of Mrs. Myers.

Deaths R. G. Doherty Roderick Gerard Doherty passed away after a lingering illness in King's Park Hospital, Brooklyn, New York, Feb. 9. Mr. Doherty was born in Saint John, and was in his 26th year.

No man or woman can make a mistake by flushing the kidneys occasionally, says a well-known authority. Too much rich food creates acids which clog the kidney pores so that they sluggishly filter or strain only part of the waste and poisons from the blood.

DECIDE TO BUILD MEMORIAL HALL

Congregation of St. David's Church Approve Plans—Work to Begin Soon

By a majority vote the congregation of St. David's church at an adjourned meeting last night decided to proceed with the erection of a Memorial Hall for the church Sunday school and complete the original plan of the church buildings, made in 1919, when the present church was erected on the site of the one which had been destroyed by fire.

Because of lack of funds the erection of the Memorial Hall was not undertaken at the time the church was built. The hall will be above the present basement room in rear of the church.

The whole extension agreed upon last night will be 78 feet by 46 feet and will be a ladies' parlor, as well as the Memorial Hall. The hall will have a stage 20 feet by 40 feet. Authority was given for the calling of tenders and the work will be proceeded with as soon as possible.

James Brittain presided at the meeting and gave his report as chairman of the special committee on the completion of the Sunday school. Russell Holt was secretary of the meeting.

PILGRIMAGE FROM HERE TO CHICAGO Special Train to Leave Moncton June 18 For Eucharistic Congress Fr. Duke Announces

A Maritime Province pilgrimage to the Eucharistic Congress to be held at Chicago in June will be conducted over the N. E. R. in connection with this effect having been completed yesterday between Rev. William M. Duke, rector of the Cathedral, and the railway company.

The train, which will leave Moncton on June 18, will be a special one, all the way through from Moncton to Chicago and return. On the return trip a visit will be made to Niagara Falls and to the shrine at St. Anne de Beauséjour. The special will be officially known as the Eucharistic Congress Pilgrimage, Maritime Section.

The Congress will be held at the Cathedral of the Holy Name, beginning on June 20 and continuing until the following Thursday. Rev. Father Duke is the organizer of the Maritime section and co-operation has been extended by the archdiocese of Halifax and the dioceses of Antigonish, Charlottetown, Chatham and Saint John.

175 LIKELY TO GO It was estimated yesterday that about 175 will go from the Maritimes. In addition it has also been arranged with the Tatham Dean Eucharistic Congress Tourist Bureau in Chicago to look after all hotel accommodations for the pilgrims and through them also arrangements will be made for presence at the congress sessions.

WANTS HEALTH BOARD TO AID FOOD INSPECTOR

Moncton Body Delays Recognition of Official Named By City

MONCTON, Feb. 24.—The question of the recognition by the Westmorland sub-district Board of Health of Dr. A. T. McLean, food inspector for the city of Moncton, was brought before the Board of Health at their regular meeting held here this afternoon. It came in the shape of a motion made by Ald. A. J. Taylor, one of the city representatives on the Board, that Dr. McLean be recognized by the Board as the city food inspector, the expenses to be borne by the city. Ald. Fretchet seconded the motion.

The chairman, Dr. Desmond, explained that when the question was brought up last year the question of salary being borne by the city was all right, but the question of legal and other expenses was not mentioned and the Board did not then recognize the appointment. He felt it required the endorsement of the Council, but Mayor Wheeler stated this was not necessary as the Council had representatives at the Board.

COMPLICATIONS BEFORE Dr. Desmond said the reason he had mentioned this was that complications had arisen before in this matter and he would not like to see the same thing occur again. Mayor Wheeler felt that in order for the food inspector to carry out his duties efficiently there must be the co-operation of the Board of Health, so that the full powers of exercising the provisions of the city Food Inspection Act could be carried out. He believed the Board should recognize the food inspector and that the citizens were of the same view.

SHOULD RECOGNIZE INSPECTOR The chairman recalled the appointment of Dr. McLean in the first instance by the Board of Health, at the request of the city, and of the later justification of the appointment by the city's recommendation in both instances. His belief was that in order to function the food inspector must be recognized by the Board and he thought the city should do so. He pointed out in paying the inspector's salary and expenses, but the only thing was the involving of legal expenses in connection with the office and getting beyond their depth.

CITY WILL CO-OPERATE Mayor Wheeler said in connection with legal expenses that there would be nothing done on the city's part to cause any legal tangle. There were sometimes cases under the Food Act that required legal action and he assured the Board that no such action would be taken in any case until the City Council and the Health Board reached an agreement on it. He believed the appointment of the food inspector should be made now.

MOVES AMENDMENT W. A. Gass thought the proper time to sanction the food inspector's appointment under the Health Board was when all arrangements were completed by the City Council and he moved in amendment that the matter of sanctioning the appointment of Dr. McLean as food inspector be left over until the City Council notifies the Board that they are ready to accept the same. This was seconded by Coun. Luther Taylor, but the question did not come to a vote, as the mover and seconded of the motion agreed to withdraw it and bring the matter before the City Council and report to the next meeting of the Health Board.

The interim report of the secretary read to the meeting showed that the district is very free from any infectious diseases.

Philip D. Bellevue of Pre D'en Haut, was appointed sub deputy registrar and inspector in that district, succeeding the late Marcel LeBlanc.

Mr. Carter of Aulac, wrote the Board regarding the conditions under which a family named Martin were living at Green Hill in the eastern end of the county. Coun. W. S. Chapman added to the minister's communication and explained the conditions, which he said was a matter for the Attorney General's department to investigate. The secretary was instructed to notify the Attorney General accordingly.

Dr. L. N. Bourque of this city was appointed chairman of the finance committee of the Board in the place of H. C. Charters, whom he succeeded.

H A S THANKSGIVING St. Colomba W. M. S. Hears Interesting Address By Rev. Dr. Scott

The W. M. S. of St. Colomba Presbyterian church, Fairville, held its annual thanksgiving meeting last night in the church. Rev. W. M. Townsend, minister of the church, presided.

Rev. Dr. Scott of Perth, Ont., who is supplying in Knox church, addressed the meeting. His subject was "Mother's Day."

In 1875, he said, he began his ministerial career, the same year in which the Union of the Presbyterian churches took place in Canada. He was pleased to address the W. M. S., as he was an honorary member of that society in his home town. He urged the members to give one-tenth of their income to the Lord. He gave a very interesting account of his visit to a conference in Stockholm.

In closing he gave the following formula to the members, Q plus Q plus M equals S, which symbol means Quality, Quantity and Method equal Service.

The thanksgiving amount to \$28.50. A vote of thanks to Dr. Scott was moved by G. C. Lawrence, seconded by John Baird and supported by Miss Isabelle Cate. The ladies of the society served dainty refreshments.

Letters to the Editor

GORMAN. To the Editor of The Times-Star. Sir—I have written a few lines offering a suggestion which if in your good judgment you consider it a worthy one I would like to have copied in your superb paper.

THE AMERICAN NOBILITY. Who'er amidst the sons of reason, valor, liberty and virtue, displays distinguished merit, is a noble of Nature's own creating.

—THOMPSON. The Times-Star February 24 prints "More Honors Showered on Chas. Gorman. At a banquet in his honor attended by nearly 400 Knights of Pythias in the Pythian Castle, last evening, Charles I. Gorman, new world's amateur skating champion was crowned with a diamond ring, the regular meeting held here this afternoon. It came in the shape of a motion made by Ald. A. J. Taylor, one of the city representatives on the Board, that Dr. McLean be recognized by the Board as the city food inspector, the expenses to be borne by the city. Ald. Fretchet seconded the motion.

Our hero certainly deserves all these honors bestowed on him and no doubt every true Canadian wishes him ex-

actly the same good fortune as do his brother Knights of Pythias.

If there should be any whose judgment differs from those who believe that our hero has merited all these favors then let us consider what Pope has said:

"Tis with our judgments as our watches, none go just alike, yet each believes his own."

Why should not our Canadians pay as much honor to our heroes as did the ancient Greeks and Romans? History records that in 776 B.C., a contestant named Coroebus was victor in the foot race at Olympia, and as from that time the names of the victors were carefully registered.

In antiquity, these games were public spectacles or contests exhibited as spectacles for the gratification of the people. Such were the Olympic games, the Pythian, the Isthmian, the Nemean, etc., among the Romans, the Pollinarian, the Circensian, the Capitoline, etc.

The victor was crowned with a garland of sacred olive; heralds proclaimed his name abroad; his native times through a breach made in the city walls; his statues, executed by eminent artists, were erected at Olympia and in his own city; and poets and orators vied with artists in perpetuating his name and triumphs as the name and triumphs of one who had

reflected immortal honor upon his native state.

Why should not all Canadians be proud of the achievements of the new world's champion and erect at Ottawa and Saint John monuments bearing on them a life size figure in a skating position of Chas. I. Gorman, amateur skating champion of the world?

I feel sure that both the Federal and Provincial Governments would assist in making this suggestion a reality if brought before them by a capable representative committee.

We Canadians would think more of Canada. If we honored our Canadian heroes as did the Greeks of old and if we celebrated the victories of our heroes as they did, we would awaken in our hearts such a strong love and devotion for our native land that both our mind and muscle would be used to make of Canada the one and only land to live in. We would then sing that beautiful song O Canada! until our hearts would glow with love and devotion and never cease singing it until the Omnipotent God calls the last Canadian to His heavenly home.

Why Mothers Themselves Are to Blame for Selfish Children— Will the Girl Who is a Poor Sport in Games Make a Good Wife?— Can Young People Distinguish Between Infatuation and Love?

DEAR MISS DIX—Are only dead mothers appreciated? By the greatest self-denial and effort I am putting my son through college. I know that he loves me, but he never asks me to go any place with him, though I would be so proud if he would only take me...

DOROTHY DIX

ANSWER— I think that when a mother fails to receive any consideration from her children, it is far more her fault than it is the children's. They are treating her just exactly as she has taught them to treat her and it isn't fair to blame them for it.

All children are little savages. They are greedy little animals that just naturally grab the best they can get for themselves and think only of their own pleasure and comfort and gratifying their own desires.

Occasionally a mother does have intelligence and backbone enough to do this, and then we are treated to the rare and beautiful spectacle of seeing children treat their mother as if she were a queen of children who hush their noise during mother's rest hour; of half-grown girls and boys who defer to mother's opinions and think her incarnate wisdom; of grown-up girls and boys who are as proud as Punch to show mother off and introduce her to their friends, and of married sons and daughters who never forget mother's birthday or fail to write her long and loving letters.

Mother writes her own price tag for her children. If she demands respect and admiration from them, she gets it. If from them in any way they have been taught to consider her and to do things for her, they never neglect her. But if she makes herself a doormat for them to walk on, they just naturally trample her underfoot...

The children who see mother always eating the neck of the chicken and the tough end of the steak, while they get the good meat, don't realize that she is sacrificing herself for them. They think that she has a morbid appetite for lones and gristle. The children who see mother always shabby, while they have fine clothes, don't appreciate that she is doing without the pretty things she loves so that they may be dressed as well as their companions. They are "nervously ashamed" of her, and they would think a thousand times more of her and admire and respect her more if she would make a fair divide and force them to make some of the sacrifices instead of making them all herself.

So it is the mother's fault if her children don't treat her with consideration. It is because she hasn't taught them to. She has taught them selfishness; she has taught them that she didn't count, and she hasn't any right to complain of the results.

DEAR MISS DIX—I have been going with a girl whom I love dearly, but she is stubborn and hates to give in when she is wrong. For instance, if we are playing a game and she begins to lose, she will throw up the game and quit. Also she is very sensitive and she will hot water all the time for fear of hurting her feelings. We have talked of marriage, but I doubt if I could be happy with her. Do you think she could be cured of this after marriage? W. J. D.

ANSWER— There is nothing else on earth, W. J. D., that requires as good sportsmanship as marriage, and I fear very much that the girl who turns quitter in a game when it goes against her would also turn quitter as a wife when she struck the hard sledding in matrimony.

For in every marriage there are disillusionments to be endured, there are hardships that must be put up with; there are sacrifices that must be made; there are faults and peculiarities in the one to whom you are married that must be overlooked. There is work and worry and anxiety and sickness and disappointment and only those who are good losers and who have the grit and courage to carry on and take good luck and bad luck as it comes win out in the end.

If I were a man I wouldn't pick out for a wife a girl who was only willing to play the game as long as it went her way and everything was rosy and gay and happy and she was winning. I would want a wife who could smile even while she was losing, a wife that no bad luck could down and who, when things were at their blackest, would keep up her own courage and buck me up and help me play the game out to the end.

And I would think a long time before I united myself for life to a sensitive plant, for, believe me, there are no more unpleasant ladies to deal with than those who keep their precious feelings spread all over the ground, so that you can't take a natural step without danger of treading upon them. It is a wearing thing to have to think before you speak for fear you will say some unguarded word that will precipitate a deluge of tears, and it is an exasperating thing to have somebody around who is always getting wounded by some unintentional remark and feeling slights where none were intended.

Matrimony is no cure for sensitiveness, W. J. D. It merely gives a morbid woman a chance to get in her greed and perfect work and keep her husband in a state of abject terror for fear of bringing on a scene. The husbands of sensitive women always wear a wild and harried look and jump when they are spoken to suddenly. Consider well before you undertake a role that requires the fineness of a diplomat, the agility of an acrobat, the disposition of a Pollyanna and the patience of Job.

DEAR DOROTHY DIX—Are very young boys and girls fitted to choose their life partners successfully? Would there be a proportional decrease in divorce if the marriageable age was raised? Can the young distinguish between love and infatuation? H. B.

ANSWER— No boys or girls in their teens are fitted to choose their life partners. They lack knowledge of the world, knowledge of life, knowledge of their own natures. They do not know what they are going to be themselves; still less what they will require of a husband or wife. By far the larger number of divorces are granted to young people or people who married when they were very young and who have grown apart.

Neither youth nor age can distinguish between infatuation and love, because while it lasts its victim invariably believes that infatuation is a deathless passion.

Getting Ready For Race To North Pole This Summer

By JOHN T. LEWING, JR.

With at least four expeditions preparing in the U. S. for aerial assaults on the unconquered Arctic, and three or four others being organized by adventurous European spirits, it looks like the polar regions will be a favorite summer resort this year.

Perhaps the most ambitious of the expeditions is that being sponsored by the American Geographical Society and the Detroit Aviation Society, under the leadership of Capt. George H. Wilkins, Australian explorer and aviator.

An expedition financed by Harrison Wilks and George Palmer Putnam, to gather specimens for the American Museum of Natural History, will have Capt. Robert Bartlett as leader, and Robert E. Peary, son of the man credited with discovering the North Pole, will be in the party. Capt. Bartlett accompanied Peary on some of his trips to the Arctic.

Lieut. Leigh Wade, one of the world fliers, will lead a third group of adventurers.

The fourth expedition definitely announced is that which will be commanded by Lieut. Comdr. Richard E. Byrd, U. S. N.

Meanwhile there is being overhauled a dirigible in which Roald Amundsen, Norwegian explorer now in the U. S., hopes to be able to fly to the Pole over the course on which he was nearly lost in attempting a plane flight last year.

Although none of the leaders will admit the possibility, it is probable that the invasion of the Arctic by air will develop into a race for what ever honors are attached to being the first to nail a flag to the North Pole.

Lieut. Wade is preparing to resign from the army air service in order to give all his time to preparations for the venture. His buddy on the world flight, Lt. H. H. Godden, will act as his assistant on the polar dash.

In personnel, equipment and financing, the expedition will be all American. It is backed by prominent alumni of Harvard, Yale, Princeton and the University of Pennsylvania and will be known as the American university's alumni expedition.

Leaders of the Williams-Putnam expedition, (l. to r.) Robert E. Peary, George Palmer Putnam and Capt. Robert Bartlett, studying a map of the polar regions, and the leaders of three other American expeditions: Richard Byrd, Leigh Wade and George H. Wilkins.

The expedition is negotiating for a steamer to transport its equipment to Point Barrow, Alaska, which is to be the base also of the Wilkins expedition, organized for the same purpose.

Lt. Comdr. Byrd is convinced by his experience as commander of the navy section of the MacMillan expedition last summer that exploration of the Arctic by aircraft is practical. Officially, the navy will not officially be connected with the expedition.

It may furnish some engines for the aircraft.

Commander Byrd expects to have four aviators with the expedition as well as what ship and ground crews are necessary. It is his hope that the navy will permit Floyd Bennett, aviation pilot of Waterbury, Vt., to accompany him as he did on the MacMillan expedition. Bennett has been in aviation work since he enlisted in 1917.

Fashion Fancies

What a vision of lovely, delicate color the mention of "spring green" brings before our eyes! This color, which brings out the latent beauty of the complexion better than any other, is chosen for the youthful dance frock sketched here. Its faded skirt is accented by tones which are set in so that the seams hardly show. A single yellow rose is worn at the shoulder.

Is this your BIRTHDAY?

FEBRUARY 25—Probably fond of people and society. Good-tempered, but can make things unpleasant for anyone you do not care for. You are of a romantic turn of mind. You want perfection, but, as you can't have it, put up with the best you can get. You should marry very happily.

Your birth-stone is an amethyst, which means sincerity. Your flower is a primrose. Your lucky colors are light blue.

Her Double Loss.

The late John S. Sargent, the portrait painter, was once obliged to attend an unsavory murder trial in London for the purpose of making certain sketches. The trial was attended by many society people, and one morning, when Mr. Sargent arrived late, he found his seat occupied by a great woman.

He said nothing, but at a very hurried luncheon at noon and so it came about that when the great woman came back from her own luncheon she found her place was gone. She put up her loggnettes, stared at Mr. Sargent haughtily, and said: "Dear me, I've lost my seat."

Menus for the Family

MENU HINT. Breakfast. Bananas and Oranges Sliced. Bacon. Cornmeal Pancakes. Brown Sugar. Coffee. Luncheon. Bouillon. Croutons. Virginia Baked Ham. Baked Sweet Potatoes. Pineapple Salad. Orange Pie. Tea or Coffee.

TODAY'S RECIPES. Virginia Baked Ham—One rather small lean ham, six cloves, one-half teaspoon celery seed, two tablespoons sugar, boiling water, one egg, beaten ten peppercorns, one-half teaspoon ground cinnamon, one quart sweet cider. Select a ham weighing about seven pounds. Wash thoroughly, sprinkle with soda, rubbing it all over the surface. Rinse in cold water and place in a deep kettle with the cloves, celery seed, peppercorns and cider. Cover with boiling water and simmer until perfectly tender; four or five hours is usually required. Take from the kettle, remove the skin and sprinkle with sugar. Brush over with beaten egg, cover with bread crumbs, stick cloves in at even intervals and brown in a 350-degree Fahrenheit oven.

Orange Pie—Three eggs, one cup sugar, one tablespoon cornstarch, two-thirds cup milk, grated rind and juice of one orange (strained), pinch of salt. Beat yolks of eggs with sugar till light, add corn starch dissolved in the milk, lastly the orange. Cook together in double boiler till it thickens. Line pie tin with crust. Put filling on crust and bake 30 minutes. Then cover top with whites of eggs beaten stiff with three tablespoons sugar. Put back in oven to brown meringue.

MODERNIZING IT: Joseph had a coat of flowered gorgette.

OLD ORGAN FOR ETON.

LONDON, Feb. 24.—A small organ with a history has been presented to Eton College. Built for George III. by Snetzler, the king gave it to Queen Charlotte, and she later made a present of it to Princess Amelia. It was afterwards bought by Lord Egremont and set up at his seat in Somerset, and then lent to the neighboring church of St. Decuman. Recently St. Decuman's procured a newer and larger organ and it was in consequence offered to Eton College.

**REPORT ON CITY
RED CROSS WORK**

Five Hundred Boxes For Contributions Are To Be Distributed

Relief Worker Tells of 92 Applications—Knitters Asked to Volunteer

Much activity in relief work and in arranging for the visit of Miss Helen Campbell, dairy lecturer, was reported at a meeting of the Saint John Red Cross Society yesterday afternoon in the depot. Consideration was given the means of distributing collecting boxes for funds for the care of sick soldiers in the province. An urgent appeal was made for volunteer knitters to make garments for emergency supplies.

Women Dispose

Of this new hygienic pad as easily as tissue—no laundry

COUNTLESS women have discarded old-time "sanitary" pads for a new and better way.

A way that offers far greater protection. A way, too, that banishes the old-time problem of disposal. Eight in 10 better-class women now use "KOTEX."

Discards as easily as a piece of tissue. No laundry. No embarrassment. Five times as absorbent as ordinary cotton pads. Deodorizes, thus ending ALL danger of offending. Obtainable at all drug and department stores simply by saying "KOTEX." You ask for it without hesitancy.

Package of 12 costs only a few cents. Proves old ways a needless risk. In fairness to yourself, try it.

absence of Mrs. I. F. Longley. The report of the treasurer, R. F. Wright, showed a balance of \$1,730. The relief work, following visitor's report, was given by Miss Burns.

92 APPLICATIONS

Mrs. Bert Gordon, relief worker, reported 92 applications since the last report. Relief given included groceries for 24 families, coal for 16, layettes for five, transportation for one, milk for two families, meal tickets for 23 cases, beds for 11, doctors' services for a pneumonia case, and medicine for another case of sickness.

Mrs. Gordon also reported supplies of new and second-hand clothing and bedding given out. Miss Jean Burns was appointed convener for the refreshments for the soldiers' dependents' home nursing classes. The visitors of last month, in connection with relief work, were re-appointed.

As the provincial division had decided that collecting boxes would be sent throughout the province to raise funds for the gifts to sick soldiers, it was said 500 boxes were to be distributed in Saint John. There are no other funds to meet this work, all the Central Council grant being earmarked for Junior Red Cross and home nursing classes.

WORK MUST GO ON

F. T. Short, provincial president, stressed the fact that the work for the soldiers must go on and it was merely a question of raising the necessary money.

Definite action with reference to the appointment of a committee for the distribution of the boxes in the city was deferred until after the meeting of the provincial hospital committee on Friday morning and until the return of the president, Mrs. I. F. Longley.

Miss F. Stinson reported that the special committee had made very comprehensive arrangements for the visit of Miss Helen Campbell, of the dairy section of the Federal department of Agriculture.

For the children's mass meeting in the Imperial theatre on Saturday at 10.30 a. m., the Boy Scouts expect to have about 200 of their number present and will do the ushering.

EXPRESS APPRECIATION

Mrs. W. E. Morris and Mrs. John E. Owens expressed appreciation of the addresses and demonstrations which Miss Campbell had given. Mr. Logan gave a progress report for the committee to present information regarding a bill for mothers' allowances which had been prepared for submission to the New Brunswick house some time ago.

SOCIAL AND DANCE PLEASANT EVENT

Orange Lodge Function Held in Simonds Street Hall Last Evening

A very successful pie and basket social and dance was held in the Orange Hall, Simonds street, last evening under the auspices of No. 141, Loyal Orange Lodge. The hall was decorated for the occasion with the colors of the order. H. C. Marley, the most worshipful master, was the general convener. The committee in charge of the social and dance was composed of H. C. McCafferty, D. J. Dewey, George McQueen, S. A. Taber, H. G. Olive, William J. Andrews and Charles Hamilton. The pies and baskets, which were artistically decorated, and were auctioned by D. J. Dewey, and brought a considerable sum of money. After the auction had taken place the purchasers of the pies and baskets,

sought out the owners and all partook of the dainty refreshments. The music for the dancing was furnished by the Harmony orchestra. A creditable sum was realized which will go toward the building fund of the hall. Other members of the lodge assisting in various capacities were Harry Sellen, J. D. Trail, Joseph Christie, Walter Fowle, William Cunningham, William Neil, William Cruikshank, G. Linton, J. T. Moore and George McAllister.

FATHER-DAUGHTER BANQUET PLANNED

Y. W. C. A. Complete Arrangements For Holding Event Next Month

Definite plans for holding a Father and Daughter banquet on March 12 and for giving an Indian evening of tableaux and story, some time towards the end of March, were made at a special meeting of the board of directors of the Y. W. C. A. yesterday afternoon. It is hoped that there will be about 200 at the banquet and various committees were appointed to make sure that the new venture should be thoroughly successful. A special committee was named to prepare the program and to extend invitations to special guests. Another committee was named to have charge of the catering and a third committee was appointed to look after all the arrangements for the decorations.

INDIAN NIGHT.

The committee which had been discussing the project of the Indian night with Dr. William MacIntosh, reported that he had considered the suggestion a very good one and had offered to assist in any way. It was decided to have an elaborate program of stories, legends and tableaux and to stage the performance in the gymnasium hall at the recreation centre towards the end of March.

Mrs. L. DeV. Chipman, the recently elected director, was welcomed at the meeting.

Miss Doris DeVre is visiting for a few days in Montreal, the guest of Mr. and Mrs. J. B. Cudlip.

Miss Kathleen Coster spent the weekend in St. Andrews the guest of Mr. and Mrs. Dalglish.

On Tuesday evening Miss Grace Parkinson, 113 Adelaide road, was hostess at a dinner party for the Trojan Rovers basketball team. The table was artistically decorated with sweet peas and carnations and each girl received a dainty favor. The evening passed very pleasantly with music and cards. The prize winners were Miss Agnes Keohan, Miss Janet Fraser, and Miss Gladys Johnston of the basketball team and Miss Dorothy Taylor, Miss Maud McEay and Miss Emma Colwell.

Members of DeMonts Chapter met at the home of Miss Edith Skinner, Coburg street, yesterday afternoon to engage in the customary Lenten sewing for the Red Cross and other charitable institutions. Afternoon tea was served by the hostess.

Mrs. H. W. Parlee was the hostess at a very enjoyable tea at her residence, 120 Main street, on Tuesday afternoon from 4 until 6 o'clock. A profusion of spring flowers adorned the drawing room, where Mrs. Parlee, wearing a very becoming gown of navy blue flowered georgette, and a pearl necklace, and carrying an old-fashioned nosegay, received her many guests. Mrs. J. P. McEay conducted the guests to the dining room, where the table was artistically arranged. The table was centred with a silver basket filled with Columbia roses. Rose colored candles in silver candlesticks added to the effective decorations. Mrs. R. A. Sinclair and Mrs. J. R. VanWart presided over the tea cups. Assisting with the refreshments were Mrs. Murray Sinclair, Mrs. Otis Mullin, Mrs. Stanley Clark, Mrs. Joseph Needham, Miss Mabel McConnell and Miss Marjorie McConnell. Miss Norma Parlee assisted the hostess at the door.

GIVE UP PROFIT TO GET MARKETS

Americans Hear Reports on German Efforts for Trade

Supreme Attempt Being Made in South America—Comment on Situation

NEW YORK, Feb. 25.—German competition, its influence world markets restored almost to pre-war effect, was reported upon here by the American Exporters and Importers' Association, at 10 Bridge street.

Foreign agents, speaking of German competition, declare some of it is out and out "dumping" according to the report. Other cases indicate the absolute determination of the Germans to force their way into a market regardless of immediate profit or loss, it is asserted.

An example cited is that of a German automobile sold in Switzerland in competition with a well-known American car. The price of the German car across the Swiss border is \$1,000 less than it sells for in Berlin or anywhere else in Germany.

Judging from German retail domestic prices, the German consumers themselves are footing part of the bill. The American Exporters and Importers' Association reports also that in South America the Germans are making their supreme effort to recapture trade lost during the war and reëntrench themselves in a market formerly most profitable.

In this connection, the report on German production costs reads: "In manufactured articles where raw material and overhead expense, including cost of capital, are important factors, the Germans are at great disadvantage. They still produce cheaply where labor is the main item in a finished product. Their high taxes add an invisible but very considerable cost to their selling price."

Starting with only 12 clubs in 1880, the Amateur Boxing Association of England now controls over 800.

ANGLICAN CHURCH ELECTS WARDENS

St. Martins-in-the-Woods, Shediac, Resumes Services After Pastor's Illness

SHEDIAC, Feb. 24.—At the adjourned annual meeting of the Anglican Church of St. Martins-in-the-Woods on Monday, George Hanington, of the Moncton Road district, was elected warden to succeed Arthur W. Bateman, of the same district, who declined re-election.

John L. Welling, who was re-elected warden, and the retiring warden, Mr. Bateman, are also great-grandsons of the founder of the church. The vestry clerk, Kenneth Welling, is a great-grandson of William Hanington, of London, the first English-speaking resident of the civil parish of Shediac and the founder and endower of St. Martins church.

The remaining vestrymen elected were Roy Bateman and Albert Welling, retired C. N. R. conductor. Services were held in the church on Sunday for the first time in six weeks, the rector, Rev. W. Tomalin, rural dean, and his family having been ill.

TRIAL HELD UP BY IMPASSABLE ROADS

SHEDIAC, Feb. 24.—The case of William Green, charged with robbing goods stolen from the store of J. P. Sherry and C. M. Leger at Memramcook, which was to have been heard before Magistrate Chapman at Dorchester this week, was again postponed because of impassable roads in the back districts of Kent and Westmorland counties, where important witnesses reside. The case will not be heard before March. Chief of Police William E. Gunn, of Shediac, is in charge of the prosecution.

I have suffered for years from kidney trouble, rheumatism, Bright's Disease and Lumbago being some of my chief troubles. My head used to ache and my appetite was fitful. I have taken Dodd's Kidney Pills and found them very satisfactory. I think they are truly a wonderful medicine. Really they are not used half enough by a good many people."

SCARLET FEVER CLOSES SCHOOLS

BELLEISLE, Feb. 24.—The outbreak of scarlet fever in the home of Mr. Peter King is passing. Four of the family took the malady but are all on the road to recovery now. School, which was to have opened on the first of February, did not do so until today on account of the danger of scarlet fever.

Lumbering operations are seriously hampered on account of the unusual depth of snow, many of the crews being obliged to give up before the allotted amount of logs have been cut.

Three plants only, the scarlet pimpernel, daisy, and the chickweed, are believed to give a correct forecast of rain by closing their petals and leaves.

Jews Rebuilding Palestine

And Its Significance to Humanity "Millions now living will never die."

In its spirit of organization co-operation and progress, the Jewish state now being organized in Palestine stands out in marked contrast to that of the other nations of earth.

At a time when universal unrest and discontent threaten the overthrow of civilization, the Jewish homeland enjoys peace. Why is this?

Jewish prophets foretold both the destruction of the Jewish polity over 2,600 years ago, and its re-organization in our day.

The future prospect of the new Jewish state from the standpoint of prophecy is inspiring. God's promise made to Abraham nearly 4,000 years ago is being fulfilled.

Smelters, Brazilian, Asbestos and Cuban Sugar All Suffer Losses

SHORT COVERING OF WALL ST. INDUSTRIALS

Continued Selling of Railroad Shares Marks Opening Session Today

Canadian Press

MONTREAL, Feb. 25.—The opening of trading on the Montreal Stock Exchange this morning was a quiet affair and prices displayed a downward trend. Consolidated Smelters eased one-half at 244. Brazilian Traction came out with an overnight loss of one-quarter at 97%. Asbestos preferred was off one point at 112, and Cuban Sugar was off one-half at 27.

IN WALL STREET

NEW YORK, Feb. 25.—Extensive short covering of industrial shares contrasted with the continued selling of railroad issues at the opening of today's stock market. American Can rebounded four points and initial gains of one to two points were scored by Crucible and United States Steel, General Asphalt, Mack Trucks and American Railway, Norfolk and Western, and Texas Pacific were heavy.

Get back that lost weight

When you start to waste away to a shadow, when the color leaves your cheeks and your poor, tired legs will hardly hold up your weakened body, it's high time you started taking a fine tonic and buldier like Tanlac.

Tanlac will build you up and make you feel that life's worth living. Made from roots, herbs and bark gathered from the four corners of the earth and compounded under the exclusive Tanlac formula, Tanlac is just what the poor, starved body needs.

First of all it cleanses the blood stream and puts the digestive organs in order. You find, after a few days' treatment, that you want to eat. Pretty soon the welcome color steals back into your cheeks and the scales tell you that you're gaining weight. From then on it's only a short time until you're feeling fit as a fiddle.

Millions of men and women have taken Tanlac with great benefit. More than one hundred thousand people have written us glowing tributes to this wonderful tonic.

When you know it has worked wonders for so many folks it's folly not to take advantage of Tanlac's help yourself. Don't put it off another day. Get a bottle at your druggist's now and start the good work right away.

Gained Health, Strength, Vigor, Weight

"Chronic indigestion made life unbearable for two years. I lost weight and strength and could do no housework. Tanlac put me on my feet. Gained 20 lbs. and now enjoy vigorous health again."

MUCH INTEREST IS MANIFESTED

Move To Change Form of Civic Government Is Discussed

Better Community Interest in City Affairs Desired—Some Features of Plan

A great deal of public interest has been aroused by the announcement that legislation would probably be sought at the next session of the legislature to provide for a change in the form of civic government in Saint John to town manager plan.

Yesterday afternoon, one of those who has taken a great interest in the movement, said the action of the committee, which has been working on this matter, was actuated by a desire to bring about a greater community interest in our civic affairs, and it was believed the town manager plan with an advisory council elected by the people, would bring about such a result.

NECESSARY QUALIFICATIONS

Should the citizens decide that change would be beneficial, he said, the men chosen for town manager must first of all be a qualified engineer with some experience in such works as the city had to undertake from time to time. In addition to that he must be

"Devil Horse" Is Hero of Their Perilous Romance

"REX," jet stallion star who yesses no man adds another spectacular chapter to his film exploits in Hal Roach's "The Devil Horse," soon to be released.

The galloping melodrama, set against a wild Wyoming scene, presents "Rex" first as a wobbly colt, survivor with a boy pal of an Indian massacre in pioneer days.

With an implacable hatred of Indians, whose name to him is identified with pain and abuse, he grows up to become the leader of a mountain herd and a killer of such red men as cross his path. Hence the dread sobriquet "The Devil Horse."

Each unaware that the other lives, "Rex" and the boy he has never forgotten, as the one kindly human, meet again dramatically when the white man, as captive of the Indians, is consigned to the expected fury of the stallion. There, in recognition, rescue, and the saved flight of the captives.

"Rex" takes an heroic part in the perilous romance of the youth, played by the famous horseman Yakima Canutt, and the daughter of a cavalry commandant, played by Gladys McConnell.

Gladys McConnell

a good executive and organizer to see that the several departments under his supervision carried on in an efficient and economical manner.

All that the organizations represented on the citizens' committee were asked to do at present was to endorse the principle that a change in the civic administration was advisable and that the town manager plan be adopted.

The size of the council would be a matter for future consideration.

He was in favor of having two aldermen from each ward, with the exception of Stanley, which would have one, and a mayor.

Should the organizations endorse the recommendations of the citizens' committee, the next step would be the drafting of the bill, which has to be

advertised for 30 days before submission on to the House.

In the meantime a committee would be appointed to draft the bill, and for this purpose the best advice obtainable would be procured.

DISCUSSES BILL

After the bill was prepared and submitted to the House then it would have to be discussed in committee and then on the floor of the Legislature. If it passed and became law the first election would be held in April, 1927.

The town manager, he said, would be in the position of the manager of any business, subject to the direction of his board of directors, and the council would have to endorse any proposition for the expenditure of money or they could veto it.

Dr. W. E. Rowley Falls And Leg Is Broken

While nearing his home last night, Dr. W. E. Rowley slipped on the ice-coated sidewalk and suffered a fracture of his right leg. He was carried into his home and was attended by Dr. Ailingham and Dr. G. A. B. Addy. Later Dr. Rowley was conveyed to the General Public Hospital.

WOMEN'S CLUB

The Women's Club of the Ludlow street Baptist church held its regular monthly meeting in the school room of the church last night with 40 members in attendance. Mrs. R. W. Wigmore, the president, was in the chair. Mrs. W. A. Robbins led the devotional service. Routine business was transacted and the by-laws adopted.

HERE WITH SUGAR

The steamer Dampfire, consigned to Furness, Whyte Co., arrived in port yesterday afternoon about 3 o'clock from San Domingo with a cargo of raw sugar for the Atlantic refinery. The ship experienced rough weather on the voyage and was covered with ice from stem to stern and as high as the mast-head. The Dampfire anchored in the stream and is expected to commence discharging tomorrow.

She Couldn't Sleep Heart Was So Bad

Mrs. J. D. McClintock, Charlottetown, P.E.I., writes:—"About a year ago I was greatly troubled with my heart. I could not sleep at night, and was so nervous I imagined that I could see everything in the room moving, and would have to turn on the lights before I could get to sleep. After having read of your

Sale Hot Water Bottles

After this week's 23rd Birthday Sale, the guaranteed Hot Water Bottle now advertised at 89c. will go up to 98c.

Rubber prices went away up months ago, but the Ross Drug Co. laid in a large stock on old low prices and have given their customers the advantage of their fortunate early buying.

Raw rubber now sells at five times its price of a year ago, the manufacturers now charge higher prices for Hot Water Bottles, so it is well to buy while our Sale offers them as low as 89c.

- Hot Water Bottles guaranteed two years, \$1.15, \$1.49, \$1.65, \$1.85, \$2.00, \$2.50, \$3.00. Fountain Syringe Tubing, 5 yds. 35c. Crib Sheeting, looped, all rubber, \$1.15. Fancy Rubber Aprons, sale 69c. Throat Atomizers, \$1 to \$1.75.

Atomizers have replaceable parts. For instance, bulbs are available at 50c.
