French and Belgian Rivers In Flood; Wide Area Inundated

BETTING THAT COOLIDGE WILL WIN

MANY FACTORIES ARE SUBMERGED AS WATERS FLOOD

Week of Rain Raises Seine and Tributaries More Than Six Feet.

GALE IN SOMME

Wind and Flood Together Ravage 7000 Acres—Boulogne Threatened.

(By Canadian Press.)

Paris, Nov. 3.—Swollen by the incessant rains of the last week, coming on top of the dampest summer and fall in many years, the rivers of northern France and Belgium are rising with unprecedented rapidity, threatening widespread destruction.

The Seine has risen more than six feet in the last two days, likewise its tributaries. The Marne is already overflowing at Epernay, Vitry-le-Francois and Châlons, the Saone is rising two inches hourly and the Doubs even faster. In the Argonne, the Meuse has turned miles of country into a lake and the region of Epinal is under water.

Somme Is Swept

The road between Epinal and Nancy is cut near Charmes where several factories are submerged.

A combination of flood and gale has ravaged 7,000 acres in the Somme valley, flooding more than a hundred colleges on the seashore near St. Valery. A similar situation threatens Boulogne and the region of Hazebrouck is one vast lake.

In Belgium Also

Liege, Belgium, Nov. 3.—The River Meuse is rising rapidly, and all the low-lying sections are flooded. Charleroi, Belgium, Nov. 3.—Nearly the whole of this region is under water, and immense damage is reported. The big Hainaut metal plant at Couillet is flooded, as well as the Marcinelle Electric plant, throwing thousands out of work.

The authorities are organizing boat services to convey food to flood victims. It is said the gas plant will be put out of commission at any moment, plunging the city into darkness.

Seine Over Banks

Brussels, Nov. 3.—The River Seine is out of its banks, south of this city, and acres are under water.

FAMILY OF FOUR IS BURNED TO DEATH

Eleven Other Families in Danger When Flames Destroy Tenement Stairway.

New York, Nov. 3.—Samuel Roth, his wife and three small children, were burned to death yesterday in a fire which destroyed a ghetto tenement and threatened the lives of eleven other families who lived in the building and whose escape was cut off when a staircase went up in flames. They were rescued by firemen using aerial and hand ladders.

Premier Speaks On Senate Reform

Weyburn, Sask., Nov. 3.—Speaking here Saturday night before an audience of 3,000 people, Premier King said the Federal Government could be relied upon at all times to see that railways were made to serve the people, and not the people the railways.

The Prime Minister dealt with the Senate reform. He said he was not in favor of abolishing the senate but would abolish some of the older members of it. It was very undesirable that the will of the people should be thwarted by any body of men appointed to office for their natural life, he said.

"A funny thing about the Senate is, that when anyone is appointed to that body, his natural life is almost twice as long as it should otherwise be," the Premier added.

General Wu Flees; Conflict Is Ended

Peking, Nov. 3.—General Wu Pei Fu, former commander-in-chief of the Peking military forces, has fled to Tangku, on the Gulf of Chihli, about 30 miles from Tien Tsin, it is reported today at the headquarters here of Feng Yu Hsiang, the "Christian General" now in control here.

Fawcett Admits Fighting; Powers Says He Was Defending Himself.

A rather unusual proceeding took place in the police court this morning in a case of George Fawcett and Watson Powers, who were taken into custody last night at 11:50 o'clock on charge of fighting at King Square.

Fawcett pleaded guilty and Powers said he was acting in self defence. Magistrate Henderson said he had started the fight and had invited Powers down the alley. He acknowledged striking the first blow. Magistrate Fawcett had been the aggressor and would allow Powers to go if he paid \$10. Powers still protested against being fined and was informed that if he refused to pay he would be charged with assault.

BRITISH OPINION FAVORS COOLIDGE

Uncertainties of Result, However, Are Stressed—Little Editorial Comment.

London, Nov. 3.—Long special despatches from New York and Washington are furnishing British newspaper readers with the latest probabilities and possibilities in the U. S. presidential election, and are being given front page prominence in all the London morning editions. All dwell upon the uncertainties of the outlook, but most emphasize the indications in favor of Mr. Coolidge, although without making any definite predictions.

There is very little editorial comment but attention is briefly called to the possible importance of the result in relations to the European outlook. The Westminster Gazette in this connection does not expect that a change in the United States international relations will follow, "unless the improbable happens, and LaFollette is elected."

This paper adds: "If Mr. Davis is elected he would take a plebiscite on the League of Nations, but the result would almost inevitably be repudiation of the League."

The Daily Express editorially predicts the election of Mr. Coolidge.

Football Judge Is Shot By Policeman

Charleroi, Pa., Nov. 3.—(United Press)—Thomas Roddy, 19, died in the Charleroi Hospital today from a bullet wound in the back received while officiating as headline man in a football game at Eloc yesterday.

Today's decision which was disputed by the players and immediately taken up by a crowd of 400 spectators. Fearing a riot, Constable William Roy arrested Roddy, who tried to break away and was shot in the back by the constable.

Urge Amnesty For Caillaux and Malvy

Paris, Nov. 3.—(United Press)—A senate committee report was issued recommending amnesty for ex-premier Joseph Caillaux and ex-Minister of the Interior Malvy, his associate in alleged scheme to negotiate a peace with Germany during the world war, for which both were convicted of treason and ex-

Baltimore, Nov. 3.—George E. Parker was on trial in the Criminal Court for bigamy. He had pleaded guilty.

Judge Gorter had ordered Probation Officer Snyder to see if Parker's case could not be settled without jail sentence. Parker kissed his second wife, whom he confessed he had married bigamously.

SEARCH STARTS FOR LOST ADVENTURERS

New York, Nov. 3.—The U. S. cruiser Trenton will sail today in search of the Lief Erickson, a 40-foot sloop with three American adventurers aboard, which six weeks overdue at Baitie Harbor, Labrador.

The little vessel left Bergen, Norway, last July, it being the intention of the navigators to bring it to America over the ice route which Lief Erickson followed. William Washburn Nutting and Arthur Hildebrand, writers, and Eric Todahl, a painter, are the men aboard. All three are known to be expert sailors.

It is thought that the craft may be icebound in the drifting flocks of the far north Atlantic and the Trenton will begin its search in that territory.

Argentine Gives Up Pacific Flight

Tokio, Nov. 3.—Major Pedro Zanni, the Argentine aviator announced today that he had decided to abandon his attempt to fly across the Pacific Ocean.

Major Zanni's abandonment of his attempt to fly the Pacific Ocean followed receipt of information that the ports of Petropavlovsk and Paramushir are icebound. The Argentine flier has suggested to the committee in charge of his arrangements that he either report officially today to the state department or to Buenos Aires via New York.

NEUMONIC PLAGUE LAD AT DOORS OF GROUND SQUIRREL

Outbreak in Los Angeles Claims Its Twenty-First Victim.

Los Angeles, Nov. 3.—State and federal health authorities today were moving to the aid of Los Angeles in its fight to block the spread of pneumonic plague, which at last reports had claimed 21 victims in the city's Mexican quarters. Ten cases under treatment at the general hospital were said to be critical.

Doctor W. H. Kellogg, state health department expert, surveyed the situation yesterday and announced that, though there was no doubt about the nature of the malady or its seriousness, the prospects for bringing it under control were good.

Of the seven who died yesterday, two were men who had died in performance of duty. One, Father M. Brulle, a priest at the historic old Plaza church, went about the infected quarter administering extreme unction to the dying. The other, Emmet McLouthin, was an ambulance driver.

Squads of policemen guard the Mexican quarter and night. Food and other necessities are sent through the cordon under strict supervision. The mortality rate of the disease, which is allied to the bubonic plague, approaches 100 per cent.

Brought By Squirrels

Ground squirrels probably brought the disease to Los Angeles and communicated it to rats, which, in turn, probably transmitted it to the first human victim through the intermediary agency of a flea, Dr. Kellogg said in discussing the history of the plague in the United States.

The outbreak, according to Dr. Kellogg, is an indirect heritage from the Oakland plague of 1919.

It was in Oakland, where 13 cases, all fatal, were reported, that the pneumonic form of plague first made its appearance in the United States, the doctor explained. Heretofore there had been cases of bubonic plague, an allied malady, which reached San Francisco from the Orient in 1900, and years later appeared in New Orleans and Galveston.

The bubonic plague, though stamped out among humans in San Francisco, was communicated to ground squirrels, possibly through rats from the city, and since then it has been to a certain extent prevalent among ground squirrels in several counties of California.

Radio Station, 10,000 Feet Above Sea Level, Opened; To Spread Weather News

Tarbes, France, Nov. 3.—The highest radio-telephonic station in the world has been opened at the observatory on the Pic du Midi some 10,000 feet in altitude. The station uses a 350 metre wave length and has an antenna capacity of 300 watts.

The installation was taken up the mountain in sections, the heavier parts on mule back and the delicate instruments by hand. In addition to assuring communication between the observatory and Bagneres, which has hitherto been precarious owing to the breaking of wires by avalanches, the station will render immense service to agricultural by broadcasting weather forecasts.

It is also expected that it will facilitate the study of various radio phenomena including the "fading" of signals from distant stations.

Doukhobors Mourn as Leader Is Buried

Nelson, Nov. 3.—Never before in recorded history have the Kootenay Hills looked down on the like of the scene they beheld today, when from 5,000 to 6,000 people, a living carpet for the rock rimmed basin, saw Peter Veregin, known as the "Christian General", lowered into an apulchra hilled from the living rock, on an eminence overlooking Brilliant, B. C., headquarters of the Doukhobors sect. From early forenoon until the shades of night fell, dirges like organ music from the throats of thousands of worshippers, rose on the otherwise still air interminably, except when the ceremony required silence for the purpose of the orations over the dead.

FUNERAL ENDS IN CLASH WITH POLICE

French Bishop at Bordeaux Protests Laws Against Religious Processions.

(United Press.) Bordeaux, Nov. 3.—The first act of violence since the passage of the law forbidding religious processions took place here yesterday. As a protest against the law, the Bishop of Montauban led a funeral procession with all the religious regalia in keeping with the occasion and the rank of Bishop.

A police cordon held up the procession, and removed the bishop's casket, starting a violent fight between the participants and the police. The police were joined by individuals opposed to the religious demonstration and the affair ended with the arrest of three persons.

A tense feeling exists between the Catholic church and the Herriot government as a result of his attitude toward the religious question, and his determination to withdraw the French envoy to the Vatican.

Woman Slays Son, Husband and Self

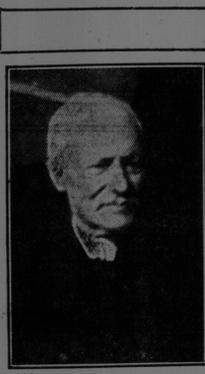

(United Press.) Salina, Kans., Nov. 3.—Paced with the loss of his love, Mrs. Ote Morgan, 45, shot and killed her 50-year-old husband while he slept.

Mrs. Morgan called for her 18-year-old son, Loren, to return from a party, murdered him, set the house afire and then took her own life. "Another woman" whom her husband made frequent trips to Kansas City to visit was revealed as the cause of the tragedy in an unfinished note addressed to a sister. A possible motive for the shooting of her son was in the letter. "I hardly think Loren understands how it would be to have no home."

U. N. B. Gets Memorial To St. John Soldier

(Special to The Times-Star.) Fredericton, Nov. 3.—The family of the late John B. Hipwell, of St. John, lieutenant in the Canadian Field Artillery, who was killed at Sanctuary Wood, France, July 17, 1916, have presented to the University of New Brunswick a handsome oak reading desk upon which is carved the crest of the University. He enlisted in 1914, his degree being conferred in forestry in absentia. The reading desk now is in the memorial hall.

FINE RESIDENCE SOLD. The fine Parker Baker residence at South Bay was sold today at public auction by W. A. Stejper, and was bid in by Mr. Brown for \$10,200. **ENTHUSED OVER
CANADA'S FUTURE**

**Commissioner Sowton Visits
St. John—Presentation
to Mrs. Burton.**

In the person of Commissioner Sowton, commander of the Salvation Army forces from Fort Arthur to the Maritime seaboard, Newfoundland and Bermuda, Canada possesses a real optimist who is enthusiastic over the future of this country. To a Times-Star reporter this morning, the commissioner declared that Canadians have every reason to be proud of their young and growing country with its matchless natural resources and the indomitable spirit of its people.

"The more I see of Canada" he said "the more I am impressed with the

COMMISSIONER SOWTON

wonderfully bright outlook for the years to come. Frankly, I will say it is my opinion we will not have as good a winter this coming season as we did last year but I honestly believe that business conditions throughout Canada are on the up-grade although the effect of that will not be apparent until spring. We shall have a splendid spring.

It is three years now since the commissioner landed at St. John with Mrs. Sowton from Sweden to take charge of the Canada East division of the Salvation Army and during that time progress has been made. Commissioner and Mrs. Sowton are here now conducting special services and will leave on Wednesday morning via Digby for Halifax.

at the Citadel, Charlotte street, when he presented to Mrs. T. A. Burton, wife of Major Burton, commander of the N. B. and P. E. I. district, a long service badge for a period of unbroken service of 25 years. The commissioner spoke very appreciatively of Mrs. Burton's services during that time.

Mrs. Burton was born in Dundas, Ont., and 27 years ago went to Toronto and became a member of the Salvation Army. Two years later, she became an officer and three years after that married Major, then Captain, Burton. For 18 years, Major and Mrs. Burton have seen service as field officers, having had more than 25 various appointments in Ontario and Quebec as well as two years in charge of the work in Bermuda. While in Montreal during the war period, Mrs. Burton was most active in welcoming home returning soldiers.

Major and Mrs. Burton have been engaged in staff work for the last seven years, being stationed at Montreal, Sydney, C. B., and Halifax, coming to St. John last September.

This afternoon and evening, Commissioner Sowton will conduct meetings for young people in the Citadel and tomorrow afternoon, Mrs. Sowton will address a meeting for all women

SPENDS NIGHTS AT GRAVE OF HIS WIFE

Berlin Police Put End to Wierd Rite of Grief-Stricken Artist.

Berlin, Nov. 3.—The Berlin cemetery authorities have put an end to a singular rite which a grief-stricken artist carried out at the grave of his wife, who died three years ago.

He had dug a tunnel leading to the side of the grave and had cut a square piece out of the coffin lid.

Every night at dusk he crept through the tunnel and spent the entire time until dawn gazing through this aperture at what were once the features of his wife. He brought a wedding ring which he placed again on her fingers, and from time to time he placed flowers on her breast.

Sometimes he brought a hot-water

bottle and placed it inside the coffin. When dawn came he would end his weird vigil, close up the tunnel, and steal away unseen, reaching the street by climbing over the cemetery wall.

A PRINCE HELD UP IN PARIS HOUSE

Paris, Nov. 3.—The Prince of the Asturias, 17-year-old heir to the throne of Spain, has been the victim of an armed hold-up in Paris and had a narrow escape. The Prince had been staying in a Paris hotel under the name of the Count of Madrid, and at night he decided to explore old Paris.

He was wandering about, unaccompanied, in the Temple district, one of the oldest parts of Paris, when he was approached by a well-dressed man, who said he knew old Paris thoroughly and offered to show the prince some historic places.

Taking him to the place des Voies, famous for its connection with Cardinal Richelieu, and relating historical anecdotes of the district, the guide offered to show the prince an old building frequented by King Henry IV, in the Rue des Tourelles. The building is truly ancient and dilapidated, and the only entrance is through a small cafe of unimposing appearance.

The prince went through the cafe and upstairs, and as soon as he entered what his guide called the royal chamber the door was suddenly locked, and two men in sailors' uniforms, leveling revolvers, demanded his money and valuables.

The prince waited a few seconds; then he dashed to the window and called "Help! Help!" Two cyclists who happened to be passing at the time heard his shouts and rushed up to the room. They arrested the men in

What a Difference Whiter Teeth Make
When their hidden beauty is revealed!

A WOMAN may be ever so pretty—but when she opens her mouth and reveals teeth that tell of neglect, beauty flutters away on invisible wings. The average woman is fastidious and keeps her teeth clean. But there is a great difference between merely clean teeth and teeth of pearly whiteness.

All teeth are naturally white. Lurking beneath the surface—however dull, dingy or stained they may be—is a dazzling whiteness only waiting to be released. A little help on your part and understanding are all that stand between you and this greater beauty.

This is a scientific fact, say dental authorities.

The solution found

All doubt as to the correct type of toothbrush for people to use is now ended. The dentists have spoken. 4,118 of them designed one that you can use with the assurance that it will give your teeth the protection they need and bring out their greater beauty. It is named the Albright Rotary Wedge Toothbrush.

A RUBBERSET CO. product

Andrew Albright, Jr., President, RUBBERSET COMPANY, Ltd., makers of the world-famous RUBBERSET shaving, hair, nail, bath, complexion and paint brushes, perfected this toothbrush. A half-century of brush-making experience is in back of it. Like all brushes made by the RUBBERSET COMPANY, the bristles of this toothbrush stay in—they can't come out.

The tufts are so grouped that a simple rinsing thoroughly cleans the brush. No foreign matter remains among the bristles in which germs may breed to be carried into the mouth. Each brush is sterilized and packed in a sanitary envelope and despite in a protecting carton.

Why over 10,000 dentists endorse it

With the tapering slope and wedge-like shape of the bristles in the Albright Toothbrush, no teeth are missed in the cleansing. They reach in between and into every "biting" crevice with ease and certainty.

The bristles stay-in—they can't come out.

Proper curve of handles makes it easy to clean backs of front teeth with up-and-down motion.

The tufts are so grouped that a simple rinsing thoroughly cleans the brush. No foreign matter remains among the bristles.

Every brush sterilized, then packed in sealed, sanitary envelopes and enclosed in a protecting carton.

ST. JOHN, N. B., NOVEMBER 3, 1924

CANADA WATCHES.

The Federal Government, and a great part of the Canadian public, are awaiting with uncommon interest the organization of a new ministry by Mr. Baldwin as a result of the momentous election in Britain, and, as The Times-Star's Ottawa correspondent reminds us, Canada has no little interest, also, in the presidential election of tomorrow.

Who Will Fill This Vacant Throne?

Anatole France at his death was something more than the greatest son of his own country, or beyond that, the finest flower of the Latin genius. He was the towering literary figure in Europe since the departure of Ibsen and Tolstoy.

WEMBLEY.

It is estimated that 18,000,000 people attended the British Empire Exhibition between the opening in April and the closing last Saturday, at which H. R. H. the Prince of Wales officiated. The great fair, as His Royal Highness said, gave a picture of the Dominions to the people at home, and achieved a great measure of success in bringing to Britain and its visitors a new and impressive knowledge of the resources and boundless potentialities of the Empire.

As to the American election, in which both London and Ottawa are much interested, the expectation, that Mr. Coolidge will succeed himself leads Britain to anticipate no change of attitude toward the League of Nations.

THE WINTER'S LOG CUT.

In many parts of this province there is more interest at present in the probable cut of logs during the fall and winter than in any other local topic. The size of the cut affects wages-earnings and storekeepers, either favorably or the reverse.

It is estimated that on the Miramichi, Bathurst and Restigouche waters the cut this winter will be about sixty per cent. of that of last year. The same would probably apply to the St. John waters and the cut of the small operators in various parts of the province.

New York, Nov. 2.—(United Press) Reports brought to the attention of F. P. Kneppel, President of the Carnegie Corporation of New York, to the effect that Carnegie Hall has been sold and was about to be demolished, are given denial in a statement issued by Kneppel.

THAMES TOLL.

I sat and watched the river slowly glide Past nodding spears of flashing flower-flame. By reed-born caves where age-dim fish abide; Whence little people of the water came: Slowly they murmur fell upon my ear, "Great is the toll of all the years I bear."

IS NOW VALET FOR THE NAVY

LIFE INSURANCE TRANSFER VALID

Widow's Claim, in Spite of Having Consented, is Refused.

Montreal, Nov. 3.—The right of a married woman, separate as to property, to agree to the transfer to another person of insurance on the life of her husband, was confirmed in the Superior Court by a judgment handed down by Mr. Justice Archer.

gation contracted by her, in any other quality, was void and of no effect, saving only the rights of creditors who contracted in good faith. The plaintiff alleged that, since she was separate as to property from her husband, this article applied, and her consent to the transfer of the insurance was invalid.

Dame Yvonne Lupien, the plaintiff, also invoked article 1,265 of the Civil Code, which declares that, after marriage, no change in the marriage contract may be made, and the consorts cannot confer mutual benefits upon one another, with an exception in favor of the husband, which gives him the right to insure his life for the benefit of his wife and children.

The court also dismissed the second contention, based upon article 1,265, declaring that there was no question of any changes in the marriage contract, the case dealing simply with the interpretation of the law which permits a husband, under certain conditions, to insure his life for the benefit of his wife and children.

The law governing the matter, said Mr. Justice Archer, was to be found in sections 7,977 and following of the Quebec statutes regarding insurance. Under this statute, ruled the court, the transfer in question was a perfectly valid one. Consequently, the plaintiff was declared entitled to a sum of \$1,100, the defendant, Dame Marie Lupien, having admitted that the sum due her was \$800, although \$1,000 of the insurance had been transferred to her as security for the loan.

The action against Dame Marie Lupien, the transferee, was dismissed, with costs.

ADVENTURES OF THE TWINS

By Olive Roberts Horton

DADDY CRACKNUTS PIPE

Then the fairyman took an enormous iron and pressed the clothes until they looked good as new.

"Now," said Mrs. Cracknuts severely to Scamper and Scramble Squirrel, her grandsons, "you've both been naughty boys so you'll have to go to bed without any supper. I know smoke when I smell it, and matches, too!"

Weak, Nervous Men And Women Quickly Gain New Strength

They Renew Vitality and Nerve Force by a Safe Treatment

The nerve power of our systems finds its life in our blood. Create more red blood cells and we rekindle the fires of bodily strength, for rich, red blood is the driving force of life.

Limbs ache?

Get this immediate comfort

Take that aching stiffness out of overworked muscles at once. Apply Sloan's Liniment. Don't rub it in. Its stimulating ingredients send fresh blood to the place that hurts—and this swiftly cleans out the fatiguing poisons and stops the ache. All druggists—85 cents.

Sloan's Liniment - kills pain!

"Ma, I'll have to go back and get my pipe," called Daddy Cracknuts at that minute. "I forgot and left it in my pocket and Mister Snip Snap didn't put it back."

MASKELYNE WAS MASTER OF MAGIC

Memories of Noted Entertainer - Some of His Wonderful Feats.

In days of old, when Queen Victoria was on the throne and when there were no such entertainments as picture-palaces and revues, London boys of an inquiring and adventurous disposition used to troop to a grim, grey building in Piccadilly, which was popularly known as the "Home of Magic," but which had been styled by its proprietors—Messrs. Maskelyne and Cooke—the Egyptian Hall.

and nervousness seemed to be written on every inch of them. £1,000 Challenge. He was an avowed opponent of Spiritualism. He declared, indeed, that there was never a phenomenon produced which he could not copy. His challenge to Sir Arthur Conan Doyle is a matter of modern history and need not be repeated here, but of more ancient date is the story of his conflict with Archdeacon Colley. This was the extraordinary cleric who caused a sensation in his church by having his coffin carried round the aisles, and who told his congregation that he had had many visions.

FABLES ON HEALTH Home Remedies

It's the little "pestering" things with which the children come running in that keep a mother busy, Mrs. Mann of Anytown often remarked. A cinder in the eye, little cuts and bruises—all that sort of thing. Most mothers are perplexed as to what is best to do. Here are a few simple home remedies that might be cut out and kept ready for emergency.

TEA AND SALE ARE WELL PATRONIZED

Brunswick Chapter, I. O. O. F., upheld its fine record of excellence Friday, when nearly five hundred women enjoyed the successful Halloween tea and sale, held annually at Falls View Cottage, West St. John. Mrs. Gertrude Mayes was general convener, the convener or the various tables being Mrs. R. D. Dole, home cooking, assisted by Miss Tilton and Mrs. E. H. Cairns.

JUDEANS KEEP ANNIVERSARY

A meeting of the local Young Judean organization was held last evening in the Synagogue Hall, Carleton Street, to celebrate the issuing of the Balfour Declaration by Great Britain on Nov. 2, 1917. A Ralph Isaacs, president of the organization, presided, and there were present about 80 members. The chairman in his opening remarks referred to the condition of the Jewish people in the world prior to the issuing of the declaration and the effect of the mandate upon the Jews of the world. He spoke of the accomplishments in Palestine since the issuing of the declaration, and made special mention of the modern cities that have sprung up in recent years. Other notable signs of progress that might be noted in Palestine today included the hydro development of the River Jordan and the Hebrew University.

Get Rid of Piles - Now

A box of Pyramid Pile Suppositories is your best friend to stop mad-dening pain, put out the fire of burning soreness, relax protrusions and restore grateful ease and comfort. Thousands testify. Many Pyramid averted operations. Step into any drug store for a 50c box.

Simple Way to Get Rid of Blackheads

There is one simple, safe and sure way that never fails to get rid of blackheads, that is to dissolve them. To do this, get two ounces of peroxide powder from any drug store—sprinkle a little on a hot, wet cloth—rub over the blackheads briskly—wash the parts and you will be surprised how the blackheads have disappeared. Big blackheads, little blackheads, no matter where they are, simply dissolve and disappear. Blackheads are a mixture of dirt and dust and secretions that form in the pores of the skin. The peroxide powder and the water dissolve the blackheads so they wash right out, leaving the pores clean and clear in their natural condition.

Never a Slip or a Trip When You Use Your Eveready

If your feet had the eyes of an owl the dangerous places would be made safe. With an Eveready Flashlight you can see even better than an owl at night. An Eveready is a necessity—for the outdoors man—for the long walk home through the woods for the creek crossing—for going down to the water spring—to get on the runways easy—to put out decoys—for signalling—for all after-dark needs. Eveready Unit Cells stand and improve all makes of flashlights. They come in two sizes to fit every tubular size flashlight. Know the flashlight in your case—then you can buy new ones without bothering to take your flashlight along. Eveready Unit Cells mean brighter light and longer battery life. FOR POPPY DAY. In all of the churches in West St. John yesterday the choir sang upon their congregations the need for generous support of the Poppy Day sale of poppies by the Carleton branch of the G. W. V. A. on Saturday.

The proceeds of the sales of poppies by the Carleton G. W. V. A. would go towards the relief of distress among ex-service men in West St. John. A special meeting of the executive of the Carleton G. W. V. A. has been called for Tuesday and at that meeting arrangements for Poppy Day, on Saturday, and the church parade and the decorations of the graves on Sunday will be completed.

The graves in Cedar Hill, Holy Cross and Greenwood cemeteries will be decorated by the Carleton G. W. V. A.

STOCK PRICES ARE STILL CLIMBING

New 1924 High Levels are Reached by Three Main Issues.

New York, Nov. 3.—After today the speculative public will be chiefly interested in what happens to business after the election. Cheap money and profitable agricultural crops are tendencies toward more or less of a business boom.

AFFAIRS IN 3 COUNTRIES ARE GRIPPING OTTAWA

Interest is Keen on What Baldwin Will Do in Britain.

U. S. TARIFF WALL

Tomorrow's Election Means Something to Canada—Australian Trade.

(Special to The Times-Star.)

Ottawa, Nov. 3.—An illustration of how closely interwoven are the interests of Anglo-Saxondom is furnished in the attention given here to current political developments in countries of kindred race, adjacent and remote.

There is much speculation as to the outcome of the election in Great Britain, of the presidential election in the United States tomorrow, and also as to the final attitude toward the date upon which the new and important trade pact between that dominion and Canada is to become effective.

With the Conservative victory in Great Britain, and with Stanley Baldwin again as leader, it is of vital concern to Canada and to the present imperial government what the new British ministry will do with the preference proposals which were approved at the Imperial Conference a year ago, but which were thrown on the scrap heap by the Labor administration.

Some doubt is expressed, however, as to the ability of Mr. Baldwin to fulfill his pre-election pledge on this point. The chief reason given unofficially is the high probability that he will be compelled to resign his ministry.

It is just possible, too, that the inclusion of Lord Curzon in the Baldwin Cabinet may serve to retard, rather than accelerate the movement, or tendency, toward a more direct approach of approach from Canada to Great Britain in the matter of fiscal representation.

Whether President Coolidge will be re-elected, or whether the Democrats under the leadership of John W. Davis, will win Tuesday's contest get control of the reins of government at Washington, also matters much to Canada.

First of all, it is the fiscal question. Any hope of a lowering of the sky tariff wall erected by the Republicans, with the application of that curiously "flexible" instrument placed in the hands of President Coolidge, would be dashed by the return of power to that party. On the other hand, some hope is entertained that if the Democrats are victorious, especially if the election is held in the House of Representatives, there would be a possibility of some tariff concessions in the form of a reduction of the high duty on wheat and of a removal of the barrier against Canadian cattle.

Again, what will be the fate of the present negotiations between the governments of the two countries on the St. Lawrence waterway project? Herbert Hoover, Secretary of Commerce in the Coolidge administration, has played a prominent part in them, but the recent insistence of Washington that Canada should accept the version at Niagara Falls has frustrated after Canada had scored the Chicago diversion, has raised a doubt as to the sincerity of the Canadian party for the St. Lawrence canal.

Would the Democrats, if successful, manifest a more generous attitude toward the project?

At the age of 15 Mr. Kelly started to learn his trade as a carriage maker, spending five years in St. John and six in the United States. He returned to his native province on "Black Friday" in 1873. After his return, he started business with his brother and brother-in-law under the name of Kelly and Murphree.

He was elected a member of the Board of Water Commissioners in 1880 and water commissioner to represent Portland in 1884. At the union of the city of St. John and Portland in 1890 he was elected alderman for Dufferin ward and was re-elected each year until 1895, when the "tax reduction scheme" came into force and he met his first and only defeat at the polls. He was very active in both provincial and federal politics for many years, an outstanding figure of much force of character and with much influence in party councils.

In 1888 he was appointed a labor commissioner by the Dominion Government to investigate the relations between capital and labor and spent the larger part of two years visiting the principal cities in Canada. Since 1882 he has been a member of the Board of Health and for the last eight years he has been chairman of the board and, there as in other activities, has proved an efficient executive.

When he was appointed to the position of superintendent of lights in the Marine Department the maintenance of lights, fog alarms and buoys for this district was only in its infancy. At that time there were no gas and whistling buoys or gas and bell buoys and no vapor or electric lights. In 1902 and 1903 vapor lights and gas buoys were introduced and today the division has 28 vapor lights and more than 20 gas buoys.

The stations and dwellings of the keepers have been greatly improved under Mr. Kelly's supervision. Practically all these improvements have been due to his untiring efforts on behalf of the men in the New Brunswick District and for the efficiency of the service.

In 1909 there was an agitation for the establishment of a light and alarm station at what is known as the Lurcher Shoals and this matter was left largely in Mr. Kelly's hands. In the winter of 1909 the present light ship Lurcher was secured and it has since marked this dangerous shoal and has proved a very great aid to navigation.

Excellent Protection. In this division Mr. Kelly has had a great deal to do with the improvements of the aids to navigation so that the New Brunswick Division of the Marine and Fisheries Department, which extends from Cape Sable in Shelburne County, N. S. and includes all the Bay of Fundy, is probably one of the best protected sections in the trade routes of the world today.

Gannet Rock light and fog alarm is one of the best in Canada. It is the most isolated in this division, being located on a rock 80 by 100 feet of Grand Mannan Island. Mr. Kelly has brought this station to its present efficient condition.

There are very few light and alarm keepers in this division still living who were on duty when he accepted this office in 1895. Arthur Henderson, who was superannuated a few months ago from the Bliss Island Light after 38 years of faithful service, is one. James E. Barbour, who was the keeper of the light at Cape Ettridge for 42 years and who recently retired, is another. There are probably a few more, but the great majority have passed from this life.

Recently the Marine and Fisheries Department built one of the largest and most powerful light stations on the continent at Cape Sable and it has been named "Kelly Tower" in honor of the retiring superintendent and in recognition of his faithful and efficient service. Mr. Kelly goes to private life with the good wishes of his colleagues for long enjoyment of his rest from active work.

Captain Arthur W. Burns, assistant ship's husband for the Marine and Fisheries Department, who also has received, was born in Digby, N. S., in 1851, and at the age of 17 made his first voyage on a vessel from St. John. He was appointed master of the vessel after securing his captain's certificate in 1875. Since that time he has commanded some of the best known vessels belonging to St. John in the last 50 years, including the bark E. Patton, Lancetfield and Rothway, as well as the ship Bethoven of Windsor, N. S. During the years he was in charge of these vessels he visited every important port in the world, and he has twice circumnavigated the globe.

Captain Burns joined the Canadian Government Service in 1887, when he was appointed to the C. G. S. Carlew, and in 1900 he was transferred to the C. G. S. Lansdowne, where he remained for 17 years. In 1917 he was appointed to his present position in the St. John office of the Marine and Fisheries Department. Since his transfer Captain Burns has given exceptionally good service, and his fellow-employees regret his retirement, but will unite with him many years of enjoyment of his well-earned pension.

Edward J. Nere, West St. John was appointed to his present position of Mechanic Marine Signals in August, 1917. Prior to entering this service, Mr. Nere spent 30 years in the piano business in St. John and in other cities. At the death of George R. Vincent in 1910 he was appointed chief liquor license inspector for the County of St. John, which appointment he held until May, 1917, when the present prohibition act came into force in the province. Mr. Nere made the third local office of the Marine and Fisheries Department who is retiring under the Calder Act just as it passes into the discard to make way for the new superannuation act of 1924. He has the good wishes of many friends for restful years, freed from the cares of an office.

John Kelly, superintendent of lights in the Marine and Fisheries Department, retired after approximately 30 years of faithful service. He is probably one of the best known men in the province and he has been recognized as one of the best officials in the Marine and Fisheries Department in Canada. Everywhere words of commendation have been heard of his efficient way Mr. Kelly has carried out his work and on the marked development in his department since he took office in 1905.

Mr. Kelly was born in September, 1848, in the north end of the city in what was then known as the parish of St. John. He attended school there and then spent two years under the tutelage of the late Robert Mills, who at that time taught in the Normal School as well as at the public school in the basement of the old Calvin church at the corner of Hazen and Colburn streets.

At the age of 15 Mr. Kelly started to learn his trade as a carriage maker, spending five years in St. John and six in the United States. He returned to his native province on "Black Friday" in 1873. excellent and beloved official and declared, on behalf of Mr. Kelly's many warm friends throughout the maritime provinces as well as on his own, he wished him many more years of health in which to enjoy his well earned rest.

H. F. Morrey, then presented to Captain Burns on behalf of the employees a handsome gold headed walking stick suitably engraved, also a beautiful case of pipes. Mr. Clarke referred to the captain's excellent record on the sea in charge of Government steamers and to his continued success since he had retired to the quiet life ashore in the departmental work. He concluded by wishing the captain long enjoyment of his pension.

Edward J. Nere, in presenting to Edward J. Nere a purse of gold on behalf of the staff, said that, while Mr. Nere had not been so many years with the good wishes of his colleagues, he had made many friends by the obliging way in which he had carried out his work. On several occasions he had been called on to do work to which he was not accustomed and on every occasion he had carried it through successfully. He expressed regret that Mr. Nere was leaving the life ashore in the department but said he knew he was voicing the unanimous thoughts of all present in extending best wishes for Nere's health for many years to come.

All three men responded feebly expressing their regrets at leaving the service in which they had spent so many busy but pleasant hours. They all expressed their gratitude to the fellow employees for their kind remarks and to the friends in the Marine and Fisheries Department.

Henry F. Morrey, resident engineer, has been appointed temporarily to the position of superintendent of lights made vacant through the retirement of Mr. Kelly according to announcement made this morning by Mr. Chesley. He also said that Robert Rolston, a resident of the North End, formerly of the Canadian Colonization Department, is being transferred to the position of chief mechanic marine signals in the province and he has been recognized as one of the best officials in the Marine and Fisheries Department in Canada. Everywhere words of commendation have been heard of his efficient way Mr. Kelly has carried out his work and on the marked development in his department since he took office in 1905.

When he was appointed to the position of superintendent of lights in the Marine Department the maintenance of lights, fog alarms and buoys for this district was only in its infancy. At that time there were no gas and whistling buoys or gas and bell buoys and no vapor or electric lights. In 1902 and 1903 vapor lights and gas buoys were introduced and today the division has 28 vapor lights and more than 20 gas buoys.

The stations and dwellings of the keepers have been greatly improved under Mr. Kelly's supervision. Practically all these improvements have been due to his untiring efforts on behalf of the men in the New Brunswick District and for the efficiency of the service.

In 1909 there was an agitation for the establishment of a light and alarm station at what is known as the Lurcher Shoals and this matter was left largely in Mr. Kelly's hands. In the winter of 1909 the present light ship Lurcher was secured and it has since marked this dangerous shoal and has proved a very great aid to navigation.

Excellent Protection. In this division Mr. Kelly has had a great deal to do with the improvements of the aids to navigation so that the New Brunswick Division of the Marine and Fisheries Department, which extends from Cape Sable in Shelburne County, N. S. and includes all the Bay of Fundy, is probably one of the best protected sections in the trade routes of the world today.

Gannet Rock light and fog alarm is one of the best in Canada. It is the most isolated in this division, being located on a rock 80 by 100 feet of Grand Mannan Island. Mr. Kelly has brought this station to its present efficient condition.

There are very few light and alarm keepers in this division still living who were on duty when he accepted this office in 1895. Arthur Henderson, who was superannuated a few months ago from the Bliss Island Light after 38 years of faithful service, is one. James E. Barbour, who was the keeper of the light at Cape Ettridge for 42 years and who recently retired, is another. There are probably a few more, but the great majority have passed from this life.

Recently the Marine and Fisheries Department built one of the largest and most powerful light stations on the continent at Cape Sable and it has been named "Kelly Tower" in honor of the retiring superintendent and in recognition of his faithful and efficient service. Mr. Kelly goes to private life with the good wishes of his colleagues for long enjoyment of his rest from active work.

SPORT NEWS GLEANED FROM WORLD'S CENTRES

EXPECT FIREWORKS AT WINTER MEETING

Major League Magnates Should Have Plenty to Talk About.

New York, Nov. 3.—(United Press).—Ban Johnson's threat that baseball wasn't big enough for him and Commissioner Landis and his promise to get Landis and the owners of the New York Giants surely ought to put some life into the baseball meetings this winter.

The club owners always like to gab during the winter months and they certainly have plenty to talk about since the Dolan-O'Connell scandal revived an old political row and turned a lot of private disagreements into a public brawl.

Ban Johnson never has been satisfied in being the president of the American League. He always has aspired to be the boss of both leagues and he was fairly successful until he was ousted by his enemies and de-throned in favor of Landis.

Johnson worked under cover last year in seeking to undermine the throne of Landis, but he was called for it when the major leagues met in joint session. Landis gave him such a raking that his voice roared through a couple of heavy doors into the hallways of the hotel.

Landis ended his presentation by offering to resign and he found no takers. Johnson was then thought to have been finally subdued.

He remained quietly in the background until the Giant scandal broke out and then he opened fire on Landis. It will be recalled that Johnson insisted that the whole New York team should have been disqualified and that the Brooklyn Robins should be named to play against the Washington Senators in the world's series. When Landis refused to do that, Johnson demanded that the world's series be called off.

When Landis refused to do that, Johnson announced that he would not attend the series. And he didn't.

Admitting that Johnson had some courage in making many dangerous cracks about happenings in the past that had never been made public and in attacking Landis so viciously, yet there was no courage in his decision to remain miles away from the series and attack his enemies with a long-range gun.

Johnson would have been a much more respect and he might have controlled much more support if he had gone against his doctor's orders and had gone to Washington for a personal campaign against the commissioners, Charles Stenham and John McGraw. It will be recalled that while Johnson wasn't able physically to go to Washington he was in condition good enough to make the trip to a Missouri resort.

Not only was Johnson's absence from the real battleground a suspicion against his courage, but the series, a piece of ingratitude toward one of his staunchest supporters—Clarke Griffith, owner of the Washington Senators.

Griffith had had all his baseball life for a world's champion team and when he got it he found a talent on it thrown there by the man he had fought for and defended for four years.

Johnson was badly in need of defence. When Col. Jake Ruppert and Til Huston tired of the Johnson regime and started out to get him, Johnson was supported by the St. Louis, Washington, Detroit, Philadelphia and Cleveland clubs. Opposing him were the New York, Boston and Chicago clubs.

The opposition couldn't break through Johnson's five votes, but if Griffith had not remained firm, no other club might have switched over with him and Johnson would have been out of a job.

If the National League had not become aroused, Johnson would have been the boss of the National Commission and Landis might still be on the Federal bench in Chicago. The eight National League clubs, however, made an alliance with the Yanks, Red Sox and White Sox, and forced a new regime in baseball by threatening to form a new twelve-club league.

If Johnson is forced to fight for his control of the American League this winter, his failure to attend the series in Washington and the support he cast indirectly against the Washington team may prove very costly.

The National League has been so peaceful during the reign of President John A. Heydler, that it is a novelty to see war clouds coming up over its annual meeting.

The charges made by Barney Dreyfus against the Giants when Johnson was cutting loose his barrage in Chicago, certainly will not be allowed to pass by unnoticed by the other National League club owners. The public surely wants to know what the "other things" were that Dreyfus was talking about when he said that the Giants should be disqualified.

CATHEDRAL CONSECRATED. In performing the final consecration of the Liverpool cathedral, which will in time be the second largest in the world, the Bishop of Liverpool yesterday made the significant remark that "this cathedral shall be open to all men of goodwill without distinction in creed and manner." His Lordship added that while it is not intended to allow ministers of other denominations to conduct services, it is proposed to ask ministers of other denominations to occupy the pulpit from time to time.

Only 100 to 1

English turf followers got their biggest thrill of the season from this sight as Aga Khan's Charley's Mount, paying 100 to 1, romped home first in the Casarewitch feature. The favorite in the race was kicked at the post and finished fourth.

DOONOVAN'S DEBUT AROUSES INTEREST

Fans Would Like a Decision in Fruzzetti-McIntyre Bout Friday.

One of the most interesting boxing cards arranged here in many a day has been clinched for the Arena next Friday night when "Jimmy" Fruzzetti, lightweight champion of New England, and Johnnie McIntyre, one of the best of the maritimes has produced, clash in the principal bout, backed up by an eight-round go between Louis Donovan, crack amateur boxer, and "Mickey" Morris. All four boys are very well known here and all have quite a following that should give promoter Finley one of the bumper houses of the season.

While the main bout holds many possibilities, almost as much interest attaches to the semi-final as the fans are interested to learn how Donovan will make out in his first bout as a pro. Over a period of two years, this North End boy demonstrated he was one of the hardest-hitting boxers ever developed in amateur ranks down here. His record is strewn with knockout victories. In meeting Morris, however, he is tackling a shifty little youngster who has not got much of a punch but who can make some of the best of them for his weight look foolish by his tricks. Morris will be conceding weight to Donovan in this match as he did to Wheeler in his last appearance here, Morris getting the decision.

If Morris tries to mix it with Donovan, he will find the local boy at his best. On the other hand, if he boxes him, his chances are that much improved. In his bouts with Eric Snow, Donovan seemed unable to get going and fathom Snow's defence, which showed that a boxer can give Donovan plenty to think about. Undoubtedly, he will go in with the local boy at his best. It is his style and it gives him fans. He is mighty anxious to make a big impression in his debut into the major circles and for that reason if for nothing else, he will try to add one more key to his string.

The main bout is set for ten rounds and barring unforeseen accidents, it should go to the limit. The odds would like to see a decision in this bout one way or the other. Draws are always unpopular and as this is going to be a closely fought affair, the judges and referees should be prepared to give the fans what they want. If a system of point scoring is used there should not be much trouble in arriving at a verdict. Both boys, it is understood, will weigh in under 140 pounds. Fruzzetti and McIntyre have met before, the former gaining the decision.

Membership List Lengthens—Bowling Plans are Completed.

At a meeting of the Y. M. C. I. yesterday afternoon a hearty vote of support was given to the idea of the Imperial Theatre, was passed in recognition of a generous donation of a pass to the theatre for a year, to be used as a prize in the "Y" membership campaign. There are also prizes of \$10, \$5 and \$4, given by members to encourage the workers in bringing in others to the Institute. The membership list was lengthened considerably during the week and encouraging reports in this respect were made at yesterday's meeting. This was the feature of the meeting, the other business being chiefly the routine of committee reports and discussion.

MEETING POSTPONED. The mass meeting of North End citizens scheduled for tomorrow night in Temple of Honor Hall, Main street, for the purpose of organizing a North End Athletic Association has been postponed until Tuesday evening, Nov. 11, as it is impossible to procure the hall at an earlier date.

BOOM IN BOWLING. There is a boom in bowling at the Y.M.C.I. The three leagues will all be going strong this week. Tonight in the Diamond League the Owls and Hawks will be contenders for first place. The House League will open on Wednesday night with the Aces, captained by I. Wall, will roll a team captained by Michael Lenihan. The Inter-Society League fixture for tonight is A. O. H. vs. Y. M. C. I. On Friday night in this league the St. Peter's and St. Joachim teams will play and the second Diamond League fixture is for Thursday night when the Sparrows will roll the Falcons.

At the recent meeting it was decided that the Alley team should consist of the team having the highest plus-fall for the season. The winner of the Diamond League series will also be decided in this manner. This is a decided innovation in bowling circles. So far it has been productive of high strings and team totals, the Owls in the Dia-

THIEF BOXED AS FREIGHT. HE WAS HANDLED ROUGHLY. Berlin, Oct. 15.—(Associated Press, N.Y. Mail).—Peter Ahrens, a piano tuner, recently was arrested for stealing goods from a freight car. When arraigned he made a complaint against the freight handlers' method of handling goods in transit. Ahrens said to get into the freight car, constructed a freight box, cushioned inside, in which he secreted himself. The box bore this caution: "Do not throw or turn over." Despite this, Ahrens declared, the freight handlers put his box on end and left him standing on his head more than an hour before moving the box to the freight car.

ST. PETER'S Y. M. A. ELECTS OFFICERS

Plans to Re-enter the Sporting Arena as Amateurs

The officers and members of the executive board of St. Peter's Y. M. A. were elected at the annual meeting of the association yesterday afternoon. Arthur Codrre, the retiring president, was in the chair. It was announced that steps are being taken to have removed the ban of suspension which was placed on the members of the society two years ago when they maintained that the affidavit required of amateurs for admission to the M. P. B. A. A. U. of C. was unjust and an imposition on the integrity of all amateurs.

"Challenge, battle and win, manfully and cleanly," was the sports slogan adopted by the association for the coming year. The association plans to enter in all athletic activities and by persistent effort try to win back the popularity that was theirs two years ago. The following officers were elected: President, Dr. Kerr Higgins; vice-president, Dr. Alphonse Coughlan; secretary, Raymond O'Connor; assistant secretary, Thomas Mullaly; treasurer, Edmund Casey; assistant treasurer, Joseph Corkery; sergeant-at-arms, Harold Cleary; chairman sports committee, Bernard Dunn; chairman literary and dramatic committee, John U. Hagerly; chairman ticket committee, Vincent Butler.

Dr. Higgins in a short address urged the members to get back into athletics and particularly stressed the benefit of the literary and dramatic end of their work.

PRINTERS' BOWLING LEAGUE STARTED. The printers' bowling league got underway Saturday afternoon on Victoria street at the Lawler Brothers' Academy. The following clubs were represented: The Telegraph Journal and Globe teams split with two points each. The other two teams in the league are Times and Jobbers. Games will be rolled every Saturday afternoon and Wednesday evening.

The individual scores for the first game follows: Telegraph-Journal— Total Avg. Sage 81 76 95 241 80 1-3. Finnamore 83 80 246 82. Mantle 71 100 72 243 81. Morrisey 48 77 68 183 64 1-3. Lawton 79 81 77 237 79. 862 406 382 1160

JOHNNY DUNDEE TO TOUR EUROPE

Veteran Italian Boxer Will Seek New Laurels—Sails Dec. 6.

Johnny Dundee, veteran Italian boxer, who at one time held the world's featherweight title and the 180-pound championship belt, has arranged to sail for Europe on Dec. 6 for a tour of England, France, Germany and Italy. Dundee, according to his manager, Charlie Johnston, has booked passage on the liner Olympic. The boxer will be accompanied by his wife and Johnston, who declared that while no arrangements had been made for European bouts in which the Italian will participate, Dundee will accept matches in London, Paris, Milan and possibly Berlin if continental promoters submit suitable financial inducements.

ST. JEAN WINS 2 FROM HARMON. Is Victor in National Pocket Billiard Title Tournament Matches.

New York, Nov. 3.—The third and fourth games in the National Pocket Billiard championship tournament at Lawler Brothers' Academy resulted in victories for Henry St. Jean, representing Minneapolis, over Charles Harmon of this city. In the afternoon St. Jean defeated Harmon by a score of 100 to 75 in thirty-six innings, the winner making a high run of 19. Harmon's best cluster was 13. St. Jean captured the evening game by a score of 100 to 62 in twenty-three innings, making a high run of 21, against Harmon's best run of 14.

In each game St. Jean went away to an early lead and held the advantage throughout. He gave his most impressive exhibition in the evening contest, when he started with a run of 15, and in the first nine innings scored 84 points while Harmon was collecting 5. In the thirteenth inning St. Jean led his rival by 69 to 6. Harmon picked up some ground in the next three innings, and in the sixteenth equalled the score favored St. Jean by 74 to 26. Harmon rallied thereafter, but could not overcome the early lead of his rival.

ORIOLES WIN GAME FROM MARTELOS. Canucks and Wanderers Tie—Games in Intermediate League.

Two games of football were played in the intermediate league on the grounds at Sand Cove, Saturday afternoon, when the Orioles won from the Martellos by a score of 8 to 0, and the Canucks and Wanderers went to a no score tie. There was a good attendance of spectators who were interested in the hard fought games.

For the Martellos Merryweather made a try, while McCreech, of the Orioles made two tries and converted one. A Linton proved a most efficient referee for the two games.

KANSAS CITY PLANS BIG STOCK SHOW

Kansas City, Mo., Nov. 3.—(United Press).—One-half million dollars' worth of the world's best pure-bred livestock will be on exhibition here at the American Royal livestock show and exposition, November 15 to 22.

Visitors from all parts of the United States are expected to take advantage of the reduced railroad rates to Kansas City and spend some of their good money for tickets or gasoline.

Stock lovers are astonished by the directors of the show to have a little of the reduced rates. Pulling pony and pulling horse contests to be staged during the show are apt to give a rise to the gaming instincts of even the most reserved, the directors assert.

"Besides," said E. F. Swinney, president of the American Royal Livestock Show, "you get your money's worth even if you lose."

The moot question of whether a good big span of farm horses can outpull a big fat and well-groomed span of city transfer or ice wagon horses will be settled once and for all. Visitors will see a pair of fine draft horses hitched to eighteen tons of hay—they will get to see what moves, anything, some believe a pair of horses will be here that will move a nineteen-ton load of hay on the straightaway.

Not only will there be heavy horses here, but those built for speed and the 1925 models, the latest thing out, in three and five galloped saddle horses, fancy drivers and riders, and harness ponies. Cowboy riding stunts will be thrown in for good measure.

Kansas City's mounted police will compete for prizes in the mounted police show. Prizes won by the mounted law will go to fill the stockings of many a policeman's little boy or girl on Christmas.

More than \$80,000 cash prizes and a score of silver trophies will be awarded to the nation's finest livestock during American Royal week.

Entries of cattle, horses, mules, dogs, sheep, cats and poultry, 3,000 in all, will come from thirty-eight states and Canada. For the most part entries are from the most noted herds, studs, flocks and kennels of the country.

Arrangements have been made to handle 40,000 people daily at the American Royal building. Fourteen acres of floor space has been provided to take care of 5,000 motor cars.

The grand champion of each breed of livestock will be selected by a popular vote of the visitors.

THERE'S NOT SO MUCH SPEEDING

University Dean in Orono, as Judge, is Proving Efficient.

Orono, Me., Nov. 3.—This college town has one of the most highly educated police court judges in the country. Before he goes to his classes at the University of Maine each morning Professor George D. Chase, one of the oldest deans of the university, sits in judgment on various offenders against the law, and particularly violators of traffic rules.

highway, was built through the town, the residents have been greatly annoyed by automobilists who take advantage of the smooth surface to defy local speed regulations and rush through the main village street at a dangerous pace. Determined to see justice meted out to these speeders, the people induced Professor Chase to take the job as trial justice. University engineers measured out speed traps and volunteers now time speeders over certain sections of the road to a fraction of a second. The traps vary in length and are well concealed. Arrests have been numerous and the professor-justice has something on the docket nearly every morning. No one is shown any favor and university students falling into the clutches of the law do not fare any better than anyone else. For ordinary over-speeding the first offense draws a \$5 fine and costs, amounting in all to about \$12, with a warning. Other offenses, such as cutting in or passing cars on a curve or on top of a hill, cost rather more. Every case is carefully tabulated. Speeding in Orono is growing less.

WOULD RESTORE USE OF CARTWHEEL. Secretary of U. S. Treasury Issues Call in Interest of Economy. (United Press.) Washington, Nov. 3.—As a measure of economy, Secretary of the Treasury A. W. Mellon has called upon the banks of the country and the public to restore the silver dollar to circulation. The decline in circulation of silver dollars from 94,000,000 in 1919 to \$4,000,000 on July 1, 1924, was the result of the Pittman act, by which Congress authorized the treasury to melt silver dollars and sell the bullion to the British government for use as currency in India. The treasury since has been ordered to restore the silver dollar to its former place in circulation, but the public, after a five-year respite, does not readily assume the "burden" of weighting trousers pockets with the good old "cart wheels." The treasury has the dollars, but nobody wants them. "The life of a silver dollar," Mellon points out, "has no reasonable limit, whereas that of a paper dollar does not at most exceed ten months. A paper dollar costs .017 cents to manufacture and keep in circulation. If the treasury can restore to circulation 30,000,000 silver dollars in the United States and 10,000,000 in our insular possessions, we can displace equal amounts of paper currency and save annually \$825,000, which is equivalent to the interest at 4 per cent on \$21,000,000 of the public debt." The demand for paper currency in small denominations has increased tremendously in the last three years. It is now necessary to print and put in circulation 48,000,000 one-dollar notes each month. The speed with which these bills are rushed through the manufacturing process does not give the treasury time

Henry Wilson Chose Soundly and Well. The new North American Life "Endowment at 65" Policy was exactly the sort of insurance that Henry Wilson had been looking for. "When I am sixty-five years old" he explained, "I shall receive \$10,000 from the North American Life Assurance Company. That is about twice as much as I could handle with a ordinary Endowment Policy which would mature seventeen years earlier and therefore call for a larger premium. And the beauty of it is that when we are 65 years old, Betty and I will make much better use of \$10,000 than a mere \$5,000 at 48. Seventeen years would put a big hole in \$5,000. "In the meantime, I have protected my family adequately—which is after all the major consideration with me, as it is with every man. "Paying premiums on this policy is somewhat similar to buying a stock which guarantees a 100% dividend." The North American Life "Endowment at 65" Policy has several unique advantages for the man who is looking ahead to the day when his earning power will have waned and who wishes to provide for an independent and comfortable old age. ASK INSCRIPTIONS FOR WAR MEMORIAL. (Victoria Colonist) Inscriptions for the Victoria War Memorial will be considered at the next meeting of the committee. A ready number of suggestions have been made. Any others received before Thursday will be placed on the list also. Inscriptions already proposed are as follows: (a)—"Let us forget our Glorious Dead." (b)—"To honor those who fought for King and Country, 1914-1918." (c)—"In immortal (or sacred) memory of our glorious dead—Their name liveth for evermore. (On stone)—"These are they which came out of great tribulation" (or) "Greater love hath no man than this, That he lay down his life for his friends." (d)—"Others." (e)—"To you from falling hands We throw the torch, Be yours to hold it high; If ye break faith with us who die, We shall not sleep"—(either whole or part). (f)—"From this far haven of peace to that strange land Of ruined village and of shell-ploughed earth, Where they would meet the foe man hand to hand, They went triumphantly to prove their worth, To share a glorious labor well begun, To carry on for those whose task was done." (g)—"Those who with fame eternal their own dear land endowed, Took on them as a mantle the shade of death's dark cloud, Yet dying thus they did not, on whom By virtue which exalts them above all other dead." (h)—"Where are the dead? There are no dead." (i)—"For thee the victor's path of death they tread, O, Canada! be true to them, and God." (j)—"They died the noblest death a man can die, Fighting for God, and right, and liberty, And such a death is Immortality." (k)—"Ye that live on, 'mid pastures green,

Remember us, and think what might have been." GOING BACK TO THE OLD JEWISH NAMES. Jerusalem, Oct. 1.—(By mail to United Press).—The revival of Hebrew as an everyday language of Palestine is resulting in wholesale changes in the names of Jews who are settling in the country, the Government Official Gazette, where all changes of names must be registered, reveals. In former years Jews dropped their Hebrew names to adopt names of the countries in which they were residing. Now they are returning to the language in which their names appeared two thousand years ago. A recent issue of the Official Gazette shows the following changes in names of German, Russian and Polish origin: Goldman has become Zahabi (man of gold), while Silverman by the same token is now known as Kaspi. Floryev names like Blumberg and Rosenberg now have the Hebrew equivalents of Parshi and Yardi, respectively. Feldman, literally man of the field, has been changed to Hakial (farmer); Abramson has become Abraham, while Yudekon will henceforth be known as Ben Yehuda (son of Judah). Names like Shapiro, Cohen and Levy remain unchanged during this Hebrew revival, for they are already in Hebrew.

A GREAT SYMPHONY OF HUMAN EMOTION. THIS WEEK OPERA HOUSE THIS WEEK. THE ROSARY.

My Dear Mr. Carroll— I note with interest that you are to produce my play "THE ROSARY" in St. John, N. B., with your Carroll Players. As the play was written in my home town in Canada, and as its leading character, Father Brian Kelly, is drawn from a very dear old priest with whom some of my most happy hours were passed when I was a boy, you can imagine how pleased I am that you have selected my play. In fact I am not at all certain that I can resist the temptation to drop my work here and return to the Land of the Maple Leaf and see what I am sure will be one of the most notable presentations that this play of mine has ever enjoyed. With all good wishes to you and your excellent company, I am, Faithfully Yours, EDWARD E. ROSE.

WAR ON THE RATS, SAYS DR. MELVIN

Health Official Gives Striking Interview on Plague in Los Angeles.

Dr. George G. Melvin, medical health officer, interviewed by The Times-Star this morning, in regard to the outbreak of pneumonic plague, in Los Angeles, said:

"Pneumonic plague is the most fatal form of the most fatal disease in the world. It kills from 75 to 98 per cent. of those who are attacked. It may easily be mistaken at first for pneumonia.

"A few years ago it nearly depopulated several sections in Eastern Asia, especially in Mongolia and Manchuria. The Japanese, who happened to be in authority at that time, by their activity and good health administration succeeded, after a time, in controlling the plague. For this purpose they burned down many homes and some villages particularly affected.

The Two Forms.

"This plague consists of two forms or types, bubonic and pneumonic. The bubonic form is also very fatal, but not nearly so much so as pneumonic. It is quite readily distinguished by the peculiar swelling of the glands, neck and groin. The pneumonic type is much more difficult to distinguish from influenza, and, as already noted, is quite the more fatal of the two.

"The plague is propagated by and carried from place to place by rats. They are very susceptible of the disease, and as every rat without exception is infected with fleas, these become infected with the poison of the disease. As soon as the rat dies the fleas leave its body and make every endeavor to attach themselves to human beings, thus infecting man and producing the most dreadful of all diseases.

Destroy the Rats.

"The moral is plain. War should be made upon rats, not merely in any campaign but continuously. Rats are the most dangerous animal enemy of human life. They cause a hundred times more deaths in the world than all the poisonous snakes and so-called ferocious beasts put together.

"No home should tolerate rats. They may easily be disposed of by starving them; that is, by not affording them food; as it is for food they frequent dwellings. If the food used in the house be sealionally kept in rat-proof containers, which is not very difficult and the garbage in the yard kept in covered cans inaccessible to rats, a house infected with them will be entirely free within three weeks.

"Cats are practically useless as rat destroyers. Traps are useful for a little while, until the rats come to know them, for the household rat is probably the most intelligent of the lower animals. Poison should not be depended on and is dangerous to the family; and a poisoned rat under the floor or in the wall, once it putrifies, often costs the householder hundreds of dollars to discover and get rid of it.

The Public Warned.

"The public is therefore warned and exhorted once more to destroy rats by starving them out of their houses. Every warehouse devoted to food storage should not be infested with them, as is so generally the case. Rat-proofing of all sorts of buildings, especially warehouses, is quite easily accomplished. Rats almost invariably obtain entrance to such places by burrowing under or through the foundations. They will as a rule not go farther than a foot and a half in their tunnelling; so that if material such as sheet iron or whatnot is inserted to a depth of two feet or so under the foundation, and reasonable care exercised as to windows and doors, and strict avoidance of edible material about the premises of such warehouses rats will not be found there.

While discussing the subject of public health Dr. Melvin referred to the news in The Telegraph-Journal that black smallpox had taken 27 lives in Minneapolis, and remarked that in the American west there was a strong opposition to vaccination, with such results as are recorded from Minneapolis.

IS AWARDED \$100 IN PROPERTY SALE

Judgment for A. S. Merritt in the County Court Today.

Judgment for the plaintiff to the amount of \$100 and costs was delivered in County Court Chambers this morning by Judge J. A. Berry in the case of A. S. Merritt vs. Maurice L. Doherty. The original amount sued for was \$215, alleged to be due the plaintiff as commission in connection with the sale of the defendant's property in Princess street.

In the evidence, the plaintiff set up that he had introduced the purchase, and that as a result the property had been sold. The defendant alleged that the buyer had come of his own accord and purchased the property, the price agreed upon being \$4,800. The Judge found that both parties had acted in good faith with respect to each other but that the sale was brought about in fact as the result of Mr. Merritt's having introduced the property to the buyer, and as the authority conferred by Mr. Doherty had not been revoked, there existed a claim for commission.

Following the principles laid down in two important cases on the point, His Honor found for the plaintiff on the quantum meruit basis, allowing him \$100 and costs, the amount of the judgment being the difference between the actual selling price and \$4,200 the amount agreed upon between principal and agent as the lowest price at which the property would be disposed. C. J. Melville appeared in the case for the plaintiff, and E. P. Raymond for the defendant.

SWORN IN WEDNESDAY.

It is reported that Hon. J. P. Byrne, recently appointed to the vacancy on the New Brunswick Bench, will be sworn in at St. John on next Wednesday by Chief Justice Sir Douglas Hazen. Judge Byrne's first court will be at St. John when he will hold chambers on Thursday.

BLUEBERRIES IN BLOOM.

Wesley Rowley, while strolling in Rockwood Park yesterday, picked several blueberry blossoms, which he brought to The Times-Star office today. They were in unusually good condition for this time of year, in spite of the fact that the leaves surrounding them were quite withered.

RADIO COMPLAINT.

The radio fans of King street east are complaining about interference from some amateur who, they say, evidently does not know how to tune in. For some time they have been having their enjoyment of the programmes broadcast spoiled by the whistling and shrieking of the tubes, which they say is altogether unnecessary.

CITY WHARVES READY.

The work on the city wharves is about completed for the season. The many friends who look quickly in St. John the Baptist church on October 16, when Miss Matilda Ella Robson of Sydney and Patrick C. Hughes of this city, formerly of Sydney, were united in marriage, Rev. J. J. McDermott officiating. They were attended by Miss Kathleen Connor and Joseph Gillespie. Mr. and Mrs. Hughes, who will make their home in Gernall street, will have the best wishes of a large circle of friends.

STREET WORK.

Commissioner Frink said this morning that work on the city street paving was progressing favorably. The sidewalk and curb had been laid and it was planned to start the asphalt surface of the street at once. The paving in Brunswick Place had been completed with the exception of a few loads of earth in the grass plots. A start was made this morning on the third section of the retaining wall on Prince Edward street. The heaviest portion of the work will be the last section as it is 15 feet deep.

BENJAMIN COLE DEAD.

The death of Benjamin Cole, formerly of Milford occurred at his residence in Amesbury, Mass., on last Saturday. He leaves one daughter, Mrs. W. M. Beattie, of West St. John; two sons, Ralph, at home, and Harry, in the United States, children of his first wife, who was Elizabeth Stevens of Grand Bay. He also leaves to mourn, his wife, one daughter, Elizabeth, two sons, Wilbur and Raymond at home, and two stepsons George and David Hunt. Two sisters, Mrs. J. T. Rush of Arizona and Mrs. Adam Campbell and one brother Harry, both of Fairville, also survive. The funeral took place this afternoon.

HIP IS BROKEN.

Many friends heard with deep regret of a serious accident that befell Mrs. Margaret Chisholm on Friday afternoon, in which her hip was broken. Mrs. Chisholm, who makes her home with her son-in-law and daughter, Mr. and Mrs. Edward J. MacDonald, 27 Richmond street, had mounted on a chair to reach for something she wanted and in getting down miscalculated and fell, striking on her hip on the floor. The accident is the more regrettable because of her advancing years. Mrs. Chisholm is in the infirmary, where the bones have been set and the report this morning was that she was doing as well as could be looked for. Many friends of Mrs. Chisholm and the family will hope for early recovery.

SECOND SURVEY AT TUCKER PARK.

Commissioner Frink said this morning that he had made a second inspection trip, on Saturday, over Tucker Park, and it had been found that, while it was quite possible to put a road through to the Millidgeville road, it would be necessary to have the property surveyed and the lines defined before a road was laid out.

It would be quite feasible, he said, to build a road at the rear of the Turnhill property and join the Millidgeville road near the R. K. Y. C. Club House or a road could be built to come out near the Connors property.

On the Saturday trip they had found a road leading from the Tucker Park to the shore, and this was in fairly good condition. The ascent from the Millidgeville appeared in the case for the plaintiff, and E. P. Raymond for the defendant.

John K. MacDonald Carries Off Honors at the G.W.V.A. Fair.

John K. MacDonald has been voted the most popular postman, in the G. W. V. A. fair, which closed on Saturday night. Today he has been busy acknowledging the congratulations of a host of friends. At the close of the poll, in the case of the leaders stood as follows:—

John K. MacDonald, 18,260; W. T. Dunlop, 14,960; R. F. Cooper, 7,890; W. H. McKinney, 7,590 and P. Dalton, 4,050. There was a record crowd in attendance.

The bowling alley prizes on Saturday night were won by F. Crozier and Mrs. W. Monahan. The door prize, an electric heater, went to ticket 4800 held by W. J. Hall, 46 Prince Edward street. The grand door prize awaits the holder of ticket 2062. The holder of ticket H-45, is the winner of a thoroughbred Pomeranian pup. The semi-annual fancy dress, French doll will be held during the week. Mrs. Daniel Maynes, Sydney street, was the winner of a cake, the weight of which was 4 pounds and 19½ ounces.

John Kenneth MacDonald, has been serving the public of St. John, in the capacity of letter carrier, for just a little over 21 years, having taken up his duties on June 1, 1903. During those years his popularity had grown until today practically everyone has a "hello and good morning" for the smiling "Jack."

His first walk was in the North End and he was a great favorite with the people of Indianstown, who received their letters from him until the outbreak of the war. Soon after war was declared he was sent to Valcartier camp and later was transferred to Sussex Camp and placed in charge of the post office there. When the camp was closed he was placed on the Prince William street route and has been there ever since, gaining new friends all the time.

REV. DR. HUTCHINSON ON WESTERN TRIP

Speaks to Congregation of Plans for Retirement Next April.

Rev. Dr. David Hutchinson left today for a trip to Toronto, Brantford, London, Ont., and Grand Rapids, Mich. In Toronto he will attend the annual meeting of the Baptist Foreign Mission Board.

Last evening, at the close of the communion service in Main street Baptist church, where he has been pastor for more than 19 years, Dr. Hutchinson repeated that it was his intention to bring the pastorate to a close on the completion of 20 years of service, which will be on April 30, 1926. He referred to the fact that before that time he would have reached the span of life allotted to man and his feeling the necessity for easing a little on the burdens which he had been carrying as the active pastor of a large church. He expressed his appreciation of the loyal co-operation which had been given him by the members of the church and congregation.

"PADDY" AND BOY MASTER SUCCEED

Dog and Boy Seek Help for the Animal Rescue League.

"Paddy," the Irish terrier from the Animal Rescue League, created a lot of interest in King street on Saturday. With his brown coat and his honest brown eyes, and his blue blanket and ribbons, he was rather noticeable, and many a generous donation was dropped into the blue boxes on his back, to the pride and pleasure of his young master, Arthur Daley, who feels confident his "Paddy" will "make good" in their effort to help along the work of the league. A very satisfactory beginning was made and even better results are expected on their next appearance.

GRAIN CONVEYOR CONTRACT LIKELY TODAY OR TUESDAY

An Ottawa despatch to The Times-Star states that tenders for grain conveyor extension at St. John have been referred to the council and a decision is expected today or tomorrow.

As Hiram Sees It

"Look-a-her!" said Mr. Hiram Hornbeam to The Times reporter, "you got to stop this here gallivantin' round the country. I haint had nobody to talk to fer a week."

"Why didn't you talk to some of the other boys here?" asked the reporter.

"Them young squirts?" said Hiram. "What do they know about turkeys or tur-nips? One o' them fellers wouldn't know a beechnut from a tomato. Now jist stay home fer a spell. Hantner says when I don't see you an' git somethin' off my mind every day I'm like a bear with a sore head."

"Well," said the reporter, "what have you got on your mind today?"

"I was jist thinkin'!" said Hiram. "That sene Ramsay MacDonald made sich a good job in pacificatin' France, an' Germany—an' hes plenty o' time now to tend to it—he might come to St. John an' persuade that there city council an' school board to bury the hatchet an' git on with the job."

"I will pass on your suggestion," said the reporter.

"It's well with thinkin' about," said Hiram.

Quality and Confidence

There is one thing about the low prices at this store that is doubly important. This is the fact that, in spite of our extremely low prices, quality is absolutely assured. Anyone can offer a cheap article at a cheap price, but it takes a merchandising organization such as ours to offer real quality at attractive low prices. No matter what you need in furniture, rugs, etc., you may buy it here with absolute confidence that quality stays up no matter how low the price may drop. It is only through the right combination of quality and price that true value is achieved, so keep this ever in mind when buying furniture.
