Sordid Tale Of Dishonor In Baseball Is Told By Maharg

ARE CONCERNED OVER REPRISALS BY BLACK AND TAN

Says Three of World Series Thrown by the White Sox

EIGHT OF TEAM IN IT

In Sensational Story Sporting Man Blames Abe Attell for Double Cross by Which He Says Ball Players Lost \$90,000 in Crooked Deal to Lose Games.

English Newspapers Anxious About Situation

Call for Government to Check Proceedings—Appeal Made by Archbishop of Canterbury—More Trouble in Belfast.

London, Sept. 28.—Serious anxiety over the recurrence of the "Black and Tan" reprisals in Ireland is reflected by English newspapers, which sharply call for the government to halt what is described by the London Times as "Semi-official lynch law."

According to the story, he said he and "Bill" Burns, a business partner and former American League pitcher, were approached by Eddie Cicotte, Chicago pitcher, who told them that a group of prominent Chicago players would be willing to "throw" the series if they were given \$100,000.

Maharg said the White Sox players were "double crossed" by Abe Attell, former featherweight boxing champion, who acted as the "fix" and "go between," and that they received only \$10,000. "Attell is the man the Chicago grand jury wants," so Maharg's story says. "He made the bets, turned over \$100,000 to Burns for the use of \$90,000, and double crossed them out of \$90,000."

"I received a wire from Burns from New York in the middle of last September inviting me to take a hunting trip with him down on his ranch in New Mexico," said Maharg. "We were to take Bill James, one of the White Sox pitchers with us. James had nothing to do with subsequent events, but while we were there in the room talking, Cicotte came in and started to talk in a low voice to Burns."

"I heard enough to know that he said that a group of prominent players of the White Sox would be willing to 'throw' the coming world's series if a syndicate of gamblers would give them \$100,000 on the morning of the first game."

"When Cicotte left, Burns turned to me and repeated Cicotte's conversation, part of which I had heard. Burns said, 'do you know any gamblers who would be interested in this proposition?'"

"I said I would go to Philadelphia and see what I could do. Burns said he would have me to Montreal to close about the progress of the deal."

"I then went to Philadelphia and saw some gamblers there. They told me it was to be big a proposition for them to handle, and they recommended me to Arnold Rothstein, a well known and wealthy New York gambler."

"Burns then declared that they made a deal to interest Rothstein, but failed. Later, he said, Burns had arranged through Attell, to put the deal over. He and Burns went to Cincinnati to meet and attend to the deal."

"Attell was in Cincinnati, quartered in a large suite in the Sinton," Maharg's statement continues, "and had a gang of about twenty-five New York gamblers with him. He said they were working for Rothstein."

"I had my first suspicion on the morning of the first game, when Burns and I visited Attell. We asked for the \$100,000 to turn over to the White Sox players to carry out our part of the deal. Attell refused to turn over the \$100,000, saying that they needed the money to make bets. He made a counter proposal that \$25,000 would be handed to the players at the end of each losing game. Burns went to the Sox players and they seemed satisfied with the new arrangement."

"I had betted on Cincinnati the first day, and won. The next morning Burns and I went around to Attell again at his hotel. I must have seen so much money in my life. Stacks of bills were being counted on dressers and tables."

THE CANDIDATES

St. John City Government—Premier Foster, Hon. Dr. W. F. Roberts, R. T. Hayes and W. W. Scully.

St. John County Government—A. F. Bentley, Dr. L. M. Curren.

Westmorland County Government—Fred Magee, F. E. Burgess, F. L. Estabrooks, Reid McManus.

Restigouche County Government—Arthur T. LeBlanc, S. Hartigan, C. W. Robinson.

Queens County Government—Dr. J. E. Hethrington, Geo. H. King.

Gloucester County Government—P. J. Veniot, J. P. Byrne, S. R. Leger, John G. Robichaud.

St. John City Opposition—L. P. D. Tilley, F. L. Potts, Dr. J. Roy Campbell, James Lewis.

St. John County Opposition—Dr. J. B. M. Baxter, Thos. B. Caron.

Westmorland County Opposition—Farmer—S. D. Gupitll, Chauncey R. Pollard.

Restigouche County Opposition—Arthur T. LeBlanc, S. Hartigan, C. W. Robinson.

Queens County Opposition—Alfred West, W. A. Machum.

Gloucester County Opposition—J. E. Michaud, D. L. Dalgle.

St. John City Opposition—David A. Stewart, Henry Dlotte.

St. John County Opposition—Dr. D. V. Landry, Col. John Sheridan, Councillor David Roach.

Westmorland County Opposition—Robert B. Smith, D. W. Mersereau.

Restigouche County Opposition—Tom, C. W. Robinson, Samuel Burlock.

Queens County Opposition—James K. Pinder, John A. Young, S. B. Hunter, C. D. Richardson.

Gloucester County Opposition—Renné Tracey, Fred Smith.

St. John City Opposition—Renné Tracey, Fred Smith.

St. John County Opposition—Renné Tracey, Fred Smith.

Westmorland County Opposition—Renné Tracey, Fred Smith.

Restigouche County Opposition—Renné Tracey, Fred Smith.

Queens County Opposition—Renné Tracey, Fred Smith.

Gloucester County Opposition—Renné Tracey, Fred Smith.

St. John City Opposition—Renné Tracey, Fred Smith.

St. John County Opposition—Renné Tracey, Fred Smith.

Westmorland County Opposition—Renné Tracey, Fred Smith.

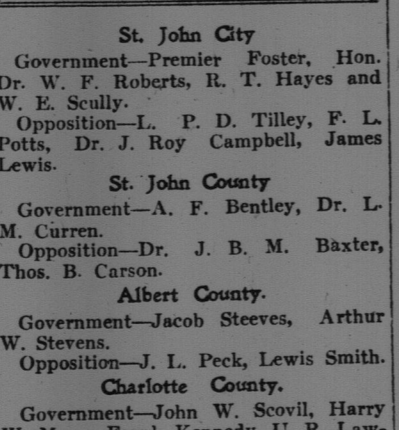

Restigouche County Opposition—Renné Tracey, Fred Smith.

Queens County Opposition—Renné Tracey, Fred Smith.

Gloucester County Opposition—Renné Tracey, Fred Smith.

St. John City Opposition—Renné Tracey, Fred Smith.

GRAND TRUNK ARBITRATORS INSPECT TORONTO TERMINALS

Sir Walter Cassels, W. H. Taft, ex-president of the United States, and Sir Thomas White have started on their tour of inspection of the Grand Trunk lines and terminals. The picture shows Sir Walter Cassels and Mr. Taft in Toronto making an inspection.

MOTHER OF A CANDIDATE IS BADLY HURT

Aged Mrs. Hunter Falls Down Stairs with Lighted Lamp, Which Fortunately Rests Upright on Floor.

Fredericton, Sept. 28.—Mrs. Mary Jane Hunter, mother of S. B. Hunter, one of the members of York in the last legislature and a member of the opposition ticket, is in a precarious condition at the home of her daughter, Mrs. Richard Davis, at Harvey Station, as the result of an accident.

"I had Tom Dyer in last week with samples of quarts and quarts of ripe blueberries found out the Sandy Point road where he picks many flowers in March," said the reporter. "Oh, we have the finest climate in the world."

"I wish you could see the woods now," said the reporter, "are you a tory farmer, or a farmer?" "Now, see here," said Hiram, "you little white to s'ert 'em out, but you'll see you'll see. You're a tory farmer, or a farmer?"

N. S. HIGHWAYS INVESTIGATION

Halifax, N. S., Sept. 28.—W. A. Hendry, C. E., has been appointed by the provincial highways board to investigate the work done to date under the act providing for the expenditure of eleven million dollars on the roads of Nova Scotia. He will express his opinion as to whether or not the system of road building on the province of Nova Scotia and detail the system of accounting that has prevailed on construction work under the act.

WEAKNESS OF THE MONTREAL STOCK MARKET

Montreal, Sept. 28.—The local stock market during the first half hour this morning displayed a weakness which has been apparent for many days, and many declines, ranging between one and two points, were registered. The merger stocks, Dominion Steel and Canada Steamships, have not yet done anything to merit alarm, although the former went down two points overnight to 50. It is now steady, however, between 50 and 51, while the latter has not yet appeared on the tape. Attili lost a point and a half overnight to 77 1/2. Brompton went down two points to 145. Atlantic Sugar closed at 185 1/2, and opened this morning at 185. Spanish River, both preferred and common, registered declines, the former going down one point to 128 and the latter one and a half to 116 1/2. Laurentide is now 118, after closing at 114 1/4. Other stocks remained unchanged.

HIS ADVICE TO CANADA ABOUT NAVAL MATTERS

Toronto, Sept. 28.—The submarine as a weapon of war has no future, having been rendered ineffective by the perfection of the depth charge, said Captain Donald Munro, C.M.G., R.N., in a speech here last night, under the auspices of the navy league.

Captain Munro was advisor on port defence to the admiralty during the war. His advice to Canada on naval matters was summed up in the dictum that the building of Canadian warships might be left to a later date, all efforts being concentrated meantime on the training of men.

The sending of boys to sea on training ships was the express purpose of making the men of them he advocated as the only effective method of raising sailors. Apprenticeships to the merchant marine he did not consider advisable or efficacious.

EXCHANGE TODAY

New York, Sept. 28.—Sterling exchange strong. Demand \$3.50; cables \$3.50 3/4. Canadian dollars were quoted at a discount of 10 1/2 per cent.

sonal winnings of the first two days on Cincinnati to win the third game. As a matter of fact, the Sox got even with us by winning the game.

"Burns and I lost every cent we had in our clothes. The whole upshot of the matter was that Attell and his gang cleaned up a fortune and the Sox players were double crossed out of \$90,000 that was coming to them."

As Hiram Sees It

"Here," said Mr. Hiram Hornbeam to the Times reporter, laying on his desk a bunch of raspberries, bearing rich, ripe fruit, green berries and blossoms, "a feller from Fairvale give me these this mornin' to give to you. He said they had fresh fruit all winter out to Fairvale, an' a lot of the town folks was goin' to stay in their cottages all winter. I s'pose you'll have some feller in from Fairvale with ripe lemons or somethin' to-morra."

"I had Tom Dyer in last week with samples of quarts and quarts of ripe blueberries found out the Sandy Point road where he picks many flowers in March," said the reporter. "Oh, we have the finest climate in the world."

"I wish you could see the woods now," said the reporter, "are you a tory farmer, or a farmer?" "Now, see here," said Hiram, "you little white to s'ert 'em out, but you'll see you'll see. You're a tory farmer, or a farmer?"

STRENGTHEN THE FORCE AFTER BOOTLEGGERS

More American Agents on the Border to Check Smuggling from Canada.

SCHOONER RACE FROM LUNenburg TO HALIFAX

Halifax, N. S., Sept. 28.—The sum of \$2,000 has been subscribed as prizes for a schooner race from Lunenburg to Halifax, which will feature the arrival of the schooner "The Scotia" on the roads of Nova Scotia. He will express his opinion as to whether or not the system of road building on the province of Nova Scotia and detail the system of accounting that has prevailed on construction work under the act.

WEATHER REPORT

Issued by authority of the Department of Marine and Fisheries, R. F. 24 p. v. a., director of meteorological service.

FRENCHMAN WINS AIR RACE

Etampes, Sept. 28.—Sadi Lecointe, famous French aviator, today won the International airplane race for the James Gordon Bennett trophy.

He covered the course of 300 kilometres, or 186 1/2 miles, in one hour, six minutes, sixteen and one-fifth seconds. After the race had been in progress less than an hour today, the contest had narrowed down to a possible three competitors, one of them Major R. W. Schroder, of the United States.

Major Schroder soon afterward also was eliminated, withdrawing after flying 100 kilometres because of ignition trouble.

Howard Rinehart, the other United States entrant, withdrew soon after starting because of difficulty with the steering gear.

He covered the course of 300 kilometres, or 186 1/2 miles, in one hour, six minutes, sixteen and one-fifth seconds. After the race had been in progress less than an hour today, the contest had narrowed down to a possible three competitors, one of them Major R. W. Schroder, of the United States.

The Brethren

Now it came to pass while the Brethren sojourned in the wilderness that one came unto them saying: "Lo an evil spirit is abroad at Musquash and Shogomoc, and the people are sore afraid. This evil spirit doth make bright lights to shine in the houses of the people, maketh carts to move without oxen, and tools of every kind to work without hands. Other miracles likewise doth it perform, at which the people marvel exceedingly."

Then said the Leader of the Brethren: Go ye into all the highways and warn the people of the land. As for me, I will go forthwith to the city which is called St. John, where dwell those who have Power to exorcise this evil spirit, lest it go forth and do, even in that city, and in Gagetown and Moncton, and the valleys between, all those things of which we are this day warned.

And the Brethren all did that which the Leader commanded them. And great was the noise they made, for the fear of the evil spirit was upon them.

And it came to pass also that the Leader girded up his loins and journeyed to the city which is called St. John, and there tarried to take counsel with them who had Power to exorcise the evil spirit.

And he said unto them: Forasmuch as this evil spirit is abroad, and hath Power, ye must swallow it up, even as the serpents of old were swallowed up, and the Posterites will build altars in its name, and ye shall be mocked in all the land from Musquash to Shogomoc and from the Tetsagouche to Grand Falls.

And one of them which had the Power said: Lo, we have already sought to overcome the evil spirit, but it was warded by the Posterites of whom thou hast spoken, and fled to the city which is called Fredericton. Peradventure we may find it there, and destroy it, even as we cast out devils there in former times. Let us go thither.

And they all thereupon girded up their loins and set out upon the journey to the city which is called Fredericton, to wrestle with the evil spirit from Musquash and Shogomoc.

POSITION OF THE S. S. MINERS

Statement and Recommendations from Executive to the Local Unions.

Halifax, N. S., Sept. 28.—The Herald today publishes the text of a statement with which the executive of the United Mine Workers of America transmitted to the various locals the report of the royal commission which recently investigated mining conditions in the maritime provinces. It advises the rejection of the report on the ground that the proposed sliding scale system is unfair to the miners in as much as the commission found that decreased production was due mainly to living conditions and inferior machinery over which the miners themselves had no control, and that the permanent board of arbitration, which it was proposed to set up, was not in keeping with the provisions of the Industrial Disputes Act. Recommendations are made as follows:

1. That we give up all claim to have the increase date from May 1, 1920, notwithstanding the provision of the McKinnon award, which this royal commission says still stands and provides such increase should date from; and we accept the increases as outlined by the royal commission, excepting all that part relating to the "partial advance and sliding scale."

2. That the increase date from July 1, 1920, and terminate April 31, 1922, on thirty days' notice from either party. That by giving thirty days' notice either party may reopen the contract for readjustment of rates, each six months period dating from the signing of this agreement.

3. That this organization pledges itself to co-operate in every way to increase the output by using all the air power made available by the coal companies for cutting and hauling coal, or in any other way such as by pointing out and seeking to remedy all defective and worn-out machinery, etc.

4. That we shall agree to a board as outlined by the commission providing such board and its findings have the same power and effect as a board under the Industrial Disputes Investigation Act.

5. That we accept the findings of the royal commission on all other matters dealt with in the report.

THE SMALL CASE

Toronto, Sept. 28.—Mrs. F. Lovett, a sister of John Doughty, private secretary of the missing Ambrose J. Small, wealthy theatre owner, testified yesterday before a special examiner here that she believed her brother, John, was still alive, though she could not give any reason for so thinking.

Doughty disappeared on December 28 last, less than a month after the disappearance of Mr. Small.

Shock of Pardon Too Much for Inmate of Sing Sing Prison

Ossining, N. Y., Sept. 28.—Eldore Berman, twenty-one, an inmate of Sing Sing prison, died of heart disease last night when informed he had been pardoned by Governor Smith. He had been in prison since December, after conviction for assault in New York city. The pardon was recommended by the prison physician because of Berman's illness from heart trouble.

CARUSO PUTS MONTREAL CITY INTO TURMOIL

Wild Scene in Rush at Concert—Receipts About \$80,000.

(Canadian Press.) Montreal, Sept. 28.—Hats were broken and ladies' light clothing was torn in a mad rush of thousands to get into the Mount Royal Arena last night to hear Enrico Caruso. Automobiles were temporarily lost, stalled and turned aside probably not fewer than 500 autos gathering all about the same time, each looting and clamoring for right of way. Policemen were shouting in French and English, trying to get people steered out of danger and to the right entrances, and ushers in evening dress from the Arena were hurrying through the crowds in an effort to see that some sort of progressive order was made, so that the people could get in time to allow the concert to start. No such rush has been seen for a concert here in a score of years.

It was figured at the box office later on that there were fully 7,500 people in the house, and that the financial results of the night's feast of melody would possibly run around \$80,000, quite the biggest box office record for any concert in the history of Montreal.

ASTRIDE A LOG IN GULF; SAVED BY PASSING SHIP

Strange Predicament of Airman Who Got Into Trouble on Pacific Coast.

Victoria, B. C., Sept. 28.—Padding astride a log for several hours in an endeavor to get into the steamship traffic route and be picked up before he starved, Lieut. W. H. Brown, M. C. R., A. F., was picked up in the waters of Nalau Island, south of Bella Bella, by the steamer Hildred Inlet, bound from Alaska to Seattle, after having been adrift on his strange craft twenty-four hours in the icy waters of the gulf.

Brown was flying from Albert Bay to Prince Rupert, B. C., but after flying for an hour and a half he was forced to land to repair the engine of his scaplane. Before he could do this, the land and sun and there was no other route for Brown to reach the steamer. He was one day on the island.

NEW CANDIDATE IN RESTIGOUCHE

S. S. Harrison Replaces John C. McLean on the Government Ticket.

(Special to Times.) Campbellton, N. B., Sept. 28.—Because of the fact that John C. McLean, the candidate chosen at the convention of the friends of the Foster government last week has been found to be disqualified, a new candidate in the person of S. S. Harrison has been chosen and has entered the fight. He is a very successful business man, having a large store at 221 River Crossing, as well as large lumber interests. He is also the largest exporter of potatoes in this section. He is a skillful and credit to any party.

Already the government candidates have held large and enthusiastic meetings at Belmor and Upper Charles. Things look exceedingly bright for Messrs. Leblanc and Harrison.

ALBERTA'S COAL PROBLEM

Calgary, Sept. 28.—No word has been received in Calgary yet as to when W. A. Armstrong, director of coal operations, will be here to discuss the new situation that has arisen over the demand for an increase of \$1.15 a day for day wage workers in the coal mines in this province. Pending his arrival operators will not express any opinion. They will no doubt arrange to meet the officials of the United Mine Workers of America at a conference, but the outcome of this is highly problematical, as they have, on the strength of the recently signed agreement, gone ahead making contracts for their coal.

MANY TO COURT FOR FAILURE TO PAY THE INCOME TAXES

Winnipeg, Sept. 28.—Exchequer court writs for failure to pay their income taxes will be served soon on more than 150 residents of Winnipeg and Western Ontario, so A. W. Gibb, district tax inspector, announces.

### City and County Put Strong Tickets In Field

Premier Foster, Hon. Dr. Roberts, W. E. Scully and R. T. Hayes In City

### A. F. Bentley and Dr. Curren Chosen By County; Spirited Addresses by Candidates; Enthusiastic Conventions

Strong tickets that are in themselves an assurance of victory were placed in the field for both the city and county of St. John at the government conventions held last evening for that purpose.

Hon. W. E. Foster, premier of the province; Hon. Dr. W. F. Roberts, minister of public health; W. E. Scully, who was a candidate in the last election, and R. T. Hayes, former mayor of St. John, constitute the city ticket; and A. F. Bentley, former M. P. P., and Dr. L. M. Curren were chosen for the county.

Both conventions were conducted in a business-like manner and in that democratic spirit for which the party is distinguished. There was no suggestion of machine politics; each delegate exercised the power conferred upon him according to his own judgment and, when the nominations had been made, all united in making them unanimous.

The earnestness of the delegates, their optimism and their enthusiasm showed how ready they were for the kind of fight that spells success, and how confident they were of that success. With justifiable pride in the men they had chosen as their standard bearers, the delegates showed their assurance of victory in the coming campaign. With such candidates as leaders, with such a fighting force united behind them and with the support of the independent, thinking electors who stand ready to show their approval of good government, there was no doubt in the minds of those present last evening of the sweeping victory which awaits them.

**The Balloting.**  
When the convention was called to order at 8.15 by Dr. L. M. Curren, a full representation from every ward was present. By unanimous vote, G. E. Barbour was elected chairman and J. B. Dever secretary. After considerable discussion of the methods of procedure in selecting candidates, it was voted that the first four candidates to receive a majority of the votes cast be declared the nominees of the convention. The following scrutineers were appointed by the chairman: S. W. MacLellan, H. A. Lyman, Arthur McCloskey, George Gray and Frank J. Alexander.

On nominations from the floor the following names were voted on:  
W. E. Scully, Hon. Dr. W. F. Roberts, Hon. W. E. Foster, William L. Ryan, J. Fred Belyea, R. T. Hayes and W. L. Harding. Dr. Curren and Alexander McMillan also were nominated from the floor, but the convention granted their requests that their names be withdrawn.

The counting of the nominations followed that Hon. Mr. Foster, Hon. Dr. Roberts, Mr. Hayes and Mr. Scully had been the choice of the convention, and on motion of Horace A. Porter the nomination were made unanimous. On motion of Mr. Porter the chairman, vice-chairman and secretaries of the wards with the candidates, were named a campaign committee for the city. The first meeting of the executive will be held in the Furlong building at noon today.

Premier Foster, Hon. Dr. Roberts and Mr. Scully were accorded a rousing, old time reception when they arrived in the hall. Mr. Hayes, who had been absent from the city, sent a telegram that he would accept the nomination if it was the will of the convention that he should be named. This announcement was greeted with applause.

Hon. Dr. Roberts,  
The chairman called upon Hon. Dr. Roberts to address the convention, which received the minister of health with a great outburst of enthusiasm. When he could be heard Hon. Dr. Roberts said he could assure the delegates that he appreciated fully the honor they had done him in placing his name on the ticket which would contest the election for Premier Foster's administration on October 8. He had been similarly honored on two occasions, first when he was elected when some of their true friends had fallen and again when he was elected by acclamation last spring, when he would rather have had a contest. He assured the delegates that he realized the honor they had conferred upon him, and felt that they had done him a great deal of good, and what he had attempted to do, or what he would not have nominated him, he started out in political life not quite knowing what was ahead of him, but he was glad to tell them that the government had succeeded in carrying out ideals it had in mind. He would like to congratulate those whom the convention had seen fit to select and with whom he would have the honor of winning a great victory.

He was sure there were none present but who were proud of having on the ticket the Hon. W. E. Foster. In the first days of the legislature under his premiership it was amusing to hear comments on the young business man they had at the head of the government. He was called the boy premier, and in the minds of his critics it was absurd.

The next speaker, Mr. Scully, was received with vigorous applause. Mr. Scully said he wanted to thank the delegates heartily for the honor they had conferred upon him. He considered it a great honor to be on the ticket with Premier Foster and Hon. Dr. Roberts. It was also an honor to be on a ticket for the second time. When in opposition the party had advocated a workingmen's compensation act, and he was glad to point to the fact that it had become law. Dr. Roberts had been active in getting a satisfactory health act on the statute books and that act had been a success so far as he had heard. The public works department had been ably handled and he complimented Hon. F. J. Veniot. Again he desired to thank the delegates for their splendid reception and the honor which had been conferred upon him.

Premier Foster.  
A distinct ovation and whole-hearted greeting fell to the lot of Premier Foster when he rose to address the convention. After a long continued round of applause three hearty cheers and a tiger were given by all the delegates standing, for New Brunswick's prime minister. The premier suggested to the enthusiastic audience, when he began to speak, that the cheers had a ring of victory. He felt that he had fought an uphill fight since he entered the political arena in 1912. He felt his day was coming and that he would be elected in the city of St. John

on October 8. He had fought an uphill fight and had fought it on the floor of the legislature. He had fought the fight in the interest of the whole people. Later on, when he had a chance to put before the people what the government had been doing and proposed to do, he felt that "would have the support of the people of St. John."

At this point the premier was interrupted by cheering for Mr. Bentley as he entered the hall.  
Resuming, Mr. Foster said he wanted to congratulate the delegates on the candidates they had selected, beside himself. Dr. Roberts always had been ready to safeguard the interests of St. John and was ever alive to the interests of the city. The premier also wanted to congratulate the delegates on the selection of Mr. Scully. He would have made a good representative if elected before, and he felt that the whole ticket would be elected on October 9. He believed St. John would approve of the government's programme which would be laid before the citizens, and there was an enormous development for the city.

If they turned their attention to the record of a few years ago he was sure that they would find that the government led by Mr. Murray and those with him had not been fit to rule the province in 1917. There were many who were glad to see the government government seemed to have been to enrich themselves or their friends at the public expense. They were dark days for the province, and when the general elections came on the people rose in their might and hurled the government from power. Their press in those days had been a powerful ally and the party even called on the lieutenant-governor to call another election, and they endeavored in every way to stir up race and religious hatreds among the people of the province, but happily, no attention was paid to them. After the appeal to the people, the government was elected opposition leader. He would have preferred to follow them, and today he would gladly lay down the reins of office to some one who would be in the best interests of the party that should be done.

**Government Policies.**  
Premier Foster said he was glad to see Mr. Bentley present. Mr. Bentley was the man whom he had in mind to appoint as his minister of health, and he was glad to see him, and there were few in whom the people had so much confidence as he had in his former colleague of the government. The government was going to erect a power development plant at Musquash, and he felt that it would be of vast importance to the province. It was important for the county to have representatives at Fredericton to support this and other projects when they came before the house. The premier felt that the people of the county would have another able champion in Dr. Curren, and he was very glad the county delegates had selected these two able men to go to Fredericton, and who would look well after the interests of the county.

Hon. Dr. Roberts thought the premier was proud to be on the ticket and that the other candidates were proud to have him on the ticket. He also saw Robert T. Hayes' name on the ticket. To speak of Robert T. Hayes' name before citizens of St. John was sufficient to show that they had elected an honorable gentleman. Mr. Hayes had done wonderful service during the years of war. He was on duty early and retired late. He saw many of the boys go away and he welcomed them home, and he was thoughtful in selecting him for the convention had made a decidedly wise move. Dr. Roberts thought there were many mothers and widows who, when they heard that Mr. Hayes was on the ticket, would enter into the work of the campaign in appreciation of his great services.

Dr. Roberts also observed with pleasure the convention had nominated Mr. Scully of the west side. He had heard there were other names balloted for and he was sure any of them would have made a good candidate. He congratulated the premier on his selection as a candidate and he had no doubt as to what the outcome would be on October 9. Their friends of the opposition were in a peculiar position. They had what was known as the Murray-Baxter government previous to the present control by Fredericton. They had not the Baxter-Murray party with a few other names added. The present government had pointed out those names for reasons that were well known to the opposition leaders and they have now a party. Yes it was the Baxter-Murray party. He believed that Mr. Curren was now a farmer—he would not say a member, for that would not be. Then in Carleton county they had the Hon. B. F. Smith, whom they had known quite well, and who was now an independent. And he thought they recognized the Hon. Dr. Curren who had been through the whole Baxter administration of a few years ago, and tonight they recognized the Hon. Dr. Murray party arrayed in false attire.

It was true that Mr. Baxter was a wonderful man and he had shown an ability by getting the same men back under a different cloak. It was the same old party the government forces had to fight. If they all went to work, tomorrow, continued Dr. Roberts, and worked until October 9, there was no question what the result would be. He was glad that in the county Mr. Bentley and Dr. Curren had been nominated.  
Dr. Roberts said he had looked over the situation pretty carefully and he would tell the delegates that Mr. Bentley would have the fight of his life. He was not a prophet nor the son of a prophet, but he had no hesitation in making the prediction that Mr. Bentley and Dr. Curren would be successful.

W. E. Scully.  
The next speaker, Mr. Scully, was received with vigorous applause. Mr. Scully said he wanted to thank the delegates heartily for the honor they had conferred upon him. He considered it a great honor to be on the ticket with Premier Foster and Hon. Dr. Roberts. It was also an honor to be on a ticket for the second time. When in opposition the party had advocated a workingmen's compensation act, and he was glad to point to the fact that it had become law. Dr. Roberts had been active in getting a satisfactory health act on the statute books and that act had been a success so far as he had heard. The public works department had been ably handled and he complimented Hon. F. J. Veniot. Again he desired to thank the delegates for their splendid reception and the honor which had been conferred upon him.

Premier Foster.  
A distinct ovation and whole-hearted greeting fell to the lot of Premier Foster when he rose to address the convention. After a long continued round of applause three hearty cheers and a tiger were given by all the delegates standing, for New Brunswick's prime minister. The premier suggested to the enthusiastic audience, when he began to speak, that the cheers had a ring of victory. He felt that he had fought an uphill fight since he entered the political arena in 1912. He felt his day was coming and that he would be elected in the city of St. John

on October 8. He had fought an uphill fight and had fought it on the floor of the legislature. He had fought the fight in the interest of the whole people. Later on, when he had a chance to put before the people what the government had been doing and proposed to do, he felt that "would have the support of the people of St. John."

At this point the premier was interrupted by cheering for Mr. Bentley as he entered the hall.  
Resuming, Mr. Foster said he wanted to congratulate the delegates on the candidates they had selected, beside himself. Dr. Roberts always had been ready to safeguard the interests of St. John and was ever alive to the interests of the city. The premier also wanted to congratulate the delegates on the selection of Mr. Scully. He would have made a good representative if elected before, and he felt that the whole ticket would be elected on October 9. He believed St. John would approve of the government's programme which would be laid before the citizens, and there was an enormous development for the city.

great sensation to spring against the government. If there were any charges to be sprung the premier said he wanted them made now and he would tell the electors of St. John that he would lift them to the bottom. If charges against any ministers or candidates were proved true the public could rest assured that someone else would be found to sit in the assembly.

**Water Power Development.**  
The premier spoke of the many important policies which the government had adopted and which it had in prospect. He had always taken a great interest in the up-building of St. John and the bringing of new industries here. When he was president of the Board of Trade one important new industry had been brought to the city and others would have come had there been cheaper power. Ontario and Quebec had got many new industries, and prior to 1917 the governments of those provinces were active in developing their water powers while our government of those days did nothing.

The proposed development at Musquash, only thirteen miles from the city, was an undertaking of vast importance to the city and county, involving an expenditure of over \$1,000,000. He was sure that the Musquash power development would be a fact before he again had occasion to appeal to the electors. The prosperity of other towns of the province depended on the development of water power, for which the government had mapped out an extensive programme.  
Mr. Bentley and Dr. Curren, who were given warm receptions by the delegates, addressed the convention briefly in the interest of good and honest government. The convention adjourned at 11.30.

### Rousing Convention For County

A most enthusiastic meeting of the government delegates from the county of St. John was held in Moose Hall, Campbell street, last night, and A. F. Bentley, representing the parish of St. Martin's, and Dr. L. M. Curren, of St. John, representing the county of St. John, were unanimously chosen as government candidates from the county at the coming provincial election. James McMurray, Councillor at Large, presided and Frank V. Hamm, of Fairville, was secretary. Every voting district was well represented and all accredited delegates were present.

The first business of the meeting was the nomination of delegates and the following responded: St. Martin's—Councillor J. J. Shakinin, P. H. Nugent, Dr. Gilmore, John C. Bower, George E. Mosher, Simonds, Councillor at Large, C. MacLeod, A. F. Johnson, J. H. Sherwood, Joseph Doolie, James Willis, Joseph Mosher, Martin Dolan. St. John—Fairville—A. W. Anderson, H. B. Tibbett, John McKinnon, W. J. Linton, G. H. Allan, A. W. Cantan, Frank V. Hamm, W. H. Milford, George Melanson, John LaTour, Arthur McKinnon.

Beaconsfield—Councillor W. Murray and Councillor J. E. Wetmore, C. J. Callaghan, James A. Murray, J. W. Long, Lorneville—Major Cuthbert Morgan, Musquash—Councillor J. E. O'Donnell, Charles R. Spinney.

Messrs. prominent in the meeting were Robert Belding of Chance Harbor, W. S. Baxter-Murray and a very hard one to solve, the speaker said, for the voters would simply subtract one from the other and then there would be nothing remaining. He did not fear the verdict of the people when they know the issue that was at stake.

Hon. J. H. Huggard, integrity and good government had been the highest recommendation; for three years it had been in power with not a critic among the opposition. He had seen the highest in the right side and sent the members of the opposition back home where they belong. The problem of Murray-Baxter or Baxter-Murray was a very hard one to solve, the speaker said, for the voters would simply subtract one from the other and then there would be nothing remaining. He did not fear the verdict of the people when they know the issue that was at stake.

He did not fear the verdict of the people when they know the issue that was at stake.

liberal graft was evident on every hand, the party demanding toll from the lumbermen and railway contractors as well as from other sources until an indignant public forced a halt to the iniquitous proceedings. "The leaders of that party have not repented for any of their actions," said the speaker; "they have not changed at all from their former course but they are again asking the public for support to go back and do the same as they did before."

True, said the speaker, there had been a change in the leadership of the opposition party. Instead of being the Murray-Baxter government it was now the Baxter-Murray government, but in every sense it is the same old crew out again to start in on the same old policy. There were higher ideals in connection with the franchise now than there ever were before, said Mr. Bentley. The trials and tribulations had been home for the people through the great war and the sacrifices made for such a victory have given a lesson in the brightness of liberty and civility that not be forgotten. No man, he said, would buy or sell a vote when he knew at what cost the sanctity of the vote had been secured, in the same sense no man would help along a party that would establish without shame such a record as the Murray-Baxter party had left behind.

The speaker warned the delegates that the contest in St. John county would not be an absolute walk-over. The opposition, he said, was not to be taken for granted and was accepting every means of clouding the issue and indulging in unfair criticisms. The Foster government had demonstrated its efficiency of honest, straight and reliable work; it had done wonderfully in the three years it had been in power, and it was proud to be a delegate to the convention that was to elect a government. No government was perfect, the speaker declared, but one thing the Foster government had done was to claim, and that was the fact that no scandals had been connected with it. Wonderful work had been done on the roads and bridges notwithstanding the fact that four dollars is needed to do the work that one dollar would do some years ago. All the money that had been borrowed was protected and there was absolutely nothing wrong with the provincial finances. The work of the Foster government in the development of agriculture, the advancement of education, the promotion of public health and the safeguarding of workmen was known all through the country and it was beyond all question, and a recognized fact throughout the province, that every man had his part to play in the present administration.

In closing, the speaker said that he was confident that his colleague and himself would again be elected to the convention in St. Martin's, and he wanted the other parties to perfect their organization. Many people had made the mistake of thinking the contest was between the Liberal and the Conservative party. It was not, declared the speaker. Dr. Curren was a Conservative, but that was not the number of influential members of the Conservative party would not vote for the opposition. He did not fear the verdict of the people when they know the issue that was at stake.

Dr. Curren, who was greeted with sustained applause, said that he considered it a decided honor to uphold the right side and to condemn the highest in the right side and sent the members of the opposition back home where they belong. He did not fear the verdict of the people when they know the issue that was at stake.

### Liberal Leader Heard By Big Audience In Victoria Last Evening

Victoria, B. C., Sept. 27.—Hon. W. L. Mackenzie King, Liberal leader, made the initial address of his western tour before a large crowd here tonight. "A general election is necessary," he asserted "in order to restore to the people control over parliament."

He declared that there should be a revision downward of the tariff with substantial reductions of duties on necessities of life and the instruments of production, and that a reduction of taxation should be made by curbing extravagance. He believed that wider recognition of labor, with representation in the shaping and control of industrial policies, would have the effect of putting an end to industrial strife.

to have so honorable a man as Mr. Bentley for his colleague and expressed the hope that the two would be elected by a large majority on Oct. 9.  
Major Cuthbert Morgan.  
Major Morgan, who was well received, said he had not thought of being a candidate until last week and though his candidature was not successful he thought the county had two very able representatives in Mr. Bentley and Dr. Curren, both of them skilled campaigners. He was amazed at the enormous turnout of the opposition at the present time. The returned soldiers and the women, he thought, would poll a good vote for the government, and he personally promised all the help that he could possibly give. The Lancaster men were all workers, he said, and it had been decided before he went to the convention that no matter who was nominated, the parish would give all support possible. All he asked the government was to do as good claim, and that was the fact that no scandals had been connected with it. Wonderful work had been done on the roads and bridges notwithstanding the fact that four dollars is needed to do the work that one dollar would do some years ago. All the money that had been borrowed was protected and there was absolutely nothing wrong with the provincial finances. The work of the Foster government in the development of agriculture, the advancement of education, the promotion of public health and the safeguarding of workmen was known all through the country and it was beyond all question, and a recognized fact throughout the province, that every man had his part to play in the present administration.

**AMENDMENTS TO COAL ORDER**

(Canadian Press Despatch.)  
Ottawa, Sept. 27.—On the recommendation of the board of railway commissioners, an order-in-council has been passed amending the order adopted several weeks ago forbidding the export of coal from Atlantic ports excepting to the United States and Newfoundland. The amending order-in-council provides that in the case of each shipment by water to the United States an export permit must first be secured from the railway board. It is explained that the purpose of the railway board in providing for the issuance of permits to exporters is not to restrict exports across the border but to make consignees satisfy the board that the coal is for United States consumption. The issuance of permits will also make it easier to keep track of export movements of coal.

In regard to Newfoundland an arrangement has also been made which prevents Canadian coal sent to Newfoundland being again shipped out of that colony.

**DON'T BELIEVE IT A NEW VOLCANO**  
**Scientists' View of Phenomenon in Italian Earthquake Zone.**

Rome, Sept. 15.—(Associated Press Correspondence)—Scientists say they do not believe that a new volcano was created on Mount Pisanino, near Spezia, during the earthquakes which began on Sept. 7, and continued until Sept. 9, causing the loss of 500 lives. Tongues of flame and smoke or dust were seen to be emitted from what is popularly supposed to have been a new crater opened near the mountain top.

Frank A. Perret, American volcanologist for the Carnegie Institution, who occupies a station at Mt. Vesuvius to observe its operations, has expressed to The Associated Press the opinion that no new volcano has been formed but that the earthquakes caused displacements of subterranean strata causing a fissure in the earth's crust and that gas escaping therefrom was mistaken for gas lookers as the opening of a new crater. The phenomenon was not a new one. Mr. Perret said the seismical instruments showed a towering of the earth level in the earthquake district previous to the tremors. This had been observed on other occasions when earthquakes occurred.

This view is shared by Senator Capellini, a prominent geologist who has been interviewed by the Messaggero and who says there has been an eruption of gas through a fissure on Mount Pisanino and the supposed column of smoke above the mountain may have been caused by clouds of dust from falling earth.

The tongues of flame, in Senator Capellini's opinion, may possibly have been inflammable gas from underground wells of oil. He said, however, that volcanoes appear independently of the structure of the earth's crust and that the greatest catastrophes have occurred from the appearance of volcanoes where nobody expected them.

For example, the geologist continued, Mount Etna rises out of post-pliocene strata while the volcanoes of the Andes and the granite rocks. Therefore the nature of the Apuan mountains did not exclude the possibility of a volcano appearing on Mount Pisanino.

**OPPOSITION TO HOUSING SCHEME**

(Canadian Press Despatch.)  
Montreal, Sept. 27.—Commissioner Verreille, who is a member of the Housing Committee of this city, stating this morning that he had requested Chairman DeClary of the administration commission to dissolve the former body as it was useless for it to continue its work under the present circumstances. "I doubt if there will be any building done this year under the scheme," he said, referring to the million dollar grant made to Montreal by the government, "owing to the disapproval of the Federal Government of the provincial law regarding two storey houses. There is no working man who can afford to pay \$4,500 for building a house and use it only for himself. The Federal law says that the house may be for two or two and a half storeys in height, but the builder must reside in it himself. They cannot afford to do that. All the cities are protesting to Ottawa against this restriction and the only thing to do is to have the law amended next session at Ottawa."

**Wireless Set Found Concealed in Water Tank on Former Hun Liner.**

New York, Sept. 28.—An aftermath of the war showing the cunning and resourcefulness of the Germans, was revealed when the Peruvian steamship Eten, formerly the interned German ship Rajha Kootis, arrived here from Cape Town, South Africa, recently.

Several days before the vessel arrived a complete wireless receiving apparatus was discovered secreted in the water tank of one of the cabins. It is thought the German crew concealed the outfit before their ship's wireless was dismantled by the Peruvian government, and was to be used in relaying messages from the German wireless stations, supposed to have existed in Mexico and along the South American coast. The Rajha Kootis was interned with her crew in a Peruvian port when Peru declared war on Germany.

The discovery was accidental. A passenger complained that the water tank in his stateroom was out of order, and when it was taken apart for repairs, the wireless set was discovered in a secret compartment. It was in good condition, the ship's officers said, and was turned over to the United States Government.

**CEREMONY OF THE KEYS**

Quaint Practice That Has Taken Place Nightly for Centuries.

London, Sept. 10.—(Associated Press Correspondence)—At the Tower of London the ceremony of the keys has taken place nightly for many centuries. The yeoman porter, with an escort of guards, still nightly locks the gates. Behind him still walks "a variety at two pence a night to carry the keys," and, broad daylight or no, follows the bugler with the lantern. "Halt, who comes there?" demands the sentry. "The keys," replies the yeoman porter. "Whose keys?" asks the sentry. "King George's keys," is the answer. At the end of the ceremony the yeoman porter takes off his hat and says "God preserve King George," and guard and escort reply "Amen." Then the band of drums and fife, play "God Save the King" and buglers sound the "Last Post."

**COX AND BRYAN.**

Omaha, Sept. 28.—Governor Cox, Democratic presidential candidate, last night gave out a statement that he would have supported William J. Bryan for the presidency had the former secretary of state been nominated, and added that he was fostering progressive ideas gained under Mr. Bryan's leadership.

This statement was in response to an inquiry regarding the position in the campaign of Mr. Bryan, who has withheld support from Governor Cox.

**FACTORIES ARE BEING RETURNED TO EMPLOYERS**

(Canadian Press Despatch.)  
Milan, Sept. 27.—The delivery of all the works and factories to the employers is proceeding almost without incident. Red flags have disappeared and the Red Guard has disbanded. Commissions representing the men are making an inventory of the work done during the occupation and a statement showing the materials used whether belonging to the works or received from the outside. The clerks of the technical staff of the Pirelli Rubber Works have gone on strike as a protest against the return to work of those men who attacked and insulted them and called them "black-legs." The strikers declare that they will not return to work until the offenders are punished. Reports from Turin and Genoa and the greater part of the provinces state that the delivery of the works to the owners is taking place peacefully.

**BIG RAILWAY EXPENDITURES IN GREAT BRITAIN.**

London, Sept. 28.—(Canadian Press)—New railway construction in Great Britain includes the bridging and barring of the river Severn at Beachley by the Great Western railway, at a cost of between 6,000,000 and 7,000,000 pounds sterling; the construction of a three-arch bridge at Newport, to cost 850,000 pounds sterling; and the building of an experimental section of the Kearney High Speed railway between Brighton and Rottingdean. It is intended to extend the line later on to New-haven Harbor. The section of Edinburgh from Pilgrimage to Liberton is to be electrified at a cost of 695,700 pounds sterling. The street railway tracks in Blackpool will be relaid at a cost of 254,000 pounds sterling, work to begin next month.

**The Economical Covering for Your Furniture is Craftsman Fabrikoid**

ARE you the mother of kiddies whose romping about the house has played havoc with the furniture? Upholstery torn, cut, stained? Frames good, but coverings in a horrible state? Craftsman Fabrikoid will replace the old coverings and make the furniture good as new—in fact it will probably outlast the furniture itself.

Half the furniture you have seen covered with what you believed to be leather was Fabrikoid. It is difficult to distinguish between the two as far as appearance is concerned, for Fabrikoid is grained, pebbled and colored the same as leather. But it has advantages that leather does not possess. Leather must be accepted as a fixed standard. Leather is hard in some spots, soft in others, absorbs grease and water, becomes stained and frequently rots and tears. Fabrikoid is uniformly the same, yard after yard—pliable, tough and absolutely impervious to water or grease—and above all, costs far less.

Make your furniture upholstery permanent with Fabrikoid. Save money and make the chairs, cushions, lounges and couches kiddie-proof with this attractive covering. Your furniture dealer can supply it—he can do the work. Write us for further information about Fabrikoid and what can be done with it in your home.

**Canadian Fabrikoid Limited**  
Head Office, Montreal  
Halifax Toronto Sudbury Winnipeg Vancouver  
Most of the motor cars in Canada today are upholstered or topped with Fabrikoid.

**An Old Friend**

ONCE more we are able to make the best use of Canada's famous Wheat. The removal of Government control now allows us to supply "high patent"

**PURITY FLOUR**

of the high standard of quality of pre-war days.

Once more, old friends of PURITY FLOUR will be able to produce the delicious bread and light, flaky pastry, which gave this famous brand its national reputation.

New friends will quickly appreciate the result of careful milling of the best part of Canada's finest wheat; in the material improvement in all their baking.

Order a bag from your Grocer.

The Evening Times and Star

ST. JOHN, N. B., SEPTEMBER 28, 1920.

The St. John Evening Times is printed at 27 and 29 Canterbury Street, every evening (Sunday excepted) by The St. John Times Printing and Publishing Co., Ltd., a company incorporated under the Joint Stock Companies Act.

STRONG CANDIDATES.

It is not only fitting that Premier Foster should be a candidate in this constituency, but that he should be supported by colleagues as able and as popular as those who were nominated last evening.

Last night's city convention of the government party delegates was business-like and harmonious. It chose as its standard-bearers two members of the government, and two men of large business experience, who have also had much to do with civic affairs.

Mr. R. T. Hayes has long been regarded as the type of man who should help to frame the legislation of the province. Of the highest personal character, conscientious, painstaking, trained in business, he has had the further advantage of having been mayor of the city in the very trying war period, and gained the knowledge of civic affairs which is so essential in a representative.

Mr. W. E. Scully was a candidate in the last election, and had the people then known as much about the doings of the old government as they learned later. Mr. Scully would then have been elected. He has been paid the compliment of a second nomination under conditions which would seem to ensure his election.

The St. John county convention last evening was no less harmonious than that for the city. It was anticipated that Mr. A. F. Bentley would be named as one of the candidates, for he has been in the legislature, and is a man known and respected throughout the county. He has large business interests in the county, knows its needs, and is in every way qualified to be a good representative.

Dr. L. M. Curran is new to provincial politics, but no stranger to the people. He is well known in the county, especially the western portion of it. An able speaker, a physician of high standing, and a man well versed in provincial affairs, he would make a valued representative in the legislature.

The government candidates are now in the field in city and county. The campaign will be short and sharp. It is essential that every effort be made to get out the full vote favorable to the city and county tickets. Organization counts for much in a political campaign, and nothing should be left undone to ensure the fullest possible canvass of the constituencies. Personal work is needed, and none should be indifferent, since a choice is to be made between a government and a party which would bring back the old men and the old methods that were condemned in 1917.

THE BOY AS AN ASSET.

The under-privileged boy in St. John will come into his own to an extent never before realized, if the influences set in motion yesterday are kept alive as they should be. Indeed yesterday may very well be referred to in later years

as the red letter day in the development of agencies to help the boy who most needs it. It is not easy to over-rate the significance of the visit to the city of Mr. C. J. Atkinson, a Canadian who is the executive secretary of the Boys' Club Federation, and Mr. Taylor Statton, secretary of the National Boys' Work Board of Canada. The Rotary Club did its part well. It gathered at Bond's yesterday besides its own members a group of men representing the executives of the Board of Trade, Commercial Club, Boy Scouts' Association, Playgrounds Association, Y. M. C. A., Y. M. C. L., and the city council.

Mr. Atkinson speaks out of an experience of forty years. He is today a welcome guest at the homes of hundreds of under-privileged boys with whom he dealt in their boyhood in Toronto and elsewhere, and who are now successful citizens. He is able to put the case from the economic as well as the moral standpoint, and prove that it pays to give the boys a fair start in life. It was no mere humanitarian plea that he made, but a plain business statement to business men, the force of which none could deny. But he did something more than that, he inspired. He told of co-operation between Protestant, Catholic and Jew in boys' work in Canadian and American cities.

Mr. Atkinson also put the case for a juvenile court and probation officer so convincingly that there was no gaining it. St. John, with 150 juvenile cases in a year, needs a juvenile court. The speaker also told of the use of school buildings, or parts of them, for boys' work, showing how admirably they serve the purpose. It must be gratifying to the people of St. John to be told that this is the first of eighteen Canadian cities visited where a real boys' club is conducted, though with utterly unsuitable quarters and with very poor equipment.

Mr. R. T. Hayes has long been regarded as the type of man who should help to frame the legislation of the province. Of the highest personal character, conscientious, painstaking, trained in business, he has had the further advantage of having been mayor of the city in the very trying war period, and gained the knowledge of civic affairs which is so essential in a representative.

Mr. W. E. Scully was a candidate in the last election, and had the people then known as much about the doings of the old government as they learned later. Mr. Scully would then have been elected. He has been paid the compliment of a second nomination under conditions which would seem to ensure his election.

The St. John county convention last evening was no less harmonious than that for the city. It was anticipated that Mr. A. F. Bentley would be named as one of the candidates, for he has been in the legislature, and is a man known and respected throughout the county. He has large business interests in the county, knows its needs, and is in every way qualified to be a good representative.

Dr. L. M. Curran is new to provincial politics, but no stranger to the people. He is well known in the county, especially the western portion of it. An able speaker, a physician of high standing, and a man well versed in provincial affairs, he would make a valued representative in the legislature.

JOY RIDERS.

I'm seated in my friend's shade, beside the public highway, and fires assail me unafraid—which is the silly fly way. And all day long the autos scoot, in heedless haste before me; and all day long they honk and hoot, and throw the gravel o'er me. In luxury the riders bask upon the seats of satin; "Does no one ever work?" I ask, in Choctaw, Greek and Latin. Old age is riding there, in sooth, in limousines that glitter, and at the wheel is glided youth—and I'm the only quitter; for now and then I park my boat and stride to earn a dollar—a scheme for reason so remote that all the passers boller. Oh, all the autos travel forth, I hear their motors sizzling; they journey south, they scamper north, and those competent to judge of the machine are black with fine sedans, and all the world is playing, except some lincoln-also-rans who labor at their haying. The roads are black with limousines, on idle errands going, and 'wilted are the useful beans—there's none to do the doing. The world is busy in banish, and thrif's a thing to banish. "Does no one ever work?" I wail, in German, French and Spanish.

CANADA—EAST AND WEST

Domestic Happenings of Other Days

THE MONTAGNAIS.

To the Indians of the province of Quebec the French gave the name of Montagnais—which means highlanders or mountaineers—for they dwell in the hills of the province, where they were expert hunters. When in 1687 Father Dequen stood for the first time on the shores of Lake St. John, these Indians were living in the woods around.

No one knows where came the Montagnais. Their past is impenetrable to modern historic research. They possessed no system of social government, although the chiefs and elders met in a large lodge and talked over all matters relating to the tribe. But their decisions were not binding upon anyone, for each brave considered himself absolutely free and independent of all control. There were, however, tribal laws and customs to which they were bound. Murder, for example, was punishable by death or the deepest humiliation before the whole tribe. They knew nothing of morals, and their conduct was actuated by nothing higher than self or tribal preservation.

Their past was heated in winter by a central fire, the smoke of which escaped through a hole in the ridge of the structure. When the weather was bitter cold and the fires were kept roaring day and night the air became thick with smoke and as a result sore eyes and inflamed throats were common among the men. It was this smoke that made the lives of the pioneer Catholic fathers such a hardship at times when they were compelled to live with the natives in their huts.

LIGHTER VEIN.

Famous Words of Famous Women.

"I'll never tell her anything again unless I want the whole town to know it. Aren't some women the old cats." "Became Too Well Acquainted." "Henry—it was a case of love at first sight with me." "Richard—Then why didn't you marry her?" "Henry—I saw her again on several occasions.—Edinburgh Scotsman.

No, Indeed.

Patient—"Doctor, I owe you my life." Doctor—"Yes, and that isn't all."

The Sound Was Right.

Teacher—"Willie, use the word 'gruesome' in a sentence." Willie—"The boy went to camp and when he returned his mother found that he had gruesome."—"Boys' Life."

Taking the Sting Out.

"It seems to me," said the old-fashioned man, "that \$75 is a lot of money to pay for a ready-made suit of clothes." "Perhaps it is," replied the purchaser, "but the salesman made the transaction as painless for me as possible." "How so?" "He made me the same suit would probably cost \$100 next year."

The Bobby's Little Joke.

"You are working too hard," said a policeman to a man who was drilling a hole in a safe at two o'clock in the morning. "What's that?" asked the burglar. "I say, you need arrest," replied the policeman.

Slow Service.

Barber—"Your hair is getting very grey, sir." Customer—"I'm not surprised. Hurry up."

Little Dignity Chasers.

Meeting one's best girl after one has had one's two front teeth extracted at the dentist's.

Variety Desirable.

"I've been reared in the lap of luxury," said the millionaire's daughter. "Try mine for a change," suggested the impetuous young man.

The Righteous Piano.

Choose pianos for your models. Copy them with tireless care. For their attitude is always. Either upright, grand or square.

WOMEN'S CANADIAN CLUB.

When the Women's Canadian Club had the pleasure of listening to very able addresses by C. J. Atkinson and Taylor Statton in the Natural History Society's rooms in Union street, last night, a short session was held preparatory to the holding of the annual meeting next month. Mrs. Leonard Tilley, the president, was in the chair. Notice of motion was given regarding a proposed increase in the fees, which motion will be presented at the annual meeting. A nominating committee was appointed to suggest names of officers. The very hearty vote of thanks which was extended to the speakers was moved by Mrs. W. H. Shaw, seconded by Miss Grace Leavitt and spoken to by Mrs. John Thomson and Mrs. W. C. Good. Each of the members voiced very warm appreciation of the splendid addresses.

"A NOBLE EXAMPLE.

(Halifax Chronicle).

Sir Richard Winfrey, a member of the British parliament, who has just completed a three months' tour of Canada, during which he made personal investigation of the effect of prohibition in the dominion, has published a remarkable article, in which he pays Canada the compliment of saying it is "the most sober country" he has ever visited. Sir Richard has been a member of the British House of Commons since 1906 and was for two years parliamentary secretary to the board of agriculture. At home he is a moderate temperance reformer who has never gone the length of total prohibition. "But I must confess," he writes, "that after seeing Canada 'dry' and hearing on all sides from those competent to judge of the immense improvement that has taken place and the enormously increased efficiency of the people, I am almost, if not quite, converted to prohibition."

He says that he kept his eyes open to what was going on from the Atlantic to the Pacific, and that the great fact was the abolition of the public drinking bar. Though he found some "grousing," he makes this striking declaration: "I can safely say this, that Canada is a better country than I have ever visited, and that on my return to the Old Country I saw more drinking and more drunkenness than I had seen in 6,000 miles of travel in the dominion. The enormous betterment that must arise in the conduct of the people who spend their money in other ways than in alcoholic liquor goes without saying, and Canada has set the Mother Country a noble example. Would that our public men at home could see for themselves what has been and is being done all along the line in the dominion to solve the drink problem."

Nobody pretends that the drink traffic has been wholly stamped out, or that the social system has been regenerated under our temperance laws. But it is indisputable that under even the limited measure of prohibition which obtains throughout the dominion, and particularly in our own province, a great and widespread reform has been effected. There is a higher average of sobriety and general conduct of the people. The belief that liquor trade will never be restored. Prohibition has behind it today the support, not alone of the moral forces, but of the business, commercial, and industrial interests of the country. There are some who, of course, will continue to decry it as a meddling interference with the great majority of sensible-minded people today regard it as a great social reform, and there are few Canadians who will not be gratified that a competent British observer has declared that "Canada has set the Mother Country a noble example."

GHOSTS AT VERSAILLES

(Toronto Globe).

Versailles has been stirred recently by more than a new government. A few days before the meeting of the National Assembly, the election of M. Millerand to the Presidency and his selection of M. Leygues, an old Legitimist, to form another administration, the ghost of Marie Antoinette is reported to have been seen walking in the park-like grounds which were in the vicinity of the Petit Trianon claim that they saw a figure clad in the costume of her day, but that when they attempted to approach, invisible hands pushed them away. The despatch does not attribute any political portent to the apparition, which, like Fischer's bomb warnings, may have been only a coincidence.

The story that the Petit Trianon is haunted is not new, but the strangest part of it is that people sane, unemotional and the reverse of credulous in ordinary walks of life have expressed their belief in it. The most circumstantial story was published in 1911, under the title "An Adventure," by two English ladies who had their first experience in 1901 and made frequent visits to Versailles. The authors are daughters of English clergymen who held and taught the faith of the "guarantee" that the authors have put down what happened to them as faithfully and accurately as was in their power. But the guarantee does not extend to mental as well as physical trahisuns.

WAR MADE MANY SMOKERS.

A French economist tells me that the war had added ten million to the list of the smokers in his country. Almost every soldier eventually smoked. Smoking had a solace all its own to ease the terrors of the trenches; and in times of crises it acted in its own subtle way as an anchor toward calmness. Often in France there were tobacco crises—and terrible memories they are.

WOMEN'S CANADIAN CLUB.

When the Women's Canadian Club had the pleasure of listening to very able addresses by C. J. Atkinson and Taylor Statton in the Natural History Society's rooms in Union street, last night, a short session was held preparatory to the holding of the annual meeting next month. #### RECENT WEDDINGS

Miss Nellie Melanson, daughter of L. J. Melanson of Moncton, was united in marriage yesterday at the church of L'Assomption, Moncton, to Edgar LeBlanc. Rev. H. D. Cormier performed the ceremony.

At the Methodist parsonage, Fredericton, on Wednesday evening, Rev. G. M. Young united in marriage Miss Nellie May Lindsay and William Roy Kenney of that city. The bride was attended by her cousin, Miss Nellie Delano, of St. John, while the groom was supported by Harold Lindsay.

#### RECENT DEATHS

The funeral took place in Somerville (N.B.), last Thursday, of Duncan W. Smith, formerly of St. John and Melvern square, Annapolis county, after an illness of nearly three years' duration. He was a son of the late Captain W. H. Smith, St. John, who for many years was government inspector of steamboats for the maritime provinces. Mr. Smith spent many years on steamers plying between Nova Scotia ports and Boston. Several years ago he purchased a large fruit farm at Melvern square, Annapolis county, and since retiring from the steamship service has spent most of his time on his farm. Mr. Smith is survived by his wife and one son, in Boston.

Moses Garland, a former C. N. R. employee, died at his home in Sunny Brae yesterday, after a long illness. He was a native of Elgin, Albert county. He leaves one daughter and six sons.

Mrs. Elizabeth C. Marsh of Moncton died in Bathurst on Sunday. Mrs. Marsh was visiting her mother who was very ill and the sudden death of her mother was too much of a shock and she died a few hours afterwards. She leaves two sons and four daughters.

#### ALEX BRODIE DEAD.

Quebec, Sept. 28.—Alexander Brodie, retired business man died last night at the age of 81. He was born in Moncton, but lived most of his life in Quebec. He was for many years prominent in curling and golfing circles.

#### TAXI CAB DRIVER

LURED TO HIS DEATH  
Jamestown, N. Y., Sept. 27.—Walter Klinger, a taxi-cab driver of this city, aged 23, was lured to his death on Saturday evening by two unknown men who went to his stand at the city's leading hotel and hired him to take them into the country. They drove to an unoccupied farm house in the town of Busti about five miles from the city. Just after dark a neighboring farmer heard shots and soon saw a straw stack on fire. He went to the place and found Klinger's charred body in the burning straw. An autopsy revealed several bullet wounds, one in the head. The murderers escaped in the hired car, which was found in the road about two miles away, stained with blood. The only clue is a report that in July, Klinger had a controversy over his fare with two foreigners at a lake-side resort who then said they would "get" him.

#### JANITOR NO LONGER

New York, Sept. 27.—If the school principal addresses him as "janitor" this winter, the school janitor will go cold this day. For the school janitors henceforth are to be known as "custodians," the Board of Education deciding it was a more dignified title.

#### TEN STORY BUILDING

FOR CHILDREN'S HOME  
A new building adjoining the Children's Court at 137 East Twenty-second street is to be built by the New York Society for the Prevention of Cruelty to Children.

The new building, which will be of the same architecture as the Children's Court, will be ten stories high and will be completely equipped for the adequate care of children. Since the organization of the New York society, forty-five years ago, more than 500 similar societies have been organized. During those years 229,481 children have been rescued by the New York society and cared for. The duration of children's temporary care, but sometimes lasts for several weeks, until the cases come up in court and are adjudged. In eight years 12,400 lost children have been restored to their homes. This year, from January 1 to July 1, 9,047 complaints have been received and acted upon. 3,760 children have been sheltered in the society's building, 220 lost children have been identified, and 972 adults have been arrested for offences against children. In 1919 more than 13,100 were acted upon.

#### When Does Old Age Begin.

"When shall old age be said to begin? At 65, in many, especially in those who have hardening arteries; 75 in the more fortunate should be the answer, I think," Dr. E. Bodley Scott in the Practitioner, "but the beginning of old age should be only the setting forth on a slow downward path. The duration of life should far exceed David's three score years and ten. There is a rough rule, I think, for the mammalia, that the years of life should bear a ratio to the years of their development. A dog or cat takes two to two and a half years to mature, multiplies a horse takes five years and lives to 25; an elephant takes 80 to 40 years and lives to 150 to 200; men who mature at 18 to 20 should live to 90 or more, about 18 to 20 should live to 90 or more, about 18 to 20 should live to 90 or more. We, however, fight so habitually against natural law that but few of us reach that age. It is a comforting thought that more and more are doing this as they learn, by wisdom or force of circumstances to lead a simple life."

### Viscount Cave's Address in Toronto - Matter of Appeals to Privy Council.

Toronto, Sept. 28.—Viscount Cave, noted British jurist, in an address yesterday to the Empire Club of this city, alluded to the imperial war cabinet and the imperial cabinet. His Lordship said that the ideal legal relationship between Canada and Great Britain, was that of consultation and advice, with perfect freedom of action. Viscount Cave said he had been impressed with the British spirit of Canadianism. Mr. Justice W. R. Riddell in moving a vote of thanks to Lord Cave, referred to a question raised by Hon. W. E. Ransay, attorney general for Ontario, in a recent speech as to the advisability of discontinuing Canadian appeals to the privy council of Great Britain. Mr. Justice Riddell said he was absolutely opposed to this. If any change were to be made, he said, it should consist in the formation of one supreme court for the whole British Empire by the amalgamation of the committee of the House of Lords to which appeals cases were carried from the British Isles, and the judicial committee of the privy council, to which at present all other disputed judgments were carried.

## LORD DESBOROUGH REMEMBERS WELL FINDER OF MONEY.

### Hotel News Stand Man Gets Gift of Fine Rosewood Clock.

(Toronto Globe.)  
A. Nicholson, who runs the newsstand at the Queen's Hotel, went to work one morning recently and found on the counter an envelope containing 75 pounds in English money. He turned it in to the manager but no such loss was reported. A few days later the manager happened to mention the incident to the judicial committee of the House of Commons, who was standing near, recognizing it as his property from the description given. The money was returned, but when Lord Desborough departed he left Mr. Nicholson a magnificent rosewood clock with this inscription on a silver plate: "From Lord Desborough, 1920."

## CASE OF SHORT SHOOTING

Valencia, Spain, Sept. 28.—An infantry regiment got an unexpected taste of real warfare during manoeuvres here. The commander of an artillery unit blundered, with the result that several large shells landed amid the infantrymen. Some soldiers were wounded.

### Engagement Announced.

Mrs. Randolph Williamson, of Montserrat, announces the engagement of her sister, Miss Evelyn Fairley, daughter of the late Mr. and Mrs. James S. Fairley, of Boiestown, to Lawrence Jamieson, son of the late Rev. W. N. Jamieson, of Montreal. The marriage will take place quietly early in October.

## WEEKLY REPORT ON N. B. CROPS

(N. B. Department of Agriculture.)  
Fredericton, N. B., Sept. 27.—Reports indicate that considerable grain was damaged by the heavy rains prevalent during the first half of September. The wheat crop always suffers the most and quite a percentage of this crop was rendered useless for flour-making purposes. The sprouted wheat can be utilized for feed purposes. The oat crop suffered both by sprouting in the straw on the fields that were cut and by lodging badly on the uncut fields. Estimates of actual loss due to these causes vary from ten to fifteen per cent. The crop generally was damaged and the grain discolored. The bright, clear weather of the past week helped out considerably in harvest operations and to put the crop in condition for handling. The turnip crop is reported to be excellent, the weather being very suitable for a rapid growth. The after-grass has made good pasture and live stock are doing well. The supply of milk is keeping up well and the market for dairy products is firm. The potato crop has also suffered considerably by the wet weather. Rot is fairly general in unsprayed fields, and on the heavier soils. Potatoes grown under these conditions have frequently been found to be from thirty to forty per cent affected with rot. On the lighter soils the rot is not so bad and where fields have been well sprayed with Bordeaux Mixture it is reduced to a minimum. The loss from blight and rot throughout the province is quite considerable and may reach as high as twenty-five per cent of the crop. The weather of the next two weeks will have much to do with what the total loss will be. The potato market is weak. Cars were being loaded last week in Carleton and Victoria counties at 22 per barrel. There is a tendency to hold the potatoes for a higher figure, it being generally agreed among the growers that to sell for that would be to sell at a price that would not cover the actual cost of production.

## JOE DONNELLY GOING BACK TO THE M. A. A. A.

(Montreal Herald.)  
That the differences between the champion M. A. A. A. football club and coach Joe Donnelly have been satisfactorily adjusted, and that the big line plunger would be back on the job at this evening's practice was announced today. Following his departure from Wednesday's practice after a difference over the signals employed by the club, Donnelly did not report for duty last evening and the practice was again directed by Bill Hughes. It is expected, however, that the sorrel-topped ex-McGill star will be back tonight putting the champions through their paces.

## NO VOTERS CAME

Carlinville, Ill., Sept. 28.—Election judges and clerks in one precinct of Macoupin county waited at the polls all day for some one to appear and cast a ballot at the recent state primary, but they waited in vain. "No votes" was their report. They had "forgotten" to vote themselves. It was Cahokia, the capital of Illinois, precinct number four that maintained this strict neutrality.

## A Grand Opportunity Sale OF Men's and Boys' Furnishings

All Seasonable Goods at Greatly Reduced Prices, Meaning a Good Substantial Saving Which No Man Can Afford to Lose Sight of

### Sale Starts Wednesday Morning

## SUDDEN DEATH OF CLERGYMAN

### Rev. C. S. Deeprope Was Prominent in Methodist Church.

Ottawa, Sept. 28.—Rev. Charles S. Deeprope, a prominent Methodist minister, who founded the MacLeod street Methodist church here in 1890, died suddenly at his summer home near Kasabazis, Que., yesterday. His last parsonage was the Fairmount avenue Methodist church, Montreal, from which he was superannuated a year ago, owing to ill-health. Mr. Deeprope was well known in the eastern townships, Quebec, having served as pastor of churches in Sherbrooke, Coaticook and Richmond. He was an ex-chairman of the Stantead district, and a former president of the Montreal conference.

## CROP WAGES LESS

Omaha, Neb., Sept. 28.—Harvest wages in Nebraska averaged 10 cents per hour less this year than last, according to estimate by A. E. Anderson of the U. S. Bureau of crop estimates. "In the Nebraska wheat harvest wages ranged this year from 50 to 70 cents per hour," he said. "The average would be approximately 60 cents per hour. Labor was plentiful in most counties. This had a tendency to lower wages. Last year harvest wages ranged from 50 to 85 cents per hour and in some cases the rate was higher. The average might be placed at 70 cents."

#### MEN'S LIGHT WEIGHT FLANNEL SHIRTS

Separate collar and without collar. Fine Ceylonette Cloth, neat stripes, light, medium and dark colors. Some English flannels.  
Regular Price \$2.25, Sale Price \$1.79

## AGAINST DOCTOR

### Verdict for \$8,000 Damages in an X-ray Case.

Montreal, Sept. 28.—Dr. Georges Dupont was yesterday condemned in the superior court to pay \$8,000 damages to Charles St. Martin on an action taken by the latter to recover \$10,000 damages alleging that he was burned and injured in October, 1916, while under X-ray treatment at the hands of the doctor. Justice Mercier said that the doctor had absented himself from the operating chamber beyond the period prescribed by the "minutes" installed in the room to warn the operator when to interrupt the current, and the court held that this amounted to negligence and imprudence on the part of the defendant, incurring civil liability.

## SPECIAL GREETING FROM CANADIAN ODDFELLOWS.

Boston, Sept. 28.—Governor Coolidge, by welcoming the delegates to the Oddfellows' convention here yesterday, addressed a special greeting to Canadian members of the order, in whose honor the convention sang "God Save the King." The governor said they were "Americans all, even to the limits of the Arctic circle."

### PICKS BERRIES AT 94

Mattapoisett, Mass., Sept. 27.—John Shaw is the oldest inhabitant of this town. He is 94 and active. He observed his last birthday by going into the swamp and picking half a peck of blueberries. He has a truck garden which he cultivates himself.

## BOY SHOT BY TRAP SET TO GUARD ORCHARD

Kingston, Sept. 28.—Percy Vincent, aged twelve, son of Sgt. and Mrs. Vincent, 48 Marlard street, was shot through the knee by a bullet from a trap. He had been at a meeting with some boys and was returning home about 9:30 o'clock. The boys entered Charles Powell's orchard to get some apples and pears. In the orchard there is a trap set to keep people away from the fruit. The trap was set with a wire attached to a 20-calibre rifle and while in the orchard Percy evidently tripped on the wire and was shot through the knee. The injured lad was taken to the Hotel Dieu, and an examination showed that the bullet had gone through the knee joint. Mr. Powell says he is determined to protect his fruit trees, and that he has a notice on his premises warning people to keep out. The gun is so arranged that the path of the bullet is not more than two feet from the ground.

## AMHERST BRANCH OF THE UNITED VETERANS.

Amherst, N. S., Sept. 28.—A branch of the Grand Army of United Veterans has been formed here. About forty local veterans have signified their intention of joining.

### PARIS BIG WHEEL TO GO.

Paris, France, Sept. 27.—The Great Wheel of Paris is doomed. Since 1889 it has performed its revolution with check-like regularity. Its demolition will take three months.

STRONG PLEAS FOR GREATER EFFORT FOR WORK WITH BOYS

Two Experts in Boys' Work Heard by Several Organizations in the City Yesterday—Making Tour of Leading Cities of the Dominion.

Convincing arguments in favor of better directed and more systematic work for boys were presented by two experts in boys' work before interested and enthusiastic audiences yesterday. C. J. Atkinson, executive secretary of the Boys' Club Federation, an international organization, with headquarters in New York, addressed the Rotary Club at luncheon, the Commercial Club at dinner and the Women's Canadian Club at an evening meeting in the Natural History Society rooms. Taylor Statton, secretary of the National Boys' Work Board of Canada, spoke at the Rotary Club luncheon, at a banquet of Boys' Work Leaders in the Y. M. C. A. and at the meeting of the Women's Canadian Club.

These two experts are making a tour of sixty of the leading cities of the Dominion in sixty days in the interest of their cause. Mr. Statton is the eighteenth city on their itinerary. They were in Fredericton on Sunday and left last night for Halifax. Speaking to The Telegraph yesterday, Mr. Statton said that in their endeavor to stimulate interest in boys' work they had met with much greater success than they had anticipated. They found men's organizations everywhere were eagerly looking for opportunities to help boys. He explained this by saying that men had got into the habit of rendering united service during the war. For a short period after the war there had been a lessening of the desire for service on the part of men but now they were turning eagerly to assist the boys in co-operative effort.

He detected one danger. Men who in business matters were logical and reasonable, in matters of benevolence or philanthropy were often guided by their hearts rather than by their heads. He had already seen evidences of considerable time and money being wasted by organizations that were anxious to help boys. It was to prevent this that the Boys' Life Council had been formed to represent all agencies. A careful survey by a representative of the council would do much to direct the energies of the various organizations in the best lines.

Mr. Statton is a Canadian, born in Ontario, and he has made his home in Toronto. For the last twenty years he has been engaged in boys' work, which he entered first as a volunteer worker for the underprivileged boys of St. John's ward in Toronto. Sixteen years ago he became secretary of the Boys' Club of the central Y. M. C. A. in Toronto and ten years ago was named boys' work secretary for the provinces of Ontario and Quebec. With the organization of the National Council of the Y. M. C. A. he became the first boys' work secretary in 1911. To him is attributed the organization of the C. S. E. T. programme planned to bring together the

various Protestant churches that they might work out a course of training for the teen-age boy which would develop a higher type of citizen dominated by ideals of service. The success of this movement is well known.

At the request of the Canadian government Mr. Statton took charge of the soldier of the soil movement and organized the work in every province. Later he went overseas on the citizenship campaign where he addressed Canadian soldiers in England, France, Belgium and Germany, pointing out the opportunities that returned men would have to influence the boys of Canada towards ideals of usefulness.

At the present time Mr. Statton is the secretary of the National Boys' Work Board of Canada, which consists of representatives of the departments of religious education from all the Protestant boards and from the Y. M. C. A. This board maintains a staff of twelve men distributed throughout Canada, giving all their time to the promotion of boys' work through the Protestant churches. Having met with success in bringing the Protestant churches together in this work, Mr. Statton as the representative of the Boys' Work Board is endeavoring to interest the Rotary clubs in taking the initiative in bringing together the three great religious faiths, Jewish, Roman Catholic and Protestant, the various men's organizations and the various boys' organizations interested in boys' welfare under what is known as The Boys' Life Council of Canada.

Speaking of the boys' point of view, Mr. Statton said that the greatest influence in a boy's leisure time was that of the gang and fortunately there were numerous organizations for boys arising in Canada which were supplying work while activities for the organized gang and inspiring a spirit of leadership. But if the ideal of service was to dominate, then every boy must be reached. This could best be brought about by the existing agencies working with boys and should include the schools and the churches should have a very definite relationship with the boys' home. He then outlined the manner in which the Boys' Life Council proposes to get in touch with every organization which is able to influence for good the boy life of the Dominion.

Another Canadian, who is executive secretary of the Boys' Club Federation of New York is also a Canadian having been born in Quebec. In 1892, he went to the north-west and during his ten year residence in that part of the Dominion he established three newspapers, which have made substantial growth and are still being carried on. At the age of ten years he returned to Toronto and took up volunteer work in the Y. M. C. A., having while a newspaper man been voted as much of his time as he was able to boys' work in the communities in which he lived. He became one of the leaders in the boys' brigade movement in Toronto, which finally developed into the Broadview Boys' Institute, which ten years ago was taken over by the Y. M. C. A. Mr. Atkinson then gave all his time to work for the underprivileged boys of Toronto and opened the club in the downtown section which was known as the "Boys' Dominion." This was later taken over by the Paris department of the city of Toronto and Mr. Atkinson accepted the position as executive secretary of the Federated Boys' Clubs, six years ago.

While he has held that office the Federation from an enrollment of thirty-six clubs has now 162 clubs federated of which six are in Canada and others distributed in England, Ireland, New Zealand and the United States. The Federation arranges conferences and provides literature and does all in its power to further the work for the underprivileged boy through the establishment of clubs.

For the last six years Mr. Atkinson has been a very active Rotarian and is credited with the introduction into Rotary boys' work programme. He was the first chairman of the Rotarian boys' work committee and as such helped to form its policy in this regard. He is making it his mission to present the case for the underprivileged boy, by which he means the boy who has not had the advantage of a high school education having been obliged to leave school to earn money, the boy who comes from unsuitable environment and the boy

IT'S ASTONISHING SAYS MRS. WHITE

Can Eat Anything and Sleeps Like a Girl Since Taking Tanlac.

"I don't believe that anybody has suffered more than I have during the past ten years, for many times I had almost rather have been dead than go through the awful suffering I had to endure, but thanks to Tanlac I'm now feeling just as fine as I ever did in my life," was the truly remarkable statement made by Mrs. Hattie White, of 114 Charlotte street, St. John (N. B.). Mrs. White has resided in St. John for the past ten years, having formerly lived at Bridgetown (N. S.), where she also has a large circle of friends.

"My appetite was so poor that I hardly ever felt like eating a thing, and even if I did get a little hungry I was afraid to eat scarcely a bite of food, on account of the awful suffering that was sure to follow. Every single thing that I ate seemed to lie in my stomach undigested, and I suffered from heartburn and terrible pain in my stomach. I blined up with gas until I almost smothered. My nerves were so shattered that any little unusual noise would startle me, and at night I was so restless sleep was almost out of the question. My condition was simply miserable, and at times my suffering nearly drove me to distraction. No medicine I used ever seemed to help me a particle until I got Tanlac, but it has simply been astonishing the way this medicine has fixed me up. Why, I had only taken four bottles to give me a splendid appetite, and everything agrees with me so perfectly that I can eat just anything I want without ever feeling a sign of indigestion or gas, and my breathing no longer troubles me any."

"My nerves are just as steady as a clock, and I sleep as good and sound as when I was a girl. If at any time I get a little upset, it only takes a few doses of Tanlac to make me feel right again. Yes, indeed, Tanlac has certainly done me a world of good, and I'm always telling my friends and neighbors that they are entitled to a bottle of Tanlac."

Tanlac is sold in St. John by the Ross Drug Company and E. W. Munro; by G. W. McKay, Beaver Harbor; Willard J. Colwell, Pictou; C. W. Parsons, Grand Falls; John F. Meagher, Debec; O. D. Hanson, Lepreau; E. L. Conley, Leonardville; N. H. Johnson, Clarendon Station; and by the leading druggists in every town.—(Advt.)

who suffers from prejudices of race, religion or color. In his review of the situation in St. John he summed up by saying that there were in the city according to his estimate 2,000 boys cared for by organizations such as the Y. M. C. A., Y. M. C. I., Boy Scouts, Cadets, the Boys' Club and other organizations for boys, and there were 5,000 boys who were not cared for by any organization. He believed from the review of the boys in St. John could be placed in the over-privileged class and were receiving more care and more benefits and privileges than they were entitled to. About thirty per cent of the boys were receiving normal care and privileges and sixty-four per cent were not receiving anything but the bare necessities to which they were entitled. He said that the buildings of St. John were valued at \$17,000,000 and that to protect these a staff of forty-five firemen and fire stations were maintained while for the 7,000 boys in the city which by statistics were credited with a value to the nation of \$400,000 each and which therefore had a total value of \$28,000,000, there was practically no expenditure made to ensure protection and guidance. Boys' Clubs.

Mr. Atkinson spoke of the advantage of having a community boys' club such as the boys' club in St. John but on a much more ambitious and bigger scale. He cited cases of other cities having reduced juvenile delinquency by one-half within one year of the establishment of a boys' club. Some communities had completely stopped juvenile delinquency when they had an adequate boys' club. The juvenile court and the industrial home and reformatory were urged as being of no neglect of the boy. If the boy's spare time were looked after and his play supervised he could be kept out of trouble, and the amount of money saved in the upkeep of correctional institutions and juvenile courts would more than maintain the boys' club, which would accomplish this.

Accompanied by E. J. Terry, W. K. Haley, Captain A. J. Mulcahy and A. H. Belling, Mr. Atkinson visited the boys' club in the Victoria rink building after the Rotary club luncheon. He made several suggestions as to possible improvements in the hall and urged a programme of activities which could be inaugurated with advantage. The party afterwards visited the major and commissioner's city hall and urged that in the plans being drawn for the municipal building space should be set aside for a community boys' club with provision for gymnasium and all other equipment necessary to a club on modern lines.

ORGANIZING FOR WINTER PROGRAMME The boys' work department of the Y. M. C. A. commenced organization for the winter programme yesterday when the High school boys' gymnasium class was formed. The junior A. boys' organization today and on Thursday the junior business boys' club will be organized with H. A. Morton, associate boys' work secretary, in charge. Melton McEwen, boys' work secretary, has in hand all the arrangements. The year bids fair to be a record one in boys' work for the association and during the last week no fewer than twenty-eight new members of the association in the boys' branch were enrolled. The rooms set aside for the boys in the gymnasium have been put in excellent order and new equipment provided where necessary. A new billiard table of smaller size has just arrived and is being set in the billiard room on the ground floor. New lights will be arranged so as to give proper lighting for the new table.

Cuticura Soap IS IDEAL For the Hands

"DANDERINE" Stops Hair Coming Out; Doubles It's Beauty.

A few cents buys "Danderine." After an application of "Danderine" you can not find a fallen hair or any dandruff, besides every hair shows new life, vigor, brightness, more color and thickness.

MOTHER! "California Syrup of Figs" Child's Best Laxative

Accept "California" Syrup of Figs only—look for the name California on the package, then you are sure your child is having the best and most harmless physic for the little stomach, liver and bowels. Children love its fruity taste. Full directions on each bottle. You must say "California."

GUILTY OF MURDER IN FIRST DEGREE IS THE VERDICT

A verdict of guilty of murder in the first degree was returned by the Piscataquis county (Me.) supreme court yesterday. The evidence against William Pomeroy and Jesse G. Scott, charged with the murder of Robert C. Moore, otherwise Couture, formerly of Moncton and Point du Chene, at Greenville (Me.), which occurred on March 27, 1919, was heard in deliberation. Scott broke down after hearing the verdict, declaring that he was innocent. It is understood that Pomeroy for Scott will move for a new trial, as the evidence showed that he did not fire any of the shots which killed Moore and wounded Mrs. Moore. Scott's attempt to escape with Pomeroy on a Canadian Pacific train to Canada was the feature of the evidence which resulted in his conviction. The penalty for first degree murder in Maine is life imprisonment.

STARTING WORK ON NEW WAITING ROOM

J. A. Grant & Co. have been awarded a contract to place an additional story on the Canadian Pacific baggage room at Pictou terminal. The new story will be used as a waiting room for passengers. Construction work was begun yesterday.

Pale Cheeked Women Told About Restoring A Rosy Complexion

A few years ago the girl with pale, drawn cheeks scarcely knew what to do in order to restore her fading appearance. At that time there was no blood food medium made that really would put color and strength into systems that were more or less worn out. Today's miracle. The blood can be quickly nourished, can be made rich, red, and healthy. All you have to do is take Ferronox Tablets, with Silt or two of water after meals. The effect is almost magical.

ORGANIZING FOR WINTER PROGRAMME

The boys' work department of the Y. M. C. A. commenced organization for the winter programme yesterday when the High school boys' gymnasium class was formed. The junior A. boys' organization today and on Thursday the junior business boys' club will be organized with H. A. Morton, associate boys' work secretary, in charge. Melton McEwen, boys' work secretary, has in hand all the arrangements. The year bids fair to be a record one in boys' work for the association and during the last week no fewer than twenty-eight new members of the association in the boys' branch were enrolled. The rooms set aside for the boys in the gymnasium have been put in excellent order and new equipment provided where necessary. A new billiard table of smaller size has just arrived and is being set in the billiard room on the ground floor. New lights will be arranged so as to give proper lighting for the new table.

Dr. J. Woodbury's TABLETS FOR ALL Pain Headaches Neuralgias Colds and La Grippe

Miss Flora Boyko Tells How Cuticura Healed Her Pimples

"My face was very lumpy at first, and after that it was covered with pimples that disfigured it badly. The pimples were hard and red and they were scattered all over my face and worse lumpy I had to scratch and I could not sleep. These bothered me nearly a year before I used Cuticura Soap and Ointment and when I had used five boxes of Cuticura Soap and five boxes of Cuticura Ointment I was healed." (Signed) Miss Flora M. Boyko, Gardenton, Me., Dec. 28, 1918. Having obtained a clear healthy skin by the use of Cuticura, keep it clear by using the Soap for all toilet purposes, assisted by touches of Ointment as needed. Do not fail to include the exclusively scented Cuticura Talcum in your toilet preparations. Splendid after bathing. Soap 25c, Ointment 25c and 50c. Sold throughout the Dominion by all Druggists. Cuticura Soap above without mark.

Dr. Wilson's Syrup of Tar and Cod Liver Oil Brayley Drug Co. Limited St. John, N. B.

EXCLUDE U. S. FROM MESOPOTAMIA OIL

British Controller Outlines Plans for Distribution—U. S. Has Sufficient.

(Montreal Star.) Washington, D. C., Sept. 24.—The United States need not expect to obtain from Mesopotamia any of the oil supply which it may need in the future, according to a statement just made by Sir John Cadman, oil controller of England. He was speaking of the effect of the World Treaty with Turkey on the world struggle for oil. Sir John declared there will be no nationalization of the Mesopotamian fields, but suggested they will be worked by private British concerns that obtained concessions before the war. He stated that the British government had been asked to exclude the United States from the Mesopotamian oil fields, particularly in Mesopotamia. "Oh, when it is secured," says Sir John, "will be brought down to the Mediterranean and placed on the general oil markets of the world. It will be sent to Great Britain, France, Italy and other European countries. I have omitted the United States, obviously with its own huge supplies, it will not need it." Sir John emphasized that as long as "We were buying cheaply from the United States and as long as they had a big surplus, there was no incentive in this country to create new supplies."

PALE CHEEKED WOMEN TOLD ABOUT RESTORING A ROSY COMPLEXION

A few years ago the girl with pale, drawn cheeks scarcely knew what to do in order to restore her fading appearance. At that time there was no blood food medium made that really would put color and strength into systems that were more or less worn out. Today's miracle. The blood can be quickly nourished, can be made rich, red, and healthy. All you have to do is take Ferronox Tablets, with Silt or two of water after meals. The effect is almost magical.

A Horse in the Fields is worth Three in the Stable

A horse that's working is paying for his keep. Three lame or sick horses in the stable are simply an expense. From now on, you need your horses every day and all day. Get them in condition and keep them in fine condition, with Dr. J. Woodbury's HORSE LINIMENT AND CONDITION POWDERS

MARITIME BOARD OF TRADE MEETS ON WEDNESDAY

Many Matters of Importance to the Maritime Provinces to be Considered.

Amherst, N. S., Sept. 27.—The annual meeting of the maritime board of trade which commences in this town on Wednesday promises to surpass in interest and importance all such previous gatherings. Among the questions to be discussed are: The establishment of well equipped agent general offices in London to represent three maritime provinces. Renewal of federal government contract with the Royal Mail Steam Packet Co., on such terms and conditions as would tend to improve services between Canada and the British Isles; Changing rule of the road; prevention of placing upon the maritime provinces the burden of making good in undue proportion of the deficiency of receipts of the Canadian national railway system; deliveries of parcels by the express companies within the limits of towns Sydney as a port of call for ocean liners, mails and passengers; more effective organization of the maritime board of trade; the adoption of a national policy for the production and transportation of coal; the necessity for a second car ferry steamer for the Borden Tormentine; Standardization of the remaining narrow gauge sections of the P. E. I. Division of the C. N. R.; the discontinuance of the special reduced railway fares to induce citizens of the maritime provinces to go to western Canada; Discrimination against P. E. I. Island points in the handling of orders of coal mining companies; Protest against increased express and freight rates; Early closing and poor lighting of numerous railway stations of the C. N. R.; Encouragement of immigration from the British Isles to the Maritime Provinces; Second car ferry between ports of Pictou and Georgetown, P. E. I.; P. E. I. Island representation on the Canadian railway board.

"CORNS" Lift Right Off Without Pain

Doesn't hurt a bit! Drop a little "Freezone" on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers. Truly! Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.

To The Mother In Every Family

BELOW are plain directions for effective treatment of a number of simple ills and hurts, for the often occurring cases of which the average family can not always afford the Doctor's services or, as when traveling or away for the summer, or living on the farm, are so situated as to be unable to always obtain his services promptly, even if their means permit. For acute painful stomach and bowel attacks (summer complaint) take a teaspoonful dose of PERRY DAVIS' "PAIN-KILLER" in a glass of warm water, slightly sweetened, following the other directions on the wrapper accompanying each bottle. For sprains, bruises, insect bites and stings, apply the "Pain-killer" freely by hand or with a bandage. For Chills resulting from exposure and cold or damp, take a teaspoonful dose of "PAIN-KILLER" in a glass of warm water or milk slightly sweetened, just before retiring. This treatment with the other measures given on the directions accompanying each bottle will be found most effective in warding off the evil after effects of chills which otherwise often develop into Colds, Bronchitis, La Grippe and Pneumonia. For children's Croupy and Bronchial attacks. If a child at bed time shows evidence of such attacks coming on, wrap out a flannel cloth in a cupful of hot water to which a teaspoonful of "PAIN-KILLER" has been added, wrap this around the child's throat and place over same another cloth. The warmth and drawing power of the "Pain-killer" are remarkably effective in checking the ailment, soothing and inducing sleep, sparing both mother and child a restless night. PERRY DAVIS' "PAIN-KILLER" has been on the market for over seventy-five years. It is used in nearly every country on the globe by thousands of families of every race for the purposes described above. Every family and every traveler will do well to have always on hand a bottle of this reliable household medicinal preparation. Regular size bottles... \$ .50 New large family size (containing more than double the regular size)... 1.00 For sale everywhere.

Rheumatism Neuritis, Sciatica, Neuralgia

Templeton's Rheumatic Capsules

Have brought good health to half-a-million sufferers. A healthful, money-saving remedy, well known for fifteen years, prescribed by doctors, sold by druggists, \$1.00 a box. Ask our agents or write for a free trial package. Templetons, 142 King W., Toronto. Local Agents—Wasson's Drug Store.

THE EVENING TIMES AND STAR, ST. JOHN, N. B., TUESDAY, SEPTEMBER 28, 1920

**SAY SERBIANS  
WERE TORTURERS**

Report of Montenegrin Investigating Commission

**Brutal Violence and Abuses  
Charged in Statement  
Which Details Some of the  
Hardships Alleged Inflicted.**

Washington, Sept. 28.—Terrible tortures and hardships were inflicted upon the Montenegrins by the Serbian army of occupation, according to an official report of a commission of investigation appointed by the Montenegrin foreign office after the withdrawal of the Serbian troops.

"Brutal violence and abuses are recorded," says the report. "For instance, owners of homes and huts were compelled to set fire to their humble dwellings and then the soldiers pushed them among the flames, where they perished."

"Women and children shut in the homes were submitted to the additional torture of bees thrown in so that they might sting those pitiful bodies; they even had the cruelty of putting cats under the skirts of women that were then sewed around the limbs, the animals were then whipped, so causing awful pain to the victims."

"Old people, women and children were beaten mercilessly with heavy sticks or iron rods and also with wet ropes; inmates of prisons were left without nourishment some times as long as ten days; the bodies of the dead in the prisons were left among the prisoners for seven days; the prisoners were forced to put their feet on the fire and nails were thrust under their finger nails; youths were hung by the hair and plunged into water up to their mouths; men were attached to carriages in the place of horses and then killed."

"The corpses of Montenegrins, brutally murdered, were left in the middle of streets to be the prey for dogs; mothers of the rebels were thrown upon the fire; old men had their teeth pulled and the women violated."

The commission said it examined more than 100 eye witnesses, "among them several of the victims themselves who succeeded in escaping."

**NAVIGATING BY WIRELESS**

Washington, Sept. 28.—Tests of radio control installation on the old battleship Iowa, just concluded by the United States navy department off the Virginia Capes, were declared to have fulfilled the highest expectations of naval experts.

The 12,000 ton battleship was navigated with precise accuracy, it was said, solely by means of radio waves, emanating from a control station on the battleship Ohio. The control was found thoroughly efficient up to a maximum distance of ten or twelve miles.

Plans are being made to use the Iowa in target practice for the United States Atlantic fleet. It will be the first time in naval history that a battleship moving under full speed has been used as a practice target. Guns of all calibres and calibres will cut loose on the Iowa, which will be given the fair chance, however, of smoke screens and other simulated battle conditions. The practice probably will be held the latter part of this month.

**LOCAL NEWS**

The following delegates from this vicinity will attend the general meeting of the Women's Missionary Society of the Maritime Provinces (Presbyterian) at Moncton tomorrow and Thursday: The Misses A. M. and A. E. Townsend, Fairville; Mrs. George Oulton, Mrs. V. Goodwin, Mrs. Goodwin, Mrs. Galbraith, Lorneville; Mrs. I. Dowling, Mrs. J. G. Armstrong, Mrs. Craikshank, St. John; Mrs. G. Pugsley, Beaconsfield.

The sum of \$8,000 was paid to H. H. Mott of Mott's wharf by a Quebec cattle owner for a herd of thirteen Jersey cattle which were brought down on the steamer Majestic yesterday. They will be shipped from here to a herd of thirty-three Jerseys on his stock farm up river. They have been inspected and tested by a government livestock expert and pronounced to be of pure stock.

At a meeting of the Municipal Chapter of the I. O. D. E. yesterday afternoon, Mrs. Robert FitzRandolph of Fredericton, president of the Provincial Chapter, gave an address on the work of the I. O. D. E. Miss Tapscott, secretary of the Y. W. C. A. was present at the meeting and the executive placed itself on record as being in sympathy with the work of the association. The appeal of the Navy League was endorsed and referred to the primary chapters.

The executive of the municipal chapter of the I. O. D. E. met in the government rooms yesterday afternoon with the regent, Mrs. A. W. Adams, presiding. Mrs. Robert FitzRandolph of Fredericton, provincial president of the order, was present and gave details of the propaganda concerning the aims and work of the order which will shortly be given to the members by the National Chapter. The appeal of the Navy League was endorsed and referred to the primary chapters for action. Miss Tapscott, secretary of the Y. W. C. A., addressed the meeting in the interests of her association. The executive placed itself on record as being in favor of the association's work.

**RECORD SHIPBUILDING FIGURES**

London, Sept. 28.—(By Canadian Press)—That the British shipbuilding industry has regained its pre-war supremacy is shown by the returns of the Lloyd's register of shipping for the second quarter of 1920. At the end of June there 941 vessels aggregating 3,878,133 tons under construction in British shipyards, the highest figure on record. The future of the shipyards is considered rather uncertain because of the high cost of production in the face of falling freight rates and depreciation in the market value of vessels. Reports of cancellations are numerous, 70 large contracts for new tonnage having been cancelled during June.

**DRYING UP OMAHA.**

Omaha, Neb., Sept. 28.—Because they think the federal prohibition enforcement officers are not keeping Omaha dry enough, members of the W. C. T. U. have organized to act as spotters and ferret out bootleggers and other liquor law violators. Some 1,500 members have enrolled for duty.

**N. S. W. DROUGHT BROKEN.**

Sydney, N. S. W., Sept. 28.—(By Canadian Press)—Rains have fallen throughout New South Wales and the drought has been definitely broken. Practically the whole of Australia has been deluged by the rainfall, and there is every prospect for large crops. The wheat areas have benefited materially, and agriculturists are planting what promises to be a record wheat area for Australia.

**"A skin you love to touch"**  
You, too, can have this charm

No matter what other charms you have, they count for little unless you have the greatest of all charms—a clear, fresh skin.

An authority on the skin has said: "Whatever your difficulty is, you can remedy the trouble, if you will only give your skin intelligent care and attention."

The following treatment brings the blood to the surface and stimulates the small muscular fibres. Begin it tonight and see how it will improve your skin.

Just before retiring, wash your face and neck with plenty of Woodbury's Facial Soap and warm water. After rinsing your face with warm water, rub a fresh lather of Woodbury's into your skin, using an upward and outward motion. Do this until the skin feels just a little sensitive. Then

rinse the skin well in warm water, then in cold, finishing by rubbing for thirty seconds with a piece of ice. Always be careful to dry the skin thoroughly.

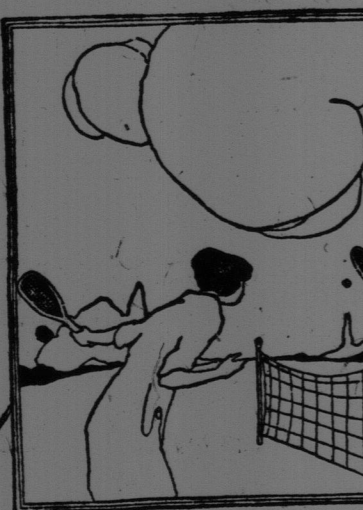

Make this treatment a regular habit, and in a much shorter time than you would imagine, your skin will take on the greater loveliness that it can have.

Get a cake of Woodbury's Facial Soap and begin tonight the treatment your skin needs. You will find Woodbury's on sale at any drug store or toilet goods counter in the United States or Canada. A 25 cent cake will last a month or six weeks.

The Andrew Jergens Company, Cincinnati, New York and Perth, Ontario.

**'Irresistible!'**

**CONSERVATIVE CANDIDATES IN QUEENS COUNTY**

William A. Machum of Jerusalem, an ex-warden of Queens county, and Alfred West of Cole's Island were nominated at a meeting of the Conservative Association in the town of Gagetown yesterday for the coming provincial elections. A. R. Sillp was offered the nomination, but felt obliged for personal and family reasons to decline. Hon. J. B. M. Baxter was present at the meeting.

**PHENOMENAL STRIDES**

Canadian Chemical Industry Attracting Attention

New York, Sept. 28.—"During the war the chemical industries of Canada made phenomenal strides and development followed development in a most sensational manner," said Mr. Price-Green, commissioner of the department of resources of the Canadian National Railways, in an address on "Canada and the Chemist," delivered at a meeting of the American Institute of Chemical Engineers here.

Mr. Price-Green stated that the visits of the American Institute of Chemical Engineers to Canada this year was a very satisfactory event and marked an epoch in the industrial development of the country. It was attributed, he said, to the fact that Canadian chemical industries had advanced to a point where they were worthy of attracting the attention of perhaps the most scientific body on this continent.

**WHY HE QUIT**

Chicago, Sept. 28.—Stanley Gond, for 29 years crossing watchman at Winnetka, Chicago's aristocratic suburb has resigned. Asked the reason for this step, he furtively hid his red flag, stamped his wooden leg, and explained: "The folks up here are too durned stand-offish now. In the old days when they had horses they used to call me by name and chat about the weather. Now they scoot by in their automobiles, and if they stop they call me 'watchman,' and 'my good fellow.' That's why I quit."

**WAS 95 YEARS OLD.**

The death of John Odell occurred on Saturday, Sept. 25, at the residence of his son, W. J. Odell, Musquash. He was ninety-five years of age and of Loyal

**MORNING NEWS OVER THE WIRES**

Official returns in the Colchester county elections in which Hon. F. B. McCurdy defeated Captain Hugh Dickson give the minister a majority of 1,444 votes.

During the month ending Sept. 25 there were seven deaths in the Canadian Government Railways Employees' Relief and Insurance Association, three of the number being employees retired from the service on pension. Among the deaths recorded is that of Helen Bell Smith of St. John.

The anniversary celebration of the George street Baptist church in Fredericton was continued last night. The meeting took the form of "historical night." Dr. W. C. Kierstead read an historical sketch of the church. He was followed by Rev. E. C. Hartley, a former pastor of the church, who gave reminiscences of his own term in the pastorate.

**FIND DRUGS IN SING SING.**

Officials Seize \$15,000 Worth After Prisoners Are Overcome.

Ossining, N. Y., Sept. 28.—Sing Sing has been in a flutter over the discovery of a drug traffic which resulted in the seizure of \$15,000 worth of heroin and cocaine. Seven prisoners out of twelve reported to have been involved in the smuggling and use of drugs were sent to Clinton Prison at Dannemora. Prison employees said two convicts named Clayton and Farnow were the ringleaders. The convicts, they added, snuffed the drugs and were overcome. Warden Lawes has been particularly cautious to guard against drugs getting into Sing Sing, but it is very hard to keep them out now because so many convicts are working outside the walls on new construction.

**CARLETON CHURCH EVENT.**

The ladies of the adult Bible class of the Charlotte street Baptist church, West St. John, held a bean supper in the vestry of the church on Friday evening, September 24. There was a large patronage and a substantial sum was realized for the building fund. The tea was donated by G. E. Barbour Company, Limited. Mrs. G. W. Maling was convener and was assisted by the following: Mrs. J. Taylor, Mrs. F. Fullerton, Mrs. G. N. Mott, Mrs. E. O. Jones, Mrs. F. Miller, Mrs. F. Gardner, Mrs. Peterson, Mrs. H. Dee, Mrs. Ernest Brown, Mrs. J. Knight, Mrs. G. Seely, Mrs. F. McCluskey, Mrs. S. White, Mrs. P. Bennett, Mrs. J. Campbell, Mrs. R. Melvin, Mrs. E. Brown, Mrs. Hayward, Mrs. W. Belyea and Mrs. Johnson.

**DANCE BOOM BEGINS**

London, Eng., Sept. 27.—The greatest dancing boom England has ever known is going to take place this fall, according to dancing masters. The tango will come back, they say, and the old fashioned waltz is going to return to favor.

**WINTER TERM**

**Free**  
A 10-Day Tube of Pepsodent to show you how to end film. See below.

**Never Sleep**  
With a film-coat on your teeth

All statements approved by authorities

Millions of people on retiring now combat the film on teeth. They fight it day by day. And those glistering teeth seen everywhere now form one of the results.

You owe yourself a trial of this new teeth-cleaning method. Dentists everywhere advise it. The results it brings are all-important, and they do not come without it.

**What film does**

Your teeth are coated with a viscous film. Feel it with your tongue. It clings to teeth, enters crevices and stays. And dentists now trace most tooth troubles to it.

The ordinary tooth paste does not end film. So, despite all brushing, much film remains, to cause stain, tartar, germ troubles and decay.

It is the film-coat that discolors, not the teeth. Film is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay.

Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea.

**Ways to combat it**

Dental science, after years of research, has found effective ways to fight film. Able authorities have proved their efficiency. Together they bring, in modern opinion, a new era in teeth cleaning.

These five methods are combined in a dentifrice called Pepsodent—a tooth paste which complies with all the new requirements. And a ten-day tube is now sent free to everyone who asks.

**Watch the teeth whiten**

You will see and feel results from Pepsodent which brushing never brought you heretofore. A week's use, we think, will amaze you.

One ingredient is pepsin. One multiplies the starch digestant in the saliva, to digest all starch deposits that cling. One multiplies the alkalinity of the saliva to neutralize mouth acids.

Two factors directly attack the film. One of them keeps the teeth so highly polished that film cannot easily cling.

Watch these effects. Send the coupon for a 10-Day Tube. Note how clean the teeth feel at the absence of the viscous film. Note how teeth whiten as the film-coat disappears.

The book we send explains all these results. Judge what they mean to you and yours. Cut out the coupon so you won't forget.

**NEW POLICEMAN.**  
Howard B. Hatt, 79 Broad street, a returned soldier, was sworn in this morning as a policeman before Sitting Magistrate Henderson.

**POLICE COURT.**  
One prisoner on drunkenness charge was the result of the police activities last night and he was fined \$8 or two months in jail in the police court this morning.

**UNDERGOES OPERATION.**  
Many friends of S. C. (Bud) Tippet will regret to learn that he underwent a serious operation in the Military Hospital, Lancaster, on Saturday. His condition today is said to be as good as can be expected. Many friends will unite in wishing him a speedy recovery.

**WANT DELEGATION FROM HERE.**  
Mayor Schofield received a wire this morning from Halifax inviting the city to send representatives of the fire and police departments to Halifax for the carnival to be held there beginning on Oct. 3. The matter will likely be taken up at this afternoon's meeting of the common council.

**VISITED WEST SIDE.**  
Commissioners Frink, Jones and Thornton paid a visit to the west side to inspect the C. P. R. warehouse at Sand Point for which the Standard Chemical Company has offered the city \$100 a month for a seven-months rental. They also looked over the property which Commissioner Bullock yesterday moved to be sold to Mrs. Mary Burke for \$800. No decision was arrived at in either case, and it is expected that the matters will be dealt with at the meeting this afternoon.

**CHARGE OF THEFT.**  
Gordon Conn of Halifax was arrested last night by Sergeant Detective Power and Detective Donahue on a warrant charging theft. He was taken before Magistrate W. H. Allingham at Fainville this morning and pleaded not guilty to a charge of stealing wearing apparel, the property of James Rathburn and Benjamin Steele of Spruce Lake. Conn had been employed with the men. The complainants gave evidence and Detective Donahue told of the arrest. The accused was remanded until Thursday.

**DIED IN MONTREAL.**  
Sad news to his family here was the word of the death of Bernard Kindred, formerly of West St. John, which occurred Sunday at his home in Montreal. He was the second son of Catherine and the late Reynolds Kindred. Besides his wife and three small children in Montreal, he is survived by his mother, in West St. John, three sisters, Mrs. David O'Keefe and Mrs. James Lavin of West St. John, and Miss Annie at home, and two brothers, John of North End and Walter of Montreal. Interment will be in Montreal. Mr. Kindred had been away from St. John for a good number of years, but was held in kindly memory by old friends, who will be very sorry to learn of his death.

**AN AUTOMOBILE CASE.**  
Policeman Killen made a report against Edward McNulty a short time ago for driving past a street car while passengers were alighting in Main street and, owing to the injury of H. H. Reid, who was struck by the automobile at the time, the case was not taken up. Mr. Reid was able to be out only a few days ago. The case was scheduled for this morning, but in consequence of a pending civil suit for damages, Sitting Magistrate Henderson said that he would abstain from adjudication this morning as the result of the finding in the by-law case might have some effect on the pending action. However, the right was reserved to take the case up at some future time. Several witnesses were in court for both sides, and J. A. Barry appeared for the defendant and W. H. Harrison for the plaintiff.

**DOWN TO BUSINESS FOR THE ELECTION**

Government Executive Organization Meeting

P. D. McAvity Chairman and J. B. Dever Secretary for Campaign — Executive Is Added to — Plans for Meetings.

The executive of the provincial government party, elected at last evening's convention, lost no time in getting down to business and held its first organization meeting today at noon in the Furlong Building. Percy D. McAvity was elected chairman and J. B. Dever secretary. The executive consisted of the chairman, vice-chairman and secretary of each of the ward committees, to which were added today the following names: E. J. Hennessey, W. J. Mahoney, William M. Ryan, F. J. McDonald, W. A. Lockhart, G. D. Ellis, W. J. Belyea, Heber S. Keith, J. W. Knodell, L. H. Thorne, H. M. Whitney, G. A. Wiltney, Dr. W. P. Broderick, T. A. Armour, C. H. Donald, Frank Alexander, C. F. Sanford, Alex. Rowan, Dr. J. R. Nugent, John Russell, Dr. A. F. Emery, T. A. Linton, James Whelley, Heber Vroom, W. H. Campbell, Hugh Beck, H. N. Coates and Roland Skinner.

An advertising committee, consisting of Stanley K. Smith, James McNulty, and H. A. Porter was elected. H. S. Keith, E. J. Hennessey, Alexander McMillan and J. Fred Belyea were appointed as members of a speakers committee. The matter of public meetings and halls was left in the hands of these two committees jointly.

It was announced that, starting this evening, ward meetings would be held as follows: Lansdowne, in Murray street hall; Brooks and Guys, in Oddfellows' Hall, West Side; Kings, Queens, Dukes, Sydney, Wellington and Wellington, in the Furlong building, Charlotte street, until further arrangements are made; Lorne and Stanley, in Scott's building, Main street, opposite Durian street; Victoria, in Victoria Rink.

It was decided to appoint an advisory committee of seven men and their selection was left in the hands of the chairman and secretary of the executive and the candidates. This advisory committee is to meet every day in the Furlong building from 12:15 until one o'clock to receive suggestions from and give information to the workers in the government cause.

It was reported by several of the ward chairmen that campaign work had already commenced in earnest and that by election day a thorough organization will have been completed.

**CIRCUIT OFF TILL OCT. 19**

September Sitting of Court Opened Today and Adjourned.

The September sitting of the Circuit Court, His Honor Judge Crockett presiding, opened this morning and was adjourned until October 19. There is a fairly lengthy docket, all civil cases, as follows:

Hatfield Scott Co., Ltd., vs. Canadian Government Merchant Marine—F. R. Taylor, K. C.

Seaman vs. Jacobson—F. R. Taylor, K. C.

McKinney vs. Sun Insurance Co., of London, Eng.—F. R. Taylor, K. C.

Allan vs. Brown—Feel and Teed.

McDonald vs. Fleming—D. Mullin, K. C.

Ferguson vs. McAfee—D. Mullin, K. C.

Knox vs. Smith et al—D. Mullin, K. C.

Hanlon vs. Killam—G. H. V. Belyea, K. C.

Clinch vs. Martin Lumber Co.—Barnhill, Sanford and Harrison.

O'Regan vs. Levasseur—L. A. Conlon.

Singer vs. Ames, Holden, McCredy Co., Ltd.—Kelly and Ross.

The petit jurors summoned were: G. M. Barker, G. H. McLaughlin, J. W. Armour, A. B. Farmer, K. D. Sadler, T. H. Haley, A. G. Gregory, H. A. Meuce, R. F. Duncun, A. Poyas, R. K. Cameron, W. F. Robson, W. W. Hawker, A. W. Black, A. H. Campbell, T. O'Brien, J. E. Byrne, H. B. Roberts, R. Jenkins, G. B. Huggard and F. E. Emery.

**SEPTEMBER BRIDES**

A wedding of interest to many friends in the city and elsewhere will be solemnized this afternoon at five o'clock in St. David's church when Miss Constance Eileen Campbell, youngest daughter of Mr. and Mrs. G. Wilford Campbell, 29 Leinster street, will become the bride of Harold Olive Clarke, son of Mr. and Mrs. A. R. C. Clarke of West St. John. The ceremony will be performed by Rev. J. A. MacKeigan in the presence of relatives and friends. The bride will enter the church to the strains of "The Voice That Breathed O'er Eden," and during the signing of the register, Miss Anderson will sing "Because." Mrs. T. J. Gunn will preside at the organ and will play Mendelssohn's wedding march as the bridal party leaves the church. The bride, who will be given away by her father, will wear a suit of mole colored velour with moleskin cape and hat of mole and French duvetyne and will carry a bridal bouquet of Ophelia roses. The couple will be unattended. After the ceremony Mr. and Mrs. Clarke will motor to the station, where they will board the train for a short honeymoon trip to Boston and New York. On their return they will reside at the corner of Crown street and Elliott row. Miss Campbell is a popular young lady of the city and the many beautiful gifts she received are evidence of her popularity. Among them is a handsome mahogany piano, the gift of the groom's parents. Mr. Clarke is a veteran of the great war. He went overseas with the 9th Siege Battery and was transferred on his arrival in France to the 12th Battery, where he served with great credit. He is now a prominent contractor in the city and although his business career has not been lengthy, he has the construction of some fine buildings to his credit.

**Sanderson-Wilson.**  
A very pretty wedding was solemnized in Coburg street Christian church this afternoon at 3:30 o'clock when Rev. J. M. Appleman united in marriage Miss Gertrude C. Wilson, daughter of Mr. and Mrs. A. O. H. Wilson of this city, and John W. Sanderson, son of Mr. and Mrs. J. H. Sanderson, of Prince Albert, Sask. The bride, who was given away by her father, looked charming in a suit of white tulle, with a pink picture hat and carried a bouquet of Ophelia roses. She was unattended. Following the ceremony a reception was held at the home of the bride's parents, 208 Chesley street, after which the bride and groom left for Prince Albert, where they will reside. The bride's going away suit was fawn colored with hat to match. They were the recipients of a large number of magnificent presents. Mrs. Sanderson was a graduate of the General Public Hospital and recently was engaged in the operating room of the Fredericton Military Hospital.

**Ever Hear of a Burglar-Proof House?**

There is a residence in a certain city that a famous wag once declared was the only burglar proof house in town. Asked just what was meant by this, it was explained that the rooms were so small the occupants would have to come out before the burglar could get in.

Since that house was erected we have learned a lot about building, and small bedrooms are no longer popular. True there are quite a number of the old houses yet standing, and it is quite as impossible to properly arrange in their rooms a complete modern bedroom suite, consisting of one large double bed (or twin beds as preference may be), a dressing table, chiffonier and dresser, as it would be to seat ten people in a seven-passenger car.

If you have the large rooms we congratulate you. If you haven't then let us furnish the smaller apartments in the most attractive and proper way: A bed, chiffonette and dressing table; these three, with the smaller pieces, bench, chair and rocker, make an excellent combination, and we have many beautiful designs to show.

Bring your furnishing problems to St. John's educational furniture store. We can help you while you are helping us. It is a co-operative proposition, pure and simple.

**TALL SKELETON  
IN ABBOT'S TOMB**

**Excavators Make Other Discoveries in Canterbury Explorations—Interment Back in 1272.**

London, Sept. 28.—Wonderful discoveries are being made bearing out in the minutest detail the contemporary account of the translation of the Archbishops in 1081, written by Gocelin, of whose work there is a manuscript in the British Museum at the excavations which are being carried out in the grounds of St. Augustine's College, Canterbury, England. The work is at present held up owing to the fact that a laundry and a mortuary belonging to the Kent and Canterbury Hospital formed a bar to further discoveries. These buildings have been bought lately, largely through the generosity of Lord Northbourne, and the mortuary has been levelled to its foundations. The laundry, however, has yet to be razed, and some months must elapse before the excavations can be resumed.

The important discoveries already made include the circular foundation of Abbot Wulfrie's monastic building and the original porches of St. Gregory, with the tombs of Laurence, Mellitus and Justus, second, third and fourth archbishops, whose bodies were translated in 1091. It is expected, in view of the monk Gocelin's records, that under the site of the hospital laundry will be found, in the nave and south porches of St. Martin, the tombs of King Ethelbert, Queen Bertha and her chaplain, Bishop Letard.

The most recent discovery has been that of the tomb of Abbot Roger II. The mason stated that there was an iron plate just below the surface of the south transept of the Abbey church. Two feet below the surface the diggers found a slab of Purbeck marble about two and a half feet square, and west of it another, and yet a third west of the second.

The slabs were raised and below was found a simple large sheet of lead 17½ feet by 2½ feet, lying unfastened. When this was raised there was disclosed a grave, faced with cut stone and lined with sheets of lead on the bottom and around the sides, with four flat iron bars across the top to support the lid. In the grave was a skeleton, covered with a remains of a chasuble (of which parts of the gold lace border still cling to the wrists), and with a ring on the right hand and the withered remains of a pastoral staff. On the breast was a leaden plate bearing the following inscription:—  
"HIC REQUIESIT DMS ROGERUS ABBAS HUIVS LOCI QUI OBSTIT ANNO INCARNACIONIS DOMINICE M CC LXXII IDVS DECEMBR."

The tomb never had been touched before, and clearly contained the mortal remains of Abbot Roger II, or Roger of Chichester, who, according to Thorn, was elected abbot in 1252, died on the Feast of St. Lucy, Dec. 18, 1272, and was buried before the altar of St. Katherine under a stone which was a recumbent effigy. Thorn uses the exact description, "abbas huius loci," found on the leaden plate.

The skeleton was that of a very big man, more than six feet two inches tall, with a very strong lower jaw. The ring, which was very large, was of copper gilt and had a carbuncle in it. The ring, the inscribed plate, a few fragments of the lace and of the texture of the chasuble have been placed in the college museum with the other plates previously found, and after the whole had been photographed, the grave was carefully closed again and the stones were laid on the leaden sheet as before.

**"Diamond Dyes"  
Tell You How**

**A Child can Follow Directions and get Perfect Results**

Each package of "Diamond Dyes" contains directions so simple that any woman can diamond-dye a new, rich, fadeless color into worn, shabby garments, draperies, coverings, whether wool, silk, linen, cotton or mixed goods. Buy "Diamond Dyes"—no other kind—then perfect results are guaranteed even if you have never dyed before. Druggist has color card.

**INNOCENT ASH CAN  
PROVES TO BE STILL**

**How Hamilton Foreigners Seek to Outwit Inland Revenue Officers.**

Hamilton, Sept. 28.—Hamilton foreigners have developed a brand new wrinkle to outwit the inland revenue men in connection with the O. T. A. It is the traveling still. The householder makes a mash. When the concoction develops a proper kick a moonshiner receives the pass-word and drives on the scene with what appears to be a common metal ash can. When the still owner has completed operations he steals away.

Inspector Baby of the inland revenue department says the apparatus is very simple looking. It is composed of a clean metal ash can in which a basin fits tightly about half-way up. Holes are left in the side of the basin to permit steam to pass from the bottom of the can to the top. In the top of the can is placed a basin of cold water. The mash is poured into the bottom of the container, the whole apparatus heated, and when the steam passes to the top and strikes the cold basin condenses and falls into the second basin.

**DR. GLOVER TO  
MAKE PUBLIC  
CANCER CURE**

**Will Demonstrate His Serum to Toronto Academy of Medicine.**

Ottawa, Sept. 28.—Dr. Glover has been asked by the Dominion Department of Public Health and has consented to demonstrate his serum for cancer before the Academy of Medicine in Toronto. He will appear, it is said, before the whole academy, will disclose the nature of his discovery and tell of the results attained from it. A committee of the academy will then likely be appointed to study the information given by the young physician.

The Public Health Department, for weeks has been receiving numerous letters asking information about the Glover method of treatment. Many sufferers from the disease, too, have come to Toronto in the hope of obtaining relief. Dr. Glover, in the meantime, has been carrying on his investigations, but has not yet revealed the nature of his special discovery to the medical profession. Under the circumstances, the Public Health Department, without any desire to cast any reflection upon Dr. Glover or his work, thought it desirable to invite him to demonstrate his method of treatment. This he has agreed to do in the course of three weeks.

He will be given any assistance in the preparation of his explanation which he may desire. Dr. J. A. Amyot, Deputy-Minister of Public Health, has just returned from Toronto, where he has been engaged for several days making arrangements for the demonstration.

—Assam Teas are noted for their strength and richness.

Red Rose Tea consists chiefly of selected Assams blended with the finest Ceylons.

Red Rose Coffee is crushed—not ground

**MEIGHEN SHOULD NOT  
USE GOVERNMENT CARS**

**L. P. Wants no Campaigning at Country's Expense.**

(Toronto Globe.)  
If Premier Meighen campaigns through Canada it should be on his own funds or those of the National Liberal Conservative party. This was the opinion expressed last night by the central executive committee of the Independent Labor party.

"We protest against the action of the Dominion government in using, not only the public funds, but also government cars and railways for campaign purposes," said President J. W. Buckley.

The Labor party also opposed the Meighen government's attempt to secure from employers a statement on the decline of production for the purpose of showing that the workers were loafing at their jobs.

"How can the workers give the maximum of production when the government's figures show that they are not receiving sufficient to feed, clothe and shelter them?" asked Mr. Buckley.

**A Flyaway Affair.**  
A fly and a flea in a hue were imprisoned; so what could they do?  
Said the flea, "Let us fly!"  
Said the fly, "Let us flee."  
So they flew through a flaw in the hue.  
—Orange Peel.

**EVEREADY**

Eveready made the **FIRST** flashlight battery  
Eveready makes the **BEST** flashlight battery

**TWENTY YEARS** ago the first flashlight battery was made. It was an Eveready. For twenty years Eveready has continued to make flashlight batteries. Eveready crams energy into its batteries, builds them long-lived and powerful. The one way to be positive of getting the one flashlight battery that gives the longest, most reliable service is to be sure it is an Eveready. Bring your flashlight or order by the number on the battery now in your flashlight. Quality and Service of Eveready Flashlight Batteries are Certified by the dealer, Guaranteed by the maker.

All Eveready Dealers Have Fresh, Powerful Eveready Flashlight Batteries  
CANADIAN NATIONAL CARBON CO., LIMITED

HILLCREST PARK, TORONTO

**Columbia** Dry and Storage Batteries

**How Often do You get Really Refreshing Sleep**

ONCE in a while perhaps you get up feeling like a new person.

But it doesn't happen often—unless you are the exception, or have been very lucky in your choice of a bed.

Beds are made to sleep in—yet the chances are that your bed (whether wood or the ordinary metal bed) creaks slightly here, is a little steady there. Perhaps your spring sags or your mattress and pillow are lumpy and unsanitary.

It is wonderful how the right kind of Bed Spring invites perfect relaxation and deep, sound sleep.

The sleep inducing Spring is a Simmons "Waldorf," of specially tempered spring coils. Fine Springs that fit the contour of the body and support the spine in a straight line, insuring perfect circulation and restoring the energy used up in the fatigue of the day.

Simmons Felt Mattresses are the result of twenty-five years' study of equipment for sound, natural sleep. Made of pure, new cotton in clean, sun-lit factories. Used in thousands of fastidious Canadian homes.

And Simmons Pillows, which rest the head and neck exactly as they need to be rested.

If you know only wooden beds or ordinary metal beds, and the average spring, mattress and pillows—ask the leading merchants in town about Simmons Metal Beds, Springs, Mattresses and Pillows, Day Beds and Children's Cribs.

They are built for sleep—yet they cost little if any more than the casual merchandise of the ordinary store.

And when you are selecting your Simmons Beds with an eye to their appearance in the room, you will see that Simmons has for the first time established beautiful and authoritative design in Metal Beds.

The "CHATSWORTH" Design 1901—in Twin Pair  
Made of Simmons new Square Steel Tubing—Seamless, smooth and beautifully finished. Exquisitely enameled in the accepted Decorative colors. Has the Simmons patented pressed steel noiseless Corner Locks. Easy rolling casters. Your choice of Twin Pair and Double Width. Specially pleasing in Twin Pair.

Sleep is a big subject! Write us for the booklet, "What Leading Medical Journals and Health Magazines Say about Separate Beds and Sound Sleep." Free of charge.

SELF-SACRIFICE—A FABLE (Haverhill Gazette).

Once there was a man who lived for his family.

He was interested in all they did and proud of their successes. He stayed home at night and liked to spend his evenings with them.

He spent very little money on himself, and worked hard every day to give them all that heart could desire.

But still he felt that they did not have enough, and he began to speculate to make money for them faster.

That led to failure and a drop in the world. And then he worked the harder to make up for the bad judgment by which he had robbed them.

But the strain was too great and gradually he began to feel that the burden he imposed on himself had become imposed by them and he felt a little hurt and began to keep out of the circle.

And then he felt that he wasn't wanted in it and he began to resent their happy life with each other, and when he saw them talking quietly together he felt so much left out that it looked to him like plotting—they were all conspiring against him—and he began to threaten.

And that helped to kill their love. And so things kept getting worse until family life was at an end, and the people in all the world that he cared the most about despised them, and he knew it. And there is no worse agony than that. If he hadn't tried so hard to do it all himself they would have all been happy still. Self-sacrifice is as bad as selfishness when it becomes a fixed idea.

REAL POLITENESS. (New York Independent).

A correspondent of the New York Sun sent in the following translation of a Chinese rejection slip, used in returning would-be contributions: "We have read thy manuscript with infinite delight. Never before have we revelled in such a masterpiece. If we printed it the authorities would ordain us to take it for a model, and henceforth never print anything inferior to it. As it would be impossible to find its equal within ten thousand years, we are compelled, though shaken with sorrow, to return your divine manuscript, and for doing so we beg one thousand pardons."

BEER AND WINE HUMBUNG. (Toronto Globe).

"Wet Montreal is a Mecca for dry Americans," says an expressive headline in the Chicago Tribune of Monday. The Montreal despatch on which it is based says that while the sale of hard liquor in Quebec is prohibited by law, whiskey can be bought openly over the bar. To quote:

"The writer visited fifteen saloons here in only one week. In most of them whiskey was consumed by nearly all patrons. The price per drink is from 25 to 35 cents.

He also obtained whiskey in single-drink quantities in a saloon camouflaged as a lunch room. No beer was sold here, the proprietor having no license of any kind. "Why bother with beer and wine?" he said.

"Thousands of American citizens now are crowding Montreal, 'holding parties' for New York, Boston and other northern United States cities are crowded daily. Hotels here are jammed. Reservations must be obtained far in advance."

The Tribune's correspondent says the situation bears out the claim of United States Federal Prohibition Director John Kramer, who said: "If the sale of beer and light wine is permitted in the United States through a modification of the prohibition laws we might as well go the whole way and not restrict the liquor traffic at all." The lesson for the other provinces of the dominion is the same. In the name of "moderation" the people of Quebec were employed to vote for the licensed sale of beer and wine, but they now know that such a compromise cannot purge the liquor traffic of its inherent lawlessness. It is the old story of the camel getting its nose under the tent.

"In These Wild Times,"

If your check for dinner amounts to more than the price on the bill of fare would lead you to expect, keep your mouth shut and don't show your ignorance. It simply means that the prices have been raised between the time you ordered and the moment your check was made out.

Don't Let The Frost Catch You

WANTED—EXPERIENCED WAITRESS. Star Cafe, 15 King Square. 12222-10-1

WANTED—GIRLS

TO RECOMMEND RESERVE FOR BUFFALO HERD

F. H. Kitto, Government Exploratory Engineer, Will Make Important Suggestion to Government.

(Toronto Globe.) F. H. Kitto, exploratory engineer of the national resources intelligence branch of the department of the interior, who has just returned after an extended reconnaissance trip down the Peace, Slave and Mackenzie rivers basins, was in Toronto yesterday. It was Mr. Kitto who told, as news despatches featured a few days ago, of the discovery of a herd of wild buffalo, numbering about 1,000 strong, just a little above the 16th parallel, in the vicinity of Fort Smith. This will be good news to those Canadians who mix an understanding of this country's need of agricultural development with a desire to see the visible links of her romantic past preserved and perpetuated as far as may be possible. Mr. Kitto was at the Westminster hotel yesterday and last night went to Brampton for a short stay before returning to Ottawa. As a result of his examination of a large area of the north, Mr. Kitto will recommend to the dominion government the creation of a large game preserve to include the whole of the buffalo country, its protection to embrace the many other fur-bearing animals which also abound there. In order to post himself upon the numbers of the herd in question, Mr. Kitto circled large areas and took photographs. He will, therefore, take back to Ottawa pictorial evidence of what he declares to be the only remaining collection of the wild specimen at large on this continent. Mr. Kitto has been away five months. He saw Imperial Oil men drilling at a point fifty miles below Fort Norman, on the Mackenzie river, and also at Windy Point, on Slave Lake. While he did not notice any oil in great quantities, what he did see was of a very high grade.

WINS \$9,000,000 AT BACCARAT

Cuban Sugar Planter Hailed as World's Greatest Gambler.

London, Sept. 28.—The heaviest baccarat winnings of the century, totaling nearly \$9,000,000, have been gained by Hannibal De Masa, a Cuban sugar planter. His gains have earned for him in Europe the reputation of being the world's greatest gambler. His extraordinary run of luck started at Deauville, early in August. His gains there were \$700,000. At Aix les Bains, where he gambled with increased stakes and daring out of his Deauville winnings, he increased his winnings by \$2,000,000. At Biarritz he added \$6,000,000 by a phenomenal string of luck. At each table Masa adopts the unparallelled procedure of declaring "open bank," which usually is declared for one or two special coups. He says that his brain is most clear and that he thinks fastest when gambling for big stakes.

TO BRING GERMAN GOLD TO NEW YORK

New York, Sept. 28.—(Canadian Press)—The Wall Street Journal reports that federal reserve banks have decided to bring to the United States the gold which is being held at the Bank of England, London, earmarked for their account, and reports that shipments will probably begin within a short time. This gold was purchased in August, 1919, by the federal reserve banks from the United States Grain Corporation, which received it from Germany in payment of foodstuffs. In September and October, 1919, this gold was shipped from the continent to the Bank of England, and since its arrival there has been included among the reserves of the federal reserve banks appearing on their statements under the caption "Gold with Foreign Agencies." At that time, the total value of the gold was \$176,546,678, but this total has been reduced to \$111,466,044, through sales of gold from time to time in moderate amounts to banks desiring to ship gold from the United States in settlement of trade balances. In recent months such sales have practically ceased, the paper says, and it has now been decided to bring the gold to New York.

GIVING APPLES TO ANY WHO WILL PICK THEM

Parkhill, Sept. 28.—Farmers are disappointed that the apple evaporator will not be opened on account of the building being condemned. There is an unusually large crop of apples with few buyers. Prices offered are too low to tempt many. Forty cents per cwt. for apples on the tree and \$1 per cwt. for hand-picked winter apples are the highest prices offered. Farmers with large orchards and a heavy crop are giving their apples away to anyone who will pick them, or are leaving them on the trees.

HELP YOUR DIGESTION

When acid-distressed, relieve the indigestion with KI-MOIDS. Dissolve easily on tongue—as pleasant to take as candy. Keep your stomach sweet, try Ki-moids. MADE BY SCOTT & BOWNE, MAKERS OF SCOTT'S EMULSION.

LOOKING FOR AN AERIAL SMUGGLER

Pau, France, Sept. 2.—(Associated Press Correspondence)—A polished gentleman, wearing the full regalia of an aviator and presenting a pilot's certificate, entered the shops of an airplane works here a few days ago and expressed a desire to purchase an airplane. Accompanied by a representative of the firm, he evinced over the Pau field in various machines, showing great virtuosity in aerial gymnastics looping the loop, sliding on the wing, doing the falling leaf and other stunts until he decided to purchase a biplane, for which he gave a certified check as payment. He then flew away. In a field near San Sebastian, Spain, yesterday there was found an abandoned airplane in which there was a satchel containing several thousand francs in French silver and gold pieces. A polished gentleman wearing the full regalia of an aviator had been seen to leave the plane a few minutes after it landed, carrying heavy grips of the same type as the one left in the plane. No one returned for the third grip and it has been confiscated by the Spanish authorities. The Pau airplane firm has notified the Aero Club of France and the Aero Club of England as well as the Service of European Aerial Navigation to be on the lookout for an aerial smuggler.

THE CARLETON FAIR

Another large crowd was present at the Carleton Curling Club fair last evening. The door prize, a load of wood, was won by J. Maler. D. Allen won first prize at the excelsior game, getting a salad dish. The ten pins prize, a tea kettle, went to W. Lamer. During the evening enjoyable music was furnished by the Martello Cornet Band, one of the selections being melodies from "The Maid of the Mountains." Tonight, and for the remainder of the week, the door prize will be \$10 with a second prize each evening of \$5. Thursday night has been set apart as curlers' night when all the curlers of the city will attend.

THE CANADIAN BOUNDARY

Washington, Sept. 28.—In a report issued by the United States Geological Survey the Canadian boundary line is declared to be 3,989 miles long.

KING ALPHONSO ON HUNTING TRIP

Spanish Monarch Takes Party to Shoot Chamois—Is Keen Sportsman.

Santander, Spain, Sept. 9.—(Associated Press Correspondence)—No fatigue or physical effort is too great for King Alfonso when he decides to go hunting the chamois in the Picos de Europa, as he did this year in August after attending the horse races and personally steering his yacht to victory in the regatta at San Sebastian. This time, as an exception, he was accompanied by a number of women, who love hunting and who are connected by family ties with the royal house, as well as by some of his personal sporting friends. The party included the queen, Princess Alice of Albany, the Infanta Luisa, Infante Carlos, Prince and Princess de Bourbon, Lord Athlone, the Marquis and Marchioness de Viana, the Marquis and Marchioness de Villavieja de Asturias, Luis de Bustamante and a number of court functionaries of high rank.

The central point of the hunting is Pena Vieja, right in the heart of the Picos, and to reach the royal hunting box, very trying three or four hours horseback ride is necessary. The distance from Camaleon, where the party mounts, is only twelve miles, but the ascent is sharp all the way and at places great care has to be taken in passing along narrow paths looking over abrupt precipices. The site of the hunting box is Llorozna, at a height of 8,400 feet above sea-level, and here has been built a miniature palace containing many modern comforts. At night it is always cold at this height, and many of the mountain peaks are covered with eternal snow. Even during the day cool winds are constant.

Activity is the watchword during the king's short stay. Everybody must have breakfasted and be ready to start at seven in the morning for the higher peaks where the chamois is found. All the hunters are provided with ropes in case of danger in passing the deep precipices, on the edges of which the chamois generally is found. Great agility is requisite once the game has been marked. The smart animals are usually noticed at a long distance like small black dots leaping from point to point. Shooting has to be extremely accurate and as a rule many shots are expended on one animal, as he dashes headlong among the rocks.

Sometimes a mountain mist arises and then shooting is almost useless, while it causes the hunters to separate and oftentimes to get lost in the mountains, where parties of miners, who are numerous in the district, search for them. However, Alfonso was this year lucky as regards weather and each day the royal party brought back to the hunting box on the backs of donkeys a considerable bag of game. Notwithstanding the strenuousness of the day's work, the king was always ready the following morning to start out again at an early hour, sometimes, however, leaving various members of the party behind.

WANTS SHARE OF FUND

North Carolina Woman Seeks Payment for Vote

New York, Sept. 27.—George B. Lockwood, editor of the National Republican, is wondering whether a letter received today is typical of how women will purify politics. A North Carolina woman, though a Democrat, offered to become a Republican for a split of the mythical \$15,000,000 campaign fund. Her letter follows: "As I have bin studying on the election for some time I was raised a Democrat and married a Republican and I hate to go against him and all I thought if you was going to spend 15 million dollars on the election I was well to have some of it as anybody. If you want my vote, you divide a little with me and I will go from Democrat to Republican. Also my husband said he thought for a little money that he could get several votes. If you think that my vote you may let me see—Yours truly—"

ENLARGING BOMBAY DOCKS

Bombay, Sept. 28.—(By Canadian Press)—The Bombay Port Trust authorities are considering the expansion of shipping accommodation on the north-east side of the existing docks. The chief engineer is considering a scheme for the construction of a large new dock between Sowri reclamation and Bombay, to be used exclusively for export trade.

SWAN ATTACKS SWIMMERS

London, Sept. 28.—During a Windsor swimming club race in the Thames, an angry swan rushed with outspread wings towards four competitors near Clever Point. Three of the men turned hastily to the bank, and it became a race between the swan and the swimmers. The boats which were following succeeded in keeping the bird at bay till the competitors had gained the bank. The ultimate winner of the race, F. L. P. Webb, was in some danger from the swan's attack until the boatmen beat it away.

SPORT NEWS OF  
A DAY; HOME  
AND ABROAD

WILLARD REPORTED TRAINING

Chicago, Sept. 28.—Don't be surprised if Jess Willard soon returns to the ring. The former champion isn't going to don his gloves again out of pure love for the game. It is money that big Jess wants. Willard saved almost \$300,000 from his ring and theatrical earnings, but, according to reports dropped some of it in an oil investment. The information comes from Jack Curley, noted promoter and once manager of Willard. Curley says Jess is now training on his farm near Lawrence, Kas., for a return match with Dempsey.

A. E. F. Champion Wins

Cleveland, Sept. 28.—Bob Martin, champion of the American expeditionary force, outpointed Captain Bob Roper of Chicago in a ten-round bout here last night.

Bouts in Philadelphia

Philadelphia, Sept. 28.—Joe Benjamin of San Francisco outclassed Eddie Manoney, also of the Pacific coast, in an eight-round bout here last night. Johnny Huff of Jersey City defeated Frankie Mollon of Fort Wayne in eight rounds.

Balk Line Championships

New York, Sept. 28.—The United States professional 192 ball line billiard championship for 1920-21 will be played in two sections this year, the preliminary tournament beginning about November at San Francisco and the finals in New York December 5, 7 and 8.

Entries will close on October 18. Each game will consist of 400 points. Wins of the first and second prizes in the series will be \$1,000 and \$500, respectively. The title holder, in the series, limited to three players, which will be played here.

Canadian Horse Losses

Lexington, Ky., Sept. 28.—The breeders' Futurity, a test for two-year-olds over the Futurity course of a little more than five and a half furlongs, was run here this afternoon and resulted in a surprise when E. R. Bradley's filly, Believe Idle Hour, scored the victory over a neck from Commander J. K. L. Ross' Star Voter, which was a strong favorite. Sir Thomas Kean was third. There were seven starters. Believe Idle Hour ran the distance in 1:01 1/5, equalling the track record.

Star Voter, which finished second in the Futurity at Belmont Park, was sent West especially for this race and appeared to stand out in this company. He was heavily backed in the mutuels and was a 2 to 5 favorite at post time. Believe Idle Hour paid \$22.40 to holders of \$2 tickets.

The Bradley filly broke in front and showing fine speed held Star Voter throughout. Sands made a determined effort with the Ross colt, but Star Voter wakened at the end when it appeared he would catch the leader. The colt were badly outrun. Sir Thomas finishing six lengths back of Star Voter.

BASEBALL

He Knows "Babe"

Cleveland, Sept. 28.—There is a little sandy store in Lexington avenue, just opposite the League park, the proprietor of which is a believer of the "safety first" motto.

Every time the New York Americans come to town the proprietor of the store puts up heavy screens in front of his windows. "Babe" Ruth has broken

through the screens. The proprietor of the store is a man who has been in the business for many years. He is a man who has seen many things. He is a man who has seen many things. He is a man who has seen many things.

Three windows and one window frame. When the New York series ends down one the screens.

For World Series. Cleveland, Sept. 28.—Erection of temporary stands to seat 6,500 persons will start at League Park today, said J. C. Dunn, president of the Cleveland Baseball Club, last night. He declared he was prepared to accommodate as large a crowd as possible, in anticipation of his team winning the American League pennant.

Dunn left last night for Chicago. While there he will request the members of the National Baseball Commission to postpone the opening game of the world series until Oct. 7 to allow him enough time to have the extra stands finished. The stands will be erected at a cost of approximately 15,000. The seating capacity of the park will be about 27,000.

Tom Daly Doing Well. According to figures published in the New York Times on Sunday Tom Daly, formerly of this city, has been doing well with the Chicago Cubs this year. He played in forty games, was at bat eighty-two times, scored twelve runs, made twenty-six hits, had one stolen base and had a batting percentage of .317.

Last Saturday he caught the second game in a double header with Cincinnati and was at bat four times, securing two a batters. He also had six putouts and two assists.

FOOTBALL. High School Boys Practising. The local High School football aspirants are having daily work outs preparatory to selecting a team to represent the school in the interscholastic League. They are working out on the Shamrock grounds and from present indications will have a strong fifteen.

CRICKET. A Tied Match. Toronto, Sept. 27.—The cricket match between the touring English incognito team and an all-Toronto team ended today in a technical draw, although it was virtually a win for the Englishmen. The latter scored 291 in their first innings and 52 for five wickets in the second. Toronto got 128 and 218. When the stumps were drawn at 5.30 this evening incognito still wanted six runs to tie the Toronto total, but had six wickets to fall.

SWISS RIFLE CLUBS. (Philadelphia Ledger.) Every man in the peaceful and democratic country of Switzerland is a soldier in a modest way, befitting a small nation. The able-bodied Swiss enters the army five days in his first year. For the next two years he trains for three weeks every alternate year. At thirty-two he enters the Landwehr, and has eight to ten days under arms every fourth year until, at the age of fifty, he retires, and is required to furnish no service, except in case of war.

What the Swiss militiaman lacks in military orthodoxy he far more than makes up by skill with the rifle. It is not too much to call the Swiss a nation of marksmen. The training periods are occupied only with drill and tactics; the all-important matter of shooting is left to the individual soldier to carry out at other times and he does it under the auspices of the shooting societies which are such a feature of Swiss life.

These societies, under government control, are called Schuetzenvereine in the German, and Societes de Tir in the French cantons. They are voluntary associations, paying in size and importance with the town or village they serve. Those in the larger towns possess complete fitted ranges and club houses; the small villages do their shooting in a field backed by a suitable hill. Every peasant and townsmen has a facility for shooting and each man has his service rifle always in his possession.

Every man between the ages of twenty and thirty-two must fire thirty-two shots in four compulsory exercises every year, and the societies receive a grant of two francs for every soldier shooting this course on their ranges. The income derived from the grants generally suffices for the current expenses of the society, supply of targets and pay of marker. There is no entrance fee nor subscription fee and heavy expenditure, such as last incurred by the construction of new ranges, is met by a special grant from the government.

SETS NEW RECORD IN JAVELIN THROW James Lincoln Makes American Mark at Annual Fall Games of New York A. C. (New York Times.) James C. Lincoln, tall, well-knit New York A. C. javelin thrower, created a new American record for throwing the steel-tipped spear yesterday in the Fall track and field meet of the New York A. C. at Travers Island. Lincoln, who holds the local title, made the remarkable toss of 197 feet 6 1/2 inches. This effort was an improvement of 4 feet 7 3/4 inches on the best previous national figure, made by Milton S. Angier of the Illinois A. C. in the final Olympic try-outs at Cambridge. Angier's mark was 192 feet 10 3/4 inches.

Lincoln's superb performance drew a continued round of applause from a crowd of about 5,000 who witnessed the feat on the famous old Mercury Foot athletic field. Even before the announcement of the new record was made the crowd, realizing the tremendous throw by the different stake marks dotting the infield, burst forth in a thunderous applause, which was only exceeded in the outburst which greeted the official announcement of a new mark.

"Cats are very poor swimmers," states a writer in a weekly journal. This no doubt accounts for the exceptionally high infantile mortality among these domestic pets.—Punch.

Eat Ice Cream Every Day It's important for your health's sake. Few people drink enough milk or eat sufficient products of the dairy. Many people do not like milk, cheese or butter. But everyone likes Ice Cream. It's the most concentrated product of the dairy in strict food values. Here's what "Modern Hospital" says in a recent issue: "Ice Cream was once considered a luxury and was obtained with some difficulty. It has now taken its position as a staple food, as an every day commodity. It is dispensed at the home and hospital, and is sufficiently inexpensive to be served as a dessert in even unpretentious boarding houses. In sickness, both in the home and hospital, it is recognized as a useful, refreshing, nutritious food." When getting Ice Cream, however, be sure it's Purity then you are sure of getting the best.

Purity Ice Cream Co. Ltd. "THE CREAM OF QUALITY" MAIN 4234 92-98 Stanley Street.

BROOKLYN WINS THE NATIONAL PENNANT

New York's Chances Spoiled by Boston Yesterday

Cleveland Wins a Game in the American League and Holds Half Game Lead—Ruth Makes Two More Homers, Total 53.

New York, Sept. 28.—New York was put out of the National League pennant race yesterday when Boston won the second game of a double header. Brooklyn cannot lose out now no matter how the games result.

First game, Boston 1, New York 2; second game, Boston 3, New York 2; Chicago, Sept. 28.—St. Louis concluded its season's work by trimming Chicago in decisive fashion yesterday, hammering out twenty-five hits. St. Louis 16, Chicago 1.

National League Standing

Table with columns: Team, Won, Lost, P. C. Brooklyn 85, 60, .588; New York 85, 65, .568; Cincinnati 78, 69, .531; Pittsburgh 77, 71, .520; Chicago 73, 78, .488; St. Louis 69, 87, .446; Philadelphia 59, 89, .398.

American League Standing

Table with columns: Team, Won, Lost, P. C. Cleveland 94, 54, .635; Chicago 90, 56, .616; New York 89, 59, .602; St. Louis 74, 74, .500; Boston 71, 80, .470; Washington 64, 82, .438; Detroit 59, 81, .393; Philadelphia 47, 101, .318.

SCHEDULE FRAMED FOR WORLD SERIES Nine Game Series; First Three to be Played on American League Grounds—If Cleveland and Chicago Tie, Three Game Series Will Decide.

Chicago, Sept. 27.—The national commission has decided upon playing a nine game series to decide the title in the baseball classic. The schedule as drawn gives the American League the first three games, while the National League gets the next four. The eighth game, if necessary, will be played on American League grounds, and a ninth game would be played on National League grounds.

This schedule, it was decided, may later have to be moved back in event of Cleveland and Chicago finishing the season in a tie. In that case the commission decided that a three game series would be played to decide the pennant, one in Chicago and one in Cleveland, and the third, if necessary, on neutral grounds.

The commission held a secret conference this afternoon and adjourned until tomorrow.

U. N. B. FOOTBALL SQUAD LOOK GOOD

More Than Fifty Turned Out for the First Saturday Practice of the Season.

(Frederick Gleaser.)

There was one of the largest football turnouts for years at the College Field on Saturday afternoon when more than fifty of the U. N. B. students turned out for their first Saturday football practice of the season.

Among the new students are many former high school players who showed up well on their respective teams and who started practice with all their vim and vigor. Before any real football was begun the players were put through some army "P. T." stunts by Coach Cochrane, who gave it to them hard to get them into some kind of shape for practice. Following the exercises the players were coached in passing, kicking and tackling and two scrimmages were picked out by the coach and put at work.

Judging from the number of players present and from the work done, it will not be a difficult thing for the U. N. B. to get two strong teams out of the squad. Manager Willis and Captain Saunders both express themselves as highly satisfied with the new material as well as the way the old players are getting into the game so well.

CARONIA AT LONDON. London, Sept. 28.—The Cunard liner steamer Caronia, which sailed from New York Sept. 18, arrived at London yesterday. The vessel did not put in at Liverpool.

IF YOUR EARS RING WITH HEAD NOISES If you have roaring, buzzing noises in your ears, are getting hard of hearing and fear Catarrah, Deafness, go to your druggist and get 1 ounce of Parpaint (double strength), and add to it 1/2 pint of hot water and a little granulated sugar. Take 1 tablespoonful four times a day.

This will often bring quick relief from the distressing head noises. Clogged nostrils should open, breathing become easy and the mucus stop dropping into the throat. It is easy to prepare, costs little and is pleasant to take. Anyone who has Catarrah trouble of the ears, is hard of hearing or has head noises, should give prescription a trial.

A MASTERLY PERFORMANCE AT QUEEN SQUARE

St. Elmo was given an excellent production at The Queen Square Theatre yesterday afternoon and evening. The large audience last night, which practically tested the capacity of the theatre, was greatly pleased. The settings were very nice in the first act, particularly the falling leaves and singing of the birds were very effective. The blacksmith forge and red hot shoe made a very impressive sight. The acting of one and all was excellent. Geo. C. Denton as Aaron Hunt the blacksmith, did an excellent piece of work in the first act; Mal Murray as Van Jiggins and David Higgins as Murray Hammond were exceptionally good, particularly Murray as Van; Sidney M. Leonard made a reverend gentleman of Mr. Hammond and talked and looked the part.

Miss Fisher as Gertrude did very nicely and looked quite cute. The play is a notable one. There are still three more performances and no doubt large houses will prevail. The settings deserve one more word of praise, they are certainly beautiful and the stage managers and property men are certainly doing their share towards making the stay of The Young-Adams Company a huge success.

ESTATES OF KING OF ITALY SEIZED, SAYS REPORT. London, Sept. 28.—Estates owned by King Victor Emmanuel of Italy at Santa Marie Di Capua Vetere, near Naples, have been seized by members of local agricultural societies, according to a despatch to the Exchange Telegraph Co. from Rome. It is said no opposition was offered.

LACK OF PORT FACILITIES A BIG HANDICAP

Declared Neither Halifax Nor St. John Have Enough

Brief of President A. H. Whitman of Halifax Board of Trade to Congress of Chambers of Commerce.

Following was the brief presented on behalf of the Halifax Board of Trade to put before the government...

The Adequate Equipment of Canadian Atlantic Ports To the Chairman of the Congress of the Chamber of Commerce of the British Empire, Toronto:

Dear Sir—The elimination from the dominion estimates for 1920 of the amount necessary for the erection of a grain elevator at the Halifax ocean terminals, compelled the Halifax Board of Trade to put before the government...

We take for granted that along with the unifying of the government owned railways making possible the control of freight from points of origin, and the well defined government steamship policy...

Neither Port Properly Equipped. We consider the above contention is borne out by the conditions existing at the ports of Halifax and St. John during the past winter season...

Three Million New Customers

For Canada's Grain —Produce —Manufactures

Secured by the West India Trade Agreement and Canadian Ships.

By willingness and ability to provide ships, Canada this year has drawn the West Indies closer to herself and to the Empire. She can make preferential trade agreements with other peoples under the British Flag, without arousing international complications.

Canada possesses men with brains who will make these preferential trade agreements. But to make good these trade agreements we must have Canadian Ships.

The Navy League of Canada

adequate to take care of the steamers sent to that port to load. Many steamers were kept in the stream for a week or more, and in some instances finally sent to another port. At Halifax, notwithstanding idle docks and empty warehouses, a number of steamers were diverted to American ports to take grain, which commodity is the basis of ocean traffic. To sum up—St. John has the grain loading facilities without adequate docks; Halifax has the docks and railway facilities without a grain elevator. The above conditions brought about extreme freight congestion at St. John, tying up freight cars for indefinite periods, with all the confusion consequent in crowded freight yards right back to Moncton. It would be a conservative estimate to state that at least an average of 1,500 cars were daily kept out of use, and for days, and in some cases weeks, 2,000 to 3,000 cars were held up. It is difficult to estimate the enormous loss resulting to railways and to the steamship owners, to say nothing of the loss to business houses.

Previous to taking over by the government of the Grand Trunk Pacific, the Canadian Northern and Grand Trunk systems, no grain traffic was controlled by the C. G. R., and it would have been a fair criticism to state that the present Halifax elevator at the North End terminals was more than adequate. This elevator is a small, obsolete, wooden affair, liable any day to burn down, which would put Halifax and its railway facilities off the map as far as the grain traffic is concerned. It only provides one loading berth, and during the past winter season many steamers have been delayed waiting their turn for this berth. The Halifax ocean terminals, in their present incomplete state, were planned and built by the government and called for grain loading facilities. This national policy was entered upon some five years before the acquisition of the above mentioned railway systems. It is reasonable to suppose that the cabinet did not have in view for the year 1920 the ownership of a railway system from ocean to ocean with two lines across the prairie provinces, absolutely controlling the routing of a large portion of the export grain traffic of Canada. If five years ago it was considered necessary to equip the Canadian Atlantic winter ports, today it is nothing less than imperative.

Essential to Canada. The building of the Halifax ocean terminals by the federal government, at the south end of the city, entailed very serious hardships in the disruption of the city, and was only acceded to by the citizens in view of the national importance of the undertaking and the distinct promises as borne by the plans, that the port was to be properly equipped as one of the Winter Ports of Canada, and while the grain traffic is adequate grain elevator falls far short of the programme as presented by the Dominion government before this work was started, at the same time in view of the present financial stringency those interested in the development of Halifax as an ocean port would feel that the government's necessary policy for a grain elevator would to a great extent satisfy the shipping community and public at large. We do not, however, rest our case on the fact that the Maritime Provinces, but on the fact that the adequate equipment of the ports of Halifax and St. John is essential as an all-Canadian policy, and that the large and ever-increasing exports of Canada should not be subject to the risks involved in the use of a foreign port.

While it is the intention of the Halifax Board of Trade to concentrate on what, from a Halifax point of view, might be called the "missing link" in the development of Canadian export trade—namely a grain elevator—at the Halifax ocean terminals, at the same time it must be evident that next in importance is the double tracking of the government road from Moncton to Halifax, made more necessary than ever owing to the heavy advance in labor. It is estimated that one-third of a railway crew's time between Moncton is spent on sidings awaiting passes. We feel confident that the above representations have the fullest possible endorsement of both the railway and steamship managements, and that they will join us in stating that the situation demands the prompt and adequate equipment of the ports of Halifax and St. John, and that the large and ever-increasing exports of Canada should not be subject to the risks involved in the use of a foreign port.

Appears Inconsistent. Knowing that at the last session of the Federal House it was only owing to the government's necessary policy for a grain elevator at Halifax that the amount required for a grain elevator at Halifax was struck out of the railway estimates, we feel compelled to try and meet the question that could be expected from the finance minister, "where is the \$20,000,000, the estimated cost of an elevator to come from?" by first repeating that it is a fair estimate that the lack of facilities to load grain at Halifax and St. John during the winter of 1919-20 amounted to over \$1,000,000 and would add that, while we do not desire to criticize the government's steamship policy, it did not appear consistent at the same session of the House to vote \$20,000,000 for further steamship construction while deciding that no money was available for an essential factor in the economical use of such steamers and of the government's railways. \$20,000,000 would go a long

USING SEAPLANE IN FOREST SURVEY

Three Men With Baggage and Mail Flew from Ottawa

Major Edgecombe, Son of A. G. Edgecombe of St. John, Is One of the Surveying Party—Spruce Bud Worm at Work.

(Cor. Colbalt, Ont., Daily Nagget) Halleybury, Ont., Sept. 15.—The government seaplane which has been expected to arrive here every day for the past week arrived yesterday afternoon from Ottawa, with Col. Robert Leckie, D. S. O. M. C., D. F. C., superintendent of the aviation board, piloting the machine, Mr. Clyde Leavitt, chief forester, Commission of Conservation, Ottawa, and Doctor J. M. Swaine, Chief of Division of Forest Insects, Entomological branch, Dept. of Agriculture, Ottawa.

Came in Five Hours.

The plane left Ottawa yesterday morning at ten o'clock, following the Ottawa River to Mattawa, thence to North Bay arriving there at 1.15 p. m. where a stop was made for dinner and a fresh supply of gasoline. At 2.45 the air men left North Bay, returning to Mattawa to follow the Ottawa River again, as far as Kippewa and up Lake Temiskaming, reaching Halleybury at 4.20 p. m. The actual flying time was five hours, at an average rate of 65 miles an hour. The engine is a 330 horsepower, twelve cylinder type, stationary Liberty Motor, and was used by the Naval Board during the war. The airship carries tanks with a capacity of 100 gallons of gasoline sufficient for about five hours constant flying. Her rate of consumption is 28 gallons of gasoline an hour.

Will Carry on Work.

The party was met here by Capt. Wickens, especially chosen by the government to operate the machine, while it is in this district. Roland D. Craig, Forest Engineer for the Commission of Conservation and Major G. H. Edgecombe of the same Commission, who are conducting a survey of the forest resources in Ontario, with the view of finding out the present and possible future supplies of timber from which pulp and lumber industries of the province can be supplied. This was under the direction of Roland D. Craig, who conducted a similar survey in British Columbia. Major G. H. Edgecombe and A. V. Gilbert are also engaged in collecting necessary information for this survey.

Experience of War.

During the war the value of aircraft for mapping and reconnaissance was demonstrated, and now a number of planes are being used for this purpose in forestry work in Canada. The Air Board having been given over 100 machines of different types by the Imperial Government, is co-operating with the other Governmental Departments by supplying machines and pilots for such work as mapping, forest fire protection.

Taking advantage of this opportunity Messrs. Craig and Edgecombe are going to make a reconnaissance direct from the air, in conjunction with Doctor Swaine's Spruce Budworm studies.

Do Work Faster.

The advantage of the aerial survey is that it enables the observer to map in with considerable accuracy, the various types, such as swamps, burns hardwoods and softwoods, in a few hours on an area which could not be covered by a ground survey in as many months. It is claimed that the amount of standing timber can be judged from the air, but with the area defined, a comparatively small amount of ground work will give a very satisfactory basis for a timber estimate.

Doctor Swaine is studying the injury caused by the outbreak of the spruce budworm which is spreading into Ontario pulpwood forests from North Quebec. The injury is to the balsam and spruce timber, and is caused by myriads of caterpillars devouring the foliage. The injured timber turns red and may be distinguished from the air. It is planned to map this area, and the timber can then be advised of the rate and direction of

way in providing necessary railway facilities, the lack of which, and the lack of the steamers, being the real handicap in the development of Canadian export trade.

Yours truly, A. H. WHITMAN.

Windsor Table Salt. Made in Canada. THE CANADIAN SALT CO. LIMITED.

SCOTCH SNACK. The delicious Fish Food. Prepared in Canada from fresh, fat, juicy fish in the old-fashioned Scotch way.

WHY EXPERIMENT?

Food scientists claim that the leavener is largely responsible for the flavor, texture and wholesomeness of your home baking. That on no other one ingredient does so much depend. It is important, therefore, to use a baking powder that you know possesses the necessary leavening qualities.

MAGIC BAKING POWDER

Contains No Alum

and is the only strictly high class baking powder in Canada selling at a moderate price. Its reputation is built on purity and highest quality.

The only well known medium priced baking powder made in Canada that does not contain alum and that has all its ingredients plainly stated on the label.

Made in Canada

the spread, so that they may salvage their timber in advance of the outbreak.

Damage is Heavy.

Immense destruction has been caused by the spruce budworm in the Provinces of Quebec and New Brunswick, and this sudden extension of the outbreak in Ontario threatens all the spruce and the balsam timber between Lake Temiskaming and the Great Lakes. In conjunction with the air survey, detailed entomological studies are being made by ground survey. The plane and party will remain in the north for about three weeks with Halleybury as their base. Col. Leckie returned last evening to Ottawa in preparation for his flight across the continent from Halifax to Vancouver. On this trip he will come north as far as North Bay, traveling from there in the direction of Georgian Bay and the Great Lakes. He was much taken up with the country covered yesterday, and describes the Ottawa Valley as a "wonderful sight" from the air. Apart from their baggage, the flyers brought some personal mail from Ottawa to Capt. P. Wickens and Mr. Roland D. Craig, which marks the first time in the history of the north country, that mail has been brought here by aeroplane. (Major G. H. Edgecombe, one of the survey party, is a son of A. G. Edgecombe of St. John.)

COMPETITION FOR JOBS; OUTPUT IS INCREASING

Chicago, Sept. 28.—Labor is now competing for work, reversing the conditions of a year ago, when industries were bidding against each other for workers. Output "per man hour" is increasing, which is always the case when there are more men looking for jobs than jobs looking for men.

High wage scales for organized labor have been untouched, but increased production by the individual has reduced the labor cost in many commodities.

Also there is closer adherence to the eight-hour day. This means less overtime at pay and a half or at double wages.

All of which is having an effect in cutting the cost of living.

THIEF BURIED ALIVE.

London, Sept. 15.—(By mail)—The Central News Shanghai correspondent sends the following account of the swift justice which has visited a notorious cattle thief under the patriarchal form of rule which still prevails in the villages of the Canton provinces.

In Ha Tong, a little village just north of Canton city, there lived one Tsao Ah Sun. There were ahread suspicions that he had stolen many oxen—fifteen to be precise. The ox is a sacrosanct beast of burden, and under village law to steal one is a capital offence. Tsao Ah Sun stole his last ox a month or two ago, and when the hue and cry went out he fled. He was eventually caught and he had to face trial before the elders of three villages, for he had not confined his depredations to his immediate neighborhood. He was found guilty and given the maximum penalty, namely, to be buried alive. On the day of execution the village watchmen beat the gongs and all the young men of the village gathered around a rectangle eight feet deep. Before Tsao Ah Sun was invited to make his resting place in the hole he was feasted with

wine and meat while the elders performed sacrifices for the benefit of his soul. The site being ended two watchmen lowered Tsao Ah Sun into the hole, head downwards, and while all the young men and spectators shouted the watchmen another village shot at the convict with a native gun loaded with shot which pierced the body of the victim in numerous places.

CHASE & SANBORN MONTREAL.

Canada—Why?

Is it really worth while to develop institutions and industries which are distinctively Canadian, and which promote the welfare and prosperity of the Canadian people? Of course it is!

Are we wasting our time and energy in training Canadian ability and encouraging Canadian enterprise? Of course not!

CANADA is more than an accident of geography. The magnificent record of effort made by Canadians in the great European struggle bears witness that the peaceful and unhindered development of the Canadian ideal should be maintained.

The future of Canada depends upon the sincere and earnest self-expression of Canada's millions of workers—at the plough, the loom, the forge—in the factory, the office and the home. And loyalty to Canada is best expressed, not in bursts of patriotic emotion on state occasions, but in supporting and sustaining Canadian enterprise and Canadian industry.

Canada produces footwear of every desirable type, and of standard quality in all grades. Buy Made in Canada Footwear and you are then assured of the utmost that modern skill can produce in Comfort, Fit and Style.
