

**LAST OF 3 TALENTED HERMITS IS DEAD**

Brothers 35 Years Ago Took Up Lonely Life in Tower.

London, May 12—The last of three brothers, all talented men, who for 30 years refused to have intercourse with their fellowmen, has died in a lonely tower on the Essex Coast. The brother

took up their residence in the tower about 35 years ago, refusing to admit women and gradually coming to close their doors against all. They came to town only to purchase food and clothing.

William Cole, the eldest, was a naturalist, founder of the Essex Museum and the author of several books. Benjamin was an entomologist and Henry, the last to die, was an artist, etcher and sculptor.

The tower in which they lived was surrounded by a moat, and was built in the fourteenth century.

The will of the last brother leaves all the property, which is valued at about \$25,000, to the state.

**HOPEWELL HILL PASTOR RESIGNS**

Hopewell Hill, May 11—In the Baptist church this afternoon Rev. H. J. Blossie, who has been on the field for the last year and a half, made the announcement that he had received a unanimous invitation to the pastorate of Hebron, N. S., Baptist church, which he had accepted and that his resignation had been handed to the church officers. The resignation of Mr. Blossie was learned with general regret. He has been a devoted pastor and a good citizen of kindly disposition. His resignation will take effect the first week in June.

**Do You Yearn For A Saxophone?**

"Sir, would you give \$5.00 to bury a saxophone player?"  
"Here's \$30.00. Bury six of them."

This story from "Judge" indicates the attitude of a certain part of the public towards the saxophone. Perhaps an equally large section of the public just dates on the saxophone's melting melody.

For the present, this newspaper will be neutral on this subject. It should be pointed out, however, that if you desire to buy or sell a saxophone—or any other musical instrument—you will find it advantageous to effect the transaction through a Want Ad in The Times-Star.

**DOG, HURT, BITES TWO.**

A fox terrier was killed yesterday afternoon in Prince Edward street by an automobile, but before it died two persons who attempted to carry it from the street to the sidewalk were bitten by the animal. Joseph Murphy picked the little fellow up just after he was struck by the car and received a bite on the hand. He dropped the dog and hastened to a drug store, where the wound was dressed. The owner, Mrs. Birmingham, then attempted to carry the dog to her home, but was bitten twice and dropped it. A few minutes after this the animal died.

**GLUE FACTORY BURNS.**

Fire Saturday night caused damage to the amount of about \$2,000 at the plant of the Russia Cement Co., 79 Marsh street. The alarm was rung in by Officer Harry Bettle about 8 o'clock, and it was an hour later before the all out was sounded. The greatest amount of damage was around the boilers. The origin of the blaze is unknown. The damage is fully covered by insurance. C. M. Elwell, manager of the company, said. The plant is known locally as the "glue factory."

**Better Health to Millions All in One Year!**

**JUST** one year ago *Post's Bran Flakes* with Other Parts of Wheat was introduced as a delicious laxative food. *Today millions of people are enjoying better health, are doing better work, enjoying more their play as a direct result of its daily use.*

Millions! And all in one year!

Because *Post's Bran Flakes* has all the laxative effect of bran and most of the food value of wheat; because it is wonderfully delicious—the flakes are thin, crisp, toasted—to these reasons can such tremendous national popularity be attributed.

You, yourself, if you are one of those who have never tried it, will be amazed that a food of such wonderful flavor and welcome effectiveness could be produced. Try it! Use it regularly for a week or so. You can get it from your grocer. Be sure you see the name "*Post's Bran Flakes*" on the package. It is the mark of a product made by the maker of the world's finest cereal foods.

THE TWINS VISIT ROBINSON CRUSOE

Robinson Crusoe was sitting on the seashore.

"Does Robinson Crusoe live in Once-Upon-a-Time Land?" asked Nick. "Of course he does," said Mister Muggs, and so does his man Friday and his dog and his parrot and his goat.

TONGUE COATED BAD TASTE IN MOUTH EYES TINGED WITH YELLOW

Liver Trouble The Cause

Mrs. A. C. Brown, Oromocto, Ont., writes:—"I have been troubled with my liver for a few years back, and was so bad I did not feel able to do my work."

I had severe pains in my stomach, so bad I could hardly stand them at times; coated tongue; bad taste in the mouth, especially in the morning; whites of eyes tinged with yellow, and had a muddy and sallow complexion. I had read a great deal about Milburn's Laxa-Liver Pills and decided I would try a "vial," and after taking two or three I found I was greatly improved, and can truthfully say that I felt more like living and can now do my own work without any trouble.

Milburn's Laxa-Liver Pills are 25c a vial at all dealers, or will be mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Care of the eyes, nose and mouth of young babies deserves special attention. Any indication of eye inflammation should particularly be watched and reported to the doctor. Under no circumstances should any hard instrument, such as a hairpin or toothpick, be used in giving treatment to any ailment of ears or nose.

Soft absorbent cotton alone should be used. A boric acid solution for either nose or eyes is as good a home remedy as can be used until a doctor's advice can be secured. And don't let anyone kiss the baby on the mouth!

Do you really enjoy life?

Your work, your thoughts, social intercourse, and the exercise of your physical strength — all these should be a joy to you in the spring time of the year. Worry, sluggishness, indifference, and depression are all a question of health — health's everything!

A sensation of delicious freshness, a consciousness of alert and sparkling wits, happy outlook, high spirits, sound sleep, hearty appetite, renewed energy, vigour and vitality — in short, the abundant mental and physical joy of sheer good health is the reward of those who take a pinch of Kruschen Salts in their breakfast cup of coffee or tea every morning.

Good Health for Half a Cent a Day

The ingredients of Kruschen Salts are necessary for healthy life. Your body must, of necessity, obtain these ingredients from somewhere, or you could not live. Normally your system should extract these vital salts from your food — meat, bread, fruit, vegetables, milk, eggs, and so on; but as a matter of fact, owing to impaired digestion, errors of diet, overwork, anxiety, worry, sedentary occupation, and many other causes, your system does not extract from food the correct proportions of these essential life-giving salts.

And what follows? Depression, or headaches, or constipation, or disordered liver, or inactive kidneys, or rheumatism, or gout, or sciatitis, or lumbago, or eczema — many of which arise from excess of uric acid, which is the cause of more trouble than many people suspect. Kruschen Salts should be your safeguard. Besides cleansing the body of impurities gently, surely, and painlessly, they possess a wonderful power of giving new life and vitality to the countless millions of cells of which every body is composed. Fresh blood, cartilage, bone, brain, and nerve are all made up of cells, and every cell requires every one or more of the numerous constituents of Kruschen Salts for its healthy life. Get a 75c bottle at your druggist's to-day — 15c bottles does a nearly enough for six months. Good health for half a cent a day.

SUGGESTIONS FOR THE HOUSEHOLD

For Curtain Rods. A brass curtain rod should be rubbed occasionally with paraffin--on a soft cloth--so that the rings will run smoothly.

Cooking Veal. Veal contains little more fat than pork or butter are necessarily added while cooking, and more seasoning is required than for pork or beef.

Fried Apples. After cooking pork chops fill the skillet with slices of apple cut one-half an inch thick and fry them in the fat that is left. Then arrange as a garnish on the platter with the meat.

Healthful Dessert. A delicious and healthful dessert is made by arranging slices of orange on a dish and covering it with boiled custard. After it has been chilled cover with meringue or a marshmallow sauce.

Avoid Soggy Pies. Many pies are soggy because they are undercooked. From 35 to 40 minutes is required to make a pie thoroughly and brown it well.

Use Best Butter. The very best quality of butter should be used in cake-baking if you want the best results.

Watch Your Tea. Long steeping destroys the delicate flavor of tea and develops acids that may prove injurious.

Mopping Floors. In mopping a floor be careful not to use too much water as this swells the boards and warps them.

Bacon Fat. Use bacon fat for shortening muffins, for seasoning fish and for seasoning spinach or those vegetables in which the bacon flavor is not objectionable.

Dented Furniture. When one of your most cherished pieces of furniture gets a dent in it, soak a blotter in warm water and lay over the spot. Then apply a hot flat iron until the moisture is evaporated.

Making Jelly Molds. Run cold water over the dish on which you are to empty a mold of jelly and it will not slide. If the woodwork of a room is lustrous, or the architecture makes it appear so, the furniture should also be of the heavy type, like Italian Renaissance or at least Tudor. Light, dainty furniture dress with the bright red patent leather belt, which is worn at a low waistline, large plaid flannels, worsteds and gingham, made in simple, straight-lined frocks, are among the smartest of sport attire.

Gold and silver lace will play a prominent part in the summer wardrobe this year. Gold lace is especially lovely with the golden or tiffanah-colored person, while silver is best suited to the brunette. While gold and silver lace is usually worn over a foundation of either gold or silver metal cloth, the spring tendency is towards the underslip of colored chiffon. Silver lace posed over Nile green chiffon is lovely, while gold over amber or scarlet is quite the rage.

very dark-haired young miss wore yellow daisies at one side of her bobbed hair. Wearing one huge flower of velvet or silk on one shoulder or at the edge of the bateau neck is popular. Bright colored flowers are also worn on scarfs or tulle or chiffon. Corsages of all sorts will be worn this summer. Polka-dot stockings and plaid stockings are shown in the shop windows. These will doubtless be used for sports wear. Gold and silver beads are the latest Parisian jewelry novelty. These come in choker necklaces made of beads the size of hazelnuts and in longer lengths of peacock beads. Long pendant earrings with bead drops are worn with them. Huge pearl and gunmetal bead chokers are also worn with the tailleur, as the choker seems to be the favorite necklace for the tailored mode. From London comes a novel manner of wearing the pearl necklace. The pearls are stretched from shoulder to shoulder in bateau effect and are held on the shoulders with bar-pins.

It was amply evident that the new arrivals were well acquainted with Fifth avenue and its latest styles. Their clothes were one hundred percent a la mode. Julia Hoyt, the great expert in things feminine, says that women are naturally envious. That is as may be. One thing is certain, however. They know a good thing in wearing apparel when they see it and they saw two hundred different species of the latest fashion whims almost daily. The same effect might have been obtained by exposing the local womanhood to a continuous parade of mannish. Sorrowing citizens announce that requests for new clothes were becoming terrifyingly continuous.

Ottawa women have always held a nation-wide reputation for being well-dressed and they intend to continue to hold it. As a result, many a family purse has been forced to sustain an unexpected onslaught.

Ottawa, May 12.--Clothes may make the man, as the old saw says, but they also have a habit of making the man annoyed. This is particularly true of women's clothes and married men. The original poke concerning hubby's objections to the financial outlay required for the equipping of one wife with hats, gowns and various paraphernalia and regalia, dates back to the time of Sheen, Ham et al but the age-old problem has hit the peaceful domestic circles of the capital city with new and striking force.

Every Month CONFEDERATION LIFE ASSOCIATION A Cheque For a Definite Amount Every Month.

One Hundred Dollars Guaranteed Every Month of Her Life By The Confederation Life Association

FOUR years ago, an Ontario business man, being well, strong and insurable, took out the Monthly Income Policy in the Confederation Life Association. Two and a half years afterwards, he died. For the past eighteen months his widow has been receiving regularly each month a cheque for \$100.00. This income is guaranteed to her for life. If she should die before she has received 240 monthly instalments, that is, before 20 years are up, the remainder of the 240 instalments will be paid to her heirs. This monthly income is not an isolated example. Many others are receiving monthly cheques--some for more--some for less.

If you would like to provide an income such as this for your wife, mother, or other beneficiary, or if you would provide such an income FOR YOURSELF for life after a term of years, write for particulars and find out for how small a yearly deposit you can receive this and many other benefits.

CORNER-STONE OF NEW EAST ST. JOHN CHURCH LAID; THOUSANDS ATTEND

Bishop Officiates—Eloquent Sermon Delivered by Rev. D. S. O'Keefe.

More than two thousand people witnessed the ceremony of the laying of the cornerstone of the new Catholic church, St. John's, at the corner of East St. and John St. yesterday afternoon.

The ceremony drew a large number of people, as it has been more than 20 years since a similar one took place in the city.

Immediately over the arch of the main entrance of the new church, a large Union Jack flew in the breeze while at vantage points along the top of the stone work of the partly completed walls smaller ensigns of many nations and the Papal flags were flown.

The crowd began to assemble early, many from the city taking advantage of the fine afternoon to walk out and inspect the church before the services commenced.

Following the blessing by the bishop of the corner-stone upon which had been engraved "Stella Maris, 1923," George Flood raised the stone, and was set by one of his stonemasons.

The Litany of the Saints was then intoned by the bishop. His Lordship, accompanied by Fathers McDonald, Carleton and Walker, walked around the church sprinkling the foundation with Holy Water.

SPECIAL SERVICES FOR MOTHER'S DAY

Appropriate Music and Sermons Mark Occasion—Sunday Schools Also.

Mother's Day was observed in the city churches yesterday and appropriate sermons were delivered by the various preachers.

The morning service for Mother's Day in the Tabernacle Baptist church yesterday was under the auspices of the Sunday school and Peter Murray, superintendent, took charge.

The pageant of "The Mothers of the Bible" was impressively given in the Ludlow street Baptist church last night by 16 young ladies of the Sunday school under the direction of Miss Evelyn Black.

The Mother's Day programme of the Sunday school was held in the church auditorium. R. H. Parsons, the superintendent, presided and extended a welcome to the mothers.

C. G. I. T. class. Miss M. E. Mullin was at the organ.

The services in St. David's church were appropriate to Mother's Day. Rev. Hugh Miller, the minister, had for his morning text "And His Mother Stood by the Cross," and for his evening sermon "Circus is Liana of the Splendid." There were two large bunches of flowers on the pulpit, one in memory of the late Peter Chisholm, who died three years ago, placed by his widow, and the other from the session in memory of and a tribute to the mothers of the congregation.

The Victoria street Baptist church at the morning service Rev. G. B. MacDonald baptized eight candidates and in the evening he gave the right hand of fellowship to 10. He gave forepart addresses and made the announcement that \$100 had been received for the church funds as a legacy for the estate of George H. Whittaker, of Adelaide street, and his congregations attended both services.

Crimean Veteran Praises "Fruit-a-tives"

Major Geo. Walker, now a familiar figure in Chatham, Ontario, is one of the men who went through the terrible Indian Mutiny. As he says: "I am a veteran of the Crimean War and the Indian Mutiny, serving under Lord Roberts. Fierce hand-to-hand fighting and continual exposure left me a great sufferer from Rheumatism, so much so that my legs swelled up, making it impossible for me to walk. My bowels were so constipated that I was in terrible shape until I began to use 'Fruit-a-tives.' They relieved me both of the Rheumatism and the Constipation. And in another letter, written December 1st, 1923 (seven years after), Major Walker says: 'Fruit-a-tives are keeping me in the best of health and I shall never be without them.' 'Fruit-a-tives' are the famous Fruit Treatment—intensive fruit juices combined with tonics—that make you well and keep you well. 25c and 50c—at all dealers or from Fruit-a-tives, Limited, Ottawa, Ont.

GRATEFUL PARENTS POUR OUT THANKS TO TANLAC

Five in One Family are Helped—Mother and Father Give Details.

The value of Tanlac as a family medicine and tonic is again very fully demonstrated. This time in the home of Mr. and Mrs. Joseph E. Kaake, 2436 Kirby Ave., West, Detroit, Mich., where father and mother and every member of the family have been benefited by the wholesome and helpful ingredients of the famous preparation.

Recently, in speaking for herself and children, Mrs. Kaake said: "For more than a year our three little ones—John, age 6, Elwyn, 4, and Margaret, 2—had been so peaked and listless that we were seriously worried about them. Their stomachs were upset, appetites poor, the color had left their cheeks, their nights were restless, and during the day they would just mope around, taking no interest in play or anything else."

They began to eat and sleep better almost from the first dose of Tanlac, and have picked up now until you couldn't find three healthier or more active children in all Detroit. They eat ravenously, the color of health has returned, and they are all happy and contented. Former friends extended hearty greetings.

turned to their checks, and they just want to be on the go all the time. I have also taken Tanlac to build me up and it never seems to fail."

"As to my personal experience with Tanlac," said Mr. Kaake, "I simply can't express in words the great help it gave me. About a year ago I was a victim of boils, actually having fifty-one on me, and was so played out that I couldn't do a bit of work for weeks. My suffering was almost unbearable. I cared little for food, suffered with severe headaches and stomach pains, and got so weak and nervous that I felt discouraged."

"Tanlac corrected my stomach disorders, woke up my appetite, cleaned my blood and toned up my system so that the boils went away, and nothing of the kind has bothered me since. I have gained 25 lbs., and I eat, sleep and feel like a brand-new man. We have given Tanlac a fair trial and found it wonderful, and if anyone doubts our statement they can write personally. We wouldn't think of being without Tanlac."

Tanlac is for sale by all good druggists. Accept no substitute. Over 40 Million bottles sold.

**Heroism Recognized**

Left to right—Staff Captain R. W. MacMurray, Capt. J. Gillies, Mr. Victor Gordon, High Commissioner for Newfoundland; Mr. James Scott, Secretary of the Mercantile Marine Service Assn.; Mr. Thomas Fisher, M.P., General Manager Canadian Pacific Steamships, Limited.

When Captain Victor Gordon, High Commissioner of Newfoundland in London, presented a pair of binoculars in the name of the Government of Newfoundland to Captain James Gillies, C.B.E., and to Staff Captain R. W. MacMurray, R.N.R., of the Canadian Pacific S.S. "Empress of Scotland," he said that these tokens were not intended to measure the value of their services, but as a recognition of the great qualities which they had displayed as British seamen in connection with the rescue of the crew of the schooner "Clintonia," in the North Atlantic Ocean, on January 26, 1923.

When the S.S. "Empress of Scotland" was about 270 miles east of Halifax, N.S. the schooner "Clintonia" was observed flying a signal of distress and on approaching closer she was found lying derelict with spars and sails all carried away. Her crew of six men, helpless and perishing with the bitter cold were huddled together among the wreckage. A lifeboat with volunteers in charge of Chief Officer Robert MacMurray, as he then was, was at once launched from the "Empress of Scotland" and, at considerable risk to themselves, they came within hail of the "Clintonia." Realizing the futility of getting the lifeboat alongside owing to the violent pitching of the schooner, Chief Officer MacMurray passed a line and lifebuoy to the men on the schooner's deck, enabling them to jump one by one into the sea and be hauled aboard the lifeboat, and afterwards to safety on the "Empress of Scotland." It was, however, impossible to save the lifeboat, and it shortly afterwards disappeared. The rescue was worthy of the best traditions of the Brotherhood of the Sea, and the Government of Newfoundland recognized how greatly they were indebted to the two gallant British seamen for their splendid services. Whatever the future held in store for the Empire, said Mr. Gordon, the brilliant example set by these two men would be an inspiration to others to join the Mercantile Marine.

**RESOLUTION WAS NOT UNANIMOUS**

**Opposition was Expressed to Motion Regarding Budget Proposals.**

It now appears that the resolution of the Maritime Division of the Canadian Manufacturers' Association regarding the budget, passed at the Moncton meeting on May 7, was not unanimous, but on the contrary was put through in spite of protests.

In a Canadian Press despatch published in The Times-Star on May 8 it was stated that the resolution condemning the budget proposals was the unanimous action of the meeting. That was by no means the case, as is shown by the following letter from Angus McLean, president of the Bathurst Company, Limited:

"Sir—I notice in your issue of the 8th, an item 'Canadian Manufacturers in Session at Moncton,' in which it was stated that a unanimous resolution was passed with reference to the budget that is now before the Parliament at Ottawa, condemning same. I wish to protest against the article, as it is not a correct report of the meeting, and whoever authorized its publication certainly misstated the facts. There was considerable opposition to the resolution as presented, and it passed over the protest of a number of men who entirely disagreed with same, and I wish that you would publish this letter in as prominent a place as you published the report of the meeting. If you want further particulars as to what actually took place I would be glad to furnish same.

"Yours very truly

**ASSERTS GANDIER MADE STATEMENT**

Ottawa, May 11—Rev. W. G. Brown, Red Deer, has filed an affidavit declaring that Rev. Alfred Gandier, D. D., actually made the statement attributed to him in regard to the proposed United Church of Canada. Dr. Gandier later denied that he had made the statement, which was as follows:

"This is the beginning of a national Protestant Church for Canada and no government would dare to resist the demands of such a church." The affidavit filed by Mr. Brown reads as follows:

"In the matter of a petition to the House of Commons of Canada to incorporate the United Church of Canada and of a hearing of the same before a committee of the said House of Commons: I, Walter George Brown, of Red Deer, in the province of Alberta, a minister of the Presbyterian Church of Canada, make oath and say:

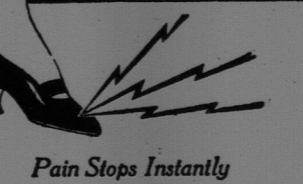

"1. At the annual meeting of the Presbyterian Church Union Committee, held in the room in the rear of St. James' Square Presbyterian church, Toronto, I was present and heard the Rev. Alfred Gandier, D. D., make the following statement in the course of an address on the proposed United Church of Canada: 'This is the beginning of a National Protestant Church for Canada and no government would dare to resist the demands of such a church.'

"2. I at once took down the words and make my affidavit that the statement is as I have represented above."

The affidavit was sworn to before George F. MacDonnell, of Ottawa.

**WORKERS' PATRON'S DAY.**  
Solemn high mass in honor of St. Joseph, patron of the Universal Church, and the saint of all working men, was sung in St. Peter's church yesterday morning with Rev. Fr. William Hogan, C.S.S.R., celebrant, assisted by Rev. Fr. James Woods, C.S.S.R., as deacon and Rev. Fr. George Coffin, C.S.S.R., as sub-deacon. Rev. Fr. Archibald McDonald, C.S.S.R., delivered a fine sermon on the life of St. Joseph.

The teachers and officers of the Fairville Methodist Sunday school held their annual meeting Friday evening in the school room of the church. Rev. J. M. Rice, pastor, presided. Encouraging reports were received from the various officers. B. L. Wood, treasurer, reported \$1,640.16 had been raised, of which \$820 was for the repair fund of the church. William Bunnell, secretary, reported an increase in membership. Mrs. Arthur Long, superintendent of the home department, and Miss Nina O'Brien, primary department reported. The officers were re-elected as follows: Superintendent, William McCavour; assistant superintendent, Harry Sweet; treasurer, B. L. Wood; recording secretary, Willard Bunnell; assistant secretary, Perry Kelly, and organists, Miss Edna Shaw and Miss Selma Ryan. The date of the annual picnic was announced for July 8 or 9.

**John Sayre Tests Out Fundy Gas**

"Both our Dodge and our Cole cars have travelled a thousand miles without cleaning carbon," began John Sayre, of the F. E. Sayre Co., Ltd., in his statement of definite facts about Fundy Gas. "With other gasolines we have found we had to clean carbon after six hundred miles."

"There's no argument about it that Fundy is the most volatile gas. Starts quickest, burns cleanest and for the same reason means the least leakage past your piston rings and consequent dilution of the crank case oil."

"In the last months the cleaner and stronger combustion we got out of Fundy saved us enough on oil to pay the difference in price and give us to boot the all-round advantages of a better gas."

**NEW X-RAY BRANCH AT HOSPITAL BEGUN**

**Department Admirably Equipped and Commissioners Are Well Pleased**

The new X-ray department of the General Public Hospital has been in full operation with Dr. A. Stanley Kirkland, radiologist, in charge since the hydro current was connected up a few days ago. It is on the main floor of the hospital where formerly the outpatient department was located. The

rooms are admirably fitted with the latest equipment. The department consists of a developing room for X-ray plates, the large X-ray operating theatre with half of it set apart for therapy work and the other half for making photographs; the small room in which the transformer is encased and the room for dental X-ray which is fitted up with a proper dental chair. These rooms are on the north side of the passageway. Across the passageway are the room where fluoroscopic examinations are made for quick diagnosis without the use of photography, the office where there is apparatus for the doctors to examine X-ray plates and a waiting room for the patients which is not yet furnished. At yesterday's meeting of the Board of Commissioners the fitting out of the X-ray department was referred to as a fine job done at a moderate cost and

M. E. Agar, the president, remarked that there was cause for real pride in the new department.

**ACCIDENT VICTIM BETTER.**

Mrs. George Mitchell, who was struck by an automobile on the Marsh Road, Sunday night, April 13, and conveyed to the General Public Hospital badly injured, was discharged from the institution last evening and conveyed to her home in the ambulance. Although very weak, she is improving. At the time of the accident it was thought that the woman would not

recover, and George Thomas, a taxi driver, who was in charge of the car that struck Mrs. Mitchell, was held at police headquarters for a few days.

**WARNS AUTOMOBILISTS.**

Provincial Constable Robert Crawford said last night that 80 per cent. or more of the automobiles on the highways in this section of the country yesterday had only one headlight or no headlight at all. He wished to remind the public that the regulations call for two headlights and a clear tail

light to show the license number. It considered the infringement of this law a serious menace to the safety of traffic and announced his intention of bringing offenders to court.

SPORT NEWS GLEANED FROM WORLD'S CENTRES

DEFENSE A FACTOR IN BASEBALL GAMES

Is Now Considered More Essential Than in Former Years.

By HENRY L. FARRELL. New York, May 12.—(United Press)—That old notion that in many games the best defense holds good in many ways in the ring, on the gridiron, between the chalked lines of the tennis court and on the baseball diamond.

Early season examples in the major league pennant races have gone to prove, however, that an adequate defense is becoming a most important factor in baseball.

Jack Dempsey, the heavyweight champion, is the outstanding example of a fighter whose vicious and speedy offense has covered up one of the weakest defenses a heavyweight champion ever possessed.

It is taking one to give one with less danger than a less durable fighter. Dempsey also has more powerful and more versatile offense than any fighter in the ring.

The Cornell football team of the last three years has been another example of the value of offense. Gil Doble sends his teams out to get the jump and keep it there for three successful seasons, although it is argued that the Cornell teams have never had to defend themselves against a real formidable offense.

Through three warm campaigns in the National League, John McGraw pushed the New York Giants through a pennant with an inferior pitching staff and a good 70 per cent. of the defense in baseball is represented in the pitching.

McGraw was fortunate in possessing, through those campaigns, an impeccable infield and a very strong outfield, but he learned that in the modern game and out of defenses must fall some times when his pitchers could not prevent the opposing offense from dropping them where his defense could not get them.

The Giants realized what a factor the pitching defense had become in the modern game and last winter he spent piles of money in gathering all the good prospects in the minor leagues. The results secured in the early part of the pennant race from his young pitchers were highly satisfactory.

Ball Problems By Billy Evans

QUESTIONS. 1. What are the rights of the base runner to advance on an infield fly? 2. Does a base runner, after crossing first base, and then making a break for second, forfeit his right to return to first without liability to be put out?

ANSWERS. 1. A base runner can now advance on an infield fly, just as on any other fly ball that is caught or muffed. 2. A base runner, after crossing first base, and making an attempt to go to second, immediately forfeits his right to return to first without liability to be put out.

OCEAN RACE TO START JUNE 27

New York, May 11.—The ocean race to Halifax from Long Island Sound, off New Rochelle, will begin June 27. Rear Commodore C. S. Cowenhoven, of the New Rochelle Yacht Club, said today.

FLOYD JOHNSON TO BOX RENAULT

New York, May 11.—Floyd Johnson, blond Iowa heavyweight, who staged something of a comeback Friday night, when he knocked out Quintin Romero, of Cuba, in the seventh round of a 10-round match at Madison Square Garden, will battle Jack Renault, hard-hitting Canadian, in the next bout of a campaign which may put him again in ranks of title contenders from which he was dropped a year ago.

Denny Burns, right-handed pitcher, who looked so good in the few games he worked for the Athletics last fall, is meeting with all kinds of trouble this spring.

BURKE IS STARRING.

One of the best jockeys at Havre de Grace this spring is Jack Burke, who rode six winners in his first eleven starts, and whose "average" to date is still considerably better than .500.

WILLS IS READY FOR BOUT TONIGHT

Challenger for Dempsey's Crown Confident He Will Defeat Madden.

New York, May 12.—After waiting three years for an opportunity to meet Jack Dempsey for the heavyweight championship of the world, Harry Wills will meet Bartley Madden tonight in a fifteen-round bout, the first of a series which he hopes will place him in the ring with the champion.

Madden is not regarded as of championship calibre, but is a tough fighter of experience who has been a constant stumbling block for other challengers. He is expected to afford an opportunity for a critical judgment as to whether Wills has lost ability during the inactivity and whether his hand, recently broken, will justify a championship.

Officials of the Queensboro A. C. reported that the advance sale already has aggregated \$48,561. Indications are that the bout will draw a gate of more than \$100,000 and a capacity attendance of 24,000.

It was learned yesterday that Jack Kearns, manager of Jack Dempsey, had wired Johnny Dempsey, brother of the champion, to purchase ringside tickets for the bout and to report to Los Angeles a detailed description of Wills in action.

Presents Trophy For N. B. Baseball Title

A trophy for presentation to the winners of the N. B. senior amateur baseball championship has been prepared by Senator J. A. McDonald, of Shediac. It is a handsome bronze shield mounted on a rosewood base. This is one of the most beautiful trophies ever put up for competition in the maritimes and A. W. Covey, president of the M. P. B. A. A. U. of C. feels grateful to Senator McDonald. The trophy will be on display in St. John in the near future. The champions last year were the St. Rose's team, of Fairville.

ST. ANDREW'S BEAT TROJANS AT SOCCER

The first soccer game of the season was played on the North End Improvement League grounds last Saturday afternoon between the Trojans and the St. Andrew's eleven, the latter winning by a score of 4-2. This was merely a practice game but it enabled the management of both teams to see what kind of material they had on hand. The St. Andrew's are more experienced than their opponents and showed a good knowledge of the game. The Trojans have two good fullbacks in the persons of Captain Palin and Captain Poston. Arrangements have not yet been made for a second game.

TO STAGE BOXING BOUTS TONIGHT

McInnes and Morris Will Appear in the Feature Attraction.

Clyde McInnes, former holder of the Eastern Canadian bantamweight title, is scheduled to box ten rounds with Mickey Morris, present holder of the crown, at the Queen Square Theatre this evening. His manager accompanies him and both are confident that Mickey will lose his title. McInnes indulged in some roadwork yesterday morning and a light workout was on the card for the afternoon.

McInnes and Morris weighed in at one o'clock this afternoon according to the regulations of the bantam title. The title is at stake in this fracas. Kid Black, Portland, Maine, who is on the programme for six rounds with Tom Barrett, local boxer, also arrived in town on Saturday and is in the pink of condition. There will be a four round scrap between Dick Shields and Art Totton, both of this city.

CHAMPIONS HAVE THREE GAME LEAD

Babe Ruth Has Been a Big Factor in Their Success.

New York, May 12.—Events have conspired to provide a worthy setting for the ceremonies at Yankee Stadium Wednesday when the Yankees hang up their world's championship banner and Babe Ruth receives his diploma as the honor man of the National University of sport in 1923.

The world's champions at the top of the baseball world with a three game lead achieved after a fight that began in seventh place. In the upward climb Babe Ruth has been an important factor. Several of his seven home runs have been decisive, his lesser hits have been timely and his fielding of an excellence usually hidden in the glamor of his batting.

The Yankees were prevented from meeting the White Sox yesterday by rain that also stopped the Detroit game at Washington. Boston and St. Louis in the American and Pittsburgh and Boston in the National were not scheduled.

Cincinnati, terror of the west, was defeated by the Phillies. The Giants lost their second game in two days to the Cardinals. The score was 3 to 2. Carlson shut out Cincinnati, 2 to 0, and allowed only one Red to touch third, while the Phillies were hitting Luque. Little Dinty Grinn pitched good ball for the Giants, but Travis Jackson, with three errors at shortstop, gave the game away. Brooklyn got to Jacobs in the late innings for three runs but the Cubs were friendly with Reuther all the way and won, 5 to 4. In the only American League game, the Athletics lost their 11th straight game and Coveleski won his first as Cleveland hit three pitchers for an 8 to 5 victory.

NEWS NOTES GATHERED FROM THE WORLD OF STAGE AND SCREEN

COLORED MOVIES  
 NEXT BIG STEP

Coming Years Expected to See First Signs of Development.

(By HAROLD S. SWISHER.)  
 Hollywood, May 12.—(United Press)—Color photography is coming into its own in the production of motion pictures, and will constitute the next marked advance in development of the cinema art, in the belief of several of those "in the know" in studio-land.

The Western drama is, to a large extent, a glory of the past. The crook stuff, with the regeneration in the last reel, has been overdone. The society plot, with the imagination, allowed any solution desired, is at its wane. There must be something new.

Color photography will furnish it, many say. For some years past there have been efforts to work in colored footage in infrequent pictures, but the coloring has generally been too crude to be convincing. The art is being perfected, however, and offers a new field.

"For years the use of color in photoplay productions has been very much the exception," according to George Fitzmaurice, well known director.

"There have been short subjects in color which, however, have been looked upon as novelties. In photoplays an occasional touch of color has been employed to enhance the beauty of a scene. This, however, has generally had an unfavorable effect upon the black and white scenes, which were made less effective by contrast.

"The effect was the same as the use of soft-focus views here and there in a photoplay, which practice has now been practically discontinued for the reason that the contrast between the soft focus effects and the sharp views tended to make the production an assortment of different photographs rather than a smooth method of telling a story.

Photographic Tricks.

"In other words, the illusion was interrupted. The mixed use of treatments made one conscious of photographic tricks instead of keeping one's mind on the story. Photography should be used to enhance a story or a situation and not to overwhelm it, as it were.

"It is my belief that color will to a large extent replace other methods of registering contrasts in future photoplays. This will prove only one of the many advantages in the use of color. One producer has just finished a production which will be colored in its entirety. This will prove another interesting experiment.

"Others are devoting more time to the thought of color in productions than ever before. It is plainly evident that we must look to the use of color photography for our next great step in the progress of motion pictures, and it is also apparent that the coming year will see the first signs of greater development of this factor in the film art than ever before."

OPERA STAR IS TO BE MISSIONARY

Russian Singer Reaches Canada—Wealthy Chinese on Way to See King.

Vancouver, May 12.—Madame Maria Karinskaya, celebrated opera singer of pre-revolution days, a favorite in court circles during the czar's regime, and a cousin of the famous Russian bass, Chaliapin, arrived here on the Canadian Pacific S. S. Empress of Australia last week.

Madame Karinskaya was forced to seek refuge in Harbin to escape persecution at the hands of the Bolsheviks on account of her alliance with the White Army in Siberia, under General Kolnak. Conversion to the Protestant faith has brought Madame Karinskaya to America, and after a short time in Toronto she will take up missionary training in Philadelphia. She has renounced many flattering offers to return to the stage and to enter the movies. She will leave for Toronto this evening with a party of missionaries who are returning to Canada from the foreign fields.

Goes to Buckingham Palace.

On his way for a conference with King George at Buckingham Palace, Kom Tong Ho, a wealthy Chinese of Hong Kong, arrived on the Australia.

Mr. Ho was decorated in 1921 with the order of the Cross of St. John and Jerusalem by the British Government for the excellent service he rendered to Britain during the war. While not a Catholic, Mr. Ho hopes to visit the Pope before returning to China. Like his brother, Sir Robert Tong Ho, he is a keen admirer of the British regime in Hong Kong, and believes that this rule opened China to the world of trade and commerce.

Accompanied by her husband and her two children, Mrs. J. L. Graham, daughter of G. H. Wyman, one of the pioneer British business men of Kobe, was among the Australia's passengers. Will her family she is on her way to visit relatives in England.

NEW RUSSIAN TENOR.

Leningrad, May 12.—A new lyric tenor has been discovered who will be the world's greatest, according to Leningrad Opera House authorities. He was discovered in a village near here and is a Russian peasant. He is now studying here.

Samuel Goldwyn plans to make his Potash and Perlmutter films an annual affair. Each year he will make a picture dealing with the adventures of the famous partners. Just now Mr. Goldwyn is producing "Potash and Perlmutter in Hollywood."

FOREIGN DEBUT

Tess Davidson of Sioux City, Iowa, is appearing in the French opera, "La Guitare," at the Rianon-Lyrique in Paris. She is one of the few American girls to attain success on the French stage.

Remarkable Story  
 Of Cissie Loftus

Returns to Stage After Ten Years' Absence—Conquers Drug Habit.

"My heart's a mirror—clouds reflected over. But passing, leave no traces anywhere."

Boston, May 12.—This verse, written by herself and about herself, reveals the whole story of the remarkable "come-back" of Cissie Loftus to her former high place on the stage. As one of the highest priced headliner on B. F. Keith's, this great mimic and actress returned to Boston this week triumphant, after an absence of 10 years, calmly admitting she has conquered the drug habit and, incidentally, claiming she has found the eternal fountain of youth.

Talks of Wisdom.

And, she declares, youth isn't in flapper styles, dyes, dieting, exercising, important chapters in the book of the woman who may be young. She recommends none of them to her whose aspirations hark back to 16. Nor does she approve of 18's coquetry and romance for the more mature. No, this "Cissie" of a thousand and one romances talks of wisdom now.

"I feel as young as I did when I was 20, so why should I make myself uncomfortable with flapper fashions and dye my hair?"

It was "Cissie" Loftus speaking in that same golden voice her admirers of 10 years and more remember. Her eyes blue, very blue; her skin clear and pink, she was still the same beautiful "Cissie." True she has lost that very slender contour, and her long, brown hair is short and here and there it is very white, but these changes, her slight plumpness and the silver contrasts in her brown hair, seem to have added only to her charm and attractiveness.

"I Fought Very Hard."

"No," she smiled, "my illness did not seem to affect my appearance, because," she smiled again, "it didn't touch my spirit. I fought very hard, not even my closest friends know just how hard I fought, but I won and I'm so happy, so happy I want to give myself completely to the stage."

As it is generally known, Miss Loftus confirmed the story that during the time she was addicted to the drug habit she stayed in England, which accounts for almost the 10 veiled years of her life. In 1914, already suffering from the use of morphine which had been administered to her after the birth of her baby in Chicago, she went over to her native land for the purpose of making her fight, and a little over a year ago, she won her victory.

Two tickets for the opening night of "The Right to Dream" will be awarded to anybody under the sun who sends in the best essay of 300 words on the theme of "the right to dream," without mentioning Freud. All essays are to be addressed to the press department.

GREATEST PLAY EVER OFFERED BY THE  
 NEW YORK'S Biggest Success  
 THE BAT  
 CARROLL PLAYERS  
 OPERA HOUSE  
 ALL THIS WEEK

An Explanation

For two years Mr. Carroll has been trying to procure the St. John rights for "The Bat," which was probably the most successful play ever produced in New York City. Finally he has been successful, but not only did it become necessary to pay double the price ever before asked in St. John, but Mr. Carroll was sold the St. John rights for "The Bat" only on condition that the prices charged would be scaled at one dollar top—the lowest price ever charged for "The Bat"—thus preserving the dignity of this metropolitan production. However, the only change in price will be an increase of 25c. on the first four rows in the orchestra at night. Other seats at usual cost. Also matinees.

New York Opinions

"The best mystery play New York has ever seen."—Telegram.

"A wild mystery melodrama, considerably wilder than any seen in these parts for a long time—thoroughly interesting and immensely amusing."—Times.

"Keeps standing on the tips of their toes."—The World.

"Baffling, exciting and a succession of thrills with interludes of comedy that were greeted with shrieks of laughter."—The Tribune.

"Has never been equalled for baffling and delicious thrills."—The Globe.

"Thrill after thrill with everybody fooled to the top of the bent—once sensation after another."—Daily News.

"A play of sweeping movement, sudden turns, quick surprise and astounding solution."—Journal.

"The Bat," which is thrilling, mysterious and at the same time screamingly funny, stands out sharp and clear above all dramatic plays offered during the past generation.

Just what "The Bat" is all about—that's a secret. In fact, wherever "The Bat" has been played, the audience and critics are earnestly requested not to disclose the secret of the story and they never do. Suffice to say, it is one thrill after another, interspersed with countless laughs.

Mary Roberts Rinehart and Avery Hopwood, co-authors of "The Bat" are two of the most successful playwrights in America today. In fact, the record of their collaborations fail to show a single failure.

Are Not the Above Convincing?

Outstanding Success

The astounding success of "The Bat" is not at all difficult to understand. In the first place it is a stirring, thrilling, mystery story—the kind of a story that every man, woman or child enjoys. And in the second place, it is every bit as full of laughs as it is of thrills. Thrills and laughs—an unbeatable combination whether in a short story, a novel or a play.

Not a little of the success of "The Bat" is due directly to the sportmanship of the theatrical critics and theatergoers who have seen it. The authors and managers unite, wherever "The Bat" is presented, in requesting that no one disclose the secret of the play and so far as is known, no one has ever broken faith in that regard. The result is that there is still the same delightful surprise in store for theatergoers today as there was the first night "The Bat" was ever presented on any stage.

Owing to the great interest centred in the international theatrical success of "The Bat," it is well to state that this play ran for more than two years in New York, one entire year in Chicago, and solid seasons in Philadelphia and Boston. It will go down in history as breaking more box office records than any other play in our time.

"It certainly is one grand show." That is the way the famous critic of Life summed up his impression after witnessing a performance of "The Bat," the tremendously successful dramatic play by Mary Roberts Rinehart and Avery Hopwood. After all has been said and done about "The Bat," Life's critic surely has offered one of the best descriptions that could possibly be given of the play.

"The Bat" is primarily a mystery story. As such, it is unquestionably in a class all by itself. In fact, scores of critics have unhesitatingly called it the greatest mystery play ever produced. But there is real drama and there is comedy in "The Bat." In fact, there is quite as many laughs as thrills during the play and as entertainment, pure and simple, it is 100 per cent plus.

Suffice to say, the story of "The Bat" is well worth while. It must be. No play in years has had quite the success of this play.

Next Week will be Full of Surprises and Good-byes!

NEW HOTEL HERE WILL MEAN A BIG VOLUME OF NEW MONEY FOR ST. JOHN

It Appeals to Civic Pride as Well as to the Pocket—Reasons Why.

Do the people of St. John, particularly the men whose money and whose example are great factors in community effort, yet realize what a great stride forward the new hotel will mean for the city?

The fact that the tenders for the erection of the new Admiral Beatty Hotel are now under consideration in Montreal has increased the interest which has surrounded this project ever since its inception.

The start on actual construction, it is evident, will have a beneficial effect in building circles, and will doubtless open the door for greatly increased building activity throughout the city.

But that is only one side line of the benefits the hotel will bring. And even the expending of \$600,000 or more for the erection of the hotel building will in the long run be only one of the advantages that will accrue to St. John by the establishment of the new hotel here.

Incidentally, the increased travel through the city will bring a further immense influx of money in the way of purchases made by the visitors outside the hotel, which will mean a steady and important contribution to the cash in local circulation.

It appears to civic pride as well as to the pocket. It will be a tremendous advertisement, certain to produce a generous return in visitors and in business.

HYDRO MATTERS ARE DISCUSSED

Question of Employment of Non-Residents One of the Points.

Hydro matters were under discussion at a committee meeting of the City Council this morning. The question of poles, the employment of non-residents and purchase of meters were subjects of discussion.

The employment of non-residents was brought up by Mayor Potts who said he had received complaints that persons not rate payers were being employed by the Commission and just a few days ago a married man, a rate payer, had been laid off and a young unmarried man, non-resident, had been kept on the pay roll.

Commissioner Frink called attention to the placing of poles in the gutter in some places and inside the curb in others. He spoke particularly of a pole in Burpee avenue too close to a catch basin.

Mayor Potts asked if these poles were being placed without the authority of the Commissioner of Public Works.

Commissioner Frink said he believed the original plan had been approved by the road engineer.

Commissioner Wigmore said he had found instances where pole holes had been dug in unsuitable places but when the matter was called to the attention of the commission the location had been changed.

Commissioner Harding suggested that a list of specific cases be placed before the hydro commission and they be asked to remedy the conditions.

The Mayor suggested that Commissioners Harding, Frink and himself look over the matter of these pole locations and report on the matter.

A recommendation by the Civic Power Commission for the purchase of 1,000 ten ampere meters from the Canadian General Electric Co. at \$9,850 with \$600 additional for testing, payments to be made by bond issue, was adopted.

Commissioner Frink asked Mayor Potts if he were satisfied and the Mayor said he did not hear anyone objecting. He said the council had adopted the policy of bonding for almost anything and while he did not propose to be an obstructionist, he was going to be careful about some things.

WRECKAGE FROM CHAMPION FOUND AT ADVOCATE HAR.

Baxter McLellan, harbor master at Spencer's Island, where the ill-fated schooner Champion went down with two men on board recently, informs The Times-Star that wreckage from the schooner has drifted ashore at Advocate Harbor. Mr. Baxter says that apparently the schooner broken up, some pieces of the masts, part of the fore-sail, some rope and a broken hatch have been picked up by fishermen at Advocate Harbor.

"SCOTTY" STERLING IS TO PLAY ABROAD

Gets Offer From Joe Page to Join Montpelier Team.

Through the good offices of Joe Page, president of the Eastern Canada Baseball League, John "Scotty" Sterling, one of the fastest outfielders developed in years in St. John, has received an offer to sign up with the Montpelier, Vt., team in Mr. Page's league and has accepted. In his capacity as baseball scout and general all-round booster for St. John, President Page was impressed with Sterling's work in a few games during the latter part of the season in the Two-I League last year and has decided to give him a trial in fatter company. That "Scotty" will make good in the wish of all local baseball fans, with whom he was a prime favorite. He now joins the large company of St. John boys who have moved into a larger sphere in the baseball world—ninety per cent. of whom made good.

Like most youngsters in St. John, Sterling learned the baseball art on the sandlot diamonds scattered along the highways and byways of the city. He always was noted for his fleetness of foot, and was a leading base stealer in the Two-I League last year.

His Career. Sterling, who is a son of Mr. and Mrs. Andrew Sterling, Queen street, West St. John, was born and brought up on the west side. On the outbreak of war, he enlisted in the Heavy Signal Battalion and was seas four years. He was wounded once. On his return in 1919, he played with the Carletons in the city for a year. In 1920, he played with the Commercial and in 1921, he turned pro, and was with the St. Johns. While with his team, Sterling set up what is considered a record in the baseball world—twenty put-outs in the outfield in one game, without an error. In 1922, he played the outfield for the War in the West, and in 1923, he played for the St. Johns. He is 5 feet, 11-1/2 inches in height and in playing condition weighs about 180 pounds.

He expects to report to the manager of the Montpelier team inside of a few weeks.

TRADE MINISTER TO VISIT ST. JOHN

Hon. Mr. Low to Make Maritime Tour—Port Committee Meets.

Hon. Thos. A. Low, Minister of Trade and Commerce, in acknowledging a letter from the secretary of the Board of Trade, containing information with respect to the Port of St. John, makes this interesting statement:

"It is my intention some time within the next year to visit the Maritimes, as I have the West, and to ascertain just what my department may be in a position to do in the way of assisting the development of trade and commerce in this part of Canada."

The first meeting of the committee appointed to consider port publicity will be held this afternoon at four o'clock in the office of Mayor Potts to organize and discuss some plan of action.

Woman and Babe on Cycle Which Collides With Automobile.

Mrs. Allan Norman of Hampton had a narrow escape from death on Saturday when a motor cycle on which she was riding collided with an automobile in Hampton Village. The shock threw Mrs. Norman and her baby whom she had in front of her on the machine, over the handle bar and onto the hood of the car, but fortunately both were unharmed.

According to eyewitnesses Mrs. Norman came up Hampton Hill at a good rate of speed on the left hand side of the road. James Sharp drove from behind Flewelling's store and started across the road to his own place. He saw Mrs. Norman but expected she would turn to her own side of the road and when he saw she could not do this he stopped his car. The driver of the motor cycle shut off the power but could not avert the collision.

DIED IN KINGS COUNTY. The death of Benjamin W. Parker occurred on Sunday at his home in Whitehead, Kings County, after a lingering illness. He was 79 years of age and is survived by his wife, one son, Craig H. of Whitehead; one daughter, Mrs. Robert Simpson; and two grandsons, Kenneth and Roland Simpson, all of Barnesville, Kings County. The funeral will be at Whitehead at 2 o'clock on Tuesday.

LOOKED THREATENING. A brush fire broke out near Purdy & Green's line kiosk on Milling street yesterday, and, as it was feared it would spread to buildings close by, a still alarm was sent in for No. 1 chemical engine. When it arrived the fire had assumed greater proportions, and a second call was sent for No. 2 chemical. Between the two the fire was extinguished with no damage to any property resulted.

HYDRO REPORT. It was reported this morning at the office of the New Brunswick Electric Power Commission that last week there was generated at Musquash 223,000 kilowatts, the average was 1,830 kilowatts, giving a load factor of 50 per cent. The precipitation for the week was 4.6 inches and for the fiscal year, from November 1 to date, it is 22.40 inches. For the same period last year the precipitation was 26.46 inches.

AT EAST ST. JOHN.

More than the spirit of civic development and the progress of church life in this city was contained in the interesting ceremonies upon the laying of the cornerstone of St. John's Church in East St. John yesterday afternoon by Bishop LeBlanc and assisting priests. It was an occasion fraught with a distinctive angles of local interest.

Hundreds of citizens and family members who visit the eastern section of town on rare occasions only were struck with the progress of community life thereabouts. Large areas of new homes, superior roadway, tree growths and lawn layouts. A resident who has been interested in building lots said that several hundred parcels of land he was practically sold out.

During the ceremonies at the new church yesterday a conspicuous figure was Henry Lee, only surviving member of the well-known brick-burning firm, an industry identified with the business life of St. John for decades. Mr. Lee's aged heart was greatly gladdened by the solemn celebration marking the progress of his home-district, a section of country far outside the bounds of city and activity when he and his business began their industry many years ago.

Mr. Lee assisted the young priest of the new church, Rev. Father Walker, in making the final arrangements for the blessing of the edifice, buying flags, flowers, etc., and with his own hands making the golden star that surmounted the cornerstone as emblematic of the church's name, "Star of the Sea."

As Hiram Sees It

"Hiram" said The Times reporter to Mr. Hiram Hornbeam, "I have gazed upon white and blue dog-tooth violets. I have seen the catkins on the willows, the green leaves of rhubarb in the garden, and the freshly turned earth waiting for the harrow. I have seen the shining track made by the setting sun along the smooth surface of the river. I have heard voices in the twilight and the starlight—whispering voices that seemed everywhere around me. It was wonderful."

"You just found out spring has come," said Hiram. "It's a wonder you did. Most folks that goes out into the country now is watchin' the other ottomobeels an' wonderin' who's in 'em—an' talkin' about how the old boat works—an' braggin' about what they're gonto do when the roads is better. They're as crazy as bed-bugs." "I was not in a car," said the reporter. "I was walking leisurely, and letting the country talk to me." "Now that's fine," said Hiram—"fer it does talk to anybody that hes ears to hear. Some folks want. They don't want to hear nothin' but their own tongues an' somebody else's cackle. An' the worst of it is they're proud of it. By Hen!"
