#### " Beati mundo corde."

The School was first established in the village of Weston, near Toronto, and was opened May 1st, 1865. In consequence of the liberal offers of assistance made by the inhabitants of Port Hope, during the summer of 1868, the School was removed to that town, where it was established in buildings provided by the towns-. people, free of vent for three years. Early in 1871. the property, consisting of ten acres of land, together with the buildings upon it, and situated on one of the most picturesque sites in Canada, was purchased by The erection of large permanent buildthe School. ings, designed by H. Macdougall, Esq., Architect, Toronto, was then proceeded with. They furnish accommodation for about eighty boarders, with apartments for Masters, Matron, and Servants, and were occupied for the first time in January, 1872.

REET.

Trinity College School was, by an Act of the Legislature of the Province of Ontario, passed during the Session of 1871-2, constituted a corporate body, consisting of the Lord Bishop of Toronto, the Chancellor of the University of Trinity College, the Provost and the Professors in Arts of Trinity College, the Head

Master of the School, and such other persons as may from time to time be appointed by the Governing Body.

During the past year (1873) a large and handsome Chapel, capable of containing upwards of two hundredworshippers, and a spacious Dining Hall, have been erected at the east end of the new school building. Detailed descriptions of the new buildings are given in subsequent pages.

At the western end of the present range of buildings there is being added this year (1874) a wing running north and south, with a projecting tower on the west front. This addition will contain spacious Class-rooms, School-hall, Dormitories for about seventy more boys, and apartments for an increased staff of Masters and servants.

### Extract from the Port Hope "Times," April 2, 1874.

"The new School Chapel was opened for Divine Service on Sunday last (March 29) by the Lord Bishop of Toronto, an event which has been long looked forward to by the friends of the institution. The building, which is larger than is required for the present needs of the School, has been designed with a view to future increase. The style of architecture is the Perpendicular - a style which is usually employed in England for Collegiate buildings. It consists of a nave, 75x21 feet, and a chancel terminating in an apse 25x19 feet, and is attached to the east end of the School, making the total length of the buildings two hundred feet. It is of red brick, relieved by white brick facings and buttresses with cut stone caps ; the east end of the nave is run up into a bellcote, also of white brick. In each of the five bays, A into which the nave is divided, is a window in three lights, filled with cusped tracery of exceedingly beautiful character. The Chancel is lighted by a series of five small three light windows, one in each of the sides of the apse. These are at present filled with plain glass, which will shortly be replaced by stained glass windows, the promised gifts of friends ; the sub-

buildings ; running the west ss-rooms, ore boys, sters and jects will be illustrative of our Lord's childhood and His dealings with children. The interior is arranged in a matter somewhat different from that in ordinary use, but admirably adapted for the purposes required." At the west end of the nave is an ante-chapel communicating with the building, and entered from the outside by means of the stranger's porch ; over this ante-chapel is an organ loft. From the ante-chapel a broad passage leads into the chapel proper, which is seated lengthwise-the plan almost universally adopted in School and College chapels. The seats are of pine, stained and varnished, with top railings of oak and ends of ash, and are of an exceedingly neat pattern and very comfortable-a requirement which is too often overlooked in our church seatings. The remainder of the furniture is only of a temporary character, and will be replaced as soon as possible by permanent fittings executed from designs by the architect. At the east end of the nave is the choir, of dimensions 31x20 feet, reached by a flight of three steps of oak. This will contain the lectern, pulpit, and organ, and also stalls for the choir and the officiating clergy. Another step leads into the chancel, which is divided into two parts-the presbytery containing the sedilia, or seats for the clergy, and the Bishop's throne; and the Sacrarium, in which are the Altar and Credence.

"The nave windows, the gift of past and present boys of the School, are of thick rolled cathedral glass, in three tints, worked in a leaded geometrical design, and are remarkably chaste and beautiful; but the chief adornment of the chapel is the magnificent roof, which, as far as we Dominion plaster, sh and divide hammer-b and the he painted th of the prin this is bro trasting w gives a ve "The v upon the a and Mr. H

far as we know, has no equal in any church in the Dominion. It is an open roof in wood, without any plaster, showing the principals, the purlins and rafters, and divided by mouldings into panels. The vertical hammer-beams of the principals terminate in pendants, and the horizontal beams in shields, on which will be painted the emblems of the apostles. The edges, both of the principals and the purlins, are chamfered; and this is brought out by vermilion and blue, which, contrasting with the dark staining of the rest of the wood, gives a very pleasing and beautiful effect.....

"The whole workmanship reflects very great credit upon the architect, Mr. Henry Macdougall, of Toronto, and Mr. Bethune's foreman, Mr. John Cottrell."

## The Dining Hall.

The new Dining Hall, which is situated beneath the Chapel, was formally opened on the 5th of November, 1873, by the Most Reverend, A. Oxenden, D.C.L., Lord Bishop of Montreal and Metropolitan. It is a very handsome and spacious apartment, consistingof the hall proper, 63x21 feet, and a recess at the east end for the high-table 19x15 feet, raised two steps above the floor of the hall, and entered through a massive arch. At the west end is the Dinner-serving room, connecting directly with the kitchen, pantries, &c., &c., cut off from the hall by a sliding window. The main approach to the Hall is by means of an oaken staircase from the floor above, on which are situated the boys' studies, Masters' rooms, &c. The Hall is lighted by four three-light windows on each side, filled with tinted glass in geometrical lead-work, and with ornamental cusped heads ; the high-table is also lighted with similar glass windows, one at each end of two-lights each. The floor is laid with narrow boards of oak ; the ceiling is entirely of wood, handsomely panelled with mouldings, and showing the massive beams, supported by a double series of pillars, that sustain the floor above. The sides are wainscoted with pine, which, with all the rest of the woodwork, is richly stained and varnished. The tables are of white oak and are arranged at present to accommodate a hundred; if necessary, however, in the future, more than double that number can be provided for.

11

The Course of Instruction includes all the usual branches of a sound education in Classics, Mathematics, English, German, French, Natural Sciences, Bookkeeping, Drawing, and Vocal Music.

Pupils are prepared for the Matriculation Examination of the Universities, and the Entrance Examination of the Law and Medical Schools, the Army, Navy, &c. In the Modern Department special attention is directed to preparation for commercial pursuits.

The discipline and general management of the School are based upon the English Public School System. Out-of-School government is, accordingly, to a large extent, vested in the hands of the Prefects, who are selected from the senior boys by the Head Master.

#### FEES.

\$225 per annum; or \$75 per Term, for board and tuition.

\$60 per annum; or \$20 per Term, for tuition only. The Piano-forte is taught as an extra. Fee, for tuition and use of instrument, \$10 per term.

Each new boy, on admission to the School, is required to pay an entrance fee of \$4, which is devoted to the maintenance and improvement of the Boys' Library, and a fee of \$12, in lieu of bedding, &c., which are now supplied by the School, instead of, as formerly, by the pupils.

Master.

The above fees are inclusive of all School expenses, except books, stationery, drawing materials, &c., and medical attendance.

12

The payments for Board and Tuition, which are apportioned between the School Terms, must be paid strictly in advance. All other School Accounts will be sent in the usual way.

A half term's notice must be given in writing before the removal of a pupil. If such notice is not given, a half-term's fees will be collected.

The following Rule respecting the payment of Fees was adopted at a meeting of the Governing Body of the School, held on August 18th, 1870 :--

"The Fees for Board and Tuition in each Term, and any balance which may remain for Books or otherwise, from the previous Term, must be paid within a week after a Boy presents himself at the School. If this be not done, the Bursar is required to draw on the Parent or Guardian for the amount (with Bank charges,) at ten days, and should this draft be returned dishonored, the Boy must be sent home by the Head Master."

Books and Stationery are supplied in the School at the ordinary prices.

Boys over fourteen years of age will be admitted to the School only on the production of such testimonials of previous good conduct and diligence as shall perfectly satisfy the Head Master and the Governing Body.

#### BURSARIES.

h

2

The Corporation offers to the Sons of the Clergy in the Dominion of Canada, TEN BURSARIES of the annual value of \$50 each, tenable from year to year, during the whole period of a Boy's residence at the School, so long as his conduct and attention to his studies continue to satisfy the Head Master.

The Son of any Clergyman who is, or was at the time of his death, actually engaged in Parochial or Missionary work, or in a Church School or College, in the Dominion, shall be eligible for a Bursary. Written application must be made to the Corporation by the Parent or Guardian of the Boy, certifying that, without the aid thus afforded, the educational advantages of the School cannot be obtained for him. *Ceteris paribus*, preference will be given to the Sons of the Clergy in the Dioceses of Toronto and Ontario.

#### BOARDING.

Boarders are received into the new School House, a building warmed and ventilated on the most approved modern system, and furnished with bath-rooms and all other appliances which can promote the comfort and health of the Boys. It is under the personal supervision of the Head Master, assisted by three Resident Masters, who direct the Boy's evening work. The household arrangements are attended to by an experienced Lady Matron.

.13

It is particularly requested that Parents should send their Boys to School with their clothing, linen, and other requisites, carefully and clearly marked with the name in full.

It is desired that no eatables should be sent to the Boys during Term, with the exception of fruit.

Pupils from a distance are allowed, upon application, to remain in residence during the Christmas and Easter Vacations at a charge of \$4 per week for board. No Pupils are permitted to remain during the summer holidays.

It is recommended that pocket-money should be supplied to the younger Boys only through the Head Master instead of directly from home. A small sum furnished weekly is more beneficial than an occasional larger amount.
