

ROYAL BANK CLERK

In Halifax, Took His Father's Money.

Guy M. McCallum Obtained Thousands of Dollars from His Father to Deposit.

Withdraws the Money and Leaves for Parts Unknown—His Mother's Note for \$2,000—How the Son Tried to Work Another \$1,000 from the Father.

(Halifax Herald, 28th.) Guy M. McCallum was a clerk employed by the Royal Bank of Canada up to within a week or so ago. He had been for six or seven years on the staff of that institution, his work being confined, it is said, to the auditing department of the head office in this city. He was considered an efficient clerk and stood fairly high in the estimation of the bank.

It is not supposed that at the time there was any suspicion on the part of the parent that the \$3,000 was deposited in any other way than that which was shown by the bank book held by him with the bogus entries. He had no idea whatever of the other book, with the genuine entries, which showed the money in the son's name.

THE FATHER NOT SUSPICIOUS. It is not supposed that at the time there was any suspicion on the part of the parent that the \$3,000 was deposited in any other way than that which was shown by the bank book held by him with the bogus entries.

RESIGNED FROM THE BANK. This kind of business must find an end sooner or later, and a month ago Guy apparently decided that things should not go on any longer. At all events he handed in his resignation to the Royal Bank, to take effect in one month. But he did not wait for that time to expire to cease work. He had taken the precaution, however, to close the deposit account and withdraw his father's \$3,000, or so much of it as was still in the bank.

NOT ALL IN STOCKS. It appears that it was not stock speculation that took the whole of the \$3,000, but that it was possibly even more likely that the young man had liberally got the money from his father, a Maritime man, and while considerable of it has been spent and lost, that he has yet a good deal left. The young man has left for parts unknown with whatever balance of the money there may be, and his father's note for \$2,000 is in the hands of the brokers of course unpledged.

HIS FATHER'S MONEY. The father had available cash, a short time ago, amounting to \$15,000, more or less. Guy was in the bank, and his opinion was deemed worthy of consideration by the parental mind. His advice was that the interest of \$12 per cent, which \$3,000 of the money was bearing, was less than could be obtained, and that he should be receiving a greater rate, and he asked that he be empowered to deposit \$3,000 in the bank, and that 8 per cent could be obtained upon it.

THREE BARN BURNED. CENTREVILLE, Carleton Co., May 27.—About 8 o'clock Tuesday morning William Ritchie of Wicklow discovered his barn on fire, flamed by a good breeze two other barns that stood near by took fire, and all three were burned to the ground. When the alarm was given the flames had made such headway that only a resper could be rescued. In the barns were eight cows, four horses, some hogs, sleds, harness, farm machinery and hayting tools. Mr. Ritchie's loss is exceedingly heavy, as he has no insurance.

CHARGES OF DRUNKENNESS. The investigation into the charges of drunkenness and unbecoming conduct against Chief of Police Clarke by John McKeivley was begun by Premier Tweedie in the government rooms, Church street, Tuesday afternoon.

BOARD OF TRADE WILL MEET THE Chamber of Commerce Delegates. FREDERICTON, May 28.—The Board of Trade has been notified that delegates to the Chamber of Commerce of the Empire, which meets in Montreal this summer, will visit the capital on their tour through the maritime provinces, probably about Sept. 1st.

PARSONAGE BURNED. SHEFFIELD ACADEMY, Sunbury Co., May 27.—At noon today fire destroyed the parsonage of the Rev. J. W. G. Spurgeon, a large barn on the Glebe. The loss, \$3,000, insurance, \$200. All the furniture was saved. Farmers will finish planting this week, but nothing is growing for lack of rain. The hay crop may be a total failure.

DEADLY TORNADO. TOLEDO, O., May 27.—Northwestern Ohio was visited by one of the worst storms in its history about 4 o'clock this afternoon. The damage done in Toledo is estimated at \$100,000. This reports from all portions of northwestern Ohio indicate that great damage was done throughout the country, and especially in the oil fields of Wood, Hancock and Sandusky counties, south of Toledo. Three men were dangerously injured. R. G. Manning, superintendent of the drafting department of the American Bridge Co., Lynn Miller, sailer, and Lawton Twigg. They were caught under the tower of the steel building of the Block Company, which was blown over. Many other reports of slightly injured. The most severe damage was done at the plant of the Ohio Brick Co.

WHAT IS THE TROUBLE? MONTECALM, May 27.—Notices of a special meeting of the directors of the Dominion Iron and Steel and Dominion Coal companies, to be held here Friday, were sent out today from the head office of the company. The entire board of both companies, with the exception of Sir Wm. Van Horne and J. H. Plummer, will attend the meeting. It is stated that in addition to the report to be presented by James Ross a special report on the steel works will be submitted by F. S. Pearson of New York and Wm. McCauley of Montreal.

O. J. McCULLY, M. D. 163 GERMANTOWN STREET. OFFICE HOURS—9 to 12; 1 to 4; 7 to 8.

GRAND TRUNK PACIFIC

Further Consideration in the Commons Railway Committee.

No Progress Was Made—Mr. Bell Put the Case in Clear Terms from Maritime Standpoint—St. John's Protest Was Read.

(Special to the Sun.) OTTAWA, May 27.—In the railway committee of the House of Commons this morning with the reading of a protest from the St. John Board of Trade against the granting of a charter unless the interests of the maritime provinces were protected.

Mr. Bell insisted on the bill being placed in such a form as to meet the wishes of the people of the maritime provinces, who were almost unanimous in the opinion that the road must have its terminal at a Canadian port. By changing the route of the road so as it will pass north of Lake Winnipeg, a direct line can be secured which will directly reduce the distance to St. John and Halifax. The Grand Trunk Pacific must be entirely independent of the Grand Trunk, which would simply use the new road as a feeder.

Mr. Bell insisted on the bill being placed in such a form as to meet the wishes of the people of the maritime provinces, who were almost unanimous in the opinion that the road must have its terminal at a Canadian port. By changing the route of the road so as it will pass north of Lake Winnipeg, a direct line can be secured which will directly reduce the distance to St. John and Halifax.

ALMOST THREE THOUSAND.

CHAMBERLAIN LEADS

Will Rush Great Britain for Preferential Trade With in the Empire.

(Associated Press.) LONDON, May 28.—Mr. Chamberlain has again proved himself the strong man in the cabinet. In a debate which may prove the most momentous of the present parliament, he, in a frank and bold speech, further developed the policy which would be universally regarded as an entire reversal of Great Britain's fiscal position, and at the same time, he proved that he has managed to carry the government with him against their conviction.

The impression left on the minds of the crowded chamber was that the country is on the eve of a dissolution and that, as in 1890, Mr. Chamberlain has carried the country with him on the South African war policy, he has now converted his colleagues to the belief that he will be able to carry it again on the policy of preferential trade within the empire.

In addition to asking for a mandate to tax food he asks for power to enter into a tariff treaty with Germany on Canada's account and to fight the American trusts.

The debate practically ended with Mr. Chamberlain's speech and the house emptied into the lobby, for staying to hear Winston Churchill declare hostility to the colonial secretary's policy. What little enthusiasm was displayed was on the liberal side of the house. The conservatives hastened to the speech in chilling silence, indicative of alarm and uncertainty as to the outcome of the unexpected situation.

Nearly a hundred conservative members immediately intimated to the speaker that they would vote against his intention to link the opinion of their constituents on the new policy during the Whitechapel recess.

"MAY GOD PARDON ME." A Young Russian Kills His Brother's Mistress—Then Hangs Himself.

BERLIN, May 28.—News of a singular tragedy near Odessa, Prussia, reached here. Stefan Monastyrski, the owner of a large estate, met and loved a Viennese variety singer, calling herself Baroness Von Nassau, and had had her married to the cut-throat Fred von Haubert, who was practically out of their winter's work, besides threatened to divorce the baroness and leave the estate. One night, Stefan went to Odessa, and the next morning the corpse of the baroness was found on her bed. She had been strangled, and on her nose were the marks of teeth. From a leather strap attached to a hook in the wall hung the body of a man, who was the brother of the baroness.

OTTAWA, May 27.—Ottawa is to take a dramatic measure to deal with a rain fall. The country round about is suffering from prolonged absence of rain and the military department has consented to purchase heavy guns at Nepean Point in order to force the weather. The cannons will be kept in continually until a rain fall comes.

CHARGES OF DRUNKENNESS. The investigation into the charges of drunkenness and unbecoming conduct against Chief of Police Clarke by John McKeivley was begun by Premier Tweedie in the government rooms, Church street, Tuesday afternoon.

It was a warm session. Personal feeling, which seems to have been largely concerned in the bringing of the charges, ran high and evidence of a sensational variety was given in quantities. Nine witnesses were examined and so far the weight of the testimony seems rather to prejudice the character of the accused, and his backers than the accused. Mr. Clarke's turn, however, is yet to come. He goes on the stand at ten o'clock this morning.

The evidence yesterday revealed a remarkably mixed up state of affairs in police circles and an apparent conspiracy to oust Chief Clarke in favor of others who were to run the force along very different lines.

The continuance of the Chief Clarke investigation and unbecoming conduct against Chief of Police Clarke by John McKeivley was begun by Premier Tweedie in the government rooms, Church street, Tuesday afternoon.

FLAMES RAGE OVER TEN MILES.

Terrific Fires Are Sweeping Forests in Annapolis Co.

(Cor. of Halifax Chronicle.) LAWRENCEVILLE, May 27.—A terrific forest fire is raging south of Lawrenceville, which threatens the destruction of thousands of dollars' worth of property. In fact, the loss is already estimated at several thousand dollars. It has been raging for several days and now covers an area of about ten miles and is spreading rapidly.

On Tuesday night the dwelling and outbuildings of Matthew Shardon at Albany were totally destroyed. Several head of stock were also consumed and in the confusion the dwelling partly escaped with the flames. Mr. Shardon's loss will be heavy.

Help has been summoned from Lawrenceville, Middleton, Springfield and Bridgewater, and today hundreds of willing hands attempted to check the progress of the flames, but it is believed that unless a heavy rain comes quickly the damage will be almost appalling.

So far no lives have been reported lost, but it is difficult to forestall what will happen during the next twenty-four hours.

Davidson's lumber mill at Alpena is threatened, as is also that of Pickles and Mills Paradise. The latter firm have one hundred men out fighting the flames. The most that can be done is to chop down trees and brush with all haste. Inestimable damage has already been done to timber lands. The church, school house and station at Albany have caught several times, but in each case the flames were extinguished before any headway was made. The people living in the neighborhood of the fire are on the alert night and day, and are praying for rain.

NEW YORK, May 26.—Daniel J. Sully, formerly king of the cotton market, has closed out his big deal and has not a bale of cotton, either long or short.

He has cashed in all his profits and the money has been divided between himself and the two Wall street operators who backed him. The three members of his syndicate have had a consultation and have decided to sell Sully will sail for Europe on June 3, to be gone the remainder of this year.

The profits of his pool were \$2,000,000 and each member received a third. This profit was made without the actual expenditure of a single dollar, although there was an agreement to make good losses to the extent of \$500,000, if any should develop.

Friends of Mr. Sully who followed his movements made upward of \$100,000,000 in it, and if any of them are still in the market it is against the advice of their former leader.

Here is the true story of the Sully deal as told tonight by one of his two backers:

"I chanced to meet Mr. Sully early last winter, and he astonished me with a relation of what he had done. He said that he had a deal in cotton, and that he had a real situation in cotton. He said that he had a deal in cotton, and that he had a real situation in cotton. He said that he had a deal in cotton, and that he had a real situation in cotton.

FIRE IN ALBERT

And Kings Cos. Do a Big Lot of Damage.

MONTECALM, May 28.—Forest fires have been raging in the lower part of Alberta since Monday, and apparently took fresh impetus with today's gale and the air is filled with smoke. There has been no rain here for about ten days and it is much needed now to put out forest fires as well as to give crops a start. Unless it comes soon the outlook for grass will be bleak.

Mainhurst cheese factory was destroyed by fire on Tuesday night with all its contents. Loss about \$1,000 with the exception of the cheese. The origin of the fire is unknown. This was a new factory, thoroughly equipped, situated near Kear's Pond and just erected this spring by the farmers of Keolis and Mainhurst in Salisbury parish.

SHEFFIELD. Wire Fence Around a Graveyard—Shipping Fenced May to St. John—Local Notes.

SHEFFIELD, May 28.—A wire fence is being put around the Baptist church and graveyard at Lakeville Corner.

A new bridge and turntable will be erected over the main thoroughfare, connecting the highway and the inter-rail. A regular ferry will run every day until later in the evening, with a faithful man and a cow, at the expense of contractors, C. F. B. Simmons & Co.

Councillor S. Flewelling, wife and children are in Sheffield, at the home of Mrs. Jonathan Bridges, Mrs. Flewelling's mother.

M. C. Harrison and Thomas Bridges are shipping produce by every alternate day from McGowan's wharf to St. John.

The low freater has proved quite an advantage to the intervals farmers, as it brought no driftwood trash on the moving ground, but it has been very destructive on the intervals banks, carrying away some of the highway guardrails, rendering them impassable in some places in Lower Sheffield.

The tug Fannie and Blamark are carrying away some of the French Lake, handling raft of lumber for the St. John market. John P. Bridges with his tug Clayton and barge is loading lumber at Newmarket, for the Boom Company.

Frederick B. Jewett, who has been very low with typhoid fever, is slowly improving.

William, only son of the late William Gilbert, barrister at law, has returned from the United States, where he made his home for many years as an architect. Mr. Gilbert is housekeeping in Sheffield for the present as a temporary stay. He proposes to build a domicile in modern style on Major Island, a valuable property owned by his late father, and forefathers for generations past, since the early settlement of the country.

H. Perley of Mauerville and Manley Landon of Lakeville are selecting today a suitable site for a hay barn on the premises of Miss Annie M. Johnston, the Loder farm.

C. Spurgeon Bridges & Co. have taken the contract to haul off and raft a quantity of lumber in some of the tributaries of Queens Co. for the Boom Company.

SHEFFIELD ACADEMY, Sunbury Co., May 27.—At noon today fire destroyed the parsonage of the Rev. J. W. G. Spurgeon, a large barn on the Glebe. The loss, \$3,000, insurance, \$200. All the furniture was saved. Farmers will finish planting this week, but nothing is growing for lack of rain. The hay crop may be a total failure.

Butte, Mont., is not a bush, leaf, flower, or even sprig of grass is to be seen. The desert of Butte, couldn't be more devoid of verdure. The cause of this is due to the fumes from all the smelters, that are destructive to all vegetable life.

KNAPSACK SPRAY PUMPS.

With Patent Agitator. For Orchard, Vineyard or General Use.

The Tank holds five gallons. This is the only Knapsack outfit on the market with an Agitator. It is so arranged that no water can drip on the operator. Can be operated by either the right or left hand. The discharge can be graduated from a fine spray to a solid stream, or shut off entirely.

We also have Pumps of all kinds for all purposes.

Agents for A. G. Spaulding Bros' Sporting and Athletic Goods.

W. H. Thorne & Co., Ltd.

42, 44, 46 Prince Wm. Street, Marketnare, St. John, N. B.

OTTAWA LETTER.

Lord Minto's Appointment as Governor General for Another Year.

The Most Bitter Pill the Laurier Government Has Recently Been Compelled to Swallow.

How Jim Sutherland's Services in Office Made Things Easy for Him. Helplessness of the Government to Grapple with the Question of Transportation.

(Special Cor. of the Sun.)

OTTAWA, May 28.—The news that Lord Minto has been re-appointed as Governor General for another year has been the bitterest pill the Laurier administration has been forced to swallow for some time. It is a blow to the Liberal party, and a triumph to the Conservative party.

Lord Minto earned the enmity of the Liberal leaders when in October, 1899, he pointed out to the House of Commons that the Government had no plan for sending a contingent to South Africa.

Lord Minto in serving his country did not do anything that was not the duty of a Governor General. He was a man of high character and high ability.

The news of the extension of the Governor General's term caused great excitement among the rank and file of the Liberal party.

The appointment of Lord Minto for a further term, apart from the character of the government, is an important one. It is well known that the Governor General has always been in close touch with the Hon. Joseph Chamberlain, whose views have been strongly advocated by Lord Minto.

The appointment of Lord Minto for a further term, apart from the character of the government, is an important one. It is well known that the Governor General has always been in close touch with the Hon. Joseph Chamberlain, whose views have been strongly advocated by Lord Minto.

the home stretch, carrying his estimates, at a lively rate. The new money of public works has had a hard time of it explaining away the big figures of his term, but it was his business to do so.

A return made in connection with the Sorel improvements shows that the Government has been unable to do anything to help the Sorel people.

The arrangement under which the Government was induced to vote such large sums of money was a most graceful one. It was a triumph for the Government.

When the same question was up before the House last session, Sir Wilfrid Laurier was asked for an expression of opinion as to the necessity of the work.

The premier made this announcement only twelve months ago, and Honorable James Sutherland was invited to defend the work on the same ground.

In this matter we have a splendid example of the helplessness of the Government to grapple with a question of transportation.

Several of the leading butchers have consulted many of their customers and are greatly encouraged with the success they have met with.

PARLIAMENT.

OTTAWA, May 28.—The common announcements were made on the transportation question.

Mr. Borden advocated railway extension under government auspices. He wanted to see Canadian ports developed. He favored Quebec for summer and winter ports.

Mr. O'Brien contended that the construction of the Grand Trunk Pacific should not be considered from the narrow view of east and west.

Mr. O'Brien contended that the construction of the Grand Trunk Pacific should not be considered from the narrow view of east and west. It did not matter much how grain was forwarded so long as freight rates were reduced in the west.

TRAFFIC AGAINST NATURAL DISADVANTAGES.

No All Rail Line Running from the West to the Atlantic could compete with the Canadian Pacific which sent freight from the head of the great lakes by water to eastern points.

Mr. Charlton advocated railway extension under government auspices. He wanted to see Canadian ports developed. He favored Quebec for summer and winter ports.

Mr. O'Brien contended that the construction of the Grand Trunk Pacific should not be considered from the narrow view of east and west. It did not matter much how grain was forwarded so long as freight rates were reduced in the west.

KUMFORT.

TEACHERS' EXCURSION.

The Pedagogues of York Co. Visited Currie's Mountain Last Week.

A Delightful Ball in the Steamer Aberdeen—A Pleasant and Profitable Holiday—Geological Notes of the Mountain.

(Fredericton Gleason, Sr.) The members of the York Co. Teachers' Institute could not have been favored with more delightful days for an excursion than that of yesterday afternoon, when about 150 members and their friends enjoyed a sail to Currie's Mountain on the steamer Aberdeen.

The excursion was a most successful one. The weather was perfect and the scenery was beautiful. The teachers enjoyed the trip very much.

SUN PRINTING COMPANY, ALFRED MARKHAM, Manager.

NOTICE.

When a subscriber wishes the address on the paper changed to another Post Office, the OLD ADDRESS should ALWAYS be sent with the new one

THE SEMI-WEEKLY SUN.

ST. JOHN, N. S., MAY 30, 1903.

A MESSAGE FROM ST. JOHN.

(From Wednesday's Daily Sun.) The Sun prints today a message addressed to the federal representatives of St. John signed by one thousand of this constituency.

A glance at the signatures will show that they are representative of St. John citizenship in all departments of activity, and in both political parties. Never was a list circulated to which signatures were more rapidly and eagerly attached.

In this matter the Sun has had three objects in view. One was to make sure whether there was substantial agreement and practical unanimity in St. John on this question of the Canadian terminus.

Another was to enable at least a considerable portion of those interested in this important national question to make their own personal appeal to their representatives, and to assure them of their support on this issue.

Again, as it has been said by at least one important Ontario journal that the people at large are not concerning themselves with the question of national railway routes and national ports, the Sun desired to show the house of commons, through the St. John members, that this criticism did not apply to one Canadian community.

There were times to try the experiment, the same proof could be furnished concerning any other maritime province constituency. This address and the signatures will be mailed to Mr. Blair today, and the minister of railways, who was for some years a resident of St. John, will be able to tell his colleagues that it is entitled to consideration.

PLAYING BY DEPUTY.

A short time ago Rev. Dr. Barclay of Montreal, who was in his younger days the best cricketer in Scotland and all round athlete, delivered an address in connection with some athletic celebration. This discourse was an eloquent justification of many exercises and competitions, and a stern criticism of professional sports.

penes, it must in the nature of the case be that the men are sought with the view to their power to play ball. This is the first consideration in making the engagement. It would not be the only consideration with a group of young men who played for the love of the game, and for their own development, and out of a spirit of worthy emulation.

Dr. Barclay points out that it is not opposed to the spirit of good sport to engage and pay a skilled man as a teacher and trainer. The objection is not to hiring professionals to do professional work, but to paying professionals to play the whole game, while the members of the club sit and look on.

Dr. Barclay points out that it is not opposed to the spirit of good sport to engage and pay a skilled man as a teacher and trainer. The objection is not to hiring professionals to do professional work, but to paying professionals to play the whole game, while the members of the club sit and look on.

IT MUST BE BUILT.

The proposal to extend the Intercolonial to Georgian Bay, or Lake Superior or Winnipeg on the Pacific, has been brought forward as an alternative to the requirement that the Grand Trunk Pacific should be extended to the seaboard. But whatever may be said in favor of a transcontinental government railway that scheme does not alone meet the particular requirements.

NOT THE BEST COMPANY.

A good many people in this part of Canada will agree with Mr. Epp and Mr. Emmerson that the Grand Trunk is not the best corporation to receive a government subsidy for a second Pacific railway. The Grand Trunk has large interests in Portland, where it is entrenched and where it means to stay. Thither will be carried all the winter export traffic that the company can control.

THE BRITISH COLUMBIA CRISIS.

Events are moving rapidly in British Columbia political circles. The government led by Col. Prior has been disorganized by the dismissal of two members and the resignation of another. In that condition the administration has been defeated in the premier's rejection of a motion of the premier. By a majority of two the assembly showed its want of confidence in what was left of the government.

CORNWALLIS.

CORNWALLIS, N. S., May 27.—Louis Harris of Tanville has taken a grant of land in Calgary, where he will engage in ranching, and for which purpose he is going to take some forty head of cattle from his farm at Randville to the Northwest Territory.

Recent frosts and dry weather have destroyed a great many of the fruit blossoms. Farmers are raising a small crop of fruit and a light crop of hay. The death took place on Monday of Emily Santfort of Canim, the deceased had been suffering for many months from consumption. She was 20 years of age and leaves a mother and two brothers. The death also occurred this week of Harrop Wells of Canim, an old resident of Kings Co. He leaves one brother.

Mr. J. J. Mackenzie of Truro is in Canim undergoing a transition from Dr. John Miller for a few weeks. Ebenezer Bigelow, who recently returned from a business college at St. John, is taking charge of the stores purchased from R. W. Kinman. Canning by the former's father, Thos. Bigelow and J. D. Ellis of Kingsport. The friends of Leonard Kinman, who lost house and barn by fire recently are collecting a sum of money to aid him in rebuilding. The people of Kingsport made up \$300 in a short space of time.

Mr. Austin, nee Leota Tupper, wife of the Rev. Mr. Austin, who was recently pastor of the Congregational Church at Sheffield, N. B., is in Kingsport for a few weeks for her health. The friends of Leonard Kinman, who lost house and barn by fire recently are collecting a sum of money to aid him in rebuilding. The people of Kingsport made up \$300 in a short space of time.

SOUTHAMPTON, N. S.

A Barn and Its Contents Burned—A Fire on the Indian Reserve. SOUTHAMPTON, May 25.—Jackson Smith's barn with all its contents was consumed by fire on Saturday night. The fire broke out at about 10 o'clock and spread rapidly. The barn contained a quantity of hay and all the farming implements were burned. The noise of the fire aroused the neighbors, but it was too late to save anything but the horses. The fire was the work of a tramp.

CHAPEMAN PULP MILL AFFAIRS.

(Chatham Advance, 26th.) (Monday's Telegraph.) The case of the Bank of Montreal for its alleged non-payment of the Maritime Pulp Co. Ltd., the Royal Trust Co., and the Bank of Montreal, was tried by His Honor Judge Barker, who rendered his judgment in favor of the bank. The judgment was a defeat for the pulp company, and the scandal which has now been created in the pulp industry is a date before he took office.

AN AMHERST MURDER.

AMHERST, May 25.—An inquiry into the cause of the death of E. R. Wood, who was killed by being thrown from the front door of a house here yesterday, was commenced today, with James Simpson as foreman. The jury is composed of J. P. Baxter, Arthur Schurman, Henry Hicks, F. A. Cates, Howard Trenton, Pines Wilson, Amos Brooks, Lawrence Minsie, William Andrews, A. I. Munroe and Luther Morra. Witnesses were called and testified. The inquest was adjourned to allow doctors to make a post mortem examination, performed by Drs. Macdougall, Morse and Avarad. The outer portion of the head showed marks of violence, the forehead was fractured, there was no fracture of the skull. A blood clot was found covering the entire right hemisphere, producing a lateral compression of the brain, which caused a speedy death.

THE DRUGGISTS ARE AGREED.

The street and only Paines Corn and Wax were sold on the market. It was the first corn since the market was still leads all competitors. Always refuse a substitute.

SUPERINTENDENT OF SCHOOLS FOR FIFTEEN YEARS.

Professor Powell, of Washington, D. C., Recommends Per-ru-na.

SOUL straightforward evidence can be overlooked. What the common people may carry weight, but when a man of national prominence says "Per-ru-na should be used in every household," it is a significant fact to the increasing prominence and undoubted efficacy of Per-ru-na.

Prof. W. B. Powell, of Washington, D. C., is one of the best known educators in the country. For fifteen years he has been Superintendent of the Public Schools of Washington, which is considered the best school system in the United States.

CHARLOTTE FISHERIES.

A Convention Held at St. Andrews and Some Resolutions Discussed. ST. ANDREWS, May 25.—The fishery convention for Charlotte Co. met at 2 o'clock today in Stevenson Hall, Turner Inn, at Grand Manan, president in the chair. A large number of fishermen from all parts of the county were in attendance.

APPOHAQUI NEWS.

APPOHAQUI, May 25.—Victoria Day was observed here quietly, fishing and driving being the only amusements. Among the strangers who spent the holiday in the place were Mr. and Mrs. John Trimble, St. John; Miss Secord, Amherst; Miss Abrams, Moncton; Miss Gills, St. John; Miss Haslam and Miss Walter, Sussex; Dr. Sherman, Burgess, Shemogue, W. Co.; Mr. and Mrs. Burgess, Lindsay, Ont.; A. H. McCready, Sackville, N. B.; and Mrs. William Parks, St. John. Visited, Mr. Parks' brother at Lower Millstream on Sunday and Monday.

BATHURST.

A Heavy Loss by Fire This Week—House Hit by Lightning—Lumber, Beer, Lobsters and Salmon. BATHURST, May 25.—The house and outbuildings of Christie Curtis at Middle River, ten miles from town, were destroyed by fire on Tuesday with considerable farm implements and house furnishings. Mr. Curtis' loss is very heavy, as there is no insurance on the property. The fire was caused by lightning striking the roof.

BURGLARY IN CARLETON.

And the Burglar Chalked "Dead Easy" on the Door. "Dead Easy." These are the words a burglar, held inscribed with a pencil on the door of a Carleton County store, after having emptied the till and safely deposited outside a quantity of tobacco, candy, canned goods, etc.

FOREST FIRES IN VERMONT.

COLEBROOK, Vt., May 25.—A fire in the forest here in Vermont, Granby and Lewis in the state of Vermont, tonight raged with unabated fury. The lands, over which the flames are sweeping are owned by George Van Dyke and the Burgess Sulphite Co., whose loss is incalculable. Thousands of acres of timber have been destroyed, and there are no signs of the fire being extinguished.

ANOTHER OTTAWA FIRE.

OTTAWA, May 25.—Another serious fire occurred today on Catherine street, by which three houses and a store were destroyed. The fire was caused by the falling of a brick wall. The condition of one member is serious. A very high wind prevailed and the rest of the city very nervous.

ST. JOSEPH'S, MAY 25.—Victoria Day celebrated here in an ideal manner. The game played this afternoon between the Weldon street school boys of the railway town and the St. team of the college. The team of the small division of 4 resulted in a victory for the home nine. The score was 13 to 14—Much interest was shown in the college. Those who witnessed the game and on a whole it may be considered as one of the most exciting games played on the local diamond for some time. Those desiring of special mention amongst the visitors are Patterson, Armstrong and Sweetman. For the juveniles the stars were Johnny LaCombe, Chagnon and Gaudet. The delight occasioned by the game was increased by the news of the victory over the St. team of Montreal by a score of 5 to 4.

CITY NEWS.

Recent Events in and Around St. John.

Together With Country Items From Correspondents and Exchanges.

Sch. Ravola, which carried sand Sackville, has reached this port with coal taken in at Joggins.

The Norwegian bark Fritthof, Capt. Olsen, from Arendal, led by the shore at Martin's River, in the Lawrence, is a total loss. The crew were saved.

James Sealey of Kentville, a former St. John man, is in town on his way home from Montreal. Mr. Sealey, now a successful business man at Kentville.

The death occurred at Victoria Hospital, Fredericton, Wednesday, of J. Boone, brother of Alms House Commissioner R. H. Boone, of that city. D. passed has been employed recently with the St. John and was at the time only taken ill on Sunday last.

Schooner Marjorie A. Sumner, Capt. Reed, from Perth-Andover with coal while trying to make the water wharf at Moncton on Tuesday, went on the bank just below the wharf. She lifted and was so badly strained that she took on considerable water.

James Perc, Capt. Vall, at New York, May 24, from Brunswick, reported: May 21, lat. 36.25, lon. 73.55, passed detouring brig Bertha Gray, with a Russian vessel, both of which were from the wreck. Could not make out Russian's name; he reported as from Mexico for Antwerp.

Dr. Margaret Parks and Dr. Clark Olling are doing excellent work at Glad Tidings' hall. They have been visiting the hall and give free medical advice to all who apply. The people of Exmouth street Methodist church in their building are most cordially invited to help carry on this work.

There have been reports of late in many papers that the Bank of Montreal will shortly extend its connection throughout the maritime provinces. E. M. Shabing, president of the bank, manager, talking to the Globe yesterday, said he had no information of any proposed extensions in this direction.

Bark Rescue, Capt. Tooker, from Wilmington, N. C., for Kingston, J. A., before reported, was on her way to Boston on Tuesday, and after his departure the money was missed. Word was received from the captain that the vessel was on the marine railway for inspection.

Hanson Mabee, an employee of the Cushing box factory, is under arrest, charged with stealing \$30 from Mrs. McDonald, Fredericton, who he boarded. He purchased a ticket for Boston on Tuesday, and after his departure the money was missed. Word was received from the captain that the vessel was on the marine railway for inspection.

Moncton is at last to have a park square on Main street. The large and beautiful lot opposite The Spruce office, known as the DeWolf tract, has been purchased by Messrs. H. C. Charters and C. Crandall. The fences will be removed and the grounds thrown open to the public as an ice cream garden.—Transcript.

Recent St. Johna, Nfld., despatches says: North bound fishing steamers are unable to proceed owing to ice floes, which block the shore. There is little ice in the Strait, as it is driven and scattered over the ocean. Considerable ice on Grand Banks. Several large bergs are now off here, and a large number of Cape Breton Race, to the danger of Montreal steamers.

The Parolan cook of a resident of Hampton has introduced a method of disposing of the ubiquitous dandelion. He has been successful in growing cauliflower on the lawn or field and covers them up for a few days with earth, until they are well blanched. When they are converted into a delicious salad exactly as though they were the finest quality of young lettuce, for which they are substituted. The cauliflower, possessing also medicinal as well as food qualities, which make them valuable at this season, as well as being a most palatable dish when boiled and served as greens. Now everybody try them.

SHURE CURE FOR SICK STOMACH. Such maladies as Nausea, Sick Stomach, Cramps and Colic, yield instantly to Poison's Nervine, and if you suffer from any of these ailments, you will find Poison's Nervine a most valuable remedy. It is a safe and reliable medicine, and will save great suffering and big doctors' bills every year. Dr. Geo. W. Nevill's "Poison's Nervine" is the only medicine that cures.

LET OTHERS EXPERIMENT. There is always something new in the way of medical treatment and you will find it in Poison's Nervine. It is a safe and reliable medicine, and will save great suffering and big doctors' bills every year. Dr. Geo. W. Nevill's "Poison's Nervine" is the only medicine that cures.

The Young Men's Christian Association in Winnipeg, Manitoba, is over- whelmed with the efforts to care for the influx of young men who are coming into the city in great numbers.

AT JERUSALEM.

JERUSALEM, Queens Co., May 28.-A number from St. John took advantage of the holiday on Saturday, and spent the 24th here fishing in the lakes and streams and visiting friends and relatives.

RECENT WEDDINGS.

The wedding occurred on May 1st at Winthrop, Me., of Charles E. Estey, son of the late Donald McDonald of Valleyfield, died at San Francisco, aged 84.

THE ST. MARTIN'S RAILWAY.

The manager of the St. Martin's railway having stated that the com- pany positively refuses to operate the line this year, and that he has recently abandoned it, the St. Martin's de- legation decided to ask aid from the Dominion government to secure a loan for a new company to put the road in re- pair and operate it.

Clothing for Men, Youths and Boys.

After all Oak Hall is the one great clothing store of Saint John. Hundreds of men regard this as Clothing Headquarters—the thoroughly dependable, all-the-year-round store, where they always pay out their money on this condition: They get it back if the purchase is not entirely satisfactory.

MEN'S CLOTHING.

Let us look at the case fairly. You are a normally shaped man. Suppose you wrote for a suit—you'd only need to give a few measurements; let's know whether you are very young or middle-aged, that we might know how your inches were built up—and the suit we'd send you would fit as well as the tailor's suit at first trying on. Better in all probability.

Now, if you come for the clothes, it's better still, for we can do such altering as the tailor would have to do. In short, we can give really tailored clothes ready made. For the convenience of you who can't come, we have prepared a Sample Book containing samples of popular fabrics for this season, and will gladly mail it along with instructions for taking measurements at your request.

Greater Oak Hall, SCOVILL BROS. & CO.

EXECUTORS NOTICE.

The undersigned, having been appointed Executors of the last will of James Patterson, late of Shanley, St. John Co., Commissioned on the 24th day of May, 1903, do hereby give notice that they have taken the oaths of office and qualification, and are ready to receive and pay over to the persons entitled thereto, the assets of the said James Patterson, and to make good the same to the persons entitled thereto, and to do all other things which may be required of them in the execution of their duties as Executors of the said will. Dated this 24th day of May, 1903. JOHN R. PATTERSON, WM. R. FLOOD.

THE WORLD MOVES ON.

(Atlanta Constitution.) Who stood upon the hills like low beneath the blossoms and the snow: Like dreams we come, like dreams we go: The world moves on.

A DARING HOLD-UP.

There was a daring hold-up in Lower Cove on Monday evening, when a resident of York Point was relieved of his money and badly handled. Michael Sheehan had gone down to the cove with a friend, and after leaving him at his residence on Broad street, started for his own home. He was passing through British street at 8:30 o'clock, and when near Lower Cove was stopped by two men, who demanded his money and threatened him if he did not give it up. He tried to run away, but was overpowered, his clothing torn and what money he had, fortunately only a small amount, taken. The men, seemingly disappointed in the small haul they had made, proceeded to drag him up, and he was knocked down and held in a position where he would have been killed had it not been that a workman came out of a shop across the street and gave the alarm.

ST. ANDREWS NEWS.

ST. ANDREWS, N. B., May 28.—May 28th (Victoria day) was generally observed in St. Andrews. The worshippers in Greenwood and All Saints Church, in which the stoves had been taken down, felt the discomfort of the cold of the 24th. On Saturday, W. H. Mallory, who had been on a visit to his aged father at Jacktonville, Carleton Co., drove into town a pair of fine dapple grey horses, to add to the stock of fine horses already in his stable, accompanied by Sydney Ross, C. P. R. train despatcher of Woodstock, who left by the C. P. R. the same evening for Woodstock. En route upon the road they met and stoned to death a large porcupine, and while driving through the Brockway settlement saw a large mouse in the woods near the road. Dr. Wolfe and Denley have secured a pair of horses in addition to the stall of well broken, fast horses already owned by them. The wife of Thomas Miller was taken seriously ill this morning, threatened with pneumonia. Harry Good, M. D., was called to attend her. The frost of the past two nights was very severe in the country districts of Charlotte, Millip, pears, beans, and other garden stuff. The grain and grass crops are far ahead of last year.
