TO ANNOUNCE NAVAL POLICY AT HALIFAX.

Montreal, Oct. 10.—Mr. R. L. Borden, M. P., made a speech at the LaFontaine Club here Saturday in which he said that steps were being taken to organize the Conservative party in all the provinces as that party had never been organized before.

A Call to Young Men.

The leader especially called upon the young men of Quebec to rally around the natural rulers of the country who would put an end to the corruption that is being practised by the ministerial camp followers.

Mr. R. L. Borden left for Halifax today and it is understood that he will address a large meeting in Nova Scotia before the opening of Parliament.

SAFE BLOWERS IN ANOTHER PISTOL DUEL

Constable Johnstone of Galletta, Ontario, Exchanges Shots With The Three Much Needed Men—No One Hurt.

Special to The Standard.

Ottawa, Oct. 10.—Constable Johnstone, of Galletta, Ont., had an exchange of shots with the three Pickanock safe blowers on Saturday night. He is unhurt himself and evidently the robbers got off safely also for they have again made good their escape.

Early on Saturday evening the station master at Goyon saw the three men walking along the railway.

Constable Johnstone of Galletta was prowling in the vicinity of the village when he stumbled across them at midnight.

As soon as the safe blowers saw him they fired a volley and ran. Johnstone fired a couple of shots at them, but in the darkness he was unable to see clearly and the robbers disappeared.

Early this morning a squad of eight Dominion police under Inspector Hogan were sent to the district and spent the day chasing numerous clues.

Constable Johnstone of Galletta, who has evidently made their way from up the Gatineau to Ottawa river, which they crossed at FitzRoy Harbor.

Young Sids is a mental prodigy, particularly in mathematical studies, he having already mastered all the elementary branches.

For three years his father has been endeavoring to have the boy accepted at Harvard, and in every way he has been fitted to pass the examinations.

The young student will make a specialty of mathematics, and will take studies of the most advanced character.

CARNEGIE A BENEFACTOR OF M'GILL UNIVERSITY

Some months ago it was resolved to raise the sum of two millions of the general needs of the university and Mr. Carnegie has given his handsome quota in the shape of one hundred thousand dollars.

OPPOSITION FOR NAVAL POLICY

Mr. C. A. MacGrath, M. P., Places Himself On Record As Being Unequivocally Opposed To Elaborate Defence Programme—Tendencies Are All For Universal Peace.

Special to The Standard.

Ottawa, Oct. 10.—It is evident that the members of the Canadian Parliament are not united upon the policy of establishing a Canadian navy.

Mr. C. A. MacGrath, M. P., for Medicine Hat, who is now on his way west, is determinedly opposed to the attitude which has been adopted by the government, and when the question comes up in parliament he will take issue with it even if he stands alone.

Before leaving Ottawa Mr. MacGrath in unequivocal terms, stated his views to The Standard. He rejoices that the principle has been laid down that his country ought to bear her share of the burden of the defence of the empire, but the manner of it should be by direct contribution.

A Short Sighted Policy.

His opinion is pronounced that the establishment of a new navy is a short sighted policy. He is a man of peace, and he believes that the trend of opinion throughout the entire civilized world is towards universal peace.

The desire for peace is so strong that in ten years the complexion of things amongst the powers may be vastly different from what it is today.

Mr. MacGrath contends that in view of the fact that Britain can build warships and maintain them at so much less expense than Canada could hope to do, that the Dominion should offer Great Britain a contribution of perhaps ten million dollars a year, with the arrangement that if Canada changed her attitude at the end of some stated period, say ten years, the British Government should return to the Dominion the value of her contribution in ships or armament for ten years hence.

Canada would be in a better position than today to judge what is best.

Mr. MacGrath has spent most of the summer in Ottawa studying the immigration question, and will have some interesting matter to lay before Parliament next session. He is being urged to publish his views in book form.

Special to The Standard.

Peterboro, Ont. 9.—"I think one-half of the town should be brought up for taking bribes and the other half for perjury," remarked Magistrate Dumble at the police court this morning, when the case of Robert Shepherd, charged with swearing falsely in connection with the recent West Peterboro election protest, came up before him.

"Now that the war is over, is it the intention to go on with this charge?" asked His Honor.

"It is hardly fair to pick on one man, The whole lot should be brought here."

Crown Attorney R. E. Wood stated that the case would proceed. At the request of counsel for the defendant it was enlarged until Thursday next. Bail of \$1000 was renewed.

WILL KITCHENER BE NAMED AS VICEROY

London, Oct. 10.—Intimations are becoming plain every day that Lord Kitchener will not long submit to the eclipse of his career involved in his appointment to the high-sounding post of High Commissioner and Field Marshal Commanding-in-Chief in the Mediterranean. There is in his present position rather too much suggestion of the Chinese custom of heaping grandiloquent honors on unpopular statesmen to suit the spirit of Britain's iron souled captain.

Lord Kitchener is now on a tour of the Far East and the latest report is that after his return home arrangements will be quietly made for his succession to Lord Minto as Viceroy of India when the latter's term expires.

The fire started in the basement and was extinguished by the firemen. The firemen, however, kept it under control and prevented the flames from getting beyond the first floor.

PUBLIC PROBING

General Approval is Expressed at Moncton Over Attorney-General's Action in Ordering a Public Investigation Into Causes of Nash's Creek Wreck—Inquest On For Wednesday.

Special to The Standard.

Moncton, N. B., Oct. 10.—Railway men here generally approve of the attorney general's course in ordering an inquest into the death of the Nash's Creek victims. They say that the Premier's course is eminently proper and that it is in the interest of the public as well as the railway employees that the fullest inquiry be held and the responsibility fixed where it belongs.

It is said that quite a number of accidents or narrow escapes occur of which the public hear nothing. Trainmen generally agree that the giving of times relieves the dispatchers of giving orders and throws too much responsibility on those busy in the operation of specials. It is also held that specials are run too close to passenger trains, in some cases minutes only being allowed while in others specials are held for an hour or more.

HARRIS DENIES TEXT OF LETTER AS PUBLISHED

Cables Department Denying That He Described All Japanese Commercial Firms As Untrustworthy.

Special to The Standard.

Ottawa, Oct. 10.—Mr. W. A. Harris, Canadian trade commissioner in Japan, has cabled the Department of Trade and Commerce denying that he had described all Japanese commercial firms as untrustworthy. It will be remembered that a week or so ago there appeared in the press the alleged copy of a private letter sent by Mr. Harris to a Toronto firm warning them against Japanese firms generally.

Mr. Harris says he warned the Toronto firm against Japanese firms only, and the department takes the view that it is absurd to believe that Mr. Harris would make such a sweeping charge as he is alleged to have made.

Human life, the preacher said, is full of such temptations. Today man may hear the plaudits of his fellow men but tomorrow they may cry out with the Jews: "Crucify Him." FOOT TROUBLES CURED

It is an absolute fact that most foot troubles are caused
by overwork or strain of the muscles and ligaments that
support the arch.

These ligaments, muscles and tendons become tired and
relax under the enormous work, allowing the arch to lower
and cause tired, aching feet, weak ankles, rheumatism, flat
foot etc.

This cut shows a flat
foot caused by the arch
breaking down.

This cut shows the same
foot brought back to its nat-
ural shape by the aid of the
ARCH SUPPORT.

HAS DEFRAUDED THOUSANDS OF PEOPLE

THE PROGRAMMES AS ARRANGED

London, Oct. 10.—Harry Benson, of Brooklyn, whose real name is Bebro, has been found guilty by the criminal court and sentenced to five years' penal servitude. The charges against him were of fraud in connection with the bankrupt Feltham's Bank, which he founded. In the course of the trial evidence was given that he had defrauded more than five hundred persons by his operations through the bank. It was also added that he had swindled eighteen thousand other persons by means of the International Securities Corporation.

Figured Conspicuously.

In the last twenty years Bebro has figured conspicuously in many sensational affairs, spotted frequently in criminal and civil actions both as defendant and complainant. He is the son of an English capitalist, Marcus Bebro, who left him \$100,000, which he dissipated in New Zealand and other parts of the world, finally settling in New York as a real estate broker. In 1896 he was charged with embezzling real money collected for Mrs. Francis Hoffman. Before that he had been arrested, charged with attempting to extort \$2,000 from his mother, who lived in the Astor House. She refused to press the charge and he immediately turned complainant, suing her for \$100,000 damages for malicious prosecution, but lost his suit.

In Massachusetts.

He next appeared in Massachusetts where no less than a dozen charges of larceny were found against him in 1897. He was convicted on a number of counts and sent to prison for five years. When he came out of jail he began an alleged crusade against the committing to insane asylums of persons whom he claimed ought to be sent there. He gained some notoriety by his efforts to have Miss Mabel Spang released from Dr. Bond's sanitarium in Yonkers. He was charged with demanding \$1,000 from Mr. Charles H. Spang, her father, as the price of abandoning habeas corpus proceedings. New York became rather warm for Bebro in 1906 and he went to England where he appears to have continued his operations. He was arrested in the present case on August 31, 1908, on a charge of false pretences, together with George Petty. Both men had organized the International Securities Corporation, Limited, and Feltham's Bank, which, it was alleged, were devices to obtain money from the unwary.

JILTED BY LOVER MODEL SUICIDES

Dramatic Tragedy Stirs France

Renounced in Public, Artist's Model Blows Head Off With Gun.

Mantes-Sur-Seine, France, Oct. 8.—The villa of Daniel Ridgway, Knight of the American painter at Rolleboise, overlooking the Seine, was the scene of a dramatic tragedy Wednesday. Armande Plinot, a 17-year old girl renowned throughout the countryside for her beauty, who served Mr. Knight in the double capacity of domestic and model, after being publicly jilted at a dance, returned to Mr. Knight's home, took the painter's shotgun and placed the barrel under her chin, blew off her head. Mr. Knight found the body of the girl the following morning upon his return from Paris.

Patetic Letter.

Before killing herself Armande wrote a pathetic letter for her father, a chimney sweep in Paris, and to her sisters, adjuring the latter to avoid love affairs and never to believe man's words. She also left a letter to Mr. Knight, asking for forgiveness for the trouble and annoyance she was causing him in committing suicide in his home. The coroner returned a verdict of suicide during a temporary fit of madness. When Fortune heard of the tragic death of his sweetheart, he tried to kill himself.

The funeral of the girl today was the occasion of a remarkable demonstration of affection for her. The entire populace of the village attended the services and followed the coffin to the grave. Mr. Knight paid all funeral expenses. He said tonight that the girl had a face of the most remarkable beauty he had ever seen. He is painting which he said are valued by him at \$50,000.

ADMIRAL SEYMOUR ON PROSPECT OF WAR

British Naval Officer Declares That it Remains With the German Emperor to Explain Sensational Stories in Press

New York, Oct. 9.—Admiral Sir Edward Seymour of the British navy, when asked yesterday about a report that the German warship, now here, brought over a flag captured in the Hudson-Russian war to carry in the Hudson-Fulton military parade, replied that he did not believe it. "In my experience with the Germans in all parts of the world," he said, "I have always found that they strictly observe the proprieties." Asked whether he considered that there was any possibility of a war between England and Germany, Admiral Seymour said that the German Emperor was the only person who could answer that question satisfactorily. Personally, he hoped not, because it would mean a great loss of life and expense which must be met by taxation and in his opinion it was wrong even to discuss publicly the likelihood of war between the two at present friendly nations. "The press is a great power to work good or evil for the world at large," said the Admiral, "and if the men who control the great daily newspapers would only think of that and how much influence they wield on the minds of their fellow men sensational stories of impending war would never appear."

KAISER'S CHIVALRY IS PUBLICLY PRAISED

Recognition of the Archduke Franz Frederick's Morgantic Wife Applauded Throughout Germany.

Berlin, Oct. 9.—The Kaiser's inclusion of the Princess von Hohenberg, the morganatic wife of the Archduke Franz Ferdinand, heir presumptive to the Austrian and Hungarian thrones, in his invitation to the latter to visit Berlin next month has been applauded here. It is hoped that it will lead to the breaking of the granite etiquette of the Austrian court, which excludes an accomplished, refined woman from her true place merely because her blood is not royal.

At Vienna.

The newspapers trace the Kaiser's championship of the Princess to his last visit to Vienna, when they say he remarked upon her absence among the exalted personages assembled at the State banquet he insisted upon impulsive presence, refusing to go to the table until she arrived. The matter was referred to Emperor Francis Joseph, who assented to her presence. The Kaiser and Kaiserin then and elsewhere paid marked attention to the Princess von Hohenberg, who during her visit here, will be treated with every respect and all the honors due to a crown princess. The newspapers urge the Kaiser to make similar efforts to break the etiquette in some of the minor courts of Germany where it corresponds with that of the Austrian court.

HARVARD CANADIAN CLUB CELEBRATES

Inauguration of Pres. Lowell Fittingly Observed by Canadian Society—Has Quarters of Its Own.

Cambridge, Oct. 9.—The Harvard Canadian Club celebrated the inauguration of Prof. Lowell by holding a reception on the afternoon of October 6 for the delegates from Canadian and other British universities attending the inauguration.

The club includes professors and students of British birth at Harvard as well as many graduates throughout Canada and the United States moved into quarters in its own at the beginning of the college year. It is the only foreign club thus happily situated.

The reception marked the opening of the club house and was a notable event, both from the occasion and the prominence of the visitors. These included Ambassador Bryce, representatives of Oxford and Manchester, Principal Peterson of McGill, President Scribner of Cornell, Prof. Falconer of Toronto, Chancellor Burwash of Victoria, Dr. W. A. Gibson, of Edinburgh, Prof. W. F. Ganong of Smith College, Prof. E. D. McQueen Gray of the University of New Mexico, Dr. K. G. T. Webster of Dalhousie, and Prof. F. W. Nicholson of Wesleyan.

The hosts included professors and students from almost every part of the British Empire, Canadians, all more especially men from the Maritime Provinces being in the majority. The vast extent of Britain's domains was shown by the group that assembled to meet the leaders in British scholarship. Interesting Hindus intermingled with West Indians, New Zealanders, English, Scotch, Irish, South Africans and Canadians, all fraternal and happy in their bond of a common loyalty.

Mrs. W. S. Ferguson, a Prince Edward Island lady, wife of Professor Ferguson of Harvard, and Miss Roche, of St. John, a student at Radcliffe, presided at the tea table. Among other Canadians present were Prof. Neilson, S. C. Lunier, W. S. Ferguson, W. B. Munro, W. H. Schofield, and Benjamin Rand now filling important chairs at Harvard; H. E. Big-

MARATHONS DEFEATED SATURDAY

All-St. Johns 4; Marathons 0. The above score tells in a brief way the result of Saturday's game. Mr. Donald's provincial champions were simply unable to negotiate with the varied assortment of shots and curves that the clever Boward sent over the plate, with wonderful accuracy...

Only at one stage of the game did the Greeks look dangerous. In the half of the seventh Callaghan received free transportation to first. Copeland was hit by a swift inshoot. Bradbury popped up a little fly, which being smothered by Titus, was still in the bases. At this stage of the proceedings things were looking prosperous for the Greeks, but Clawson and Murphy spoiled chances of scoring by popping up little flies to the infield. All St. Johns added one in the 8th and tallied two in the 9th. The numerous admirers of Mr. Donald's champions called upon their favorites to "knock the cover off the ball" in the eighth and ninth session but the best the Greeks could do was to get men on second and third bases.

MR. CRAIG ORDERS TWO OF LARGEST SIGNS IN CANADA

Will Decorate The Green Head Property—Made Inspection Trip Saturday With Engineer and Other Experts.

That Mr. David Craig means business in his development of the Green Head property is shown by the promptitude with which he is taking the first practical steps in launching his project.

He has already ordered two of the largest signs ever erected in Canada which will be placed on the top of Green Head dock and will be read miles away.

Mr. Craig also had with him Mr. S. L. T. Burnham, the secretary of the Craig Company and a former St. John man, who seemed very much satisfied with the property.

Inspector Kenney Home After Trip As Far As Edmundston, Met With Some Opposition At First.

Mr. John Kenney, factory inspector, arrived home Saturday after an extended trip of inspection in Carleton, Victoria and Madawaska counties.

When interviewed by a Standard reporter last evening Mr. Kenney said he had found a number of the small saw mills closed and that some of the larger ones were about winding up the season's cuts.

Mr. Kenney said that it was somewhat surprising that many of the workmen and some of the employers were ignorant of the provisions of the act. He had put in force the section requiring copies of the act to be posted in mills and factories.

It is likely that work will be commenced at once and Mr. Burnham will remain over for this week with the object of completing the arrangements for the lease.
