## TREATY RATIFICATION IN U. S. BECOMING FIRST CLASS 1920 PRESIDENTIAL ISSUE

Saturday's Vote in Senate Shows the Deadlock Tightening and the Treaty Hopelessly Tangled in Forthcoming Campaign Issues.

### ARTICLE TEN TO BE HELD OVER

Treaty Discussions Will be Left to One Side for Several Days in Order That Senate May Take up Railroad Bill.

Washington, Feb. 22.—The first of the resolutions attached to the Peace Treaty last November was readopted and by an increased majority in the Senate Saturday, after the "irreconcilables," who hold the balance of power, had pressed their efforts for modification in the interests of a compromise.

This result is generally taken to indicate that the deadlock on the Treaty tightens and that Treaty ratification is becoming inextricably tangled in presidential campaign issues. Differences during the debate Saturday, indicated that the Treaty was becoming a first class election issue.

An address made by Elisha Root, in which the latter urged immediate entry by the United States into the League of Nations was bitterly attacked in the debate by Republican leader Senator Lodge, of Massachusetts, who said it was "practically impossible" to ratify the Treaty.

The resolution, on which the Senate acted, relates to withdrawal by the United States from membership in the League, providing that the United States shall be the sole judge whether her obligations have been fulfilled in the case of the withdrawal, and that notice of withdrawal may be given by a concurrent resolution.

The vote for its adoption was 45 to 29, ten Democrats joining the solid Republican lineup opposing it.

By a vote of 33 to 32 the Senate rejected the amendment in the resolution, framed by Republican leaders, and presented by Senator Lodge as part of his compromise plan under which either the President or a majority of Congress could have given notice of withdrawal.

The Treaty under present plans, will not be before the Senate again, for several days, the beginning of the week having been reserved for consideration of the Railroad Bill and possibly tariffs. The next reservation on the list is the all important Article Ten provision, but once the Treaty comes up again it is the intention to put this resolution off until others have been disposed of.

### WESTERN PREMIERS IN CONFERENCE

Premiers Norris and Martin Wish Federal Gov't to Hand Over Natural Resources to the Western Provinces.

Winnipeg, Man., Feb. 22.—Premier William Martin, of Saskatchewan on Saturday held a conference with Premier Norris and the Provincial Cabinet for the decision of matters the two provinces have in common with the Federal Government. A discussion took place at the meeting of having the Dominion Government hand over the natural resources to the Western Provinces. Premier Martin stated that he was opposed to having the Government subsidy cut off from the Western Provinces even though the natural resources are handed over.

The reclamation of the Carrot River Triangle was the subject of much discussion. This is a valuable tract of land lying north of The Pas. It contains 40,000 acres, with two thirds in Saskatchewan.

Halifax, N. S., Feb. 22.—Samuel Fouches, a French trader engaged in removing a house from Windsor Junction to Waverly on Saturday afternoon, received injuries which resulted in his death.

Some of the underpinnings of the building gave way and the house fell over on Fouches. He was badly crushed, but lived six hours after the accident. He was 57 years old and leaves a widow and seven children.

### United Kingdom Against Council's Decision To Keep Sultan On Throne

London, Feb. 22.—Several of the London papers display large advertisements headed "Menace to the Peace of the World," appealing to the trades unionists and public generally to forward protests to members of the House of Commons to use their influence "to prevent handing back Constantinople to the bloodstained ruler of the Turks."

The protest was echoed in many of the Protestant and Catholic pulpits of the United Kingdom today. The Supreme Council's decision to keep the Sultan on the throne at Constantinople has surprised the country, and influential Parliamentarians, notably Viscount Bryce and T. P. O'Connor, have started a campaign against the policy, which the Times, the Spectator, the Manchester Guardian, the Westminster Gazette and other prominent papers are supporting.

### Germans Trying To Put One Over On Commission

Copenhagen, Feb. 22.—The Berlin-Stockholm Commission has discovered German cannon and 10 machine guns in working order on Sylt Island, off Schleswig-Holstein. ### Capt. Gerow of Can. Overseas Forces Missing In Phila.

Was Engaged in Buying Material for Knock-Down Houses to be Used in Reconstruction Work in England.

New York, Feb. 22.—Capt. Stephen Gerow of the Canadian overseas forces, who is in this country buying material for knock-down houses to be used in reconstruction work among army veterans in England, has disappeared. This was learned tonight when the police of this city and Philadelphia were asked to locate the officer who has not been heard from since February 2, when he left the Imperial Hotel here to go to Philadelphia. Before leaving Philadelphia, Captain Gerow told friends he expected 50 tons of house material to arrive there from Chicago for shipment to Liverpool the next day. He told the hotel at the time he would return soon.

When Captain Gerow failed to return the hotel management enquired of the police. Information disclosed that the officer had never arrived at the Hotel Walton in Philadelphia where he was to stop. Captain Gerow who is about 45 years old, was wounded, gassed and shell-shocked during the war. He weighs about 170 pounds and is about five feet seven and one-half inches tall. He has black hair, slightly gray around the temples. He carried \$1,000 in currency and several valuable packages of jewelry when he left the hotel.

### REVOLT AGAINST FEDERAL LAWS IN MICHIGAN

State Officials and Prominent Citizens Set Upon Federal Officials Enforcing the Prohibition Law.

Chicago, Feb. 22.—Declaring Iron County, Michigan, in open revolt against Federal authority, Major A. L. Dalrymple, Federal Prohibition Director for the Central States, telephone Washington, this afternoon, asking that warrants be obtained from Attorney-General Palmer for the arrest of the State's Attorney of Iron County, two deputy sheriffs, two police officers and three wealthy residents of Iron River.

Assistant Prohibition Director Gerow, at Washington, promised to communicate with Palmer at once. Leo J. Grove, supervising prohibition agent for Northern Michigan, reached Chicago today with the report that he had been held up by the Iron County officials while seizing contraband liquor, and eleven barrels of confiscated wine taken from him. The attack on Grove, who was accompanied by three Michigan State constables, was led by State's Attorney H. A. McDonough, of Iron County. The attack, Grove reported, occurred on Feb. 15.

Accompanied by Lieutenant B. O. Stroppe and Troopers Masters and King, of the Michigan State Constabulary, he had seized eleven barrels of raisin wine at the Virgil location, a mine property near Iron River, which the county and city officials appeared and overpowered him and his aids.

Major Dalrymple announced he would lead an armed expedition of dry agents and Michigan state police to Iron River to clean up the county.

### FIRE DAMAGES MACHINE SHOPS AT MONCTON

Plant of Abram & Sons Sustained Loss of \$20,000 in Blaze Which Destroyed Many Valuable Patterns.

Moncton, N. B., Feb. 22.—Fire, which broke out shortly before six o'clock last evening in John Abrams & Sons' machine shop, on Pomeroy street, completely destroyed the moulding shop, burned practically all the concern's stock of patterns and caused damage estimated at about \$20,000. The fire started in the moulding shop, which was the only part of the works to be completely burned down. One end of the machine shop, in which was stored all the bulk of the concern's stock, was badly gutted. The whole works were flooded with water and the machinery considerably damaged. The firm had about twelve thousand dollars worth of patterns which will be practically a total loss.

The firm was covered by about fifteen thousand dollars insurance on building, patterns and machinery and their loss will be thousands of dollars above insurance.

Abrams & Sons have suffered from fire some five or six times, three or four times at St. John and Hampton, prior to their removal to Moncton. The concern will repair their works at once.

### CANADA HAS MANY OPPORTUNITIES IN LABRADOR

Should be to Canada What Alaska is to United States, Says Well Known Explorer.

great possibilities for Canada in the development of the mine resources of Labrador, Mr. Wallace, an American who has made a number of trips to that part of Dominion told the members of the Canadian Club, at a lunch Saturday. ### TWO KILLED BY GRAND TRUNK TRAIN

Boyce, of Dowlo, was instantly killed and her husband injured in the hospital as a result of being struck by Grand Trunk train No. 30 from Toronto at 8 o'clock this morning. ### GOVT'S DECREES HARD ON DUBLIN NIGHT WORKERS

No Provision Made to Issue Permits to Those Obligated to Perform Work During Hours Banned.

### NATIONALISTS ANGRY OVER PROCLAMATION

General Opinion of Sinn Feiners That the Risk of Disorder Will be Increased Rather Than Diminished.

Dublin, Feb. 22.—Friday's decree stipulating that after February 23rd all persons in the Dublin Metropolitan District must remain in doors between midnight and five a. m., was not entirely unexpected, the Government some months ago having, by proclamation, taken power to apply it.

Fixing the hour at midnight will cause minimum interference with the normal life of Dublin, which has few night entertainments and goes to bed early, but it will affect a large part of the night workers, who are alarmed at the announcement that virtually no one except clergymen, doctors and nurses will get the necessary permits to be out of doors between the hours mentioned. When applied to the Government today, the police said they had nothing to do with their distribution and that the whole matter was in the hands of the military.

### DRASTIC ORDER

An important feature of the announcement is that it contemplates the employment of armed soldiers who may shoot anyone who does not answer the challenge. As street car service in the city is virtually shut down before midnight it will not be affected.

The order has created intense bitterness among Nationalists generally, but the Unionists modestly approve of it. It is pointed out that nearly every case of shooting has occurred long before midnight, and that the recent attack on Lord Marshal's house, in which Lord Lieutenant Governor of Ireland, was made in broad daylight. Some Sinn Feiners say the Government is favouring lawlessness by the order, and the general belief is that the risk of disorder will be increased and not diminished.

### WOULD MAKE IT MORE DIFFICULT FOR PROHIBITION

Proposed Amendment to Prohibitory Laws Designed to Make the Way Rough for Temperance Advocates.

Ottawa, Feb. 22.—Last session Parliament passed prohibitory legislation whereby any province desiring to bar the manufacture or importation of liquor in its territory had the right to petition the Federal Government to take a plebiscite upon the question and in the event of the province voting against manufacture and importation, became the duty of the Government to prohibit both. At the coming session of Parliament an amendment will be offered demanding that in cases where such a plebiscite is taken a three-fifths vote against importation and manufacture shall be required before the Government can pass prohibitory legislation. The amendment will be based upon the liquor laws which were passed in Ontario under Sir James Whitney, and which required a three-fifths vote against liquor before a community under local option could go dry.

### HEAVY DAMAGE DONE BY GALES ON THE ISLAND

Houses Unroofed, Plate Glass Windows Blown in and Live Stock Killed.

Charlottetown, P. E. I., Feb. 22.—The western section of the Island had suffered from the Wednesday gale according to telephone officials. A passenger on the train from O'Leary to Summerside, a distance of twenty-four miles, counted forty-six barns which were blown over. Horses and cattle are reported killed at O'Leary and Bedouque. Buildings being erected by E. T. Holman, Limited, were demolished and the automatic sprinkler system in the store seriously affected. The damage is estimated at ten thousand dollars. The roofs of some of Sinclair & Stewart's buildings were blown away. A number of plate glass windows were broken in other stores and buildings were also damaged and Summerside's loss will run into thousands. The velocity of the wind is officially reported as 55 miles an hour in Charlottetown, where buildings of Davis & Fraser were damaged.

## FEDERAL CONTROL OF RAILS HAS COST U. S. GOVERNMENT LARGE SUMS OF MONEY

### CATHOLICS HEAR STRONG LETTER FROM BISHOPS

Congregations in Ireland Told That Government is a Failure, and it Has Trampled on the Welfare of the People.

Belfast, Feb. 22.—In his pastoral letter read today, in all Catholic churches in this rich diocese of Cassel Archbishop Harry says: "We are living under a government which has proved itself an abject failure. Neither based on the covenant of the nation, nor working for the good of the community as a whole, it has trampled on the welfare of the people and upheld the ascendancy of the pampered minority. History tells us that where such a system reigns the laws of God are set aside, crime and crime go hand in hand and peaceful citizens are made victims of criminals."

"The remedy for the Irish question is obvious, since freedom is the best solvent of disorder. The traditional loyalty of the Irish people to the laws of God will prevail in the full when the days of oppression have passed away forever, and when our people have in their own hands the making of the administration and their own law."

The murder campaign is denounced in a pastoral by Bishop Foley of Carlow, who says: "It is nothing short of appalling to think that a group of Irishmen who, in all probability, profess the Catholic faith, should suffer themselves to be drawn or driven into a conspiracy for the purpose of taking human life without a particle of justification from any source, human or otherwise."

### CONFERENCE TO REASSEMBLE IN LONDON TODAY

Besides Questions Concerning Russia and Turkey Economic Questions Will be Considered.

London, Feb. 22.—The Peace Conference will reassemble tomorrow, with the addition of Premier Millerand and two other French Ministers, Paul Bignon and M. Thominex, and the Italian Foreign Minister, Vittorio Scialoja, with several advisors, and the Roumanian Premier. These officials are expected to arrive in London tomorrow.

The appearance of the representatives of Italy, France and Roumania indicate that besides the two leading questions, Russia and Turkey, there will be important discussions of an economic nature, and it is expected that a decision will be reached on Premier Lloyd George's proposal to trade with the Russian co-operative unions. As has been stated, M. Millerand has no objection to this course, provided any negotiations with the Soviet is excluded.

Interest centres on the Turkish decision. Public sentiment in England against allowing the Turks to remain in Constantinople is growing rapidly, and the question will arise whether it will be possible to revise the Supreme Council's decision after it has already been announced officially throughout India by the Indian authorities.

The Secretary for India, E. S. Montague, and the Indian Government are being blamed for undue haste in this matter.

### One's Matrimonial Prospects Should Not Be Obstructed

Few Pointed Remarks by Justice Lennox in Giving Judgment in Breach of Promise Case.

Toronto, Feb. 22.—In giving judgment in favor of Miss Janet Dickie, for \$500 for breach of promise against Henry Wm. Curtis on Saturday, Mr. Justice Lennox commented as follows: "When people become engaged, and particularly when the engagement is continued for duration of many years, neither party can be allowed to repudiate the engagement because of slight differences of opinion, frailties of temper or the like." His Lordship expressed the opinion that it was just as well that the engagement was broken off, but the defendant should pay for obstructing the plaintiff's matrimonial outlook for a number of years.

The pair became engaged in April, 1911, and the engagement lasted for eight years. The plaintiff, used for \$10,000.

### GOMPERS AGAINST FORMATION OF NAT'L LABOR PARTY

Thinks it Would be Detrimental to the Interests of Labor and Would be Just What Enemies of Labor Wanted.

Washington, Feb. 22.—Formation of a political labor party would be "detrimental to the interests of labor and exactly in line with that which is most ardently desired by those who seek to oppress labor," Samuel Gompers declared in a letter to William Mitchell, of Indianapolis. Mr. Gompers wrote in reply to a telegram from Mitchell opposing the American Federation of Labor plan to have workmen elect their friends and defeat their enemies. The Indiana Labor Party declared for a Labor Party pure and simple.

Mr. Gompers, in severe terms, criticized Mitchell for "assuming to declare the work and policy of the Federation to be impractical."

"The vote that would go to a Labor party candidate would, in the absence of such candidate, go to the best man in the party," writes Mr. Gompers. "In no case would they go to an enemy of labor. There can be no hope for success of Labor Party candidates. The effect, therefore, of a Labor Party would be to elect our friends."

### The Net Cost to Date Revealed in Estimates Given to Congress Show the Experiment to Have Cost \$635,000,000.

### RAILROADS WERE LOSING PROPOSITION

Stated That Fifty Per Cent. of Roads in U. S. Would Go Into Hands of Receivers Without Gov't Guarantees.

Washington, Feb. 22.—Railroad administration estimates place the net cost to the government of Federal control of the railroads at \$635,000,000. Chairman Esch, of the Interstate Commerce Commission, declared Saturday. Total appropriations of approximately \$1,500,000,000, including those already made, were the "experience of Federal control," Mr. Esch said, but he added that these amounts approximate \$1,250,000,000 more "investments in the form of improvements made for the roads and for which they ultimately will pay."

Referring to present financial straits of the carriers, Mr. Esch said that fifty per cent. of the roads in this country would go into the hands of receivers in three months without government guarantee. Mr. Esch declared, "and I want to warn you that receivership for railroads means receivership for industrial enterprises and other business."

Mr. Esch denied that the government, under the compromise bill, guaranteed under the compromise bill, guaranteed to President Woodrow Wilson, railroad investments. He explained that the guarantee was on actual value.

"It is up to the railroads to earn by efficiency," he said. "The government is losing nothing," he added. "Commerce is stimulated. This plan is the best practical solution for a most difficult problem."

### MILITARY MEN URGE RECOGNITION OF SOVIET RUSSIA

Contend That the Simple Trading With the Co-operative is Not Sufficient Without Assistance of Russian Gov't.

London, Feb. 22.—A number of military men and others, who during the past two years have been engaged in official duties in Russia, have sent a memorial to Premier Lloyd George advocating a recognition of Soviet Russia. The signatories include Lieutenant-General Sir Herbert Gough, who headed the British military mission in the Baltic; Col. E. G. Marsh, British military agent in the Caucasus. They contend that simple trading with the co-operative is not sufficient without the assistance of the Russian government, while it is becoming clearer daily that the stability of Europe depends upon restoring the Central European States, which can only be adequately provided from Russia, and without a general peace Russia's resources cannot be made as vital.

### Long Prepared Bolshevik Offensive Thrown Back by Polish Forces

Warsaw, Feb. 22.—An attack, which a Polish official communication terms the opening of a long prepared Bolshevik offensive, was repulsed by the Poles on the northeastern front, according to the communication, after a one-day battle. The Bolsheviki, coming from a southwesterly direction between Polek and Bobusk, were thrown back everywhere with "heavy losses." The communication adds that the Poles took the offensive at the same time in the south, making territorial gains and capturing much material. ### MOTHERS! NEVER NEGLECT WHOOPING COUGH

Many mothers make the mistake of thinking that whooping cough is not of serious importance, but unfortunately this mistake often leads to the neglect of this dangerous child's disease. Never neglect whooping cough, for it may be followed by some serious lung trouble. Dr. Wood's Norway Pine Syrup is highly recommended by mothers everywhere for the relief of this trouble. It will clear the clogged-up air passage of the mucous and phlegm that has collected, and in this way bring on the "whoop" which brings the so-much-sought-for relief. Mrs. Francis J. Burlington, New Gate, B. C., writes:—"This spring three of my children took the whooping cough, and they had it so bad I thought they would choke. I was getting pretty worried when my sister wrote me, telling me to try Dr. Wood's Norway Pine Syrup. I sent for some right away, and, believe me, I will never forget how it worked. It will always have it in my house." There are many imitations of Dr. Wood's on the market. Get the genuine by your own name. It will pay in the end. Put up in a yellow wrap per; 3 pine trees the trade mark; price 25c. and 50c. Manufactured only by The T. Millburn Co., Limited, Toronto, Ont.

### COAL DEMANDS UPON GERMANY CAN'T BE MET

#### Minister of Economics Replies to Charge of Disregarding Treaty.

Berlin, Feb. 18.—(Delayed.)—A defence of Germany's social programme and the charge that Premier Millerand of France, was misrepresenting the facts relating to the coal situation were contained in a statement prepared for The Sun and New York Herald by Erich Schmidt, Minister of Economics.

"France accuses us of intentionally disregarding our obligations as to coal deliveries, as though we were in a position to fulfil them," he said. "I will not enter into the legal phase of the question of whether we are obliged to make deliveries of a certain quantity of coal to France. I will merely try to throw some light on what we actually have done and what the achievement means under the circumstances. A glimpse at the history of last year the revolution our production has fallen to about half of what it was in peace times. Long strikes by labor and unrest exhausted all our supplies in factories and industrial works. Then, on top of this, our transportation facilities unfortunately were stopped by a lack of locomotives, for we had to surrender our very best and most efficient locomotives to France. We never had a chance to lay in a winter supply of coal, and to this day our gas, our electric light plants, our most vital food industries and even our railroads are on a hand to mouth fuel basis.

### Some Canadian Political Topics

#### Ottawa Journal's View of New Ontario Party—Is Mr. King Sincere?—Hon. Mr. Ferguson on Patronage.

Not impressive. (London Free Press.) Mr. King, the choice of the Quebec wing of Liberalism for party leader, has made another of those inept speeches of his. He was addressing the retail grocers at Ottawa, but the course had his eye upon the larger audience furnished him by the newspapers. It was obvious, he said, that much could be done by tariff revision. He would take off the food duties and also remove duties upon machinery used in food production. This, he argued, would benefit the benefit of all. Would it? Mr. King cannot have forgotten the reciprocity campaign of 1911, when he and his friends were urging upon the farmers that they would get more for their produce if they were allowed to sell in the United States, and at the same time were telling the workmen in our cities that they would pay less for food because they would have the benefit of the high prices available for their use. It was a contradictory proposition, and as Mr. King will remember it failed to convince the people of this country. As a matter of fact, the tariff revision has done little to sell, notably their wheat, their oats, their pork, that are Ontario farmers. It may be that on some other occasion he will be as candid as he is now, but his own farmers fervor. But it does not appeal to farmers of this country that the essential thing for their prosperity is the building up of a great home market which will be constantly within their control, and with respect to which no foreign Government can interfere. Mr. King is working for. He wants to tear down the economic advantages that with much labor have been constructed in Canada. He would introduce a new tariff changes affecting them, while in the rural ridings the policy of tariff reduction was being preached by fellow Liberal leaders, doubtless to his knowledge. Be that as it may, Mr. King's pretense that the cost of living can be reduced by uniting Canada commercially with the United States, where the cost of living is higher, is too thin to be impressive.

### Another "National Party" (Ottawa Journal.)

The farmers were the first to propose a new so-called "national party" in Canada, and now some of our old Tories are suggesting another and are god-fathered by the Montreal Gazette, whose idea of a political alliance is high protectionism. We hope nobody would be so vulgar as to call it high-protectionism. The Journal has expressed a view that the greatest national danger at present is upset of the protective system, but we are free to express the opinion also that any increase of the scale of the present tariff or any lessening of the British fuel which is necessary. "If she takes too much from Germany, France must give her hope of further restoration. The motor of German life cannot move too great a load, but let the motor once get started it will carry the weight of honest restoration with out stopping dead."

### CONVENTION OF FIGHTING THE "FLU"

#### MINERS CALLED FOR APRIL 15

#### Will Meet at Truro to Consider Conclusions Arrived at by Various Conciliation Boards.

Sydney, N. S., Feb. 22.—The annual convention of the United Mine Workers district No. 26, will be held at Truro on April 15th, according to an announcement made last night by President Robert Baxter. The date of the convention was decided upon at a meeting of the district committee executive board at Glace Bay on Saturday afternoon and President Baxter in making announcement explained the reason for delay in calling the annual meeting of the mine workers. Ordinarily the convention would have been held during the month of February, but the work of the various conciliation boards now considering wage disputes between the miners and the operators will not be completed until some time in March, and the executive deemed it advisable to wait until the reports of these boards are available. It was also pointed out by President Baxter that the award of the commission now sitting in Washington, considering the demands of the coal miners in the United States for wage increase, will not be issued until March, at the earliest, and as this award may govern the Nova Scotia miners in making their demands, it is necessary to have the convention called at a later date than usual.

### Knights of Pythias Attend St. David's

The Fifty-Sixth Anniversary Was Observed Yesterday Afternoon by Special Service—Sermon on "Friendship" by Rev. J. A. MacKeigan.

The fifty-sixth anniversary of the Knights of Pythias was observed yesterday afternoon in a most impressive manner by a special service in St. David's church. In addition to the members of the three local lodges, New Brunswick No. 1, Union No. 2 and St. John No. 3, there was a large number of others among the congregation.  
The pastor of the church, Rev. J. A. MacKeigan, conducted the service and delivered a most inspiring sermon on "Friendship." Miss Wall sang very sweetly "One Sweetly Solemn Thought," the other hymns were sung by the Knights in a body in a most inspiring manner.  
Taking as his text St. John 15:14, "Ye are My friends, if you do whatsoever I have commanded you," Mr. MacKeigan in his sermon stressed the true friendship which should be the basis of all human relationships. He said that true friendship takes hold of our better side. Its motive is to share, but it needs to be kept in good repair lest it suffer an eclipse.  
The speaker urged the Knights to accept the supreme degree of divine friendship from which the brutish is banished, the human glorified. He said that fraternal friendship should be a school in which great lessons are learnt, and from which the members should go out into the world to reveal the truths learnt therein, and to prove by their lives, of friendliness, the privileges they had enjoyed there.  
The common place door of service was that through which one must pass to divine friendship, for it is not sufficient that we take off our coats if we are to realize it.  
In closing the reverend speaker emphasized all that is expected of those who engage in the great war for the kingdom of God, that they might enjoy with Him the coming of His Kingdom.

### Local Company To Play In Halifax

Loyalist Chapter 1920 Revue Will Stage Production in Sister City March 1-2—Majestic Stock Company Coming from Halifax in Exchange.

Those who took part in the 1920 Revue held recently in the Imperial Theatre under the auspices of Loyalist Chapter, I. O. O. E., held a meeting Saturday evening and decided to make a trip to Halifax and give the Halifax theatre patrons an opportunity of witnessing this grand production on the nights of March 1 and 2. It was also decided that the Imperial Concert Orchestra accompany the players on the trip. The 1920 Revue will have a party of fifty performers and with about fifteen musicians will, it is expected, leave St. John next Saturday. They will have all day Sunday to take in the sights in the sister city, and the outing should prove a most enjoyable one.  
Halifax has always been noted for putting on some wonderful amateur productions, and the thousands of people that city will certainly be pleased with the Revue, as it is without a doubt one of the finest efforts of local talent that has been staged in this city. During the two days that the Revue is in Halifax the Majestic Stock Company, which is playing with much success in that city, will perform in the Imperial. This exchange of plays between the two cities is a move in the right direction and it is hoped will be continued.

### CAME FROM ENGLAND TO BE MARRIED

J. A. MacKeigan at his residence, Leinster street.  
The happy couple were attended by Mr. and Mrs. Charles Davis, of Maidstone, Sask., fellow passengers of the bride on the C. P. O. S. Melita, which docked here yesterday morning. The groom saw considerable service in France and England during the war. Mr. and Mrs. Miller will reside in Toronto.

### UNKNOWN SCHOONER WAS NOT SIGHTED

Gov't Str. Aberdeen Reported Being Unable to Locate Schooner That Was Reported in Distress off Parrsboro on Saturday.

A marconigram was received yesterday by J. C. Chesley, marine and fisheries agent, stating that the government steamer Aberdeen had reached Cape Sharp, but did not sight the unknown schooner, before reported in distress off Parrsboro. The message says that there is an immense stretch of ice and that it is very thick, and the Aberdeen could not enter any port but Digby, N. S., for which place she was then making for.

### Customs Officer Indorses Tanlac

Says His Wife and Mother-in-Law Were Wonderfully Benefitted—"Should be in Every Home" He Declares.

G. W. McKay, a Customs Officer at Beaver Harbor, Charlotte County, New Brunswick, called at the Ross Drug Store in St. John the other day for a bottle of Tanlac and on being asked if he could recommend the medicine, said:

"Yes, indeed, it's a pleasure for me to endorse Tanlac, for both my mother-in-law and my wife have taken it and after seeing it used with such splendid results in my own family I could not do otherwise than recommend it.

"My mother-in-law was about as badly run-down as people get to be. She had no appetite at all and her stomach was in such a bad condition that she could not eat anything but what disagreed with her causing her great distress. She had become very nervous and restless, and could sleep at all, and hardly had strength to get around.

"Then we got to reading about Tanlac and were so impressed with what others said it had done for them that my mother-in-law concluded to try it. So I asked one of the captains on his next trip to bring up a bottle and it certainly has done her any good. It's good if it had been made just especially for her case. It soon corrected her stomach trouble so she could eat hearty and digest her food without distress or pain. Now her appetite is just splendid and she is eating just anything she wants, and judging from the way she looks her weight must have increased at least ten pounds. She can now sleep well, looks many years younger, and is always praising Tanlac. Whenever she hears anyone complaining of feeling sick or bad she urges them to try Tanlac. My wife took it after being poorly for some time, and it also did her a world of good. So I am glad to recommend Tanlac as an extra fine medicine and one that I think should be in every home."

There are thousands of people who complain of being nervous and run-down. They are not sick exactly, but feel tired and good-for-nothing most of the time. They need something to build them up and throw off the symptoms of this weakened, debilitated condition.

The system, besides being purified by Tanlac, is toned up and invigorated by the medicine, acting on assisting the blood, reinvigorates the constitution, overcoming as it seems to quickly do, nervousness, indigestion, non-assimilation of the food, headaches, backache, kidney troubles, general debility, and many other ailments that so common to the thousands of half-sick, depressed men and women.

Tanlac is sold in St. John by Ross Drug Company and the leading druggist in every town, under the personal direction of a special Tanlac representative.—Adv.

## Canadian Hockey Games Saturday

**Quebec Athletes Won from Canadiens—Stars Defeated Hochelaga—Victorias Won in Montreal—Ottawa Trimmed St. Patricks—Toronto Won from McGill.**

Quebec, Feb. 22.—Playing their best game of the season, the Quebec Athletes gained their initial victory over the Canadiens at the local arena on Saturday night, when they emerged on the long end of an 8 to 7 score, after a little more than four minutes of overtime with thrilling dashes.

Stars, 8; Hochelaga, 6.  
Montreal, Feb. 22.—Stars defeated Hochelaga 4 to 3, Saturday, in the final game for the play-off for winners of the second half of the Montreal City Hockey League. This win, added to the score last Thursday, makes a total of 5 to 4.

Victorias, 5; St. Patricks, 2.  
Montreal, Feb. 22.—Victorias defeated St. Patricks 5 to 2 in the first of the semi-finals of the Montreal City Hockey League, and have accordingly earned the right to play off in the contest for the Allan cup.

Senators, 5; St. Patricks, 3.  
Toronto, Feb. 22.—St. Patricks' hope of winning the National Hockey League championship received a terrific jolt on Saturday night, when the Ottawa Senators beat them 5 to 3 and assumed the leadership in the tournament.

Toronto, Feb. 22.—McGill University had a setback here on Saturday in the sweep of victory in the race for the intercollegiate championship. University of Toronto won from McGill by 7 to 6, but required thirty minutes overtime to turn the trick. **A SEA PORT OF THE DEAD**  
How War Has Crippled Famous Hamburg.

(A merchant who has just paid his first visit to Hamburg since the war has sent the following impression of the deserted port to the Daily Express.)  
Hamburg, the greatest port of Germany, can this year be called 'Hamburg'! Here is a port, large enough to harbor thousands of ships; here are warehouses, docks, wharves, cranes, and railway sidings, and in former days the busiest life of life, and now dead.

In a drive round the port I scarcely saw a soul. True, the public is carefully excluded from the port as a precaution against deserters, but there were no soldiers, not a dock laborer, to be seen.  
Silence.

I have seen the ruins of North France, where the desolation and silence were impressive, but here, where nothing is destroyed, where every appliance for industrial activity stands ready, the silence is almost gruesome. It is as though a magician had waved his wand and caused a night to fall on this once prosperous city.

A few ships are lying at the quays, so few as to be lost in that immense port; there are no more than a few good ones, including the rare American, Scandinavian and British ships. But the masses who used to fill the harbor under the Elbe, who crowded the little steamers taking them from wharf to wharf, and from ship to factory, the canoes that swarmed on the ferries, where are they? Hidden in some back room in the airy, gloomy houses overlooking the small canals, sitting in dreary little inns seeking at empty pipes, looking about waiting for some chance job.

In the streets one comes across an occasional group of soldiers, looking half-astounded at the international garb of those who go down to the sea in ships.

Despair.  
But they are sailors — there is no mistaking the sunken faces, the broad shoulders, and the rolling walk of the seafarer. "My folk is the world," proudly says the fella over the palace of the Hamburg-America Line. Those days are gone. A few ships, small vessels, and the agency of an American company are all that remain.

"You dare come here?" says an old captain. "What do you want? To see how far we have fallen? Tell the people in England that they have got what they wanted. Our trade is ruined, our ships are lost."

It is useless here to speak of nationalism and of the responsibility for the war. To these men it is England that caused the war — England that was jealous of Germany, that beat them by lies and treachery, that is bringing about the ruin of their children and their grandchildren. They have lost everything with their ships, even hope. They see no possibility of subsisting their prosperity — they do not want to see it. All they know is anger, hate, and despair.

## LOTS OF MONEY FOR NOTHING

When the Exchange Rates Drop Back to Normal Status.

(By the "Daily Express" City Editor)  
The whole world is looking forward to the time when the exchange will once more become normal. It may be that its hopes will never be fulfilled. Let us suppose, however, that they will, and also that there is a shrewd young American now in the United States who has just been left 10,000 dollars.

He turns over some old records and finds that in 1913, when he had a similar sum, he spent it on a trip to "Yankee" visiting England, France, Spain, Italy, and Germany. Before he started he divided his money into the amounts he intended to spend in each country, and going to a money changer he bought the money of the different countries for his dollars. This is how it worked out:—

England ..... £400.  
France ..... 10,000 francs.  
Spain ..... 5,000 pesetas.  
Italy ..... 7,000 lire.  
Germany ..... 42,000 marks.  
This left him a balance of 500 dollars.

The same trip, he thinks, would suit him today. He knows that the exchange today is all in favor of the United States except in one of the countries mentioned, Spain. Of course, prices are higher everywhere, but owing to the exchange he will be able to spend more.

HOW IT WORKS.  
And he is a great believer that before his trip comes to an end the exchange will have shifted and become normal once more. So he gets paper and pencil and this is how he works out his expenditure:—

England ..... £632 6s. 8d.  
France ..... 36,000 francs.  
Spain ..... 3,800 pesetas.  
Italy ..... 27,000 lire.  
Germany ..... 185,500 marks.  
All goes to the money changer and buys foreign money according to this list. He leaves himself no balance in dollars, because he determines that when he gets to Germany he will stay all the exchange has righted itself.

With this assortment of foreign money he starts on his journey. He finds prices very high everywhere, but in each country the money he has to spend is very much more than he had before. Only in Spain has he to economize, so he shortens his stay there. When he gets to Germany he settles down comfortably with 185,500 marks in his pocket. He finds that, despite the high cost of everything, 35,000 marks will keep him nicely for a year. At the end of the year he reads in the paper that the exchange is normal once again. Twenty of his marks are worth one pound in England and five dollars in the United States.

He returns home with 100,000 marks left and changes them into dollars, receiving 20,000 dollars. Thus he has spent a long holiday in "Yankee" and found himself at the end with double the money in his pocket with which he started. It is good to be an American in these days.

"Ah!" you say, "but suppose the exchange does not go back to normal."  
Well, that's another story!

A Mere Trifle.  
Mr. Feather-top is going to the races this afternoon, and I'm so excited I know I'll fairly lose my head there.  
His Wife.—Oh, don't worry about that, dear. But be careful of your money.

## Standing Of The N. B. Hockey League

Fredericton, N. B., Feb. 22.—The standing of the N. B. Hockey League is herewith shown each win counting for two points and losses, participating in drawn games credited with one point each:

Team	Won	Lost	For	Against	Points
Chatham	4	0	33	12	8
Fredericton	1	18	12	6	2
Marysville	2	8	24	37	4
Bathurst	0	5	13	27	0

If Fredericton should win both games to be played on the North Shore they would have ten points, while Chatham would wind up the season with nine points.

"If at the end of a full game two teams are tied, they continue the game until a goal is scored up to a limit of twenty minutes overtime. If the score is then still tied, the match is drawn. In the standing a win counts for two points, a draw one.

The above is ruling of President Frank Calder of the N. B. Hockey League as result of the game played by the Marysville and Chatham teams agreed to call a draw after battling through two overtime periods during which they were unable to break the tie.

Chatham had everything to win and Chatham lost by continuing play until one side had scored or until the prescribed twenty minutes of overtime had been exhausted but didn't know it. Points, not games won and lost form the basis upon which the Championship of the N. B. Hockey League must be decided.

No date has yet been settled for Fredericton to make their postponed trip to the North Shore.

## MR. PUSSYFOOT'S PARADISE LOST

Dryness a Wet Blanket Over America.

Captain Tupper, the national organizer of the British Seaman's Union, who did so much to stimulate patriotic ardour during the war, makes a bold return to Lord Leverhulme, in regard to prohibition in the United States.

"I have spent two years touring from Maine to California," he said to a "Daily Express" representative yesterday, "and from my daily contact with all classes I consider I am better able to express popular opinion over there than Lord Leverhulme. His judgment has been formed by the study of the measure in the secluded atmosphere of the Waldorf-Astoria Hotel.

"No beer, no work," was the cry I heard everywhere. The middle-class are all against what they regard as interference with the liberty of the subject, but the bitterest hostility is raised owing to the method by which prohibition is being introduced. The people gave no mandate for it in peace, and the result is that the industrial parts are something with unrest.

"Lord Leverhulme wants to save the whole cost of drink in order to have money to pay for the war. Who is his arithmetic? Does he not know that the money we spend in drink provides the Government with funds which help to pay our debts? He thinks we can save money merely by ceasing to spend; there are many things we might give up—buying cars, for instance."

"My advice to the British working man is to fight to the end to retain his beer; drink it in moderation, and increase production. Then there will be more for Britain, and enough work for everybody."

It is the function of the kidneys to filter impurities from the blood and cast them out in the form of urine, but in many instances the bowels create more toxins and impurities than the kidneys can eliminate, then the blood uses the skin pores as the next best means of getting rid of these impurities which often break out all over the skin in the form of pimples.

The street way to clear the skin of these eruptions, says a noted authority, is to get from any pharmacy about four ounces of Jad Salts and take a tablespoonful in a glass of hot water each morning before breakfast for one week. This will prevent the formation of toxins in the bowels. It also stimulates the kidneys to normal activity, thus coaxing them to filter the blood of impurities and clearing the skin of pimples. Jad Salts is inexpensive, harmless and is made from the acid of grapes and lemon juice, combined with lithia. Here you have a pleasant effervescent drink which usually makes pimples disappear; cleanses the blood and is excellent for the kidneys as well.

## PUT CREAM IN NOSE AND STOP CATARRH

Tells How to Open Clogged Nostrils and Stop Head-Colds.

You feel fine in a few moments. Your cold in head or catarrh will be gone. Your clogged nostrils will open. The air passages of your head will clear and you can breathe freely. No more dullness, headache; no hawking, sneezing, mucous discharges or dizziness; no struggling for breath at night.

Tell your druggist you want a small bottle of Ely's Cream Balm. Apply a little of this fragrant, antiseptic cream in your nostrils, let it penetrate through every air passage of the head; soothe and heal the swollen, inflamed mucous membrane, and relief comes instantly.

It is just what every cold and catarrh sufferer needs. Don't stay tied-up and miserable.

## Gagetown

Gagetown, Feb. 17.—The work of collecting for the Forward Movement in the Anglican and Methodist churches in this district is driving to a close, with very satisfactory results. The work of the collectors was greatly hampered by the bad roads, some of the roads in the vicinity being still unbroken by a single track. The objective of the Anglican churches, comprising St. John's, Gagetown, St. Augustine's, Dummerlin, and St.

Stephen's, Gagetown, was \$150; while that of the Methodist congregation was \$150. The collector for the former is Harry Fisher; and for the latter, George W. Dinges. It is expected that both denominations will easily attain their stated objectives.

There have been a number of cases of Spanish Flu in the locality, although none in the village itself. At Pleasant Vale, some miles below Gagetown, Fred. W. Cameron has been ill for the past week and is now improving. DeVoe Osborne is also ill, and at Up. Gagetown, several families are suffering from the disease, including Mr. and Mrs. E. P. Whitcomb, Harry Whitcomb and Richard Whitcomb; W. S. Cooper, the children of Mr. and Mrs. Casmarok, Mrs. Frank Coy and family, and the Charles Gaudier's family. Mr. Whitcomb's case has been a very serious one, as double pneumonia set in early in the disease, and much anxiety has been felt regarding his recovery. Mrs. Frank Coy has also been very ill, but is now slowly recovering. The bridge club met on Tuesday evening.

Once the liver fails to filter the poisonous bile from the blood, there is a clogging up and poisoning of the whole system which causes many troubles to arise. Therefore, upon the liver, more than any other organ of the body, depends the general health. Carelessness and neglect, and often times, willful disregard of nature's laws will put the system out of sorts. The bowels become constipated, the liver ineffective and the stomach upset. To bring the system back to its normal state, you should take Milburn's Lax-Liver Pills. They live up to the liver; get the bowels back to their proper condition and tone up the stomach.

Mrs. G. L. Cackett, Berchar, Alta., writes:—"I have used Milburn's Lax-Liver Pills and have found them good for both stomach and liver troubles. I have told others about your valuable medicine and they have used them with good results."

"They are also good for headache," Milburn's Lax-Liver Pills are 25c a vial at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Stephens', Queenstown, was \$150; while that of the Methodist congregation was \$150. The collector for the former is Harry Fisher; and for the latter, George W. Dinges. It is expected that both denominations will easily attain their stated objectives.

On Thursday for the first time, trains were able to take water from the tank here, while going through. The tank was put up some years ago, when the station was built, and a well sunk which was never of any use; and last autumn the work of piping water from the creek was begun by E. H. Dexter, the contractor of Hampton. During the last two weeks the work of installing the engine and filling the tank has been going on. After being empty so long, the tank was badly shrunk, and it took considerable time to get it in shape again. On Thursday the work was completed and engines are able to quench their thirst here, on the journey between cities.

**LIVELY TIME LAST NIGHT AT THE SALVATION ARMY HOSTEL**

**Inspector Merryfield Under Prohibition Act With Policeman Linton Arrested Harry Charles for Having Liquor—Also Assaulted Clergyman and Pointed a Revolver—While Making Search Officers Gathered in a Card Party.**

Sub-Inspector Merryfield and Policeman Linton made a call on the Salvation Army Hostel, Prince William street, last evening, and as a result arrested Harry Charles on the charge of having liquor in his possession other than in his private dwelling. When the officers arrived on the scene they found that Charles had been trying to take charge of the Hostel. He claims to be a returned United States soldier, and appeared delighted to tell how many times he and the other United States Doughboys went over the top, but did not take the liquor inspector and the police officer long to show him how long it took them to go over the top and place him in custody.

Charles was apparently not satisfied in making a disgrace of himself in the home for returned soldiers, for in addition to having the liquor with him, he assaulted the Rev. Mr. Brown, who is in the city conducting revival meetings, and caused the clergyman injury by striking him on the face, causing blood to flow. Further, he also pointed a revolver at Mr. Brown and threatened him. The officers, after placing Charles under arrest, left notice for Mr. Brown to appear in the police court this morning, and, in addition to the liquor charge, Charles will most likely have to face the serious charge of assault, pointing a revolver and threatening. Inspector Merryfield took possession of the revolver.

It was while the officers were making a search for liquor that they entered a room, and, instead of finding any liquor, they discovered a party engaged in gambling, and immediately cautioned the players, as well as the cards and the money that was on the table. The party was placed under arrest, charged with gambling, and include William Marr, Alfred Brittain, Percy McKay, Basil Mingo and William Pinkney. All were taken to police headquarters and placed in cells, and will appear in court this morning to answer to the charge of gambling.

It is stated that the clergyman, although bleeding from the face, left the Hostel and proceeded to the place of worship where he preached last evening.

**Trade Between Canada And France**

**Importance of This Trade is Indicated by Canada Steamship Lines, Which Will Put Two 12,500 Ton Vessels on the Route.**

The importance of the trade which is being developed between Canada and France is indicated by the fact that the enterprising Canada Steamship Lines will put on two vessels of 12,500 tons each to run between Canada and France, calling also at Antwerp. This, it is understood, will be a new service in addition to its present service between Canada and the French ports of Havre and Bordeaux, which is operated with boats of about 6,000 tons, sailing fortnightly. The two new boats will be put in commission this spring, and will be among the largest freighters coming to Canada. One of them may make a voyage to St. John before the opening of the St. Lawrence season, and both are expected to come to St. John next winter.

The Canada Steamship Lines in conjunction with Compagnie Generale Transatlantique also plan on putting the run between Havre and Montreal this summer. The object of this service is to develop a tourist traffic between France and Canada. Present plans only contemplate a summer service, but if travel warrants the boats may be seen in St. John next winter.

The Canada Steamship Lines which up to a short time ago was only interested in the Great Lakes business have other plans for extending its ocean services. It is understood to be making arrangements for a new service between Canada and the Mediterranean, and also a service from Canada to South America. This company has offices at St. John, and is apparently destined to become a factor of importance in the development of traffic through this port.

**Special Meeting of Playgrounds Assn.**

**Revision of Constitution and By-Laws Occupied Attention at Session Held Saturday—Objects of Association Defined.**

The revision of the constitution and by-laws occupied the attention of the Playgrounds Association at a special meeting held in the Board of Trade Rooms Saturday afternoon. W. K. Haley, K. J. MacLellan, T. L. McEwen, A. W. Covey and H. H. MacLellan were the committee in charge of drawing up a constitution and by-laws. Their report was adopted.

The object of the Playgrounds Association is defined as follows: "To provide information regarding the advantages accruing from the establishment of public playgrounds, and to solicit, obtain, and use funds from all available sources for the furthering of such objects."

I.—To provide information regarding the advantages accruing from the establishment of public playgrounds, and to solicit, obtain, and use funds from all available sources for the furthering of such objects.

II.—To equip and maintain winter and summer playgrounds, places of recreation, and social centres and to improve and control them.

III.—To acquire, hold, or dispose of all land, buildings or premises necessary for the objects of the Association, and to solicit, obtain, and use funds from all available sources for the furthering of such objects.

A by-law drawn up at the meeting stipulated that the Association shall be affiliated with the A. U. of C. before its application with the treasurer of the Association shall file with the treasurer of the Association an audited statement of each League's receipts and expenditures, together with the necessary vouchers concerning the same.

Another by-law stated that: "All athletic clubs applying for membership in the Association must be affiliated with the A. U. of C. before its application with the treasurer of the Association shall be filed with the treasurer of the Association, and that \$5 had been donated by F. E. Williams.

To the regret of all, Captain Mulochy announced that he would be unable to continue in office as president, and Mrs. W. C. Goddard stated her intention of retiring from the secretaryship, which office she has filled so ably for some years.

**PROBABLE LABOR CANDIDATE FOR MAYOR**

A labor union official last night stated that there was a strong possibility that labor will have a candidate for mayor in the next civic contest and it is possible that F. A. Campbell, president of the Trades and Labor Council will be the man. The official said that Mr. Campbell has been approached but that nothing definite has yet been announced. It is also possible that a labor candidate will run for an office of commissioner.

**DEBATE POSTPONED.**

The debate of the St. John Inter-Society Debating Union which was to have been held yesterday afternoon between the Irish Benevolent Society and St. Peter's Y. M. C. A., in the latter's hall on Douglas Avenue, was postponed owing to the illness of some of the debaters. The subject for debate resolved, That Harbor Commission is preferable to Nationalization of the Port of St. John, has naturally created considerable interest, and it is hoped that the debate will not be long postponed.

The Free Kindergarten regular monthly meeting has been postponed until a later date.
