Act

THE PROVINCE OF QUEBEC  
**Lands, Forests AND Fisheries Department**

HONORABLE G. A. NANTEL,

*Commissioner.*

E. E. TACHÉ, Esq.,

*Assistant Commissioner.*

Desirable locations for Colonists all through the Province at nominal prices and upon easy terms of payment.

Valuable timber lands, timbered with Pine, Spruce, White Birch, Hardwoods, Cedar, &c., obtainable in various localities.

Choice lakes and rivers to be leased, or territories for hunting and shooting, or both.

*Address all Correspondence to:—*

**Hon. Commissioner of Lands, Forest and Fisheries,  
QUEBEC, P. Q.**

## LANDS.

To intending settlers in Canada we would say, *locate yourselves in the Province of Quebec.* There is an almost endless variety of lands disposable and open for selection, stretching *from the extreme eastern limit, Gaspé, to Lake Temiscamingue in the west.*

Several millions of acres have been surveyed and set apart for the purpose, particulars regarding which can be obtained at any time on application to the Department; the Government is constantly constructing new roads, and maintains those existing in good order; every facility possible is extended to the agriculturist, and the cultivation and amelioration of the soil is fostered in every branch of this important industry. The Gaspé Peninsula, the Metapedia Valley, the Ottawa and Lake St. John Countries, all offer exceptional inducements to Colonists. *Write for the Settlers Guide and make a suitable selection.*

## TIMBER LANDS.

Most of the White Pine Limits have been already disposed of and general attention is being given to Territories producing Spruce; there are still large areas upon which this species of timber abounds, principally in the northern and eastern section of the Province, such as the Lake St. John, Saguenay and Gaspé Districts.

The trade in hardwood will probably now be more active, and enquiries for limits of this description may be made, the expansion in the White Birch business can easily be met by the large tracts heavily timbered with this variety of wood.

The extensive groves of Cedar in the Bonaventure and Gaspé districts are being sought after by those engaged in the Shingle trade. Sales are made periodically by the Department now, as the number of applications for limits seems to be ever on the increase.

Write the Department for particulars regarding any locality.

**PAUL BLOUIN,**

*Supt. Woods and Forest Branch.*

## FISH AND GAME.

The Province is indeed justly termed *The Sportsman's Paradise* for the excellent reason that within its limits are found in abundance, the most desirable species of Fur, Fin and Feather, and large game as well.

The king of game fish, viz.: the *Atlantic salmon* is found in a majority of the rivers in Gaspé, Bonaventure, and on the North Shore, there are a number of these which can be acquired on lease from the Department; the wary *Brook-Trout* exists in profusion throughout the Province, in some localities attaining great size and weight, inland waters, (lakes and rivers) are obtainable yet at reasonable figures which abound with this magnificent fish, and in many of these lakes excellent fishing in the way of the great lake trout (touladi) is to be had. Towards the west in the Ottawa valley we find that fierce fighter, the *black bass* in large numbers, some very choice lakes in this section are still disposable. Feathered game, such as ruffed grouse (partridge) ducks, geese, shore birds, the snipes, plover, &c., are scattered all over; in some localities being exceedingly

plentiful. Hunting territories, may now be acquired under the new Law, and no doubt many applications will be received for blocks of land in the Gaspé, Bonaventure and Ottawa, Labrador and Temiscouata region, where the Moose, Caribou and Red Deer abound, but Caribou are to be found all through the Province as well, notably in the Laurentides National Park. As regards Fur, the Northern Canadian skins have always held first place in the markets of the World and Quebec Province supplies a large percentage of the amount of production. Particulars regarding any locality, either in the line of fish or game can be procured on application to the Department.

Wages and salaries, not yet due, except the salaries of public officers or employees of this Province, whether permanent or not, and those of city or town clerks in incorporated cities or towns, which are liable to seizure in the propositions mentioned in article 628 of the code of procedure.

We have given above the full list of exemptions, as the question is frequently asked. There are other and larger exemptions applicable to settlers in the country.

All vessels, boats and other fishing craft, tackle, nets, seines, lines, and other fishing apparatus and provisions belonging to any fisherman, and necessary for his subsistence and that of his family, or for his fishing operations. Such effects, may, however, be seized and sold for their purchase price, but not between the first day of May and the first day of November. Alimentary allowances and things given as aliment may, however, be seized and sold for alimentary debts.
