

## SO MANY PEOPLE ARE NERVOUS

"Fruit-a-lives" the Greatest of all Nerve Remedies

### This Fruit Medicine Restores Health

The increase in the number of persons suffering from Nervousness is world-wide, due, in a measure, to the reaction following the war. Sleeplessness, Headaches, Mental Depression, Rheumatism, Nervous Dyspepsia, Bad Heart Action, are the results of a disturbed condition of the Nervous System.

The nerves and the blood are so intimately, so vitally, connected that the condition of one is bound to affect the condition of the other. If the blood is laden with impurities, it is impossible to have strong, steady nerves.

The first essential in treating nervous troubles is to purify and enrich the blood. This, "FRUIT-A-LIVES" will do.

"FRUIT-A-LIVES" stimulates the bowels, kidneys and skin and purifies the blood. "Fruit-a-lives" improves appetite and digestion and insures food being properly digested, thus enabling the blood to carry wholesome nourishment to build up the body, particularly the nerves.

Men and women who take "Fruit-a-lives" for some form of nervousness—because they cannot eat or sleep or work or enjoy life—say that this fruit medicine is simply marvellous in its action.

During the past 21 years the per capita production of potatoes in the United States has averaged 3.6 bushels and this with our present population means a production of 390 millions total for the country. A study of the same period shows that with the present population a per capita production of 3.2 bushels, or less, (\$49) millions for the United States) usually

brings higher prices in the spring than in the fall, the price gradually working upward.

On the other hand, a per capita crop of 3.5 bushels (414) millions for the United States (or more, usually causes prices to work gradually downward so that by spring they are considerably lower than when the crop began moving. In between these points the direction of the price trend is less certain. This year's production is 4 bushels per capita; and since the crop began moving prices have declined and low prices throughout the season would seem probable from the experience of past years. However, the amount of unmarketable potatoes,

## Railway News

Montreal—It was announced at the head office of the Canadian Pacific Railway at Windsor Street Station here, that free transportation would be granted by that Company to all relief supplies for the sufferers from forest fires in Northern Ontario when consigned to the Cobalt Relief Commission, at Cobalt, Ontario. These supplies will be accepted by the railway at any point on the Canadian Pacific system, and will be rushed forward without delay.

Winnipeg—From September 1 to October 5, the C.P.R. has marketed 68,272,864 bushels of grain, according to a statement issued at the local offices. During the same period 35,484 cars were loaded, which is the equivalent to 51,180,789 bushels. The previous highest figures recorded were in 1915, when the company marketed 32,023,000 bushels and loaded 22,472 cars, which is equal to 29,887,760 bushels.

Penticton—After more than a quarter of a century of service on Canadian Pacific boats on British Columbia inland waters, Capt. George Robertson made his last trip on Saturday, and when the Sicomus tied up at the Penticton dock that evening the captain passed down the gangplank for the last time in an official capacity.

Captain Robertson is from now on a fruit rancher, and he proposes to lead the simple life on the ten-acre property which he purchased on The Bench three or four years ago.

His career in marine circles in British Columbia is a lengthy and honorable one and dates back nearly forty years.

Halifax—The many friends in Halifax and Dartmouth will be pleased to learn of the success of Edward Everett Beck, formerly of Dartmouth, but now residing in Vancouver. He has just been appointed manager to the Hotel Vancouver. Mr. Beck is a son of Mrs. Beck-Lydiard, Dartmouth. He has three brothers, Charles A., Dartmouth; Harry, Middle Muscodobolt, and Archibald in Winnipeg.

Going to Vancouver from Halifax where he was a stockbroker, Mr. Beck has seen the Hotel Vancouver grow from a small brick building to the present fifteen storey fireproof structure.

Famous men and women from all parts of the world have been cared for by the smiling official during his service with the company.

Winnipeg—September records of the handling of the season's crop afford a remarkable demonstration of efficiency in grain handling by railroads, elevators and by the human element that plans and directs. Compared with other years the September movement far surpasses all previous records. All over the west long trains are carrying the current of wheat to the lake front and thence to the markets of the world.

Feeding the transportation routes are thousands of threshing outfits which during the recent fine weather have been operating in every district from early morning until dark. A summary of the Winnipeg inspections shows the magnitude of the movement as compared with 1921:

	Sept. 1922	Sept. 1921
Cars of wheat.....	39,344	26,756
Oats.....	919	1,590
Barley.....	2,081	1,633
Flax.....	52	89
Rye.....	2,027	469
Total.....	44,456	30,463

Calgary, Alta.—Many farmers in the irrigated districts in southern Alberta have every reason to be satisfied with the result of their season's work, according to G. H. Hutton, superintendent of the agricultural and animal industry branch of the Canadian Pacific Department of Natural Resources in Calgary, who has returned after a visit to that section of the province. The yield of wheat has turned out most satisfactory, in some cases averaging thirty-seven bushels to the acre. One man in the Cowdale district had realized a net profit of \$6,000 from 425 acres.

In the Vauxhall district one of the farmers had informed Mr. Hutton that he purposed finishing with 100 steers, 5,000 lambs and from twenty-five to thirty dairy cattle, and that he would have even then 200 tons of hay for sale from one section of land. Incidentally Mr. Hutton mentioned that the feeding of the lambs under contract in the irrigated districts was being considerably extended this year. The business promised to provide a most satisfactory market for alfalfa hay and coarse grain, and to involve a relatively small risk, inasmuch as it was possible to contract lambs now for spring delivery. The profits from that line of work, he said, were in marked contrast to those which were realized even under the best of conditions in the growing of grain alone on irrigated land.

Mr. and Mrs. A. W. Phillips have  
returned from a business trip to Mon-

Mr. and Mrs. E. R. Marich enter-  
tained informally Wednesday evening  
at cards when their guests were Mr.  
and Mrs. Jack Stenzegger of New  
York, Mr. and Mrs. H. D. Street and  
Mr. and Mrs. L. A. Noble.

Mr. and Mrs. Jack Stenzegger re-  
turned on Friday to their home in New  
York City, after a two week's visit  
here with relatives.

Reginald Britton of Bath spent the  
week-end at his home.  
Geo. Fulton is expected home from  
Woodstock this week.

### East Florenceville

The ladies' aid of the Methodist  
church opened their series of winter  
suppers on Friday night last with a  
special chicken supper. The large  
crowd present was sufficient evidence  
that all the people of the community  
appreciate the culinary art of the  
Methodist ladies. A good sum was ad-  
ded to their treasury.

Blaine Smith, young son of S. W.  
Smith, has a very narrow escape from  
death last week when he fell about  
twenty feet from the framework of  
the covered bridge. He with several  
other boys were playing on the bridge  
and Blaine lost his grip and fell upon  
his head on the hard planks below.  
He was picked up and carried to his  
father's store where his face was  
found to be very badly cut and bruised.  
He is recovering as well as can be ex-  
pected.

A very serious accident threatened  
the lives of two of the lovely boys  
last Wednesday night during the thick  
snow storm. The boys were wrestling  
in the road and dragged each other  
down to the ground behind a large  
truck which was passing at the time  
and failing to see that it was followed  
by another car. Before the second car  
could be stopped the four wheels had  
passed over each boy. As they  
crawled out from under the middle  
section of the car, one said to the  
other, "I'm not hurt, John; are you?"  
John replied "no" and they made off  
in the storm, leaving the startled driver  
to proceed thankful that nothing  
serious had happened.

Another accident to a young boy at  
the station on Saturday. The son of  
Mr. and Mrs. Catell was playing with  
the harness of his father's horse while  
standing at the station. The horse  
kicked the boy right between the eyes,  
inflicting a very ugly and serious  
wound. The boy was rendered un-  
conscious and was later attended at  
his home by Dr. Peppers the family  
doctor, who brought in Dr. Belyea to  
perform an operation. The condition  
on Sunday night was not very hope-  
ful of recovery.

A very pretty wedding was solemn-  
ized in the Methodist church last  
Thursday when Rev. D. R. Chown  
united in wedlock Miss Willa Hunter  
of Stickney to Rupert Rayworth of  
Port Elgin. The bride was led down  
the aisle on the arm of her father and  
was attended by her aunt, Mrs. Gar-  
rity, as matron of honor. The double  
ring service made the ceremony im-  
pressive to the large audience which  
crowded the church. Miss Stella Hun-  
ter presided at the organ in her us-  
ual efficient manner. After the cere-  
mony Mr. and Mrs. Rayworth started  
out to motor to their future home at  
Port Elgin where Mr. Rayworth is  
engaged in the lumber business with  
his father.

A. D. McCain is receiving the con-  
gratulations of his many friends on  
the arrival of a son at his home. Both  
Mrs. McCain and baby are progressing  
most favorably.

Guy Lawlar and Miss Sarah Mel-  
ville surprised their many friends by  
being very quietly married at the Ba-  
ptist parsonage on Saturday. This hap-  
py event has been eagerly expected  
or some time, but the popular young  
couple succeeding in keeping it secret  
until after the event. Mr. Lawlar was  
supported by George Melville and Miss  
Melville was attended by Miss Ruth  
Smith. Rev. I. W. Williamson officiated.  
After the ceremony was over the  
event was noised abroad. Mr. and  
Mrs. Lawlar were treated to a noisy,  
joyous charivari at the home of Col.  
Melville, the bride's father. The whole  
community unites in wishing them  
long life and much happiness.

Miss Bernice McKay has come into  
the village to take charge of the din-  
ing room of the East Florenceville  
Hotel.

Dr. and Mrs. Skiff visited East Flo-  
renceville last week and stopped at the  
home of Mrs. Inglis Tompkins, aunt of

Mrs. Skiff. They are on their honey  
moon travelling by motor car and ex-  
pect to visit Colorado and many west-  
ern cities before returning to Pitts-  
field, Mass., where Dr. Skiff has been  
in practice.

Several ladies belonging to the Or-  
ange Lodge journeyed to Plaster Rock  
to take part in the social celebration  
by the ladies Orange Lodge of that  
place. On their return journey the  
ladies were treated to the excitement  
of a train wreck, but escaped injury,  
save a good shaking up. Those in the  
party were Mrs. Ed. Saunders, Miss  
Carrie Carle, Miss Amy Tompkins,  
Miss Gertrude Boyer and Mrs. Frank  
Tompkins.

The sympathy of all is extended to  
the bereaved family in this, their great  
loss.

Mr. Moore, inspector of school for  
this district, paid his annual visit to  
the Bath School on Thursday of last  
week.

A very pretty and interesting wed-  
ding took place at the home of the  
bride's parents, when Reverend Mr.  
Hallett, B. A., united in wedlock Bes-  
sie, eldest daughter of Mr. and Mrs.  
Harry Giberson, to Gordon Tweedie,  
a popular young man of Wicklow.

W. Caldwell, M. P., William Pirie, produce dealer; Mayor D. J. Collins, J. L. White and G. M. Taylor, general merchant; Rev. Father Albert; George W. Warnock, M. P. P., John Malcolm, farmer; Frederick W. Warnock, farmer and B. A. Rideout, produce dealer.

It was brought out that for the years of 1920 and 1921 the hay crop of the province was very light and while potatoes for those two years gave a fair yield, the price received was less than half the actual cost of production, while the present year the yield of potatoes is less than half an average crop with the price comparatively low in the two previous years. While hay, this year, is a good crop the price is less than half the cost of production with practically no demand.

Due to these facts and to the fact that the mortgage and loan companies, and also the banks have refused to make any loans and take real estate as security, the farmers are unable to raise the necessary money to pay their bills, which in turn makes it impossible for the business men, who are their creditors, to meet their financial obligations.

In a few instances the stock and equipment of the farmers has been seized and sold for debt and in most cases has brought little more than the cost of seizure and sale. Should this method of collecting be resorted to generally, the farmer would be put absolutely out of business and his creditors would receive only a small percentage of their claim, it is said.

The speakers were unanimous in the opinion that the only hope of saving the situation would be to ask the dominion government to finance a loan to the farmers, who could give good security, at a low rate of interest to relieve the present very critical situation, and the following resolution was passed unanimously:

"In view of the present very critical financial condition of the agricultural industry in Canada, and due to the fact that the mortgage and loan companies and also the banks refuse to loan money and take real estate as security, the

farmers are unable to raise sufficient money to pay their bills, which in turn makes it impossible for the business men, who are their creditors to meet their financial obligations.

"Therefore, be it resolved, that we request the federal government to grant loans to farmers and others who can give good security, same to be repaid on amortized plan similar to soldier settlement loans, at a low rate of interest. And that a copy of this resolution be mailed to the Premier of Canada and to the federal minister of agriculture."

## IMPROVING THE OPPORTUNITY

United Baptist Parsonage a Veritable Greenhouse Before the Parson Departs

When a merchant decides to remove from town he generally puts on a marked-down sale of his wares. Whether this is the method of Rev. E. A. Triton, who is soon to remove to Carleton, or whether it is simply his popularity as a marrying person, no one knows, but here is recorded his week's business in just one line.

On Oct. 28 William E. Mason of Woodstock and Miss Vera Black of Bloomfield were united in marriage, while on Oct. 31 William Elton Campbell of St. John and Alena May Campbell of Limestone were wed. On Wednesday Coy D. Tompkins of Peel and Daisy M. McLean of Mount Pleasant were made man and wife.

E. M. SIPPRELL

The death occurred last Wednesday of Ezekiel M. Sipprell, of his home in St. John. He was 75 years of age and had been ill a long time with a form of paralysis. He was very well known throughout the maritime provinces, having been for many years manager of the Mutual Life Assurance Co., of Canada at St. John. For years he was business manager of the Maritime Baptist.

Mr. Sipprell was a son of the late Ezekiel Sipprell of Somerville and as a young man went to Ontario where he taught school for years before entering into the life insurance business. He first married Mary Logan of St. John, Ontario, who died 25 years ago. By her he had four children: Garfield of Halifax, Roy of St. John, Mrs. Arnold Mac Nee of Raymond, Washington and the late Mrs. Stanley Fisher of St. John. A second wife, who was Annie G. Fritz, survives, with her son Harold.

Mr. Sipprell was a fine type of self-made man and among the Observer readers many will learn of his passing with sorrow.

ROBERTS-CAMPBELL

One of the most attractive autumn weddings took place on Oct. 25, at five o'clock at the home of Mr. and Mrs. W. H. Campbell at Carleton, when their only daughter became the wife of Archie Eugene Roberts.

In the presence of thirty of the near relatives and friends the bride entered the parlor on the groom's arm, attired in a beautiful blue silk crepe de chine and wore a bridal veil with bride's roses. The single ring service was used. Rev. William Churchill was the officiating clergyman.

A bountiful supper was served after which the whole party motored to Carleton to the home of the groom where a reception began at eight. Many beautiful presents were received. Some of the out of town guests were, Mr. and Mrs. O. A. Giddens of Presque Isle, Mr. and Mrs. Wm. Montgomery of Limestone, Mrs. Samuel Tompkins and Mr. and Mrs. Geo. Hunter of St. John.

## SOMETHING FOR EVERYBODY

The Family Herald and Weekly Star of Montreal, seems to have a genius for collecting, or at least for giving us the best of everything. It is because all needs are catered to, and all minds receive what they need, and all households are given from the experience of the past and the wisdom of the present what is necessary for today and for tomorrow also, that none can afford to be without the Family Herald and Weekly Star, particularly as the subscription price of \$2.00 a year is within the means of all.

W. W. Hoover of Canton, Ohio, and Roy Purdy of Killbuck, Ohio, who have been here for the past two weeks hunting, were successful in getting two fine moose. They returned to their homes via Boston on Tuesday delighted with their trip.

Mrs. Ruggard, 21st Avenue, went to Woodstock last week to be operated on in the hospital there. Mrs. Ruggard has been in poor health nearly all the summer. Her many friends hope for her a speedy recovery and are glad to hear that she came through the operation well.

Martin Theriault has been offered, we understand, the position of manual trainer in the Edmundston schools next year, and is considering taking a course of training to better fit himself for that position. There is no one better fitted, or who would receive greater support from the people of Edmundston than Martin. He is a man's man, popular with all. We trust he will take the offer and believe that he will be an acquisition to the teaching forces of the country. The best of luck and the success you deserve, old man.

## Got No Sleep

But now the neuritis has gone, the pains have ceased, the nervous system is restored and the writer of this letter pays a grateful tribute to the medicine which made him well.

Mr. John Woodward, P.T.O., Lucan, Ont., writes:

"It gives me much pleasure to recommend Dr. Chase's medicine, especially the Nerve Food. I was a sufferer from neuritis for several years, and tried all kinds of remedies, yet never seemed to get any better. At last my nerves and whole system seemed to give way through not being able to get any rest or sleep at nights for pain, which mostly used to take me in all parts of the limbs and feet. My nerves would twitch till my whole body would seem to jerk right up as I lay in bed. At last I decided to get Dr. Chase's Nerve Food, which I did, and after taking twenty boxes I believe myself almost normal again. I also keep a box of Dr. Chase's Kidney-Liver Pills on hand, and for the past year I seem to enjoy my usual health."

## Catarhal Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. Catarrhal Deafness requires constitutional treatment. HALL'S CATARRH MEDICINE is a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced, your hearing may be destroyed forever. HALL'S CATARRH MEDICINE acts through the blood on the mucous surfaces of the system, thus reducing the inflammation and restoring normal conditions. Circulars free. All Druggists. F. J. Cheney & Co., Toledo, Ohio.

## AROOSTOOK JCT.

There have been several residential changes lately. Crandallmore has moved into a C. F. dwelling, his house occupied by Ray Smith, Ray Smith's by J. D. Jackson. F. W. McNally, W. Giberson, S. G. Ketch and Geo. Estey have all built houses this summer and are now occupying them. In order to give some idea of the building up of Aroostook it is interesting to note that in 1910 there were only 13 families living here, and at the present time there are no less than 38 families, and about 100 children attending school.

Mr. and Mrs. Hacking of Vancouver are spending a month with Engineer and Mrs. J. T. Smith. After staying with relatives at Owen Sound and Toronto for a few weeks they will then return to their home in Vancouver.

Jewett, had been initiated the members sat down to a chicken supper which had been kindly provided by Mrs. James Howard of the G. F. Hotel, and a pleasant evening was spent at cards, etc.

## SUGGESTIONS FOR USING Substitutes for American Anthracite In Ordinary House Furnaces

1. No change is necessary in furnace. Build the fire in the usual way.
2. Open all the drafts and leave them open for about ten minutes. This is to allow the smoke and gases to pass out of the chimney.
3. To get the best results in applying coal to the fire use a little less than in the case of Anthracite and apply coal oftener.
4. After the coal has been burning about ten minutes or long enough for the smoke and gases to have been expelled, close up all the drafts except the chimney draft, which should be left partially open.
5. When refiring, first take a bar or poker and break up the crust of coal that forms on the top of a Bituminous coal fire, then apply fresh coal, following the rule given for leaving drafts open. A handful or two of coarse salt scattered evenly over top of Bituminous coal freshly applied to fire will prevent formation of tar and other substances adhering to sides of furnace, it will form a gas thereby intensifying the heat and eliminating smoke.
6. Bituminous coal will probably be in varying sizes and contain some slack. The lumps should be burned in the day time and the fire banked with smaller coal and slack at night, leaving a small opening at the top to let the air through. When making the last fire at night shake out the fine ash that will be clogging the openings in the grate. Your grates will last far longer if kept clean.
7. By throwing a moderate amount of water upon the Bituminous pile at the point from which the coal is taken out the dust objection is largely overcome, as well as reducing the amount of smoke when the coal is first thrown on the fire.
8. In the morning, before opening the furnace door, the chimney and bottom drafts should be first opened.
9. With Bituminous Coal more soot is formed in stovepipes, flues and chimneys than in case of Anthracite; and furnaces, furnace pipes and chimneys should be cleaned frequently. Hot water furnaces should be cleaned every day or so, and the furnace pipes every two or three weeks. Soot will not accumulate as quickly if a small quantity of zinc clippings are occasionally thrown into the fire.
10. A mixture of big lumps of Bituminous coal with about an equal quantity of Anthracite pea coal, or with coke, will simplify the problem.
11. Welsh Anthracite and Welsh Dry Coal and "Briquettes" should be fired in practically the same manner as Pennsylvania Anthracite. The small screenings should be fired on top of the larger coal when the fire is well kindled.
12. If Coke is used care must be taken to keep the ash pan free of ashes. If allowed to accumulate the gases may be burnt out. It is also good to keep a little water in the ash pan if tight enough to hold it.

### MORE MEN THAN WOMEN HAVE APPENDICITIS

Medical reports shown men are more subject to appendicitis although many sudden cases occur among women. It can be guarded against by preventing intestinal infection. The intestinal antiseptic, Adler-ika, acts on BOTH upper and lower bowel, removing a lloft, decaying matter which might cause infection. It brings out matter you never thought was in your system and which may have been poisoning you for months. Adler-ika is EXCELLENT for gas on the stomach. Hartland Drug Co., Ltd.

## He Could Hardly Swing a Sledge says Knickle

"Four bottles of Tanlac put me in such fine shape I can do a hard day's work and still feel fresh at quitting time," declared Ernest Knickle, well-known blacksmith residing at Pelham street, Lunenburg, N. S.

"I suffered terribly from stomach trouble and was so badly run down and weak that sometimes it was almost more than I could do to swing my sledge. I would have such awful pains in the pit of my stomach after eating that it would almost double me up like a horseshoe, and my food felt like a lump of iron in my stomach. Gas bloated me up terribly and I would be dreadfully nauseated. I couldn't sleep well, lost my appetite entirely and got in mighty bad shape all around.

"A lady who had been sick in bed before she took Tanlac was telling our neighbors what a grand medicine it was, so I thought I would give it a trial. Well, it simply rid me of all my troubles, and you can bet that if I ever get back in that condition Tanlac is the first thing I'll go after."

Tanlac is sold by all good druggists.

### Railway News

Montreal.—Ike Litter and Abram Mayoff, who were arrested at Montreal on August 24th, charged with giving money to C. P. R. conductors on the St. Agathe Subdivision for not collecting fares from parties of passengers, appeared before Judge Perrault on September 21st and pleaded guilty to the charge, and were sentenced to pay a fine of \$25 each and costs.

These are the first prosecutions made in Canada on this charge, which is covered by an amendment to the Criminal Code under section 412A, making it a criminal offence for giving or offering to give to conductors of any railway valuable consideration for not collecting fares from passengers travelling on trains.

Figures have been issued recently showing the accidents and casualties occurring on the Pacific system of the Southern Railway during the years 1918-1921. They are sufficiently impressive:

Ran on track in front of train, 1,390; killed, 185; injured, 569. Ran into side of train, 676; killed 13; injured, 253. Stalled or died on track, 227; killed, 7; injured, 41. Skidded into side of train, 89; injured, 17. Ran into crossing gates, 207; injured, 18. Ran into crossing flagmen, 20; killed, 2; injured, 15. Miscellaneous — (ran into cattle guard, warning signs, etc.), 46; killed, 1; injured, 8. Total accidents, 2,765; total killed, 208; total injured, 921.

If the danger to people driving automobiles recklessly was confined to such people one might be inclined to view the situation with comparative equanimity, but the reverse is very much the case. Railroads suffer heavily through careless driving.
