Nothing at All Satisfactory

Can Be Learned Regarding the Chinese Situation.

The Latest Story Is That the Pekin Consuls Are Held as Hostages—Situation Grows Darker—Reports of Wholesale Massacres at Different Points—Official Treachery Illustrated.

New York, July 30.—The Japanese consul at Tien Tsin sent a runner on July 16 to Pekin. On the 9th the runner left Pekin, bringing a cipher telegram to the Japanese Government, says a Che Foo special to the Herald, dated July 27. It reads: "We are defending ourselves against the Chinese very well, but now the attack has stopped. We will keep up to the last of the month, although it will be no easy task."

"The Japanese casualties are: Killed—Kozima, diplomatic attaché; captain and one student, and also a few marines. Wounded—Five or six slightly wounded, very many."

The Che Foo consul says that nothing was written about the other ministers.

LI QUESTIONED.
London, July 30.—Shanghai dispatches to the Daily Telegraph say that Li Hung Chang was questioned yesterday. He declared that the emperor, empress dowager and foreign ministers are all safe. But he is unable to explain why, if the ministers are safe, he cannot produce such proofs as would satisfy the powers. He strongly favors holding the ministers as hostages so as to secure favorable terms for the emperor, dowager and the rebel government. He does not see that holding the envoys as hostages would be a less crime than killing them. It is obvious now that the object of Li Hung Chang's visit to Shanghai is to sow discord among the allies through the consuls, but as yet he has not met with much success.

A municipal meeting has been convened for Tuesday for the purpose of reorganizing the defense of Shanghai. The number of possible assailants is considerably greater than was originally supposed, and a great many officials who are apparently loyal do not deserve to be trusted.

NO PROOF OF THE ENVOYS' SAFETY.
London, Monday, July 30—4:15 a.m.—The Shanghai correspondent of the Daily Telegraph says he is still firmly convinced that the ministers are safe, but with the exception of an alleged message from the Japanese legation in Pekin, dated July 19, brought by a runner, saying that the legation was still defending itself, nothing has as yet been published giving anything in the nature of proof. On the other hand the daily increasing reports of the massacre of missionaries and foreigners leave only the most slender

thread on which to hang a hope. The general situation is steadily becoming darker, and a crisis is said to be fast approaching. It is rumored in Shanghai that 10,000 Chinese troops have been secretly moved into the vicinity, and that the commander of the Kiang Yu forts has been ordered to fire if any addition is made to the number of foreign ships ascending the river. Fighting has already occurred at Kiu Kang, the mobs threatening death to foreigners.

With the arrival of the second Japanese division, the allied forces at Taku and Tien Tsin will number 70,000. The river floods near Tien Tsin are diminishing. It is reported that Russians from Harbin have arrived at a point 150 miles north of Pekin, after severe fighting.

MORE MISSIONARIES MURDERED.
A special dispatch from Shanghai, dated yesterday, says that the English mission station north of Ning Po has been destroyed and twelve missionaries have been murdered.

"THE TRIFLE."
The Canton correspondent of the Daily Telegraph, in a dispatch dated Saturday, says: "The 'Trifles' have become numerous and threatening in Hai Nan. The local and the local mandarins are terror-stricken and decline to protect foreigners. All the missionaries except three have left with their wives and families. The natives of the Nodoo district of the island were so frightened that they all joined the ranks of the 'Trifles.' Serious disturbances are expected between Aug. 1 and Aug. 15, during the festival to be held to appease the shades of the dead. The Boxers are charging large sums to the Chinese for passports from Pekin to Tien Tsin. Lao Yun Fu, the Black Flag chief, has refused to march out of Pekin unless Viceroy Tak Su will furnish him with 20,000 soldiers."

ON TO PEKIN.
The Shanghai correspondent of the Times yesterday says: "I learn that Li Ping Hong and Lu Chuan Lin, governor of Kiang Su, both rabidly anti-foreign, are advancing toward Pekin with large bodies of troops. Their advent must seriously affect the situation. Today the consular body decided that the military demands the presence of a military force in Shanghai, and the consuls have notified their governments accordingly."

A THREAT.
The Chinese legation in Berlin has received a message from Sheng, director-general of railways and telegraphs, saying that he had received a dispatch from Pekin, announcing that Gen. Tung Fung Shih threatens to kill all the members of the legations if the international forces advance upon Pekin. Evidently the legation is embarrassed by the receipt of this dispatch, as the Chinese minister has not communicated it to the German Government.

SHOULD AS HOSTAGES.
The Shanghai correspondent of the Daily Express, telegraphing yesterday, says: "A new imperial edict, promulgated this evening, urgently orders all viceroys and provincial governors to endeavor to negotiate peace with the powers, whose ministers are held as hostages, pending the result of hostilities against China. The viceroys are also commanded to guard their territories vigilantly against attack, and to prevent by all means in their power the advance of the foreign troops, especially along the Yang Tze Kiang. The decree says that the officials will answer with their lives for any failure to execute these orders."

Commands are also given that not a single foreigner will be allowed to escape from the interior, where there are still fully 2,000 Europeans, connected with missionary work, in isolated sections. When the governor of Shan Tung communicated to the consuls the imperial decree of July 24 he omitted important passages addressed to Li Hung Chang. "It is admittedly inadvisable to kill all the ministers, but it is equally unwise to send them to Tien Tsin. It will be much wiser to keep the survivors of Pekin as hostages. You are commanded to hasten to Pekin; you are incurring imperial displeasure by delay. You have been appointed viceroy of Chi Li, because with your military experience you will successfully lead the imperial armies against the foreigners in Chi Li, which Yu Lu, the present viceroy, is unable to do, owing to his ignorance of military affairs." Li Hung Chang replied to this edict, asking to be allowed to retire on account of old age.

WHOLESALE MASSACRES.
Sheng now admits that he has had telegrams since July 19, announcing that every foreigner in Pao Ting Fu was murdered, including 40 British, French and American missionaries, and announcing also that two French Jesuits and a thousand converts have been massacred at Kwang Ping Fu, on the borders of Shan Tung and Chi Li. A majority of the consuls favor strong measures against Sheng's duplicity.

"Local officials assert that the Italian priests, murdered in Hu Nan, were wrapped in cotton, which had been soaked in kerosene, and were slowly roasted to death. It is believed that all foreigners in Chi Li have by this time

been massacred, and the wave of massacre is spreading toward Ning Po and Hong Chow, from which point thirty English and American missionaries are endeavoring to escape in boats down the river to Kiang Su. Officials here anticipate a general uprising along the Yang Tze Kiang about Aug. 1.

ASTONISHING INTRIGUE.
An astounding intrigue has been revealed to the consuls here in the shape of a skillful attempt to get the maritime customs placed in the hands of an American missionary named Ferguson, who although he was an active ally of Sheng's in the latter's endeavors to hoodwink the world with regard to events in Pekin, was supported by the American officials in his claim to the appointment of inspector-general.

A Tokyo dispatch, dated July 28, says: "It is reported from Shanghai that the Boxers attacked the missionaries and native Christians at Pao Ting Fu on July 8. A foreign physician and 2,000 converts were massacred. The Chinese general, Li Ho Kch, is now marching on Pekin. He has ordered his troops to exterminate all Christians. Already one French priest and from 2,000 to 3,000 natives have been slaughtered."

Treachery.
TWO THOUSAND NATIVE CHRISTIANS KILLED.
London, July 30.—An excellent Chinese source reports a shocking instance of official treachery. The then governor of Shan Tung, Li Ping Ling, left a month ago for Pekin, being then imperial commissioner of the Yang Tze war junks. He was considered loyal, yet a couple of months ago, on the way to Pekin, he entered Kiu Chow and ordered the soldiers of his command to massacre the Christians. His soldiers killed 2,000 native Christians and one French priest.

REVISION OF VOTERS' LISTS

Equal in Importance to Securing
Good Candidates.

Provincial Lists To Be Used for Dominion
Purposes—Hints and
Instructions.

Equal in importance in an election to having good men as candidates is an efficient revision of the voters' lists. Now that the Laurier Government has adopted the provincial lists for Dominion purposes the work of revision in the provinces does not give rise to so many complications as in the days when the useless and cumbersome Dominion method was in vogue. The Liberals throughout the province are gratified—and justly so—at their success in achieving this commendable result was the division of labor initiated from the central office of the Ontario Liberal Association in Toronto. The western portion of the province was visited by men familiar with the district, and a similar policy was pursued for the middle counties and the eastern counties. Under the direction of the central office a bureau of information was opened at Ottawa, and another at London, with very satisfactory results. The same lines are being pursued this year, and the Liberals are fortunate in having secured both in the central office and in the other bureaus men to assist in the work who are capable and understand the importance of having the lists properly attended to. The burden of the direction of the work falls upon the central office, and perhaps no better brief narration of the important points of the matter in hand can be given than by quoting a portion of the circular letter sent out by Mr. Alexander Smith, secretary of the Ontario Liberal Association:

"You are aware that property qualification of any kind is not required in the case of parliamentary voters, but a person to be a voter must have his name on the list, be a British subject, 21 years of age, or 21 in the approaching autumn, resident in the province for nine months previous to Feb. 15 last or twelve months previous to the last day for making appeal to the judge's court, and resident in the municipality at the time application is made to be placed on the list for such municipality. This means that the name of such voter can be put on the voters' list for parliamentary elections for only one subdivision, he can have but one vote, though he may own property in several subdivisions, municipalities or ridings.

"Special provision is made with reference to the absence of lumbermen, mariners, fishermen or students to have their names put upon the lists with the right to vote, the granting of the right to vote to the members of the South African Canadian contingents and Strathcona's Horse whenever they return, allowing farmers' sons to be absent for a period or periods not exceeding six months in the year and not debar them from voting in both municipal and parliamentary elections.

"The law has been framed by the Liberal party to give men votes, and with this conception of the law the Ontario Court of Appeal, the highest court in the province, has unanimously given judgment that a voter may be temporarily absent without becoming disqualified, unless he has left intending never to return. This is a general interpretation of the law which applies to all classes of voters.

"The fact that the work of revision was splendidly attended to with excellent results in 1909 should encourage the Liberals everywhere to continue the same diligence for the year 1910. Parts I. and II. of the municipal lists are used for parliamentary elections, and it is necessary to have the lists revised each year, and particularly so when the same lists are used for local and Dominion purposes for bye-elections as well as general elections, and when each parliament, too, has run more than half of its term.

"So soon as the clerk of any municipality posts, as the law directs, certain copies of the lists as made up from the assessment rolls and printed, these, or copies of them, should be examined and notice of appeal in writing, according to the form prescribed, given to the clerk within 30 days of any names not on, but desirable to be added, and of any names on the list which should be struck off. Care should also be exercised to see that the list as printed by the clerk corresponds with the assessment roll, and any errors detected should be set out in the written notice, so that the list may be thoroughly revised and corrected. Such appeals are heard by the county judge at a time and place to be fixed by him, of which due notice is given.

"It is the last revised list for each municipality that is used in a parliamentary election, and it might so happen that in a parliamentary election the lists of some municipalities in a riding for one year might be used while the lists of another or previous year for other municipalities in the same riding would be used.

250 KILLED

By the Eruption of Mount Azuma in Japan July 17.

Seattle, Wash., July 30.—Particulars of the eruption of Mount Azuma, in Japan, on July 17, have been received in Oriental papers. So far as known, 250 persons were killed and many hundreds were injured. An English agent of the Japanese Government, who was among the natives in the vicinity of Mount Azuma during the eruption, says: "Early on the morning of July 17 loud detonations, as if heavy guns were being fired were heard. They gradually decreased, and finally ceased altogether. But about 6 o'clock the internal disturbances came to a climax and tongues of fire spouted from the crater.

"We all stampeded towards the valley, not, however, before one of the great boulders had crashed through the place and killed 20 people. The ashes and small rocks were falling like hail, and it became difficult to breathe.

"I reached the village of Hi Yukulco, after scrambling through the trees for two or three hours. Everything seemed to be drying up from the intense heat. The ashes were hot and covered the ground for half an inch.

"One family of ten, who were too frightened to do anything further than pray got hemmed in by the lava and were burned in the flood. Several of the men and children from the village played out along the road, and most of them were burned to death.

The Mexican government has entered into a treaty with China which stipulates that citizens of both countries shall be free to go to each country and reside with full protection.

Andrew Rollo and James Dew, of Thornhill, Manitoba, were overcome by gas while cleaning a well at Calf Mountain. Rollo was taken out dead, and Dew, who is in a hospital, is not expected to recover.

Chairman Martin, of the Indiana state Democratic committee, says that owing to the high rates maintained by the railroads, the Bryan notification meeting, which was to be held in Indianapolis, may be called off.

A. J. Vie, of Barton street, Hamilton, died suddenly at the residence of his brother, Wm. Vie, Sword street, Toronto, on Sunday. The deceased had been superintending the finishing of the framework on the new bridge over the Don at King street.

The superintendent of the Highfield Sanitarium, Dr. Playter, for maintaining an alleged nuisance, was fined \$200 or 14 days in jail. The Toronto magistratus, who conducted the case, stated that the sanitarium was a menace to the public health, and in refusing to remove it the doctor had magnified his offense.

THE MERE ASSERTION.

The mere assertion of facts does not prove to convince the majority of people. We must prefer that you should visit our store, see our stock and general display of goods that go to make up a first-class drug store. We strongly assert that one visit will convince you that our claims as leading family druggists will fully sustain our case.

MINERS ENTOMBED!

Catastrophe Near Monterey, Mexico—Many Lives Lost.

Monterey, Mexico, July 30. — The government authorities have been notified of a catastrophe at Matubalia, a thriving mining camp south of Monterey, in the State of San Luis Potosi.

Fire broke out in the La Paz mine, and before the miners could reach the surface many of them were entombed and either burned to death or suffocated. The fire raged fiercely for several hours. Eleven bodies have been taken out, and others are known to be in the pit. It is thought the loss of life will reach 30.

There is great excitement in the mining town. The number of missing men cannot be accurately determined. When the fire was discovered Ramon Gomez, the foreman, boldly descended the shaft and went into the burning chamber for the purpose of aiding the unfortunate miners. He was overcome by smoke and perished.

A SMALL PILL, BUT POWERFUL.—They that judge of the powers of a pill by its size, would consider Paine's Vegetable Pills to be lacking. It is a little wonder among pills. What it lacks in size it makes up in potency. The remedies which it carries are put up in these small doses, because they are so powerful that only small doses are required. The full strength of the extracts is secured in this form and do their work thoroughly.

WHAT A WHALE WEIGHS. Have you any idea of the size of the common Greenland whale? Nilsson, the zoologist, estimates the full-grown animal to average 100 tons, or 224,000 pounds. That is to say, a whale weighs as much as about 80 elephants or bears. Of course some run larger than this.

There are tales among old whalers of whales 110 feet long, and weighing at least 150 tons. But such are not seen in these days. A 70-foot whale is a big one now. Still, it may give some idea of what monsters are occasionally killed, when we mention that a ton of oil has been extracted from the tongue alone of a single whale.

OF SPORTS

BASEBALL

WON THEM BOTH

So long as games continue to be played like those of Saturday, especially the second one, the interest in baseball will never wane. It is really a long day since such resounding cheers flooded over the river from Tecumseh Park. The fans were out in force and they were treated to a series of plays that made them wonder why they had not been patronizing such a team more steadily. The games were replete with exciting situations, and what was best of all, the crowd went home filled with that conscientious joy that is so excusable when the bulky side of the score is owned by the local nine.

In the first game, Thompson pitched with wonderful control for eight innings. He allowed no one to walk, nor did he hit any batsman, and yet only three hits were made. In the ninth he was hit five times. None of the visitors crossed the plate after McKevitt's home run in the first, until the ninth inning. In the first a double play kept London from scoring, but in the third three runs were made, and in the seventh five more were added by McKevitt's two fumbles. Pickard's single, Hart's charity, Jones' triple and Reed's single. Radcliffe was helped in by a charity and two singles in the eighth, and two more runs were scored in the last inning by Reed's triple, Cope's charity and Radcliffe's single. Hemphill was out of the game from the fifth inning, when he questioned one of the umpire's decisions at first.

By a series of commonplace plays in the second game, Hamilton was allowed to score five times up to the end of the fifth. In the same time London crossed the plate twice. Then Cope made a wild throw, and McKevitt's home run brought in two runs. The flagging interest in the game revived when London tied the score in the last half. Jones made a triple and Reed singled. Cope reached first by Doran's fumble, but he was forced out by Lohman, who stole second. Bradford muffed Kestel's fly and Doran fumbled a grounder that was sent his way by Radcliffe. Mohler was passed, and Hemphill's single made the score 7-7. Mohler's misplay in the eighth were largely accountable for the Hams getting two more runs, and when the last half of the ninth started the score was 10-9. By this time everyone was on the edge of the seat, but the excitement was allayed when Cope was caught out by McKevitt and Lohman at first. Hart took Kestel's place at the plate. He singled and stole second. Radcliffe went to bat and increased the suspense by striking twice. With the next ball he bat swung viciously, and the ball sailed far out into the air above the head. Radcliffe reached third. Mohler then knocked a foul close to the plate. Conwell was rattled by the crowd's yells and dropped it. He hit to Cockman, who made a bad throw, and Radcliffe scored.

A SARNIA LADY

Among Those Who May Have Perished at Pekin.

Detroit Free Press: Miss Christine Bordon, of 94 West Willis avenue, is a cousin of Miss Jennie McKillop, of the Presbyterian mission of Pekin, and has furnished the Free Press some interesting information concerning her and others now in China. She said:

"Miss McKillop is a graduate of the Farrand Training School for Nurses. Dr. Mary Brown is also a graduate of the same school, afterward graduating in medicine from the University of Michigan. After remaining in China for some years, she has returned for a rest, and is now, I believe in Plymouth, Mich. On the way back, she was a pupil in Harper also for a time, but left to enter the university, and after graduating from the medical department went at once to Pekin under the auspices of the Chicago Inland Mission. Later, Miss McKillop was sent on by the same society. She is well known in Canada, being a granddaughter of the late Rev. William McKillop, and a niece of Rev. J. McKillop, of Montreal.

"When last heard from, the native Christians were reported as being loyal and true."

NARROW ESCAPE

From Instant Death of Four Persons at Brockville.

Brockville, July 30.—Mrs. Sauve and her daughter Irene, aged 7 years, were walking along the Grand Trunk tracks about 100 yards west of Brockville station on Saturday morning, when Inspector Robert Purvis, together with Bruce Spry, came along on a hand-car. Realizing the danger the woman and child were in, Purvis took them up on the hand-car, and was taking them to a place of safety, when a pilot engine crashed into the hand-car, throwing all four occupants up into the air.

Mr. Purvis was badly bruised and shaken up, but not seriously hurt. Mrs. Sauve escaped unhurt. The child, however, had both feet cut off, and Mr. Spry lost two toes and was otherwise injured. The two injured persons were taken to the hospital, and will probably recover.

Mr. Esie Carter, B.A., has obtained the modern language masterships of Lucan High school, says the Hamilton Times.

J. S. McKay, of Woodstock, grand chancellor of the Knights of Pythias, will start a lodge in Embro on Monday evening.

Gilbert Parent's house and contents, two miles from Walkerville, were destroyed Thursday evening by a fire caused by the explosion of a lamp.

The body of the man pulled out of the river at Walkerville two weeks ago was identified by his wife at the Toronto Medical College as Hiram McCarthy.

A horse belonging to Mr. Ross, merchant, Yarmouth Center, on Thursday fell through a trap door into the wine cellar of Mr. Holden's Hotel. Mr. Mahoney, the blacksmith, displayed remarkable strength in lifting the animal out.

A quiet and pretty house wedding took place on Wednesday at the residence of the bride's mother, Victoria avenue, North Hamilton, when Ethel, eldest daughter of the late Rev. William Torrence, was married to Malcolm Cameron Morse, of Leamington.

FOOTBALL.

The St. Louis Globe-Democrat says: It will cause a good deal of surprise among the followers of Association football in St. Louis to hear that the Western Embury captured the championship of the Association Football League last season, will probably make a trip to Canada in the near future in order to play for international championship honors. Since the Detroit team played here last winter, Manager Frank Kinsella and his brother Tom have been working with a view to perfecting arrangements for the trip, and it now looks as if the success of the project were assured. Several dates have already been secured, and the favorable answers of a number of others are expected in a few days. From present plans the team will leave St. Louis about the middle of the project, and will be away for about two weeks. From here the team will probably go to Detroit, where it is expected a game will be played. From there the jump into Canada will be made, but just where the game will be played is not yet decided upon. All of the clubs, however, which the team expects to play are located within about 50 miles of Berlin. A date with the Berlin team has been arranged on August 25. On the way back a game will be played in Chicago if the Windy City team can get together, as the St. Louis boys are anxious to wipe out the tie game played with the former eleven last winter.

The project of taking a team to Canada was first suggested to Manager Kinsella by several of the Canadian players, who came down to play with the Detroit team last season. The Canucks were very much taken with the game the West Ends played against them, and the West End team winning, 6 to 1, in easy fashion, and suggested that the eleven could make it interesting for any of the Canadian clubs. They promised to do all they could to assist in forwarding the matter, and responded as they were going on about it ever since. All that the St. Louis team is now looking for is the guarantee of a few more dates in order to assure expenses being paid, and this is expected shortly. August was suggested by the Canadians as the best time of the year to make the trip. It is a bit between seasons for the teams up there, although several of them will be playing regular games by that time. The teams at some of the larger towns and some of the best players in Canada are to be found in the latter. The weather during the latter part of August where the games will be played is cool enough to make playing enjoyable, quite a number of the games will be played in the evening, in some instances not being started until 6 o'clock.

That the West Ends are capable of upholding the honor of St. Louis was shown by the magnificent work of the team last season. Up to the time that the pennant was assured to the red and blue eleven, the team did not lose a single game, and pretty near out-classed its opponents. After that the team let down, as there was nothing to play for, and did not finish the season nearly as well. The eleven has as yet to be beaten by an outside team. Last season the All-Star Chicago team managed to tie the red and blue boys in one of the greatest games ever played. The red and blue team was confident that they could beat their opponents and were anxious for a return match. When the Detroit team came here the West Ends won in hollow fashion. The eleven that will make the trip has not as yet been decided upon, as one or two of the old members of the team are not certain whether they can make arrangements to get away from business for the necessary length of time. This will not affect the strength of the team, however, as the one or two vacancies can be filled with men who are just as good. A meeting of the team will be held at Walsh's, Grand avenue and North Market street, Thursday night to discuss the prospects of the season.

The team will play at London, Windsor, Glencoe, Walkerville, Berlin, Seaford, Woodstock, Chatham, Listowel, Wingham and Brussels, Ont.; Detroit, Mich., and Chicago, Ill.

Dr. Radway & Co.—As an introduction I must make the following remarks: Had one of the lawbreakers of our country the virtues and power of your pills, America would soon become a paradise. That you would conquer the obstinacy of my complaint is more than wonderful. The movement of my bowels is as regular as the works of a good watch. I began with four pills and decreased to two, and for a time took one two hours before dinner, and have a free movement of the bowels every morning. It is seven weeks since I have taken any of your pills, but still have regular movement every morning.

A poor washerwoman that suffered from a tumor and would have paid \$150 for an operation had she not been cured by your pills. Owing to her tumor she was obliged to stay in bed, but now she has gone to Pennsylvania, cured through taking your Pills and Resolvent as you direct in your treatise on tumors. Respectfully,
A. WITMER,

Meers, Dr. Radway & Co., New York: Gentlemen—Please send me by return mail one box of your pills, for which you will find 25 cents enclosed. Having had a box before, I would not be without them. They are something every family should have. Yours truly,
F. A. FORTIS,

ONE TO THREE OF RADWAY'S PILLS, once in twenty-four hours, will secure regular evacuation from the bowels. Persons who for twenty years have not enjoyed a natural stool, and have been compelled to use laxatives, have been cured by a few doses of Radway's Pills.

True Comfort for the Aged and Others afflicted with Costiveness and Paralysis of the Bowels.

Persons advanced in life often suffer from indigestion, and from paralysis or inability to evacuate from the bowels; likewise from urinary difficulties. We have the evidence of a large number of aged persons cured to 80 years of age who had daily been compelled to resort to injections to empty the bowels, have been cured by the use of Radway's Pills. Two or three pills every night in all cases insure a natural evacuation from the bowels and the regular flow of urine. In cases where there is irritation of the bladder, Radway's Resolvent should be used with the Pills. If these organs are kept regular, life may be extended to a much longer period. By keeping the Liver, Stomach, Bowels and Kidneys in healthy condition the blood will continue pure and discolored checked. If Radway's Pills and Resolvent are used by the aged, life will be prolonged to the full measure of time. Another great end is secured by nourishing the body with these remedies—the faculties will remain in a healthy condition. A weak, feeble and decaying body enflees the intellect and clouds the brain.

"The Least Hair Casts a Shadow."

A single drop of poison blood will, unless checked in time, make the whole impure. Hood's Sarsaparilla is the great leader in blood purifiers.

It casts no shadow, but brings sunshine and health into every household.

Running Sore.—My mother was troubled with rheumatism in her knee for a number of years, and it broke out into running sores. She took three bottles of Hood's Sarsaparilla and is now well. Hood's Olive Ointment helped to heal the eruption." Mrs. JOHN FARR, Cloverhills, Lancaster, Ont.

Rheumatism.—I was badly afflicted with sciatic rheumatism. Consulted doctors without relief. Was persuaded to try Hood's Sarsaparilla, and five bottles gave me relief and enabled me to go to work." WILLIAM K. ROSEN, Margaretville, N. S.

American Markets.

CHICAGO, July 28.—Disappointing cables and large receipts were mainly responsible for a slump which wheat took today, September closing 15c under yesterday. Corn closed 3c and oats 1c to 1c lower. At the end of the session hog product was 5c to 7c to 7c reduced in price. Liverpool turned a deaf ear to the bulge here yesterday, and dished out disappointment to local holders by closing 3d lower to 3d higher. Paris was 2c lower, and the weather favorable, September opened 1c to 1c lower, at 75c to 75c, and for a time fluctuated between 75c and 76c, business being of a quiet order. Northwest reports varied. Some were as bullish as they when the drought was on, while others predicted crops almost double the more gloomy estimates. An hour before the close holders became discouraged and began selling. Outside demand was very slack, and there was no hope to be drawn from the cash business. September tumbled down to 75c, and closed weak and 1c lower, at 75c. Primary receipts exceeded last year's, 894,000 bu., compared with 800,000 bu. Minneapolis and Duluth reported 217 cars, against 265 last week, and 344 a year ago. Local receipts numbered 177 cars, 32 of which graded contract. Clearances at the seaboard were 400 cars, 344 a year ago, and to 405,000 bu. Corn was quiet, but compared with wheat the market showed considerable firmness. Country offerings, although in some instances freer, were generally small, and the cash demand remained brisk. Liverpool was a disappointment, but, following the opening, the dip caused by the English easiness was overcome. Later, however, the pronounced wheat weakness caused a fractional recession from the top. There was a slight recovery, but shippers who had good profits on their freights. Receipts were 301 cars, September sold between 25c and 25c, closing 1c under yesterday, at 25c. The weakness of wheat was an influence throughout the market, and traders sold on the weakness of the big market, and the elevator people unloaded moderately on the expectation of larger arrivals next week. Receipts today were 171 cars, September ranged between 25c and 25c, closing 1c to 1c under yesterday, at 25c.

A FATEFUL...DIAMOND

CHAPTER IX.

The next morning, at an early hour, Mr. Murray made his appearance in Mr. Murray's office.

He was dressed with great care, his clothing being of the finest texture and make, while in his immaculate shirt front there gleamed a diamond like a spark of fire.

The lawyer greeted him politely, and then introduced Louis, who was observing the stranger with grave earnestness.

Mr. Murray turned to him with a brilliant smile, and eagerly extended his white hand, upon which there was another stone of the purest water.

"I suppose Mr. Allen has informed you, Louis, of the relations which undoubtedly exist between us, and I trust you are prepared to acknowledge them with as much gratitude and pleasure as I do," he said earnestly.

Louis mechanically gave him his hand, and studied his face with his dark, wistful eyes while he was speaking; but there was not one answering thrill of sympathy in his heart to the sentiments which he was uttering.

"It seems very strange," he stammered confusedly, "I cannot realize it."

"Of course you cannot," returned the gentleman, pleasantly; "but I trust when we come to know each other better, you will gradually learn to feel something of affection for me, such as I am prepared to bestow upon you. If you could know how I have mourned over the loss of your mother, and your hitherto unknown fate, I am sure your sympathies could not fail to reach out toward me," Mr. Murray concluded, with apparent emotion.

"Have you a picture of my mother, sir?" Louis asked, eagerly. He had always been so hungry to know what his mother had been like.

"I am sorry to say that I have not," Mr. Murray replied. "I took one away with me when I went to California, but it was stolen from me, among some other things."

Louis sighed. Somehow he could not feel quite satisfied to acknowledge this man as his father, without stronger proofs than he had yet produced.

"I have a little book of poems that belonged to my mother, and there is some writing in it in a gentleman's hand, signed 'Alfred Burgess.'"

Mr. Murray made this proposition with some hesitancy and embarrassment, as if he feared that Mr. Allen might feel that he was asking too much.

"I should be only too glad to have him continue with me, and I will do my best for him for another year," Mr. Murray said.

"Thank you. Of course I shall want my son to make his home with me now, but his time for the present shall be his own; he shall study all that he chooses, and he shall come to you for recreation whenever you are at liberty. He has had a hard time of it, but I hope he will find more enjoyment in life after this."

Mr. Murray was surely acting very generously, and his words sounded very fine.

Mr. Murray insisted in taking Louis out for a holiday, and hoped Mr. Allen would have no trouble in securing the services of someone to supply his place in the office.

Louis donned his cap and went out with his newly-found father with a sensation of real pleasure, his doubts as to the man's honesty having been melted away beneath the fascination of his genial presence.

Mr. Murray's first act was to take him to a first-class tailor and have him fitted with a fine suit of clothes, a stylish hat and neat gloves; and as Louis contemplated the change which all the nice things made in him, he could not help betraying something of the satisfaction he experienced.

some means, and you need no longer work for yourself as you have done; I will give you all the advantages I can, and if you have any special project in view I will assist to carry it out."

"Thank you, sir," Louis replied gratefully.

"Louis' chief desire now seems to be to get a thorough education," observed Mr. Allen, who was also beginning to feel elated by the apparent change for the better in Louis' prospects, even though he experienced deep regret at the thought of losing him.

"Ah! what have been your educational advantages thus far?" Mr. Murray questioned.

"Very limited, sir, until within the last three years; during that time Mr. Allen had taught me almost all I know," Louis responded, with a grateful look at his friend.

"You seem to owe Mr. Allen a great deal," dryly remarked Mr. Murray.

"I do sir; he and Mr. Brown have been my best friends."

"Who is Mr. Brown?"

"The man whom you saw here the first time you came to inquire for Mr. Allen."

"Oh, yes, the man with whom you lived for two years or more."

"Yes, sir."

"He took quite an interest in you, and paid you very well for your services, considering you were a boy, Mrs. Jones informed me."

"He gave me a chance to earn considerable."

"And you saved a snug little sum, I hear."

"Yes," Louis admitted, somewhat reluctantly.

"You are a credit to yourself, Louis, and I confess I feel quite proud of you already," observed Mr. Murray, rubbing his white hands together with an air of satisfaction.

"Now, about this matter of education," he continued after a moment; "how far advanced are you?"

"He could be ready for college by another year, if he is willing to work for it," Mr. Allen interposed.

"By another year—that is pretty well, considering all things. I understand that you are still conducting his studies," said Mr. Murray, inquiringly.

"Yes, I feel a deep interest in Louis; I think he has great ability, and I should be glad if he could have a thorough collegiate course," returned the lawyer.

"Could you be persuaded to let him go on with you until he is fitted for college?" he asked, for a proper consideration? "I am sure such an arrangement would be better than any change he could make."

Mr. Murray made this proposition with some hesitancy and embarrassment, as if he feared that Mr. Allen might feel that he was asking too much.

"I should be only too glad to have him continue with me, and I will do my best for him for another year," Mr. Murray said.

"Thank you. Of course I shall want my son to make his home with me now, but his time for the present shall be his own; he shall study all that he chooses, and he shall come to you for recreation whenever you are at liberty. He has had a hard time of it, but I hope he will find more enjoyment in life after this."

SMASHED UP!

Fatal Accident to a Wild West Show Train.

Trolley Car Struck by Lightning—Ten Persons Injured—Other Fatalities and Casualties.

Detroit, Mich., July 29.—Section one of the Buffalo Bill Wild West show train suffered a severe collision near Milwaukee Junction yesterday, resulting in the smashing of a show employee's sleeping car, containing some 40 sleeping inmates. One of the latter is dead and nine others are in Detroit hospitals suffering from more or less serious injuries.

The dead—Edward Sullivan, 37, of Bridgeport, Conn., porter of the canvas car, who died from internal hemorrhage after reaching the hospital.

At the time of the collision the train, consisting of twenty wagon and stock cars, four of the show's sleeping cars, and a Grand Trunk caboose, were being transferred from the Michigan Central to the Detroit Grand Haven and Milwaukee road. The train was being pushed backward from the "Y" at the Milwaukee Junction, when it was struck by an outgoing Grand Trunk freight train. The caboose was jammed into and forced on top of Buffalo Bill's employees' sleeping car, No. 88, which was filled with sleeping tent and canvas men. When the uninjured men had recovered from the shock, the wrecked sleeper was chopped open and the injured gradually gotten out. The car was a complete wreck, excepting at one end. All the victims will recover shortly, except the three most seriously injured.

FATAL COLLISION.

Quebec, July 29.—A fatal collision happened today on the line of the Quebec Railway Light and Power Company. About noon, a handcar, which contained ten men, was struck suddenly by the incoming train from Ste. Anne de Beaupre, at a curve. Nine of them succeeded in jumping in time to save their lives, but one named Achilles Dionne, was killed instantaneously.

STREET CAR STRUCK BY LIGHTNING.

Toledo, Ohio, July 29.—Ten people were injured in a street car accident late tonight—one fatally and two others very seriously. One of the long belt cars had just reached Twenty-second street when a blinding flash of electricity, followed by a cloud of smoke, struck the car.

SWALLOWED STRYCHNINE.

Indian Head, N. W. M., July 28.—W. H. Jenkins, while in a fit of despondency yesterday afternoon, committed suicide by taking strychnine.

FELL OFF THE DOCK.

Toronto, July 30.—Percy McArthur, a ten-year-old boy, was wrestling in play with a companion on the exhibition dock at the foot of Dufferin street, Saturday morning, when he lost his balance, and falling off the dock into deep water, was drowned.

BLEED TO DEATH.

Millbrook, July 30.—Geo. Fair, a prosperous farmer, who lived about five miles from town, was taking the hide off a calf, when the knife slipped and cut an artery in his leg, which caused death within ten minutes. Mr. Fair leaves a wife and four small children.

DROWNED.

Toronto, July 30.—Percy McArthur, the 11-year-old son of Mrs. Donald McArthur, 114 Dover street, was drowned at the foot of Dufferin street, Saturday morning, when he lost his balance, and falling off the dock into deep water, was drowned.

TWO SUICIDES.

Huntsville, Ont., July 28.—Last night a widow, of this town, named Elizabeth Shaw, whilst in a state of mental derangement, cut her throat in her bedroom. The coroner did not consider an inquest necessary.

Buffalo, N. Y., July 30.—Mrs. William J. Lautz, 30 years old, wife of a prominent young business man, shot herself in the presence of her husband, at an early hour this morning. The official report the shooting as accidental, but the coroner had substantial reasons for believing that Mrs. Lautz, committed suicide while temporarily deranged from the use of a drug. Mr. and Mrs. Lautz were in their bedroom, the husband confined to a bed by a severe illness. In a heedless way, a newspaper story that she was telling him of a woman who shot herself. "This is the way she did it," was the tragic climax of her narrative, and the husband looked up and saw his wife holding a revolver to her right temple and fire a 38-calibre bullet into her brain. She fell dying at his feet.

UNCLE SAM INTERFERED.

Chatham, Ont., July 29.—An unusual incident in Canadian international affairs has just come to a head here. The authorities at Merlin, about a month ago arrested a man and his wife on a charge of vagrancy. They were convicted, and the man was sentenced to six months in jail and his wife received a 30 days' sentence. Both claimed to be citizens of the United States. They had money, and stated that they were going to Detroit, and had only stopped in Merlin on their way through, but they were brought here and confined in a prison. The United States Consul at Merlin, upon investigation, found that the parties were as they claimed, citizens of the United States, and he corresponded with the Washington authorities. The result of the negotiations is that Sheriff Gemmill has been instructed by the governor-general to at once release the prisoners, whose names are given as Mr. and Mrs. Robert Giger. It is not known whether any further proceedings may arise from this international affair or not.

DAKOTA TORNADO

Destroys Everything in Its Path—One Life Lost.

Hillsboro, N. D., July 28.—A tornado did great damage in this section yesterday. One life is known to have been lost. The storm originated near Portland and destroyed all means of communication. It passed across Trail county, destroying everything in its path, which was 37 miles long and 4 miles wide. Thomas Everson's house, three miles north of Caledonia, was demolished. One child, a boy, was killed, and three others are reported to have been fatally injured.

At Caledonia the city hall and the Presbyterian Church were wrecked. Nearly every building in the place was damaged. Passing on to the southward, the synod church, standing out on the prairie, caught the full force of the blast and was torn to pieces.

At Mayville all the windows in town were broken by hail.

The main body of the storm passed sixteen miles west and wiped out a small settlement called Fongersing. Several inches of hail, which followed, completed the destruction of grain which had been ready for the reaper.

After traversing Trail county, sweeping everything in its path and wrecking hundreds of farm houses, granaries and barns the storm crossed the Red River into Minnesota and split up.

A train on the Jamestown and Northern reached Jamestown, N. D., today, after passing through a terrific bombardment of hail some distance north. All the windows were broken and the woodwork of the cars was dented by the stones. The passengers sought refuge in the baggage car. The storm was three miles wide. Much damage to crops resulted.

At Fertile, Minn., a small cloudburst, accompanied by a terrific wind, passed over the place during the night. The arrival office front was blown in. Crops were laid flat, and the town was flooded.

All who see Mr. O. F. Collier, of Cherokee, Ia., as he is now, cheerful, erect, vigorous, without an ache, could hardly believe he is the same man who a short time ago, had to sit in a chair, propped up by cushions, suffering intensely from aching back, in agony if he tried to stoop, all caused by chronic kidney trouble, that no medicine helped till he used Electric Bitters and was wholly cured by three bottles.

"NOT ALL GOLD THAT GLITTERS."

Detroit Free Press: H. Stephens, of London, Ont., passed through Windsor yesterday on his way home from the gold fields at Cape Nome. He said that the stories told about so much gold being found at the cape are untrue, as there are thousands of men there at present, and they are starving. He cannot find gold or work. Everything was polluted with disease and smallpox and typhoid fever were rampant. He remained at Cape Nome three weeks and nights, and while he was there he had money to pay his way.

THE MISSING MAN.

A Chatham telegram of yesterday's date says: The young man named Henry Alford, employed up to a week ago in Gorman & Eckert's spice mill in London, and reported missing for some days, was in Chatham for a few days last week. On Thursday he called on some leading citizens and solicited employment. The London dispatch which says that he mysteriously disappeared after he had received an allowance from England. His actions here would not indicate that he was the cause of any mystery, as he clearly told who he was and gave his history. He is a man of good address and well educated.

P.T.E. WEST HEARD FROM.

On Saturday Lieut.-Col. Stacey, acting D. O. C., received a telegram from the adjutant-general, Col. Aymer, informing him that news had been received at the British war office that Pies. West and Atkinson, of B. Company, first Canadian contingent, had rejoined their regiment. Col. Stacey lost no time in conveying this good news to Pte. West's father, Mr. W. West, No. 133 Langarth street, Pte. Will West, of this city, with Pte. D. H. Atkinson, of Alisa Craig, were reported missing when Lord Roberts' forces were at Kroonstad on May 12. Mr. West, of this city, has received a couple of letters since his son was reported missing, and while nothing was said in them regarding the incident of his being absent from the regiment, Mr. West felt confident that his son was all right, although he has had no letters recently. The definite knowledge of his whereabouts was nevertheless most gratifying.

GOOD NEWS

From Gen. Hunter Through Gen. Roberts.

Unconditional Surrender of Gen. Prinsloo

With His Force of 5,000 Men and All Their Horses, Arms and Equipment.

Cape Town, July 30.—Gen. Prinsloo, with five thousand men, has surrendered unconditionally to the British.

THE OFFICIAL DISPATCH.

London, July 30.—The following official dispatch has been received from Lord Roberts:

"Pretoria, July 29.—On July 26 MacDonald fought a rear guard action with the enemy from early morning until dark, nine miles outside of Naauwpoort, in the Bethlehem hills, resulting in his effectually blocking Naauwpoort Nek to the Boer wagons.

"Hunter reports that the enemy twice checked his advance, by holding strong positions on two necks, one of which was taken before dark by the Scots, the Royal Irish, the Wiltshire and the Leinster regiments. Our casualties were only five or six.

"The second neck was taken during the night by the Scots and Guards, without opposition, the enemy retiring closely to Naauwpoort.

"Prisoners taken stated that twelve hundred burghers would surrender if guaranteed that they would be treated as prisoners of war, and not as rebels. To this I had assented. As a result of these operations, Prinsloo, commanding the Boers, asked under a flag of truce, this morning, a four days' armistice for peace negotiations.

"Hunter replied that the only terms he could accept were unconditional surrender, and until these were complied with hostilities could not cease. I expressed my approval and told Hunter on no account to enter into negotiations.

"As I am writing, a telegram has come from Hunter, saying that Prinsloo had written a second letter expressing willingness to hand over himself and his men, rifles, ammunition, and other firearms, upon condition that the horses, saddles, bridles and other possessions of the burghers be guaranteed them, and they be free to return to their homes.

"I have replied that the surrender must be absolutely unconditional, that all rifles, ammunition and other possessions must be given up, and that the burghers would be considered prisoners of war. I added that Prinsloo's overtures will not be allowed in any way to interfere with Hunter's operations, which must be continued until the enemy is defeated or has surrendered."

A later dispatch from Gen. Roberts, dated July 29, confirms the surrender of Prinsloo with 5,000 Boers.

London, July 30.—Gen. Christian Dewet is the officer referred to in Saturday's dispatches as proposing to surrender conditionally.

Gen. French has occupied Middleburg, in the Transvaal, and Gen. Pole-Carew, with the Guards Brigade, has arrived at Brug Spruit, twenty miles west of Middleburg.

The war office has received a dispatch from Lord Roberts, explaining that only one train was captured on the night of July 21, between Kroonstad and the Vaal, and that it contained supplies and two officers and 100 men of the Welsh Fusiliers.

FIGHTING AT FOURIESBURG.

A dispatch from Fouriesburg, dated July 27, shows that the capture of Fouriesburg was preceded by heavy fighting to force a passage of the passes, which was stubbornly contested for two days. Gen. Hunter's forces had the hardest work in forcing Retief's Nek.

Pretoria telegrams announce that Lord Roberts has returned there with his staff. Commandant Gen. Botha, with several thousand Boers, has eluded Lord Roberts.

BRITISH OCCUPY MIDDLEBURG.

London, July 28.—A Daily Telegraph special from Lorenzo Marquez says that Middleburg was occupied by the British on Thursday. The Boers are retreating to Machadodorp. President Kruger is at Barberton.

LEADERS GET AWAY.

Cape Town advices say that Kruger is reported to have fled to Lydenburg, and Retz is said to have gone to Delagana Bay. A dispatch to the Daily Telegraph from Lorenzo Marquez says that President Kruger is now at Water valander. He adds that a big fight

In winter it is a constant annoyance, and in summer a source of torture. Why, therefore, does any man tolerate one when he can

HOW TO KEEP COOL.

Don't worry—and don't worry because you can't help worrying. Don't sit on a hot stove. Don't drink hot Scotchies, or Tom and Jerrys, or hot rum punches. Don't talk politics—the other fellow is a heat-producing fool, anyway. Don't get excited. If your dog is being whipped, look at the thermometer and resign yourself to his fate. Don't swear at the heat. Remember the time you became profane when you slipped in the snow six months ago.

Don't walk in the sun. Have it moved if it blocks the way.

Don't hurry. Send the office boy.

Don't try to settle the Philippines question. The other fellow is just as much of an anti-be-convinced as you are.

Don't look at the ice bill. Think of the ice.

Don't wear an overcoat.

Don't sleep between blankets.—Baltimore American.

NEVER CLOSES ITS EYES.

The snake never closes its eyes. Sleeping or waking, alive or dead, its eyes are always wide open. This is because snakes have no eyelids. The eye is protected only by a strong scale, which forms part of the epidermis envelope, and is cast off in a piece with that every time the reptile moults. This eye-scale is as clear and transparent as glass, and allows the most perfect vision, while, at the same time, it is so hard and tough as to protect the delicate organ within from thorns and twigs, among which, in flight from enemies, or in pursuit of prey, the reptile so often hurriedly glides.
