French Monarchist Movements.

PARIS, Jan. 19.—The Comte d'Hausson-ville, leader of the Monarchist party and Paris, has formulated the Orleanist programme in a long letter to M. Edouard Herve, editor of the Soleil. He says the corruption revealed by the Panama investigation has brought consternation among the true friends of France. He says that the Monarchists ought to assume the leadership and direction of public opinion in this emergency. A league to sustain public integrity and to protect society should be integrity and to protect society should be formed, as the Government was absorbed in cares for the public defense. King Humbert's Generosity.

It appears that, while out boar hunting the other day in the country to the north of Rome, he met some peasants who had formed a corporation among themselves to cultivate the land. pesants who had formed a corporation among themselves to cultivate the land. Becoming interested in their conversation, he made inquiries as to their conversation, he made inquiries as to their conversation, he made inquiries as to their condition, and, upon hearing that they needed a loan of 30,000 francs, gave them an order upon the spot for that amount, instructing them that the money, instead of being repaid to him, should be devoted to the foundation of a superannuation fund. The King is in the habit of sending the game that he shoots while out boar hunting as presents to the various ambassadors, ministers and dignitaries of his household. The other day he gave directions that a particularly fine boar which he had laid low with his rifle should be sent to the Turkish Ambassador, Mahmud Nedin Pasha, entirely forgetting that the latter was prohibited by his religion from eating the flesh of swine. IMPORTED MERCHANDISE.

Points of Harrison's Message To Be Transmitted to Congress

Regarding C. P. R. Shipments 1hrough Foreign Goods.

New York, Jan. 20.—A Washington special says the President will send to Congress within a few days a special mescage in response to the Pitt resolution, sage in response to the House what New York, Jan. 20.—A Washington special says the President will send to Congress within a few days a special message in response to the Pitt resolution, calling upon him to inform the House what regulations are now in force concerning the transportation of imported merchandise in bond or duty paid, and products or manuactures of the United States from one port in the United States over Canadian territory to another port therein, and especially whether a careful inspection of such merchandise should not be had at the Canadian frontier upon departure or arrival. The correspondent claims to be able to state, upon high authority, that the message of President Harrison will point out clearly a plan by which the discrimination in favor of the Canadian Pacific Railway against the railroads of the United States may be effectively prevented without violation of the treaty of Washington. The President will declare that this Government has a right to require the inspection by its customs officers of goods received from a territory not contiguous at one American port, and sent by the high seas to another American port for transhipment. For example, the greater bulk of the silks, and teas from the Orient for importation into this country are delivered in bond at San Francisco and then sent by vessel to Columbia in the State of Washington, whence, under seal, they are carried over the Canadian Pacific road and thence across the border to New York or some other United States port.

Under the view which President Harrison will take such importations would hereafter receive examination by United States customs officials upon arrival at San Francisco and the duty upon then would be immediately levied and collected. The effect of this would be to throw their transportation across the continent into the control of American roads instead of the Canadian military line. These will be the chief points of the much heralded retaliatory message soon to be transmitted to Congress.

A PROSPEROUS YEAR.

Annual Meeting of the First Congregational Church.

Gratifying Reports-Increased List of Members-The Finances of the Church-Officers Elected.

The annual meeting of the First Congregational Church was held this week, the pastor, Rev. Robert Aylward, B.A., presiding. The attendance was good. The following is a summary of the reports prepastor, Rev. Robert 2, was, siding. The attendance was good. The following is a summary of the reports presented: The church has enjoyed a year of fair average prosperity. Peace and harmony have prevailed, and every department of the church work has been well sustained. Seventeen new members have been received during the year, making the present membership 175. The church has lost a larger number of persons than usual by removal from the city and by death, but the number of sittings allocated is the same as last year. Of those who have died we must mention the names of Amy Crouch, Annie Holt, Thos. Johnston, J. B. Lawson, Geo. Phillips, Wm. Walker, sen., W. J. Lucas and Henry Mathewson. Several of these were members of the church, and for all we have the blessed hope of a joyful resurrection. The Sunday school has a membership of 218 with an average attendance of 157. The choir, under the leadership of Mrs. Sanderson, is doing well. The Ladies' Aid have worked faithfully. The church has two societies of Christian Endeavor—a senior and a junior. The former has a membership of 69, the latter 32. A Ladies' Missionary Auxiliary has beenformedduring the year, and it is doing well. The boards of deacons, finance and trustees have been attentive and unremitting in their labors throughout the year. The pastor conducted an average of nine services and meetings a week, made 450 visits to the sick and others, as well as attended to a great deal of outside city work. The church has

shroughout the year. The pastor controlled an average of nine services and meetings a week, made 450 visits to the sick and others, as well as attended to a great deal of outside city work. The church has raised, for all nurposes, during the year the sum of \$3,083 95—an advance of \$70 48 over the previous year. During the year \$433 has been raised for the reduction of the church debt, and this sum together with a bequest under the will of the late Mr. Mathewson of,\$500, soon to be realized, will enable the trustees to reduce the debt on the church property nearly \$1,000.

A scheme is now under the favorable consideration of the congregation, by the adoption of which it is hoped that the church's finances will be provided for without the aid of bazars, sales of work, lectures, entertainments and the like. The matter has been laid before the church and congregation, and up to the present time the response has been so hearty and generous as to justify the confident hope that every dollar of the church's necessary outlay will be provided for without recourse to the expedients mentioned. It is felt that this dollar of the church's necessary outlay will be provided for without recourse to the expedients mentioned. It is felt that this plan is so scriptural and so Christian that it cannot fail to commend itself to the sympathy and good judgment of all concerned. It should be observed, however, that there is no intention to do away with social gatherings of a healthy nature, but to have everything of this character perfectly free of charge.

The financial statement is as follows:

On Tuesday evening, at 6:45 o'clock, I. Deyell, M. C. R. engineer, was about two and a half miles west of Fletcher, where he was suddenly startled by a bright light striking him full in the face. It is first thought was that the head-light had fallen off his engine, but in a moment he realized that it was a meteor which had startled him. The unexpected visitor for a few moments illumicated the whole landscape, and then seemed to bury itself in a field not 50 yards from the engine. Mr. Deyell says he never before saw such a brilliant meteor, nor one that appeared to be so hear.

There are many rumors in connection with the Sandwich, Windsor and Amberst-barg Railroad deal, and it is stated that the syndicate who now own the Boomer line will eventually obtain possession of line will every lorse dam. They ought to come over to Jersey City before the subout dame of a grand drive anywhere than on the boulevard or Seventh avenue and bove the boulevard or Seventh avenue was packed in the stime they could have on Bergen avenue every day or evential the very borse, and she will all by line time they could have on Bergen avenue every day or evential the very borse, and while it is not as wide as the New York boulevard, the general scene of the anow-bed was well laid by king Frost, and while it is not as wide as the New York boulevard, the general scene along the route is certainly just as attractive.

girls, all merry and shouting, grew so great.

The cause of it all was quickly discovered when a huge truck drew up near Belmont avenue and deposited four fine-looking Eskimo dogs of Lieut. Peary's, together with the Eskimo sled and the drivers. Such a scene as followed the hitching of those dogs to the sled would need, indeed, a great artist to picture.

The dogs pulled and tugged to get away, and the sleighs were so packed together, and the horses by the hundreds so tangled, that at one time life and limb were in danger all around. Aided by special policemen the avenue finally yielded a conter track, and down that track, bordered by hundreds of sleighs on each side, dashed the dogs from the Arctio regions, with the driver in the long low sled cracking his long whip-lash over their heads. The scene was a merry one. The hundreds of school boys pitched in after the running dogs, and so did every dog of Jersey City that came that way.

It was a pace that killed anything but an

Reeve Garnett, of Delaware, benefited by the thoughtfulness of a number of friends the other day in commemoration of his victory at the polls. A "bee" was formed, and a 22-ton stack of hay was removed to John McEwau's, five miles distant, to whom it had been sold. There were numerous upsets while the hay was being drawn over the snow-blocked road. Reeve Garnett subsequently provided the "bee" with a sumptuous supper.

Delaware Townshlp Council will probably not be represented by a deputy reeve at the inaugaral meeting of the county council. Councilor Walter Hay is suffering from a fractured hip, the result of fall, and so was unable to attend the first meeting of the township council, however, were unable to agree in the matter, and adjourned without electing a deputy. Reeve Garnett

says an election cannot now be held, as the law provides that the deputy reeve shall day for Bergan avenue family sleigh-riders be elected at the first meeting of the into the bargain.

"The Advertiser" advocates Continental Free Trade, free trade with Great Britain, free trade with the world.

"The Advertiser" looks forward with hope to Canada's future as that of an Independent Canadian Nationality, in equally friendly alliance with the United States and with Great Britain, believing that such a status would be best for Canada, best for Great Britain, and promotive of the best attainable relations with the United States. As to Imperial Federation, sometimes spoken of, the ADVERTISER as yet has seen nothing proposed that bears any stamp of practicability, and in any case infinitely prefers the grander and more really hopeful scheme of a federation of the English-speaking peoples of the world. Towards this consummation a large stride would be taken by a Confederation of the English-speaking people of the North American Continent.

" advocates prohibition "The Advertiser" of the manufacture and sale of intoxicating liquor; and all expedient general legislation and persuasion

"The Advertiser" is an advocate equal rights rights for women, whether as regards the franchise, or equal wages for equal work.

"The Advertiser" is a believer in Christian Union, and considers the time has come when the various Christian denominations should come closer together. Those bodies which are now nearest should unite first. Under the present system there is an unjustifiable waste o men, means and effort. The ADVERTISER will endeavor to promote the movement for Christian union not alone by direct appeal and argument, but by seeking to present the best rather than the worst side of each

"The Advertiser" advocates Obligatory sary and practicable. Nothing would so much purify electoral contests. Nothing would so much enforce the idea that the franchise is a duty, not a chattel.

HOW MR. CARLING LOST HIS

Mr. Henry Macklin, a supporter of Mr. Carling, writes to the Conservative organ in this city bewailing the fact that the ex-Minister of Agriculture has been ejected from his office at Ottawa, professing a desire to know why such a fate has fallen, and insinuating it is because of Mr. Carling's alleged religion. As any port is deemed good enough in a storm, so any pretext to cover the real causes of Mr. Car-

'ing's dismissal are better than none.

It is not difficult to reach a conclusion as

to why Mr. Carling was so unceremoniously unleaded. The Conservative leader knows, anioaded. The Conservative leader knows, as we in London all know, that Mr. Caring was not elected by a majority of the legal votes cast at last election. He knows that Mr. Carling was awarded Mr. Hyman's seat by his judicial coadjutor, there is a superior court indees had not though six superior court judges had pre-riously declared that he had no title to it. He knows that the offending judge pro-He knows that the offending hope poressed to be waiting for the decision
of the higher courts that he might

to show his contempt for it.

The Administration at Ottawa believe hat by putting Mr. Carling to one side, it will be relieved of the scandal attaching to his usurpation of a seat to which he has absolutely no right, and which he holds by vi: the of the decision of a partisan judge, sheltered by the infamous Franchise Act, which prevents appeal from his decree, no matter how iniquitous. Cannot Mr. Macklin trace the sequence of events?

it is very much mistaken. So grave a wrong to the electorate of this fair city cannot be righted by merely compelling the beneficiary to stand in a corner. The voice of the majority of the algebra, the stand is a corner of the majority of the projection. on the list purged by so strong a party

THE HARBOR CRISIS.

It is estimated that it will require the expenditure of \$55,000 to put the harbor and piers of Port Stanley into a condition to enable the resumption of large lake boat traffic between that port and other ports on extending the piers, it will be impossible to carry on the large traffic in coal and iron that the London and Port Stanley Railway syndicate proposes to open up between Ashtabula and Cleveland and this city and to succeed the West.

This is a serious matter to every taxpayer in London, St. Thomas and the populous district of which London is the distributing

At the conference of civic representatives, held in London yesterday, the necessity for immediate action to have the work performed was admitted on all hands. The unanimous opinion is that the work properly devolves on the Dominion Government. There are several strong reasons why, on public grounds, the Ottawa authorities should not hesitate to make the necessary grant, so soon as their engineer shall report.

1. There is no harbor of refuge on the Canadian side of Lake Erie. Much property has been destroyed and many lives have been lost because such a harbor has not been provided. Port Stanley harbor, at comparatively small expense, can be made into a harbor of refuge second to none on the lakes. On that ground alone, the

necessary expenditure is warranted. 2. The Dominion Government has ex pended many millions of dollars to enlarge the canals situated below Lake Erie. For what purpose? Solely to enable our neighbors in the United States to get to the seaboard easily? As-suredly not. Yet the evidences sometimes tempt one to reach that conclusion. Here we have millions of dollars spent on the Welland Canal, while some of the finest commercial and industrial communities in the territory immediately above it are deprived of every advantage arising from its construction by the failure to provide the necessary harbors for ship ping and receiving freight. Why should this continue?

3. The cities of London and St. Thomas, and the counties surrounding them annually pay vast sums of money into the Dominion exchequer. The taxpayers in this district have for years con-tributed to the building of unprofitable railways and canals and unnecessary public buildings for minor towns and villages. They have an imperative right, now that it is once more shown how necessary it is, on public grounds, to have the Port Stanley harbor put into proper shape, to demand that the work be done with public money.

These are not all the arguments that can be adduced in favor of immediate action by the Ottawa authorities, who claim to have in their possession a large unappropriated surplus of cash, but they are certainly most valid reasons why there should be no unnecessary delay in granting the money needed. There should be united action in every public body. The grant is not asked for as a favor, to be doled out by politicians or by those pretending to exercise influences of various kinds upon the servants of the public at Ottawa. The case is so strong that the money can be asked for made to the Administration in many a long

WHY SECRET MEETINGS?

The first meeting of the London and Port Stanley Railway Board, recently appointed by the City Council, was held at the mayor's office last night. As it was understood that matters of great public mportance were to be brought up for consideration at the meeting, an ADVERTISER reporter presented himself, but was promptly told by Mayor Essery that the neeting was private, and that he could not

be admitted. This is rather a remarkable stand for the London and Port Stanley Board to take. While the bargain with the Cleve land syndicate was in course of consider. ation, and it was deemed necessary in the public interest, to keep particulars of the negotiations secret, in order that other tenderers might derive no advantage should the agreement not go through, there was some excuse for requesting the newspapers to regard certain meetings as private.

No one, however, will assert that the public interest would have been jeopardized if the meeting held in the mayor's office on Thursday night had been left open to the public press, which has a duty to the public to perform just as important as is the task of the London and Port Stanley Board. The agreement had been unanimously passed on by the City Council; during the municipal contest no objection was taken to the arrangement as a whole; and it awaited but the final touches when the secret gathering was resolved on.

Why, then, was it decided to meet in the dark ?

The representatives of the syndicate and its legal agent were admitted, and we are told that there were some lively times while the meeting lasted, but as it was not for the public to know what was done while matters of alleged vital interest to them was under discussion, the taxpayers must be ontented without the details.

We believe we voice the public demand In trace the sequence of events?

If the Administration imagines that by taking from Mr. Carling his office and emoluments it is saving itself from its share in condoning the London Seat Steal,

ing these most important railway and harbor developments. Mr. F. A. Fitzgerald people as to the facts, however cunningly in his office of public representatives interin his office of public representatives inter-

Who knows shall be decided to have the council or its committees meet in the great lakes. Indeed, experts tell us the search light of the press penetrate into that until some such sum is spent in deep all these matters that so vitally affect the ening the harbor and its entrance and in public, and let us as a people unitedly de-

BRITISH INDORSATION OF A NOBLE ASPIRATION.

Sir M. E. Grant Duff, the distinguished British statesman, addressing his constituents a few days ago, took strong grounds against attempting to establish an Imperial Federation on a military basis, as is proposed by the professional warriors who look at everything from the bloodletting and quarreling point of view. Indeed, this British statesman is of the opinion that insuperable difficulties stand in the way of attempting to centralize authority in the manner proposed. He outs the case this way:

authority in the manner proposed. Ho puts the case this way:

"Do our Federalist enthusiasts really imagine that the United Kingdom can offer her colories anything which they do not get from her already which would bribe them to give up the virtual independence which they now enjoy? People forget that although we feel a sort of parental or maternal interest in each of our colonies, many of them have no interest in each other. Just imagine what a federated Anstralia would feel if she were outvoted by Canada and South Africa, to say nothing of insignificant places, which would all, of course, have their small share of representation. This scheme of a great federated empire militates against some of the strongest passions of human nature. Do you suppose that strong-headed, strong-willed men of your own race, full of exaggerated ideas of your own race, full of exaggerated ideas of them, intensely in the future, each of his own colony, are going to co-operate in creating a system the object of which is to make them and theirs play for all time second fiddle to the entity called the British Empire, centered in London—the only center which can be even thought of? I trow not! Australia, they will say, we know, South Africa we know, Canada we know, but, oh, members of this so-called 'Imperial Assembly,' who are yo? That is the feeling which is growing, and unless a new kind of man, of whom we do not see the slightest promise, is bred in those countries, you may be sure that when their population has got really great, they will start each on its own path. Do nothing, I say, to bring that day nearry make the lot of the colonist so agreeable that he may be tempted to stay as long as possible under the segis of the British Empire. Act as if you wished the existing union to be eternal, but make yourselves no illusions, for eternal it will not be. The existing generation will have done well if it maintains existing relations, and enables some future generation of Englishmen to bring about an Anglo-Saxon alliance which shall c

The Anglo-Saxon alliance, formed for the promotion of commerce and the maintenance of good will, and not with the aim of causing discord or of wasting the substance of the workers and the lives of thousands in needless warfare, is indeed a federation that we can all hope for as well as work to achieve. On this continent, Hon. Mr. Laurier recently set the keynote in favor of this ideal future for the race to which we as an unconditional right. A request so this ideal future for the race to which we completely fortified by justice has not been belong when he said that he looked to be before the race of the race to which we have a leading to be true and the race of the race to which we have the race of the race to which we have the race to which we have a leading to the race of the race to which we have the race to the race to which we have the race to which we have the race to which we have the race to be a supplied to the race to which we have t commercial alliance between all nations springing of the English stock-England, and the United States, and let us add the great isles of the seas-New Zealand and Australia, with by-and-bye the South Africa Confederation, Mr. Laurier rightly concludes that when the time shall have arrived for the com pletion of this alliance it will prove the greatest epoch, the greatest period which ever has dawned upon the human race. It cannot be brought about has dawned upon the in a day, but by cultivating trade freedom at every possible point, by encouraging in ternational trade and international amity, by frowning down any attempt to keep s of the race at loggerheads, all aid to bring the glorious era in.

Capt. Eliison—Yes.

Mr. Pritchard said that in the shipment of grain he had lost several hundred bushels and when he sought redress he found the L. and P. S. R. board a lot of bankrupts. If a new lease were made they should see that shippers received some consideration and would be able to hold some one responsible in ease of loss in the course of transport. The Port Stanley route was no good for grain; he could ship grain as cheaply to Montreal by rail.

Mr. Payne doubted the latter assertion.

Ex-Mayor McCully said the interests of London, St. Thomas, Port Stanley and the county of Elgin were identical in this matter. He was a strong enough Tory to ask the Government flat-tooted to comply with their demands. With the county paying in as much as it did it should certainly receive something in return. The harbor was a disgrace.

Ex-Ald. Leonard thought Mr. Fitzger-Lad's suggestion was proper. It was a street of vital importance.

Capt. Ellison said Mr. Gray (who was a chief Government engineer with head-quarters at Toronto) would do anything in his power to help. It would be better to ask the Government to send an engineer at once to prepare the estimate so that it would be in the House when the deputation went down.

LAYER.

FORT WAYNE, Ind., Jan. 20.—A Lake Erie and Western passenger train went through the bridge spanning the Wabash River at Peru at an early hour this morning. As far as learned no one was killed outright, but every passenger on the train was more or less injured. One has since died and three others are not expected to recover. One of the end apans of the immense bridge went down, carrying the train with it. Fire immediately broke out, and in less than an hour the entire train was burned. The names of the killed and injured are not yet obtained.

"It is certainly very said. It is greatly to be regretted that you were recalled to England as you were, said Doctor Thornton. Indeed it is. Why did I ever leave her? It was wrong! I fear I was negligent of my duty toward her in so doing. I do not know what to do now. If she has geneto Ergland, we have passed each other, and I would desire to retrace my steps thither at ence. "You are in a very trying position, I must acknowledge, and I do not like to advise you either to go or stay. You might wait here a while, and notify your friends to cable you in case Lady Heath should go direct to England; then it would be comparatively easy to join her there.

Sir William determined to dect upon these togestions. He would cable to Heathdale to be notified if Vircie should make her appearance there; meantime he would do his utmost to find her here.

He thanked the clergyman for his kindness, and bade him farewell, feeling much relieved regarding his wife, yet still very said at heart at the mystery surrounding her. He determined to search for Chi Li.

Sir William went directly back to New

Doctor Thornton's suggestions. He determined to search the passenger lists of the

Virgie's uame among them.

He half believed that, armed with the
strong proofs she had secured to substantiate the legality of her marriage, she would
go directly to England to assert her position
there as his wife.

He realized that underneath her habitual quiet and sweetness there lay a dignity and quiet and sweetness there lay a dignity and strength of character that would stop at strength of character that would stop at remedy for all coughs, colds, hearseness, pain or soreness in the cheets, bronchitis, the believed was resting on her fair fame.

But while he gave her ample credit for resolution and energy, he did not make allowance for the sensitive pride which had allowance for the sensitive pride which had allowance for the sensitive pride which had deleved a to the earth by the cruel blow been crushed to the earth by the cruel blow here to to consider that it would never allow her to to consider that it had been deal to the think had allow and the think had

After cabling, Sir William went again to he Pa:ific coast, in the hope of finding Chi Lu. He spent several weeks in San Francisco, thinking perhaps those he sought might hope to lose themselves there among the multitude.

He thought right for once, had he but known it, and had he poissessed a little more patience, been a trifle less restless and feverish in his search, he might have succeeded in his quast.

But he was so wretched, so worn and discouraged with his constant and fruitless seeking, that he could not remain in one place long at a time, and so wandered here and there, until months having elaysed, he had been in nearly every State in the Union, reaping only disappointment and anguish of spirit.

Then there came again a summons for him to go home—his mother had been stricken with another shock, and, with a heavy heart, a feeling as if all the world were against him and his whole life ruined, he went back to his desolate home and the sick one there.

PRESBYTERY OF STRAFFORD.

The Presbytery of Stratford met in Knox Church, Mitchell, on the 17th inst. Rev. A. Stewart, of North Easthope, was appointed moderator for the current six months. A call from Burns' Church and Brookdale was presented in favor of Rev. J. D. Ferguson and was sustained by the Presbytery. Mr. Ferguson having intimated his acceptance of the call it was agreed to hold an adjourned meeting in Burns' Church on the 31st inst., at 1 p.m., for his induction, Mr. Pike to preside, Mr. McLachlan to preach, Mr. Tully to address the minister and Mr. Campbell the people.

Rev. A. Henderson presented a call from Listowel in favor of Rev. J. A. Morrison, B.A., which was sustained by the Presbytery. Mr. Morrison had intimated his acceptance, and it was agreed that the Presbytery meet in Listowel on the 3rd of February at 1 p.m. to hear his trial discourses, and if these are sustained to proceed with his ordination and induction, Mr. Henderson to preside, Mr. Ferguson to preach and Mr. Morrison to address the minister.

The report of the Presbyterial W. F. M. Society, which was read by Mrs. R. Hamil-

Mr. Henderson to didress the minister.

The report of the Presbyterial W. F. M. Society, which was read by Mrs. R. Hamilton, showed gratifying progress both in membership and work done. Mrs. Hislop read the financial report, showing that \$1,4489 had been raised this year.

Messrs. Henderson and Grant were abpointed to convey the greetings of the Presbytery to the society.

Knox Church, Mitchell, asked and obtained leave to sell their present church site and purchase another on which to erect a new building.

The report in re ovangelistic services was presented by Mr. Campbell. It was agreed that each congregation should make their own arrangements. The committee appointed to visit Granton and Lucan reported.

The Presbytery then adjourned to meet.

pointed to visit Granton and Lucan reported.

The Presbytery then adjourned to meet again at 7:30 p.m. on March 13 in Knex Church, Tavistock.

A public meeting of the W. F. M. S. was held in the evening, when the large congregation present was addressed by Messrs. Henderson, Grant, Leitch and Cameron. The reports of the society were read by Mr. Tully. Excellent music was furnished by the choir, and altogether the meeting was one of the most successful ever held by the society.

society.

The Presbytery met in Goderich on the 17th inst. Rev. R. Henderson moderator. Moderations in calls were granted to Egmondville and to Bayfield and Bethany. After hearing delegates from Leeburn, Union Church, Goderich township, Bayfield and Bethany the contemplated union of Leeburn with Dungannon, was for the present abandoned, and the congregations above named are to continue their present relations.

The annual report of the Woman's Presbyterial Foreign Mission Society was submitted and action thereon taken. The report shows an increase in the membership. The total sum raised for the year is about \$1,200, besides clothing to the value of \$400 sent to the Northwest Indians.

Rev. R. P. McKay, secretary of the Foreign Mission Society, was present and gave a rousing address in the evening to a large meeting. The assembly's choice in its foreign mission secretary is a very happy one, Mr. McKay is intensely in earnest, and carries his audience with him. If spared he will infuse life into our foreign mission societies.

A Man Made Happy.—Gentlemen,—For five years I have been a great sufferer with Dyspepsia; the pain in the pit of my stomach was almost unbearable and life only seemed a drag to me. When I would go to sleep I would have horrible dreams, and my life became very miserable, as there was no rest either day or night. But with the use of only two bottles of Northrop & Lyman's Vegetable Discovery this unhappy state has all been changed and I am a well man. I can assure you, my case was a bad one, and I send you this that it may be the means of convincing others of the wonderful curative qualities possessed by this medicine, that are specially adapted for the cure of Dyspepsia. A lady customer of mine had the Dyspepsia very bad, she could scarcely eat anything, and was troubled with pains similar to those I suffered with; and she cured herself with two bottles of Northrop & Lyman's Vectable Discovery. I wish you success with your medicine, as I am fully convinced that it will do all you claim for it.

Wit and Humor.

George Grossmith, an English comedian, will be at the Grand on Thursday and Friday nights next week. He gives a unique entertainment and has received wonderful praise by the press since coming to America. The first part of the programme is called "Society Up to Date," and is a clever skit on the foiles and foilies of fashionable life in London, with the special reference to its musical and poetic "fada". The second part is entitled "Play Acting," and gives much useful and truthful advice and examples to ladies and gentlemen who desire to go on the state, Humorous limitations and illustrations comprise the third and concluding section of the programme. None who can appreciate a high and delicate kind of humor should loss the opportunity to listen to it. Mr. Grossmith sings several soogs. "We Don't Kind Flies" and the "Modern frish Comic Song" are perhaps the two tongs which were most markedly successful.

The auditorium was filled and there was quite a few in the gallery. An extended notice of Principal Miller's brilliant analysis of the late poet as an artist was given in the ADVENTISER when it was delivered at Huron College some time ago. A good thing can stand repetition, and many who heard it then listened to it again last night with increased enjoyment. At various stages of the lecture songs from Tennyson were sung, the contributors being Miss Hamilton Moore and Miss Von Seyfried, of Hellmuth College, Miss Tillie Barnard, Mr. James Tancock and Mr. Tod. The secretary of the People's Five-Year Benefit Order in this city has received word from headquarters that the Supreme Court judge has appointed a receiver to wind up the society. The letter also states that members will likely receive the full amount paid in. Some time in November an injunction was issued against the society, and this is the outcome of it. No mismanagement can be charged against the society, and this is the outcome of it. No mismanagement can be charged against the society's officers, but public confidence in such orders had been lost by the collapse of many less worthy. A large surplus is aunounced to back up the payments to members. An enormous amount has been paid out in sick benefits, but to help offset this is the amount gained by members having dropped out. The local society expect to realize the full amount paid in. It has over 100 members, including a number of prominent business men.

Months—liquor Cases at the
Police Court—Mrs. Johnston John Ber Bind
Hushand.

The Police Court lasted much longer this
morning than for some time past. Noon
had almost arrived when the last case was
disposed of. For many years James Ward
had been an employe of Finlay McNeil,
who formerly kept a liquor and grocery
store at the corner of Sinucce and Maitland
streets. Some time ago Mr. Ward bought
the stock of groceries and leased the store,
W. McNeil continuing in the liquor business only. On the evening of Jan. 3 Mr.
McNeil went home early and as usual left
Ward as his agent in charge of his store. A
boy named John Holloway went into the
grocery store with apail and a note from
J. Oliver asking Mr. McNeil for some beer.
Mard left the boy in his store, and
going out the back way entered through
the rear door of the liquor store. Returning
with the beer he was paid the price, which
he put into McNeil's till. Ward said he
received no remuneration of any kind for
conducting the liquor business during McNeil's absence. For this sale 'of liquor
without a license he was prosecuted.
Sergt. Crawford, P. C. Egelton and the
boy Holloway were called for the prosecution and Ward for the defense. Frank
Love-defended. The magistrate expressed
the opinion that a case had been made out,
but at Mr. Love's request a week's adjournment was granted. The least penalty is \$50 kne and costs or three months
n jail at hard labor.
