PRICE TWO CENTS.

President Reid and Secretary Hunt Are Now Able to State That the Exhibition Will Be on the Safe Financial Side-47,000 People Were at the Big Show Yesterday.

ESTIMATED ATTENDANCE FOR THE WEEK. 

The attendance has been most gratifying so far, and the indications are that it will be better than the average. The figures will not reach the standard of last year, however, when all

records for every day in the week were broken. Not that there will be a great deal of difference, but nevertheless, the mark will not be up to last year's. WEDNESDAY A BIG DAY. Yesterday was the big day of the week, of course, and it was betten

than hoped for in view of the rain.

Secretary A. M. Hunt estimated the attendance yesterday afternoon was about 30,000, while in the evening there were about 15,000 people on the Last year's figures were better than that for Farmers' Day, almost 35,000 being on the grounds in the afternoon, although the evening attendance was not quite so large

BIG CROWD TODAY. Today's attendance should be in excess of the same day of 1908. So far the attendance of city people has not been quite up to the mark. On Wednesday the rain kept the majority of Londoners away from the Fair, They will be there this afternoon and evening, however. The number

visitors today is above the average. A PRONOUNCED SUCCESS. "The Fair is a pronounced success," said President Reid. "We are confiflent we will come out with a balance on the right side. While the attendance is not quite so large as last year, when we broke all records, neverthe-

less we have more people here than usual, and the receipts should be something above the average. "If we have the right kind of weather for the rest of the week we will have an attendance equal to that of every other year, with the exception of last year," said Secretary Hunt.

DIRECTORS MEET. At the directors' meeting today, little business was transacted. Dr. Routledge, chairman of the horse committee, reported that he had appointed two independent judges to rejudge the hackney stallion class, owing to the protest of E. Leach, of St. Thomas, and that the former award had been con-

LONDON, THURSDAY, SEPT. 16

POLITICS AND THE TARIFF. The Canadian Manufacturers' Association has declared in favor of the appointment of a permanent tariff commission, and will press its views

upon Parliament. The question is an interesting one. upon which there will be sharp differences of opinion. The advocates of The European waiter is about a commission say that their object is the most which politics will not intrude?

are not satisfied with the present tariff, but a fiscal policy framed to suit them would not be meekly accepted making more money at home. by a large body of Canadians. long as people are dissatisfied with the tariff, so long will it be in politics. To Western Fair of 1909 is safely out of Each other just how sad they were, their eral husky partners has enabled bim to invent a tariff that would please the woods. everybody is beyond human ingenuity, although the Fielding tariff comes nearer to it than anything Canada fusely illustrated in furs. The fur

has had. Parliament would humiliate itself if It delegated any portion of its supreme function, the taxing power, which is placed England's future in the meltone of the prerogatives it won after a ing pot. But the result will be a betlong struggle with the crown. The ter casting. framing of a tariff affects the pocket of every citizen, and every citizen should have the right to hold someone responsible for it. A tariff commission might be useful in collecting information and giving advice, but the decision must rest with the elected would not be the ideal of the manurepresentatives of the people, whom the people can get at. Would the mem- tariff holds the balance between them. bers of the C. M. A. care to pledge themselves to abide by even the rul-

### THE FARMERS AND THE HYDRO-ELECTRIC.

ings of a tariff commission?

The Hamilton Spectator, although a Supporter of the Whitney Government, does not like some of the practices of the hydro-electric commission. It blames the commission for a battle the other day between farmers and a ing very briefly of the trip, Mr. Herman hydro-electric contractor's gang, in which pitchforks were used, and one man's nose was broken. Says the Spec-

"There has bene enough evidence produced to make reasonably plain the fact that, no matter what instruction of the commission may have been to its right-of-way buyers, those buyers went about their ousiness in much the same way that the buyers for a private corporation would have done. Their object seemed to be to pay as little as possible for what they got, and in each case they made the closest deal with the owner that they could, regardless of what agreement had been made with with whom no deal could be made, their cases being settled by arbitration, and the prices they received being much higher than the most advantageous received by their confidence of the farmer. He doesn't like to wake up and discover that his neighbor has the laugh on him in a business deal. More than that, he doesn't expect, when he is dealing with a Government commission, that he will have any such disagreeable awakening, and when he does it is not unnatural that he should feel particularly sore."

The Government and the commission are virtually one body, and the Government must be held responsible for the conduct of the commission or its agents. The efforts to carry the in the world. Within their "beats" are St. Paul .... 6 9 power scheme into effect have been so arbitrary and iregular as to invite the criticism of the courts, and call down the censure of legal and financial that the city is far from being a happy journals-the Canadian Law Journal, the Financial Post, the London Economist and others-and of such an authority as Goldwin Smith. The doors of the courts have been closed against palities pledged for millions, without the consent of the ratepayers in the regular way. There has been a virtual abuse of the legislative power in order to get rid of the consequences of a the public. The proceedings which are now rousing the ire of farmers are in as compared with 1,910 in 1907. the hugger-mugger methods of the electric power corporations.

# GERMANS IN ENGLAND.

Earl Roberts, in his speech in the House of Lords, in favor of compulvory military training, said:

"It is calculated, my lords, that there are 80,000 Germans in the United Kingdom, almost all of them United Kingdom, almost all of them trained soldiers. They work in many of the hotels and at some of the chief railway stations, and if a German force of the chief railway stations, and if a German force of the chief railway stations, and if a German force of the chief railway stations, and if a German force of the chief railway stations, and if a German force of the chief railway stations, and if a German force of the chief railway stations, and if a German force of the chief railway stations, and if a German force of the chief railway stations, and if a German force of the chief railway stations, and if a German force of the chief railway stations, and if a German force of the chief railway stations, and if a German force of the chief railway stations, and if a German force of the chief railway stations, and if a German force of the chief railway stations, and if a German force of the chief railway stations, and if a German force of the chief railway stations, and if a German force of the chief railway stations, and if a German force of the chief railway stations, and if a German force of the chief railway stations, and if a German force of the chief railway stations, and if a German force of the chief railway stations, and if a German force of the chief railway stations are chief railway stations. The chief railway stations are chief railway stations are chief railway stations are chief railway stations. The chief railway stations are chief railway stations are chief railway stations are chief railway stations. The chief railway stations are chief railway stations are chief railway stations are chief railway stations. The chief railway stations are chief railway stations are chief railway stations are chief railway stations are chief railway stations. The chief railway stations are chief railway s man force once got into this coun-

try it would have the advantage of a burglar ever did get into the hous help and reinforcement such as no other army on foreign soil has ever before enjoyed." When so great a man as Lord Rob-

erts talks in this fashion it is no surprise that the German bogey affrights many of his countrymen. The British people are told by some panicky papers that these German waiters and Government, and their employment merely a cloak. A tourist from this quested to favor the management by side of the Atlantic is struck by the reporting any irregularities in delivery. great number of Germans working in English hotels, railways, and barber but he finds the reashops, he goes 10 son when or Switzerland. ## That Harris Fight.

When Langford tackled Morris Harris in Brooklyn last spring he was not in good fighting trim, and although he scored a knockout in seven rounds he severely jabbed himself before h turned the trick. On that occasion Harris weighed more than 200 pounds and being a six-footer he towered over Langford like a giant. Ketchel occuand fumbled with her tortoise comb, pied a seat within a few feet of the rope and watched Lanford closely. After the bout, the Michigan man quickly reached the conclusion he could beat Langford under any conditions.

But Langford will be in far better condition when he enters the ring Fri And then both Mrs. Goldenhair and Mrs. day night. Long road runs have per fected his wind, while boxing with sevincrease his speed. He will weigh Then each one parted, each one smiled, trifle more than 160 pounds his trainers say and he will put up the fight of his life. Langford is a quiet, unassuming sort of fellow, who says lit-

### tle about himself Weighed 175 Pounds.

Ketchel was inspected by many sporting men at his Woodlawn quarters today. He weighed 175 pounds to the ounce and worked both morning and afternoon. Road runs seemed to do him much good while his boxing showed plenty of speed and hitting power. He used up several big fellows who wore pneumatic armor breastplates his blows being so hard at times that knockdowns were scored. He wore adhesive bandages on his hands and wrists so he might avoid all

possible chances of injuries. Kêtchel's even disposition and total dence means anything the young pug-

Rev. Dr. Dickie Inducted-An Auto Kills a Cow-Other News.

[Special to The Advertiser.]

Chatham, Sept. 15.—Rev. Henry Dickle, D.D., formerly of Chalmers Church, Woodstock, was yesterday afternoon formally inducted as pastor of the First Presbyterian Church here. Rev. Mr. Tolmie, of Windsor, acted as moderator, Rev. Malcolm Kay, of Dover, preached, Rev. A. R. Linton offered prayer, Rev. Mr. McEachren, of Dover, addressed the minister, and Rev. Murray Tait, of Wallaceburg, addresed the people. At the conclusion, the formal charge was administered to the new pastor by Rev. Mr. olmie. In the evening a reception was held to Dr. and Mrs. Dickie, when a programme of music and addreses was given, the ladies of the church furnishing efreshments. A poolroom proprietor paid

of allowing an innocent-looking game of chance, with cigars as stakes, to take place on his premises recently. Auto Killed Cow.

the police court coffers for the privilege

Plowing along the dusty country roads just outside the city yesterday, Thomas A. Drew's automobile struck and killed a cow belonging to Huff's dairy.

Excursionists Stalled. Seven coaches of excursionists returnng from London Fair last night were stalled from 10:30 to 5 o'clock a.m. at Thamesville, owing to the breakdown of G. T. R. engine. J. W. White, the Chatham barrister, helped while away the tedium of the wait by furnishing an impromptu programme, helped out by the expropriation of some peaches on board, the costs being defrayed by a collection. The Chatham Bent Goods Company has

just acquired a big timber limit in the Southern States, at a cost of \$150,000. The concern is shut down at present, pending a resumption on a larger scale. The official test of the dynamo recentsold to the city electric light plant by the Chatham Gas Company, which took place yesterday, is understood to have reulted very favorably. A report will be presented at the council meeting next Monday night.

The marriage took place in the Methodist Church at Wallaceburg this afterncon of Miss Mary Shaw, daughter of wright, 8:50. Mr. and Mrs. Matthew John Shaw, to Harry Eagleson, of Chatham Township. Yesterday's Results New York, 3; Philadelphia 2. Washington, 7; Boston, 4 Today's Games.

Detroit at Philadelphia. Chicago at Boston. Cleveland at New York. St. Louis at Washington

[Special to The Advertiser.] New York, Sept. 16.—Capt. Keeler, 1:40; umpires, Connolly and Kerin. after nearly losing today's game at the Hilltop in the ninth inning, by THE NATIONALS TRIM muffing Baker's liner, won it for the Highlanders right after this by slamming one of Dygert's curves to the right field wall, when Brockett was

on first. This bit scored the "king" and gave the residents a 3 to 2 verdict over the Philadelphians. Keeler's Costly Error.

Keeler's error was all that saved Barry and Collins on the bases. Jack, late of Holy Cross, hustled in effective in tight places. Score: on the foozle, and Eddie, the Tarry-

town terror, followed his side partner home when Harry Davis hit savagely Killifer, c.f. The knot was soon untied, as Brockett hit to Connie in the locals' part of Slattery, 1b. the ninth and made the rest of the journey to the counting district on McBride, s.s. ..... 4 Keeler's savage smash, which would

Brockett's Offering.

"King" Brockett pitched a steady game for the Stallingites, holding the Niles, r.f. Mackmen to seven hits and issuing only two passes, both drawn by Eddi

"Minstrel Man" Morgan who pitched the first game of the series and won McConnell, 2b. it, failed to repeat, though he doesn't Hooper, l.f. get charged with the loss of the conflict. He left to his success, "Wee Jim" Dygert, a tied score, the little spitter getting properly bumped during his two-thirds of an inning stay on the eminence.

The Score.

# **NO-HIT-NO-RUN GAME AND** A STRIKE-OUT RECORD

San Antonio, Tex., Sept. 16.—Some achieve fame after years of endeavor and some bump into it right after the flag drops. You can't always tell just

For instance, here comes Willie "Bill" Mitchell, fresh from college, and pitches a no-hit-no-run game for San Antonio against Shreveport, one of the strongest teams in the Texas league.

Willie "Bill" didn't make a noise when he came into the Texas league when the Mississippi A. & M. college season ended His coming wasn't heralded by a fanfare of trumpets, and he didn't look different from any But right away he began making a name for himself. As a starter, he

pitched his no-hit-no-run game, and then came back with a wonderful strikeout record, making 20 Galveston batters fan one afternoon, blanking the citizens of the tidal wave town and permitting but five scattered hits. Mitchell-be insists upon being called "Bill" as against the Scotch Willie-is a protege of Dolly Starke, the San Antonio shortstop, and both go to the Cleveland team at the end of the Texas league season.

Team, by an Expert

The following is taken from the Buffalo

Dear Sir-I would like to submit my would be the greatest team in the hiseasily defeat any other collection of players that could be gathered together. Here is the hard-hitting and sensational fielding team: L. f., Stone, St. Louis; c. f., Crawford, Detroit; r. f., Cobb, Detroit; 3b., Bradley, Cleveland; 2b., Lajoie, Cleveland; s. s., Wagner, Pittsburg;; 1b., Chase, New York American; c., Archer, Chicago Cubs; Gibson, Pittsburg; pitcher, Mathewson, New York Giants; Brown,

Mathewson, New York Giants; Brown, Overall, Reulbach, Cubs; Camnitz and Willis, Pittsburg. What a magnificent team. All mighty sluggers and grand fielders, with a magnificent array of twirlers to help on. What would Wagner, Lainie, Cobb and Stone do covered. Lajoie, Cobb and Stone do to opposing twirlers? What would the above twirlers do to opposing teams? I think they would have 'em all helpless. Stone in left is a class player, a great judge of fly balls, a fast and daring baseman and a slugging batsman. He is without a doubt the cream of the left fielders. Crawford, of Detroit Tigers, is a great man for centre. Sam slugs the ball for keeps, is fast, aggressive and a base-runner, while he fields his position in sen-sational style. Best of centre fielders, I am sure. Ty Cobb, in my opinion, is not only the best right fielder in the game, dore;
No chemical concoction you are needing
Except a simple oblong bar of soap!

You should not eat unless you're feeling but the best all around player the game, but the best all around player the game around player the game, but the best all around player the game, but the best a

the best. Bradley's great playing around the third sack reminds the fans of Jim-my Collins, while he hits the ball hard and often. At second the great French-You should pass up all the red meats man, Napoleon Lajole, gets the palm. and the rarebits—

Of your net abominations they're game ever produced. Some think him the best, while his wonderful fielding around second is unsurpassed by any other sec-end baseman. At shortstop Hans Wagner, the mighty batsman of the Pittsburg Pirates, conceded by experts to be the greatest player the game ever produced, easily overtops all others at that position. He fields remarkably well, runs bases like a house-afire, while he lams the ball harder and oftener than any player in the game. Wagner is very

player in the game. Wagner is very big, but he is very fast, and when he slings the ball to first it travels with the speed of a bullet. Hans is the terror of all pitchers and is without a shadow of Jeffries;
You are born to stick about till you are tired.

Nature has supplied you with the furnace—

It is up to you to see that it is a reliable player. Archer it is at bat he is a reliable player. and Gibson, former Bisons, are the greatest pair of backstops in the country to-day. Archer because of his marvelous throwing to bases, and Gibson for his ac-curate throws and batting. The twirl-ers are a wonderful lot and would have all teams at their mercy, so where is there a team that will excel this one of mine? Thanking you for your valuable space, I remain, sincerely yours,

Interesting Dope on an Unbeatable Cleverness Like Jim Corbett's Does Not Materialize in the Kauf-

San Francisco, Sept. 16.-Cheerful and urbane, Jack Johnson was cruising selection of an all-star team that I think around the sporting regions of the city today, but his popularity seems to have tory of baseball, a team, I think, would waned in a fistic line, on account of his showing with Kaufman. It is generally conceded that the coast man gave him a far harder tussel than was expected, and Johnson's prestige has suffered accord-

Jack's failure to knock out Kaufman is not held against him. It is realized here that Al is a big, strong boy, and that in a short contest he may hold his own with any of them. Johnson's failure to score a big lead, however, after all the accounts sent in about his being a second Jim Corbett for cleverness, have counted against him.

Depends on Punch. Kaufman has always depended more on his punch than on anything else and on wearing down an opponent. lived up to expectations in holding his own in the sparring line, but he did not show the marked supremacy over Kaufman in boxing and hitting that was ex

pected.
"Johnson is not a second Peter Jackson by a good sight. This was the remark heard frequently n sporting resorts of San Francisco in sporting resorts of San Francisco. Moreover, there was frequently an added statement made to the effect that he was not a second Jim Corbett either, so far as boxing ability is concerned.

Cannot Land Blows. Tom Corbett, brother of Jim Corbett was one of those who witnessed the bout He thinks that the big black boxer has a fast left, but that he has to shoot i in when he is off balance and when he alackburn, s. s. .4 cannot put all his weight behind it. His Fitzgerald, c . . 4 most effective blow, according to Corbett, seems to be an uppercut administered at close range.
This was exactly the statement made

by Hugh McIntosh, promoter of the Burns and Johnson go in Australia. Mc-Intosh always said that where Burns lost his chief chance was in his stature. Tommy possesses a punch somewhat of the same order as that held by Johnson, but was too short to land it effectively. Time and again Tommy would miss with the blow and Johnson would counter with exactly the same punch, landing effectively. No Programme.

appearances on the vaudeville stage.
Sizing up the whole situation, many here seem to believe that Johnson has distinctly hurt his record by his showing. DETROIT GETS BALL OF ADRIAN Cincinnati, O., Sept. 15.-Secretary John E. Bruce, of the national baseball commission, has received notice St. Louis Nationals: Knight, of Al-

# the Possible Selections

For able and efficient services rendered on the diamond, it is rumored that "Billy" Evans will be one of the American League's representatives on the umpire staff in the coming

This is a position and an honor that Ban Johnson cannot fail to bestow on the Clevelander. Evans work has been favorably commented upon by ball players, managers and club owners alike; and for the last two seasons he has been the most successful man now umpiring. Of course, "Jack" Sheridan will be one of the umpires. This

is a life tob for the veteran of years on the diamond, and he can have the position as long as he wishes to continue. It is just probable that a third man will also be named to be used in case either one of the regulars is injured, and this position may be given to either "Silk" O'Loughlin or "Tommy" Connolly. It looks very much like Sheridan and Evans for the regulars, with "Hank" O'Day and Emsile for the National

# Evans and Sheridan

# The Royal Securities Corporation, Limited

Has issued in the City of Montreal, in the Province of Quebec, an advertisement, stating that it is prepared to receive subscriptions for \$5,000,000, 7 per cent. cumulative preference shares of CANADA CEMENT COMPANY, LIMITED, at the price of \$93 for each share with a bonus of ordinary shares equal in par value to 25 per cent. of the par value of the preference shares allotted, such bonus stock to be delivered on payment of subscription in full. Firm subscriptions have been received for \$3,200,000 par value of these preference shares. The advertisement gives the following information as to the CANADA CEMENT COMPANY, LIMITED.

# THE CANADIAN MARKET FOR PORTLAND CEMENT.

The demand for Portland Cement in Canada has increased remarkably during the last five years. In 1904 the total consumption of Portland-Cement in the Dominion was 1,694,988 barrels, of which 784,630 barrels were imported. In 1908 the consumption, notwithstanding the general industrial depression, was 3,134,338 barrels, and no less than 3,495,961 barrels were manufactured in Canada. Eastern trade conditions indicate that the consumption during 1909 will largely exceed that of 1908

The increase is not abnormal nor due to merely local causes. In the year 1888, it is estimated that less than 200,000 barrels of cement were manufactured on the North American Continent, and the enormous growth of the business is shown by the fact that in 1908 approximately 55,000,000 barrels were there produced. The manufacture of Portland Cement commenced in Canada in 1888, but until 1904 the importations into Canada of the foreign product

The report of John McLeish, B. A., chief of the division of mineral reserves and statistics of the department of mines, Canada, on the production of cement in Canada during the calendar year 1908, furnishes the following comparative statement:

| Calendar Year. | Canad        | ian       | Foreign              | Total           |
|----------------|--------------|-----------|----------------------|-----------------|
| Curondar Town  | Manufactured | Consumed  | Imported into Canada | Consumed in Can |
|                | Barrels      | Barrels   | Barrels              | Barrels         |
| 1904           | 908.990      | 910,358   | 784,630              | 1,694,988       |
| 1905           | 1 541 568    | 1,346,548 | 917,558              | 2,264,106       |
| 1906           | 2 152 562    | 2,119,764 | 666,931              | 2,785,695       |
| 1907           | 2 491 513    | 2,436,093 | 672,630              | 3,108,723       |
| 1908           | 3,495,961    | 2,665,289 | 469,049              | 3,134,338       |

Great as has been the development of the Portland Cement industry in Canada since 1904, it is only reasonable to assume that this growth will be largely exceeded in the immediate future, and for many years to come. The enormous public works in progress and in contemplation, including railways, canals, bridges, harbor improvement, piers, wharves, docks, piles, pavements, building foundations and buildings, etc., will all require proportionately large quantities of the manufactured products of the new company. The hydro-electric developments throughout the country will increase the demand, while the rapid substitution of reinforced concrete for other materials in the building trades, will render necessary an increased production on the part of the new company. OBJECTS OF THE MERGER.

According to the returns made to the Dominion Government by the cement manufacturers the average price at their works obtained by them in 1908 was \$1.39 per barrel. This was the lowest price ever reported by the Canadian mills. In 1906 the average price was from \$1.65 to \$1.70, and in 1907, about \$1.60. At the beginning of the present year it was realized by a number of the manufacturers that even without any increase in prices the business could be rendered much more profitable by a merger of several of the large competing companies on a conservative basis. The Canada Cement Company, Limited, is the outcome. The new company will own or control cement producing plants at the central points of distribution from the St. Lawrence River west to the Rocky Mountains, and by securing more efficient organization which will be able to regulate the distribution of the manufactured product from these central points to the centres of consumption, large economies in the present cost of freight, which represents a large percentage of the ultimate cost to the consumer, will undoubtedly be effected. The establishment of one executive office in the City of Montreal, and the elimination of competitive salesmen, middlemen and brokers is also expected to effect a considerable saving in the costs of the sales department under the new management. Forms of application can be obtained at any office of the Royal Trust Company or of the Royal Securities

Corporation, Limited. The Royal Securities Corporation, Limited, Montreal. Indorsed and Eulogized by the World's Greatest Artists---Pugno, Gadski, Nordica, Sembrich, Marie Hall, Etc.

# HARD HEINTZMAN

Many people do not like to trust their own judgment when buying a Piano. They like to have the assistance of a friend. Should not the preference shown by the above celebrated artists for the Gerhard Heintzman make you decide upon this Piano? The fact that they choose our Piano need not be the final factor in helping you

to make a choice. When the Dominion Government was buying a Piano to represent Canada at the Buffalo, St. Louis and Tokio Exhibitions, a musical committee was appointed to

choose one, and they chose a Gerhard Heintzman. The citizens of Quebec were giving a Piano to Lady Laurier. Their committee chose a Gerhard Heintzman.

The C. P. R. chose Gerhard Heintzmans for their \$1,500,000 hotel in Winnipeg. The Gerhard Heintzman Player Piano, a musical masterpiece. It plays (the entire keyboard) and can be instantly transposed to any key to suit the voice or accompanying instrument.

Decide upon the greatest-THE GERHARD HEINTZMAN. Our exhibit at

the London Exhibition has many special features in ART PIANOS. A duplicate of our Exhibition Pianos can also be seen at our warerooms.

# SPREAD OF PELLAGRA

New and Mysterious Disease Is Becoming a Public Nuisance.

Washington, Sept. 16. — Expressing a confirmed belief that "pellagra" is likely to become in this country a public problem of greater proportions than can at the present time be realized, C.H.Lavinder, past assistant surgeon, public health and marine physiclan, has just reported the results of his investigations of the prevalence of that disease in the Illinois State Hospital for the Insane. There are in the neighborhood of forty or fifty well-defined cases of pellagra in the institution, according to Dr. Lavinder. He was unable to assign any local cause for the extent of the disease.

# STRANGE FATALITY AT THE OTTAWA FAIR

Crowd Rushes to Aid Aviator and Is Shocked by Electric

Wires.

[Special to The Advertiser.]
Ottawa, Ont., Sept. 16. — A peculiar airship accident occurred at the Ottawa exhibition this morning. Aviator Nassr attempted a flight with a dirigible. The propeller caught an electric light wire, and checked the ascent. The crowd, seeing the trouble, rushed to catch the falling dirigible. The propeller had stripped the insulation off the electric wire, and as fast as people touched the metal framework of the balloon they formed a circuit with the earth and were knocked down. Twenty people were thus rendered helpless in ess than a minute. Four of these were so badly shocked that they had to be removed to the hospital.

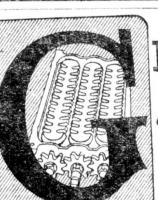

Edward Kaitting, of Belleville, who
was shocked, died while on the way to the hospital.

# MINISTER OF WAR A HERO OF ROMANCE

Gen. Suchomlinoff, of Russia, to Wed Wife of Rich Merchant.

Berlin, Sept. 15. - Gen. Suchomli noff, the Russian minister of war, according to reports received in Berlin, seems to be the hero of a romance as sensational as interesting. It is causing a great stir in society circles here.

Mme. Butovitch, the future wife of the war minister, is the present wife of a wealthy merchant, who has determined she shall not be set free to marry again. Mme. Butovitch, however, has collected whole volumes of evidence, in order to bring about a divorce. M. Butovitch, it is alleged, has ill-treated his young and beautiful wife in every possible manner, beaten and otherwise assaulted her in the Tresence of witnesses.

Young Wife in Captivity.

Suchomlinoff became acquainted general of Kieff. The Butovitches, be ing wealthy, kept open house, and all the notables of the town met under its hospitable roof. The general soon got an insight into the sad drama behind the scenes. The husband noticed this, and Mme. Butovitch's martyrdom was increased, it is said.

At first only an ideal friendship existed between Mme. Butovitch and the being shown in both departments. general, but it soon ripened into deep ing the man's noble character, consented to become his wife as soon as ed large numbers who have never ena divorce could be obtained. She told tered their goods before. husband, who would have conchanged between madame and the of the people general were sent to Premier Stolypin, not be upheld. No witnesses could be sented.

Czar Will Assist General. Meantime, Suchomlinoff became the

minister of war, and Butovitch went Nevertheless, amply provided with means, he continues the campaign against the general with increased vigor, it is said. It is asserted that he has found a ready ally in the association of "true Russians," to whom Suchomlinoff is objectionable, as he tolerates the Jews.

The czar esteems the talented general greatly. Premier Stolypin, who is said to be striving with might and main to bring about the divorce, reported the whole matter to the czar. As the Russian press has been forbidden to allude to the case, the Butovitch representative, it is said, has received 150,000 rubles to vent his grievances in the foreign press. The many people are catching the "bug" Holy Synod has not spoken the last word in reference to the divorce, which is about to be granted by the St Petersburg consistory. Butovitch, it is charged, is threatening the Holy Syn- At 87, Man Returns After Absence of

# ALL SERENE WITH JAPAN

Premier Katsura Says His Country Is at Feace With the World.

Tekio, Sept. 15. - As was forecasted, the speech of Premier Juataro Katsura, before the Bankers' Club of this city, was a review of the financial of the most remarkable intellectual condition of the country. He expressed the belief that the financial condition of the country was encouraging, make such a comparison, it might be and while maintaining that the present system of finances was excellent, he expressed the hope to improve it steadily until perfection was reached. The premier declared that the avoidto any worthy person who applies ance of unproductive expenditure to me for aid, but that old man would be consistently followed, and promised that for the ensuing year a sum considerably in excess of 53,000,-000 ven (\$26.000.000) would be devoted to the redemption of bonds. In conclusion the premier said that the foreign relations of Japan were universally good. The Anglo-Japan-

ese alliance, according to Katsura, would be continued. He spoke of the warm relations between Japan and America, where the Japanese businessmen are now entertained so lavishly as the honored guests of a friendly nation, thus insuring closer unity and better under-

standing of intercourse between them. Premier Katsura deprecated any fear of trouble between his country and China by declaring that all outstanding questions between them would be settled by an exchange of Dundas and Richmond, London. 71c | concessions.

# THE POLE FOUND IN A SIMPLE WAY

## Sextant, Pan of Mercury, Silvered Glass and Spirit Level the Instruments.

Chicago, Sept. 10 .- A sextant, a pan of mercury, a piece of silvered glass and a spirit level are the simple appliances that would indicate with certainty the location of the pole, according to Professor Edwin B. Frost, director of the Yerkes Observatory of the University of Chicago at Williams Bay, Wis. Professor Frost last night gave full directions for finding the pole which he described as very simple once the preliminary discomforts of northern travel are overcome. According to Professor Frost, if one is careful to take a squint at the sun several times a day while en route, one can't possibly miss the pole. As simplified by the Yerkes director, the sextant alone will do the trick if the traveler is on the water. If on

### glass should be used, maintaining a level with the spirit level. Sun at Same Altitude.

land, he should use the pan of mer-

cury also. If it is cold enough to

freeze mercury, the piece of silvered

"To state it briefly and simply, you know you have reached the pole when the sun skims around in a circle all day at the same altitude in the heavens," said Professor Frost. "The instruments are merely used to ascertain this altitude. The operation is the same as commonly used by mariners and can be done by anyone with a knowledge of trigonometry.

"The arctic explorer, of course, can always tell how far he is from the pole by computing the latitude. Approaching the pole, the altitude of the sun changes with the hours of the day, that being sufficient proof that the pole has not been reached.

"The lightest and most convenient nstrument to take on a pole hunt is the sextant. This instrument, comparatively small, is arranged with a mirror and a graduated are of a circle for measuring the angle between two objects. The mariner looks into the mirror until he sees the round disc of the sun just touching the edge of the water on the horizon and the sextant thus measures the angle of the sun. Of course, certain corrections are applied, principally to get the mariner's altitude above the water and the refraction of the atmesphere. This operation gives him his latitude quite correctly when he figures out the angle by trigonometry.

### How to Find Latitude.

"To illustrate this operation, the latitude of any place is the same angle as the altitude of the pole in the heav-Are To Be Seen in the Trans- A Sub-Committee of the Cabinet ens at that place. That will be the angle from the zenith to the celestial TWEEDMOUTH DEAD equator. All the mariner does is to ONCE OF THE CABINET the celestial equator. Pole Variable Point. The scientific knowledge that the iable point—in fact, that no one spot

true axis of the earth is not an invaron the world's surface can be exactidentified as the north pole, was brought out by Professor Frost. The pole actually shifts continually, he says, the maximum distance from the les and differences to arise between nominal axis never exceeding thirty them.

Professor Frost recalled the discovery of this fact by an astronomer working at Cambridge, Mass., as one triumphs of science.

"Though I should not ordinarily said that if the pole were a pole in a literal sense, sticking out of the earth's surface, it would continually be plowing a furrow in the ice, never going further than thirty feet from the true or average pole," he said. "Professor S. P. Chandler, of Cambridge, discovered with instruments of his own invention, that the latitude of any place on the earth is not absolutely fixed, but varies a trifle.

**GROWS HAIR** 

PROVE IT!

"As a result of using Danderine, my hair is close to five feet in length."

Beautiful Hair at Small Cost TAIR troubles, like many other diseases, have been wrongly diagnosed and electric AIR troubles, like many other diseases, have been wrongly diagnosed and altogether misunderstood. The hair itself is not the thing to be treated, for the reason that it is simply a product of the scalp and wholly dependent upon its action. The scalp is the very soil in which the hair is produced, nurtured and grown, and it alone should receive the attention if results are to be expected. It would do no earthly good to treat the stem of a plant with a view of making it grow and become more beautiful—the soil in which the plant grows must be attended to. Therefore, the scalp in which the hair grows must receive the attention if you are to expect it to grow and become more beautiful.

Loss of hair is caused by the scalp drying up,

Loss of hair is caused by the scalp drying up, or losing its supply of moisture or nutriment; when baldness occurs the scalp has simply lost all its nourishment, leaving nothing for the hair to feed upon (a plant or even a tree would die under similar

The natural thing to do in either case, is to feed and replenish the soil or scalp as the case may be, and your crop will grow and multiply as nature intended it should.

Knowiton's Danderine has a most wonderful effect upon the hair glands and tissues of the

scalp. It is the only remedy for the hair ever discovered that is similar to the natural hair foods or liquids of the scalp. It penetrates the pores quickly and the hair soon shows the effects of its wonderfully exhilarating and life-producing qualities. One 25-cent bottle is enough to convince you of

its great worth as a hair growing and hair beautifying remedy—try it and see for yourself. NOW at all druggists in three sizes, 25c, 50c and \$1.00 per bottle.

## WANT A PERMANENT TARIFF COMISSION

## Canadian Manufacturers' Assn. Passes Resolution Asking Its Appointment.

Hamilton, Sept. 75.-A resolution asking the Dominion Parliament to appoint a permanent tariff commission was passed by the Canadian Manufac turers' Association today.

It was decided that the onus of

proving a worker's age in connection with the employment in mines should rest with the parents of the employed. On motion of J. F. Ellis, of Toronto, a resolution was passed opposing any legislation that would impair or prohibit the continued use by Canadians of the valued service rendered by unregistered fire insurance companies.

Resolutions were also passed against making of election days holidays, and in favor of raising forfeits of candi-

dates from \$200 to \$500. The Ontario assessment act was criticised by Wm. Robbins, Walkerville, as illogical, and discouragement to provement of factory property. W. K. McNaught, M. L. A., challenged him to suggest an improvement, and Robbins retorted it was up to the Gov ernment to find a remedy. A. E. Kemp claimed that the new act was much superior to the old as under it manu facturers were taxed on amount paid-up capital. Mr. Robbins' resolution condemning the act was defeated.

# NATIVES BEST FOR THE WORK IN JAPAN

## Mr. W. T. Preston Thinks They Can Do Better Work Than the Foreign Missionary.

Toronto, Sept. 15. - "If Japan is ever to be evangelized it must be by native Christian workers," was the assertion of Mr. W. T. R. Preston, Canadian trade commissioner to Holland, and formerly Canadian trade commis-

sioner to Japan. Mr. Preston was speaking to an au dience in the schoolroom of Parkdale Presbyterian Church. His subject was "Japan and Its Problems." His observations brought him to the conclusion, he said, that Protestant missionary effort in Japan had been a failure. Because of the difficulties encountered in mastering the Japanese language, said the speaker, he understo 1 that only one missionary in the Empire of Japan was capable of delivering a sermon in Japanese as good as an audience of educated Japanese would expect. For this reason the educated Japanese convert could do much more effective work than the foreign missionary. There were at present about 1,200 Japanese missionaries in Japan, but there should be

"And there would have been 12,000," said Mr. Preston, "had the churches not shown lack of wisdom and judg-

Mr. Preston made the suggestion that the majority of the foreign missionaries at present in Japan be withdrawn and native workers substituted. It would pay the churches to lay aside \$50,000 to send a commission to Japan for one year to investigate conditions there. Red tape and offi-cialism was at present weighing down the efforts of those who were trying to evangelize the domain of

the Mikado. On the conclusion of the address, with its lantern illustrations, the meeting passed a vote of thanks to Mr Preston. His Honor the Lieutenant. Governor, who presided, suggested that it might be well for the Presbyterian Church to hear further from Mr. Preston as to the prosecution o the work in Japan.

# IN PRIZES-\$2,400-Given Away FIRST PRIZE: \$400.00 PIANO \$400.00

For the purpose of advertising the Great New Scale Williams Piano more thoroughly in London and vicinity, the Williams Piano Company have decided to give away Two Thousand Four Hundred Dollars in prizes, including a Piano. As we believe that many thousands will enter this contest, we feel assured that we will be better repaid for the amount of money

expended this way than through the regular channels of advertising. Something You Should Know There is an individuality to the tone of the Great New Scale Williams Piano, remarkable for its purity, richness, delicate musical quality and great carrying power.

# Read Contest Instructions Carefully.

Take the numbers 1, 2, 3, 4, 5, 6, 7, 8 and 9, and arrange them in the blank spaces opposite, so that the total of any row (counting either up or down, diagonally or across), will always be just 15.

In order to get you started right, we have already placed three numbers (9, 5 and 1), in three spaces, leaving only six numbers more for you to arrange.

## PUZZLE BLANK

Write your solution in the puzzle blank above, attach it to a letter or sheet of paper with your full name and address, very plainly written, and mail or bring to our warerooms.

ALL ANSWERS MUST BE IN OUR WAREROOMS BEFORE 6 P.M., SATURDAY, SEPTEMBER 18, 1909.

## THE PRIZES

For those who send in the correct or nearest correct solution to this puzzle before 6 p.m., SATURDAY, SEPT. 18, 1909, the following prizes will be donated: FIRST PRIZE. BEAUTIFUL \$400.00 ENNIS & CO. PIANO. To the next FIVE. A Credit Certificate of \$100.00.

To the next Ten. A Credit Certificate of \$75.00.

To the next FIFTEEN. A Credit Certificate of \$50.00. CREDIT CERTIFICATE will be accepted by us as so much cash on the pur-

chase of any piano from our warerooms on or before Oct. 30, 1909.

## CONDITIONS

The contest is open to every family, but only one member of any family can compete, with one answer each only. All employees and relatives of employees of the Williams Plano Company,

### Limited, are absolutely barred from entering this contest. DECISION OF CONTEST

In order to assure the public of the absolute fairness in this contest, the following judges will decide the winners: FRANK ADAMS, The Advertiser; H. A. KOMPASS, Free Press; W. N. HUMPHRIES, Echo. No mail will be opened until the close of contest. The first letter opened by

the judges bearing the correct answer, according to rules of contest, will be the winner of the Piano. Winners of credit certificates will be decided by the same

# CATTLE, SHEEP AND POULTRY

Some of the Prize Winners in These Departments at the Western Fair.

A DEFENSE OF JUDGES

Do the Best They Can and Should Not Be Harshly Criticized-Farmers' Day at the Fair.

Wednesday was Farmers' Day at the great Western Fair, and the buildings containing the live stock were comfortably crowded with the hardy sons of the farm, viewing the different animals and passing comment on the awarding of the prizes. Of course, it is impossible to place the ribbons to please everyone, and I. O. F. HAS NOW exhibitor as well as visitors will, in some cases, probably disagree with

the judge. But one must have faith in the has handled the animals and knows every weak point whereas the orition And a Surplus of Over \$14,every weak point, whereas the critic only looked on.

Nowhere will this apply more suitably than in the judging of poultry, as no man can pass judgment on poultry without handling them. There are a few complaints here and there, but mostly of a trifling nature. The great trouble generally in the

exhibiting of poultry is that a great many breeders do not know their own breed, and feel sore when they are turned down, because the judge hewing close to the standard of perfection In the sheep department there is a

# 260,000 MEMBERS

000,000-The Marquee at the Fair.

Following the custom inaugurated by the late Dr. Oronhyatekha — whose memory is still green—the Independent Order of Foresters are again represented close to the entrance of the Main Building with a large marquee, which is handsomely equipped as a reception and rest room. Thousands of members of the order, as well as many friends from all over Western Ontario, have poured in and out ever since Monday morning, registered their names on the visitors' book, shook hands with friends of a year ago, and ahead of Toronto, and the best class extended congratulations to Superintendent of Field Work C. H. Merrifield, and other heads of the order, including H. C. R. Very Rev. Dean Davis, of London, upon attaining the most successful year in the history of shows a great flock of Cotswolds, win- that great benevolent organization. For as the superintendent told The Advertiser, the order now numbers 260,000 and has a surplus of no less than \$14,-

A souvenir button of the old and the new chief is handed to the visitors, and recalls the fact that under the guidance of the new supreme chief ranger, Hon. Elliot G. Stevenson, who is acknowledged by the greatest authorities to be at the present time the of Canada, the Independent Order of Foresters, it is assured, will make rapid progress in the next five years, and continue to occupy the high place it now holds in the hearts of its members all over the world.

Yesterday the high standing committee of the high court of Ontario Robt. McEwen Byron has a fine lot gathered in session in the marquee, where a meeting was held, the importance of which is brought home to every Forester in Ontario. The committee have graciously granted a bonus of \$2 to every Forester for every new member who is brought into the order before Dec. 31, and all are invited to go earnestly to work to attain the worthy object of making all true friends to the organization. Attention is also drawn to the competttion between Hamilton and London win all flock prizes but one, and branches for a handsome silk flag and and Herr Kriese, two former officers John Kelly, Shakespeare, has a fine commences on Oct. 1, and will end jected to cruel treatment in Paraexhibit of Hampshires, and won well. with the last day of the year. The ob- guay. ject, of course, is to increase the success, and so far the plans have them on the spot. wich, also show some grand ones, and worked out very successfully. The won the heavy end. They were strong work in Western Ontario has reaped esters proud of their order.

### A CHICAGO SOCIETY WOMAN IS SHOT

Woman Seriously Injured.

Tripp was shot and killed yesterda afternoon in an apartment at 560 Prairie avenue, a fashionable resi ernment of Paraguay. dence section, and another woman, be lieved to be her sister-in-law, was ser lously wounded. It is reported that the shooting followed a quarrel.

Neighbors heard sounds of a quarrel in the apartment, and then shots The police were notified, and on ar Pullets-Oke, first and second, and rival found the rooms of Mrs. Tripp in disorder.

Mrs. Tripr, fashionably dressed, wa lying dead in a bedroom. She had bee shot in the mouth. Across the hall th other woman was found on the floo unconscious in a pool of blood. She was shot in the breast. Mrs. Tripp was the wife of the su-

perintendent of a manufacturing firm.

ATHLETICS TO PLAY ON COAST. ## T. R. BIG MEN EXECUTIVE COMMITTEE CALL ON PREMIER

Rivers-Wilson Finds Progress; of G. T. P. Is Very

DEMAND YELLOW LABOR

Satisfactory.

Hays Says It's Strange G. T. P. Is the Only Line Not Allowed It.

Ottawa, Sept. 15 .- Sir Charles Riv-Trunk Railway; Charles M. Hays, vice-president and general manager, accompanied by a party of officials, including Mr. E. J. Chamberlain, manager of the Grand Trunk Pacific, have arrived in Ottawa on their return from a trip of inspection over the western

trip around the city. Sir Charles Rivers-Wilson and Mr. Hays saw Sir Wilfrid Laurier, but they deny that there was any particular significance to be attached to the paid, and all available funds fully intalk they had with the Premier. Sir vested. Charles, they explained, naturally desired to call upon Sir Wilfrid and took advantage of his visit to the city

to do so. It is quite likely, however, that parish, Brantford. shortage of men on the mountain section of the G. T. P. was a subject of discussion between Sir Wilfrid and the men who are building such an important section of the transcontinental railway.

The seriousness of the situation arising out of the fact that it is prac tically impossible to get a sufficient number of white laborers on the coast to complete the line in anything like the specified time was made clear reby Mr. Collingwood Schreiber, chief consulting engineer for the Gov-

Mr. Hays, when spoken to about the matter said that he fully concurred with what Mr. Collingwood Schreiber had said. Mr. Hays added that it would be strange if the Grand Trunk railway which will not be permitted to use whatever labor is available in

order to complete its line. Mr. Charles M. Hays, when seen after he and the president of the company had called on Sir Wilfrid Laurier said that Sir Charles could not leave Canada without making a social call ment which has taken place in the Canadian West and the satisfactory progress which is being made on the G. T. P. Sir Charles would return to England bearing the message that the twentieth century is indeed Canada's century

Sir Wilfrid Laurier subsequent to he interview dined with Sir Charles A Young Couple Arrested at Windsor Rivers-Wilson and Mr. Hays on their private car.

# MARKET FAIR

Peculiar State of Affairs on the Local Market This Morning.

HAY SUPPLY WAS SMALL SI 58. Oil City, Pa., Sept. 15.—Credit balances,

Prices Ranged Between \$11 and \$14.50 a Ton-Other Quotations.

There was a moderate-sized market on the local square this morning, but the buyers were conspicuous by their absence, and consequently sales were very slow. The supply of hay was very small. One load this morning sold for \$11, but it was of very poor quality. Any loads of first-class quality sold at \$14 50, but the ruling price was \$14. There were upwards of half a dozen loads of oats. The prices offered varied

from \$1 40 to \$1 55. There was an immense supply of fruit offered if anything even more than yesterday. Plums sold for from 20 to 40 cents; peaches. No. 1, from 70 to 75 cents; No. 2, 45 to 65 cents; pears, at 35 cents, and grapes at from There was no change noted in the price of vegetables. Tomatoes were plentiful and sold at 15 to 20 cents. There were also some very fine cauli-

flowers sold at 35 cents.

THE P. M. LEASE

> Negotiations Looking to Its Extension Will Likely Be Opened Up Shortly.

No definite information has been received regarding the proposed exten-sion of the lease of the London and Port Stanley Railway to the Pere Marquette, but a communication on the subject will be received within the course of the next few weeks. At one time it was thought that the bill passed at the last session of the Legislature relative to franchises would prevent the extension without a vote of the people, but it was stated at the city hall today that such is not

the case. Way to Get Around It. It is pointed out in support of this contention that the leasing of the railway does not come under the head of franchises, but is merely the leasing of The agreement is made between the London and Port Stanly board of directors, and the Pere Marquette, and

> Thus some of the alderran are of the opinion that an extension can be granted the company, if a majority of them are willing to extend it.

Will Open Negotiations. An opinion on that score will be submitted to the L. and P. S. R. board and then negotiations will be opened,

Superintendent Pyeatt and the solicitor of the Pere Marquette have of Chelsea Green, been in the city several days of late, and it is said that after looking into the question they have satisfied themselves that they can lease the property for a term of years, provided, course, their terms are suitable to the

A number of businessmen are interesting themselves in the matter, and it is to be expected that intresting deelopments will take place very shortly. One gentleman says ne will block the extension if he has to take it to

NARROW ESCAPE

Was Engaged to Marry a Man Who Is Now Charged With Bigamy.

The St. Thomas Journal says: A sensation was created last evening when a sheriff from Grand Rapids arrived in the village and placed Percy Applegate, an employee of J B. Crawford's hardware store, under arrest on a charge of bigamy.

Applegate came to Dutton a year and a half ago, and was employed on Geo. Waite's farm three miles south of the village for several months and was engaged by J. B. Crawford. He is a good-looking young fellow of perhaps thirty years of age. He was well liked and the fact that he has a wife in Flint, Mich., another in Grand Rapids with four children and a third who has not yet been located, did not deter him from winning the affections of a highly-respected young lady here, and it is understood the marriage had been set for next

The Man From Home.

It is rather easy to understand why The Man From Home" highly pleased American audiences. The play was given a rendition at the Grand last evening, and, while it pleased a very large audience, it merely demonstrated that Mr. Booth Tarkington is a wise old owl when it comes to kidaing his ountrymen along. The plot centres around two young Americans and their guardian. The children, when quite young, are sent

abroad to get the customary European anish. While there, the young lady decides to attach herself to a title, worn t the time by a useless piece of numanity, and by arrangement her dot is fixed at \$750,000. At this moment, Daniel Voorhees Pike, of Kokomo, Ind., official guardian of the children, ar-rives abroad and endeavors to break up the match. He shocks everybody his unconventional ways, and he is eclared utterly impossible by the blue-blooded aristocracy. However, he discovers that the title to which the oung lady is about to attach herself has become somewhat tainted by scandal, and it dawns upon the young ady that her fiancee is more properly a financier, and she, of course, refuses him. In the meantime, Mr. Pike has mpressed himself upon the young American woman, and it is presumed she finally weds the man from home

vorce doth end it all. That in tabloid form is the story of the plot. Mixed up in the portrayal of the story are several bad examples of the English aristocracy, a Russian grand duke, a Russian refugee, and others. It was thought that if one scratched a Russian, you would strike a Tartar. According to the play they are somewhat human fellows who liked to be called by their first

and are more or less happy until di-

The play abounds in bright lines and witty sayings. It is a glorification of the practical sense of the American and as such is rather good to listen to Henry Hall, as Daniel Voorhees Pike. the Indiana lawyer, was good. He acted the part, and it is presumed he looked it. As a practical, hard-headed Yankee, with plenty of horse sense, he

Miss Harry Elizabeth Forbes, as the American girl, showed real acting abil-ity, and was most favorably received. Charles D. Herman, as the Russian grand duke, was very clever, and gave very impressive characterization of he part. The others were good.
