### MAY HAVE TO BUILD SUBWAY

Difference with the G.T.R. is Stopping Extension to the Lake

#### UNFORTUNATE POSITION

The Planet has learned from an authentic source, that the Grand Trunk Railway Company intends to refuse the C. W. & L. E. the privilege of crossing their tracks on William street. This is partially the result of the Railway Commission's peculiar finding after taking up the matter at their sitting in this city some time ago. The railway company refuse to give the electric railway a right to cross their tracks on William street, and the only alternative offered the C. W. & L. E. to cross at this point is that they head bridge or construct a subway under the G. T. R. tracks. Neither of these offers can be entertained by the company, and neither is in the interests of the city.

The C. W. & L. E. officials had been looking forward to an amicable settlement with the railway company on this matter, and had the privilege been granted they would have commenced the work of extending their line to the lake shore at once. As a result of this most deplorable state of affairs the railway company are tied up with their extension to the southward. It is to be regretted that the G. T. R. should haggle with the matter as right of way over their tracks, thus practically blocking the interests of both the C. W. & L. E. and the citizens of the city of Chatham. The extension of the C. W. & L. E. to the lake means much to the people of this city, who anticipated an amicable early settlement of this matter. The result is most unsatisfactory both to Chatham citizens and the owners of the road, whose interests are held back by the G. T. R. Company's petty refusal.

It has been learned that the Grand Trunk has offered a third alternative, which is to the effect that the union C. P. R., P. M. R. and G. T. R. crossing in the eastern portion of the city. This offer is another which the C. W. & L. E. cannot consider, as it would mean a great additional expense to them, and a roundabout route which would by no means meet with popular approval. That these enterprising Americans who came to Canada, invested thousands of dollars of capital, and commenced the building of what ultimately would be one of the most substantial electric lines operated in the Dominion, and be thus blocked in their movement, is one of the greatest stumbling blocks and hindrances to this country's advancement. The way Commissioners and Government red tape have been the bane of the C. W. & L. E. ever since the extension of their line to the lake was first broached.

There is no reason on earth why the Grand Trunk should put this and its electrical line to the enormous and unnecessary expense of building a subway under the G. T. R. tracks. It seems strange that a practical level-headed body of men such as the Railway Commission is supposed to be, should come to such an absurd not to say unfair and one-sided decision.

The only hope that the C. W. & L. E. may now gain a right of way over the G. T. R. tracks lies with the more influential citizens of this city who should make strong objections to having their most vital interests thus deliberately sat upon.

### GREAT COMPLAINT

Citizens Think The Drinking Fountain On The Park Should Be Repaired

"Why doesn't the City Council see that something is done to improve the condition of the drinking fountain on Tecumseh Park?" asked a well known gentleman this morning. "The fountain is at present an eyesore on the Park. The sink does not carry the water away fast enough, and as a result the basin overflows and makes the ground surrounding the fountain nothing less than a mud-hole. Besides, it is not much use for drinking purposes, as the fresh water from the pipe flows out so slowly that one cannot be bothered waiting for the cup to fill." The fountain should be fixed. It is a common sight to see a dozen persons waiting their turn in its muddy vicinity, and occasionally making unkindly remarks of mentionable and unmentionable nature, about the highly unsatisfactory condition of the drinking fountain.

### WEST KENT'S ACTIVE MEMBER TALKS ON TARIFF QUESTION

He Takes Up Arms In The Interests Of The Canadian Farmer --- Some Convincing Proof Offered --- Another Needed Public Benefit

The following is from "Hansard" published in the House of Commons, Ottawa: Hon. H. S. Clements (West Kent), Mr. Speaker, before the motion is carried, I desire to occupy the attention of the House for a few moments in the discussion of an important matter which I proposed taking up on the occasion when the Minister of Finance brought down his budget but which I postponed owing to the lateness of the hour. I take advantage of this opportunity to make the remarks which I intended to make at that time. Before discussing the points on which I wish to dwell, permit me to say that I regret that more time was not given to the discussion of the budget. I have always believed that the most important matters we have to deal with in the Canadian parliament are the budget and the tariff. I regret very much that members on both sides

ports from Canada to the United States of these agricultural products. I shall now give you the rates of duty, and what I want particularly to draw the attention of the house to is the difference in the duties on the same products as between the United States and Canada, in relation to which both countries have the same climatic conditions.

of the House have seen fit to discuss the subjects so little. I think that time might well be saved in the discussion of many other things, with which much of the time is taken up, and devoted to these vitally important subjects. The honorable Minister of Finance (Mr. Fielding) saw fit to choose a member for East Lambton (Mr. Armstrong) and myself because of our attitude the other day on the motion brought up by my honorable friend (Mr. Armstrong) regarding our export trade with Germany. If I understand the motion aright its object was to declare that this Government should do everything in its power to capture for Canada some of the great trade in natural products which is carried by other countries with Germany. I do not think the hon. gentleman (Mr. Armstrong) had any intention of going into the question of the tariff. Certainly that was not my object in discussing the matter. The Minister of Finance was, therefore, astray in his estimate of what I intended. I approve the imposition of the tariff on German goods. I feel that retaliation is the proper course in every instance of that kind. I am Britisher enough and Canadian enough to stand by justifiable acts of that kind at any time. I intended to confine my remarks this afternoon particularly to a return which I moved for and which was brought down on May 3. That return is entitled as follows: Return to an order of the House of Commons dated 25th April, 1906, for a return showing imports and exports between the United States and Canada, for the last fiscal year, on the following agricultural products, showing Canadian duties and United States duties, also showing any of the following articles, and amount admitted free between the United States and Canada: Tobacco, corn, potatoes, barley, beans, oats, wool, eggs, fowl, butter, pork, beef, vegetables, apples, hay, cattle, horses, sheep, canned vegetables, canned fruits, evaporated or dried apples, lard, hides, and cheese. I shall endeavor to go through this return as quickly as possible as I want to have it put in Hansard. Let me first give the imports from the United States to Canada and then the ex-

### DEATH FROM POISONING

Coroner's Jury Thinks the Child was Killed by Free Medicine Samples

#### GREAT PUBLIC NUISANCE

Some time ago there was considerable talk in the newspapers over cases where free medicine samples killed two persons who used them. It now appears that Chatham has a similar case, in connection with the death of the little daughter of Mr. and Mrs. Ions.

An inquest into the cause of the death was held last evening, and after hearing the evidence and considering it, the conclusion was that the child most probably came to her death through eating medicine samples which were distributed around the city a short time ago. The inquest was held in Harrison Hall last evening.

Sep. Ions, the father of the child, testified that the child was 17 months old. She could walk. About ten minutes after twelve at noon on Friday the child was in her mother's arms. She appeared to be ill. Dr. James Rutherford was telephoned for a little after two. The father was telephoned for while at work a little after two o'clock. The child died at a quarter to three o'clock.

To the Crown Attorney Mr. Ions said he had no poison in the house. The child was in the habit of going out in the back yard. There are three in the family. The deceased child was a healthy little girl.

Mrs. Ions, the mother, was examined. She said the child was as well as ever that morning. About 11 o'clock the mother went to the market and the little girl was playing in the yard. She came in about a quarter to twelve and said she was sick. Her lips got blue and her fingers were blue, too. The mother gave her some milk and some castor oil. The doctor was telephoned for. The mother did not know where her child had been playing. Mrs. Ions' brother was in the house ill, but his medicine had not been touched. The child was never ill before. There was some medicine thrown at the door a week or so ago. The child had been eating pickles from the sideboard while her mother was up town.

Dr. James Rutherford was examined. It was his opinion that the child had died from some opium poison.

The following was the verdict of the jury:--

That from the evidence before them Emma Ions came to her death from poisoning by opium, but how or when she got the poison we are unable to find out unless she picked it up from some packages of medicine which were thrown around, and which practice we the jury strongly condemn.

### MR. CLEMENTS GETS "PUBLIC BENEFITS."

Once again the Banner's jealousy has asserted itself and in a weak inconsistent and transparent editorial knock, they attempt to belittle the splendid work that Herbert S. Clements, M. P., is doing for the constituency of West Kent.

To one acquainted with the true condition of affairs the position of this journal is easily understood and people can afford to be a little generous and lenient. It is a well known fact that Mr. Clements is becoming more solid, as it were, every day. His ever increasing reputation as an honest, capable and wide-awake parliamentarian has been won through his earnest attempts to serve his constituency to the best of his ability, regardless of politics, color, race or creed. To say that he has been successful in putting it mildly, for notwithstanding the fact that he has occupied a place in the Opposition, he has through his polished manners and genial personality made himself popular with every member in the House, both Liberal and Conservative, and the result is that he invariably gets what he goes after for West Kent. This was partially admitted by the Banner no later than last evening.

On the other hand the Banner finds it their duty to boost a man who is depending upon his smiles to elect him over Mr. Clements in the next Dominion campaign. Now smiles may have worked the electors once, but they are a very poor weapon when they are pitted against deeds and fulfillment of promises, especially when the smiler has represented this constituency in the Legislature and through his silence has admitted that he has done positively nothing for his riding or the county at large since the day he was elected. The Banner takes the stand that it must, if possible, rob Mr. Clements of the credit he deserves for his good work. It is about as mean an attitude as they could assume, but then it must be remembered that it is about the only door left open to them.

After having settled upon their line of action the local Liberal organ should have been more astute and consistent. In their editorial last evening it seemed that they "opened their mouth" merely to again "put their foot in it." If they had been working in Mr. Clements' interests they could not have written a more effective article.

After opening up by pointing out how active Mr. Clements has been in securing valuable information from the clerks of the different departments, they say in reference to him: "Of course it must not be forgotten that some things have followed his appeals for various municipalities and localities in the way of public benefits." The government have been more forgiving to this constituency than the Conservative government of long ago showed themselves to be when the electors sent down Archie Campbell to represent them. Mr. Campbell was unable to get anything for his constituency, unlike the Laurier government in the Clements case. The government have been very generous to West Kent."

It is a pleasure to note that the Banner is becoming converted and is now looking at things in a fair and unbiased light. What we have been trying to convince them of for some time is, to use the Banner's own words, "The government have been very generous to West Kent," as is shown by the fact that "some things have followed Mr. Clements' appeals for various municipalities and localities in the way of public benefits." Surely it is to Mr. Clements' credit that he is able to secure more things while in opposition than Archie Campbell could while he was in a similar position. We see no reason why the Banner should knife Archie Campbell.

Mr. Clements, moreover, is by no means through serving his constituency. On the front page of to-day's issue of The Planet will be found his position on the tariff question exactly as presented before the House. It is confidently hoped, as we have said before, that when the Laurier government is through offering excuses for the various scandals which have arisen during the present session, in connection with the administration of Dominion affairs, once more "something may follow Mr. Clements' appeal" in the way of another much needed and sadly neglected "public benefit."

## Tea Flavor and Strength

THE greater body and richness of Indian tea when combined with the delicately flavored but thinner tea of Ceylon, produces that "rich fruity flavor" of Red Rose Tea—a tea that is strong and goes further—requires less to make a cup of equal strength than any brand of Ceylon tea alone.

Red Rose Tea combines the strength and richness of Indian tea and the delicacy and fragrance of Ceylon tea.

CHILD'S DRESS.  
No. 4115.

White materials are more often chosen in making dresses for the little ones than colored fabrics, and as illustrated, nainsook was used and trimmed with lace edging and fine embroidery. The square neck with short puffed sleeves and epaulet would be chosen for afternoon wear and for a plainer development a high-necked and long sleeves are provided. If the French effect is desired straps of the material or insertion are sewn on to the perforations through which the sash is drawn and held in place. The sash is not provided for in the pattern. Fine lawn, nainsook, Swiss, albatross and challis in white, plain or delicately figured goods are recommended; and for the guimpé sleeve, tulle, lawn, mousseline, with trimmings of Valenciennes lace.

The quantity of material required for size 4 is 2.3.4 yards of 32 inch goods, 3.3.4 yards of 36 inch and 5 yards of edging. Pattern No. 4115 is out in sizes 1 to 8 years.

Mailed postpaid on receipt of 10 cents, name, size and address to the Pattern Department of C. Austin & Co., Chatham, Ont.

LADIES' COSTUME.  
No. 4113.

The mode illustrated here in reseda green shantung and all-over lace, combines distinctness and simplicity. The waist is fashioned with several tucks which allow for added fullness in the front, while the closing is arranged for at the back. Full length sleeves may show a plain cuff or may be faced with the material used for the yoke. If the short sleeve is used a narrow band confines the fullness at the elbow. The three-piece circular skirt is closed at the back. Embroidered and printed cotton voiles, chambray, lawn, organdie soft silks, cordone, dotted Swiss in combination with Danish, beche and eyelet embroidery, Cluny and Torchon laces are suggested.

The quantity of material required for size 36 is 10.1.2 yards of 27 inch goods. Pattern No. 4113 is out in sizes from 32 to 42 inches bust measure.

Mailed postpaid on receipt of 10 cents, name, size and address to the Pattern Department of C. Austin & Co., Chatham, Ont.

Be prompt and you will succeed.

### A REMARKABLE TEST

Hyomei Has Been Known for Years And Is Guaranteed To Cure Catarrh.

We have given Hyomei a most thorough and remarkable test. The remedy has made so many cures that we have urged its use in the most chronic cases of catarrh. Breathed for a few minutes four times a day, through an inhaler that comes with every outfit, it soothes the irritated mucous membrane of the nose, throat, and lungs, kills the catarrhal germs, and restores complete health. Its healing, antiseptic fragrance penetrates to the most remote air passages, as no medicine taken into the stomach can possibly do. Immediate relief almost always follows the use of Hyomei, and great benefit is seen after a few days treatment.

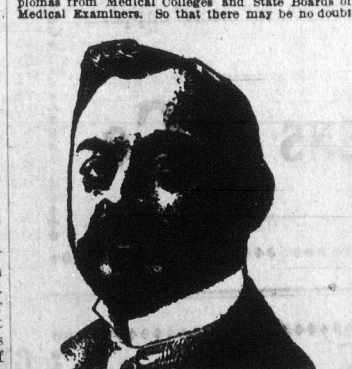

The complete Hyomei outfit costs only \$1, and consists of an inhaler that can be carried in the pocket or purse, and will last a lifetime, a medicine dropper, and a bottle of Hyomei. If this is not sufficient for a complete cure, additional bottles of Hyomei can be obtained for 50 cents.

Compare this small expense with the fees charged by specialists. If you cannot obtain Hyomei of your dealer, it will be forwarded by mail, postage paid, on receipt of price. Write to-day for consultation blank that will entitle you to services of our medical department without charge. The R. T. Booth Company, Hyomei Building, Ithaca, N. Y.

Not by years but by disposition is wisdom acquired.

## MAKES MEN SOUND & STRONG YOU PAY WHEN CURED

A Detroit Specialist who has 14 Certificates and Diplomas from Medical Colleges and State Boards of Medical Examiners. So that there may be no doubt He Does Not Earn.

DR. S. GOLDBERG.  
The Possessor of 14 Diplomas and Certificates, Who Wants No Money That He Does Not Earn.

In the mind of any man that he has the ability to do as he says. Dr. Goldberg allows his patients to take his treatment and pay for the same after they are satisfied that they are cured. He wishes to hear from men who have been unable to get cured, and who have prostate trouble, blood poison, etc. He not only cures the condition itself, but likewise all the complications, such as rheumatism, bladder or kidney trouble, heart palpitation, nervous debility, etc. The doctor realizes that it is one thing to make claims and another thing to back them up, so he has made it a rule not to ask for money until you are cured, and when you are cured he feels sure that you will willingly pay him his small fee. It would seem, therefore, that it is to the best interests of every man who suffers in this way to write the doctor confidentially and by his case before him, because if he accepts your case for treatment it is equivalent to a cure, as he does not ask for any consideration accept invariable cases for treatment. He sends his booklet containing the 14 diplomas and certificates, entirely free. Write him in confidence and your case will receive immediate attention. Medicines for Canadian patients sent from Windsor, Ont. duty and transportation charges prepaid. Address: DR. GOLDBERG, 200 Woodward Ave., Suite 171, Detroit, Mich., U.S.A.

CALLING Cards, Invitations, Wedding Announcements and Envelopes to match, Programs, Pencils Etc., can always be obtained at The Planet Office.

## A KINGDOM AT AUCTION

OPPORTUNITY PRESENTED THRU LONDON ADVERTISEMENT.

Lundy's Island, Fifteen Miles From the Coast, in the Bristol Channel, is to Come Under Hammer—Present Owner of Midget Kingdom is Rev. Charles Heaven—What Centuries Have Attached to Marisco Stronghold.

It is not often that one can go into an auction room and buy a kingdom for a few thousand pounds, but such an opportunity is now presented, and in the London papers one may read the matter-of-fact advertisement offering Lundy Island for sale. The chance is one that should not be allowed to escape by American millionaires, who, though they might become Senators or Presidents, can never become kings, save by purchase. Inventors, scientists, geniuses who love solitude, must be sorely tempted by the announcement that Lundy Island is in the market. Unfortunately they are not likely to have the purchase money and it is likely that some Standard Oil king will be the new monarch of the island in the Bristol Channel.

The Midget Kingdom. The kingdom is about 15 miles off the coast, and, roughly speaking, is about three miles long and half a mile wide. Its highest point is Beacon Hill, 525 feet above the sea. On the hill one might sit and see the wealth of the world steam past the island. No fewer than 1,600,000 ships pass the island every year, steering by the lighthouse that warns the seafarers of the rock that landmen know as Lundy Island. The lee side of the island is a famous harbor, and it is no unusual sight to see a hundred vessels riding at anchor there, and on occasions as many as 300 have been counted. Surely the auctioneer will not understand his business if he fails to make the magnificent outlook one of the most desirable features of life on the island.

Ownership and Inhabitants. At present the owner is Rev. Charles Heaven, by the different members of whose family the island has been governed for the past 70 years, though most of it is now under lease as a farm. Of the 1,045 acres that comprise the island 955 are given over to agricultural stock-raising. Four hundred acres are under cultivation, and the remainder of the farmstead is useful as pasture for horses, cattle, sheep, and goats. The buildings are St. Helen's Church, the villa (or palace), the manor farm-house, a few cottages, the remains of a castle, the post and telegraph offices, and Lloyd's signaling station. The population is small, and composed almost exclusively of fishermen and farm laborers.

The centuries have added tradition and lore like moss and lichen to the granite cliffs of Lundy Island. We first hear of it in 1150, when it was in possession of the de Marisco family, which furnished the barons of the little kingdom down to the time of Sir John de Marisco. Sir John had the misfortune to offend Henry II, to whom he denied allegiance, and his stronghold was declared forfeit, and became the property of the Knights Templar. But for many years there after the Mariscos held on to the island, and the knights received instead of possession an indemnity from the Royal Treasury. By 1233 the holders of the island had fallen from their kingly estate to outlaws, and Lundy harbored a nest of pirates. De Marisco tried to rehabilitate the family fortunes by attempting the life of Henry III. Falling in this effort, he fled to his stronghold, but so great an offence against the English King, and a force was sent against Marisco. It returned with the outlaw king and 16 of his companions, who were all well and truly hanged.

The Robbers' Roost. For three hundred years or more thereafter little was heard of the island, but in the reign of James I. it attracted unfavorable attention as a pirate stronghold. It was again raided, and its populace put to death. In 1632, however, it was made the headquarters of a notorious buccaneer named Nutt, who called himself admiral, and had two or three ships at his command. He wrought such havoc along the coast that several ships of war were necessary to exterminate him. But the island continued to support a cut-throat population, gathered from all quarters of the world, and down to the year 1747 it was a Robbers' Roost of the most villainous description. The pirates of the end came in this year, when an enterprising scoundrel named Benson inherited £40,000 and secured a lease of the island. He entered into a contract with the Government to export convicts to Maryland and Virginia.

The Scheme of Benson. The convicts, to the number of some hundreds, left England on Benson's ships, but never arrived in America. An investigation discovered them working as Benson's slaves on Lundy Island, building walls and fortifications for the "King," and assisting him in the smuggling business. For the last time a force was despatched to Lundy Island, and it was rid of its motley inhabitants. Since then greater care has been observed in the choice of its tenants, until there seems to be no irony in the fact that its present owner bears the name Heaven, and is a clergyman. Nevertheless, with a more respectable history, the sale of Lundy Island would not attract so much attention, and Rev. Mr. Heaven may, after all, be indebted to Messrs. de Marisco, Nutt, Benson, et al., for some thousands of pounds sterling.

£27,000 History of Boer War. Minister of War Haldane has informed Mr. Field that it is estimated that the cost of the official history of the South African war will amount from first to last to at least £27,000. Of this sum the amount expended up to March 31, 1906, was about £22,000. The first volume will probably be out by midsummer, the second and third volumes about the end of the year, and the concluding volume in 1907.

## A Trite Saying.

It is a trite saying that no man is strong that his stomach. Dr. Pierce's Golden Medical Discovery strengthens the stomach—puts it in shape to make pure, rich blood—helps the liver and kidneys to expel the poisons from the body and thus cures both liver and kidney troubles. If you take this natural blood purifier and tonic, you will assist your system in manufacturing each day a pint of rich, red blood, that is invigorating to the brain and nerves. The weak, nervous, run-down, debilitated condition which so many people suffer from, is usually the effect of poisons in the blood; it is often indicated by pimples or boils appearing on the skin, the face becomes thin and the feelings "blue." Dr. Pierce's "Discovery" cures all blood humors as well as being a tonic that makes one vigorous, strong and forceful. It is the only medicine put up for sale through druggists for like purposes that contains neither alcohol nor harmful habit-forming drugs, and the only one, every ingredient of which has the professional endorsement of the leading medical writers of this country. Some of these endorsements are published in a little book of extracts from standard medical works and will be sent to any address free, on receipt of request therefor by letter or postal card, addressed to Dr. R. V. Pierce, Buffalo, N. Y. It tells just what Dr. Pierce's medicines are made of. The "Words of Praise" for the several ingredients of which Dr. Pierce's medicines are composed, by leaders in all the several schools of medical practice, and recommending them for the cure of the diseases for which the "Golden Medical Discovery" is advised, should have far more weight with the sick and afflicted than any amount of the so-called "testimonials" so conspicuously flaunted before the public by those who are afraid to let the ingredients of which their medicines are composed be known. Bear in mind that the "Golden Medical Discovery" has the badge of honesty on every bottle wrapper, in a full list of its ingredients. Dr. Pierce's Pleasant Pellets cure constipation, invigorate the liver and regulate stomach and bowels. Dr. Pierce's great thousand-page illustrated Common Sense Medical Adviser will be sent free, paper-bound, for 31 one-cent stamps, or cloth-bound for 50 stamps. Address Dr. Pierce as above.

## BIG POINT.

The storm did lots of damage last Friday. Mr. L. Lucier's barn was smashed, the bay window of Mr. F. C. Labadie was blown 30 feet by the wind. Hundreds upon hundreds of fine trees were destroyed and blown over.

## THE ENGINEERS REMAINED BRAVELY AT THEIR POSTS

Both Engineers in Collision Here This Morning Showed  
Great Nerve and Presence of Mind—A  
Narrow Escape

A serious smash-up occurred about  
10.40 this morning on the C. P. R.  
opposite Moore's elevator, at the foot  
of Adelaide street.

The way-freight No. 50, locomotive  
112, which handles the local traffic,  
was shunting on the through line  
when the through 10.35 freight No.  
55, locomotive 107, came in from the  
east and crossed the switch to the  
through line.

Both engineers stuck to their posts  
and clapped on the brakes, but it was  
impossible to avert a collision, and the  
two engines met head-on with a  
terrific impact.

The pilot of 112 was driven in, the  
boiler head was wrenched off and the  
cylinder heads broken, and in addition  
to this a great deal of damage was  
done to the headlight and other  
fittings. No. 107 fared no better, re-  
ceiving identical damages with the

exception of the pilot, which was al-  
most untouched.

Some of the train crew jumped be-  
fore the collision occurred, but the  
two engineers, with praiseworthy  
pluck, hung on to their handles and  
did all that they possibly could to  
avert or lessen the smash. Large  
crowds visited the scene immediately  
after the collision took place, and  
much surprise was expressed that the  
damage to the locomotives was all  
that resulted from such a sudden  
and unexpected crash.

The cause of the accident cannot  
be properly ascertained at present,  
but some explanation is required to  
show the reason why the incoming  
freight was switched on to the line  
on which shunting operations were  
in progress.

No. 55 was on time and her arrival  
was not unexpected.  
The fault seems to lie in the  
switching of No. 55 on the through  
line or in the presence of No. 50 on  
that line.

## WITH THE SAINTS A NEW ENGINEER

Meetings Held in Chatham Were  
Very Helpful and Encour-  
aging

The Saturday and Sunday services  
of the re-union proved a decided suc-  
cess. The Saturday afternoon meet-  
ing in charge of Elder B. St. John,  
of Ridgeway, with Elder S. Brown,  
who goes immediately on a mission  
to the Eastern States, as speaker.

At 4 o'clock the young people of  
the re-union held a mock parliament  
which was both amusing and instruc-  
tive.

Evening service was in charge of  
Elder A. Leverton, and as previously  
announced, Elder R. C. Evans was  
the speaker, his text being 2 Peter  
3: 10, on the second coming of Christ.

He showed how it would come upon  
the world as a thief in the night, but  
that the brethren need not be in  
darkness of that subject.

Sunday afternoon service was in  
charge of Elder R. Flegg, London, R.  
C. Evans being the speaker. His  
text was found in 1st Corinthians, his  
subject being a broad one that  
should interest every follower of  
Jesus, being "True Charity, and what  
it meant thereby."

He said it was not found in the  
capitalist, who paid his employees  
starvation wages, thereby causing  
them to sink down into the mire of  
crime and degradation to secure the  
necessities of life, and who to clear  
himself or as an advertisement,  
makes large donations towards the  
preacher's salary, or builds a library.

Sunday afternoon five candidates  
were baptized in the font of the  
church. The speaker for the evening  
was Elder A. Leverton, who selected  
as his text Job 14: 14, on the Resur-  
rection. Fair sized crowds attended  
these meetings towards the close of  
the week.

Part of the week showing the many  
still have regard for the admonition  
to prove all things, and hold fast to  
that which is good. The choir ably  
assisted in making the meetings a  
success. The meetings were not as  
largely attended as the speakers  
would have liked, doubtless on ac-  
count of the report that the cyclone  
damaged the Opera House to such an  
extent as to render it unsafe.

Thus ended a most profitable and  
successful reunion. Elder R. C. Evans,  
who has for the past few  
weeks been conducting service in the  
Majestic Theatre and Massey Hall, to  
crowded houses, left yesterday morn-  
ing for Niagara Falls, where he goes  
to attend a conference of the London  
District.

### A SWEET SINGER

The Annual Memorial Services of  
the M. C. R. were held in the Elk's  
Temple, last evening, yesterday after-  
noon. A large audience was in at-  
tendance and the fine singing and  
addresses were greatly appreciated.

The program was an excellent one,  
the musical talent being of the best.  
Miss May Gertrude Potter, daughter  
of Ald. Potter, Chatham, sang a beau-  
tiful solo, "Show me thy way, O Lord,"  
which was well received. Miss Potter  
is very popular in this city and is a  
member of the Park Street  
Methodist Church choir.

### STOLE THE MONEY

Yesterday afternoon the police re-  
ceived a call to the Blonde Lum-  
ber Company's office, \$7.95 was missing  
from the till, and the office staff  
had a pretty good idea who had  
taken it. P. C. Dodson went over  
and after questioning a small boy  
who was suspected the youngster  
owned up and told where he had  
hid the money in a lumber pile. The  
boy was let off with a warning.  
The little boy is allowed to run the  
streets and it is small wonder that  
he is inclined to get into mischief.

### EVADED THE POLICE

Chief Holmes received a telephone  
message last evening from Wallace-  
burg telling him to be on the look-  
out for a woman who was wanted  
in that place on a charge of steal-  
ing. She was seen getting on the  
electric car on her way to Chatham.  
The authorities thought that they  
could not arrest her because they  
did not have a warrant for her. The  
Glass Town Chief asked the Chatham  
authorities to arrest her. P. C.  
Tom Groves met the car but was  
informed by the conductor that the  
woman had got off the car at the  
15th concession. There was a man  
there to meet her, and the two of  
them drove off.

## WITH THE SAINTS A NEW ENGINEER

Meetings Held in Chatham Were  
Very Helpful and Encour-  
aging

The Saturday and Sunday services  
of the re-union proved a decided suc-  
cess. The Saturday afternoon meet-  
ing in charge of Elder B. St. John,  
of Ridgeway, with Elder S. Brown,  
who goes immediately on a mission  
to the Eastern States, as speaker.

At 4 o'clock the young people of  
the re-union held a mock parliament  
which was both amusing and instruc-  
tive.

Evening service was in charge of  
Elder A. Leverton, and as previously  
announced, Elder R. C. Evans was  
the speaker, his text being 2 Peter  
3: 10, on the second coming of Christ.

He showed how it would come upon  
the world as a thief in the night, but  
that the brethren need not be in  
darkness of that subject.

Sunday afternoon service was in  
charge of Elder R. Flegg, London, R.  
C. Evans being the speaker. His  
text was found in 1st Corinthians, his  
subject being a broad one that  
should interest every follower of  
Jesus, being "True Charity, and what  
it meant thereby."

He said it was not found in the  
capitalist, who paid his employees  
starvation wages, thereby causing  
them to sink down into the mire of  
crime and degradation to secure the  
necessities of life, and who to clear  
himself or as an advertisement,  
makes large donations towards the  
preacher's salary, or builds a library.

Sunday afternoon five candidates  
were baptized in the font of the  
church. The speaker for the evening  
was Elder A. Leverton, who selected  
as his text Job 14: 14, on the Resur-  
rection. Fair sized crowds attended  
these meetings towards the close of  
the week.

Part of the week showing the many

that which is good. The choir ably  
assisted in making the meetings a  
success. The meetings were not as  
largely attended as the speakers  
would have liked, doubtless on ac-  
count of the report that the cyclone

extent as to render it unsafe.

## WAS IT MURDER?

Woman's Strange Story of a Crime  
Committed in 1902.

Perth, June 18.—County Constable  
M. D. White, who has been working on  
the supposed Babcock-Martin murder  
case for the past 30 hours, will leave  
to-day for Rice Lake with a warrant  
to arrest Frank Beaver, the accom-  
plice of Sandy Badore, the noted out-  
law, who three weeks ago was senten-  
ced to 14 years in penitentiary for at-  
tempted murder on a peddler.

A woman named Mrs. Nedde gave  
the startling information at Bathurst,  
near here, that two boys, named Bab-  
cock and Martin, who were supposed to  
have been drowned at Sharbot Lake,  
in April, 1902, were murdered by Sandy  
Badore, and another Indian named  
Frank Beaver, who lives in Rice Lake.

Badore used to live with Mrs. Nedde,  
and she says he told her of the deed,  
and where the bodies were buried. The  
authorities, it seems, sent to the place  
indicated, and found human bones in  
the ground. The two boys had left  
Sharbot Lake for the point in a skiff  
to get logs for W. Y. Cannon. They had  
between \$70 and \$80 on their persons,  
and the two Indians evidently knew  
this. Beaver is being sought for, and  
an investigation into the woman's story  
is going on.

Guilty of Manslaughter.  
Montreal, June 19.—Manslaughter  
was the jury's verdict last evening in  
the case against James Hackett for  
the murder of the little Ahearn girl  
some weeks ago. The fact that the  
medical experts were hazy over the al-  
legation that the victim had been out-  
raged probably influenced the jurors  
towards clemency.

Thieves Steal and Destroy.  
Quebec, June 19.—Thieves entered  
the St. Waller Church, St. David, just  
outside Lewis, Sunday evening, break-  
ing open money boxes and carrying  
away the contents, as well as church  
silverware, etc., and causing consider-  
able destruction, as paraphernalia us-  
ed in the Fete Dieu celebration was  
destroyed.

Water Commissioners Appoint A  
Man To Succeed The Late  
Mr. Murphy

At a special meeting of the Water  
Commissioners held yesterday after-  
noon it was decided to give the con-  
tract for the new boilers at the  
pumping station to Park Bros. Their  
tender was for \$1,928 less \$300 for  
the old boilers.

Michael O'Mara was appointed to  
succeed the late Mr. Murphy as chief  
engineer at a salary of \$70 per year.

John Moore will be night engineer  
at a salary of \$40 a month. Harry  
Murphy will be assistant chief en-  
gineer at a salary of \$47.50 a month.

Joseph Tacker will be inspector and  
foreman of work at a salary of \$50  
a month.

The changes take place on the 1st  
of July.

## CALLED TO REST

Mary Ann Ellwood, an old Blenheim resident, passed away Sunday evening at the House of Refuge, in her sixty-ninth year. The deceased came to the institution from Blenheim in January, 1904. She was a native of Ireland and was of Protestant faith.

The relatives from Blenheim are expected to claim the remains to-day.

## THE SIGN BY-LAW

Some complaint is being made by King street merchants that the Sign By-law passed some time ago by the City Council, is not being lived up to. They say that on Fifth St. and other thoroughfares in the city, there are glaring violations of the by-law in evidence. From its wording, the by-law apparently affects any text or illustration in the city, being stipulated that no verandah or sign shall extend over the property line.

One of the merchants who was forced to take down his signs and comply with the by-law, claims that are others along King St., who have signs extending over the property line. It is understood that it is the intention of the powers that be to shortly issue notices to merchants violating the by-law, to take down their signs at once.

The barber mowed my crop.

In the chair I lay,

As he chewed away,

A little bit off the top.

Then man's hair,

I left the chair,

And paid my nickles three,

Then turned to go,

But he said, "Oh no,

There's another dime for me."

I felt my head,

And some things I said

That I really never oughter,

But it was no use,

So I quit at last,

And coughed up the rest of the quarter.

## Better Than Spanking

Spanking does not cure children of bed-wetting. There is a constitutional cause for this trouble. Mrs. M. Summers, Box 4, Windsor, Ont. will send free to any mother her successful home treatment, with full instructions. Send no money, but write her to-day if your children trouble you in this way. Don't blame the child; the chances are it can't help it. This treatment also cures adults and aged people troubled with urine difficulties by day or night.

## A Somewhat Startling Revelation.

London, June 18.—The report of Dr. Thomas, the medical officer of the borough of Stepney, to the local Government board shows that his department during the past five years has destroyed over a ton of rotten tinned foods daily at the Stepney wharves. These, he adds, were not American goods. The medical officer says he found New Zealand raspberries treated with sulphur in order to preserve them. On their arrival in England the raspberries were soaked in aniline bath to restore their color.

Rochester, June 18.—Sarah Stewart, aged 20 years, who was scalped by her half-brother, was in a shaft at the factory of Yawman & Erbe, recovered after the skin of a Newfoundland dog had been grafted on her skull, and she had spent nearly a year in the hospital. She sued the owners of the factory for \$50,000 damages, and the proprietors have compromised by paying the girl \$12,500 and doctors' fees.

### BLENHEIM

June 19.—A very enjoyable song service was held in the Methodist church on Sunday evening, there being a large congregation present. The topics by the pastor were "Reverence, Sacrifice, Worship." The following selections were rendered by the choir:

Anthem—"Satisfied."

Duet—"Rock of Ages." The Messes Colborne.

Solo—"O Eyes that are Weary."

Mrs. G. Thomson.

Male Chorus—"There's a Beautiful Country."

Anthem—"A Blessed Home."

## TOWNSHIP COUNCILS

### RALEIGH COUNCIL.

The above council met as Court of Revision on the assessment rolls on the 28th day of May with all members present.

Appeals were received from J. B. Smith, R. P. Dolsen and A. Ross that they were assessed for the 4th concession on road which crosses their property. The Clerk was instructed to deduct the road acreage.

Appeal from Dodney Dinnie being assessed too high. No action.

Appeal from G. McGuigan, being assessed for 13 acres too much for north 100 acres of lot 25, concession 16. No action.

Appeal from John W. Tompkins, that he is the owner of lots five and six, Centre Road, Brixton, lots now assessed as non-resident. Appeal sustained.

John Cameron was assessed as owner of the south 12 acres, lot 22, Front concession, instead of James Gardner.

Dogs struck off—one each for J. W. Wright, John L. Piper, Jas. Denham, J. McEachern, Jos. Bennett, M. Broadbent, W. F. Lin, W. Woods, G. Jordan and Jas. Lake.

On motion the Court adjourned to the 29th day of June.

Council met. R. A. Mason presented a petition signed by Widd's and Neal and 146 others for the council to transfer the township's account from the Bank of Commerce, Chatham, to the Bank of Montreal, Chatham.

Moved by Wellwood and Sykes, that the Reeve be and he is hereby authorized to transfer the township's account from the Bank of Commerce, Chatham, to the Bank of Montreal, Chatham, to the Bank of Montreal, Chatham, to the Bank of Montreal, Chatham.

Moved by Shreeve and Sykes, that the manager of the Moisson's Bank in Merin be notified to cash no orders drawn on the treasurer of the corporation of Raleigh except when the same are signed by the Reeve or the Treasurer of the township for the time being.—Carried.

Petitions were received to allow Frank Grant, Gordon Dren and Wan Millar to commute their statute labor for a term of years and respective road division to oversee and report on not later than Sept. 1st next.

A notice was received from W. P. Taylor that the ditch in front of the east half 151 T. R. was in need of repair. Referred to the commissioner of division No. 5.

A report was received from A. Baird, O. L. S., for the repair of the Vail drain on either side of the railway and the towing of the bed pieces in the railway culvert.

Moved by Wellwood and Jenner, that the report of A. Baird for the repair of the Vail drain be adopted and the Clerk forward a copy of the report to the railway company. The committee appointed to wait on C. A. Williams re bridge over R. P. drain on the third concession road, reported that Williams was willing to withdraw his claim if the council would construct the bridge and pay his costs to date.

Moved by Wellwood and Sykes, that Alexander Baird, C. E., be instructed to examine and make a report on a suitable bridge over the R. P. drain on the third concession road, under the Drainage Act.—Carried.

The Reeve reported that he had waited on the council of Tilbury East in reference to repairing the town line north of Jeannette's Creek and Tilbury agreed to make the necessary repairs jointly with Raleigh and to pay one-half the expense of an engineer and were in favor of Baird making a report thereon.

Moved by Jenner and Shreeve, that A. Baird, C. E., be instructed to examine and report on the work necessary to put the town line north of Jeannette's Creek in a proper state of repair.

Ed. Sykes reported that Ed. Gill had completed his statute labor, for which he would be recommended to be allowed three years.—Granted.

Moved by Sykes and Shreeve, that F. C. Jenner look after the interest of the township during the construction of the cattle passes under the fourth concession road by R. P. Dolsen and John B. Smith.

The treasurer reported that the collector had returned his roll: Amount collected, \$44,054.38; amount uncollected, \$290.58; struck off by council, \$60.42; total, \$44,455.38.

Dr. Bell asked that an account of \$15 for medical attendance on Mrs. Clements and the \$3 for quarantining Chas. Manning last year be paid. He agreed to accept one half.

Moved by Jenner and Sykes, that Dr. Bell be paid \$9 in full.—Carried.

Moved by Wellwood and Jenner, that the engineer be asked to extend time for the completion of the Lancaster Award drain.

Moved by Wellwood and Sykes, that the law costs in connection with the extension of the fourth concession road be charged to the general funds and all other costs be charged pro rata on the lands and roads as set forth in the assessment made by the engineer in reference to the same, and the Court of Revision be held on the 25th day of June and the Clerk advertise and serve all notices in accordance with section 671 of the Municipal Act.

An account from Dr. Hall of \$15 for examining a case of infectious disease at the house of R. Pepper was referred to the Reeve with power.

There were a number of accounts passed.

## WOMEN WHO CHARM

### HEALTH IS THE FIRST ESSENTIAL

It Helps Women to Win and Hold Men's Admiration, Respect and Love.

Woman's greatest gift is the power to inspire admiration, respect, and love. There is a beauty in health which is more attractive to men than mere regularity of feature.

Mrs. T.E. Gillis

To be a successful wife, to retain the love and admiration of her husband, should be a woman's constant study. At the first indication of ill-health, painful or irregular periods, headache or backache, secure Lydia E. Pinkham's Vegetable Compound and begin its use.

Mrs. T. E. Gillis, Windsor, N. S., describes her illness, and cures, in the following letter:

Dear Mrs. Pinkham:—  
"When I commenced to take Lydia E. Pinkham's Vegetable Compound I was suffering with weakness and womb trouble, headaches, backaches, and that worn-out feeling. I have only taken the Vegetable Compound a few short weeks, and it has made me well, strong and robust. I believe that Lydia E. Pinkham's Vegetable Compound is without equal for female troubles."

Women who are troubled with painful or irregular periods, backache, bloating (or flatulence), inflammation or ulceration, that "bearing-down" feeling, dizziness, faintness, indigestion, or nervous prostration may be restored to perfect health and strength by taking Lydia E. Pinkham's Vegetable Compound.

### Jumps In Front of Car.

Chicago, June 18.—In full view of crowds of men and women, Harvey H. Henderson, a civil engineer, committed suicide at 2:15 o'clock Saturday afternoon under most dramatic circumstances. He plunged headlong from the platform of the elevated station at Dearborn and Van Buren streets, and was crushed to death under the wheels of a south side train.

"Have by some surgeon, Shylock, on thy charge to stop his wounds, lest he do bleed to death." People can bleed to death. The loss of blood weakens the body. It must follow that gain of blood gives the body strength. The strengthening effect of Dr. Pierce's Golden Medical Discovery is in large part due to its action on the blood-making glands and the increased supply of pure, rich blood it produces. It is only when the blood is impoverished and impure that disease finds a soil in which to root. The "Discovery" purifies the blood and makes it antagonistic to disease. When the body is emaciated, the lungs are weak, and there is obstinate lingering cough, "Golden Medical Discovery" puts the body on a fighting footing against disease, increases the vitality that disease has thrown off, and physical health perfectly and permanently restored. It has cured thousands who were hopeless and helpless, and who had tried all other means of cure without avail.

Thirty-one one-cent stamps to cover expense of mailing and customs will obtain a copy of Dr. Pierce's Common Sense Medical Adviser, 1008 pages, in paper cover. Send 50 stamps if cloth binding is preferred. Address Dr. R. V. Pierce, Buffalo, N. Y.

## SPYING OUT THE LAND.

Legislative Excursion Makes a Three Days' Trip Through New Ontario—The End of Steel.

"The end of steel" on the Temiskaming & Northern Ontario Railway was reached by the Legislative excursion party on Thursday, May 31. The special train on which the party reached New Liskeard lay there, and the excursionists, or most of them—for a few preferred the side trip on Lake Temiskaming—embarked on lighter cars drawn by a construction engine, the property of Mr. A. R. Macdonnell, the contractor, who has some 1,500 men at work on the second section of the road. For a number of miles the track passes through flat country, part of the great clay region, heavily timbered, it is true, but settlement is progressing, and the clearings along the track prove that the land is capable of being converted into good farm land. Later, rock is encountered, and some heavy work has been entailed in laying the track here; then once more the clay country is reached. Steel is now laid 50 miles beyond New Liskeard and eight miles south of the height of land, and grading is completed for 30 miles more. There remains to complete the second section about 25 miles, which will bring the line to the Black River.

### Something Yet to Conquer.

There for a time being the line will end, to be continued certainly to the junction with the Grand Trunk Pacific, and as certainly, in the not distant future, to James Bay. The first part of the construction work was the laying of the track, and the second part was the grading. The construction gangs were two prospectors, one a man well up in years, the other a mere youth, both carrying enormous packs and both full of the enthusiasm and hope regarding the possibilities of rich mineral discoveries which shall mean more Cobalts in the north. "There are minerals here," the excursionists were told as they stood at the end of steel. "Indications of iron have been more than once encountered of late. Some of the chert formations on the Cobalt field have been found. Who dare prophesy as to the mineral possibilities of this section of the country?"

### Dinner In Construction Camp.

The talk at the end of steel, which is at a point where a wide ravine is being partly filled and partly trestled, turned naturally toward the future of the road. It must go on to James Bay was the general opinion, and the conversation on the subject was continued by the excursionists, who know the country that the train was within five miles of that section of the country where the waters flow from James Bay instead of toward it. At the end of steel the members of the party were the guests at a dinner given by the construction camp which bears the name of Boston by Mr. Macdonnell, the contractor. It was an excellent meal; everyone enjoyed it.

Appetites were keen because of the tramping around the party had done at the end of steel, and in the bush alongside the track. It may surprise some readers—as it certainly surprised some of those on the excursion—to know that strawberries—ripe at that—were found in quantities in the bush, and they were tasty. In the bush alongside the track, it may surprise some readers—as it certainly surprised some of those on the excursion—to know that strawberries—ripe at that—were found in quantities in the bush, and they were tasty. In the bush alongside the track, it may surprise some readers—as it certainly surprised some of those on the excursion—to know that strawberries—ripe at that—were found in quantities in the bush, and they were tasty.

The line on the second section of the road, as far as it goes, is rough yet, as is to be expected, but the work is making excellent progress, and in a comparatively short time it will be as smooth, no doubt, as on the first section.

### The Excursionists at Halleybury.

The party was welcomed at Halleybury by several decorated arches across the main street of the town bore streamers, with legends such as "We Welcome the Legislators to Halleybury" and "Halleybury Greets You." There was a formal program, the party contenting themselves with a walk around the streets and along the wharf, exchanging informal greetings with the townspeople, each of whom believes, as every resident of every town, village and hamlet in this northern country does, that the "burg" is the metropolis of New Ontario.

### A Great Country.

Long before the train reached North Bay, and long before the end of steel, and afterwards as they sailed over Lake Temagami, the excursionists, who visited this part of the country for the first time, were struck by the visible evidences of the timber wealth of the region, the sawmills, pulp mills and pulp mills along the line and on the freight cars, and the great virgin stretches of pine timber on Temagami, telling their own story. In addition, the agricultural possibilities of the great fertile tract are past the theory stage, and the mineral wealth, beyond conception. It is a great country; perhaps the report that it was once referred to by one of Ontario's leading statesmen as "the land of the stunted poplar" is only a legend.

### Remarkable Immigrants.

The Dominion Line steamer Ottawa and the C. P. R. steamer Lake Erie arrived at Quebec recently with over eighteen hundred immigrants between them, including twenty men and women of the Israelite community, en route to their farm establishments at Benton Harbor, Michigan. The men and women of this peculiar sect are a strange-looking people. Both sexes wear their hair long down their backs and present an appearance of comfort. Those rows, a queer, subdued individual, manager of the affairs of the community, was at the landing to meet the newcomers, and in conversation with a newspaper correspondent said the Israelites were founded in 1799, and represent the members of the ten lost tribes, who were gathered at Benton Harbor, where they had purchased farm land and were engaged in agriculture until the time arrived that the stipulated number of the twelve tribes, in all one hundred and forty-four thousand, were got together, when they would proceed to Jerusalem to await the second coming of Christ in 1916, when the present world would end and new conditions prevail. Mr. Rowe said their form of worship was prayer within their own homes. They have a meeting house, but no church; it is only used to receive messengers from their chosen leader, Benjamin, and his wife Zury. All their interests are pooled, so that all are equal sharers of the common purse.

Appetite comes with eating and each square of crisp deliciousness seems but to make room for more.

## INSURANCE CONCERNS WARNED.

Companies Must Pay Up or Move Away From California.

San Francisco, June 18.—In the name of the City of San Francisco and the State of California, a demand has been made on 61 insurance companies that are accused of endeavoring to dodge their obligations for full settlement of those who lost property by fire in April.

A telegram, signed by Mayor Schmitz and Governor Pardee, has been sent to the home offices of the 61 companies that voted in Oakland to cut all payments of losses 25 per cent. The telegram is a warning to the companies addressed that they must deal fairly and honestly with the San Francisco public, or be driven from California. Before the message was sent, it was submitted to Insurance Commissioner Wolfe, who gave it his approval.

## SICK HEADACHE

Many varieties of headache exist, those most prevalent being sick or bilious headache, nervous headache, headache from constipation, etc.

Headache is an effect of disease, the cry of the suffering body for relief from some depressing disorder.

Undoubtedly the cause must be removed in order to cure the headache permanently. Wrong action of the stomach, liver or bowels is responsible for nine out of ten cases of headache.

In sick headache (a very common form) there is sometimes nausea and vomiting and usually constipation.

In nearly all forms of headache

## Burdock Blood Bitters

has proved itself a specific—a medicine that has cured where all others failed.

Keep the stomach, liver and bowels in perfect working order by the use of nature's regulator and tonic, Burdock Blood Bitters, which cures all forms of headache by removing the cause.

Miss L. Smith, Morrisburg, Ont., writes: "I desire to let you know how much good Burdock Blood Bitters has done for me. I was troubled with headaches all the time, and could get no relief, until a friend told me of your Burdock Blood Bitters. After taking two bottles of it, I can say that I am completely cured."

B.B.B. is for sale at all druggists and general stores. Do not accept something "just as good."

## Port Arthur Election Case.

Toronto, June 18.—The Court of Appeal on Saturday dismissed the appeal to the charges of corrupt practices in the Port Arthur and Rainy River provincial election petition. On scrutiny the rulings of trial judges were reversed in part. Scrutiny is to be resumed and proceeded with, the petitioner to pay costs of and occasioned by corrupt practices. Other costs reserved for trial. No costs of appeal.

## Learn Dressmaking IN TWO WEEKS

Have you commenced your spring and summer sewing? Are you interested in Dressmaking, either professionally or for your own family sewing? Have you broken away from the old way of depending on patterns.

Please pardon so many questions, but each one means something to you. We have a wonderfully complete systems in dressmaking—15 in all. These lessons will be of lasting benefit to you. They will throw new light on the subject, and instead of being tedious and tiresome you will find dressmaking one of the most interesting of all your diversions. It will no longer be a "duty," but a pleasure to make a dress, and your dresses will have a fit such as few women can accomplish.

We teach you how to cut, fit, and put together everything in the fashion books, from the plainest dress waist to the most elaborate toilette. We furnish everything to work with except tape measure, scissors, tracer and pencil.

Why spend months at a shop where you will learn nothing but how to sew on hooks and eyes, overcast, etc., and then, after you are through, what did you learn about cutting? Absolutely nothing, for you will know no more about cutting after being there a year than you did the first day you went there.

Charge for full course is only \$10, to be paid when through, if satisfied, including one of the most perfect fitting systems in use, which we give free. We have taught over 2,000 ladies in this way within the past five years, and all recommend it very highly. No pay in advance.

We will teach at Chatham from June 28th to July 11th. Hours from 8.30 to 5. All wishing to learn, or for full particulars, be sure to see us at the Garner Hotel, on Wednesday, June 27th, between 10 and 5 o'clock.
