xistence as good as dead. Strangely enough, without any ulterior motive, he had fixed upon his hiding place at the East End of the town, without knowing he was within a stone's throw of that quiet, grassgrown square in which stood the house of the strange and terrible tragedy of the bank-note forgeries. Strangely enough he looked day and night from his small window upon the roof that had covered a certain singular lad, by name of Cli, who had dragged through his boyhood in the

atmosphere of mystery and secrecy. But he was not to remain in ignor-

One day, sallying forth, with hi pale face looking dreamily vacant, and his well-cut lips tightly compressed, as usual with those wearing away under some ever-present sorrow, he turned to the left of the quiet street and walking on with purposeless feet, found himself in a silent square. Just glancing at the old house, he passed round it, and so entered another.

Rub the fruit through a hair sieve with a wooden spoon. Strain the dissolved gelatine into the fruit pulp. Stir in the milk and the whipped cream. Mix well. Stir over gentle heat until it is quite hot. Turn into a wet mould and leave in a cold place until set.

Put slices of stale bread, free from crust, at the bottom of a round cake tin. Put a layer of uncooked raspberries, over which the sugar has been sprinkled, then another layer of bread, and so on until the tin is quite full. Place a plate on the top and a heavy weight on the plate, and allow to stand for not less than 24 hours. Turn out when firm. The bread should be well soaked and coloured through with the juice. Plums or cherries can be used instead, but they must be stoned and stewed with sugar for half an hour before putting with the bread. Serve with plain custard

When cold, whip the whites of eggs to a stiff froth and stir them in lightly. Put into a mould rinsed out in cold water, and leave in a cold place to set. Turn out on a glass dish and decorate with a few ripe raspberries.

#### Gooseberry Custard.

Pick and wash a quart of gooseberries and stew with half a pint of water and 2 oz. butter. Boil until soft, pass through a sieve, heat up the rolks of five eggs, and gradually add these to the strained gooseberries with %lb sugar. Stir over the fire until thick. Pour into custard glasses and serve cold.

#### Gooseberry Flan.

Short crust pastry, 1lb. gooseberries, 40z. granulated sugar, 1 gill water, loz. butter, 1 teaspoonful cornflour, green colouring. Wash, top, and tail the gooseberries. Put them into a pan of boiling water, and boil for four minutes, strain. Put the fruit into a basin. Put a gill of the water and the sugar into a pan, stir until the sugar has melted, then boil to a syrup. Blend the cornflour with a little cold water, add to the syrup, stir until boiling, add the butter and simmer for a few minutes, stirring all the time. Colour with a little green colouring. Line an open tart tin with the pastry, prick the bottom and fill with raw rice placed on grease-proof paper. Bake in a fairly hot oven for about 15 minutes or until the pastry is cooked. JUNIOR

It is certainly pleasing to see how Mr. Chambers has wakened up the Fishery Board, and also the Game Board with his few remarks about the possibility of the Salmonier River from a commercial point of view, which after all is the foundation of this country.

AND THE STREET OF THE SECOND OF THE WARRANT OF

I was particularly interested in this matter after hearing what Capt. Gosse had to tell the Board of Trade last year, and was indirectly a means of bringing Mr. Chambers' name before the Fishery Board as Capt. Gosse wrote me strongly recommending a practical man, who had experience in this work, and mentioned his friend Mr. Robert Chambers, who had just completed a big deal most satisfactorfly, and he knew of no better man to be had if his services could be obtained.

Now we have Mr. Chambers here, and I think that the first arrangement made for him to visit the Salmon Canning Factories should be continued. as those interested in this work should get the first consideration. Mr. Chambers has seen some of the

salmon packed at these different localities, which was sent forward for sale to St. John's. While some of it is a very credible article, still he could give these packers some technical advise that would make a wonderful improvement in their work. It wasn't to pack a few cases of caplin, squid other fish that he was brought here for, but to instruct our packers to work in a uniform way, to turn out an article equal to what the Salmon Packers of British Columbia are doing, and which is attracting the I quite agree with you attention of the whole British Empire. high time for a discussion The Salmon Fishery is of short our Salmon and Canning duration in Newfoundland, and thereafter what Mr. Chambers fore these same canners could be about the Salmonier given suggestions to pack caplin and

A first shipment of about 3,000 barrels cement and 50 tons of reinforcing will arrive here next week. Only a small number of labourers will be engaged at the preliminary work but when the operations get properly underway at an early date, some 400 will be engaged. It is proposed to carry on the work as rapidly as possible so that the structure may be roofed in before winter, when with a heating system installed, the interior can be proceeded with. It is expected to have the hotel completed by May next.

Reids would be prepared to do.

Your lordship will remember that in November, 1921, there was some discussion as to the winding up of the Trust, or alternatively, the buying out of the Trust by the Reid interests. and a figure of £ 30.000 was discussed. and that figure of £30,000 was not alone a suggestion to cover the value of any services that the-Trust had rendered to the Reid Newfoundland Company, but was also a suggestion to cover any question or right or claim individually by Messrs. Greenwood. Thomson and MacDonald under any personal arrangement that they may have had with the Reid Nfid. Co. It was also a suggestion to cover any other business or assets or properties that the Trust held or had a right to; and a big factor in the discussion of such a figure was the desirability of removing the Trust from the path of the negotiations that had then commenced, or were then about to commence. Mr. Conroy, I think, has frankly told us the position that at that time, he was afraid that Thomson, MacDonald and Greenwood and the Trust would interfere with any negotiations that might be undertaken, or that might ensue, in such a way as to spoil them; and it ance and value in the eyes of the Reid Nfid, Co. at that time that this menace would be removed.

Article 16 of the Articles of Asso-

Then my lord, it does not appear as f Mr. Conroy had answered that, be-Esq. And then comes C.O'N.C. 45, which is a letter from Jackson to Conroy, dated the 27th Oct. and this time, it acknowledges receipt of a letter from Conroy. This letter as disinguished from those that preceded it addressed to C. O'N. Conroy, Esq., K.C. (Reads letter). Your lordship member that Mr. Conroy told us that he had not a copy of the letter that he wrote to Jackson at that time, that he wrote it at the hotel, and that his memory of it is that he had merely sent him a copy of the typewritten etter with the enclesure, that he had sent to Cusens and Hudson in August. And the letter goes on to deal with the ission on the St. John's Light and Power Bonds, which has nothing to do with this point.

Then my lord, there is a letter C.O'N. 46 which is a further letter from Jackson to Conroy, dated October 29th, 1921, and it is merely an addition to his letter of the 27th with reference to the question of the commission on the Tramway Bonds. (Reads C.O'N.C. 46). Then we have C.O'N.C. 47, which is also addressed to C. O'N. Conroy, K.C., which also has to do with the rate of commission on the Tramway Bonds; and then comes C.O'N.C. 48, of the 4th November, and says: "Dear Mr. Conroy, I have heard nothing more than Thomson re the suggested sale of the Trust shares. Can you give me any further news." Then C.O'N.C. 49 is a copy of letter from Conroy to Jackson dated the 16th November, 1921, and details in some respects what happened at the meeting of the 3rd November. (Reads letter). Then he goes on to deal with the question of the financing of the Humber, and the possibility of having to deal in New York, and then my lord, comes C.O'N.C. 50, which is Jackson's letter to Conroy of the 26th November, 1921, and which seems to indicate a desire to have the question of the sale of the Trust shares continued—the negotiations for the sale of the Trust shares continued, and C.O'N.C 51 and 52 are the two letters from MacDonald to Conroy, one in December and one in January, also on the matter of the sale of the Trust

Then we come to C.O'N.C. 53, which s Jackson's telegram of the 13th January, 1922 and C.O'N.C. 54, which is Conroy's telegram to Jackson of the 19th with reference to the sale of the Trust shares; and C.O'N.C. 55 is Jackson's letter of the 28th April, 1922, to Mr. Conroy, with reference to the refusal of the directors of the Trust to pay into the Trust funds the ten per cent. commission they received from H. D. Reid on the fish claim and C.O'N.C. 56 is a reply from H. D. Reid to Jackson, in which he tells him that when he paid a cheque for this comdission he thought that it would go to the credit of the Trust. Then my lord, comes C.O'N.C. 57, which is the essage that I referred to a while ago, June 7h, 1923 from Reid to Cusens, and then comes Cusens reply on June 8th. And then comes the last nessage C.O'N.C. 59 which is Jackson's letter to H. D. Reid of 15th June, 1922, which encloses a copy of the notice sent to Thomson, Greenwood and MacDonald on the 15th May and also a copy of the letter directed to them Major MacDonald on the 15th June. That concludes that series of corre-

hat name of the third generation, who vere descended from John Squires, one of the first settlers in this place ho came across the Atlantic from the sland of Jersey, to here about a cenw and a half ago. Stephen, as he was familiarly

by all the residents of St. , had a rather varied existence. forty years ago when the fishery an to fail and times were getting ill here, he took up his residence St. John's remaining there for a ouple of years. He afterwards took is wife and family and removed to he U.S., settling in Lynn, Mass., where he lived and worked for seven or eight years. There he buried one of his three daughters, shortly after which he returned again to his native ome where he remained till the leath of his wife, Elizabeth, about ree years ago. The remaining years his life have been spent with his ughter, Olive, and her husband, W. R. Tucker, Esq., at present Timeeeper with the Besco on Bell sland. One other daughter, Rose, (Mrs. W. Harrison), is very comfortably situated, and has a beautiful ome in Lynn, Mass.

The remains were brought here com Bell Island in the S. S. Othar, on uesday morning and taken immedtely to the Orange Hall of which he as one of the oldest members. From nence at 2.30 p.m., the body was aken by his brother members of the Royal Scarlet and borne to the beauiful cemetery, surrounding St. Philips Church on the hillside, and there laid o rest by the side of his wife to await he final call.

It was rather a coincidence that ist a few hours previous to the bural just referred to the "call" should so have come to another "Uncle tephen" of this settlement at the

ipe old age of 92 years. Mr. Stephen Tucker was the only urviving son of the late Robert Tucker and a direct descendent in the nird generation of Robert Tucker, enior, who came here and who, as ar as I can learn, was the very first o settle in this place. The tombstone rected to the memory of this old setler still exists, and shows the date of his death to have been in 1812.

His late descendent, Uncle Stephen Tucker, who has just passed away, was, as his many years doth witness f a sound and robust constitution, and although he had the misfortune o lose one of his legs some forty-five rears ago, he still managed to work is extensive farm and to maintain in nfort his rather large family. He vived by his wife (Margaret) and by four sons and three daughters.

It is thus that the survivors of past generations fade away from our nidst, leaving us who are a bit younger, to feel that we too are thus, gradually, being pushed to the front, that we also may be prepared to respond, to that final summons, which willnost certainly come to us all, and erhaps much sooner than we ant'-

-WON-BY-ONE-

The cricket match was very good, But when all is said and done, The "Navy" had the better team, Tho' they only won by one.

They thought it was great fun, But when the score was totted up The "Navy" won by one.

Of course the Navy men can use. So it occasioned some surprise.

Of course, they got some help to wir Note—Hiram's score was none! If he had only cleared his duck

> FISK RUBBER CO. At Least Regular \$7 Rate On Preferred This Week-Record-Braking Profits Continue.

(Boston News Bureau, July 14.) Boston-Directors of Fisk Rubber Co. meet for dividend action Thursday, the 16th, and are expected to place the preferred stock back on the regular \$7 basis. An extra dividend is also a possibility.

After a lapse from May 1, 1924, dividends were resumed last January with a declaration of \$1 and the same modest rate was maintained in April. Earnings for the past two months, however, have averaged about \$1,000,-000 a month, or well over \$5 a share on the stock, and as borrowings are receding rapidly now, as they at this time of year usually do. promising to be out of the way completely in another month. directors are in position to yield a little of their ultra-

There is still \$26 accumulated in back dividends on the first preferred stock. Presumably this arrearage will be cut down somewhat by the end of the fiscal year October 31. At that time or late in the calendar year it is quite possible that some plan for the liquidation of this liability in toto wil be evolved.

July profits are almost certan to be the biggest this year, in excess of \$1,-250,000. The Fisk and Federal plants continue to operate around capacity of between 25,000 and 26,000 casings and about 32,000 tubes daily.

It is interesting to note that the \$250,000 bond sinking fund provision becomes ineffective when the price of the bonds exceeds 110-they are currently 1141/4—the proceeds going to the first preferred sinking fund. That clause and the regular preferred sink- jy21,24 ing fund have resulted in the purchase for the company's treasury of a substantial block of first preferred stock.
