## SEVEN DEATHS DUE TO HEAT TWO DROWNED WHILE BATHING OTHERS OVERCOME ON STREETS

Unknown Woman Collapsed on Yonge Street and Died in Hospital—Foreigners Died While Seeking Relief—Sheriff Daville Died in Grace Hospital.

Seven deaths were caused by the intense heat yesterday. Four of the fatalities were directly due to prostration while in the other three cases the unfortunate were attempting to secure relief from the heat. Many other people were also stricken on the street at their work and in the parks, where they had gone to get shelter from the sun. In the majority of instances they were removed to their homes, but those whose names could not be learned were taken to the hospitals.

Mrs. Harriet Williams MacLellan, aged fifty-three, 243 Broadview avenue, staggered from curb onto the road at Broadview and Gerrard and was killed by a bicycle.

F. Prock, prostrated on C. P. R. tracks, died soon after being found. Unidentified woman, fell at Queen and Yonge streets, died in St. Michael's Hospital.

Peter Belmont, drowned in York sand pits, while seeking relief from heat. Sheriff Daville, York County, stricken on Charles street, died in Grace Hospital of heart failure caused by heat.

W. H. Field, druggist, 675 Spadina avenue, stricken on Thursday, death resulted on Friday from intense heat. William Franklin, aged 19, 82 Empire avenue, drowned in Don River while seeking relief from heat.

James Hector, aged 16, 5 Van Koughnet, in serious condition as result of near drowning while seeking relief from heat.

Stricken by the intense heat while working on the C. P. R. track grades near Campbell avenue late yesterday afternoon, a foreigner, thought to be F. Prock, was found by a section hand. He died soon after.

In the man's pocket was a time ticket bearing his name and the name of the foreman, James Hunt. It is surmised that Prock was working on the track and at last fell to the ground in exhaustion. Dr. Zropkins will open an inquest today.

Drowned in Sandpit. Seeking relief from the heat at lunch hour yesterday, Peter Belmont, residence unknown, waded into the sandpits of the York Sand & Gravel Co., near the end of Gerrard street, in Scarborough, yesterday. He could not swim and was drowned. Workmen heard the man's cries and went to the pond, but he had sunk.

He had been in Toronto only a short time, and was working for a sub-contractor, taking gravel out of the pits. He could not stand the heat yesterday.

### Quake Felt in Japan.

TOKIO, June 27.—(Can. Press.)—The Imperial University reports that its seismograph recorded an earthquake of three hours' duration on Thursday afternoon. It is calculated that the disturbance was in the sea off Vancouver, and that it was almost as severe as the earthquake of 1906, which did such great damage in California.

## WOMAN KILLED BY BICYCLIST

Mrs. H. W. MacLellan Died After Being Struck and Thomas E. Weller Was Arrested.

Knocked down by a bicycle at Broadview avenue and Gerrard street last evening, Mrs. Harriet Williams MacLellan, aged 53, 243 Broadview avenue, died a short time later as the result of the shock. Charged with manslaughter, Thomas E. Weller, 41 Brunswick avenue, who was riding the bicycle, was placed under arrest and later released on bail.

Mrs. MacLellan had been shopping. She got off a car at the intersection of Broadview and Gerrard streets, and walked to the north-west corner of Broadview and Gerrard.

Weller was riding down Broadview and started to turn west on Gerrard just as Mrs. MacLellan stepped off the curb to get the car. She was knocked to the pavement and her head injured. Although medical assistance was secured, Mrs. MacLellan died a few minutes after the accident.

It is said that Weller was speaking on his wheel. He is a contractor and was returning from work. An inquest will be opened today.

### FATAL WRECK NEAR TOLEDO.

TOLEDO, O., June 27.—(Can. Press.)—One man was killed and 15 were injured, many of them fatally, this afternoon at 4 o'clock when a Pennsylvania train crashed head-on into a worktrain at Woodville, 12 miles west of Toledo. The dead and injured were brought to Toledo on relief trains sent out by officials of the company.

## BOY WAS SAVED FROM DEATH IN WATER

Jim Hector Took Cramps While Swimming at Grimsby, Was Under Water Five Minutes, and Was Resuscitated After Two Hours and a Half of Hard Work.

Nearly three hours of patient effort resulted in the rescue of Jim Hector, a 16-year-old boy, from death by drowning at Grimsby Beach yesterday. The boy was a member of the Western Congregational Sunday School and crossed the lake yesterday on their annual picnic. He lives at 5 Vankoughnet avenue.

When the picnickers arrived at Grimsby a number of the boys played baseball until lunch, and after eating went down to the wharf to swim. A group of spectators gathered around to watch the boys dive, and they took great delight in pretending at times to be in distress. When Jim Hector rose to the surface after a dive with a strange expression on his face, and immediately sank, most of those on the wharf thought it a joke, but when minute after minute went by and he did not reappear, swimmers and watchers alike began to grow anxious. Some ran off to get help.

Boy Kept His Head. Little Gordon Blenkins alone kept his head. He dived after his companion, and after several failures, brought him to the surface. The boy had been under water over five minutes and resuscitation seemed impossible. But officials of the school took charge of operations alone, and after more than two hours and a half the boy was breathing again.

He was taken back to the city on the Turbina and was met by Harry Edliss' motor ambulance, which carried him to his home, Dr. Eddie, who attended him, stated that from all appearances the boy was none the worse for the experience, but his heart may be affected.

Some time ago the lad had his leg fractured and it is supposed that the weakened member became cramped in the water.

## SOUTH ESSEX LIBERALS NAME WARDEN ATKIN

KINGSTON, June 27.—(Special.)—Liberals of South Essex today nominated Robert Atkin of Malden, warden of Essex County, to contest the federal seat made vacant by the resignation of A. H. Clarke, the Liberal member, who is going west. Today's convention was well attended and enthusiastic. F. F. Pardee, M. P., chief Liberal whip, was among the speakers.

## ARREST FOLLOWS SHERBROOKE TRAGEDY

L. A. Dufresne, Civil Engineer, Accused of Sending Infernal Machine Thru Mails, Shows No Surprise When Arrested—Says He Can Clear Himself.

SHERBROOKE, Que., June 27.—(Can. Press.)—Or a charge of having caused the death of Mrs. Alphonsine O. Bloudeau by sending an infernal machine thru the mails, L. A. Dufresne, civil engineer of this city, was today arrested on a warrant sworn out by Kenneth P. McCaskill, chief of the provincial detective department. The arrest was made by Chief McCaskill and High Constable Moe. Dufresne is the man whose name has been on many lips during the past ten days, and as this fact was well known by him he was evidently not surprised at being charged.

After reading the warrant he accompanied the officers to court. All he would say was: "I expected the arrest, and it is just as well that it should be so as I wish to clear myself of these suspicions."

Upon the arrival of Magistrate Mulvenny the warrant was read to Dufresne.

Counsel for the accused, J. A. Leblanc, asked permission to have a consultation with the crown prosecutor, which was granted, and the court adjourned for half an hour.

When court reassembled counsel for defence requested an adjournment until tomorrow, which was granted. No witnesses were called today. Dufresne was taken to the provincial jail.

## BIG WAREHOUSE CHANGES HANDS

Two Hundred Thousand Paid For Brown Bros. Factory on West Wellington Street.

English people have bought the Brown Bros. warehouse at 51 and 53 West Wellington street. The asked price was \$200,000; the purchase figure is likely a little less. The new owners' intentions are not disclosed. H. H. Williams, Limited, put thru the deal. The building is four storeys high, solidly built of brick and stone, and has over 45,000 feet of floor space. The frontage is 51 feet, running back 304 feet. It adjoins the W. R. Brock building at the corner of Bay street. Brown Bros. last winter purchased the Rolph Clark factory on Simcoe street. This transaction is the largest in commercial properties in three months.

## LIBERALS HOLD LEICESTER SEAT

But Unionists Make Inroads Upon Traditionally Large Majority—Laborites Repudiate Manifesto.

LONDON, June 27.—(C. A. P.)—The by-election in Leicester made necessary thru the resignation of Crawshaw Williams, resulted as follows: Gordon Hewart (Liberal) 10,863; A. M. Whishire (Unionist) 9,273; Hartley (Independent Socialist) 2,550. Hewart's majority over his Unionist opponent is 1,584, whereas the previous Liberal majority was 5,691. Leicester has always been an extreme democratic stronghold. A remarkable incident in this contest was a manifesto assumed to have come from labor leaders in parliament, disowning the candidature of Socialist Hartley. The manifesto, however, was ultimately repudiated by the labor executive, declaring they remained neutral in the contest.

Leicester is a two-member constituency, Ramsay MacDonald, labor leader, being the other representative.

## JOHNSON FREE TO SAIL FOR EUROPE

Pugilist Having Transportation Booked, Immigration Authorities Are Powerless to Deport Him.

MONTREAL, June 27.—(Can. Press.)—Jack Johnson, the negro pugilist, accompanied by his white wife, Lucille Cameron Johnson, is booked to sail for Havre on the Allan Line steamer Corinthian Sunday morning. Canadian immigration officials located Johnson tonight with a view to taking summary deportation action should he fail to comply with the restrictions of the immigration laws.

The negro pugilist in response to a demand of the officials, produced a thru ticket to Havre purchased in Chicago. By this bit of strategy Johnson tied the hands of the Canadian immigration authorities. They are powerless to act further than to see that he leaves the country on the ship on which he is booked to sail.

It is said a further investigation will be made before Johnson is allowed to board the ship. Immigration officials say they are acting independently of the U. S. authorities, and at the American immigration offices it was said no official communication with reference to Johnson had been received from Washington or Chicago.

## LAKE LEVELS TO BE RAISED BY DAMMING

International Waterways Commission Proposes Construction of Submerged Weir in Niagara River For Benefit of Lake Erie Shipping.

WASHINGTON, June 27.—(Can. Press.)—After more than ten years' investigation the International Waterways Commission today, thru the president, recommended to congress the construction of a submerged dam or weir in the Niagara River, to raise the level of Lake Erie and its upper waters. The commission stated the value of the proposed work to Lake Erie ports could hardly be estimated, and that it would result in extensive improvements to harbors and docks.

Several years ago the commission reported against the advisability of constructing an ordinary dam across the Niagara, because of the consequent damage to property below the dam. This dam would have completely regulated the height of the waters in Lake Erie, but the latest plan contemplates only partial control.

The cost of the weir and consequent works to avoid damage to property is estimated at \$3,500,000.

Raise River Three Feet. The commission recommended its location at Gill Creek on the American shore, and Hog Island on the Canadian shore, just above Welland River. The dam would raise the level of the Niagara three feet for a distance of one and one-half miles. The commission suggested the construction of a levee to prevent damage to adjoining property.

At low water level the Niagara River at the Buffalo water works would be raised 1.08 feet, and at flood 1.0 foot, the level of Lake Erie would be raised .51 foot at extreme low stage, .33 foot at mean and .11 foot at extreme flood stage.

The commission reports that the plan would raise the mean level of Lake St. Clair .23 foot, and that of Lake Huron .09 foot. The Niagara River below the weir, and Lake Ontario and the St. Lawrence River would not be appreciably affected.

Can Diver for Power. The level of the barge canal at Tonawanda, N.Y., would be affected by the change, but the commission suggested the construction of a guard lock as a remedy for this.

The commission also reported that the weir would eliminate any injurious effect upon the Lake Erie level of diversion of waters at Niagara Falls for water power purposes, and would reduce the range of oscillation on Lake Erie four and one-half per cent.

The report pointed out that diversion of water to the Chicago drainage canal to the Erie canal and for power plant purposes at Niagara Falls had considerably reduced the level of Lake Erie.

## MRS. CALBECK WAS KILLED BY SOME PERSON OTHER THAN SON IS FINDING OF CORONER'S JURY

Bullet Was Fired by Some Person Inside House, But Evidence Failed to Show Who Did Shooting—No Arrest to Be Made For the Present.

COLLINGWOOD, June 27.—(Can. Press.)—"That this jury after hearing the evidence produced are of the opinion that the young boy, James Calbeck, did not fire the shot that killed his mother, Ida Calbeck. We are of the opinion, however, that the evidence of James Calbeck sr. and James Calbeck jr. is very unsatisfactory and conflicting, and our verdict is that the deceased came by her death from a bullet from the rifle in the hands of some person inside the house, but there is not sufficient evidence to show who fired the shot."

After being out for an hour, Coroner McFaul's jury late this afternoon returned the foregoing verdict.

Chief McLachlan, when asked if an arrest would promptly follow, replied that the police would continue their investigation and seek to place the responsibility more clearly than they did to the jury. "You may go home," said the chief to the Calbecks, father and son, who had been kept close at hand, awaiting the verdict, and without a word they got up and went out.

At the inquest today further evidence was given as to the behavior of the Calbecks when neighbors entered the house after the shooting. It was testified that James Calbeck sr. showed great agitation, and that he repeatedly declared that he had had no hand in the affair.

Course of Bullet. Dr. J. R. Arthur, who performed the post-mortem examination on the body of Mrs. Calbeck, was the first witness, and he found a bullet wound under the left collar bone and another at the neck, on the right shoulder, showing the course of the bullet, which passed completely thru the body.

"Suppose," asked Crown Attorney Cotter, "this rifle were lying on a table, and the woman was sitting in a rocking chair, would a wound made

## STRUCK BY AMERICAN BELGIAN SAILOR DYING

ANTWERP, June 27.—(Can. Press.)—A regrettable incident, involving a sailor from the U. S. battleship Illinois, occurred here last night. While on shore leave with several other shipmates a quarrel arose between the American sailor and a Belgian. The American struck the Belgian a blow, knocking him down and causing a fracture of his skull. It is understood the Belgian is in a dying condition. The American sailor returned to his ship after the incident and is being held in custody there.

LONDON, June 27.—(C. A. P.)—Doctor Cameron, Lees, the famous Scottish divine is dead, aged 79.

## BROTHERS ARE DROWNED

Wilson and Alfred Nickles of London, Ont., Lose Their Lives in the Thames.

LONDON, June 27.—(Can. Press.)—Wilson Nickles, aged 9 years, and his younger brother, Alfred, 7 years old, were both drowned while bathing under the street railway bridge at the foot of Dundas street, in the River Thames, here this afternoon at 3 o'clock. The double tragedy was witnessed by the late four-year-old brother, Ernest, and transported only 30 feet away from a boat in which two ladies were fishing, and, as the boys made no call for help, their predicament was unknown to the occupants of the boat, who might have saved them.

The little brother gave the alarm, and when the police and firemen arrived on the scene they dragged the river for half an hour before the bodies, lying in live feet of water and about ten feet apart, were finally located. Efforts at resuscitation failed, although several physicians worked over the lads for some hours.

Hundreds going to the ball game witnessed the grief-stricken mother and father on the bank of the river as the search for the bodies was going on.

combustion among generated gases in the hold. The explosion was heard for many miles around. A 200-foot flash of flame, a column of smoke, the detonation, a volcano of debris, and the Mohawk settled aft while fireboats, wrecking tugs, Standard Oil tugs, and other harbor craft came to the scene from all directions.

The Mohawk's lifeboat was tossed 100 yards, and a score of men were blown overboard. These men were rescued, unhurt, from the water. Others clung to stanchions and rails or huddled in the bow, whence they were dragged to safety by persons on the first boat that ventured near.

The Mohawk's crew were getting up steam to start the second half of her maiden voyage from Mexico and return. She was without cargo.

Shortly after 9 o'clock tonight the fire was under control, and the crew returned on board and began pumping the vessel out. The stern was completely under water, but it is believed the rest of the hull is practically intact, and that the steamer can be readied for drydock for repairs.

## HARD TO PROVE INFLUENCE OF LADY SACKVILLE BY SUIT

Action Was Brought by Family of Sir John Murray Scott in Order to Get Even Rather Than With Hope of Upsetting Will.

Special Cable to The World. Copyrighted by The Toronto World and N. Y. World. LONDON, June 27.—In the suit brought by the family of the late Sir John Murray Scott to break the will by which he left Lady Sackville nearly \$5,000,000, testimony was given by the testator's brothers and sisters today, but without appreciably strengthening their case. The general belief is that undue influence by Lady Sackville cannot be proved and that the suit was brought more as an attempt on the part of the family to get even with Lady Sackville than with any hope of upsetting the will.

Miss Alicia Scott, the testator's sister, said she had found a letter to him from Lady Sackville which said: "I am astonished that you should allow your brother to interfere between us."

She tore up the letter, witness said. "I am astonished that you should allow your brother to interfere between us," she testified.

"He was subservient and secretive and acted exactly like her slave. She did not exactly mesmerize him, but she certainly cast a spell over him. He wasn't really fond of her, but was very fond of her daughter and liked Lord Sackville."

The testator was attracted by her because she amused him. Sir Edward Carson, counsel for Lady Sackville asked:

"What is the worst complaint you have to make about what Lady Sackville did?"

"She belittled our family and made us feel that we were inferior to her."

### Drink and Be Refreshed

There's nothing that will invigorate and revitalize you so well as a bottle of the famous Kuntz's Old German Lager.

# Kuntz's

## OLD GERMAN LAGER

Kuntz's Old German Lager is a bracing brew. It contains a greater percentage of Canadian barley and of Bohemian hops than ordinary lagers. It is therefore a brisker, more vigorous brew.

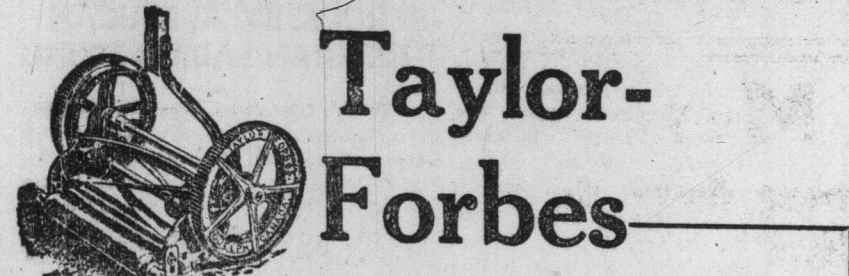

Furthermore, it is brewed by the costly "Old German" process, instead of the ordinary way. But the difference in flavor is worth the extra cost. Once you've tasted the "Old German" flavor you'll hardly be contented with anything less delicious.

Drink a bottle of Kuntz's Old German Lager before luncheon or dinner today, or have a case sent home so the folks can enjoy it with you.

Sold by the leading hotels, cafes and liquor stores almost everywhere in Canada. And put up in bottles of Peacock Green so it cannot be injured if exposed to bright light.

## Taylor-Forbes

### Lawnmowers

The grass will grow longer and more luxuriant in July than it has during the past two months.

There has not been much grass cutting this summer, but there is going to be a good deal more of it, and you will need a competent lawn mower to do the work.

If you will look into the subject you will find that most of the people who have lawn mowers are using the Taylor-Forbes machines, and they are better satisfied than those who own some other kind of a lawn mower.

Remember the name "Taylor-Forbes." The three best-known models are—

"ADANAC" "WOODYATT" "EMPRESS"

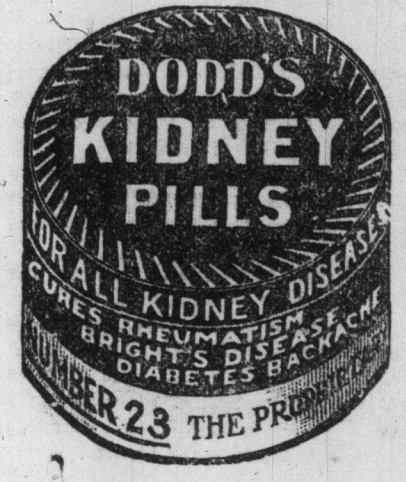

Ask your hardware dealer. 90 per cent. of the hardware dealers sell Taylor-Forbes lawn mowers.

If the hardware dealer you usually go to has not the size of a Taylor-Forbes machine in stock, at the price you want to pay, go to the next nearest hardware dealer, they all keep them.

Every Taylor-Forbes machine completely guaranteed. Made by a firm who have been 35 years in the business.

#### TAKING TIME BY FORELOCK.

#### DON RIVER CLAIMS ANOTHER VICTIM

William Franklin Drowned While Attempting to Swim Across.

William Franklin, aged 19, 82 Franklin avenue, was drowned in the Don River yesterday morning about 9 o'clock. The young man came from Port Perry and was living with his married sister. Yesterday he decided to go for a swim with some other boys.

He attempted to swim across the river, but had only gone a short distance when he threw up his hands, shouted and sank. The body was recovered a short time later by H. Patterson, of the C. N. R. station, and another man. An inquest will likely be held.

### CARPENTERS' WAGES PUZZLES TRUSTEES

#### Education Property Committee, However, Decides to Pay Prevailing Rate.

Whether to pay the "prevailing" or the "maximum" rate of wages to carpenters is a live issue in board of education et cetera. Chairman Hodgson of the property committee made a fight at the meeting yesterday afternoon for the maximum of 45 cents an hour.

Supt. Bishop was vigorously questioned by members of the committee. He said that he was not ready to report, as he had not yet received full information. So far the list of contractors supplied him by the builders' exchange only paid 42 cents an hour.

A resolution was adopted that the prevailing rate should be paid from the date of settlement of the strike.

The question will be up before the board next Thursday night, when a fight will be made for the board to make their rate 45 cents an hour.

Tenders were accepted for work in several schools. Plastering Lansdowne avenue school, W. J. Haddock & Son, \$2457. Terra cotta fire proofing, Carlton school, Robert Bennett, \$7983. Terra cotta fire proofing, Balm Beach school, \$897. Prism floor lights, Williamson road school, Hobbs Manufacturing Co., \$815.

Trustee Smith secured the appointment of a subcommittee to report on the possibility of acquiring a site for a new building to take the place of the old Borden street school. He complained that the use of the Borden street site for a portion of the land for the new central technical school robbed the children of the vicinity of a school within a reasonable distance of their homes.

The subcommittee will meet on Monday afternoon to hear reports on the properties available in the district.

The committee on bubbling fountains reported favorably, with respect to three makes. Tenders will be called for.

### FRANCIS J. DAVILLE SUCCUMBS TO HEAT

#### York County Sheriff, Stricken on Charles Street, Dies in Hospital.

Stricken by an attack of heart failure brought on by the intense heat, Francis J. Daville, sheriff of York County, fell on Charles street yesterday morning and died later in Grace Hospital, Dr. R. L. Stewart of Church street was summoned, but could not restore Mr. Daville.

Francis Tuppas Daville was a native of Wexford County, having been born in the little village of Middleport in 1846. He received a practical education at the common school and later learned the business of a tanner, going to Aurora in 1870, he established in a small way the Daville Tannery, which has since grown to large dimensions. He took keen interest in municipal affairs and from 1899 until his appointment as sheriff to succeed the late Dr. J. F. Widdifield in June, 1906, was for one year reeve and for two years deputy reeve of the town.

In 1893 he was elected president of the tanners' section of the Toronto Board of Trade and for years occupied the position of president of the North York Conservative Association. He was a past master of King's Union Lodge, F. & A. M., No. 129, Aurora, and for eight years in succession was president of the local lodge of the Sons of England Benevolent Society. In religion he was a Methodist.

### HOMESTEADERS NOT UNFAIRLY TREATED

Aubrey White Says Hearst Despatch Was Grossly Exaggerated.

#### APPLICATIONS BY MAIL

Only Those Who Applied Personally Were Considered Eligible.

The department of lands, forests and mines is taking steps to discredit any exaggerated reports of the treatment awarded applicants for lands in the north country. A despatch from Hearst alleging unfair treatment to settlers who had traveled long distances to the registrar's office was entirely discredited by Deputy Minister Aubrey White last evening.

There were only three cases which caused any complaint whatever. In these it was claimed that the agent had accepted applications by mail, while his instructions called for a personal application in every case.

Mr. White spoke as follows: "When the information reached the department that the agent had accepted applications by mail the minister directed that the applications so accepted were to be disallowed and the parties who applied personally to the agent according to instructions given him were awarded the lands. There was no such excitement as people would imagine by reading the despatch, as there were only three cases about which there was any dispute."

#### INCREASED REVENUE.

Ald. McBride has reported to the board of control that the tenting colony on Ward's Island will yield a rental revenue to the city this year of over \$2500. The revenue last year was \$1757. He is asking for a few additional electric lights on the island, and will probably get them. The plan of lots and streets for the tenting colony this year shows a well laid out little town.

### Stealing Newspapers

There is an epidemic of newspaper stealing at present. World newsmen and subscribers are requested to telephone The World office promptly if their papers are not received. World carriers are required to deliver the paper in a letter box or other safe place, if such exist. Readers can co-operate by providing safe receptacles, which will assist in a satisfactory delivery. Telephone Main 5308 complaints of non-delivery.

### ADVOCATE PROMOTION OF W. M. FITZGERALD

Claims Agent Spoken of as Property Commissioner.

Because there is a suggestion that a purchasing department be formed at the city hall, with Property Commissioner Chisholm in charge, the friends of William M. Fitzgerald, claims agent in the property department, are advocating his promotion to the position of property commissioner.

To introduce a system of cost accounting in the city hall the organization of a purchasing department is suggested as the quickest method of bringing all the departments into line. Such a department would be expensive, but is expected to pay for itself in the betterment of accounting and the possibilities of economizing that would follow.

Should the architect's department be merged into the property department, as is now likely, to combine a purchasing branch also would, it is feared, make the department so large as to be unwieldy.

#### LIBERAL SPLIT IN PONTIAC.

OTTAWA, June 27.—The merry war in the ranks of the Liberals of Pontiac, Que., has broken out anew. Frank Cahill, who claimed to be the official candidate at the last federal election, a claim disputed by G. F. Hodgins, the former member, has been renominated. Mr. Hodgins' supporters say Cahill was not nominated at a regular convention,

### PARALYZED AND COULD NOT WALK

"Fruit-a-tives" Completely Restored New Brunswick Merchant to Health.

Mr. Alva Phillips.

Bristol, N. B., July 25th, 1911. "I am unable to say enough in favor of 'Fruit-a-tives' as it saved my life and restored me to health, when I had given up all hope and when the doctors had failed to do anything more for me. I had a stroke of Paralysis in March, 1910, and this left me unable to walk or help myself, and the Constipation of the bowels was terrible. Nothing did me any good and I was wretched in every way. Finally, I took 'Fruit-a-tives' for the Constipation, and it not only cured me of that trouble but gradually this fruit medicine toned up the nerves and actually cured the paralysis. Under the use of 'Fruit-a-tives' I grew stronger and stronger until all the palsy and weakness left me. I am now well again and attend to my store every day and all day."

"Make Your Wedding Gift an Electric One—\$3.00 and Up."

### Whether the Bride has servants or not

She will appreciate the gift of an Electric Vacuum Cleaner.

If she has been accustomed to old-fashioned, antiquated methods of house-cleaning, the results produced by the Electric Vacuum Cleaner will delight and astonish her.

The Electric Vacuum Cleaner does infinitely better work than the temper-straining, back-breaking broom.

The dust and litter that the broom or beating falls to dislodge is sucked up with the most beneficial effects by the Electric Vacuum Cleaner. Its strong, powerful suction removes the dust and dirt, raises the pressed-down nap, and restores surprisingly the beauty and fresh, vivid colorings of wall hangings and floor coverings.

Anyone who can use a carpet sweeper can handle an Electric Vacuum Cleaner. It weighs but a few pounds, so that it can be carried from room to room, upstairs and down, quite easily.

Demonstrations held every day. Step in and see it work. And remember, that nothing you could give the bride would be more useful or more highly regarded for what it is and does.

### How the Gourlay Responds

Draw your piano stool into position before a Gourlay and lightly run your fingers up and down the smooth ivory keys.

The gentle rise and fall of that perfectly pure and even tone, without the slightest perceptible change between the bass and the treble sections is a distinctive mark of the world's highest grade pianos.

### Gourlay Piano

has been described as "The living exponent of the executant's impulse."

Only an instrument of the most highly developed process of construction can respond so effectively. Every minute detail of the Gourlay reflects the most finished artistic workmanship. The materials used in every part are of the very best money can buy. The work of each department is brought to the highest achievement of human skill till the finished Gourlay comes from the factory—a glorious example of the world's best efforts in piano manufacture.

If you buy a Gourlay, your home will contain a piano that meets most successfully every musical requirement.

### MORE TEACHERS ARE APPOINTED

G. F. Colling and Miss Baker Go to St. Mary's Collegiate.

ST. MARY'S, June 27.—(Special).—The Collegiate Institute Board has appointed G. F. Colling, B.A., as mathematical master for the coming year at a salary of \$1400 and Miss Janet Baker of Toronto, commercial teacher, at \$1200.

The body of Jack MacLennan, the Vancouver bank clerk, formerly of the Moleons Bank, St. Mary's, who disappeared at Vancouver on March 22, has been recovered, according to a wire received by D. B. MacLennan, K.C., of Cornwall, father of the unfortunate young man. The wire states the body was found in False Creek at Vancouver.

Rev. J. George Miller, M.A., pastor of First Church has been honored by his alma mater, Knox College, Toronto, in being appointed to the senate.

Rev. W. J. Knox of Pembroke, an old St. Mary's boy, brother of Dr. Knox, has received a unanimous call to the First Presbyterian Church, London, at a salary of \$2500.

Mrs. (Dr.) W. T. McMillan of Woodstock passed away in that city on Friday last. Mrs. James Maxwell of St. Mary's is a daughter of the deceased.

During the severe electrical storm that passed over this district between 5 and 6 o'clock on Thursday afternoon the barn of Ed Pickle, on concession 6, West Nisour, near Welburn, was struck by lightning and burned to the ground. The dwelling house of T. Porter was struck, but no serious damage was done.

### TOWNSHIPS WILL PREPARE ROAD MAPS

Question of City Planning Beyond Toronto's Limits Taken Up at Conference.

City planning beyond Toronto's limits occasioned a conference yesterday between officials of the city and the adjoining townships, with a view to educating all the officials upon the interests of each of the municipalities. A general plan of diagonal roads for the Townships of Etobicoke, York and Scarborough, adopted by the city council this year, formed the basis of discussion.

To fix the principle that no road must be less than 66 feet wide, and thru roads must be 86 feet wide, it developed that the townships will have the power to establish building lines. At present people build up to or back from the street line as they choose. Ald. McBride, who presided, agreed

to a request of the township officials that the city will help to get the legislation. Commissioner Forman explained to the township officials the mysteries of an homologated line, and its power to fix street building lines forever. It was decided that each township would prepare a map showing which of the proposed diagonal roads should be 86 feet wide and which 66 feet wide.

### Free to Men Would You Like to Be a Strong, Husky, Manly Fellow Once More? New Method Without Drugs

The attached coupon entitles you to one illustrated booklet (pocket size) and guide for the self-restoration of lost strength. (See description below.) Upon leaving from the office, you will receive a valuable little book of private information. It will be sent by return mail in plain, sealed envelope. Please call or write today.

There is a new and marvelous method for restoring lost manly strength, for renewing vigor, which every man should know of, a self-restorer, which operates without the use of drugs or medicine, a new way to start your own self for vigor and manliness. See description below. Please remember that a man is not one day older than he actually feels, and therefore no matter what your age, if you are young or elderly, married or single, large or small, if I can advise you, reader, how you yourself may actually add to your system, nerves and blood the very nerve force or vigor which may have been drained away, and which is necessary to make you strong, vigorous and capable again, then I have shown you the real secret of personal strength, and how you can again be filled with vigor, and again be just as powerful in your influence and just as thoroughly many in your capacity as the biggest, fullest blooded, most successful fellow of your acquaintance.

The new self-treatment for the restoration of manly strength, to which I refer above, is a little high-weight VITALIZER. Appliance of my invention, which is now being used with a tremendous demand, and being used by men everywhere all over the world. This little VITALIZER, weighing only several ounces, is comfortably buckled on the body and worn all night. It is so small and so compact that even a room-mate would not suspect that you were wearing it. However, the VITALIZER is small in size, it is not small in power, for it generates a great tangible FORCE, which can be measured on scientific instruments, a POWER which I call VIGOR or NERVE ENERGY, and it sends this marvelous FORCE into your blood, organs and nerves while you sleep. All you have to do is to lead a decent, manly man's life, free from care and dissipation, then use the VITALIZER, nothing more. If this is followed and the VITALIZER does for you what these others say it does for them, then all the pain or weakness will disappear from the small of your back—possibly from the first night's use—and you will be restored to a strong, vigorous, manly, capable man, without a single ache, pain or weakness. Please remember: I am not asking you to buy one of these VITALIZERS, but merely request you to first send for the free book described below, a section of which is devoted to an explanation of this VITALIZER, and gives you its whole wonderful story, so that you may know what intelligent young and elderly men everywhere are saying about it.

### This is the Book You Get Free

General Rules For Feeding.

Children at all ages should be given food only at regular meal hours.

The child must be taught to chew his food properly. Plenty of time should be taken at every meal, and the necessity of thorough mastication should be impressed. To aid children who are too young to understand this, all meats should be cut very fine, and all vegetables mashed. Prepared cereals require careful mastication, hence they should not be given to little children; use grains cooked very soft.

Never force a child to eat; if little food is taken at a meal, do not make up the amount between meals, wait until the next regular hour; and above all do not give a child some indigestible article of food just because he refuses the ordinary, simple food you have provided.

Children relish plain food until you teach them to prefer highly seasoned dishes.

If a child always refuses an important food, such as milk or cereals, give him this first at meal-time, and refuse to give him anything else until this is eaten.

It is not wise to allow a young child to choose his food even from a simple diet. Very soon he will form the habit of eating only certain things and refusing others. Keep him to the schedule you have chosen, and he will learn to eat and enjoy what you give him.

If an infant refuses his food, or takes less than usual, examine the food to see if it is right. Inspect his mouth to see if it is sore. If it is sore, find out the cause, do not coax him to eat, but take the food away, and give no more until the next feeding time.

In case of measles, give the food, and give more liquid. If there is fever, give no solid food. If the child is taking only milk, dilute it.

In very warm weather, give less food, particularly less solid food, but plenty of water.

THE DANGER OF ANAEMIA

CONSUMPTION MAY FOLLOW UNLESS ITS RAVAGES ARE CHECKED.

There is danger to every girl and every woman who falls a victim to anaemia—that is, bloodlessness. They become listless, feel too weak, too wretched, and too hopeless to take prompt steps to stop the trouble.

Too often, through neglect, they drift into a worse condition, forgetting that anaemia frequently leads on to consumption. If you are anaemic in the least degree, you should lose no time in beginning treatment to increase and enrich the blood supply.

To do this, there is no other medicine so good as Dr. Williams' Pink Pills, which make rich, red blood, which drives out disease, and brings again the bloom of health to pale and sallow cheeks.

There are thousands of women and their present good health to the timely use of Dr. Williams' Pink Pills. Among those who have been restored to health by this great medicine is Miss Rose Neville, Mount Forest, Ont., who says: "Dr. Williams' Pink Pills performed almost a miracle in my case. I was a victim of anaemia in what my friends considered a dangerous form. I was very pale, always felt tired out, suffered from indigestion, and had no appetite. I was taking doctor's medicine for a long time—in fact I tried two doctors—but instead of improving, I found my health going worse. My parents were at a loss to know what to do for me, and thought I would not recover. Then a friend advised Dr. Williams' Pink Pills, and I had only taken them a few weeks when I began to feel better. This greatly encouraged me, and I continued taking the Pills for some time longer, and found my health again as good as ever it had been. In fact, I am stronger than ever I was before. I have advised the use of Dr. Williams' Pink Pills to other girls, who have found the results equally beneficial."

Sold by all medicine dealers, or by mail at 50 cents a box, or six boxes for \$2.50, from The Dr. Williams' Medicine Co., Brockville, Ont.

EFFICIENT HOUSEKEEPING BY HENRIETTA D. GRAUEL DOMESTIC SCIENCE LECTURER

What Mayonnaise Is

EVERYONE is aware that no set of terms in French or English is so obscure as those connected with food. For generations men and chefs have argued about the word mayonnaise. Did it come from the French verb "manier" and refer to the movement required to produce it? Or is it named in honor of the siege of Mahon, as some writers insist?

Have it whichever way you like—use its name as an adjective or a noun; there is nothing in a name after all—but be sure not to be indifferent to its concocting.

Because its ingredients are simple and few is not a reason for thinking that anyone can make it. Epicures fate it as a high accomplishment to make it rightly, and always insist that you keep in mind the old Spanish proverb that says four persons are needed: a spendthrift for oil, a miser for vinegar, a counselor for salt and a madman to stir it.

A true mayonnaise is made with no ingredients but the yolk of egg, oil, vinegar, salt, pepper and mustard. When anything else is added it is not mayonnaise, but a salad dressing, a sauce, or what you will.

Put out the named ingredients and beat the yolks of two eggs in a deep bowl until they are smooth and free from big bubbles. Mix a salt-spoon of pepper and two of salt together with a half a spoonful of best French mustard and add these to the beaten eggs. With the left hand pour in, drop by drop, the purest oil, stirring the mixture furiously all the while. When it is so stiff it can be inverted without spilling, drop in sparingly two tablespoons of vinegar.

Almost anyone can make a mayonnaise if they will have the ingredients, the mixing bowl, the silver, or wooden, mixing fork, everything in fact, well chilled at the beginning. Then there will be no danger of the mixture when the vinegar is added.

The majority of recipes call for olive oil, but I find that few families like its nutty flavor and often strong odor.

There are several nut oils on sale that are odorless and tasteless. I use both cotton seed and peanut oil, and often recommend coconut oil.

A pint of American salad oil can be worked into two egg yolks if the mixing is done evenly and slowly and directions followed.

The beating should be an over-hand motion from left to right, and not by fits and starts. If the dressing should break, which his very unlikely, do not throw it away, but cool another bowl, beat another egg yolk and season it and add the broken or curdled sauce to it, in the place of more oil. Soon it will all be worked in and no harm done, except you will have more mayonnaise than you planned to make in the first place.

It keeps indefinitely if tightly corked and not heated, and you will be glad to have it at hand when next you have the goods for a salad or some cold meat for dinner.

When hard-boiled eggs are added to this dressing it becomes Remoulade sauce. Fresh salad herbs, like parsley, chervil, burnet, chives and mint, are sometimes pounded to a paste in a mortar and added to mayonnaise when it becomes Sauce Verte. Indeed, there are hundreds of variations, but none of these are the true mayonnaise; each has its special name, and is especially fitted for some particular food.

"He who invents a new sauce," claimed Careme, the greatest of chefs, "is equal to the discoverer of a new planet and a great benefactor to mankind. For the planet may only be looked at, whereas the sauce adds a spice to life."

Daily Fashion Talks BY MAY MANTON

A Dainty Frock of Linen

A SIMPLE one-piece dress is always a pretty and always satisfactory for girls. This one consists of a plain little blouse with a green and a five gored skirt. The two are joined by means of a belt and are closed together a little to the left of the front. Here the dress is finished with short sleeves and a square neck, but it can be made for high in the neck and finished with a round collar and the sleeves can be made three-quarter or full length.

There is an inverted plait at each side of the back, too. In the illustration, the pink linen is selected and embroidered with white and the effect is charming. French gingham would be pretty finished in the same way or with banding in place of the hand work. Checked gingham could be trimmed with plain color or white linen with colored. In addition to its other advantages, the dress can be opened for its entire length and so can be laundered easily.

For the 12 year size, the dress will require 4 1/2 yards of material 27, 3 1/2 yards 36 or 2 1/2 yards 44 inches wide.

The May Manton pattern of the dress is cut in sizes for girls from 10 to 14 years of age. It will be mailed to any address by the Fashion Department of this paper, on receipt of 15 cents.

Secret of Mysterious Power Revealed at Last

How Prominent People Have Gained Wealth and Fame. Simple Method that enables anyone to control thoughts and acts of others, cure diseases and habits without drugs, win the love and friendship of others and read the secret thoughts and desires of people though thousands of miles away.

"TO UPLIFT AND BENEFIT MANKIND," SAYS THE REV. JAMES STANLEY WENTZ.

WONDERFUL BOOK DESCRIBING THIS STRANGE FORCE AND A CHARACTER DELINEATION POST FREE TO ALL WHO WRITE AT ONCE.

The National Institute of Sciences of London, England, has appropriated \$25,000 toward a fund for the free distribution of Prof. Knowles' new book, "The Key to the Development of the Inner Forces." The book lays bare many astounding facts concerning the practices of Eastern Yogis and explains a wonderfully simple system for the development of Personal Magnetism and Telepathic Power, and the curing of diseases and habits without drugs. The subject of practical character reading is also extensively dealt with, and the author describes a simple method of accurately reading the secret thoughts and desires of others through thousands of miles away. The almost endless stream of letters requesting copies of the book and character delineations indicate clearly the universal interest in Psychological and Occult Sciences.

The Rev. James Stanley Wentz says: "No one can give the system a cursory perusal without becoming satisfied that in giving this knowledge to the world Prof. Knowles is actuated by the earnest desire to uplift and benefit mankind. I heartily recommend this course to all who desire to develop and cultivate their inner forces."

A leading London Physician, Dr. R. N. Pickering, M.R.C.S., L.R.C.P., L.S.A., in a letter to Prof. Knowles says: "I consider your system the most complete and accurate literature upon the subject. You have treated the science with much ability."

A prominent American Physician, A. W. Fisher, M.D., Ph.D., Mr. Principals of the Douglas Institute, writes: "Your system is very useful to me in my practice."

Rich and poor alike benefit by the teachings of this new system," says Prof. Knowles. "And the person who wishes to achieve greater success has but to apply the simple rules laid down." That many wealthy and prominent people owe their success to the power of Personal Influence is not the slightest doubt, but the great mass of people have remained in utter ignorance of these phenomena. The National Institute of Sciences has therefore undertaken the somewhat arduous task of distributing broadcast, without regard for class or creed, the information of Science books free, each person who writes at once will receive a character delineation of from 400 to 500 words, as prepared by Prof. Knowles.

If you wish a copy of Prof. Knowles' book and a Character Delineation, simply copy the following verse in your own handwriting: "I want power of mind, Force and strength in my look. Please read my character, And send me your book."

Also send your full name and address (state whether Mr., Mrs., or Miss) write plainly, and address your letter to: National Institute of Sciences, Dept. 234 C, No. 234 Westminster Bridge Road, London, S.E., England. If you wish you may enclose 10 cents (stamps of your own country) to pay postage, or postage on letters to England two cents.

VETERAN PRACTITIONER DEAD.

PORT COLBORNE, Ont., June 27.—In the death of Dr. J. B. Neff, which occurred today, Port Colborne lost one of its oldest and most respected citizens and the County of Welland the oldest practitioner, he having been known through the Niagara peninsula for over half a century. He had been a resident of Port Colborne for over seventy years, continuing in the practice of his profession until within a few weeks of his death.

SATURDAY MORNING, JUNE 28

THE TROUBLESOME MULE

Toronto has a growing front (steadily advancing) with its convulsions of almost twenty miles. This strip is alive with building operations, and development, and in some places a mile wide. Part is in the city, part in the Township of York. The part that is in the township, according to the Telegram, is no part of the municipal problem of Toronto. The World believes it is its most vital part, when public health, thorfares, drainage and fire protection are concerned.

The present congested condition of the problem of municipal government is largely due to the lack of recognition of this fact. You cannot provide the necessary municipal improvements for such a territory by township government. It requires the most up-to-date treatment, not the least possible. The city council should have absolute control of its growing front; the territory within the present ring of development should all be under city control; and begin paying a reasonable share of city taxes at the earliest moment, not after the congestion and bad planning have arrived.

And the men and papers who know these things are the ones to give advice. Toronto has been misled by papers and public men who were actually ignorant of the facts and have never been on the ground. The World has known what it was talking about all the time: those who have been abusing its foresight and big-eyes have been doing so from the top flat of newspaper offices downtown, and by city officials (now getting rare) who were never on the ground. Wee York was the limit of their sight. Vision they never had.

Toronto has no other course open to her but to accept this situation and apply herself resolutely to the problem. There are scores of cities in North America that would give much to have the development that has come to Toronto. The Telegram regards it as a curse, and has only one suggestion, and that is to build a wall of severance and to deny intercommunication, to deny a common future. And associated with this ignorance and policy of exclusion, that paper has interjected a flood of malevolence toward papers and men who saw the real facts and suggested annexation at early stages, and quick inclusion of the suburban problems as part of a greater city plan.

One bad-tempered and kicking (vituperative) mule can often appeal a willing string of team horses by never trying to go any other way than the wrong way!

THE PEOPLE V. VOX POPULI.

Says the Telegram: "In re the Billies v. the Tommies—Vox Populi, C.J., reads the majority judgment in favor of the latter." Vox Populi is the old guy that writes to The Telegram objecting to workmen sitting in street cars in their working clothes, and advising women to leave their children at home when they go to the play, and suggesting a new way to cook potatoe fols gas. The Telegram always puts his letters in the waste basket, but now finds his legal opinion the only support it has against the universal consensus of opinion that the city should own its own franchises. An appeal to the supreme court of The People is now pending, and there is no doubt of the result.

WILL HAVE BAY VIEW.

Some misgivings have been felt about the appearance of the new viaduct on the waterfront, and complaints are still heard about the possible obstruction to the view of the bay which is such an attraction or should be such an attraction at the front door of the city.

The plans of the waterfront development as issued by the harbor commission should allay any misgivings. It is quite true that the original plans would have meant a serious blockade on the city front. But when it is realized that a new territory south of the viaduct is to be opened up equal in extent to the territory north of it as far as Queen street, it will be clear that the new Lake street, and the new docks will afford ample perspective to diminish the apparent height of the viaduct, and to set off the bay view and the city rising on the slope northwards.

SIDE SADDLES AND VOTES.

The order prohibiting women riding astride in the grand parade at the Olympia Horse Show is said to have come from King George; another account says from Queen Mary. More likely, perhaps, the suffragette movement has been a contributing cause, not only do women want votes that men have, but many wish to ride horses as men ride them. His majesty will doubtless be glad to hear that an official of the Toronto Horse Show has expressed himself against women riding astride!

ment has been a contributing cause...

not only do women want votes that men have, but many wish to ride horses as men ride them. His majesty will doubtless be glad to hear that an official of the Toronto Horse Show has expressed himself against women riding astride!

The only fair view is that this question must be settled by the women who ride; and we have noticed a distinct movement, not only in the United States and Canada, but in Great Britain also, toward women riding, as men ride for reasons of convenience, of comfort, of safety. If this be so, no decree, royal or otherwise, can check the movement. It is the best pay for young girls to learn to ride and it certainly is a convenient way for many grown-up women to ride, also there are individual cases where the side saddle would be the proper thing! But, as we said, it is altogether a matter of taste, and more than that, of safety.

As far as America is concerned, riding astride is becoming the natural and popular way, and especially for western women, who have a lot of horseback traveling to do. Women who have tried both methods are nearly all in favor of a man's saddle, and the testimony of the horse world is in favor of the change.

When women get votes in England, there will be no prohibition of the side saddle even by royal decree. The announcement that two big English banks are to help finance the Canadian banks in moving the crops is gratifying. Help is needed, and we are to receive some help. Our own banks have not capital enough to handle the business of the country, and no steps were taken by parliament in revising the Bank Act to attract outside capital to our shores.

It was suggested by Mr. W. F. Maclean, M.P. for South York, that the big British banks should be encouraged by law or otherwise to open branches and do business in Canada. To bring this about, however, Finance Minister White was willing to adopt the plan of a national currency, advocated by Mr. Maclean. Nothing was done to increase our supply of currency, or to provide any currency whatever for outside banks which might desire to do business in Canada. We are now confronted with the situation that the Canadian banking system, under the present Bank Act, as recently amended, lacks capital to finance the business of the country. It may be a good thing to have the English banks help us over the crop moving period, but it would be a better thing if English banks were here investing their capital in Canada all the year round.

MORE BANKING CAPITAL NEEDED

The announcement that two big English banks are to help finance the Canadian banks in moving the crops is gratifying. Help is needed, and we are to receive some help. Our own banks have not capital enough to handle the business of the country, and no steps were taken by parliament in revising the Bank Act to attract outside capital to our shores.

The reported demand for cottages has already far exceeded that of the past few years and hotel reservations are also well advanced. That a good many more than visited Muskoka last week will avail themselves of the holiday opportunity for a cool, pleasant sojourn there today is quite certain; more especially as today marks the opening of the Royal Muskoka Hotel, probably one of the most favorite summer hotels on this continent. A great number of Torontonians have arranged accommodations at the Royal Muskoka Hotel and others at the Muskoka Lakes over the Dominion Day holiday.

UNABLE TO LOCATE LINEMAN'S RELATIVES

Inquest on Frank Smith Adjourned For a Week.

Frank Smith, the Toronto Power Company lineman, who was electrocuted Thursday evening on Poplar Plains road, left little trace of his family connections. An inquest was opened yesterday afternoon, and it was announced that a telegram had been sent to 111 Christina street, Cleveland, where the relatives of the dead man are supposed to live. No answer has as yet been received.

Upon examination of the suit case which contained Smith's clothes, an Oddfellows button was found attached to one of the garments. The inquest was adjourned and will be reopened next Friday, July 4, at 8.30 in the evening.

The Philosopher of Folly

KEEP SMILING. We may be as poor as a bakery pie, and robs us in its second-hand payment; the odd lots of scraps and tatters we buy may take all our pennies in payment; and yet we may fix up our little feast, and put on some water-billing with hearts which keep rising like panfuls of yeast if we have the habit of smiling. The man or the woman who knows how to smile when trouble looms on the horizon, and puts on a grin that is something worth while, is mostly a bully who makes 'em, for trouble's a bully who makes us his sport, and often he ceases in wonder, he cuts the whole program of torment short on those who will not knuckle under. The people who wake us when we are asleep to tell us some dismal foreboding, who forty-odd years in each twenty-four weep, and who all the time keep unloading their bosoms of fanciful troubles and woes, our tempers are constantly riling; but who when they are pummeled keep smiling. For smiles are the things which keep trouble afar; when up-bronze hearts they are welling, they have a face value away above par, enriching each fortunate dweller wherever they are found; tho it may be the mark of arrows of fortune outrageous, but not long about it will care stop to care, for smiles are almighty contagious; so when the chill wind of adversity blows and bricksbats about us keep pling, let's stretch out the office under our nose and lose half our troubles by smiling.

Re Moyer—F. W. Harcourt, K.C., for infant, obtained order for payment out of court of \$15 for clothing for infant.

Single Court. Before Falconbridge, C.J. Moore v. Moore—F. Ayiesworth, for plaintiff, obtained order discharging and mentioned in the order of Mulock, C.J., of 22nd March and 13th May, 1912, from the charge created by said order, the money having with or demolishing plaintiff's wall until 8rd July next.

Re Pigott and Kern—C. A. Moss, for vendor, moved under Vendors and Purchasers Act for order declaring that purchaser's objections to title are not valid, and have been satisfactorily answered. W. S. MacBryne (Hamilton) for purchaser. Reserved.

Casey v. Kauss—E. E. Wallace, for plaintiff, obtained ex parte injunction restraining defendant from cutting down or altering the north wall and building erected on plaintiff's land, known as 30 Dalhousie street, Toronto, from building or erecting a brick wall on north five inches of plaintiff's land, or from interfering with or demolishing plaintiff's wall until 8rd July next.

Re Piott and Kern—C. A. Moss, for vendor, moved under Vendors and Purchasers Act for order declaring that purchaser's objections to title are not valid, and have been satisfactorily answered. W. S. MacBryne (Hamilton) for purchaser. Reserved.

Trial. Before Middleton, J. McPherson v. Ferguson—M. J. O'Reilly, K.C., for plaintiff, defendant in person. Action to recover possession of lands.

Judgment: At my suggestion, the plaintiff in this action, a daughter of defendant, agreed to accept less than the amount due her upon the mortgage, and in respect of the purchase money, and to allow the land to be redeemed, and to accept less than the amount due to her, altho the amount due is some \$300 more than this. The land has no increased in value recently that it is more worth more than \$600. The defendant refused to listen to this suggestion, seeking to go back to the former judgment. From what took place at the trial, I am satisfied that defendant, by reason of brooding over her troubles and from other causes, is not in a position to properly protect her own interests, and I think that before judgment can be given in this action, she must be represented by a guardian of her property. I accordingly direct that the matter stand over until the necessary application is made. The case seems to be one in which the statute 1 George V., cap. 20, may well be resorted to.

If upon a guardian being appointed, he thinks that the plaintiff's offer should be accepted, then application may be made for judgment upon that basis, or he should have liberty to tender further evidence if he desires. I would suggest that a settlement might be worked out by which the defendant would be allowed to remain in possession of the land during her life, and upon her death some benefit might be secured to the younger daughter, who is now living with her mother.

Dick v. Standard Underground Co.—J. L. Counsell (Hamilton) for plaintiff, D. L. McCarthy, K.C., and G. H. Levy (Hamilton), for Standard Under-ground Co. I. F. Hellmuth, K.C., for Steel Co., third parties. Action by contractor to recover sums alleged to be due under contract, and counter claim by defendants for amount paid in completing contract.

Judgment: There will be judgment for defendants for \$15,701.14, without prejudice to the defendants' right to recover any further sum for which liens may be established against the land in question.

I think plaintiff's contract precludes any recovery for damages for the delay. Such damages, if they can be recovered, I assess at \$1000. Defendants are entitled to costs of claim and counter claim.

NEW ROADS OPEN BIG FARMING AREA

Highway Builders Doing Good Work in Northern Ontario.

The ax of the settler is following hard upon the trail of the colonization road builder in northern Ontario in the summer months. One of the latest ventures to throw open a large tract of virgin agricultural land is the construction of a substantial highway from Government Wharf thru South Lorrain. The distance will be eight miles, and the terminal will be in the vicinity of the Keeley mines. Five thousand dollars will be required in its building.

Supt. R. B. Bennett intimated that before long an extensive system of mining roads would be established in the Michigan region. Here a large power company, the Algoma, has recently begun operations, and the number of men employed demands traffic accommodation. He stated that in this vicinity it was difficult to keep ahead of the settlers with the road work because of their rapidly increasing numbers.

BERRY PRICES WERE EASIER ON MARKET

Fruit Sold From Eleven to Fourteen Cents—Currants Are Coming.

Altho the amount of strawberries on the Toronto fruit market has not reached the usual proportions to date this year, there were enough in yesterday to force prices down a couple of cents. The berries sold at from 11c to 14c per box.

Big business on the market will not set in until the red and black currants begin to come in. There have been a few red currants picked green sold already, but they are not much wanted. The ripe currants should be in within a week at most.

Limes from Sicily sell at \$1.50 per box containing about one hundred. They go mostly to the hotels, where the tired business man enjoys their flavor when the tart juice is added to a gin rickey.

The sale of gooseberries was characterized as very slow by one of the fruitmen yesterday. There was some more asparagus on the market, of better quality than that which has been on sale lately. It brought \$1.25 the basket.

American tomatoes sold at \$1.50 to \$1.75 the case. Canadian hothouse tomatoes were 17c the pound.

Prevailing fruit and vegetable prices were: Strawberries, 11c to 14c; gooseberries, 25c to 35c the small basket; beets, 40c to 50c the bunch; asparagus, \$1.25 the basket; carrots, 4c American, \$1.50 the hamper, Canadian, 30c the dozen; parsley (not very good quality), 25c to 50c the basket; cabbage, \$2.25 to \$3.00 the crate. California fruit—Cherries, \$2.50 to \$3 the case; peaches, \$2.25; apricots, \$2; plums, \$1.75 to \$2.50; cantaloupes (large, 4 in crate), \$7 (small, 54 in crate), \$5. Canadian cherries, \$1.10 to \$1.25 the large basket.

Use Gibbons' Toothache Gum—Sold by all druggists. Price 10 Cents. 24c

MRS. CALBECK NOT KILLED BY SON

Continued From Page 1. by the rifle going off, answer to the description of Mrs. Calbeck's wounded.

"That would depend upon the position of the woman. It might make a wound very much like this one."

Calbeck, Senior, Agitated. Mrs. Henry Mitchell, a neighbor of Mrs. Calbeck, was called to the house about 2 o'clock the night the shooting occurred.

She prepared the body for burial and Calbeck, senior, was in the kitchen. "Was he making a lot of noise?"

"Yes, he was crying."

"I wouldn't say he was crying; he was doing a lot of hollering; but I didn't see any tears."

"Did you try to console him?"

"Yes; then he began to tell me how it happened, and he said the child had the toothache, and the mother got up with him and gave the boy the gun. He said, 'Whoever shot her, it wasn't me. He said he didn't know who shot her.'"

Vague Statement. "Had you accused him of doing the shooting?"

"No, Calbeck said she had been trying to pacify the child, and there were shells and things on the table, and she said she must have put in a good shell instead of a blank in the gun. He said he heard a shot, and when he went to the kitchen the woman was lying on the floor, and he was sitting in a chair with the rifle in his hand."

"Who did he mean by 'he'?"

"He didn't say whether it was his son or grandson, but it looked to me as tho he meant his son."

Calbeck Junior Cried. Mrs. Lillian Robertson was also at the Calbeck house the night of the shooting. Calbeck, jr., went into the back room and brought out the gun.

"A man there took it from him and Calbeck was crying," she said.

"I heard the rifle shot for his mother and I went in to him and told him his mother was sick and then he asked for his father and I told his grandfather, but nobody went in."

"Did you hear anything about how this happened?"

"I heard somebody say the child shot her."

PANAMAS AND STRAWS AT DINEEN'S 140 YONGE ST. Prices Reduced to Mark a Midsummer Selling Event. This reduction in the price of our summer hats is entirely new in the history of our business. The offer is an exceptional one. Late during the season we sometimes offer summer hats at bargain prices—but the prices which we have named for this sale are most unusual and reasonable values. TORONTO HOUSING CO'S SUBURBAN LAND. A detailed map showing the layout of lots and roads in a suburban area, including streets like Danforth Ave, St. Clair Ave, and various residential blocks.

Important Sale of Suburban Land for Dwelling Houses. 65 Lots at \$4 Per Foot and 312 Lots at \$5 Per Foot. The Toronto Housing Company has acquired 200 acres of land between St. Clair and Eglinton avenues, north of the eastern portion of the city. The company has subdivided and will sell the eastern 65 acres of this land, the most accessible portion of it. From the eastern end the property slopes gently westward to the Don Ravine, where there are 35 acres of beautiful park land. There is no broken or ravine land in the portion now subdivided, and it all overlooks the city. RESTRICTIONS. Restrictions have been imposed to ensure the upkeep and continuance of improved housing conditions. Houses cannot be erected on less than one lot as laid down on the original plan. Plans of all houses must be approved by the Housing Company, who will, if desired, supply plans of houses free of charge. As far as possible, back yard fences will be done away with. The remaining portion of the company's property will be developed on garden-suburban lines. The sale of this portion of the farm will enable wage earners, who so desire, to acquire building lots at wholesale cost. Bonafide wage earners will be given two weeks from June 23 in which to subscribe for lots before the plan is thrown open to the general public. To facilitate selection, every labor union will be furnished with a copy of the plan. The plan may be seen also at the Labor Temple, or at the company's office. Subscriptions are subject to 300 lots being subscribed for. Terms: \$5 per lot upon application, to be returned if 300 lots are not subscribed for; \$5 per lot upon allotment, and \$5 a lot per month thereafter until paid for. Reservations will be made in the order of receipt of applications. Payments will be received only at the office of the company. Taxes for 1913 and 1914 will be paid by the company. Prices of corner lots and business sites on application. TORONTO HOUSING CO., LTD., CONTINENTAL LIFE BUILDING, BAY AND RICHMOND

The Semi-ready price in the pocket is not to stop price-cutting, but to prevent price boosting.

Most merchants say they can get higher prices for such fine tailoring, but we agree with the Semi-ready policy to give each customer his heaping money's worth in the all desirabilities of Good Clothes.

There is more value in "Semi-ready," more real value, than in any of the imitations, whether you pay \$15 or \$35, whether you want a medium quality or top-notch fabric.

Because we believe in the same square deal to every customer is one reason why you find Semi-ready tailoring here.

### RECORD DUNLOP CYCLING RACE LIST

Never before in the whole 20 years of the Dunlop Trophy race has such an entry list greeted the handicappers as the one for Waterloo, July 1. The total number of riders entered is 110. The nearest to this record was 97, which 1912 boasted.

Not only does 1913 surpass all records for entries, but in the number of districts represented by the riders it also sets a record. Charlottetown, P. E. I., has a representative in George L. Payne, son of Senator Prowse. Winnipeg has her representative in G. H. Beemer, who rode to Toronto in 11 days. St. Thomas has one, Brantford has six, Stratford four, Hamilton two, Ottawa two, Galt two, the balance being made up of Toronto riders.

## 100 Cavalry Horses and 50 Artillery Horses

From Petawawa Camp

On WEDNESDAY, JULY 9th

These horses were specially bought for the purposes of the Government for the annual training of these military camps. They were purchased at prices as high as \$600 per team, and from that figure to \$400 per team. They are a very fine lot of horses through and through, every single one having gone through a severe examination by the Government Veterinary Inspectors, and no defective horse having been purchased. They are, therefore, the best of horses. They were well cared for at camp, and are in good shape after a trying month's work.

The majority of them are 5 to 7 years old, and sound. The gunners weigh 1350 to 1550 lbs., and are grand general purpose or draught horses. The cavalry horses are a very fine lot, that will make the best of wagon and delivery horses or drivers. When purchased, these horses were bought with the view of being resold for general working purposes, and buyers will get a splendid lot of thoroughly good horses at their own bids. Remember, every single horse will be sold, and the opportunity is far too good to lose.

### TENDERS FOR PULPWOOD LIMIT

TENDERS will be received by the undersigned up to and including Friday, the 15th day of July, for the right to the Lake of the Woods, in the District of Kenora.

Tenders shall state the amount they are prepared to pay as bonus in addition to duties of 40c per cord for spruce, and 20c per cord for other pulpwoods, or such other rates as may from time to time be fixed by the Lieutenant-Governor in Council, for the right to operate a pulp mill on or near the area referred to.

Parties making tender will be required to deposit with their tender a marked cheque payable to the Treasurer of the Province of Ontario for ten per cent. of the amount of their tender, to be forfeited in the event of their not entering into an agreement to carry out conditions, etc.

The highest or any tender not necessarily accepted. For particulars as to description of territory, capital to be invested, etc., apply to the undersigned. **W. H. HEARST,** Toronto, Ontario, May 20, 1913. 611 Minister of Lands, Forests and Mines.
