Burrell, Replying to Com- Extraordinary Powers Enjoyplaints That Price to Producer is Depressed by Manufacturers, Hinted That Proceedings Under Anti-Combine Act Might Result.

OTTAWA, Feb. 26 .- (Special.) - After the brush between Sir Wilfrid Laurier and Col. Sam Hughes, the house this afternoon settled down to routine business, and this evening discussed agricultural questions in committee of supply. The discussion at times roamed somewhat far afield. For example, Mr. Foster of Kings, N.S., while in the midst of a speech upon the immigration question and the increased cost of living, was reminded by the chairman that and destruction of noxious insect life." and several members representing toa combine among the manufacturers to keep down prices to the producers.

OTTAWA, Feb. 26 .- (Special.)-Hon. W. T. White, minister of finance today moved the second reading of his bill respecting trust companies.

The object of the legislation is to have a general act governing all trust stricting their creation hereafter to sion this second year. act of parliament. In short, there will be a general trust companies act, as there is a bank act and an insurance

Mr. White said that heretofore trust companies have been incorporated by letters patent under the Companies Act, and also by legislation. Under the Companies Act, many trust companies had secured extraordinary powers. They took powers to become holding companies and to operate and manage other corporations. So wide and general were the powers secured under the Companies Act, that no less than 20 trust companies had been so incorporated during the past two years. ed that Ontario was being shabbily treated in the matter of experimental farms and stations. The government had 1050 acres in Quebec devoted to experimental work, and even a larger was therefore thought best to require wherimental work, and even a larger was therefore thought best to require screage in other provinces. It had only foares all told in Ontario.

Mr. Clark (South Essex) called the attention of the government to the bill for that purpose.

Cura investment Powers.

The general act wall put some re-strictions upon the holding of rea-estate, the investment in stocks and estate, the investment in stocks and bonds of other corporations, and the amount of discillities which can be concontracted by the corporation in proportion to its paid-up capital. A compulsory audit is provided for and detailed reports every year, and as called for by the finance department.

Mr. White also introduced a similar bill respecting loan companies. He obbill respecting loan companies. He observed that the majority of loan companies were incorporated by act of parliament, and hereafter that would

Sir Wilfrid Laurier said that the proposed legislation was a step in the right direction. Trust companies were often entrusted with the estates of deseased persons, and thus acted for widows and orphans and other more or less helpless people. Parliament, in his opinion, could not throw too many safeguards about the operation of these companies.

Both bills were given a second reading and referred to the banking and

Lieut. Ninnis of British Army Fell Into Crevasse and Dr. Mertz, Expert Ski Runner, Succumbed From Lack of Food — Important Scient ific Discoveries.

(Copyright 1914 in the United States by The New York Times Company)

By Dr. Douglas Mawson, Head of Australian Expedition.
ADELAIDE, Australia, Feb. 26.—The Antarctic expedition ship Aurora, under Captain Davis, second in command of the expedition, arrived here today, successfully terminating my undertaking without further loss of life. Last year our western Antarctic base, in charge of Frank Wild, and also some members of the main base, returned.

It will be remembered that owing to the deaths of Lieut Ninnis of the Royal Fusiliers and Dr. Mertz, while on a sledging journey, I arrived at our winter quarters too late to return companies hereafter created and re. that year. The sub-Antarctic base also has been kept in commis-

My escape was almost miraculous. I was in the last stages of starvation when I discovered a food cache left by a search party. It was thirty days after the death of my last companion before I reached the expedition's hut, and traveling was for the

most part in falling and drifting snow. The expedition has been most successful. It was organized to complete the knowledge of the salient features of the Australian quadrant of the Antarctic regions, and it operated in the great unknown expanse to the west of the much-frequented Ross Liberal candidate had a majority

Following is a summary of the work accomplished by my expedition to the Antarctic, which arrived here today on board the Aurora:

First, the successful negotiation by a ship of Antarctic pack ice in a fresh sphere of action, where conditions were practically unknown, resulting in the discovery of new lands and islands.

Second, the establishment of two Antarctic wintering stations, separated by an air line of 1000 miles, both on lands never before sighted. At these stations, scientific programs have been conducted—in one case for a period of one year, and, in the other, extending over two years.

TRAVERSED NEW TERRITORY.

Third, journeys made over sea ice and a plateau in regions never before sledged over, at a main base aggregating 2400 miles, and a western base of 800 miles, which figures do not include journeys, supporting parties or relay work. The land has been followed thru 33 degrees of longitude, 27 of which were sledged over.

Fourth, the establishment of a party at Macquarie Island, a sub-Antarctic possession of the Australian commonwealth, where two years were spent mapping and investigating the island and acting as a wireless connecting link with the Antarctic in the main base, and communicating weather conditions daily to the commonwealth's meteorological office for immediate use in preparing forecasts.

Fifth, oceanographic investigations chiefly of the nature of soundings and trawlings, prosecuted from the ship in depths between Australia and the Antarctic and along the Antarctic continental shelf. Trawlings have been successfully conducted to a depth of two miles by soundings. The continental shelf has been indicated thru 55 degrees of longitude.

Regarding the party I ded:

My companions were Lieut B. E. S. Ninnis of the Royal Fusiliers and Dr.

Xavier Mertz, an expert Swiss ski run-ner. The object of the dash as far east

as possible was to ascertain the nature of the land in that direction. We

Reimbursement of Farmers' Bank Depositors Will, However, Accomplish a Double Object.

(Special to The Toronto World) OTTAWA. Feb. 28 .- At the question our in the house this afternoon. Finance Winister White, reniving to Dr. Chisholm of Inverness, stated that it was not the intention of the government to brine down legislation for the relief of the shareholders of the Farmers Bank. This announcement is not in contradicion to the pledge of the prime minister

at the last session.

It has long been understood that only the depositors would be reimbursed, but by reimbursing depositors the shareholders will be relieved almost entirely of loss under the double Hability clause of the bank act. If the double liability is enforced at all it will be for the purpose of redeeming outstanding circulation for which the assets of the bank are insufficient, but there is reason to believe that the depositors have arranged to protect the shareholders in this matter.

Special Meeting.

A special meeting of the North Earls court and Fairbank ratepayers was held in the club house. Harvey avenue, last evening, Chairman Badams presiding Among those prosent were School Trustee C. E. Lacey, Rev. H. Young, Chas. Bansley, T. Naltby, Secretary Wicks and others.

Bansley, T. Naltby, Secretary Wicks and others.

The meeting was called to consider the case of the Wright family, Harvey avenue, who were burnt out recently, to devise some means of affording them relief, Mr. Wright being a member of the association. Mr. Wicks stated that thru the kindness of I. A. Berridge two loads of lumber had been delivered to Mr. Wright today and that the latter had informed him that he had all the clothing he (Mr. Wright) needed for himself and family, at the same time asking that the press give publicity to the fact that he had \$300 insurance on his furniture.

CONTRACTORS NOT BLAMED.

The J. H. McKnight Construction Company. Limited, has entered suit against the Ontario Good Roads Commission for \$14,500 and interest from December, 1912, on account of work of macadamizing the Lake Shore road from the city limits to Minico. The work was stopped by the cold weather and the commission was satisfied with it, but payment was not made because the Village of Minico, which was required to pay one-half the cost, has not yet remitted its share to the BERLIN'S TAX RATE.

Archbishop McNell, who presided, pointed out that funds were needed, and encouraged the workers to do all possible to interest friends in the great work of providing a comfortable and safe home for the Catholic business girls of the city, whose homes may not be in To-

ronto.

Junior Workers Helped.

Miss Marie Macdonnell, the president, gave a very encouraging report of the year's work, laying particular emphasis upon the great assistance of the junior workers of Rosary Hall Gulid, who had been of much service, especially during the National Exhibition, when some one hundred of the young ladies gave their time at Rosary Hall tent during the two weeks of the fair.

In reading the financial statement, Mr. Finucane showed that the there was a small deficit in the current expenses for the year, returns on the whole were good, some debts from the two former years having been included in the amounts paid.

It was decided that the property should be placed in the hands of three or five trustees, who would be named by the directors, for the best safeguarding of the institution, the Archbishop of Toronto to have the right of veto, but the building always to remain in the keeping of the builty.

For Italian Children.

Miss Florence Boland, president of Rosary Hall Guild, reported on the work of her different committees. At the creche for Italian children, at 1469 Dufferin St., 43 children were daily in attendance. Books and pictures had been purchased for them, but a piano was wanted. The archbishop asks that someone will donate the required instrument. Even a second hand one will be acceptable. A sewing class is operated by the guild in St. Patrick's school, on Friday, from 3 to 5 o'clock p.m. Visits have also been made to the General, Grace and the Sick Children's Hospital, and the sum of \$200 was raised thru the at home held in Columbus Hall.

NEWSPAPER WOMEN DINE ON MARCH SEVENTEENTH

A reception was given by Miss Marjory MacMurchy, honorary president of the Canadian Women's Press Club, to Miss Marshall Saunders, vice-president for the Maritime Provinces, yesterday afternoon, at the club room of the association. The large attendance of the members showed the popularity of both guest and hostess. Miss Saunders, whose books have made her known, not only in Canada, but in the United States, expects to remain in Toronto for some time.

At a short business meeting it was decided to hold the annual dinner and meeting at the King Edward Hotel on St. Patrick's Day, March 17.

CAREFUL GROWER HIT THE HARDER

Fall Pruning and Mildness Advanced Peach Buds, Cold Killed Them.

(Special to The Toronto World)
ST. CATHARINES. Feb. 26.—The unusual warm December, followed by an unprecedented spell of zero weather, thus killing the peach buds, will, have a more disastrous effect upon the growers that take the best care of their orchards than upon the more careless ones, according to Prof. Macoun, horticulturist of Ottawa, who addressed the Niagara District Fruit Growers' Association this afternoon. The progressive fruit grower prunes in the fall for fruit development. Hence the mild early winter advanced the buds so rapidly that they were easy prey for the zero weather.

Addresses of a practical nature were given by Prof. Harcourt of Guelph, W. W. Farnsworth, of the Ohio Agricultural College, Dr. Surface of the Pennsylvania state agricultural department, and J. A. state agricultural department, and J. A. Ruddick.

In eight blocks that have been town planned each subdivision that is put upon the market is readily made to conform to diagonal and other thru thorofares. But in blocks not yet laid out each subdivision may be expected to go more or less blind in street conformity.

It is estimated that many thousands of dollars have been and are being expended upon street extensions and widenings that would have been saved to the ratepayers had town planning commenced twenty years ago. Unless the work is gone on with there will be many more thousands of dollars spent unnecessarily upon street extensions in the suburbs. St. Clair avenue and Danforth avenue widenings would not have cost the taxpayers a cent had town planning been done in those districts before the city extended suffi-ciently to open up the property for

A most glaring piece of irregularity of the city architect's department was discovered yesterday morning, during the examination of Harry Reeder, proprietor of Reeder's Theatre, St. Clair avenue, by Mr. Armour. The court was dumbfounded when the witness stated the plans for the theatre had been drawn by S. A. Woodburn, one of the plan examiners in the city architect's office, and that he had paid the latter the sum of \$25 for the work only last Friday. Mr. Armour was forced to laugh at the nerve of the man for receiving money for work which he should not have done, even during the course of the investiga-

Acting City Architect Price, when placed on the stand in the afternoon, stated that he had had no holidays in the past eight years and that he worked seven days a week during that time. When he first started to work in the department he used to draw plans, for which he received m but he had not done this since 1911, when it was forbidden.

When asked whether he had any suggestions to make for the improve-ment of the department, he declared that the building bylaws should be thoroly revised. Also that the head of the department was obliged to look after personally too many matters of a trivial nature.

WHAT DYSPFPTICS SHOULD EAT

A PHYSICIAN'S ADVICE. "Indigestion and practically all forms of stomach trouble are, nine times out of ten, due to acidity; therefore stomach sufferers should, when ever possible, avoid eating food that is acid in its nature, or which by chemical action in the stomach develops acidity. Unfortunately, such a rule eliminates most foods which are pleasant to the taste as well as those which are rich in blood, flesh and nerve building properties. This is the reason why dyspepties and stomach sufferers are usually so thin, emaciated and lacking in that vital energy which can only come from a well-fed body. For the benefit of those sufferers who have been obliged to ex-clude from their diet all starchy, sweet or fatty food and are trying to keep a miserable existence on gluter products. I would suggest that you should try a meal of any food or foods which you may like in moderate amount, taking immediately afterwards a teaspoonful of bisurated magnesia in a little hot or cold water. This will neutralize any acid, which may be present, or which may be formed, and instead of the usual feeling of uneasiness and fulness, you will find that your food agrees with you perfectly, Bisurated magnesia is doubtless the best food corrective and antacid known. It has no direct action on the stomach; but by neutralizing the acidity of the food contents and thus removing the source of the acid britation which inflames the delicate stomach lining, it does more than could possibly be done by any drug or medicine As a physician, I believe in the use of medicine whenever neces-ary, but I must admit that I cannot the sense of dosing an inflamed and irritated stomach with drugs in-tlead of getting rid of the acid—the tause of all the trouble. Get a little bisurated magnesia from your drug-list, ead what eat what you want at your nex take some of the bisurated magas directed above and see if I'm

Sir Wilfrid Laurier rose to protest. The member for Wright (Mr. Deviln), he said, had risen to a question of privilege. Surely Mr. Speaker had been hasty in ruling him out of order before he had been able to state what the question of privilege was.

Mr. Speaker then re-stated his ruling. Sir Wilfrid Laurier: "But your honor is assuming that you know what is in the mind of the member. Will you not let him state what the question of privilege is which he desires to present?"

Mr. Speaker: "I rule that he cannot proceed further because it is plain from what he has said that there is no queswhat he has said that there is no ques-tion of privilege."

Mr. Speaker: "Yes, I rule that would Mr. Speaker: "Yes, I rule that would be out of order."

Sir Wilfrid Laurier: "Then, sir, I appeal from your decision."

Sir Wilfrid's appeal was greeted with tumultous cheers by the members of the opposition. Mr. Speaker also reduced to writing and read to the house the question to be voted upon. He said that he had ruled that a question of privilege was not involved in an alleged false statement by a member of the house respecting some person not a member of the house.

Sir Wilfrid Laurier: "I protest that you are not stating the case fairly to the house." (Applause)

Howled Meighen Down At this point, Solicitor General Meighen rose to give a judicial opinion, but was fairly howled down by the opposition.

Mr. Carvell (Carleton, N.B.) cried out excitedly: "Sit down! The minister of militia can take care of himself."

Mr. Speaker Sproule called for order and intimated in reply to a question that he would adhere to his rulings.

"It is gag rule," interjected Sir Wilfrid Lauffer, with considerable heat, and again the opposition benches rocked with applause. "Let us hear from the minister of militia," continued the ex-premier.

Borden Upheld Speaker. Rt. Hon. R. L. Borden, who in the meantime had entered the chamber, sai meantime had entered the chamber, said the point at issue was a naffow one. Had the privilege of any member of the house the privilege of any member of the house been invaued by the published statement of Hon. Sydney Fisher?—That statement questioned the veracity of the minister of militia and to that extent reflected upon the honor of a member of this house. But only the member referred to could rise to a question of privilege. Certainly Mr. Devlin had no right to raise a question of privilege in behalf of Col. Hughes.

Sir Wilfrid Laurier asked with some bitterness whether the prime minister.

in could permit one of his colleagues to remain silent when publicly charged with having uttered slander respecting citizens of repute. TO ALLOW SUBSTITUTES IN AMATEUR LACROSSE

Suggestion Favorably Received at Rousing Campaign Meeting at St. Kitts.

ST. CATHARINES. Feb. 26.—A rousing meeting in the interests of the lacrosse campaign was held here tonight in the Collegiate Hall, which was addressed by P. J. Laily and Secretary Doyle of the O.A.L.A. and various enthusiastic citizens, which resulted in the formation of a committee that will formulate plans for the organization of a school league in St. Catharines. Fully two hundred were in attendance.

The committee comprises Principal Coombs of the Collegiate Institute, Public School Inspector Hetherington, J. M. Cameron, J. I. McSloy, M. J. McCarron, and F. W. Beard.

A suggestion that three or four extramen be allowed in O.A.L.A. matches as substitutes after the start of the game was made by J. M. Cameron, and was so well received that it will be presented as an amendment to the association rules at the Good Friday convention.

First Game of Senior Finals at Arena Tonight-How They Will Line Up.

Tonight at the Arena will be staged the tit-bit game of amateur hockey when T.R. & A.A. will once again clash with the St. Michaels for the senior O.H.A. championship. The black and white on the defensive are a great team and will die fighting hard to retain the coveted little that they won last year from their opponents after two heart-rending struggles. To be or not to be is the anxious query that is on every fan's tongue these days. Dope with its changeable moods and fancies is quoted and disputed until one's head is full of riddles. After taking the upsets of last year into consideration it looks like even money on the first game at least, altho severall frenzied fans are erratically backing the Irish at 7 to 5. The Irishmen are not at top strength, but hardly as weak as the supporters of St. Mikes would like one to suppose. Matthews will be an absentee, but McCamus and Murphy will be in the game, while T.R. & A.A. will have all their regulars out except Bud McLean. The teams will in all probability line-up as follows:

St. Michaels: Goal, Addison; right defence, Murphy; left defence, Dissette; rover, Rankin; centre, Lafamme; right wing, McCamus; left wing, Richardson, T.R. & A.A.: Goal, Smith; right defence, Gooch; left defence, Heffernan; rover, Stevenson; centre, G. Meeking; right wing, Brown; left wing, H. Meeking. championship. The black and white on

perts entered and good competition was witnessed.

Firs. place was won by Chas. Walters, Central Y.M.C.; second by W. Harris, Central T.M.C.A. and third by D. Loring, Central Y.M.C.; second by W. Harris, Central I.M.C.; second by W.

A perusal of the list of leading pitchers of 1913 will show that the major leaguers copped the cream of minor league twirling talent. It will also show that the big league clubs make more of an effort to strengthen their pitching staffs than they do any other department of the game. Of the 20 champion minor league heavers, 15 will report to major league clubs next spring. Of a like number of champion minor league batsmen only three will go to the big show.

The pitching records for the past season prove that Walter Johnson, the Washington star, is king of the mound men. In a nearest approach to his wonderful work of winning 36 out of 43 games puched is the record made by Pitcher Hooper of the New Haven Eastern Association team. Hooper, who has been purchased by the St. Louis Cardinals, won 31 games and lost 8.

The pitching leaders, with the number of games won and lost, and the team to which they are to report in 1914 follows:

HOCKEY GOSSIP

The Riverdales, champions of group B, and Dominion Express, winhers of western section of Beaches Junior League, will meet tonight at Ravina Rink at 8.30 to see which team will qualify for the final. The Riverdales request a full turn out of players and rooters to meet at Ferguson's parlors at 7 o'clock. Pat Evans, who has been of late taking great interest in the team, will look after the Riverdale boys.

The A. R. Clarke hockey team defeated Warwick Bros, and Rutter Wednesday night at Aurora by a score of 8 to 4 in a very fast and exciting game. Warwicks got an early lead, but faded away in the second half. Clarke's back checking told on their weaker opponents. Half-time score 4-4.

matter.

"By asking such a question, the players admitted in effect that they were ready to fake if necessary," said the Redbands' owner, "and for the men who fake there is no place in professional hockey. We have a chance to show the public that professional sport is absolutely honest and on the level, and I for one am ready to take advantage of that opportunity."

West Toronto defaulted to St. Johns last night in an intermediate Civic League game, and this gives the green shirts the district.

The game that was scheduled to be played between Beeches and Broadview juniors tonight has been postponed.

In a fast game of hockey at Varsity last night, in the Consumers' Gas Company House League, the Third Floor defeated the Salesroom by a score of 7 to 6 in 30 minutes' overtime. For the losers "Cap." Pettigrew played a wonderful game, time and again rushing the length of the ice. Bob Howard for the losers and Petrie for the winners were the most noticeable among the rest. The winners' line-up: Goal, A. E. Howard defence, B. Allman and F. Thompson; rover, Petrie; centre, Stewart; wings, V. Farrant and J. Simpson.

WRESTLING CHAMPIONSHIP. The entry list for the Ontario Y.M.C.A.

wrestling championships is a good one. West End Y are entering their best men and a number of outside entries are in. Central boys had a good workout last night, and are in good condition. Marty Walsh was on the mat and worked with his usual easy style. The draws will be made tonight.

The Martin of West Toronto will come the ground regularly to watch the sea and support the club.

The American colony was out to a man.

King George, who was accompanied by American Ambassador Page, watched with great interest and seeming intelligence of the game the closely contested eleven innings, applauding particularly when, about midway of the game, Faber, pitcher for the Glants, got himself into a hole, having three men on the bases and only one man out. Steadying himself, the Glant twirler retired the White Sox without permitting a man to cross the plate. His majesty's face was wreathed in smiles over the good work of Faber, and he applauded him as wildly as did the American fans.

So well did the king understand the game that it was seldom he had to request Mr. Page to explain any of the numerous quickly executed, intricate plays. As an instance of his keen perception, King George led the applause at one stage of the contest, when, with three men on the bases and only one man out, the Sox were retired on a clever double play.

As for the average Britisher, however, as much cannot be said Before two innings had been played many of them comfessed themselves mystified. The remainder of the game they sat as tho in a daze.

It was field day for the baseball-hun-

retary not later than March 5. Rumors have emanated from both Montreal and Toronto to the effect that there is likely to be a change in the composition of the Big Four in 1914, and the Cornwall club has been mentioned as a probability. Something may develop at the annual meeting. The Cornwall club is in good shape for players and could do battle in any company.

T.B.C. FIVEPIN LEAGUE.

In the T.B.C. Fivepin League at the College Club last night Senators won two out of three games from Stanleys, the leaders, the outcome of which tied up the race between the above pair and Millionaires. After a slaughter in the first game the old boys woke up and put over nose finishes in the remaining two games, and which were largely due to the great coaching of Bench Manager Jack McKinley. Bridgy Rice for Stanleys—a swas high with an even 500, while Pop Wicks got the honors for Senators with a 427 total. Scores:

Taft Could Not Guarantee Anything-Chance Joins the Yankees-Gossip.

CHICAGO, Feb. 26.—Fear of the Federal League's raids on ball players and doubt as to the stability of the reserve rule and of the players' contract itself have combined with the question of ground lease to drive from the field the Unicagoans who wanted to purchase control of the Cubs.

The Behan syndicate, whose offer of \$750,000 for Charles P. Taft's controlling interest, was accompanied by conditions.

\$750,000 for Charles P. Taft's controlling interest, was accompanied by conditions he would not accept, withdrew today. The others, while not formally out of the market, gathered from the refusal of the Behan bid that Mr. Taft was not prepared to guarantee the dissolution of the Federals or alliance with them, nor grant the desired long lease on the Cub field, of which he is said to be principal owner. owner.

Cincinnati reports said today that Mr.

Taft had received a score of enquiries concerning the price of his stock and asking whether it was for sale. No new offers have been made public here.

Vanderbilt Cup Race

SANTA MONICA, Cal., Feb. 26.—Ralph Depalma, who won the Vanderbilt cup race in Milwaukee in 1912, duplicated that performance by winning the Vanderbilt cup race of 1914 over the Santa Monica course today. He beat Barney Oldfield by a narrow margin after a desperate speed battle over more than 100 miles, during which but a few seconds separated the two drivers.

Depalma's time was 3.53.41 for the 294.035 miles, or an average speed of 75.6 miles an hour, nearly three miles less than the course record.

Oldfield was second, Carlson third and Cooper fourth.

CHANCE OFF TO SOUTH.

LOS ANGELES, Feb. 26.—Frank Chance will leave tomorrow for Houston, Tex., to join the squad of New York Americans and begin the 1914 spring training season. This will be Chance's second season as manager of the New York Americans, and he said he hoped to hoist them out of the lowly position in which the team finished last season.

"I have spent the winter out of doors," Chance said, "and I feel fine."

WITH THE ICEBOATERS.

Hugh Thom and Sol Monk, owners respectively of the iceboats Marion and Condor, will race them in the second of the series of races on Saturday afternoon on Ashbridge's Bay. Ed. Shea of the Dons will referee, and the contest promises to be a keen one.

When Mr. Rowell first rose from his seat in the house the expectation of the members was that he would add a final word to the debate on the tax reform amendment. Before that point was reached, however, he read the statement which ruled the member from Prescott out of the Ontario Liberal party. His few words in advental party. eral party. His few words in advo-cacy of tax reform were then taken to conclude the debate and allow the house to adjourn, it being past 6 o'clock. Certain of the government, however, were not prepared to let the matter stand at that stage, and then followed a period in which the rules of the house went by the board and the principles of constitution became almost howelessly tangled. Not Far Eenough.

Howard Ferguson of Grenville, who had read the letter the afternoon before, crawed permission to speak for a few morents, and at once expressed the opinion that aitho a statement had been forthcoming from Mr. Rowell, the purport of it had not sone far enough in view of the seriousness of the case in hand. The matter required more than a mere; repudiation. Could the Liberal party so easily dissociate themselves from the affair? What were the facts but that this man had been a trusted confident of the opposition, a participant in the secrets of their policy, one who had while speaking against the temperance stand had yet voted for it in the house. Mr. Ferguson resumed by calling upon the members to look at the records of the house in 1912, and they would find that Mr. Evanturel had paired with the member for Manitoulin on the abolishment of the compared to snow the difference in their assessments and those of the cities.

that he did not think the country would be satisfied with the light and trivial manner in which this serious matter was handled. The leader held a very responsible position, and the house could not be satisfied with a mere repudiation. He did not need to point out similar cases which had happened every legislature and parliament, and course which a normal, temperate proper proceeding took. It should shown that the Liberal party was ansed from the fateful suspicion of ig mixed up in the affair.

a year.

The principal points brought out by Mr. Elliott were that at present a great inequality was worked among the countles and the different municipalities, and that the rural districts were bearing an unwarranted burden, whereas the cities were profiting with no good reason for doing so. The attitude of the government in the statements of R. R. Gamey of Manitoulin and A. B. Thompson of Simcoe was that the present act, altho perhaps weak in parts, was yet being worked out fairly satisfactorily. Any reversion to a system of single tax could not be considered as aiding the situation whatever.

situation whatever.

Good Prospects.

In introducing the subject of tax reform, Mr. Elliott first spoke of the good prospects of the legislature granting a prospects of the legislature granting a measure of value to the country on the twin problem of woman suffrage. There was no question of the advisability of giving married women the franchise. The deputation which had approached the government could not but be productive of the best results. The question had never been put more tactfully or concisely, and, judging from the acting premier's attitude, before the session was closed, they would be given sion was closed, they would be given the right which the municipal fran-

J. C. Elliott of West Middlesex, who yesterday brought in an amendment of criticism at the lack of any apparent intention on the part of the administration to amend the legislation now in force, saw his efforts swamped by a vote of 61 to 17.

The fact that the discussion of this subject only consumed three hours of the session points to its recurrence as a new measure to be dealt with in the next two or three weeks. The opposition, in the words of Mr. Rowell, is determined to bring this matter definitely before the members for an exdetermined to bring this matter definitely before the members for an expression of individual opinion. The standpoints taken yesterday did not differ materially from those which have been urged in the past, the general argument of the opposition orators being that a state of great dissatisfaction now prevalls in the province, and that it was an imperative matter that Proudfoot, J. He argued that the whole objection of the opposition was founded on a political basis. The member from East Middlesex was playing to the country and embarrassing the government.

and criticized some of his statements. He contended that any amendment which would bring about a remedy in the present system of assessment and taxation would be a move in the right direction. He declared that the present system was a hardship on the settlers in New Ontario, as it favored the nonresident owners who got their statutory work done by proxy and that such a conlition hindered development. He wanted he assessment act made clear, so that new municipalities would not have to imploy expensive counsel to interpret it and a definite value could be placed on and and buildings. In regard to Mr. Gamey's endorsement of the work of the agricultural colleges, Mr. Mageau declared that not one young man from New Ontario was attending the Guelph college, because it was too expensive. He advocated the extension of the college functions to various parts of the province. He claimed that the Monteith Farm was not representative of any of the northern districts, Sudbury, Rainy River or Kenora. Taking up another phase of taxation, the speaker declared that municipalities of Ontario were supposed to receive half of the \$860,000 revenue from railway taxation, but New Ontario municipalities were not included in it.

LOWER CITIZEN PRIDE M A D E DISCOVERIES

Filthy Lodging Houses Pictur- New Lands and Islands Exed and Described - Toronto's Needs Enumerated.

The report of the physical survey of the City of Toronto, which was presented by the Bureau of Municipal Research yesterday afternoon, deals particularly with the "slum" conditions of the city, but also touthes upon several other points that operate to make the city unsightly, cause its people inconveniences, endanger their health and lives, affect real their health and lives, affect real overtices, us Mertz, on his ski, as a estate values, detract from the city's reputation as a place of residence or pusiness, or lower citizen pride.

Special attention is paid to the

overcrowded and filthy condition of some of Toronto's lodging houses, and photographs are produced to give the citizens an idea of what these conditions really are. The bureau was greatly assisted in

making the physical survey by Dr Hastings, medical health officer, and several references are made to his various reports. It is remarked that Dr. Hastings had discovered the terrible conditions that exist, but that, owing to the lack of sufficient inspectors, it was impossible to learn whether the orders of the medical health officer were carried out. In many cases they were not.

Serious Conditions.

Feature of Montreal Market.

TRADERS SELLERS OF LOCAL STOCKS

Each New Decline Increases Heavy Selling Resulted in Boldness of Their Operations.

C. P. R. TAKE FIRM TURN OPERATORS CAUTIOUS

Nothing Conspicuous in the Possibility of Sudden Shift in Toronto Market in Thursday's Business.

NEW YORK, Feb. 26.—The aggressive bear party which took control of the market yesterday renewed the attack at the opening today. There was neavy selling, especially of Steel, Reading and Amalgamated, and prices were depressed generally. But the decline was small and of short duration. A better demand appeared at the lower level and the downward movement was checked. The shorts unable to bring about a further break, began to cover, and prices rose fractionally above yesterday's close. There the movement ended. Trading in the latter part of the day was light and fluctuations trivial.

Foreign selling was less of an influence than on the preceding day, altho London continued to dispose of stocks here. Sales for European account totaled perhaps 20,000 snares.

Traders Are Cautions.

Despite the promptness with which the bear onslaught was checked, operators on the long side made no attempt to force up the market. The possibility of a shift at any time in the Mexican situation made traders reluctant to take on new lines of long stock. eHavinness of foreign markets and suggestions of serious financial difficulties in Paris also held back this market.

The January figures of the Harriman lines were in line with the reports of other railroads, indicating a general falling off in gross earnings. Union Pacific's gross decreased \$370,000, but the net shrinkage was held to \$25,000 by means of a contraction in operating expenses. Southern Pacific's gross decreased \$370,000, and its net nearly as much. Except in cases where liquidation was forced yesterday the local market displayed a steady tendency. General recognition that the market is on the down grade has given the selling inspiration to traders and until they are caught and held short for a few days each decline will increase their boldness of operations. Steel was held at about Wednesday's level, there being sufficient outstanding shorts to take care of such offerings as came out. A new low was made at 34% for a hundred share lot, but this may have been for effect.

C.P.R. was stronger on the foreign exchanges and the rise was followed to some extent on the Canadian market. Firmness in this stock was effective to a small extent in changing trading sentiment and prices of local securities had an improved undertone during the afternoon session.

There was nothing conspicuous in the dealings of any of the listed issues. The active speculative issues made fractional losses during the morning and made recoveries of a like amount in the later

MONTREAL, Feb. 26.—Heaviness from London was reflected in a weak local opening today and representative issues like C.P.R.. Power and Laurentide opened at declines of about one-half. Later the market regained confidence under the lead of New York, and except in Iron, which continued a weak feature under special influences, the tendency was towards improvement of a quiet and steady sort that left most of the leaders at or near their best prices in the late afternoon. C.P.R. and Power finished with net gains of a point in each case,

HOLLINGER HAS **NEW ORE BODIES**

Further Slight Decrease to Net Profits Indicates Lower Grade.

The Hollinger report for the four reeks to Jan. 28 shows a slight decrease in profits as compared with the previous period, and the figures show that the decrease has been occurring pretty regularly for some months, indicating a lowering in the grade of ore.

The mill ran 96 per cent of the possible running time, treating 12,813 tons, of which 256 tons, were treated for the Acme Gold Mines, Limited. The average value of the Hollinger ore treated was \$13.57 per ton Approximate extraction 96,83, milling costs 1.365 per ton.

Work in the mine continues to yield satisfactory results, reports A. R. Globe, assistant general manager, who has charge of operations during the absence of Mr. Robbins on a holiday. During the period 1179 feet of diamond drilling was accomplished, lecating one new ore body on the 425-foot level and one on the 200-

ACCOUNT ADJUSTING

Peterson Lake is meeting good support at around 40, and unless this price is broken thru, a sharp rally is not far off. The mining market has had several days of account adjusting and should be in position to resume the advance. We do not think it wise to wait for a much further reaction before buying. The New York curb is beginning to take a more active interest in our mining stocks and an outbreak of buying from that quarter is more than probable. Our services and information are at the disposal of our clients at all times.

"Oriental" Rugs

IN THE NEW RUG SECTION.

Whether expert or amateur in rug lore, you will find a rare enjoyment ready for you in the unique display spread over the newly-opened section of the Fourth Floor. The prices would not seem large for the much inferior machine-made carpets-for hand-made Orientals they are extremely exceptional.

Among the smaller rugs of unusual merit will be found a parcel of lovely silky Khiva Bokharas-rich brownish old reds, deep blue, and tans-average size about 6.6 x 5.0. Spe-These little rugs are rare bargains at these prices, which hardly cover cost of importing:

Kazakjis, about 4.0 x 3.0. Each 6.35 Cessarians, about 4.6 x 3.0. Each 6.95 Room size Rugs at prices that are probably the lowest ever offered at, including nine rugs, which are slightly shop worn, otherwise perfect: Turkish Ghiordes, slightly shop soiled, 8.0 x 5.1. Special 29.50 Malabar, blue ground, slightly soiled, bargain, 9.7 x 4.1.
