GREAT BRITAIN AND RUSSIA COMING TO TERMS AS TO PERSIA

British Desire is to Conclude Entente That Will Complete Triple Alliance to Keep Germany in Check.

St. Petersburg, April 13.—(Associated Press Cable).—Great Britain has begun to vigorously press negotiations for an Anglo-Russian entente, with the purpose of completing the triple alliance or Great Britain, France and Russia against Germany, which has long been the aim of British policy.

The developments at the Algerian conference, where Great Britain, France and Russia acted in unison, and the participation of English bankers in the big Russian loan, furnishes a new and their favorite moment, and Great Britain is striking while the iron is hot.

Besides, the British government has recently given Russia proof of her desire to settle outstanding difficulties by inducing English bankers not to take the Persian loan on the ground that it might be regarded as prejudicial to Russian interests.

The sentiment here in favor of the entente also has been aided by the declaration of Germany to participate in the Russian loan, and by publications from Russia hostile to Germany, which have been directly inspired from British sources.

Count Lamsdorff and, latterly, Premier Witte, have favored an Anglo-Russian entente, and the consummation is regarded as practically certain. The pourparlers between the two governments thus far have only touched the questions relating to the delimitation of respective spheres of influence, including the apportioning of railroad and banking concessions in Persia.

Generally speaking, Great Britain wants the southern and Russian the northern half of that country. There is reason to believe that when the consent of Persia is secured, the branch of the trans-Caucasian railway now authorized to the Persian frontier, will be extended to Bagdad, which point it is estimated can be reached before the famous German-Bagdad road is completed.

When the Persian question is settled, all matters relating to the Indian frontier, which constitute a source of possible misunderstanding, namely, the Afghan, Pamirs and Tibet, will be solved.

CHAINED TO BED 10 YEARS.

French Family's Treatment of Aged Demented Man.

Halifax, April 13.—(Special).—John Senior, of Meteghan, Digby County, was released Thursday by G. P. Henry of the Society for Prevention of Cruelty, after having been chained to his room for ten years.

The shackle was tied about his ankle, and the chain to which it was attached was only three feet long, the other end being fastened by a staple driven in the floor alongside his bed.

About ten years ago Senior, who is now 92 years of age, became demented and his people, who were French, believed they were doing the best they could for him by securing for him this way. He had been well cared for. The S. P. C. will have him placed in the Nova Scotia hospital to-morrow.

Roumania Will No Longer Harbor Russian Revolutionists.

Bucharest, Roumania, April 13.—Yielding to repeated demands of the Russian police, the Roumanian government has decided to expel Matuschenko, the leader of the mutiny of board the Russian battleship Kniaz Potemkin in June of last year, despite the promises extended to the mutineers at Kustendj, Matuschenko will depart to-morrow.

It is stated that the government has decided to expel several Russian revolutionists now visiting relatives in this country.

IS 1-2 MILLS.

After talking about it for a long time, the board of control has hit upon the tax rate for 1906. It is 1 1/2 mills. The treasurer's draft made it look like 19 mills, but the printing process was used again.

The board had to crack the estimates of the board of education, which were under scrutiny on Thursday. These estimates are always a sort of a sore spot. To bring down the rate as low as it is the controllers have had to be very generous with the knife. Every one of them was set upon a low tax rate that would help them into history no matter what else had to be done without.

THE ACTRESS AND THE AUTHOR

Former Stops Play Until Latter Signs a Contract.

Chicago, April 13.—(Special).—Margaret Anglin, the Canadian actress, and William Vaughan Moody, poet, playwright and professor of English literature in the University of Chicago, had a violent tilt last night when Mr. Moody's play, "The Sabine Woman," was given its premiere by Miss Anglin. The crowded house was kept waiting almost an hour between the second and third acts, while the poet and actress squabbled.

There was a verbal understanding about royalties. Then, suddenly, after the second act, Miss Anglin awoke to the fact that she had no legal claim on the play which she was producing.

Layovers were noted behind the stage, and Mr. Moody was summoned and asked to sign a contract. He objected until he could have some advice. Miss Anglin said she represented her partners, Henry Miller and Lee Shubert, and must have some sort of a contract right off, or the audience would dismiss her, without seeing the finish of the play.

The poet surrendered, signed the document prepared by the actress, and peace was restored.

ROYALTY'S GOOD FRIDAY.

Only Day of Year in Which King Edward Feasts.

Marquise de Fontenay in New York Tribune: Good Friday is the only day of the year in which King Edward, as supreme head of the Church of England, considers it necessary to fast, and on that particular day there is no meat permitted on the royal table. Hot cross buns, however, form an important item in the royal bill of fare. The King and his household attend divine service in the forenoon, and observe the day much as if it were Sunday.

The court, however, where the most important celebration of Good Friday takes place is that of Madrid, where everybody connected with the royal household appears in mourning. The band does not play, as usual, in the courtyard when the guard is being mounted, and all the military companies are given in a subdued tone of voice. Vehicular traffic is, to a great extent, prohibited in the streets on this day, and I cannot remember ever having seen a royal carriage abroad on Good Friday.

In fact, Madrid and its court are the only places in which the importance in Europe where Good Friday is celebrated with all the tokens of mourning of the Middle Ages. This, too, despite the acknowledged frivolity of the Madrilenos—a frivolity which was so strikingly displayed thruout the Spanish-American war.

NAPLES RETURNS TO GAIETY ON HEARING GOOD NEWS FROM SCIENTIST

Plucky Observatory Official Reports That Volcanic Calm Will Reign in Course of Very Few Days.

Naples, April 13.—No better evidence of the improved condition of affairs in the section affected by the eruption of Mount Vesuvius can be presented than the following telegram from Director Mattucci, sent this evening from the observatory on the mount: "Last night and to-day the activity of Vesuvius and the agitation at the surface of the volcano sensibly diminished. Electric discharges ceased to-day, and the discharge was less abundant. From the presumed formation of the crater and other indications, and if the news coming to me is true of the cessation of lava at Boccarese, I predict with reserve that in two or three days volcanic calm will reign."

The publication of this assuring despatch has brought joy to the people, and to-night's Good Friday services at the churches, which were attended by large congregations, took the form of fervent thanksgiving for danger past.

Conditions at Naples were so much better to-day that the people were almost incredulous of the tales of terror told by those who had escaped from the towns, villages and country farther within the zone of devastation. The weather was fine, and the wind shifted so that the clouds of ashes from the volcano, instead of enveloping Naples, were carried in the direction of Caserta. The apprehension of the populace gave place to a smiling confidence in which there was no reflection of the terror which had prevailed for the past week.

Recovering the Dead. Not only in other quarters there is no escaping from the awful evidences of the volcano's fury. At Bose, the exhumation of the dead is being carried on by soldiers, who, owing to the advanced state of decomposition of the corpses, are unable to work more than an hour at a time. The work is one of great cost of money, as well as of danger and arduousness to those engaged. Many of the bodies are merely shapely, unrecognizable masses of flesh and bones, while others are but little disfigured. As quickly as possible they are buried in quicklime to lessen the danger of the danger of epidemic. None of those engaged in the work of recovering the corpses are permitted in the vicinity.

The charge of Judge Teetzel was construed by some as weighing heavily against the plaintiff, strong emphasis being laid in the privilege enjoyed of criticizing the acts of public men. The judge instructed the jury, however, that the city does not lose \$3000 by the mayor's alteration of the bylaw, as it can recover from the company. In view of these facts he asked the jury to consider whether Mr. Black's criticism was justified or not.

The jury was out about two hours and a half, and returned a verdict of \$1000 for the plaintiff.

Upon a poll the jury stood ten to two and a motion for a new trial will be made upon the ground that members of the jury were influenced during the trial by outsiders. Ald. Brown was reported to court for interference with one of the jurors.

MAYOR ELLIS GETS \$1000 JURY SAYS HE WAS LIBELED

End of Ottawa's Cause Celebrated—Interference With Jurors is Alleged.

Ottawa, April 13.—The most famous libel suit ever tried in Ottawa was terminated to-night after three days and two night sessions.

Mayor Ellis sued ex-Ald. W. G. Black for \$5000 damages for the publication, during the last civic campaign, of a letter in the three dailies here in which the charge was made that the mayor had, on his own responsibility, altered the bylaw which the city's purchase of the Consumers' Electric Company plant was authorized, and that the city thereby lost \$5000.

The case was keenly contested, and Mr. Black was in the box for eight hours, being subjected to a strenuous cross-examination at the hands of W. R. Riddell, Toronto, counsel for Mayor Ellis; G. F. Shepley was counsel for Mr. Black. The city solicitor and city auditor gave evidence against the plaintiff, strong emphasis being laid in the privilege enjoyed of criticizing the acts of public men. The charge of Judge Teetzel was construed by some as weighing heavily against the plaintiff, strong emphasis being laid in the privilege enjoyed of criticizing the acts of public men. The judge instructed the jury, however, that the city does not lose \$3000 by the mayor's alteration of the bylaw, as it can recover from the company. Vienna and Paris in Throes of Mail Delivery Disturbances.

Vienna, April 13.—Seven hundred drivers of mail carts struck to-day. As the postal authorities had not received any intimation of their intention, they were caught unawares, but after a temporary dislocation of the business, they managed to secure sufficient substitutes to take out the carts. The drivers want more pay. They had been getting about \$20 per month and demand an increase of from two to four dollars. The letter carriers will possibly join in the strike to-morrow.

To-night the strike was settled by a partial concession to the demands of the drivers.

Postal Strike Extends.

Paris, April 13.—The postal strike here is increasing, in spite of the government's statements to the contrary. The movement is also gaining in the provinces.

A section of the telegraph messengers and pneumatic tube men, forming about one-third of the personnel of the Paris branch of the general postoffice, decided to strike to-night. The minister of public works to-day dismissed 300 of the striking postmen. Half of the members of the staff of the Lyons postoffice have struck.

EXTEND THE 2-CENT RATE TO INTER-STATE TRAFFIC

Voluntary Action of Two Ohio Railways Causes Consternation in Central Passenger Ass'n.

Toledo, O., April 13.—(Special).—The Ann Arbor and Detroit, Toledo & Ironton Railroads have decided to bow to the will of the people regarding the two-cent-a-mile railroad rate and will observe it in interstate as well as state business.

These two roads have kicked over the traces in the Ohio situation and have given notice to the Central Passenger Association that they will sell tickets to Ohio points at the sum of the locals, considering the Ohio rates at two cents a mile.

A few days after the passage of the law in Ohio a meeting of all Ohio roads was held. At this meeting it was decided to ignore the two-cent rate in interstate business.

That is, if a man at Adrian, Mich., wanted to go to Louisville, he would be sold a two-cent ticket at the rate in effect before the passage of the two-cent-a-mile rate.

"Under this arrangement it forced patrons of our line to either pay the old rate or to go to the bother of paying a cash fare from Adrian to Toledo, another from Toledo to Cincinnati, and still another from Cincinnati to Louisville, checking his baggage at each transfer point," said General Passenger Agent J. J. Kirby of the Ann Arbor road.

"We have decided not to evade the two-cent law in Ohio, and will recognize it in interstate as well as in all Ohio business," he concluded.

This decision of the Ann Arbor has created consternation in the ranks of the Central Passenger Association, and a meeting has been called for in Chicago to consider the action of these two roads.

THREE YOUTHS IN A CANOE AND OUT OF IT INTO WATER

While attempting to save three canoeists who were upset in the bay yesterday, Reg. Blomfield and his cousin, Roy Ferguson, were upset by a launch which arrived on the scene shortly after.

Few craft ventured out yesterday, but among them was a canoe with three young men. The wind was blowing strong from the east and the waves were high. One caught the side of the canoe and dumped the youths. Blomfield happened to see them shortly after, and took the Toronto Canoe Club dinghy, which happened to be without oars. Using paddles, Blomfield and his cousin went to the rescue. Just as they were fastening the rope of the canoe to the stern of the dinghy a gasoline launch passed.

"Will you have a tow?" asked the steersman.

"Certainly," said Blomfield, and the launch swung around like a pivot. Before control could be gained, the bow struck the dinghy. Blomfield happened to see what was coming and saved himself a wetting by jumping on board the launch. His cousin, however, was ducked, only to be pulled out a minute later.

The boys hanging on the canoe were picked up and their craft towed in. The dinghy went adrift. The names of the trio were Sam Sinclair, Harry Hodgson and Walter Perkins.

A. J. ROBERTSON DEAD.

Manufacturers' Agent Succumbed After Week's Illness.

Alexander James Robertson died this morning, at his residence, 1 Bedford-road, from an attack of pneumonia of a week's duration.

Mr. Robertson was a familiar figure in mercantile circles. For some years he was a lieutenant in the 10th Royal Grenadiers. He was a member of the Toronto Club and stood high in the A. F. & A. M. He was a past master of Ionic Lodge.

He was a son of the late John Robertson, wholesale dry goods merchant, and a brother of John Ross Robertson. His wife is a sister of the late Hon. J. D. Edgar, formerly Speaker of parliament. He was 61 years of age.

He leaves a widow and five children—Douglas, with the Bank of Commerce, Ponoka, Alta.; Irvine, Bank of Montreal; Bruce, a student at Varsity; Struan, at Upper Canada, and Miss Isabel at home.

VAN HORNE ON HILL'S PLANS NO ROOM TO THE SOUTH FOR A NEW ROAD

Neither is There a Route Thru the Rockies—C. P. R. First to Double Track.

New York, April 13.—Sir William C. Van Horne, chairman of the Canadian Pacific, who has been largely identified with the upbuilding of that system, asserted yesterday that the Canadian Pacific would be the first transcontinental line in America to be double tracked. He has returned to this city from a trip to Europe, the first in eight years. Sir William stated that already work is in progress double tracking the line between Lake Superior and Winnipeg. "There are more than four hundred miles of double tracking now in progress," he said yesterday. "The concentration of grain at Winnipeg and other freight from the numerous branches extending into the Northwest has made it imperative to double track that portion of the line immediately. When it is done, the freight originating in the Northwest can be transported more quickly to the lakes."

"The work will not stop there by any means, and I predict that the Canadian Pacific will be the first transcontinental line in America to be double tracked."

Sir William was not inclined to treat seriously the statement of James J. Hill that Mr. Hill proposed to build a new line in Canada south of the Canadian Pacific line. "Near the international boundary," he said, "our system has griddoned the country in the grain belt, and if Mr. Hill continues west he will strike the art lands which the Canadian Pacific bends north to avoid. There is no pass thru the Rockies not already taken, except those which have been abandoned by projected systems on account of the enormous cost."

Sir William plainly intimated that there is competition and bad blood between the Canadian Pacific interests and the Hill line, on account of several breaches of territorial agreements made some years ago by the two lines. The Hill and Canadian Pacific interests made agreements not to enter stated sections, but the Canadian Pacific people now state that Mr. Hill erred in breaches of territorial agreements. As a result each system is building into the other's territory. The 500 line, controlled by the Canadian Pacific, is entering territory which was exclusively that of the Great Northern, in British Columbia. Mr. Hill is pursuing the same policy against the Canadian Pacific.

Join N.A.L.U. To-Day—Representatives Left for Montreal Last Night

Fred Thompson and Jimmy Murphy of Toronto and Charlie Gierrie and J. K. Menno of Tecumsehs left last night for Montreal to attend the annual meeting of the N.A.L.U. and it is practically decided that they will play in the Eastern this year, so once more the teams of the seven clubs, which are Shamrock, Montreal, Ottawa, Toronto, Tecumsehs, Toronto and Tecumsehs, will form the N.A.L.U. This will mean an eastern tour here every Saturday. The other C.L.A. clubs will probably not be pleased, but at the senior meeting on Thursday night at the Ironopolis the outside teams stated they would not play senior if they did not get the 60 and 40 per cent. gate.

SAYS M.A.A.A. ARE ALL AMATEURS

Sporting Editor World: I have noticed in the papers of late a considerable amount of talk regarding the Tecumsehs and Toronto Lacrosse Clubs being taken into the big league. Now, being a lover of clean sport, I do not see the reason why they are seeking admission, as I know for a fact that all the members of the M.A.A.A. are amateurs in good standing, and to mix themselves up with professionals would be their downfall. I had the pleasure of visiting their club last week, and must say it is a credit to their creditable efforts to get up a team of players that would play for the love of the game, same as in the good old days, when J. L. Hughes, C. Robinson, C. Nelson, Ike Suckling, John Henderson and Bob Coulson, with numerous others, played for the love of it, and I am sure it would meet with success in more ways than one.

J. D. Lea & Company's liquor store at 138 York-street was visited by burglars last night, who carried away eight bottles of liquor and three dollars. Occupants of the flat above the store heard the smashing of glass about midnight, and discovered two men carrying goods from the back window into the store. The officer on the beat was notified and he saw a man running thru the dark. He fired. The bullet struck a shed. Both men escaped. Two dozen bottles of various brands had been taken out of the store, but the officers found only sixteen in the yard. Two panes of glass was all that obstructed the burglars, who were evidently "green hands" as evinced by the disturbed state of the store.

FOOTBALL MEN AT BERLIN 27TH ANNUAL OF THE W.F.A.

Rules Amended, Schedules Made, Officers Elected and D. Forsythe Given Testimonial.

Berlin, April 13.—(Special)—The 27th annual meeting of the Western Football Association was held here to-day with about 50 officers and delegates in attendance. President Cheswright in his annual address announced that he would not again stand for the presidency, which office he has held for six years, and also that Secretary Forsyth had decided to resign. The president made a plea for close application to business throughout the season, so that all matters might receive proper consideration without waste of time. The financial report submitted by Mr. Forsyth showed a surplus of \$100. At noon the delegates adjourned to the Walker House for dinner. During the afternoon the time spent there was the presentation of a purse of \$25 in gold, along with a testimonial, to the retiring president, David Forsyth, together with glowing commendations on his long and successful career in the way of speeches and contributions to the game. The motion picture of Mr. Forsyth, there were toasts to old and new members of the association, and the W.F.A. was reorganized. The new officers were: President, D. Forsyth; Vice-president, H. M. Jackson; Secretary, H. M. Jackson; Treasurer, H. M. Jackson; and so on.

Representatives of Hough Cup clubs met and a deadlock ensued on the vote as to whether the Hough Cup contest should continue as at present or be changed to the home and home game system. It was decided to continue as at present. The motion picture of the Hough Cup contest was shown, and the Hough Cup was presented to the winner, H. M. Jackson.

FIRES AT MIDNIGHT THIEVES

But Men Who Entered York-Street Store Got Away.

J. D. Lea & Company's liquor store at 138 York-street was visited by burglars last night, who carried away eight bottles of liquor and three dollars. Occupants of the flat above the store heard the smashing of glass about midnight, and discovered two men carrying goods from the back window into the store. The officer on the beat was notified and he saw a man running thru the dark. He fired. The bullet struck a shed. Both men escaped.

Snake Sounded Fire Alarm

Martinsburg, Ind., April 13.—Seeking a warm spot in which to sleep, a rattlesnake crawled upon the boiler of the sawmill here sometime last night. To escape the heat when steam was being raised this morning, the serpent wound itself around the rope attached to the steam whistle. Its weight was sufficient to cause the whistle to blow continuously. Sam Sterling procured a shotgun and killed the reptile, which ensured three

HAMILTON BRICKLAYERS MAY LOSE THEIR CHARTER

Continued Reluctance to Recognize International Representative Likely to Cause Rupture

Hamilton, April 13.—(Special).—A large section of the striking bricklayers and masons are still defying the international executive. While some of the men have obeyed the orders of the international officer, Thomas Izard, and have gone back to work at 45 cents an hour, pending a settlement of the trouble, a majority are still holding out for 50 cents. They have refused to recognize Mr. Izard, and when he attempted to speak at their meeting Thursday night they refused to listen to him. Mr. Izard went to Buffalo to-day to consult other international officers and may bring some of them back with him. It is intimated that if the men refuse to obey him he will take away the charter of the local union. The contractors, who were at first willing to arbitrate, say they will refuse now to pay more than 45 cents an hour.

B Company won the annual marching and firing competition held by the 13th Regiment to-day. The order at the finish was: B Company 541, F 442, H 569, C 390, E 277; A Company with 418, D with 363 and G with 315, were disqualified for violating rules of competition.

The T. Eaton Company, it is rumored, has acquired a controlling interest in the Turbina. John Moodie, who was president of the company, says that he still holds a controlling interest, but says the company has been reorganized, with John E. Eaton, president; John Vaughan of the Eaton Company, secretary-treasurer, and Harry Magee, representing the same company, taking Cyrus A. Birge's place on the board of directors. Mr. Moodie has been elected vice-president. No change in the company's program will be made. Mr. Moodie said, but a second boat will be put on the route.

President Roosevelt is taking a hand in the movement for preserving the scenic grandeur of Niagara Falls. He has given his blessing to the Burton bill, brought into the house of representatives the other day, with the endorsement of the American section of the international waterways commission.

It is a little difficult to estimate the significance of this movement. That the spectacular magnificence of the Falls must not be destroyed is a commonplace upon which practically all the people on both sides of the river are agreed.

The American section of the international waterways commission has presented a report which received little praise from the Canadian press. With characteristic coolness the commissioners propose to limit the consumption of water for power purposes on both sides of the falls to about 85,000 cubic feet per second.

The Canadian commissioner's report to be presented in a few days by Chairman Gibbons may possibly tell a different story as to the proportions of power available on the two sides of the falls. Indications seem to show that the American case is not very different from a bluff.

The proposal to prohibit the extended importation of power from Canada certainly gives to the American commissioners a better appearance of solidity than anything advanced in their report. If it is seriously meant it will force the power companies to look to Ontario more and more for a market.

It is reported that hundreds of petitions have been sent to Ottawa from Americans praying for active agreement with the American commissioners' proposal to limit development. A correspondent suggests to The World that the coal "barons" of Pennsylvania may be fostering the American agitation. The municipalization of electricity in Ontario would decrease their market considerably.

into the State of New York and Ohio from Niagara Falls will also prejudice coal operators' profits. The American interest which stands to lose most by Niagara power is the coal trust. Stranger things have happened than that the coal "barons" should be carrying on a propaganda which, while it is nominally intended to preserve undiminished the beautiful clouds of spray which accompany the roar of Niagara, may really be intended to preserve the manufacturing supremacy of the anthracite country and incidentally the wealth of the gentry who dispense coal to a grateful nation.

Failure to appreciate and meet the needs of the people has thrown serious obstacles in the path of Canadian telephone development. Sir William Mullock, who had the wit to perceive this, and was sufficiently independent of corporation influence to take a broad and statesmanlike view of the question, favored nationalization of all the telephone systems of the country, and their transfer to the postoffice department, a solution also favored by the late and present British governments. Unfortunately for the Dominion, his proposals were too advanced for the reactionary federal government, and he had not so much of the courage of his convictions as was needed to stand for the rights of the citizens in the matter and preferred to the role of reformer the ease and dignity of high judicial office.

But the telephone grievances would not down, being, indeed, too real and serious. The fall down of the Dominion cabinet at once endowed local measures of relief with new life. Manitoba led the way by a demand for a formal acknowledgment of its right to expropriate all telephone lines within its bounds, even the operating under a Dominion charter. This demand has been cordially supported by the Canadian municipalities, and it is to be hoped will be vigorously pressed. Compelled to do something to still the rising tide of feeling in favor of public ownership and operation, the Dominion ministry presented a bill proposing to place all telephone companies under the control of the railway commission and to compel access to railway stations and inter-connection among different systems. Government control of companies performing public services of a monopolistic nature—or what is practically so—has, however, signally failed to produce permanently beneficial results, and can never adequately meet the legitimate requirements of the citizens.

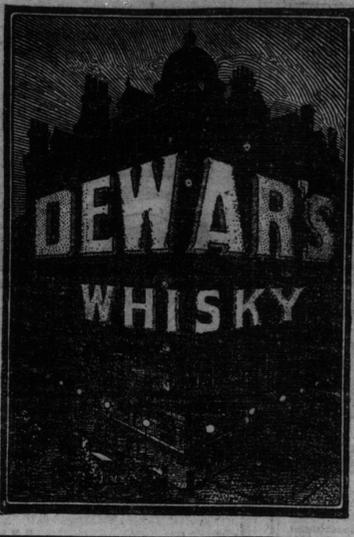

The bill relating to local municipal telephone systems recently introduced by Hon. Adam Beck in the Ontario legislative assembly, attacks the problem from another side, and in a thoroughly practical manner. There cannot be the slightest doubt that at the present moment telephone systems can be installed throughout the province at a capital cost permitting of large abatement from the rates charged by the Bell Company. Mr. Beck's bill, which was given a second reading on Thursday, and will be further discussed in committee, authorizes municipalities on a requisition by twenty or more intending subscribers, to establish a telephone system at their expense, and also provides for the linking up of the systems which may thus be placed in operation. Conformity to standard requirements is to be secured by regulation of the new railway commission.

By placing the local systems in charge of the municipal bodies, provision is made against abuse of neglect, and also against absorption by corporations like the Bell Company. In this way there may in time be built up a network of intercalated telephone lines, which may ultimately resolve itself into a truly provincial service. But nothing can excuse the failure of the Dominion government to grapple with the situation on a general, comprehensive and instant principle. Mr. Beck, however, in his modest but timely bill, has again shown his sympathy with the rights of the people and his sound judgment.

To-morrow morning the Christian world will again welcome the dawn of another Easter Day. What it commemorates is the basic fact that gives Christianity life and abiding power.

PHYSICIANS RECOMMEND THE USE OF LACTATED FOOD.

Mothers whose breast milk is of faulty quality should understand that Lactated Food is the food that is nearest mother's milk than any other. It has been shown in every investigation that babies fed on Lactated Food live and thrive better than when brought up on other forms of food. Lactated Food makes vigorous and active babies when other foods fail in the work. Long trial has shown Lactated Food to be perfectly adapted to the age of growth when the digestive organs are making enormous demands to meet the needs of growth and development. An eminent physician says: "I have been familiar with Lactated Food for years; and my immediate professional friends and myself have it always at hand." The child who is puny, pale or sallow is likely to grow up with inferior mental and physical powers. The child that is brought up on Lactated Food starts familiar with everything in favor of health, vigor and life.

Paul, the apostle to the Gentile nations, knew well the craving of the human heart for knowledge, or, at the least, a reasonable certification of an existence beyond the grave. Therefore, when he stood on Mars Hill and sought to rivet the ears of the eager and volatile Athenians ever seeking some new thing, the argument to which he appealed in testimony of the faith he preached was the raising of his Master from the dead.

Since the earliest Easter day, Christian apologists have recognized that Christianity stands or falls by the truth of the story of the resurrection. If the Christ did not then burst the elements in which the loving hands of the faithful remnant of his little band of disciples had wound his mutilated body, nothing separates Him from the personality of any other religious teacher of the antique world, except the greater simplicity, purity and spirituality of his teaching. And for instruction on the life hereafter men would have had to turn again to such speculations as those so fraught with enduring charm, which are given in the Phaedo of Plato.

Wonderful and penetrating as are the illustrations and conjectures the great disciple of Socrates places in the mouth of his condemned master, they appeal only to minds naturally attuned to the pursuit of divine philosophy. This Plato himself perceived when in another place he declared there was a God, the Creator and Father of the universe, and a life after death, yet he knew not how these convictions could ever be made known to the mass of mankind; unless, indeed, it pleased God to reveal Himself to them. That revelation came in the fulness of time by the mouth of One who, for thirty years, to outward appearance, was undistinguishable from his neighbors and fellow in the little town set by the Syrian Sea. Yet His birth, death and resurrection is beyond a doubt the central pivot of human history—the sum of the ages that preceded His advent; the germ and inspiration of the centuries that have passed since His ascension and will pass till man achieves his destiny.

If the story told by the evangelists be but a fable, then is the evolution of these nineteen hundred years a greater marvel and mystery than is the life of the man who is their hero. Notwithstanding the many attempts to penetrate the veil that parts only when the mortal coil is dropped, there remains but the conclusion of the poet, in which he summed up the years of his brooding over the loss of his friend: "We have but faith; we cannot know. For knowledge is of things we see, and yet we trust it comes from Thee. A beam in darkness; let it grow."

The time may come for more than this, but in an age of scientific wonders we are living every day by the exercise of faith in forces and agencies, some of whose properties are known and measured, but of whose real nature even the most profound investigator is ignorant. When in the spiritual world other forces and agencies are no less manifest. It needs no greater stretch of faith to believe in their existence and in their issuance from "that one far-off Divine event to which the whole creation moves." So to-morrow, as of old, men who seek another and a better country, hearing the joybells that hail another Eastern morn, will rejoice in the larger hope they bring.

FAST STEAMERS ONLY. The Allan Line has made a deal with the C.P.R., by which the C.P.R. "Emmenton" will carry the Canadian Atlantic mails in conjunction with the turbine steamers "Virginian" and "Victorian."

The effect of the arrangement will be satisfactory, inasmuch as it brings into operation the principle for which The World has often contended, that the mails should only be carried by the fastest steamers. There may be just as good reasons for the manner in which the arrangement has been made, also on the face of it, the government itself should directly secure all the advantages of a fast service. Who are the contractors? The Allan Line. Why should they sublet part of their contract? Why should not the government itself have made the best bargain in the interests of the country?

A Striking Sign

of superiority is found by analysts when they subject this choice spirit to thorough examination. They declare it to be mellowed to the perfection of flavor by great age, thus proving excellence. Inferior spirit refuses to develop, no matter how long stored.

Suppose that for any reason the service should become unsatisfactory, the difficulty of placing responsibility might be materially increased, because, although the Allan Line has nominally the chief responsibility, the government, having sanctioned the subletting, would not be so free to hold the Allan Line to account for any failure of the C. P. R.

The deal which has been made is understood to be part of an arrangement by which the Allan Line and the C.P.R. help one another in oriental commerce. Again, everything may be just as it should be. But it is not wise that a government contract for mails should be used as a pawn in negotiations between rival companies.

The C. P. R. thru its railway has a magnificent chance of wresting the supremacy of the Canadian Atlantic trade from the Allans. The mails adjustment may after all be only an acknowledgment by the senior firm of the future predominance of the Junior. The C. P. R., once having become an ocean mail carrier, will not be happy to stay in a secondary position. The C. P. R. will build more and faster steamers.

The government must see to it that the element of competition for the mails is not destroyed. JOHN ALEXANDER BARNUM. Barnum's partner and follower is dead. The line of pre-eminence in the freak show business seems to have been broken. The showman's trade has become a matter of dividends and directors' reports. It has hardly reached the watered stock stage and may, therefore, be regarded as outside the field of high finance.

Bailey was a good emulator of the immortal Phineas. But the modern world has no place for a second pioneer of the stamp of Barnum. The ordinary individual has become too sophisticated to allow himself to get excited about such things as those with which Barnum in his earlier days bluffed the whole country into a state of gaping wonder.

The ingenuity which resolved itself into a mission for the discovery and display of monstrosities in the United States, has, to some extent, become transmuted into social fads and fancies. The excited persons, mostly feminine, who seek readers of society news on the qui vive for fresh sensations along the Atlantic coast and in resorts where the idle rich work strenuously at killing time, have taken to bit and tucker parties, infantile wendings in churches, the multiplication of grotesque customs and the dissemination of stories about one another, which provide as amusing reading as Barnum's autobiography itself.

Barnum the showman may have had a more direct responsibility than he knew for introducing the show element into what used to be a staid and sober community. The spirit of display seems sometimes to have spread to the churches. The meek and lowly Nazarene would not seem an appropriate participant in some modern ecclesiastical displays. Occasionally the religious press itself seems more interested in the popularity of modern divines than in the quieter fruits of meek and chastened spirit-

uality. The church parlor is immeasurably more comfortable than the pentent form.

There is just now a real Zion city, which is set on a hill. It is a neighbor of Chicago. Its polity and proceedings sometimes make one think that the genius of Barnum himself must have been reincarnated by the shores of Lake Michigan. John Alexander Dowrie is the most prominent product of that species of religious snobbery which leads devout but simple souls to set up from time to time a visible prophet, priest and king, in whom centre their hopes and fears.

Dowrie is not an elephantine joke. He is a portent and a warning. It is useless denouncing such a man as a hypocrite. He was once as honest a laborer in the vineyard as the best and least pretentious pastors who have been sent forth by his alma mater—the University of Edinburgh. But he deluded himself. Otherwise he could never have deluded so many other people. It is being proved afresh, and people can't be fooled all the time.

There is a sincerity even in charity, which, in a way, compels respect and admiration. He who has deceived himself is of all men most likely to deceive others. Honesty wears many garbs. Honesty in religion has produced many evils as well as benefits. Queen Mary was as honest a woman as ever breathed, only her record is against her.

It may be that Dowrie is a lunatic. Critics of insurance companies have been called by the same name before now. If Dowrie is off his base to-day, he was not always thus. Fifteen years ago, last November he came to Toronto, preaching the doctrine that man is a tripartite being, whose soul and spirit are different from one another, even as his body and soul are; that, as disease germs, being evil things, can only have been created by the Evil One, it is part of the eternal war between divine beneficence and diabolical cruelty that the works of Satan should be cast out by faith, and that, therefore, the germs of tuberculosis, of typhoid fever and of cancer must flee at the injunction of one filled with the spirit.

Dowrie preached his doctrine with convincing power. Before he left Toronto a congregation which crowded Bond-street Congregational Church rose at his invitation and signified acceptance of the truths he taught. Fifteen years is a long time. Dowrie has "evolved" amazingly since his sojourn in Toronto. He has attained a magnificence in audacity, in the collection of money, in the establishment of himself as a unique theorist, which could not last more than a few years. His own people have cast him out. None can be found to say a good word for him. The showman in religion always comes to a mournful conclusion. Barnum always confessed his fakes; and so did Dowrie.

THE PRINCE ON TOUR.

Schedule of Visit to Toronto, Hamilton and the Falls. Arrangements for the itinerary of Prince Arthur's visit to Niagara Falls, Toronto, and the eastern part of Canada have been completed. H. R. Charlton, advertising agent of the Grand Trunk, was in the city yesterday in connection with the visit, and gives the schedule as follows:

Leave Ottawa on April 20 at 11 a.m. for Niagara Falls, arriving at 11 p.m. On Saturday morning the mayor and council will tender a private electric car to the royal party, in which they may view the scenery along the Niagara River. The prince and his party leave the royal train and take the car at 9 a.m. for Queenston, stopping at the rapids and the whirlpool. At Queenston the party will be met by Brock's monument. From Queenston the car runs back to the rapids above the Ontario Power Company's fore-bay, and, returning, the party visits the Horseshoe Falls. After viewing the falls, a visit is to be made to all the electrical power companies' works, and the great tunnel under the bed of the river above the falls. At 2 p.m. they leave, arriving at Hamilton at 3.05. Two hours will be spent in Hamilton, and at 6.05 p.m. the royal train pulls in to the Union Station. The prince will remain in Toronto until April 27, when he leaves at 2.30 a.m. for St. Henri, Montreal, where the Intercolonial is taken for St. John, N.B., and Halifax. The party returns to Quebec about May 5, and reach Montreal again about May 8, setting sail for home on either the turbine Victorian or Virginian on May 12.

The royal train is made up of a G.T.R. baggage car, a Pullman composite car, a Pullman dining car, a Pullman compartment car and the president's private car, Violet. The Pullman cars are three of the train that took the grand prize at the World's Fair in St. Louis. The entire train will be lighted by electricity, generated thru turbine engines and dynamos installed in the baggage compartment of the composite car. There will also be telephone connection between all the cars while the train is running, and at each of the stopping-places connection will be made with long distance and local circuits. Two of the cars are supplied with baths and a barber-shop is installed in the composite car.

Mr. Charlton will accompany the royal party on their tour thru Eastern Canada. The suite accompanying the prince thru Western Canada are compelled to and will consequently precede the prince in his visit to Toronto and the Falls. They are Lord Reddesdale, Gen. Seymour, Col. Arthur Davidson, Gen. Mr. Lamson, and will make their visit to Toronto, Niagara Falls, Montreal and Quebec next week.

PHILANTHROPIC PETITIONERS. Brandon Sun: Of 481 petitions or memorials praying for the preservation of the beauty of Niagara Falls forwarded to the Canadian government or its members, 467 came from persons or associations in the United States. It must have been philanthropy that so moved our neighbors. Still it might have been more inspiring if it had not been held back till on their own side of the great cataract practically all its water that could be diverted into the power companies' flumes.

Thin Hair. Yes! We had noticed that your hair was looking pretty thin, and that it lacked luster and life. But we didn't like to speak of it! Of course you know smooth, gives it life and strength. SAVES DROWNING BOY.

Bank Man Didn't Hesitate When Youngster Was in Peril.

Dunnville, April 13.—Fred Hines, a lad of eight, was saved from drowning in the Welland Canal here this morning by the prompt action of M. L. Parry of the Bank of Hamilton.

Parry was crossing the locks when he saw the boy come to the surface in the swift current below the locks. He jumped into the canal and succeeded in catching him before he was carried under again by the current.

The boy was fishing from a boat and fell into the water.

A MILLION DOLLAR DEAL.

Mr. Humphrey's Purchase of Siver Group Attracts Attention of Mining Men.

The San Francisco Call, under date of March 3, prints the following despatch from Goldfield, concerning a recent heavy deal in the new Manhattan district:

"A new deal involving a million dollars is being manipulated by C. F. Humphrey, a San Francisco attorney, who has purchased for himself and associates the great Siver Group, also known as the Georgey Group. These claims lie half a mile below Central, the company town of Manhattan.

Two mining engineers of world-wide reputation, E. E. Stuart, an old-time mining inspector for the London Exploration Company and a nephew of Gov. Sparks, and W. W. Adams, of San Francisco, expert for the Guggenheims, expressed their opinion that Manhattan, Nevada, will soon take its place as one of the great gold camps of the world. Mr. Adams stated of one property, that it was the greatest that he had ever seen for the two months of development work.

"People are still flocking in by hundreds to Manhattan, and it is estimated that there are 7000 souls living there."

Rich Stroke on Broncho No. 1.

From The Manhattan Mail; Jan. 10. On Tuesday morning, Bert Koppenhaver, owner of lease No. 1 on the Broncho claim, struck a vein running \$20,000 to the ton at a depth of 8 feet from the surface. The claim has been worked with visitors, who wish to get souvenirs of the rich rock so liberally covered with bright, shining gold.

THAT OVER WORKED, PLAYED OUT FEELING AMONG WOMEN

There are thousands of females all over our land who are broken down in health and dragging out a miserable existence, overburdened with diseases peculiar to their sex, apparently growing old while yet young. Often they have pale or sallow complexion, hollow, sunken eyes, with a lifeless look; the face has a pinched and haggard appearance; they are weak, weary and trembling, often extremely nervous, starting at every little noise. Many are low-spirited, and some are fretful. Some are apparently bloodless, with cold hands and feet, while others are flushed by an unequal circulation of the blood, dizziness, and sometimes dimness of vision, loss of memory, and often loss of appetite and sleep, and are wearied with terrible dreams.

Palpitation of the heart, nervous prostration, another and sinking spells, shortness of breath and the sensation of pins and needles, are all indications of a weakened condition of the heart or nervous system, and should any of them be present we would strongly advise the use of

MILBURN'S HEART AND NERVE PILLS

They bring health to the broken down, energy to the weakened constitution, tone up the tired, overstrained nerves, and strengthen the weak heart.

Mr. Edward Jackson, Hall's Bridge, Ont., writes: "For a year I was greatly troubled with nervousness and loss of appetite, and could neither sleep nor eat. After taking a few boxes of Milburn's Heart and Nerve Pills I was completely cured and can recommend them to all sufferers."

Milburn's Heart and Nerve Pills 50 cents per box or three boxes for \$1.25, all dealers or The T. Milburn Co., Limited, Toronto, Ont.

HARDWAREMEN OF ONTARIO FIND IT WELL TO ORGANIZE

Dealers in Smaller Places Seem to Be Especially Interested in New Association.

A practical step taken yesterday at a representative convention of hardware men, held at the Rossin House, was the formation of a body called the Retail Hardware and Stove Dealers' Association of Ontario.

A. W. Humphreys, elected chairman of the day's proceedings, pointed out the necessity for organization, and the value it would be to the retailers in the maintenance of prices and the collection of debts, as well as in the removal of several abuses calling for reform.

Whether the newly-formed association shall run independently or in conjunction with the Retail Merchants' Association is to be further considered, and other convention having been fixed for May 15 in Toronto.

J. R. Hambley (Barrie) instanced the advantages such an association would be to hardware men in a locality like Barrie, in which there are four hardware stores. The association, he urged, must take up all the hardware lines in detail, to consider the fact that there are so many towns and so many different lines.

That the hardware merchants feel the competition on the part of other trades was stated by Mr. Scott, who remarked, for example, that in Mount Forest there is a drug store in which looks and cutlery are sold, "I believe," said he, "that we can make our power felt, and get legislation so that our goods may be kept more to ourselves."

Mr. P. W. Woompland of the fact that Tillsonburg wholesale prices are made known thru the publication of them in the Toronto papers. This was a state of affairs that could be overcome by the association.

Hardware men unable to present work promising their practical support, Mr. Peart of the St. Mary's Hotel, Limited, wrote of the benefits to be derived from co-operation and organization, pointing out for one thing that freight rates should be considered and requesting that his company be enrolled on the membership of the association. Another encouraging letter was written by James P. Davis of Sudbury.

The following provisional officers were appointed: President, A. W. Humphreys; first vice-president, W. J. Scott (Mount Forest); second vice-president, J. R. Hambley (Barrie); treasurer, John Caslor (Toronto); and secretary, Weston Wrigley.

The attendance, in addition to the chairman, included: R. J. Walkem (Tottenham), Fred W. Otton (Barrie), D. H. Becker (New Hamburg), John T. (Carleton Place), John McDonald (Cambridge), J. R. Hambley (Barrie), W. G. Pow (Tillsonburg), John Caslor, J. W. Fearcock, Austin Eaton (Toronto), E. A. Rickard (Verney), W. J. Scott (Mount Forest), J. Conrad (Waterloo), H. M. Mowatt, J. Edy and S. Brubaker (Trenton), J. R. Callaghan (New Hamburg), W. Wrigley and E. M. Trevis, secretary of the Retail Merchants' Association.

MANY CHILDREN SICK.

Get their feet wet, catch cold or cramps and give their mothers an anxious time.

With the first shiver or sneeze rub the little one's chest with Nerviline, gargle the throat, and give ten drops in hot water at bed time. Next morning all is well, no cold, no time lost at school.

WORK-DAY IN NEW YORK.

For First Time in Years Good Friday Was Not Official Holiday.

New York, April 13.—For the first time in many years Good Friday was not observed as an official holiday in New York to-day. All the city departments were in operation and the stock exchange was open for business as usual.

In both of these instances money was responsible for the change in the city's condition.

The city's corporation counsel having decided that the department heads had no power to allow per diem pay for time not actually spent in the city's service, the laborers requested that the usual holiday be omitted.

Their request was granted.

The governing board of the stock exchange decided not to suspend operations for the day because of the unsettled condition of the money market. The consolidated stock exchange and the curb market were open also, but the produce, coffee and cotton exchanges were closed in recognition of the day.

Dies Far From Loved Ones. The Cornishmen's Society yesterday attended in a body the funeral of one of their number, J. Clements, who died in the General Hospital, after a few days' illness with pneumonia. Mr. Clements had been in Canada over a year, in the employ of R. A. Rogers & Co., and his wife was to have sailed for Canada on Thursday. Funeral services were conducted by Rev. R. Whiting, and the Cornishmen's Choir sang two hymns. Interment took place in Mount Pleasant Cemetery.

Ontario Library Association. At Paris, Ontario, the Library Association annual meeting, to be held in the Canadian Institute, 198 College-street, on Monday and Tuesday next, the leading feature will be an open conference on the library buildings of Ontario. This will be profusely illustrated by lantern slides of the following buildings: St. Nicholas, Paris; Smith's Falls; Chatham; Lindsay; Windsor; St. Thomas; Brockville; Guelph; Clinton; Stratford; Berlin; Brantford; St. Catharines; Ottawa. In addition some of the most recent English and American libraries will be shown. The meetings are open to all interested in library matters, the first session opening at 2:30 p.m.

2000 OUNCES TO THE TON. Average of Cobalt Silver Queen Ore—Stock Now Being Offered.

An unusual opportunity for mining investment is offered by the Consolidated Mines, Limited, a corporation which has been formed under strong auspices for the handling and placing of legitimate mining propositions from the Cobalt district. This corporation limits itself strictly to the flotation of such mines as are actually producing ore, thus eliminating the risky speculations which have not a solid investment basis and enabling the public to participate in the solid development of the Cobalt ores.

Such a proposition is the Cobalt Silver Queen, Limited, shares in which are to-day offered for subscription. This company owns the famous Stormont mine, which has been the shipping mine of the Temiskaming and Hudson Bay Mining Co. This mine has been and is now, steadily producing ore, and the shipments to date have averaged in value about 2000 ounces of silver to the ton, and have actually returned to the owners of the T. & W. B. Co. 200 per cent. on the par value of the shares. The Stormont vein is known as one of the most valuable in Cobalt camp, and the new company, which now owns it, the Silver Queen, will put in new machinery for the purpose of increasing its output. The stock of the Cobalt Silver Queen, Limited, offers an attractive proposition to those interested in the development of assured and paying mines.

BUILDING STRIKE IN ST. LOUIS. 2000 Bricklayers Called Off Jobs Where Non-Union Men Are.

St. Louis, Mo., April 13.—Two officers of the Bricklayers and Stone Masons International Union drove around St. Louis to-day, calling off bricklayers from every building job on which the stone masons employed were not affiliated with the International Union.

Work was reported stopped on 150 buildings. It is estimated that 2000 men stopped work. Officials of the union say they believe they have the better of the situation, and that the strike will be over within a week.

ORIGIN OF EARSTER EGGS.

Present Day Use of Emblems in Designing of Easter Novelties.

Antiquarians inform us that the association of eggs with Easter is to be traced back to the ancient religious beliefs of the Egyptians, Persians and Greeks—among all of whom an egg was an emblem of the universe, the work of the supreme Divinity. Be that as it may, throughout Europe and Asia and the western world as well, Easter eggs are to-day a well-nigh universal institution. Among the Easter-tide gift novelties shown this year by Ryrie Bros., Limited, are several emblematic eggs or "chicks" in their design. A novel sterling silver hatpin at 55 cents consists of a dainty chick surmounting the egg from which it has emerged. An egg-pipon in somewhat similar design, sterling silver, sells for \$1.

OBITUARY. Richard Garnett. London, April 13.—Richard Garnett, the author, died to-day of internal hemorrhage, at his residence in this city. He was 71 years old.

Richard Garnett, C.B., LL.D., was born at Lichfield in 1835 and in 1851 was appointed assistant librarian in the British Museum; in 1875, superintendent of the reading-room, from 1879 was keeper of the printed books there and for many years edited the museum catalog. His writings include: autobiographies of poets and authors' verse and history of literature. He was a contributor to the Encyclopaedia Britannica and was editor of the International Library of famous illustrations. He was president of the Librarians' Association, Modern Language Association and Bibliographical Society, and a member of the American Philological Society, Dante Society and Societa Bibliografica Italiana. According to "Who's Who" his recreation was "change of occupation, dolce far niente (a sweet existence)."

Half a dozen plays, five of them Shakespeare's, will be given next week in the Princess Theatre by Robert Mantell, who comes under the management of William A. Brady. In what are managerially described as splendid revivals, well-acted, of a list of plays that permits Mr. Mantell to display his versatility in the impersonation of the great roles of the English drama. Great roles, that of them, at least, surely are, Hamlet, Macbeth and Lear, however much may be the difference of opinion as to the essential greatness

Nowadays, when it is easy to curl around the English language to any situation or condition, one hears of a popular theatrical production described as "screechingly funny," "excruciatingly humorous," or a "howling success," without understanding exactly what is meant by such strenuous expressions. A good illustration of the meaning is found in "Checkers," a play by Henry Blossom, which will make its second appearance in Toronto at the Grand Opera House next week, opening with a special matinee on Easter Monday.

"Checkers" is a story of the race track, of horses, and the men whose hearts beat time to their hoofbeats.

The Black Patti Troubadours, demonstrators of fun, sweet songs, spirited dances, cake walks and buck dance contests, individually and collectively the most talented and collectively the most entertaining variety of stage entertainers, will be the attraction at the Majestic next week. They include Black Patti, the greatest singer of her race, John Rucker, "The Alabama Blossom," reputed to be the funniest man alive, Al Watts, another comical character, John Green, "The Virginian Mammy," Mattie Phillips, the octopus; James Reed, premier colored bass singer or Gripper, but builds up the whole; helps the stomach, gives a good appetite and makes you feel healthy all over. WHEN LA GRIPPE LEAVES YOU WEAK

You Should Guard Against Lung Troubles by Using Psychine.

"La Grippe left my lungs and whole system very weak. After dragging and growing steadily worse with other treatments, I tried Psychine and found a complete cure." That's what Mrs. D. McKinnon of Ingonish, C.B., writes, and she points the road to health to the thousands of similar sufferers.

It is when the lungs are weak from the effects of Colds and Grippe that the germs of consumption that are about everywhere get in their deadly work.

Make the lungs and the whole body strong and healthy by using Psychine and have nothing to fear from that white plague whose army of victims is steadily marching towards the grave. Remember, Psychine not only cures the Cough, Colds, or Grippe, but builds up the whole body, helps the stomach, gives a good appetite and makes you feel healthy all over. BULLETS TO PROTECT WIFE.

New York Sharpshooter Kills and Wounds Intruders.

New York, April 13.—When two men, who Herman Miller said had been his friends, called at his flat in East 13th-street before daylight to-day and choked his wife, who had answered their knock, he shot and killed one and wounded the other. Miller said that they attempted to rob him. Edward Scanlon is dead as a result of the tragedy. Patrick Donovan, is slightly wounded and locked up on a charge of attempted assault and robbery. Miller himself is under arrest, charged with homicide, and his wife is suffering from a flesh wound inflicted by a bullet from her husband's revolver while he attempted to rescue her.

According to Miller's statement to the police his wife was seized by the throat by Scanlon when she opened the door. Her scream awakened him in time to see Donovan rushing across the bedroom toward him. Donovan, he says, demanded his money and jewelry. Miller, who up to six months ago was a sharpshooter in the United States army, serving in the Philippines, drew a revolver from under his pillow and shot at Donovan, inflicting a flesh wound. Donovan then ran out of the flat, but was arrested at the door by a policeman.

Miller then sprang to the door, where he saw his wife struggling to get out. Scanlon's grasp at her waist, however, attempted to shield himself with Mrs. Miller's body. Miller fired again and one of his bullets pierced Scanlon's temple, wounding him mortally. After an investigation the police arrested Martin Quinn, a roofer in Miller's flat, as a suspicious person, it being alleged that Quinn had been seen talking with both Donovan and Scanlon earlier in the night.

2000 OUNCES TO THE TON. Average of Cobalt Silver Queen Ore—Stock Now Being Offered.

An unusual opportunity for mining investment is offered by the Consolidated Mines, Limited, a corporation which has been formed under strong auspices for the handling and placing of legitimate mining propositions from the Cobalt district. This corporation limits itself strictly to the flotation of such mines as are actually producing ore, thus eliminating the risky speculations which have not a solid investment basis and enabling the public to participate in the solid development of the Cobalt ores.

Such a proposition is the Cobalt Silver Queen, Limited, shares in which are to-day offered for subscription. This company owns the famous Stormont mine, which has been the shipping mine of the Temiskaming and Hudson Bay Mining Co. This mine has been and is now, steadily producing ore, and the shipments to date have averaged in value about 2000 ounces of silver to the ton, and have actually returned to the owners of the T. & W. B. Co. 200 per cent. on the par value of the shares. The Stormont vein is known as one of the most valuable in Cobalt camp, and the new company, which now owns it, the Silver Queen, will put in new machinery for the purpose of increasing its output. The stock of the Cobalt Silver Queen, Limited, offers an attractive proposition to those interested in the development of assured and paying mines.

BUILDING STRIKE IN ST. LOUIS. 2000 Bricklayers Called Off Jobs Where Non-Union Men Are.

St. Louis, Mo., April 13.—Two officers of the Bricklayers and Stone Masons International Union drove around St. Louis to-day, calling off bricklayers from every building job on which the stone masons employed were not affiliated with the International Union.

Work was reported stopped on 150 buildings. It is estimated that 2000 men stopped work. Officials of the union say they believe they have the better of the situation, and that the strike will be over within a week.

ORIGIN OF EARSTER EGGS.

Present Day Use of Emblems in Designing of Easter Novelties.

Antiquarians inform us that the association of eggs with Easter is to be traced back to the ancient religious beliefs of the Egyptians, Persians and Greeks—among all of whom an egg was an emblem of the universe, the work of the supreme Divinity. Be that as it may, throughout Europe and Asia and the western world as well, Easter eggs are to-day a well-nigh universal institution. Among the Easter-tide gift novelties shown this year by Ryrie Bros., Limited, are several emblematic eggs or "chicks" in their design. A novel sterling silver hatpin at 55 cents consists of a dainty chick surmounting the egg from which it has emerged. An egg-pipon in somewhat similar design, sterling silver, sells for \$1.

SPLENDID LOT OF DOGS
THE ONTARIO KENNEL CLUB

Show in St. Andrew's Hall Attracts Large Crowd and is of Surprising Merit.

With the exception of a few gentlemen who were toothed with considerable vigor by some of the exhibitors, everyone of many hundreds of people who visited the dog show in St. Andrew's Hall on Friday enjoyed an exhibition which was a decided credit to its promoters.

It was the inaugural bench show of dogs by the Ontario Kennel Club, under the rules of the Canadian Kennel Club, and it brought out a beautiful variety of aristocratic canines, which was a surprise. The range was good, too, from the bull dog with the bad reputation, to the saucy toy terrier that suggests a flea on a dog more than a place in the dog directory.

Wm. Hammill is the busy president of the club, and he wants it noticed that the show will go on to-day. The admission fee is not prohibitive, and the show has all the earmarks of a labor of love, combined with the usual unpleasant odor which can only be really appreciated by the man who owns the dog making the noise.

Other anxious promoters of the show were: John Dunbar, J. H. Crocker, C. H. Anderson, C. A. W. Metcalfe, H. Kenyon, J. V. McAree, D. Wheeler, S. Gordon, C. D. Baker, W. J. Wright and Dr. Campbell. The judges included George Carley of Hamilton, Charles Farrow, H. Watson, J. Gordon, Toronto; Mrs. M. O'Rourke, Hamilton. The knovers all about those nuisances classified as toy terriers; J. Hill, Woodstock; the spaniel man, Mr. Williams and S. Hobart, Toronto, and Mr. McEwen, Byron, Ont.

It must have been a consolation to the judges to have such a fine brood of Easter dogs to choose from. In all branches the pickings were hard to make owing to the excellence of the exhibits. Individual mention is hard to make, in view of the excellence portrayed, but the little spaniel, Lady Belle, owned by Mr. Crowther, also it did not escape the first prize, looked great to the men who like spaniels. A black spaniel owned by Mr. Conroy was the pet of all the visitors. It was named Ruby, and it tied with Lady Belle in point of popularity.

A couple of Irish water spaniels and some fine field spaniels are in the collection. Collies of all breeds and various classifications seem to predominate. The Bedlington is very good, and so are the Welsh terriers. The show is surprisingly good, with nearly 300 entries.

SAFEGUARD THE CHILDREN.

There is no telling when a medicine may be needed in homes where there are little ones. Therefore, the prudent mother will always keep a box of Baby's Own Tablets on hand. These tablets promptly cure indigestion, colic, sour stomach, constipation, diarrhoea and teething troubles. They break up colds, prevent cough, expel worms, and give the child sound natural sleep. Mothers have the guarantee of a government analyst that these tablets contain no opiate or poisonous soothing stuff. Mrs. J. C. Childs, Prosser Brook, N. B., says: "Baby's Own Tablets act like magic. When a little one is ill, and I would not feel safe without a box in the house." You can get Baby's Own Tablets from your medicine dealer, or write to 25 Avenue A, New York, N. Y., Williams Medicine Co., Brockville, Ont.

REBUILD YOUR TIRED, ACHING BODY

Winter has left you in a state of fatigue and weariness. The vitality of your blood is gone. Your nerves are wretchedly weak and you find it hard to sleep. The temptation to "brace up" with an alcoholic mixture is great, but its uselessness is plain to everyone. Better follow Nature's plan; it's always a sure one. First create new appetite. Improve your digestion. Perfect the process of assimilation. This will ensure a supply of rich nourishing blood. Healthy blood soon makes a healthy body, and a system fed by pure, rich blood is bound to gain in energy and strength. Get well and stay well, use the tonic "Ferrozone," which is composed of concentrated vegetable extracts that supply nutrition that every sickly person needs. No matter how long you've been ill for health, Ferrozone will win you back like it did Mrs. Sadie E. Hishop of Whitby, Ont., who writes: "Ferrozone not only brings health to the sick, but has power to cure quickly after being confined to bed with sickness. I seemed unable to make any headway on the road to complete health. My vitality was low and I was in great need of strength. My nerve force was gone, and from headaches and poor sleep I was in bad shape. Ferrozone was just what I needed. It increased my strength, gave me a new feeling, my strength came about eight boxes and was made perfectly well. My doctor thinks Ferrozone a wonderful cure." Your druggist sells it in 50c boxes or six boxes for \$2.50. By mail from N. C. Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

MITCHELL EXPRESSES HOPE
BAER WILL SEE NEW LIGHT

Says Operators' Reply Was Written in Haste—Doesn't Expect Strike.

cheil of the miners' union was busy to-day preparing to close his headquarters. All the members of the general scale committee have left for their homes in the anthracite regions, and will not be called together again until after the operators reply to the propositions submitted to them yesterday by the miners.

In the face of the pessimistic expressions of some of the members of the scale committee, President Mitchell is hopeful of a peaceful ending of the controversy with the operators. He believes the operators will make an answer which will permit the continuance of the negotiations instead of abruptly ending them.

Mr. Mitchell goes to Indianapolis tomorrow to prepare for the meeting of the international executive board of the miners' union. "I do not consider that the reply received yesterday from President Baer is final. It was written on the spur of the moment and without deliberation. I expect that the answer yet to come from Mr. Baer in a week or two will open up a new line, and I do not think the situation is such that there will be a strike. There is reason to believe that the operators may see a new light."

E. B. Sturgess of Scranton, an independent coal operator, and one of those who signed the letter sent to the operators urging them not to concede the demands of the miners, called on President Mitchell of the miners to-day. After a brief conference with Mr. Mitchell he said: "I am here to see Mr. Mitchell about one matter and that is all. I am sorry that my visit has become known as none of the other operators knew that I was coming here. Mr. Mitchell said: 'I still think there will be a strike.'"

President Mitchell declined to discuss the conference.

RIVAL TREASURER FACTIONS
ARE EJECTED FROM SYNAGOGUE

Warm Time on Chestnut Street Over Divided Desires as to Control of Funds.

Sergt. Armstrong and a detachment of police officers were called upon yesterday evening to quell a quarrel in the Jewish Mission at 109 Chestnut-street. When the officers arrived everything was in an uproar and the excited movements of the congregation were similar to "the pit." The sergeant saw the two leaders of the warring factions and obtained their consent to putting everybody out of the synagogue. This was done, and after continuing the quarrel on the street for over an hour, the two hundred Hebrews agreed to go to their homes.

The trouble arose over who was to be chairman of the financial committee of the synagogue. For years this post has been filled by Henry Griesman of 72 Chestnut-street. This year the congregation decided on a change, and a dark horse in the person of one Shearer was elected by a large majority. A number of the adherents of Griesman met in a house on Elizabeth-street and elected him for the position, claiming that it was a full meeting of the congregation. Yesterday when the two men claimed the right to control the funds of the church, which are considerable, there was trouble.

FIND NETS AT ISLAND.

Police Make Another Raid on the Fish Poachers. Policemen Birney and Lydiatt stole a march on the fish poachers yesterday morning. The officers, instead of frequenting Ashbridge's Bay, which had been their haunt previous to that time, took in Centre Island and the surrounding waters. As a result they deposited seven nets in police headquarters. They were found in the waters between Ward's Island and Hanlan's Point. The best net of the haul was one found in Long Pond. The owners were seen placing it, but the officers lost the men in the dark, although they only had a slight start on them. The net was found to be one which had never been used before. It was of the deep water variety and was over 300 yards long.

BOY STABBED.

Two Italian boys, 14 years old, ended up a fight yesterday in a clash with knives. The two boys were playing a game for money on Christopher-street, when Silver Lombardo, 189 Centre-avenue, accused Garfield Moquin, 208 Chestnut-street, of cheating. The boy was bleeding badly when taken to the Nursing-at-Home Mission on Hayter-street, and will have to stay in bed for some days. Lombardo was arrested.

THE BENCHERS.

The final ballots have been counted in the election for the benchers of the Law Society. The votes cast for the winning candidates are: Strathly 822, Shepley 798, Wilson 768, Aylesworth 747, Lynch Stanton 715, Clarke 714, Ritchie 708, MacLennan 701, Glenn 699, Guthrie 689, Gibbon 588, Chrysler 585, S. G. McKay 574, Bruce 573, Hoskin 524, Kerr 524, White 503, Barwick 602, Smith 600, Hogg 599, Riddell 586, McPherson 578, Bicknell 573.

SHOCK TO THE GRATERS
BUT LESSON CALLED FOR

Judge Speer's Warning Words to Those Who Regard Government as Fair Prey.

Savannah, Ga., April 13.—In passing sentence to-day on Gaynor and Greens Judge Speer said:

"To some no doubt who are imbued with the belief that all they can get from the government is honest graft, your conviction may excite indignation, astonishment and perhaps not a little alarm. It seems indeed that the public should awaken to the prevalence of this dangerous inclination. The magnificent contributions from the national treasury made by congress for the welfare of the people are imperatively called for a lesson in unprincipled to faithless, conniving, unprincipled representatives of the government and the unscrupulous contractors or other persons who would conspire to plunder the public treasury."

"It will be well for our governmental authorities to reflect that unless the obtrusive construction placed upon our removal statutes, which delayed this case so long, shall be avoided, as recommended by the president and the attorney-general, it will be wholly impossible to have the speedy trial of criminal cases and the greater the crime and the more powerful and richer the culprit, the greater will be the difficulty of bringing him to trial."

Judge Speer concluded by pointing out that good behavior could reduce the sentence to three years each instead of four, and hoped that for the rest of their lives the prisoners would recall the psalmist's words, "A little that a righteous man hath is better than many riches of the wicked."

NAPLES RETURNS TO GAIEITY

Continued From Page 1.

certain degree, sun worshippers. One day they are plunged in the depths of despair because the sun is obscured by falling ashes, and the next day their spirits are buoyant for the sun shines, and they are sprinkling over Naples. To-day the inhabitants of Naples are particularly happy, for not only was the sun shining brightly, but the air was clear of ashes and invigorating, with the result that automobile coats and goggles, the ash-storm costume, were replaced by the usual gay colored apparel, people driving about in their usual style. So much color has returned to the surroundings that the grayness of the buildings, palms, and other ash covered trees make a pleasant contrast with the color of the sky.

Several men, apparently, have braved the terrors of the wild wastes of lava about the royal observatory on Mount Vesuvius. One of them returned this morning and gave an account of a most interesting conversation which he had with Prof. Mottucel, director of the observatory, who was in a very hopeful mood. His visitor left him, the professor said:

Explosive Period Past.

"Very little is known of the volcanic forces, so one can never safely predict what is going to happen, but I think I can with some confidence express the hope, based on my experience here, that the explosive period of the eruption has passed. It is impossible to make a positive statement to that effect, but the probabilities point to a quietening down of the volcano. This, however, does not mean that its activity will entirely cease. Until the crater deeply settles down to a new shape, that is to say, when the ridges have been smoothed down, there is a possibility of further disturbances. For the present, the light blowing wind will in all probability carry the ashes in a direction which will leave Naples free from annoyance of this nature, and as it is the W. wind blowing good to other places, for ashes are the best fertilizer it is possible to use. It is merely a question just now of having too much of a good thing."

Professor's Pluck.

Professor Mottucel to-day climbed up Vesuvius to a point a long way above the observatory, at the imminent risk of his life, and ascertained that unless the conditions change radically there will be no further discharge of lava at present. He added that it was impossible to determine the quantity of sand in the crater, but as the cone had diminished considerably in height and the showers of cinders through the new had been transformed into ashes he believed the end of the disturbance was near.

The Skin Troubles of Babyhood.

Your family doctor will explain to you, if you ask him, the mission of the pores of the skin, and will tell you of the dangers of using pore-clogging powders for the chafings and irritations to which babies are subject. Any mother who has used Dr. Chase's Ointment for this purpose will tell you of how beautifully soft and smooth it has kept the skin, and of how quickly it has cured the chafing or irritation.

Especially during the teething period children are likely to suffer from eczema, and unless it is promptly checked there is danger of it spreading to other parts of the body and becoming chronic.

There is no rival to Dr. Chase's Ointment as a cure for baby eczema, as it is usually called, and it can be used with positive assurance that it will not injure the most delicate skin, but, on the contrary, keep it soft and smooth. Dr. Chase's Ointment is a necessity in every home where its merits are known, and is indispensable in the nursery; 60 cents a box, at all dealers, or Edmanson, Bates & Co., Toronto.

KAY'S Famous For Fine Furnishings. KAY'S

KAY'S SPRING DISPLAY
OF
Curtains and Draperies

Our drapery floor, always a centre of interest to ladies, is doubly attractive just now by reason of the fact that large importations of new, beautiful and exclusive things in Lace Curtains, Drapery Materials, Portieres, Furniture Coverings, etc., have been opened up and are now on sale. The paragraphs below may serve as a kind of descriptive index to the display and will be useful to out-of-town residents, but to all who can possibly visit the store we say, come and see.

- Lace Curtains**
Our showing of Lace Curtains this year better even the grand display we made last season. It embraces a wide selection of delicate hand-made Curtains as well as a multitude of new designs and effects in less expensive varieties. Included are:—
Exquisite art productions in Cluny Lace, per pair 55.00 and 70.00
Charming creations in Point de Flandres, per pair 175.00
Choice designs in Brussels Point, per pair 3.00 to 65.00
Dainty Renaissance and Marie Antoinette Curtains, per pair 2.50 to 75.00
Point Arab—Durable and beautiful, per pair 7.25 to 55.00
Irish Point, in new designs, per pair 3.50 to 18.00
Tambour Net, in many charming effects, per pair 3.75 to 16.00
English Nottingham Lace. A large consignment, which includes some quite unique designs, produced in a specially twisted thread, calculated to stand long and hard usage, per pair 1.00 to 6.00
The Bon Femme and Brise Bleue Varieties are represented by many charming designs on both silk and muslin foundations. The former sell at from \$3.75 to \$37.50 and the latter at, per pair 3.00 to 8.00
- Crepe Curtains and Madras Muslins**
The magnificent stocks of Madras Muslins and Crepe Curtains we show this season will enhance our already high reputation for importing unique and artistic productions in this line. It is vain to attempt a description of the new effects. They are altogether beyond what one usually associates with the term Madras Muslins. In some examples a rich illusive effect suggestive of stained glass has been produced.
A feature which greatly enhances the value of these materials for window draperies is that, by a recently invented process, the colors in many of them have been rendered absolutely fast—neither sun nor water affecting their brilliancy.
Crepe Curtains, 52 in. x 34 yds, at per pair 6.50, 7.50 8.50 and 9.50
Madras Muslins, 48 in., per yd. 50 to 1.25
Madras Muslins, 70 in. 1.25 to 1.75
- Taffetas, Cretonnes, Etc.**
The wonderful perfection to which the art of textile printing has been carried is well illustrated in our spring importations of cretonnes, shadow cloths, etc. To look through the assortment one would imagine that every resource of the textile designer's art had been exhausted in producing the season's patterns and color effects.
Our showing includes double and single width cretonnes, block and roller printed cottons, linens, taffetas and cretonnes, etc., suitable for loose covers, curtains, window draperies, wall coverings, furniture coverings, etc., and for casement curtains.
Cretonnes, 32 inches, from, per yard 25 to 1.50
Linen Taffetas, 50 inches, from, per yard 75 to 1.75
Shadow Cloths, 50 inches, from, per yard 2.00 to 3.00
- Drapery and Covering Materials**
Coming now to the more pretentious fabrics, we want again to emphasize the fact that we buy direct from the foremost producers in Europe and offer our customers a variety quite impossible to ordinary stores, and quote prices they cannot hope to meet.
Our spring offerings include a multitude of new brocades, broches, cotton and silk damasks, armures, tapestries, etc., suitable for curtains, furniture coverings, wall hangings, etc., among them are some fine reproductions of famous old weaves and designs.
In fabrics more exclusively used for portieres, window hangings, etc., we show many desirable makes in plain and figured velours, raglades, etc. Among the velours we want to make special mention of a rich and heavy fabric named Chameleon Velours from an incident which changes color when viewed from different standpoints. It comes in a handsome Gothic design in blue and gold, green and gold, and red and gold.
Tapestries, from 50 in. wide, per yard 60 to 8.50
Silk Brocades, etc., 50 in. wide, per yard, from 1.50 to 8.50
Silk Broches, etc., 50 in. wide, from 4.75 to 16.50
Velours, 50 in. wide, 1.15 to 3.00
Figured Velours, 50 in. wide 1.50 to 8.75

Carpets and Rugs

If at all interested in Floor Coverings you should make a point of seeing our spring assortments. They constitute an exposition of beautiful things in Wilton, Brussels and Axminster Carpet, Oriental Rugs, Parquet Squares and Inlaid Linoleums that will amply repay a special visit.

Window Shades

Window Shades are always very much in evidence, both from the outside and inside points of view. If made of good materials and tastefully trimmed they add much to the general appearance of a house.

We make a specialty of Scotch Holland Window Shades, carrying a large stock in cream stripe, plain cream, white stripe, plain white, and in dark (ivy) green, for shading purposes.

In trimmings we offer the very newest ideas, our assortment ranging from the simplest fringe to the most elaborate combination of lace and insertions.

Prices begin at 80c, which is what we charge for a good Holland Shade, complete with roller.

In Lace Trimmed Shades there is almost endless variety, at prices that rise by easy stages from \$1.25 to \$5.00.

Wall Papers

We show a wide selection of High-class Wall Papers imported direct from leading English, French and American producers. They have been carefully chosen to harmonize with the season's new designs and color effects in carpets, draperies, etc. Write us for samples and prices.

Help for Weak Men

Any Weak, Puny Man Can Be Cured. Show me the men who would not be better than they are. It matters not how the rocks and shoals of life have worn the edge of the spirit of joyousness, have dulled the enthusiasm of youth, and left the nerve less vigorous, the eye less bright, the top less springy, the mind less forceful and the general vitality less powerful than they ought to be at your age, you want to be at your age, you want to be strong.

DR. McLAUGHLIN'S ELECTRIC BELT

Does this naturally, I know that the foundation of all strength is Electricity, and that Electricity alone will renew it. I have applied it for twenty-five years, and have cured thousands of weak people in that time. Every town knows my cures. My book tells of many grateful persons who were cured by my Belt after every kind of medical treatment had failed.

WEAR MY BELT TILL I CURE YOU—THEN PAY ME. GET SOME LIFE INTO YOU! What's the use of dragging your legs about like a wooden man? Feel like a man of spirit! Away with your pains and aches! Off with this wretched feeling as if you were seventy years old and had one foot in the grave!

For a Good Complexion

- FOR Clear Eyes
- Sweet Breath
- Clean Tongue
- Calm Nerves
- Good Temper and
- Poise

Get a Cascaret whenever you suspect you need it. Carry a little 10c Emergency box constantly with you, in your Purse or Pocket.

When do you need one?

- When your Tongue is coated
- When you have Heartburn, Belching, Acid Risings in Throat.
- When Pimples begin to peep out.
- When your stomach Grows and Burns.

That's the time to check coming Constipation, Indigestion and Dyspepsia. That's the time to take a Cascaret.

One candy tablet night and morning taken regularly for a short time, is warranted to cure the worst case of Constipation or Indigestion that walks the earth.

One tablet taken whenever you suspect you need it will insure you against 90 per cent of all other pills likely to attack you.

Because 90 per cent of these ills begin in the Bowels, or exist through poor Nutrition.

Cascarets don't purge, don't weaken, don't irritate, nor upset your stomach.

They don't act like "Physic" that flush out the Bowels with a waste of precious Digestive Juice needed for tomorrow's Bowel-work.

No, they act like Exercise, on the Bowels, instead.

They stimulate the Bowel Muscles to contract and propel the Food naturally past the little valves that mix Digestive Juices with Food.

They strengthen these Bowel-Muscles by exercising them.

This stronger action, producing greater nutrition from food, brings back to the Bowel-Muscles greater strength for self-operation.

The Bowel-Muscles can, thus, in a short time, dispense with any Drug assistance whatever.

Cascarets are safe to take as often as you need them, while pleasant to eat as Candy.

Then carry the little ten-cent box constantly with you in your purse, and take a Cascaret whenever you suspect you need it.

One Cascaret at a time will promptly cleanse a foul Breath, or Coated Tongue.

A thousand dollars a year spent in amusements could not buy for you half so much hearty Happiness, solid Comfort, Cheerful Temper and Health Insurance, as that little ten-cent "Vest Pocket" Box of Cascarets will bring you.

All druggists sell them—over ten million boxes a year, for six years past.

Be very careful to get the genuine, made only by the Sterling Remedy Company and never sold in bulk. Every tablet stamped "CCC."

A sample and the famous booklet, "Curse of Constipation," Free for the asking. Address Sterling Remedy Company, Chicago or New York.

GORKY'S MISSION.

To Collect Money to Aid the Revolutionary Movement.

New York, April 13.—Maxim Gorky, the Russian patriot and revolutionist, who is now here, gave out this statement tonight:

"I have a slight pulmonary attack, but it neither causes me inconvenience nor embarrassment in my work. I have no apprehensions as to my condition. I am an enemy of Russia's government; have been a revolutionist since I was 10 years of age, and have no apology to make for my attitude. I came to this country to collect money to help the Russian revolutionary movement. I shall soon celebrate my twentieth anniversary as a revolutionist.

"I came to America because it is the most democratic country on the globe, and I believe that Russia is destined ultimately to stand next to America as the land of democratic ideas."

Condemns Gapon. Father Gapon, the Russian priest who made an effort to organize the workmen into revolutionists, was declared yesterday by Gorky, the Russian novelist and radical, to be a fakir.

He said: "Gapon, if he had been killed on the day of the massacres in Moscow, might have died a hero. Unfortunately he lived to be bribed and to betray the cause of Russian liberty. The Socialist-Democrat Bund, after he fled from Russia, made an investigation of his conduct, and found that he had accepted, thru a secret service officer of the government, 100,000 roubles, from Witte himself 60,000 more, and from other sources 60,000 more."

Government Endorsed. Paris, April 13.—In the chamber of deputies a resolution of confidence in the government was adopted on a vote of 466 to 86, on a socialistic interpellation demanding an amelioration in the conditions of the postmen, and recognition of their rights to federate.

BYLAW IS NOT DESIRABLE COUNCIL ASKED TO RESIGN

Fort William Ratepayers Are in Favor of Permanent Water Supply Measures.

Fort William, April 13.—A public meeting called by the mayor for discussion of the proposed water supply by-law was held last night in the city hall, which was packed to the doors.

Mayor Rutledge acted as chairman, and there were speakers on both sides of the question, whether the ratepayers vote on the \$125,000 by-law now being advertised for a temporary supply from Crescent Lake, or to withdraw the by-law and present another for \$500,000 for a permanent supply from Loch Lomond.

The mayor, councillors and commissioners were in favor of the temporary supply by-law, and promised that if given time the present supply work would be carried later to Loch Lomond. Chizema, on the other hand, wanted the permanent supply by-law, and pressed it in an emphatic manner in the meeting.

A resolution, which was carried by an overwhelming majority of those present, asked for the resignation of the mayor and town council if they do not withdraw the present by-law and present the quarter of a million one.

GOOD-BY TO THE CARBINE.

U. S. Cavalry Being Armed With Rifle Like the Infantry.

Washington, April 13.—The war department has about completed the new issue of rifles to the troops in the United States.

This marks the passing of the carbine, so long a weapon of the cavalry branch of the service. Both infantry and cavalry are now being supplied with the same model of rifle, a modification of the model of 1903. This is about six inches shorter than the Krag, and about two inches longer than the carbine now being discarded by the cavalry. For the present the rifles are being used with the rod bayonet, but later they will be replaced in, when the new bayonet recently decided upon will be substituted.

The issue to the troops in the Philippines will follow, and when that has been done all the soldiers of the United States army will be armed alike.

A GREAT VICTORY.

Jim McDonald's Opinion of Winnipeg Strike Settlement.

James McDonald, business agent for the Toronto Street Railwaymen's Union, has returned from Winnipeg. He says the men out there have won a great labor victory, in that while the company had determined to stamp out the union, it is practically recognized in the agreement, which allows grievances of the men to be brought before the directors as a final resort.

Mr. McDonald attributes the early ending of the strike solely to the efforts of the ministerial committee, to whom the citizens there should be truly thankful.

The increase in wages granted the men is two cents an hour, making the rate for the first six months 21 cents an hour; second six months 22 cents; second year, 23 cents; after that, 26 cents.

In order to make the appearance of providing a service, Mr. McDonald says people were hired during the "strenuous days" to ride on the cars. One woman told him she had secured \$25 for such work.

UNIQUE PAPER WEIGHT COMMEMORATES AN EVENT

Ottawa, April 13.—(Special).—The mines branch of the department of the interior has gotten up a very attractive memento of the successful experiment conducted at the "Iron" recently, in the production of iron by the electric process.

It is a paper weight, bearing as an inscription the legend that it is composed of steel produced from the first pig iron made in Canada by electricity. Each member of the cabinet has received one.

CARNEGIE'S RETIRED.

Ottawa, April 13.—When Andrew Carnegie comes in April to open his new library here he will be accompanied by a distinguished coterie of friends, including Col. J. J. McCork, barrister, New York; W. W. Garrison, editor of the Century Magazine; Dr. Nicholas Butler Murray, president of Columbia College; St. Andrew's Society will present Mr. Carnegie with an address.

DON'T BURN YOUR FLESH.

Corn salves poison and burn; besides they never cure the corn. Putnam's Corn Extract has been curing corns for fifty years. Painless, sure and guaranteed to act in twenty-four hours. Use only "Putnam's."

AMENDING CHARTER.

Albany, April 13.—Mr. Foelker introduced a bill in the assembly to-day, amending the charter of the Niagara, Lockport and Ontario Power Co., by striking out the authorization to take water from the Niagara River.

A Side View.

The Pilgrim banquet lately given to the suave Lord Grey, has brought our "cousins" cross the waves to meet in self-same way; Naught can be done, sans guzzling, it enforces one to think.

What lachrymose affection is induced by meat and drink.

The Stars and Stripes with Union Jack are promptly then entwined, And "Hands Across the Sea" is sung with fervor when one's din'd; While afterwards we slumber down and call each other names.

Until the mighty once again tempt gormandizing games.

—Town Topics.

Strike Continues.

Ottawa, April 13.—Charles March of Toronto, second vice-president of the International Painters' Union, who came to Ottawa with a view to settling the strike, returned to Toronto this morning, without having met with any success.

A BROKEN-DOWN SYSTEM. This is a condition (or disease) which doctors give many names, but which few of them really understand. It is simply weakness—a break-down, as it were, of the vital forces that sustain the system. No matter what may be the cause (for they are almost numberless), its symptoms are much the same: the more prominent being sleeplessness, sense of prostration or weariness, depression of spirits and want of energy for all the ordinary affairs of life. Now, what alone is absolutely essential in all such cases is increased vitality—vigour.

Guelph's Water Analyzed. Guelph, April 13.—(Special).—Medical Health Officer Robinson has received the result of the special analysis of specimens of Guelph water submitted to Dr. Amyot, provincial specialist. Eight of the specimens were collected from various wells around the city, while the ninth was the sample from city waterworks. It was found that the city water was much superior to the well water, even at its best, and out of the eight wells examined only one was found free from chemical matter.

withstands, advances granted in the central and western bituminous coal fields, and better inquiry for and stronger tone of pig-iron, the consumption and production of which break all records. The failure of agreement to be reached in the anthracite coal situation is a drawback to trade in a certain restricted area. Retail trade has very generally improved, exceptions being noted at Buffalo, Boston and Portland, which report cool weather and rainy skies, checking Easter's demand somewhat early in the week. Building is brisk in the country over, and hardware, lumber and plate are all active. Agricultural implements and vehicles are also active. The hide, leather and shoe trades all report better business and stiffer prices. Some re-ordering. Failures for the week number 19, against 151 last week, 196 in the like week of 1905, 198 in 1904, 160 in 1903 and 195 in 1902. Bad roads are a source of complaint in Eastern Canada, but in the north-west and west and in New Ontario demand is active. Even with weather drawbacks, Easter retail trade is of good volume. Heavy rains have helped fall-sown wheat, and reports are that that crop has come into the winter well, despite lack of snow. There is a better appearance to collections. Montreal reports city trade and collections better, with wholesale trade quiet. Canned tomatoes are still in demand for export to the United States. Butter is easier, but cheese is firm. The rush to mining sections in Northern Ontario helps Toronto trade, and building is active throughout the province. Hides and skins are advancing, hardware is active, and drygoods and millinery sell well. Winnipeg reports a good re-ordering business in drygoods and building material. Collections are improving in British Columbia; the lumber mills are behind on orders for logs and shingles. Failures for the week number 13, as against 17 last week, and 21 in this week a year ago.

Toronto Live Stock. On Thursday and Friday the receipts of live stock at the Junction yards, as reported by the railways, amounted to 37 car loads, comprised of 538 cattle, 1,415 hogs, 594 sheep, 567 calves and 31 horses. Besides the above there were 1,541 hogs came in for Park, Blackwell, King, and Kennedy, which would equal at least 15 cars more. Total Receipts. The total receipts of live stock at the City and Junction Markets for the present week were as follows: Cattle... 115; Hogs... 1,415; Sheep... 1,430; Calves... 930; Horses... 31. Had Tuberculosis. Rome, N.Y., April 13.—Twenty-three head of tuberculous cattle belonging to Southwick and Bowdoin of Carthage were slaughtered here to-day under the direction of the state authorities. All the cattle had responded to the tuberculin test, and the post-mortem showed that all were diseased. FARM PRODUCE EXPORTS. In Eight Months U. S. Sent Away \$700,000,000 Worth. Washington, D.C., April 13.—According to a bulletin issued by the department of commerce and labor, the total value of agricultural products exported from the United States for the eight months of the fiscal year 1906 ended with February was \$700,000,000, as against \$670,000,000 in the corresponding period of 1905, \$664,000,000 in 1902 and \$688,000,000 in 1905. "The growth in the exports of agricultural products," says the bulletin, "occurs in all of the three great groups which form the bulk of agricultural exports—viz., breadstuffs, cotton and provisions, the latter term including meat and dairy products. The gain in breadstuffs exports, in cotton \$30,000,000, and in provisions \$30,000,000. The increase in exports of breadstuffs occurred chiefly in the movement to European countries." The bulletin says that while agricultural exports are larger in total value than ever before it does not follow that they form a larger percentage of the grand total of exports. On the contrary, the percentage which they form of the total exports in the eight recorded months of the fiscal year 1906 is smaller than in any earlier year in the company's history except 1905, in which they were abnormally low by reason of the shortage in the grain crop of 1904. COBALT SILVER QUEEN, LIMITED Incorporated by Letters Patent by Lieutenant-Governor-in-Council of the Province of Ontario. AUTHORIZED CAPITAL \$1,500,000, Divided Into 1,500,000 Shares of the Par Value of \$1.00 Each.

DIRECTORS: HON. FRANK R. LATCHFORD, K. C., President; A. N. MORGAN, ESQ. R. W. GORDON, Lumber Merchant, Vice-President; C. B. TAYLOR, Banker, New Liskeard, Treasurer; FRANK L. CULVER, Miner.

COBALT SILVER QUEEN, LIMITED, has purchased the 18 acres upon which is situated the celebrated "STORMONT" MINE, together with the adjoining 40 acres, from the Temiscaming and Hudson Bay Mining Co., Limited. The returns from the "STORMONT" MINE have already paid the stockholders of the T. and H.B.M. Co. 200 per cent. on the par value of the shares. The property adjoins the Town of Cobalt, is extremely well located for shipping purposes, and under the new management the output of the mine will be increased as rapidly as possible to its full capacity. New and up-to-date machinery will be purchased, the force of miners and workmen will be enlarged as soon as the machinery can possibly be placed on the ground.

There are two shafts in the mine, one 65 feet deep (perpendicular) and the other 90 feet deep on the angle of the vein, with a drift cut along the vein for a distance of 100 feet, showing an immense ore body which only needs stoping out and shipping to the smelter. The stock is confidently regarded as of first-class value.

SAMPLES of Silver Ore taken from the STORMONT MINE are on Exhibition in the Grand Trunk Railway System Windows, N.-W. Cor. King and Yonge Sts.

To the Stockholders of the United Tonopah and Goldfield Mines: We are pleased to state that this firm and its California associates have transferred to the United Tonopah and Goldfield Mines a large block of stock of the Manhattan Nevada Gold Mines Company. This stock is taken from their personal holding in the Manhattan Nevada Gold Mines Co. and while it does not affect the treasury stock of the latter company in any way, it gives the stockholders of the United Tonopah and Goldfield Mines an interest in the Manhattan camp that we believe will prove very valuable and remunerative to them. It certainly gives the stock of the United Tonopah and Goldfield Mines an increased value at once. This arrangement is made in accordance with our previously announced intention of making the United Tonopah and Goldfield Mines one of the largest, strongest and most successful mining companies of Nevada, and will no doubt be greatly appreciated by every stockholder in the company. NIAGARA WORRIES CHICAGO. Washington, D.C., April 13.—Chicago sees danger to her drainage canal project if the Burton bill to protect Niagara Falls should become law. Representatives of the Chicago drainage canal commission hurried to Washington to-day to present their objections to the river and harbor committee of the house. Representatives of electric power companies will be here to oppose the bill next Monday.

CRILL MURDER. Ottawa, April 13.—The body of a male child apparently recently born was fished out of the canal basin this evening. It was found by a boy who notified the police. The police think the body may have been thrown from a passing train. An inquest will be held.

Too Awful for Ottawa. Ottawa, April 13.—The police to-day confiscated some of the posters put up for the "Woodland" Opera Co., a show which is to be attended by His Royal Highness Prince Arthur of Connaught next week. The pictures show females in somewhat attenuated and grotesque costume, and are described by the chief of police as "beastly."
