THE RECIPROcity BILL

Congress More Divided Than
Ever—New Majority in the
House Liable to Force Con-
sideration of Further Tariff
Reduction—Real Problem
is in the Senate.

WASHINGTON, April 9.—It is daily
becoming more manifest that congress
is facing a stormy session, and that
there can be made no forecast for the
probable legislative outcome. Both of
the parties are badly divided, and the
leaders appear to have little hope of
restoring anything more than surface
harmony.

There are virtually four parties,
each with a large representation, work-
ing at odds in the present session. The
Republican minority of the house is
divided between regulars and insurgents,
as was evidenced by the vote in the
speakership contest. The breach
between these two factions is even
wider in the Republican majority of the
senate.

A sharp line has been drawn between
the conservative Democrats of the senate,
who are opposed to any attempt at
dilatation on the part of Wm. Jennings
Bryan and the progressive Democrats,
including practically all of the new
members and several veterans like Sen-
ator Stone of Missouri, who are Bryan
adherents. The house Democratic ma-
jority seems thus far to have escaped a
break, but the leaders fear that the
party contest in the senate may be
continued to the next session.

While President Taft would like con-
gress to adopt the Canadian reciprocity
agreement and defer other mea-
sures to the regular session, Speaker
Champ Clark and Oscar Underwood
have other views.
Now that the new majority in the
house has adopted rules giving it just
as much power as any majority ever
enjoyed, there is no doubt that mea-
sures on the subject of direct election
of senators, publicly before elections
of campaign contributions, Canadian
reciprocity, revision of the woolen and
cotton schedules, and any further tariff
changes the majority desires will be
sent to the senate in whatever order
is decreed by the ways and means
committee. The Republicans may ex-
peditate or delay other measures, but
they will be powerless to prevent. The
real legislative problem, therefore, will
be at the senate end of the capitol.

Only time will tell what sort of line-
up there will be in the senate on
tariff matters. Previous sessions have
indicated that there are just as ar-
dent protectionists in the Democratic
representation.

THE C. P. R.'S HOTEL
Will Be Up Yonge-Street at the Corner
of Price-Street.

The World believes that all the block
on the east side of Yonge-street and
north of Price-street, up to the C. P. R.
tracks, has been purchased by the
Canadian Pacific Railway. A good deal
of it was bought some time ago for the
new station. Now it is believed that
the portion of it fronting on Price-
street has been bought for a great big
hotel that the Canadian Pacific intend
to erect up there in connection with
their new station. Price-street, it will
be remembered, is the street where the
Yonge-street cars Y and then back up
north to the C. P. R. tracks, prior to
returning down town.

The Price-street property was bought
within the last few days, and while the
deal may not be registered, 'The World'
was assured last night that everything
had been closed and that the hotel
policy was settled.
While the Canadian Pacific have all
their plans laid in regard to up north,
and while 'The World' believes that it
means a great big new station, the
details have been carefully kept
from the public as to what other ac-
cessories are to go with it; and how
many trains are to be shifted to the
north. But the best information 'The
World' has is that the Canadian Pacific
is going uptown in a very orderly and
progressive way, with all its passen-
ger business, the for some time it will
have some kind of a connection with
the Union Station.

Another indication of the C. P. R.'s
new policy in Toronto is that work was
begun in removing the three buildings
at the corner of King and Yonge
streets for the new ten-story ticket
and executive building, 100 x 100 feet.
The plans will not be completed for a
few days.

STOLE \$600 IN GOODS.
Daring Burglars in Early Morning
Plundered W. J. Dodman's Store.

Burglars entered the store of W. J.
Dodman, 1342 West Queen-street, about
2.30 yesterday morning, and stole about
\$600 worth of clothing, hats, shirts,
underwear and neckwear. They ad-
mitted themselves by breaking a plate-
glass door.

NEW YORK, April 9.—The
Herald's Washington corre-
spondent writes:
"Of the American Congress re-
jects the trade agreement the
cordial feeling now prevailing
will be blighted. Such a blow
toward the British tariff reform-
ers, who wailed in agony when
the reciprocity agreement was
signed, will give impetus to a
strong feeling in favor of pro-
hibition of the export of many
natural products which the
United States must have. Al-
ready Quebec and Ontario for-
bid the export of unmanufactured
pulpwood, Ontario does the
same with saw logs. New
Brunswick will do the same with
pulpwood. A strong senti-
ment favors the enactment of
laws which will require certain
natural products to be finished
into manufactures in Canada.
So if congress defeats the re-
ciprocity agreement it will not
only prevent American consum-
ers from getting these natural
products at the present duty,
but may prevent their getting
them at all."

IN STATU QUO AT
OTTAWA

OTTAWA, April 9.—(Special)—The
political situation here will be in statu
quo for the next two weeks. The house
will drag thru Monday, Tuesday and
Wednesday preparatory to the Easter
adjournment, and within a fortnight
after reassembling the country will
likely see the withdrawal of the re-
ciprocity resolutions, inasmuch as all the
indications go to show that congress
will be slow in coming to a conclusion
and even that conclusion may be ad-
verse. Sir Wilfrid Laurier is anxious
to get away to the coronation, and
following a suspension of the reciprocity
question the remaining legislation
will probably come within thirty days.
All eyes meanwhile will be focused on
Washington, and the hand of the
congress is not disclosed before a
night the Canadian parliament will
take advantage of the occasion to rest
on the oars until another session.

RECIPROcity MEETING
PROVES QUITE RIOTOUS

Resolutions—Presented on Both
Sides, But It Was Impossible
to Take Vote.

WOODSTOCK, April 9.—The reciprocity
meeting held here on Saturday
afternoon, with W. L. Smith, Roderick
McKenzie and E. C. Drury as speak-
ers, proved a noisy assemblage, so riotous
in fact, that after two resolutions
had been presented, one for the
other against reciprocity, it was im-
possible to take a vote. John McLevin
of Hitchcock thereupon took it on him-
self to declare the reciprocity resolu-
tion carried. Not a dozen people in
the hall heard his announcement.
There was continuous uproar during
the meeting. After Messrs. Smith and
McKenzie had spoken there were calls
for Dr. Coleridge of Ingersoll, and the
latter came to the platform, but agreed
to let Mr. Drury speak first, so that
the latter might catch the train, and
when Drury finished Hugh McDonald
of Woodstock attempted to read a resolu-
tion favoring the trade pact. There
was instant protest at the reading of
the resolution before the close of the
discussion. Dr. Coleridge attempted to
speak, but not for five minutes could
he be heard by those closest to the
platform. He kept right on, however,
and finally the noise quieted. Later the
resolutions were presented, that favor-
ing the agreement being presented by
Hugh McDonald of Woodstock, and
that opposed by Robert Lockhart of
Blandford. No vote was taken.

GRABBED HIS ROLL.

Held Up London Butcher—Alleged
Accomplices Also Arrested.

LONDON, Ont., April 9.—Fred Maudsley,
a companion of "Texas" Burdell,
who escape from jail and flight from
justice aroused the country some
years ago, figured in a "hold-up,"
which occurred at the Windsor Hotel
late Saturday night.
Wm. S. McDougall, a wholesale
butcher, was counting out some money
to James McCreary, another butcher,
when Maudsley grabbed the roll. He
passed the \$20 to Leo Dowling, who
immediately made off with it.
McDougall persuaded Maudsley, who
was half intoxicated, to go out with
him, on the pretext that he was going
to buy a pair of shoes. Instead
he handed him over to the police.
Later Thos. Pritchard and Leo Dowling
were arrested for complicity in
the theft. The three will appear this
morning. All have had records. Maudsley
was in the worst. He has just been re-
leased from a three years' sentence
imposed upon him for "holding up"
a man named Ward in the old Grand
Central Hotel.

London Flotation
For Porcupine

Northern Exploration Company, With
\$400,000 Capitalization, Gets Into
English Market.

Messrs. Playfair, Martens & Co. have
received by cable the first definite in-
formation of the latest Porcupine flo-
tation in London, namely, that of the
Northern Exploration Company, not
out by the Bewick-Morling house. The
parent company is called the Northern
Exploration Company, and is capitalized
at \$400,000, \$100,000 of which was
issued in London on Friday. The com-
pany owns fifty thousand shares of the
Hollinger Mine at Porcupine, and has
an option on an additional fifty thou-
sand.

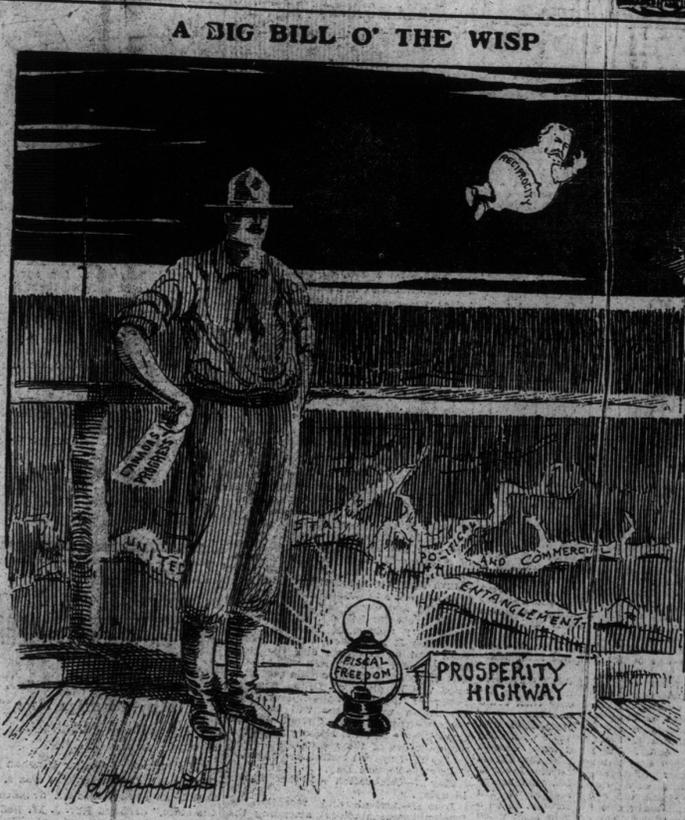

The 41 shares were bid up to thirty-
one and thirty-seven shillings was ask-
ed for them, and quite a lot of trading
in them was done in London. The
above quotation is equal to \$7.50 to \$9
for the 41 shares. Messrs. Playfair,
Martens & Company have made ar-
rangements with the original com-
pany for a small block of the
shares which they will distribute
among their clients.

This is the first big news of London
operations in Porcupine. It was the
purchase of the Hollinger shares by
the company that stimulated the price
of the shares. Besides hold Hollinger
shares, it proposes to systematically
and substantially proceed with the
development of Porcupine claims, and
it is in a position to set apart unlim-
ited capital for the undertaking. There
are all the shares in London that they
care to offer.

This will make people all over the
world take notice of Porcupine.

Arrested for Shoplifting.

SAYS PAPA DECREE
IS "VILEST CRUELTY"

Rev. John Coburn Declares "Ne
Temere" Reflects Spirit
of Middle Ages.

Preaching before a crowded congrega-
tion at the Parliament-street Meth-
odist Church last evening, Rev. John
Coburn denounced the papal decree,
famously known as the "Ne Temere"
clause, as the vilest cruelty ever per-
petrated in the name of holy religion.
The preacher said that the Roman
Catholic Church claimed that marriage
was a sacrament, that it claimed to
be the only true church and therefore
have the entire control of the laws re-
garding the marriage ceremony. Mr.
Coburn found no authority for trans-
lating the word "marriage" as a sacra-
ment, and impressed upon his hearers
that St. Paul, in his epistle to the
Ephesians, spoke not of the relations
of man and wife, but of Christ and His
church; and that up to the 12th century
of the church marriage was never called
a sacrament.

"I defy Fathers Miltichon or Burke,"
said Mr. Coburn, "to prove that Christ
ever instituted the marriage ceremony;
He certainly blessed and sanctified it;
but we have no authority that He
either instituted it or that He or His
apostles ever married a couple in their
lives."

"The ordination of any church con-
fers the right to marry—even the law
of the Province of Ontario confers that
right and marriage is in its finest sense
a civil contract and not a sacrament."

The preacher declared that not only
did the Roman Catholic Church claim
marriage a sacrament, but, by the
"Ne Temere" decree, it sought to force
its opinion upon all who did not believe
in it. The decree was made at the
council of Trent 300 years ago, the
same council that arranged for the
burning of heretics, but the church de-
cided that the decree should not be
enforced, where the church of Rome
was in the minority or where it would
be unwise to enforce it and it did not
assume into force in the British Empire
until Easter morning in the year 1858.

"If the decree is right," continued
Mr. Coburn, "it means that for 300
years the Church of Rome has per-
mitted this iniquitous thing to continue.
Why is it that the decree is not en-
forced in Germany? Why is it that which
is a sin in Canada is not a sin in Ger-
many? Because the German Kaiser sent
a note to the Pope saying he would
not tolerate it in the fatherland, and
I bow my head in shame as a British
subject that the legislators of our land
have not the bravery to denounce it."

Spirit of Middle Ages.
Mr. Coburn contrasted the regime of
the present Pope with that of his pre-
decessor, in that the former pontiff was
a politician and said it would be un-
wise to make such a law as the "Ne
Temere" decree, but the present head
of the Roman Church had the spirit
of the middle ages and was such a
prejudiced and bigoted man that he
promulgated and put thru in spite of
the consequences.

"In the name of hundreds," continued
the preacher, "who have pledged their
truth before God, I hurl back in the
face of the Church of Rome the vile
and execrable curse."

Has Had It All

SPOKANE, Wn., April 8.—
Theodore Roosevelt made his
first public declaration regard-
ing his possible candidacy for
the presidency at a luncheon
held in his honor to-day by the
Commercial Club.

"I am not an aspirant for any-
thing, because I have had every
thing," he said. "No other man
alive has had—I don't know
whether I ought to use this
simile in the presence of the
club, but I am going to take
chances—no other man alive has
had such a good run for his
money."

"You have nothing I want, ex-
cept your respect and good-will;
and all I desire is, so far as the
chances are, to help you in any
movement for the good of our
common country."

JAS. LIGHT, SAGINAW,
ENDS LIFE IN HOTEL

After Asking That He Be Not Dis-
turbed, Took Carbolic Acid
in Room.

A man, supposed to be James Light,
of Saginaw, Mich., ended his life
by drinking carbolic acid in the Little
Union Temperance Hotel, on the north-
east corner of St. James and Simcoe-
street yesterday. He is 49 or 45 years
old.

He had arrived at the union depot
from the west at 9 a.m., and when he
asked Proprietor A. Maxwell of the
Little Union for a room he said he was
very tired and did not wish to be
disturbed. He was asked to register
but no notice was taken as to whether
he did or not. He evidently opened
the book at the front, for on the fly
leaf the name of James Light, of
Saginaw, has been written recently.

Porter Peter Ernest tried three
times to rouse him in the afternoon,
and the proprietor went up. He
thought he detected carbolic fumes
and called P. C. Reburn, who burst
the door in and found the man lying
partially clad on the bed. There was
a large tumbler smeared with carbolic
crystals on the dresser.

The man had a ticket from Port
Huron to Brockton, and in his pocket
was found a street car fare receipt
from Saginaw to Port Huron. He had
only \$2 in his possession. The body
was taken to the morgue.

SHOT HIS SON.

Prisoner is Over Seventy Years of
Age.

HALIFAX, April 9.—A shooting af-
fair that may end in tragedy, occurred
at Trenton to-day, in the home of Mi-
chael Jackson, who is now in jail, charg-
ed with shooting his son Arthur. The
prisoner is over 70 years of age and
has always been considered a peace-
ful man. Arthur, who is in the hospital
with a bullet hole in his neck, has been
living at the father's house. He
returned some days ago and since then
has been living at the father's house.
The trouble started this morning
over washing the breakfast dishes, as
the men were keeping bachelor quar-
ters. Words brought on blows, and the
son it is said, struck the old man,
knocking him down. The father drew
a revolver, the son grabbed a knife and
sprang at his father, who turned the
revolver on him and the bullet entered
his neck.

THE HUNT CLUB'S NEW HOME.

The plans are ready for the new
home of the Toronto Hunt, on the site
of the building lately burned down on
the club's property in Scarborough. The
house and furnishings will cost over
\$100,000. There is to be a meeting on
Wednesday evening to rally the money
bids for the undertaking. There may
be some discussion at the meeting of
the members in regard to moving fur-
ther out in the country.

The Numerous Billie Burkes.
There are a very number of "Billie

Wednesday evening to rally the money
bids for the undertaking. There may

Electrical Development Com-
pany Seeks Further Outlet
for Power, and City, Its Offer
of \$125 Rejected, Will Pre-
pare for War With Confi-
dence.

R. J. Fleming Triple Power
The most dominant man in the
affairs of the City of Toronto to-
day is R. J. Fleming, who is
general manager of the Toronto
Electric Light and Power Com-
pany, and, as manager of the
Ontario Electric Development
Co., will be manager of the
Toronto Electric Light Co.

Interests represented in the "Electri-
cal Development Company of Ontario,"
are the purchasers of the Toronto
Electric Light Company, according to
information received from authoritative
sources. The report that a group of
Chicago capitalists were making over-
tures, appears to have little foundation.
At the meeting on Saturday the
shareholders of the Toronto Electric
Light Company unanimously decided
not to dispose of their holdings to the
city at \$125 per share.

Furthermore, they were equally un-
animous in their decision to sell their
shares to interests whose identity
was not then disclosed, repre-
sented by the National Trust Com-
pany, for \$125 per share. The city's
offer was as good from a money
standpoint as the other, taking into
consideration the fact that the com-
pany retains the liquid assets, but Sir
Henry Pellatt pointed out that the
city's offer obligated the company to
renew their contract with the Elec-
trical Development Company, and other
things which they could not do, and
dilatation would ensue, which would
mitigate the value of the liquid assets
to the shareholders questionable.

There were upwards of 300 sharehold-
ers in attendance a few minutes after
12 o'clock, when Sir Henry Pellatt,
president of the company, called the
meeting to order at the company's
office on East Adelaide-street. There
were six women in the audience, and
the remainder were business men,
mostly of the city.

That any syndicate or power other
than the E. D. Co. should take the
step is hardly conceivable, but the
company of which Sir Wm. Mackenzie
is president is in a peculiar posi-
tion. It is in direct competition with
the hydro-electric companies in the
transmission of power from Niagara
and it has well-paying contracts with
the street railway and light company.
By acquiring the latter company, it
doubtless expects to open up new
territories for a larger sale of power in
Toronto than if it were to continue the
present business that it contemplates.

The Electrical Development Co. has
an authorized capital of \$5,000,000, half
being preferred and half common
stock.

No Difference Says Mayor.
"it would have been a nice thing if
said Mayor Geary. "They have the right
to sell to whomever they wish. The fact
of their being in the field in no way
affects the position of the city. The
city electrical department will go
ahead as it has intended."

"I was not in favor of the de-
velopment," said Controller Ward, "and
I am surprised that the city will be
started. I think the city will be
able to take care of itself."

"I did not think they would sell
out for that but it would have
been a good thing if they had."

Now that the uncertainty is over, the
city can proceed at all speed with the
installation of its plant.

Sir James Whitney stated last night
that he had no comment to make on
the transfer.

Sir Henry's Views.
Sir Henry Pellatt, when interviewed
last night, chatted freely respecting
the transfer, taking a very pronounced
view of the position of affairs.

HAMILTON HAPPENINGS

DEAF MUTE KILLED BY HAMILTON STREET CAR

Turned Back Right in Front of Car—Another Car Accident Which May Be Fatal.

HAMILTON, April 9.—(Special.)—While crossing the street car tracks at Barton and Catherine-streets here Saturday night, Duncan A. Morrison, a deaf mute, living at 37 Imperial-street, was struck by car No. 402 and fatally killed. At the time of the accident the car was proceeding eastward on Barton-street at the rate of about ten miles an hour. Motorman Christie was driving the ill-fated car, says that as he approached Catherine-street he saw a deaf mute man leave the south side of Barton-street and walk briskly across the southern car track. When Morrison reached the north side the deaf mute man suddenly, and placing his hand in his trousers pocket as if he had forgotten something, turned about and started back across the track on which the car was running. The motorman immediately applied the brakes to his car, but it was too late. Morrison, and before it could be stopped he had been dragged about thirty yards.

The motorman and conductor at once rushed to the assistance of the injured man, but when he was examined by Dr. H. D. Lewis, who happened to be a passenger in the car, he was found to be dead. The body had been released by the car and was lying clear of the track on the south side. His chest cavity in.

Death had been caused by the impact of the car against the dead man's chest, which was completely caved in. The wheels of the car did not touch the body, the only mutilation of the corpse being the severance of one finger. The accident was immediately reported to the police, who removed the body to the city morgue. Coroner Anderson will hold an inquest three Monday morning.

Morrison was 65 years of age, and was employed as a butcher at the packing plant of the Canadian Company on North Wentworth-street. He had lived in Hamilton for a little more than a year, coming here from Queen's County, Ontario, about three years ago. He had also lived in Collingwood. He was a native of Glenora, N.S. His mother lives in Toronto, but her address he has never learned. The dead man leaves a widow, also a mute, and two boys, 6 and 11 years of age, who probably will be interred here on Tuesday.

This is the second fatal accident of this kind. No. 408, has been the cause of a very complete investigation. It ran over a child on Barton-street, and many blocks from the scene of Saturday night's fatality. On that occasion it was also in charge of Conductor Myers, who was running on it last night. Motorman Christie has been employed by the street railway for about eight months. This is the only accident he has had, and is regarded as a very complete investigation. The previous clear record, and the dead man having been deaf, it is not thought that the coroner's jury will attach any blame to him for the accident.

Another street car accident, which may result fatally, occurred last night at 8 o'clock, when Albert E. Buscombe, a tailor, at 2 York-st., fell from the steps of a York-st. car at Queen and York-sts., and fractured his skull. Dr. Greenway ordered him removed to the city hospital, where he lies in an unconscious condition. His recovery is not expected.

The annual election of officers of the South Wentworth Conservative Association was held here Saturday afternoon. Geo. Milne, Stony Creek, was chosen president; D. A. Gallagher, Barton, vice-president; and Homer Carpenter, Saltfleet, secretary-treasurer. The meeting was addressed by Organizer Charles, Gordon, Wilmot, M.L.A., and F. D. Smith, who commended the good work done by the Whitney Government while A. E. Lancaster, M.P., of Lincoln, paid his respects to the latter administration on the reciprocity question.

The doctors of the city will hold a meeting Monday afternoon to decide upon a site for the new city hospital. It is understood that the unanimous choice of the physicians is Wynton Park. Controller Bailey is also in favor of this location, but believes that the question should be referred to the ratepayers for their decision. The police last night arrested Sylvester

AGREE ON RELIGION BEFORE ENGAGEMENT

Rev. W. B. Caswell So Advises—Would Have Magistrates Control Civic Contracts.

Preaching at the Parkdale Methodist Church last evening, Rev. W. B. Caswell, when and how is marriage a sacrament.

Mr. Caswell advocated that before an engagement was made, there should be no difficulty in regard to religious matters, and as religious differences were sometimes more than people thought, the time to clear these difficulties was before and not after marriage.

The preacher pointed out that a perfect understanding would then be arrived at and then only then could marriage be truly a sacrament. Here is where Protestantism and Roman Catholicism differ, continued the preacher. The Roman church teaches that sacrament is the actual dispensing of a grace or divine favor at the hands of a priest, i.e., that sacrament is the outer sign of an inward and spiritual grace. Marriage to be a true sacrament can only be such when there is real and genuine love pledged and pledged from the heart by the contracting parties.

Mr. Caswell protested against the indifference of Rome in Canadian affairs; that the representatives of Rome were of necessity men of a tyrant lot, and that the representatives of the United States were of necessity men of a tyrant lot. He also spoke against national liberty, civic independence, and the independence of the state.

The preacher assured his hearers that Canadians desired to live at peace with all men, but said that better would it be for the Dominion to be broken up and scattered than a country under the heel of Rome. He said that we need equal rights and liberties, but that we must stand on our feet under the law and Rome must not only conform to the law as she can, but like every other church and society, she must conform absolutely to all other churches do.

Mr. Caswell particularly advocated taking the marriage ceremony as far from the municipalities as possible, and under the control of local magistrates and registrars; and to let the purely voluntary and optional part of the contracting parties.

Mr. Caswell's address was concluded by the preacher. He said that the Church of Rome wishes to make for her own people, but when under the law of Ontario pronounces legitimacy on the heads of those whom she has divorced, she is guilty of a crime. She has shown herself officially to be the same unchanging and unchangeable as the God of the Bible, and she has shown herself to be the same unchangeable and unchangeable as the God of the Bible, and she has shown herself to be the same unchangeable and unchangeable as the God of the Bible.

AMERICANS WANT TO SEE THE CORONATION

Embassies Deluged With Requests—Program of Royal Processions.

LONDON, April 9.—There are busy days for foreign and colonial representatives in London, particularly the American and Canadian officials. Thousands of people are coming from America for the coronation, and from the appearance of the embassy and consulate mail bags a large proportion of them want something done for them.

The majority of the requests are reasonable; many are difficult to comply with, and a few, to those knowing the conditions, are ridiculous. One writer for example asked that four coats of arms be placed on the Westminister Abbey on the day of the coronation, hardly realising perhaps that four outside of official circles will see a glimpse of the historic ceremony, and not many thousands will even get a view of the procession from the balcony of the Palace to the Abbey, the route being so short.

There will be many occasions during the summer, however, of seeing the royal couple and the assisting ceremonies. Five times during May and June their Majesties will drive thru the streets of London. On May 12 they will go to Crystal Palace to open the festival of empire; on June 22 there is the coronation procession; on the day following the royal pageants thru London, when several miles of streets will be traversed. On June 29 the King and Queen will return thru North London, on June 30 a second drive to Crystal Palace, where the King and Queen are giving a coronation ball for the children in the elementary schools of London.

On May 18 the Queen Victoria memorial will be unveiled, and the German ambassador will attend. The following evening a gala performance will be given at Drury Lane in aid of the German empire. In the coronation week the German opera house and his Majesty's theatre. Other theatrical performances are: May 22—Imperial conference opens. May 24—Empire Day. May 27—Celebration of the King's birthday.

June 17—Arrival and reception of foreign representatives attending the coronation. June 24—Royal review of the fleet at Spithead. July 8—Royal visit to Ireland. July 13—Investiture of the Prince of Wales at Carnarvon Castle. July 14—The King opens University College, Bangor. July 15—The King lays foundation stone of Welsh National Library at Aberystwyth.

The visit to Scotland is reserved for the autumn, and the King and Queen will take up their residence at Balmoral, Castle. WANTS TO BE PRESIDENT. INDIANAPOLIS, April 9.—Governor Thomas D. Gibson is expected to be the national illegitimate as an avowed candidate for the Democratic nomination for president in 1912. He has authorized members of the Indiana congressional delegation to declare that he will be pleased if Indiana's delegation presents his name.

The only reservation the governor makes is that he will not seek the nomination actively himself. He insists that he is a firm believer in the old-fashioned idea that the Indian should seek the man, and that under no circumstances should anyone attempt to manipulate a man's nomination for his nomination for the presidency.

DEFIANCE OF STATE BY FATHER MINEHAN "Almost Insolent," Says Rev. J. W. Pedley—Marriage More Than Civil Contract.

The sermon of Father Minehan deferring to mixed marriages was a defiance—an almost insolent defiance of the state," declared Rev. J. W. Pedley in Western Congregational Church, last night. He assumed that the state never interferes with marriage where it has no right, in the eyes of the state, to enter a realm where it has no right when it asks one to comply with its requirements. As a matter of fact, the state does not ask any such thing. It is the man's own opinion, or the opinion of the man's opinions, religious or otherwise, that sometimes it must interfere with the church's practice when the church breaks the law. If you break the law, you have no quarrel with the Roman Catholic church, he continued.

Mr. Pedley declared that he thought it better on the whole if the man and woman were of the same religion and political opinions, and that a Liberal and a Conservative, or a Catholic and a Protestant, should not be married. He said that he was not a fanatical man, but that he was a man of common sense, and that he was a man of common sense, and that he was a man of common sense.

RAILWAY SHOPS BURNED. SANBORNVILLE, N.H., April 8.—Flames which had their origin in an insignificant chimney fire, wiped out the Boston and Maine Railway shops here and the engine house to-night, and for a time threatened the entire village with destruction. The Central House, the only hotel in the village, was burned. The fire started in a chimney at the corner of the village, and spread rapidly. UNIONISTS WORK HARD TO DELAY THE VETO BILL

Leaders Breaking Down Under the Excessive Strain—Apathy of the Nation.

LONDON, April 9.—(New York Tribune cable.)—Prolonged resistance to the parliament bill at every stage is the only course open to the Unionists. The committee stage, when resumed next week, may be accelerated by the scientific use of the clause, but obstruction is so ingeniously devised, and applied so persistently, that it is likely to block legislation for many weeks.

The government whips no longer venture to forecast the date when the measure can be introduced, and when the crisis will arise for which the royal guarantees are reserved. The opposition, led with brilliancy by A. J. Balfour, is attempting to tire out the government and drag it into a conference where an agreement can be forced by the breaking down of the Unionist leadership.

NO BAR TO ARBITRATION BETWEEN U. S. AND BRITAIN Germany's Attitude Discussed by British Papers—Trust in Uncle Sam's Good Intentions.

LONDON, April 9.—(New York Tribune Cable.)—The German chancellor has not succeeded in countering the English movement for an arbitration treaty with America, and it has responded with a fresh impulse from the evidence that arbitration is a natural and commercial aim for a larger dominion abroad. The line is taken by Lord Selborne on the platform and in the columns of the Spectator, the Standard, the Times, and the Daily Mail.

MEN GIVE UP ALL HOPE OF AMICABLE SETTLEMENT Mechanics on C.P.R. Western Lines May Either Strike or Ask for Conciliation Board.

WINNIPEG, April 8.—All hope of a friendly and amicable adjustment of differences between mechanics of the Canadian Pacific and the company appears to have been given up by the men, and the only points at issue now are whether the employees will ask for a board of conciliation to consider the matter or take the situation in their own hands and strike without the intervention of the board.

JAILED BREAKER IS CAPTURED. BERLIN, Ont., April 9.—John Kelley, who escaped from New Hamburg lock-up, and will be before the court on Monday on the above charge, as well as a horse and a dog, was captured by H. Mitchell of A.R. and three men from Mr. Meggs of the same place.

FELL DEAD ON STREET. ST. STEPHEN, N.B., April 9.—Henry Graham, 101 St. Stephen-st., fell dead in the street from his office to his home last night, accompanied by his wife. Mr. Graham was apparently in his usual health, and attended to the duties of his office yesterday. He was 57 years of age and was appointed collector of the port in 1911.

Most Canadians Have Catarrh Our Changeable Climate is Responsible.

Where the atmosphere is damp, with sudden changes in temperature, almost everybody has Catarrh, in some form or other. The ordinary cold in the head inflames and weakens the membranes lining the nose and throat, and starts a discharge. The next cold is more easily caught, and soon the patient is never quite free of it.

Cup Presented to L. Solman :: Baseball Louisville 5 :: Bowling Toronto 4 :: Close C. B. A. Tournament

Note and Comment

Business at the annual meeting of the National Lacrosse Union on Saturday in Toronto was concluded with dispatch.

It looked, according to the lobbyists, as if field captains would carry, but they went down to defeat, as also did the ten-man-side proposition.

A feature of the gathering was the presentation of a beautiful loving cup to L. Solman, the last of the old line presidents.

ENGLAND VS. CANADA AT TAYLOR'S INDOOR MEET. The second indoor meet of J. & J. Taylor's Athletic Club is scheduled for next Thursday night.

The firm has generously placed their spacious new building at the men's disposal, and an overflow crowd of employees and their relatives will be on hand to root for their candidates. About a dozen events are on the list, and Proctor, Alex. Milne basins upon every corner will be a revival of the old-time tug-of-war. The interest in the event is all ready at a fever heat between English and Canadian teams, best two pulls out of three to decide. The former have an abundance of that good old Canadian grit, so essential to that good old Canadian athlete.

Coady, Roy Cox, Ernie Richardson, Jack McKeef, Bob Coulter (anchor), Jack McGlone (captain). All-English team—Bill Naula, Ed. Ross, Chas. Jones, Geo. Bestwin, Art Lambert, Bill White (anchor), H. S. Webb (captain).

Mr. Charles Brownlow, the general foreman of the works, will referee this event. The winners intend challenging any other shop team in Toronto.

A Catch by Bescher Greatest Play Larry McLean Ever Saw

Larry McLean, a Canadian by birth, the husky backstop of the Cincinnati Red Stockings, considers a catch by Bobby Bescher last year the greatest play he ever saw. Here it is in the language of Hugh S. Fullerton:

The greatest play I ever saw that I have in mind now was in the Philadelphia-Cincinnati series in Cincinnati last year. I have thought over in great detail the most plays and still think this only by the effect upon myself—and not half across the field to meet the man who made it—but by the way the spectators judged it. I never saw so much excitement on a ball field in my life. For crowd and cheering and applause, it was the best I have ever seen. Hundreds of them were trying to get in the way of the play, to carry him off, to see it. The score was two to one in our favor in the first of the ninth innings, and the bases were full, with two out and Sherry Magee at bat. Magee had a base on balls, and was ready for a situation, because this Magee certainly was hitting the ball hard. How ready had made three hits off him in just three times at bat. I was in a quandary whether to give him a base on balls or not. He had two balls and one strike called, and I signaled for a fast ball around his head, which is Magee's weakness. He hit the ball, rather than the ball, and it came in. There was no chance that he ever would catch it. Magee took a long swing and hit the ball to left field, and I expected to see it go out of the state. I was ready to the bench to see it, and I was ready to the bench to see it, and I was ready to the bench to see it.

HORSE NOTES.

Stake entries for Detroit's 27th annual Blue ribbon trotting and pacing meeting, July 21 to Aug. 4, break all previous records. Thirty horses are named in the Michigan race and 211 in the Chamber of Commerce race and 211 trot and 211 pace. Entries for two of the early closing events of the Grand Circuit race meeting at Grand Rapids in July are announced today. The entries for the Purinton Manufacturers' Purse, \$10,000, for 212 class trotters, which is the feature event of the meeting, totals 30. In the Grand Rapids Handicap Purse, \$200, 212 class trotters, there are 22 entries. The time for the closing entries for the Comstock Purse, \$500, for 212 class pacers, has been extended to April 30.

The stable of stepplechasers horses owned by local horseman, Nat Ray, will be sold today at the Maher Horse Exchange. Four three-year-olds and a 2-year-old colt will be sold and they should all sell well, as they have wintered in grand shape. The well-known Byramtine, Mallow II, heads the division of jumpers. This has been a most consistent stepplechaser, always performing in a most creditable manner and he has defeated every one of the best country horses racing. The others are: Holiday (5), by Bannockburn, and Bannock Bob (5), by Bannockburn. Student King has been a number of times second, but is still a maiden. Bannock Bob is a most promising horse, one that has class enough for the show ring. The 3-year-old, a chestnut colt by Star Shoot, is reported to be good.

Hoagland, 53 Years Old, Winner. INDIANAPOLIS, Ind., April 8.—Willard Hoagland, the 53-year-old walker, at Auburn, N.Y., to-night won the national six-day walking and running match at Tomlinson Hall, carrying the Hoagland-Direen team into first place. Hoagland's score was 46, every one of the best country horses racing. The others are: Holiday (5), by Bannockburn, and Bannock Bob (5), by Bannockburn. Student King has been a number of times second, but is still a maiden. Bannock Bob is a most promising horse, one that has class enough for the show ring. The 3-year-old, a chestnut colt by Star Shoot, is reported to be good.

C. Co., Q.O.R., Win Curry Cup by 13-3 From the A.M.C.

The best exhibition of indoor baseball seen in Toronto for a long time was pitched off at the armories on Saturday night, when C. Co., Q.O.R., defeated the A.M.C. Fortuna, 13 to 3. Those who were fortunate to witness the game were kept in a high pitch of enthusiasm as they looked forward to this struggle, for after the season's playing and inferior teams weeded out, the A.M.C. seemed to be the only ones left who could possibly separate C. Co., Q.O.R., from the Curry Cup, which they have held for the past four years. Notwithstanding the one-sided score the game was nip and tuck all the way and C. Company realized the victory at last met a worthy rival to H. Co., 8th, who has had the same team intact with the exception of Bob McWhirter, who is at present with the Maple Leafs, and when this team plays it is always a sign to the fans that you will get the worth of your money. Interest in the indoor game has been on the wane for a few years, but the want of the friendly rivalry, which used to exist between the different regiments, and the old schedule of mixing the companies were resorted to under efficient management, together with the new lighting system at the armories, no doubt there would be a great revival of the game. The Toronto Garrison Association soon and if a game was arranged between a picked team of the officers and C. Company, Q.O.R., it would no doubt prove the most interesting game of the line-up of the teams: A.M.C.: Freeman C. Eason 1b, Duval p, Spearman 2b, Johnson ss, Winburg 3b, Holmes ss, Stewart jr, Hardy rf, Besmer lf, Walsh ss, Fraser cf, Empires—O'Brien and Emo.

Twin City Cricket Club. WATFORD, Ont., April 8.—At a meeting held here last night, the following were elected as officers of the Twin City Cricket Club for the forthcoming season: Hon. president, J. CITY ELECTRIC SERVICE.

Toronto is just two million dollars ahead to start with by the decision of the Toronto Electric Company's shareholders to refuse the city's offer of \$125 a share for their stock. And the city is relieved of any possible moral obligation to the "widows and orphans" who have now elected to place themselves under other protection.

Several theories have been advanced to account for the advent of outside interests in the Toronto electrical arena. Whatever be the reason the city has but one concern. It must be in a position to meet the competition it encountered at a great sacrifice to extinguish. The only hope a private company can have to compete with the city, which only undertakes to supply power and light at cost, depends on the hopelessly mismanagement of the city service.

Consequently the first thing to be done is to place the city service under absolutely unimpeachable control. The proposed commission promises such management. Perhaps that is why the pro-corporation organs evince such an objection to it. Something that could be more easily meddled with, thru which the city services might be more readily muddled, would suit the corporations vastly better. The city council, therefore, can best serve the interests of the citizens by endorsing the appointment of Mr. Ellis to the new commission as soon as possible.

And in the next place, the citizens must realize that they are shareholders in the city electric enterprise. Already the service is cheaper than anything contemplated here, and every increase in consumption means still cheaper power and light. The corporations do not figure that way. The greater the consumption the less likelihood of lower rates and the bigger the dividends, is their plan. The new company has a contract to purchase power at \$5. The city's power costs about half that amount. The citizens should patronize their own service.

It is suggested that the purchase of the Toronto Electric Light Company by a new element heralds a merger of all the local electrical interests in order to defeat public ownership of such services. The Ontario hydro-electric scheme has been such a prodigious success that the great monopoly interests of the United States fear the spread across the boundary of the public ownership spirit. They are a little late in their alarm. The hydro-electric commission of Ontario has started a movement that is destined to sweep the whole continent. The New York State commission has already spent large sums on acquiring information, and offers the people realize the possibilities they will not be turned aside.

Toronto is in a splendid position to show the American continent the capabilities of public ownership. The people will stand by the council in the appointment of a strong commission to achieve the utmost possible.

NOW FOR EASTERN ONTARIO.

Hon. Adam Beck's meetings at Brockville on Friday last brought out in a very marked way the loyalty and enthusiasm of the people for public ownership. The success already achieved in western Ontario, and beginning to be realized in Toronto, had stirred the hopes of the people of eastern Ontario, and they knew what had been done in Ottawa.

Hon. G. P. Graham, who forgot all the public ownership he ever knew when he went to Ottawa, has staidly done what he could to oppose any spread of public ownership sentiment, and done all he could to encourage the corporation interests. In spite of this the eastern people have waited patiently until Mr. Beck had his plans formulated. Everything the Graham newspapers could do was done to inflame the people against public ownership. The municipalities, upon whose union all power plans depend, were stirred against each other, and The Globe and The Mail and Empire keep writing articles about the diverse interests of the hydro-electric commission and the municipalities.

All has been of no avail. The meeting at Brockville cheered Adam Beck to the echo, and utterly irrespective of politics. They realized that politics had nothing to do with it, but that monopoly was arrayed against the people. The people will have cheap power in the Brockville and Kingston districts as they have it in the Niagara district, and at even lower rates. Mr. Beck's policy will cover the province from Windsor to Cornwall.

INDEPENDENT TARIFF ARRANGEMENTS.

By entering into a treaty with Japan whereby certain tariff concessions are made by that country the British

Government appears to have created a parallel situation so that which will arise under the reciprocity arrangement negotiated by the Dominion Government. In the latter case the United States does not propose to extend the special concessions granted Canada to other countries that claim the most favored nation privilege. Canada will thus enjoy an advantage on the United States market as against the United Kingdom. In Japan again, unless Canada voluntarily ratifies the new treaty, the British exporter will have the advantage over his Canadian competitor. The position thus discloses the criticism offered by the British Tariff Commission to the effect that the reciprocity agreement instituted an entirely new departure in the policy of the British Empire. If it did it has been speedily followed. More information on the effect of the Japanese treaty will be forthcoming from Sir Edward Grey, but it cannot alter the fact that the British Government had under contemplation the securing of tariff concessions which might not be made available to the overseas states. This can hardly be avoided if there is to be complete tariff independence.

THE CALAMITIES OF AUTHORS.

It used to be the fashion in the pleasant old stories to have the hero and heroine get happily wedded by the end of the tale, leaving the reader to indulge in a few bright and pleasant hopes of their happiness for ever after. The modern fashion is to commence after the wedding ceremony and show how vain and hollow all such hopes were, and how absolutely incompatible all heroes and heroines are.

We have to admire the faith of the authors who, in spite of experience and doubt and cynicism, always pointed the way for the new generation of readers to the April paths of blossom and promise. There have been many revelations of the lives of authors, and of what stony-heartedness and what fictions they had to meet and bear. But they remained loyal to their ideals, which the women they loved were unable to live up to, and they painted their ideals in imperishable types which endure in literature.

There has just been made public the story of Chas. Dickens' early romance. Many conjectures have surrounded the character of Dora Spellow in "David Copperfield," and many have thought it was a portrait of his wife in days before unhappiness invaded their family circle. And it was thought that Agnes Wickfield was intended for his sister-in-law, who continued the best friend of him and his children until his death.

It appears now that Dora was drawn from his memories of Maria Beadnell, who became Mrs. Henry Winter, and with whom in later years he had some correspondence, and a meeting which resulted in her portrayal as Flora Finching in "Little Dorrit." Maria Beadnell was a year older than Dickens and apparently regarded his attentions as a joke. She was capricious and alternately encouraged him and refused him till he gave up in despair, and married elsewhere. Do people read of Dora's death now-a-days with dry eyes? The pathos of his life's tragedy lies behind those chapters.

The correspondence between Dickens and Mrs. Winter came into the hands of Mr. W. K. Bixby, St. Louis, Mo., and having been edited by Prof. George F. Baker of Harvard, was privately published a couple of years ago by the Bibliographical Society for its members at \$30 a copy. And so Maria Beadnell goes into history with Beatrice and Guinevere and all the other women who fall in truth or constancy, or who do not understand what they might have been, or understanding, value it not.

Disappointing men are on the record also, but they do not seem to have had such an effect in the world of art or literature or romance as the defaulting women. George Elliot and George Sand and Charlotte Bronte and Mary I are hardly cases in point from any angle. The silly woman hit the clever man. But for Mephistopheles Marguerite would probably have jilted Faust.

ROUNDING THE CORNERS.

Nothing appears to be doing to meet the very general desire that the corners of King and Yonge-streets, as suggested by the Civic Guild, should be rounded. The cost is still comparatively trifling, though very great as compared with the bagatelle it would have been had the improvement been carried out when suggested twenty years ago.

The city is growing so big and so many important problems are arising most of which have been postponed by the blockhead councils of the past when they should have been attended to, but the present council seems unable to grapple with the entire situation at one time. A few things are kept to the front, and the rest have to take their chance, and generally go by default.

Could the mayor turn an eye on King and Yonge-street corners?

RECIPROCITY AND U. S. TRUSTS.

United States trusts have been able to extend their operations over the whole of that country because of its internal system of free trade. They have not been able to do this in Canada within the sphere of their influence because the Canadian tariff made independent of that of the United States. Even if the United States had removed its import duties on Canadian material

products, the Dominion would have retained its independence by maintaining its tariff. Reciprocity by arrangement simply places Canadian provinces, so far as natural products are concerned, in precisely the same position as that occupied by the states of the republic and opens the door to complete control by its great trusts of the whole of English-speaking America.

That is not good for Canada or for Canadian producers or Canadian consumers. The fact that power trusts exist in the United States able to control both the price they pay and the price at which they sell, destroys all arguments founded upon the theoretical benefits of free trade when distribution follows the ordinary law of supply and demand. Trusts were established to regulate distribution in their, not the public interest and it is preposterous to say that the inclusion of the Canadian provinces in the United States field will to the slightest extent affect the power of the trusts. Rather will it lighten and extend that power and in the end bring even Canadian overseas trade under their control.

CHINA FAMINE RELIEF.

Messrs. W. A. Charlton and J. H. Gundy have made a special appeal to Canadians for subscriptions to the China Famine Relief Fund, for which these gentlemen are officiating as chairman and secretary. His excellency the governor-general is patron of the fund. His honor the lieutenant-governor and Premier Whitney are respectively chairman and vice-chairman.

The conditions in the famine-stricken districts are described as appalling. Three millions of people being destitute and perishing. If the absence of immediate help a million must die.

Canada is asked for \$100,000 as its share of a world-wide campaign of charity. If civilization can reach out Christian hands to these dying orientals, the world will be a little nearer the golden year for the effort. One dollar and fifty cents saves a human life.

It is suggested that contributions be sent to the treasurer of the fund, Mr. S. J. Moore, 44 West King-st.

BAR RECEIPTS.

Editor World: I notice that the licensed victuallers of the city are making preparations to increase hotel rates. It strikes the man on the street that they are away ahead of the game now without adding a cent to their rate. About two years ago thirty per cent of the hotels were closed, and the remaining ones, taking the average of \$100, the forty places cut off would be \$4000 a day to be divided among those that remained—that would mean \$25 per day to each hotel's bar receipts. The profit on the average would be at least ten dollars. The government added about a dollar and a quarter a day to the \$250 would pay that \$125, each hotel would get ten dollars as above from the patrons of the hotels that were cut off. Again, the hotelkeepers' net receipts would be above \$125, would be further increased to over \$175 by the addition of the five per cent. advance in the price of drink. As the addition would be a good thing out of the deal, and I think would be worth \$25,000 over and above the value of the premises, furniture and the fixtures. That addition of \$125 a day would be worth \$50 a day on the other side of the ledger.

Stigma.

TARIFF TREATY DEAL, ALIAS RECIPROCITY.

Editor World: Viewed from the standpoint of Canada's material prosperity as presented in the budget speech of the finance minister in the house of commons, the reciprocity agreement with the United States entered into by the Ottawa government would appear to be a gigantic fraud. A recent cartoon in the World very cleverly represented the foolishness of the deal by the woman in the kitchen bringing a can of kerosene to spill into its highest capacity. Of course there was nothing for it but an explosion and the destruction of the kitchen, and consequent death of the poor woman.

The foolish idea of our government at the suggestion of the president of the United States entered into a reciprocity tariff deal in violation of the fundamental principle of tariff legislation adopted by the Canadian people in a par with the idea conveyed in the kerosene can in the hands of the woman in the kitchen.

If the Liberal party persists in putting thru parliament the tariff treaty idea, a political explosion will occur which will destroy the trade agreement which will bring about the overthrow of the government responsible for its appearance at this particular stage in the development of Imperial trade relations within the Empire.

WHEREIN WILL THE FARMER BENEFIT?

Editor World: From a Canadian farm paper of March 10, I find the average prices of farmers' stuff ran as follows:

Butter and Cheese.		
Place.	Lowest.	Highest.
Toronto.	19 1/2	20 1/2
Montreal.	19 1/2	20 1/2
New York.	20	22
Chicago.	19	20 1/2

LIKE BECK'S OFFER

Hydro Power Looks Good to Kingston—Rate Below Private Company.
KINGSTON, April 9.—(Special.)—The offer made by Hon. Adam Beck for power for Kingston is better than that made by the Seymour Company, and as a result Kingston will have to delay its answer to the city corporation. Briefly the figures for Kingston follow: For 1200 horsepower, \$28,450; for 1800 horsepower, \$33,765; for 2400 horsepower, \$39,250. The Seymour Company's offer is \$35 straight. The greatest feature of the commission's offer is that they will put in a double line as compared with the single line as proposed by the private company. If an accident occurred, Kingston would be supplied by the other line. There are several other features in the commission's offer to be considered. The scarcity of coal for Oswego, which is not yet out of the harbor. Coal is being shipped into the city by rail, but there is great delay. Saturday afternoon lots of lumber in order to keep them going. The steamer Glenmont broke the ice around the Montreal wharves. The Company's elevator Saturday and unloaded 74,000 bushels of wheat, which the vessel had stowed all winter. A valuable contribution has been made to the library of Queen's University by the British blue books and parliamentary papers have been received.

MICHIGAN ANTI-SALOON LEAGUE GETS SETBACK

Superintendent of League Admits Not Ready Yet For State-wide Prohibition.

LANSING, Mich., April 6.—(Special.)—Eighteen of Michigan's counties, eleven dry and seven wet, have voted on the prohibition question this week and their electors have given the anti-saloon league the greatest setback it has yet received in Michigan.

Three years ago that organization carried ten counties. The liquor interests looked on passively. Two years ago 18 more counties went dry, and the liquor interests began to take notice. In 1910, 36 counties voted. When the election was over 40 counties were dry, at least a prohibitory law had been adopted. The liquor dealers organized and began a campaign of education.

This week came the test of the anti-saloon league's power of the citizens. The results were not consooling to the anti-saloon league's prosperous agitators. Only 38 counties now have the prohibitory law, and Superintendent George W. Morrow of the anti-saloon league announces that Michigan is not yet ready for state wide prohibition. Michigan tried prohibition from 1863 to 1873, and then rejected it. In this week's election the anti-saloon league lost three big counties, which had tried prohibition for two years, and gained only one hitherto wet county. Contests are in progress which are likely to reduce the total of dry counties to 36.

Wet counties, which rejected prohibition: Kalamazoo, with the City of Kalamazoo having 60,000 population; Cheboygan, with the Cities of Cheboygan, Wolverine, and Mackinac; Alpena, with the City of Alpena; Huron, with the Cities of Bad Axe, Pigeon, Sebasticus, and Grindstone; Montcalm, with the Cities of Hillman and Lewisport; Iosco, with Oscoda and East Tawas.

Dry counties which have repudiated prohibition after two years' vain effort to enforce the law: Calhoun, with the Cities of Bad Axe, Cheboygan, and Marshall; Jackson, with Jackson City; Ionia, Nevaygo, Sanilac, Tuscola, Benzie, Clare and Allegan all remained dry, but by very much reduced majorities. Sanilac County, for example, and this is a farmer's county, voted dry two years ago by 2200 majority, but this year the majority for prohibition was only 100. Montcalm County, which has been switching back and forth for a score of years is dry again by a very few votes.

The strength of the anti-saloon league is dissipated in Michigan, and the recent spasm of effort in favor of summary legislation by referendum here was supposed to be powerful. To-day they are openly ridiculed. The legislature has just adopted, in the house of representatives, a bill which gives the saloons the right to remain open on certain minor holidays, like Washington's Birthday, Lincoln's Birthday, Columbus Day, etc. This demonstrates the weakness of the anti-saloon league.

In some of the counties voting the result was very close, but the dry majority totaled 2400 out of a total vote of 150,000, while the wet majority totaled 4600. There are now in wet territory about two millions of population, while in so-called dry territory are only 700,000.

STUCK BY AUTO.

Joseph Rowanwell, 15 years, 22 Steiner-st., was struck by Dr. Oldright's ton-road at 410 Saturday afternoon. He was picked up unconscious, taken to Queen-street, and the King-st. and General Hospital, where it was found that he was suffering from a concussion of the brain, and was in a serious condition. The auto was driven by Chauffeur Lawrence Whitmore, who lives at the doctor's residence, 154 Carlton-street.

OPERA HOUSE SCORCHED

Brockville's New Theatre Had Close Shave From Destruction.
BROCKVILLE, April 9.—(Special.)—Brockville's opera house, which is being remodelled at a cost of over \$100,000, had a close shave from going up in smoke at an early hour this morning. When the town turned over the building to a private company, it retained an annex on the west side, extending to the top of the structure, for a hose tower for the fire department. Between one and two o'clock residents of the neighborhood discovered the fire on the roof of the opera house, but were extinguished before much damage was done by either fire or water. Over 1200 feet of hose was consumed, which, with the damage to the tower, is covered by insurance.

MONTREAL STRIKE ENDED.

MONTREAL, April 8.—The spinners' strike at St. Henri, was settled to-day, and all hands were at work Monday morning. The representatives of the strikers had a conference with the management of the Dominion Textile Company, and as it was found amongst the men themselves, the trouble was soon settled.

Miss Margaret Anglin will appear in Toronto in "Green Stockings" during the week of April 24. The comedy has attracted a remarkable success at the Tremont Theatre, Boston.

Nerves Are Exhausted

And Nervous Prostration or Paralysis Is Creeping Steadily Upon You
DR. CHASE'S NERVE FOOD

You hear of people suddenly falling victims of nervous prostration or some form of paralysis. But when you get all the facts of the case you find that they have had months or years of warning.

They haven't slept well. There has been frequent attacks of nervous headache. Digestion has failed. They have been irritable, easily worried and excited, and have found memory and concentration failing.

Had they but known that these symptoms told of exhausted nerves or had they realized their danger they would have restored the feeble, wasted nerves by use of treatment as Dr. Chase's Nerve Food.

This great restorative treatment cures by forming new, rich blood and by rebuilding the wasted nerve cells. No medicine is more certain to prove beneficial, for each dose adds to the system a certain amount of rich, red blood.

Nervous diseases come on slowly and can only be overcome by patient and persistent treatment. Prevention is always better than cure, and for this reason you should endeavor to keep the system at high water mark by using Dr. Chase's Nerve Food at the first sign of trouble. 50 cents a box, 6 boxes for \$2.50. At all dealers of Edmondson, Bates & Co., Toronto.

Pastor Russell's Sermon AT THE THEATRES

LONDON, April 9.—Again Pastor Russell had a most intelligent and attentive audience, amongst whom were many ministers of all denominations. His text was, "The Church of the First-born whose names are written in heaven" (Hebrews 12, 23).

As last Sunday the question was, "What is the True Gospel," and we found that true Gospel more or less scattered in all the various creeds, and none of them the pure and unadulterated Gospel, so to-night we should be prepared to find that the one true Church of Christ for the past 19 centuries has been scattered here and there amongst various denominations, and that not one of these denominations is the true Church. Not one of them has the wheat and none of the tare.

I remind you again of the simplicity of this Gospel which recognizes the broad basis of Christianity, and allows each individual to see as many of the finer lines of the same as his spiritual development will permit. On that broad basis of Christianity, the early Christians were one and reprobated any division. St. Paul rebuked the Jews for their divisions, "I am of Apollos; I am of Peter. As one died for all of us. He alone must be recognized as our Saviour. As He is the Head of the Church, He alone must be recognized. As all ye are brethren, so the class distinction as between clergy and laity must be abandoned. There will be one Church with one faith, one God and one baptism and one God and one Father."

How the divine Church with glowing creeds calling us to the Almighty, He tells us, calling us to the Father, who is the Father of all, and who is the Father of the Church of Rome. But when we examine the Scriptures on the subject of the Church, we find that the Church of Rome is not the Church of the Father, but the Church of the Mother Church and the various Protestant Churches as her Daughters.

Miss Billie Burke at the Princess.

Miss Billie Burke, one of the most popular stars Charles Frohman ever brought into Canada, comes to the Princess to-night to present "Suzanne," the Belgian comedy, in which she scored a notable success in New York this winter.

"Suzanne" is an adaptation of a comedy that made a big success in Brussels and another in Paris. Suzanne is the name of the principal character—the part Miss Burke plays. It was written by two Belgians, Frantz Fomson and Fernand Wecheier; its scenes are laid in Brussels and its characters, with only two exceptions, are Belgians. C. Haddon Chambers, the well-known English dramatist, has made the adaptation for Miss Burke, and all the Belgian atmosphere has been preserved.

Alice Burke is a winsome young girl; just the kind of girl that Miss Burke may be expected to realize most charmingly. She will be supported by a fine cast of players, including Miss Burke's matinee will be given on Good Friday and Saturday.

POLICE RAIDS SECURE MORE DOUBTFUL BOOKS

"The Yoke," "Three Weeks" and "Cynthia in the Wilderness" Under Ban.

Once more the police went gunning for undesirable books Saturday at 1 o'clock. They visited the emporiums of Albert Britnell and John P. McKenna, and secured three specimens at the first and two at the last port of call. The books which are now up for censure are very different from the classics which were recently condemned. This time the matter is extremely modern. "The Yoke," "Three Weeks" and "Cynthia in the Wilderness" were seized, and at McKenna's copies of the first two were taken. The police hold that these books are obscene.

At the Britnell premises a search was made by Staff Inspector Kennedy and Detective McKinney who armed with candles, descended into the cellar. They located a case of books lying adjacent to a drain pipe, among which were copies of all three books. These they seized and departed. At the McKenna store every assistance was given to the police and copies of two of the books were taken. Summonses will be issued in each case for a day early in the week.

PORCUPINE LETTING VERY FICKLE WEATHER

Weather Code Decidedly Erratic in the Gold Camp—Break Up Has Not Yet Arrived.

PORCUPINE CITY, April 5.—(From Our Man Up North.)—Excessive and incessant fickle weather has all the doers on the run. It's only natural. You can get it as many colors and shades here as are kept in stock at an up-to-date soda counter, and just as easy as turning on a tap.

An index to one week's weather code would read as erratic as a dime novel, thus: March 29, cold and growing colder after a blizzard; March 30, Old Sol ducked his head completely, more cold; March 31, down to 28 below zero, an unhappy introduction to gray April days; April 1, still cold with increasing winds that give no promise of mercy to the sheared lambs; April 2, a slight warming with the wind still in the north; April 3, north wind with bright sunlight that thawed, in spite of the blistering blasts; April 4, sun out bright with wind shifted to the south, and east; snow melted; light ice in a fountain; April 5, high fall of snow that softened to a mist when the first hill rainstorm came.

And three inches of snow have fallen just in time to drive the blues out of the dozen or more stage men who have courageously stuck to their old habit of bringing in the traveling public from the steel.

PORCUPINE GOLD MINES HAS A CLEAR TITLE

No Truth in Rumors Regarding Vipond—Developments to Date on Property.

During the past week there have been considerable discussion and rumors arising regarding the property owned by the Porcupine Gold Mines Company, which is properly known as the Vipond. All rumors regarding the property title to property have been absolutely denied by the president and other officers of the company.

The conditions are simple these: The Porcupine Gold Mines Company owns all of the stock of the Vipond Porcupine Mines, Limited, who owns the two Vipond and Althra claims, also all the stock of the Ridgely Porcupine Mines, Limited, which owns three-quarters of the six Atchison-McDougal claims.

Porcupine City, the original and only Porcupine City Townsite, and the first townsite in the Porcupine Goldfields in which a government post-office was established, is now, as it has been for a year past, the home of the solid business people of that district and the main distributing point for mail and merchandise. For further particulars see or write Charles C. MacGregor, Real Estate Agent, King Street, Porcupine City.

PORCUPINE

We have prepared brochures giving full particulars regarding Porcupine Gold Refs and Eldorado, which, in our opinion, are two wonderfully attractive stocks which should be purchased.

UNLUCKY MINING CLAIM

Two Owners Die Within a Month of Each Other.

To die within a month of each other was the fate of the two owners of a mining claim in Gowganda, John Alexander Nicholson of Westmount, Que., and M. T. Culbert, late manager of the O'Brien mine, were the owners, and a letter has been received, asking for necessary information for the granting of letters of administration, and stating that Mr. Culbert died of appendicitis within a month of the death of his partner.

THREE SHAFTS GOING DOWN

Miller Porcupine Co. Let Contracts for Active Development Work.

PORCUPINE CITY, April 5.—(From Our Man Up North.)—Contracts for sinking three shafts 100 feet each on the Miller Porcupine Gold Mining Company are about closed, and within two days it is more than possible steel will be driven thru the rocks. All winter prospecting has been in progress, and several quartz leads have been located and stripped sufficiently so that an intelligent estimate can now be made as to where shafts should be put down.

BOARD OF TRADE EASILY PASSES THOUSAND MARK

Membership Campaign Ends in Shower of Congratulations on Brilliant Success.

The board of trade wound up its whirlwind membership campaign on Saturday with luncheon at National Club at 1 p.m., and final figures showing 1029 new members added in 10 days period were greeted with enthusiasm.

The board has now 3500 members, comparing with 800 in 1908. Mr. W. P. Gundy occupied the chair, flanked by President R. S. Gourlay, the acting secretary F. D. Tolchard, vice-president G. T. Somers, and other members of the executive.

After the lunch Mr. Gundy briefly asked the captains for reports. Every one was ready, but as Lloyd Wood, who has the dentists in charge, and Eric Armour, who has the lawyers, doctors, professors and teachers to look after, asked for an extension of time, it was decided to receive applications up to the 15th inst. Every announcement was greeted with applause, especially when the leading figures were announced. Mr. C. H. Wilson, who had electrical contractors, fixtures and supplies, and jewelers to deal with, stating that he had 40 new names to add to the 66 already in, making a total of one hundred and ten. Mr. Gundy rose and called for cheers, which were heartily given.

THE DEAD ACCOMPLISHED

A grand total of 1029 actual applications was announced, making the membership of the board over 3500.

The principal figures given in the No. 2, lawyers and doctors, Eric Armour, captain, 87, No. 5 bookbinders, bookkeepers, engravers, etc., Captain S. B. Gundy, 81, No. 3 butchers and contractors, lumber and timber, Captains Eric-Mayor Oliver and Hugh Munro, 83; No. 12 electrical contractors, and working for ten years and in the No. 13 and 20 united, Captains Douglas Marshall and H. Love, 100, and No. 18 and 19, the acting secretary in the absence of Mr. F. G. Morley, the meeting was brought to a conclusion.

Twelve Hundred May Be Total

Mr. Gundy spoke enthusiastically of the grand work achieved by the board, whose tact and skill would lead up to greater things. He pointed out that the ten hundred and twenty-nine did not include thirty-nine names handed in to the board just before the campaign commenced. Before the end of next week the number would be swollen to twelve hundred.

Praise for the Press

Vice-President Somers, who he was bubbling over with enthusiasm. He wished to thank the press for its splendid work. They had now a greater board of trade than has been in 1908. They had 800 members, in 1908, 950, in 1910, 1450, and now, early in the fourth month of 1911, they had nearly 3500 good men and true pledged to accomplish wonders for the future of Toronto. They were building up a great city and he would not be surprised if in 12 years they had a million people in Toronto.

Mr. Harris wished to speak of a valuable ally. He referred to the press, which in this case had been unique in its unanimity and solidarity.

He wished to show a vote of thanks to the press for the service it had rendered the board of trade.

Dr. Emory seconded the motion, which was carried with acclamation.

Mr. Haywood had nothing but good to say for the name changed to "Chamber of Commerce."

Gave Mr. Gundy Credit

After brief speeches by Messrs. Hynes and Wilson, Mr. Gourlay called for cheers for their chief, Mr. W. P. Gundy, of whom they had every reason to be proud. To him many belonged the great honor of success. Mr. Gundy modestly suggested that it goes to the captains the honor was due.

W. M. Douglas, speaking for the captains, said they were proud to have taken a share in the campaign.

W. M. Piets, formerly of Montreal, added his quota to the paean of praise.

Mr. Marriot told how the St. Paul Chamber of Commerce had a fifty mil-
