Big department Store Crashes Scores of Employees in Ruins

Death List May Reach Thirty

Estimated Dead 30, Dead Taken from Ruins 9, Fatally Injured 5, Number Carried Down 100. A fireman was severely injured, and Thomas Manning was badly cut.

The catastrophe occurred shortly after the opening hour, when barely a score of shoppers were in the store. A clock found in the debris had stopped at 12 minutes before 8, showing which the crash came.

The best account of the event that probably caused the ruin is given by the head of the crockery, glass and drug department, which occupies the basement. The workmen were sawing at a wooden floor beam, when a large pile of glassware slid off onto the floor with a crash.

Among the seriously injured, so far as reported, are: Miss Helen Donahue, spinal column fractured, cannot lie; Miss Anna Clout, Miss Lena Hesa, Miss Elizabeth McManis; Miss Mary McEvoy, cannot lie.

Among the above are employees residing in Albany. Shoppers who were hurt are: Mrs. Richard W. Brass, seriously; Miss Mary Gilmore, Miss Stie McCormack, Mrs. Edmund S. Burtwin, slightly; Mrs. William Ross of Windsor, Minn.

A number of the rescuers received slight cuts and bruises. Glory Kenras, Toronto's Grand Patriarch, L.O.O.F. Grand Encampment.

Thirty-Sixth Annual Meeting at Brockville—Order's Steady Progress. Brockville, Aug. 8.—(Special.)—The preliminary of the celebration of the golden jubilee of the Ontario Grand Encampment, L.O.O.F., which takes place to-morrow and Thursday, was the holding to-day of the thirty-sixth annual meeting of the Ontario Grand Encampment, at which over 100 delegates were present.

Another flag incident. Stars and stripes removed from Stony Lake Hotel. Stony Lake, Aug. 8.—(Special.)—A flag incident occurred at McCracken's Landing, one of the popular resorts on Stony Lake to-day, an American flag being torn down by persons unknown.

Crushed in sand pit. Edward Scott in precarious condition. Stratford, Aug. 8.—(Special.)—Edward Scott, of the 3rd concession of Ellice, near Stratford, met with a serious accident on Saturday, thru the falling in of the bank of a sand pit in which he was working.

AIM TO AVOID STRIKES LOCOMOTIVE FIREMEN MEET

Addresses Were Given by Representative Officers and South York Member at Open Meeting.

Yesterday saw the opening of the convention which has attracted to Toronto hundreds of handiers of the black diamond on railway lines throughout the continent. The Brotherhood of Locomotive Firemen is the name under which the organization lives and flourishes and should you encounter a red-bagged stranger on the street, to-day or to-morrow he is of the order.

But last night the doors of the Majestic Theatre stood open for the public meeting. The occasion was a comfortable affair, the ladies making up a large portion of the gathering in the interim before the appearance of the representatives of the big organization that has not convened here since 1888.

There were many present from the United States and even as the present time Great Britain and the United States were maintaining the peace of the world and working together for the betterment of the human race.

Business suspends to-day and merchants will help to clean the streets. New Orleans, Aug. 8.—Official report of the yellow fever situation to 6 p.m. to-day: total to date, 616; deaths to-day, 40; total to date, 132; new subject, 17; total subject to date, 118.

To fight yellow jack. Medicine school leaves. Liverpool, Aug. 8.—Sir Alfred Jones, president of the Liverpool school of tropical medicine, has received a cablegram from Mayor Behrman of New Orleans, accepting the offer made yesterday by Sir Alfred of the services of the school during the prevalence of yellow fever.

Nov Scotia Railway bonds. (Canadian Associated Press Cable.) London, Aug. 8.—The Canadian press understands an issue of Nova Scotia Eastern Railway Co. stock will shortly be made on the London market. The total estimated cost of construction is \$1,150,000.

Envoys Face to Face To-day To Determine Peace Terms

If Basis of Negotiation for Peace Is Found Treaty Making May Occupy Five Weeks.

Portsmouth, N.H., Aug. 8.—The Russian and Japanese peace missions are to-night on the eve of facing each other for the purpose of seeking to end the war in the far east and if possible consummating a permanent peace. To-morrow they will meet in the naval stores building of the navy yard.

St. Petersburg, Aug. 8.—The National Assembly project was finally approved at Pecheroff this evening, and will be promulgated next Saturday, on the anniversary of the birth of the Grand Duke Alexis Nikolavitch, heir to the Russian throne.

The Japs propose to build an empire on the mainland of Asia. Oyamans has already cleared away enough ground to supply space for a fairly decent foundation.

Japan has exclusive information this course is to be followed. For immediate peace Japan asks an indemnity of \$700,000,000...

It is contended by some authorities that Japan, having admitted that justice in the war, is not entitled to ask an indemnity. This, however, scarcely appears a sound proposition.

Japan, being justified in taking up arms and having cited them to victory, is entitled in equity to be relieved from pecuniary loss and to exact such terms as will, so far as is humanly possible, enable her to prosecute the natural development of the nation in security and peace.

Editorial World: I see by the columns of the press that there is a great demand in this country for men. I would like to know where it is, outside of the farm labor and some special lines of mechanics, for, sir, I have written scores upon scores of letters in search of employment, answering advertisements, etc., and all the encouragement, I receive is that my application has not been placed on file for future reference.

Letters were sent by the society to fourteen large advertisers, who are asked to spend from \$200.00 to \$500.00 a year for publicity, asking them what proportion of their appropriations they would be glad to place on billboards...

Another house, spending about \$500.00 a year in all forms of advertising, had invested a few hundred dollars in street car signs and posters, with disappointing results...

A concern which spends almost a million a year in advertising does not out-door work in the United States and Canada yet.

TAKES FLOWERS FOR SON'S GRAVE AND IS ARRESTED... Hartford, Conn., Aug. 8.—Widow Bridget Duffy's son was drowned the other day. She aged and penniless buried him in old North Cemetery and with him buried all hope.

It is against the strict rules of the cemetery to pluck anything that grows there. So the superintendent, who sees widows weeping and hears mothers wailing every day, had Mrs. Duffy arrested and she passed last night in a jail cell.

And this morning the superintendent was in court to urge that she be punished and there with the little bunch of poor wild flowers she had plucked as proof of the heinous crime to which she had been driven.

And as it happened, other flowers were there, for the whole town seemed to know the Widow Duffy had been arrested and why. Scarcely a wealthy man there who does not have a flower bed, had sent a big basket of rare blossoms to the widow. So had several florists.

A sympathetic woman had sent her carriage to drive Mrs. Duffy to her home, and she had been driven to her home by the carriage.

Not a penny of indemnity, says the Globe, is to be asked for the work done by that familiar old rascal of Kuroki's threat to dictate peace at Tokio.

The Globe wishes it to be clearly understood that the Round Robin of Ottawa is in no wise related to the first robin which it welcomes every spring.

PROVINCE SHOULD SHARE IN THIS... The Weekly Sun: That there is enormous mineral wealth in New Ontario has been abundantly demonstrated.

There is one "hole in the ground" there from which a quarter of a million dollars has been taken; one shaft has produced one running 5000 to the ton and one other 1000 to the ton.

It does not all belong to the discoverer, also these should be liberally rewarded. It does not all belong to the capitalists and workmen who perform the work of developing it.

A Wrong Idea of the Nerves... The Action of the Heart, Lungs, Stomach, Liver and Kidneys dependent on the Nerve Force.

There is not a single organ of the human body that can perform its functions without a liberal supply of nerve force—the motive power of the body.

The nervous system should never be thought of as a separate part of the body. Its branches extend from the brain and spinal column to the tips of the fingers and the toes.

Through the medium of the nervous system Dr. Chase's Nerve Food carries life and energy to every organ of the body. It strengthens the action of the heart, invigorates the stomach, makes the kidneys, liver and bowels more active and builds up the entire system.

SCIENTISTS NOT LIABLE TO TREAT THEIR STICK... Important Decision Frees Three of Sect from Charge of Murder.

New York, Aug. 8.—A decision in a Christian Science prosecution has been handed down at last and practically establishes the precedent that faith healers cannot be held liable for deaths of persons under their care.

The demurrer to the indictments against John Quimby and wife, Georgiana Quimby, and John C. Lathrop of New York, charged with the murder of a young child of Christ, Scientist, charging murder in the second degree, was yesterday sustained by Judge Eliot.

The indictments were found by the grand jury of Westchester County on Oct. 31, 1904, on the grounds that Mr. and Mrs. Quimby and the healer, Mr. Lathrop, had allowed seven-year-old Esther Quimby to die of a malignant attack of diphtheria without medical attendance.

Today, however, dismisses the case and releases the defendants from all further prosecution. All three still affirm their absolute belief in the efficacy of Christian Science to heal disease.

The ruling is of momentous importance to Christian Scientists everywhere and to the spread of the Christian Science propaganda. The fact that not even a case which was as mercifully pushed and as persistently prosecuted as the now famous "Quimby case" could be brought to a trial will probably be taken by Christian Scientists as conclusive proof that the backbone of legal opposition to Christian Science has been broken and that few more prosecutions will be even brought against the sect.

YORK COUNTY AND SUBURBS POWER CO. SAVES REDUCED

Judge Morgan Lowers Tower Assessment, But Advances the Land Value—County Happenings.

Jelington, Aug. 8.—The regular monthly meeting of Etobicoke Township council was held yesterday.

At the meeting, the assessment on Church-street repaired, and Councilors Shaver and Elford were instructed to have the drain at Mr. Beatty's repaired.

The culverts on the station and Lake Shore roads are to be rebuilt. Councilor Shaver got orders to have all the weeds on Dundas-street cut forthwith.

The township clerk was instructed to prepare a bylaw compelling owners to destroy stinkies or noxious weeds on and opposite their properties and to submit same at next meeting of council.

An important decision was rendered by Judge Morgan at the court of revision, held at Jelington to-day, to consider the appeal of the Niagara Power Co. against the assessment of their lands in the Township of Etobicoke.

The judge allowed the appeal and thus wiped out \$200 of the township's assessment, but at the same time increased the land assessment from \$80 to \$110 per acre, a total of \$1700, which, however, leaves the revised assessment of the company property \$1900 lower than the original.

The general township rate for Etobicoke is 4.50 mills. It is impossible to give the total rate for the whole township, as every school section has a rate of its own, ranging all the way from 1 to 14 mills.

A bylaw was passed to provide for the payment of \$100 for the new cement sidewalks at Lambton Mills.

Toronto Junction, Aug. 8.—The regular monthly meeting of the public school board was held to-night.

At the meeting, the board considered the report of the committee on the proposed new school at the corner of Dundas-street and Huron-street.

Grandfather's Cure for Constipation.

But, if you will take your exercise in an easy chair, there's only one way to do that, and make a success of it.

There's only one kind of Artificial Exercise for the Bowels and its name is "CASCARETS."

Cascarets are the only means to exercise the Bowel Muscles, without work.

They don't "flush out" your Bowels and Intestines, they only purge the Bowels, as Salt, Castor Oil, Calomel, Jalap, or Aperient Waters, always do.

No—Cascarets strengthen and stimulate the Bowel Muscles instead.

These are the Muscles that line the Food Passages and that tighten up when Food touches them, thus driving that Food on to its Finish.

They are the Muscles that turn Food into Strength through Nutrition.

Well,—a Cascaret acts on your Bowel-Muscles as if you had just Sawn a cord of wood, or Walked ten miles.

That's why Cascarets are safe to take continuously in health, and out of Health.

Because, they move the Food Naturally, digesting it without waste of tomorrow's Gastric Juice.

They thus work all the Nutrition out of it before it decays.

Thus will you ward off Appendicitis, Constipation, Indigestion,—and other things besides.

Druggists—10 Cents a Box.

You can try Cascarets FREE before you buy. Write for Free Sample and booklet, "The Cause of Constipation," best ever printed on this subject, to Geo. F. Jones, Remedy Company, 374 St. Paul Street, Montreal.

CITY WILL GRANT \$17,000 FOR ADDITIONAL SHEEP PENS

Western Cattle Market to Be Unsettled—More Acre Over Rental of Esplanade Property Leases.

The city will spend \$17,000 in providing additional sheep pens for the western cattle market. The board of control yesterday after proper deliberation decided upon this course, even the mayor, who came out last week in decided opposition, falling into line with good grace.

The strong argument put forward in support of the outlay was that any policy of scrapping would result in the trade going to Toronto Junction, and that it might be better to keep the market here. The board of control, Controller Spence and Ald. Dunn both spoke along this line, the latter making a special plea for keeping the sheep trade a chance. He thought that a proper amount of attention to the market would result in enough of the export trade being kept to make the market pay.

The board will advertise for tenders for the work.

The Canada Paper Co. made application for a renewal of lease on property east of Bay-street on Front-street, being a portion of the parcel of land expropriated by the government for the new postoffice site some time ago. The mayor notified the government that unless notice was given of an intention to take active steps, renewal of lease would be granted to the firm desiring them. The controllers, however, gave instruction to the assessment commissioner's department to have the lease terminated and will not allow the Canada Paper Co. to occupy the property until the end of March.

The controllers will visit the island on Aug. 21 to get an idea of the need or otherwise of the expenditure of funds for protection to the eastern shore, as recommended by Mr. Rust.

Termination was given to the dwellers on the western sand bar of the island to erect a pavilion there, subject to the city architect's approval.

A claim which, if allowed, will furnish a concrete basis for the truth of the firm claim for loss of \$240,000, being interest at 6 per cent, on certain amounts alleged to be overdue in payment for current work at the city solicitor will go into the matter.

Detectives Travel Strange.

New York, Aug. 8.—Through the efforts of Capt. Romano de Parovich, of an Austrian line steamer, charged with bringing over 600 steerage passengers for whom there was no regulation accommodation, it has developed that ten secret service agents are traveling in cash bills yesterday before a United States commissioner.

Mohannes Negro.

Waco, Texas, Aug. 8.—At 2 o'clock this morning mounted citizens numbering 600 surrounded the court house and Sheriff Tilley, the jailer and the deputy, broke open the jail, and after making prisoners of the sheriff, the jailer and the deputy, they took Hank McCoy, colored, out, and from the new bridge. Majors had recently been convicted of criminal assault and given the death penalty, had been granted a new trial.

Opposes Civic Plant.

Kington, Aug. 8.—One of the leading lawyers in Nanaimo has received instructions to take proceedings to quash the bylaw authorizing the issuing of certificates for installing a municipal electric plant in Nanaimo and has notified the council to that effect.

Armed Is Safe.

Kington, Aug. 8.—The story of the reported sinking of the steamer Arundel on the south shore is incorrect. She passed Cape Vincent, New York, on her way up from the Thousand Islands to Charlotte at 8.30 a.m.

Bank at Cobalt.

The Canadian Bank of Commerce announce that they are opening a branch of their bank at Cobalt, Ont., to-day.

DESTITUTION IN AFRICA.

Many Canadiana Unable to Find Work in New Possessions.

Ottawa, Aug. 8.—Canada's commercial agent in South Africa, Mr. Kittson, in a private note to the department, says that he has seen much destitution in South Africa among Canadian out of employment. Work is difficult to obtain and hundreds of natives are on the verge of starvation. Mr. Kittson is called to the commercial agent for relief.

Mr. Kittson says there is a market for \$400,000 worth yearly of footstools in South Africa.

The commercial agent at Leeds, England, writes that all Canadian produce should be branded "Canadian."

The British agent says that inferior fruit is not wanted in England.

FARM LABORERS' EXCURSIONS 1905.

Latest advices from Winnipeg state that the wheat crop of Manitoba and the Canadian Northwest will exceed all previous seasons; a great number of eastern laborers will be employed as harvesters. A farm laborers' excursion will be run from Toronto:

Aug. 29, 1905—Main line Toronto to Sarina.

Sept. 2, 1905—Main line Toronto to Sarina and stations north (except north of Cardwell Junction and Toronto on North Bay section).

Sept. 4, 1905—From all points Toronto and east to and including St. John's and Kingstons, and north Toronto and Cardwell Junction on North Bay and Midland divisions.

Tickets will be sold to female as well as to male laborers. Tickets will not be sold at half rate to children.

With each ticket the purchaser will be given a farm laborers' verification certificate, and an extension coupon. At Winnipeg, the certificate will be given by farmers, and by representatives of the Manitoba government. Laborers, and on presentation of extension coupon, signed by a farmer, stating that he has employed the laborer, will be given a farm laborers' ticket upon issue of which the holder is entitled to a station nearest the point where he is engaged to work, and on arrival at such station must deposit the farm laborers' verification certificate with the C.P.R. agent. If anyone has made arrangements to work with a farmer, or with some farmer with whom they worked previously, they will be issued a ticket at the point where they are to work, and on arrival at such station must deposit the farm laborers' verification certificate with the C.P.R. agent. If anyone has made arrangements to work with a farmer, or with some farmer with whom they worked previously, they will be issued a ticket at the point where they are to work, and on arrival at such station must deposit the farm laborers' verification certificate with the C.P.R. agent.

After a laborer has worked for at least thirty days, and has received a certificate from the farmer with whom he has worked, such certificate will be issued to him prior to his departure, and on his return to starting point by same route as on going journey, on payment of 150 lbs. baggage, wearing apparel will be allowed on each ticket. The run followed persistent rumors regarding the bank's stability which have been current for a week or ten days. The trouble is reported to have been due to bad loans. Vice-President Jones said the run came without any intimation when the doors opened this morning.

BARN AND CROPS BURN.

Dutton, Aug. 8.—During a very severe electric storm on Saturday evening, the barns on the farm of Daniel Keating, five miles north of this place, were struck by lightning and completely destroyed by fire, together with all this season's crops. Insurance \$700.

Vegetable Growing in Cuba

EXTRACTS FROM PROFESSOR G. F. AUSTIN'S REPORT.

Chief of Department of Horticulture, Cuban Experiment Station, Santiago de Las Vegas.

All Classes of Vegetables Successfully Grown in Cuba.

Comparatively few people in the United States know that nearly all classes of vegetables which they are familiar in their home gardens or markets can be successfully grown in Cuba, and the few who are aware of the main fact usually have mistaken ideas as to the conditions which govern truck gardening here.

During the past winter, from November to May, the horticultural grounds of the Cuban Experiment Station have yielded a continuous supply of the following vegetables in excellent condition: Forty varieties of American lettuce, all classes of garden and stock beets, radishes, turnips, rutabagas, endive, salady, tomatoes, eggplant, Bermuda onions, Swiss chard, cabbage, kohlrabi, parsnips, sweet potatoes, Irish potatoes, peppers, carrots and celery.

People Coming to Cuba Can Count on Good Gardens.

From this report it will be seen that people coming to Cuba may not only count upon being able to make good gardens for their own use, but may consider vegetable growing for market as one of the openings which the country offers. Already Cuba exports several hundred thousand crates of vegetables every winter, the principal varieties now grown commercially being tomatoes, eggplant, peppers and Bermuda onions. Guisnes, about thirty miles from Havana on the United Havana Railroad, has for years been the leading district for truck farming, though there is now a considerable acreage of vegetables at Tacas Taca and some other points on the Western rail road. Along both these roads the opportunities for vegetable growing are excellent, as they have quick and competent service in connection with the steamship lines.

Cow peas, velvet beans and probably other leguminous crops grow successfully during the summer or rainy season and may be turned under in the fall, thus putting the fields in good condition for vegetable crops during the winter. The use of commercial fertilizers has largely begun.

Three Distinct Types of Soil.

In the region to which I am confining this discussion there are three distinct types of soil—the red, the black and the sandy or loamy—with many intermediate grades. The Guisnes vegetable district is an example of what is known as "mulatto" land, an intermediate between the black and the sandy. This is a deep soil, sticky in wet weather, but loose and mellow in the dry season. When properly handled it gives excellent results. The sandy

and loamy soils which prevail in Pinar del Rio Province are also proving well adapted to vegetable growing and seem to hold water better than either the black or the red lands, so that by thorough cultivation crops may be produced on them with less water than soils of any other type. As a rule the black lands are considered to be better adapted to sugar cane than to truck gardening, being very heavy and having a poor natural drainage, yet suffering badly from dry weather on account of their tendency to bake into unfruitful crusts and clods.

Red Soils Not Profitable for Vegetables Without Irrigation.

On the red lands we have been able to grow all classes of vegetables successfully, yet this soil probably suffers more severely than any of the others from drought, having almost too perfect a natural drainage and at the same time, a tendency to dry out; even with the most careful cultivation watering has been necessary in order to maintain the amount of soil moisture necessary to a growing crop, so that without a good system of irrigation I do not believe the red lands would be profitable for vegetables. On the other hand, I wish it distinctly understood that with irrigation just as fine vegetables and just as large a yield can be produced from this soil as from any on the island.

Profitable Vegetables for Cuba—Celery.

Returning to the subject of the vegetable crops which can be most profitably grown in Cuba, I wish to call special attention to some of the more promising ones. As I have already said, tomatoes, peppers, eggplant and Bermuda onions have made their way from Cuba into the markets of the United States and I believe that celery can also be successfully grown here for export and for local use. Our work has demonstrated that its production is possible. I enclose a photograph of our celery fields here at the station. Seed planted in October gave us excellent stalks in March. For commercial purposes the crop should be ready to handle during January, February and March, for in April the weather begins to be too warm and several fungus diseases appear, doing great damage. The celery now sold in Havana is imported from the United States and you would be surprised to know that a little poor stalk of American celery will bring 25 cents—and bring it quickly. The people of Havana seem to be exceedingly fond of this vegetable and would buy it eagerly if it were supplied to the market.

Remember That!

Hundreds of Canadians have purchased plantations from our Company, and are going to make their permanent home on our estates.

Soil and Products of Cuba

In no part of the United States or Canada is found a soil so rich, so fertile, so productive as Cuba. There is no garden like this favored spot. It is perfect in soil and climate. Three crops a year can be grown.

Four hundred years of Spanish malaria prevented the development of more than a small portion of this beautiful island, and thousands of acres of virgin soil now await the thrifty and energetic Canadian to make it the most productive spot in the world.

Remarkable Growth of Orange Trees

In a letter recently received in the following item: I visited a fruit farm and photographed an orange tree three years ago from setting. It was six inches in diameter at the base and about eighteen feet high, with branches five or six feet long and full of fruit. I also photographed a tree five years old which bore 500 oranges last year, and another seven years old which bore 7000 oranges. Grape-fruit attains perfection in Cuba.

Oranges

It is claimed by the best authorities on citrus fruits that if all the available lands suited for the purpose of this part of the world were put into cultivation it would be more than twenty years before the market would be supplied to the same extent that it was previous to the fifties in Florida and California.

It must be remembered that an orange grove will mature here in one-third less time than in California or Florida.

Governor-General Charles H. Allen says: "A ten-acre orange grove, once in bearing, gives a comfortable income, sufficient to support a family in the best country style." When an orange tree is in full bearing it is valued at \$100.—Florida Fruits and How to Grow Them.

Profits on Oranges and Other Citrus Fruits

As an indication of the profits to be derived from raising oranges and other citrus fruits, I quote from an official work on Cuba, recently published: "The person owning an orange grove in a country free from frosts is the most independent and happiest person on earth. A full-grown orange tree will yield from 1000 to 5000 oranges yearly, and, like the lemon tree, begins to bear the third year. Before Cuba got its setting back during the war orange lands were selling for \$100 to \$200 per acre, and a three-year-old grove was worth \$1000 per acre. The oldest trees in Cuba are some 100 years old, and each year the crop is greater than the previous year. No limit is placed upon the age of the orange tree; so in beginning an orange grove, remember, if four or five years are required to bring it into bearing, it will continue to yield its golden harvest for generations to come, and when once in fruit you can sit beneath its shade almost in idleness and have an abundant competency."

What Can I Do in Cuba?

AMONG OTHER THINGS YOU CAN MAKE MONEY. BUT YOU NEED TO HUSTLE. TAKE SUFFICIENT MONEY TO KEEP YOU AND YOUR FAMILY ONE YEAR, THEN IT'S YOUR OWN FAULT IF YOU HAVE HEALTH AND YOU ARE A FAILURE. THERE IS NO DROUGHT, BLIZZARD OR FLOOD, NO CROP FAILURE, NO COLD WEATHER, NO EXTREME HEAT. SUCCESS IS ABSOLUTELY CERTAIN IF YOU ARE WILLING TO HUSTLE. THIS IS ALL THERE IS TO IT. A LITTLE MONEY—A LOT OF ENERGY—AN INDEPENDENCE SURE.

ST. THOMAS CHURCH BURNS.

Daily Walls of New York's Highest Church Are Standing.

New York, Aug. 8.—St. Thomas' Episcopal church at Fifth-avenue and West street, one of the most richly furnished religious edifices in America, was wrecked by fire to-day.

Defective electric wiring is supposed to have started the fire. The loss is estimated by Fire Chief Croker at at least a quarter of a million dollars. Only a mere shell of stone walls was left standing, and paintings and bas-reliefs, which alone were worth many thousands of dollars, were ruined. The sumptuous altar and chancel furniture, including a \$20,000 organ, were destroyed by the fire.

The church has stood on its present site for 87 years, and has been the scene of some of America's most brilliant weddings, including that of May Deloit to the Duke of Roxburgh. The Rev. Ernest M. Stiles is the rector.

Had Diarrhoea so bad he had to give up work.

HAVE YOU EVER BEEN IN THIS POSITION?

If you have not been, but ever do, remember that Dr. Fowler's Extract of Wild Strawberry is nature's specific for all Bowel Complaints.

It has been on the market for 30 years. Surely this is reputation enough as to its efficacy.

Dr. Henry Voll, Carthage, Ont., writes: "I have used Dr. Fowler's Extract of Wild Strawberry with the best of results. Last summer I had the diarrhoea so bad that I had to give up work. A friend of mine persuaded me to give Dr. Fowler's Extract of Wild Strawberry a trial, which I did, and can say that it cured me entirely. I can recommend it to all who are troubled with Diarrhoea."

Be sure and ask for Dr. Fowler's and take no substitute. All dealers sell it.

JAMES BAY RAILWAY.

Revises His Plans in Don Valley North of Bloor Street.

The James Bay Railway (Canadian Northern) has filed revised plans in the county registry office for its line between the 3rd and 4th mile, immediately north of Bloor-street, and on this plan they intend to forthwith ask for rights of expropriation.

The river valley is a quarter of a mile wide here. Bloor-street is not opened if it is here the viaduct will be built to Danforth-avenue, nor is Bayview-avenue, as it is called, running north and south. The belt line runs up the west side, the C.P.R. up the east side, and the James Bay is to take the C.P.R. line and the C.P.R. line.

The revised line of the James Bay leaves the belt line, skirts the west bound of the 62 acres to be expropriated, crosses under the centre street C.P.R. viaduct and then on up the valley, keeping more to the east than in the original plan. The acreage expropriated is as follows:

Revised	Area
R. Davies	18.9
Scottish Ontario	882 2.8
Helliwell Estate	205 21.5
E. B. Oster	329 2.9
D. B. Martin	127 1.45
J. B. Jackson	1265 32.5
	5481 61.0

The fourth and fifth mile followed the original plan in the valley over the property of the Taylor estate, the Smith and the Davies property.

A big gang of men are now busy making a temporary road up De Graess's hill so as to permit the closing of the Don road, immediately north of Skillhorn's. The railway will go under the wagon road at this point. The bridge on the hill road will be carried on heavy concrete walls.

The diversion of the Don, immediately north of Skillhorn's, will be completed in a week. This will save the railway two bridges. The grading is practically completed from this point north to Richmond Hill. Thousands of ties are being dumped from the belt line; track laying will be started as soon as the three miles in the Davies-Taylor property, north of Bloor-street to Skillhorn's, is completed.

The railway will immediately ask the courts to allow them to enter on these Davies and Taylor properties under the usual conditions of arbitration.

Union Bakers Quit.

New York, Aug. 8.—The strike of bread bakers Hebrew quarters of day spread to Brooklyn, where a union of 180 bakers quit work.

President Kurtz of the bakers' organization says that practically every union baker in the city is now on strike. In consequence the price of 'K' bread, which had already risen four and five cents a loaf to eight and ten cents, is again advancing, this time about two cents a loaf.

WILL TEST CANADA ROUTE.

Can U. S. Mails Be Delivered Sooner by Canadian Shippers?

(Canadian Associated Press Cable.) London, Aug. 8.—The Dundee Advertiser to-day says: "The outward voyage of the Virginian will help to solve a question which has often been put of late: 'Can mails for the United States be delivered sooner if carried by Canadian mail steamers? Will her mails be delivered not more than 24 hours later than if they were carried by the Majestic running at her usual speed?' If the Virginian succeeds in doing so the supremacy of New York as the port for postal steamers on the Atlantic will be seriously threatened. Canada will become not merely the shortest route to Japan and China, but to a great part of the United States as well, and as there will doubtless be very shortly even faster steamers than the Virginian carrying mails between Canada and here, the success of this voyage may be the beginning of a great change in the route by which mails are carried between Britain and the United States."

A BOOKLET OF 50 PAGES OF SUMMER RESORTS FOR 1905 FREE.

At the General Passenger Department, Boston and Maine Railroad, Boston, Mass.

"Where to go on my vacation." That is the question which usually gets around at this time of year. Well, you can go to the White Mountains in New Hampshire; to the Seashore resorts of Maine, along the beautiful North Shore of Massachusetts; to Lake Umbagog, Lake Umbagog and hundreds of lake and inland country resorts in New Hampshire; to Vermont, Canada, New Brunswick, Nova Scotia, Central Massachusetts—in fact the real vacation country is reached by the Boston & Maine Railroad, and the beautiful illustrated "Resorts and Scenic" which contain over 90 pages of hotels, resorts, illustrations and descriptive reading enclosed in a self-addressed envelope in a self-addressed envelope, will be found here. This booklet will be mailed free upon receipt of address by the General Passenger Department, Boston & Maine Railroad, Boston.

RATE WAR SETTLED.

Roads Out of Chicago Agree on Differential Rates.

Chicago, Aug. 8.—The eastbound war on passenger differential rates from Chicago to eastern points was settled yesterday, and normal rates will be restored on July 25. The Michigan Central Railroad agrees to forego its right to any differential to Buffalo, and not to apply it into the hands of the Western Railroad.

It retains the right, however, of selling tickets at differential rates out of those of the New York Central east of Buffalo, and also of using differential rates as a basis for New York Central and other routes east of Buffalo on all tickets sold from points west of Chicago.

AGED PAIR'S ROMANCE LASTED BUT 3 WEEKS.

Mount Holly, N.J., Aug. 8.—His face beaming with happiness, William H. Boarsh, aged 71 years, and Mrs. Mary Clark, his bride, 59 years, out of the office of Justice Charles P. Smith at Burlington on July 17 and pronounced their intention of becoming man and wife.

Testimony about three weeks after the wedding, the pair entered the office of Justice John D. Cleverger and asked that the nuptial knot be untied.

"There are no unhappy differences between us," said Boarsh. "We are getting old and believe we can live better apart. We will be neighbors as in an boarding next to the residence of Mary."

"I don't want any of his support," said the woman, who has a snug bank account of her own. "We simply want a bill of separation." And the justice gave it to them.

CAN AFFORD TO WAIT.

London, Aug. 8.—(C.A.P.)—The Pall Mall Gazette in connection with Prof. Goldwin Smith's saying that the position in England seems in danger of forfeiting certain victory by its impatience, and his comments on the mistake it will make to allow the leadership to fall into the hands of Roosevelt, says: "Prof. Goldwin Smith's rebuke to English Radicalism is that they are too ready to open a candidate for the presidency and desirous to have a free hand among them."

CROP WILL BE HEAVY.

Prof. Saunders Reports to Government on Conditions in West.

Ottawa, Aug. 8.—Prof. Saunders, director of the experimental farms, who is inspecting the crops of Manitoba and the Northwest, sends the following telegram to the department: "Brandon, Aug. 7.—Have seen to-day the crops of Manitoba and the Northwest. Wheat, compared with last year, is considerably heavier and standing well. Many fields are showing signs of yellowing. Condition of grain at present early and late, milk head, full average length and well filled. Fine, warm ripening weather. If conditions continue favorable crops will be large and harvest begin about average date. Red rust noticed in some instances on leaves, but in no case severe. Crops on experimental farms, Brandon, very heavy and promising." (Signed) Wm. Saunders.

THE FRENCH CHOCOLATE KING.

Where Henri Menier of Antioch Island Farm Showed His Good Taste.

Mr. Henri Menier, the French chocolate king, has been very much in the public eye of late. There are those who would dispute the claim of this famous Quebec citizen to the beautiful island of Antioch, on which he has built a handsome villa. But Mr. Menier is not the least of the evenness of his way and is adding further to the attractiveness of his villa by the purchase of a magnificent Baby Grand Piano of the old firm of Heintzman & Co.

Shaw for President.

New York, Aug. 8.—Altho it was said in Oyster Bay yesterday that Secretary Shaw's visit to Roosevelt was wholly in relation to the yellow fever situation in the south, it can be said on authority that Shaw's call was to ask that his resignation as secretary of the treasury be accepted with the least possible delay. Secretary Shaw is going out of the cabinet, and has no desire to remain, so his friends say, a moment longer than will suit the president's present plans.

It is said the secretary of the treasury openly a candidate for the presidency and desires to have a free hand.

Scalpers Quit Selling.

Portland, Ore., Aug. 8.—As a result of the decision of the state circuit court upholding the railroad anti-scalping law passed by the last legislature, H. G. O'Connell, who has been selling tickets for the law was made, has paid his fine in the municipal court, and together with the 15 other brokers under arrest, has agreed to leave the city and close his establishment.

Shoots Three Times.

Napanee, Aug. 8.—Samuel Howard fired three shots from a rifle at Paul Peterson. One of the shots took effect in Peterson's arm, but no very serious injury was caused. Howard was arrested and remanded to jail for a week. The case was held over for the grand jury to be called. The cause for shooting was of a private character.

PRETTY DEAR CUSSING.

User of Profanity Assessed by Police Magistrate.

Benjamin Fowley was found guilty in police court yesterday of house-breaking and theft. He went to the Central for three months.

John and James Harris were fined \$1 each for refusing to pay their fares on the street car.

For assaulting two women on the street, Frank G. Loss and Frank Hunt paid \$5 and costs in the Municipal Court. Condition of grain at present early and late, milk head, full average length and well filled. Fine, warm ripening weather. If conditions continue favorable crops will be large and harvest begin about average date. Red rust noticed in some instances on leaves, but in no case severe. Crops on experimental farms, Brandon, very heavy and promising. (Signed) Wm. Saunders.

BUTTER IN BRITAIN.

The quantity of butter reaching the British consumer from the colonies and foreign countries in the first half of this year has been considerably less than in the corresponding time of 1904. Denmark still maintains the lead with 688,322 cwts. against 523,559 a year ago, the Danish butter still commanding the highest figure, this year the New Zealand butter is a close competitor for high figures. Australia forwarded 276,226 cwts against 285,000 last season. New Zealand forwarded 263,339 cwts against 244,922 in 1904; this increase of 18,417 cwts. being conspicuous as the only increase in butter imports. A large steamship company has entered into a three-year contract calling at the principal ports in Australia and New Zealand, to provide regular sailings with ample cold storage space at 90 per cent less freight charges. The Australian banks and loan companies are co-operating to help the large estates subdivided into pastoral farms. Denmark may be forced to yield the first place to Australia within a year or two. Russia comes next in order of supply, a slight increase occurring after continued decreases for succeeding six month periods. The war, no doubt, is the contributing cause of the small decrease. France follows with a decrease of 20,000 cwts. Holland has dropped down to 109,000 cwts., a large decrease of 35,000. Sweden remains almost stationary. Canada is credited with 17,041 cwts. against 28,710 last year. The United States only furnished 1,998 cwts. against 21,351, proportionately the heaviest decrease in the list. Germany is the bottom rung, with 1001 cwts. against 5287. The two great protectionist countries require nearly all the butter they produce for their own consumption. Only a few years ago the United States and Germany were the large suppliers of butter to Britain, at a lower figure than is paid at the present time. Ireland and England are producing an increasing amount of home-made butter, which commands the highest figure.

SALE OF HORSES AT UNION STOCK YARDS

40 Western Horses will be offered by Auction at Eleven o'clock sharp. At noon a consignment of Ontario Horses from several well-known horsemen, consisting of Drivers, Delivery, Gen. Purpose and Work Horses 1400 LBS. AND UPWARDS WILL BE SOLD AT AUCTION.

LOCAL HORSE MARKET ACTIVE FOR THE SEASON

Never in the history of Toronto has Business Been So Well Sustained During the Summer Months. There is no time in the year when the farm horse needs more care than just now, and there is no time in the year when he is less likely to get into the rack and rust of harvest work on the farm, the farmer's main help and motive power—the horse—is too neglected. In a season such as this, when the weather is so hot and the ground is so dry, it is a large amount of rain, making the ground so soft and the horse's feet so tender, that it is almost impossible to get him to work. Everything should be done to make it as easy for the horse as possible. If the farmer would stop and think how much they owe to the horse in the summer, they would find it well worth their while to take better care of him. In the warm season of hard work necks are sore and the collar is rubbed raw. It is not at all correct to use a horse collar that is not properly adjusted. The collar should be clean and well oiled, and the horse should be kept cool and comfortable. If the horse is to be used for long periods of time, it is essential that he should be kept in good health and in good condition. This is especially true in the summer months, when the horse is subjected to the most severe tests of his endurance and strength. The farmer should take care to keep his horse cool and comfortable, and to give him plenty of food and water. He should also take care to keep his horse clean and well groomed, and to give him plenty of rest and exercise. In this way, he can keep his horse in good health and in good condition, and he can get the most out of him during the summer months.

CROPS IN YORK COUNTY.

Some Damage From Storms, But Otherwise Prospects Excellent. Whatever may have been the discouragements through which the farmers of York County have this season labored, the fact remains that the results are such as to promise abundant compensation. The seasons are rare in which so much has been accomplished in so short a time. The hay crop is now all cut and gathered, and has been an unusually large and well-kept crop. The corn crop is also well advanced, and the weather in some parts of the county is very favorable, but even this condition was largely local. Many farmers report the saving of the corn crop in the crop in the best possible condition. Two tons per acre is commonly reported, and some amount of the crop is of a quality not an unusual yield in any year. LOCAL HORSE MARKET ACTIVE FOR THE SEASON

Never in the history of Toronto has Business Been So Well Sustained During the Summer Months. There is no time in the year when the farm horse needs more care than just now, and there is no time in the year when he is less likely to get into the rack and rust of harvest work on the farm, the farmer's main help and motive power—the horse—is too neglected. In a season such as this, when the weather is so hot and the ground is so dry, it is a large amount of rain, making the ground so soft and the horse's feet so tender, that it is almost impossible to get him to work. Everything should be done to make it as easy for the horse as possible. If the farmer would stop and think how much they owe to the horse in the summer, they would find it well worth their while to take better care of him. In the warm season of hard work necks are sore and the collar is rubbed raw. It is not at all correct to use a horse collar that is not properly adjusted. The collar should be clean and well oiled, and the horse should be kept cool and comfortable. If the horse is to be used for long periods of time, it is essential that he should be kept in good health and in good condition. This is especially true in the summer months, when the horse is subjected to the most severe tests of his endurance and strength. The farmer should take care to keep his horse cool and comfortable, and to give him plenty of food and water. He should also take care to keep his horse clean and well groomed, and to give him plenty of rest and exercise. In this way, he can keep his horse in good health and in good condition, and he can get the most out of him during the summer months.

64 Loads at City Market Fat Cattle Prices Steady

25c Per Cwt. Higher, Selling at \$7.25 for Selects—Market Generally Firm.

Receipts of live stock were not heavy since Friday last; the railway report of arrivals, composed of 912 cattle, 720 hogs, 1067 sheep and lambs and 104 calves. Trade for cattle was similar to that in the Junction on Monday. The run not being large, the demand was about equal to supply, and prices were steady at last week's quotations. There were several good loads of exporters, which sold fairly well, and a few fat exporters that did not bring high quotations. Prices ranged from \$4.20 to \$4.80 for the bulk lots, at about \$4.50 to \$4.60.

is not eaten before more is put on. When calves are kept in the stable they should be given now and then a piece of cake with the ears attached. Why calves should have this food of things is hard to explain, but they do. Any calf should be supplied with it. If any cows are about to calve during the hot days of summer, they should be kept in the stable during the day, at least, and some dry food given to them. Do not put calves in pasture to be tortured by flies and to suffer from the hot sun. Take your time about teaching the heifer to milk. Lots of men are in too much of a hurry, and they expect too much of the young cows, anyway. It has taken most of us a good many years to learn what we know and there are some things that we are not altogether posted on even now.

LOCAL HORSE MARKET ACTIVE FOR THE SEASON

Never in the history of Toronto has Business Been So Well Sustained During the Summer Months. There is no time in the year when the farm horse needs more care than just now, and there is no time in the year when he is less likely to get into the rack and rust of harvest work on the farm, the farmer's main help and motive power—the horse—is too neglected. In a season such as this, when the weather is so hot and the ground is so dry, it is a large amount of rain, making the ground so soft and the horse's feet so tender, that it is almost impossible to get him to work. Everything should be done to make it as easy for the horse as possible. If the farmer would stop and think how much they owe to the horse in the summer, they would find it well worth their while to take better care of him. In the warm season of hard work necks are sore and the collar is rubbed raw. It is not at all correct to use a horse collar that is not properly adjusted. The collar should be clean and well oiled, and the horse should be kept cool and comfortable. If the horse is to be used for long periods of time, it is essential that he should be kept in good health and in good condition. This is especially true in the summer months, when the horse is subjected to the most severe tests of his endurance and strength. The farmer should take care to keep his horse cool and comfortable, and to give him plenty of food and water. He should also take care to keep his horse clean and well groomed, and to give him plenty of rest and exercise. In this way, he can keep his horse in good health and in good condition, and he can get the most out of him during the summer months.

SALE OF HORSES AT UNION STOCK YARDS

40 Western Horses will be offered by Auction at Eleven o'clock sharp. At noon a consignment of Ontario Horses from several well-known horsemen, consisting of Drivers, Delivery, Gen. Purpose and Work Horses 1400 LBS. AND UPWARDS WILL BE SOLD AT AUCTION.

Leading Wheat Markets. New York... 87 1/2. Chicago... 87 1/2. St. Louis... 87 1/2. Duluth... 87 1/2.

Chicago Markets. Marshall, Spader & Co. (J. G. Besty), King Edward Hotel, reported the following fluctuations on the Chicago Board of Trade to-day:

Wheat—Open, High, Low, Close. Sept. 82 1/2, 83 1/2, 82 1/2, 82 1/2. Oct. 82 1/2, 83 1/2, 82 1/2, 82 1/2.

Chicago Cattle. Marshall, Spader & Co. wired J. G. Besty, King Edward Hotel, at the close of the market to-day:

A slight rally took place in the early trading on the fact that Liverpool's decline was very much smaller than ours had been, and on an interview with Mr. J. J. Hill, in which he stated that he believed very considerable damage had been done to the spring wheat crop by rust.

THE FLEA GOT AWAY BY HORSE WILL DIE. New York, Aug. 8.—A flea in the home of Mrs. Alexander Hill, No. 201 West Ninety-sixth street, yesterday caused a fire, which in turn caused a collision between two engines.

DIAMONDS IN BEEF CAN. St. John's, Nfld., Aug. 8.—Mrs. A. J. Keith, wife of the son of the city attorney, has found a \$100 diamond in a 10-cent can of smoked beef.

Informant Not Liable. There will be an effort made to quash a fine meted out by a magistrate to Burkes for illegal floor selling.

Horses Badly Burned. Last night the stable of the Bonaventure Hotel, Queen and Jarvis streets, was damaged by fire.

these items were lost sight of in the face of local bullish influences. It is believed that the market is rather inclined to be bullish at the opening to-day and during the early part of the session prices will hold steady, but as the day developed nothing of a startling bullish nature, the market will be inclined to close near the low point of the day.

Wheat—Bullish cables, fine weather in the spring wheat belt, and the sympathy together with no public interest to invest has taken wheat into new ground for this year. Shorts are able to secure premiums easily, and will continue to do so as long as present conditions continue. There should be sold on all fair rallies for fair returns.

Corn—Very strong, and but for the weakness in what would have closed much higher, also the pressure of an enormous crop. The most influential traders are bullish, and the market should be sold on all fair rallies for fair returns.

MID-SUMMER CLEARING

MEN! ?

"WILL IT PAY?" That's the question the average man in business asks a score of times a day.

A part of being in business these days is to be well dressed, and it certainly does not pay to be anything else.

There's hardly an excuse for it anyway with stylish

TWO-PIECE SUITS that were \$15.00, \$18.00, and \$20.00, on special clearing tables marked down to \$12.00

Will it pay? STRAW HATS HALF PRICE! Not a long look to buy a Straw Hat just now at any store in town.

But what do you get most places? You're certain here of the best of quality—the correct blocks and proportions—English or American.

EXTRA—Choice of any \$2.00 to \$2.50 Straw Hat \$1.00 in the house for... \$1.00

Does it pay? SUMMER FURNISHINGS ONE-THIRD OFF! And that includes Shirts, Underwear, Half Hose, Neckwear and other things we sell for men.

Styles right. Quality guaranteed. Exclusive patterns.
