Directors Asked for Reports of All Purchases and Sales

J. W. Langton Relates How He Refused to Sign Illegal Transfer, when McGill Did So—Directors Cannot Examine Books Without Manager's Permission—Chenoweth Tells of Some More Peculiar, Remarkable Juggling With Accounts.

NOT UNUSUAL FOR BANKERS TO DEAL IN MARGIN STOCKS

"I don't know how much or how little the directors know. I had my own suspicions." It was J. W. Langton, formerly an accountant in the Ontario Bank, who delivered himself as above at the afternoon proceedings in the Ontario Bank investigation yesterday...

LET IN THE LIGHT.

J. W. Langton, ex-accountant of the Ontario Bank, resigned in 1903, after declining to sign a transfer for funds to a New York brokerage firm. He was suspicious of McGill's methods. In his evidence, Mr. Langton said: "I didn't know how much or how little the directors knew. I had my own suspicions. One incident led to these suspicions. It was a minute on the book of a directors' meeting, requiring all purchases and sales to be reported to the board..."

JOLT FOR THE FEDERAL GOVT. TECHNICAL EDUCATION TOO LONG IGNORED

Board of Trade Committee Urges That It's Time to Wake Government Up From Lethargy Regarding Canada's Most Vital Necessity.

The board of trade is inclined to censure the Dominion Government for laxity in dealing with the matter of technical education, since its attention was called to that subject five years ago. The special committee on technical education has brought in a lengthy report, endorsing the action of the C. M. A., and recommending that the Dominion Government appoint a commission to report on the best method of establishing a comprehensive national system of technical education.

EMPLOYEE PAID BY DAY ESCAPES INCOME TAX

Windsor, Nov. 9.—The court of revision has given a decision sustaining George Scott, an employee of the Michigan Central, who appealed against his income assessment on the ground that he is being paid by the day, and is not receiving an income. The case is one of a number, which railway employees in the city have brought. The decision definitely settles the meaning of the words salary and wages.

HER LITTLE BROTHER.

London, Nov. 9.—The Morning Post, seeking reasons for Sir Mortimer Durand's unexpected retirement, says, as a man of wide imperial spirit, who, during the last three years, has made a special point of cultivating Canada and Newfoundland and impressing upon them that he is as much their representative as England's, it is conceivable that Newfoundland's modus vivendi struck him as surrendering too much, and that he did not feel able to put his signature to the final agreement on those lines.

MASS MEETING OF CITIZENS DEMAND STREET RAILWAY BE MUNICIPALIZED

Sympathy Promised to Help Carry Fight Against Cataract to Successful Issue—President Gibson Will Have Statement of Grievances To-Day.

Hamilton, Nov. 9.—(Special.)—The excitement over the street railway men's strike is apparently dying out. This was the sixth day of the strike, and was by far the quietest. The usual al crowds that have filled the streets every night this week were missing. The company will not make an attempt until Monday to operate its street railway system, and trouble is looked for then.

Mayor Biggar is not yet discouraged in his efforts to bring about a settlement, and has arranged for a meeting with Col. Gibson and Mr. Hawkins Saturday morning. While he is optimistic, the men are not, they appreciate his worship's efforts on their behalf.

The speaker agreed that the only solution of the trouble was for the city to take over the system. At a mass meeting of citizens in the Arcade Hall this evening, the following resolution was unanimously passed:

"That we, as citizens of Hamilton, express our strongest disapprobation of the way the Hamilton Street Railway has acted, in failing to live up to its agreement with its employees, and we extend to the men, who are fighting only for their rights, our hearty sympathy, and promise to help them in every legitimate way to carry the campaign to a successful issue."

John H. Peebles presided. Ald. Stewart was the first speaker. He said: Continued on Page 10.

HAMILTON HAPPENINGS

CATARACT IS IN NO HURRY ITS FRANCHISE IMMUNE

May Take Sixty Days' Rest Before Forfeiture Can Be Enforced—Queer Case of Young Hymer.

Hamilton, Nov. 9.—(Staff Special).—The strike has settled down to a game of wait. There has been no attempt to run a car for now nearly a week, and the authorities of the Traction Company are vague and uncertain as to when, if at all, they will make an attempt. By its terms, the franchise is immune from forfeiture until after sixty days of idleness. For one day out of sixty the streets of Hamilton belong to the city; for fifty-nine days being out of sixty they belong to the Cataract Power Company. It is for the company at its pleasure to decide whether or no it will run a car for a month or more at a time. Just now it suits the company's whim to wear out the strikers and the public by locking the city out of its business and next day it was stated that his name had been taken and that he had been cautioned against any further disorder. This appearance of business and next day it was stated that his name had been taken and that he had been cautioned against any further disorder.

There seems to be something queer in the case of Russell Hymer. He was the lad arrested on Tuesday night, and during the crowd in some rather rough houseplay around a peanut stand, near the city hall. The officer who made the arrest, and required some aid from his colleagues to rescue him and his prisoner. There was some hooting and jeering at the police, and a crowd surrounded the city hall. Before long the lad was brought forth and, as it were, given up to the multitude. He was taken to the jail, and next day it was stated that his name had been taken and that he had been cautioned against any further disorder.

On the other hand, was it not, to say the least of it, foolhardy, on the part of the authorities, after they had caught a dangerous character, to let him go, upon merely giving his name, and to trust to finding him again with a summons? The lad is a Hamilton newspaper man, and it is reported, no newspaper man in Hamilton heard of, any attempt to fire a car on Tuesday night.

Interesting reflections arise in connection with this case. Is it not singular that a crime so audacious should have been committed in the presence of a policeman, with bystanders so numerous that they completely hemmed in the miscreant by the mere weight of their numbers, and yet the fact has remained a secret? On the other hand, was it not, to say the least of it, foolhardy, on the part of the authorities, after they had caught a dangerous character, to let him go, upon merely giving his name, and to trust to finding him again with a summons?

Impressive warnings are to read, from the fate of this lad, to others who may be tempted to go too far, expressing their sympathy with the strike. Is no other lesson to be drawn? Is there nothing more to be said? Mr. May of the international board was perhaps not without foresight in having the street car men out on the streets, in parade, while the convention that sat in labor hall nominated a candidate for East Hamilton. Alvan Studholme, who represented the strikers at the arbitration, was nominated, but the strikers, as a body, did not commit. No doubt Mr. Studholme will poll an enormous vote, and he is largely supported by the street car men, but the strikers, as an organization, are setting up no political test for their members.

Hamilton, Nov. 9.—(Special).—The Conservatives have about given up hope of electing John Milne to run in East Hamilton, and amongst those now mentioned as probable candidates are John H. Tilden, Cyrus Birge, T. W. Lester, Mayoy Dignan and John Dr. Morgan. It is not likely that the Liberals will nominate a man.

Rev. Dr. Lyle has been nominated as moderator of the general assembly. The Cataract Power Company has a very slim chance of getting its lighting contract extended for five years, unless it makes a reduction to about \$40 a year per lamp.

Willie Ecclestone, captain of the Intermediate Tigers, will leave in a few days to take a position in Guelph. Three men attempted to burglarize the home of M. Goodwin, 446 North Macnab-street, last night.

The Dominion railway commission will meet in Hamilton on Tuesday, Nov. 20, to enquire into alleged rate discrimination and several local matters. The court of revision wound up its sessions this evening. It struck off only \$100,000, although there was a general increase in real estate assessments. The assessors of Mrs. Kuntz-Perrie were assessed for income.

Rev. S. B. Nelson, the new pastor of Knox church, was inducted this evening. Rev. Dr. Fletcher was the moderator. Rev. W. H. Sedgewick preached. Rev. J. Anderson, Burlington, addressed the minister, and Rev. John Muir, Grimsby, the people.

Col. Otter, D.O.C., inspected the 13th Regiment this evening. Col. Welch and other officers of the 65th Regiment, Buffalo, were the guests of the regiment. Col. Walsh and party of the 65th Regiment from Buffalo are staying at the Royal Hotel, and Sunday will be this evening by officers of the 13th.

See Billy Carroll's pipes to-day at the Grand Opera House Cigar Store. The Toronto Daily and Sunday will be delivered to any address in Hamilton before 7 a.m.; daily, 25c a month; Sunday, 5c per copy. Hamilton office, Royal Hotel Building, Phone 985.

paid to his firm's New York agents. Other cheques for \$25,000, \$20,000, \$10,000, July 12, and \$20,000, July 11, of the same year, were shown, bringing McGill's credit with the firm up to \$45,000.

"How could McGill let the money out of the bank into your hands for his own purpose and not have it appear in your books?" asked the court. "Well, he did not know it was bank money; we thought it was his own."

"He would place an account to your credit and the cheque would be drawn on it?" "Yes."

"There was a skip then of a year and a half, and in March, 1905, there was an item of \$10,000, what became of the money he paid you?" "Went to Credit of Estate."

"There were losses in the account, and in June, 1905, it worked out to \$5000 or \$6000 to his credit. It was put to the credit of the Nicholls estate."

"Was Mr. McGill a trustee?" asked Mr. Corley. "And this \$10,000 was wired to Head & Co. to your credit?" "Yes."

"After June none of the amounts would be due to McGill or the bank then?" "No."

"June he wired \$15,000 more to New York to your credit?" "Yes."

"In October last year, in the account of McGill, special, there is something about the Japanese business?" "We took over \$47,000 of Japanese bonds from Head & Co., and the proceeds were \$54,000, the difference being \$7000.19."

"That was a bank transaction?" "Yes."

"The court asked whether the manager had not got the benefit, and Mr. Ames replied that the amount remained to the credit of McGill's special account, in which further deals brought up the profits to \$2720.10, which was transferred to his private account."

Mr. Corley: "Then there was \$4000 in June, 1905, which was not on any other cheque for \$37,990.37 and on the same date, Oct. 10, \$25,000, which he endorsed to the Ontario Bank, Yonge-street branch."

"The cheques either went to his credit or he got the money?" "Yes, the account, showed a credit of \$37,861.92, which in August became a debit to our firm of \$35,456.92."

"Then it appears that you really did not owe the Ontario Bank \$136,000?" "No, I have not seen all the cheques."

"But you did not owe the money?" "No."

### A GENTLE RIDDANCE

The Globe explains that it publishes the rumor that Mr. Hyman may resign. Many of his best friends, the Globe assures us, think that he should resign and seek vindication through an honest election. Mr. Fielding, it may be imagined, is calling out to him: "Come in, Charley; the water's fine!" But Mr. Hyman stands shivering on the bank. The lusty cheers of his colleague, the gay gambol of Honest John Tomlin, fresh from the waters of North Bruce, do not attract him. The maritime newspapers print telegrams of congratulations to Mr. Fielding, from Sir Wilfrid Laurier, Sydney Fisher, L. P. Brodeur and other ministers of the crown, but our attention has yet to be called to any despatch from the minister of public works. Did he fear that Mr. Fielding, who is rather strong on Scripture, might reply to him: "Go thou and do in like manner?"

The Globe has given some very broad hints to Mr. Hyman. His best friends—personal and political—are saying that for his own best interests he should give up a seat to which the title is clearly tainted and appeal again to his friends and neighbors of London for vindication. "Is Mr. Hyman deaf, or asleep, or has he perhaps again gone upon a journey? Surely if he be not obtuse beyond all sensation he can not resist the impression that the Liberal chieftains find his present position, to say the least, embarrassing. Is he awaiting plainer speech? Have not their intimations yet penetrated to his consciousness? When they hold their noses at his approach, does it convey no meaning to his mind?"

There is a story of a young man who was asked why he no longer paid any attention to a certain young lady. He explained that on one night she had said to him: "George, I wish that you would not ask me to go with you again. Indeed I prefer that you should not come where I am at all." "And what did you say?" he was asked. "Well, I didn't say anything," he replied, "but I shook her that very night!"

### THE COMPANY IS ON A STRIKE

The Hamilton strike is peculiar. For nearly a week the traction company has made no effort to furnish the people of Hamilton with a street car service. This is the more remarkable in view of the fact that the strike has been pending for nearly three months, and has been fomented, rather than guarded against, by the company.

The manager of the traction department of the Cataract Power Company is quoted as saying:

"If our service was so bad, as they say it was, the people ought to be glad not to have it any longer. The company is making no money, so it is just as well off to have the cars idle. The men are not willing to work. Very well; now they are idle. So everybody ought to be happy."

Unspoken is the old familiar taunt: "Well, what are you going to do about it?"

Had the company attempted to run cars and been prevented by a mob from doing so, a different situation would confront the City of Hamilton. But as it is, the company arrogantly up to the entire city railway system, hoping thereby to inconvenience the public and in time to disrupt the employees' association.

If the company be incompetent to furnish the public utility for which it was granted a franchise, it should step aside and let some other company or the city itself, supply this

### THEY DO THESE THINGS BETTER IN MICHIGAN

There are many things in the public life of the United States to be avoided, but now and then their officials "get there" in a way that seems to be beyond our officials charged with a similar duty.

The Weekly Sun, in noting the recent order of the Michigan Railway Commission, requiring the Grand Trunk to reduce its passenger rates on the line from Detroit to Port Huron to two cents a mile, remarks:

"When this order is put in effect, as it will be, we shall have the Grand Trunk charging three cents per mile on the Canadian side of St. Clair and two cents on the other. Even at the present time, freight rates on the Michigan side are about 10 to 25 per cent. less than they are in Ontario. And still the Grand Trunk pays nearly five times the amount per mile in taxation in Michigan that it pays here."

### SUCCESSFUL BANKING

While a bank cannot be too conservative in adhering to the sound principles which are the assurance of its permanent success, or too determined in its adherence to the requirements of law and the obligations of its duty to the public, its customers and its shareholders, its progress may none the less be hindered by an obstinate adherence to methods no longer adapted to the needs of the time. Bankers, like other professional and business men, who have been accustomed to conduct their concerns on traditional lines, have been prone to resent the intrusion into their chosen preserves of younger spirits, possessing that questioning spirit which will not be satisfied to accept custom as the measure of perfection, and recognizes no reason for refusing to consider reforms and improvements, good and advantageous in themselves, merely because they are novel, and perhaps, for the moment, strange.

Banking, in its upper circles, was long identified in older countries with ripeness of years, if not always with the wisdom age and experience should bring. Indeed, the same notion prevailed in all the more important lines of life, and Canada has hitherto, possibly from her closer association with the ancient motherland, shared the belief that grey hairs were the pledge of excellence. It remained for our revolutionary neighbors across the imaginary line to refute that venerable superstition by inaugurating the era of young men, quick to assimilate the knowledge gained by the experience of an older generation, and capable of harmonizing it with the swift development of commercial and industrial enterprise. After all, why should banking be exempt from the universal law of development? Fundamental principles must be firmly maintained, but their application should be conditioned by the requirements of to-day, not of yesterday.

These considerations find a ready and admirable exemplification in the present position of the Sovereign Bank of Canada, having its head office in this city. Only established in 1902, its rise and progress has been extraordinary, from any point of view; indeed, it is not exceeding the mark to say that it can with difficulty be paralleled, if at all.

From the statement printed in another column, it will be seen that the cash in its coffers counts up to \$4,000,000—equal to one-fifth of its assets; while its immediately available funds total up to \$1,000,000—or one-half of the bank's indebtedness to the public. These are very remarkable figures, and indicate not only unusual strength, but exceptional readiness for all contingencies, however sudden and unforeseen. That it commands the confidence of the public is evident enough, since its depositors have at the present credit \$15,780,000, and its note issue reaches \$2,880,000. Even more striking and assuring is the bare fact that the excess of the Sovereign Bank's assets over its liabilities amounts to no less than \$5,278,557.

### JAPAN IN MANCHURIA

Times are changed when the press of Russia complain that the Japanese are pressing northward in Manchuria, with, as they affirm, the evident intention of establishing themselves in the hinterland of Vladivostok. It is something new for Russia to be subjected to the treatment her government so long meted out to her Asiatic neighbors. The story of her advance in Asia is an endless repetition of similar methods pursued with unflinching persistency. First the commercial agents, then the establishment of business interests, the gradual over-running of the coveted territory, then the virtual soon to become the actual and open annexation.

While it is scarcely credible that the Japanese contemplate a renewal of the late war, the report that the enterprising islanders are confirming their hold on the portion of Manchuria subject to their influence and extending themselves thruout the province and beyond the boundary line, is likely enough. They would make their reputation if they failed to make provision for the campaign of reconquest to which the Russian forward party doubtless look forward. At present the day of accomplishment seems to be distant, and if the condition of Russia were the sole or even the main element might be withheld for generations. But political changes in Europe are ever possible, and just now could without much cavil be described as imminent. On them more than on the resurrection of Russia hangs the security of Japanese peace.

One European nation of the first rank regards with ill-concealed hostility

ity the emergence of Japan as a world power, and would willingly see her relegated to her original obscurity. Germany, isolated meantime by the diplomatic ability of King Edward, lives in hope that in some way or other the balance may be redressed and free play given once more to her imperial ambitions. And the supreme object of her desire is to see discord between the chief English-speaking peoples and the severance of the close and growing ties which bind them each to the other. Another indication of this trend of German sentiment was afforded the other day by the comment made in Berlin on the Japanese difficulty at San Francisco, which was welcomed as a wedge driven into the relations between England and America. This hope, however, seems doomed to failure, and that it should be so is well for the peace of the world.

### NO FLAGS BEST

Editor World: The expression of Dr. Pyne, minister of education, the other night, in reference to the flag idea in our public schools, and hoping to see the same spirit infused into our school children, which is so passionate with our neighbors' children to the south of us, whenever Old Glory is unfurled to the breeze conveys within itself a poor example of that true patriotism that should be taught children, especially in a Christian country. Too much attention is given to teaching the young in the arts of war and not enough consideration to peace and good manners. There is urgent need these days of dissonance in high places, for more diligent efforts towards awakening in the young mind higher ideals of citizenship than bragging adulations that are only counterparts of strife and bitter remembrances.

### OBITUARY

Rev. F. B. Stratton.  
Kingston, Nov. 9.—Rev. F. B. Stratton died last night, aged 68. He was a superannuated minister, having spent forty-eight years in the ministry. He was born near Niagara.

Mrs. Walter Talbot.  
Aymar, Nov. 9.—Mrs. Walter Talbot died last night, aged 72. She had just sat down at the table to have her dinner, when, without a moment's warning, she fell forward. Her death was instantaneous. Heart failure was the cause of death. Mrs. Talbot was a daughter of the late Freeman Talbot, and was born in Dorchester forty-seven years ago.

Henry Abraham.  
Bowmanville, Nov. 9. (Special).—Henry Abraham, one of the oldest and wealthiest farmers of Darlington Township died to-day in his 83rd year. He was one of the early settlers, who emigrated from England to Canada in 1800. He was a man of great industry, and succeeded in making farming pay, and in amassing considerable wealth. His wife died a few years ago, and of a large family only four sons and two daughters survive. He was a Conservative in politics, and a generous supporter of the Methodist Church.

### Death From Heart Disease

Case of Neglecting a Weak Heart and Tired Nerves.

If your heart flutters, be careful. An attack is liable to come on at any time. Excitement, over-exertion or emotion may cause it. Blood rushes to the head, if palpitation and short breath are noticeable, there's cause for alarm.

If you want a good honest remedy speedily, we recommend Ferrozone because we know it's just right for heart trouble. It cured A. F. Beattie, who lives at Allen Hotel, Bay City, Mich. See if your symptoms resemble these:

Symptoms of Weak Heart, Nervousness, Palpitation, Trembling, Dizziness, Vertigo, Sinking Feeling, Heart Pains, Short Breath, Weakness, Mr. Beattie says:

"I was weak and miserable. My heart was subject to heart palpitation and dizziness. As I grew worse I began to have troubling sensations in my chest. My blood vessels were all clogged up. My heart was so weak that I could not do any work. My nerves were so bad that I could not sleep. My appetite was so poor that I could not eat. My head was so dizzy that I could not stand. My eyes were so weak that I could not see. My ears were so deaf that I could not hear. My throat was so sore that I could not speak. My stomach was so full that I could not eat. My bowels were so constipated that I could not move. My bladder was so full that I could not urinate. My skin was so itchy that I could not scratch. My hair was so falling out that I could not comb it. My teeth were so loose that I could not chew. My feet were so swollen that I could not walk. My hands were so numb that I could not hold anything. My voice was so hoarse that I could not sing. My memory was so poor that I could not remember anything. My temper was so bad that I could not get along with anybody. My life was so miserable that I wanted to die."

At a stated case from G. M. Glenn, police magistrate of St. Thomas, came before Chief Justice Falconbridge. The crown had proceeded against Frank H. Ferguson, owner of 243 Fairbairn-st., St. Thomas, charging him with not providing necessary sanitary necessities for those premises. Information was laid by James T. Burke, inspector of factories. The place is used as a tailor shop by Beal & Martin, and is tenanted by men and eight women. Police Magistrate Glenn refused to record a conviction against Ferguson. The crown appealed, and was represented by Deputy Attorney-General Cartwright. "In my opinion," says the magistrate, "a merchant tailor is not a manufacturer, within the meaning of the Ontario Factories Act." He further gives his definition of a manufacturer as "a person who produces goods from a raw state by manual or mechanical labor." A tailor, he says, "merely cuts and fashions." The magistrate points out that "if the business carried on in this case can be said to be a manufacturing business, the defendant is not the owner of the factory—Beal & Martin are the owners." He also refers to the fact that if the owner of the property went upon it, and viewed the premises, he would be a trespasser. J. B. Davidson appeared on behalf of Ferguson. The case was concluded, and judgment rendered.

Damage Suit Settled.

Eliza Pascelino was suing the Canadian Copper Company for damages for the death of Michael Angelo Pascelino, who was killed while in their employ. An agreement has been arrived at between the parties, and the action taken out on consent, dismissing the action without costs.

Trade Mark Action.

Charles L. Corin and the British American Sign Company have issued a writ against G. Booth & Sons, claiming \$10,000 damages for infringing the plaintiff's copyrights and for damages for using the firm's name, and for damages for using the trade name or mark of the plaintiff.

Accident Suit Settled.

Thirza Sturges' action against the City of Toronto, claiming \$2000 damages for injuries received thru a defective sidewalk, has been settled. Upon consent of the parties, has now been dismissed without costs.

Must Give a Note.

The differences between Lillie Jennings and Ralph W. Mowbray have been settled. It was agreed that the action be dismissed without costs to either party upon Mowbray giving to the plaintiff a promissory note for \$500, payable to the order of Lillie Jennings two months after date at the Bank of Montreal, Bowmanville.

Jacques Davy & Co., coal dealers, of Toronto, allege that on or about April 10 last they delivered to George B. Foster 40 tons of coal at \$4.25 per ton amounting in all to \$208.25. The money not being forthcoming, the company began an action to recover the amount. Foster contended that any coal was delivered to or accepted by him, or anyone authorized on his behalf, and no note or memorandum in writing was signed by him ordering the coal used for or admitting his liability in any way. The defendant applied to Master-in-Chambers Cartwright yesterday to be allowed to amend his statement of defence accordingly. The request was granted.

Council Gives Up.

The town council of Kemptonville will pay the cost of education of that place all it needs for school purposes next year rather than go to the expense of a lawsuit. The board of education asked for \$4000. The council was willing to give only \$4000. Thomas Johnston, chairman of the board, took the matter to court, and asked for a mandamus compelling the council to meet over the required sum. The case was enlarged to give the council an opportunity to meet and talk over the matter with the board. The council was decided by the board of education yesterday to give up the case. Mr. Johnston objected, on the ground that the municipality would have to pay them, anyway. The matter is to come up before a judge in chambers on Tuesday next.

His Wife Was His Landlady.

Chief Justice Falconbridge yesterday received a motion which showed a husband ordering the coal used for or admitting his liability in any way. The defendant applied to Master-in-Chambers Cartwright yesterday to be allowed to amend his statement of defence accordingly. The request was granted.

Brookville Gets Price For a Supply of Power

First Municipality to Be Given a Quotation—Co-Operation Suggested.

Brookville is the first municipality to receive a price for electric power from the hydro-electric power commission. At the meeting of the board held yesterday the figures were passed, in connection with the block of 1000 horse power applied for by the town.

The price is not stated by the board, as it has first to pass thru the official channels, but it is believed that it will be satisfactory. At the same time the board suggested that by acquiring the co-operation of Prescott, Kingston and Gananoque, a very material reduction could be made in the price.

The figures given are for power delivered at the town and ready for distribution.

The commission had several sources of power in view in making their estimate, so that no difficulty was to be apprehended about obtaining a supply. The engineers of the commission are busy with the final calculations for the Niagara distribution system. The Ottawa figures are also under final revision and the prices for power delivery will be ready in a week or ten days.

The commission, at the request of Ald. J. H. Fryer, (Gen. president of the Union of Western Municipalities), will meet the executive of that organization on Wednesday morning next at the office of the commission, Toronto-street.

TEDDY'S PRIVATE TALKS.

Usually Misquoted and Calling for No Explanation.

Washington, D.C., Nov. 9.—This statement was made public at the White House to-day:

"For many years it has been the invariable practice never to attempt to quote a private conversation with the president. It has been found that, as a matter of fact, the man who quotes it, whether consciously or unconsciously, and such an alleged conversation is under no circumstances to be held as calling for either explanation or denial by the president. This himself says in public, for what he writes, or for what he explicitly authorizes the proper government officials to state in his behalf."

Peter Bogos, a boiler, employed by Pass, Blackwell & Co., pork packers, fell into a vat of boiling water yesterday and had his feet and legs badly scalded.

How will your cold be tonight? Worse, probably. How about tomorrow? The trouble is, colds always tend downward. Stop this downward tendency with Ayer's Cherry Pectoral. Your doctor will tell you why it can do this. Ask him first about it. Ask him if he has anything better for coughs and colds. Then follow his advice, whatever it is.

APPOINT AN ARBITRATOR.

School Board Unable to Agree on Price for Land.

The regular meeting of the property committee of the board of education, held yesterday afternoon, was a short one, only two or three matters of importance coming up for discussion.

Failing to agree with the owners of the Grace-street property, immediately south of the school, as to the terms of purchase, the committee yesterday appointed Harton Walker as its arbitrator. The owners are asking \$45 a foot, while the board offer \$40. The Grace-street cottages, on the site of the proposed new building, was sold for \$150.

An informal discussion following the regular meeting relative to the selection of a site for the new technical high school took place, but no decision was arrived at.

Sheldon School Students Take Notice.

Mr. Sheldon, president of the Sheldon School of Chicago, will be a visitor in Toronto for a few days next week, when he very much desires to meet with Toronto students and graduates of The Sheldon School. He will address a public meeting of business men in St. George's Hall, Elm-street, next Monday evening, at 8 o'clock. Every student and graduate is especially invited to be present at that meeting, and shake hands with Mr. Sheldon, when a special meeting of Toronto Sheldonites can be arranged.

Mineral Springs Resorts.

Caledonia Springs, Preston and Chatham are all well-known health resorts, easily reached by the fast trains of the Canadian Pacific Railway. A quiet week-end of waters and baths at one of these places proves a delightfully effective cure for many worries and cares that beset the business man through strenuous times. Tickets, train times and full information may be obtained at all C.P.R. ticket offices.

Death From Heart Disease

Case of Neglecting a Weak Heart and Tired Nerves.

If your heart flutters, be careful. An attack is liable to come on at any time. Excitement, over-exertion or emotion may cause it. Blood rushes to the head, if palpitation and short breath are noticeable, there's cause for alarm.

If you want a good honest remedy speedily, we recommend Ferrozone because we know it's just right for heart trouble. It cured A. F. Beattie, who lives at Allen Hotel, Bay City, Mich. See if your symptoms resemble these:

Symptoms of Weak Heart, Nervousness, Palpitation, Trembling, Dizziness, Vertigo, Sinking Feeling, Heart Pains, Short Breath, Weakness, Mr. Beattie says:

"I was weak and miserable. My heart was subject to heart palpitation and dizziness. As I grew worse I began to have troubling sensations in my chest. My blood vessels were all clogged up. My heart was so weak that I could not do any work. My nerves were so bad that I could not sleep. My appetite was so poor that I could not eat. My head was so dizzy that I could not stand. My eyes were so weak that I could not see. My ears were so deaf that I could not hear. My throat was so sore that I could not speak. My stomach was so full that I could not eat. My bowels were so constipated that I could not move. My bladder was so full that I could not urinate. My skin was so itchy that I could not scratch. My hair was so falling out that I could not comb it. My teeth were so loose that I could not chew. My feet were so swollen that I could not walk. My hands were so numb that I could not hold anything. My voice was so hoarse that I could not sing. My memory was so poor that I could not remember anything. My temper was so bad that I could not get along with anybody. My life was so miserable that I wanted to die."

Dineen's ESTABLISHED 1864 Dineen's

The unusual liberality of our offer to refund railway fares to out-of-town customers has brought an avalanche of extra business. It is a distinctly new idea to bring shoppers to Toronto at our expense, and the enthusiasm of the thing is naturally contagious.

For the benefit of those who don't already know the particulars, we repeat:—

During November we will refund one round-trip railroad, steamboat or trolley fare from any place within a radius of FIFTY MILES of TORONTO to each individual spending not less than TWENTY-FIVE DOLLARS at the Dineen Store.

Round-trip fare will likewise be refunded to any person who comes from a point within ONE HUNDRED MILES and over 50 miles of Toronto whose total purchases at the Dineen Store amount to at least FIFTY DOLLARS.

Persons living at a greater distance will be credited on the same basis. For instance, anyone coming 150 miles will be allowed a rebate for 100 miles on a \$50 purchase—the balance to be paid by themselves.

Our contention is that Dineen Furs have no equal for quality and value. We might spend thousands of dollars advertising them in the newspapers, but ten minutes looking outdoes all the pretty speeches we might make about style and novelty.

### Railroad Fares Refunded.

We want people to see for themselves the enormous stock we carry of really good Furs. They can believe the evidence of their own eyes, and we're willing to abide by any comparison they care to make.

- Ladies' Fur-lined Coats at \$45.00
- Men's Fur-lined Coats at 50.00
- Ladies' Persian Lamb Coats, trimmed with mink, at 115.00

with other Furs in proportion. Every bit of extravagance is taken out of prices, and whether you pay much or little you can depend on the very best values here, every day in the year.

Please remember that the offer of Free Transportation is confined to November only, and is intended for quick acceptance. It should encourage out-of-town people to do their Christmas shopping earlier this year, and get the advantage of better selections, along with the trip to Toronto at our expense.

### INSURANCE CO. AND BANK TO HAVE FINE NEW HOME

Manufacturers' and the Sovereign to ERECT OFFICE BUILDING at King and Bay Streets.

The Manufacturers Life Insurance Company and the Sovereign Bank of Canada have purchased jointly the property at the southeast corner of King and Bay-street thru to Melinda-street.

The total area of the property is over ten thousand square feet, the frontage being about 38 feet on King-street, 170 feet on Bay-street, and 38 feet on Melinda-street.

For some years King-street has been more and more becoming the financial "street" of the city.

When asked about the matter yesterday afternoon J. F. Junkin, managing director of the Manufacturers' Life Insurance Company, confirmed the purchase of the property, and said he considered that both his own company and the Sovereign Bank were to be congratulated in securing one of the finest locations in the city.

A first-class office building is to be erected on the block, and it is the intention of the owners that the structure shall be up to date in every respect, and as nearly fire proof as possible.

The building will be in keeping with the dignity and strength of the two powerful financial institutions, which will occupy it, and at the same time will be an ornament to the city.

The Manufacturers' Life Insurance Company will occupy the Melinda-street and part of the Bay-street frontage, while the Sovereign Bank will front on King-street and Bay-street taking the place of the corner now occupied by the Nasmith store.

### ITALY FOLLOWS HER SONS.

Seeks to Spread Her Commerce Where Emigrants Colonize.

An interesting evidence of the increased interest which is being taken in Canada is shown by the fact that the Rivista Coloniale, the great Italian society formed for the purpose of developing emigration to such places as will assist Italian commerce, and for the procuring of reliable information from foreign countries as to openings for Italian trade, has appointed Prof. E. J. Sacco correspondent for Toronto, and his reports on the situation are being published monthly.

The Marquis Doria, who was in Canada during the summer as a special trade commissioner from the Italian government, is assisting in building up trade between Canada and Italy. The fact that Italy has no American colonies of her own, and yet her people emigrate, is recognized by the Italian government, and this society are endeavoring to do the same thing now and to increase Italian trade thru the medium of these emigrants to foreign countries.

The Society Dante Alighieri, for the spread of study of Italian literature, and the protection of emigrants outside the Kingdom of Italy, has established also a branch in Toronto thru Prof. Sacco. Mr. Gianelli being the honorary president and Mr. Sacco director. This society maintains an Italian conversation club in the city, and Deputy Police Magistrate Kingsford, Dr. Harley Smith, the Italian consul, and James E. Day, are on the executive committee of this society.

### CELEBRATED IN TORONTO.

How the Birthday of King Edward Was Remembered.

Flags were flying from all the public buildings, and an extra large number of downtown business places yesterday in honor of the King's birthday. A royal salute was fired at noon by B Battery, under Lieut.-Col. Ogilvie.

In the evening the customary King's birthday banquet was held at the National Club. W. K. George presided, and those present were: Arnold, W. K. McNaught, W. K. George, (honorary man), G. T. Irving, Noel Marshall, D. B. Hanna, W. J. Barr, J. A. Macfadden, J. P. Rodger, James Mill, Dwight J. Turner, J. C. Poy, George A. Baker, J. S. King, George C. Gabe, John E. Ellis, Dr. Kennedy, John Catto, F. G. Morley, E. W. Grier, J. P. Murray, G. A. Howell, J. A. Fraser, John C. Eaton, C. B. McNaught, G. N. Gooderham, F. W. Baillie, R. S. Wilson, Capt. Mitchell (guest of Mr. Wilson), A. T. Malone, A. M. Ivey, George E. Scroggie, W. B. Phillips, J. J. Gibbons, Fred Diver, W. J. Douglas, W. L. Edmonds, E. H. Bisset.

Will Lay Cornerstone. An event to which will attach more than ordinary interest is the laying of the corner stone of the new Home of Aged Women, which takes place on Belmont-street on Monday afternoon at 3 o'clock. The present home was erected in 1888, but latterly has been found to be altogether too small to accommodate the needs of the association, and the new structure, a splendid brick building, costing some \$50,000, will be pushed to completion with all possible despatch. At the corner stone laying Lieut.-Governor Clark will preside, and the stone will be laid by Mrs. Gunther. Addresses will be given by Hon. G. W. Ross, Chester Massey, Elias Rogers, Dr. R. W. Bruce Smith, Inspector of Prisons, Rev. John Neil, and others. The new building will accommodate 100 inmates.

Closing of Erie Canal. Albany, N.Y., Nov. 9.—The Erie, Champlain, Oswego, Cayuga and Seneca and Black River canals will be officially closed to navigation at 12 o'clock midnight of Wednesday, Nov. 28. This is the date on which the canals were closed last year.

# CUBA... THE LAND OF SUNSHINE

## CANADA-CUBA LAND AND FRUIT COMPANY, Limited

**BEAR IN MIND THAT "NO INVESTMENT IS SO ABSOLUTELY SAFE, BEYOND ALL POSSIBLE CHANGE OF LOSS, AS AN INVESTMENT IN REAL ESTATE, BASED UPON ITS AGRICULTURAL VALUE."**

The recent insurrection affected our Colony simply by giving assurance of safety and good government. The hurricane did much more damage in Florida than it did in Cuba, and our Colony, which lay to the west of the storm centre, only suffered the loss of some tobacco barns blown down. All our seed beds were saved and we are in a position to supply the American Tobacco Company with millions of plants.

An ideal country, which affords golden opportunities for investments—The natural advantages of Cuba far exceed those of Florida and California—Tremendous advance has been made during the last five years—Almost every tropical fruit

reaches its highest perfection in this island gem in the Southern Seas—Some opinions from writers who have visited the island—U.S. Government reports show the possibilities of development which this specially favored land possesses—Cuba will become the Orange Garden of the world—Its nearness to market, low freights are great points in its favor—No irrigation is necessary and no frosts ever visit this land of perennial June.

The permanent occupation of the island by the United States, which seems more than probable, will introduce millions of American capital and will send the selling price of our lands soaring.

**We have Already Sold Over Forty Square Miles of our Estate in Small Tracts and have the Largest Number of Settlers of any Canadian Colony in Cuba.**

A large number of people settled on our property during September and October, making their homes amongst numbers who are already working their plantations, and by whom the most encouraging reports are given. Purchase at once and you will be yet in time to sell your winter crop on the Northern markets, where the highest prices are paid.

This Company will undertake to have your plantation cleared, plowed and planted at the mere cost of trees and labor, thus ensuring you a permanent home for the future. No investment is more profitable or so sure as an orange plantation. Trees bear for over one hundred years. Good returns can be made by growing all kinds of vegetables and small fruits (between the rows of orange and other trees), which can be shipped to Havana, New York and Canada during winter months, when everything commands the highest prices.

**Direct Shipment to and from our own Dock,** which is now an established fact; good postal facilities four times per week—three by rail and one by boat, premised by the Cuban Post-master-General; and direct cable communication certain in the immediate future will all redound to the benefit of our colonists.

We undertake to locate for all our purchasers and will get them expert reports on their location and give them the privilege of exchanging the same into any part of our property so set apart and not already sold. We give you every acre free from swamp or rock. Any low lands are not charged for. You can't get any better or fairer contract than this.

**The Best Practical Orange and Other Fruit Growers, Who Have Purchased From Our Company, Select the Lightest of Our Lands and Claim Them to Be the Finest Land to Be Found in Cuba for All Citrus Fruits.**

**GEO. F. DAVIS, MANAGING DIRECTOR. Head Office: 24 King St. West, Toronto**

### FIVE INCENDIARY FIRES IN TWO NEW YORK BLOCKS

Many Lives Imperiled in Series of Early-Morn Blazes—Suspect Arrested.

New York, Nov. 9.—One woman is dead, a man is in a hospital suffering from severe burns, 2000 fled from their homes in panic and thousands more passed a sleepless night as a result of a series of incendiary fires in the two blocks bounded by Sixtieth and Sixty-first streets and Columbus and West End-avenues early to-day.

Scores of persons whose lives were endangered by flames which severely scorched the faces of thousands who were rescued by firemen. Many of the rescues were of a highly sensational character, and were witnessed by the thousands who crowded the streets around the burning buildings.

### THE VALUE OF CHARCOAL.

Few People Know How Useful It is in Preserving Health and Beauty.

Nearly everybody knows that charcoal is the safest and most efficient disinfectant and purifier in nature, but few realize its value when taken into the human system for the same cleansing purpose.

Charcoal is a remedy that the more you take of it the better; it is not a drug at all, but simply absorbs the gases and impurities always present in the stomach and intestines and carries them out of the system.

Charcoal sweetens the breath after smoking, drinking or after eating onions and other odorous vegetables.

Charcoal effectually clears and improves the complexion; it whitens the teeth and, further, acts as a natural and eminently safe cathartic.

It absorbs the injurious gases which collect in the stomach and bowels; it disinfects the mouth and throat from the poison of catarrh.

All druggists sell charcoal in one form or another, but probably the best charcoal and the most for the money is in Stuart's Charcoal Lozenges; they are composed of the finest powdered willow charcoal, and other harmless antiseptics in tablet form or rather in the form of large, pleasant tasting lozenges, the charcoal being mixed with honey.

The daily use of these lozenges will soon tell in a much-improved condition of the general health, better complexion, sweeter breath and purer blood, and the result of it is that no possible harm can result from their continued use, but, on the contrary, great benefit.

A Buffalo physician, in speaking of the benefits of charcoal, says: "I advise Stuart's Charcoal Lozenges to my patients suffering from gas in stomach and bowels, and to clear the complexion and purify the breath, mouth and skin. I also believe the liver is greatly benefited by the daily use of them; they cost but 25 cents a box at drug stores, and although in some sense a potent preparation, yet I believe I get more and better charcoal in Stuart's Charcoal Lozenges than in any of the ordinary charcoal tablets."

Send your name and address to-day for a free trial package and see for yourself. F. A. Stuart Company, 55 Stuart Building, Marshall, Mich.

### "HOME SWEET HOME" TO GO

Cottage in Which Song Was Written to Be Demolished for Church.

New York, Nov. 9.—The little thatched cottage at East Hampton, Long Island, in which John Howard Payne, author of "Home, Sweet Home," lived in his early years, and which, when he was a wanderer on the face of the globe, inspired his immortal ballad, is to be destroyed.

The site on which it had stood so many years has been purchased and the structure will be torn down and a church erected in its place.

### A Change of Position.

Charles O. Smith, eastern advertising representative of the Farmers' Advocate of London for two years, has resigned to become assistant advertising manager of the London Advertiser.

He is succeeded on the Farmers' Advocate by Edward Leves of Toronto, and W. Muir of Montreal, who will divide the eastern territory between them.

### ADVICE TO YOUNG PEOPLE.

Should Be More Earnest in Their Spiritual Life.

"What would it mean if the young people of the Presbyterian Church were more in earnest in their relation to Christ and the church?" was the subject of the Rev. A. L. Geggie's address to the members of the Young People's Union of the Presbyterian Church of Toronto.

"There is too much detail about it and the detail kills. It is like a musician playing over exercises. It is the love of exercises that impels him on. It is the vision, the being able to play beautifully that keeps him at the instrument. Better to drop out altogether if you have not the affection, or if you cannot see the vision."

### LEAD PENCILS DEARER.

New York, Nov. 9.—The wholesale rate on all lead pencils costing \$3.60 or less a gross has gone up.

The reason given for the advance is the higher cost of labor and materials.

### A Dangerous Study.

St. Petersburg, Nov. 9.—James M. St. James of New York, who is studying the proposed election law, the coming Philippine assembly will consist of 81 members, representing each one a population of 90,000.

The election of members of the assembly is to be held July 1, 1907, and the assembly is to convene within 90 days after election.

### Noted Sculptor Dies.

New York, Nov. 9.—Samuel J. Kitson, the sculptor, died here early to-day of kidney disease. Mr. Kitson was born in England 88 years ago.

### THINKS HEPBURN WRONGED

Judge Colter Says He Was Victim of Hotelkeepers' Plot.

St. Thomas, Nov. 9.—Judge Colter has given judgment in the appeal against the conviction of David Butler, the Orkney hotelkeeper, upholding the decision that the house was disorderly, but expressing the conviction that "the prosecutor and defendant did act in their power to pervert the case, and to make it an instrument of malice to cruelly injure an innocent man."

The judge held that the charge against W. F. Hepburn, that he stayed at the hotel on the night of Aug. 12 with two immoral women was not proven; besides it was supported only by the evidence of Butler. The whole thing, according to the judge, was manipulated for political effect and the theatrical display.

### LORD MAYOR'S INAUGURAL.

Quaint Old Ceremony Took Place in London Yesterday.

London, Nov. 9.—Sir William Trevelyan's term of office as lord mayor of London was inaugurated to-day with the time-honored pageant, but the usual symbolical acts were eliminated.

The most wonderful as well as the most rapid blood cleanser is Stuart's Calcium Waters. You use them for a few days, and the difference tells in your face right away.

### NEARLY HALF DISEASED.

Serious Condition Shown by Examination of School Children.

Montreal, Nov. 9.—The monthly report of the recently instituted city school inspection system to be presented to the city hygiene committee at the city hall shows that out of a total of 43,841 children submitted to the inspectors, 20,923 were diseased in some way or placed in danger of infection thru home conditions.

Some of the more conspicuous troubles were 1600 cases of inflammation of the throat, 293 cases of decayed teeth, 2100 enlarged tonsils, 1097, lice, 1022, defects of vision, etc.

### British Steamer Ashore.

Cuxhaven, Germany, Nov. 9.—The British steamer Madawask, from Galveston, is ashore on the eastern coast of Nordmark Island. Several tugs have gone to her assistance.

### By the Scenic Route.

Frequent trains, fast time and fine equipment are features of the C. P. R. service to Hamilton, Welland, Niagara Falls and Buffalo. Daily connection for famous Empire State Express for New York. Through sleeper daily for New York. Chair car for smokers, elegantly furnished day coaches, cafe cars and dining cars, everything that is modern in train equipment will be found on this run. Remember to book via C.P.R. and the scenic route.

### Church of Redeemer Servants.

The Right Reverend the Lord Bishop of Ontario will be the special preacher to-morrow at the Church of the Redeemer, concluding a series of services in connection with the 35th anniversary of the opening of the church. The splendid choir of the church, numbering 70 voices, has rendered the musical portion of the services with the greatest taste.

### Mount Clemens.

### STANDARD OIL RAISES WAGES

500 Employees Get Increase of From Five to Ten Per Cent.

Lima, Ohio, Nov. 9.—An advance of from five to ten per cent. in the wages of 500 employees of the refining branch of the Standard Oil Co. was announced here to-day.

No notice of like advance had been received by the pipe line department, but rumor has it that the voluntary advance will extend to every branch of the company.

### What Sulphur Does

For the Human Body in Health and Disease. COSTS NOTHING TO TRY.

The mention of sulphur will recall to many of us the early days when our mothers and grandmothers gave us our daily dose of sulphur and molasses every spring and fall.

It was the universal spring and fall "blood purifier," tonic and cure-all, and, mind you, this old-fashioned remedy was not without merit.

The idea was good, but the remedy was crude and unpalatable, and a large quantity had to be taken to get any effect.

Nowadays we get all the beneficial effects of sulphur in a palatable, concentrated form so that a single grain is far more effective than a tablespoonful of the crude sulphur.

In recent years research and experiment have proven that the best sulphur for medicinal use is that obtained from Calcium (Calcium Sulphide) and sold in drug stores under the name of Stuart's Calcium Waters. They are small chocolate-coated pellets and contain the active medicinal principle of sulphur in a highly concentrated, effective form.

Few people are aware of the value of this form of sulphur in restoring and maintaining bodily vigor and health; sulphur acts directly on the liver and excretory organs, and purifies and enriches the blood by the prompt elimination of waste material.

Our grandmothers knew this when they gave us sulphur and molasses every spring and fall, but the crudity and impurity of ordinary flowers of sulphur were often worse than the disease, and cannot compare with the modern concentrated preparations of sulphur of which Stuart's Calcium Waters is undoubtedly the best and most widely used.

They are the natural antidote for liver and kidney troubles and cure constipation and purify the blood in a way that often surprises patient and physician alike.

Dr. D. M. Wilkins, while experimenting with sulphur remedies, soon found that the sulphur from Calcium was superior to any other form. He says: "For liver, kidney and blood troubles, especially when resulting from constipation or malaria, I have been surprised at the results obtained from Stuart's Calcium Waters. In patients suffering from boils and pimples and even deep-seated carbuncles, I have repeatedly seen them dry up and disappear in four or five days, leaving the skin clear and smooth. Although Stuart's Calcium Waters is a proprietary article and sold by druggists and for that reason tabooed by many physicians, yet I know of nothing so safe and reliable for constipation, liver and kidney troubles and especially in all forms of skin diseases as this remedy."

At any rate people who are tired of pills, cathartics and so-called "blood purifiers" will find in Stuart's Calcium Waters a far safer, more palatable and effective preparation.

### BOY SHOCKED BY WIRE.

Gloster v. Toronto Electric Light Co. Before Supreme Court.

Ottawa, Nov. 9.—The case of Gloster v. Toronto Electric Light Company was taken up this morning before the supreme court.

The case was one of injury to the appellant by contact with electrical wires. The wires were carried across the Rosedale ravine, near the Glenora bridge, built by a private company. The bridge got out of repair, and as the company ceased to be interested in its maintenance, it was not repaired, the municipality disclaiming any obligation to do so.

As it had become important to the public, application was made to the legislature, and an act was passed authorizing repairs by the township in making which the bridge was made wider and brought nearer to the electric wires.

The plaintiff, a lad of eight years of age, being on the bridge, put his arm thru the railings and touched the wires, by which he was badly burned. At the trial the jury found that the Toronto Electric Light Company was guilty of negligence, and a verdict was entered for plaintiff.

The court of appeal set the verdict aside, holding that the jury could not reasonably have found that the wires were a nuisance to those lawfully using the highway, also that the boy was not using ordinary care. The respondents also contended that they had no notice of the altered state of the bridge.

### AND XMAS SO NEAR.

New York, Nov. 9.—Following the recent advance in sterling silver knives, forks and spoons, the manufacturers of plated silverware announced new price lists on these articles yesterday.

The International Silver Co., which comprises several affiliated concerns, put up its prices from 5 to 10 per cent on all plated ware.

Hollow ware which includes pitchers, bowls and vessels of various kinds, remains at the old prices.

**WILLS ALL TO BABY NIECE.**

**And Brother Gets Nothing—Edward McCormick's Heir.**

The day he died Edward McCormick, retired hotelkeeper, pencilled the following will on a sheet of notepaper:

"Toronto, Ontario.

"In case I should die to-night, I will give my money to my little niece, Miss Annie McCormick, and she is not to get the money until she is twenty or twenty-five years of age, and then she is not to have all my possessions, and nobody has got no interest at all and it belongs to her.

"E. J. McCormick.

Witnesses:

"MRS. DAVIS.

"CARI DAVIS.

"P.S.—This cancels all other wills I ever made, and my brother don't get a cent."

The Trusts and Guarantee Co. have filed the will. The estate totals \$150,000, and is all personally. It consists of \$84,760 in cash, \$1500 in book debts, \$768.50 in mortgages, \$6000 in insurance, and \$300 in stocks.

It seems that on the day of his death he went into the house of Mrs. Davis, a next door neighbor of Peter McCormick, brother of the deceased, and asked for a piece of paper. He requested Mrs. Davis's son Carl to write the will. On McCormick's death the will was given by Davis to Peter McCormick, and then turned over to his uncle, Peter Ryan, registrar. Annie McCormick, the heiress, is the four-year-old daughter of Peter McCormick.

The estate of Wm. H. Eakins, 12 Madison-avenue, totals \$105,310.05, including household goods, \$1244; mortgages, \$90,499; stocks, \$6877; cash, \$199.05.

Bequests of \$100 each are made to the Home for Incubables, the Infants' Home and Infirmary, and the Upper Canada Bible Society.

He leaves as his widow, his only son, W. G. Eakins, and legacies are left to two sisters, a brother and a sister-in-law.

The estate of the late George B. Ebert totals \$360,161, and is divided among deceased's three sons and three daughters, all of Toronto.

**SOUTH AFRICAN MEMORIAL.**

**The Heroic Figure of "Canada" Now Completed by Sculptor.**

A meeting of the plans and designs committee for the South African memorial was held at the studio of Walter S. Allward for the purpose of inspecting and approving of the central figure for the memorial. There were present: Sir William Meredith, Gen. W. D. Otter, C.B., A.D.C.; Col. Ryerson, E. E. Walker, D. R. Wilde, Eden Smith and Sydney B. Jones, secretary. The committee were unanimous regarding the excellent modeling of the central figure of Canada. The figure is that of a strong young goddess-matron, who with her right hand quiveringly holds upright the sceptre of her rank, but with her left hand and her eyes, too, and the whole hungry forward tension of her body—years after her manfully departing children. The expression on the face, of the parted lips, and the eyes proud, but unanguished, is especially fine and noble. Mr. Allward has also finished the figure of a one-armed old Grenadier veteran of 1812 for the monument which the Army and Navy Veterans are to place in Portland-square. The old soldier does not stand on guard with chest puffed out and gloowering mouth. Only the upper part of the figure can be seen, as if the old man were half sitting in a pew. Indeed one might think that he is attending to some last even-song. With his shako held tremulously in his gnarled and bony hand, the ancient hero's head leans listeningly forward and upward, toward the roll of the organ and the solemn responses of the ritual he is mutely answering "Amen."

Still awaiting the clay are the two free-flung shewy young plump men who flank the figure of "Canada," and the "Victory" for the apex of the S. A. monument.

**INVITED TO WEST INDIES.**

**Toronto Board of Trade Members Given a Pleasant Prospect.**

The boards of trade of Toronto, Montreal, St. John and Halifax have each been invited to send a representative on a trip to the West Indies on the steamship "Orion" on the new steamship "Orion" as guests of the Pickford & Black Steamship Co. The trip will require twenty-eight days, with stopovers at Bermuda, St. Kitts, Antigua, Dominica, Montserrat, St. Lucia, Barbados and Trinidad.

Secretary Morley is inclined to think that the board will take favorably on the proposition, and agrees with the secretary of the Halifax Board of Trade, who has written him regarding the proposition, that it would be a good advertising opportunity for Canada.

Mr. Morley could not say who would be the likely representative from Toronto, as twenty-eight days in one stretch might be considered too long by the individual members at that season of the year (April to March 25).

The invitation states that all the important places in the West Indies have boards of trade, and that Sir Daniel Morris, who has been elected secretary, stated that these organizations would welcome a visit from the Canadian representatives. Details of the trip were not mentioned, but it is understood that stops of one day, both going and returning, would be made at Bermuda; two stops each way at Barbados and Trinidad; and possibly three days at Demerara, and that the delegates should be competent to discuss trade questions.

The Toronto board will decide at its next meeting whether or not to accept the invitation.

**Poor Shipment of Apples.**

Ottawa, Nov. 9.—Mr. McKinnon, Canadian commercial agent at Bristol, calls attention to the necessity for Canadian shippers taking greater care in the shipping marks of their cheese boxes. Very large shipments of Canadian apples have been arriving at Bristol, and on the whole the quality gives great satisfaction. One consignment, however, attained a most unenviable notoriety with the trade that has given the brand a black eye for the balance of the present season.

**Demand for Wheat Falls Off.**

Montreal, Nov. 9.—The C.P.R. report that while the western wheat crop has been harvested twice as fast as last year the shipments out of Fort William to date have been much smaller than last year. The reason for the big falling off is that the demand for Canadian wheat in the United Kingdom is much smaller than last year, owing to the big supply of wheat from the Argentine.

No Exchange.

Ottawa, Nov. 9.—The minister of militia authorizes the announcement that there is no foundation for the report that there is to be an exchange of British and Canadian regiments.

**FENCE ALWAYS IN THE WAY**

**But Man Who Disturbs It is Hauled Into Police Court.**

Wesley McConnell had Henry Hanesy up in police court yesterday afternoon for damaging 15 feet of barbed wire fence. Defendant said the fence was so close to his back door that he tore his clothes and did himself bodily injury every time he attempted to enter his house and his landlord had authorized him to cut down the fence. Magistrate Kingsford laid the case over a week, when the landlord will be summoned to appear.

Ed Rude pleaded innocence of a charge of attempting to drive his cow wagon over the trailer of a Bathurst-street car. James McCarroll, roadmaster of the Toronto Railway Company, who preferred the charge, swore that he did, at least, run into the back of the trailer. Defendant said he could get witnesses to prove that he never touched the car, and the case was adjourned till Nov. 16.

**REVOLUTIONISTS ROB TRAIN**

**Well Executed Assault With Bombs—Plunderers Get \$650,000.**

Rogov, Russian Poland, Nov. 9.—The Cossacks have thus far been unsuccessful in their pursuit of the revolutionary train robbers, numbering a hundred well armed men, who surrounded this station last night, threw a bomb at the mail car of a train, and secured a large sum of money. Several soldiers of the escort, and fled with a sum of money now said to amount to \$650,000. The robbery occurred at 9 p.m., while the train was changing engines.

When the train stopped men armed with rifles sprang up on all sides. Quickly executing orders conveyed by the bugle, they shot and killed the gendarmes standing in front of the station. Sentinels were placed at all the approaches and the telegraph wires were cut. While some of the robbers overpowered the trainmen others attacked the escorts of the mail car.

Three bombs, not one, it now appears, were thrown. Two of them exploded with terrific force, blowing the cars into two pieces, killing five soldiers and mortally wounding 11 others. The robbers then ransacked the mail cars, transferred the bank notes, gold and silver to their own bags, and, unfolding the red flag, formed up in military order, marched out of the station, entered wagons, which were waiting in the forest, and drove off.

**PROGRAM IS SUGGESTED FOR IMPROVING DAIRIES**

**Important Meeting to Re-Arrange Work of Instruction and Sanitary Inspection.**

The director of dairy instruction this week called a meeting of the chief instructors, sanitary inspectors, and representatives of the two dairy associations to meet in Toronto. Those present were Chief Instructors G. H. Barr and G. G. Fublow, Sanitary Inspectors T. Dillon and J. H. Echlin, representatives of Eastern Dairyman's Association, R. G. Murphy, J. R. Dargavel, M.P., and J. H. Singleton, Western Association, Thomas Ballantyne, John MacLennan and J. N. East.

The dairy instruction of the past few years has resulted in a marked improvement in the general equipment and sanitary conditions of factories. Many proprietors and makers have, however, stated to the instructors and members of the Dairyman's Associations that they were somewhat discouraged after going to the expense and trouble which were found necessary to make the improvements considered essential by the dairy inspectors.

"We have gone to considerable expense in order that the quality of cheese may be of a higher standard, but our neighbor factories have gone on in the same old way manufacturing along cheap lines, and they, for the most part, secure as high a price for their cheese as we better equipped factories. In many cases the poorer run factories manufacture for a lower rate than a well equipped and improved factory and this makes the burden still greater for those who are anxious to do what is essential if the industry is to be placed on a sure and permanent basis."

**Inspectors Busy.**

The sanitary inspectors for the past year, J. H. Echlin and T. Dillon, have effected a marked improvement in the sanitary conditions of the factories. They went out from the department, clothed with authority to insist upon improvements which were necessary, and which had, in many cases, been recommended by the inspectors, but which had not been made. Many expressions of appreciation of the work accomplished by these inspectors have been received from all sections and the better class of dairymen throughout the province are strongly in favor of the work of this nature should be followed still more closely during the coming season.

The representatives of the Dairy Associations and the chief instructors as well as the regular staff of inspectors are of one opinion as to the advisability of clothing the instructors with the power of sanitary inspectors and so arranging the districts that every factory and creamery will be subject to regular and systematic sanitary inspection, and may have the benefit of instruction as well.

In order that the said opinions might be put into tangible form to the satisfaction of the dairy industry, the culture the meeting was called. After discussing the subjects before them at great length they unanimously decided upon the following system:

**Dividing the Province.**

1. That the whole province be divided into such sub-divisions as would give each inspector from 25 to 35 factories or creameries. This would require a staff of 38 inspector-instructors, and it is considered by those who have had the work in charge that the number appointed to the work would be able to render more effective service than in past years. Many of the better factories are really not in need of regular instruction, and in the majority of cases a call of an hour or two from the instructor will be just as effective as to spend a whole day making a factory visit. It is considered that the instructor-instructors should be permitted to visit many of the farms and to advise with the producers as to the best method of producing the desired quality of milk. In the opinion of the chief instructor the chief essential in producing a first-class article is that the cheese and butter industry of the province be placed under the supervision of the producer and milk hauler. Five hundred feet from the Hayes-Monnette Lease, with a monthly output of \$2,000,000. Two hundred feet from the Red Top, with \$3,000,000 in sight.

A glance at the map of the Goldfield Mining District will show few mining promotions of recent years that have embodied such unlimited possibilities as the Mohawk Jumbo Leasing Syndicate Stock. The properties of this Syndicate comprise two leases known as the Jumbo Extension Lease and the Mohawk Extension Lease. The Jumbo Extension lies between the Velvet and Jumbo and is surrounded or adjoins the following bonanza leases with outputs as follows:

DRISCOLL	\$ 500 A DAY
GARDNER ERICKSON	1,000 A DAY
KANSAS CITY	2,000 A DAY
VELVET	4,000 A DAY
KALFUS PENNINGTON	10,000 A DAY
STIVES	10,000 A DAY
HIGGINSON	15,000 A DAY

and is about three hundred feet from the Bowes Kernick Lease with a production to date of \$1,800,000. The Mohawk Extension lies between the Silver Pick and Red Top and is an extension of the Mohawk, the latter now generally conceded to be the greatest gold mine in the world. The Mohawk Extension Lease is about four hundred feet from the following leases with a production as follows:

MACKENZIE	\$ 1,000 A DAY
KALFUS	5,000 A DAY
BRADBURY CURTIS	7,000 A DAY
SHEETS ISH	10,000 A DAY
FRANCES-MOHAWK	50,000 A DAY

and about five hundred feet from the world famous Hayes-Monnette with a monthly output of \$2,000,000. It will thus be seen that the Mohawk Jumbo Leasing Syndicate properties are surrounded by Bonanza mines and a comparison of prices will show that this is really one of the most extraordinary investment opportunities of recent years. What the possibilities are can best be shown by giving the results of surrounding properties. The Great Mohawk, the adjoining property, which is quoted at fifteen dollars a share, sold at eleven cents a share in January last. Red Top, two hundred feet to the north, sold at \$4.25 a share this week, while a year ago it was twenty cents. Silver Pick, adjoining to the west, sold at \$1.60 this week, while six months ago it was begging at eight cents.

**THERE IS NOT A PROPERTY IN THIS ENTIRE DISTRICT THAT DOES NOT SHOW A HANDSOME ADVANCE OVER QUOTATIONS OF SIX MONTHS AGO, AND A PURCHASE OF THIS, THE FIRST OFFERING OF TREASURY STOCK OF THE MOHAWK JUMBO LEASING SYNDICATE, PRESENTS POSSIBILITIES OF PROFIT EQUAL TO ANYTHING IN THE DISTRICT.**

The syndicate is officered by men who have achieved marked success here on the ground, the board of directors being composed of such men as J. R. DAVIS, of Loftus & Davis, who opened and developed the GREAT SANDSTORM mine. Mr. Davis is the principal owner and vice-president of the GOLD BAR, the famous mine of the Bullfrog district, as well as being vice-president and principal owner of the NEVADA HILLS, the principal mine at Fairview. H. T. BRAGDON, vice-president, is also president of the GOLDFIELD MINING COMPANY and president of the GOLDFIELD STOCK EXCHANGE. Mr. Bragdon is prominently identified with many of the most successful enterprises of Goldfield, and is also president of the MOHAWK JUMBO LEASING COMPANY operating the Truitt Lease, which returned to its shareholders, on its first dividend, the amount of their investment of twenty-five cents per share. SAMUEL R. MASON, JR., president of the CALIFORNIA BORAX COMPANY; AUGUSTUS TILDEN and E. H. LATIMER complete the board. MAJOR W. A. STANTON, manager and consulting engineer, is one of the most favorably known engineers in Goldfield and has no superior in his knowledge of the district. Under his direction the work is proceeding at a rapid rate with double shifts of men at work on each property. The shaft on the Jumbo is down sixty-four feet, while on the Mohawk it is down one hundred feet and has already cut a stringer of ore running one thousand dollars to the ton, showing close proximity to big ore body, which is likely to come in with any shot. Two twenty horsepower gasoline hoists have been ordered and will be on the ground within fifteen days. There is no reason why the syndicate should not be shipping within thirty days; dividends should quickly follow, and in all probability the first one will equal the price of the treasury shares as was done on the Truitt Lease and scores of others. This will be the first, last and only offering of treasury stock at twenty-five cents per share, so **ACT QUICKLY IF AT ALL.**

Reservations should be made by telegraph to insure consideration and remittance by bank draft or certified cheque must be forwarded immediately after allotment is made, otherwise allotment will be void.

# COBALT --- Setback in Nipissing Brings Other Stocks With It --- COBALT

## NEW VEIN ON GILPIN COBALT CREATES SURPRISE IN CAMP

### McMahan-Green Proves Better Than Expected and Stock in North Largely Oversubscribed.

Cobalt, Nov. 9.—(Special).—The Gilpin Cobalt has created a surprise here. To-day word has come in that the foreman has found a new vein four inches wide in shaft number two. This vein is calcite with silver, and makes the thirteenth vein. A depth of only 12 feet has been attained in this shaft. The McMahan-Green has proved a greater vein than even the Foster. Clement Foster has been handling the stock in this and which has been largely oversubscribed. Superintendent O'Connell is carrying around large nuggets of solid silver and the five-foot vein is a mass of this kind of ore. The stock went on at a dollar and is now freely changing hands at \$1.70. The Gilpin, McMahan and Green and Red Rock are all in Bucke, the much-despised township of a few months ago. The World last spring drew attention to the possibilities of this part of the camp.

Asks Congress and Brown of New York came in to-day from New York in connection with the recent sale of the S. forty acres of the Gordon. This part of the Gordon is known now as the southern belt. The stock of the new company is being largely subscribed in New York, where 18,000 shares were sold yesterday. There is also great Gordon activity here. The Silver Lion is another successful New York flotation. This was known as "Lucky" Gordon. The stock went so fast in New York that only a limited slice will be offered Canadian investors.

To Facilitate Transactions. H. G. Davidson, broker, Coborne street, received a wire last night from a very prominent member of the New York Consolidated Stock Exchange that he would be in Toronto on Saturday to arrange for a direct wire connection between New York and Toronto to facilitate the increasing dealings in Cobalt stocks between the two cities.

Gordon Active. Cobalt, Nov. 9.—The market for Gordon shares was very active here to-day, over 24,000 shares changing hands.

Standard and Ross. Standard Stock Exchange Exchange building, report an exceedingly busy week in mining stocks, with substantial advances along the line. Heavy trading has taken place in Foster, Silver Queen, Silver Leaf and Trethewey. Silver Leaf was one of the special favorites of this week, scoring an advance on Thursday of 12 points from 21c to 23c per share. Foster made a gain over last week of about 100 points, and Silver Queen also likewise. The proceedings instituted by W. C. Fox or the above-mentioned firm against Mr. Trethewey for specific performance of agreement to sell control of the Trethewey Company stock has been amicably settled, and the control of this company has changed hands. When this fact became known purchasers of the stock were numerous, the result being an advance in price from about \$7.50 to \$10.00 per share, with good prospect for higher values in the near future. Among the British Columbia issues, White Bear still remains the prime favorite. With all the rush and demand for Cobalt shares, White Bear still has a grip on the confidence of the public.

It is understood that the Temiskaming Mining Company at Cobalt has changed hands. It is better known in connection with the name of Burr E. Castwright of Buffalo. A syndicate composed of Buffalo, Toronto, Pittsburg, Detroit and Boston interests have secured control of the mine, the property lying in Bucke, Coleman, McCool and Lorrain and Gilles' Depot. All the claims have good showings and some development work has been done. A carload of ore being ready for shipment from the claim where most of the development has taken place. Four of the claims have had the rush and demand done upon them. The company will be reorganized and stock offered to the public, perhaps within the next ten days.

MINERS GET ADVANCE. Bisbee, Arizona, Nov. 9.—All miners employed by mining companies at Bisbee and Tombstone have received notice of an advance of 25 cents a day in wages, to date from Nov. 1.

Mr. Beth Imports Horses. Bowmanville, Nov. 9.—(Special).—Robert Beth, ex-M.P., and Thomas Baker, one of Durham County's leading stockmen, returned from a two months' visit to England and Scotland on today. Mr. Beth brings to the stock his stable of 25 horses, unquestionably the best and largest importation of hackneys made to Canada this year. Of the shipment four are Clydesdale fillies—two 2-year-olds and two 3-year-olds and one cob. Mr. Baker brought two superior Clyde fillies and two pretentious Welsh ponies. His purchase of Shropshire sheep are to come with a later consignment. They came on the Donaldson line steamer Cassandra and had an unusually stormy and rough passage, sometimes the waves dashed over the decks in such volumes as to cause fear lest the stock would ever be landed alive.

Boy Accidentally Shot. Belleville, Nov. 9.—A boy, 14 years of age, son of John Smith and Mary Murray, yesterday afternoon met with an accident that may cause death. The boy was handling a gun, which was loaded, when it exploded and he received the full force of the charge in his breast, which was literally torn away. At a late hour last night the boy was still alive, but the chances for his recovery are rather slim.

Belleville Man Killed. Belleville, Nov. 9.—News has been received in this city of the death of William Mackay, formerly of Belleville, but for some time a journalist in New York. He was killed in an accident, the particulars of which have not yet been received. Deceased was a son of Mrs. C. Mackay of this city and a nephew of Mr. and Mrs. H. Corby of Belleville.

## DENTIST DISCOVERS SECRET FOR REFINING COBALT ORES

### Dr. Island's Experiments Result in Finding Formula That's Made New Jersey Famous.

Dr. J. S. Island, dentist, at the corner of Gerrard and Parliament streets, has discovered a perfect process for the separation of all minerals contained in Cobalt ore. Dr. Island, who is a young man, has been studying metallurgy for the past ten years, and has one of the best libraries on this science that can be purchased. A short time ago, at the request of the Ontario government, who supplied him with Cobalt and Soudbury ores, he started work on experiments of various nature to discover the process used to separate copper from nickel. He has been successful, and last night showed a specimen of Cobalt ore in matte form, and also the chemically pure silver that he has withdrawn from it. This matte was 67 per cent. pure silver.

Asked concerning the process, Dr. Island would not discuss the subject at all. He prefers to keep it to himself, at least for the present. He stated, however, that heretofore it had been necessary to send all Cobalt ore to New Jersey to separate the various minerals contained in them. He is sure he has discovered the only process known for doing this sort of work, being confident that it is the same formula used by the New Jersey people, which they kept a dead secret. He intends keeping his secret to himself, and hopes to soon have the capital to embark on a large Canadian plant. Out of a piece of ore found on the Gilles Limit, Dr. Island has succeeded in extracting gold, silver, platinum, nickel, bismuth and arsenic.

## 36 YEARS A LODGE MEMBER NEVER MISSED A MEETING

At the regular meeting of King Solomon's Lodge, A. F. & A. M., held on Thursday evening, W. W. Bro. Daniel McDonald was presented with grand lodge regalia on being appointed grand steward of the grand lodge. The presentation was made by R. W. Bro. E. M. Carlton, D. L. G. M., who spoke of his long connection with the lodge—over 36 years, and never missing a meeting in all that time. After the presentation the brethren retired to the banquet hall, where a most enjoyable time was spent.

Galt's Semi-Centennial. Galt, Nov. 9.—(Special).—Mayor Thompson to-day called a public meeting to consider the celebration of the fiftieth anniversary of Galt's incorporation as a town, which takes place next July. The Horse Show Association has been asked to join.

## ARCHITECT SHOULD PAY FOR HIS CONSULTATION

### Public Library Board Refuse to Settle the Bill for Extra Service.

The public library board believes that when an architect takes over the contract for the erection of a building, he should know what he is about, and if he later finds it necessary to seek advice of a consulting engineer, it is his own lookout; therefore in looking over the accounts yesterday, a bill for architect's fees of \$5000 was ordered paid, while an additional bill presented by the architect of \$407 for consulting engineer's charges was rejected—or rather, referred to the building committee. The corner stone of the new Carnegie library on College-street will be laid Nov. 27 by Chief Justice Falconbridge, chairman of the board. Dr. Bain was instructed to proceed with the ceremonial arrangements.

Some discussion ensued regarding the appointment of a clerk of the works. The architect had recommended Jas. Ingham to superintend the building operations. Mayor Coatsworth objected to this appointment because "his observations" in the past two years had convinced him that it was better to appoint men to such office independent of the architect's recommendation. The mayor's argument prevailed, and Wm. Simpson, builder, received the appointment. In discussing the acceptance of bonds furnished by the contractors on the various classes of work on the new library, it was noted that A. B. Ormsby & Co.'s tender on roofing and sheet metal work had been accepted. In this connection Mayor Coatsworth advised that the board bear in mind that this firm had been recently committed to trial by Judge Winchester, in reference to a contract on the St. Lawrence Market roof. It was thought, however, that the board would have difficulty in withdrawing the contract, and the bonds were accepted. The contracts for the new reference library have all been executed, except the carpenters and joiners work, stack work and terra cotta. On recommendation of the building committee the contract of Chas. Rogers & Sons, Limited, for carpenters and joiners' work on the new building was increased by \$2000, that firm having satisfied them of an error in addition of that amount. This work will now cost \$14,230. Two hundred and ninety-four new volumes will be added to the book list at a cost of \$400. Contracts for newspapers and periodicals were accepted as follows: English magazines, Toronto News Co. at \$164.8; American

## PAY TRIBUTE TO McINNES.

### His Yukon Administration Satisfactory to All Parties.

Dawson, Y. T., Nov. 9.—(Special).—William Wallace Burns McInnes, Governor of the Yukon, left yesterday for Ottawa. He was tendered a mammoth banquet in the Arctic Brotherhood Hall. The members of all political parties gathered and paid an harmonious tribute to the splendid administration of Mr. McInnes of Yukon affairs during the last two years. Justice MacLusky presided. Representatives of the commercial, mining, press and other interests all contributed complimentary addresses on the actions of Mr. McInnes, and painted a glowing picture of the future of the Yukon. Many predict it will become one of the most populous districts of Canada, when the mineral resources, which the outside world is seizing, become fully exploited. There has been a new era in the prosperity of the Yukon since McInnes came here two years ago. The banquet was the biggest in the history of the Yukon.

## OPPOSED TO SECESSION.

Deputation Sees Premier in Reference to Glenagarry Agitation. There has been an agitation for the separation of Glenagarry County from the United Counties of Stormont, Dundas and Glenagarry. R. A. Pringle, M. P., Col. Rory McLennan and W. Macpherson constituted a deputation which waited on Premier Whitney yesterday and expressed the view of those who are opposed to the project. Under the Act of 1906, a junior county can withdraw if half its municipal council favor the step, and the voters on the next New Year's Day approve by a majority. The government was asked to appoint a returning officer for this purpose.

## GALT BOARD OF TRADE.

Galt, Nov. 9.—(Special).—Officers of the Galt Board of Trade elected to-night are: President, J. H. Fryer; vice-president, F. S. Jarvis; secretary, F. E. Brown; treasurer, James E. Warnock; assistant treasurer, F. S. Scott; council, Hugh Cant, F. H. Hayhurst, Joseph Stauffer, R. O. McCulloch, Duncan Murray, J. H. Hancock, John Sloan, Dr. Wardlaw, W. W. Wilkinson. Farewell Party. The members of the Black Dike Band were present in force last night at Al Ward's residence, and with right good-will enjoyed themselves. Mr. and Mrs. Ward have many very pressing invitations to visit the old land, with promises of a very hearty welcome to Queensborough, Yorkshire.

**GILPIN COBALT MINING STOCK**

**THE NIPISSING BUCKE**

**A Shipper in the Near Future**

**OWN 120 ACRES**

Development work being rushed forward and will continue all winter. Seventeen high grade veins from 3 to 18 inches discovered on the property so far. This Company is capitalized at \$4200 per acre. Here are some comparisons:—

GILPIN.....	PER ACRE \$ 4,200
\$1300 per acre of this still in treasury for future requirements.	
NIPISSING MINES.....	7,000
HURONIAN COBALT.....	12,500
\$5000 per acre still in treasury for future needs.	
FOSTER.....	25,000
UNIVERSITY.....	25,000
SILVER QUEEN.....	26,000
McKINLEY-DARRAGH.....	31,000
SILVER LEAF.....	125,000

Acres are good in this wonderland silver camp. The Gilpin has the silver in quantities as good.

Our Mr. Harry Dreany has been in the camp for two seasons and knows all the good property so far opened up. He is a mine expert, well known. He is known as a conservative man, and his reports have sold some of the biggest mines which are large shippers to-day. He pins his faith on the Gilpin as one of the best and richest in the camp.

Stock will be sold on curb, New York, etc., on the close of subscription list. We allot stock to the first comers in full. First come, first served. We are offering \$100,000 at par of \$1 per share, which is already largely taken up. A rapid rise is expected owing to the demand. You might as well get in on the ground floor instead of later at \$4 or \$5 per share and reap the benefit if you care to sell instead of taking your profits otherwise.

**BUY AND SELL ALL COBALT MINING STOCKS**

On his first visit to Cobalt, in August, 1905, our S. R. Clarke secured an interest in the well known Lawson mine. Since then he has made monthly visits to the camp and examined the producing and non-producing mines in all stages of development.

The matured result of all these investigations, aided by many years' patient study of ore deposits, is being embodied in a circular which will be forwarded to investors on request.

We have for sale a prospect in the typical Cobalt agglomerate with a good surface show.

We are charging \$25 for special opinions on any particular issue.

**Cheese Markets.**  
Naples, Nov. 9.—Thirteen hundred  
white and 714 colored cheese were boarded  
Friday. Three hundred and seventy-five  
sold at 12c.

Ottawa, Nov. 9.—The final meeting of  
the Ottawa Cheese Board for the year was  
held to-day. There were 1200 boxes board-  
ed, 515 white, 685 colored. There was a  
long discussion, but the least buyers would  
do was 12 1/8c and that the sellers abso-  
lutely refused. This made the ninth  
meeting this season at which no sales were  
made.

**THE CROW'S NEST COAL COMPANY**  
A Second Crow's Nest.

The Crow's Nest Pass Coal Company  
was organized in British Columbia in  
the year 1896, ten years ago. It is  
the only coal stock that had ever been  
offered to the public at large in the Do-  
minion of Canada up to that time. The  
stock was put on the market in the  
spring of 1898 and offered to the people  
at ten cents a share. The first allotment  
was sold to school teachers, clerks, mer-  
chants, doctors, servant girls, carpenters  
and men and women in all walks of life.

This brought about the most cheering  
and gratifying results any poor man  
awoke to find himself independently  
rich from a small investment. For \$100  
one thousand shares were secured, and  
to-day this amount of stock has a cash  
valuation of \$285,000, and last year  
dividends brought a dividend of \$100,000  
(\$100 per share). Coal experts and en-  
gineers who have owned properties and  
those of the Crow's Nest are fully aware  
that ours are as good, if not better, for  
\$100 than any other coal in miles nearer  
the coast. The Crow's Nest is a  
tidewater Pacific Coast, and is  
superior for steam, domestic and  
smelting purposes and fully equal for  
country and smelters' coal.

Our Company  
controls 17,000 acres of coal land,  
estimated to contain 200 million tons of  
coal. The master of this destiny carries  
such a vast quantity that the supply would  
last 400 years at an output of 10,000 tons a  
day. One engineer has estimated that  
our land on Goldwater River has a net  
valuation of one billion five hundred mil-  
lion dollars, with the coal in the ground  
as a basis of calculation. Our shares will  
be increasing in value from year to year,  
the same as has been the case with the  
Crow's Nest Pass Coal Company's stock.  
In the year of 1905 those shares were worth  
\$30 from the dividend it then paid. In 1903  
it had reached the \$100 mark, and in the  
fall of the same year it sold for \$125, and  
to-day its market price is \$235.

**OPPORTUNITY.**  
To see it and grasp it in time, makes  
a man the master of his destiny. DO  
YOU WANT TO MAKE MONEY HON-  
ESTLY, AND GET THE BEST OF IT?  
like to become interested in a coal pro-  
perty in British Columbia, and make  
money out of it? We offer you an  
investment of \$250.00. We offer  
you the opportunity to do this.  
You may have \$250.00, \$500.00, or \$1,000.00,  
whatever the case may be, in bank,  
drawing three per cent. interest yearly.  
Does this satisfy you when you can't  
make more?

**TWO RAILROADS**  
are now building into the Nicola Valley,  
the Canadian Pacific and the V. and  
E. (Great Northern), and the C. P. R. has  
already constructed and completed a line  
from Spencer's Bridge on Thompson River  
to Nicola Valley, B. C. and has built up  
a market for its product, and can produce  
coal and coke on a large scale, which  
may require six to seven years to  
complete (taking the Crow's Nest Coal  
Company as an example). This stock  
should then be worth its own cost,  
from the dividend it then will pay,  
\$100.00.

Fathers, mothers and guardians, who  
have the welfare of your children at  
heart, and who are interested in their  
future needs, write us for information  
and investigate our proposition carefully. You  
will find us in the advertisement  
ask or write for printed prospectus and  
reports, etc. We will show you samples  
of the coal and of the State team for  
says of the coal from government officials  
and other authorities.

**PROTECTION TO SMALL SHAREHOLDERS IS**  
Secured by the Laws of British  
Columbia.

Under British Columbia laws, every  
Coal Company mining for coal and oil in  
that country must file with the Minister  
of Finance a certified copy of their articles  
of incorporation, if a foreign com-  
pany, and also of the by-laws; in other  
words the company has to register under  
the laws of British Columbia before  
they can transact business within the  
borders of the province and produce coal,  
and their books are subject to inspection  
every three months by the government  
agent, to whom a sworn statement must  
be made, and a tax of five cents per ton  
paid to the government for every ton of  
coal mined.

This protects the small  
stockholder as every one interested, when  
there he may be the owner of 10,000 shares or  
only 100 shares, has the right to know  
at all times just what the company is  
doing, and there is no possibility of the  
company adopting, with any success,  
a "freeze-out" game. The government  
being an interested party, much greater  
protection is afforded the small investor  
than in any other country.

We cordially invite you to call at our  
office, No. 61-62 Confederation Life  
Building, Toronto. If you cannot call,  
please write us, and we will mail you  
prospectus, reports, maps, etc., that will  
give you all the information you may de-  
sire. Remember, the price advances to 50c  
per share on November 15th.

**BETTER THAN LIFE INSURANCE**  
A source of income that will last as  
long as you live. An asset that you can  
leave behind you for your friends and  
relatives. Have you ever considered what  
child, a sister, brother, or friend, whom  
you care for, has a cash valuation on the  
market from the dividends it then will pay  
of at least \$100.00 a share. This calcula-  
tion is based on sound and conservative  
business judgment, and on well-tried  
laws of natural growth. It is quite dif-  
ficult to see that the Amalgamated Coal  
Company shall have fully equipped its  
four properties on Goldwater River, in  
Nicola Valley, B. C. and has built up  
a market for its product, and can produce  
coal and coke on a large scale, which  
may require six to seven years to  
complete (taking the Crow's Nest Coal  
Company as an example). This stock  
should then be worth its own cost,  
from the dividend it then will pay,  
\$100.00.

**TWO YEARS FROM NOW**  
the stock should begin to pay handsome  
dividends, and in another year or two  
may have a cash valuation on the mar-  
ket from the dividends it then will pay  
of at least \$100.00 a share. This calcula-  
tion is based on sound and conservative  
business judgment, and on well-tried  
laws of natural growth. It is quite dif-

**NOVEMBER 15TH TO 50 CENTS**  
per share.

This Amalgamated Coal Company con-  
trols 17,000 ACRES OF COAL LAND in  
Nicola Valley, B. C. and, according to  
coal experts' reports, this great area is  
underlaid with inexhaustible quantities  
of high-class bituminous coal, the best  
for steam, blacksmithing and coking pur-  
poses, estimated to contain approximately  
1,400,000 TONS OF COAL.

**PER SHARE.**  
The par value of this stock is one dol-  
lar, and is fully paid and non-assessable,  
and shareholders are exempt from per-  
sonal liability. Once paid and secured it  
is settled for ever, buy now. This stock  
advances.

YORK COUNTY AND SUBURBS STREETSVILLE AND VELLORE PLOWING MATCHES RESULTS

Both Events Brought Out Many Contestants—A Revolver Case at the Junction.

Toronto Junction, Nov. 9.—W. J. Tinney appeared in the police court this morning, charged with pointing a revolver at Harry Millgate on Nov. 2. Tinney was working in the Heintzman Piano Company at the time, and Millgate is one of the strikers. After the reading of the charge, Tinney turned to the crowd and said: "The gun would not hurt a cat; it was only done to scare you."

East Toronto. East Toronto, Nov. 9.—Court York No. 13, I.O.F., will give a concert in the Y.M.C.A. Hall on Monday evening. The Brotherhood of Railway Trainmen will hold their annual concert on Wednesday evening, Nov. 14.

Beaches Lodge, A. F. & A. M., are to hold their last lodge meeting in the old room to-night, the splendid new Masonic hall now under construction on Balmston-avenue being so far advanced as to be ready for opening early in December.

Riverdale. Anniversary services will be held in First-avenue Baptist Church to-morrow morning at 11 a.m. to-morrow, Rev. Prof. Kierstead of McMaster University will speak, and in the afternoon, Rev. J. A. Lebeau of Quebec, Ont., will deliver the annual address.

North Toronto. The monthly meeting of the Agricultural Branch of the W.C.T.U. will be held on Tuesday, Nov. 13, at 2:30 o'clock sharp, at the home of Mrs. T. Weir, Brown's Corners. The Markham branch is expected to be present and take part in the meeting.

Toronto Township Plowing Match. Toronto Township Southboard Association plowing match was held at Streetsville on the farm of D. McCaughey. There was not a large attendance, and the plowing was good. The wet condition of the land kept a good many plowers at home. The results were: First class, in sod—W. Hostrower, Woodhill, 1; George McCaughey, Streetsville, 2; R. Boyes, Woodhill, 3; S. McClure, Edgley, 4. Best crown—W. Hostrower. Second class, in sod—J. Thompson, Stewarton, 1; Ed Smith, Stanley Mills, 2. Best crown—J. Thompson. Third class, in sod—Frank Baggs, Grahamsville, 1. Best crown—Frank Baggs. Fourth class, in sod—D. McCaughey, Streetsville, Best crown—D. McCaughey. Stubble—A. Pethick, Elmbank, Best crown—A. Pethick. Boys under 17 years—Robert Thomson, Elmbank, won the R. Blain, M.P., Brampton, silver cup; Wilbert Nix, Grahamsville, 2; best crown, Wilbert Nix; best finish, Edgar Thomson. The judges were: W. W. King, King, and Jas. Eastwood, New Toronto. M. S. officers of the association are: President, Ed Walker; first vice-president, T. Osborne; second vice-president, J. Spars; secretary-treasurer, N. E. McBride; honorary president, J. Thomson and Jas. Shair; directors, W. Harris, A. Macdougall, Geo. McCaughey, Herb Matthews, W. Clark, George Mitchell, M. Soper, R. Boyes, Frank Baggs, W. Royce, J. A. McBride, R. Gardhouse and W. Russell.

WEATHER BUY A BARGAIN SUIT SATURDAY

It is only once in a while that Fair-weather's lay the knife to their prices—Good values at regular prices—so good no apology is necessary—make a price reduction here doubly a bargain.

We will offer for sale Saturday thirty-two suits, single and double-breasted; all wool, imported tweeds. A few youths' sizes in the lot—going to be cleared out at the low price of \$10.50 and \$14.50.

Fairweather's Men's Clothiers and Furriers, 84-86 YONGE STREET

Thursday. The day was an ideal one. Twenty-nine plowmen competed. The winners were: First class—Wm. Hous-trouser, Woodhill; R. H. Boyes, Woodhill; Jas. Cameron, Vaughan; Thos. McClean, Toronto; Geo. McLaughlin, Grahamsville; J. W. Reyley, Churchville; S. McClure, Vaughan; R. Pardee, Pickering. Second class—Fred Garbutt, Carleton Place; Wm. Baker, Vaughan; James Butler, Scarborough. Third class—Ed Smith, Stanley Mills; Wm. Carson, Vaughan. Fourth class—B. Kennedy, Agincourt; Frank Baggs, Vaughan.

Markham. The Markham branch of the E.Y.W. Institute will give a concert in the home of Mrs. Webber on Wednesday afternoon at 2:30 o'clock. The proposal to erect a new steel bridge across the River Rouge at the south end of the town and which the York County Council were asked to bill to develop into a curious tangle. The contract for the ironwork has been let and is now being executed, but so far no steps have been taken on the part of the town to secure the building of the piers, nor has any grading been done. While the council have never voted any specific sum for the building of the bridge, the total cost is estimated will not fall far short of \$14,000, of which the county will contribute \$6000, the balance to be borne by the town. The members of the Markham Town Council are hopeful that the farmers of the surrounding district will contribute considerable help in grading. Markham Township Council are said to be averse to granting any financial assistance.

Holland Landing. Nov. 9.—James Art, farmer, a mile west of here, has his house and contents totally destroyed by fire this morning. The fire originated, supposedly, from the chimney. His loss will be \$700.

Agincourt. The monthly meeting of the Agricultural Branch of the W.C.T.U. will be held on Tuesday, Nov. 13, at 2:30 o'clock sharp, at the home of Mrs. T. Weir, Brown's Corners. The Markham branch is expected to be present and take part in the meeting.

Wychwood. Pursuant to hand bills distributed, a public meeting was held last night at Hillside schoolhouse for the reorganization of the Ratepayers' Association. A committee was appointed, consisting of Messrs. Dinwoody, Hamilton, Ross, Peterman and Curry, to draft bylaws. Mr. Dinwoody criticized the township council and claimed that Wychwood did not receive an adequate share of expenditure on public works. Councillor Henry stated that Wychwood received \$1000 more last year than the assessment called for, and that the law Mr. Ross asked: "Mr. Henry, if you are elected reeve and you have a sufficient number of ratepayers, will you reorganize the township council?"

Cook's Cotton Root Compound. The great Uterine Tonic, and only safe effective Monthly Regulator on which women can rely. Sold in 17 year—Bottle of strength—No. 1, \$1; No. 2, 10 degrees stronger. No. 3, 20 degrees stronger. No. 4, 30 degrees stronger. No. 5, 40 degrees stronger. No. 6, 50 degrees stronger. No. 7, 60 degrees stronger. No. 8, 70 degrees stronger. No. 9, 80 degrees stronger.
